INDEPENDENT AUDITOR'S REPORT

Eastgate Regional Council of Governments
Mahoning County
City Center One Building
100 East Federal Street, Suite 1000
Youngstown, Ohio 44503

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Eastgate Regional Council of Governments, Mahoning County, Ohio (the Council), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Council's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Council's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Eastgate Regional Council of Governments, Mahoning County, Ohio, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended June 30, 2015, the Council adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Council's basic financial statements taken as a whole.

The Schedules of Fringe Benefits and Computation of Fringe Benefits Rates, Indirect Costs and Computation of Indirect Cost Rates, and Revenues and Expenditures for ODOT, U.S. Department of Commerce, EPA and Appalachian Regional Development present additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards also presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

Other Matters – (Continued)

The schedules are management's responsibility, and derives from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2016, on our consideration of the Council's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Council's internal control over financial reporting and compliance.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS

Mahoning County, Ohio

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
(Unaudited)*

The discussion and analysis of Eastgate Regional Council of Governments (EASTGATE) financial performance provides an overall review of EASTGATE's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at EASTGATE's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements, themselves to enhance their understanding of EASTGATE's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

Overall:

- For business-type activities, net position increased \$77,158 to \$(43,455) from fiscal year 2014.
- EASTGATE had \$1,570,738 in expenses related to business-type activities and \$300,902 of these expenses were offset by operating revenues and \$1,346,994 by non-operating revenues.
- The business-type activities revenue decreased \$60,551 or 4% to \$1,647,896.

Using this financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Eastgate Regional Council of Governments as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* presents information on all Eastgate's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of EASTGATE's financial position.

The *Statement of Revenues, Expenses, and Changes in Fund Net Position* presents information showing how EASTGATE's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future periods.

(Unaudited)*

Reporting EASTGATE as a Whole

Statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position

While this document contains the fund used by EASTGATE to provide its programs, the view of EASTGATE as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position answers this question. These statements include *all assets and liabilities* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into accounts all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report EASTGATE's *net position* and changes in that position. This change in net position is important because it tells the reader that, for EASTGATE as a whole, the *financial position* of EASTGATE has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the continued availability of grants, at the federal, state and local levels.

In the statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net position, EASTGATE is presented as one activity, business-type.

- Business-type activities – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided.

Reporting EASTGATE's Fund

Fund Financial Statements

EASTGATE has only one fund; therefore, additional fund level statements are not presented.

EASTGATE as a Whole

Net Investment in Capital Assets	\$ 25,947	\$ 25,012
Unrestricted Net Position	(69,402)	(145,625)
Total Net Position	\$ (43,455)	\$ (120,613)

Total assets increased 6% in fiscal year 2015. This increase occurred mainly in accounts receivable.

What are EASTGATE's Revenue Sources? EASTGATE receives much of its revenue from operating grants. Sources of these grants are federal, state and local. EASTGATE has multiple functions, with the major being transportation planning, all revenue is used to support its mission.

Mahoning County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
(Unaudited)

Table 2 shows the change in net position for fiscal years 2015 and 2014 for comparison purposes.

Table 2
Business-Type Activities

	2015	2014
OPERATING REVENUE		
Membership Dues	\$ 192,720	\$ 187,645
Charges for Services	108,182	99,906
Total Assets	300,902	287,551
OPERATING EXPENSES		
Salaries & Benefits	1,080,987	1,167,710
Other Expenses	245,096	244,275
General Administrative & Fiscal Costs	119,328	114,023
Occupancy	114,857	116,267
Depreciation	10,470	5,450
Total Operating Expenses	1,570,738	1,647,725
Operating Income (Loss)	(1,269,836)	(1,360,174)
NON-OPERATING REVENUE		
Intergovernmental	1,346,847	1,420,771
Interest Income	147	125
Total Non-Operating Revenue	1,346,994	1,420,896
Changes in Net Position	77,158	60,722
Net Position Beginning of Year - Restated	(120,613)	(181,335)
Net Position End of Year	\$ (43,455)	\$ (120,613)

In fiscal year 2015, revenues decreased due to decreases in federal, state and local grant revenues and decreased for charges for services. Expenditures decreased from fiscal year 2014, due mostly to salary and benefits decreases.

Enterprise Fund Budgeting Highlights

EASTGATE is not required to establish a budget per Ohio Revised Code.

Capital Assets and Debt Administration

At the end of the fiscal year 2015, EASTGATE had \$25,947 (net) invested in equipment, furniture and fixtures.

Debt

At June 30, 2015, EASTGATE had long-term debt of \$20,100. Long-term debt is made up of \$20,100 dedicated to the dredging project. Because of the nature of the dredging project debt, no payments have been scheduled.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
(Unaudited)*

Current Financial Related Activities

EASTGATE receives its funding from the Federal Highway Administration, the Federal Transit Administration, the Ohio Department of Transportation, the Ohio Public Works Commission, Mahoning, Trumbull and Columbiana Counties, and numerous public entities within the counties. Grants for fiscal years 2015 and 2016 appear certain.

GASB 68 NET PENSION LIABILITY

During 2015, EASTGATE adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of EASTGATE's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals EASTGATE's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, EASTGATE is not responsible for certain key factors affecting the balance of this liability.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS

Mahoning County, Ohio

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
(Unaudited)*

In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability.

As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, EASTGATE's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, EASTGATE is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$681,908 to \$(120,613)

Contacting EASTGATE's Financial Management

This financial report is designed to provide our citizen's, taxpayers and grantors with a general overview of EASTGATE's finances and to show EASTGATE's accountability for the monies it receives. If you have questions about this report or need additional financial information contact Joann Esenwein, Director of Administration at Eastgate Regional Council of Governments, City Center One Building, 100 East Federal Street, Suite 1000, Youngstown, Ohio 44503.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2015*

1. **SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES**

General

Eastgate Regional Council of Governments (EASTGATE) was established on January 1, 1973. EASTGATE is a government entity created under the provisions of Chapter 167 of the Ohio Revised Code.

EASTGATE is organized as a voluntary organization of local government subdivisions in Ashtabula, Columbiana, Mahoning, and Trumbull counties. Its purpose is to foster a cooperative effort in regional planning, programming, and the implementation of regional plans and programs. It is a forum for the discussion and study of common problems of a regional nature and for the development of policy and action recommendations relating thereto. EASTGATE is considered a jointly governed organization since each of the participating counties has equal representation and the counties have no financial responsibility.

EASTGATE derives its funds to support its operations from Federal and State grants, dues from local government bodies desiring membership in EASTGATE, and contractual agreements between local government bodies and EASTGATE for the performance of specific studies and surveys. Because EASTGATE derives a majority of its revenues from dues and charges for services, which are services provided to other governments and are therefore intergovernmental revenues, these statements are shown as proprietary activities.

With respect to proprietary activities, EASTGATE has adopted GASB Statement 20, *Accounting and Financial Reporting for Proprietary Funds and Other Government Units That Use Proprietary Fund Accounting*.

EASTGATE is governed by a General Policy Board which utilizes an administrative staff headed by a director for daily operations.

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of EASTGATE are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from EASTGATE.

Component units are legally separate organizations for which EASTGATE is financially accountable. EASTGATE is financially accountable for an organization if they appoint a voting majority of the organization's governing board and 1) they are able to significantly influence the programs or services performed or provided by the organization; or 2) they are legally entitled to or can otherwise access the organization's resources; they are legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or they are obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent of EASTGATE in that they approve the budget, the issuance of debt, or the levying of taxes.

Based on the above description, there are no component units within EASTGATE.

Method of Accounting

EASTGATE's funds are accounted for using the accrual basis of accounting. Revenues are recognized as earned from grant agencies when the related expenses are recognized. Direct costs are billed to grantor agencies at actual cost; indirect costs are billed using the provisional rate method, which is calculated based on the most recently audited fiscal year with adjustments for projected changes. At the end of the fiscal year, an actual rate is calculated and the difference between the estimated and actual cost for the period covered by the rate is identified to specific contracts. Variances are either billed as an additional

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

cost or refunded to the granting agency. No carry forward provision is permitted to adjust the future rates for the variance. Local revenue funds are recognized as revenue in the period in which they are assessed. The recognition of local revenue funds received which related to assessments for subsequent events is deferred.

Cash and Cash Equivalents

For purposes of the cash flows statement and for presentation on the statement of net position, EASTGATE considers all liquid debt instruments purchased with temporary cash that have an original maturity of three months or less to be cash equivalents.

Vacation and Sick Leave

EASTGATE employees generally earn vacation ranging 10 to 25 days per year based on the length of service. The amount accrued for vacation leave was \$100,288. The amount accrued for sick leave was \$58,015, using the vesting method. These two numbers are included in the long term liabilities.

Net Position

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. EASTGATE reports no restricted net position for the fiscal year.

Deferred Outflows and Inflows

In addition to assets, the statements of net position and balance sheets will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of net position and balance sheets report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Property and Equipment

Property and equipment are stated at cost. EASTGATE's policy as to depreciation is to amortize the cost of depreciable assets over their estimated useful lives of three to ten years computed using the straight-line method. Furniture and equipment are purchased principally with local funds. EASTGATE maintains a capitalization threshold of \$1,000.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

2. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

State statutes classify monies held by EASTGATE into three categories.

Active Monies-Those monies required to be kept in a “cash” or “near-cash” status for immediate use by Eastgate. Such monies must be maintained either as cash in EASTGATE’s Treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies-Those monies not required for use within the current five year period of designation of depositories. Inactive deposits may be deposited or invested as certificates of deposit maturing not later than the end of the current period of designation of depositories, or as savings or deposit account including, but not limited to, passbook accounts.

Interim Monies-Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Deposits-Custodial credit risk is the risk that in the event of bank failure, the government’s deposits may not be returned to it. Protection of EASTGATE cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets.

By law, financial institutions must collateralize all public deposits. The face value of the pooled collateral must equal at least 105 percent of funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end, the carrying amount of EASTGATE’s deposits was \$468,832, and the bank balance was \$523,900. Of the bank balance, \$500,000 was insured by FDIC and \$23,900 was uninsured.

Investments-EASTGATE had no investments at June 30, 2015.

3. DEFINED BENEFIT PENSION

A. Net Pension Liability

For fiscal year 2015, Governmental Accounting Standards Board (GASB) Statement No. 68, “Accounting and Financial Reporting for Pensions” and GASB Statement No. 71, “Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68” were effective. These GASB pronouncements had an effect on beginning net position as reported at June 30, 2014 (see Note 12). The net pension liability has been disclosed below.

Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions - between an employer and its employees of salaries and benefits for employee services. Pensions are provided to an employee - on a deferred payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. DEFINED BENEFIT PENSION PLAN (continued)

The net pension liability represents Eastgate's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits Eastgate's obligation for this liability to annually required payments. Eastgate's cannot control benefit terms or the manner in which pensions are financed; however, the EASTGATE does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting.

B. Ohio Public Employees Retirement System (OPERS).

Eastgate participates in OPERS.

Ohio Public Employees Retirement System administers three separate pension plans as described below:

1. The Traditional Pension Plan – A cost sharing, multiple-employer defined benefit pension plan.
2. The Member-Direct Plan – A defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Direct Plan, members accumulate retirement assets equal to the value of member and (vested) employer contributions, plus any investment earnings.
3. The Combined Plan – A cost sharing, multiple-employer defined pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefits similar in nature to the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. DEFINED BENEFIT PENSION PLAN (continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of both the Traditional Pension and Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by visiting <https://www.opers.org/investments/cafr.shtml>, writing to OPERS, 277 E. Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 1-800-222-7377.

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2014 member and employer contribution rates were consistent across all three plans. For 2014 member and employer contribution rates were 10% and 14%, respectively, of covered payroll.

Eastgates required contributions to OPERS for the years ended June 30, 2015, 2014, and 2013 were \$130,944, \$128,236, and \$130,229, respectively, which represent 100 percent contributions for all three years.

C. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. Eastgates proportion of the net pension liability was based on Eastgates share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

	<u>Traditional</u>	<u>Combined</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability/(Asset)	\$823,413	(\$8,415)	\$814,998
Proportion of the Net Pension Liability/(Asset)	0.00682700%	0.02185700%	
Pension Expense	\$89,901	\$5,592	\$95,493

At June 30, 2015, Eastgate reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. DEFINED BENEFIT PENSION PLAN (continued)

C. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

	Traditional	Combined	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$43,935	\$514	\$44,449
Eastgate contributions subsequent to the measurement date	48,364	4,451	52,815
Total Deferred Outflows of Resources	\$92,299	\$4,965	\$97,264
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$14,466	\$2,568	\$17,034

\$97,264 reported as deferred outflows of resources related to pension resulting from Eastgate contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	Traditional	Combined	Total
Fiscal Year Ending June 30:			
2016	(\$2,515,991)	\$187,727	(\$2,328,264)
2017	(2,085,075)	170,027	(1,915,048)
2018	(1,098,370)	152,327	(946,043)
2019	0	134,627	134,627
2020	0	104,086	104,086
Thereafter	0	129,008	129,008
Total	(\$5,699,436)	\$877,802	(\$4,821,634)

Actuarial Assumptions - PERS

PERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. DEFINED BENEFIT PENSION PLAN (continued)

**C. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources
Related to Pensions - continued**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of December 31, 2014, are presented below:

Wage Inflation	3.75%
Future Salary Increases, Including Inflation	4.25% - 10.05% (traditional), 4.25%-8.05% (combined)
COLA or Ad hoc COLA	3% Simple
Investment Rate of Return	8.0%
Actuarial Cost Method	Individual Entry Age

Mortality rates are the RP-2000 mortality table projected 20 years using Projection Scale AA. For males, 105% of the combined healthy male mortality rates were used. For females, 100% of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males, 120% of the disabled female mortality rates were used, set forward two years. For females, 100% of the disabled female mortality rates were used.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The following table displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

3. DEFINED BENEFIT PENSION PLAN (continued)

C. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return</u>
Fixed Income	23.00 %	2.31 %
Domestic Equities	19.90	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	19.10	7.40
Other Investments	18.00	4.59
Total	<u>100.00 %</u>	<u>5.28 %</u>

Discount Rate The discount rate used to measure the total pension liability was 8.0% for both the Traditional Pension Plan and the Combined Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for both the Traditional Pension Plan and the Combined Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of Eastgate's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.0 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.0 percent), or one percentage point higher (9.0 percent) than the current rate.

<u></u>	<u>1% Decrease (7.0%)</u>	<u>Current Discount Rate (8.0%)</u>	<u>1% Increase (9.0%)</u>
Eastgate's Proportionate Share of the Net Pension Liability (\$ in millions):			
Traditional	\$ 151	\$ 82	\$ 24
Combined	\$ 0.11	\$ (1)	\$ (2)

Other Postemployment Benefits

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the Traditional Pension Plan – a cost-sharing, multiple employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program, and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age and service retirees under the Traditional Pension and Combined plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. OPERS's eligibility requirements for post-employment health care coverage changed for those retiring on and after January 1, 2015. Please see the Plan Statement in the OPERS 2013 CAFR for details.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issue a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, 277, East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 1-800-222-7377.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2015 and 2014, Eastgate contributed at a rate of 14.00 percent of covered payroll. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14.00 percent of covered payroll for state and local employer units. Active members do not make contributions to the OPEB Plan.

OPERS' Post-Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. For 2015 and 2014, the employer contribution allocated for health care to the traditional and combined plan were 2.0 percent of covered payroll. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care coverage by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Actual Eastgate contributions for the year ended June 30, 2015, which were used to fund postemployment benefits was \$9,156.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

4. ACCUMULATED FRINGE BENEFITS

Accumulated fringe benefits include accrued employee hospitalization of \$2,152 and accrued employee share of OPERS of \$3,077 for a total of \$5,229.

5. LEASE

EASTGATE leases its office under an operating lease which began January 1, 2012 and is for a five year term expiring December 31, 2016.

Minimum future rental commitments under a non-cancelable operating lease having a remaining term of 30 months are as follows:

July 1, 2015-June 30, 2016	\$ 88,044
July 1, 2016-December 30, 2016	<u>44,026</u>
Total Minimum Payments Required	<u>\$ 132,070</u>

6. COST ALLOCATION METHOD

EASTGATE annually has a Cost Allocation Plan agreement with the Ohio Department of Transportation (ODOT). This agreement establishes a preliminary fringe benefit rate and an indirect cost rate in advance of the beginning of the agreement year so that a budget can be prepared. However, the approved rates are based on estimates and will be revised by ODOT as an adjustment in future cost allocation plan agreements. Periodic billings are prepared based on the preliminary approved rates.

Costs were distributed to the projects and activities pursuant to a cost allocation plan and/or a method of allocation, as applicable, as required by Office Management and Budget Circular A-87 and Handbook 6042.1 Rev.

7. CONTINGENCIES

Under the terms of federal and state grants, periodic audits are required and certain expenditures may be questioned as not appropriate under terms of the grants. Such audits could lead to reimbursement to the grantor agencies. Management believes disallowances, if any, will be immaterial.

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

8. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2015, was as follows:

	Balance 7/1/2014	Additions	Deletions	Balance 6/30/2015
Equipment, Furniture and Fixtures	\$ 277,368	\$ 11,405	\$ -	\$ 288,773
Accumulated Depreciation	(252,356)	(10,470)	-	(262,826)
Net Capital Assets	\$ 25,012	\$ 935	\$ -	\$ 25,947

9. RISK MANAGEMENT

EASTGATE is exposed to various risks of loss related to torts, theft of, damage to, destruction of assets, errors and omissions, injuries to employees and natural disasters. In order to minimize these components of risk, EASTGATE has obtained insurance coverage for risk of loss as follows:

Liability Aggregate Limit	\$	2,000,000
Fire and Medical Limit		1,000,000
Fire Legal Liability		250,000
Medical Expenses		5,000
Business Property		150,000
Contractor's Equipment		8,970
Automobile		1,000,000
Tenants Liability		250,000
Deductible		250

Settled claims have not exceeded commercial coverage in any of the past three years. Also, EASTGATE did not reduce the limits of liability significantly in the current year.

10. LONG TERM OBLIGATIONS

The change in long-term obligations of EASTGATE during fiscal year 2015 were as follows:

	6/30/2014	Increases	Decreases	Balance 6/30/2015	Amounts Due Within One Year
Compensated Absences	\$ 144,132	\$ 148,532	\$ 134,361	\$ 158,303	\$ 100,288

In accordance with the provisions of GASB Statement No.16, "Accounting for Compensated Absences", vacations benefits are accrued as a liability as the benefits are earned if the employees rights to receive compensation are attributable to services already rendered and it is probable that EASTGATE will compensate the employees for the benefits through paid time off or some other means. EASTGATE records a liability for accumulated unused vacation time when earned for all employees with more than one year of service

EASTGATE REGIONAL COUNCIL OF GOVERNMENTS
Mahoning County, Ohio

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015*

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those EASTGATE has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at year end, taking into consideration any limits in EASTGATE's termination policy. The EASTGATE reports a liability for accumulated unused sick leave for employees who will be eligible to retire at the end of the fiscal year.

The entire compensated absence liability is reported on the financial statements.

11. DREDGING PROJECT ESCROW

The Dredging project consists of amounts held in escrow by EASTGATE. The Ohio Water Resource Restoration Sponsor Program as administered by the Ohio Environmental Protection Agency has established these funds for the purpose of a feasibility study on the Mahoning River. EASTGATE does not have access to these funds; the amounts are simply held in escrow for the US Army Corp of Engineers to be used in the aforementioned study.

12. CHANGE IN ACCOUNTING PRINCIPLE & RESTATEMENT OF PRIOR YEAR NET POSITION

A. Change in Accounting Principles

For fiscal year 2015, EASTGATE has implemented Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27", Statement No. 69, "Government Combinations and Disposals of Government Operations", and Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68."

GASB Statement No. 68 improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. The implementation of GASB 68 resulted in an overall restatement of beginning net position, as previously reported.

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Statement requires the use of carrying values to measure the assets and liabilities in a government merger. It also requires measurements of assets acquired and liabilities assumed to be based upon their acquisition values. This Statement also provides guidance for transfers of operations that do not constitute entire legally separate entities and in which no significant consideration is exchanged. The Statement also provides accounting and financial reporting guidance for disposals of government operations that have been transferred or sold. Disclosures about government combinations and disposals of government operations are required to enable financial statement users to evaluate the nature and financial effects of those transactions. The implementation of GASB Statement No. 69 did not have an effect on the financial statements of EASTGATE.

GASB Statement No. 71 addresses an issue regarding application of the transition provisions of Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The implementation of GASB Statement No. 71 resulted in an overall restatement of beginning net position, as previously reported.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Eastgate Regional Council of Governments
Mahoning County
City Center One Building
100 East Federal Street, Suite 1000
Youngstown, Ohio 44503

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the business-type activities of the Eastgate Regional Council of Governments, Mahoning County, (the Council) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements and have issued our report thereon dated June 20, 2016, in which we noted the Council implemented Government Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No.68".

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Council's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Council's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Council's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the Council's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Council's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Council's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Eastgate Regional Council of Governments
Mahoning County
City Center One Building
100 East Federal Street, Suite 1000
Youngstown, Ohio 44503

To the Board of Directors:

Report on Compliance for the Major Federal Program

We have audited the Eastgate Regional Council of Government's (the Council) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Eastgate Regional Council of Government's major federal program for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Council's major federal program.

Management's Responsibility

The Council's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the Council's compliance for the Council's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Council's major program. However, our audit does not provide a legal determination of the Council's compliance.

Opinion on the Major Federal Program

In our opinion, the Eastgate Regional Council of Governments complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The Council's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Council's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Council's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
