INDEPENDENT AUDITOR'S REPORT

Maysville Local School District
Muskingum County
3715 Panther Drive
Zanesville, Ohio 43701

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Maysville Local School District, Muskingum County, Ohio (the School District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Maysville Local School District, Muskingum County, Ohio, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Classroom Facilities Maintenance Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended June 30, 2015, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, and Schedules of Net Pension Liabilities and Pension Contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Federal Awards Receipts and Expenditures (the Schedule) presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

The Schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this Schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 24, 2016, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping initial "D".

Maysville Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

The discussion and analysis of the Maysville Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for the fiscal year 2015 are as follows:

- Net position of governmental activities increased \$624,590.
- General revenues accounted for \$15,794,240 in revenue or 64 percent of all revenues. Program specific revenues in the form of charges for services, grants, contributions, and interest accounted for \$8,912,281, 36 percent of total revenues of \$24,706,521.
- Total assets of governmental activities decreased \$874,802. The decrease was mainly due to a decrease in capital assets in the amount of \$1,365,932 due to annual depreciation expense exceeding the purchase of capital assets. The decrease was offset by an increase in current and other assets in the amount of \$491,130.
- The School District had \$24,081,931 in expenses related to governmental activities; only \$8,912,281 of these expenses were offset by program specific charges for services, grants, contributions, and interest. General revenues of \$15,794,240 were adequate to provide for these programs.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can first understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column.

Reporting the School District as a Whole

Statement of Net Position and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities for students, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2015?" The Statement of Net Position and the Statement of Activities answer this question. These statements include

Maysville Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in the position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, all of the School District's activities are reported as governmental including instruction, support services, operation of non-instructional services, debt service, and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 12. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multiple of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund, the classroom facilities maintenance special revenue fund, and the bond retirement debt service fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds Proprietary funds focus on the determination of operating income, changes in net position, financial position, and cash flows.

Fiduciary Funds Fiduciary funds focus on net position and changes in net position.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2015 compared to 2014.

Total Net Position	<u>\$27,244</u>	<u>(\$597,346)</u>	<u>\$624,590</u>

During fiscal year 2015, the School District adopted GASB Statement No. 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all governmental financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Maysville Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

Under the new standards required by GASB 68, the net pension liability equals the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$29,520,832 to (\$597,346).

Total assets decreased \$874,802. Current and other assets increased \$491,130 which was due mainly to an increase in cash and cash equivalents in the amount of \$591,121. Cash and cash equivalents increased mainly due to revenues and other financing sources exceeding expenditures. The School District understands the importance of prudent financial planning and has taken the necessary steps to help increase the general fund cash balance. Accounts receivable also increased in the amount of \$357,283 due primarily to an overpayment of claims expense from prior fiscal years. This overpayment was detected by the School District and reported to the self-insurance claims servicing company. This overpayment resulted in the School District being reimbursed in the amount of \$352,374. Taxes receivable increased in the amount of \$85,480 due to a slight increase in the tax assessed valuations.

Maysville Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

These increases were offset by a decrease in intergovernmental receivables in the amount of \$549,691. This decrease in intergovernmental receivables was the result of the Straight A grant. The Straight A grant was awarded during fiscal year 2014 and a receivable existed at the end of fiscal year 2014. The Straight A grant monies were received in fiscal years 2014 and 2015 which resulted in the large decrease in intergovernmental receivables. The \$1,365,932 decrease in capital assets was due to current year depreciation expenses exceeding current year equipment purchases.

Total liabilities decreased \$6,148,793. The main reason for the large decrease is due to a decrease in the net pension liability in the amount of \$5,020,785. Current and other liabilities decreased in the amount of \$415,326 due to various reasons. Intergovernmental payables decreased in the amount of \$292,113, accounts payable decreased in the amount of \$61,750, vacation benefits payable decreased in the amount of \$24,540, and retirement incentive payable decreased in the amount of \$20,000. Intergovernmental payables decreased due to large fiscal year 2014 State foundation adjustments which resulted in payables in the amount of \$179,682 as of fiscal year-end 2014 that did not reoccur during fiscal year 2015. Intergovernmental payables also decreased in the amount owed for workers' compensation due to a new payment policy established by the State which entitled entities to a 50 percent credit for calendar year 2015 salaries in an effort to bring entities into an advanced payment system. Another intergovernmental payable decrease is attributed to decreases in amounts owed to SERS due to current year payments toward the SERS arrearage liability. Fiscal year 2016 will be the final year of payment for the SERS arrearage. Long-term liabilities for other amounts due in more than one year decreased \$703,604 primarily due to the payment of \$230,000 on the School Facilities Improvement General Obligation Serial Bonds, the amortization of \$10,933 for the bond premium for the School Improvement Refunding General Obligation Bonds, and capital lease principal payments in the amount of \$526,056 for the athletic complex, copiers, computer equipment, and a chiller. Compensated absences payable decreased in the amount of \$4,023. Decreases in other amounts due in more than one year were offset by the inception of a capital lease in the amount of \$58,330.

Table 2 shows the changes in net position for the fiscal year ended June 30, 2015 and comparisons to fiscal year 2014.

<i>Total Expenses</i>	<u>24,081,931</u>	<u>24,697,476</u>	<u>(615,545)</u>
<i>Change in Net Position</i>	624,590	205,368	419,222
Net Position Beginning of Year (Deficit)	<u>(597,346)</u>	N/A	
Net Position End of Year	<u>\$27,244</u>	<u>(\$597,346)</u>	<u>\$624,590</u>

The information necessary to restate fiscal year 2014 beginning balances and fiscal year 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, fiscal year 2014 functional expenses still include pension expense of \$1,565,289 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to

Maysville Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, fiscal year 2015 statements report pension expense of \$1,117,863. Consequently, in order to compare fiscal year 2015 total program expenses to fiscal year 2014, the following adjustments are needed:

Total 2015 program expenses under GASB 68	\$24,081,931
Pension expense under GASB 68	(1,117,863)
2015 contractually required contribution	<u>1,621,113</u>
Adjusted 2015 program expenses	24,585,181
Total 2014 program expenses under GASB 27	<u>24,697,476</u>
Decrease in program expenses not related to pension	<u><u>(\$112,295)</u></u>

The changes in net position schedule clearly demonstrates the dependence upon tax revenues and state subsidies for governmental activities. Only 36 percent of the governmental activities performed by the School District are supported through program revenues such as charges for services, grants, contributions, and interest. The remaining 64 percent is provided through taxes and entitlements.

Net position increased by \$624,590 in fiscal year 2015. Revenues reflect an overall decrease in the amount of \$196,323. Program revenues decreased in the amount of \$345,033 and general revenues increased in the amount of \$148,710. The \$240,295 decrease in operating grants, contributions, and interest is attributed to changes in the grant funding during fiscal year 2015. There was a decrease in fiscal year 2015 related to the Straight A grant. During fiscal year 2014, a Straight A grant was awarded in the amount of \$561,615 while in fiscal year 2015 there was an additional award in the amount of \$45,154. Also during fiscal year 2015, the School District received an increase in special education funding in the amount of \$58,209, food service received an additional \$215,928 for the National School Lunch program, TIF funding increased in the amount of \$181,688, and Title I funding increased in the amount of \$182,860. The increases were offset by a decrease in Race to the Top funding in the amount of \$360,117. The \$104,738 decrease in charges for services was the result of decreases in charges for services received from the Foxfire High and Foxfire Intermediate Schools. Both of the Foxfire Schools make additional payments to the School District (Sponsor) for rent when the money is available. During fiscal year 2014, the School District received larger than normal payments from both of the Foxfire schools for rent that did not reoccur during fiscal year 2015. The decrease in general revenue property taxes, in the amount of \$566,883, was due to the change in the property tax collection dates by Muskingum County. During fiscal year 2013, the amount available as an advance was lower due to a later collection date which meant more tax revenues were recognized during fiscal year 2014. Then during fiscal year 2014, the second half collection date was slightly sooner therefore, a larger amount was collected and available as an advance to the School District as of fiscal year-end 2014 which was recognized as revenue. For fiscal year 2015, the collection date and amount available as an advance was consistent with fiscal year 2014. The increase in general revenue grants and entitlements was the result of increases in State foundation revenues for fiscal year 2015.

The Statement of Activities shows the cost of program services and the charges for services, grants, contributions, and interest earnings offsetting those services. Table 3 shows the total cost of services and the net cost of services. In other words, it identifies the cost of those services supported by tax revenue and unrestricted entitlements.

Totals	\$24,081,931	\$15,169,650	\$24,697,476	\$15,440,162

Instructional programs comprise approximately 61 percent of total governmental program expenses and support services are approximately 30 percent of program expenses. The other non-instructional expenses make up the remaining 9 percent of the program expenses of the School District.

The School District Funds

The School District's major funds are accounted for using the modified accrual basis of accounting. The general fund had \$19,528,591 in revenues, \$19,026,006 in expenditures, and \$43,629 in other financial sources. The general fund's balance increased \$546,214. The increase is primarily due to revenues exceeding expenditures due to the School District reducing expenditures and not replacing vacated positions when possible.

The classroom facilities maintenance special revenue fund had \$143,509 in revenues and \$341,742 in expenditures. The classroom facilities maintenance's balance decreased \$198,233. During fiscal year 2014, the classroom facilities maintenance fund began making payments for an equipment lease that was entered into during fiscal year 2013. The School District also had an increase of \$139,860 in operation and maintenance of plant expenditures to improve and repair the School District campus.

The bond retirement debt service fund had \$338,766 in revenues and \$359,685 in expenditures. Bond retirement's balance decreased \$20,919.

General Fund Budgetary Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of fiscal 2015, the School District amended its general fund original appropriations from \$19,628,528 to final appropriations of \$19,673,682. Final appropriations exceeded final expenditures by \$433,804. Budget basis actual revenue was \$19,681,519 compared to final estimates of \$20,343,721 and original estimates of \$20,287,189. The \$662,202 difference between final estimates and actual revenue was primarily due to the over estimation of tuition and fees and intergovernmental revenues. The School District's ending general fund budgetary balance was \$1,715,599.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2015, the School District had \$29,992,805 invested in land, buildings, furniture and equipment, and vehicles. Table 4 shows fiscal year 2015 balances compared to 2014.

Table 4 - Capital Assets at June 30, 2015
(Net of Depreciation)

	Government Activities	
	2015	2014
Land	\$756,108	\$756,108
Land Improvements	2,789,676	2,958,013
Buildings and Improvements	25,008,540	25,959,204
Furniture and Equipment	1,053,423	1,284,576
Vehicles	385,058	400,836
Totals	\$29,992,805	\$31,358,737

See Note 10 for more detailed information of the School District's capital assets.

Debt

At June 30, 2015, the School District had \$2,774,670 in general obligation bonds (including the bond premium) and capital leases outstanding.

	2015	2014
School Facilities Improvement		
General Obligation Bonds		
Serial Bonds - 2000 - 3.80% - 6.35%	\$505,000	\$735,000
School Improvement Refunding		
General Obligation Bonds		
Term Bonds - 2007 - 5.25%	1,580,000	1,580,000
Bond Premium	76,531	87,464
Capital Leases	613,139	1,080,865
Totals	\$2,774,670	\$3,483,329

See Note 16 for more detailed information of the School District's debt. The net pension liability under GASB 68 is also reported as a long-term obligation that has been previously disclosed within the management's discussion and analysis.

Economic Factors

The School District has experienced difficult financial challenges in fiscal years 2012 and 2013; however, during fiscal year 2014 the School District's net position increased by \$205,368 and in fiscal year 2015 net position increased by \$624,590. In fiscal year 2013, the School District completed a new administration and preschool facility on the Maysville Local School District campus without issuing debt and as a result, it is going to take some time for the School District to rebuild cash balances to previous years' levels in past years. With the completion of this facility in fiscal year 2013, all Maysville School District services are now located at 3715 Panther Drive.

During fiscal year 2015, the School District replaced the traditional salary schedule and implemented an "Alternative Compensation System" for all staff. Instead of advancing staff based on years of service and training, the "Alternative Compensation System" qualifies staff for base salary adjustments if they receive a rating of "Accomplished" or "Skilled" on their annual evaluation.

Based on the May 2015 Board-adopted five year forecast, the School District is projecting revenues and expenditures to be approximately equal for fiscal year 2016. The Board does not anticipate any layoffs to occur in the upcoming years. As staff retires in the next few years, the Board will not replace those vacated positions unless deemed necessary. The Board of Education and Administration of the School District must maintain careful financial planning and prudent fiscal management in order to maintain the financial stability of the School District.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information contact Lewis W. Sidwell, Treasurer at Maysville Local School District, 3715 Panther Drive, Zanesville, Ohio 43701. You may also e-mail the treasurer at lsidwell@laca.org.

Maysville Local School District, Ohio
*Reconciliation of the Governmental Funds Balance Sheet to
the Statement of Net Position
June 30, 2015*

Total Governmental Fund Balances	\$2,144,610
---	-------------

Amounts reported for governmental activities in the statement of net position are different because of the following:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	29,992,805
---	------------

Other long-term assets are not available to pay for current-period expenditures and therefore are reported as deferred inflows of resources unavailable revenue in the funds:	
Property Taxes Receivable	670,649
Payment in Lieu of Taxes Receivable	2,825
Grants Receivable	500,175
Student Fees	17,067
	1,190,716

An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	402,036
--	---------

Accrued Interest Payable is recognized for outstanding long-term liabilities with interest accrual that are not expected to be paid with expendable available financial resources and therefore are not reported in the funds.	(11,744)
--	----------

Vacation Benefits Payable is not expected to be paid with expendable available financial resources and therefore are not reported in the funds.	(98,147)
---	----------

Deferred outflows of resources represent deferred charges on refundings which are not reported in the funds	57,639
---	--------

Some liabilities are not due and payable in the current period and, therefore, not reported in the funds:	
General Obligation Bonds Payable	(505,000)
Refunding General Obligation Bonds Payable	(1,580,000)
Premium on Refunding Bonds	(76,531)
Capital Leases Payable	(613,139)
Sick Leave Benefits Payable	(1,261,073)
	(4,035,743)

The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in the governmental funds:	
Deferred Outflows - Pension	1,872,491
Net Pension Liability	(26,662,682)
Deferred Inflows - Pension	(4,824,737)
	(29,614,928)

Net Position of Governmental Activities	\$27,244
---	----------

*Reconciliation of the Statement of Revenues, Expenditures, and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2015*

Net Change in Fund Balances - Total Governmental Funds \$684,326

*Amounts reported for governmental activities in the statement of activities
are different because*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Asset Additions	103,815	
Depreciation Expense	(1,469,747)	(1,365,932)

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the proceeds and the gain on the sale of capital assets.

Gain on Sale of Capital Assets	2,500	
Proceeds from Sale of Capital Assets	(2,500)	0

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Payment in Lieu of Taxes	(625)	
Student Fees	299	
Intergovernmental	(388,359)	
Delinquent Taxes	51,178	(337,507)

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Refunding General Obligation Bonds Payable	230,000	
Capital Leases Payable	526,056	756,056

In the statement of activities interest is accrued on outstanding bonds, whereas in governmental funds, interest is expended when due. 4,651

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Vacation Benefits Payable	24,540	
Retirement Incentive Payable	20,000	
Sick Leave Benefits Payable	4,023	48,563

Some capital assets were financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position the lease obligation is reported as a liability. (58,330)

The amortization of premiums are reported on the statement of activities. 10,933

Deferred outflows of resources represent the amortization of deferred charges on refunding which are not reported in the funds. (8,235)

The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities. 386,815

Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows. 1,621,113

Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities. (1,117,863)

Change in Net Position of Governmental Activities \$624,590

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Note 1 – Description of the School District and Reporting Entity

Maysville Local School District (the “School District”) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by State statute and federal guidelines.

The School District was established in 1956 through the consolidation of the Springfield-Bell Local School District and the South Zanesville Local School District. The School District serves an area of approximately 66 square miles. It is located in Muskingum County, and includes a portion of the City of Zanesville, the Village of East Fultonham, and the Townships of Newton and Springfield. It is staffed by 117 classified employees, 141 certificated full-time teaching personnel, and 16 administrative employees who provide services to 2,351 students (includes preschool and open enrollment students) and other community members. The School District currently operates two instructional buildings, one administrative/preschool building, and one garage.

Reporting Entity:

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, preschool, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Discretely Presented Component Units. The component unit information on the Statement of Net Assets and the Statement of Activities identifies the financial data of the School District’s component units, Foxfire Intermediate School and Foxfire High School. They are reported separately to emphasize that they are legally separate from the School District.

Foxfire Intermediate School. The Foxfire Intermediate School is a legally separate community school created under Ohio Revised Code Chapter 3314 and incorporated under Chapter 1702. The Foxfire Intermediate School’s mission, under a contractual agreement with the School District (Foxfire Intermediate School’s sponsor), is to maximize all students’ potential, by the teaching of high academic standards and overall student wellness to increase capabilities by bridging gaps in the best interest of each individual student. The Foxfire Intermediate School serves first through eighth grade students who have been unsuccessful in a traditional elementary or middle school setting.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The Foxfire Intermediate School operates under the direction of a five-member Board of Directors made up of five community members appointed by the Executive Director/Principal after consulting with the Sponsor's superintendent. All governing authority members live and/or work in the Zanesville-Muskingum County community as well as represent the interest of the Muskingum County community. The sponsor is able to impose its will on Foxfire Intermediate School and due to Foxfire Intermediate School's relationship with Maysville Local School District it would be misleading to exclude Foxfire Intermediate School. The Sponsor can suspend the Foxfire Intermediate School's operations for any of the following reasons: 1) The Foxfire Intermediate School's failure to meet student performance requirements stated in its contract with the Sponsor, 2) Foxfire Intermediate School's failure to meet generally accepted standards of fiscal management, 3) Foxfire Intermediate School's violation of any provisions of the contract with the Sponsor or applicable state or federal law, 4) Foxfire Intermediate School's failure to be financially sound and/or their financial status adversely impacts the Sponsor's finances, or 4) Other good cause. Separately issued financial statements can be obtained from the Foxfire Intermediate School, 2805 Pinkerton Road, Zanesville, Ohio 43701.

Foxfire High School. The Foxfire High School is a legally separate community school created under Ohio Revised Code Chapter 3314 and incorporated under Chapter 1702. The Foxfire High School's mission, under a contractual agreement with the School District (Foxfire High School's sponsor), is to help at-risk students meet Ohio's graduation requirements. The Foxfire High School focuses on ensuring that basic survival needs are met so that students can achieve success in school. The Foxfire High School serves high school age students and above who have dropped out or are at risk of dropping out of school. A particular emphasis is placed on assisting parenting and/or pregnant students obtain a high school diploma.

The Foxfire High School operates under the direction of a five-member Board of Directors made up of five community members appointed by the Executive Director after consulting with the Sponsor's superintendent. All governing authority members live and/or work in the Zanesville-Muskingum County community as well as represent the interest of the Muskingum County community. The sponsor is able to impose its will on Foxfire High School and due to Foxfire High School's relationship with Maysville Local School District it would be misleading to exclude Foxfire High School. The Sponsor can suspend the Foxfire High School's operations for any of the following reasons: 1) The Foxfire High School's failure to meet student performance requirements stated in its contract with the Sponsor, 2) The Foxfire High School's failure to meet generally accepted standards of fiscal management, 3) The Foxfire High School's violation of any provisions of the contract with the Sponsor or applicable state or federal law, or 4) Other good cause. Separately issued financial statements can be obtained from the Foxfire High School, 2805 Pinkerton Road, Zanesville, Ohio 43701.

The School District participates in three jointly governed organizations and two insurance purchasing pools. These organizations are the Licking Area Computer Association, Mid-East Career and Technology Centers, Coalition of Rural and Appalachian Schools, the Better Business Bureau of Central Ohio Incorporated Workers' Compensation Group Rating Program, and the Ohio School Benefits Cooperative. These organizations are presented in Notes 18 and 19 to the general purpose financial statements.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Note 2 – Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid doubling up revenues and expenses. The statements usually distinguish between those activities of the School District that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The School District has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are descriptions of the School District's major governmental funds:

General Fund The General Fund accounts for and reports all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose, provided it is expended and transferred according to the general laws of Ohio.

Classroom Facilities Maintenance Fund The Classroom Facilities Maintenance Fund is used to account for and report levy proceeds for the maintenance of facilities.

Bond Retirement Fund The Bond Retirement Debt Service Fund accounts for and reports property tax revenues restricted for the payment of general long-term debt principal, interest, and related costs.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund Types Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund The Internal Service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for the operation of the School District's self-insurance program for employee medical, surgical, prescription drug, vision, and dental claims.

Fiduciary Fund Type Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District does not have any trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (revenues) and decreases (expenses) in total net position.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the proprietary fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activity.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, payment in lieu of taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements, payment in lieu of taxes, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, payment in lieu of taxes, interest, tuition, grants, fees, and rentals.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District unavailable revenue includes delinquent property taxes, intergovernmental grants, income taxes, payment in lieu of taxes, and accrued interest. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 12)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District's records. Interest in the pool is presented as equity in pooled cash and cash equivalents on the financial statements.

The School District has a segregated bank account for the athletic department. This checking account is presented on the financial statements as cash and cash equivalents in segregated accounts since it is kept separate from the School District treasury.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the Permanent Improvement Capital Projects Fund during fiscal year 2015 amounted to \$7,368, which includes \$6,729 assigned from other School District funds.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2015, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which services are consumed.

G. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expensed/expended when used. Inventory consists of expendable supplies held for consumption and purchased and donated food held for resale.

H. Capital Assets

The School District's only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. The School District was able to estimate the historical cost for the initial reporting of capital assets by back trending (i.e., estimating the current replacement cost of the assets to be capitalized and using an appropriate price-index to deflate the costs to the acquisition year or estimated acquisition year). Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	15-20 years
Buildings and Improvements	20-40 years
Machinery and Equipment	5-15 years
Furniture and Fixtures	5-20 years
Vehicles	8 years

I. Internal Activity

Transfers within governmental activities are eliminated on the government-wide statements.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Internal allocations of overhead expenses from one program to another or within the same program are eliminated on the Statement of Activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/ uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

J. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either eternally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provisions. See Note 21 for additional information regarding set asides.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for vacation eligible employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for classified and certified employees after ten years of current service with the School District.

The entire compensated absences liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which these payments will be made.

L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and net pension liability that are paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital leases are recognized as a liability on the governmental fund financial statements when due.

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net pension of the pension plans and additions to deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

Nonspendable: The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The “not in spendable form” includes items that are not expected to be converted to cash. It also includes the long-term amount of loans and notes receivable, prepaids, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted: The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by State constitution or external resource providers. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation (School District Board of Education resolutions).

Enabling legislation authorizes the School District to assess, levy, charge, or otherwise mandates payment of resources (from external resources providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the School District can be compelled by an external party such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed: The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements.

Assigned: Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District Board of Education. In the General Fund, assigned amounts represent intended uses established by the School District Board of Education or by State statute. State statute authorizes the School District’s Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

School District's Board of Education assigned fund balance to cover a gap between estimated revenue and appropriations in 2016's appropriated budget.

Unassigned: The unassigned fund balance is the residual classification for the General Fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report deficit balances.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which the amounts in any of the unrestricted fund balance classifications could be used.

O. Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes includes music and athletic programs and local, federal, and state grants restricted to expenditure for specified purposes.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate Board appropriations to the function and object level.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statement reflect the amounts in the final amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

S. Bond Premiums

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium. On the governmental fund statements, bond premiums are recorded in the year the bonds are issued.

T. Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Note 3 – Changes in Accounting Principle and Restatement of Net Position

For fiscal year 2015, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 68, “Accounting and Financial Reporting for Pensions,” and Statement No. 71, “Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68.” GASB Statement No. 68 establishes standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported June 30, 2014:

Net Position June 30, 2014	\$29,520,832
Adjustments:	
Net Pension Liability	(31,683,467)
Deferred Outflow - Payments Subsequent to Measurement Date	<u>1,565,289</u>
Restated Net Position June 30, 2014	<u><u>(\$597,346)</u></u>

Other than employer contributions subsequent to the measurement date, the School District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Note 4 – Accountability

The following funds had a deficit fund balances at June 30, 2015.

	<u>Deficit Fund Balances</u>
<u>Special Revenue Funds:</u>	
Preschool	(\$8,612)
Latchkey	(2,726)
Title VI-R	(52,835)

The deficit fund balances in the special revenue funds are the result of the recognition of payables in accordance with generally accepted accounting principles. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur. The School District will more closely monitor fund balances in the future.

Note 5 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Fund Balances	General	Classroom Facilities Maintenance	Bond Retirement	Other Governmental Funds	Total
<u>Nonspendable:</u>					
Prepays	\$29,837	\$2,148	\$0	\$11,923	\$43,908
Materials and Supplies					
Inventory	4,587	0	0	713	5,300
<i>Total Nonspendable</i>	34,424	2,148	0	12,636	49,208
<u>Restricted for:</u>					
Food Service Operations	0	0	0	179,281	179,281
Athletics and Music	0	0	0	32,124	32,124

Purchases on Order	11,212	0	0	0	11,212
Job Conservation	249,898	0	0	0	249,898
Assigned to Subsequent					
Year's Appropriations	1,359,531	0	0	0	1,359,531
Capital Improvements	0	0	0	104,404	104,404
<i>Total Assigned</i>	1,643,486	0	0	104,404	1,747,890
Unassigned:	(903,930)	0	0	(64,173)	(968,103)
<i>Total Fund Balances</i>	<u>\$773,980</u>	<u>\$513,759</u>	<u>\$524,055</u>	<u>\$332,816</u>	<u>\$2,144,610</u>

Note 6 – Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budget Basis) for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP (modified accrual) basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Unrecorded cash and prepaid items are reported on the balance sheet (GAAP basis), but not on the budgetary basis.
4. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a commitment or assignment of fund balance for governmental fund types (GAAP basis).
5. Budgetary revenues and expenditures of the public school support fund are reclassified to the general fund for GAAP Reporting.

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statement for the general fund and the classroom facilities maintenance special revenue fund:

	<u>Net Change in Fund Balance</u>	
	<u>General</u>	<u>Classroom Facilities Maintenance</u>
GAAP Basis	\$546,214	(\$198,233)
Net Adjustment for Revenue Accruals	383,858	1,561
Net Adjustment for Expenditure Accruals	(275,132)	(136,597)
Beginning:		
Unrecorded Cash	980	0
Prepaid Items	31,512	0
Negative Cash Advances	(403,901)	0
Ending:		
Unrecorded Cash	(845)	0
Prepaid Items	(29,837)	(2,148)
Negative Cash Advances	202,400	0
To reclassify excess of revenues and other sources of financial resources over expenditures and other uses of financial resources into financial statement fund types	(1,284)	0
Adjustment for Encumbrances	(12,324)	0
Budget Basis	<u>\$441,641</u>	<u>(\$335,417)</u>

Note 7 – Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations describe in division (1) or (2) above;
7. The State Treasurer's investment pool (STAR Ohio); and,
8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits: Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$2,889,718 of the School District's bank balance of \$3,642,339 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledge to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments: As of June 30, 2015, the School District had no investments.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Interest Rate Risk: The School District's investment policy addresses interest rate risk to the extent that it allows the Treasurer to invest funds to a maximum maturity of five years. The Treasurer cannot make investments which he/she does not reasonably believe can be held until the maturity date. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk: The School District has no investment policy that would further limit its investment choices.

Concentration of Credit Risk: The School District places no limit on the amount it may invest in any one issuer. The School District had no investments as of June 30, 2015.

Note 8 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First-half tax collections are received by the School District in the second half of the fiscal year. Second-half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property (used in business) located in the School District. Real property tax revenue received in calendar 2015 represents collections of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed value listed as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2015 represents collections of calendar year 2014 taxes. Public utility real property taxes received in calendar year 2015 became a lien December 31, 2013, were levied after April 1, 2014 and are collected with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Muskingum County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which were measurable as of June 30, 2015, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and is reflected as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflow of resources for property taxes.

The amount available as an advance at June 30, 2015, was \$1,408,423. \$1,266,130 was available to the general fund, \$117,285 was available to the Bond Retirement Debt Service Fund, and \$25,008 was available to the Classroom Facilities Maintenance Special Revenue Fund.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The amount available as an advance at June 30, 2014, was \$1,497,752. \$1,352,854 was available to the General Fund, \$118,329 was available to the Bond Retirement Debt Service Fund, and \$26,569 was available to the Classroom Facilities Maintenance Special Revenue Fund. On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflow of resources – unavailable revenue.

The assessed values upon which the fiscal year 2015 taxes were collected are:

	2014 Second- Half Collections		2015 First- Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$160,385,000	95.10%	\$160,413,430	95.04%
Public Utility Personal	8,257,120	4.90%	8,373,790	4.96%
Total Assessed Value	\$168,642,120	100.00%	\$168,787,220	100.00%
Tax rate per \$1,000 of assessed valuation	\$39.85		\$39.95	

The increase in the tax rates was due to an adjustment in the bond levy rates. Tax rates are adjusted according to the amount needed for the retirement of debt service.

Note 9 - Receivables

Receivables at June 30, 2015, consisted of property taxes, payment in lieu of taxes, accounts (rent, student fees and tuition), intergovernmental grants, and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property taxes and payment in lieu of taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. The delinquent property taxes amounted to \$670,649 as of June 30, 2015.

A summary of principal items of intergovernmental receivables follows:

	Amounts
<u>Governmental Activities</u>	
Medicaid Reimbursements	\$9,532
E-Rate Monies	417,060
State Foundation Adjustment	6,771
School Employees Retirement System Refund	116,866
Preschool Grant	10,661
Race to the Top Grant	23,865
Title VI-B Grant	110,557
Title I Grant	177,067
Teacher Incentive Fund Grant	134,269
21st Century Grant	39,231
Miscellaneous Refunds and Reimbursements	1,650
Motor Fuel Tax Refund	2,312
Total	\$1,049,841

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

On May 4, 2006, Muskingum County entered into an Enterprise Zone Compensation Agreement with Coconis Furniture, Inc. for the purpose of acquiring land, constructing a new distribution center, purchasing machinery and equipment, furniture and fixtures, and acquiring inventory. To encourage these improvements, the property owner was granted a 100 percent exemption from paying real and personal property taxes on the new construction; however, the property owner is required to make payment in lieu of taxes. The School District has agreed to this project and was being made whole for lost real and personal property taxes by receiving payments in lieu of taxes in an amount equal to the real and personal property taxes that otherwise would have been due each year, pursuant to the financing agreement. Subsequent to the phase out of tangible personal property taxes, the School District will continue to receive payments in lieu of taxes in an amount equal to real property taxes that otherwise would have been due each year. The property owner makes payment in lieu of taxes to Muskingum County which is distributed to the School District. These payments are being used to finance improvements and will continue over ten years.

Note 10 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2015, was as follows:

	Balance June 30, 2014	Additions	Deletions	Balance June 30, 2015
Nondepreciable Capital Assets				
Land	\$756,108	\$0	\$0	\$756,108
Depreciable Capital Assets				
Land Improvements	4,587,978	0	0	4,587,978
Buildings and Improvements	38,719,223	0	0	38,719,223
Furniture and Equipment	4,700,871	12,059	0	4,712,930
Vehicles	1,508,330	91,756	(49,840)	1,550,246
Total at Historical Cost	<u>49,516,402</u>	<u>103,815</u>	<u>(49,840)</u>	<u>49,570,377</u>
Less Accumulated Depreciation				
Land Improvements	(1,629,965)	(168,337)	0	(1,798,302)
Buildings and Improvements	(12,760,019)	(950,664)	0	(13,710,683)
Furniture and Equipment	(3,416,295)	(243,212)	0	(3,659,507)
Vehicles	(1,107,494)	(107,534)	49,840	(1,165,188)
Total Accumulated Depreciation	<u>(18,913,773)</u>	<u>(1,469,747) *</u>	<u>49,840</u>	<u>(20,333,680)</u>

Governmental Activities Capital Assets, Net	<u>\$31,358,737</u>	<u>(\$1,365,932)</u>	<u>\$0</u>	<u>\$29,992,805</u>

*Depreciation expense was charged to governmental functions as follows:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Instruction:	
Regular	\$508,949
Special	230,557
Vocational	15,311
Support Services:	
Pupils	30,736
Instructional Staff	16,851
Administration	109,378
Fiscal	17,011
Operation and Maintenance	92,129
Pupil Transportation	107,534
Extracurricular	163,199
Food Service Operations	<u>178,092</u>
Total Depreciation Expense	<u>\$1,469,747</u>

Note 11 – Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2015, the School District contracted with Liberty Mutual Insurance – The Netherlands Insurance Company through the Young Insurance Agency, for property, electronic equipment, commercial articles, valuable papers, crime insurance, general liability insurance, fleet insurance, and builder’s risk insurance. Coverage provided is as follows:

Building and Contents-replacement cost (\$5,000 deductible)	\$75,493,136
Employee Benefit Liability (\$1,000 deductible)	
Per occurrence	1,000,000
Aggregate Per Year	3,000,000
Employers Liability	1,000,000
Employers Liability Aggregate	2,000,000
Flood	1,000,000
Fleet Insurance	1,000,000
Uninsured Motorists	1,000,000
General Liability	1,000,000
Medical Expense Per Person	15,000
Products/Completed Operations Aggregate Limit	2,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

For fiscal year 2015, the School District participated in the Better Business Bureau of Central Ohio Incorporated Workers’ Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 19). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers’ compensation experience of the participating members is calculated as one experience and a common premium rate is applied to all members in the GRP. Each participant pays its workers’ compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to members that can meet the GRP’s selection criteria. The firm of Sheakley provides administrative, cost control, and actuarial services to the GRP.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Medical, dental, and vision insurance is offered to employees through a Self-Insurance Internal Service Fund. Monthly premiums are paid to the fiscal agent who in turn pays the claims on the School District's behalf. The claims liability of \$299,374 reported in the Internal Service Fund at June 30, 2015, is based on an estimate provided by the third party administrator. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. The School District purchased an aggregate stop-loss coverage policy in the amount of \$100,000 annually.

Changes in claims activity for the past two fiscal years are as follows:

	<u>Balance at Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2014	\$183,000	\$3,330,175	\$3,187,175	\$326,000
2015	326,000	2,979,393	3,006,019	299,374

Note 12 – Defined Benefit Pension Plans

A. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$382,469 for fiscal year 2015. Of this amount \$43,482 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The School District's contractually required contribution to STRS was \$1,238,644 for fiscal year 2015. Of this amount, \$152,771 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$4,755,718	\$21,906,964	\$26,662,682
Proportion of the Net Pension Liability	0.093969%	0.09006516%	
Pension Expense	\$282,233	\$835,630	\$1,117,863

At June 30, 2015, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$40,476	\$210,902	\$251,378
School District contributions subsequent to the measurement date	<u>382,469</u>	<u>1,238,644</u>	<u>1,621,113</u>
Total Deferred Outflows of Resources	<u>\$422,945</u>	<u>\$1,449,546</u>	<u>\$1,872,491</u>
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	<u>\$771,866</u>	<u>\$4,052,871</u>	<u>\$4,824,737</u>

\$1,621,113 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2016	(\$182,745)	(\$960,492)	(\$1,143,237)
2017	(182,745)	(960,492)	(1,143,237)
2018	(182,745)	(960,492)	(1,143,237)
2019	<u>(183,155)</u>	<u>(960,493)</u>	<u>(1,143,648)</u>
Total	<u>(\$731,390)</u>	<u>(\$3,841,969)</u>	<u>(\$4,573,359)</u>

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$6,784,996	\$4,755,718	\$3,048,919

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013 or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males’ ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease	Current	1% Increase
	(6.75%)	Discount Rate (7.75%)	(8.75%)
School District's proportionate share of the net pension liability	\$31,362,207	\$21,906,964	\$13,911,010

B. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System / State Teachers Retirement System. As of June 30, 2015, no members of the Board of Education elected Social Security. The Board's liability is 6.2 percent of wages paid.

Note 13 – Postemployment Benefits

A. School Employee Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the School District's surcharge obligation was \$49,756.

The School District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013, were \$77,853, \$50,240, and \$47,465, respectively. For fiscal year 2015, 29.54 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2014 and 2013.

B. State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$92,513, and \$99,228 respectively. The full amount has been contributed for fiscal years 2015, 2014, and 2013.

Note 14 – Employee Benefits

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Unused vacation time at the end of a fiscal year is not accumulated or carried forward to the next fiscal year. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 249 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 62 days.

B. Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Assurant Employee Benefits in the amount of \$20,000 for all employees enrolled.

C. Retirement Incentive

Upon reaching 30 years of retirement credit in the State Teachers Retirement System (STRS), teachers become eligible to receive a \$10,000 retirement bonus (incentive), providing they retire in their 30th year. The benefit will be paid in a lump sum payment in January following the effective fiscal year of retirement.

During fiscal year 2015, the School District paid \$20,000 in retirement incentives that were accrued as liabilities at June 30, 2014. At June 30, 2015, there were no retirement incentives accrued as a liability to be paid in fiscal year 2016.

Note 15 – Capitalized Leases

The School District has entered into capitalized leases for copiers, computers, chiller, and an athletic facility. During fiscal year 2015, the School District entered into a new lease for Chromebooks. These leases meet the criteria of a capital lease which is when a lease transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the basic financial statements. The new computer equipment (Chromebooks) acquired by lease in the amount of \$58,330 have not been capitalized because each Chromebook is under the capital asset threshold but a capital lease payable has been recorded in the government-wide statements.

The agreements provide for minimum annual rental payments as follows:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Year	Principal	Interest	Total
2016	\$293,318	\$33,091	\$326,409
2017	253,547	44,487	298,034
2018	66,274	1,560	67,834
Total	<u>\$613,139</u>	<u>\$79,138</u>	<u>\$692,277</u>

The capitalized leased assets, equipment and athletic facility, were originally capitalized in the amount of \$2,243,392. This amount represents the present value of the minimum lease payments at the time of acquisition. Principal payments in fiscal year 2015 totaled \$526,056 in the governmental funds.

Property under Capital Lease	\$2,243,392
Less: Accumulated Depreciation	<u>(488,842)</u>
Total June 30, 2015	<u>\$1,754,550</u>

Note 16 – Long-Term Obligations

The changes in the School District’s long-term obligations during fiscal year 2015 were as follows:

	Principal Outstanding 6/30/2014	Additions	Deductions	Principal Outstanding 6/30/2015	Due in One Year
School Facilities Improvement					
General Obligation Bonds					
Serial Bonds - 2000 - 3.80%-6.35%	\$735,000	\$0	\$230,000	\$505,000	\$245,000
School Improvement Refunding					
General Obligation Bonds					
Term Bonds - 2007 - 5.25%	1,580,000	0	0	1,580,000	0
Bond Premium	87,464	0	10,933	76,531	0
Total Long-Term Bonds	<u>2,402,464</u>	<u>0</u>	<u>240,933</u>	<u>2,161,531</u>	<u>245,000</u>
Net Pension Liability:					
STRS	26,095,432	0	4,188,468	21,906,964	0
SERS	5,588,035	0	832,317	4,755,718	0
Total Net Pension Liability	<u>31,683,467</u>	<u>0</u>	<u>5,020,785</u>	<u>26,662,682</u>	<u>0</u>
Capital Leases	1,080,865	58,330	526,056	613,139	293,318
Compensated Absences Payable	1,265,096	123,790	127,813	1,261,073	82,641
Total General Long-Term Obligations	<u>\$36,431,892</u>	<u>\$182,120</u>	<u>\$5,915,587</u>	<u>\$30,698,425</u>	<u>\$620,959</u>

2000 School Facilities General Obligation Bonds - On September 1, 1999, the School District issued \$4,732,000 in variable interest rate School Facilities Improvement Bonds. The bond proceeds represented the local share for the School District’s construction of a new school campus which will house all students pursuant to the approval of a \$32,022,957 school facilities grant through the Ohio School Facilities Commission. The bond issue included serial and term bonds in the amount of \$3,137,000 and \$1,595,000 respectively. During fiscal year 2007, the School District advance refunded \$585,000 of the

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

serial bonds, and \$1,595,000 of the term bonds. The advance refunded portion of the bonds was removed from the financial statements of the School District. The remaining outstanding bonds are being retired from the debt service fund. The original bonds were issued for a twenty-three period with a final maturity at December 1, 2022, and after the advance refunding continue to have a final maturity at December 1, 2022.

Principal and interest requirements to retire general obligation bonds for the outstanding 2000 School Facilities Improvement Bonds outstanding at June 30, 2015 are as follows:

Fiscal Year Ending June 30,	Principal	Interest
2016	\$245,000	\$24,289
2017	260,000	8,255
Total	\$505,000	\$32,544

2007 School Improvement Refunding General Obligation Bonds – The School District had previously issued 2000 School Facilities Improvement General Obligation Bonds for school improvements that were partially refunded through the 2007 School Improvement Refunding General Obligation Bonds. At the date of refunding, \$2,311,754 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded 2000 School Facilities Improvement General Obligation Bonds. As all of the legal steps had been taken to refund the debt, the balance of the outstanding bonds refunded was removed from the School District’s financial statements. On December 1, 2009, the 2007 school improvement refunding general obligation bonds were called and paid in full and the escrow account was closed.

On August 16, 2006, the School District issued \$2,170,000 of School Improvement Refunding General Obligation Bonds that were issued to partially refund the 2000 School Facilities Improvement General Obligation Bonds. The bonds were issued for a sixteen year period with a final maturity at December 1, 2021. The \$2,170,000 School Improvement Refunding General Obligation Bonds were issued at a premium in the amount of \$174,936. Issuance costs associated with the bond were \$33,182. The partial advance refunding resulted in a difference between the net carrying amount of the debt and the acquisition price, in the amount of \$131,754. This difference is being reported in the accompanying financial statements as deferred outflows of resources – deferred charge on refunding and is being amortized to interest expense over the life of the bonds using the straight-line method. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to services the new debt of \$151,035. The issuance resulted in a total economic gain of \$121,468.

Principal and interest requirements to the 2007 School Improvement Refunding General Obligation Bonds outstanding at June 30, 2015 are as follows:

Fiscal Year Ending June 30,	Principal	Interest
2016	\$0	\$82,950
2017	0	82,950
2018	285,000	75,469
2019	300,000	60,113
2020	310,000	44,100
2021-2022	685,000	36,618
Total	\$1,580,000	\$382,200

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The School District's overall legal debt margin was \$13,629,905 with an unvoted debt margin of \$168,787 at June 30, 2015.

Capital leases are paid from the general fund and the classroom facilities maintenance special revenue fund. Compensated absences are paid from the fund from which the employees' salaries are paid, which includes the General Fund and Lunchroom Special Revenue Funds. The School District pays obligations related to employee compensation from the fund benefitting from their service. For additional information related to the net pension liability, see Note 12.

Note 17 – Interfund Activity

Interfund balances at June 30, 2015, consist of the following individual fund receivables and payables:

	Receivable	Payable
Major Fund:		
General Fund	\$205,572	\$0
Other Nonmajor Governmental Funds:		
Food Service	0	2,196
Latchkey	0	176
Preschool Grant	0	123
Race to the Top Grant	0	17,571
Title VI-B	0	24,051
Title I	0	40,069
Title VI-R	0	87,760
Miscellaneous Federal Grants	0	33,626
Total Other Nonmajor Governmental Funds	0	205,572
Total All Funds	\$205,572	\$205,572

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed.

Note 18- Jointly Governed Organizations

A. Licking Area Computer Association

The School District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association which services over thirty entities within the boundaries of Licking, Muskingum, Fairfield, Perry, Knox, and Medina Counties. These entities consist of public school districts and educational service centers. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of the superintendents from all participating districts. The continued existence of LACA is not dependent on the School District's continued participation and no equity interest exists.

The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The School District's total payments to

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

LACA for computer services for fiscal year 2015 were \$68,365. The fiscal agent for LACA is the Career and Technology Education Centers of Licking County. Financial statements for LACA can be obtained from 150 South Quentin Road, Newark, OH 43055.

B. Mid-East Career and Technology Centers

The Mid-East Career and Technology Center is a jointly governed organization providing vocational education services to its fourteen member school districts. The Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one member from each of the participating school district's boards. The board possesses its own budgeting and taxing authority. The continued existence of the Center is not dependent on the School District's continued participation and no equity interest exists. During fiscal year 2015, the School District made no contributions to the Center. To obtain financial information write to the Mid-East Career and Technology Center, Rick White, Treasurer, at 400 Richards Road, Zanesville, Ohio 43701.

C. Coalition of Rural and Appalachian Schools

The Coalition of Rural and Appalachian Schools is a jointly governed organization composed of 136 school districts and other educational institutions in the 35-county region of Ohio designated as Appalachia. The Coalition is operated by a Board which is composed of seventeen members. One elected and one appointed from each of the seven regions into which the 35 Appalachian counties are divided; and three from Ohio University College of Education. The Coalition provides various in-service training programs for school district administrative personnel; gathers data regarding the level of education provided to children in the region; cooperates with other professional groups to assess and develop programs designed to meet the needs of member districts; and provides staff development programs for school district personnel. The Coalition is not dependent on the continued participation of the School District and the School District does not maintain an equity interest in or financial responsibility for the Coalition. During fiscal year 2015, the School District made no contributions to the Coalition. The financial information for the Coalition can be obtained from the Executive Director, at McCracken Hall, Ohio University, Athens, Ohio 45701.

Note 19 – Insurance Purchasing Pools

A. Better Business Bureau of Central Ohio Incorporated Workers' Compensation Group Rating Program

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Better Business Bureau of Central Ohio Incorporated Workers' Compensation Group Rating Program (Program), an insurance purchasing pool established through the Better Business Bureau of Ohio, Incorporated. The Program's business and affairs are conducted by the President and CEO of the Better Business Bureau. Each year, the participants pay an enrollment fee to the Program to cover the costs of administering the program.

B. Ohio School Benefits Cooperative

The School District participates in the Ohio School Benefits Cooperative, a claims servicing and group purchasing pool comprised of fifteen members. The Ohio School Benefits Cooperative (OSBC) is created and organized pursuant to and as authorized by Section 9.833 of the Ohio Revised Code. OSBC is governed by a nine member Board of Directors, all of whom must be school district and/or educational service center administrators. The Muskingum Valley Educational Service Center serves as the fiscal agent for OSBC. OSBC is an unincorporated, non-profit association of its members which was created for

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

the purpose of enabling members of the Plan to maximize benefits and/or reduce costs of medical, prescription drug, vision, dental, life and/or other group insurance coverage for their employees, and the eligible dependents and designated beneficiaries of such employees.

Participants pay a \$500 membership fee to OSBC. OSBC offers two options to participants. Participants may enroll in the joint insurance purchasing program for medical, prescription drug, vision dental and/or life insurance. A second option is available for self-insured participants that provides for the purchase of stop loss insurance coverage through OSBC's third party administrator. Medical Mutual/Antares is the Administrator of the OSBC. On November 1, 2005, the School District elected to participate in the self-insured purchasing program for medical, prescription drug, dental, and vision coverage.

Note 20 – Contingencies

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2015.

B. School Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the School District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 foundation funding for the School District, therefore, any financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or a liability of the School District.

C. Litigation

The School District is currently not a party to any material legal proceedings.

Note 21 – Set-Aside Calculations and Fund Reserves

The School District is required by State statute to annually set-aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set-aside amounts for capital improvements. Disclosure of this information is required by State statute.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

	Capital Improvements Reserve
Set-aside Reserve Balance as of June 30, 2014	\$0
Current Year Set-aside Requirement	376,917
Current Year Offsets	(366,528)
Qualifying Disbursements	(52,050)
Total	(\$41,661)
Set-aside Balance Carried Forward to Future Fiscal Years	\$0

The School District had qualifying disbursements and offsets during the fiscal year that reduced the set-aside amount below zero. The excess in the capital maintenance set-aside may not be carried forward to reduce the set-aside requirement in future years.

Note 22 – Significant Commitments

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds:	
General Fund	\$12,324
Classroom Facilities Maintenance	136,507
Nonmajor Governmental Funds	44,203
Total	\$193,034

Note 23 – Foxfire Intermediate School and Foxfire High School Component Units

A. Basis of Presentation

The Foxfire Intermediate School and the Foxfire High School are accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities are included on the statement of net assets. The Foxfire Intermediate School and the Foxfire High School use the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized at the time they are incurred.

B. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Foxfire Intermediate School and Foxfire High School's financial statements are prepared using the accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Revenue resulting from nonexchange transactions, in which the Foxfire Intermediate School and Foxfire High School receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Foxfire Intermediate School and Foxfire High School must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Foxfire Intermediate School and Foxfire High School on a reimbursement basis. Expenses are recognized at the time they are incurred.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Foxfire Intermediate School and Foxfire High School, deferred outflows of resources are reported on the statement of net position for pension.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Foxfire Intermediate School and Foxfire High School, deferred inflows of resources include pension. These amounts have been recorded as a deferred inflow on the statement of net position. Deferred inflows of resources related to pension are reported on the statement of net position.

C. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

D. Changes in Accounting Principles

For fiscal year 2015, the Foxfire Intermediate School and Foxfire High School have implemented Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions," and Statement No. 71, "Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68." GASB Statement No. 68 establishes standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported June 30, 2014:

Foxfire Intermediate School:

Net Position June 30, 2014	\$34,217
Adjustments:	
Net Pension Liability	(1,378,538)
Deferred Outflow - Payments Subsequent to Measurement Date	<u>84,422</u>
Restated Net Position June 30, 2014	<u><u>(\$1,259,899)</u></u>

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Foxfire High School:

Net Position June 30, 2014	\$536,657
Adjustments:	
Net Pension Liability	(2,777,629)
Deferred Outflow - Payments Subsequent to Measurement Date	141,561
Restated Net Position June 30, 2014	(\$2,099,411)

Other than employer contributions subsequent to the measurement date, the High School made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

E. Capital Assets

Property and equipment are recorded at cost if purchased or at estimated fair market value at the date of donation. Expenditures for major additions and improvements are capitalized. Minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method. The Foxfire Intermediate School and the Foxfire High School report capital asset depreciation using the straight-line method over the estimated useful life.

The Foxfire Intermediate School's capital assets consisted of equipment valued at \$188,618 with accumulated depreciation of \$96,962 and a remaining book value of \$91,656.

The Foxfire High School's capital assets consisted of equipment valued at \$147,788 with accumulated depreciation of \$44,961 and a remaining book value of \$102,827.

F. Related Party Transactions

The Board of Directors of the Foxfire Intermediate School consists of five community members recommended by the Executive Director of the Foxfire Intermediate School after consulting with Maysville Local School District's (Sponsor) Superintendent. The Foxfire Intermediate School is presented as a component unit of the Sponsor. During fiscal year 2015, the Foxfire Intermediate School paid the Sponsor \$192,480 for rent, utilities, and other support services provided to the Foxfire Intermediate School. As of June 30, 2015, there were no amounts owed by the Foxfire Intermediate School to the Sponsor. The Foxfire Intermediate School is located in a portion of facilities previously utilized by the Sponsor.

The Board of Directors of the Foxfire High School consists of five community members recommended by the Executive Director of the Foxfire High School after consulting with Maysville Local School District's (Sponsor) Superintendent. The Foxfire High School is presented as a component unit of the Sponsor. During fiscal year 2015, \$414,336 was paid to the Sponsor for rent, utilities, and other support services provided to the Foxfire High School. The Foxfire High School is located in a portion of facilities previously utilized by the Sponsor. As of June 30, 2015, there were no outstanding expenses owed to the sponsor.

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

G. Defined Benefit Pension Plans

Net Pension Liability

The Foxfire Intermediate School's contractually required contribution to SERS was \$21,393 for fiscal year 2015. Of this amount \$2,272 is reported as an intergovernmental payable. The Foxfire Intermediate School's contractually required contribution to STRS was \$92,764 for fiscal year 2015. Of this amount \$39,488 is reported as an intergovernmental payable.

The Foxfire High School's contractually required contribution to SERS was \$50,772 for fiscal year 2015. Of this amount \$4,156 is reported as an intergovernmental payable. The Foxfire High School's contractually required contribution to STRS was \$96,905 for fiscal year 2015. Of this amount \$8,193 is reported as an intergovernmental payable.

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Foxfire Intermediate School and Foxfire High School's proportion of the net pension liability was based on the Intermediate School's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Foxfire Intermediate School:

	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$222,480	\$1,151,577	\$1,374,057
Proportion of the Net Pension Liability	0.004396%	0.00473443%	
Pension Expense	\$19,127	\$93,286	\$112,413

Foxfire High School:

	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$621,382	\$1,718,861	\$2,340,243
Proportion of the Net Pension Liability	0.012278%	0.00706668%	
Pension Expense	\$33,622	\$67,564	\$101,186

At June 30, 2015, the Foxfire Intermediate School and Foxfire High School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Foxfire Intermediate School:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$1,894	\$11,086	\$12,980
Changes in proportionate share of contributions	21,482	182,221	203,703
School District contributions subsequent to the measurement date	21,393	92,764	114,157
Total Deferred Outflows of Resources	\$44,769	\$286,071	\$330,840
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$36,109	\$213,046	\$249,155

\$114,157 reported as deferred outflows of resources related to pension resulting from the Foxfire Intermediate School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2016	(\$3,178)	(\$4,935)	(\$8,113)
2017	(3,178)	(4,935)	(8,113)
2018	(3,179)	(4,935)	(8,114)
2019	(3,198)	(4,934)	(8,132)
Total	(\$12,733)	(\$19,739)	(\$32,472)

Foxfire High School:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$5,289	\$16,548	\$21,837

Total Deferred Outflows of Resources	\$56,061	\$113,453	\$169,514
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$100,852	\$317,996	\$418,848

\$147,677 reported as deferred outflows of resources related to pension resulting from the Foxfire High School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Maysville Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2016	(\$23,878)	(\$75,362)	(\$99,240)
2017	(23,878)	(75,362)	(99,240)
2018	(23,878)	(75,362)	(99,240)
2019	(23,929)	(75,362)	(99,291)
Total	<u>(\$95,563)</u>	<u>(\$301,448)</u>	<u>(\$397,011)</u>

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

Foxfire Intermediate School (SERS):

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$317,411	\$222,480	\$142,633

Foxfire High School (SERS):

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$886,528	\$621,382	\$398,372

The following table presents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

Foxfire Intermediate School (STRS):

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$1,648,608	\$1,151,577	\$731,256

Foxfire High School (STRS):

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$2,460,737	\$1,718,861	\$1,091,484

**MAYSVILLE LOCAL SCHOOL DISTRICT
MUSKINGUM COUNTY**

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the School District's federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B – CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at entitlement value. The School District allocated donated food commodities to the respective program that benefited from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Maysville Local School District
Muskingum County
3715 Panther Drive
Zanesville, Ohio 43701

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Maysville Local School District, Muskingum County, Ohio (the School District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 24, 2016. We noted the School District adopted Governmental Accounting Standards Board Statement (GASB) No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Maysville Local School District
Muskingum County
3715 Panther Drive
Zanesville, Ohio 43701

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Maysville Local School District's, Muskingum County, Ohio (the School District), compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the School District's major federal program for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal program.

Management's Responsibility

The School District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on the Major Federal Program

In our opinion, the School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
