## INDEPENDENT AUDITOR'S REPORT

Gallia County Local School District  
Gallia County  
4836 State Route 325  
Patriot, Ohio 45658

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Gallia County Local School District, Gallia County, Ohio (the School District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Gallia County Local School District, Gallia County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, and Schedules of Net Pension Liabilities and Pension Contributions listed in the Table of Contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards (the Schedule) presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The Schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this Schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated May 1, 2017, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

**Gallia County Local School District**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2016*  
*(Unaudited)*

---

The discussion and analysis of the Gallia County Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for the fiscal year 2016 are as follows:

- Net position of governmental activities decreased \$361,703.
- General revenues accounted for \$26,990,141 in revenue or 81% of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$6,426,629 or 19% of total revenues of \$33,416,770.
- The School District had \$33,778,473 in expenses related to governmental activities; only \$6,426,629 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$26,990,441 were not adequate to provide for these programs.
- The School District has three major funds: the General Fund, the Bond Retirement Fund, and the Permanent Improvement Capital Projects Fund. All governmental funds had total revenue and other financing sources in the amount of \$36,024,558 and expenditures and other financing uses in the amount of \$35,619,796.

**USING THIS ANNUAL FINANCIAL REPORT**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Gallia County Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The statement of net position and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look as the School District's most significant funds with all other non-major funds presented in total in one column.

***Reporting the School District as a Whole***

*Statement of Net Position and Statement of Activities*

While this document contains information about the large number of funds used by the School District to provide programs and activities for students, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2016?" The statement of net position and the statement of activities answer this question. These statements include all assets, liabilities, and deferred inflows/outflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

**Gallia County Local School District**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2016*  
*(Unaudited)*

---

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net position and the statement of activities, all of the School District's programs and services are reported as governmental activities including instruction, support services, operation of non-instructional services, and extracurricular activities.

***Reporting the School District's Most Significant Funds***

*Fund Financial Statements*

The analysis of the School District's major funds begins on page 10. Fund financial statements provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, the Bond Retirement Debt Service Fund, and the Permanent Improvement Capital Projects Fund.

**Governmental Funds.** Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

**Proprietary Funds.** The School District's only proprietary fund is an internal service fund. Since the internal service fund operates on a break-even, cost-reimbursement basis, the School District reports it as a proprietary fund using the full accrual basis of accounting. Since the internal service fund exclusively benefits governmental functions, it has been included with governmental activities in the government-wide financial statements. The School District's Internal Service Fund was previously used to account for excess coverage for claims in excess of contract amounts for medical, life and dental benefits. The balance remaining in the fund is being utilized to pay administrative costs for the School District's Flexible Spending Account.

**Fiduciary Funds.** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide statements.

The School District's fiduciary funds are an agency fund, which is used to maintain financial activity of the School District's student managed activities, and a private purpose trust fund, which is used to maintain the financial activity of the School District's scholarship funds.

**THE SCHOOL DISTRICT AS A WHOLE**

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2016 compared to 2015.

Table 1  
Net Position

	Governmental Activities	
	2016	2015
<b>Assets:</b>		
Current and Other Assets	\$ 35,449,985	\$ 33,584,686
Capital Assets, Net	52,513,489	52,604,869
Total Assets	87,963,474	86,189,555
<b>Deferred Outflows of Resources:</b>		
Pensions	3,750,952	2,083,526
Unamortized Deferred Amount on Refunding	2,196,136	2,321,630
Total Deferred Outflows of Resources	5,947,088	4,405,156
<b>Liabilities:</b>		
Current and Other Liabilities	3,421,648	2,673,424
Long-Term Liabilities:		
Due Within One Year	2,851,405	1,637,028
Due in More than One Year:		
Net Pension Liabilities	31,016,361	26,730,944
Other Amounts	41,734,176	41,143,679
Total Liabilities	79,023,590	72,185,075
<b>Deferred Inflows of Resources:</b>		
Pensions	2,100,085	5,021,339
Property Taxes not Levied to Finance Current Year Operations	14,646,954	14,886,661
Total Deferred Inflows of Resources	16,747,039	19,908,000
<b>Net Position:</b>		
Net Investment in Capital Assets	12,771,900	13,192,061
Restricted	13,434,834	11,343,685
Unrestricted	(28,066,801)	(26,034,110)
Total Net Position	\$ (1,860,067)	\$ (1,498,364)

Many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

**Gallia County Local School District**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2016*  
*(Unaudited)*

---

Under the new standards required by GASB 68, the net pension liability equals the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

Total net position of the School District decreased in the amount of \$361,703. The increase to current and other assets is primarily due to increases in cash and cash equivalents, accounts receivable, and prepaid items. These increases are due to the issuance of Qualified Zone Academy Bonds (QZAB) and from private contributions to purchase software licensing for the Science, Technology, Engineering and Mathematics Academy. Capital assets, net decreased due to current year depreciation expense and deletions, which were partially offset by current year additions. Deferred outflows of resources increased primarily due to pension activity.

Current and other liabilities increased primarily to increases in contracts and accrued wages and benefits payable, which were partially offset by decreases in matured compensated absences payable and accrued interest payable. Long-term liabilities increased primarily due to net pension liabilities and the issuance of Qualified Zone Academy Bonds (QZAB), which were partially offset by principal payments on debt obligations.

Deferred inflows of resources decreased primarily due to pension activity.

**Gallia County Local School District**  
*Management's Discussion and Analysis*  
For the Fiscal Year Ended June 30, 2016  
(Unaudited)

Property tax revenue increased as a result of increased tax assessed valuations. Grants and entitlements not restricted increased due to increased State foundation funding. Regular instruction increased due to an increase in salaries and a change in account coding by the School District for open enrollment and community school monies received through foundation payments. The change in account coding also resulted in the decrease in other instruction. Special instruction increased due to preschool services provided.

The Statement of Activities shows the cost of program services and the charges for services, grants, and contributions. Table 3 shows the total cost of services and the net cost of services for 2016 as compared with 2015. That is, it identifies the cost of those services supported by tax revenue and unrestricted state entitlements.

<b>Total</b>	<b>\$33,778,473</b>	<b>\$27,351,844</b>	<b>\$31,591,068</b>	<b>\$25,287,428</b>

**THE SCHOOL DISTRICT'S FUNDS**

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The most significant increase in fund balance was in the Permanent Improvement Fund in the amount of \$1,276,572 primarily due to the issuance of Quality Zone Assurance Bonds.

The Bond Retirement Fund had an increase in fund balance in the amount of \$1,131,704 primarily due to property tax monies received exceeding the retirement of bonds and interest and fiscal charges. The Bond Retirement Fund had \$4,333,137 in revenues and \$3,201,433 in expenditures.

The General Fund had a decrease of \$1,665,469. The General Fund had \$24,486,597 in revenues and other financing sources and \$26,152,066 in expenditures and other financing uses.

**Gallia County Local School District**  
*Management's Discussion and Analysis*  
For the Fiscal Year Ended June 30, 2016  
(Unaudited)

---

**General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2016, the School District amended its General Fund appropriation budget.

For the General Fund, final appropriations were \$27,901,747, above original estimates of \$27,442,090. This increase was due primarily to increases in regular instruction and operation and maintenance of plant. The difference between final budgeted appropriations and actual expenditures was due to conservative budgeting by the School District. For the General Fund, actual revenues exceeded final estimates in the amount of \$1,337,466 due to intergovernmental revenues.

The School District's ending unobligated General Fund balance was \$4,157,326.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of fiscal year 2016, the School District had \$52,513,489 invested in land and land improvements, construction in progress, buildings and improvements, furniture and equipment, infrastructure, vehicles, and library and textbooks. Table 4 shows fiscal year 2016 balances compared to 2015.

Table 4  
Capital Assets  
(Net of Depreciation)

	Governmental Activities	
	2016	2015
Land and Land Improvements	\$2,380,651	\$3,194,790
Construction in Progress	997,017	176,250
Buildings and Improvements	47,451,965	47,666,700
Furniture and Equipment	816,146	751,136
Infrastructure	46,415	50,439
Vehicles	821,295	765,554
Totals	\$52,513,489	\$52,604,869

Changes in capital assets from the prior year resulted from additions, deletions, and current year depreciation. For additional information on capital assets, see Note 8 to the basic financial statements.

**Debt**

At June 30, 2016, the School District had general obligation and QZAB bonds outstanding of \$38,272,920, excluding the premium of \$3,749,285. The School District also had a capital lease obligation outstanding at year-end totaling \$1,326,866. For additional information on debt, see Note 13 to the basic financial statements.

*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2016*  
*(Unaudited)*

---

**ECONOMIC FACTORS**

Gallia County Local School District is financially stable. As the preceding information shows, the School District depends upon the State School Foundation Program and property taxes for the majority of the School District's revenues. Gallia County Local School District must maintain its current spending habits to maintain its healthy financial situation. The School District is in a low economic growth area, so dependence on local tax revenue must be minimized.

**CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Julia Slone, Treasurer at Gallia County Local School District, 4836 State Route 325, Patriot, Ohio 45658.

**Gallia County Local School District**  
*Reconciliation of Total Governmental Fund Balances to  
 Net Position of Governmental Activities  
 As of June 30, 2016*

---

**Total Governmental Fund Balances** \$ 15,950,204

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. 52,513,489

Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds.

Taxes	660,425
Gifts and Donations	833,000
	<u>1,493,425</u>

Total 1,493,425

The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in the funds.

Deferred outflows of resources related to pensions	3,750,952
Deferred inflows of resources related to pensions	(2,100,085)
Net Pension Liability	<u>(31,016,361)</u>

Total (29,365,494)

An internal service fund is used by management to charge the cost of insurance to individuals. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. 198,387

Long-term liabilities, including bonds, premiums, capital lease obligations, accrued interest payable, unamortized deferred amount on refunding, and the long-term portion of compensated absences, are not due and payable in the current period and therefore are not reported in the funds.

Accrued Interest Payable	(260,633)
Compensated Absences	(1,236,510)
Capital Lease Obligations	(1,326,866)
General Obligation Bonds	(34,945,000)
QZAB Bonds	(3,327,920)
Premium on Bonds	(3,749,285)
Unamortized Deferred Amount on Refunding	<u>2,196,136</u>

Total (42,650,078)

**Net Position of Governmental Activities** \$ (1,860,067)

**Gallia County Local School District**  
*Reconciliation of the Statement of Revenues, Expenditures and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Fiscal Year Ended June 30, 2016*

<b>Net Change in Fund Balances - Total Governmental Funds</b>	\$	404,762
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>		
<p>Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions exceeded depreciation in the current period.</p>		
Capital Asset Additions	2,770,237	
Current Year Depreciation	<u>(2,494,267)</u>	
Total		275,970
<p>Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities a gain or loss is reported for each disposal. These are the amounts of the proceeds from the sale of capital assets and the loss on the disposal of capital assets.</p>		
Proceeds from Sale of Capital Assets	(20,472)	
Loss on Disposal of Capital Assets	<u>(346,878)</u>	
Total		(367,350)
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>		
Taxes	21,507	
Intergovernmental	(28,829)	
Gifts and Donations	<u>833,000</u>	
Total		825,678
<p>Bond proceeds are reported as other financing sources in governmental funds and thus contribute to the change in fund balances. In the government-wide statements, however, issuing debt increases long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.</p>		
		(3,327,920)
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The difference in the amount of interest on the Statement of Activities is the result of the following:</p>		
Amortization of bond premium	259,056	
Amortization of deferred amount on refunding	<u>(125,494)</u>	
Total		133,562
<p>Repayment of long-term debt and capital leases is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current fiscal year, these amounts consist of:</p>		
Bond payments	1,175,000	
Capital lease payments	<u>275,381</u>	
Total		1,450,381
<p>Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.</p>		
		1,950,078
<p>Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.</p>		
		(1,646,815)
<p>The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the government-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.</p>		
		(15,830)
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>		
Increase in Compensated Absences	(186,391)	
Decrease in accrued interest payable	<u>142,172</u>	
Total		<u>(44,219)</u>
<b>Net Change in Net Position of Governmental Activities</b>	<b>\$</b>	<b><u>(361,703)</u></b>

The notes to the basic financial statements are an integral part of this statement.

**NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

**Description of the School District**

Gallia County Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District provides educational services as authorized by State statute and/or federal guidelines. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The Board controls the School District's seven (7) instructional support facilities staffed by 107 non-certificated and 191 certified personnel providing education to approximately 2,561 students.

**Reporting Entity**

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Gallia County Local School District, this includes general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no component units.

The following entities which perform activities within the School District's boundaries for the benefit of its residents are excluded from the accompanying financial statements because the School District is not financially accountable for these entities nor are they fiscally dependent on the School District.

- Parent Teacher Organization
- Booster Club

The School District is associated with six organizations, four of which are defined as jointly governed organizations, one is a risk sharing pool, and one is an insurance purchasing pool. These organizations are the Metropolitan Educational Technology Association (META) Solutions, the Gallia-Jackson-Vinton Joint Vocational School District, the Gallia-Vinton Educational Service Center, the Educational Regional Service System, the Schools of Ohio Risk Sharing Authority, Inc., and the Ohio School Boards Association Workers' Compensation Group Rating Plan. These organizations are presented in Notes 14, 15 and 19 to the basic financial statements.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***A. Basis of Presentation***

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

***Government-wide Financial Statements*** The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for the fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program; and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

***Fund Financial Statements*** During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Proprietary and fiduciary funds are reported by type.

***B. Fund Accounting***

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The funds used by the School District can be classified using three categories: governmental, proprietary, and fiduciary.

***Governmental Funds*** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities plus deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

***General Fund*** The General Fund is the operating fund of the School District and is used to account for all financial resources not accounted for and reported in another fund. The General Fund is available to the School District for any purpose provided it is expended or transferred according to the school laws of Ohio.

***Bond Retirement Fund*** The Bond Retirement Fund is a fund provided for the retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans, shall be paid into this fund. The primary source of revenue for this fund is property tax revenue.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Permanent Improvement Capital Projects Fund*** The Permanent Improvement Capital Projects Fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

***Proprietary Funds*** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

***Internal Service Fund*** The Internal Service Fund was used to provide excess coverage for claims in excess of contract amounts for medical, life, and dental benefits provided to employees. As of June 30, 2016 the fund had no claims to process. The remaining net position of \$198,387 is surplus left in the fund and is being utilized to pay administration fees of the School District's Flex Spending Account.

***Fiduciary Fund Type*** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's fiduciary funds are agency funds, which are used to account for student managed activities and certain payroll clearance items, and a private-purpose trust fund, which is used to account for scholarship awards.

***C. Measurement Focus***

***Government-Wide Financial Statements*** The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities, and deferred inflows/outflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities accounts for increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

***Fund Financial Statements*** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the proprietary fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

The private purpose trust fund is reported using the economic resources measurement focus.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***D. Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unavailable revenue, the presentation of expenses versus expenditures, the recording of deferred outflows of resources related to unamortized deferred amounts on refunding, the recording of deferred inflows and outflows of resources related to net pension liabilities, the recording of net pension liabilities, and the presentation of expenses versus expenditures.

***Revenues - Exchange and Non-Exchange Transactions*** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, investment earnings, tuition, grants, fees, and rentals.

**Deferred Outflows and Deferred Inflows of Resources**

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditures/expenses) until then. The School District recorded a deferred outflow of resources for the unamortized portion of the deferred amount on refunding of bonds as of June 30, 2016 and for pensions. The deferred outflows of resources related to the pension are explained in Note 10. The School District also reports a deferred inflow of resources which represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenues) until that time. For the School District these amounts consist of taxes and donations which are not collected in the available period and pensions. The difference between deferred inflows on the Statement of Net Position and the Balance Sheet is partially due to delinquent property taxes not received during the available period. These were reported as revenues on the Statement of Activities and not recorded as deferred inflows on the Statement of Net Position. Deferred inflows of resources related to pension are only reported on the Statement of Net Position. (See Note 10)

***Expenses/Expenditures*** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***E. Budgetary Process***

All funds, other than the agency fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer maintains budgetary information at the fund and object level and has the authority to allocate appropriations at the function and object level without resolution by the Board.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statement reflect amounts in the certificate of estimated resources at the time the permanent appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statement reflect the amounts in the amended certificate in effect when final appropriations for the fiscal year were passed.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts are to reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

***F. Cash, Cash Equivalents and Investments***

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool or temporarily used to purchase short term investments. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash, Cash Equivalents and Investments" on the financial statements.

During fiscal year 2016, investments were limited to certificates of deposit.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund amounted to \$37,161 and \$14,130 to the Other Governmental Funds.

For purposes of the presentation on the financial statements, investments of a cash management pool or investments with an original maturity of three months or less at the time they are purchased by the School District would be considered to be cash equivalents.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***G. Capital Assets***

The School District's only capital assets are general capital assets. General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	5 years
Buildings and Improvements	20-50 years
Furniture and Equipment	8-20 years
Vehicles	10 years
Infrastructure	50 years
Library and Textbooks	5-15 years

***H. Interfund Activity***

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund transfers within governmental activities are eliminated on the statement of activities.

***I. Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees after 10 years of current service with the School District.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The entire compensated absences liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account “matured compensated absences payable” in the fund from which the employee will be paid.

***J. Accrued Liabilities and Long-term Obligations***

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and net pension liabilities that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital leases are recognized as a liability on the governmental fund financial statements when due.

***K. Fund Balance***

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

***Restricted*** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

***Committed*** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

***Assigned*** Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by policies of the School District Board of Education.

***Unassigned*** Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***L. Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***M. Net Position***

Net position represents the difference between assets, liabilities, and deferred inflows/outflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

The government-wide statement of net position reports \$13,434,834 restricted net position, none of which is restricted by enabling legislation.

***N. Interfund Assets/Liabilities***

Short-term interfund loans are classified as “interfund receivables” and “interfund payables”. These amounts are eliminated in the governmental activities column of the statement of net position.

***O. Operating Revenues and Expenses***

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. The School District did not have any operating revenues during the current fiscal year. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are presented as nonoperating revenues/expenses.

***P. Unamortized Bond Issuance Costs/Bond Premium and Discount***

On the government-wide financial statements, bond issuance costs are recorded as expenses on the statement of activities. The School District incurred bond issuance costs related to the 2014 School Improvement refunding bonds during the current year. Bond premiums are deferred and amortized over the term of the bonds using the straight line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

On the governmental fund financial statements, bond issuance costs and bond premiums are recognized as expenditures and other financing sources, respectively.

In the government-wide financial statements, an advance refunding resulting in the defeasance of debt generates an accounting gain or loss calculated by comparing the reacquisition price and the net carrying amount of the old debt. This accounting gain/loss is amortized as interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred inflow/outflow of resources on the Statement of Net Position.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Q. Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

***R. Restricted Assets***

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the Permanent Improvement major fund represent cash held as retainage for contractors.

***S. Prepaid Items***

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

**NOTE 3 – ACCOUNTABILITY**

***Accountability***

At June 30, 2016, the Lunchroom, Restructuring Team Grant, Title VI-B, Early Childhood, and Improving Teacher Quality had deficit fund balances of \$83,352, \$1,947, \$18,997, \$2,102, and \$3,238, respectively, which was created by the application of accounting principles generally accepted in the United States of America. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

**NOTE 4 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The statement of revenues, expenditures, and changes in fund balance - budget and actual (budget basis), presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP (modified accrual) basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a restriction, commitment or assignment of fund balance (GAAP basis); and
4. Funds treated as General Fund equivalents on the GAAP basis are not included on the budget basis.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 4 - BUDGETARY BASIS OF ACCOUNTING (Continued)**

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund.

Net Change in Fund Balance	
General Fund	
GAAP Basis	(\$1,665,469)
Revenue Accruals	849,521
Expenditure Accrual	(483,240)
Perspective Difference:	
Activity of Fund Reclassified for	
GAAP Reporting Purposes	4,658
Encumbrances	<u>(511,034)</u>
Budget Basis	<u><u>(\$1,805,564)</u></u>

**NOTE 5 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demand on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts, including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States treasury notes, bills, bonds, or other obligations of or securities issued by the United States treasury or any other obligation guaranteed as to the payment of principal and interest by the United States;
2. Bonds, notes, debentures, or other obligations of or securities issued by any federal government agency or instrumentality, including, but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 5 - DEPOSITS AND INVESTMENTS (Continued)**

4. Bonds and other obligations of the State of Ohio;
5. Interim deposits in the eligible institutions applying for interim money as provided in section 135.08 of the Revised Code;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Commercial paper notes issued by any entity that is defined in division (D) of section 1705.01 of the Revised Code and has assets exceeding five hundred million dollars, and to which notes are rated at the time of purchase in the highest classification established by at least two standard rating services; the aggregate value of the notes does not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation; the notes mature no later than one hundred eighty days after purchase; and
9. Bankers' acceptances of banks that are members of the federal deposit insurance corporation to which both the obligations are eligible for purchase by the federal reserve system and the obligations mature no later than one hundred eighty days after purchase.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**Deposits:** Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the federal deposit insurance corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

The School District's bank balance of \$18,580,272 is either covered by FDIC or collateralized by the financial institutions' public entity deposit pools in the manner as described above.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half collections are received by the School District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien on December 31, 2014, were levied after April 1, 2015, and are collected in 2016 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The assessed values upon which the fiscal year 2016 taxes were collected for the School District are:

	2015 Second-Half Collections		2016 First-Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$252,029,150	52.76%	\$267,642,830	49.12%
Public Utility	225,731,770	47.24%	277,191,690	50.88%
Total Assessed Value	\$477,760,920	100.00%	\$544,834,520	100.00%
Tax rate per \$1,000 of assessed valuation	\$28.75		\$28.75	

The School District receives property taxes from Gallia and Jackson Counties. The Gallia County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations.

The amount available to be advanced can vary based on the date the tax bills are sent.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 6 - PROPERTY TAXES (Continued)**

Accrued property taxes receivable includes real and public utility taxes which are measurable as of June 30, 2016, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

The amount available as an advance at June 30, 2016 was \$217,354 in the General Fund, \$84,225 in the Bond Retirement Fund, and \$10,868 in the Permanent Improvement Fund and was recognized as revenue for the fiscal year. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue is recorded as deferred inflows of resources.

**NOTE 7 - RECEIVABLES**

Receivables at June 30, 2016 consisted of property taxes, accounts, accrued interest, interfund and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. As a part of the QZAB issuance, the School District has contributions from an outside source in the amount of \$833,000 that is a scheduled to be contributed over a two and a half year period. Of the total, \$499,800 is not scheduled to be collected within one year. All other receivables are expected to be collected within one year. A summary of the items of intergovernmental receivables follows:

<u>Intergovernmental Receivables</u>	<u>Amounts</u>
<i>General Fund</i>	\$73,834
<i>Non-Major Special Revenue Funds:</i>	
Special Education, Part B-IDEA	41,189
Title I	164,979
Improving Teacher Quality	<u>12,016</u>
Total Non-Major Special Revenue Funds	<u>218,184</u>
Total Intergovernmental Receivables	<u><u>\$292,018</u></u>

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2016

**NOTE 8 - CAPITAL ASSETS**

Capital assets activity for the fiscal year ended June 30, 2016, was as follows:

	Balance 6/30/2015	Additions	Deductions	Balance 6/30/2016
<b>Capital Assets:</b>				
<b>Capital Assets not being depreciated:</b>				
Land	\$ 641,834	\$ 24,000	\$ (62,110)	\$ 603,724

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 9 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2016, the School District, together with other school districts in Ohio participate in the Schools of Ohio Risk Sharing Authority (SORSA), a non-profit, public entity risk sharing pool. SORSA was created to provide affordable liability, property, casualty and crime insurance coverage for its members. Each individual school district enters into an agreement with the SORSA and its premium is based on types of coverage, limits of coverage, and deductibles that it selects. The School District pays this annual premium to the SORSA (see Note 19). The types and amounts of coverage provided by the Schools of Ohio Risk Sharing Authority during fiscal year 2016 are as follows:

Buildings and Contents	\$78,850,836
Earth Movement Limit	2,000,000
Flood Limit	2,000,000
Crime Coverage	100,000
EDP Equipment – Per Occurrence	1,250,000
Errors and Omissions Cover	1,000,000
General Liability	15,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. The School District evaluated its insurance coverage during the fiscal year and reduced coverage amounts during fiscal year 2016.

For fiscal year 2016, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 15). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts and educational service centers is calculated as one experience and a common premium rate is applied to all school districts and educational service centers in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the Equity Pooling Fund. This equity pooling arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts and educational service centers that can meet the GRP's selection criteria. The firm of Comp Management provides administrative, cost control, and actuarial services to the GRP.

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Coresource Insurance Company in the amount of \$25,000 for classified employees, \$20,000 for certified employees, and twice the salary amount for each administrator.

The School District provides health and major medical, and prescription drug insurance for all eligible employees through United Healthcare. The School District pays monthly premiums of up to \$1,513.69 for family coverage and up to \$600.66 for individual coverage. The School District provides dental insurance for all eligible employees through CoreSource. The School District pays monthly premiums of up to \$77.66 for family coverage and up to \$30.46 for individual coverage. Premiums are paid from the same funds that pay the employees' salaries.

**NOTE 10 - DEFINED BENEFIT PENSION PLANS**

**Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable. The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual basis of accounting.

**Plan Description - School Employees Retirement System (SERS)**

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Plan Description - School Employees Retirement System (SERS)** (continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the entire allocation was allocated to pension, death benefits, and Medicare B. There was no percentage allocated to the Health Care Fund for fiscal year 2016.

The School District’s contractually required contribution to SERS was \$501,665 for fiscal year 2016. Of this amount \$35,784 is reported as an intergovernmental payable.

**Plan Description - State Teachers Retirement System (STRS)**

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Plan Description - State Teachers Retirement System (STRS)** (continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation was 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. Through June 30, 2015, the employer rate was 14% and the member rate was 12% of covered payroll. The statutory employer rate for fiscal year 2016 and subsequent years is 14%. The statutory member contribution rate increased to 13% on July 1, 2015 and will increase to 14% on July 1, 2016. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS Ohio was \$1,448,413 for fiscal year 2016. Of this amount \$251,896 is reported as an intergovernmental payable.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2016

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability reported as of June 30, 2016 was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share as well as the pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$5,817,760	\$25,198,601	\$31,016,361
Proportion of the Net Pension Liability	0.1019569%	0.09117680%	
Pension Expense	\$541,923	\$1,104,892	\$1,646,815

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<b>Deferred Outflows of Resources</b>	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Differences between expected and actual economic experience	\$91,394	\$1,148,738	\$1,240,132
Differences from a change in proportion and differences between School District contributions and proportionate share of contributions	335,498	259,091	594,589
School District contributions subsequent to the measurement date	<u>492,887</u>	<u>1,423,344</u>	<u>1,916,231</u>
Total	<u>\$919,779</u>	<u>\$2,831,173</u>	<u>\$3,750,952</u>

<b>Deferred Inflows of Resources</b>	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Differences between projected and actual investment earnings	\$149,077	\$1,812,256	\$1,961,333
Differences from a change in proportion and differences between School District contributions and proportionate share of contributions	<u>0</u>	<u>138,752</u>	<u>138,752</u>
Total	<u>\$149,077</u>	<u>\$1,951,008</u>	<u>\$2,100,085</u>

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** (continued)

\$1,916,231 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year Ending June 30:	SERS	STRS	Total
2017	\$51,798	(\$390,445)	(\$338,647)
2018	51,798	(390,445)	(338,647)
2019	51,388	(390,442)	(339,054)
2020	122,831	628,153	750,984
Total	\$277,815	(\$543,179)	(\$265,364)

**Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3.25 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2016

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Actuarial Assumptions - SERS** (continued)

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement. The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Estate	10.00	5.00
Hedge Funds	15.00	7.50
<b>Total</b>	<b>100.00 %</b>	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$8,067,142	\$5,817,760	\$3,923,594

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Actuarial Assumptions - SERS** (continued)

**Changes between Measurement Date and Report Date** In April 2016, the SERS Board adopted certain assumption changes which impacted their annual actuarial valuation prepared as of June 30, 2016. The most significant change is a reduction in the discount rate from 7.75 percent to 7.5 percent. Although the exact amount of these changes is not known, the impact to the School District's net pension liability is expected to be significant.

**Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above.

Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>10 Year Expected Nominal Rate of Return</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	<u>100.00 %</u>	

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

**Actuarial Assumptions – STRS** (continued)

**Discount Rate** The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS’ fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

***Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate***

The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$35,002,757	\$25,198,601	\$16,907,725

**Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2016, two of the School District’s members of the Board of Education have elected Social Security. The contribution rate is 6.2 percent of wages.

**NOTE 11 - POSTEMPLOYMENT BENEFITS**

**State Teachers Retirement System**

**Plan Description** – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

**Funding Policy** – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016, STRS did not allocate any employer contributions to post-employment health care. The School District’s contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$90,381 respectively, which equaled the required contributions each year.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 11 - POSTEMPLOYMENT BENEFITS** (continued)

**School Employees Retirement System**

In addition to a cost-sharing, multiple-employer defined benefit pension plan, the School Employees Retirement System (SERS) administers a postemployment benefit plan.

**Health Care Plan**

Ohio Revised Code 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' post-employment benefits through employer contributions. Active members do not make contributions to the post-employment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14 percent contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. At June 30, 2016, 2015, and 2014, the health care allocations were 0 percent, 0.82 percent, and 0.14 percent, respectively. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the minimum compensation level was established at \$23,000.

The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. For the School District, the amounts assigned to health care, including the surcharge, during the 2016, 2015, and 2014 fiscal years equaled \$58,027, \$81,605, and \$52,067, respectively, which is equal to the required amounts for those years.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending upon the plan selected, qualified years of service, Medicare eligibility, and retirement status. The financial reports of SERS' Health Care plan is included in its *Comprehensive Annual Financial Report*. The report can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under *Employer/Audit Resources*.

**NOTE 12 – CAPITAL LEASES – LESSEE DISCLOSURE**

During previous fiscal years, the School District entered into an agreement for copiers and into an agreement with Ohio Valley Bank to lease the Athletic fields and construct facilities thereon. These leases meet the criteria of a capital lease as defined by the Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the fund financial statements. The capital leases payable have been recorded on the government-wide statements.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2016

**NOTE 12 – CAPITAL LEASES – LESSEE DISCLOSURE** (continued)

Future minimum lease payments as of June 30, 2016 are as follows:

<u>Year</u>	<u>Amount</u>
2017	\$ 1,350,931
2018	1,739
Total	1,352,670
Less: Amount Representing Interest	(25,804)
Present Value of Net Minimum Lease Payments	<u>\$ 1,326,866</u>

The Lease Purchase had lease payments scheduled through 2021; however, it was paid in full in fiscal year 2017 and reflected as due within one year. The construction and leases were capitalized in the amount of \$2,725,342 which represents the present value of the minimum lease payments at the time of acquisition. Principal payments in fiscal year 2016 were \$275,381 in the governmental funds.

**NOTE 13 - LONG-TERM OBLIGATIONS**

The changes in the School District's long-term obligations during the fiscal year 2016 were as follows:

	<u>Principal Outstanding 06/30/15</u>	<u>Additions</u>	<u>Deductions</u>	<u>Principal Outstanding 06/30/16</u>	<u>Due Within One Year</u>
Classroom Facilities General Obligation Bonds 2006 3.75% Premium	1,105,000 44,812	- -	(1,105,000) (44,812)	- -	- -
Classroom Facilities General Obligation Bonds 2014 2% - 5% Premium	35,015,000 3,963,529	- -	(70,000) (214,244)	34,945,000 3,749,285	1,200,000 -

Total Net Pension Liability	<u>26,730,944</u>	<u>4,285,417</u>	<u>-</u>	<u>31,016,361</u>	<u>-</u>
Compensated Absences	1,050,119	435,456	(249,065)	1,236,510	133,341
Capital Leases	1,602,247	-	(275,381)	1,326,866	1,325,144
Total Long-Term Obligations	<u>\$ 69,511,651</u>	<u>\$ 8,048,793</u>	<u>\$ (1,958,502)</u>	<u>\$ 75,601,942</u>	<u>\$ 2,851,405</u>

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2016

**NOTE 13 - LONG-TERM OBLIGATIONS** (continued)

The General Obligation Bonds were issued in 2006 in the amount of \$43,000,000. These bonds were issued for the purpose of constructing and renovating school buildings. \$35,825,000 of the Bonds were defeased with the proceeds from the refunding bonds issued during fiscal year 2015. The balance was retired with property taxes from the Debt Service Fund during fiscal year 2016.

In July of 2014, the School District issued \$35,350,000 in School Improvement General Obligation Bonds, advance refunding \$35,825,000 of the School Improvement General Obligation Bonds issued in 2006. The bonds were issued for a 19 year period with final maturity on November 1, 2033. The bonds are being retired with property taxes from the Debt Service Fund.

The advance refunding of School Improvement General Obligation Bonds 2006 resulted in a difference of \$2,384,377 between the net carrying amount of the debt and the acquisition price. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being amortized to interest expense over the life of the bonds using the straight-line method. The amortization for fiscal year 2016 was \$125,494.

The School District defeased \$35,825,000 of the School Improvement General Obligation Bonds 2006 by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments due on the old bonds. Accordingly, the trust assets and the liability of the defeased bonds were not included in the School District's financial statements. \$35,825,000 of the bonds were redeemed on June 1, 2016.

The School Improvement General Obligation Bonds 2014 bonds are considered current interest bonds (serial bonds) which will be redeemed over a period through November 1, 2033.

The Qualified Zone Academy Bonds (QZAB) were issued in 2016 in the amount of \$3,327,920 for a 15 year period in accordance with Section 226 of the Taxpayer Relief Act of 1997 (Public Law 105-34). These bonds were issued for the purpose of energy conservation improvements and the SCS STEM Education Adcademy. The QZAB does not bear interest. The bonds will be retired with property taxes from the Debt Service Fund.

Compensated absences will be paid from the fund which the employee's salaries are paid, with the General Fund being the most significant. Capital leases are being paid from the General Fund and Bond Retirement Fund.

The School District's voted legal debt margin was \$10,762,187. The School District has an unvoted debt margin of \$544,835 at June 30, 2016.

Principal and interest requirements to retire general obligation debt outstanding at June 30, 2016, are as follows:

	<u>2014 Refunding Bonds</u>			<u>2016 QZAB</u>
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>	<u>Principal</u>
2017	\$1,200,000	\$1,545,800	\$2,745,800	\$192,920
2018	1,270,000	1,502,400	2,772,400	210,000
2019	1,410,000	1,448,800	2,858,800	210,000
2020	1,500,000	1,403,725	2,903,725	215,000
2021	1,530,000	1,348,600	2,878,600	215,000
2022-2026	8,880,000	5,484,500	14,364,500	1,115,000
2027-2031	11,120,000	3,228,700	14,348,700	1,170,000
2032-2034	8,035,000	545,375	8,580,375	0
<b>Total</b>	<u>\$34,945,000</u>	<u>\$16,507,900</u>	<u>\$51,452,900</u>	<u>\$3,327,920</u>

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 14 - JOINTLY GOVERNED ORGANIZATIONS**

A. **METROPOLITAN EDUCATIONAL TECHNOLOGY ASSOCIATION (META) SOLUTIONS**

Effective January 4, 2016, the School District is a participant in the Metropolitan Educational Technology Association (META) Solutions, as a result of the merger of the Southeastern Ohio Voluntary Educational Cooperative (SEOVEC) with META Solutions. META Solutions is a computer consortium that was the result of a merger between Tri-Rivers Educational Computer Association (TRECA) and the Metropolitan Educational Council (MEC) in February 2015. META Solutions develops, implements and supports the technology and instructional needs of schools and provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of eight members from member districts. The District paid META Solutions \$901 for services during the fiscal year and \$234,313 to SEOVEC for services during the fiscal year. To obtain financial information write to META Solutions, 100 Executive Drive, Marion, Ohio 43302.

B. **GALLIA-JACKSON-VINTON JOINT VOCATIONAL SCHOOL DISTRICT**

Gallia-Jackson-Vinton Joint Vocational School District is a distinct political subdivision of the State of Ohio, operated under the direction of a Board comprised of eleven members appointed by the participating schools, which possesses its own budgeting and taxing authority. To obtain financial information write to the Gallia-Jackson-Vinton Joint Vocational School District, Donalyn Smith, who serves as Treasurer, at 351 Buckeye Hills Road, Rio Grande, Ohio 45674.

C. **GALLIA-VINTON EDUCATIONAL SERVICE CENTER**

Gallia-Vinton Educational Service Center is a jointly governed organization providing educational services to its two participating school districts. The Educational Service Center is governed by a board of education comprised of eight members appointed by the participating schools. The board controls the financial activity of the Educational Service Center and reports to the Ohio Department of Education and the Auditor of State of Ohio. The continued existence of the Educational Service Center is not dependent on the School District's continued participation and no equity interest exists. During fiscal year 2016, the School District made \$15,006 in contributions to the Educational Service Center. To obtain financial information write to the Gallia-Vinton Educational Service Center, Jay Carter, who serves as Treasurer, at P.O. Box 178, Rio Grande, Ohio 45674.

D. **EDUCATIONAL REGIONAL SERVICE SYSTEM (ERSS)**

The Educational Regional Service System consists of 16 designated regions to provide services to school districts, community schools, and chartered nonpublic schools in order to support state and regional education initiatives and efforts to improve school effectiveness and student achievement. Financial information can be obtained by contacting Bryan Swann, Treasurer, at the Athens-Meigs Educational Service Center, 39105 Bradbury Road, Middleport, Ohio 45760.

**NOTE 15 - INSURANCE PURCHASING POOL**

Ohio School Boards Association Workers' Compensation Group Rating Plan - The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts and educational service centers pay an enrollment fee to the GRP to cover the costs of administering the program.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 16 - CONTINGENCIES**

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2016.

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that the ultimate disposition of claims will not have a material adverse effect, if any, on the financial condition of the School District.

C. Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school districts, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 or June 30, 2016 Foundation funding for the School District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the School District.

**NOTE 17- DEFERRED COMPENSATION**

School District employees may participate in the Ohio Public Employees Deferred Compensation program, created in accordance with Internal Revenue Service Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available to employees until termination, retirement, death or in the case of an unforeseeable emergency.

**NOTE 18- STATUTORY SET-ASIDES**

The School District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the acquisition or construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 18- STATUTORY SET-ASIDES** (continued)

The following information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	<u>Capital Acquisition</u>
Set-aside Balance as of June 30, 2015	\$0
Current year set-aside requirement	377,505
Current Year Qualifying disbursements	<u>(377,505)</u>
Set-aside Balance as of June 30, 2016	<u>\$0</u>

The carryover amount in the Capital Acquisition Set-Aside is limited to the balance of the offsets attributed to bond or tax levy proceeds. The School District is responsible for tracking the amount of the bond proceeds that may be used as an offset in future periods, which was \$41,296,662 at June 30, 2016.

**NOTE 19 - RISK SHARING POOL**

*Schools of Ohio Risk Sharing Authority, Inc.* – The Schools of Ohio Risk Sharing Authority, Inc. (SORSA) is a risk sharing pool serving school districts in Ohio. SORSA was formed as an Ohio non-profit corporation for the purpose of administering a joint self-insurance pool and assisting members to prevent and reduce losses and injuries to School District property and persons which might result in claims being made against members of SORSA. Member school districts agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverages provided by SORSA. These coverages include comprehensive general liability, automotive liability, certain property insurance and educators’ errors and omissions liability insurance.

Each member school district has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine directors. Only superintendents, treasurers, or business managers of member school districts are eligible to serve on the board. No school district may have more than one representative on the board at any time. Each member school district’s control over the budgetary and financing of SORSA is limited to its voting authority and any representative it may have on the board of directors. Financial information can be obtained from SORSA at 8050 North High Street, Suite 160, Columbus, Ohio 43235.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 20– INTERFUND ACTIVITY**

**A. Advances**

Interfund balances at June 30, 2016, consist of the following individual fund receivables and payables, which are expected to be repaid during the 2017 fiscal year:

<b>Interfund Loans</b>	<b>Receivable</b>	<b>Payable</b>
General Fund	\$204,589	\$0
Non-Major Special Revenue Funds		
Improving Teacher Quality	0	11,290
Title I	0	169,090
Title VI-B	0	24,209
	0	204,589
Total Non-Major Special Revenue Funds	0	204,589
Total Interfund Receivables/Payables	\$204,589	\$204,589

The amounts due to the General Fund are the result of the School District moving unrestricted monies to support grant funds whose grants operate on a reimbursement basis. The General Fund will be reimbursed when funds become available in the Non-Major special revenue funds.

**B. Transfers**

Transfers of \$85,074 were made from the General Fund to the Food Services and District Managed Activities Funds to move unrestricted balances to support programs in the amount of \$83,874 and \$1,200, respectively.

**NOTE 21 – OTHER EMPLOYEE BENEFITS**

**A. Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees and administrators who are contracted to work 260 days per year earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators who work less than 260 days per year do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, certificated employees receive payment for one-fourth of accumulated sick days with maximum payments as follows: 45 days maximum for one to nine years of service; 50 days maximum for 10 to 19 years of service; and 65 days maximum for 20 or more years of service. Classified employees, upon retirement, receive payment for one-fourth of accumulated sick days with maximum payments as follows: 47 days maximum for one to nine years of service; 52 days maximum for 10 to 19 years of service; and 63 days maximum for 20 or more years of service.

**Gallia County Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

**NOTE 22 – FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on the fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Bond Retirement	Permanent Improvement	Other Governmental Funds	Total Governmental Funds
<b>Nonspendable</b>					
Scholarship	\$0	\$0	\$0	\$92,000	\$92,000
Prepaid Items	0	0	415,990	0	415,990
Total Nonspendable	0	0	415,990	92,000	507,990
<b>Restricted for</b>					
Contributions	0	0	0	2,182	2,182
Other Purposes	0	0	0	161,931	161,931
Capital Improvements	0	0	2,064,367	616,631	2,680,998
Debt Services Payments	0	9,979,397	0	0	9,979,397
Total Restricted	0	9,979,397	2,064,367	780,744	12,824,508
<b>Assigned to</b>					
FY17 Appropriations in excess of Estimated Receipts	532,851	0	0	0	532,851
Other Purposes	476,136	0	0	0	476,136

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2016*

---

**NOTE 24 – ENCUMBRANCES**

At June 30, 2016, the School District had significant encumbrance commitments in governmental funds as follows:

Major Fund:	
General	\$511,034
Permanent Improvement	1,841,126
Non-Major Funds:	
Construction	441,180
Title I	<u>171,716</u>
Total Non-Major Funds	<u>612,896</u>
Total Funds	<u>\$2,965,056</u>

**NOTE 25 – NEW ACCOUNTING PRINCIPLES**

For the fiscal year ended June 30, 2016, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* and GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*.

GASB Statement No. 72 clarifies the definition of fair value for financial reporting purposes, establishes general principles for measuring fair value, provides additional fair value application guidance, and enhances disclosures about fair value measurements. The implementation of GASB Statement No. 72 did not have an effect on beginning net position/fund balance.

GASB Statement No. 73 establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68 as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also clarifies the application of certain provisions of GASB Statements 67 and 68. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the School District.

GASB Statement No. 76 reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the School District.

GASB Statement No. 79 addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the School District.

**GALLIA COUNTY LOCAL SCHOOL DISTRICT  
GALLIA COUNTY**

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR PART 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2016**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C – CHILD NUTRITION CLUSTER**

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

**NOTE D – FOOD DONATION PROGRAM**

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

**NOTE E – TRANSFERS BETWEEN PROGRAM YEARS**

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The School District transferred the following amounts from 2015 to 2016 programs:

<u>Program Title</u>	<u>CFDA Number</u>	<u>Amt. Transferred</u>
Title I Grants to Local Educational Agencies	84.010	\$101,603
Special Education - Grants to States	84.027	\$12,407
Special Education - Preschool Grants	84.173	\$696
Rural Education	84.358	\$35,824
Improving Teacher Quality State Grants	84.367	\$62,351

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Gallia County Local School District  
Gallia County  
4836 State Route 325  
Patriot, Ohio 45658

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Gallia County Local School District, Gallia County, (the School District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated May 1, 2017.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings that we consider a material weakness. We consider finding 2016-001 to be a material weakness.

### ***Compliance and Other Matters***

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts.

However, opining on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards*, which is described in the accompanying Schedule of Findings as item 2016-001.

***Entity's Response to Findings***

The School District's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Corrective Action Plan. We did not audit the School District's response and, accordingly, we express no opinion on it.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Gallia County Local School District  
Gallia County  
4836 State Route 325  
Patriot, Ohio 45658

To the Board of Education:

### ***Report on Compliance for the Major Federal Program***

We have audited the Gallia County Local School District's, Gallia County, Ohio (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of the School District's major federal programs for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying Schedule of Findings identifies the School District's major federal programs.

### ***Management's Responsibility***

The School District's management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to opine on the School District's compliance for each of the School District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the School District's major programs. However, our audit does not provide a legal determination of the School District's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2016.

**Report on Internal Control Over Compliance**

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

<i>(d)(1)(ix)</i>	Low Risk Auditee under 2 CFR Part 200.520?	No

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS  
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

**Finding Number 2016-001**

**Noncompliance and Material Weakness**

Ohio Admin. Code §§ 117-2-02(D) and (E) provide that all local public offices may maintain accounting records in a manual or computerized format. The records used should be based on the nature of operations and services the public office provides, and should consider the degree of automation and other factors. Such records should include capital asset records including such information as the original cost, acquisition date, voucher number, the asset type (land, building, vehicle, etc.), asset description, location, and tag number. Local governments preparing financial statements using generally accepted accounting principles will want to maintain additional data.

The School District contracts with Valuation Engineers to complete an annual inventory of the School District's assets. The inventory was completed through April 30, 2016 for fiscal year 2016. At fiscal year end, the School District was required to submit to Valuation Engineers a list of capitalized items added and deleted through June, 2016 as well as a value for construction in progress through the end of the fiscal year. This information was not provided to Valuation Engineers until March 27, 2017. As a result of this delay, the required information was not available for the timely completion of the School District's annual financial report.

**GALLIA COUNTY LOCAL SCHOOL DISTRICT  
GALLIA COUNTY**

**SCHEDULE OF FINDINGS  
2 CFR PART 200.515  
JUNE 30, 2016  
(Continued)**

<b>2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (Continued)</b>
---

**Finding Number 2016-001 (Continued)**

**Noncompliance and Material Weakness – Ohio Admin. Code §§ 117-2-02(D) and (E) (Continued)**

Failure to maintain an accurate updated list of capital assets could result in financial statement errors going undetected. In addition, in the event of a disaster, it could result in an inaccurate assessment of School District losses.

The School District should maintain accurate capital asset records which reflect additions and deletions as they occur. In addition, an annual inventory should be completed timely to provide assurance for the carrying value of the capital assets held by the School District.

**Officials' Response:**

Coordinating the tracking of project expenditures, and maintaining accurate and updated records of assets is an important part of the Treasurer's role. Our district has gone through numerous changes with staffing in areas of purchasing, facilities maintenance and operations, and several areas of administration in the past couple of years, including principals and the superintendent. We struggled in the previous audit in completing capital asset information in time for the audit, and had made some changes this year to try to improve the process. The most significant change we made was to have the physical inventory done prior to the end of the school year, and updating with additions and deletions from that point. We thought this would make it easier to complete the rest of the information in a timely manner, but still have a manual process for the tracking of projects, major equipment purchases, and vehicle purchases. I conclude that the manual process is no longer going to work for a district of our size with the amount of projects and purchases we have had going on in the past few years. We are going to continue having the physical inventory completed early each year, and are investigating the asset tracking capabilities that our software provider (META) has available.

2016-001	Investigate options for electronic tracking. Start with META, but also check with other schools to see what they are using.  Consider cost, responsible parties for data entry, and the potential improvement of asset tracking. Select an option.  Implement and train staff.	6/30/17  7/30/17  8/20/17	Julia Slone, Treasurer
