We have reviewed the *Independent Auditors' Report* of the Groveport Madison Local School District, Franklin County, prepared by Wilson, Shannon & Snow Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Groveport Madison Local School District is responsible for compliance with these laws and regulations.

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Groveport Madison Local School District, Franklin County, Ohio (the District), as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Independent Auditor's Report

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Groveport Madison Local School District, Franklin County, Ohio, as of June 30, 2016, and the respective changes in financial position and the budgetary comparison for the General Fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Independent Auditor's Report

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 30, 2017 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**FRANKLIN COUNTY**  
MANAGEMENT'S DISCUSSION & ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016  
UNAUDITED

As management of the Groveport Madison Local School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

**Financial Highlights**

- The liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$19.1 million (net position), an increase of \$7.4 million during the fiscal year.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$56.3 million, an increase of \$12.7 million from the close of the prior fiscal year.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

All activities of the District are accounted for as governmental activities. These activities include instruction, support services, non-instructional services, co-curricular activities, interest and fiscal charges, and bond issuance costs.

The reader will also need to consider non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
MANAGEMENT'S DISCUSSION & ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016  
UNAUDITED

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 21 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General and Building Fund, each of which are considered to be major funds. Data from the other 16 governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used in the private sector.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees.

**Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceed assets and deferred outflows of resources by \$19.1 million at the close of the current fiscal year.

Total Net Position	<u>\$ (19,110,074)</u>	<u>\$ (26,476,577)</u>	<u>-27.8%</u>

A portion of the District's net position reflects its investment in capital assets (e.g. land, buildings, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's ongoing obligations to citizens and creditors.

Current assets and Other Long-term Liabilities both increased significantly in comparison with the prior fiscal year-end. These increases are primarily the result of the issuance of debt to finance locally funded construction projects.

Capital assets, net also increased significantly in comparison with prior fiscal year-end. This increase is primarily the result of state and locally funded construction projects, most notably the Ohio Facilities Construction Commission project.

Net Pension Liability also increased significantly in comparison with the prior fiscal year-end. This increase is primarily the result of unfavorable pension investment returns, as reported by the pension systems.

Operating Grants and Contributions decreased significantly in comparison with the prior fiscal year. This decrease is the result of the expiration of the Straight A Grant Program in fiscal year 2015.

Property taxes increased significantly in comparison with the prior fiscal year. This increase is primarily the result of the passage of the operating and bond levy in 2014.

Unrestricted grants and entitlements decreased significantly in comparison with the prior fiscal year. This decrease is primarily the result of recognition of grant revenue related to the Ohio Facilities Construction Commission project agreement in fiscal year 2015.

Interest and Fiscal Charges increased significantly in comparison with the prior fiscal year. This increase is the result of new debt issued during the fiscal year and a full year of interest on the bonds issued in fiscal year 2015.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION & ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016  
UNAUDITED**

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the costs of program services and the net cost of those services after taking into account program revenues. General revenues including tax revenue, unrestricted State entitlements and investment earnings must support the net cost of program services.

A comparative analysis of fiscal year 2016 to 2015 follows:

	Total Cost of Services 2016	Total Cost of Services 2015	Net Cost of Services 2016	Net Cost of Services 2015
Program Expenses				
Instructional	\$ 47,629,156	\$ 45,074,357	\$ 43,931,104	\$ 41,233,034

Interest and Fiscal Charges	2,256,615	1,694,382	2,256,615	1,694,382
Total	<u>\$ 82,073,196</u>	<u>\$ 76,830,343</u>	<u>\$ 73,074,788</u>	<u>\$ 66,554,812</u>

General revenues, consisting primarily of local property taxes and unrestricted state entitlements, comprise 90% of the District's total revenues. The net cost of services column highlights the District's reliance upon general revenues reflecting the need for \$73.1 million in support.

The property tax laws in Ohio create the need to periodically seek voter approval for additional operating funds. Tax revenues generated from a levy do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the effect of providing the District the same amount of tax dollars as originally approved. Therefore, school districts such as ours that are dependent upon property taxes as a primary source of revenue must periodically return to the ballot and ask voters for additional resources to maintain current programs. Since the District must rely heavily on voter approval of operating tax issues, management of the resources is of paramount concern to the District's administration and the voting public.

**Financial Analysis of the District's Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$56.3 million, an increase of approximately \$12.7 million from the prior fiscal year.

Total	<u>\$ 56,288,503</u>	<u>\$ 43,570,836</u>	<u>\$ 12,717,667</u>

*General Fund*

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance in the General Fund was \$3.4 million, while total fund balance was \$15.1 million.

A comparative analysis of fiscal year 2016 to 2015 General Fund revenues and other financing sources is as follows:

	Revenues and Other Financing Sources		
	Fiscal Year 2016	Fiscal Year 2015	Percent Change
Property Taxes	\$ 32,724,157	\$ 30,085,014	8.8%

Total	<u>\$ 79,357,794</u>	<u>\$ 71,940,377</u>	<u>10.3%</u>

Property taxes increased significantly in comparison with the prior fiscal year. This increase is primarily the result of the passage of an operating levy in May 2014.

Payments in Lieu of Taxes also increased significantly in comparison with the prior fiscal year. This increase is the result of the timing of payments received from the City of Groveport.

The increase in intergovernmental revenues is primarily the result of the increase in funding from foundation revenues.

A comparative analysis of fiscal year 2016 to 2015 General Fund expenditures is as follows:

	Expenditures		
	Fiscal Year 2016	Fiscal Year 2015	Percent Change
Instruction	\$ 45,215,929	\$ 43,425,207	4.1%
Support Services	25,028,501	21,007,846	19.1%
Non-instructional Services	193,049	107,529	79.5%

Capital Outlay	170,602	-	0.0%
Total	\$ 71,341,047	\$ 65,146,171	9.5%

Total Expenses increased \$6.2 million compared the prior fiscal year. This increase in primarily the result of inflationary salary and wage increases.

*Building Fund*

The fund balance of the District's Building Fund increased \$4.2 million during the current period. This increase represents the amount in which state grants and bond proceeds exceeded capital outlay during the fiscal year.

**General Fund Budget Information**

The District's budget is prepared in accordance with Ohio law and is based on the budgetary basis of accounting, utilizing cash receipts and disbursements and encumbrances. Changes are made to the District's budget as changes in revenues and spending patterns are experienced.

The variances between the District's original and final estimated resources and final estimated resources and actual receipts were both insignificant.

The District's final appropriations were slightly less than original appropriations approximately and there was an insignificant variance between the District's final appropriations and actual budgetary expenditures.

**Capital Assets**

At fiscal year-end, the District had approximately \$28.1 million in capital assets, net of accumulated depreciation, a \$9.4 million increase from the previous year. This increase represents the amount by which capital outlays (\$10.6 million) exceeded current year depreciation (\$1.2 million) and deletions (\$18,565). Detailed information regarding capital asset activity can be found in Note 8 to the basic financial statements.

**Debt**

At fiscal year-end, the District had \$52.1 million in outstanding long-term debt, an increase of \$9.5 million in comparison with the prior fiscal year. This increase represents the amount in new debt issuances, totaling \$13.6 million, exceeded note principal payments and premium amortization, totaling \$4.1 million. Detailed information regarding general long-term obligations can be found in Note 9 to the basic financial statements. Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total taxable valuation of real and personal property. At fiscal year-end, the District's general obligation debt was below the legal limit.

**Currently Known Facts**

The district is beginning to turn the corner financially. Property tax revenues will continue to increase in fiscal year 2017 as a result of the combined operating levy and bond levy passed in May 2014. In addition, the district will be building a new high school expected to open in 2018.

**Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to John Walsh, Treasurer, Groveport Madison Local School District, 4400 Marketing Place, Suite B, Groveport, Ohio 43125.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

<b>Net Change in Fund Balances - Total Governmental Funds</b>	<b>\$ 12,717,667</b>
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital Outlay	10,641,752
Depreciation	(1,179,739)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, disposals, trade-ins, and donations).	
Sales/Disposals	(18,565)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Property Taxes	41,915
Payments in Lieu of Taxes	(713,335)
Intergovernmental Revenues	(5,075,357)
Other Revenues	33,414
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.	
	4,821,433
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.	
	(4,196,592)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.	
Principal Repayments	4,054,856
Proceeds From Sale of Certificates of Participation	(13,575,000)
Proceeds From Premium on Certificates of Participation	(11,165)
Proceeds Used for Discount on Certificates of Participation	11,211
Amortization of Premium	22,100
Accrued Interest Payable	(83,636)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.	
Compensated Absences	(124,456)
<b>Change in Net Position of Governmental Activities</b>	<b>\$ 7,366,503</b>

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 1 – REPORTING ENTITY**

The Groveport Madison Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District operates under a locally elected five-member Board form of government consisting of five members elected at-large staggered four year terms. The first official body designated as the Groveport Madison Board of Education was formed in 1848. The District provides educational services as authorized by state and/or federal guidelines.

The Board controls the District's 10 instructional/support facilities staffed by 202 non-certificated personnel and 433 certificated full time personnel who provide services to 5,609 students and other community members.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District. The following activities are included within the reporting entity:

*Parochial Schools* – Within the District Boundaries are Madison Christian and Brice Christian Academy. Current State legislation provides funding to these parochial schools. The monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial schools. The District accounts for these activities in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. There are three specific tests for determining whether a legally separate entity is a component unit of a primary government's financial reporting entity. Those tests involve 1) appointment of the unit's governing board (accompanied by either the potential imposition of will or ongoing financial benefit/burden), 2) fiscal dependence on the primary government, and 3) the potential that exclusion would result in misleading financial reporting.

The Groveport Madison Cruiser Academy (the Academy) is a nonprofit corporation formally created on March 11, 2010 pursuant to Ohio Rev. Code Chapters 3314 and 1702. The Academy is an approved tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Academy's tax exempt status. The Academy's mission is to provide each student with a unique opportunity to earn their diploma in an alternative setting. The Academy is an at-risk Academy that primarily enrolls students between sixteen and twenty-one years of age who have dropped out of high school or are at risk of dropping out of high school due to poor attendance, disciplinary problems, or suspensions.

The Academy is a component unit of the District. The District appoints a majority of the Board of Directors and is able to impose its will on the Academy. The District can suspend the Academy's operations for any of the following reasons: 1) The Academy's failure to meet student performance requirements stated in its contract with the Sponsor, 2) The Academy's failure to meet generally accepted standards of fiscal management, 3) the Academy's violation of any provisions of the contract with the Sponsor or applicable state or federal law, or 4) Other good cause.

Information in the following notes to the basic financial statements is applicable to the primary government. Information relative to the component unit can be found in Note 17.

**NOTE 1 – REPORTING ENTITY (Continued)**

The following entities which perform activities within the District boundaries for the benefit of its residents are excluded from the accompanying financial statements because the District is not financially accountable for these entities nor are they fiscally dependent on the District.

*City of Groveport* – The City is a separate body politic and corporate, a Mayor and Council are elected independent of any District relationships and administer the provision of traditional city services. Council acts as the taxing and budgeting authority for these City services.

*Parent Teacher Association* – The District is not involved in the budgeting or management is not responsible for any debt and has no influence over the organization.

*Groveport Community School* – The community school began operations in September 2006 and is affiliated with Imagine Schools, a national operator of nonprofit public charter schools. The District is not involved in the budgeting or management of the community school and is not responsible for any debt nor has influence over the community school's operations.

**Jointly Governed Organizations**

*Metropolitan Educational Technology Association* – The Metropolitan Educational Technology Association (META), formerly the Metropolitan Educational Council (MEC), is a jointly governed organization. The organization is composed of over one hundred members including school districts, joint vocational schools, educational service centers, and libraries covering 57 counties in Ohio.

The META helps its members purchase services, insurances, supplies, and other items at a discounted rate. META also provides a variety of services through its data processing center to numerous member districts ("C" sites) around the State of Ohio, with the major emphasis being placed on fiscal services. META also provides services to the District including pupil scheduling, attendance reporting, and grade reporting. The governing board of META is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County (18 school districts) and one representative from each county. META is not dependent upon the continued participation of the District and the District does not maintain an equity interest in or financial responsibility for META. Financial statements for META can be obtained at 2100 City Gate Drive, Columbus, Ohio 43219. The amount paid to META during the fiscal year was \$96,132.

*Central Ohio Special Education Regional Resource Center* – The Central Ohio Special Education Regional Resource Center (COSERRC) is a jointly governed organization operated by a Governing Board that is composed of superintendents of member school districts in central Ohio which comprise sixty percent of the Board, two parents of children with disabilities, one representative of a chartered nonpublic school, one representative of a county board of Mental Retardation and Developmental Disabilities, representatives of universities and students and persons with disabilities representations. The District participates in the following services of COSERRC: Identification and Program Development Project, Regional Educational Assessment Programming Project, Instructional Resource Center Project, and the Early Childhood Services Project. These projects assist the District in complying with mandates of Public Law 99-456 for educating children with disabilities. There is no financial commitment made by the districts involved in COSERRC. COSERRC is not dependent upon the continued participation of the District and the District does not maintain an equity interest in or financial responsibility for the Council. The amount paid to COSERRC during the fiscal year was \$0.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

**(a) Fund Accounting**

The District's accounts are maintained on the basis of funds, each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific District functions or activities. The operation of each fund is accounted for within a separate set of self-balancing accounts.

**Major Governmental Funds**

*General Fund* — The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

*Building Fund* — The Building Fund is used to account for financial resources to be used for state and locally funded projects, most notably the Ohio Facilities Construction Commission project.

*Other Governmental Funds* of the District account for food services, co-curricular activities, federal and state grants, and other resources who use is restricted for a particular purpose.

**Proprietary Funds**

The District reports no proprietary funds.

**Fiduciary Funds**

*Fiduciary Funds* — Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The District's fiduciary funds include private purpose trust and agency funds. Private purpose trust funds account for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities, and the District's flexible spending account.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(b) Basis of Presentation**

*Government-wide Financial Statements* – The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for the fiduciary funds.

The government-wide statements are prepared using the economic resources measurement focus. This approach differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

*Fund Financial Statements* - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

**(c) Basis of Accounting**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The fund financial statements are prepared using the modified accrual for governmental funds and the accrual basis for fiduciary funds.

*Revenue Exchange and Non-exchange Transactions*

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recognized in the accounting period when they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period of the District is sixty days after year-end.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied, provided they have been advanced or are available to be advanced to the District. Otherwise, they are reported as a deferred inflow of resources. Revenue from payments in lieu of taxes, grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized. In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, payments in lieu of taxes, tuition, grants and student fees. Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have not yet been met because such amounts have not yet been earned.

*Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refundings and for pensions. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 12.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue, and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental funds balance sheet. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. Unavailable revenue includes delinquent property taxes. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (See Note 12).

*Expenditures/Expenses*

On the accrual basis of accounting, expenses are recorded at the time they are incurred. The measurement focus of governmental fund accounting is on the flow of current financial resources. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred except for (1) principal and interest on general long-term debt, which is recorded when due, and (2) the costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by employees. Allocations of cost, such as depreciation, are not recognized in governmental funds.

FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(d) *Budgetary Process***

All funds, except agency funds, are legally required to be budgeted and appropriated. However, the District did not legally adopt a budget for its tax incentive donation program fund. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control selected by the Board is at the fund level. Any budgetary modifications at this level may only be made by the Board of Education.

The certificate of estimated resources may be amended during the year if the projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

**(e) *Cash and Investments***

Monies received by the District are pooled in a central bank account, except for certain construction-related funds, with individual fund balance integrity retained throughout. During the fiscal year, investments consisted of STAR Ohio, money market mutual funds, negotiable certificates of deposit, and federal agency securities.

During fiscal year 2016, the District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB). Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of investment earnings. Investment earnings credited to the General Fund during the fiscal year amounted to \$41,966. The Building Fund was credited \$226,842 and the food service fund was credited \$3,523.

FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(f) Prepaid Items**

Payments made to vendors for services that will benefit periods beyond the current fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the fiscal year which services are consumed.

**(g) Inventory**

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. On fund financial statements, inventories of governmental funds are stated at cost. Cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditure when purchased. Inventories of governmental funds consist of donated and purchased food held for resale.

**(h) Capital Assets and Depreciation**

General capital assets are reported in the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Capital assets acquired before July 1, 2003 are capitalized at an estimated cost using computerized reverse-trending techniques applied against the estimate of current replacement cost. Donated capital assets are recorded at their fair market values as of the date received. The District follows the policy of not capitalizing assets with a cost of less than \$1,000 and a useful life of less than one year. The District does not possess any infrastructure.

All reported capital assets, with the exception of land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Land Improvements	10 – 40
Buildings and Improvements	10 – 40
Furniture and Equipment	5 – 15
Vehicles	5 – 10

**(i) Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds.

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, short-term interfund loans are classified as due to/from other funds. These amounts are eliminated in the statement of net position.

FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(j) Restricted Assets**

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. The District's restricted assets balance at fiscal year-end was zero.

**(k) Accrued Liabilities and Long-Term Obligations**

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year.

In the government-wide financial statements, long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the fiscal year of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**(l) Compensated Absences**

Vacation benefits and personal leave are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for benefits through paid time off or some other means. The District records a liability for accumulated unused vacation and personal leave time when earned for all employees.

Compensated absence leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on the accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for all employees after 15 years of service.

The entire sick leave benefit liability is reported on the government-wide financial statements.

On the governmental fund financial statements, sick leave benefits are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the funds from which these payments will be made.

The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the District's termination policy.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(m) Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

**(n) Net Position**

Net Position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. At fiscal year-end, none of the District's net position restrictions were the result of enabling legislation.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**(o) Fund Balance**

GASB Statement No. 54, *Fund Balance Reporting* became effective for years beginning after June 15, 2010. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

In accordance with this guidance, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The District may use the following categories:

Nonspendable - resources that are not in a spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted - resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used for the specified purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same action (resolution) it employed to previously commit those amounts.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Assigned - resources that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Although no specific resolution has been made, the District Board of Education authorizes the Treasurer to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned - residual fund balance within the General Fund not classified elsewhere above and all other governmental fund balances which have a negative fund balance.

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unrestricted fund balance/net position are available. The District considers committed, assigned and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

**(p)     *Extraordinary and Special Items***

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

**(q)     *Management Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reported period. Actual results could differ from those estimates.

**NOTE 3 – BUDGETARY BASIS OF ACCOUNTING**

While the District is reporting financial position, results of operations, and changes in fund balances in accordance with GAAP, the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) – for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than an assignment of fund balance (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
5. Due to the implementation of GASB 54, some funds were reclassified to the General Fund. These funds are not required to be included in the General Fund Budgetary Statement. Therefore, the activity from these funds is excluded with an adjustment for their change in fund balance.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

<b><u>Net Change in Fund Balance</u></b>	
GAAP Basis	\$ 7,840,255
Revenues	(1,685,890)
Expenditures	522,960
Other Sources and Uses	(114,100)
Encumbrances	(2,070,190)
Fund Reclassifications:	
Tax Incentive Fund	500
Public Support Fund	(1,534)
Budgetary Basis	\$ 4,492,001

**NOTE 4 – DEPOSITS AND INVESTMENTS**

The deposit and investment of the District's monies is governed by the provisions of the Ohio Revised Code (ORC). In accordance with these statutes, the District is authorized to invest in United States and State of Ohio bonds, notes, and other obligations; bank certificates of deposit; banker acceptances; commercial paper notes rated prime and issued by United States corporations; repurchase agreements secured by United States obligations; STAR Ohio; no-load money market mutual funds; and under limited circumstances, corporate debt interests. Earnings on investments are credited to various funds at the discretion of the Board which is in compliance with ORC Section 3315.01.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments, to the treasurer, or qualified trustee, or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**Deposits**

*Custodial Credit Risk – Deposits* - At fiscal year end, the carrying amount of the District’s deposits was \$2,851,929, including \$1,022,598 in STAR Ohio Plus, and the bank balance was \$3,001,235. Of the District’s bank balance, \$1,383,802 was covered by the Federal Depository Insurance Corporation (FDIC) and the remaining balance was collateralized in the manner described below. The District has no formal policy concerning custodial credit risk.

Custodial credit risk is the risk that, in the event of bank failure, the District’s deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions’ trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

**Investments**

At fiscal year end, the District’s had the following investments:

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)**

In accordance with GASB Statement No. 79, the District's investment in STAR Ohio is reported at amortized cost. For the fiscal year ended June 30, 2016, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit.

All other investments are reported at fair value. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's fair value measurements are valued using quoted market prices (Level 1 inputs).

*Credit Risk* – Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. At fiscal year-end, STAR Ohio was rated AAAM, while the federal agency securities were rated AA+ by Standard & Poor's and Aaa by Moody's. The District's money market funds and negotiable certificates of deposit were unrated. The District has no formal policy concerning credit risk.

*Concentration of Credit Risk* – Concentration of credit risk is the risk of inability to recover the value of deposits, investments, or collateral securities in the possession of an outside party caused by a lack of diversification. The District places no limit on the amount it may invest in any one issuer, however, state statute limits investments in commercial paper and bankers' acceptances to 25% of the interim monies available for investment at any one time. The District's exposure to concentration risk is noted in the preceding table.

*Interest Rate Risk* – Interest rate risk is the risk that an interest rate change could adversely affect an investment's fair value. As a means of limiting its exposure to fair value losses arising from interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less. The District's exposure to interest rate risk is noted in the preceding table.

The following is a reconciliation of deposits and investments to the Statement of Net Position as of June 30, 2016:

Investments (summarized above)	\$ 44,950,895
Carrying Amount of District's Deposits	2,851,929

**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 5 – PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility located in the school district. Real property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2016 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phased out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property has been eliminated and the tax on the telephone and telecommunications property was eliminated in calendar year 2013. The tax was phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2008-2010, the District was fully reimbursed for the lost revenue. The reimbursements began to be phased out in calendar years 2011-2013 but this phase out has been frozen for at least the next budget biennium.

The District receives its property taxes from Franklin County. The County Auditor periodically advances to the District its portion of taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of fiscal year-end and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

At fiscal year-end, the amount of property taxes that had been advanced, or was available to advance, to the General Fund, Bond Retirement Fund and Permanent Improvement Fund was \$13,755,046, \$765,795 and \$487,055, respectively.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred inflows of resources.

**NOTE 6 – RECEIVABLES**

Receivables at June 30, 2016, consisted of property taxes, revenue in lieu of taxes, intergovernmental grants, and accounts. Accounts receivable includes \$204,759 due from Groveport Cruiser Academy. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivable amounts are expected to be received within one year with the exception of the Ohio Facilities Construction Commission Grant, revenue in lieu of taxes and delinquent property and income taxes. The Ohio Facilities Construction Commission Grant monies will be collected over the life of the construction of the new facilities. Revenue in lieu of taxes is collected over the term of the agreement. Property and income taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

During fiscal year 2015, the School District was awarded \$28,285,963 for the construction of a High School from the Ohio Facilities Construction Commission. At June 30, 2016, there was \$22,369,108 still recorded as a receivable.

**NOTE 7 – DUE TO/FROM OTHER FUNDS AND TRANSFERS**

**(a) Interfund Advances**

On an as-needed basis, the District advances cash between funds to eliminate cash deficits. All advances are repaid in the following fiscal year. At fiscal year-end, there were no advances outstanding.

**(b) Interfund Transfers**

The primary purpose of interfund transfers is to provide supplemental funding other funds in accordance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16. During the fiscal year, there were transfers to the debt service fund for debt service payments and to the extracurricular funds for operations.

Series 2011 Energy Conservation Note

On December 28, 2011, the District issued \$5,739,650 in unvoted general obligation notes for the purpose of purchasing energy conservation measures throughout the District. The notes were issued for a fifteen year period with an interest rate of 3% and a final maturity at December 1, 2026. These notes are a general obligation of the District for which the full faith and credit of the District is pledged for repayment.

Series 2012 Certificates of Participation - HVAC Lease Purchase Agreement

On May 17, 2012, the District entered into a series of one-year renewable lease-purchase agreements with Huntington National Bank (the Bank), whereas the District leases certain parcels of land to the Bank, and subsequently purchases and installs energy conservation measures at the school facilities located on the land (the Project Facilities), and the Bank, in turn, subleases the land, and leases the Project Facilities to the District. The Bank agreed to pre-pay \$4,445,895 in rental payments to fund the construction project. In turn, the District agreed to pay \$4,445,895 under the sublease at an interest rate of 3.15% maturing June 1, 2027. The lease was refunded in November 2015 paying off balance of the amount outstanding.

Series 2014 School Facilities Improvement Bonds

On August 7, 2014, the District issued \$33,303,594 in general obligation bonds for the purpose of carrying out a School Facilities Commission Project in the District. The bonds were issued for a thirty-eight year period with interest rates ranging from .35% to 5.0% and a final maturity at October 1, 2052. These bonds are a general obligation of the District for which the full faith and credit of the District is pledged for repayment. The bonds were issued at a premium in the amount of \$832,795.

Series 2015 Certificates of Participation

On December 1, 2015, the District entered into a series of one-year renewable lease-purchase agreements with Buckeye Leasing Services (the Bank), whereas the District agrees to finance the acquisition, construction, improvement, furnishing, and equipping of school facilities and lease the school facilities to the Bank, and the Bank, in turn, agrees to sublease the school facilities back to the District. The Bank agreed to pre-pay \$13,575,000 in rental payments. Of this amount, \$9,770,000 will be used to fund the acquisition, construction, improvement, furnishing, and equipping of school facilities and \$3,805,000 was used to refund the Series 2012 HVAC Lease Purchase Agreement. In turn, the District agrees to pay \$13,575,000 under the sublease at interest rates ranging from 2.0% to 4.0% maturing December 31, 2035.

Principal and interest requirements to retire general obligation debt at June 30, 2016, are as follows:

Total	<u>\$ 51,323,578</u>	<u>\$ 41,192,643</u>	<u>\$ 92,516,221</u>

Debt service relating to the notes and the certificates of participation are recorded as expenditures in the Permanent Improvement Fund. The general obligation bonds will be paid from the Bond Retirement Fund. Obligations related to employee compensation are paid from the fund benefitting from their service.

The Ohio Revised Code (ORC) provides that voted net general obligation debt of the District shall never exceed 9% and that unvoted indebtedness shall not exceed 1/10 of 1% of the total assessed valuation of the District. At fiscal year-end, the District's voted and unvoted debt limits were \$72,168,648 and \$801,874, respectively, and total applicable debt outstanding was within these limits.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 10 – OPERATING LEASE**

During fiscal year 2005, the District entered into a lease agreement with the CIC Properties, Inc. for Office space to be utilized by the District's administration. The initial term of the lease commenced August 1, 2005 and was scheduled to end on July 31, 2015, however, the lease was extended through July 31, 2016. Total rent expense for fiscal year 2016 was \$142,524. The lease is cancellable at the discretion of the District.

**NOTE 11 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft or, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During the fiscal year, the District contracted with Wright Specialty Insurance, administered by Andrew Insurance Associates, Inc., for general liability insurance with a \$1,000,000 single occurrence limit and a \$2,000,000 aggregate. Property is also protected by Wright Specialty Insurance and holds a \$1,000 deductible.

The District contracts with Anthem Blue Cross Blue Shield to provide health coverage; and METLIFE to provide dental and life insurance coverage for employees. Post-employment health care is provided to plan participants or their beneficiaries through their respective retirement systems. As such, no funding provisions are required by the District.

On January 1, 2015, the District became self-insured for workers' compensation in connection with formalized risk management programs in an effort to minimize risk exposure and control claims and premium costs. The District contracts with Hunter consulting Co. to be the third-party administrator for the insurance program. The District paid claims in the amount of \$13,491 during the fiscal year from funds benefitting from the employees' service. The District has purchased stop loss coverage for individual employee claim amounts exceeding the contracted threshold.

Settled claims have not exceeded commercial coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from the prior fiscal year.

**NOTE 12 – PENSION BENEFITS**

***Net Pension Liability***

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 12 – PENSION BENEFITS (Continued)**

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the fiscal year is included in *Due to Other Governments* on both the full and modified accrual basis of accounting.

***Plan Description - School Employees Retirement System (SERS)***

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each fiscal year to the base benefit amount on the anniversary date of the benefit.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 12 – PENSION BENEFITS (Continued)**

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. The amount allocated to the Health Care Fund for fiscal year 2016 is \$123,453.

The District's contractually required contribution to SERS was \$1,089,238 for fiscal year 2016. Of this amount \$49,287 is reported as due to other governments.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

**NOTE 12 – PENSION BENEFITS (Continued)**

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$3,732,195 for fiscal year 2016. Of this amount, \$556,158 is reported as due to other governments.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$13,746,085	\$64,846,295	\$78,592,380

**Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT**  
**FRANKLIN COUNTY**  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 12 – PENSION BENEFITS (Continued)**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS’ *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
 Total	 <u>100.00 %</u>

**NOTE 12 – PENSION BENEFITS (Continued)**

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease █ (6.75%)	Current Discount Rate █ (7.75%)	1% Increase █ (8.75%)
District's proportionate share of the net pension liability	\$19,060,880	\$13,746,085	\$9,270,589

**Change Between Measurement Date and Report Date**

In April 2016, the SERS Board adopted certain assumptions changes which impacted their annual actuarial valuation prepared as of June 30, 2016. The most recent significant change is a reduction in the discount rate from 7.75 percent to 7.5 percent. Although the exact amount of these changes is not known, the impact to the District's net pension liability is expected to be significant.

**Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, or later, 2 percent COLA paid on fifth anniversary of retirement date

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

**NOTE 12 – PENSION BENEFITS (Continued)**

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
<b>Total</b>	<b>100.00 %</b>	

**Discount Rate** The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease 6.75%	Current Discount Rate 7.75%	1% Increase 8.75%
District's proportionate share of the net pension liability	\$90,076,396	\$64,846,295	\$43,510,484

**Social Security System**

Effective July 1, 1991, all employees not otherwise covered by SERS or STRS have an option to choose Social Security. At fiscal year-end, four members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

**NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS**

**(a) School Employees Retirement System**

**Postemployment Benefits**

In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers a postemployment benefit plan.

**Health Care Plan**

Sections 3309.375 and 3309.69 of the Ohio Revised Code permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each fiscal year after the allocation for statutorily required pensions and benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the fiscal year ended June 30, 2016, the health care allocation is 0%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full fiscal year of service credit was earned. By statute no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the minimum compensation level was established at \$23,000. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. District contributions assigned to health care for the fiscal years ended June 30, 2016 2015, and 2014 were \$123,453, \$179,765 and \$91,727, respectively. The entire amount has been contributed for fiscal years 2015 and 2014. For fiscal year 2016, the entire amount is reported as due to other governments.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports on SERS' Health Care plan is included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

**(b) State Teachers Retirement System**

Plan Description – STRS administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorizes STRS to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

**NOTE 13 – OTHER POSTEMPLOYMENT BENEFITS (continued)**

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting [www.strsoh.org](http://www.strsoh.org) or by requesting a copy by calling toll-free 1-888-227-7877.

Funding Policy – Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 1% of covered payroll was allocated to post-employment health care for the fiscal years ended June 30, 2015 and 2014. Effective July 1, 2014, 0% of covered payroll was allocated to post-employment health care. The 14% employer contribution rate is the maximum rate established under Ohio law.

The District's contractually required health care contributions to STRS for fiscal years 2016, 2015, and 2014 were \$0, \$0, and \$300,953, respectively. The entire amount has been contributed for each fiscal year.

**NOTE 14 – CONTINGENCIES**

- (a) **Grants** - The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2016, if applicable, cannot be determined at this time.
  
- (b) **Foundation Funding** - District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2015-2016 school year, traditional school districts must comply with minimum hours of instruction, instead of number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.
  
- (c) **Litigation** - The District is not party to any litigation that, in the opinion of management, would have a material effect on the financial statements.

**NOTE 15 – SET ASIDES**

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of an equal amount for the acquisition and construction of capital improvements.

The following cash basis information describes the change in the year end set-aside amounts for each reserve:

	Capital Acquisition
Set-aside cash balance as of June 30, 2015	\$ -
Current fiscal year set-aside requirement	976,317
Current year offsets	(1,144,827)
Total	\$ (168,510)
 Set Aside Restricted Balance June 30, 2016	 \$ -

Capital acquisition offsets and qualifying disbursements presented in the table were limited to those necessary to reduce the fiscal year-end balance to zero. During fiscal year 2015, the District issued \$33,303,594 in capital related debt based on a building project under taken by the District. These proceeds may be used as qualifying disbursements to reduce the capital acquisition to zero for future fiscal years. The District still has \$33,238,391 in qualifying disbursements that may be used to reduce the set-aside requirement for future fiscal years.

**NOTE 16 – COMPLIANCE AND ACCOUNTABILITY**

**Fund Balance Deficits** - Fund balances at fiscal year-end included the following individual deficits:

Fund Name	Deficit
Other Governmental Funds	
IDEA Preschool Handicapped	\$ 770

This fund deficit resulted from the application of accounting principles generally accepted in the United States of America. The General Fund is liable for the deficits in the Other Governmental Funds and provides operating transfers when cash is required, not when accruals occur.

**Description of the Academy and Reporting Entity**

The Groveport Madison Cruiser Academy (the Academy) is a nonprofit corporation established pursuant to Ohio Rev. Code Chapters 3314 and 1702. The Academy is an approved tax-exempt organization under Section 501(c) (3) of the Internal Revenue Code. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Academy's tax exempt status. The Academy's mission is to provide each student with a unique opportunity to earn their diploma in an alternative setting. The Academy is an at-risk Academy that primarily enrolls students between sixteen and twenty-one years of age who have dropped out of high school or are at risk of dropping out of high school due to poor attendance, disciplinary problems, or suspensions.

The Academy was formally created on March 11, 2010, by entering a three-year contract with the Groveport Madison Local School District (the Sponsor) for fiscal years 2011 through 2013. The contract was subsequently extended through fiscal year 2017. The Sponsor is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration.

The Academy purchased the services of Metropolitan Educational Technology Association Solutions (META) to provide fiscal, student, EMIS, and technical services during the fiscal year.

The Academy operates under the direction of a five-member Board of Directors appointed by the Sponsor. The majority of those appointed by the Sponsor shall be elected or appointed public officials or public employees, or shall be community leaders who have demonstrated a professional interest in education or in other issues involving children.

The Academy is a component unit of the Sponsor. The Sponsor appoints a majority of the Board of Directors and is able to impose its will on the Academy. The Sponsor can suspend the Academy's operations for any of the following reasons: 1) The Academy's failure to meet student performance requirements stated in its contract with the Sponsor, 2) The Academy's failure to meet generally accepted standards of fiscal management, 3) the Academy's violation of any provisions of the contract with the Sponsor or applicable state or federal law, or 4) Other good cause.

The Board of Directors is responsible for carrying out the provisions of the contract which include, but are not limited to, helping create, approve, and monitor the annual budget, develop policies to guide operations, secure funding, and maintain a commitment to vision, mission, and belief statements of the Academy and the children it serves.

The financial statements of the Academy have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Academy's most significant accounting policies are described below.

**GROVEPORT MADISON LOCAL SCHOOL DISTRICT  
FRANKLIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE 17 – COMPONENT UNIT DISCLOSURES (Continued)**

**Summary of Significant Accounting Policies**

**A. Basis of Presentation**

The Academy's basic financial statements consist of a statement of net position; a statement of revenues, expenses, and changes in net position, and a statement of cash flows. These statements are prepared on the accrual basis of accounting as further described in Note 2 C.

The Academy uses a single enterprise presentation for its financial records. Enterprise reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows.

**B. Measurement Focus**

Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position. The statement of cash flows reflects how the Academy finances meet its cash flow needs.

**C. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Academy's financial statements are prepared using the accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Revenue resulting from non-exchange transactions, in which the Academy receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the period in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the period when the resources are required to be used or the period when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis. Expenses are recognized at the time they are incurred.

**D. Budgetary Process**

Unlike other public schools located in the State of Ohio, community schools are not required to follow the budgetary provisions set forth in Ohio Rev. Code Chapter 5705, unless specifically provided by the Academy's contract with its Sponsor. The contract between the Academy and its Sponsor prescribes an annual budget requirement as part of preparing a five year forecast, which is updated on an annual basis.

**E. Cash**

For purposes of the statement of cash flows and for presentation on the statement of net position, investments with maturities of three months or less at the time they are purchased by the Academy are considered to be cash equivalents. Investments with maturities greater than three months at the time they are purchased are reported as investments.

**F. Restricted Assets**

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors or laws or other governments or imposed by enabling legislation. The Academy had no restricted assets at fiscal year-end.

**G. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond the current fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expense is reported in the year which services are consumed. At fiscal year-end, prepaid items are not available to finance future net position expenses.

**H. Inventory**

Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. The Academy had no inventory at fiscal year-end.

**I. Capital Assets**

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their fair market values as of the date received. The Academy does not possess any infrastructure. The Academy maintains a capitalization threshold of \$1,000. Improvements are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets are depreciated. Improvements to capital assets are depreciated over the remaining useful life of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimate Life</u>
Buildings and Improvements	15 years
Furniture, Fixtures, and Equipment	5-10 years

**J. Accumulated Leave**

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. The Academy has no employees.

**K. Accrued Liabilities and Long-Term Obligations**

All accrued liabilities and long-term debt is reported on the statement of net position. The Academy had no long-term obligations at the end of the fiscal year.

FOR THE FISCAL YEAR ENDED JUNE 30, 2016

**NOTE 17 – COMPONENT UNIT DISCLOSURES (Continued)**

**L. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Academy did not have any deferred outflows of resources at fiscal year-end.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Academy did not have any deferred inflows of resources at fiscal year-end.

**M. Net Position**

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Academy or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. The Academy had no restricted net position at fiscal year-end.

The Academy's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted net position is available.

**N. Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the Academy. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activities of the Academy. All revenues and expenses not meeting this definition are reported as non-operating.

**O. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Deposits and Investments**

**A. Deposits**

At fiscal year-end, the carrying amount of the Academy's deposits was \$1,033,195 and the bank balance was \$1,041,447. Of the Academy's bank balance, \$250,000 was covered by the Federal Deposit Insurance Corporation (FDIC), while the remaining \$791,447 was exposed to custodial risk.

**Risk Management**

**Property and Liability**

The Academy is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the Academy was listed as an additional insurance organization on the Sponsor's insurance coverage from with Ohio Casualty Co., member of Liberty Mutual Group, administered by Andrew Insurance Associates, Inc. The Sponsor has general liability insurance with a \$1,000,000 single occurrence limit and a \$2,000,000 aggregate. Property is also protected by Ohio Casualty Co., member of Liberty Mutual Group and holds a \$1,000 deductible.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from the prior fiscal year.

**Operating Lease**

The Academy entered into a Property Lease Agreement for space to be used as a school building, office space and other permitted uses. The term of the lease is ten years, commencing on September 7, 2010. The minimum annual payments to be made from the Academy during years one through five are \$105,128 and \$119,144 for years six through ten.

In addition, in accordance with the Property Lease Agreement, the Academy pays a fee for maintaining, equipping, repairing, replacing, and otherwise managing the Common Area. This fee increases three percent each year.

During the fiscal year, Property Lease Agreement payments totaled \$106,079.

**Fiscal Agent and Payment to Sponsor**

The Community School Sponsorship Contract between the Academy and the Groveport Madison Local School District requires the Academy to pay the following amounts:

- The Academy will reimburse Sponsor for actual payroll expenses incurred for compensating and providing benefits to employees.
- The Academy may purchase certain special education and related services from the Sponsor.
- The Academy may also pay the Sponsor other amounts as are mutually agreed for any services provided to the Academy by the Sponsor.

During the fiscal year, the Academy paid the Sponsor \$531,678 for the services defined above.

**Contract with the Metropolitan Educational Technology Association (META) Solutions**

On June 9, 2014, the Academy entered into a three-year contract with the Metropolitan Education Council (MEC) for fiscal years 2015 through 2017. On April 1, 2015, MEC merged with the Tri-Rivers Educational Computer Association (TRECA) to form the Metropolitan Educational Technology Association (META) Solutions. Under the contract, the Academy agreed to the following terms:

- MEC shall provide the Academy with fiscal, student, EMIS, and technical services sufficient to effectively implement the Academy's educational plan and the Academy's assessment and accountability plan.
- All personnel providing services to the Academy on behalf of META under the agreement shall be employees of META and META shall be solely responsible for all payroll functions, including retirement system contributions and all other legal withholding and/or payroll taxes, with respect to such personnel. All shall possess any certification or licensure which may be required by law.
- The technical services provided by META to the Academy shall include access to, and the use of, computer software, computer hardware, networking hardware, network services, and the services of technical support personnel necessary to implement the plan of operation.

During the fiscal year, the Academy paid MEC \$7,903 for these services. Financial information may be obtained from Scott Armstrong, CFO, 100 Executive Drive, Marion, Ohio 43302.

**Contingencies**

**A. Grants**

The Academy received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

**B. Litigation**

The Academy is not party to any litigation that, in the opinion of management, would have a material effect on the financial statements.

**C. Ohio Department of Education Enrollment Review**

The Ohio Department of Education (ODE) conducts reviews of enrollment data and full time equivalency (FTE) calculations made by the Academy. These reviews are conducted to ensure the Academy is reporting accurate student enrollment data to the State, upon which foundation funding is calculated. The results of the fiscal year 2015 and 2016 reviews, as of the date this report was issued, was an overpayment of \$35,525. The Academy will repay this amount in fiscal year 2017.

Based on the results of a full-time equivalency review performed by the Ohio Department of Education, the Groveport Madison Local School District (Sponsor) and the Groveport Cruiser Academy have approved a joint resolution of intent settling any and all disputes between the Sponsor, Academy, and the Ohio Department of Education. Based on this settlement agreement, a liability has been recorded of \$67,465 in accordance with the settlement agreement.

**Purchased Services**

A breakdown of purchased services expenses for the fiscal year is as follows:

Instruction	\$ 897,408
Copier	8,237
Building Lease	138,564
Utilities	15,732
Other Purchased Services	14,768
Total	<u><u>\$ 1,074,709</u></u>

**Subsequent Event**

The Groveport Madison Local School District and the Groveport Cruiser Academy approved a joint resolution of intent settling any and all disputes with the Ohio Department of Education as a result of their full-time equivalency audit.

**NOTE 18 – ENCUMBRANCES**

The District encumbers funds with purchase orders to assign funds for those purchases of goods and services. Encumbrances as of fiscal year end were as follows:

	<u>Encumbrances</u>
General Fund	\$ 2,070,190
Building Fund	52,524,290
Other Governmental Funds	239,240

**NOTE 19 – CHANGES IN ACCOUNTING PRINCIPLES**

For fiscal year ending June 30, 2016, the District has implemented the following:

GASB Statement No. 72 *“Fair Value Measurement and Application”* enhances comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement also enhances fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government’s financial position. The implementation of this statement did not have a significant effect on the financial statements of the District.

GASB Statement No. 76 *“The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments”* improves financial reporting by (1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing for broader public input on implementation guidance; (2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and (3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in non-authoritative literature. The implementation of this statement did not have an effect on the financial statements of the District.

GASB Statement No. 79 *“Certain External Investment Pools and Pool Participants”* which establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of this statement did not have a significant effect on the financial statements of the District.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE FISCAL YEAR ENDED JUNE 30, 2016**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Groveport Madison Local School District, Franklin County (the District) under programs of the federal government for the fiscal year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE D – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Groveport Madison Local School District  
Franklin County  
4400 Marketing Place, Suite B  
Groveport, Ohio 43125

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Groveport Madison Local School District, Franklin County, (the District) as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 30, 2017.

***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Center's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Center's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY UNIFORM GUIDANCE**

Groveport Madison Local School District  
Franklin County  
4400 Marketing Place, Suite B  
Groveport, Ohio 43125

To the Board of Education:

***Report on Compliance for The Major Federal Program***

We have audited the Groveport Madison Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the District's major federal program for the fiscal year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

***Management's Responsibility***

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

***Opinion on The Major Federal Program***

In our opinion, the District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2016.

***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
