NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Delaware (the City) under programs of the federal government for the year ended December 31, 2017. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS with REVOLVING LOAN CASH BALANCE

The City has established a revolving loan program to provide low-interest loans to businesses to create jobs for persons from low-moderate income households. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the City, passed through the Ohio Development Services Agency. The initial loan of this money is recorded as a disbursement on the Schedule. Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

The current cash balance on the City's local program income account as of December 31, 2017 is \$197.662.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Delaware Delaware County One South Sandusky Street Delaware, Ohio 43015

To the City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, (the City) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 21, 2018.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Dave Yost Auditor of State Columbus, Ohio

June 21, 2018

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

City of Delaware Delaware County One South Sandusky Street Delaware, Ohio 43015

To the City Council:

Report on Compliance for the Major Federal Program

We have audited the City of Delaware's (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the City of Delaware's major federal programs for the year ended December 31, 2017. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City's major federal programs.

Management's Responsibility

The City's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for the City's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City's major programs. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City of Delaware complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended December 31, 2017.

88 East Broad Street, Tenth Floor, Columbus, Ohio 43215-3506 Phone: 614-466-3402 or 800-443-9275

Page 2

Report on Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Delaware (the City) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated June 21, 2018. We conducted our audit to opine on the City's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements.

Over Compliance Required by the Uniform Guidance
Page 3

We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Dave Yost Auditor of State Columbus, Ohio

Members of City Council and Citizens of Delaware, Ohio

Ohio Revised Code requires that each public office be audited at least every two fiscal years, except under U.S. Office of Management and Budget (OMB) *Compliance Supplement*, Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), which may require, or has elected to have, an audit every fiscal year. The City of Delaware [the City] meets the requirements for an annual audit and this report is published to satisfy that requirement for the year ended December 31, 2017.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with City management and is based upon a comprehensive framework of internal controls that they have established for this purpose. These controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that [1] the cost of a control should not exceed the benefits likely to be derived from its implementation and [2] the valuation of costs and benefits requires estimates and judgments by management. We believe the data as presented is accurate in all material respects and that it is presented in a manner designed to set forth fairly the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

In accordance with Ohio law, an independent audit is required to be performed on all financial operations of the City. Either the Auditor of State of Ohio, or, if the Auditor permits, an independent public accounting firm conducts the audits. For 2017, the Auditor of State of Ohio performed these services. Their report is presented in the front of the Financial Section.

Management's Discussion and Analysis [MD&A] immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Reporting Entity

The City has reviewed its reporting entity definition in order to insure compliance and conformance with the Governmental Accounting Standards Board Statement Number 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" and GASB Statement No.61, "The Financial Reporting Entity: Omnibus". For financial reporting definition purposes, City management considered all agencies, departments, and organizations comprising the City of Delaware, the primary government, and its potential component units. Areas of consideration include financial

accountability, ability to impose its will, financial benefit, and financial burden. The City has no component units.

The City of Delaware

The City is the seat of Delaware County, 25 miles north of downtown Columbus, the Ohio state capital. Delaware is an independent, full service city that has retained its small town qualities while adapting to recent high levels of growth and development. Delaware County is the fastest growing county in Ohio, identified as one of the 100 fastest growing, wealthiest and most educated areas of the country. Housing in Delaware is available in older, tree-lined neighborhoods, newer modern subdivisions, condominium developments and rental complexes. The population of Delaware increased by about 40 percent between 2000 and 2010, going from just over 25,000 residents to over 35,000. It is expected that Delaware's population will exceed 40,000 at some point in 2018.

The region was originally occupied by the Delaware Indians who shared the territory between Columbus and Lake Erie with the Mingos and other tribes. Prehistoric Hopewell Mound Builders inhabited this area even earlier. Delaware was a country village in an agricultural region in 1808. Following the War of 1812, settlers arrived at a faster pace, including the parents of Rutherford B. Hayes, 19th President of the United States, who was born in Delaware in 1822. He met his future wife at Ohio Wesleyan University in Delaware.

Prior to the Civil War, Delaware had Northern sympathies and brought the underground railway through the area. The local Africa Road owes its name to this era. During and following the War, railroads played an important role in expanding the markets of Delaware. By 1900, Delaware had its own electric street railway and an electric interurban rail line connecting the community with Columbus and Marion.

In the modern era, farming has declined steadily throughout Delaware County as residential and industrial development has flourished. The proximity to Columbus, as well as historic periods of growth and prosperity, has greatly influenced the economy of Delaware. Its history, however, is carefully preserved in its many 19th century buildings and homes, its comfortable scale and architecture, and the pace of life as a home town.

The City covers over 19 square miles. The City of Delaware provides municipal and general administrative services under the supervision of the City Manager for police protection, fire and emergency medical services, water, sewer, storm sewer, and refuse utility services, road maintenance and improvement, a wide array of parks and recreational facilities and services, and other support services. The City also maintains a county-wide municipal court under the elected offices of 2 Judges and a Clerk of Court.

City Government

Delaware was founded in 1808 and incorporated in 1816. The City is a Charter Municipal Corporation established and operated under the laws of the State of Ohio. The Charter was first adopted November 6, 1951, and established the Council/Manager form of government. Delaware City Council consists of seven elected members. Three City Council positions are elected at-large; the other four positions are elected from the four wards of the City. The regular term of every member of Council is four years. Elections of members of Council are staggered such that every other year either the three at-large positions are elected or the four ward positions are elected. At the conclusion of each bi-annual election, one of the three at-large members of Council is elected Mayor by vote of all seven members of Council to serve a two-year term. The Mayor

presides at meetings of Council and is recognized as the official head of the City for all ceremonial purposes, military purposes, and for servicing civil process.

The members of Council are the legislative authority of the City. Council enacts ordinances and resolutions relative to City services, tax levies, appropriating and borrowing money, licensing, and regulating businesses and trades, and other various municipal purposes.

The City Manager is the City's chief executive officer and is appointed by Council. It is the duty of the City Manager to act as chief conservator of the peace within the City; to supervise the administration of the affairs of the City; and to see that the ordinances of the City and the laws of the State are enforced. The City Manager supervises the administration of all departments and appoints the various department heads and other City employees. He also executes all contracts, conveyances, and evidences of indebtedness of the City.

City administrative departments operating under the supervision of the City Manager include: Police, Fire, Finance, City Attorney, Planning and Community Development, Public Works and Engineering, Parks and Recreation, and Public Utilities.

Economic Conditions and Outlook

The City of Delaware set many economic development records in 2017 including 372 leads generated in one year, and 311 projects evolving from those leads. With this high level of activity, the local economy continues to thrive. Successful 2017 projects led to the creation of 229 new jobs and retention of 86 jobs.

Another indicator of a vibrant and healthy economy is occupancy rates. Our downtown increased to a 95% first-floor occupancy rate, while our retail centers averaged 91% occupancy. A majority of our retail centers are at 100% occupancy.

With this type of growth, a limiting factor has become availability of pad-ready land and available buildings. The opening of the Sawmill Parkway Extension in 2016 has allowed us to work toward making over 1,000 new acres pad-ready for boutique manufacturers, R&D centers, tech companies and business services. We also are working with building owners to prepare or redevelop older buildings for high-end office spaces for technology companies and creative services firms.

National trends are showing traditional brick-and-mortar retail of everyday goods continuing to be in decline. Therefore, it has been difficult to attract non-boutique retailers to our community. Specialty and boutique retail continues to be strong.

The City of Delaware continues to be a statewide and regional leader in economic development. Not only are we leaders in job creation but also in policy and strategy development. Sean Hughes served on the Ohio Economic Development Association (OEDA) board of directors and the board of directors for the Mid-Ohio Development Exchange (MODE).

Major Initiatives

Police: The Police Department has added community engagement as a major undertaking in the past two years. Community engagement became a necessity due to recent current events across the country, and was developed out of ongoing meetings with members of the community. In addition to regularly occurring events such as Safety Town, Picnic with the Cops at First Friday, DPD Basketball Camp, and the Citizens Police Academy, and Coffee with the Cops(to name a few); the Police Department has also made a concerted effort

to make connections on a day to day basis. A Community Impact Officer (CIO) position was budgeted and hired. The job of the CIO is to create opportunities for all officers to be able to engage in non-enforcement activities in the community. Combined with our efforts to an improved response to crimes by immediately addressing underlying problems associated with crime, our community engagement efforts will allow us to better serve the city.

Fire-EMS: In 2010, a 0.3% income tax increase was voted in to fund the construction, equipping, and staffing of two new fire stations to provide more efficient and effective fire protection for all areas within the growing City. Land was purchased in 2011 for two new stations one in the northwest section of the City, the other in the southeast. Design on the northwest station [303] began in 2011, construction began toward the end of 2012, and the Department began operation in September 2013. Construction of the southeast station [304] began in 2018. The City began hiring new firefighter/EMS personnel in 2011 to staff the two new stations. As of May 1, 2018, the Department has hired 21 new positions. The Department placed into service a new 100' ladder truck, four new paramedic ambulance, a new engine, a new 107' Quint/Engine and replaced aging self-contained breathing apparatus and cardiac monitors/defibrillators. In 2018, the Insurance Service Office (ISO) conducted an assessment of the fire protection and upgraded the ISO Classification to a Class 2 insurance rating, effective August 1, 2018.

Public Utilities: In 2017, the Public Utilities Department completed the majority installation of a new water meter reading system. The AMI system has automated the City's water meter reading system by transmitting daily water meter reads via a radio system to the City's utility billing office. The AMI system also provided residents with the capability to access their water usage on a daily basis and set usage alerts. Projects expected to be completed in 2018, include the replacement of approximately 1,000 linear feet of six-inch water line on Blymer Street, 1,000 feet of eight-inch water main on East Winter Street, and the installation of a new tertiary treatment system at the wastewater treatment plant. For 2017 [on May 15, 2018], the City was awarded the AEP Ohio Energy Efficiency Champion Award. This award recognizes those who have made outstanding contributions increasing energy efficiency within their organizations, reducing their energy usage, and positively impacting the environment.

Public Works: The new 27,000 SF refuse building was awarded in 2017 and remains under construction with anticipated occupancy in July 2018. The new facility will house the refuse collection fleet, replacement tip-cart inventory, and 9000 SF of floor area designated to the processing and loading of recyclable materials for transport by our recycling contractor. The existing recycling building on Cherry Street is functionally obsolete and will be demolished, clearing the way for expanded river front access and preservation initiatives. Before demolition, the Fire Department will conduct various fire training exercising within the old facility. At the Airport, grant applications are being prepared for the reconstruction of pavement areas around the City owned T-hanger units. Plans for construction of a second privately owned corporate hanger are also under consideration. The next phase of Glenn Parkway from Sycamore Drive to Berlin Station Road is under design with anticipated construction in 2020. The design will accommodate the eventual extension of Glenn Parkway below the existing Norfolk-Southern railway north of Berlin Station Road. The City continues to work on several transportation initiatives utilizing State and Federal grants including citywide traffic signal improvements, The Point intersection railway bridge replacement project, West Central Over-height Vehicle Detection Warning System, and Heffner and Winter Street pavement improvements. The US23/Pennsylvania Ave. interchange was completed and open to the public in 2017. The project received multiple local and state engineering awards acknowledging innovative solutions and cost control.

Recreation: The Parks and Natural Resource Department grounds crew will be moving to a new location at the Public Works and Parks facility on E William St. The new space will allow the entire department to be in one location improving communication and efficiency within the department. Our staff continues to expand our

service areas with new landscape beds on the US 23 exit ramp at Pennsylvania Ave. and new hanging baskets throughout the downtown area. A new playground feature was added to the Lexington Glen Park to replace an aged system that was no longer safe. New furniture was purchased at the Mingo Recreation Center replacing the 20+ year furniture. The Mingo pool replaced portions of the pool deck that had deteriorated and a new pool pump was purchased in 2018. The Glenross Park Phase 2 improvements were started in 2017 and will continue in 2018 providing additional landscaping trails and athletic fields. Planning for a new neighborhood park off of Houk Road will continue in 2018 with initial phases of construction planned for 2019. The new park will utilize Park Exaction Funds for Phase 1 construction. Additional shade structures were added to the Veterans Park splash pad to accommodate the parks high attendance. Trail improvements continue along Central Ave. on the west side of the City adding another section from Houk Road to Trotter's Landing Apartments. This will leave one link remaining to provide a safe active transportation route to a growing area. The final gap along Central Ave. is planned to be filled by 2020.

Planning & Community Development: New home building, including single and multi-family homes, condos and apartments, decreased over 17.6% in number built and increased in value 3.3% from 2016 to 2017. Residential building permits totaled 252 for 2017, down from 306 in 2016. These 252 permits, however, totaled some \$64.5 million in home value, from \$62.4 million in 2016. Commercial permits also decreased, from 298 in number to 243 and from \$72 million in value to \$23.6 million in 2017.

Economic Development:

Industry – In early 2017, the Tax Incentive Review Council (TIRC) reported to Council and the Ohio Development Services Agency the status of the 13 active City tax incentive agreements. These agreements have created 621 jobs with a \$30,717,256.76 payroll. Additionally, these incentive agreements have generated \$2,975,968 in real property tax investment.

In 2017, we welcome multiple office/tech/medical companies including Taft law firm, TriTraction, Ascent Audiology and Hearing, Bolton Insurance, ACR Consulting Services, and Substratum.

We also welcome multiple retail and restaurant businesses including Off The Block (since closed), Buckeye Motors, Tiger Lee's Martial Arts, Secret Identity Comics, Periwinkle Studios, Real Big Puppy, Speedway, Flying Pig Ale House, Shell Gas, Planet Fitness, and Oak & Brazen.

Several companies also completed expansions in 2017 including Ohio Health Radiation Oncology, Washington Auto Parts Inc., Olivina Tap Room (liquor license), Great Gouda (liquor license), Aldi (liquor license), Carolina Color, Federal Heath, Delaware Diamonds, and Oberfields.

Business Incentives and Creating Development

The City of Delaware allows tax incentives offers tax incentives meeting the requirements set forth under GASB Statement No. 77 primarily through Enterprise Zone tax abatements (EZA) and Community Reinvestment Areas (CRA). The EZA program has not been utilized in many years as its function is now limited to benefit businesses from abatement of real estate taxes. The City's CRA program benefits business from the abatement of real estate taxes and effects public tax dollars.

All City business incentives start the above abatement processes with an application process from the business declaring their commitments of building improvements and/or job creation by moving their business into the City. Thereby, the business will improve an existing building or constructing a new building(s) to accommodate their new increased manufacturing, professional or retail establishment's personnel and equipment. The City,

after reviewing the applications, will accept, amend, or deny the business request based upon the criteria (minimum return on investment criteria) as stated in the notes to the financial statements. Thus, a complete cost/benefit analysis is performed by the administration before making a decision on the businesses incentive request. The City makes public any decision to allow any incentives through an ordinance approved by City Council. When an agreement requires the City to have a Delaware City School District (DCSD) tax sharing agreement under section 5709.82 of the Ohio Revised Code, the City will enter into an agreement with the DCSD.

The Delaware County Appraisal Department under the County Fiscal Officer, assigns taxable values to new or improved commercial property improvements. This new or improvement valuation is used in conjunction with a contract between the City and the business to establish the dollar amount of abated valuation associated with the new construction and/or improvements.

Monitoring Incentives:

The City of Delaware is required by statute, to file online annually, by March 31st, all abatement information with the State of Ohio. This applies to each individual abatement contract and overall statistics of the CRA program related to the abatements granted. Information such as number of jobs created, retained employment, the amount of payroll related to increased jobs, real estate improvement dollars invested, income tax dollars generated from each and overall contracts.

The City is required to submit to a review of all CRA and EZA Contract agreements with the Tax Incentive Review Council (TIRC) annually in August. The TIRC is organized by Section 5709.85 (A) (1) of the Ohio Revised Code. consisting of 7 members: one legislative appointee, one County Auditor (Fiscal Officer) appointee, one member of the Board of Education, the Chief Financial Officer of the City, and two - ix - members of the public appointed by the City Manager with concurrence of the legislative authority (City Council), with at least four members being residents of the City. The TIRC reviews the State of Ohio CRA/EZA forms of each corresponding business incentive and votes to continue, request modification of the current agreement, decide that the business is non-compliant with their contract requirements, or if appropriate, let the incentives expire.

The TIRC presents its recommendations to the City of Delaware Council at a public meeting and, by resolution, can accept, modify or reject the recommendations of the TIRC. City Council reserves the right to terminate abatements and incentives when businesses are not in compliance. City Council's Goals and strategic plan as they review/and or approve these incentives and recommendations are to maintain the City of Delaware's competitiveness as a site for location of new businesses and the expansion of existing businesses, create and retain jobs, and increase real estate values, for tax purposes. The economic effect of these incentives are immediate when increasing jobs as municipal income taxes increase, however, for the most part the positive economic effects from collection of real estate taxes, will be in the future.

Significant 2017 City of Delaware Business Highlights

Downtown Delaware is one of the City's most defining elements because it is an intact historic business district—parts of which have been placed on the National Register of Historic Places. The central business district has a large concentration of retail and commercial businesses and is becoming a popular food and beverage destination due to a growing number of restaurants, microbreweries and bars. The historic downtown continues to positively evolve and be vibrant with an increasing first-floor occupancy rate at 95%. Second and third-floor office/residential space occupancy rates hover around 80%.

Ohio Wesleyan University is a direct component of the built downtown environment and is considered a downtown anchor. This advantageous location offers cultural and educational opportunities for students, businesses and the community.

The City of Delaware maintains an active Main Street program which provides a full-time director. Main Street Delaware implements key events in the downtown such as First Friday, Main Street Delaware Farmers' Market, Planter Programs, sidewalk cleaning, Christmas decorations, Santa House, Carriage Rides, Chocolate Walk, March for Art, Artful Spaces, Public Art, Design Awards, 12 Days of Christmas and more. The U.S. Department of Interior certified Delaware as a Certified Local Government and Delaware has been named "Best Hometown" by Ohio Magazine. The City was also one of the nation's first eight Preserve America Communities, as selected by the White House.

The following table shows comparative average monthly employment and unemployment statistics for the indicated periods.

	Employed in	Unemployment Rate		
Year	County	County	<u>State</u>	<u>U.S.</u>
2008	86,675	4.6	6.5	8.5
2009	85,973	6.9	10.8	10.0
2010	86,200	7.1	9.6	9.4
2011	85,754	6.7	7.4	8.1
2012	91,751	5.0	7.0	7.5
2013	98,700	5.2	6.2	6.8
2014	99,500	3.2	4.7	5.6
2015	101,490	3.5	4.8	5.0
2016	100,500	3.4	4.9	4.7
2017	106,877	2.9	4.7	4.9

The following employers (private and public) have some of the largest work forces within the City:

		Approximate
	Nature of Activity	Number of
Employer	or Business	Employees
Ohio Health-Grady Hospital	Medical services	1,500
Delaware County	County government	1,091
The Kroger Company	Grocery & retail	1,086
Delaware City School District	Education	646
Ohio Wesleyan University	Education	576
Advance Auto	Automotive parts distribution	406
PPG Industries OH	Aftermarket auto finishes	383
Vertiv [Liebert]	High voltage UPS systems	347
City of Delaware	Municipal government	330
Domtar [formerly AHP]	Disposable diaper manufacturer	290

Financial Information

The City of Delaware's accounting system is organized on a "Fund Basis". Each fund is a distinct, self-balancing account.

Development of the City's accounting system includes consideration of internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that [1] the cost of a control should not exceed the benefits likely to be derived from its implementation and [2] the valuation of costs and benefits requires estimates and judgments by management.

The City adopts its annual appropriation ordinance on or before January 1 of each year. The City Manager and the Finance Director prepare the budget legislation and submit it to City Council for their consideration and approval. All disbursements require appropriation authority. The legal level of budgetary control is at the payroll expenditures/expenses and other expenditures/expenses. For reporting purposes, the City further divides "other" by their function.

The Finance Director is authorized to transfer appropriations between line items, within a department or fund. Any increase in the total appropriations for a department must be approved by City Council. A purchase order is required before making any purchase over \$250.

Financial Policies

The City's budget is not a static document. It is prepared prior to the beginning of the year it represents; however, it is scrutinized by staff at least on a monthly basis for accountability. The City may budget to receive a certain amount of revenue in an account or fund, to be used for certain operations or capital improvements. However, if those revenues are not received in their entirety or at all, those appropriations are not necessarily deemed allowable expenditures. The Finance Director, City Manager, and Departmental Directors, review the budget to determine what operations or projects may be postponed, dismissed entirely, or done sooner, depending on the circumstances. In times when the economy is slow, and fee collections are decreased, this scrutinizing plays a major role in maintaining a positive budget balance.

In April 2017, Moody's Investors Service issued a Aa2 rating for the City's General Obligation Bond Issue, Series 2017. This rating was maintained with the City's previous Aa2 bond rating. In issuing their credit opinion, Moody's indicated "The Aa2 rating reflects the City's moderately sized and growing tax base, its proximity to the expanding Columbus (Aaa stable) metro area, and sound financial operations supported by prudent management and robust income tax growth. These strengths are balanced against the City's heightened debt and pension burdens."

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada [GFOA] awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Delaware for its Comprehensive Annual Financial Report for the year ended December 31, 2016. This is the thirteenth consecutive award the City has received for a CAFR. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Delaware Finance Department believes this current report continues to conform to the program's requirements, and it will be submitted to GFOA for review.

Acknowledgements

We would like to thank the many departments that assisted in providing information reported in this CAFR, as well as the Delaware County Auditor's Office. We would also like to recognize City Council for their continued support and commitment to responsible financial reporting.

We are pleased to present this report to the residents and taxpayers of the City of Delaware.

Sincerely,

Dean P. Stelzer

Finance Director

INDEPENDENT AUDITOR'S REPORT

City of Delaware Delaware County One South Sandusky Street Delaware, Ohio 43015

To the City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, Ohio (the City), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

City of Delaware Delaware County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the each major fund, and the aggregate remaining fund information of the City of Delaware, Delaware County, Ohio, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Fire/EMS Income Tax funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

City of Delaware Delaware County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2018, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Dave Yost Auditor of State Columbus, Ohio

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

The management's discussion and analysis of the City of Delaware's (the "City") financial performance provides an overall review of the City's financial activities for the year ended December 31, 2017. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

- The total net position of the City increased \$31.5 million. Net position of governmental activities increased \$6 million or 7.74% from 2016 and net position of business-type activities increased \$3.1 million or 3.13% from 2016.
- ➤ General revenues accounted for \$31.1 million or 65.29% of total governmental activities revenue. Program specific revenues accounted for \$16.6 million or 34.71% of total governmental activities revenue.
- ➤ The City had \$41.8 million in expenses related to governmental activities; \$16.6 million of these expenses were offset by program specific charges for services, grants or contributions. The remaining expenses of the governmental activities of \$25.2 million were offset by general revenues (primarily property taxes, income taxes and unrestricted grants and entitlements) of \$31.1 million.
- The General Fund had revenues of \$20 million in 2017. This represents an increase of \$1.3 million from 2016. The expenditures and other financing uses of the general fund, which totaled \$18.9 million in 2017, increased \$562 thousand from 2016. The net increase in fund balance for the general fund was \$1.1 million or 16.45% compared with the 2016 balance.
- The Fire/EMS Income Tax Fund had revenues and other financing sources of \$13.7 million in 2017. This represents an increase of \$4 million from 2016 revenues and other sources. The expenditures and other financing uses of the Fire/EMS Income Tax Fund, which totaled \$8.7 million in 2017, decreased \$1.6 million from 2016. The net increase in fund balance for the Fire/EMS Income Tax Fund was \$5 million or 77.55%.
- ➤ The Capital Improvement Fund had revenues and other financing sources of \$3.2 million in 2017. The expenditures and other financing uses of the Capital Improvement Fund totaled \$2.8 million in 2017. The net increase in the fund balance for the Capital Improvement Fund was \$401 thousand or 29.18%.
- ➤ The Glenn Road South Construction Fund had other financing sources of \$9.9 million in 2017. The expenditures of the Glenn Road South Construction Fund totaled \$10.7 million in 2017. The net decrease in the fund balance for the Glenn Road South Construction Fund was \$795.2 thousand or 7.41%.
- Net position for the business-type activities, which are made up of the Water, Sewer, Storm Sewer, Refuse, Parking Lot, and Golf Course enterprise funds, increased in 2017 by \$3.1 million.
- In the General Fund, the actual revenues came in \$719 thousand more than they were in the final budget and actual expenditures and other financing uses were \$1.1 million less than the amount in the final budget. Final budgeted revenues were \$85 thousand less than the original budgeted revenue. Budgeted expenditures and other financing uses increased \$1 million from the original to the final budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the City as a whole, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

Reporting the City as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2017?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses using the accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in net position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required community programs and other factors.

In the statement of net position and the statement of activities, the City is divided into two distinct kinds of activities:

Governmental activities - Most of the City's programs and services are reported here including police, fire, street department, capital improvements and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's water, sewer, storm sewer, refuse, parking and golf operations are reported here.

The City's statement of net position and statement of activities can be found on pages 23-25 of this report.

Reporting the City's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The analysis of the City's major governmental and proprietary funds begins on page 14.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. The City has segregated these funds into major funds and nonmajor funds. The City's major governmental funds are the General Fund, Fire/EMS Income Tax fund, Capital Improvement Fund, and Glenn Road South Construction Fund. Information for major funds is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 26-31 of this report.

Proprietary Funds

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, and golf course management functions. City's enterprise funds considered to be major funds include the Water Fund, Sewer Fund, Refuse Fund and Storm Water Fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City reports a Self-Insurance Fund, Worker's Compensation Fund, Garage Rotary Fund, and Information Technologies Rotary Fund. The basic proprietary fund financial statements can be found on pages 32-41 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be found on page 42 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 43-97 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's net pension liability. The required supplementary information can be found on pages 100-106 of this report.

Government-Wide Financial Analysis

The statement of net position provides the perspective of the City as a whole. The table below provides a summary of the City's net position for 2017 compared to 2016.

Table 1
Net Position

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

In a prior year, the City adopted Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27" and during 2015, the City adopted GASB Statement 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - An Amendment of GASB Statement No. 68" which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2017, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$186.2 million. At year-end, net position was \$83.2 million and \$103 million for the governmental activities and the business-type activities, respectively.

Capital assets reported on the government-wide statements represent the largest portion of the City's net position. At year-end, capital assets net represented 71.51% of total assets. Capital assets include land, construction in progress, buildings and improvements, machinery and equipment, and infrastructure. The City's net investment in capital assets at December 31, 2017, was \$55.4 million and \$80.3 million in the governmental activities and business-type activities, respectively. These capital assets are used to provide services to citizens and are not available for future spending.

A portion of the City's net position, \$33.7 million represents resources that are subject to external restriction on how they may be used. In the governmental activities, the remaining balance of unrestricted net position is \$16.8 million.

Intentionally left blank

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

The table below shows the changes in net position for years 2017 and 2016.

^{*} reporting in 'thousands' displays some rounding variances

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Governmental Activities

Governmental activities net position increased 7.74% or \$6 million in 2017.

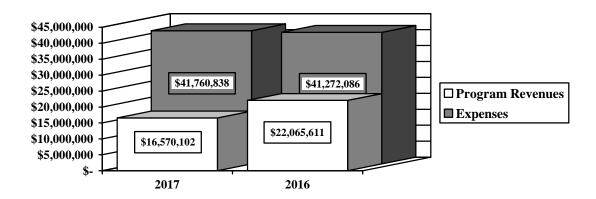

Public safety, which primarily supports the operations of the police and fire departments accounted for \$18.7 million of the total governmental expenses of the City. These expenses were partially funded by \$1.2 million in direct charges to users of the services, \$2.1 thousand in operating grants and contributions and \$12.7 thousand in capital grants and contributions. Public works expenses totaled \$5.8 million. Public works expenses were partially funded by \$321.3 thousand in direct charges to users of the services, \$1.8 million in operating grants and contributions and \$3.5 million in capital grants and contributions. General government expenses totaled \$6.7 million. General government expenses were partially funded by \$2.7 million in direct charges to users of the services, \$98 thousand in operating grants and contributions and \$81 thousand in capital grants and contributions.

The state and federal government contributed to the City a total of \$2.2 million in operating grants and contributions and \$4.2 million in capital grants and contributions. These revenues are restricted to a particular program or purpose.

General revenues totaled \$31.2 million and amounted to 65.29% of total governmental revenues. These revenues primarily consist of property, income tax and other tax revenue of \$28.7 million. Unrestricted grants and entitlements of \$1.1 million, which includes local government funds, is the other primary source of general revenues.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state grants and entitlements. As can be seen in the graph below, the City is highly dependent upon property and income taxes as well as unrestricted grants and entitlements to support its governmental activities.

Governmental Activities - Program Revenues vs. Total Expenses

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

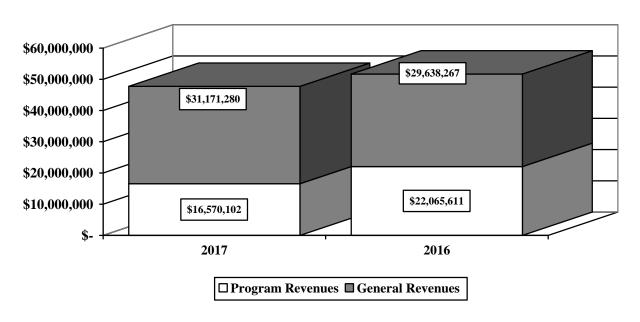

Governmental Activities (In Thousands)*

	Cost of Services 2017	Total Cost of Services 2016		Net Cost of Services 2017		Net Cost of Services 2016	
Program Expenses:							
General government	\$ 6,708	\$	5,525	\$	3,792	\$	2,993
Public safety	18,710		19,992		17,476		18,802
Municipal court	3,121		3,856		(1,100)		164
Parks and facilities	3,557		3,054		2,876		1,896

Interest and Fiscal Charges	 1,056		1,178		1,056		1,178
Total Expenses	\$ 41,761	\$	41,272	\$	25,191	\$	19,206

^{*} reporting in 'thousands' displays some rounding variances

The dependence upon general revenues for governmental activities is apparent, with 60.32% of expenses supported through taxes and other general revenues.

Governmental Activities - General and Program Revenues

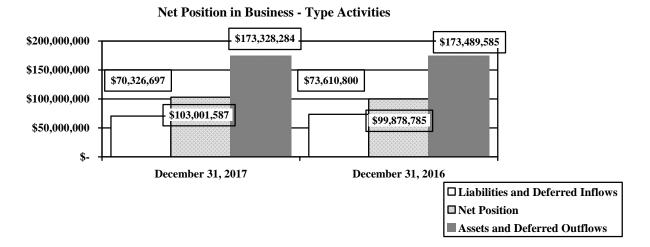

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Business-type Activities

Business-type activities include the water, sewer, storm sewer, refuse, parking, SEH bond and golf enterprise funds. These programs had program revenues of \$22.5 million, general revenues of \$336.3 thousand and expenses of \$19.7 million for 2017.

The graph below shows the business-type activities assets and deferred outflows of resources, liabilities and deferred inflows of resources, and net position at year-end 2017 and 2016.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at year-end.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

The City's governmental funds (as presented on the balance sheet on page 26) reported a combined fund balance of \$52.4 million which is \$8.2 million below last year's balance of \$44.2 million. The schedule below indicates the fund balances and the total change in fund balances as of December 31, 2017 for all major and nonmajor governmental funds.

	Fund	Fund	
	Balances	Balances	Increase
	12/31/17	12/31/16	(Decrease)
Major Funds:			
General	\$ 8,221,313	\$ 7,060,088	\$ 1,161,225
Fire/EMS income tax	11,436,103	6,441,131	4,994,972
Capital improvement	1,776,172	1,374,932	401,240
Glenn road south construction	9,935,538	10,730,821	(795,283)
Other nonmajor governmental funds	21,020,503	18,609,695	2,410,808
Total	\$ 52,389,629	\$ 44,216,667	\$ 8,172,962

General Fund

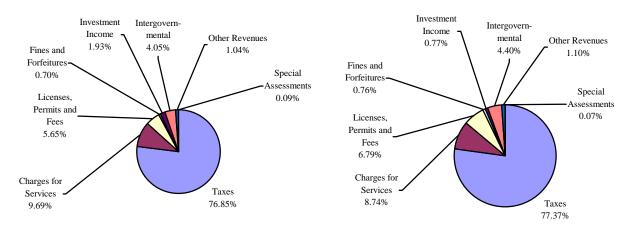

The General Fund increased just over \$1 million, the same as the increase in Income Taxes collected. The Parks & Recreation fund, which is merged into the General Fund for reporting, had its recreational programs operated by the YMCA beginning in 2012, so the operational costs required to run these programs is no longer a cost to the City. The table that follows assists in illustrating the revenues of the general fund.

	2017	2016	Percentage
	Amount	Amount	Change
Revenues			
Taxes	\$ 15,395,582	\$ 14,434,981	6.65 %
Charges for services	1,941,210	1,630,174	19.08 %
Licenses, permits and fees	1,132,517	1,267,821	(10.67) %
Fines and forfeitures	139,893	141,766	(1.32) %
Investment income	387,615	144,144	168.91 %
Special assessments	16,036	13,241	21.11 %
Intergovernmental	811,543	821,614	(1.23) %
Other	207,854	205,524	1.13 %
Total	\$ 20,032,250	\$ 18,659,265	7.36 %

Tax revenue represents 76.85% of all General Fund revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Revenues – 2017 Revenues - 2016

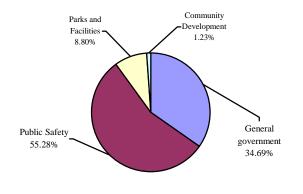

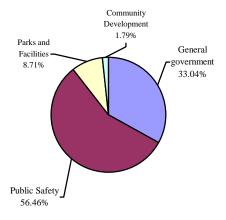

The table that follows assists in illustrating the expenditures of the general fund.

		2017 Amount	_	2016 Amount	Percentage Change
Expenditures					
General government	\$	5,329,512	\$	5,007,307	6.43 %
Public safety		8,493,089		8,557,976	(0.76) %
Parks and facilities		1,352,367		1,319,995	2.45 %
Community development	_	189,603	_	271,146	(30.07) %
Total	\$	15,364,571	\$	15,156,424	1.37 %

Total expenditures increased 1.37% from 2016. The largest expenditure line item, public safety, decreased 0.76%.

Expenditures - 2017 Expenditures - 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Fire/EMS Income Tax Fund

The Fire/EMS Income Tax Fund had revenues and other financing sources of \$13.7 million in 2017. This represents an increase of \$4 million from 2016 revenues and other sources. The expenditures and other financing uses of the Fire/EMS Income Tax Fund, which totaled \$8.7 million in 2017, decreased \$1.6 million from 2016, considering a new fire truck and 3 medic vehicles were purchased in 2016. The net increase in fund balance for the Fire/EMS Income Tax Fund was \$5 million or 77.55%. This increase is can also be attributed to proceeds from the 2017 bond sale being recorded here to fund the construction of Fire Station 304, the City's 4th.

Capital Improvement Fund

The Capital Improvement Fund is funded by federal and state grants, and significantly funded by transfers from the General Fund, which were increased by \$237 thousand for 2017. When grants are in high demand and short supply, as continued the case again in 2017, the fund is more reliant on General Fund transfers. The Capital Improvement Fund's revenues and other financing sources totaled \$3.2 million in 2017. The expenditures and other financing uses of the Capital Improvement Fund totaled \$2.8 million in 2017. Expenditures exceeded revenues by \$1.26 million, a reduction of \$588 thousand over 2016, and along with the increased transfers from the General Fund, the fund balance improved by \$401 thousand or 29.18%.

Glenn Road South Construction Fund

The Glenn Road South Construction Fund had other financing sources of \$9.9 million in 2017. The expenditures of the Glenn Road South Construction Fund totaled \$10.7 million in 2017. The net decrease in the fund balance for the Glenn Road South Construction Fund was \$795.2 thousand or 7.41%.

The Glenn Road South Construction Fund was initially funded in 2006 by a \$12.5 million bond anticipation note, which was rolled-over in 2007 and 2008. In 2009, this note was increased to \$18 million and at the end of 2010, as well as 2011, Glenn Road South, Middle, and North bond anticipation notes had been paid down to \$14.530 million. For 2012, a new 'section' of the Glenn Road South area was resurfaced and these notes increased to \$15.525 million. At the end of 2016, the notes stand at \$11.015 million. These notes are funding a project being accounted for in several different funds, so the allocation of the note proceeds varies over the years these projects are in process; the majority allocated to the Glenn Road South fund. In 2014, the beginning fund balances and net position of the Glenn Road South and North funds were restated to include the amount owed by the Delaware South New Community Authority and Northern New Community Authority for infrastructure where the City has funded construction within the Authorities' boundaries. These restatements increased beginning balances by \$9.52 million and \$659 thousand, respectively. The amounts still owed to the Glenn Road South and North funds are \$7.81 million and \$2.29 million, respectively at December 31, 2017.

Budgeting Highlights

The City's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City prepares an annual budget of revenues and expenditures/expenses for all funds of the City for use by City department heads and such other budgetary documents, as are required by State statute, including the annual appropriations ordinance, which is effective the first day of January.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

The City's most significant budgeted fund is the General Fund. The final estimated resources were exceeded by actual revenues by only 3.7%. Charges for Services [largely Engineering fees] increased 49% [\$704 thousand] but Licenses and Permits decreased 11% [\$135 thousand] as developments still grew in the City, but overall dwelling permits acquired decreased by 18% for the year. Income tax collections also increased. Although the percentage was only 3%, it still added almost \$400 thousand to the bottom line. The largest variance between the original budget and the final amended budget was in the area of General Government; specifically services & charges by about \$925 thousand. Two cost functions made up the majority of the increase. Engineering revenues [part of Charges for Services] increased greatly causing a suspected need for more consulting activity. This increase in budget amounted to \$750 thousand. The City's Comprehensive Plan and Moving Delaware Ahead Transportation Engagement increased the budget another \$202 thousand. The final appropriations increased 6.9% over original but actual expenditures were below the original appropriation and below the final appropriation by \$1.14 million [7.3%]. Broken down by program; Public Safety expenditures [Police Department and Street Lighting] were 2.9% [\$241 thousand] under budget; largely due to personal services coming in \$161 thousand under budget, and General Government expenditures were 12.35% under budget; personal services \$229 thousand under budget collectively for all departments, and services and charges \$627 thousand under budget collectively for all departments, making up \$856 thousand of the \$902 thousand in savings.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The only difference between the amounts reported as business-type activities and the amounts reported in the proprietary fund statements is related to interfund activity. The only interfund activity reported in the government wide statements are those between business-type activities and governmental activities (reported as internal balances and transfers) whereas interfund amounts between various enterprise funds are reported in the proprietary fund statements.

The City's major business-type funds are the water, sewer, storm sewer, and refuse funds. As a rule, these funds consistently generate sufficient revenues to cover costs, in part due to capacity fees charged to new customers and developers to hook into the City's water and sewer lines, and storm sewer and refuse fees charged to all residents and businesses. All utility rates are reviewed annually to determine whether or not rates should be increased in order to cover current expenses and to prepare for. There was a 6% increase in water rates and a 4.41% in refuse rates for 2017, but none are scheduled for 2018. There are no known significant future fund resource limitations on any of the major business-type funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Capital Assets and Debt Administration

Capital Assets

At the end of 2017, the City had \$244.1 million (net of accumulated depreciation) invested in land, construction in progress, buildings and improvements, machinery and equipment, and infrastructure. Of this total, \$100.7 million was reported in governmental activities and \$143.4 million was reported in business-type activities. See Note 8 in the basic financial statements for additional capital asset disclosure. The following table shows 2017 balances compared to 2016:

Capital Assets at December 31 (Net of Depreciation)

		Government	ntal Activities			Business-Type Activities			Total			
	•	2017		2016		2017	-	2016	-	2017	-	2016

The City's net investment in capital assets respectively for governmental and business-type activities as of December 31, 2017, was \$55.4 million and \$80.3 million. This investment in capital assets includes land, land improvements, buildings and improvements, roads, bridges, storm sewers, traffic signalization, street lighting, machinery and equipment, and water and sewer lines. There were no significant changes in governmental activity capital assets and business-type activity capital assets during 2017. The net investment in capital assets is directly affected by increases to capital assets, debt, and depreciation. For 2017, capital assets in governmental activities increased by just under \$588 thousand, after depreciation, including \$3 million in roads – constructed and developer contributed, \$1.2 million in fire apparatus, and some \$786 thousand in other City vehicles. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 52.42% and 58.24% of the City's total governmental and business-type capital assets respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Debt Administration

The City had the following long-term obligations outstanding at December 31, 2017 and 2016:

	Governmental Activities			
	2017	2016		
General obligation bonds	5 17,413,408	\$ 15,287,835		
Income tax bonds	16,435,000	16,975,000		
Bond anticipation notes	10,265,000	11,015,000		
Capital lease obligation	205,042	365,736		
Total long-term obligations	<u>8 44,318,450</u>	\$ 43,643,571		
	Business-type Activiti	es		
	2017	2016		
General obligation bonds	5 17,251,592	\$ 18,336,166		
Water loans	31,524,347	32,413,903		
Sewer loans	14,078,534	15,382,359		
Capital lease obligation	19,971	98,938		

Total debt [including notes payable and other long-term liabilities] decreased \$2.27 million [excluding pension liability]. Debt was paid down by \$3.1 million, excluding pension liability.

At December 31, 2017, the City had several long-term obligations outstanding totaling over \$150 million. The obligations included nearly \$51 million in bonds, including a 2017 \$7.335 million refunding bond to replace the 2006 bonds that had a balance of just over \$4 million at the beginning of the year. Of this amount, \$17.3 million will be repaid from business-type activities. As mentioned, the City entered into a long-term loan with Ohio Water Development Authority to fund construction of the new Wastewater Treatment Facility. Proceeds totaled \$26.3 million. The improvements, completed in 2008, increased the City's wastewater treatment capacity from 5 million gallons per day to 10 million gallons per day. This additional capacity is needed to service the continued growth of the City for the next 15 to 20 years. As of December 31, 2017, \$14.1 million remained outstanding on the loan. The City entered into 2 long-term loans with OWDA in 2011 to assist in funding the completion of the Westside Transmission Main Waterline project and the Penry Road Wellfield. These loans totaling \$3.2 million had a yearend balance of just over \$2.7 million. In 2012, the City obtained another loan from OWDA to fund a Water Treatment Plant Rehabilitation and Expansion project. This loan will have a maximum of almost \$32 million and the expansion project was completed in 2014, the rehab project was completed in late 2015. At the end of 2017, the amount borrowed was just over \$32 million, payback began in 2015, and the remaining principal was \$28.8 million. In 2012, the City entered into 2 capital leases; one for the new Fire Department Ladder Truck [\$1.1 million] and one for 2 Refuse Department Packer Trucks [\$382 thousand]. Repayment began on the ladder truck in 2012 and the balance at December 31 was just over \$205 thousand. Repayment began in 2013 on the packers and their balance was just under \$20 thousand.

In addition to the debt outlined above, the City's long-term debt also includes compensated absences and pension-related obligations. Additional information on the City's long-term debt can be found in Note 10 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2017 (UNAUDITED)

Current Financial Issues

The City has one bond anticipation note outstanding for \$11.015 million, of this \$10.265 million was reported in the long-term obligations and \$.75 million was reported as a fund liability. The notes are for the Glenn Road Extension project to extend Glenn Road from Curve Road to US23 and for the City's Safewalk Program which involves repairing and replacing unsafe sidewalks within the City. The City is also in the beginning stages of replacing the railroad bridge on the east side at "The Point" and widening the highly-congested intersection. This will occur over the next several years and be upwards of \$25 million when completed.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be directed to Dean P. Stelzer, Finance Director, 1 South Sandusky Street, Delaware, OH 43015.

City of Delaware, Ohio

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2017

Net change in fund balances - total governmental funds		\$ 8,172,962
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation expense in the current period.		
Capital outlay Donated capital assets Current year depreciation	\$ 3,129,546 3,021,244 (5,484,936)	CCE 954
Total		665,854
The net effect of various transactions involving capital assets is to decrease net position.		(73,488)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Income tax revenue Payments in lieu of taxes	1,392,929 (156,976)	
Special assessments revenue	268,255	
Intergovernmental revenue	 262,764	
Total		1,766,972
The issuance of notes and bonds are reported as other financing		
sources in the governmental funds; however, in the statement		
of activities they are not reported as revenues as they increase the		(14.505.505)
liabilities on the statement of net position.		(14,536,735)
Repayment of debt principal is an expenditure in the governmental		
funds, but the repayment reduces long-term liabilities on the statement of net position.		13,057,925
Payment to refunded bond escrow agent for the retirement of bonds is an other use in the governmental funds but the payment reduces the long-term liabilities		
on the statement of net position.		812,835
Premiums on general obligation bonds are recognized as other financing sources in the governmental funds, however, they		
are amortized over the life of the issuance in the statement of activities.		(414,292)
In the statement of activities, interest is accrued on outstanding bonds,		
whereas, in the governmental funds, an interest expenditure is reported when due. The following items resulted in less interest being reported		
in the statement of activities. Decrease in accrued interest payable	24,349	
Amortization of deferred amounts on refunding	(2,349)	
Amortization of bond premiums/discounts	 70,834	
Total		92,834
Contractually required pension contributions are reported as an expenditure in		
governmental funds; however, the statement of net position reports these amounts as deferred outflows.		3,010,798
Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability are reported as pension expense in the statement of activities.		(5,926,300)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(1,028,959)
		()
Internal service funds are used by management to charge the costs of garage, information technology, insurance and worker's compensation		
to individual funds is not reported in the government-wide statement of activities.		
Governmental fund expenditures and the related internal service fund		
revenues are eliminated. The net revenue (expense) of the internal service funds,		390 120
are allocated among the governmental activities.		 380,138
Change in net position of governmental activities		\$ 5,980,544

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Delaware [the City] have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City of Delaware, Ohio (the "City") is an incorporated municipality under the laws of the State of Ohio. Its charter was adopted November 6, 1951, and established the Council/Manager form of government. The City presently provides the following services as authorized by its charter: public safety, airport, public works, recreation and parks, cemetery, engineering, public health and water, sewer, storm sewer, and refuse enterprise activities.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are fairly presented and complete.

The primary government consists of all funds, departments, boards and commissions that are not legally separate from the City. They comprise the City's legal entity which provides various services including a public safety department, a public works department, a grounds & facilities department, a parks and facilities department, a planning & community development department, a utility department, an engineering department, and a cemetery. The City is also responsible for the construction, maintenance, and repairs associated with the water and sewer lines, and the provision of water and sewer treatment services. The City Manager and City Council have direct responsibility for these services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; (3) the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; (4) or the City is obligated for the debt of the organization. Component units may include organizations for which the City approves the budget, the issuance of debt or the levying of taxes. The City has no blended or discretely presented component units.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The Delaware Municipal Court's (the "Court") activities are included within these basic financial statements as required by Governmental Accounting Standard No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus." The City includes the Court's cash balance and liability to others within its agency funds, and the City's share of Court fines collected and operating expenditures in the Municipal Court Fund. The City established this fund in 2002 because the County's population grew above 100,000 citizens, which requires the presiding judge and clerk to be elected by the County's voting residents. The Court serves as the Court of record and has jurisdiction within Delaware County. The City, however, has no ability to select or influence Court management and cannot dictate budget and other fiscal matters. The Court is presided over by a separately elected judge and clerk that have the authority to select and appoint all officials of the Court and to direct the Court's activity.

On February 12, 2007, Resolution 07-05 was adopted by Delaware City Council creating Delaware South New Community Authority [DSNCA], a jointly governed organization. On February 9, 2009, Resolution 09-05 was adopted by Delaware City Council creating Delaware North New Community Authority [DNNCA], a jointly governed organization. See Note 22 for further information.

On October 29, 2012, Resolution 12-47 was adopted for which the City accepted ownership of Oak Grove Cemetery. The City had deeded the cemetery to the Oak Grove Cemetery Company in 1906. The Company [renamed 'Association'] dissolved in 2012 and deeded the property back to the City.

On June 22, 2015, Ordinance 15-58 was adopted entering the City into an agreement with the JEDD Board and making the City part of the Berkshire Township – City of Delaware Joint Economic Development District.

B. Basis of Presentation - Fund Accounting

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the City as a whole. These statements distinguish between activities that are governmental in nature, which are normally supported by taxes and intergovernmental revenues; and business-type activities, which rely, to a significant extent, upon fees and charges for support. Indirect interfund and internal service fund activities are generally eliminated to avoid the "doubling-up" effect on revenues and expenses; direct expenses are not eliminated within these functional categories. Interfund services provided and used are not eliminated in the process of consolidation. The government-wide financial statements do not include the assets and liabilities of the City's agency funds.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The government-wide statement of net position presents the financial condition of the City at year end, displaying all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position, the difference between these other elements. Net position is displayed in three components; net investment in capital assets, restricted, and unrestricted.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The *Net Investment in Capital Assets* consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflow of resources attributable to the unspent amount should not be included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources should be included in the same net position component (restricted or unrestricted) as the unspent amount.

The *Restricted* component of Net Position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported. The Net Position is reported as restricted when constraints placed upon their use are either: (1) externally imposed by creditors [such as through debt covenants], grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

The *Unrestricted* component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position. When both restricted and non-restricted resources are available for use, it is the City's policy to use non-restricted resources first, and then restricted resources, as they are needed.

The government-wide statement of activities presents a comparison between expenses and program revenues for each segment of the business-type activities of the City and for each governmental program. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program.

Fund Financial Statements - Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported in separate columns in the fund financial statements. All other funds are aggregated and reported as non-major governmental or non-major enterprise funds.

The accounting policies and financial reporting practices of the City conform to accounting principles generally accepted in the United States of America for local governments as prescribed by the GASB.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances/equity, revenues, and expenditures [expenses]. Fund accounting segregates funds according to the intended purpose and is used to aid management in demonstrating compliance with financial-related legal and contractual provisions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Governmental Funds - Governmental funds are those through which most governmental functions are typically financed. The acquisition, use, and balances of the City's expendable financial resources and related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of financial position. The following are the City's major governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The fund balance of the General Fund is available to the City for any purpose provided it is expended or transferred according to the City's Charter and Code and the general laws and regulations of the State of Ohio.

<u>Fire/EMS Income Tax Fund</u> - To account for the collection and distribution of City-levied income taxes used for the Fire Department and Emergency Medical Services.

<u>Capital Improvement Fund</u> - To account for capital improvements funded by income taxes earmarked for general improvement of all City facilities and operations that were recorded in the General Fund and transferred to the Capital Improvement fund.

<u>Glenn Road South Construction Fund</u> - To account for construction costs of the southernmost 8,700 feet of roadway from the Glenn Ross development to US 23 South.

Other Governmental Funds - of the City are used to account for (a) accumulation of resources for, and payment of, general long-term debt principal, interest, and related costs; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds; and (c) for grants and other resources when use is restricted for a particular purpose.

Proprietary (Business-type) Funds - Proprietary funds are used to account for the City's ongoing organizations and activities that are similar to those found in the private sector where the intent of the governing body is that the cost [expenses, including depreciation] of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The City reports the following major proprietary funds:

<u>Water Fund</u> - Accounts for the operations of water treatment, distribution, administration, and related expenses, including capital improvements and debt service. The operations are exclusively financed by customer user charges.

<u>Sewer Fund</u> - Accounts for the wastewater collection, treatment, administration, and related expenses, including capital improvements and debt service. The operations are exclusively financed by customer user charges.

<u>Storm Sewer Fund</u> - Accounts for fees charged to residents and businesses to construct and maintain the City's storm sewers.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Refuse Fund</u> - Accounts for the operations of the solid waste collection and recyclable materials collection systems, and related expenses including capital improvements. The operations are exclusively financed by customer user charges.

Other nonmajor enterprise funds are used to account for the operations of the City's golf course and parking lots.

Additionally, the City reports the following fund types:

Internal Service Funds - are used to account for the financing of goods or services provided by one department of the City to other departments of the City on a cost-reimbursement basis, such as vehicle maintenance, information technology, self-insurance, and worker's compensation costs.

Fiduciary Funds - are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds. The City's fiduciary funds include agency funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These activities include funds received from the Municipal Court and passed through to the Law Library or the State Highway Patrol, funds collected from the Planning department and passed through to the State from building permits, funds collected in the form of income taxes from employees working in the newly-established Berkshire JEDD. These are treated as intergovernmental revenues and will be distributed to the various parties involved.

C. Basis of Accounting

Governmental Funds - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows, current liabilities, and deferred inflows are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Governmental fund types follow the modified accrual basis of accounting. Under this method of accounting, the City recognized revenue when it becomes both measurable and available. Measurable means the amount of the transaction can be determined. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the City is considered to be two months [60 days] after year end. Grants and entitlements must also meet timing, eligibility, and contingency requirements. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Principal and interest on general long-term debt are recognized as expenditures when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Revenues accrued at the end of the year included income tax withholdings, hotel transient taxes, property and other taxes, intergovernmental, rents [building, parking, t-hangar], billings for services and materials, and loans. Revenues not accrued at year-end included fines, permits, and parking meter revenues because they are generally not measurable until received in cash.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Deferred Outflows/Inflows of Resources</u>: In addition to assets, the statements of financial position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources [expense/expenditure] until then. For the City, deferred outflows of resources include a deferred charge on refunding and a deferred outflow of resources related to pension reported in the government-wide statement of net position. The deferred charge resulted from the difference in carrying value of refunded debt in 2002, and its reacquisition price. This amount is being deferred and amortized over the life of the refunding debt. The deferred outflows of resources related to pension are explained in Note 14.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources [revenue] until that time. For the City, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2016, but which were levied to finance calendar year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes income taxes, delinquent property taxes, and intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period they become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 14).

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value. Because governmental funds' financial statements use a different measurement focus and basis of accounting than the government-wide statements, governmental funds' financial statements include reconciliations to the government-wide statements.

Proprietary Funds - All proprietary funds [enterprise funds and internal service funds] are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet.

Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The accrual basis of accounting is used for reporting purposes by the proprietary funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred. Unbilled service charges are recognized as revenue at year-end.

D. Cash and Investments

Cash received by the City is deposited in a central bank account. Money for all funds, except for cash in segregated accounts, is maintained in the account or temporarily used to purchase investments. Individual fund integrity is maintained through City records. Each fund's interest in the pool of cash and investments is presented as "Equity in Pooled Cash and Cash Equivalents" on the combined balance sheet. Cash equivalents refer to investments, such as those described below, which are readily converted to cash with no loss of principal.

The Ohio Revised Code authorizes the City to invest in United States and State of Ohio bonds, notes, and other obligations; bank certificates of deposit; bankers' acceptances; commercial paper notes rated prime and issued by United States corporations; written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days; and STAR Ohio.

The City invested in STAR Ohio during 2017. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit.

Interest income is distributed to the funds according to Ohio constitutional and statutory requirements. Interest revenue credited to the general fund during the year amounted to \$387,615, which includes \$321,186 assigned from other funds. Other non-major governmental funds also received interest in the amount of \$108,438.

E. Materials and Supplies Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

Inventories of proprietary funds are stated at the lower of cost or market on a first-in, first-out basis. Inventories of the proprietary funds are expensed when used.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Restricted Assets

Restricted assets represent certain resources, which are segregated from other resources of the City to reflect restricted cash held for customer deposits paid into the City for utilities and airport t-hangar leases, and for cash in segregated accounts for municipal court unclaimed funds.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current year-end, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and expenditure is reported in the year in which services are consumed.

H. Interfund Assets and Liabilities

Short-term interfund loans or the short-term portion of advances are classified as "interfund receivables/payables." Long-term interfund loans or the long-term portion of advances are classified as "advances from/to other funds."

Amounts owed to a particular fund by another fund in the City for goods or services rendered are classified as "due from other funds/due to other funds." These interfund transactions are eliminated on the government-wide statements.

Any residual balances outstanding between the governmental activities and business-type activities would be reported in the government-wide financial statements as "internal balances". For 2017, none were reported.

I. Capital Assets

Capital assets include land, improvements to land, buildings, building improvements, machinery, equipment, infrastructure and all other assets that are used in operations and that have initial useful lives extending beyond one reporting period. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure include roads, bridges, sidewalks, and similar items.

The City further defines new capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of five years, except for infrastructure which has a threshold of \$50,000.

All capital assets are valued at historical cost, or estimated historical cost, if actual cost is not available. Donated capital assets are valued at their acquisition value at the time received. Interest on constructed assets, if material, is capitalized and amortized on the straight-line basis over the estimated useful life of the asset.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

When capital assets are purchased, they are capitalized and depreciated in the government-wide statements and the proprietary fund statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

Depreciation: Depreciation is an element of expense resulting from the use of long-lived assets. It is measured by allocating the expected net cost of using the asset over its estimated useful life in a systematic and rational manner. Depreciation has been provided using the straight-line method over the following estimated useful lives for both Governmental and Business-Type assets:

Description	Estimated Lives
Land improvements	10 - 25 years
Vehicles (autos and trucks)	5 - 8 years
Equipment	5 - 25 years
Buildings	25 - 50 years
Building Improvements	Up to 30 years
Infrastructure	15 - 100 years
Infrastructure Improvements	5 - 50 years

J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments, compensated absences and net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

K. Bond Discounts, Premiums and Issuance Costs

Material discounts and premiums are reported as deferred charges and amortized over the life of the bond using the straight-line method. Any material discounts or premiums (1) are shown separately from the account of the bond liability, (2) are amortized using the straight-line method, and (3) are reflected as interest income or expense in the Statement of Activities. Issuance costs are reported as expenses in the period incurred.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Compensated Absences

The City accrues a liability for compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. These benefits are accrued into and paid out of the funds the employees' wages are paid from; primarily the General, Street Maintenance & Repair, Fire/EMS Income Tax, Airport Improvement, Municipal Court, Water, Sewer, Storm Sewer, Refuse, Golf Course, Garage Rotary, and Information Technology Rotary funds.

The liability is based on the sick leave accumulated at December 31, by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the future. The amount is based on the accumulated sick leave and employees' wage rates at year end, taking into consideration any limits specified in the City's termination policy. These amounts are reported in governmental fund statements only if they have matured.

Payment of vacation and sick leave recorded in the government-wide financial statements is dependent upon many factors; therefore, timing of future payments is not readily determinable. Management believes that sufficient resources will be made available when payment is due. For governmental funds, the City's liability for unpaid accumulated sick leave and vacation time is the amount to be paid using expendable available financial resources [within 60 days] and is reported as an accrued liability in the fund from which the individuals who have accumulated the unpaid compensated absences are paid in accordance with Interpretation No. 6 of the Governmental Accounting Standards Board – Recognition and Measurement of Certain Liabilities and expenditures in Governmental Fund Financial Statements.

M. Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursement to a fund for expenditures/expenses initially made that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

During the course of normal operations, the City has transactions between funds, most of which are in the form of transfers of resources to provide services, construct assets and service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Fund Balance

The City reports classifications of fund equity based on the purpose for which resources were received and the level of constraint placed on the resources.

Nonspendable

Nonspendable fund balance indicates resources that are not expected to be converted to cash because they are not in a spendable form.

Restricted

Restricted fund balance are resources that have purpose constraints placed upon them by laws, regulations, creditors, grantors, or other external parties and are considered available only for the purpose for which they were received.

Committed

Committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (specifically – Ordinance; the highest level action that constitutes the most binding constraint) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process.

Assigned

Assigned fund balances occur through the City's purchasing policy; Council has given the City Manager and Finance Director the authority to constrain monies for intended purposes, which are reported as assigned fund balances.

Unassigned

Unassigned fund balance classification includes all other funds in spendable form not restricted, committed, or assigned. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available. The City considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

O. Intergovernmental Revenues

In governmental funds, federal and state grants awarded on a non-reimbursement basis, state shared revenues, and federal entitlements are recorded as intergovernmental receivables and revenues when measurable and available. They must also meet timing, eligibility, and contingency requirements. Reimbursable-type grants are recorded as due from other governments and revenues when the related expenditures are made.

P. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. As noted, net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use, either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The City applies unrestricted resources when an expense is incurred for purposes for which restricted and unrestricted net position are available. None of the City's restricted net position was by enabling legislation at December 31, 2017.

R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities of the proprietary funds. For the City, these revenues are charges for services, capacity fees for the Water and Sewer funds, reimbursements, and miscellaneous revenues. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund.

S. Donated Infrastructure

Contributions of capital in governmental and proprietary funds [donated infrastructure] arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisitions and construction. These contributions are reported as revenue in the proprietary fund financial statements and as capital grants and contributions on the Statement of Activities for both governmental and business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. In 2017, the City had no extraordinary or special items.

U. Fair Market Value

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 2 - ACCOUNTABILITY AND COMPLIANCE

Change in Accounting Principles

For 2017, the City has implemented GASB Statement No. 80, "Blending Requirements for Certain Component Units - An Amendment of GASB Statement No. 14", GASB Statement No. 81 "Irrevocable Split-Interest Agreements", and GASB Statement No. 82, "Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73".

GASB Statement No. 80 amends the blending requirements for the financial statement presentation of component units. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The implementation of GASB Statement No. 80 did not have an effect on the financial statements of the City.

GASB Statement No. 81 improves the accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The implementation of GASB Statement No. 81 did not have an effect on the financial statements of the City.

GASB Statement No. 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The implementation of GASB Statement No. 82 did not have an effect on the financial statements of the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the City into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the City Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) or (2), above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool STAR Ohio;
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 3 - DEPOSITS AND INVESTMENTS - (Continued)

8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Director of Finance by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Director of Finance or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Restricted Assets

The City is holding \$324,080 in restricted assets in the City Treasury. These assets are restricted for unclaimed monies of the Municipal Court, and as deposits for utility service and T-hangar rentals. These amounts are included in the carrying amount of deposits.

B. Deposits with Financial Institutions

At December 31, 2017, the carrying amount of all City deposits was \$7,463,764 and the bank balance of all City deposits was \$8,930,902. Of the bank balance, \$8,104,389 was exposed to custodial risk as discussed below because those deposits were uninsured and uncollateralized and \$826,513 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2017, the City's financial institutions were approved for a reduced collateral rate of 102 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 3 - DEPOSITS AND INVESTMENTS - (Continued)

C. Investments

As of December 31, 2017, the City had the following investments and maturities:

		Investment Maturity
Measurement/	Measurement	6 months or
Investment Type	Amount	less
Amortized cost:		
Star Ohio	\$ 64,129,559	\$ 64,129,559
Total	\$ 64,129,559	\$ 64,129,559

The weighted average maturity of investments is 0.0 years.

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the City's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: STAR Ohio carries a rating of AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The City's investment policy does not specifically address credit risk beyond the adherence to all relevant sections of the Ohio Revised Code.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk: The City places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the City at December 31, 2017:

Measurement/	Measurement	
Investment Type	<u>Amount</u>	% of Total
Amortized Cost:		
Star Ohio	\$ 64,129,559	100.00
Total	\$ 64,129,559	100.00

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 3 - DEPOSITS AND INVESTMENTS - (Continued)

D. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of December 31, 2017:

<u>Cash and investments per note</u>		
Carrying amount of deposits	\$	7,463,764
Investments		64,129,559
Total	\$	71,593,323
Cash and investments per statement of net position		
Governmental activities	\$	45,027,216
Business-type activities		25,888,349
Agency funds	_	677,758
Total	\$	71,593,323

NOTE 4 - INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2017, consisted of the following, as reported on the fund financial statements:

<u>Transfers from general fund to</u> :
Capital improvement
Non-major governmental funds

\$ 2,039,700 1,466,754

Transfers from Fire/EMS Income Tax Fund

Non-major governmental funds 589,950

<u>Transfers from Capital Improvement fund to:</u>

Non-major governmental funds 823,907

Transfers from non-major governmental funds to:

Non-major governmental funds $\frac{2,384,551}{500}$ Total transfers $\frac{2,384,551}{500}$

Transfers are used to (1) move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 4 - INTERFUND TRANSFERS - (Continued)

Interfund transfers between governmental funds are eliminated for reporting on the government-wide financial statements.

All transfers were in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

NOTE 5 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2017 public utility property taxes became a lien December 31, 2016, are levied after October 1, 2017, and are collected in 2018 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously. The assessed value for 2016, upon which the 2017 collections were based was approximately \$702.7 million. The assessed value for 2017, upon which the 2018 collections will be based is approximately 795.0 million.

The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the City of Delaware. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes, delinquent tangible personal property taxes and other outstanding delinquencies which are measurable as of December 31, 2017 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by a deferred inflow since the current taxes were not levied to finance 2017 operations and the collection of delinquent taxes has been offset by a deferred inflow since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is a deferred inflow.

NOTE 6 - MUNICIPAL INCOME TAX

The City collects an income tax of 1.85% of City of Delaware taxable income, defined as gross wages and salaries before any deductions and profits. Filing is mandatory for all residents. Employers within the City are required to withhold tax on all employees working in the City and remit those monies on either a quarterly or monthly schedule. Employers are required to reconcile those withholdings on an annual basis.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 7 - RECEIVABLES

Receivables at December 31, 2017, consisted of taxes, accounts (billings for user charged services), special assessments, interfund, loans, payments in lieu of taxes, and intergovernmental receivables arising from grants, entitlements and shared revenue. All intergovernmental receivables have been classified as "due from other governments" on the Basic Financial Statements. Amounts not considered fully collectible are shown. The allowance represents an estimate of uncollectible amounts and does not represent actual cash accounts written off by management. The only receivables not expected to be collected within the subsequent year are the special assessments which are collected over the life of the assessment.

A summary of accounts related to utility services is as follows:

	Gross			Allowance For		Net
Fund:		<u>Receivable</u>		Doubtful Accounts	R	<u>Receivable</u>
Water	\$	645,781	\$	(15,766)	\$	630,015
Sewer		757,770		(22,542)		735,228
Storm Sewer		104,700		(1,700)		103,000
Refuse		329,576	_	(10,342)		319,234
Total	\$	1,837,827	\$	(50,350)	\$	1,787,477

A summary of the principal items of intergovernmental receivables were as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 9 - CAPITAL LEASES - LESSEE DISCLOSURE

In 2012, the City entered into a capital lease for the acquisition of a fire truck. This lease meets the criteria of a capital lease, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital assets consisting of the fire department ladder truck has been capitalized in the amount of \$1,091,176. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded in the government-wide financial statements. Principal and interest payments are reflected as debt service expenditures and are paid from the Fire/EMS Income Tax Fund.

Also in 2012, the City entered into a capital lease for the acquisition of a 2 Packers (trash trucks) for the Refuse fund. This lease meets the criteria of a capital lease, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital assets consisting of equipment has been capitalized in the amount of \$382,338. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded in the government-wide financial statements. Principal and interest payments are made from the Refuse fund.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of December 31, 2017.

Year Ending December 31,	Governmental Activities	Business-Type <u>Activities</u>
2018 2019	\$ 166,294 41,574	\$ 20,063
Total future minimum lease payments	207,868	20,063
Less: amount representing interest	(2,826)	(92)
Present value of net minimum lease payments	\$ 205,042	\$ 19,971

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

General Obligation Bonds: The City issued governmental activity various purpose bonds and businesstype activity general obligation bonds in 2017 to refund the 2006 various purpose bonds and to provide funding to enhance the municipal fire safety facilities, but constructing, furnishing and equipping a new fire station. The City issued governmental activity various purpose bonds in 2015 to replace the notes for recreation facilities improvements, further work on the Glenn Road projects, and for EMS vehicles. The City issued governmental activity bonds in 2013 to finance improvements made to the Jack Florance [Mingo] Pool and the recently built Skate Park, the 8,000 square foot addition to the Justice Center, the City-wide phone system, toward the purchase of a vacant manufacturing building to use as the Public Works facility, the construction of Fire Station 303, and part of the Glenn Road construction project. In 2012, governmental activity Various Purpose Refunding bonds were issued to refund 2002 Various Purpose bonds, which were issued to fund US 23/US 42 road improvements and for downtown City street improvements. The 2012 Sewer System Improvement & Refunding bonds originated in 1992 and were refunded the first time in 2002. They were issued to fund improvements to the City's sewer system and for current sewer system improvements. The 2006 Various Purpose bonds were issued to fund several projects, including the construction of 3 T-hangars at the Municipal Airport, the purchase of land and buildings on Ross Street for the Grounds & Facilities department, landfill remediations at our Curve Road Landfill, construction of the Kingman Hill Water Tower, the 23 N. Sewer, and Houk Road improvements.

General Income Tax Special Obligation Bonds: Special obligation bonds were issued in 2009 to refund notes issued to fund the Southeast Highland Sewer construction that began in 2004. Principal and interest on the Bonds, unless paid from other sources, are to be paid from pledged revenues, including receipts of the City's general income tax, and the pledged funds. Special obligation bonds were issued in 2010 to provide for City park improvements and for the construction of the YMCA/Training and Community Center on the City's westside. Principal and interest on the Bonds are to be paid from the City's levied 0.15% income tax.

Past Service Police and Firefighters Liability: Past service liability for police and firefighters is being paid out of the General fund over time through the year 2035. The principal and interest requirements to retire this obligation at December 31 are:

Year Ending December 31 ,	F	Principal	Interest	Total

Total	\$	234,252	\$ 99,907	\$ 334,159

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

Compensated Absences: Additions and deletions of accrued vacation and sick leave are shown combined. Compensated absences are recorded in the fund from which the liability will be paid in the future. This includes the General, Street Maintenance & Repair, Cemetery, Airport, Fire/EMS Income Tax, Municipal Court, Parks & Natural Resources, Water, Sewer, Storm, Refuse, Golf Course, Garage Rotary, and Info Tech Rotary funds.

Capital Lease Obligation: See Note 9 for additional details.

The Ohio Revised Code (ORC) provides that the net general obligation debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The statutory limitations on debt are measured by a direct ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2017, the City's total net debt and unvoted net debt were approximately 5.1% of the total assessed value of all property within the City.

As of December 31, 2017, the City had no debt approved by the voters or Council, which had not been issued.

The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with Delaware County and the Delaware City School District. As of December 31, 2017, these entities have complied with the requirement that overlapping debt must not exceed 1% (10 mills) of the assessed property value.

OWDA Loans: During 2007, the City completed its loan agreement with the Ohio Water Development Authority to fund the new Wastewater Treatment Expansion Facility. This loan replaced the note issued in 2003. The loan proceeds were on a progression basis over the duration of construction, up to a maximum of \$26.17 million [plus capitalized interest] at an interest rate of 3.59%. Total proceeds to be borrowed were fully disbursed as of December 31, 2008, and OWDA finalized financing terms and repayment requirements are immediately following. In 2010, the City entered into another loan agreement with OWDA for up to \$2.225 million [plus capitalized interest] for a water-system extension on the City's far north side. The loan proceed draws were completed in 2011 and will be repaid over 25 years at an interest rate of 3.67% and OWDA financing terms and repayment requirements are immediately following. The City has 2 other OWDA funded projects; Penry Road Wellfield and the Water Treatment Expansion Project. The Wellfield project has been completed and repayment requirements have been finalized. The Expansion project was completed in 2015, but the repayment requirements have not been finalized as of the date of this report. For the aforementioned projects that the terms are finalized, debt requirements are as follows:

Defeasance of Bonds

During the current year and in prior years, the City defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included on the City's financial statements. At December 31, 2017, \$2,667,834 and \$3,076,166 of governmental activities and business-type activities, respectively, of bonds outstanding are considered defeased.

The reacquisition price exceeded the net carrying amount of the old debt by \$23,489 in the governmental activities and \$117,054 in the business-type activities. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

The 2017 advance refunding was undertaken to reduce the combined total debt service payments over the next 14 years by \$682,140 and resulted in an economic gain of \$585,599.

NOTE 11 - NOTES PAYABLE

A note was reissued in 2017 for improvements made to Glenn Parkway Phases 1 & 2, and for sidewalk repairs for the Safewalks program. This is accounted for in the Capital Improvement fund and the Glenn Road South Construction fund.

	Bal	ance					Bala	ance

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 12 - LANDFILL CLOSURES

The City closed the Cherry Street Landfill in 1975 and the Curve Road Landfill in 1990. The City properly notified the Ohio Environmental Protection Agency for both closings. Both landfills were at 100% capacity and postclosure costs reflect estimates to monitor the landfills, as required by Ohio Administrative Code 3745-27, through the year 2020. The City awarded contracts to URS Greiner Corporation for monitoring and testing the CSL and to Burgess & Niple for monitoring and testing the CRL. No assets are restricted for payment of postclosure care costs and these costs are subject to changes related to the effects of inflation, revision of laws and other variables. The costs for monitoring and testing the landfills will be expended from the Refuse fund.

NOTE 13 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During 2017, the City contracted with several different insurance providers for various coverages, as follows:

Type of Coverage	Li	ability Limits	De	Deductible		
Property	\$	2,000,000	\$	2,500		
Inland Marine		2,000,000		1,000		
General Liability		2,000,000		-		
Automobile		1,000,000		-		
Excess Liability		10,000,000		-		
Public Officials Liability		1,000,000		15,000		
Police Liability		1,000,000		25,000		

The City carries \$1,000,000 of comprehensive combined single limit general liability coverage with a \$1,000 deductible, a \$1,000,000 general law enforcement liability insurance policy and \$1,000,000 public officials' liability, each with a \$5,000 deductible, as well as \$5,000,000 umbrella coverage. There has been no significant reduction in insurance coverage from coverage in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

NOTE 14 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability/Asset

The net pension liability/asset reported on the statement of net position represents a liability or asset to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

The net pension liability/asset represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes any net pension liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits or overfunded benefits is presented as a long-term *net pension liability* or *net pension asset*, respectively, on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *due to other governments* on both the accrual and modified accrual bases of accounting.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the Traditional Pension Plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

1 ,		,			
Group A	Group B	Group C			
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups			
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after			
after January 7, 2013	ten years after January 7, 2013	January 7, 2013			
State and Local	State and Local	State and Local			
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:			
Age 60 with 60 months of service credit	Age 60 with 60 months of service credit	Age 57 with 25 years of service credit			

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

or Age 55 with 25 years of service credit

or Age 55 with 25 years of service credit

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.00% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.00% to the member's FAS for the first 30 years of service.

A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 2.25% COLA adjustment on the defined benefit portion of their benefit.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS's Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections.

Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS CAFR.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2017 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee	10.0	%
2017 Actual Contribution Rates Employer:		
Pension	13.0	%
Post-employment Health Care Benefits	1.0	%
Total Employer	14.0	%
Employee	10.0	%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$1,471,545 for 2017. Of this amount, \$220,119 is reported as due to other governments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OPF website at www.opf.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.50% for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

	Police		Firefighte	rs
2017 Statutory Maximum Contribution Rates				
Employer	19.50	%	24.00	%
Employee	12.25	%	12.25	%
2017 Actual Contribution Rates				
Employer:				
Pension	19.00	%	23.50	%
Post-employment Health Care Benefits	0.50	%	0.50	%
Total Employer	19.50	%	24.00	%
Employee	12.25	%	12.25	%

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$2,012,030 for 2017. Of this amount \$268,946 is reported as due to other governments.

In addition to current contributions, the City pays installments on a specific liability of the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2017, the specific liability of the City was \$234,252 payable in semi-annual payments through the year 2035.

Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for the OPERS Traditional Pension Plan, Combined Plan and Member-Directed Plan, respectively, were measured as of December 31, 2016, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2016, and was determined by rolling forward the total pension liability as of January 1, 2016, to December 31, 2016. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2016, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. In 2016, the Board's actuarial consultants conducted an experience study for the period 2011 through 2015, comparing assumptions to actual results. The experience study incorporates both a historical review and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. Information from this study led to changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, for the defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Wage inflation
Future salary increases, including inflation
COLA or ad hoc COLA

Investment rate of return Actuarial cost method 3.25%
3.25% to 10.75% including wage inflation
Pre 1/7/2013 retirees: 3.00%, simple
Post 1/7/2013 retirees: 3.00%, simple
through 2018, then 2.15% simple
7.50%
Individual entry age

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Mortality rates are based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2016, OPERS managed investments in four investment portfolios: the Defined Benefit portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The 401(h) Health Care Trust portfolio was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. The Defined Benefit portfolio historically included the assets of the Member-Directed retiree medical accounts funded through the VEBA Trust. However, the VEBA Trust was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 8.3% for 2016.

The allocation of investment assets with the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed income	23.00 %	2.75 %
Domestic equities	20.70	6.34
Real estate	10.00	4.75
Private equity	10.00	8.97
International equities	18.30	7.95
Other investments	18.00	4.92
Total	100.00 %	5.66 %

Discount Rate - The discount rate used to measure the total pension liability/asset was 7.50%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. A discount rate of 8.00% was used in the previous measurement period. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the City's proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 7.50%, as well as what the City's proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (6.50%) or one-percentage-point higher (8.50%) than the current rate:

			Current	
	1% Decrease (6.50%)	Di	scount Rate (7.50%)	1% Increase (8.50%)
City's proportionate share		,		
of the net pension liability (asset):

Combined Plan	7,295		(101,501)	(186,016)
Member-Directed Plan	252		(105)	(252)

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2016 is based on the results of an actuarial valuation date of January 1, 2016 and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2016, are presented below:

Valuation date	January 1, 2016
Actuarial cost method	Entry age normal
Investment rate of return	8.25%
Projected salary increases	4.25% - 11.00%
Payroll increases	3.75%
Inflation assumptions	3.25%
Cost of living adjustments	2.60% and 3.00% simple

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed for the five-year period ended December 31, 2016. The recommended assumption changes based on this experience study were adopted by OPF's Board and were effective beginning with the January 1, 2017 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF's target asset allocation as of December 31, 2016 are summarized below:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

	Target	10 Year Expected	30 Year Expected
Asset Class	Allocation	Real Rate of Return **	Real Rate of Return **
Cash and Cash Equivalents	- %		
Domestic Equity	16.00	4.46 %	5.21 %
Non-US Equity	16.00	4.66	5.40
Core Fixed Income *	20.00	1.67	2.37
Global Inflation			
Protected Securities *	20.00	0.49	2.33
High Yield	15.00	3.33	4.48
Real Estate	12.00	4.71	5.65
Private Markets	8.00	7.31	7.99
Timber	5.00	6.87	6.87
Master Limited Partnerships	8.00	6.92	7.36
Total	120.00 %		

Note: assumptions are geometric.

OPF's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total pension liability was calculated using the discount rate of 8.25%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25%), or one percentage point higher (9.25%) than the current rate.

^{*} levered 2x

^{**} numbers include inflation

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

		Current							
	1% Decrease	Discount Rate	1% Increase						
	(7.25%)	(8.25%)	(9.25%)						
City's proportionate share									
of the net pension liability	\$ 36,143,215	\$ 27,136,926	\$19,504,036						

Changes Between Measurement Date and Report Date – In October 2017, the OP&F Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of January 1, 2017. The most significant change is a reduction in the discount rate from 8.25 percent to 8.0 percent. Although the exact amount of these changes is not known, the impact to the City's net pension liability is expected to be significant.

NOTE 15 - POSTRETIREMENT BENEFIT PLANS

A. Ohio Public Employees Retirement System

Plan Description - OPERS administers three separate pension plans: The Traditional Pension Plan—a cost-sharing, multiple-employer defined benefit pension plan; the Member Directed Plan—a defined contribution plan; and the Combined Plan—a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. This trust is also used to fund health care for Member Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member-Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. Please see the Plan Statement in the OPERS 2016 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board of Trustees (OPERS Board) in Chapter 145 of the Ohio Revised Code.

Disclosures for the healthcare plan are presented separately in the OPERS financial report which may be obtained by visiting https://www.opers.org/financial/reports.shtml, writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (800) 222-7377.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

Funding Policy - The post-employment healthcare plan was established under, and is administered in accordance with, Internal Revenue Code Section 401(h). State statute requires that public employers fund post-employment healthcare through contributions to OPERS. A portion of each employer's contribution to the Traditional or Combined Plans is set aside for the funding of post-employment health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active employees. In 2017, local government employers contributed 14.00% of covered payroll. Each year the OPERS' Retirement Board determines the portion of the employer contribution rate that will be set aside for the funding of the postemployment health care benefits. The portion of employer contributions allocated to fund post-employment healthcare for members in the Traditional Plan and Combined Plan for 2017 was 1.00%.

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the post-employment healthcare plan.

The City's contributions allocated to fund post-employment health care benefits for the years ended December 31, 2017, 2016, and 2015 were \$119,069, \$30,792, and \$28,591, respectively; 86.16% has been contributed for 2017 and 100% has been contributed for 2016 and 2017. The remaining 2017 post-employment health care benefits liability has been reported as due to other governments on the basic financial statements.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under State Bill 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4.00% of the employer contributions toward the health care fund after the end of the transition period.

B. Ohio Police and Fire Pension Fund

Plan Description - The City contributes to the OP&F Pension Fund sponsored health care program, a cost-sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-employment health care coverage to any person who receives or is eligible to receive a monthly service, disability or survivor benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 15 - POSTRETIREMENT BENEFIT PLANS - (Continued)

OP&F issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to the OP&F, 140 East Town Street, Columbus, Ohio 43215-5164 or by visiting the website at www.op-f.org.

Funding Policy - The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50% and 24.00% of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts, one account is for health care benefits under an Internal Revenue Code Section 115 trust and the other account is for Medicare Part B reimbursements administered as an Internal Revenue Code Section 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan into the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was .5% of covered payroll from January 1, 2017 thru December 31, 2017. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that the pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions to OP&F which were allocated to fund post-employment healthcare benefits for police officers and firefighters were \$23,496 and \$23,812 for the year ended December 31, 2017. 87.12% has been contributed for police and 86.79% has been contributed for firefighters for 2017. The remaining 2017 post-employment health care benefits liability has been reported as due to other governments on the basic financial statements.

NOTE 16 - BUDGETS AND BUDGETARY ACCOUNTING

The City's budget is adopted and modified as follows:

- 1. Prior to August 15, the Finance Director submits, to the County Budget Commission, an estimate of year end balances and of the next year's revenues. The Commission returns a Certificate of Estimated Resources, limiting the maximum amount the City may expend from a given fund type.
- 2. Prior to November 15, the City Manager submits to City Council an estimate of the expenditures necessary to conduct the affairs of the City for the year commencing the following January 1. The legal level of control is payroll expenditures/expenses and other expenditures/expenses. For reporting purposes, the City further divides "other" by their function.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 16 – BUDGETS AND BUDGETARY ACCOUNTING – (Continued)

- 3. Public hearings are held to obtain taxpayers' comments.
- 4. Prior to January 1 and after publication of the proposed budget ordinances, the budget is legally enacted by ordinance.
- 5. Shortly after January 1, the Certificate of Estimated Resources is amended to reflect the actual unencumbered balances from the preceding year and for changes in estimated resources since the original submittal.
- 6. Supplemental appropriations and transfers of appropriations between funds and departments must be approved by City Council. Supplemental appropriations were necessary during the year. The budget figures that appear in the budgetary comparisons represent the final appropriation amounts, including all amendments and modifications.

Expenditures cannot exceed appropriations at the legal level of control. Unencumbered appropriations lapse at year-end, and encumbered appropriations are reported as expenditures in the current year.

Encumbrance accounting is utilized in the Governmental Funds. Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve a portion of the applicable appropriation, and to maintain legal compliance. Unclaimed Funds and Municipal Court Unclaimed Funds did not have a legally adopted budget for 2017.

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the General Fund and the Fire/EMS Income Tax Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Some funds are included in the general fund (GAAP basis),but have separate legally adopted budgets (budget basis).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 16 – BUDGETS AND BUDGETARY ACCOUNTING – (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements (as reported in the fund financial statements) to the budgetary basis statements for all governmental funds for which a budgetary basis statement is presented:

Net Change in Fund Balance

	C-		Fire/EMS
	Ge	neral fund	Income Tax
Budget basis	\$	106,180	\$ 1,399,717
Net adjustment for revenue accruals		274,229	(221,308)
Net adjustment for expenditure accruals	((1,569,072)	284,626
Net adjustment for other sources/uses		1,598,954	-
Funds budgeted elsewhere		237,792	-
Adjustment for encumbrances		513,142	 3,531,937
GAAP basis	\$	1,161,225	\$ 4,994,972

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the parks and recreation fund.

NOTE 17 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds.

Within the General Fund Unassigned Fund Balance are funds associated with the Development Reserve and Budget Reserve funds. The Development Reserve fund was set up as a management-discretion set-aside to assist with debt service, and support future economic development opportunities. There are no "minimum fund balance" or "expenditure-specific" requirements. If the City needs the money for an allowable purchase, they just need the proper appropriation authority. The Development Reserve fund balance at December 31, 2017 was \$924,886. The Budget Reserve fund is more formal and was set up to maintain a balance equal to 5% of the cash-basis revenues credited to the General Fund in the preceding fiscal year. It will be used to cover, in a given budget year, revenue shortfalls or when expenditures exceed projected amounts. If funds are used, the City will re-establish the required balance within three years. The Budget Reserve fund balance at December 31, 2017 was \$1,047,056.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 18 - SELF INSURANCE AND WORKERS COMPENSATION

The City provides medical and dental coverage for its employees and is self-insured up to a stop loss limit for the cost of providing this coverage. Under the self-insurance program, the Self-Insurance Fund (an internal service fund) provides coverage for up to a maximum of \$70,000 in any one year for each employee. The City purchases commercial insurance for claims in excess of coverage provided by the Self-Insurance Fund. The City had no occurrences in which settled claims exceeded the total stop-loss coverage in any of the last three years.

All funds of the City participate in the program and make payments to the Self-Insurance Fund based on a per-employee charge. These monies are recorded as a charge for service in the Self-Insurance Fund and as an expenditure or expense, as applicable, in the disbursing fund.

The claims liability of \$974,414 reported in the internal service fund at December 31, 2017, is based on estimates in accordance with the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims. Changes in claims activity for the current and past years are as follows:

		ginning of ar Liability	C	Trent Year Claims & hanges in Estimates	ī	Claims Payments	End of Yea Liability			
	10	ar Liability		zstimates		ayments	Liability			
Self-Insurance 2017 2016	\$	381,226 525,934		4,866,040 4,091,634		4,895,450) 4,236,342)	\$	351,816 381,226		
Worker Compensation										
2017	\$	722,317	\$	230,713	\$	(330,432)	\$	622,598		
2016		719,770		317,766		(315,219)		722,317		

NOTE 19 - SEGMENT INFORMATION - ENTERPRISE FUNDS

The City maintains three nonmajor enterprise funds to account for Golf Course, Parking Lots, and Watershed Grant activities. None of these activities is supported by revenue bonds or other revenue backed debt instruments and, therefore, segment information is not required. See the combining statements included as part of this CAFR for detailed fund activity of the nonmajor enterprise funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 20 - OTHER COMMITMENTS

A. Contractual

At December 31, 2017, the City had uncompleted contracts, as follows:

	Contract	Amount	Remaining	
Description	Amount	Paid	Commitment	
Design And Construction Of Fire Station 304	\$ 3,440,000	\$ 56,521	\$ 3,383,479	
Design/Build Refuse & Recycling Bldg	1,969,100	-	1,969,100	
The Point/RR Prelim Engineering Agreement	984,898	-	984,898

Oak Grove Cemetery Master Plan	30,300	_	30,300	
Bridge Rail Repair John St	28,000	_	28,000	

B. Revenue Sharing Agreement

The City has entered into an agreement with the Delaware City School District [the"District"] to compensate the District, via a local foundation, for property tax revenues lost as a result of a tax exempt enterprise zone established in the city. For each year the exemption is in effect, the City is obligated to pay the District an amount equal to fifty percent of the income taxes collected on new employee payroll by employers within the enterprise zone. The agreement with this company expires December 31, 2023.

C. Encumbrances

As discussed in note 16, Budgets and Budgetary Accounting, encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of cash-basis encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

Total	\$	9,037,721

NOTE 21 - CONTINGENT LIABILITIES

The City is a party to various legal proceedings seeking damages or injunctive relief generally incidental to its operations and pending projects. The City management is of the opinion that the ultimate disposition of various claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

NOTE 22 - JOINTLY GOVERNED ORGANIZATIONS

Delaware South New Community Authority; On February 12, 2007, the Delaware South New Community Authority [DSNCA] was created by the adoption of Resolution 07-05 by Delaware City Council, pursuant to Chapter 349 of the Ohio Revised Code. The DSNCA was established to encourage the orderly development of a well-planned, diversified, and economically sound community; to encourage initiative and participation of private enterprise in this undertaking; and to encourage cooperation between the developer and the DSNCA to carry out the new community development program.

The DSNCA is governed by a seven member Board of Trustees. Delaware City Council appoints three citizen members to the Board to represent the interests of present and future residents of the District and one member to serve as a representative of local government. The Developer shall appoint three members to serve on the Board as representatives of the Developer.

The Glenn Road Extension Bond Anticipation Notes, currently reported by the City, will ultimately be reimbursed by the DSNCA. The City agreed to construct the Glenn Road improvements on behalf of the DSNCA and to carry any debt obligations until such time as the DSNCA is able to issue debt sufficient to pay any outstanding principal and interest on debt issued by the City. Although the City agreed to construct such improvements on behalf of the DSNCA, the City does not approve the respective budgets or impose its will on its operations.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 22 - JOINTLY GOVERNED ORGANIZATIONS - (Continued)

Northern New Community Authority; On December 10, 2007, the Northern New Community Authority [NNCA] was created by the adoption of Ordinance 07-103 by Delaware City Council, pursuant to Chapter 349 of the Ohio Revised Code. Like the DSNCA, the NNCA was established to encourage the orderly development of a well-planned, diversified, and economically sound community; to encourage initiative and participation of private enterprise in this undertaking; and to encourage cooperation between the developer and the NNCA to carry out the new community development program.

The NNCA is governed by a seven member Board of Trustees. Delaware City Council appoints three citizen members to the Board to represent the interests of present and future residents of the District and one member to serve as a representative of local government. The Developer shall appoint three members to serve on the Board as representatives of the Developer. Although the City agreed to construct such improvements on behalf of the NNCA, the City does not approve the respective budgets or impose its will on its operations.

City of Delaware – Berkshire Township JEDD; On November 1, 2014, the Joint Economic Development District was created by the adoption of Ordinance 14-102. An outlet mall will be built within the borders of the JEDD and the City will collect income tax assessed on the workers within the district and distribute to the JEDD, Township, and City.

The JEDD is governed by a five-member board. One member represents the City; one, the Township; one, the owners of businesses within the JEDD; one, the persons working within the JEDD; and one member selected by the other four. Other provisions apply, should there be no businesses or persons working within the JEDD. The initial appointments will vary from one to four years in length. After which, the appointments will be for four-year terms as long as each member serves out their term.

The City collects income taxes on behalf of the JEDD and calculates the amounts due to the JEDD Board, Berkshire Township, and the City. The JEDD Board is to receive 1% of the *gross* revenues, the City; 4%. Of the net revenues, Berkshire Township is to receive 60%, the City; 40%.

NOTE 23 - TAX ABATEMENT DISCLOSURES

The City of Delaware provides tax abatements under four programs: the Residential Community Reinvestment Area Program, the Industrial/Commercial Community Reinvestment Area Program, the Enterprise Zone Program, and the Tax Increment Financing Program.

• The Residential Community Reinvestment Area Program provides property tax abatements to encourage improvements and reinvestment to distressed single-family and multiple-unit dwellings. The program is established under the auspices of a state statute (ORC 3735.65 – ORC 3735.70) empowering cities and counties to establish such programs. The abatements equal 100 percent of the additional property tax resulting from the increase in assessed value as a result of the improvements, are administered as a reduction in the property tax bill, and last for 7 years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 23 - TAX ABATEMENT DISCLOSURES - (Continued)

Abatements are obtained through application by the property owner prior to commencing improvements and require subsequent provision by the owner of proof that the improvements have been made. Due to this program being administered by our Chief Building Officer and these improvements requiring final occupancy permits, improvement verification happens at the time of the final inspections. Because taxes are not abated until after the improvements have been made, there are no provisions for recapturing abated taxes. No other commitments were made by the City of Delaware as part of these agreements.

• The Industrial/Commercial Community Reinvestment Area Program and Enterprise Zone Program provide property tax abatements to encourage improvements and reinvestment to buildings and unimproved or redevelopment land in the CRA areas or EZ zones. In accordance with all policies and structure set forth in the ORC 3735.65, 3735.66, 3735.67, 3735.671, 3735.672, 3735.673, 3735.68, 3735.69, 3735.70, 5709.82, 5709.83, 5709.85, and all other sections of chapter 5709 the City of Delaware may offer a property tax incentives to an Industrial or Commercial project on the property improvements made to the parcel(s) within a CRA or Enterprise Zone area using the following ROI formula and guidelines. Retail or restaurant projects abatements are limited to the Downtown Historic Districts. Industrial, manufacturing, office, retail and restaurant projects may not exceed 15 years per ORC for CRAs or 10 years for EZs (non-industrial projects are not eligible for EZ abatements.). CRA or Enterprise Zone agreement will be suggested by the following formulas:

o Formula 1 – City Return On Investment (ROI):

((Projected Income Tax from New (not retained unless it is shown that a company will leave without the abatement on an expansion/retention project) Payroll for Entire Term of Projected Abatement X (multiplied by) Most recent IMPLAN multiplier for industrial or commercial) – (minus) any negotiation School Compensation Agreements to be paid by the City.

MINUS

Projected Total Taxes Abated for Entire Term of Projected Abatement – (subtracted by) Total of School Pilot Payments if Negotiated

DIVIDED BY

Projected Total Taxes Abated for Entire Term of Projected Abatement – (subtracted by) Total of School Pilot Payments if Negotiated

AND

Formula 2 – School District(s) Return On Investment (ROI)(This is actually the percentage of revenues the schools will receive in comparison to if the project had not been abated while also taking into account the amount the schools would have continued to receive if the project had never happened.):

The total sum of all negotiated School Pilot Payment Agreements, School Compensation Agreements to be Paid by the City, and/or unabated taxes including the taxes to be paid on the land with any increases on such due to changes in zoning or use

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 23 - TAX ABATEMENT DISCLOSURES - (Continued)

DIVIDED BY

The total sum of taxes paid on the project with no abatement – (minus) the taxes currently paid on the property or that would continue to be paid on the property if the project did not happen.

Guidelines:

- The City of Delaware reserves the right to extend or reject CRA or Enterprise Zone abatements to any company in or seeking to be in a current CRA or Enterprise Zone area.
- Projected taxes abated to be used in the City of Delaware's Economic Development Incentive Policy's (EDIP) formula will be calculated using the above CRA ROI Calculators.
- Company needs will be requested during the CRA or Enterprise Zone application process. The
 application already has fields for requested percentage and term of requested abatement, but also
 will include a request for justification for the abatement.
- The CRA formula inputs (percentage and term of abatement) will be adjusted until it reaches an abatement value that meets the needs of the company while also maintaining a positive ROI for the community. This result will translate into a percentage and term of abatement. Only projects with 25% or greater City of Delaware ROI and 30% or greater School District(s) ROI will be eligible for 100% for 15 year abatements (10-year maximum for EZs) if the ROI equals or exceeds 25% (City) and 30% (School District(s)) utilizing 100% for 15 year abatement inputs (10 years for EZs) in the ROI formulas above.
- Only projects with average annual wages exceeding the annual Low to Moderate Income (LMI) for Delaware County will be considered for abatements greater than 50%.
- Only primary target industries listed in the most recent city economic development plan will be considered for 100% gross CRA or EZ tax abatements unless otherwise stated in this EDIP.
- Secondary target industries specified in the most recent city economic development plan will be limited to the Downtown historic districts or areas for which the City desires significant redevelopment. In these areas, secondary target industries will be able to negotiate up to 100% gross CRA tax abatements for fifteen (15) years unless otherwise stated in this EDIP.
- Industries not specified as target industries in the current city economic development plan or
 industries that harm the overall infrastructure, environment or well-being of the residents of the
 City of Delaware will not be considered for CRA or EZ tax abatements unless otherwise stated in
 this EDIP.
- Retail or restaurant projects outside of historic downtown Delaware will not be considered for
 property tax abatements unless they are proven to be of high economic impact to the community
 such as when infilling a particular building that has been vacant for an extended period or has
 lacked considerable reinvestment and has harmed the community as such, or as stated otherwise in
 this EDIP.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE 23 - TAX ABATEMENT DISCLOSURES - (Continued)

- Projects may require School Compensation Agreements or School Pilot Payment Agreements.
- In accordance with all policies and structure set forth in the ORC 5709.40, 5709.41, 5709.411, 5709.42, and 5709.43, the City of Delaware may utilize Tax Increment Financing (TIF) tax incentives to assist in paying for public infrastructure for an economic development project. When agreed upon by the impacted school districts, these TIF agreements can range from 50% to 100% on property tax improvements not abated by another abatement program for ten to thirty years. Taxes are paid by the owner of the property and then redistributed by the County Auditor to the City of Delaware to be placed in a special fund created for a specific public infrastructure improvement.

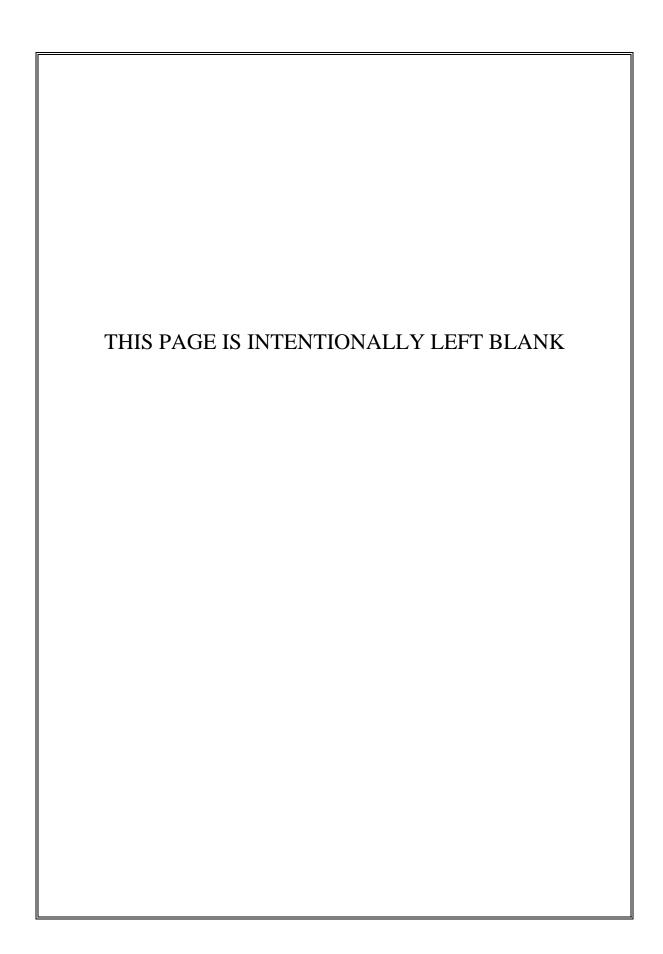

Below is the information relevant to the disclosure of these programs for the year ended December 31, 2017:

Tax Abatement Program	Abate	Amount of Taxes Abated during the Fiscal Year					
		scai i cai					
Residential Community Reinvestment Area							
Program	\$	122,333					
Industrial/Commercial Community							
Reinvestment Area Program		662,482					
Enterprise Zone Program		-					
Tax Increment Financing Program		902,657					

Pursuant to Section 5709.82 of the Ohio Revised Code, the City of Delaware and the Delaware City School District created Community Reinvestment Area Compensation Agreements. These agreements require municipal income tax revenue sharing with the Delaware City School District when income tax collections meet specific criteria. For 2017, the required amounts of income tax dollars paid by the City to the Delaware City School District totaled \$129,067.

NOTE 24 – SUBSEQUENT EVENTS

On April 11, 2018, the City issued \$10.265 million in notes to replace the \$11.015 million outstanding at year end. These notes financed the construction of the Glenn Road extension. This note bears an interest rate of 1.7% and matures on April 10, 2019.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2017

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%.

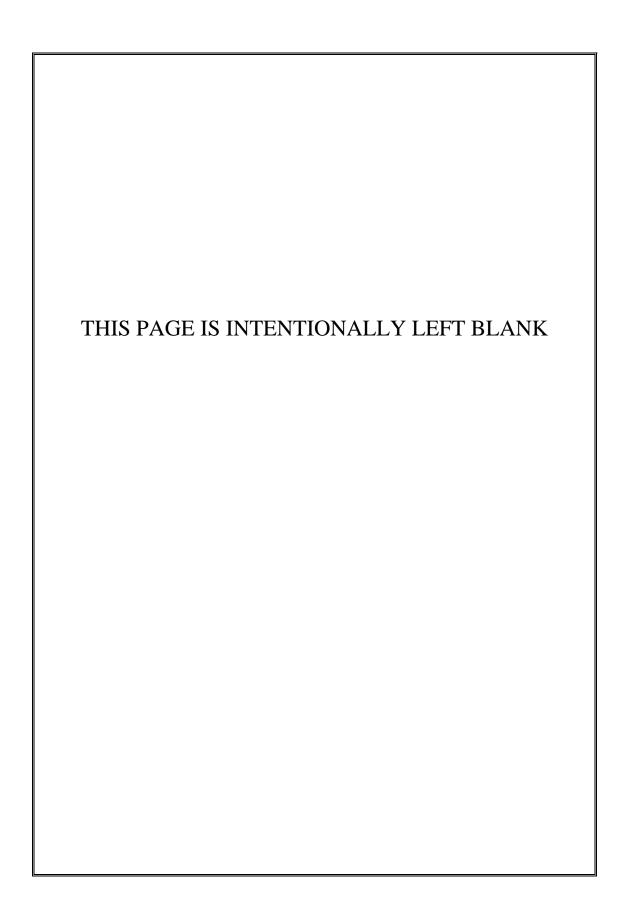

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017. See the notes to the basic financial statements for the methods and assumptions in this calculation.

City of Delaware, Ohio

Combining Statements and Individual Fund Schedules

General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The fund balance of the General Fund is available to the City for any purpose provided it is expended or transferred according to the City's Charter and Code and the general laws and regulations of the State of Ohio.

Some funds are included in the General Fund (GAAP basis), but have separate legally adopted budgets (budget basis):

Parks and Recreation Fund

To account for fees charged for recreational activities, and park rentals, and transfers from the General Fund to be used for park and recreation purposes.

Tree Replacement Fund

To account for fees and donations received to assist in the purchase and maintenance of trees that populate the City's streets and neighborhoods.

Unclaimed Funds

To account for outstanding checks that have not been cashed in a year or more. This fund does not have a legally adopted budget.

Development Reserve Fund

To account for reserves amounts to be used for future debt service obligations related to infrastructure constructed by the City in response to current and future development. In addition, the funds are available for support of future economic development opportunities.

Budget Reserve Fund

To account for the set-aside of contingency funds equal to 5% of annual General Fund revenues. The fund shall be used to stabilize the City's General Fund against cyclical changes in revenues and expenditures. The fund balance will not be appropriated to provide for ongoing general operations of the City.

Combining Statements - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

Street Maintenance and Repair Fund

Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

State Highway Improvement Fund

Required by the Ohio Revised Code to account for State gasoline tax and motor vehicle registration fees designated for the maintenance of state highways within the City.

License Fee Fund

Required by the Ohio Revised Code to account for monies received from the State of Ohio for the maintenance of public roads, highways, streets and bridges within the City.

Cemetery Fund

To account for operational revenues and expenditures to maintain the Oak Grove Cemetery.

Airport Improvement Fund

To account for fuel sales, T-hangar rentals, tie-downs, miscellaneous sales, and transfers from the General Fund used to maintain the City's Municipal Airport.

Nonmajor Special Revenue Funds - (continued)

Airport T-Hangars Fund

To account for expansion T-hangar rentals used to maintain the City's Municipal Airport T-hangars.

Recreation Center Income Tax Fund

To account for the collection and distribution of City-levied income taxes used for park improvements and the construction of the YMCA/Training and Community Center on the City's west side.

Airport TIF Fund

To account for payments in lieu of taxes that will be used, in part, to reimburse the General Fund for costs associated with commercial improvements made at the Municipal Airport.

Glenn Road Bridge TIF Fund

To account for costs incurred with the construction of Glenn Road 1000 feet south of the Glenn Road Railroad Bridge to a point 2000 feet north of the bridge.

Sky Climber/V&P TIF Fund

To account for payments in lieu of taxes that will be used for improvements of two of Delaware's newest businesses.

Mill Run TIF Fund

To account for payments in lieu of taxes that will be used for improvements in the Mill Run area on the City's east side.

Municipal Court Fund

To account for the collection and distribution of the Municipal Court's money, collected from fines and forfeitures. The court acts as the municipal court for all of Delaware County.

IDIAM

To account for the collection of Municipal Court funds for indigent drivers interlock and alcohol monitoring devices issued to indigent defendants

Drug Enforcement Fund

To account for a portion of money seized during drug-related arrests used in educating students in the consequences of using drugs.

Court Alcohol Treatment Fund

Required by the Ohio Revised Code to account for 50 percent of fines received by the City for convictions related to persons whose driver's license was suspended for driving under the influence of alcohol.

OMVI Enforcement and Education Fund

To account for fines imposed under Section 4511.99 (A) of the Ohio Revised Code. These monies are used to pay costs incurred in enforcing Section 4511.99 of the Ohio Revised Code, and to educate the public about laws governing the operation of a motor vehicle under the influence of alcohol and the danger thereof.

Police Judgment Fund

To account for a portion of seized money used for purchasing of equipment and for training.

Park Exaction Fees Fund

To account for developers' fees used in park improvements.

Computer Legal Research Fund

To account for fines imposed under Section 1901.26.1 of the Ohio Revised Code to assure the efficient operation of the court by means of computerization, and to make available computerized legal research services.

Court Special Projects Fund

To account for fines imposed under Section 1901.26(B)(1) of the Ohio Revised Code to acquire and pay for special projects of the court including, but not limited to, the acquisition of additional facilities or the rehabilitation of existing facilities, the acquisition of equipment, the hiring and training of staff, community service programs, mediation or dispute resolution services, the employment of magistrates, the training and education of judges, acting judges, and magistrates, and other related services.

Probation Services Fund

To account for specific court costs used to maintain ongoing probation services.

Nonmajor Special Revenue Funds - (continued)

Police and Fire Pension Fund

To account for a voted real estate tax operating levy which pays for the accrued past service liability for police and fire disability and pension benefits.

Community Promotion Fund

To account for allocated revenues from the City's Hotel/Motel Occupancy Tax to events, organizations, and activities that promote the community and other cultural opportunities.

Community Development Block Grant Fund

To account for Federal-funded housing, development, and City-wide improvement programs.

Revolving Loan Fund

To account for State of Ohio economic development funds loaned to qualified Delaware businesses. The loan payments are made available for future loans to new businesses.

Housing Program Income Fund

To account for program income generated through the subsequent sale of federally-funded houses built/renovated from CHIP grant proceeds.

Community Housing Improvement Program Fund (CHIP)

To account for Federal grant money received for improving rental and owner-occupied properties within the City.

Fire Donations Fund

To account for donations received by the City's Fire Department. The donations are used, in part, to purchase equipment for the Fire Department.

Park Donations Fund

To account for donations received by the City to help beautify and decorate the City's parks.

Police Donations Fund

To account for donations given to the City Police Department. Most of the donations are used to purchase new equipment.

Mayor's Donations Fund

To account, in part, for donations received for marriage ceremonies performed by the Mayor.

Project Trust Fund

To account for money received from developers prior to the development of land to assure the developers provide the required elements, such as park land, water retention site, etc.

Municipal Court Unclaimed Funds

To account for outstanding checks that have not been cashed in a year or more from the Municipal Court. This fund is not budgeted by the City.

Nonmajor Debt Service Funds

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

General Obligation Bond Retirement Fund

To account for transfers in, interest earned, and proceeds of debt, that are utilized for the repayment of general obligation bonds of the City.

Park Improvement Bond Retirement Fund

To account for the transfers in, interest earned, and the repayment of the principle and interest toward the 2010 income tax-funded bond.

Southeast Highland Bond Retirement Fund

To account for the transfers in, interest earned, and the repayment of the principal and interest toward the 2009 bond which was issued to fund the construction of the SE Highland sewer. For GAAP reporting, this activity is reflected in the Sewer enterprise fund.

Nonmajor Capital Projects Funds

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary funds or assets that will be held in trust funds.

Point Project

To account for costs incurred with the re-construction and widening of the "Point", where US Routes 36 and 37 meet at the railroad overpass on the City's East side.

FAA Airport Expansion Fund

To account for Federal and State funds used for the relocation and expansion of the City's Municipal Airport.

FAA Airport Allocation Improvement Fund

To account for Federal funds used for the Automatic Weather Observation System [AWOS] installation and the replacement of the non-directional beacon [NDB].

Equipment Replacement Fund

To account for transfers from departments to provide for the future replacement of equipment.

Park Impact Fees Fund

To account for developers' fees collected to maintain a level of service associated with the City's parks required with the increased growth.

Police Impact Fees Fund

To account for developers' fees collected to maintain a level of service associated with the City's Police Department required with the increased growth.

Fire Impact Fees Fund

To account for developers' fees collected to maintain a level of service associated with the City's Fire Department required with the increased growth.

Municipal Impact Fees Fund

To account for fees used to expand the capacity of the City's municipal facilities and infrastructure.

Glenn Road North Construction Fund

To account for costs incurred with the construction of Glenn Road from Curve Road, then 5500 feet north to US Route 36/37.

Nonmajor Permanent Fund

Cemetery Perpetual Fund

To account for funds endowed to the Oak Grove Cemetery where the interest will be used to pay for upkeep of certain gravesites.

Combining Statements - Internal Service Funds

Internal Service Funds

Garage Rotary Fund

To account for the fuel, maintenance and repair for all City vehicles and machinery. The cost is allocated to the various departments.

Info Tech Rotary Fund

To account for the staff, system support, and purchases of the City's technology and GIS department. The cost is allocated to the various departments supported.

Self-insurance Fund

To account for premiums charged to various City funds for the payment of employee health care claims.

Worker's Compensation Fund

To account for the potential worker's compensation claims of the City. The City utilizes a retro-payment system where annual premiums are paid, as are retroactive claims. The City charges various departments for these premiums and payments.

Combining Statements -Fiduciary Funds

Agency Funds

Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations, other governmental units, and/or other funds.

Highway Patrol Transfer Fund

To account for money received from fines and forfeitures used to support the Delaware County Law Library.

State Building Permit Fund

To account for the allocation of permit fees collected by the City that are due to the State.

Municipal Court

To account for the collection and distribution of court fines and forfeitures through the Municipal Court.

Berkshire JEDD

To account for income taxes levied and collected within the Berkshire Township/City of Delaware Joint Economic Development District by the City and distributed accordingly.

Performance Bonds

To account for funds on deposit from developers unable to issue a surety performance bonds and for funds on deposit for fire damaged dwellings prior to either razing and disposing of the building or reparations are made.

STATISTICAL SECTION

This part of the City of Delaware's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	214
Revenue Capacity These schedules contain information to help the reader assess the government's most significant local revenue sources, Property Tax and Income Tax.	224
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	232
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	240
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	242

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: The City's basic property tax rate may be increased only by a majority vote of the City's residents.

¹ Overlapping rates are those of local and county governments that apply to property owners within the City of Delaware. Not all overlapping rates apply to all Delaware property owners: annexed properties may still pay township taxes in addition to City taxes.

¹ See Schedule 6 for property value data.

² Population data can be found in Schedule 16.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF DECEMBER 31, 2017

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable ¹	Esumatea Share of Overlapping Debt
Outstanding General Obligation Debt Delaware County Delaware City School District	\$ 115,127,477 68,099,940	10.48% 99.68%	\$ 12,065,360 67,882,020
Subtotal, Overlapping Debt City of Delaware direct debt	\$ 183,227,417		79,947,380 45,272,025
Total Direct and Overlapping Debt			\$ 125,219,405

Sources: Debt outstanding and assessed value data used to estimate applicable percentages provided by the County Auditor.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Delaware. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not

^{&#}x27;The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.
