INDEPENDENT AUDITOR'S REPORT

Lorain County Port Authority Lorain County 226 Middle Avenue Elyria, Ohio 44035

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of the Lorain County Port Authority, Lorain County, Ohio (the Authority), a component unit of Lorain County, Ohio as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our opinions.

Lorain County Port Authority Lorain County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the Lorain County Port Authority, Lorain County, Ohio as of December 31, 2017, and the respective changes in its financial position and where applicable its cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2018, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Dave Yost Auditor of State Columbus, Ohio

June 28, 2018

The following Management's Discussion and Analysis (MD&A) of the Lorain County Port Authority's (the Authority) financial performance provides an introduction to the financial statements for the period January 1, 2017 through December 31, 2017.

FINANCIAL HIGHLIGHTS

- At December 31, 2017, the assets plus deferred outflows of resources of the Authority exceeded the liabilities plus deferred inflows of resources by \$7,162,429.
- Total net position increased by \$139,284 since December 31, 2016.
- The Authority's total revenue for 2017 is \$1,189,235 of which \$457,236 is operating revenues and \$731,999 is non-operating revenues.
- The Authority has \$1,049,951 in total expenses for 2017, of which \$836,488 are operating expenses and \$213,463 are non-operating expenses.

FINANCIAL STATEMENTS

The Authority's financial statements are prepared on the accrual basis of accounting. The Authority is divided into two kinds of activities: 1) A single business-type activity with revenues recognized when earned, not when received. Expenses are recognized when incurred, not when paid. 2) A Component Unit - The Authority includes financial data of the Lorain County Land Reutilization Corporation (Corporation). This component unit is described in Note 1 of the Notes to the Basic Financial Statements. The component unit is a separate entity and may buy, sell, lease and mortgage property in their own name and can sue or be sued in their own name. The following statements are included:

Statement of Net Position - presents information on all the Authority and Corporation's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

Statement of Revenues, Expenses and Changes in Net Position - has been included to present information showing how the Authority and Corporation's net positions changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Statement of Cash Flows - present only the flow of cash and cash equivalents. Consequently, only transactions that affect the Authority's cash accounts are recorded in this statement. A Statement of Cash Flows is not presented for the Corporation.

Other Information

Notes to the Basic Financial Statements:

The notes provide additional and explanatory data. They are an integral part of the basic financial statements. Notes to the Basic Financial Statements can be found starting on page 15 of this report.

FINANCIAL POSITION

The following represents the Authority's financial position for the period ended December 31, 2017 and December 31, 2016:

Table 1 Lorain County Port Authority Net Position

During 2017 the Authority's overall financial position increased by \$139,284.

Customers

Notes Receivable

Intergovernmental Receivable

Total Current and Other Assets

Due From Other Entities Assets Held for Resale

• Total Assets have increased \$1,425,867 from 2016 due mainly to the addition of due from other entities. Total Liabilities have increased \$1,304,945 from December 31, 2016 due mainly to the addition of revenue bonds.

The net pension liability (NPL) is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Authority's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 requires the net pension liability to equal the Authority's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Authority is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law.

The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the Authority's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows.

The following represents the Authority's summary of changes in net position:

Table 2 Lorain County Port Authority Revenues, Expenses and Changes in Net Position

	For Year	For Year
	Ended	Ended
	December	December
	31, 2017	31, 2016
Operating Revenues	\$457,236	\$394,488
Operating Expenses	(836,488)	(509,644)
Operating (Loss)	(379,252)	(115,156)
Non-Operating Revenues	731,999	513,208
Non-Operating Expenses	(213,463)	(43,604)
Income (Loss) Before Contributions and	_	
Transfers	139,284	354,448
Capital Contributions	0	757,451
Intra-Entity Transfer Capital Assets	0	21,184
Change in Net Position	139,284	1,133,083
Net Position, Beginning of Year	7,023,145	5,890,062
Net Position, End of Year	\$7,162,429	\$7,023,145

A comparative analysis of the Authority's financial position and change in net position is as follows:

- Operating Revenues are up \$62,748 from 2016 due mainly to an increase in rent revenue.
- Non-Operating Revenues increased \$218,791 from 2016 due mainly to monies received from Workforce Development and Lorain County Land Reutilization Corporation
- Operating Expenses increased \$326,844 from 2016 due mainly to an increase in payroll, fringe benefits and neighborhood stabilization expenses

CAPITAL ASSETS

The Authority's investment in capital assets as of December 31, 2017, amounts to \$3,613,420 (net of accumulated depreciation). This investment in capital assets consists of land, buildings, building improvements, and vehicles.

Table 3 Lorain County Port Authority Capital Assets, Net of Depreciation

	2017	2016
Land	\$585,348	\$585,348
Buildings	2,607,038	2,665,440
Building Improvements	398,245	406,879
Vehicles	22,789	36,976
Total Capital Assets,		
Net of Depreciation	\$3,613,420	\$3,694,643

Additional detailed information relating to the Authority's capital assets is contained in Note 6 of the Notes to the Basic Financial Statements.

DEBT

At December 31, 2017, the Authority had outstanding conduit debt of \$4,000,000 in revenue bonds. The Authority issued the debt to assist a third party in land acquisition and new money projects. The third party is responsible for repaying the debt. The debt is to be primarily paid by the Lorain County Land Reutilization Corp. The outstanding Loan Payable – County of \$397,137 represents the cumulative operating costs incurred by the Authority that have been paid by Lorain County.

Additional information regarding the Authority's conduit debt and loan payable-county can be found in Notes 11 and 13, respectively, of this report.

Table 4 Lorain County Port Authority Debt (As of end of each year)

	2017	2016
Bond Anticipation Notes	\$0	\$2,790,000
Loan Payable - County	397,137	391,312
Revenue Bonds	4,000,000	0
Total Long Term Debt	\$4,397,137	\$3,181,312

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the Lorain County Port Authority finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Patrick Metzger, Lorain County Port Authority, 226 Middle Avenue, Elyria, OH 44035.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Lorain County Port Authority (the Authority) was created by the Lorain County Board of Commissioners in 2001 to enhance economic development in Lorain County. The Authority is created in accordance with Section 4582.22 of the Ohio Revised Code.

The Authority is governed by a five-member Board of Directors (the Board) appointed by the Lorain County Board of Commissioners. Each member shall serve for a term of four years, except when a person is appointed to fill a vacancy, which is to be appointed to serve only the unexpired term. Members of the Board are eligible for re-appointment. The Board controls the employment of the Executive Director who is responsible for day-to-day operations.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the Authority consists of all funds, departments, boards and agencies that are not legally separate from the Authority. For the Authority, this consists of the operating fund.

Component units are legally separate organizations for which the Authority is financially accountable. The Authority is financially accountable for an organization if the Authority appoints a voting majority of the organization's Governing Board and (1) the Authority is able to significantly influence the programs or services performed or provided by the organizations; or (2) the Authority is legally entitled to or can otherwise access the organization's resources; the Authority is legally obligated or has otherwise assumed the responsibility to finance deficits of or provide financial support to the organization; or the Authority is obligated for the debt of the organization. Component units may also include organizations for which the Authority approves the budget, the issuance of debt, or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading.

Based on the foregoing criteria, the financial activities of the Lorain County Land Reutilization Corporation (Corporation) have been reflected in the accompanying basic financial statements as a discretely presented component unit due to the nature and significance of the relationship between the Authority and the Corporation being such that exclusion by the Authority would render the Authority's financial statements incomplete or misleading.

Information in the following notes to the basic financial statements is applicable to the primary government. Information relating to the component unit can be found in Note 15. Separately issued financial statements can be obtained by contacting James Cordes, Lorain County Land Reutilization Corporation, 226 Middle Avenue 4th Floor, Elyria, OH 44035.

As of December 31, 2017, the Authority has a liability to the County in the amount of \$397,137 for past and current operating loans. Under GASB Statements No. 14 and 61, this is considered to be a financial burden on the County. Also, the County can impose its will on the Authority through the appointment of the members of the Board of Directors. Therefore, the Authority is a component unit of the County whose financial statements are discretely presented in the County's financial statements.

B. <u>Basis of Accounting</u>

The accompanying financial statements have been prepared on the accrual basis of accounting, whereby revenues and expenses are recognized in the period earned or incurred. All transactions are accounted for in a single enterprise fund. Enterprise funds are used to account for business-like activities. The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

C. Budgetary Process

Ohio Revised Code Section 4582.39 requires the Authority to prepare a budget annually. This budget includes estimated receipts and appropriations and is prepared on the cash basis of accounting.

D. Cash, Cash Equivalents and Investments

The Ohio Revised Code prescribes allowable deposits and investments. For purposes of the Statement of Cash Flows, the Authority considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Investments are reported at fair value, which is based on quoted market prices.

E. <u>Capital Assets</u>

Capital assets are tangible and intangible assets which are intended to be held or used for the long-term. Capital assets include land, buildings, improvements, infrastructure, construction-in-progress and machinery and equipment. In common usage, the term refers only to operation facilities and equipment, not to long term investments or other non-current assets. At the Authority, capital assets are those with a minimum unit cost of \$15,000 and a useful life of two or more years, and that are not specifically excluded by policy. Donated capital assets are recorded at their fair market values as of the date received. Buildings are depreciated using the straight-line method for a period of 20-50 years. Improvements are depreciated using the straight-line method for a period of 30-50 years. Machinery and Equipment is depreciated using the straight-line method for a period of 2-20 years.

F. Net Position

Net Investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. There were none restricted by enabling legislation in 2017.

Restricted resources are applied first when an expense is incurred for both restricted and unrestricted assets.

G. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities. For the Authority, these revenues are primarily charges for services, donations, rental income, and CVB-other monthly fees. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the Authority. Revenues and expenses not meeting those definitions are reported as non-operating.

H. Contributions of Capital

Contributions of capital arise from outside contributions of capital assets or from outside contributions of resources restricted to capital acquisition and construction. The Authority had no Contributions of Capital in 2017.

I. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those expected.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Authority, deferred outflows of resources are reported on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 9.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Authority, deferred inflows of resources include, pension. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 9).

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

L. Debt Issuance Costs, Premiums, and Discounts

Debt issuance costs are reported as expenses in the period incurred. Bond premiums and discounts are deferred and amortized over the life of the bonds.

2. CHANGE IN ACCOUNTING PRINCIPLES

A. Change in Accounting Principles

For 2017, the Authority has implemented GASB Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14, GASB Statement No. 81, Irrevocable Split-Interest Agreements, and GASB Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73.

GASB Statement No. 80 improves financial reporting by clarifying the financial statement presentation requirements for certain component units. The implementation of GASB 80 had no effect on the Authority's net position.

GASB Statement No. 81 improves accounting and financial reporting by establishing recognition and measurement requirements for irrevocable split-interest agreements. The implementation of GASB 81 had no effect on the Authority's net position.

GASB Statement No. 82 establishes accounting and financial reporting requirements for pensions provided to the employees of state or local governmental employers. This Statement also establishes financial reporting requirements for pension plans administered through trusts that meet the criteria in paragraph 3 of Statement 67. The implementation of GASB 82 had no effect on the Authority's net position.

3. DEPOSITS AND INVESTMENTS

The provisions of the Ohio Revised Code govern the investments and deposits of Authority monies. In accordance with these statutes, only financial institutions located in Ohio are eligible to hold public deposits. The statutes also permit the Authority to invest its monies in certificate of deposit, savings accounts, money market accounts, the State Treasurer's Asset Reserve (STAR Ohio) investment pool and obligations of the United States government or certain agencies thereof. The Authority may also enter into repurchase agreements with any eligible depository for a period not exceeding thirty days.

Custodial credit risk is the risk that, in the event of bank failure, the Authority's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as collateral against all of the uninsured public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the Authority. The Authority does not have a policy for custodial credit risk.

Deposits - At December 31, 2017, the bank balance of the Authority's deposits was \$538,630. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of December 31, 2017, \$288,630 of the Authority's bank balance of \$538,630 was exposed to custodial credit risk as discussed above, while \$250,000 was covered by Federal Deposit Insurance Corporation.

Investments

As of December 31, 2017, the Authority had the following investments and maturities:

	Measurement		Standard & Poor's	Percent of Total
Measurement/Investment	Amount	Maturity	Rating	Investments
Fair Value-Level Two Input:				
First American Government				
Obligation Fund	\$2,515,570	Less than one year	AAAm	100%

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the Authority's recurring fair value measurements as of December 31, 2017. The Authority's investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Interest Rate Risk: The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The Authority has no policy regarding interest rate risk.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Investments had the following ratings by Standard & Poor's. The Authority has no policy regarding credit risk.

AAAm

First American Government Obligation Fund

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority does not have a policy for custodial credit risk.

Concentration of Credit Risk: Concentration of credit risk is the possibility of loss attributed to the magnitude of the Authority's investment in a single issuer. One hundred percent of the Authority's investments are in First American Government Obligation Fund. The Authority's policy places no limit on the amount that may be invested in any one issuer. The Authority has no policy regarding concentration of credit risk.

4. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; injury and natural disasters. Through Lorain County, the Authority is covered under the County Risk Sharing Authority, Inc. (CORSA). CORSA is a risk sharing pool made up of thirty-nine counties in Ohio and was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group of primary and excess insurance/self-insurance and risk management programs. The Authority has not had any claims that exceeded insurance coverage.

A surety bond of \$25,000 through Ohio Casualty Insurance Group covers the Board Secretary.

5. BOND FUND PROGRAM

The Authority has established a Bond Fund Program to provide long-term, fixed interest rate financing for qualified industrial, commercial and public projects. The primary purpose of the Bond Fund Program is to further economic development efforts and investment in Lorain County through the retention and creation of quality, private sector jobs.

The State of Ohio Department of Development (ODOD) awarded the Authority a grant of \$1,000,000, received in April 2003, which was deposited into the Bond Fund Program Reserve account. The conditional grant from ODOD is for 20 years, with the interest earned on the fund remitted back to ODOD through December 2012. Beginning 2013 and continuing through December 2023, 50 percent of the interest earned is required to be remitted back to ODOD. In December 2001, the Authority received a \$1,500,000 grant from Lorain County for the Bond Fund Program, which was also deposited into the Bond Fund Program Reserve account.

Under the Program, debt service requirements on each bond issue are to be secured by a pledge of amounts to be received under lease or loan agreements with borrowers who utilize the financial facilities. In addition, all borrowers are required to provide a letter of credit as additional security for the related bonds. Amounts in the Bond Fund Program Reserve may be used for debt service in the event the borrower is unable to make the required payments under the lease.

The amounts held in the Authority's Bond Fund Program Reserves were \$2,515,570 at December 31, 2017 and are reflected in the Statement of Net Position.

6. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2017, was as follows:

	Balance			Balance
	01/01/2017	Additions	Deletions	12/31/2017
Capital Assets, Not Being Depreciated: Land	\$585,348	\$0	\$0	\$585,348
Total Capital Assets, Not Being				
Depreciated	585,348	0	0	585,348
Capital Assets, Being Depreciated:				
Buildings	2,915,645	0	(493)	2,915,152
Building Improvements	445,555	0	0	445,555
Vehicle	70,934	0	0	70,934

Total Capital Assets, Being				
Depreciated, net	3,109,295	(80,730)	(493)	3,028,072
Depreciated, not	3,107,273	(00,750)	(173)	3,020,072
Total Capital Assets, net	\$3,694,643	(\$80,730)	(\$493)	\$3,613,420

7. RELATED PARTY ACTIVITY

The County has assigned the following staff to the operation of the Authority, under contract, and will - at its option, request reimbursement periodically from the Authority: Patrick J. Metzger, Director.

8. LETTER OF CREDIT

On June 27, 2008, the Authority entered into an agreement to increase their Letter of Credit with Northwest Bank from three million dollars to eight million dollars. The purpose of the Letter of Credit is to supplement the reserves available in the Program Reserve Fund and enable the Authority to issue additional series of bonds under the indenture to finance costs of projects and promote the creation and preservation of jobs and employment opportunities within the County. Due to market conditions and with the intent to enhance the marketability and rating on a bond financed expansion project, the Authority supplemented the existing Letter of Credit with an additional wrapping Letter of Credit with the Federal Home Loan Bank of Cincinnati (FHLB). However, market conditions at that time dictated that the firm pull out of the project. As of December 31, 2017, the Authority has not used the Northwest Bank Letter of Credit or the supplemental FHLB Letter of Credit. The Authority has maintained the enhancements with the goal to attract a partnership with another Port Authority, or to attract suitable business attraction/expansion to meet the Authority's core mission of economic development in Lorain County.

9. DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions -- between an employer and its employees -- of salaries and benefits for employee services. Pensions are provided to an employee -- on a deferred-payment basis -- as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Authority's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Authority's obligation for this liability to annually required payments. The Authority cannot control benefit terms or the manner in which pensions are financed; however, the Authority does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plans' unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable*.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - Authority employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS Administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. Authority employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (See OPERS CAFR referenced above for additional information):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2017 Statutory Maximum Contribution Rates		
Employer	14.0 %	
Employee	10.0 %	
2017 Actual Contribution Rates		
Employer:		
Pension	13.0 %	
Post-employment Health Care Benefits	1.0	
Total Employer	14.0 %	
Employee	10.0 %	

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Authority's contractually required contribution was \$9,539 for 2017. Of this amount, \$3,138 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of net pension liability was based on the Authority's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Proportion of the Net Pension Liability:	
Current Measurement Date	0.00046200%
Prior Measurement Date	0.00031200%
Change in Proportionate Share	0.00015000%
Proportionate Share of the Net Pension Liability	\$94,797
Pension Expense	\$22,393

At December 31, 2017, the Authority reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	OPERS
Deferred Outflows of Resources	
Net difference between projected and	
actual earnings on pension plan investments	\$31,866
Authority contributions subsequent to the	
measurement date	9,539
Total Deferred Outflows of Resources	\$41,405
Deferred Inflows of Resources	
Differences between expected and actual experience	\$1,036
Changes in proportion and differences	
between Authority's contributions and proportionate	
share of contributions	5,252
Total Deferred Inflows of Resources	\$6,288

\$9,539 reported as deferred outflows of resources related to pension resulting from Authority contribution subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS
Year Ending December 31:	
2018	\$1,050
2019	1,304
2020	3,641
2021	3,594
Total	\$9,589

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. In 2016, the Board of Trustees' actuarial consultants conducted an experience study for the period 2011 through 2015, comparing assumptions to actual results. The experience study incorporates both a historical view and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. Information from this study led to changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed rate of return from 8.0 percent down to 7.5 percent, for the defined benefit investments. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are present below:

Wage Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA:
Pre-January 7, 2013 Retirees

Pre-January 7, 2013 Retirees
Post-January 7, 2013 Retirees
Investment Rate of Return
Actuarial Cost Method

3.25 percent
3.25 to 10.75 percent including wage inflation

3 percent, simple
3 percent, simple through 2018, then 2.15 percent, simple
7.5 percent
Individual Entry Age

Mortality rates are based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 8.3% percent for 2016.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

	Weighted Average		
		Long-Term Expected	
	Target	Real Rate of Return	
Asset Class	Allocation	(Arithmetic)	
Fixed Income	23.00 %	2.75 %	
Domestic Equities	20.70	6.34	
Real Estate	10.00	4.75	
Private Equity	10.00	8.97	
International Equities	18.30	7.95	
Other investments	18.00	4.92	
Total	100.00 %	5.66 %	

Discount Rate The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following table represents the Authority's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.5 percent, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage lower (6.5 percent) or one-percentage-point higher (8.5 percent) than the current rate:

	Current			
	1% Decrease	Discount Rate	1% Increase	
	(6.50%)	(7.50%)	(8.50%)	
Authority's proportionate share				
of the net pension liability	\$160,277	\$94,797	\$58,776	

10. POST EMPLOYMENT BENEFITS

A. Ohio Public Employees Retirement System

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the Traditional Pension Plan is a cost-sharing, multiple employer defined benefit pension plan; the Member-Directed Plan is a defined contribution plan; and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan.

In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate all health care assets into the OPERS 115 Health Care Trust. Transition to the new health care trust structure was completed July 1, 2016. As of December 31, 2016, OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage. OPERS funds a Retiree Medical Account (RMA) for participants in the Member-Directed Plan. At retirement or refund, participants can be reimbursed for qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age and service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. OPERS' eligibility requirements for post-employment health care coverage changed for those retiring on and after January 1, 2016. Please see the Plan Statement in the OPERS 2015 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board of Trustees (OPERS Board) in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#CAFR, by writing to the OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. The 2017 local government employer contribution rate was 14.00 percent of earnable salary. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14.00 percent of earnable salary for local government employers. Active member contributions do not fund health care.

Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.00 percent during calendar year 2017. As recommended by the OPERS' actuary, the portion of employer contributions allocated to healthcare beginning January 1, 2018 decreased to 0.0 percent for both plans. The Board is also authorized to establish rules for the retiree, or their surviving beneficiaries, to pay a portion of the health care benefits provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member- Directed Plan for 2017 was 4.0%.

The Authority's actual contributions for the years ending December 31, 2017, 2016, and 2015, were \$1,903, \$1,190, and \$733, respectively. For 2017, 89.47% has been contributed, with the balance being reported as an intergovernmental payable. The full amount for 2016 and 2015 has been contributed.

11. BOND AND NET PENSION LIABILITIES

Long-Term Obligations

Changes in bond and net pension liabilities of the Authority during fiscal year 2017 were as follows:

	Balance 12/31/16	Additions	Deletions	Principal Outstanding 12/31/17	Amounts Due in One Year
Revenue Bond Series					
2017 \$4,000,000 2%-4% Maturing on 09/01/2037					
Revenue Bonds	\$0	\$4,000,000	\$0	\$4,000,000	\$135,000
Unamortized Premium on Bonds	0	32,385	0	32,385	1,619
Total General Obligation Bonds	\$0	\$4,032,385	\$0	\$4,032,385	\$136,619
Net Pension Liability					
OPERS	\$54,042	\$40,755	\$0	\$94,797	\$0
Total Bond and Net Pension					
Liabilities	\$54,042	\$4,073,140	\$0	\$4,127,182	\$136,619

In November, 2017, the Authority issued revenue bonds to repay year 2016 BANs and provide ongoing match funds to Lorain County Land Reutilization Corporation that support the costs of match funds for demolition grant programs that aid in reclamation, rehabilitation, and reutilization of vacant, abandoned, tax-foreclosed, or other such real property within Lorain County which is the mission of the LCLRC. The various state programs are reimbursement based and require expenditure first, reimbursement requests later. The LCLRC will repay the bonds using DRETAC receipts. The Authority is not obligated in any manner for repayment of the bonds. However, a liability equal to the conduit debt along with a corresponding receivable from the benefitting third party responsible for its ultimate repayment is reported in the accompanying financial statements. The issuance of such conduit debt is an authorized purpose of the Port Authority under O.R.C. and drives local economic development. The aforementioned issuance of conduit debt does not produce additional revenues for the Authority beyond a nominal issuance fee.

The annual requirements to amortize the long-term debt are as follows:

	Revenue Bond Series 2017			
Fiscal Year Ending December 31	Principal Payment	Interest	Total	
2018	\$135,000	\$95,870	\$230,870	
2019	155,000	112,343	267,343	
2020	165,000	109,244	274,244	
2021	170,000	105,943	275,943	
2022	170,000	102,544	1,067,544	
2023-2027	910,000	458,585	1,368,585	
;2028-2032	1,055,000	305,114	1,360,114	
2033-2037	1,240,000	121,232	1,361,232	
Totals	\$4,000,000	\$1,410,795	\$5,410,795	

12. MANAGEMENT AGREEMENT

Effective May 25, 2012, the Authority entered into a three year Management Agreement with Lorain County Land Reutilization Corp (Corporation). The Agreement's term will renew for additional, successive one (1) year periods in perpetuity upon mutual consent of the parties. The Authority shall serve as the Management Company and shall assist the Corporation in the administration and execution of the Agreement and Plan entered into with the Lorain Board of County Commissioners, Lorain County, Ohio. The Authority shall act as the executive of the Corporation and will act under the direction of the Corporation as established by the Corporation Board through its Code of Regulation, other policies, and specific direction. The management fee for the Authority's services is 3% of the delinquent tax and assessment collection monies received by Corporation annually.

13. LOAN PAYABLE

Loan Payable – County represents the cumulative operating costs incurred by the Authority that have been paid by Lorain County. There is no repayment schedule. At December 31, 2017, the outstanding balance was \$397,137.

Loan payable activity for the year ended December 31, 2016, was as follows:

	Balance			Balance
	01/01/2017	Additions	Deletions	12/31/2017
Loan Payable	\$391,312	\$5,825	\$0	\$397,137

14. CONTINGENCIES

During the normal course of operations, the Authority has become a defendant in a legal action. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Although the outcome of this lawsuit is not presently determinable, it is the opinion of the Authority's counsel that a resolution of this matter will not have a material adverse effect on the financial condition of the Authority.

15. LORAIN COUNTY LAND REUTILIZATION CORPORATION

NOTE 1 – DESCRIPTION OF THE CORPORATION AND REPORTING ENTITY

The Lorain County Land Reutilization Corporation (the Corporation) is a body corporate and politic organized on May 25, 2012 by the Lorain County Board of Commissioners (LCBC). The Corporation is created in accordance with Section 1724 of the Ohio Revised Code.

The Corporation meets the criteria for reporting as a discretely presented component unit of the Lorain County Port Authority for reporting purposes, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus."

The Corporation is governed by a seven-member Board of Directors (the Board) consisting of the County Treasurer (ex officio Director), three County Commissioners (ex officio Directors), one member who is a representative of a municipal corporation, one member who is a representative of a township, and one resident of Lorain County having private sector or nonprofit experience in rehabilitation or real estate acquisitions.

Component units are legally separate organizations for which the Corporation is financially accountable. Financial accountability exists if a primary government/component unit appoints a majority of an organization's governing board and is able to impose its will on that organization. Financial accountability may also be deemed to exist if there is a potential for the organization to provide financial benefits to, or impose financial burdens on, the primary government/component unit. On this basis, no governmental organization other than the Corporation itself is included in the financial reporting entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed in the preparation of these basic financial statements are summarized below. These policies conform to generally accepted accounting principles for local governmental units as prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. The more significant of the Corporation's policies are described below.

A. Basis of Presentation

The Corporation's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Corporation as a whole. These statements include the financial activities of the primary government. These statements usually distinguish between those activities of the Corporation that are governmental and those that are considered business-type. The Corporation, however, does not have business-type activities.

The statement of net position presents the financial condition of the governmental activities of the Corporation at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Corporation's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Corporation, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Corporation.

B. Fund Accounting

The Corporation uses fund accounting to segregate cash and investments that are restricted as to use. A fund is a separate accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and attaining certain objectives in accordance with special regulations, restrictions or limitations.

For financial statement presentation purposes, the Corporation's fund is classified as governmental.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be repaid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following is the Corporation's only governmental fund:

General Fund The general fund accounts for all financial resources that are received from the County Treasurer from penalties collected on delinquent property taxes and interest on those delinquencies. The general fund receives 5% of all collections of delinquent real property, personal property, and manufactured and mobile home taxes that are deposited into the County's Delinquent Tax Assessment and Collection Tax (DTACT) fund. The general fund balance is available to the Corporation for any purpose provided it is expended or transferred according to the general laws of Ohio. In addition, the fund receives monies from The U.S. Treasury through the Ohio Housing Finance Agency.

C. Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets, all deferred outflows of resources, all liabilities and all deferred inflows of resources associated with the operation of the Corporation are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements

The general fund is accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the general fund.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The general fund uses the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the Corporation, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the Corporation receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Corporation must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Corporation on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, intergovernmental revenue and operating grant sources are considered to be both measurable and available at year-end.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

In 2017, the Corporation had no deferred outflows/inflows of resources.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Federal Income Tax

The Corporation is exempt from federal income tax under Section 115(1) of the Internal Revenue Code.

E. Budgetary Process

The Corporation is not bound by the budgetary laws prescribed by the Ohio Revised Code. The Board of Directors of the Corporation is required by their Code of Regulations to adopt an annual budget prior to the beginning of the fiscal year. Appropriations and subsequent amendments are approved by the Board of Directors during the year as required. For 2017, the Board of Directors did not adopt an annual budget during the fiscal year.

F. Cash, Cash Equivalents with Fiscal Agents

The Lorain County Port Authority (the Authority) is currently holding deposits that belong to the Corporation which are represented by "Cash and cash equivalents with fiscal agents" on the Statement of Position. The Authority's cash and investment pool holds the Corporation's cash and investments, which are reported at the Authority's carrying amount. Deposits and investments disclosures for the Authority as a whole may be obtained from the Authority. This information may be obtained by writing Patrick Metzger, Director, 226 Middle Avenue 4th Floor, Elyria, OH 44035.

G. Assets Held for Resale

Assets held for resale represent properties purchased by or donated to the Corporation. These properties are valued based upon the purchase price plus any costs of maintenance, rehabilitation, or demolition of homes on the properties. For donated properties, the asset is reported at fair value which is based on the taxable value as determined by the County Auditor. The Corporation holds the properties until the home is either sold to a new homeowner, sold to an individual who will rehabilitate the home, or the home on the property is demolished. Properties with demolished homes could be transferred to the city or township they are in after demolition, until those parcels may be merged with adjacent parcels for development or green space projects, or the Corporation may sell other lots to the owners of adjacent parcels for a nominal cost.

H. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the financial statements of the general fund.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received.

All capital assets, excluding land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method for buildings over useful lives of fifty years. The Corporation had no capital assets in 2017.

I. Accrued Liabilities

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. The Corporation did not have any long-term obligations in 2017.

Governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the fund.

J. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the Corporation is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans, loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the Corporation for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the Board or a Corporation official delegated that authority, or by State Statute.

Unassigned The unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications.

The Corporation applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

K. Net Position

Net position represents assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Corporation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The Corporation had no deferred outflows or inflows of resources.

L. Intergovernmental Revenue

The Corporation receives operating income through Lorain County. This money represents the penalties and interest on current unpaid and delinquent property taxes once these taxes are paid. Pursuant to ORC 321.263, these penalty and interest monies are collected by the County when taxes are paid and then are paid to the Corporation. In addition, the fund receives monies from The U.S. Treasury through the Ohio Housing Finance Agency.

M. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Corporation Administration and that are either unusual in nature or infrequent in occurrence. The Corporation had no extraordinary or special items in 2017.

N. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 – Receivables

Receivables at December 31, 2017 consisted of funds due from the Authority. Allowance for doubtful accounts were not recorded because all receivables are expected to be collected.

NOTE 4 – Transactions with Lorain County

Pursuant to and in accordance with Section 321.261 (B) of the Ohio Revised Code, the Corporation has been authorized by the Lorain County Board of Commissioners to receive 5% of all collections of delinquent real property, personal property, and manufactured and mobile home taxes that are deposited into the County's Delinquent Tax Assessment and Collection Tax (DTACT) fund and will be available for appropriation by the Corporation to fund operations. At December 31, 2017, the Corporation recognized revenues of \$1,028,290 for these fees that were collected by the County in 2017.

NOTE 5 – Management Agreement and Activities

Effective May 25, 2012, the Corporation entered into a three-year Management Agreement with the Authority. The Agreement's term will renew for additional, successive one (1) year periods in perpetuity upon mutual consent of the parties. The Authority shall serve as the Management Company and shall assist the Corporation in the administration and execution of the Agreement and Plan entered into with the Lorain Board of County Commissioners, Lorain County, Ohio. The Authority shall act as the executive of the Corporation and will act under the direction of the Corporation as established by the Corporation Board through its Code of Regulation, other policies, and specific direction. During 2017, the Corporation paid \$30,849 in administration fees to the Authority.

In November 2017, the Authority issued \$4,000,000 in Land Reutilization Project Revenue Bonds 2.00%-3.25% interest Land Reutilization Project Revenue Bonds to facilitate the effective reutilization of nonproductive, land situated within the boundaries of Lorain County and the payment of the costs of issuance related thereto. The bonds mature in September 2037. The Authority, as issuer and the Corporation, as borrower, are the primary obligated parties on the bonds A liability equal to the conduit debt along with a corresponding receivable from the Corporation responsible for its ultimate repayment is reported in the Authority's financial statements. A due to other governments has been reported on the Corporation's financial statements.

NOTE 6 - Risk Management

The Corporation is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2016, the Corporation contracted with Allied World Assurance Co Holding Ltd. for various types of insurance as follows:

Type	Coverage
Public Officials Liability	\$2,000,000
Non-Monetary Coverage	\$50,000/\$100,000
Employment Practices Liability	\$2,000,000
Public Officials Crisis Management	\$25,000

Settled claims resulting from these risks have not exceeded commercial insurance coverage in the past three years.

NOTE 7 – Debt

	Governmental Activities
Due to Other Governments at January 1, 2017	-
New Issues	\$4,000,000
Due to Other Governments at December 31, 2017	\$4,000,000

The following is a summary of the Corporation's future debt service requirements as of December 31, 2017:

	Governmental Activities		
Fiscal Year			
Ending			
December 31:	Due to Other Governments		
	Principal	Interest	
2018	\$135,000	95,870	
2019	155,000	112,343	
2020	165,000	109,244	
2021	170,000	105,943	
2022	170,000	102,544	
2023-2027	910,000	458,504	
2028-2032	1,055,000	305,115	
2033-2037	1,240,000	121,232	
Totals	\$4,000,000	\$1,410,795	

On November 1, 2017, the Authority issued bonds for the benefit of the Corporation. The payment of principal and interest will be made first with the DRETAC/LCLRC receipts and second with the non-tax revenue funds of the County. As issuer, the bonds are presented on the Authority's financial statements. The amount payable to the Authority by the Corporation for the payment on the bonds is presented on the Corporation's books as due to other governments.

NOTE 8 – Contingencies

A. Grants

The Corporation received financial assistance from a Federal agency in the form of a grant. The disbursement of funds received under this program generally requires compliance with terms and conditions specified in the grant agreement and are subject to audit by the grantor agency. Any disallowed claims resulting from such audits could become a liability of the Corporation. However, the effect of any such disallowed claims on the overall financial position of the Corporation at December 31, 2017, if applicable, cannot be determined at this time.

B. Litigation

The Corporation is not party to any legal proceedings.

LORAIN COUNTY PORT AUTHORITY (A COMPONENT UNIT OF LORAIN COUNTY) NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2017

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the expected investment return was reduced from 8.00% to 7.50%, (b) the expected long-term average wage inflation rate was reduced from 3.75% to 3.25%, (c) the expected long-term average price inflation rate was reduced from 3.00% to 2.50%, (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality rates were updated to the RP-2014 Health Annuitant Mortality Table, adjusted for mortality improvement back to the observant period base year of 2006 and then established the base year as 2015 (f) mortality rates used in evaluating disability allowances were updated to the RP-2014 Disabled Mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and a base year of 2015 for males and 2010 for females (g) Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Lorain County Port Authority Lorain County 226 Middle Avenue Elyria, Ohio 44035

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the business-type activities and the discretely presented component unit of the Lorain County Port Authority, Lorain County, Ohio (the Authority), a component unit of Lorain County, Ohio as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated June 28, 2018.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Authority's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Authority's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Lorain County Port Authority
Lorain County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the Authority's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

LORAIN COUNTY PORT AUTHORITY

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS DECEMBER 31, 2017

Finding Number	Finding Summary	Status	Additional Information
2016-001	In 2016, a \$30,145 Lorain County Land Reutilization Corporation receipt was incorrectly recorded as an Authority receipt and this overstated revenues because the money legally belonged to the Corporation. The day to day financial activities of the Corporation are accounted for within the Authority's accounting system. Further, the Authority and Corporation "run" their financial activity through the same bank account.	Partially Corrected, Repeated as Management Letter Comment	The Authority will continue to investigate the best procedures to separate financial operations that minimize the risks of error.
