NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Summit County (the County) under programs of the federal government for the year ended December 31, 2017. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - SUBRECIPIENTS

The County passes certain federal awards received from U.S. Department of Housing and Urban Development, the U.S. Department of Labor, and the U.S. Department of Health and Human Services to other governments or not-for-profit agencies (subrecipients). As Note B describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE D - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE E - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2017 (Continued)

NOTE F - SETTLEMENT PAYMENTS

During the calendar year, the County Board of Developmental Disabilities received a settlement payment for the 2012 and 2013 Cost Reports from the Ohio Department of Developmental Disabilities for the Medicaid Program (CFDA #93.778) in the amount of \$65,457 and \$49,478, respectively. The Cost Report Settlement payment was for settlement of the difference between the statewide payment rate and the rate calculated based upon actual expenditures for Medicaid services. The revenue is not listed on the County's Schedule of Expenditure of Federal Awards since the underlying expenditures occurred in the prior reporting periods.

NOTE G - TRANSFERS BETWEEN FEDERAL PROGRAMS

During 2017, the County made allowable transfers of \$2,876,031 from the Temporary Assistance for Needy Families (TANF) (93.558) program to the Social Services Block Grant (SSBG) (93.667) program. The Schedule shows the County spent \$10,985,497 on the TANF program. The amount reported for the TANF program on the Schedule excludes the amount transferred to the SSBG program. The amount transferred to the SSBG program is included as SSBG expenditures when disbursed. The following table shows the gross amount drawn for the TANF program during 2017 and the amount transferred to the Social Services Block Grant program.

Temporary Assistance for Needy Families	\$ 13,861,528
Transfer to Social Services Block Grant	(2,876,031)
Total Temporary Assistance for Needy Families	<u>\$ 10,985,497</u>

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Summit County 175 S. Main Street Akron, Ohio 44308

To the County Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate discretely presented component units and the remaining fund information of Summit County, (the County) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 28, 2018.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Summit County Independent Auditor's Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Required By Government Auditing Standards Page 2

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Summit County 175 S. Main Street Akron, Ohio 44308

To the County Council:

Report on Compliance for each Major Federal Program

We have audited Summit County's (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of Summit County's major federal programs for the year ended December 31, 2017. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the County's major federal programs.

The County's basic financial statements include the operations of Summit and Medina Workforce Area Council of Governments, which expended \$1,221,508 in federal awards which is not included in the County's Schedule of Expenditures of Federal Awards during the year ended December 31, 2017. Our audit of Federal awards, described below, did not include the operations of Summit and Medina Workforce Area Council of Governments because the component unit has a separate audit for its Federal award program in accordance with the Uniform Guidance.

Management's Responsibility

The County's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

Summit County Independent Auditor's Report On Compliance With Requirements Applicable To Each Major Federal Program And On Internal Control Over Compliance Required By The Uniform Guidance Page 2

Opinion on each Major Federal Program

In our opinion, Summit County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2017.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which Uniform Guidance requires us to report, described in the accompanying schedule of findings as item 2017-001. Our opinion on *each* major federal program is not modified with respect to these matters.

The County's response to our noncompliance finding is described in the accompanying schedule of findings and / or corrective action plan. We did not audit the County's response and, accordingly, we express no opinion on it.

Report on Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Therefore, we cannot assure we have identified all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that we compliance that we consider to be a significant deficiency, described in the accompanying schedule of findings as item 2017-001.

The County's response to the internal control over compliance finding we identified is described in the accompanying schedule of findings and / or corrective action plan. We did not audit the County's response and, accordingly, we express no opinion on it.

This report only describes the scope of our tests of internal control over compliance and the results of this testing based on the Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Summit County Independent Auditor's Report On Compliance With Requirements Applicable To Each Major Federal Program And On Internal Control Over Compliance Required By The Uniform Guidance Page 3

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and the remaining fund information of Summit County (the County) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated June 28, 2018. We conducted our audit to opine on the County's basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to June 28, 2018. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Federal Award Identification Number / Year	2017			
Federal Agency	U.S. Department of Health and Human Service			
Compliance Requirement	Activities Allowed or Unallowed/Allowable Cost/Cost Principles			
Pass-Through Entity	Ohio Department of Job and Family Services			
Repeat Finding from Prior Audit?	No	Finding Number? (if repeat)	No	

NONCOMPLIANCE AND SIGNIFICANT DEFICIENCY

The Ohio Department of Job and Family Services Full Time Equivalent (FTE) User Manual requires all agencies must report total FTE positions for each applicable cost pool that exists for the agency each payroll period for the payroll period quarter.

All salaries and indirect expenses are included in cost pools. There are two levels of allocation for County JFS expenditures. Costs benefiting all programs (rent, leases, utilities, supplies, indirect employee costs for positions such as the agency director, personnel, fiscal, related compensation, etc.) are included in the Shared Costs Pool and are allocated based on the Quarterly Report of the County JFS Full Time Equivalent (FTE) Positions submitted to ODJFS. Shared costs are distributed in CFIS Web based on the IM, SS, and CSEA FTE percentages.

For 2017, the Children Services Board lacked appropriate internal control procedures and did not file three out of the four quarters FTE Reports. By not submitting the required quarterly payroll report, this would affect the distribution of future shared cost pool costs.

The Children Services Board should ensure the necessary quarterly FTE reports are filed so Shared Costs are distributed properly.

Official's Response:

See corrective action plan.

KRISTEN M. SCALISE CPA, CFE Fiscal Officer County of Summit

June 28, 2018

To the Honorable County of Summit Executive, Council Members, and Citizens of the County of Summit:

As Fiscal Officer of the County of Summit, Ohio, (the County), I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2017. This CAFR conforms to the generally accepted accounting principles (GAAP) as applicable to local government entities set forth by the Governmental Accounting Standards Board (GASB). The report has been filed with the Auditor of State pursuant to Ohio Revised Code (ORC) Section 117.38. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including disclosures, rests with the County's management, and in particular the Fiscal Office of the County. We believe the data is accurate in all material respects and fairly reflects the County's financial position and the results of its operations. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

To provide a reasonable basis of making these representations, management of the County has established a comprehensive internal control framework. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability and accuracy of the financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of controls should not outweigh their benefits. The accounting system encompasses appropriations, encumbrances, expenditures, revenues, payroll and capital assets and ensures the financial information generated is accurate, reliable and free of material misstatement.

In County government, internal controls are enhanced through the separation of powers. Each of the County's elected officials and agency directors is responsible for internal controls over the cash collection function within their office. Some County offices and agencies hold money in bank accounts outside the County treasury. The individual offices and agencies are responsible for the transaction activity and reconciliation of those accounts.

An independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; evaluating the overall financial statement presentation. Included in this CAFR is the unmodified ("clean") opinion on the County's financial statements for the year ended December 31, 2017 issued by the independent auditors, the Auditor of the State of Ohio. *U.S. Office of Management and Budget Compliance Supplement* requires an independent audit to be conducted annually. The audit, which includes procedures to fulfill federal Single Audit requirements, serves to maintain and strengthen the integrity of the County's accounting and budgetary controls. The Single Audit, which meets the Compliance Supplement requirements, is published under separate cover and can be obtained by sending a written request to the County of Summit Fiscal Office, 175 South Main Street, Room 400, Akron, Ohio, 44308.

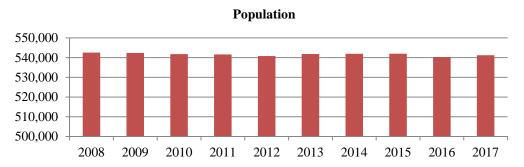

Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A begins on page 7, immediately following the Independent Auditor's Report.

Profile of Summit County Government

Formed in 1840, the County of Summit, is located in northeastern Ohio, approximately 25 miles south of Cleveland, and covers an area of 419 square miles. As of the 2010 census, the County was the fourth most populous of the 88 counties in Ohio with a population of 541,781. The County seat is the City of Akron, which is the largest municipality in the County with a 2010 population of 199,110. In addition to the City of Akron, there are 21 other cities and villages and 9 townships located within the County.

The County is in the Akron Metropolitan Statistical Area (MSA) comprised of Summit and Portage Counties with a population of 703,200 according to the 2010 census. It is also in the Cleveland-Akron-Elyria Combined Statistical Area (CSA) with a population of 2,881,937 according to the 2010 census, making it the 14th most populous CSA of 123 in the country.

In 1979, the voters of the County adopted a Charter establishing the first charter form of county government in the State of Ohio (State). The Charter became effective January 1, 1981. It replaced the statutory form of county government. The Charter currently provides for a County Executive and an eleven member County Council, comprised of three members elected at large and eight members representing districts.

In addition to the County Executive and the Council, there are five elected administrative officials of the County, each of whom has independent authority within the limits of the State statutes affecting the particular office. These officials, elected to four year terms, are the Fiscal Officer, Clerk of Courts, Engineer, Sheriff, and Prosecuting Attorney. Common Pleas Judges, including Domestic Relations, Juvenile and Probate Courts, are also elected on a county-wide basis and serve six year terms.

The eleven-member Council (Council) serves as the taxing authority, the contracting body and the chief administrator of public services. Council adopts and oversees the annual operating budget, approves expenditures and issues debt.

The Fiscal Officer is the County's chief fiscal officer and is responsible for maintaining accurate records of all money received by or paid out of the County treasury. As the tax assessor for all political subdivisions within the County, the Fiscal Officer is responsible for computing the tax rates and the collection of all real estate taxes and manufactured homes taxes as determined by proper tax authorities and popular vote. As the County's banker, the Fiscal Officer serves as the custodian and investment officer for County funds.

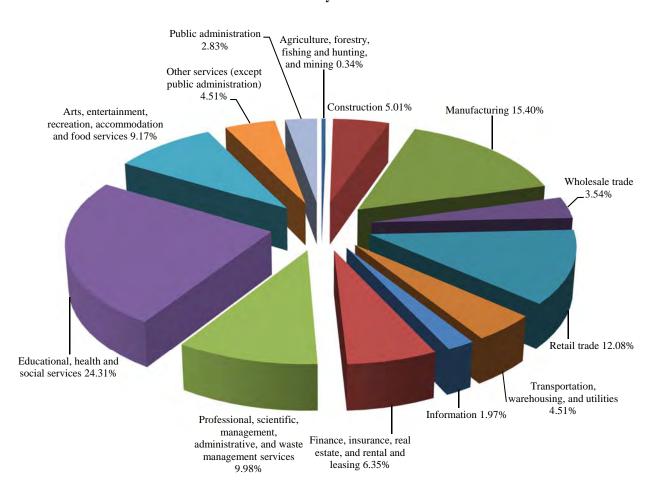

The financial statements contained within this CAFR include all funds, agencies, boards and commissions that are not legally separate and for which the County of Summit (the primary government and reporting entity) is financially accountable. The County provides many services to its citizens including tax collection and distribution, civil and criminal justice systems, public safety, health assistance, human services and road and bridge maintenance. The County also operates a sewer treatment system and other miscellaneous County services. The County does not operate schools or hospitals, nor is it responsible for refuse collection or fire safety services.

Organizations that are legally separate from the County are included as component units if the County's elected officials appoint a voting majority of the organization's governing body and (1) The County has the ability to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County. A complete discussion of the reporting entity is provided in Note 1 to the basic financial statements.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy The County is currently home to a diversified economic base, which is not as concentrated on the rubber and tire industry that prevailed in the County until the 1970s. Although the rubber industry's contributions to the economy remain substantial, the focus of that industry in the region has changed from manufacturing to research and development and administration. Industries that have been significant contributors to the growing economic diversity of the County include the fields of medicine and biomedicine, polymers, and energy.

Industry Sector

The County is the corporate headquarters for two corporations with annual revenues of more than one billion dollars each. These are FirstEnergy Corp. and The Goodyear Tire & Rubber Company.

The County has become a national leader in the field of plastics and polymers. A recent study ranked Ohio number one in plastics and polymers. It is also ranked number one in rubber and miscellaneous plastic products. According to the Greater Akron Chamber, there are more than 140,000 people employed by polymer-related companies in the region. The greater Akron region is home to the largest number of polymer companies in Ohio. Custom molders, captive molders, resin processors, and equipment manufactures all call Ohio home.

The University of Akron's College of Polymer Science and Polymer Engineering, the nation's largest academic polymer program, is at the heart of the area's polymer research activity. The University is home to the greatest concentration of polymer expertise. In 2010, the University opened the National Polymer Innovation Center, and subsequently created the Akron Functional Material Center, which houses the Center for Biomaterials in Medicine, to capitalize on the polymer research being conducted at the University.

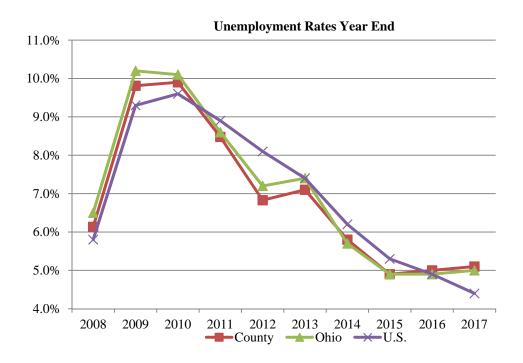

The Goodyear Tire & Rubber Company's ("Goodyear") Global and North American Headquarters, Goodyear's Innovation Center, and the Technical Center of Bridgestone Americas Tire Operations, LLC ("Bridgestone") are all located in the County. While neither company manufactures commercial tires in the County any longer, each is critical to polymer research and development and supports hundreds of suppliers in the region. Additionally, these companies, and the suppliers they support are responsible for employing thousands of individuals in the County and Northeast Ohio.

The County, the City of Akron, and private partners have focused substantial economic development efforts on expanding the historically-strong medical industry in the County by promoting biomedical research and innovation. Five acute care hospitals are located in the County: Akron City Hospital and Summa Barberton Citizens Hospital, which are all a part of the Summa Health system ("Summa"), Western Reserve Hospital, Cleveland Clinic Akron General, and Children's Hospital Medical Center of Akron ("Akron Children's").

Summa, a nonprofit system, is one of the largest health-care delivery systems in the State. Summa has 2,060 beds and more than 1,000 credentialed physicians at its six facilities in the region, and employs a total of 11,000 employees, nurses and health care professionals. The second largest hospital system in the County, Cleveland Clinic Akron General, is a nonprofit system, which has grown to a 532-registered-bed, adult, tertiary care, not-for profit, teaching hospital. Today it is staffed with more than 1,000 physicians, 4,383 healthcare professionals and support staff and 550 volunteers who serve a population of more than 1.2 million people throughout a five county region.

Akron Children's Hospital, a nonprofit system, is one of the largest free-standing pediatric care centers in the U.S., and ranked among the best children's hospitals by U.S. News and World Report. Akron Children's houses a regional burn center for adults and children and a pediatric trauma center. Summa, Cleveland Clinic Akron General and Akron Children's also form a part of the network of teaching hospitals providing medical residency programs affiliated with the Northeast Ohio Medical University ("NEOMED," formerly known as the Northeast Ohio Universities Colleges of Medicine and Pharmacy, or NEOUCOM).

Like most of the counties in Ohio and across the United States, the County continues to feel the effects of the economic recession yet continues to recover. According to the Ohio Department of Job and Family Services, as of December 2017, the County's average unemployment rate was 5.1 percent, which is comparable to the rate of 5.0 percent for 2016. This ranks the County 43^{rd} against the other 88 counties in Ohio. Ohio's average unemployment rate, at 5.0 percent in December 2017, which is comparable to the rate of 4.9 percent for 2016. The national average rate fell from 4.9 percent to 4.4 percent over the year.

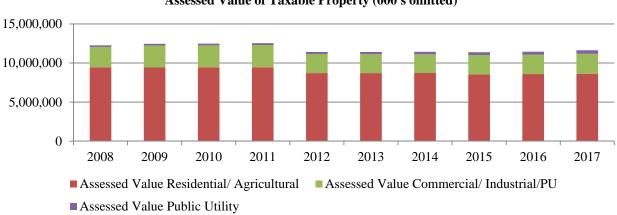

With the development of new business sectors in the County, the proportion of manufacturing activity has decreased. According to Census data, manufacturing jobs in the County represented 16.3% of total jobs in 2010; 23.4% in 2000; 25.9% in 1990; 30% in 1985; 32.0% in 1980; and 51.0% in 1970. While total manufacturing jobs in the County have decreased, employment in the hotel, convention, governmental, educational, polymer and health care services industries has increased. The region's economy has expanded into health care, professional, scientific and technical services, and other industries. The County's biomedical, aerospace, and research and development industries have also experienced growth.

During 2017, a sales tax of 6.75 percent was collected by the State of Ohio on sales made in the County of Summit. The tax was split as follows: 5.75 percent for the State of Ohio; 0.50 percent for the County's General Fund; and 0.50 percent for the Metro Regional Transit Authority. The County receives no direct funding through income taxes. Property taxes are a significant revenue source for the General Fund and these County agencies: Developmental Disabilities Board, Children Services Board and the Alcohol, Drug Addiction and Mental Health Services Board.

The total value of new construction was \$158.2 million in 2017, with \$68.1 million in residential/agricultural and \$90.1 million in commercial/industrial construction. In comparison, 2016 total new construction was \$136.3 million. The appraisal cycle is six years, with an update performed at the mid-point. The mid-point update was performed in 2017 and resulted in an increase in real property values.

In the past, tangible personal property used in business (including inventory) was assessed for tax purposes. This tax has been phased out. However, for a temporary period, the State of Ohio is reimbursing the County for tax losses related to the phased elimination of taxes. A commercial activity tax is imposed on sales in Ohio to replace a portion of the lost revenue. Additional information can be found in Note 8 to the basic financial statements and in the statistical tables.

Assessed Value of Taxable Property (000's omitted)

Financial Policies The budget must be balanced so that continuing revenues support continuing expenditures. Onetime surpluses may not be used to expand continuing expenditures. Rather, they may be used for one-time expenditures, such as capital projects. County agencies are encouraged to maximize the use of state and federal revenues so as to help preserve general revenues for other needs.

Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Department and agency budget requests are submitted in a program-based format in conjunction with strategic business plans that outline each program's performance goals for the following year. Actual performance data related to the demands, outputs, results and efficiencies of each program are part of the budget presentation. Some special revenue funds are required to maintain a balance necessary to cover operational needs for the first several pay periods of the following year in the event that a revenue stream is delayed. Agencies funded through tax levies are required to show expenditures forecasts over the life of a levy do not exceed estimated revenue collections.

The budget may be amended or supplemented at any time during the year upon formal action of County Council. Transfers of cash between funds require authorization by County Council. Appropriations lapse at the end of the year. The County Council adopted the County's 2017 operating budget on December 12, 2016. Additional information on the County's budgetary process can be found in Note 2 to the basic financial statements.

ORC § 5705.13 and ORC § 5705.29 permit the taxing authority of a political subdivision to establish reserve balance accounts and to estimate contingent expenditures. The County's Budget Stabilization fund has a balance of \$25.3 million at December 31, 2017, and is shown as unassigned in the General Fund.

The Fiscal Officer is responsible for the investment of funds in accordance with the County's investment policy as authorized by the Investment Advisory Committee and in keeping with ORC § 135.35. Specific requirements and limitations are described in Note 7 to the basic financial statements. To maximize the County's return on investment, the Fiscal Office employs a cash management program and contracts with an investment advisory firm that systematically coordinates cash management, bank relations and the investment of surplus cash. Communications with other County agencies is integral in this process. At December 31, 2017, the County had \$40.4 million cash and investments in its General Fund and \$346.3 million for the entire reporting entity. The cash and investments balance includes the designated monies previously described.

It is the County's policy to issue long-term, fixed rate debt as a supplement to current tax revenues and fund balances for financing infrastructure and capital projects. Consistent with Ohio law, long-term debt is not issued to support current operations. The County sells bond anticipation notes instead of bonds only when market conditions dictate, or as part of a multi-step construction program. The County will consider using either a competitive process or a negotiated process when issuing bonds. Debt capacity is benchmarked against means and medians for other AA rated counties of similar size and complexity as published by Standard & Poor's and Fitch Ratings. The County's capital plan, debt obligations and debt capacity are evaluated together in an integrated manner, on an annual basis.

The County, in accordance with the General Fund Cash Balance Maintenance Policy, shall make all reasonable efforts to achieve and maintain an unrestricted cash balance in its General Fund, in an amount sufficient to provide liquidity to meet the operating cash flow needs of the County at any given period during the fiscal year. The amount of such reserve, if available, should be no less than the average past three years' total operating expenditures incurred during the first nine weeks of the fiscal year, which is approximately 17.3% of the annual operating budget.

Long-term Financial Planning The capital budgeting process utilizes a detailed five year plan. A multi-year linkage between operating and capital budgets aids in determining the impact on future spending. Particular attention is focused on extending an asset's life. A thorough preventive maintenance program is required on each project, helping to avert major or emergency repairs.

Annually, Summit County Council adopts a five year Capital Improvement Program (CIP). This five year program invests in the County's facilities and infrastructure, providing space for critical county programs and encouraging the growth and development of the County.

The County, like many local governments, faces financial challenges as the economy continues its recovery. The County has initiated some significant actions to stabilize the budget in order to maintain existing reserves and guard against any further weakening in the economy. The 2018 total budget for all funds of \$529.2 million represents an increase of 0.1% compared to 2017's final adjusted budget of \$528.6 million. In total, the County's overall annual budget remains \$46.8 million below 2008's and total appropriations within the County General Fund are nearly \$10 million less than 2008. It is currently estimated that Summit County will finish 2018 with its \$25.3 million Budget Stabilization Fund fully intact. Throughout 2018, the County will continue to take steps to eliminate duplicated services, equipment and materials, and reduce personnel costs through attrition.

Major Initiatives The County of Summit and City of Akron jointly operate an 800MHz Regional Radio System (RRS) which provides interoperable, mission critical voice and data communications for Law, Fire, EMS, Public Works, and Transportation for over 30 user agencies/communities in Summit County. The total project costs include the County and City of Akron's share for upgrading the system to an Astro P25 compliant platform by 2018, including \$9.8 million for tower and infrastructure equipment upgrades, \$2.8 million for County radio and dispatch console upgrades and \$5.7 million for City radio and dispatch console upgrades. In 2016 the County completed the financing and a substantial portion of the engineering, construction, and equipment upgrades necessary to convert the County and City continued to complete engineering, construction, and equipment upgrades necessary for this conversion. This \$18.4 million project provides a state of the art, radio communications system which allows emergency, healthcare, school district and public service employees throughout Summit County to communicate and coordinate services.

As work continues on this project through 2018, the County has begun the next phase of the planned investment into the modernization and improvement of its safety communications systems. It is anticipated that the County will need to spend several million dollars on upgrades to its combined dispatch center in the coming years as well. In 2018 the County expects to enter into an Intergovernmental Agreement with the cities of Cuyahoga Falls, Fairlawn, Green, and Stow for the acquisition, installation, and operation of a computer aided dispatch system. Throughout 2018 the County will be meeting with representatives from the cities to produce a comprehensive plan for creating a consolidated police and fire dispatch center. This center will utilize the latest communication, GIS and CAD technologies to improve upon the County's current service delivery and will be done in a way to optimize taxpayer's investment.

The 2018-2023 Capital Improvement Program includes more than \$5.6 million in various facility improvements and \$38.1 million for environmental mitigation and sanitary sewer improvements. This 2018 plan directs over \$1.1 million towards improvements into two of the County's largest and vital assets, the Summit County Courthouse and Summit County Jail, and \$2 million for the relocation of the Ninth District Court of Appeals.

Awards and Acknowledgments

Awards The Government Finance Officers Association (GFOA) awarded us the Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2016. The County has received this prestigious award for thirty-one consecutive years. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. To earn the Certificate of Achievement, the County published a readable and efficiently organized CAFR whose contents conformed to program standards and satisfied GAAP and applicable legal requirements. The Certificate of Achievement is valid for a period of one year. We believe our current CAFR continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

The Government Finance Officers Association (GFOA) presented an award of Distinguished Budget Presentation to the County for its annual budget for the year beginning January 1, 2017. This was the fifteenth consecutive year, and seventeenth year that the County has received this prestigious award. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device. This award is valid for a period of one year only.

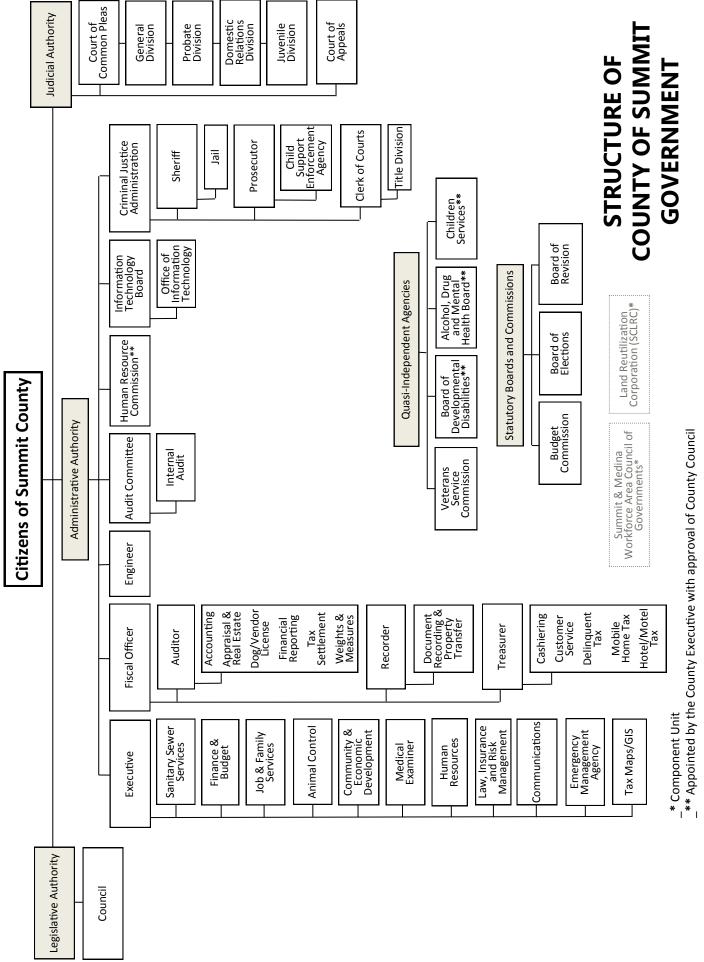

Acknowledgments The preparation of this report could not have been accomplished without the dedicated effort of the entire Fiscal Office. I especially want to thank the Financial Reporting Department who worked diligently to continue to comply with the precise guidelines established by the GFOA's award programs. Their professionalism and commitment to excellence in financial reporting added to the quality of this CAFR. I would also like to express my appreciation to each of the County's elected officials and the various County agencies for their cooperation in the preparation of this report.

Finally, I wish to thank the citizens of the County of Summit for this opportunity to continue to improve the professionalism of financial reporting for the County.

Sincerely,

1 M. Scalie

INDEPENDENT AUDITOR'S REPORT

Summit County 175 S. Main Street Akron, Ohio 44308

To the County Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and the remaining fund information of Summit County, Ohio (the County), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Summit County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units and the remaining fund information of Summit County, Ohio, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General, Job and Family Services, Children Services Board, Alcohol, Drug Addiction and Mental Health and Board of Developmental Disabilities Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Summit County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2018, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

CAFR **COMPREHENSIVE ANNUAL**

FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2017 COUNTY OF SUMMIT, OHIO

ISGAL OFFICE

1840

Re

BASIC FINANCIAL STATEMENTS

This page left blank intentionally

Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

The discussion and analysis of the County of Summit's (the "County") financial performance provides an overall review of the County's financial activities for the year ended December 31, 2017. The intent of this discussion and analysis is to look at the County's financial performance as a whole: readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

- The assets of the County plus deferred outflows of resources exceeded its liabilities plus deferred inflows of resources at the close of the year ended December 31, 2017, by \$483,135,001 (net position).
- The County's total net position decreased \$31,334,207. Net position related to governmental activities decreased \$32,058,782, which represents a decrease of 10.1 percent from 2016. Net position related to business-type activities increased \$724,575 which represents an increase of 0.4 percent from 2016.
- For governmental activities, general revenues accounted for \$209,258,856 or 48.8 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$219,535,692 or 51.2 percent of total revenues of \$428,794,548.
- The County had \$460,853,330 in expenses related to governmental activities; only \$219,535,692 of these expenses were offset by program specific charges for services, and operating grants and contributions and capital grants and contributions. General revenues (primarily taxes) of \$209,258,856 were inadequate to provide for these programs by \$32,058,782.
- Among major funds, the General Fund had \$126,543,537 in revenues and \$120,300,697 in expenditures. The General Fund's fund balance increased to \$49,147,112, an increase of \$418,237 from 2016.
- The County's total debt decreased \$11,970,184 during the current year.

Using This Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the County of Summit as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The County's basic financial statements are comprised of three components: 1) county-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The *Statement of Net Position and Statement of Activities* provide information about the activities of the County as a whole and present a long-term view of the County's finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell the reader how services were financed in the short term, as well as, what remains for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of the County, the General Fund is the most significant fund.

<u>County of Summit, Ohio</u>

Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Reporting the County as a Whole

Statement of Net Position and the Statement of Activities

The analysis of the County as a whole begins on page 10. One of the most important questions asked about the County's finances is, "How did we do financially during 2017?" The Statement of Net Position and the Statement of Activities report information about the County as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual method of accounting similar to the accounting used by most private-sector companies. This method of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net position and changes in net position. This change in net position is important because it tells the reader that, for the County as a whole, the financial position of the County has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's tax base, current property tax laws in Ohio restricting revenue growth, and other factors.

In the Statement of Net Position and the Statement of Activities, the County is divided into two distinct kinds of activities:

- Governmental Activities Most of the County's programs and services are reported here including general government, public safety, public works, and health and human services. These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- Business-Type Activities These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds, not on the County as a whole. The County's major governmental funds are: General; Job & Family Services; Children Services Board; Alcohol, Drug Addiction & Mental Health and Board of Developmental Disabilities funds. The major proprietary fund is the Sewer Revenue fund.

Governmental Funds Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on events that produce near-term inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the year. This information may be useful in evaluating a government's near-term financing requirements.

<u>County of Summit, Ohio</u> Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its General Fund. Budgetary comparison statements and schedules have been provided to demonstrate compliance.

Proprietary Funds The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for its sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its office services, self-insurance programs, workers' compensation, telephone systems, internal audit, geographic information systems and information technology.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information which can be found on pages 99-102 and combining and individual fund statements, schedules and statistical section.

Management's Discussion and Analysis For the Year Ended December 31, 2017

During 2015, the County adopted GASB Statement 68, Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27 and GASB Statement 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68, which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the standards required by GASB 68, the net pension liability equals the County's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employer enters the exchange with the knowledge that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the County's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows of resources.

<u>County of Summit, Ohio</u> Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources by \$483,135,001 (\$285,055,701 in governmental activities and \$198,079,300 in business-type activities) at the close of the most recent year. The County's financial position declined for governmental activities and improved for business-type activities.

A large portion of all of the County's net position, \$371,088,995, reflects its investment in capital assets (e.g., land, buildings, infrastructure, and machinery and equipment), less any related debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

A portion of the County's net position, \$196,498,194, represents resources that are subject to external restrictions on how they may be used. The remaining balance, unrestricted net position has a negative balance of \$84,452,188.

Prior to the implementation of GASB 68, the County was able to report positive balances in all three categories of net position, both for the County as a whole, as well as for its separate governmental and business-type activities. However, after implementation the unrestricted portion of net position now has a negative balance.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2017 and 2016.

This space intentionally left blank.

Governmental Activities

Governmental activities decreased the County's net position by \$32,058,782, thereby accounting for a 10 percent decrease from the prior year. Key elements of this decrease are as follows:

- Decreases in sales tax revenue of \$836,982 are the direct result of decreased consumer spending.
- General revenues as a whole increased \$4,195,802 (2 percent). This was primarily due to the increase in property tax revenues and unrestricted contributions.
- Program expenses as a whole increased \$34,317,643 (8 percent). Although the expenses for public works (\$104,154) decreased, they were offset by the increases in expenses for economic development (\$690,582), public safety (\$10,058,667), legislative and executive (\$4,931,478), human services (\$2,659,515), judicial (\$5,378,337), health (\$10,251,341), recreation (\$152,144) and interest and fiscal charges (\$299,733).

Business-Type Activities

Business–type activities increased the County's net position by \$724,575, accounting for a less than 1 percent increase from the prior year. The key element for this net increase was the decrease in expenses (\$1,953,683).

Financial Analysis of the Government's Funds

As discussed previously, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a county's net resources available for spending at the end of the year.

As of the end of the current year, the County's governmental funds reported combined ending balances of \$228,246,992, a decrease of \$7,948,964 in comparison with the prior year. Approximately 19 percent of this total amount of \$42,292,371 constitutes unassigned fund balance, which is available for appropriation at the government's discretion within certain legal constraints and purpose restrictions. The remainder of the fund balance is reserved as nonspendable \$5,879,999, restricted \$174,128,852, and assigned \$5,945,770.

The General Fund is the chief operating fund of the County. The fund balance of the County's General Fund increased \$418,237 during the current year to \$49,147,112. The unassigned fund balance of the General Fund was \$42,292,371. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 35 percent of total General Fund expenditures, while total fund balance represents 41 percent of that same amount. Revenues exceeded expenditures by \$6,242,840 due to increases in property taxes, other taxes, intergovernmental revenues and investment income.

Transfers from the General Fund to other governmental and proprietary funds, amounted to \$5,824,646 and are discussed in Note 19.

<u>County of Summit, Ohio</u> Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Job and Family Services fund balance increased by \$1,274,720. The increase in fund balance is due to revenues and other financing sources exceeding expenditures and other financing uses. Funds were drawn for the Ohio Works Incentive Program but not yet spent at the end of the year.

Children Services Board fund balance decreased by \$2,038,561. This decrease is primarily due to reduced State funding for Child Protection Allocations and increased healthcare and placement costs.

The Alcohol, Drug Addiction and Mental Health fund balance decreased by \$1,872,176. This decrease is primarily due to increased contract costs for services that were accounted for as part of the six year levy plan.

The Board of Developmental Disabilities fund balance decreased \$2,464,196. This decrease in fund balance is primarily the result of the Board ceasing to act as a service provider.

Enterprise Funds The County's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

Unrestricted net position for the Sewer Revenue Fund at the end of the year amounted to \$29,272,332. The increase in net position was primarily due to capital contributions for donated sewer lines and decreased operating expenses.

Budgetary Highlights

The County's budgeting process is prescribed by the Ohio Revised Code. Essentially, the budget is the County's appropriations, which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the Ohio Revised Code. Therefore, the County's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted, accordingly. All elected officials worked closely with the County Council to reduce, maintain, or hold down increases in departmental expenditures.

The most significant budgeted fund is the General Fund. For calendar year 2017, the total original appropriations for the General Fund, including those for transfers out, were \$113,209,180, while the final appropriations were \$111,833,733, resulting in a net decrease of \$1,375,447 or 1 percent. The net decrease in appropriations for the General Fund was primarily due to decreases in utility costs.

Final General Fund appropriations for 2017 were lower than the final 2016 appropriations by \$2,524,548 or 2 percent, and less than 1 percent higher than actual 2016 budgetary basis expenditures. Variances between the final budget and actual results for the General Fund by functional classification are described as follows:

- Actual general government expenditures were \$1,087,925 or 2 percent lower than budgeted. All of the general government departments had positive variances.
- Actual public safety expenditures were \$255,468 lower than budgeted.
- Actual human services expenditures were \$463,385 or 12 percent lower than budgeted, primarily due to reductions in Subsidies in the Veterans Service Commission.

Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Capital Asset and Debt Administration

Capital Assets The County's investment in capital assets, for its governmental and business-type activities as of December 31, 2017 amounts to \$447,003,086 (net of accumulated depreciation). The investment in capital assets includes land, construction in progress, buildings and building improvements, land improvements, machinery and equipment, pump stations, treatment plants, sewer lines, infrastructure and intangibles.

Table 3Capital Assets at December 31Net of Accumulated Depreciation

* Beginning balances reflect a reclassification of Building and Building Improvements to Machinery and Equipment.

The increase in total capital assets of \$4,592,786 can be attributed to current year additions and accumulated depreciation on disposals exceeding disposals and depreciation expense. Additional information on the County's capital assets can be found in Note 11 of the Notes to Financial Statements.

Management's Discussion and Analysis For the Year Ended December 31, 2017 Unaudited

Long-term Debt At the end of the current fiscal year, the County had total bonded debt outstanding of \$87,589,531, net of the outstanding premium. The County's long-term bonded debt decreased \$11,201,023 (11 percent) during the current fiscal year.

Table 4 Long-term Debt

	2017	2016	2017	2016	2017	2016		
General Obligation Bonds	\$ 68,394,754	\$ 74,969,754	\$ 18,745,246	\$ 23,165,246	\$ 87,140,000	\$ 98,135,000		
Capital Appreciation Bonds	449,531	655,554	-	-	449,531	655,554		
ODD Loans	-	-	29,458	29,458	29,458	29,458		
OPWC Loans	-	-	489,007	603,292	489,007	603,292		
OWDA Loans			9,271,009	9,925,885	9,271,009	9,925,885		
Total	\$ 68,844,285	\$ 75,625,308	\$ 28,534,720	\$ 33,723,881	\$ 97,379,005	\$ 109,349,189		

The County's outstanding uninsured general obligation bonds are currently rated "AA+" by Standard & Poor's Rating Services, "Aa1" by Moody's Investors Service, and "AA+" by Fitch Ratings. Certain of the County's general obligation bonds are insured by National Public Finance Guarantee ("National") (formerly known as Financial Guaranty Insurance Company ("FGIC")). National is currently rated "AA-" by Standard & Poor's Rating Services and "A3" by Moody's Investors Service, and as a result the County's underlying bond ratings take precedence as the effective rating basis. State statute limits the total amount of debt a government entity may issue. The current direct debt limitation for the County is \$289,352,551, which is significantly higher than the County's outstanding net debt.

In addition to the bonded debt, the County's other long-term obligations include compensated absences, insurance claims, capital leases and net pension. Additional information on the County's long-term debt can be found in Note 17 of this report. Notes 12, 14 and 15 discuss pensions, capital leases and compensated absences, respectively.

Economic Factors and Next Year's Budgets and Rates

The average unemployment rate for the County for 2017 is 5.1 percent, which is comparable to the rate of 5.0 percent a year ago. This rate is comparable to both the State's average unemployment rate of 5.0 percent and the national average of 4.4 percent.

Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for 2018. At the end of the 2017 fiscal year, the unassigned fund balance in the General Fund amounted to \$42,292,371.

Requests for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in its finances and to show the County's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the County of Summit Fiscal Office, 175 South Main Street – Suite 400, Akron, Ohio 44308-1354.

Note 1. Reporting Entity

The County of Summit (the "County") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the Constitution and laws of the State of Ohio (the "State"). The County was formed by an enabling act of the Ohio State Legislature in 1840. The County operates under a council-executive form of government, as provided by its charter, which is also known as a Home Rule Charter. Per the Charter, there are 11 elected County Council members and a County Executive. The County Fiscal Officer is the chief fiscal officer. In addition, there are four other elected administrative officials, each of whom is independent as set forth in Ohio Law. These officials are the Clerk of Courts, Engineer, Prosecutor, and Sheriff. There are also ten Common Pleas Court Judges, two Domestic Relations Court Judges, one Juvenile Court Judge, and one Probate Court Judge.

A reporting entity is comprised of the primary government, component unit and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of funds, departments, boards and agencies that are not legally separate from the County. For the County of Summit, this includes the Children Services Board (CSB), Board of Developmental Disabilities (BDD), Alcohol, Drug Addiction & Mental Health Services Board (ADAMHS), Job & Family Services (JFS), and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; or (3) the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt, or the levying of taxes or whose relationship with the County is such that to exclude their activity would be misleading. Based on the criteria described, the County has two component units. The component unit columns in the basic financial statements identify the financial data of the County's two component units and the component units are also presented in Notes 25 and 26 to the basic financial statements.

The Summit County Land Reutilization Corporation (SCLRC) is legally separate from the County. The SCLRC is a county land reutilization corporation that was formed on June 4, 2012 when the Summit County Council authorized the incorporation of the SCLRC under Chapter 1724 of the Ohio Revised Code through resolution number 2012-214 as a not-for-profit corporation under the laws of the State of Ohio. The purpose of the SCLRC is to strengthen neighborhoods in the County by returning vacant and abandoned properties to productive use. The Corporation has been designated as the County's agent to further its mission to reclaim, rehabilitate and reutilize vacant, abandoned, tax foreclosed and other real property in the County under Chapter 5722 of the Ohio Revised Code.

Pursuant to Section 1724.03 (B) of the Ohio Revised Code, the Board of Directors of the SCLRC shall be composed of seven members including, (1) the County Fiscal Officer, (2) the County Executive, (3) a member of the County Council, (4) one representative of the City of Akron, as the municipal corporation in Summit County with the largest population, based on the population according to the most recent federal decennial census, (5) one representative of a township with a population of greater than ten thousand based on the population according to the most recent federal decennial census, (6) two additional members selected by the Fiscal Officer, Executive and Council Representative. The County appoints a majority of the SCLRC Board and the County is able to impose its will on the SCLRC. The SCLRC qualifies as a discretely presented component unit and is presented in Note 25 to the basic financial statements. Separately issued financial statements can be obtained from the Summit County Land Reutilization Corporation, 1180 S. Main St., Suite 230, Akron, Ohio 44301.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

The Summit and Medina Workforce Area Council of Governments (the COG) is legally separate from the County. The COG is a council of governments that was formed on November 1, 2016 when, pursuant to chapter 167 of the Ohio Revised Code, the necessary intergovernmental agreement was filed with the Ohio Auditor of State. The purpose of the COG is to administer the public workforce development system in Local Workforce Area 2. The COG receives and administers funds designated for Workforce Area 2 from the federal government under the Workforce Innovation Opportunities Act and from the State of Ohio under the Ohio Works Incentive Program and Workforce Innovation Fund.

Pursuant to Section 167.02 of the Ohio Revised Code and the Intergovernmental Agreement forming the COG, the Board of Directors of the COG shall be composed of the County Executive on behalf of Summit County and one Medina County Commissioner elected by the Medina County Commissioners. The COG Directors appoint the members of the Workforce Development Board, pursuant to 29 USC Section 3122, who are then responsible to monitor performance of the workforce development system. The COG qualifies as a discretely presented component unit and is presented in Note 26 to the basic financial statements. Separately issued financial statements can be obtained from the Summit and Medina Workforce Area Council of Governments, 175 S. Main St., Akron, Ohio 44308.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the County's accounting policies are described below.

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, deferred outflows of resources, liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

General - This fund accounts for the general operating revenues and expenditures of the County not recorded elsewhere. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio. The primary revenue sources are property taxes, sales and use tax, charges for services, intergovernmental revenues and investment income.

Job & Family Services – This fund accounts for various federal and state grants as well as transfers from the General fund used to provide public assistance to general relief recipients, medical assistance and certain public social services.

Children Services Board - This fund accounts for countywide property tax levy, federal and state grants and reimbursements used for County child care programs. State law restricts the expenditure of these resources to programs designed to aid children from troubled families. Major expenditures are for foster homes, emergency shelters, medical costs, counseling and parental training.

Alcohol, Drug Addiction & Mental Health Services - This fund accounts for countywide property tax levy, federal and state grants that are extended primarily to pay the costs of contracts with local mental health agencies which provide services to the public at large including mental health and alcohol and drug programs.

Board of Developmental Disabilities - This fund accounts for a countywide property tax levy, federal and state grants and reimbursements used for care and services for the mentally handicapped and developmentally disabled.

The other governmental funds of the County account for grants and other resources to which the County is bound to observe constraints imposed upon the use of the resources.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds - These funds are used to account for operations that provide services, which are financed primarily by user charges, or activities where periodic measurement of income is appropriate for capital maintenance, public policy, management control or other purposes. These funds account for the provision of sewer services to external users throughout the County. All activities necessary to provide such services, including capital projects and debt financed by user charges, are accounted for in these funds. Sewer Revenue funds are reported as major funds of the County.

Internal Service Funds – Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service funds are: Office Services, Medical Self-Insurance, Workers' Compensation, Telephone Services, Internal Audit, Geographic Information Systems and Information Technology.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The County only maintains agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The County's agency funds are primarily established to account for the collection of various taxes, as well as other intergovernmental resources that will be distributed to other taxing districts located within the County of Summit.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the County are included on the Statement of Net Position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities and current deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Agency funds do not report a measurement focus as they do not report operations.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements, proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and deferred outflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Nonexchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. The availability period used for the recognition of revenue is sixty days.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 8) Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: sales and use tax (See Note 9), investment income, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Deferred Inflows of Resources and Deferred Outflows of Resources A deferred inflow of resources is an acquisition of assets by the County that is applicable to a future reporting period. A deferred outflow of resources is a consumption of assets by the County that is applicable to a future reporting period. For the County, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 12.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes, pension and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2017, but which were levied to finance 2018 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes delinquent property taxes, special assessments, charges for services, fines and forfeitures, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 12)

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are required by law to be budgeted and appropriated. The legal level of budgetary control is at the object level within each department. Although statutory law requires that all funds be budgeted, it is not necessary to do so if the County Budget Commission does not anticipate any cash activity for certain funds. Budgetary modifications may only be made by resolution of County Council.

Tax Budget A budget of estimated revenues and expenditures is submitted to the County of Summit Fiscal Officer, by July 20 of each year, for the period January 1 to December 31 of the following year.

Estimated Resources The County Budget Commission reviews estimated revenues and determines if the budget substantiates a need to levy all or part of previously authorized taxes. The Commission certifies its actions to the County by September 1. As part of this certification, the County receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. On or about January 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be amended further during the year if the County of Summit Fiscal Officer determines, and the Budget Commission agrees, that an estimate needs to be increased or decreased.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during 2017.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Appropriations A temporary resolution to control expenditures may be passed on or around January 1 of each year for the period January 1 to March 31. An annual appropriation resolution must be passed by April 1 of each year for the period January 1 to December 31. Each County department, in conjunction with the Department of Finance & Budget, prepares a budget that is approved by County Council. Throughout the year modifications and amendments to the original budget must be processed by the Department of Finance & Budget and approved through legal resolution by County Council. Each revised budget includes all modifications and supplemental appropriations that were necessary during the year. The County maintains budgetary control by fund, function, organizational unit, and object class and does not permit expenditures/expenses and encumbrances to exceed appropriations.

Lapsing Of Appropriations At the close of each year, unencumbered appropriations in annually budgeted funds revert to the respective fund from which they were appropriated and become subject to future appropriation. As required by State of Ohio law, the Delinquent Tax Assessment Collection fund must rollover the unexpended appropriations at the end of the year.

Deposits and Investments

To improve cash management, cash received by the County is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the County's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements. The County has segregated bank accounts for monies held separate from the County's central bank account. These monies are presented in the financial statements as "Cash and Investments -Segregated Accounts" since they are not required to be deposited into the County treasury.

The County utilizes a jointly governed organization Northeast Ohio Network (NEON), see Note 20, to service mentally disabled and developmentally disabled residents within the County. The balance in this account is presented as "Cash With Fiscal Agent" and represents the monies held for the County.

During 2017, investments were limited to Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Bonds, Federal Farm Credit Bank, Federal National Mortgage Association, Government Treasury Certificates, Foreign Government Bonds, Repurchase Agreements and Money Market Funds.

The County has the ability and the intent to hold all investments to maturity. County policy requires interest earned on investments to be credited to the General Fund except where there is a legal requirement that the interest income follow the principal. Any increase or decrease in fair value is reported as a component of interest income. Interest revenue credited to the general fund during 2017 amounted to \$2,869,151, which includes \$2,122,067 assigned from other County funds.

Equity in Pooled Cash and Investments include all liquid deposits and investments with maturity of three months or less when deposited or purchased.

Materials and Supplies Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the enterprise fund are expensed when used.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2017, are recorded as prepaid items, using the allocation method by recording a current asset for the prepaid amount and reflecting the expenditure in the year in which services are consumed. Prepaid items of governmental funds are recognized when incurred (purchases method).

Capital Assets and Depreciation

Capital assets, including property, plant, equipment and infrastructure assets, are those assets, which are associated with and generally arise from governmental activities. Capital assets generally result from expenditures in the governmental funds. Capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements, except for internal service funds, which are reported in both. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide statement of net position and in the fund financial statements.

In the case of the initial capitalization of general infrastructure assets, associated with governmental activities, the County chose to include all such items regardless of their acquisition date or amount. The County was able to estimate the historical cost for the initial reporting of these assets by estimating the current replacement cost of the infrastructure to be capitalized and using a price index to adjust the cost to the acquisition or estimated acquisition year. Capital assets, including infrastructure, are capitalized at cost (or estimated historical cost). Donated capital assets are recorded at acquisition value at the date of donation. Capital assets are defined as assets with an individual cost of \$5,000 and an estimated useful life in excess of one year. The County's infrastructure consists of roads, bridges, culverts and similar items. Improvements are capitalized, while the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise fund is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following estimated useful lives:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives	Estimated Lives
Land Improvements	15 Years	N/A
Buildings and Building Improvements	40 Years	35 Years
Machinery and Equipment	3 - 7 Years	15 Years
Intangibles	3 Years	N/A
Infrastructure	20 - 50 Years	N/A
Pump Stations	N/A	25 Years
Treatment Plants	N/A	25 Years
Sewer Lines	N/A	75 Years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due To/From Other Funds". These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

The liability for compensated absences is based on the provisions of GASB Statement No. 16, "Accounting for Compensated Absences" as interpreted by Interpretation No. 6 of the GASB, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

The entire compensated absence liability is recorded on the government-wide financial statements. For governmental funds, the County records a liability for accumulated, unused, vacation time when earned for all employees with more than one year of service. The County records a liability for accumulated, unused, sick leave for eligible employees in the period in which the employee becomes eligible to receive payment. The current portion of unpaid compensated absences is the expected amount to be paid using expendable available resources, and is reported in the governmental funds only if they have matured, as a result of resignations or retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The non-current portion of the liability is not reported. In the proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-Term Obligations

County payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported in the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities, once incurred, are paid in a timely manner and in full from current financial resources and are reported as obligations of the funds. However, claims, judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability in the governmental fund financial statements when due.

Pensions

For purposes of measuring the net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amounts of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditor (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of County Council. Those committed amounts cannot be used for any other purpose unless the County Council removes or changes the specific use by taking the same type of action (resolution) it employed to previously commit those amounts. Constraints imposed on the use of committed amounts are imposed by County Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balances represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the County Commission. The County Council has by resolution authorized the fiscal officer to assign fund balance. The County Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classification could be used.

Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of those assets or related debt are also included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenditures not meeting these definitions are classified as Nonoperating.

Contributions of Capital

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction from governmental activities.

Interfund Activity

During the normal course of operations, the County has numerous transactions between funds. These transactions include charges for services provided by one fund to other funds and transfers, which represent transfers of resources from a fund receiving revenue to a fund through which those resources will be expended. Transfers are recorded as other financing sources (uses) in governmental funds and transfers in (out) in the proprietary funds.

Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Grants and other Intergovernmental Revenues

Local Government fund revenues are recorded as receivables and revenues when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and state reimbursement type grants for the acquisition or construction of capital assets are recorded as receivables and contributed capital when the related expenses are incurred. All other federal and state type grants are recorded as receivables and revenues when the related expension of expenses are incurred.

Note 3. Changes in Accounting Principles

For the year ended December 31, 2017, the County has implemented Governmental Accounting Standards Board GASB Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans", GASB Statement No. 80, "Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14", GASB Statement No. 81, "Irrevocable Split-Interest Agreements" and GASB Statement No. 82, "Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73". The implementation of these statements did not have an effect on the financial statements of the County.

GASB Statement No. 74 improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency.

GASB Statement No. 80 improves financial reporting by clarifying the financial statement presentation requirements for certain component units. It amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member.

GASB Statement No. 81 improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

GASB Statement No. 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Note 4. Fund Balance

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources. The constraints placed on the fund balance for the major governmental funds and all other governmental funds are presented below.

Fund Balances	General	Job and Family Services	Children Services Board	Alcohol, Drug Addiction and Mental Health	Board of Developmental Disabilities	Other Governmental Funds	Total
Nonspendable							
Inventory	\$ 169,947	\$ 30,522	\$-	\$-	\$ 132,147	\$ 1,408,396	\$ 1,741,012
Prepaids	307,829	274,530	179,309	101,527	212,780	130,275	1,206,250
Unclaimed Funds	2,932,737						2,932,737
Total Nonspendable	3,410,513	305,052	179,309	101,527	344,927	1,538,671	5,879,999
Restricted							
Job and Family	-	188,934	-	-	-	934,776	1,123,710
Children Services	-		23,815,308	-	-	-	23,815,308
Mental Health	-	-		45,898,862	-	-	45,898,862
Health	-	-	-		59,501,084	-	59,501,084
Social Services	-	-	-	-	-	15,757,454	15,757,454

Note 5. Deficit Net Position

At December 31, 2017, the internal service funds: Office Services, Telephone Services, Internal Audit, Geographic Information Systems and Information Technology had deficit net position of \$138,422, \$381,021, \$622,224, \$363,254 and \$1,802,161, respectively. The deficit net position occurred due to the recognition of liabilities applicable to accrued payables. The general fund is liable for any deficits in these funds and will provide transfers when cash is required, not when accruals occur.

Note 6. Budgetary Basis of Accounting

While reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP Basis) and Actual are presented in the basic financial statements for the General Fund and Major Special Revenue Funds. The major differences for those funds between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/Expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Outstanding year-end encumbrances are treated as expenditures/expenses (budget) rather than as restricted or assigned fund balance for governmental fund types (GAAP).
- 4. Some funds are included in the General Fund (GAAP), but have separate legally adopted budgets.

The adjustments necessary to convert the results of operations for the year from the Non-GAAP Budget Basis to the GAAP Basis for the governmental funds are as follows:

1.5.1

Net Change in Fund Balance General and Major Special Revenue										
		General	Job and Family Services		Children Services Board		Alcohol, Drug Addiction and Mental Health		Board of Developmenta Disabilities	
Budget Basis	\$	(2,627,216)	\$	(1,568,304)	\$	(8,713,539)	\$	(8,696,052)	\$	(9,909,630)
Net Adjustments for Revenue Accruals		19,213,482		378,339		433,354		358,464		3,250,766
Net Adjustments for				,		,		,		
Expenditure Accruals		(16,168,029)		2,464,685		6,241,624		6,465,412		4,194,668
GAAP Basis	\$	418,237	\$	1,274,720	\$	(2,038,561)	\$	(1,872,176)	\$	(2,464,196)

Note 7. Deposits and Investments

The County maintains a cash and investment pool that is available for use by all fund types, general, special revenue, debt service, capital projects, enterprise, internal service and agency. Each fund type's portion of the pool is presented on the financial statements as "Equity in Pooled Cash and Investments."

Custodial Credit Risk – Deposits Pursuant to O.R.C. 135.181, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 105% of the public funds deposited. At least quarterly, the County determines the collateral has a market value adequate to cover deposits. Collateral is held by trustees, including the Federal Reserve Bank and designated third party trustees, of the financial institutions.

At December 31, 2017, the carrying amount of the County's deposits was \$45,328,124 and the bank balance was \$59,276,697. The difference in the carrying amount and the bank balance were items in transit. Of the bank balance:

\$2,328,334 was covered by federal depository insurance.

\$56,948,363 was held in a public fund collateral pool by third party trustees pursuant to Section 135.181, Ohio Revised Code. Although all statutory requirements for the deposit of money had been followed, under GASB Statement No. 3, this money is considered uninsured and uncollateralized.

Investments – The County Council and the County Investment Advisory Board has approved its investment policy and has filed the policy with the Auditor of State, pursuant to Ohio Revised Code 135.35. The County is authorized to invest in U.S. Treasury Bills; Notes; Bonds; various federal agency securities including issues of the Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Student Loan Marketing Association (SLMA), Government National Mortgage Association (GNMA), and other agencies or instrumentalities of the United States. Eligible investments include securities that may be purchased at premium or a discount.

All federal agency securities shall be direct issuances of the federal government agencies or instrumentalities. Commercial paper and banker acceptances rated in the highest category by a nationally recognized rating agency and must mature within 180 days. Commercial paper and corporate notes, if invested in, must mature within 270 days. The County may invest in Certificates of deposits from eligible institutions and no-load money market funds rated in the highest category by a nationally recognized rating agency. The County may invest in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States governments. The debt interests must be backed by the full faith and credit of that foreign nation, there is no prior history of default, and the debt interest matures not later than five years after purchase. The County may also invest in repurchase agreements and securities lending agreements and the State Treasurer's Investment pool.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited by the County investment policy. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited by the County investment policy. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Interest Rate Risk – The market value of securities in the County's portfolio will increase or decrease based upon changes in the general level of interest rates. Maintaining adequate liquidity so that current obligations can be met without a sale of securities and diversification of assets will minimize the effects of the market value fluctuations.

Credit Risk – Credit risk will be minimized by diversifying assets by the issuer and ensuring that required minimum credit quality ratings exist prior to the purchase of commercial paper and bankers' acceptances and maintaining adequate collateralization of CD's pursuant to the method as determined by the Chief Fiscal Officer. The County's investment in various federal agencies; FNMA, FHLMC, FHLB and FFCB were rated AAA by both Standard and Poor's and Moody's Investor Services.

	Measurement				
Investment Type	Amount	Less Than 1	1 - 3	4 - 5	Portfolio %
U.S. Treasury Notes	\$ 16,139,667	\$ 164,655	\$ 4,277,982	\$ 11,697,030	5.37%
U.S. Agencies	250,393,962	74,961,026	119,122,752	56,310,184	83.32%
Money Market Mutual Funds	30,115,678	30,115,678	-	-	10.02%
Foreign Government Bonds	3,888,719	1,298,271	2,590,448	-	1.29%
Repurchase Agreements					0.00%
Total Fair Value	\$ 300,538,026	\$ 106,539,630	\$ 125,991,182	\$ 68,007,214	100.00%

As of December 31, 2017, the County had the following investments:

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the County's recurring fair value measurements as of December 31, 2017. The repurchase agreements are reported at cost. All other investments of the County are valued using quoted market prices (Level 1 inputs).

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's custodial credit risk policy is stated in the Investments policy described above.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in any one issuer. See the investment concentration percentages in the table above.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

A reconciliation of cash and investments as shown on the financial statements is as follows:

Cash on Hand	\$ 423,714	Equity in Pooled Cash and Investments				
Carrying amount of Deposits	45,328,124	Governmental Activities	\$	228,420,916		
Fair Value of Investments	300,538,026	Business-Type Activities 23,646,192				
		Agency Funds		71,651,903		
					\$	323,719,011
		Cash and Cash Equivalents in Segregated Accounts				17,443,269
		Cash with Fiscal Agent				5,127,584
Total	\$ 346,289,864	Total			\$	346,289,864

Cash with Fiscal Agent – In addition to deposits and investments, the County has uninsured and uncollateralized cash in the amount of \$5,127,584. NEON, a jointly governed organization (See Note 20), holds \$4,982,388 of these funds and KeyBank holds \$145,196.

Cash Deficits – Certain disbursements for accounts within various funds have been made from the "Equity in Pooled Cash and Investments" account in excess of their individual equities. The balance of these amounts has been reported in the balance sheet and the statement of net position (proprietary funds) as "Due To/From Other Funds." The following funds had deficit cash balances:

Fund	Cas	Cash Deficit			
Internal Service Funds:					
Office Services	\$	65,069			
Telephone Services		35,740			
Internal Audit		88,809			
	\$	189,618			

Note 8. Property Taxes

Property taxes include amounts levied against all real, public utility property located in the County. Property tax revenue received during 2017 for real and public utility property taxes represents collections of the 2016 taxes.

Real property taxes for 2017 were levied after October 1, 2017 on the assessed value as of January 1, 2017, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2017 real property taxes are collected in and intended to finance 2018.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2017 public utility property taxes which became a lien December 31, 2016, are levied after October 1, 2017, and are collected in 2018 with real property taxes.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phased out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property was eliminated in calendar year 2009, and the tax on telephone and telecommunications property was eliminated in calendar year 2010. The tax was phased out by reducing the assessment rate on the property each year. The bill replaced the revenue lost by the County due to the phasing out of the tax. In calendar years 2006-2010, the County was fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements are being phased out. On June 30, 2011, House Bill No. 153 was signed into law, which further reduced the amounts of these reimbursements.

The assessed value upon which the 2016 taxes collected in 2017 was \$11,634,102,030. The full tax rate for all County operations applied to real property for fiscal year ended December 31, 2017, was \$12.70 per \$1,000 of assessed valuation. The assessed values of real and tangible personal property upon which 2016 property tax receipts were based are as follows:

Real Property	\$ 11,174,943,070
Public Utility	459,158,960
Total Assessed Value	\$ 11,634,102,030

Real property taxes are payable annually or semi-annually. If paid annually, payment is due January 20; if paid semi-annually, the first payment is due January 20 with the remainder payable by June 20. Under certain circumstances, state statute permits earlier or later payment dates to be established.

The County Fiscal Officer collects property taxes on behalf of all taxing districts within the County. The County Fiscal Officer - Auditor's Division periodically remits to the taxing districts their portions of the taxes collected. Collection of the taxes and remittance of them to the taxing districts are accounted for in various funds of the County.

Property taxes receivable represents delinquent taxes and outstanding real property and public utility taxes, which were measurable at December 31, 2017. Total property tax collections for the next fiscal year are measurable amounts. However, since these revenue collections to be received during the available period are not subject to reasonable estimation at December 31, nor are they intended to finance 2017 operations, the receivable is offset by a credit to Deferred Inflow of Resources.

Note 9. Sales and Use Tax

For the purpose of providing additional revenues, the County has levied a tax at the rate of one-half of one percent upon certain retail sales and upon the storage, use, or consumption of tangible personal property within the County. This levy is in addition to the five and three quarters percent statewide sales tax levy. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the Ohio Department of Budget and Management (OBM) the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five (45) days after the end of each month. The OBM then has five (5) days in which to draw the warrant payable to the County.

Proceeds of the tax are credited entirely to the General Fund. Amounts that have been collected by the State and are to be received within sixty days of year-end are accrued as revenue, as measurable and available. A receivable is recognized at year-end for amounts that will be received from sales, which occurred during 2017. On a full accrual basis, the full amount of the receivable is recognized as revenue. On a modified accrual basis, the amount of the receivable of the available period is a deferred inflow of resources. As of December 31, 2017, sales tax revenues amounted to approximately \$46.4 million.

Note 10. Receivables

Receivables, at December 31, 2017, consisted of taxes, accounts (billing for user charged services, including unbilled utility services), special assessments, accrued interest, loans and intergovernmental receivables arising from grants, entitlements, and shared revenues. The County has implemented GASB No. 38 "Certain Financial Statement Note Disclosures" which modifies disclosure requirements related to the summary of significant accounting policies. The County of Summit presents receivables on the statement of net position and the balance sheet as disaggregated major components; therefore, full note disclosure is not required. Special assessments, accrued interest and intergovernmental receivables are deemed collectible in full. Delinquent accounts receivable may be certified and collected as a special assessment, subject to foreclosure for nonpayment. The County has \$4,309,099 in current special assessments at December 31, 2017, of that amount \$3,119,641 is delinquent and an allowance has been provided.

The County applies the provisions of GASB No. 6 in accounting for and reporting special assessments and related transactions. The County's special assessments are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Accordingly, they are accounted for and reported in the government-wide financial statement as governmental or business-type activities based on the purpose of the assessment. Long-term special assessments expected to be collected in more than one year amount to \$1,174,268 in the Business-type activities column.

In prior years the County issued debt for various sewer projects that involve Summit, Stark and Portage counties and other local communities. Stark and Portage counties, the City of Akron and the Village of Silver Lake have agreed to repay a portion of the debt for these projects. The County has recorded an intergovernmental loan receivable at December 31, 2017 in the amount of \$1,426,407.

The County sold the Hudson Water System to the City of Akron in December, 2006 for \$6,454,845. The value of the system shall be held as a credit for the County and shall be used by the County to purchase certain sewer infrastructure owned by the City. As of December 31, 2017, the balance is still outstanding.

The County sold the portion of the sanitary sewer system located within the City of Norton to the City of Barberton in January, 2016 for \$1,750,000. The County has recorded an intergovernmental loan receivable at December 31, 2017 in the amount of \$1,400,000.

During 2016, the County has entered into a lease with the City of Akron for the city's portion of the 800 Mhz Radio System Upgrade. The County issued general obligation bonds for the project and the City of Akron is paying for their portion through a lease with the County. As part of the agreements, the City of Akron was entitled to their portion of premium on the bond issuance which amounted to \$944,470. The County is allowing the City of Akron to use this as a credit against their first three lease payments. The County has recorded this intergovernmental lease receivable at December 31, 2017 in the amount of \$10,110,000.

Note 11. Capital Assets

Capital asset activity for the year ended December 31, 2017, was as follows:

	Beginning Balance		Additions/ Transfers		Deletions/ Transfers		Ending Balance	
Governmental Activities

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Note 12. Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the County's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in Due to Other Governments on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - County employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. County employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after
after January 7, 2013	ten years after January 7, 2013	January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 60 with 60 months of service credit	Age 60 with 60 months of service credit	Age 57 with 25 years of service credit
or Age 55 with 25 years of service credit	or Age 55 with 25 years of service credit	or Age 62 with 5 years of service credit
Formula:	Formula:	Formula:
2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of
service for the first 30 years and 2.5%	service for the first 30 years and 2.5%	service for the first 35 years and 2.5%
for service years in excess of 30	for service years in excess of 30	for service years in excess of 35
Public Safety	Public Safety	Public Safety
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 48 with 25 years of service credit	Age 48 with 25 years of service credit	Age 52 with 25 years of service credit
or Age 52 with 15 years of service credit	or Age 52 with 15 years of service credit	or Age 56 with 15 years of service credit
Law Enforcement	Law Enforcement	Law Enforcement
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 52 with 15 years of service credit	Age 48 with 25 years of service credit	Age 48 with 25 years of service credit
	or Age 52 with 15 years of service credit	or Age 56 with 15 years of service credit
Public Safety and Law Enforcement	Public Safety and Law Enforcement	Public Safety and Law Enforcement
Formula:	Formula:	Formula:
2.5% of FAS multiplied by years of	2.5% of FAS multiplied by years of	2.5% of FAS multiplied by years of
service for the first 25 years and 2.1%	service for the first 25 years and 2.1%	service for the first 25 years and 2.1%
		for service years in excess of 25

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost-of-living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

For those who retired prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index (CPI), capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State		Public		Law	
	and Loca	1	Safety		Enforcem	ent
2017 Statutory Maximum Contribution Rates						
Employer	14.00	%	18.10	%	18.10	%
Employee	10.00	%	*		**	
2017 Actual Contribution Rates						
Employer:						
Pension	13.00	%	17.10	%	17.10	%
Post-Employment Health Care Benefits	1.00	%	1.00	%	1.00	%
Total Employer	14.00	%	18.10	%	18.10	%
Employee	10.00	%	12.00	%	13.00	%

* This rate is determined by OPERS' Board and has no maximum rate established by ORC.

** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$19,468,246 for 2017. Of this amount, \$404,905 is reported as Due to Other Governments.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The County participates in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS therefore has included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory employer rate is 14 percent and the statutory member rate is 14 percent of covered payroll effective July 1, 2016. The County was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The 2017 contribution rates were equal to the statutory maximum rates.

The County's contractually required contribution to STRS was \$103,993 for 2017. Of this amount \$1,929 is reported as Due to Other Governments.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. STRS net pension liability was measured as of June 30, 2017, and total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

	 OPERS	 STRS	 Total
Proportion of the Net Pension Liability:			
Current Measurement Period	1.15005309%	0.00711251%	
Prior Measurement Period	1.16224880%	0.00690109%	
Change in Proportion	 -0.01219571%	 0.00021142%	
Proportionate Share of the Net			
Pension Liability	\$ 261,157,501	\$ 1,689,592	\$ 262,847,093
Pension Expense	\$ 54,113,278	\$ (796,275)	\$ 53,317,003

Other than contributions made subsequent to the measurement date and differences between projected and actual earnings on investments; deferred inflows/outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions, determined as of the beginning of the measurement period. Net deferred inflows/outflows of resources pertaining to the differences between projected and actual investment earnings are similarly recognized over a closed five year period. At December 31, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 OPERS	 STRS	 Total
Deferred Outflows of Resources			
Net Difference between Projected and Actual			
Earnings on Pension Plan Investments	\$ 38,892,378	\$ 0	\$ 38,892,378
Differences between Expected and			
Actual Experience	353,978	65,242	419,220
Changes of Assumptions	41,422,731	369,532	41,792,263
Changes in Proportionate Share	286,917	37,220	324,137
County Contributions Subsequent			
to the Measurement Date	 19,468,246	 54,632	 19,522,878
Total Deferred Outflows of Resources	\$ 100,424,250	\$ 526,626	\$ 100,950,876
Deferred Inflows of Resources			
Differences between Expected and			
Actual Experience	\$ 1,554,268	\$ 13,618	\$ 1,567,886
Net Difference between Projected and Actual			
Earnings on Pension Plan Investments	0	55,756	55,756
Changes in Proportionate Share	 2,281,605	 110,631	 2,392,236
Total Deferred Inflows of Resources	\$ 3,835,873	\$ 180,005	\$ 4,015,878

\$19,522,878 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	 OPERS		STRS		Total
2018	\$ 31,315,329	\$	33,135	\$	31,348,464
2019	33,162,073		108,987		33,271,060
2020	13,782,764		120,354		13,903,118
2021	 (1,140,035)		29,513		(1,110,522)
	\$ 77,120,131	\$	291,989	\$	77,412,120

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2016, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 67. In 2016, the Board's actuarial consultants conducted an experience study for the period 2011 through 2015, comparing assumptions to actual results. The experience study incorporates both a historical review and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. Information from this study led to changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed rate of return from 8.0 percent down to 7.5 percent, for the defined benefit investments. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below:

Actuarial Information	Traditional Pension Plan
Actuarial Cost Method	Individual Entry Age
Investment Rate of Return	7.50 percent
Wage Inflation	3.25 percent
Projected Salary Increases, including wage inflation	3.25 percent to 10.75 percent (includes wage inflation at 3.25 percent)
Cost-of-Living	Pre-1/7/2013 Retirees: 3.00 percent Simple
Adjustments	Post-1/7/2013 Retirees: 3.00 percent Simple
	through 2018, then 2.15 percent Simple

Mortality rates were based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2016, OPERS managed investments in four investment portfolios: the Defined Benefit portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The 401(h) Health Care Trust portfolio was closed as of June 30, 2016 and the net position transferred to the 115 Health Care

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Trust portfolio on July 1, 2016. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. The Defined Benefit portfolio historically included the assets of the Member-Directed retiree medical accounts funded through the VEBA Trust. However, the VEBA Trust was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 8.3 percent for 2016.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The following table displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

		Weighted Average Long-Term
	Target	Expected Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	23.00 %	2.75 %
Domestic Equities	20.70	6.34
Real Estate	10.00	4.75
Private Equity	10.00	8.97
International Equities	18.30	7.95
Other Investments	18.00	4.92
Total	100.00 %	5.66 %

Discount Rate The discount rate used to measure the total pension liability was 7.50 percent, post-experience study results. A discount rate of 8.00 percent was used in the prior measurement period. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.50 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.50 percent) or one-percentage-point higher (8.50 percent) than the current rate:

	Current					
	1	% Decrease	Γ	Discount Rate		1% Increase
		(6.50%)		(7.50%)		(8.50%)
County's Proportionate Share of the						
Net Pension Liability	\$	398,976,419	\$	261,157,501	\$	146,309,755

Actuarial Assumptions – STRS

The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Salary Increases	12.50 percent at 20 to 2.50 percent at age 65
Payroll Increases	3.00 percent
Cost-of-Living Adjustments	0 percent effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2017 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected		
Asset Class	Allocation	Rate of Return*		
Domestic Equity	28.00 %	7.35 %		
International Equity	23.00	7.55		
Alternatives	17.00	7.09		
Fixed Income	21.00	3.00		
Real Estate	10.00	6.00		
Liquidity Reserves	1.00	2.25		
Total	100.00 %			

*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2017. A discount rate of 7.75 percent was used in the prior measurement period. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table represents the net pension liability as of June 30, 2017, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.45percent) or one percentage point higher (8.45 percent) than the current assumption:

	Current								
	1% Decrease (6.45%)			iscount Rate (7.45%)	1% Increase (8.45%)				
County's Proportionate Share of the Net Pension Liability	\$	2,421,973	\$	1,689,592	\$	1,072,671			

Changes since the Prior Measurement Date

Assumption The Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience

Benefit Term Effective July 1, 2017, the COLA was reduced to zero.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Note 13. Postemployment Benefits

A. Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. This trust is also used to fund health care for Member-Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member-Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the traditional and combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. See OPERS CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#CAFR, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2017, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1 percent during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0 percent for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2017 was 4 percent.

Substantially all of the County's contributions allocated to fund post-employment health care benefits relates to the cost-sharing, multiple employer trusts. The corresponding contributions for the years ended December 31, 2017,

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

2016, and 2015 were \$1,428,224, \$2,833,285, and \$2,863,054 respectively. For 2017, 98 percent has been contributed with the balance being reported as Due to Other Governments. The full amount has been contributed for 2016 and 2015.

B. State Teachers Retirement System of Ohio

Plan Description – The County participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2017, 2016 and 2015, STRS did not allocate any employer contributions to post-employment health care.

Note 14. Obligations Under Capitalized and Operating Leases

The County has entered into agreements to lease office equipment and vehicles. These leases meet the criteria of a capital lease as they transfer benefits and risks of ownership to the lessee. The County also has operating leases for building space and equipment in various offices. These lease payments are recorded as expense/expenditures for the current period. Future minimum lease payments under capital lease obligations and operating leases are as follows:

	Governmental					
	Activities	Operating				
Year	Capital Leases	Leases				
2018	\$ 230,723	\$ 3,390,204				
2019	226,451	3,528,679				
2020	226,451	3,450,534				
2021	226,451	3,323,972				
2022	226,451	2,960,915				
2023-2027	452,903	13,861,095				
2028-2032	-	13,792,495				
2033-2035		7,446,678				
Total Operating Leases		\$ 51,754,572				
Total Minimum Lease Payments	1,589,430					
Less: Amount Representing Interest	(120,974)					
Present Value Minimum Lease Payments	\$ 1,468,456					

The assets acquired through capital leases are as follows:

	Go	vernmental
Assets:		Activities
Machinery and Equipment	\$	111,761
Construction in Progress		1,319,227
Less: Accumulated Depreciation		(45,413)
Total	\$	1,385,575

Note 15. Compensated Absences

Vacation is accumulated at varying rates ranging from two to six weeks per year depending on length of service. Accumulated vacation may be carried over into the next year. However, the maximum amount allowed to carry forward is three times the employee's annual accrual rate, which is based on years of service. However, unused vacation at the time of retirement or termination of employment cannot exceed three times the annual accrual rate. This maximum payment of accumulated vacation time would be equal to 720 hours. All employees earn sick leave at the rate of 4.6 hours for each 80 hours of work completed. Sick leave vests with 10 years service at age 60, 25 years service at age 55 or 30 years service at any age. Although the sick leave vests as noted above, the County records a liability for sick leave for all employees with service time of more than 13.08 years. Employees are paid at one-half of the accumulated sick time up to a maximum payment equal to 720 hours with the exception of four Sheriff bargaining units paid up to 70 percent with no maximum. All sick leave and vacation payments are made at employees current wage rates.

Note 16. Commitments

The County utilized encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the County's commitments for encumbrances in the governmental funds were as follows:

Fund	Amount				
General	\$	3,444,228			
Job and Family Services		1,194,704			
Children Services Board		4,573,125			
Alcohol, Drug Addiction and Mental Health		3,984,148			
Board of Developmental Disabilities		3,810,095			
Other Governmental Funds		14,731,384			
Total	\$	31,737,684			

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Note 17. Long Term Debt Obligations

The general obligation bonds will be paid with property taxes in the General and Debt Service funds and general taxes in the Motor Vehicle and Gas Tax fund. The capital appreciation bonds will be paid with property taxes in the General fund. Enterprise general obligation bonds will be paid from user charges. The Ohio Water Development Authority (OWDA) and the Ohio Public Works Commission (OPWC) loans will be paid from revenues derived by the County from the operation of the sewer system, with the exception of the OPWC loan related to the Whitefriars Drive project, which will be repaid from special assessments from property owners.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

The compensated absences liability will be paid from the funds from which the employees' salaries are paid. This includes all the funds except Akron Zoo Project, Debt Service and Other Capital Improvements. The claims and judgments liabilities will be paid from the Medical Self-Insurance and Workers' Compensation Funds. As of December 31, 2017, there was no legal judgments liability. Previous years were related to court claims and audit findings. At December 31, there were \$0 of litigation claims that are considered current and due within one year. At December 31, there were \$2,726,400 of Medical Self-Insurance claims and \$737,161 of workers' compensation claims that are considered current and due within one year, which are reported as Insurance Claims. The capital lease obligations will be paid from the General, Job & Family Services, and Motor Vehicle & Gas Tax Funds.

During 1999, the County issued various purpose Capital Appreciation (deep discount) Bonds. These bonds were purchased at a discount at the time of issuance and at maturity all compound interest is paid and the bondholder collects the face value. Since interest associated with these bonds is earned and compounded semi-annually, the value of the bond increases in proportion to the interest. Therefore, as the value increases, the accretion is recorded as principal. The capital appreciation bonds are not subject to redemption before their maturity date.

During 2002, the County issued \$30,350,000 of general obligation refunding bonds for the Department of Environmental Service's Sewer Division, now known as the Department of Sanitary Sewer Services, to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$28,240,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the business-type activities column of the statement of net position and the principal balance outstanding has been extinguished.

During 2010, the County issued Various Purpose General Obligation Bonds. The bonds are unvoted general obligations of the County. These bonds are not subject to redemption before their maturity date. The General Obligation Bonds are issued under the authority of the general laws of the State of Ohio, Ohio Revised Code, Chapter 133.

During 2010, the Summit County Port Authority, now known as the Development Finance Authority (DFA), issued \$7,550,000 of general obligation bonds for a project cooperative agreement between the DFA, the County and the City of Akron. The proceeds of the bonds were used to finance part of a new technical center being constructed as the international technical center and research and development headquarters for Bridgestone Americas Tire Operations, LLC. The County is responsible for the principal and interest payments. The bonds will mature on December 1, 2030.

During 2012, the Summit County Port Authority, now known as the Development Finance Authority (DFA), along with the County issued \$15,815,000 of general obligation bonds. The proceeds of the bonds were used to finance the costs of acquiring, constructing, installing, equipping or improving the Goodyear Tire and Rubber Company Global and North American Headquarters building. The County is responsible for the principal and interest payments. Final maturity of the bonds is December 1, 2031.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

During 2013, the County issued \$17,585,000 in general obligation refunding bonds at interest rates varying from 1.25 percent to 4.50 percent. Proceeds were used to refund \$15,105,000 of 2003 various purpose bonds and \$3,450,000 of 2002 various purpose bonds to achieve interest cost savings. The bonds were issued at a \$2,091,158 premium and issuance costs were \$270,007. On December 31, 2017, none of the defeased bonds are outstanding.

During 2016, the County issued \$12,955,000 in general obligation refunding bonds at interest rates varying from 1.50 percent to 2.00 percent. Proceeds were used to refund \$13,200,000 of 2004 various purpose bonds to achieve interest cost savings. On December 31, 2016, none of the defeased bonds were outstanding. During 2016, the County issued an additional \$21,320,000 in general obligation bonds at interest rates varying from 2.75 to 4.00 percent. The proceeds of the bonds were used to finance the upgrade of the 800 Mhz Regional Radio System, Elevator Improvements in the County Safety Building, and the establishment of the Summit County Board of Elections Early Voting Center. Final maturity of the bonds is December 1, 2036.

The County entered into an agreement with the City of Hudson to acquire its sanitary sewer system during 2016. The County has recorded an intergovernmental payable at December 31, 2017 in the amount of \$2,128,004.

The Ohio Department of Development Loans were issued to property owners in 1977 and 1978. The Loans are to defer the collection of assessments on agricultural land. The Loans are being deferred so long as the land is used for agricultural purposes. If the land is ever used for purposes other than agricultural, the loans are due and payable, the assessments are then due and collectible by the County, and the monies collected are to be remitted to the ODD within one year of collection. The ODD Loans are non-interest bearing so long as, once the assessment is due and payable, the amounts collected are paid to the ODD within one year.

In the 1980's, the County entered into a contractual agreement with Portage County for the construction and future maintenance of a sewage facility and sewer lines in the City of Streetsboro, Ohio. The facility serves both the Streetsboro Regional Sewer District and a portion of Summit County. The County has agreed to pay Portage County for that portion of the OWDA loan related to the construction of assets that benefits Summit County. In prior years the County reported this contractual agreement as Due to Other Governments on the financial statements.

In addition to the above loans presented in the foregoing schedule, the County has entered into an agreement with OWDA for a loan from the Water Pollution Control Loan Fund (WPCLF) for a project within the County. In 2009, the County entered into an agreement with OWDA for a loan from the Fresh Water Contribution Capital (FWCC) program and OPWC. These projects are still under construction and funds received thus far are for reimbursement of expenses incurred. Therefore, the County's liability for these loans, as of December 31, 2017, are the amounts forwarded to the County as of this date. These payments are made on a "temporary" amortization schedule provided by the WPCLF, FWCC and OPWC. These liabilities are not reflected within the accompanying summary of the County's future annual debt service requirements for long-term debt. These "temporary" amortization schedules are based on the estimated total amount of funds to be borrowed by the County even though only a portion may have been received at December 31, 2017. The County also pays interest on these temporary loans. Upon completion WPCLF, FWCC and OPWC will present the County with a one-time adjustment for any amounts on the temporary amortization schedule that will be applied to the County is next payment. Permanent amortization schedules are then compiled and all future debt payments by the County will be based on that schedule. At December 31, 2017, the loan liability for WPCF amounted to \$6,984,379 with scheduled payments of \$387,265 due in 2018.

During 2017 the County entered into a lease/purchase agreement with Key Government Finance, Inc. in the amount of \$1,464,361 for the upgrade of the County's Voice Over Internet Protocol Phone System. The lease was issued with a 2.15 percent interest rate with final payment due on July 19, 2024.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

The Ohio Revised Code provides that the net principal amount of unvoted general obligation debt of the County, excluding exempt debt, may not exceed one percent of the total assessed valuation of all property in the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to three percent of the first \$1,000,000 and not in excess of \$300,000,000 plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2017, are an overall debt margin of \$253,250,245 and an unvoted debt margin of \$80,238,714.

The County has pledged the proceeds from special assessments to repay the OPWC loan related to Whitefriars Drive. These special assessments are levied against benefiting property owners and are projected to produce 100 percent of the debt service requirements. In the event that a property owner would fail to pay the assessment, payment would be made by the County. For 2017, principal payments totaled \$28,791. At December 31, 2017, the outstanding balance of the OPWC loan was \$446,259 and payments are scheduled to be made through the year 2033.

Note 18. Conduit Debt Obligations

The County has issued Industrial Development Revenue Bonds (IDRB) to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

As of December 31, 2017, there were eighty-three series of IDRBs outstanding. During 2017, no new IDRBs were issued. The aggregate remaining principal amount payable for the eighty-two issued prior to 2008 could not be determined; however, their original issue amounts totaled \$447,641,000. Industrial Development Revenue Bonds are not obligations of the County and, therefore, are not reported as liabilities in the accompanying financial statements.

The County has issued Health Care Facility Revenue Bonds (HCFRB) to provide financial assistance to private sector entities for the acquisition, construction and improvements of health care facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

As of December 31, 2017, there were three HCFRBs outstanding. During 2017, no new HCFRBs were issued. The aggregate remaining principal amount payable was \$13,050,000 and the original issue amounts totaled \$16,875,000 for the three HCFRBs. Health Care Facility Revenue Bonds are not obligations of the County and, therefore, are not reported as liabilities in the accompanying financial statements.

This space intentionally left blank.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Note 19. Internal Balances

Due to/from other funds balances at December 31, 2017, consist of the following individual fund receivables and payables:

Receivable Fund	Payable Fund	Amounts		
General	Job & Family Services	\$	36,261	
	Alcohol, Drug Addiction & Mental Health		9,504	
	Board of Developmental Disabilities		1,281	
	Children Services Board		2,208	
	Nonmajor Governmental Funds		1,365,360	
	Sewer		9,896	
	Internal Service Funds		189,618	
Job & Family Services	General Fund		479,297	
	Board of Developmental Disabilities		17,784	
Board of Developmental Disabilities	Alcohol, Drug Addiction & Mental Health		3,062	
	Children Services Board		28,894	
Children Services Board	Nonmajor Governmental Funds		1,250	
Nonmajor Governmental Funds	General Fund		74,583	
	Job & Family Services		240,717	
	Alcohol, Drug Addiction & Mental Health		141,591	
	Children Services Board		3,694	
	Nonmajor Governmental Funds		174,477	
Sewer	General Fund		2,237	
	Job & Family Services		451	
	Board of Developmental Disabilities		51	
	Nonmajor Governmental Funds		1,521	
Internal Service Funds	General Fund		93,694	
	Job & Family Services		5,560	
	Alcohol, Drug Addiction & Mental Health		21	
	Board of Developmental Disabilities		197	
	Children Services Board		5,088	
	Nonmajor Governmental Funds		30,248	
	Sewer		2,144	
	Internal Service Funds		11,022	
Total		\$	2,931,711	

The balances between funds result mainly from (1) interfund goods and services provided or reimbursable expenditures, (2) costs for operation of internal service funds, and (3) payments made between funds. The Nonmajor Governmental Funds payable to General Fund includes certain outstanding manuscript debt. These balances also include amounts associated with negative cash balances that will be collected in the subsequent year.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Transfers In Job & Children Family Services Nonmajor Internal Transfer Out General Services Board Governmental Services Total \$ General \$ 3,485,947 \$ \$ 1,758,699 \$ 580,000 \$ 5,824,646 _ _ Job & Family Services 1,126,051 1,126,051 Nonmajor Governmental Funds 43 3,687,474 3,687,517 **Totals** \$ 43 \$ 3,485,947 \$ 1,126,051 \$ 5,446,173 \$ 580,000 \$10,638,214

Interfund transfers for the year ended December 31, 2017, consisted of the following:

The transfers from General Fund to Job & Family Services and Internal Services represent required subsidies, and transfers to Nonmajor Governmental cover local matches on grants and capital expenditures. The transfers from Job & Family Services to Children Services Board represent matching funds for the Title XX/TANF program. The transfers from Nonmajor Governmental funds to General Fund represent various minor balances from grant funds. The transfers within the Nonmajor Governmental funds represent the Motor Vehicle Gas Tax funds local share of capital projects and the Real Estate Assessment fund share of a tax software system project.

The preceding interfund receivables/payables include \$1,171,842 in principal of certain outstanding manuscript debt securities, issued by the County and self-acquired by the County Fiscal Officer. This manuscript debt component consists of the following:

Year Issued	Purpose/ Description	Interest Rate	Final Maturity	January 1, 2017	Additio	Additions (Reduction		December 31, (Reductions) 2017			I, Amount Due in 2018

Note 20. Jointly Governed Organizations

Akron-Canton Regional Airport

The Akron-Canton Regional Airport is a 50% jointly governed organization by the County of Summit and Stark County. An eight-member board of trustees oversees the operation of the Regional Airport. Each county appoints four board members. The board exercises total authority for the day-to-day operations of the Regional Airport. These include budgeting, appropriating, contracting and designating management. Management at the Airport prepares its own Annual Financial Report, which is audited separately. The County of Summit has no financial responsibility for any of the Airport's liabilities. Complete financial statements may be obtained from the Akron-Canton Regional Airport, North Canton, Ohio 44720-1598.

Northeast Ohio Trade and Economic Consortium

The Consortium is a jointly governed organization by the counties of Columbiana, Mahoning, Portage, Trumbull, Stark and Summit. A six member regional council oversees the operation of the Consortium. Each county appoints one council member. The Council exercises total authority for the day-to-day operations of the Consortium. These include budgeting, appropriating, contracting and designating management. The County has no financial responsibility for any of the Consortium's liabilities. Complete financial statements may be obtained from the Northeast Ohio Trade and Economic Consortium, Kent, Ohio 44242.

North East Ohio Network (NEON)

North East Ohio Network is a Council of Governments that is jointly governed organization among fourteen counties. The Council is made up of the superintendents of each county's Board of Developmental Disabilities. The Council exercises total authority for the day-to-day operations of the organization. These include budgeting, appropriating, contracting and designating management. Revenues are generated by fees and State grants. The Council does not have any outstanding debt. The County has no financial responsibility for any of the Council's liabilities. Complete financial statements may be obtained from NEON, 5121 Mahoning Avenue, Suite 102, Austintown, Ohio 44515.

Note 21. Risk Management

The County is exposed to various risks of loss related to torts; theft, damage and destruction of assets; errors and omissions; injuries to employees and natural disasters. The County has insurance coverage with various companies. Settled claims have not materially exceeded coverage in any of the last three years and there was no significant reduction in coverage from the prior year.

The County participates in the State Worker's Compensation Retrospective Rating and Payment Option Plan. This plan involves the payment of a minimum premium for administrative services and stop-loss coverage plus the actual claim costs for employees injured during 2017. At December 31, 2017, the County recorded a claims liability of \$1,617,799 in its Workers' Compensation Fund. This is the latest information provided by the State of Ohio Bureau of Workers' Compensation. At December 31, 2017, \$9,141,402 of Workers' Compensation Fund Equity in Pooled Cash and Investments was held to fund this liability.

The County offers its employees an alternative form of health insurance coverage, for which the County is selfinsured. All claim liabilities related to this coverage are reported in the Medical Self-Insurance Fund. The County's health-care benefits are administered by Medical Mutual, which provides claims reviews and processing. The County maintains specific stop-loss coverage with a commercial insurance company for claims in excess of \$500,000 individually with no aggregate stop loss coverage in 2017. Claims expenses and liabilities are recognized when it is probable a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not paid and incurred but not reported. Incurred but not paid claims of \$2,726,400 have been accrued as a liability at December 31, 2017.

At December 31, 2017, the amount of the workers' compensation and health insurance liability was \$4,344,199 which is the County's best estimate based on available information. Changes in the self-insurance claims liability accounts were as follows:

		Current Year		
	Liability	Claims and	Claim	Liability
	January 1	Estimates	Payments	December 31
2016	\$ 3,743,908	\$ 39,850,474	\$ 39,202,474	\$ 4,391,908
2017	4,391,908	44,248,147	44,295,856	4,344,199

At December 31, 2017, \$15,455,822 of Medical Self-Insurance Fund Equity in Pooled Cash and Investments was held for the purpose of funding the County's \$2,726,400 liability for health self-insurance.

Note 22. Pollution Remediation

On February 24, 2011, the Ohio Environmental Protection Agency (EPA) issued final findings and orders to the County's Department of Environmental Services, now known as the Department of Sanitary Sewer Services (DOSSS). These findings relate to the improper disposal of sewage sludge and solid waste from Wastewater Treatment Plant #36 located in Springfield Township. The findings further call for the removal and proper disposal of the entire contents of the site, the removal of the liner system, and to restore, stabilize, and grade the site. The County now has until October 31, 2018 to complete this work.

The County contracted with Hull & Associates, Inc. to perform a preliminary cost estimate to comply with the EPA's order. An estimate of \$1.2 million utilizing DOSSS resources has been recorded as accounts payable in the statements. This estimate is for labor and equipment, including solid waste disposal costs and is subject to revision because of price increases or reductions, changes in technology, or changes in applicable laws or regulations.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

On February 1, 2012, the Ohio Environmental Protection Agency (EPA) issued final findings and orders to the County's Department of Environmental Services, now known as the Department of Sanitary Sewer Services. These findings relate to high levels of bacteria in the storm water ditches due to failing on-site septic systems in Springfield Township and in the Village of Mogadore. This is the Columbine Sanitary Sewer System Project, Project Q-948 and calls for the construction of a publicly owned gravity sanitary sewer system to serve all properties within the Columbine service area. The project was substantially complete in November 2017 with final property and right-of-way rehabilitation, e.g. grading and seeding, to be completed by May 2018. The estimate of remaining costs associated with this work is \$396,000 and has been recorded as accounts payable in the statements. This estimate is for labor, materials and equipment and is subject to revision because of price increases or reductions, changes in technology, or changes in applicable laws or regulations.

The County entered into an agreement with the City of Hudson to acquire its sanitary sewer system during 2016. The EPA issued two consent orders related to the system and the estimate of the liability for those orders is \$4.5 million. Contracts for detailed engineering design have been awarded and data for the project, e.g. surveying, soil analysis and infiltration analysis, has started. This estimate has been recorded as accounts payable in the statements. This estimate is subject to revision because of price increases or reductions, changes in technology, or changes in applicable laws or regulations.

Note 23. Contingencies

Grants

The County received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Other such audits could be undertaken by federal and state granting agencies and result in the disallowance of claims and expenditures; however, in the opinion of management, any such disallowed claims or expenditures will not have a material effect on the overall financial position of the County at December 31, 2017.

Litigation

The County is currently, and from time to time, subject to claims and suits arising in the normal course of providing services and conducting business. Management intends to vigorously defend the County and believes that these claims and litigation will not have a material adverse effect on the County's operations or financial position.

Note 24. Subsequent Events

In April 2018, County Council authorized the County Executive to apply for and execute loan agreements for the funding of the design and construction of various sanitary sewer improvement projects being performed countywide. The estimated total cost of the projects will not exceed \$18,096,061.

Note 25. Summit County Land Reutilization Corporation

A. Description of the Entity

The Summit County Land Reutilization Corporation (the Corporation) is a county land reutilization corporation that was formed on June 4, 2012 when the Summit County Council authorized the incorporation of the Corporation under Chapter 1724 of the Ohio Revised Code through resolution number 2012-214 as a not-for-profit corporation under the laws of the State of Ohio. The purpose of the Corporation is to strengthen neighborhoods in Summit County (the County) by returning vacant and abandoned properties to productive use. The Corporation has been designated as the County's agent to further its mission to reclaim, rehabilitate, and reutilize vacant, abandoned, tax foreclosed and other real property in the County by exercising the powers of the County under Chapter 5722 of the Ohio Revised Code.

Pursuant to Section 1724.03 (B) of the Ohio Revised Code, the Board of Directors of the Corporation shall be composed of seven members including, (1) the County Fiscal Officer, (2) the County Executive, (3) a member of the County Council, (4) one representative of the City of Akron, as the municipal corporation in Summit County with the largest population, based on the population according to the most recent federal decennial census, (5) one representative of a township with a population of greater than ten thousand based on the population according to the most recent federal decennial census, (6) two additional members selected by the Fiscal Officer, Executive and Council Representative.

The Corporation is dedicated to strategically acquiring tax foreclosed property and other foreclosed property from the Board of Revision, Sheriff's Sale, Bank Real Estate Owned, County Fiscal Officer, third parties, and through donations. The Corporation then strives to put the properties back to productive use.

The reporting entity for the Corporation is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government consist of all funds, departments, boards and agencies that are not legally separate from the Corporation and any other organizations that would need to be included to ensure the financial statements of the Corporation are not misleading.

Component units are legally separate organizations for which the Corporation is financially accountable. The Corporation is financially accountable for an organization if the Corporation appoints a voting majority of the organization's governing board; and 1) the Corporation is able to significantly influence the programs or services performed or provided by the organization; or 2) the Corporation is legally entitled to or can otherwise access the organization's resources; the Corporation is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Corporation is obligated for the debt of the organization. Component units may also include organizations for which the Corporation authorizes the issuance of debt, or the levying of taxes, or determines the budget. The Corporation does not have any component units. The Corporation is a component unit of Summit County, Ohio.

B. Summary of Significant Accounting Policies

The basic financial statements of the Corporation have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Corporation's significant accounting policies are described below.

Basis of Presentation

The Corporation's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Corporation as a whole. These statements include the financial activities of the primary government. These statements usually distinguish between those activities of the Corporation that are governmental and those that are business-type. The Corporation, however, does not have any business-type activities.

The statement of net position presents the financial condition of the governmental activities of the Corporation at year-end. The statement of activities presents a comparison between direct expenses and program revenues of the Corporation's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Corporation, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program is self-financing or draws from the general revenues of the Corporation.

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the Corporation are included on the Statement of Net Position. The Statement of Activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Basis of Accounting

Basis of accounting determines when transactions are recorded on the financial records and reported on the financial statements. Government-wide statements are prepared using the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Non-exchange transactions, in which the Corporation receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Corporation must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Corporation on a reimbursement basis.

Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

Budgetary Process

The Corporation is not bound by the budgetary laws prescribed by the Ohio Revised Code for purely governmental entities. The Board of Directors of the Corporation adopts an annual budget prior to the beginning of the fiscal year. Appropriations and subsequent amendments are approved by the Board of Directors during the year as required.

Federal Income Tax

The Corporation is exempt from federal income tax under Section 115(1) of the Internal Revenue Code.

Cash and Cash Equivalents

All monies received by the Corporation are deposited in demand deposit accounts. The Corporation had no investments during the year or at the end of the year.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current year, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expense in the year in which the services are consumed.

Assets Held for Resale

Assets held for resale represent properties purchased by or donated to the Corporation. These properties are valued based upon the purchase price plus any costs of maintenance, rehabilitation, or demolition of homes on the properties. The Corporation holds the properties until the home is either sold to a new homeowner, sold to an individual who will rehabilitate the home, or the home on the property is demolished.

Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. General capital assets are reported in the governmental activities column of the government-wide statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The Corporation maintains a capitalization threshold of \$1,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Furniture and Fixtures	4 Years
Vehicles	4 Years

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

Net Position

Net position represents the difference between assets and liabilities and deferred inflows of resources. Net investment in capital asset consists of capital assets, net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Corporation had restricted net position at December 31, 2017 of \$1,086,476. The Corporation applies restricted resources first when an expense is incurred for which restricted an unrestricted amounts are available.

Intergovernmental Revenue

The Corporation receives operating income through Summit County. This money represents the penalties and interest on current unpaid and delinquent property taxes once these taxes are paid. Pursuant to ORC 321.263, these penalty and interest monies are collected by the County when taxes are paid and then are paid to the Corporation upon the Corporation's written request.

Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

C. Deposits and Investments Deposits

At December 31, 2017, the carrying amount of the Corporation's deposits was \$906,213 and the bank balance was \$906,213.

1. \$250,000 was covered by Federal depository insurance, by collateral held by the Corporation, or by collateral held by the Corporation's agent in the name of the Corporation; and

2. \$656,213 was uninsured and uncollateralized. Although the securities were held by the pledging financial institutions' trust department in the Corporation's name and all statutory requirements for the investment of money had been followed.

D. Long-Term Liabilities

Long term liabilities consist of accrued compensated absences. Changes in compensated absences for December 31, 2017 are as follows:

	Beg	inning					E	Ending	Due	Within
	Bal	Balance		dditions	Reductions		Balance		One Year	
Compensated Absences	\$	10,294	\$	23,953	\$	(22,777)	\$	11,470	\$	10,997

E. Capital Assets

A summary of changes in capital assets during 2017 follows:

	2016	Additions	Deletions	2017
Governmental Activities				
Capital Assets, being depreciated:				
Furniture and fixtures	25,355	7,878	-	33,233
Vehicles	1,750			1,750
Total Capital Assets, being depreciated	27,105	7,878	-	34,983
Less Accumulated Depreciation:				
Furniture and fixtures	3,629	7,644	-	11,273
Vehicles	438	437		875
Total Accumulated Depreciation	4,067	8,081	-	12,148
Total Governmental Activities Capital Assets, Net	\$ 23,038	\$ (203)	\$ -	\$ 22,835

Depreciation expense of \$8,081 has been included in expenses in the statement of activities. In 2017, the Corporation purchased and renovated a structure that is being leased to an addiction recovery organization. The purchase and renovation totaled \$197,085. The lease is a 15 year lease. In 2017, the Corporation received one monthly lease payment.

F. Transactions with Summit County

Pursuant to and in accordance with Section 321.261 (B) of the Ohio Revised Code, the Corporation has been authorized by the Summit County Council to receive 5 percent of all collections of delinquent real property, personal property, and manufactured and mobile home taxes that are deposited into the County's Delinquent Tax Assessment Collection fund and will be available for appropriation by the Corporation to fund operations.

G. Risk Management

The Corporation is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Corporation maintains comprehensive insurance coverage with independent third parties for real property, building, vehicle, general liability and professional liability insurance. There were no settled claims from these risks that have exceeded commercial insurance coverage for the past three years, nor has insurance coverage been significantly reduced from the prior year.

H. Employee Benefits

Compensated Absences

The Corporation employees earn vacation leave at varying rates based upon length of service. Employees earn two to three weeks of vacation per year, depending upon length of service. Annual vacation eligibility is as of the anniversary of employment and unused vacation may be carried over indefinitely. Vacation leave is accrued at the rate for County of Summit employees, set forth in the Codified Ordinances of Summit County, except that earned vacation shall be made available upon the successful completion, and favorable performance review, of a six-month probationary period as determined by the Executive Director. After six months of service with Summit County Land Reutilization Corporation, an employee will be credited with vacation earned during the first six months of

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

employment. New employees with no prior public service are eligible for paid vacation only after six (6) months of employment. If a new employee with no prior service credit terminates employment before serving six (6) months of employment, he/she will receive no vacation pay out. Otherwise, when an employee terminates employment, he or she will receive the balance of unused, earned vacation time. Employees earn sick leave at the rate of 4.6 hours per 80 hours worked with no maximum accumulation. No sick leave is paid out at termination, but upon retirement, employees receive 25 percent of their sick leave balance not to exceed 240 hours.

Health Insurance Benefits

The Corporation makes available to all full time employees comprehensive major medical/hospitalization health care insurance. Participating employees may elect coverage (i.e. single, family, etc.) as provided under the offered plan(s). Eligible employees may elect applicable coverage. Employee participation costs, as may be applicable, shall be made through payroll deduction.

Retirement Benefits

The Corporation adopted a SIMPLE IRA plan for all employees who met certain eligibility requirements dictated by plan documents. The plan allows employees to make contributions up to IRS contribution limits with the Corporation matching the first 3 percent of employee contributions. The SIMPLE IRA plan was terminated as of December 31, 2017 in favor of the Summit County Land Reutilization Corporation 401K plan created January 1, 2018. The new 401K plan allows higher employee contributions and employer match with a three year vesting schedule to encourage employee retention.

Note 26. Summit and Medina Workforce Area Council of Governments

A. Description of the Entity

The Workforce Innovation and Opportunity Act of 2014 (WIOA) is a federally funded program that provides employment and job training services to eligible adults, dislocated workers and youth. The United States Department of Labor (DOL) is the federal agency responsible for the program. The Ohio Department of Job and Family Services (ODJFS) is the oversight agency for the State of Ohio. The ODJFS has designated Summit and Medina Counties as Area 2 (Area 2) for the purposes of providing services under WIOA.

The WIOA envisions a workforce development system that is focused on job seekers, businesses and the needs of regional economics, and requires workforce development boards and chief elected officials to design and govern the system regionally, aligning workforce policies and services with regional economics and supporting service delivery strategies tailored to those needs. Area 2 administers Summit and Medina County workforce development activities.

Summit and Medina Workforce Area Council of Governments (the COG) was established in accordance with Ohio Revised Code 167 to provide the governance structure for the Area 2 to carry out its mandated functions of planning, contracting and assessing workforce development programs and to more clearly establish that local elected officials have ultimate responsibility for the WIOA funds.

Summit and Medina Counties are the sole members of the COG. Each county has a single seat of representation on the COG's Area 2 Workforce Development Board. The primary representative serving in these seats shall be one of the Medina County Commissioners and the Summit County Executive.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Summit County Department of Job and Family Services (SCDJFS), an agency that is under the governance of the Summit County Council, serves as the fiscal agent. The fiscal agent is responsible for receiving and disbursing WIOA funds. Funds flow from the State to SCDJFS and are passed on to the COG members.

A reporting entity is comprised of the primary government, component units and other organizations, ensuring that the basic financial statements are not misleading. The primary government of the Board consists of the general fund, departments, and boards that are not legally separate from the COG. The COG has no component units.

The COG's management believes these financial statements present all activities for which the COG is financially accountable.

B. Summary of Significant Accounting Policies

The financial statements of the COG have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the COG's accounting policies are described below.

Basis of Presentation

The COG's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the COG as a whole. These statements include the financial activities of the primary government. These statements usually distinguish between those activities of the COG that are governmental and those that are considered business-type. The COG, however, does not have business-type activities.

The statement of net position presents the financial condition of the governmental activities of the COG at yearend. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the COG's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the COG, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program self-financing or draws from the general revenues of the COG.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the COG are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in net position.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Non-exchange transactions, in which the COG receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the COG must provide resources to be used for a specified purpose, and expenditure requirements, in which the resources provided to the COG on a reimbursement basis.

Deferred Inflows of Resources and Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

Budgetary Process

The COG is not bound by the budgetary laws prescribed by the Ohio Revised Code for governmental entities.

The budgetary process that is followed by the COG is for control purposes and is set forth in its Control Policies. The annual organizational budget must be completed at least thirty days prior to the end of the preceding fiscal year, and approved by the Board of Directors no later than the end of the preceding fiscal year. In the absence of an annual organizational budget, the Executive Director lacks the authority and the capacity to make any financial decisions for the organization.

Capital Assets

The COG does not own any capital assets. All capital assets used by the COG are owned by Summit County.

For the Year Ended December 31, 2017

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the COG has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rate at year end, taking into consideration any limits specified in the COG's termination policy.

The entire compensated absence liability is reported on the government-wide financial statements.

Pensions

For purposes of measuring the net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

Governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the fund. However, compensated absences and claims and judgments are reported as a liability in the fund financial statements only to the extent payments come due each period upon the occurrence of employee resignations and retirements.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The COG applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

C. Receivables

Receivables at December 31, 2017, consisted of intergovernmental grants. Intergovernmental receivables represent amounts owed to the COG from the Ohio Department of Jobs and Family Services for grant funds earned but not received. All receivables are considered fully collectible and expected to be received within one year.

D. Compensated Absences

Vacation is accumulated at varying rates ranging from two to six weeks per year depending on length of service. Accumulated vacation may be carried over into the next year. However, the maximum amount allowed to carry forward is three times the employee's annual accrual rate, which is based on years of service. However, unused vacation at the time of retirement or termination of employment cannot exceed three times the annual accrual rate.

This maximum payment of accumulated vacation time would be equal to 720 hours. All employees earn sick leave at the rate of 4.6 hours for each 80 hours of work completed. Sick leave vests with 10 years' service at age 60, 25 years' service at age 55 or 30 years' service at any age. Although the sick leave vests as noted above, the COG records a liability for sick leave for all employees with service time of more than 14 years. Employees are paid at one-half of the accumulated sick time up to a maximum payment equal to 720 hours. All sick leave and vacation payments are made at employees current wage rates.

E. Defined Benefit Pension Plan

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the COG's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the COG's obligation for this liability to annually required payments. The COG cannot control benefit terms or the manner in which pensions are financed; however, the COG does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees).

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - COG employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. COG employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 60 with 60 months of service credit	Age 60 with 60 months of service credit	Age 57 with 25 years of service credit
or Age 55 with 25 years of service credit	or Age 55 with 25 years of service credit	or Age 62 with 5 years of service credit
Formula:	Formula:	Formula:
2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of
service for the first 30 years and 2.5%	service for the first 30 years and 2.5%	service for the first 35 years and 2.5%
for service years in excess of 30	for service years in excess of 30	for service years in excess of 35

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost-of-living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those who retired prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index (CPI), capped at 3 percent.

Funding Policy - Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2017 Statutory Maximum Contribution Rates		
Employer	14.00 %	
Employee	10.00 %	
2017 Actual Contribution Rates		
Employer:		
Pension	13.00 %	
Post-Employment Health Care Benefits	1.00 %	
Total Employer	14.00 %	
Employee	10.00 %	

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The COG's contractually required contribution was \$13,962 for 2017. Of this amount, \$349 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The COG's proportion of the net pension liability was based on the COG's share of contributions to the pension plan relative to the contributions of all participating entities. The COG's proportionate share is zero percent since the entity had no contributions as of measurement date of December 31, 2016.

Deferred outflows of resources related to pension resulting from COG's contributions subsequent to the measurement date of \$13,962 will be recognized as a reduction of the net pension liability in the year ending December 31, 2018.

F. Post-Employment Benefits

Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. This trust is also used to fund health care for Member-Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member-Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the traditional and combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. See OPERS CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#CAFR, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2017, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1 percent during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0 percent for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2017 was 4 percent.

Notes to the Basic Financial Statements For the Year Ended December 31, 2017

Substantially all of the COG's contributions allocated to fund post-employment health care benefits relates to the cost-sharing, multiple employer trusts. The corresponding contributions for the year ended December 31, 2017 was \$1,074. For 2017, 97 percent has been contributed with the balance being reported as an intergovernmental payable.

G. Long-Term Obligations

Changes in long-term obligations during the year ended December 31, 2017 consisted of the following:

	Balan	ce					В	alance	Due	e Within
	12/31/2016		Additions		Reductions		12/31/2017		One Year	
Compensated Absences	\$	0	\$	25,509	\$	0	\$	25,509	\$	10,496

H. Risk Management

The COG is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2017, the COG maintained suitable insurance coverage.

Settled claims resulting from these risks have not exceeded commercial insurance coverage in the current year.

I. Contingencies

The COG receives financial assistance from federal and State agencies in the form of grants. Disbursing grant funds generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit. Any disallowed claims resulting from such audits could become a liability. However, in the opinion of management, any such disallowed claims through December 31, 2017 will not have a material adverse effect on the COG.

The COG was not a defendant in any lawsuits at year end.

J. Commitments

The COG utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the COG's commitments for encumbrances were \$631,516.

County of Summit, Ohio Required Supplementary Information Schedule of the County's Proportionate Share of the Net Pension Liability

Last Four Years (1)

	 2017	 2016	 2015	 2014

(1) Information prior to 2014 is not available. This schedule is intended to present information for ten years. Additional years' information will be presented as it becomes available

Note: The amounts presented for each fiscal year were determined as of the measurement date, which is the prior fiscal year.

Notes:

Ohio Public Employees' Retirement System (OPERS)

Changes of Benefit Terms: None.

Changes of Assumptions: Amounts reported in 2017 reflect an adjustment of the rates of withdrawal, disability, retirement and mortality to more closely reflect actual experience. The expectation of retired life mortality was based on RP-2014 Healthy Annuitant mortality table and RP-2014 Disabled mortality table. The following reductions were also made to the actuarial assumptions:

• Discount rate from 8.00% to 7.50%

• Wage inflation rate from 3.75% to 3.25%

• Price inflation from 3.00% to 2.50%

State Teachers Retirement System (STRS)

Changes of Benefit Terms: Effective July 1, 2017, the COLA was reduced to zero.

Changes of Assumptions: The Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Nonmajor Governmental Funds

Other Nonmajor Governmental Funds

The following nonmajor funds are included with the General Fund for GAAP reporting purposes as they do not have a restricted or committed revenue source:

Hotel and Motel, Delinquent Tax, Recorder Equipment, Real Estate Discount and Tax Installment Plan Administration, Sheriff IV-D Process Serving, Sheriff Rotary, Sheriff Inmate Welfare, Auto Insurance Repair and Retention, Consumer Affairs, SBC Inmate Phone Commission, 800 MHz, Computer Aided Dispatch, Veterans Monument and Donations, Foreclosure Education and Prevention, Prosecutor Municipal Contracts, Building Standards, Engineer Community Rotary, Expedited Foreclosure and Certificate of Title Administration.

Special Revenue Funds

The special revenue funds are used to account for proceeds of specific revenue sources (other than special assessments, expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. Following is a description of all nonmajor special revenue funds:

<u>Motor Vehicle and Gas Tax</u> - To account for revenue derived from taxes on motor vehicle licenses and gasoline. By state law, expenditures are restricted to road and bridges, for maintenance and minor construction. The townships reimburse the County its expenditures for work done on townships' road and bridges.

<u>Real Estate Assessment</u> - To account for monies from Auditor's fees to assess real property within the County for tax valuation purposes as required by law.

<u>Delinquent Tax Assessment Collection</u> - To account for 5% of all certified delinquent taxes and assessments collected by the County Fiscal Office on any tax duplicate. The funds shall be used by the County Fiscal Office and County Prosecutor, solely in connection with the collection of delinquent taxes and assessments.

<u>Governmental Grants</u> - To account for federal, state and local grants received from various granting agencies for the administration and operation of following: Local Government, Police Traffic Services, Psycho-Diagnostic Services, Child Care Food Programs, Adult Probation Programs, Hazardous Materials Programs and various employment projects, funding for group homes for juvenile delinquency prevention and similar programs. The Community Development Block Grant Program funding is used for various housing rehabilitation and similar projects within the County. Each individual grant is accounted for in a separate subfund for compliance and reporting purposes.

<u>Other Special Revenue</u> - To account for smaller special revenue funds operated by the County and subsidized in part by fees, local and state monies as well as other miscellaneous sources. Each individual fund is accounted for in a separate subfund for compliance and reporting purposes.

<u>Child Support Enforcement</u> - To account for the collection of fees restricted as to use for the administration of the Child Support Enforcement Agency and court operated support enforcement activities.

<u>Akron Zoo Project</u> - The primary revenue source is a special property tax levy approved by County voters. Per an agreement with the Akron Zoological Park, a non-profit agency, the County collects the revenue that is used for the purpose of operations and capital expenditures at the Akron Zoo.

<u>Emergency Management Agency</u> – To account for federal, state and local grants received from various granting agencies for the administration and operations of Homeland Security and Disaster relief within the County. Each individual grant is accounted for in a separate subfund for compliance and reporting purposes.

Nonmajor Governmental Funds

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

<u>General Obligation Bond Retirement</u> - To account for and report restricted tax levies that are utilized for the repayment of general obligation bonds and notes of the County.

Capital Project Funds

The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds or special revenue funds).

<u>General Capital Improvements</u> - To account for costs of various projects and certain purchases of capital equipment. The primary financing source consists of proceeds from the sale of lands, buildings and other County owned assets.

<u>Other Capital Improvements</u> - To account for the activity associated with construction and/or renovation of various county buildings and other projects. Bond anticipation notes and general tax revenues provide the source of financing.

PROPRIETARY FUNDS

Combining Statements – Internal Service Funds

The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

<u>Office Services</u> - This fund accounts for centralized interoffice and outgoing mail services for all County departments and printing, reproduction and paper supplies. Charges are on a cost reimbursement basis.

<u>Medical Self-Insurance</u> - To account for medical and prescription benefits for the County. The primary source of revenue is monthly fees and any balance on hand is held until used.

<u>Workers' Compensation</u> - To provide self-insurance to the County through a retrospective rating plan with the State of Ohio for workers compensation.

<u>Telephone Services</u> - This fund accounts for communication services for all County departments. Charges are on a cost reimbursement basis.

Internal Audit - This fund accounts for internal audit services to all County departments. Charges are on a cost reimbursement basis.

<u>Geographic Information Systems</u> - This fund accounts for geographic information systems services to all County departments. Charges are on a cost reimbursement basis.

<u>Information Technology</u> – This fund accounts for information technology services to all County departments. Charges are on a cost reimbursement basis.

Combining Fiduciary Funds

Fiduciary funds are used to account for assets held by the County in a trustee capacity, or as an agent for individuals, private organizations, other governments, and/or other funds. The following is the County's fiduciary fund type.

AGENCY FUNDS

These funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations.

<u>Undivided/Subdivision Holding</u> - To account for the collection of all taxes (including real estate), forfeited land sales and fines until they are distributed to the appropriate subdivision.

<u>Payroll Holding</u> - To account for monies deposited to this fund for monies withheld from employee's payroll warrants for payroll taxes, Ohio Public Employees Retirement System and other deductions.

<u>Custodial Checking</u> – To account for the following activities:

- 1. Clerk of Courts Legal and Title receipts.
- 2. Probate court related receipts.
- 3. Juvenile court related receipts.
- 4. Sheriff civil receipts.

Metro Parks - To account for all monies held for Metro Parks as custodian.

District Health - To account for all monies held for District Health as custodian.

<u>Children Services - Family Stability</u> - To account for monies received by Children Services, to be paid to third parties per the Ohio Revised Code.

<u>Development Finance Authority</u> - To account for all monies held for the Summit County Development Finance Authority as custodian.

<u>Other Agency</u> - To account for monies held in an agency capacity from various sources by the county as custodian. Some of these funds are as follows: Public Defender, Tax Certificate Redemption, Social Services Advisory Board, Special Emergency Planning and Soil and Water Conservation.

CAFR COMPREHENSIVE ANNUAL

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2017 COUNTY OF SUMMIT, OHIO

ISGAL OFFICE

1840

COUNTY OF SUMM

R

STATISTICAL SECTION

This page left blank intentionally

County of Summit, Ohio

STATISTICAL SECTION

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

Tables 10 - 13 These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: Unless otherwise indicated, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Property is assessed every year. The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. Other tangible personal property is assessed at 12.5 percent for everything including inventories.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemption before being billed.

The Direct Tax Rate shown in this table only includes County Units. Previous reports included Summit Metro Parks.

PROPERTY TAX RATES – DIRECT AND OVERLAPPING GOVERNMENTS LAST TEN YEARS (PER \$1,000 OF ASSESSED VALUATION)

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

The County's basic property tax rate may be increased only by a majority vote of the County's residents.

Overlapping rates are those of local and county governments that apply to property owners within the County.

(1) The Ohio Revised Code provides that the net principal amount of unvoted general obligation debt of the County, excluding exempt debt may not exceed 1% of the total assessed valuation of all property in the County, and that the principal amount of both voted and unvoted general obligation debt of the County, excluding the exempt debt may not exceed a sum equal to \$6,000,000, plus 2.5% of the assessed valuation in excess of \$300,000,000. These two limitations are referred to as the "direct debt limitations" and may be amended from time to time by the General Assembly.

Note: Civilian Labor Force is the sum of employment and unemployment, based on unrounded data. It comprises civilians 16 years of age and over who are working or seeking work. It excludes military personnel, persons in institutions, those studying or keeping house full-time, persons who are retired or unable to work, and volunteer workers.

The Unemployement Rates are averages for the year.
