Ohio Department of Medicaid

RE: Sangeeta Krishna, M.D. NPI: 1205832102
Program Year 2: Meaningful Use Stage 2 Year 1

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Dr. Sangeeta Krishna's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Provider Incentive Program (MPIP) for the year ended December 31, 2015. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We obtained the Provider's Ohio Medicaid Agreement dates from the Medicaid Information Technology System to the patient volume and meaningful use attestation periods. We found the Provider had an active agreement in effect during the attestation periods.
2. Using the Ohio e-license center, we compared the licensure type and effective dates to the patient volume and meaningful use attestation periods. We found no exceptions.
3. Using the MPIP system, we confirmed the Provider underwent ODM's payment approval process, was approved for an incentive payment and received an incentive payment.

We compared the date of the payment approval with the date of the incentive payment and confirmed the payment approval occurred prior to the payment. In addition, we compared the payment amount with the MPIP payment schedule and found no variances.

4. We obtained the Provider's encounters during the patient volume attestation period. We scanned the list and found no duplicate encounters. We also scanned the list and found that it included multiple payer sources.
5. We calculated the Medicaid patient volume from the encounters identified in procedure 4 and confirmed the Provider met the 30 percent patient volume requirement.
6. We found the Provider's location was now using a newer version of the electronic health record (EHR) software reported in the MPIP system. We verified that the newer version of the EHR software was approved by the Office of the National Coordinator of Health IT.
7. We obtained the Provider's location and matched that to the meaningful use report. We also found the patient volume report which overlaps the meaningful use period included over 200 encounters during the meaningful use period; however, only one outpatient encounter was included on the meaningful use report and the rest were inpatient encounters.

Independent Accountants' Report on
Applying Agreed-Upon Procedures

8. We obtained supporting documentation for the 10 objectives and compared it to the applicable criteria. We found Objective 6 did not meet the applicable criteria. For those measures that require only unique patients be counted, we scanned the detailed data for duplicate patients. We found only one patient reported.
9. We obtained supporting documentation for the clinical quality measures and compared it to the applicable criteria. We confirmed the minimum number of measures was met with at least one measure from three different domains.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Provider Incentive Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the Provider and the ODM, and is not intended to be, and should not be used by anyone other than the specified parties.
