BUTLER COUNTY, OHIO

Supplemental Reports

For the Year Ended December 31, 2019

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Board of County Commissioners Butler County 315 High Street Hamilton, Ohio 45011

We have reviewed the *Independent Auditor's Report* of Butler County, prepared by Julian & Grube, Inc., for the audit period January 1, 2019 through December 31, 2019. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Butler County is responsible for compliance with these laws and regulations.

ību

Keith Faber Auditor of State Columbus, Ohio

December 1, 2020

BUTLER COUNTY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2019 (Continued)

Notes to the Schedule of Expenditures of Federal Awards:

(A) This schedule includes the federal award activity of Butler County under programs of the federal government for the year ended December 31, 2019 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Butler County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Butler County.

(B) Certain federal programs require the County contribute non-federal funds (matching funds) to support the federally funded programs. The County has complied with the matching requirements. The expenditure of non-federal matching funds are not included on the schedule.

(C) Grant was received directly from the federal agency.

(D) Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

(E) This portion of the program was passed through the Ohio Department of Mental Health.

(F) This portion of the program was passed through the Ohio Department of Developmental Disabilities.

(G) The County passes certain federal awards received from various agencies to other governments or not-for-profit agencies (subrecipients). As Note A describes, the County reports expenditures of Federal awards to subrecipients when paid in cash. As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

(H) Pass-through number was unable to be obtained for this grant.

(I) The County has established a revolving loan program to provide low-interest loans to businesses that are creating jobs and meet the other program requirements. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the County passed through the Ohio Department of Development. The initial loan of this money is recorded as a disbursement on the accompanying Schedule of Expenditures of Federal Awards (the Schedule). Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by mortgages on the property. At December 31, 2019, the gross amount of loans outstanding under this program was \$69,068.

(J) CFR Section 200.414 of the Uniform Guidance allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct costs to indirect costs. The County has not elected to use the 10% de minimus indirect cost rate.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Butler County 315 High Street 6th Floor Hamilton, Ohio 45011

To the Board of County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butler County, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Butler County's basic financial statements and have issued our report thereon dated August 26, 2020, wherein we noted as discussed in Note 24 to the financial statements, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods. We also noted, as discussed in Note 3 to the financial statements, Butler County chose to utilize GASB 95 and postpone any newly applicable GASB pronouncements until the reporting date of December 31, 2020. Our report refers to other auditors who audited the financial statements of the Butler County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered Butler County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of Butler County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of Butler County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Butler County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Compliance and Other Matters

As part of reasonably assuring whether Butler County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of Butler County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering Butler County's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance and the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Butler County 315 High Street 6th Floor Hamilton, Ohio 45011

To the Board of County Commissioners:

Report on Compliance for each Major Federal Program

We have audited Butler County's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of Butler County's major federal programs for the year ended December 31, 2019. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies Butler County's major federal programs.

Management's Responsibility

Butler County's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on Butler County's compliance for each of Butler County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about Butler County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of Butler County's major programs. However, our audit does not provide a legal determination of Butler County's compliance.

Opinion on Each Major Federal Program

In our opinion, Butler County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2019.

Butler County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance and the

Schedule of Expenditures of Federal Awards Required by the Uniform Guidance Page 2

Report on Internal Control Over Compliance

Butler County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered Butler County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance with a federal program compliance is a deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance is a deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely-presented component units, each major fund and the aggregate remaining fund information of Butler County, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Butler County's basic financial statements. We issued our unmodified report thereon dated August 26, 2020. Our opinion also explained that Butler County adopted Governmental Accounting Standards No. 95 during the year. We conducted our audit to opine on Butler County's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. Our opinion also explained that the Butler County Port Authority, a discretely presented component unit, was audited by other auditors.

130 High Street Hamilton, Ohio 45011

August 26, 2020

To the Citizens and Board of Commissioners of Butler County:

Butler County is required by Ohio law to prepare an annual financial report using generally accepted accounting principles. It is our pleasure to present the Butler County Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2019.

The CAFR is prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources and contains basic financial statements, supplemental statements, and other financial and statistical information, providing complete and full disclosure of all material financial aspects of Butler County for 2019. This report is presented in fulfillment of the financial reporting requirements and is representative of our continual commitment to provide accurate and timely financial information to the citizens of Butler County.

Management assumes full responsibility for the accuracy and completeness of the information contained in this report based upon a comprehensive framework of internal control. Because the cost of internal control should not exceed anticipated benefits, management's objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Our independent auditor, Julian & Grube, Incorporated, has issued an unmodified opinion on Butler County's financial statements for the year ended December 31, 2019. The independent auditor's report is presented as the first component of the financial section of this report.

Management provides a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with the MD&A, which can be found immediately following the independent auditor's report.

REPORTING ENTITY

Butler County, established in 1803, was one of Ohio's original eight counties. The elected three-member Board of County Commissioners functions as the primary legislative and executive branch of the County. Each commissioner serves a term of four years. In addition, the Auditor, who serves as the chief fiscal officer and real estate property assessor for the County, and the Treasurer, who collects property taxes and is the custodian of all funds, are also elected to four-year terms. Other elected officials serving four-year terms include the Prosecuting Attorney, Sheriff, Engineer, Clerk of Courts, Recorder, and Coroner. Judges presiding over the Court of Common Pleas, Domestic Relations Court, Juvenile Court, Probate Court, and the County Court are also elected on a countywide basis.

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, civil and criminal justice system services, road and bridge maintenance, and other general and administrative support services. The County maintains enterprise funds to account for the water and sewer system operations. The County also maintains internal service funds for workers' compensation and health insurance.

The financial statements contained within this Comprehensive Annual Financial Report includes all funds, agencies, boards and commissions for which the County elected officials are financially accountable. A complete discussion of the County's reporting entity is provided in Note 1 to the basic financial statements.

ECONOMIC CONDITION AND OUTLOOK

Seventh largest among the state's 88 counties, Butler County's estimated 2019 population of 382,378 which is comparable to 2018 and reflects an increase of 14,248 people since the 2010 Census – the fifth largest increase among all the state's counties. Ranking 184th in population out of 3,142 counties in the nation, Butler is among the top six percent of all U.S. counties in terms of total population. Served by rail lines, interstate highways, two nearby international airports and high-speed fiber-optic data communications, Butler County is an ideal location for businesses to locate and prosper.

Taxpayers are benefitting from the County's bond rating. Moody's Investors Service upgraded Butler County to its highest level, Aaa, in late 2018. This bond rating – comparable to an 800-level personal credit score – allows the County to get favorable interest rates on new capital projects like roads and buildings and on refinancing existing debt.

According to the latest data from the U.S. Bureau of Labor Statistics (BLS), the average weekly wage in Butler County increased 3.1 percent from third quarter 2018 to third quarter 2019, to \$945. Butler County's average wage was the 9th highest in the state. Hamilton county was tops with an average wage of \$1,186. The average weekly wage in Ohio was \$976 during the third quarter of 2019. The BLS reported that Butler County's third quarter 2019 employment total was 158,338, up nearly two percentage points over the 2018 employed number of 155,561.

Butler County was again well represented on the 2019 Deloitte Cincinnati USA Top 100 list of the largest privately owned businesses in the Cincinnati region (based on 2019 revenue).

Performance Automotive Network of Fairfield slipped one spot to 4th on the list but remained the top ranked Butler County business.

Lithko Contracting of West Chester Township, up from 23 to 21

Baker Concrete Construction of Monroe, moved up one at 8th

Cohen Recycling of Middletown, moved up to 33 to 25

Hightowers Petroleum of Middletown, moved up from 39 to 28

Pilot Chemical Co. of West Chester, moved up from 35 to 33

Totes Isotoner of West Chester, moved down two to 37

Republic Wire, moved up from 43 to 40.

Ohio became the top-rated state in the nation in its ability to attract new economic development per capita, according to Site Selection magazine's Governor's Cup 2019. Ohio also earned the No. 2 spot for total projects overall, making it the only state to place in the top three in both categories.

The state jumped to the top spot per capita from No. 3 in 2019 based on criteria that measures new business projects with significant impact, including headquarters, manufacturing plants, R&D operations and logistics sites.

Developers continue to capitalize on Butler County's proximity to major interstates by investing in new distribution centers, warehouses, and business space – with the help of local government funding.

According to published reports, the Tri-County Market, which includes Fairfield and West Chester Twp., among other communities, continued to see industrial construction projects go up. It was estimated that more than 1.7 million square feet of industrial space was constructed in 2019, including approximately 1.2 million square feet for West Chester Trade Center I, II and III along Ohio 747 between Smith Road and Union Centre Boulevard in

Amazon, which built a 1.3 million-square-foot facility in Monroe, announced in June that it was hiring for more than 750 positions.

At the same time, Kroger and Ocado celebrated the official groundbreaking for the first-ever U.S. high-tech customer fulfillment center in Monroe. The 335,000-square-foot facility with digital and robotic capabilities will be a collaboration between the company, America's largest grocery retailer, and U.K.-based Ocado, which is one of the world's largest dedicated online grocery retailers. Referred to as "the shed" the \$55 million facility will be the first of 20 in America. It is expected to create more than 400 new jobs when it opens in spring 2021.

As far as corporate headquarters, Pilot Chemical Company, one of the largest privately held companies in Greater Cincinnati, moved its headquarters in mid-2019 from Hamilton County into about 36,000-square-feet of office space in West Chester. Located in the Centre Pointe Office Park, the company's new headquarters occupies the entire fourth floor and a portion of the third floor of the 121,000-square-foot Centre Pointe III building.

Midwest-based food manufacturer SugarCreek announced in October 2019 that it is investing in its Butler County location on Thunderbird Lane in West Chester, adding 120 new jobs and \$36 million in its food manufacturing business. SugarCreek's \$36 million investment includes the addition of two new product lines and 15,000 square feet of office space, as well as significant modifications to its existing production capabilities. As a result of its investment and jobs commitment, the Ohio Tax Credit Authority voted to approve a seven-year, 1.193 percent Job Creation Tax Credit for the company.

Mercy Health-Fairfield Hospital opened its new \$7.5 million medical office complex in Liberty Twp. in October at 4652 Partners Place near the corner of Ohio 4 and Kyles Station Road.

Pharmacy benefit manager Express Scripts moved all its 304 employees from its Warren County operations to Fairfield. The move was expected to boost staffing at the company's Fairfield location at 4865 Dixie Highway from 452 employees to 756 employees. That will jump the company to No. 7 on the city's list of Top 10 employers.

Also in Fairfield, the Fisher Group received a seven-year, 65 percent tax abatement in early 2019 for a large, multi-phase expansion which will see 100 new jobs created within three years and two new buildings – a 30,000-square-foot manufacturing facility and a 20,000-square-foot corporate headquarters. According to published reports, more phases through 2023 include two more buildings and upwards of 400-500 employees when completed. The Fischer Group is the umbrella company for nine businesses that take product ideas from "idea to shelf" for clients, according to owner Al Fisher. They have reportedly developed more than 100 products.

While many businesses are receiving tax incentives and taking advantage of taxpayer funded infrastructure improvements, perhaps the project with the most government entanglement is the Spooky Nook at Champion Mill indoor sports complex and convention center in Hamilton, which broke ground in October 2018 and is expected to open in late 2021 and employ 100 full-time staff, plus more than 400 part-timers. The entire Spooky Nook project is estimated to cost \$144 million - including a more than \$26 million investment by Hamilton for loans, construction, utility and road improvements, and more. The Hamilton Community Foundation has also pledged \$13 million of its investment assets to help Spooky Nook secure a bank loan. In August 2019 the Butler County Visitors Bureau approved a \$1.5 million contribution to the project to be paid out over 15 years. The Butler County Commissioners pledged to invest \$2.5 million in 2021 toward the project, which is expected to contain 230,000 square feet of convention space, a 200-room hotel, restaurants and retail space. The convention space would be the second largest in the region, behind only the Duke Energy Convention Center in downtown Cincinnati. The county is also helping the project through the port authority. Estimates are the developer can save about \$3.8 million in sales taxes on construction materials with the port's help. In turn the port is expecting to collect about \$770,000 in fees from the deal. The Hamilton project will be similar to Spooky Nook Sports, which opened in 2013 near Lancaster, Pa. That site had a nearly \$55 million economic impact, including \$15.5 million in revenue and \$39.2 million in off-site ancillary spending by multi-day attendees in 2017, according to an economic impact summary.

MAJOR INITIATIVES

Water System

The water system serves more than 120,000 residential and commercial users in the south east portion of Butler County, including West Chester, Liberty, and Fairfield Townships. Additionally, the system serves wholesale water to the City of Monroe. The water system consists of five pump stations, eleven storage facilities and 656 miles of water lines.

Projects during 2019 included the commencement of construction to replace the failing cast iron water main along Yankee Road from Millikin to Kyles Station Road and Route 4 from Old Kyles Station Road to the entrance of the LeSourdsville water reclamation facility.

Sewer System

The sewer system consists of 788 miles of sewer mains, 31 pumping stations, three satellite treatment plants, and two regional reclamation facilities (WRF). This system transports and treats wastewater and returns clean water to our rivers and streams.

Improvements during 2019 included the commencement of construction to replace over 2,000 feet of the Todhunter Road sanitary trunk sewer and build two sewer pump stations for the West Fairfield Pump Station Project.

Recycling Programs

In 2019, Butler County Recycling & Solid Waste District provided residential recycling programs for hard to manage materials such as Freon appliances, household hazardous waste (HHW), E-Waste and waste tires. Butler County Recycling provided ongoing education to residents about managing seasonal waste, prescription medications, and latex paint. To maintain compliance with Ohio EPA's 'Access to Recycling Goal', Butler County Recycling provides year round community recycling at no cost to consumers at over (30) public recycling sites which accept common household recyclables - paper, glass, plastic and cardboard. Information about the above programs is distributed through digital and print media, at high attendance public events (such as the Butler County Fair) and via the Butler County Recycling Facebook page.

Capital Improvements

The Board of County Commissioners are charged with the responsibility of maintaining the facilities and equipment that serve the primary government offices of the County.

In 2019, development around the Liberty Way I-75 interchange continues to focus on the expansive Liberty Center and medical services. The I-75 corridor in Butler County has many new hospitals and medical facilities that were opened in 2019. In addition to these businesses, Butler County continues to be a hot spot for corporate and industrial development. This growth is attributed to the great infrastructure within Butler County and the many improvements done to create access to the various areas within Butler County. Every year there are infrastructure improvements that add capacity and also are more public friendly and allow for easy transportation in and out of various communities.

FINANCIAL INFORMATION

Basis of Accounting

The County's records are maintained on a cash basis for all funds. At year-end, adjusting entries are prepared for the various funds to convert the cash basis records to the modified accrual basis of accounting for all governmental funds and to the accrual basis for proprietary funds. Modified accrual accounting requires that revenues be recognized when both measurable and available. Expenditures, other than interest and principal on long-term debt, are recorded when fund liabilities are incurred. The accrual basis of accounting used for the proprietary funds recognizes revenues when earned and expenses when incurred.

Internal Control

The County's system of internal accounting controls is designed to provide reasonable, but not absolute, assurance that (1) financial transactions are processed in accordance with management's authorization, (2) transactions comply with County policies and Ohio law, and (3) financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived from their implementation and that the evaluation of costs and benefits require estimates and judgments by management.

Budgetary Control

By early January, the Board of County Commissioners adopts the annual appropriation measure for all funds, except for agency funds. All disbursements and transfers of cash between funds other than agency funds require appropriation authority from the Commissioners. The legal level of control has been established by the County Commissioners at the fund, program, department, and object level. All purchase orders and contracts must be approved by a majority of the Board of County Commissioners except where another board or elected official is given this responsibility by statute.

As contracts and purchase orders are issued to vendors, corresponding amounts of appropriations are reserved by the use of encumbrances to ensure that appropriations are not overspent. Contracts or purchase orders that exceed available appropriations are rejected by the accounting system until additional appropriations are obtained. A description of the various funds and the basis of accounting are included in Note 2 to the basic financial statements.

Cash Balance Level of Reserves Policy

The Board of County Commissioners adopted a reserve policy for the General Fund and Water and Sewer funds. This policy was established to achieve and maintain adequate reserves to ensure adequate cash flow and to minimize the impact on services to citizens during economic ups and downs.

Fund reserves for the General Fund have been defined as the unencumbered year-end cash balance. The level of General Fund reserves is presented as a percentage, based upon the ratio of year-end reserves to the projected general fund budget for the following year. Policy guidelines recommend a reserve level of 15%-20% of the following year's General Fund budget and not drop below 10percent.

In 2019, the Board of County Commissioners established a Budget Stabilization reserve funding at an \$12,000,000 level in the General Fund. The Budget Stabilization reserve was established to stabilize against cyclical changes in revenues and expenditures. The Budget Stabilization reserve balance is separate from the 15-20 percent unencumbered cash balance recommended for the General Fund reserve.

The 2019 general fund reserve ratio is 19.4 percent excluding the Budget Stabilization reserve fund. The General Fund reserve level is within the recommended policy guidelines of 15 -20 percent.

Butler County management recognizes the need to maintain adequate levels of cash in the water and sewer funds, while avoiding the accumulation of unnecessarily high levels of cash over extended periods of time. The policy states the desire of the County to maintain a cash balance equating to not less than one-fourth of the operating and maintenance expenses for the year immediately preceding. The policy reflects management's intentions with regard to minimum cash or fund balances, consistent with covenants continued in the various, currently applicable revenue bond indentures, which covenants essentially refer to cash flows and cash balances when addressing fund requirements, fund balances, and debt service coverage, and other financial matters. According to the policy, the cash balance policy requirement for 2019 was \$11.1 million and the total cash balance of the water and sewer funds was \$57,353,151.

Independent Audit

Included in this report is the Julian & Grube, Incorporated unmodified opinion rendered on the County's basic financial statements as of and for the year ended December 31, 2019. An independent audit of the County's financial statements is part of the annual preparation of the CAFR. This annual independent audit continues to provide a review and comments which strengthen the County's accounting and budgetary controls.

Long-Term Financial Planning

The Commissioners previously established a budget stabilization reserve, permitted by the Ohio Revised Code. The reserve is designed to accumulate currently available resources to stabilize budgets against cyclical changes in revenue and expenditures. The budget stabilization reserve is only an insulator against short-term economic changes and, because of the limitations imposed by the Ohio Revised Code, it could not reasonably protect an entity from long-term economic factors.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Butler County for its comprehensive annual financial report for the year ended December 31, 2018. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

I would like to acknowledge the efforts and dedication of the entire Fiscal Services staff for their contributions to this report. My appreciation is also extended to the Local Government Services Section, each of whom was invaluable once again in adding their expertise and dedication to the project.

We would also like to thank all of the elected officials, department heads, and their staff for their support and assistance in this endeavor. It is truly a group effort that would not be possible without the cooperation of all County departments.

It is the mission of the Auditor's office to bring a high level of professionalism to Butler County government and to better inform and educate its citizens. Through the issuance of this Comprehensive Annual Financial Report, the County remains accountable to the public, and the public trust with which we have been provided, is retained. This report provides a fair representation of the financial condition of the County as of and for the year ended December 31, 2019. We ask for your continuing support of this project and in our efforts to best serve the citizens of Butler County.

Sincerely,

Roger Reynolds, CPA Butler County Auditor

jginc.biz

Independent Auditor's Report

Butler County 315 High Street 6th Floor Hamilton, Ohio 45011

To the Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butler County, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Butler County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the Butler County Port Authority, which represent 77.87 percent, 13.24 percent, and 12.69 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for the Butler County Port Authority, is based solely on the report of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to Butler County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of Butler County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butler County, Ohio, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General, Mental Health and Addiction Recovery Services Board, Developmental Disabilities, Job & Family Services/Children Services Agency, and Residential Incentive Districts and Tax Incremental Financing funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Butler County Independent Auditor's Report Page 2

Emphasis of Matter

As discussed in Note 24 to the financial statements, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of Butler County. Furthermore, as discussed in Note 3 to the financial statements, Butler County chose to utilize GASB No. 95, allowing them to postpone the implementation of any newly applicable GASB pronouncements until the reporting date of December 31, 2020. We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis, schedules for infrastructure assets accounted for using the modified approach*, and schedules of net pension and other post-employment benefit liabilities/asset and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on Butler County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 26, 2020, on our consideration of Butler County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Butler County's internal control over financial reporting and compliance.

Julian & Sube, the.

Julian & Grube, Inc. August 26, 2020

This Page is Intentionally Left Blank.

Management's Discussion and Analysis offers an introspective look at the finances of Butler County for the year ended December 31, 2019 and provides a readable overview of the County's financial performance. In addition to the information presented here, readers are also encouraged to review the transmittal letter, found on page iv, and the County's financial statements, beginning on page 15, for a more complete picture of Butler County's financial performance.

Financial Highlights

Key financial highlights for 2019 are as follows:

- The net position for the County increased to 20.0 million in 2019. The increase is attributed to higher program revenues and general revenues and a slight increase in a total expenses.
- The overall financial position for Butler County's operating fund, the General Fund, increased by \$12.3 million in 2019. This increase was primarily due to an increase in charges for service, and increased investment earnings.
- At December 31, 2019, governmental funds ending balance of \$233.5 million was higher than the same balance one year ago. Increases can be attributed to an increase in charges for services, and Capital Grants.
- Total governmental funds expenditures increased in 2019 by \$.7 million due to higher expense cost for county development and economic development initiatives in 2019.
- At December 31, 2019, Butler County had a total of \$83.3 million (excluding premiums and discounts) in outstanding long-term debt, 20.1% lower than the prior year. Governmental activities accounted for \$24.4 million, while \$58.9 million helped fund business type activities.

Overview of the Financial Statements

This discussion and analysis introduces you to Butler County's basic financial statements, which are made up of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. Other supplementary information is also contained within this report, including required supplementary information (RSI) on pension and infrastructure, the combining financial statements, individual fund schedules and statistical information.

Government-Wide Financial Statements

Butler County's government-wide financial statements include a Statement of Net Position and a Statement of Activities, which report the financial activities of the Butler County government as a whole, giving the reader a summary of County finances with a view of the bottom-line results of the County's operations. These statements are now prepared using the economic resources measurement focus and the accrual basis of accounting, similar to financial statements prepared in the private sector. As a result, all assets and deferred outflows of resources and liabilities and deferred inflows of resources of the County are accrued, and revenues and expenses are reported in the current year regardless of when the resulting cash flows occur.

The County's financial activities are identified in the government-wide financial statements as governmental activities or business-type activities.

Governmental Activities

Governmental activities constitute the majority of the County's operations and are financed primarily by operating grants, taxes, charges for services, capital grants, and other intergovernmental revenues. Butler County's governmental activities are accounted for in governmental funds and are classified as follows:

<u>Legislative and Executive</u> - general government operations including the offices of the Commissioners, Auditor, Treasurer, Prosecutor, Recorder, department of development, public defender, information services, board of elections, maintenance department, economic development, and records center.

<u>Legislative and Executive-Intergovernmental</u> – compensation agreements related to tax incremental financing and residential incentive districts where the county is paying the various school districts and townships.

<u>Judicial</u> - court related activities including the operations of the common pleas court, probate court, area courts, juvenile court, domestic relations court, municipal court, court services, court of appeals, and clerk of courts.

<u>Public Safety</u> - activities associated with the protection of the public including the sheriff's operations, juvenile detention center, adult probation department, County paramedics, office of the coroner, and the criminal justice board.

<u>Public Works</u> - activities associated with maintaining county roads and bridges, the Butler County Regional Airport, litter control, and other associated community grant programs.

<u>Public Works Intergovernmental</u> - activities associated with maintaining county roads and bridges where the County is paying various entities with Butler County.

<u>Health</u>- activities aimed at serving the public health, including activities provided by the Board of Developmental Disabilities, Mental Health Board, and the Alcohol and Drug Addiction Services Board.

<u>Human Services</u>- activities related to the provision of various forms of services and assistance to individuals, children, and families, including services provided or funded by the County Care Facility, Elderly Services Levy, Veterans Service Commission, Children Services Agency, Child Support Enforcement Agency, and the Department of Job and Family Services.

<u>Conservation and Recreation</u>- activities associated with conserving and maintaining the beauty of county lands, including the services provided through the Ohio State Agriculture Program and the Butler County Soil and Water Conservation District.

Interest and Fiscal Charges- activities related to expenditures on County bonds and notes for interest and related costs to issue debt.

Business-type activities

Business-type activities are those activities accounted for in enterprise funds, including the County's Water and Sewer operations. Business-type activities rely on user fees and other charges to wholly, or to a large extent, fund their operations.

Statement of Net Position

The Statement of Net Position reports all assets and deferred outflows of resources, and liabilities and deferred inflows of resources of the County, with net position being the difference between all elements. This statement is useful when evaluating the financial condition of the County. Monitoring the changes to net position over time is one indication of whether the County's financial condition is improving or deteriorating.

Statement of Activities

The Statement of Activities reports, for the current year, the changes to the County's net position, which is the difference between all other elements in a statement of financial position. However, the format of this statement departs from the more traditional "revenues less expenses equal net position" format you may see in the private sector.

Generally, private sector goals are to generate income, or simply put, maximize revenues. As such, private sector operating statements present revenues first. Expenses, which reduce revenue maximization, are presented next as a deduction against those revenues.

Public sector goals are different in that servicing the needs of the citizens, or spending, is what drives the financial activities. Thus, the Statement of Activities is designed to present expenses before revenues in order to emphasize that service activities dictate the level of resources that are required to be generated.

In the County's Statement of Activities, resources used to fund service activities are identified as either program revenues (resources received from people receiving services or in the form of operating and capital grants and contributions and interest) or general revenues (all non-program revenues, including taxes). Butler County operations have also been classified into distinct governmental or business-type service activities.

These activities are reported in a format that allows the reader to see the extent to which each activity is supported or self-financed by program revenues or drawn from the general resources of the County. Therefore, the Statement of Activities is useful in assessing the level of self-sufficiency of the various governmental or business-type activities versus management established performance benchmarks.

The government-wide financial statements begin on page 14 of this report.

Fund Financial Statements

A fund is an accounting term referring to a segregated group of accounts used to account for and to assist with the management of financial resources received. Various funds may be established to account for specific activities or objectives of the County, and to demonstrate compliance with finance related legal requirements associated with those resources.

Fund financial statements provide additional and more detailed information about the County with an emphasis on major funds. Major funds are those governmental or enterprise funds that have been determined to be the most significant based on a defined set of financial criteria, as well as any other funds deemed to be particularly important to readers because of public interest or to ensure consistency between years. Information is presented separately in the fund financial statements for each of the major funds. Information for all non-major funds is aggregated and presented in a separate column on the fund financial statements. Detailed data for each of the non-major funds is provided in the combining statements and individual fund schedules that follow the basic financial statements.

All funds of Butler County are classified into one of three fund categories: governmental, proprietary or fiduciary.

<u>Governmental Funds</u> - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements, but use a different measurement focus. Governmental fund financial statements are prepared using the current financial resources measurement focus and modified accrual basis of accounting, a short-term view focusing on the flow of monies into and out of the funds and the year-end balances available for near-future spending. This is in contrast to the governmental fund financial statements that incorporate a longer-term focus. The reconciliations included in the governmental fund financial statements compare the governmental funds information to the governmental activities information as reported in the government-wide financial statements.

Butler County maintains numerous individual governmental funds, the following of which are considered major funds: General, Mental Health and Addiction Recovery Services Board, Developmental Disabilities, Job and Family Services/Children Services Agency and Residential Incentive Districts and Tax Increment Financings. The basic governmental fund financial statements begin on page 17 of this report.

<u>Proprietary Funds</u> - The County uses two types of proprietary funds, enterprise funds and internal service funds. Since the proprietary fund financial statements are prepared using the same measurement focus and basis of accounting as the government-wide financial statements, they provide the same type of information, only in greater detail.

Enterprise funds are used to account for the County's water and sewer operations, which are the business-type activities reported in the government-wide financial statements.

Internal service funds are used to account for the financing of services provided by one department to other departments in the county on a cost-reimbursement basis. The County uses internal service funds to account for its health insurance and workers' compensation. Since these programs mostly benefit governmental rather than business functions, they have been included in the governmental activities in the government-wide financial statements. The basic proprietary fund financial statements begin on page 30 of this report.

<u>Fiduciary Funds</u> -Fiduciary funds are used to account for assets held by the County as an agent for outside parties and are accounted for in a manner similar to proprietary funds. Fiduciary funds are not presented in the government-wide financial statements as their resources are not available to support the County's governmental or business-type activities. The basic fiduciary fund financial statements begin on page 34 of this report.

Notes to the Financial Statements

The notes to the financial statements are an integral part of the basic financial statements, providing additional important disclosures essential for a complete understanding of the financial data reported in the government-wide and fund financial statements. The notes to the financial statements begin on page 35 of this report.

To summarize, the government-wide financial statements report the County's activities as a whole, using a long-term, economic resources measurement focus while the fund financial statements report financial activities in more detail, with a shorter-term focus and emphasis on major funds. More simply, the primary focus of government-wide financial statements is demonstrating operational accountability, while the primary focus of the governmental fund financial statements is demonstrating fiscal accountability. Butler County management believes these basic financial statements provide the reader with the best information yet available to assess the level of Butler County's fiscal and operational accountability, both short-term and long-term.

Government-Wide Financial Analysis

The County recorded a \$20 million increase in total net position in 2019 due to governmental and business-type activities. Governmental activities increased \$11.8 million while business-type activities increased \$8.2 million. Capital assets are used to provide services to residents and do not represent assets that may be used for future spending.

The net pension liability (NPL) is the largest single liability reported by the County at December 31, 2019, and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The County adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,". For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting the net pension asset and deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability (asset) and the net OPEB liability to equal the County's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability (asset) and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the County is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting.

Total assets increased \$35.2 million in 2019 as shown in table 1. Current and other assets increased \$23.1 million in 2019, while capital assets net, saw an increase of \$12.1 million. Total liabilities increased \$66.5 million primarily due to

an increase in pension and OPEB liabilities. Total deferred inflows of resources decreased \$14.8 million due to a increase in the and net pension and OPEB liabilities, as well as an increase in real estate tax receivables in 2019.

The significant increase in total deferred outflow of resources in 2019 was due to the difference between projected and actual earning on investments related to the County's net pension liability for OPERS. The net pension liability increase represents the County's proportionate share of the OPERS traditional and combined plan's unfunded benefits. As indicated above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability.

Governmental Activities: Total governmental assets increased \$37.4 million in 2019. Current and other assets were increased \$28.9 million due primarily to an increase in the overall cash and cash equivalents in governmental activities. Capital assets net, saw an increase of \$8.5 million due to asset acquisitions exceeding accumulated depreciation from capital projects. Total liabilities saw an increase of \$72.8 million due primarily to an increase in net pension liability and OPEB.

The County's governmental program expenses exceeded program revenues in 2019 by \$133 million, and with an infusion of \$145.3 million of general revenues. Program revenues supporting governmental activities increased overall during 2019 to \$148.5 million. Operating Grants, and Capital Grants increased in 2019, the amounts are as follows, \$8.3 million, \$2 million respectively. In 2019 there was a slight decrease in Charges for Service in the amount of \$.3 million. The increases in grant dollars are due to federal dollars from the Ohio Department of Transportation for road projects.

In addition, expenses increased \$13 million in 2019, with the largest areas of increase being in Legislative and Executive where this increase represents dollars contributed by the County for operations and where the County will not own the asset upon completion and maintenance costs for county roads, bridges and culverts, according to the modified approach for infrastructure.

General revenues increased \$2.7 million in 2019. Property Tax had the largest increase at \$2.6 million. In addition, grants and entitlements also saw an increase in 2019 while Sales Tax, Local Tax and Payments in Lieu of taxes saw decreases in 2019.

Table 2 (Continued)

Business-Type Activities: The County's sewer and water operations constitute the business-type activities. In 2019, the Water and Sewer combined funds net position increased \$8.2 million from 2018.

Fund Analysis

As mentioned above, various funds have been established to account for specific County activities or objectives. A summary of the most significant fiscal activity in the County's funds follows.

Governmental Funds: Governmental funds report County financial activity focusing on the near-term flow of expendable resources and assists in demonstrating fiscal accountability. Thus, fund balances provide us with a snapshot of what resources are available at year-end for near-term spending, and the analysis of changes to fund balances over time, assists in evaluating the degree to which a specific program, or a group of activities, is "living within its means."

At year-end the governmental funds combined ending fund balance of \$233.5 million was higher than the same balance just one year ago, a \$30.2 million increase overall. Total governmental fund expenditures increased from \$267.1 million in 2018 to \$267.9 million in 2019.

The overall financial position for Butler County's operating fund, the General Fund, increased by \$12.3 million in 2019 primarily due to charges for service, and increased investment earnings. General Fund expenditures increased \$3.9 million in 2019 primarily due to public safety expenses for contracts and upgrades to the current dispatch services as well as juvenile detention center costs. Legislative and Executive and Judicial expenses increased slightly from 2018. Transfers out decreased \$0.8 million as the General Fund contributed money to other funds primarily for matching grant dollars.

Mental Health and Addiction Recovery Services Board – This fund is being reported as a major fund due the grants and additional funding for mental health issues as well as addiction recovery services in 2019. This fund was not reported as a major fund in 2018.

The Butler County Developmental Disabilities (BCDD) Fund increased \$5.0 million as intergovernmental revenues increased in 2019.

The Job and Family Services/Children Services Agency Fund increased 3.0 million in 2019. This increase is attributed to the additional intergovernmental revenues received in 2019 and a reduction to expenditures in 2019. Revenues remained flat at \$41.9 million in 2019. Expenditures decreased in 2019 by .2 million in 2019.

The Residential Incentive Districts and Tax Incremental Financing Fund, revenues came in at \$12.4 million for 2019. Expenditures were \$9.5 million for 2019. The fund balance decrease in 2019 is in line with the decrease in payment in lieu of taxes.

Only a portion of the \$233.5 million fund balance in the governmental funds is available for spending in next year's budget. The funds that are not available to spend are referred to as restricted, committed and assigned fund balance, and at December 31, 2019, the restricted, committed, and assigned fund balances for the governmental funds had increased to \$160 million.

The nonspendable fund balance of \$4.4 million includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact such as prepaid items, materials and supplies inventory, loans receivable, trust funds and interfund loans. The assigned fund balance of \$3.0 million, consisting of encumbrances is intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed.

Proprietary Funds: The proprietary funds financial statements provide the same information as seen in the governmentwide financial statements, only in more detail. A summary of financial activity occurring in the Sewer and Water Enterprise Funds follows.

Sewer Fund: The Sewer Fund's \$34.3 million in current assets at the end of 2019, which is principally comprised of \$31.2 million in equity in pooled cash and cash equivalents, as compared with current liabilities of \$4.4 million at yearend, leaving a \$29.9 million safety margin of working capital (current assets less current liabilities) for ongoing operations, additional debt service, and contingencies.

Operating revenues during 2019 were \$19.9 million, while operating expenses were \$22.7 million resulting in an operating loss of \$2.8 million for 2019. In comparing 2019 to 2018, depreciation and amortization expense continues to be the largest category and, for 2019, at \$9.2 million, remaining fairly consistent. The next-largest category, personal services, comprising employees' salaries and fringe benefits, increased slightly in 2019 from \$6.3 million in 2018 to \$7.4 million. Contractual services increased slightly from \$3.6 million in 2018 to \$4.2 million in 2019, materials and supplies remained fairly consistent as well at \$1.3 million for 2019.

Water Fund: The Water Fund's current assets of \$24.3 million consisted largely of equity in pooled cash and cash equivalents at \$20.7 million. The current assets of \$24.3 million compared to current liabilities of \$5.8 million which leaves a safety margin of working capital of \$18.5 million for ongoing operations, additional debt service, and contingencies.

Operating revenues during 2019 were \$22.0 million. Operating expenses were \$21.6 million resulting in operating income of \$.4 million for 2019. Contractual services made up the largest category of operating expenses at \$9.7 million for 2019. Depreciation and amortization expense decreased to \$7.8 million. Personal services, comprised of employees' salaries and fringe benefits, increased slightly to \$3.1 million in 2019. Overall net position increased \$5.0 million as expenses were short of revenues in 2019.

General Fund Budget Analysis

Several events influenced the budgetary process and actual results for the year of 2019. The General Fund's final 2019 appropriation budget, at \$96.4 million excluding other financing uses, was 7.7% higher than the original appropriation budget. The final budget included an additional \$2.4 million for legislative and executive and an additional \$3.7 million for public safety. The increases in budget were due primarily to unexpected maintenance items, legal fees, a telephone

system upgrade, the establishment of a centralized human resources department and negotiated salary and benefit increases. The remaining County General Fund final budget and actual items remained fairly consistent with original and final budget estimates.

Capital Asset and Debt Administration

Capital Assets

Capital assets include County owned land and easements, land improvements, buildings and improvements, furniture, fixtures and equipment, vehicles, infrastructure, water rights, water and sewer mains, and construction in progress. Butler County's total investment in capital assets for governmental and business-type activities amount to \$689 million as of December 31, 2019. Table 3 contains a summary of capital assets as of December 31, 2019, compared to assets owned by the County at year-end 2019.

| | Governmental Activities | | | | Business-typ | tivities | Total | | | |
|-----------------------------------|-------------------------|-------------|----|-------------|-------------------|----------|----------------|-------------|----|-------------|
| | | 2019 | | 2018 | 2019 | | 2018 | 2019 | | 2018 |

Table 3 Butler County Captial Assets

Significant capital asset activity occurring during 2019. See note 10 for additional capital asset disclosure.

<u>Infrastructure Assets</u>: Infrastructure assets refer to county roads, bridges, and culverts, and are reported in the governmental activities. Butler County, through the Engineer's Office, maintains an infrastructure asset system that incorporates the "modified approach" method of reporting infrastructure as provided for in Governmental Accounting Standards Board Statement No. 34. Under the modified approach, the County does not use historical cost-based depreciation as a measure of the cost of use for infrastructure assets. Instead, all expenditures made for infrastructure assets that preserve the useful life of the assets are expensed during the year incurred. Expenditures that increase the capacity or efficiency of the infrastructure assets (additions or improvements) are capitalized. The County ensures that infrastructure assets are being preserved at, or above, previously established condition-levels by performing periodic conditional assessments of the infrastructure. Based on these assessment findings, a budget is prepared for the maintenance and repair of these assets. During 2019, the County budgeted \$16.6 million for roads, \$2.0 million for bridges and \$.2 million for culvert improvements.

Butler County manages its roadway system through the performance of three year conditional assessments, using factors such as age of pavement, surface condition and traffic volume and type. Roads are assigned a pavement rating based on a scale of one to four, with one being excellent and four being poor. It is the County's policy to maintain the county roadway system where at least 90% of the roads have a rating of three (3) or better. A seventeen-year paving plan is developed in order to keep the County's roads at condition levels established per policy. Actual maintenance spending on county roads in 2019 was \$18.7 million and the most recent roadway system assessment (2017) indicates that 95% of county roads are currently assessed at a rating of three or better.

The County manages its bridges using a General Appraisal and Operational Status condition coding system as developed by the Federal Highway Administration. The condition of a bridge is rated from zero to nine, with nine being excellent condition and zero meaning the bridge is in a failed or closed condition. Bridges are inspected on an annual basis as required by Ohio law and rated for infrastructure GAAP reporting every three years.

It is the policy of the County Engineer to maintain the bridges such that 85% of the structures have a General Appraisal rating of five (5 - Fair) or better. The County spent \$2.2 million in 2019 to maintain the bridges and the most recent

bridge system assessment (2017) indicates that 94.3% of County bridges are currently assessed at a rating of five or better.

The Engineer inspects culverts on a three year basis, and conditional assessments are given based on a rating scale of one to four, with one meaning the culvert is in good condition and does not require repair, while a four rating means the culvert is in critical condition and is no longer functioning as designed. It is the policy of the County Engineer to maintain 75% of the culverts in a condition of two (2 - Fair) or better. The County spent \$.2 million in 2019 to maintain culverts and the most recent culvert system assessment (2017) indicates that 83% of the culverts are currently assessed at a rating of two or better. Additional information regarding capital assets can be found in Note 10 to the financial statements and the Required Supplementary Information on page 106 for additional infrastructure information.

Long-Term Debt

At December 31, 2019, Butler County had a total of \$83.3 million (excluding premiums and discounts) in outstanding long-term debt, 21% lower than the prior year. Funded governmental activities accounted for \$24.4 million, while \$58.9 million helped fund business type activities. Governmental activities long-term debt dropped \$10.6 million due to scheduled maturities and the County's aggressive debt extinguishment plan. Business-type activities long-term debt decreased by \$11.2 million during 2019 due to the difference between scheduled maturity payments, as well as the refunding of various water debt issues. See Note 17 for additional debt disclosure related to refundings.

| Table 4 |
|------------------------------------------|
| Butler County Outstanding Long-Term Debt |

The County's long-term debt consisted of \$41.5 million in obligations backed by the full faith and credit of Butler County, including \$23.3 million in general obligation bonds, \$14.9 million in water judgment bonds, and \$3.3 million in special assessment bonds, for which Butler County is liable in case of default of the property owners subject to the assessment. A total of \$30.2 million of the total outstanding debt represent bonds secured by specified revenue sources, including water and sewer revenues, and sales tax revenues.

Ohio law, through its direct and indirect debt limitations, restricts the amount of debt the County may issue. The County's total direct debt limit at December 31, 2019 was \$205.0 million and the legal debt margin (debt limit minus net debt) was \$200.2 million. The County's unvoted direct debt limit was \$82.6 million and the unvoted direct debt margin was \$77.8 million. The debt margins for total debt and unvoted debt reflect a slight increase over the previous year due to reductions in general obligation bonds and notes.

Ohio's indirect debt limitation, referred to as the ten-mill limitation, further limits the total unvoted general obligation debt that may be issued among overlapping subdivisions to a maximum of 10 mills per dollar of assessed valuation. Since the 10 mills must be shared by the overlapping subdivisions, and is available on a first-come, first serve basis, the level of debt issued by any overlapping political subdivision thus affects the County's ability to issue unvoted general obligation debt.

For example, depending on how much room is available under the 10-mill limitation, a relatively small debt issuance by an overlapping subdivision with a low assessed valuation could significantly hinder, or temporarily lock out, the County's ability to issue unvoted general obligation debt. This limitation would continue until unvoted general obligation debt was retired by either subdivision, or until the total assessed value of the subdivision or the County increased, which occurs around December of each year. The County continues to monitor the debt activity of all overlapping subdivisions for the potential effect on future financings.

In 2018, Butler County taxpayers benefited from the County's upgraded bond rating. Moody's Investors Service upgraded Butler County to its highest level, Aaa, in late 2019. Butler County's general obligation bond issues are rated at Aa1 and the sales tax bonds are Aa2 by Moody's Investors Services. The water and sewer district currently maintains a credit rating from Moody's of Aa3.

Besides the long-term bonds outstanding, the County also is liable for other long-term obligations in the form of claims payable, compensated absences payable and long term contracts payable. Claims payable at year-end was \$4.2 million representing outstanding workers' compensation and health insurance claims against the County. Compensated absences payable at year-end was \$9.7 million for governmental activities and \$0.6 million for business-type activities. The total liability for claims, and compensated absences payable for governmental and business-type activities was \$14.5 million at December 31, 2019.

Contracts payable represent long term agreements for the payment of bonds issued by the Butler County Transportation Improvement District, Liberty Community Authority, and the Butler County Port Authority for economic growth. The County has pledged revenues from the Voice of America TIF as one of the primary sources of revenue for these securities. The liability remaining at the end of 2019 for these contracts is \$35.4 million. Additional information about the County's long-term obligations can be found in Note 17 to the financial statements.

Economic and Other Potentially Significant Matters

In 2019, development around the Liberty Way I-75 interchange continues to focus on the expansive Liberty Center and medical service providers within Butler County. Christ Hospital Medical Center-Liberty Twp. was completed in 2019 and sits just across I-75 from Cincinnati Children's Liberty Campus and just up the road from West Chester Hospital.

Also planned for the area is a Tri-Health medical center, a project set to be developed just across the street in West Chester Twp. That development is expected to include a mixed-use of medical buildings, a four-story hotel and various retail components on 57 acres along Cox Road just north of Liberty Way.

In 2019, the County made payments to the Series C bonds that were pledged for the Liberty Center project as well as the OWDA obligations. These payments are part of a secondary pledge that the County had agreed to in the contract. This pledge would kick in if the LCA revenues fell short. The County brought on an additional \$2,223,460 in LCA obligations in 2019, based on the fiscal reliance of the County's secondary pledge. See NOTE 17 for additional disclosure.

Requests for Information

The Management's Discussion and Analysis is intended to provide a general overview of Butler County's finances. Questions concerning any of the information provided in this report, or requests for additional financial information should be addressed to the Butler County Auditor, 130 High Street, Hamilton, Ohio, 45011.

| Butler County, Ohio Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2019 | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|--------------------|
| Net Change in Fund Balances - Total Governmental Funds | | \$30,155,526 |
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are: Capital Asset Additions Current Year Depreciation | 17,351,108 (8,900,789) | |
| | | 8,450,319 |
| Because some revenues will not be collected for several months after the County's y they are not considered "available" revenues and are deferred in the governmental Delinquent Property Taxes | | |
| Sales Taxes | (3,228,714) | |
| Payment in Lieu of Taxes | 2,370 | |
| Due From Other Governments Other Local Taxes | (662,471) 9,979 | |
| Special Assessments | (215,474) | |
| Charges for Services | (206,003) | |
| Interest Revenue | 237,208 | |
| | | (4,217,814) |
| Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. | | |
| Bond principal retirement | 6,715,000 | |
| Notes principal retirement | 2,600,000 | |
| Special assessment principal retirement Payment to Refunded Bond Escrow Agent | 459,770 1,349,750 | |
| Loan principal retirement | 124,288 | |
| Total long-term debt repayment | | 11,248,808 |
| Some expenses reported in the statement of activities do not require the use of curror resources and therefore are not reported as expenditures in the governmental func- | ls: | |
| Accrued Interest | 17,899 | |
| Amortization of Gain/Loss on Refunding Amortization of Bond Premiums/Discounts | (105,886) 315,643 | |
| Total | 515,045 | 227,656 |
| Bond Proceeds are reported as other financing sources in governmental funds and t contribute to the change in fund balances. In the government-wide statements, how issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. Bonds Proceeds | | (634,000) |
| Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows. | 10.407.700 | |
| Pension OPEB | 12,407,780 113,563 | |
| Total | 110,000 | 12,521,343 |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability (asset) are reported as pension expense in the statement of activities. | | |
| Pension | (37,844,891) | |
| OPEB Total | (7,475,754) | (45,320,645) |
| | | |
| Some items reported in the statement of activities do not require the expenditures in governmental funds. These activities consist of: Compensated Absences | (803,101) | |
| Long Term Contracts Payable | (830,012) | (1,633,113) |
| The internal service funds used by management to charge the costs of insurance to individual funds. The net revenue (expense) of the internal service funds are reported with governmental activities. | | 990,756 |
| Change in Net Position of Governmental Activities | - | \$11,788,836 |
| Change in ree rosmon or Governmental Activities | = | <i>411,100,000</i> |

NOTE 1 – REPORTING ENTITY

REPORTING ENTITY

Butler County, Ohio (The County) was created in 1803. The County is governed by a board of three commissioners elected by the voters of the County. The County Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other elected officials include the Auditor, Treasurer, Recorder, Sheriff, Coroner, Clerk of Courts, Prosecutor, Engineer, twelve Common Pleas Court Judges and three County Court Judges.

The services provided by the above officials and their departments comprise the primary governmental unit of the County. They have therefore been included as part of the reporting entity.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the County are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Butler County, this includes the Board of Developmental Disabilities, the Job and Family Services/Children Services Agency, the Mental Health and Addiction Recovery Services, the Veterans Service Board, the Board of Elections, Emergency Management Agency, and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the County, in that the County approves the organizations budget, the issuance of its debt, or the levying of its taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Discretely Presented Component Units

The component units column in the entity-wide financial statements identify the financial data of the County's component units, Butler County Land Reutilization Corporation, Liberty Community Authority, Butler County Port Authority and the Butler County Visitors Bureau. They are reported separately to emphasize that they are legally separate from the County.

Butler County Land Reutilization Corporation

The Butler County Land Reutilization Corporation was created by resolution of the County Commissioners and organized under chapter 1724 of the Revised Code to act on behalf and cooperate with the county in exercising the powers and performing the duties of the county under chapter 5722 of the Ohio Revised Code. The purpose of the organization is to reduce the existence of nonproductive land within Butler County. The corporation takes title of nonproductive properties and gives them to the requesting cities participating in the program. The cities will improve the properties and return them to a revenue generating status or devote them to public purpose.

The Butler County Commissioners and Butler County Treasurer comprise the voting majority of the land reutilization corporation. Because the County makes up a voting majority of the board, the County is able to impose its will on the operations of the Land Bank. The component unit column of the financial statements identifies the financial data of the discretely presented component unit. It is reported separately to emphasize that it is legally separate from the County. Separately issued financial statements can be obtained from the Butler County Treasurer, 315 High Street, 10th floor, Hamilton, Ohio 45011. Disclosures can be found in NOTE 25.

Liberty Community Authority

The Liberty Community Authority (the "Authority") is a community authority created pursuant to Chapter 349 of the Ohio Revised Code (ORC). Liberty Center Holdings, LLC (the Developer) filed a petition for creation of the Authority with the Butler County Commissioners. The petition was accepted on August 22, 2013. The Authority was organized as a body corporate for the purpose of fostering development of a mixed use retail space known as Liberty Center located in Butler County.

The Butler County Commissioners appoint four of the seven voting members of the Liberty Community trustees. In addition, Butler County has agreed to pledge remaining TIF dollars to the repayment of the Liberty community issued OWDA loans. This pledge is a secondary source and will only be used if the Authority does not have sufficient revenues for payment. Because the County appoints a voting majority of the board and a financial benefit/burden relationship exists the Liberty Community Authority is being disclosed as a discretely presented component unit. Separately issued financial statements can be obtained from the Authority's Treasurer, 7100 Foundry Row, Suite 204, Liberty Township, Ohio 45069. Disclosures can be found in NOTE 26.

Butler County Port Authority

The Butler County Commissioners established the Butler County Port Authority pursuant to section 4582.22 of the Ohio Revised code in September of 2004. The Port authority is a body corporate and politic established to undertake various projects that would create or preserve jobs and employment opportunities within the County. The Port Authority Board consists of seven voting members of which four members must have businesses or places of employment within Butler County. The remaining three members of the board need not possess either of the preceding qualifications.

The Butler County Commissioners appoint four of the seven voting members of the Butler County Port Authority Board. In addition, Butler County entered into a contractual agreement to be the primary payee on the Port Authority issued \$11,085,000 Liberty Center Project Series A bonds. These bonds are being paid from Butler County TIF revenues. Because the County appoints a voting majority of the board and a financial benefit/burden relationship exists the Butler County Port Authority is being disclosed as a discretely presented component unit. Separately issued financial statements can be obtained from the Butler County Port Authority, 315 High Street, Hamilton, Ohio 45011. Disclosures can be found in NOTE 27.

Butler County Visitors Bureau

The Butler County Visitors Bureau was established to promote economic activity and development through tourism. The County Commissioners appoint fifteen members to serve on the Convention and Visitor Bureau Board. Nine of the Board members represent local community interests. Three members include representatives from existing Convention and Visitor Bureaus already established in the County. The remaining board members consist of a member from Butler County Metroparks, Butler County Chamber Caucus and a board member recommended by the Commissioners.

The County Commissioners passed a three-percent hotel excise tax in August of 2003 pursuant to the regulations in Ohio Revised Code 5739.09. The hotel tax collections are collected by Butler County and can only be distributed to a Convention and Visitor Bureau according to the statute. The County is responsible for the administration and allocation of the tax. Because the County appoints a voting majority of the board and a financial benefit/burden relationship exists the Butler County Visitors Bureau is being disclosed as a discretely presented component unit. Complete financial statements can be obtained from the Butler County Visitors Bureau, 8756 Union Centre Blvd., West Chester, Ohio 45069. Disclosures can be found in NOTE 28.

The County participates in the following jointly governed organizations, risk sharing pool, insurance purchasing pool and related organizations. These organizations are presented in NOTE 21 to the basic financial statements and are excluded from the accompanying financial statements except as noted.

Transportation Improvement District of Butler County Ohio Kentucky Indiana Regional Council of Governments Butler/Clermont/Warren Workforce Policy Board Community-Based Correctional Facility Southwest Ohio Council of Governments County Risk Sharing Authority (CORSA) Jefferson Health Plan Regional Transit Authority (RTA) Metroparks of Butler County

As the custodian of public funds, the County Treasurer invests all public moneys held on deposit in the County Treasury. In the case of the legally separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered a part of Butler County. Accordingly, the activity of the following districts and agencies are presented as agency funds within the County's financial statements:

Butler County General Health District

The Board of Health is elected by a District Advisory Council comprised of a township trustees, mayors of participating municipalities, and a representative of the county commissioners which oversee the operation of the Health District. The Board adopts its own budget, which is subject to a compliance oriented review by the County. The District hires and fires its own staff, and operates autonomously from the County.

Butler County Soil and Water Conservation District

The Soil and Water Conservation District is statutorily created as a separate and distinct political subdivision of the state. The supervisors of the Soil and Water Conservation District are elected officials authorized to contract and sue on behalf of the District. The supervisors adopt their own budget, authorize District expenditures, and do not tax or issue debt.

Metroparks of Butler County

The District Commissioners are appointed by the Probate Judge of the County. The Commissioners adopt their own budget, authorize expenditures, hire and fire staff, and do not rely on the County to finance deficits. The County is not financially accountable for the District nor is the District fiscally dependent on the County. The District serves as its own taxing and debt issuance authority and is a related organization of the County.

Twelfth District Court of Appeals

The State of Ohio is divided into twelve district courts of appeals. The twelfth district includes the counties of Brown, Clermont, Butler, Warren, Clinton, Fayette, Madison, and Preble. The district court is a separate entity from the County. The three judges who are responsible for the court system are elected in the general election by the populous of the above listed counties. The court system sets its own budget, appoints staff, and relies on the County for only the County's proportionate contribution for operations as required by state statue.

Butler/Clermont/Warren Workforce Policy Board (Area 12)

The Workforce Investment Area (WIA) Twelve is made up of Butler, Clermont and Warren counties. Butler County is currently the fiscal agent for the WIA area which is reported in an agency fund. The duties of the fiscal agent include budgeting, reporting and disbursing grant funding to Clermont and Warren counties as well as Butler County Job and Family Services Agency from the Ohio Department of Job and Family Services.

The State of Ohio required Area Twelve to form a board to set goals, agendas, and come up with a plan to best meet the needs of the program. The board is made up of representatives from the local communities and a commissioner from each County. All expenses involved with the operation of the board are paid by Butler, Clermont, or Warren County as part of the administration cost allotted in the WIA program. The board is a jointly governed organization.

Community-Based Correctional Facility

The Community-Based Correctional Facility serves Butler, Clermont, and Warren Counties. The Judicial Advisory Board includes at least one common pleas court judge from each county. The Community-Based Correctional Facility provides a wide range of programs addressing offender needs such as chemical dependency, education, employment, and family relationships.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Butler County have been prepared in conformity with the accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principals. The more significant of the County's accounting policies are described below.

BASIS OF PRESENTATION

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources.

Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities plus deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

<u>General</u> - This fund accounts for and reports the general operating revenues and expenditures of the County not recorded elsewhere. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of the State of Ohio.

<u>Mental Health and Addiction Recovery Services Board</u> – This fund accounts for and reports the countywide tax levy along with various Federal, State and local funds restricted to provide mental health and addiction recovery services to all citizens of Butler County.

<u>Developmental Disabilities</u> - This fund accounts for and reports the countywide tax levy, federal and State grants restricted to pay the costs of services provided to local citizens with developmental disabilities.

<u>Job and Family Services/Children Services Agency</u> – This fund accounts for and reports the countywide tax levy along with various federal and State grants restricted to support children's services, provide services to the local community for child adoption and foster care needs, provide public assistance to general relief recipients, pay their providers of medical assistance, and pay for certain public social services.

<u>Residential Incentive Districts and Tax Incremental Financing</u> – This fund accounts for and reports the countywide TIF/RID revenues and expenses restricted for development, construction, and maintenance of various development projects within Butler County.

The non major governmental funds of the County account for grants and other resources, whose use is restricted, committed or assigned to a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The County maintains the following enterprise funds:

<u>Sewer</u> - This fund accounts and reports fees collected by Butler County Water and Sewer for the processing and disposal of sewage.

<u>Water</u> - This fund accounts and reports fees collected by Butler County Water and Sewer for providing water services to Butler County residents.

Internal Service Funds

Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service funds report on health insurance programs for medical, dental and vision coverage, and workers compensation.

Fiduciary Funds

The County's only fiduciary funds are agency funds. Agency funds are used to report resources held by the County in a purely custodial capacity. The County's agency funds are primarily established to account for the collection and distribution of various taxes, receipts and fees to other local governments and to account for funds of the Workforce Policy Board, General Health District, Soil and Water Conservation District, Metroparks, Twelfth District Court of Appeals, and the Community-Based Correctional Facility.

MEASUREMENT FOCUS

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide

financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationships between the government-wide statements and the fund financial statements.

Like the government-wide statements, all proprietary fund types are accounted for using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the sources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within 31 days of year-end.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, includes sales tax, property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurs (see NOTE 8). On an accrual basis, revenue from property taxes/revenue in lieu of taxes is recognized in the year for which the taxes are levied or would have been levied (see NOTE 7). Revenue from grants, entitlements, and donations are recognized in the year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales tax, state levied locally shared taxes (including gasoline tax and motor vehicle license tax), charges for services, licenses and permits, fines and forfeitures, grants, interest.

Payments in Lieu of Taxes

The County has entered into several Tax Increment Financing Agreements with developers. In order to encourage improvements, companies and home owners were granted a 100 percent, 30 year exemption from paying any property taxes on the new construction; however, payments in lieu of taxes are made to the County in an amount equal to the real property taxes that otherwise would have been due in that current year. Payments in lieu of taxes are collected through the real estate tax collection cycle. These payments are being used to finance public infrastructure improvements. Additional payments are made to Fairfield City School District, Lakota Local School District, and Ross Local School District since they are impacted by the exemption. A receivable for the amount of the payments estimated to be received in the next tax collection year has been recorded in the respective TIF funds with a corresponding credit to deferred inflows of resources – revenue in lieu of taxes. On a full accrual basis, the portion of collections relating to delinquencies will be reported as Payments in Lieu of Taxes revenue. While on the modified accrual basis, the revenue has been reported as deferred inflows – unavailable revenue.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension and OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include deferred gain on refunding, property taxes, payments in Lieu of taxes, pension, OPEB, and unavailable revenue. Property taxes and payments in Lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2019, but which were levied to finance 2020 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County unavailable revenue includes delinquent property taxes, income taxes, special assessments and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balance to net position of governmental activities found on page 21. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See NOTES 12 and 13)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Cash and Cash Equivalents

Cash resources of the majority of individual funds are combined to form a pool of cash and investments, which is managed by the County Treasurer. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During 2019, investments were limited to, Fifth Third Institutional Government Money Market Mutual Fund, a U.S. Treasury Note, Federal Agency Securities, and Commercial Paper. Investments, except for commercial paper, are reported at fair value which is based on quoted market prices. For investments in open-end mutual funds, the fair value is determined by the fund's current share price. The County's commercial paper is measured at amortized cost as it is a highly liquid debt instrument with a remaining maturity at the time of purchase of less than one year. NOTE 6 provides a detailed disclosure regarding cash, cash equivalents and investments held by the County.

Interest earned on investments is distributed to the General Fund, except as stipulated by the Ohio Constitution or State statute. Interest revenue credited to the General Fund during 2019 amounted to \$7,092,109, which includes \$1,007,362 assigned from other County funds.

Statement of Cash Flows

Funds included within the Treasurer's cash management pool and investments in segregated accounts with original maturities of three months or less when purchased are considered to be cash equivalents.

Cash and Cash Equivalents in Segregated Accounts

The County has segregated bank accounts for monies held separate from the County's central bank account. These depository accounts are presented as "Cash and cash equivalents in segregated accounts".

Cash and Cash Equivalents with Fiscal Agents

The Southwest Ohio Council of Governments is currently holding deposits that belong to the County which are represented by "Cash and cash equivalents with fiscal agents" on the statement of net position- government wide and also found on the fund financial statements in the developmental disabilities major fund.

The County also maintains cash with a fiscal agent at US Bank for the Liberty Community Authority backed OWDA loans as well as the Butler County Port Authority issued 2014 Series C bonds. These dollars are held in escrow as secondary pledge for these pieces of debt. "Cash and cash equivalents with fiscal agents" can be found on the statement of net position- government wide and also found on the fund financial statements in the Bond Retirement-Debt Service Fund.

Inventories and Prepaid Items

On the government-wide financial statements inventories are presented at the lower of cost or market, on a first-in, first-out (FIFO) basis, and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the enterprise funds are expensed when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items by using the consumption method.

Interfund Transactions

On fund financial statements, receivables and payables arising between funds for goods provided or services rendered, are classified as "due from other funds/due to other funds". Long-term interfund loans are classified as "advances to/from other funds" and are classified as non-spendable fund balance which indicates that they are not in spendable form even though it is a component of net current assets. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business type activities which are presented as internal balances.

Restricted Assets

Restricted equity in pooled cash and cash equivalents consist of Replacement and Improvement (R&I) Funds held by the Department of Water and Sewer that are restricted by bond covenants. The covenants state that transfers must be made into the R&I Funds monthly from the Water and Sewer operating funds until the time that the minimum cash balance of \$1,300,000 in the Water Fund and \$4,000,000 in the Sewer Fund is achieved. These dollars may be used to pay for replacements and improvements to assets in the Water and Sewer systems. In addition, water customer deposits are presented as Restricted Assets: Equity in pooled cash and cash equivalents.

Capital Assets

Capital assets, which include intangible assets (e.g. water rights, easements and internally generated software) property, plant equipment and infrastructure assets (e.g. roads, bridges and culverts), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets used by the enterprise funds are also reported in the respective funds. The County defines capital assets as assets with an initial individual cost of more than \$15,000 (amount not rounded) and an estimated useful life of one year or any asset with an estimated useful life in excess of ten or more years. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed.

Donated capital assets are recorded at estimated acquisition value at the date of donation. For certain assets estimates were calculated by indexing estimated current costs back to the year of acquisition. The costs of normal maintenance and repairs that do not add to the value of the asset, or do not materially extend the useful life of the asset are not capitalized.

All reported capital assets except for land and easements, construction in process, and infrastructure are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Useful Lives |
|-----------------------------------|---------------|
| Land and Building Improvements | 10 - 60 years |
| Furniture, Fixtures and Equipment | 3 - 30 years |
| Vehicles | 7 - 10 years |
| Water Right Contracts | 20 years |
| Water and Sewer Mains | 40 years |

Infrastructure assets under GASB Statement No. 34 do not need to be depreciated. The County has chosen to apply the modified approach for reporting infrastructure assets. All infrastructure items including roads, bridges, and culverts are reported. Under the modified approach, the County has developed an asset management system that:

- 1. Keeps an up-to-date inventory of eligible infrastructure assets,
- 2. Performs a conditional assessment of those eligible infrastructure assets at least every three years, using a consistent measurement scale and,
- 3. Estimates each year the annual amount to maintain and preserve those assets at the condition level established and disclosed by the government.

The County documents that the eligible infrastructure assets are being maintained at a level equal to or above the condition level established by the County. Condition appraisals are performed every three years for bridges, roads, and culverts in accordance with the Butler County capital asset policy.

When using the modified approach, expenditures to extend the life of infrastructure assets are charged to expense, while expenditures for additions and improvements to infrastructure assets are capitalized.

Compensated Absences

Vacation and compensatory benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate employees for the benefits through time off or some other means. Sick leave benefits are accrued as a liability based on the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements, the noncurrent portion of the liability is not reported in governmental funds. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally due for payment during the current year. Bonds, loans, capital leases, and long term contracts payable that will be paid from governmental funds are recognized as a liability in the fund financial statements when payment is due.

Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent of which the County is bound to observe constraints imposed upon the use of the resources in the government funds. The classifications are as follows:

<u>Non-spendable</u>- The non-spendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The non-spendable fund balances include long term loans receivable, prepaid items, materials and supplies inventory, long-term interfund loans, and developmental disabilities trust.

<u>Restricted</u>- The restricted fund balance classification includes amounts that have constraints placed on the use of resources that are either externally imposed by creditors such as through debt covenants, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions.

<u>Committed</u>- The committed fund balance classification includes amounts that can be used only for specific purposes imposed by formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the Commissioners remove or change the specified use by taking the same type of action (resolution) it employed to commit these amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been committed for use in satisfying those contractual requirements.

<u>Assigned</u>- The assigned fund balance classification is intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned amounts represent intended uses established by the County Commissioners or a County Official delegated that authority by resolution or by State Statute. In the general fund, assigned amounts represent encumbered amounts for outstanding obligations. State statute authorizes the fiscal officer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.

<u>Unassigned</u>- The unassigned fund balance classification is intended for the General Fund and includes all spendable amounts not contained in the other classifications. In non major governmental funds, the unassigned fund balance classification is used only to report a deficit fund balance.

The County applies restricted resources first when expenditures are incurred for the purpose for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classification could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws or regulations of non major governments.

Net position restricted for other purposes primarily include funds for the operation of recording fees, tax assessment and collections; services provided by Butler County courts; law enforcement and other public safety services; animal licensing and control; and human services to support victim assistance programs.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available. The County's sewer and water enterprise funds have restricted net position relative to those resources necessary to comply with various covenants of bond financing agreements.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for wastewater treatment, water distribution, and self-insurance. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund. Revenues and expenses that do not meet these criteria are considered non-operating revenues and expenses and are reported as such. All revenues of the department of Water and Sewer are used as security for revenue bonds issued.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, from grants, outside contributions of resources restricted to capital acquisition and construction, and system capacity charges.

Internal Activity

Transfers within governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures or expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources or uses in governmental funds. Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are not presented on the financial statements.

Bond Premiums and Discounts

On the government-wide financial statements (and in the enterprise funds), bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line (bonds outstanding) method, which approximates the effective interest method. Bond premiums/discounts are presented as additions/reductions to the face amount of bonds payable. On the governmental fund financial statements, premiums and discounts are recognized in the period in which the debt is issued.

Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgets

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The legal level of control has been established by the County Commissioners at the fund, program, department, and object level.

Estimated Resources

The certificate of estimated resources may be amended during the year if the County Auditor identifies projected increases or decreases in revenue. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources that was in effect at the time the final appropriations were passed by the County Commissioners.

Appropriations

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the County Commissioners during the year including all supplemental appropriations.

BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The statement of revenues, expenditures, and changes in fund balance – budget and actual (budget basis) for the general and major special revenue funds are presented on the budget basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Outstanding year-end encumbrances are treated as expenditures (budget basis) rather than restricted, committed or assigned fund balance (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- 5. Investments are reported at fair value (GAAP basis) rather than cost (budget basis).

Adjustments necessary to convert the results of operations at the end of the year on the budget basis to the GAAP basis are as follows:

| Net Change in Fund Balance | | | | | | | | | | |
|-----------------------------|----|-------------|----|--------------|----|--------------|----|-------------------|----|---------------------------------------|
| | | | M | ental Health | | | | | I | esidential ncentive stricts and |
| | | | | nd Addiction | | | | Job and Family | | Tax |
| | | | | Recovery | | evelopmental | - | Services/Children | | cremental |
| | | General | Se | rvices Board | | Disabilities | | Services Agency | Fi | nanacing |
| GAAP Basis | \$ | 12,263,221 | \$ | 241,981 | \$ | 5,044,202 | \$ | 3,048,576 | \$ | (404,639) |
| Revenue Accruals | | 4,317,343 | | 331,548 | | 376,166 | | 607,328 | | 3,390,682 |

| Budget Basis | \$ | 12,669,116 | \$ | (401,100) | \$ | 2,601,345 | \$ | 624,347 | \$ | (765,372) |

NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLES/CHANGE IN REPORTING ENTITY

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The County evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For 2019, the County implemented Statement No. 90, Majority Equity Interests – An Amendment of GASB 14 & 61, and related guidance from (GASB) Implementation Guide No. 2019-2, Fiduciary Activities.

For 2019, the County also implemented the Governmental Accounting Standards Board's (GASB) Implementation Guide No. 2018-1. These changes were incorporated in the County's 2019 financial statements; however, there was no effect on beginning net position/fund balance.

Beginning with the 2019 financial statements, the Butler County Convention and Visitors Bureau has been included as a discretely presented component unit of the County. The County appoints a majority of the Board and there is a financial benefit burden relationship with the County. The beginning net position of the Bureau was \$1,079,235. As a result, the beginning net position of the component units increased from \$7,797,988 to \$8,877,223.

NOTE 4 – FUND BALANCE

The fund balance for all governmental funds are classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources. The constraints placed on the fund balance for the major governmental funds and non major governmental funds are presented below.

THIS SPACE INTENTIONALLY LEFT BLANK

| Purchases on Order - Contract Services | 1,698,264 | • | - | | • | - | 1,698,264 |
| Purchases on Order - Other | 611,573 | • | - | | • | - | 611,573 |
| Total Assigned | 3,036,680 | • | • | · · · | • | - | 3,036,680 |
| | 3,030,000 | • | - | • | • | • | 3,030,000 |
| Unassigned (Deficit) | 71,029,807 | - | - | - | - | (1,895,028) | 69,134,779 |
| Total Fund Balance | 75,489,430 | \$ 18,609,475 | \$ 38,747,046 | \$ 16,087,186 | \$ 17,032,436 | \$ 67,520,157 \$ | 233,485,730 |

In addition to the above fund balance constraints, the County has a General Fund budget stabilization arrangement that does not meet the criteria to be classified as restricted or committed. Pursuant to Ohio Revised Code 5705.13, the County established a budget stabilization by resolution to provide options to stabilize against cyclical changes in revenues and expenditures. Expenditures of a recurring nature are not addressed as through the use of this arrangement. The balance in the reserve at December 31, 2019 is \$12,000,000.

NOTE 5- ACCOUNTABILITY

At year-end, All Other Human Services non-major special revenue fund, Road Improvements non-major capital projects funds, and Health Insurance internal service fund had deficit fund balances of \$14,231, \$1,880,797, \$875,984 respectively.

The deficit in the All Other Human Services funds arise from cash advances from the General Fund in anticipation of receivables. This deficit will be alleviated when the revenues are received and the advances are repaid to the General Fund. The deficit in the Road Improvements fund arise from the issuance of short-term bond anticipation notes, which are used to finance the projects until bonds are issued. The deficit will be alleviated when the notes are paid. The deficit in the Health Insurance fund was due to the continual increase of claims payable expense and escalating health care costs. The County will continue to monitor the funds.

NOTE 6– DEPOSITS AND INVESTMENTS

<u>CASH</u>

Monies held by the County are classified by State statute into two categories. Active monies are public monies determined to be necessary to meet current demands upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Monies held by the County which are not considered active are classified as inactive. Inactive monies may be deposited or invested with certain limitations in the following securities provided the County has filed a written investment policy with the Ohio Auditor of State:

- United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
- Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of this state or the political subdivisions of this state, provided the bonds or other obligations of political subdivisions mature within ten years from the date of settlement;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts, in eligible institutions pursuant to ORC sections 135.32;
- No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in (1) or (2) above; commercial paper as described in ORC section 135.143 (6); and repurchase agreements secured by such obligations, provided these investments are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange either securities or cash, equal value for equal value, within certain limitations;
- 9. Up to forty percent of the County's average portfolio, if training requirements have been met in either of the following:
 - a. Commercial paper notes in entities incorporated under the laws of Ohio, or any other State that have assets exceeding five hundred million dollars, which are rated in the highest classification established by two nationally recognized standard rating services, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation, which mature within 270 days after purchase, and the investment in commercial paper notes of a single issuer shall not exceed the aggregate five percent of interim monies available for investment at the time of purchase.

- b. Bankers acceptances of banks that are insured by the federal deposit insurance corporation and that mature not later than 180 days after purchase.
- 10. Up to fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions doing business under authority granted by the U.S. or any state provided the notes are rated in the three highest categories by at least two nationally recognized standard rating services at the time of purchase and the notes mature not later than three years after purchase;
- 11. A current unpaid or delinquent tax line of credit, provided certain conditions are met related to a County land reutilization corporation organized under ORC Chapter 1724; and,
- 12. Up to two percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government, subject to certain limitations. All interest and principal shall be denominated and payable in United States funds.

Reverse repurchase agreements, investments in derivatives, and investments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of settlement, unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

DEPOSITS

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

INVESTMENTS

As of December 31, 2019, the County had the following investments:

| Measurement/Investment | Measurement Amount | Maturity | Standard & Poors Rating | Percent of Total Investments |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|---------------------------------|----------------------------------------------|
| Amortized Cost Commercial Paper | \$ 31,004,205 | Less than one year | A-1 | 17.49% |
| Fair Value-Level One Inputs Money Market Mutual Fund | 21,178 | Less than three years | AA+ | 0.01% |
| Fair Value-Level Two Inputs U.S. Treasury Note Federal Farm Credit Bank Bonds Federal Home Loan Mortgage Corporation Bonds Federal Home Loan Bank Bonds Government Sponsored Enterprises Fannie Mae/Freddie Mac Total Fair Value - Level Two Inputs | 18,386,626 46,736,942 5,996,900 45,493,145 119,547,596 236,161,209 | Less than three years Less than five years Less than five years Less than five years Less than five years | AA+ AA+ AA+ AA+ AA+ | 6.89% 11.60% 2.24% 17.03% 44.74% |
| Total Investments | \$ 267,186,592 | | | |

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the County's recurring fair value measurements as of December 31, 2019. The Money Market Mutual Fund is measured at fair value and is valued using quoted market prices (Level 1 inputs). The County's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Interest rate risk arises because fixed-income securities will increase or decrease in market value as interest rates fluctuate during the life of such securities. If held to maturity, fixed income securities, owned by Butler County, will pay the face value (par value). The investment policy restricts the Treasurer from investing in any securities other than those identified in the Ohio Revised Code and that all investments must mature within five years from the date of investment unless they are matched to a specific future obligation of the County, and approved by the Investment Advisory Committee.

Credit risk refers to the risk of default of principal or interest. Investment assets currently owned by Butler County consist of Fifth Third Institutional Government Money Market Mutual Fund, a U.S. Treasury Note, Federal Farm Credit Bank Bonds, Federal Home Loan Mortgage Corporation Bonds, Federal Home Loan Bank Bonds, and Government Sponsored Enterprises Fannie Mae/Freddie Mac. All issues are currently rated AA+ by Standards and Poor's and Aaa by Moody's with the exception of the commercial paper. All commercial paper issues have a minimum credit rating of A-1 by Standard and Poor's and P-1 by Moody's. The County's investment policy limits investments to those authorized by the State statue.

NOTE 7- PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2019 for real and public utility property taxes represents collections of 2018 taxes.

2019 real property taxes are levied after October 1, 2019, on the assessed value as of January 1, 2019, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2019 real property taxes are collected in and intended to finance 2020.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2019 public utility property taxes which became a lien December 31, 2018, are levied after October 1, 2019, and are collected in 2020 with real property taxes.

The full tax rate for all County operations for the year ended December 31, 2019, was \$9.72 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2019 property tax receipts were based are as follows:

| Real Property | \$ 7,747,136,030 |
|----------------------------------|---------------------|
| Public Utility Personal Property | 513,525,820 |
| Total | \$ 8,260,661,850 |

Ohio law prohibits taxation of property by all overlapping taxing authorities in excess of 10 mills per dollar of assessed value without a vote of the people. Presently, the County levies 1.92 mills of this 10-mill limit. In addition to the 1.92 mills, voted levies in the amount of 7.80 mills have been approved for the Developmental Disabilities Board, Mental Health & Addition Recovery Services Board, Children Services Agency, and Senior Citizens Services. A summary of voted levies follows:

| | | Rate Levied for | | | |
|----------------------------------|------------|-----------------|--------|--------|------------|
| | Voter Levy | | Curren | t Year | Final Levy |
| Purpose | Date | Authorized Rate | R/A | C/I | Year |
| Developmental Disabilities Board | 2004 | 1.00 | 0.917 | 0.93 | Continuing |
| Developmental Disabilities Board | 2000 | 2.00 | 1.55 | 1.85 | Continuing |
| Mental Health Board | 1985 | 0.50 | 0.22 | 0.32 | 2024 |
| Mental Health Board | 2006 | 1.00 | 0.93 | 0.93 | 2020 |
| Children Services Agency | 2008 | 2.00 | 1.85 | 1.85 | 2017 |
| Senior Citizens | 2010 | 1.30 | 1.20 | 1.20 | 2019 |
| Total | | 7.80 | 6.67 | 7.08 | |

Ohio law provides for a reduction in the rates of voted levies to offset increased values resulting from a reappraisal of real property. Reduction factors are applied to authorized voted levies so that each levy yields the same amount of property taxes on carry-over property as in the year in which the levy was approved. Increases to voted levy revenues are restricted to assessments for new construction. The reduction factors are computed annually and applied separately for (R/A) residential/agricultural property and (C/I) commercial/industrial property.

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. The collections and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds. Property taxes receivable represents real, public utility taxes, and outstanding delinquencies which were measurable as of December 31, 2019, and for which there is an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2019 operations is offset to deferred inflows of resources – property taxes.

On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

NOTE 8- PERMISSIVE SALES TAX

Vendor collections of the permissive sales tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the Office of Budget Management the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. The Tax Commissioner shall then, on or before the twentieth day of the month in which certification is made, provide for payment to the County.

In 2019, \$44,938,413 of permissive sales tax revenue was recognized in the General Fund. The County's total sales tax rate was three-quarters of one percent (.75%).

NOTE 9- RECEIVABLES

Receivables at December 31, 2019, consisted of taxes, payments in lieu of taxes, accounts including unpaid utilities, intergovernmental receivables arising from grants, entitlements, and shared revenues, accrued interest, special assessments, loans, and interfund receivables. Loans receivable represent General Fund advances to agency funds, and low-interest loans for development projects and home improvements granted to eligible County residents and businesses under the Federal Community Development Block Grant Program. The Block Grant loans bear interest at annual rates between two and five percent. These loans are to be repaid over periods ranging from two to five years. The payments in lieu of taxes amount relates to dollars collected through real estate taxes that are marked for capital improvements in Butler County and tax incremental financing agreements. All receivables are considered collectible in full, including water and sewer accounts receivable, which, if delinquent, may be certified and collected as a special assessment, subject to foreclosure for nonpayment. Delinquent special assessments at December 31, 2019 totaled \$164,212. The following are receivables expected to be collected in more than one year: Special Assessments \$5,444,421.

THIS SPACE INTENTIONALLY LEFT BLANK

A summary of intergovernmental receivables follows:

| Governmental Activities: | Amount |
|----------------------------------|------------------|
| Public Assistance | \$ 6,569,522 |

Additions to business-type capital assets being depreciated include \$4,139,004 in assets donated by property developers.

NOTE 11- RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; damage to, theft of, or destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2019, the County contracted with County Risk Sharing Authority Inc. (CORSA) (a risk-sharing pool - see NOTE 21) for liability, property, and crime damage. Coverage provided by the pool is as follows:

| Category | Amount (Each Occurrence) |
|--------------------------------------------------------------------------------------------|--------------------------|
| Property Coverage: | |
| Building Contents and Equipment | \$623,970,909 |
| Flood | 100,000,000 |
| Earthquake | 100,000,000 |
| Liability Coverage: | |
| Automobile Liability | 1,000,000 |
| Uninsured Motorist | 250,000 |
| General Liability | 1,000,000 |
| Stop Gap Liability | 1,000,000 |
| Law Enforcement Liability | 1,000,000 |
| Errors and Omissions Liability | 1,000,000 |
| Medical Professional Liability | 3,000,000 |
| Medical Professional Liability-(County Home) | 3,000,000 |
| Cyber Liability | 1,000,000 |
| Crime: | |
| Employee Dishonesty/Faithful Performance | 1,000,000 |
| Money and Securities (Inside) | 1,000,000 |
| Money and Securities (Outside) | 1,000,000 |
| Money Orders and Counterfeit Currency | 1,000,000 |
| Depositor's Forgery | 1,000,000 |
| Boiler and Machinery | 100,000,000 |
| Business Interrruption | 2,500,000 |
| Deductible: | |
| Auto Liability, General, Law Enforcement, Cyber, Medial Profession and Error and Omissions | s 100,000 |
| Property Coverage, Auto Physical Damage, Crimes, Boiler and Machinery | 100,000 |

Settled claims have not exceeded coverage in any of the last three years. The County had no significant decrease in coverage in 2019.

The County has workers' compensation coverage for all employees. The County Commissioners and Butler County Developmental Disabilities Board provides medical coverage for their employees through self-insurance plans. The claims liabilities reported in the Health Insurance, Workers' Compensation and Jefferson Health Plan internal service funds at December 31, 2019, are based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. The County maintains a retrospective rating plan for workers' compensation insurance.

The historical changes in claims payable (based on 12/31/19 maximum premium) during years December 31, 2019 and 2020 are as follows:

Health Insurance

NOTE 12 - DEFINED BENEFIT PENSION PLANS

NET PENSION LIABILITY

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability (Asset)/Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a net pension/OPEB asset or a longterm net pension/OBEB liability on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

County Employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 52 with 15 years of service credit

Public Safety and Law Enforcement

Traditional Plan Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Public Safety and Law Enforcement

Traditional Plan Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Public Safety

Age and Service Requirements:

Age 52 with 25 years of service credit or Age 56 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 56 with 15 years of service credit

Public Safety and Law Enforcement

Traditional Plan Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, current law provides for a 3 percent COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public

service to apply for retirement benefits. The amount available for defined contribution benefits in the memberdirected plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State and Local | | Public Safety | | Law Enforcemen | |
|-------------------------------------------|--------------------|---|------------------|---|-------------------|---|
| 2019 Statutory Maximum Contribution Rates | | | | | | |
| Employer | 14.0 | % | 18.1 | % | 18.1 | % |
| Employee * | 10.0 | % | ** | | *** | |
| 2019 Actual Contribution Rates | | | | | | |
| Employer: | | | | | | |
| Pension **** | 14.0 | % | 18.1 | % | 18.1 | % |
| Post-employment Health Care Benefits **** | 0.0 | | 0.0 | | 0.0 | |
| Total Employer | 14.0 | % | 18.1 | % | 18.1 | % |
| Employee | 10.0 | % | 12.0 | % | 13.0 | % |

* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

** This rate is determined by OPERS' Board and has no maximum rate established by ORC.

*** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

**** These pension and employer health care rates are for the traditional and combined plans.

The employer contributions rate for the member-directed plan is allocated 4 percent

for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2019, the County's contractually required contribution was \$12,971,652 for the traditional plan, \$401,178 for the combined plan and \$305,986 for the member-directed plan. Of these amounts, \$384,704 is reported as due to other governments for the traditional plan, \$11,051 for the combined plan, and \$8,433, for the member-directed plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability (asset) was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense of the County's defined benefit pension plans:

| | OPERS Traditional Plan | OPERS Combined Plan | Total |
|-------------------------------|---------------------------|------------------------|---------------|
| Proportion of the Net Pension | | | |
| Liability/Asset: | | | |
| Current Measurement Date | 0.67147668% | 0.66969576% | |
| Prior Measurement Date | 0.66753751% | 0.64686778% | |
| | | | |
| Change in Proportionate Share | 0.00393917% | 0.02282798% | |
| | | | |
| Proportionate Share of the: | | | |
| Net Pension Liability | \$183,903,846 | \$0 | \$183,903,846 |
| Net Pension Asset | 0 | (748,870) | (748,870) |
| | | | |
| Pension Expense | 40,597,728 | 200,307 | 40,798,035 |

2019 pension expense for the member-directed defined contribution plan was \$305,986. The aggregate pension expense for all pension plans was \$41,104,021 for 2019.

At December 31, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to defined benefit pensions from the following sources:

| | OPERS | OPERS | |
|----------------------------------------|----------------------------|---------------------------|--------------------|
| | Traditional Plan | Combined Plan | Total |
| Deferred Outflows of Resources | | | |
| Differences between expected and | | | |
| actual experience | \$8,483 | \$0 | \$8,483 |
| Changes of assumptions | 16,009,281 | 167,256 | 16,176,537 |
| Net difference between projected | | | |
| and actual earnings on pension | | | |
| plan investments | 24,960,899 | 161,318 | 25,122,217 |
| Changes in proportion and differences | | | |
| between County contributions and | | | |
| proportionate share of contributions | 450,509 | 0 | 450,509 |
| County contributions subsequent to the | | | |
| measurement date | 12,971,652 | 401,178 | 13,372,830 |
| | ф 54 400 004 | ф л оо л оо | \$55,100,57 |
| Total Deferred Outflows of Resources | \$54,400,824 | \$729,752 | \$55,130,576 |
| Deferred Inflows of Resources | | | |
| Differences between expected and | | | |
| actual experience | \$2,414,764 | \$305,856 | \$2,720,620 |
| Changes in proportion and differences | | | |
| between County contributions and | | | |
| proportionate share of contributions | 186,262 | 22,067 | 208,329 |
| * * | · · · · · | · · · · · | |
| Total Deferred Inflows of Resources | \$2,601,026 | \$327,923 | \$2,928,949 |

\$13,372,830 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability or increase to the net pension asset in 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| | OPERS Traditional Plan | OPERS Combined Plan | Total |
|--------------------------|------------------------------|---------------------------|--------------|
| Year Ending December 31: | | | |
| 2020 | \$16,639,963 | \$22,528 | \$16,662,491 |
| 2021 | 8,263,898 | (9,698) | 8,254,200 |
| 2022 | 2,315,628 | (6,296) | 2,309,332 |
| 2023 | 11,608,657 | 44,208 | 11,652,865 |
| 2024 | 0 | (22,104) | (22,104) |
| Thereafter | 0 | (27,987) | (27,987) |
| Total | \$38,828,146 | \$651 | \$38,828,797 |

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2018, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2018, are presented below.

| | OPERS Traditional Plan | OPERS Combined Plan |
|-------------------------------|---------------------------------|---------------------------------|
| | | |
| Wage Inflation | 3.25 percent | 3.25 percent |
| Future Salary Increases, | 3.25 to 10.75 percent | 3.25 to 8.25 percent |
| including inflation | including wage inflation | including wage inflation |
| COLA or Ad Hoc COLA: | | |
| Pre-January 7, 2013 Retirees | 3 percent, simple | 3 percent, simple |
| Post-January 7, 2013 Retirees | 3 percent, simple through 2018, | 3 percent, simple through 2018, |
| | then 2.15 percent, simple | then 2.15 percent, simple |
| Investment Rate of Return | 7.2 percent | 7.2 percent |
| Actuarial Cost Method | Individual Entry Age | Individual Entry Age |

In October 2018, the OPERS Board adopted a change in the investment return assumption, reducing it from 7.5 percent to 7.2 percent. This change was effective beginning with the 2018 valuation.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a loss of 2.94 percent for 2018.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

| | | Weighted Average |
|------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Arithmetic) |
| Fixed Income | 23.00 % | 2.79 % |
| Domestic Equities | 19.00 | 6.21 |
| Real Estate | 10.00 | 4.90 |
| Private Equity | 10.00 | 10.81 |
| International Equities | 20.00 | 7.83 |
| Other investments | 18.00 | 5.50 |
| Total | 100.00 % | 5.95 % |

Discount Rate for 2018, the discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. For 2017, the discount rate used to measure the total pension liability was 7.5 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

| | 1% Decrease (6.20%) | Current Discount Rate (7.20%) | 1% Increase (8.20%) |
|----------------------------------------------------------------|------------------------|-------------------------------------|---------------------|
| County's proportionate share | | | |
| of the net pension liability (asset) OPERS Traditional Plan | \$271,679,465 | \$183,903,846 | \$110,961,521 |
| OPERS Combined Plan | (247,787) | (748,870) | (1,111,695) |

NOTE 13 - DEFINED BENEFIT OPEB PLANS

See Note 12 for a description of the net OPEB liability.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care was no longer being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2019, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, beginning January 1, 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2019 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$122,395 for 2019. Of this amount, \$3,373 is reported as due to other governments.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The County's proportion of the net OPEB liability was based on the County's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

| | OPERS |
|---------------------------------------|--------------|
| Proportion of the Net OPEB Liability: | |
| Current Measurement Date | 0.66464303% |
| Prior Measurement Date | 0.65946400% |
| Change in Proportionate Share | 0.00517903% |
| Proportionate Share of the Net | |
| Pension OPEB Liability | \$86,653,764 |
| OPEB Expense | \$8,057,202 |

At December 31, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | OPERS |
|------------------------------------------------|-------------|
| Deferred Outflows of Resources | |
| Differences between expected and | |
| actual experience | \$29,344 |
| Changes of assumptions | 2,793,822 |
| Net difference between projected and | |
| actual earnings on OPEB plan investments | 3,972,563 |
| Changes in proportion and differences | |
| between County contributions and | |
| proportionate share of contributions | 377,149 |
| County contributions subsequent to the | |
| measurement date | 122,395 |
| Total Deferred Outflows of Resources | \$7,295,273 |
| Deferred Inflows of Resources | |
| Differences between expected and | |
| actual experience | \$235,117 |
| Changes in proportion and differences | |
| between County contributions and proportionate | |
| share of contributions | 107,585 |
| Total Deferred Inflows of Resources | \$342,702 |

\$122,395 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | OPERS |
|--------------------------|-------------|
| Year Ending December 31: | |
| 2020 | ¢2 102 077 |
| 2020 | \$3,193,077 |
| 2021 | 975,838 |
| 2022 | 660,013 |
| 2023 | 2,001,248 |
| 2024 | 0 |

| Total | \$6,830,176 |

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

| Wage Inflation | 3.25 percent |
|------------------------------|--------------------------------|
| Projected Salary Increases, | 3.25 to 10.75 percent |
| including inflation | including wage inflation |
| Single Discount Rate: | |
| Current measurement date | 3.96 percent |
| Prior Measurement date | 3.85 percent |
| Investment Rate of Return | 6.00 percent |
| Municipal Bond Rate: | |
| Current measurement date | 3.71 percent |
| Prior Measurement date | 3.31 percent |
| Health Care Cost Trend Rate: | |
| Current measurement date | 10.0 percent, initial |
| | 3.25 percent, ultimate in 2029 |
| Prior Measurement date | 7.25 percent, initial |
| | 3.25 percent, ultimate in 2028 |
| Actuarial Cost Method | Individual Entry Age Normal |

In October 2018, the OPERS Board adopted a change in the investment return assumption, reducing it from 6.5 percent to 6.0 percent. This change was be effective for the 2018 valuation.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of rates are based for mortality and the advector of 2006. The base year of 2006. The base year of 2006 are based for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-

2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a loss of 5.6 percent for 2018.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

| | | Weighted Average |
|------------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Arithmetic) |
| Fixed Income | 34.00 % | 2.42 % |
| Domestic Equities | 21.00 | 6.21 |
| Real Estate Investment Trust | 6.00 | 5.98 |
| International Equities | 22.00 | 7.83 |
| Other investments | 17.00 | 5.57 |
| Total | 100.00 % | 5.16 % |

Discount Rate A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. A single discount rate of 3.85 percent was used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 3.71 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2031. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2031, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net OPEB liability calculated using the single discount rate of 3.96 percent, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.96 percent) or one-percentage-point higher (4.96 percent) than the current rate:

| | | Current | | |
|------------------------------|---------------|---------------|--------------|--|
| | 1% Decrease | Discount Rate | 1% Increase | |
| | (2.96%) | (3.96%) | (4.96%) | |
| County's proportionate share | | | | |
| of the net OPEB liability | \$110,862,457 | \$86,653,764 | \$67,401,450 | |

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost <u>Trend Rate</u> Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2019 is 10.00 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25 percent in the most recent valuation.

| | | Current Health Care | |
|------------------------------|--------------|---------------------|--------------|
| | | Cost Trend Rate | |
| | 1% Decrease | Assumption | 1% Increase |
| County's proportionate share | | | |
| of the net OPEB liability | \$83,293,065 | \$86,653,764 | \$90,524,381 |

NOTE 14- LEASES

Operating Leases

The County leases equipment and buildings for County services under non-cancelable operating leases. The total costs in 2019 were \$145,851 in the governmental funds. The future minimum lease payments for these leases are as follows:

| Year | ŀ | Amount | | |
|------|----|---------|--|--|
| 2020 | \$ | 147,192 | | |
| 2021 | | 139,788 | | |
| 2022 | | 31,500 | | |
| 2023 | | 15,500 | | |
| 2024 | | 47,500 | | |
| | \$ | 381,480 | | |

NOTE 15- OTHER EMPLOYEE BENEFITS

COMPENSATED ABSENCES

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Unused vacation time may be accumulated, with the approval of the appointing authority, to a maximum of three one-year accruals. All accumulated, unused compensatory time is paid upon separation. Accumulated, unused sick leave is paid at varying rates depending on length of service to employees who retire.

HEALTH CARE BENEFITS

The County has elected to provide a self insurance plan for employee medical/surgical benefits through Meritain Health. Dental insurance is provided to all employees as a function of the health care plan through Dental Care Plus. Butler County Developmental Disabilities has chosen to provide employee medical/surgical benefits along with dental insurance through the Jefferson Health Plan.

The Commissioners provided both a high deductible health care plans (HDHP) and a preferred provider organization (PPO) plan for health benefits in 2019. The chart below identifies the dollars contributed by the Commissioners and the employees per month.

| Level | Employee Contribution | County Contribution | Total Contribution |
|---------------------------------|--------------------------|------------------------|-----------------------|
| High Deductable Plan | | | |
| Employee | \$ 123.98 \$ | 575.32 \$ | 699.30 |
| Employee plus Spouse | 263.76 | 1,204.64 | 1,468.40 |
| Employee plus Children | 175.00 | 1,033.84 | 1,208.84 |
| Family | 337.48 | 1,640.42 | 1,977.90 |
| Preferred Provider Organization | | | |
| Employee | 178.74 | 579.34 | 758.08 |
| Employee plus Spouse | 384.38 | 1,213.46 | 1,597.84 |
| Employee plus Children | 278.38 | 1,041.04 | 1,319.42 |
| Family | 501.74 | 1,652.46 | 2,154.20 |

The Butler County Board Development Disabilities (BCBDD) participated in the Jefferson Health Plan during 2019. BCBDD provides health insurance to its employees through a self-insurance plan. BCBDD pays \$592.08 per month for employees enrolled in a single plan and \$1,637.38 per month for employees enrolled in a family plan, with the employees paying \$73.18 per month for single coverage, and \$202.36 per month for family coverage.

NOTE 16 – PRIOR YEAR DEFEASANCE OF BONDS

In prior years, the County has defeased various bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust assets and the liability for the defeased bonds are not included in the County's financial statements. As of December 31, 2019, the bonds listed were unmatured and unpaid.

| | | Unmatured and Unpaid |

GENERAL OBLIGATION BONDS

All governmental activities general obligation bonded debt are general obligations supported by the full faith and credit of the County. All unvoted general obligation bonds will be retired using unvoted general property tax revenues. The County currently retires all general obligation bonds from the bond retirement fund which is funded through general fund transfers.

In November 2009, the County issued \$1,935,000 in general obligation bonds for the purpose of assisting the Transportation Improvement District in widening the State Route 4 Bypass. The bonds were refunded in 2019.

In August 2010, the County issued \$1,870,000 in general obligation bonds for the construction and improvement of the Butler County Regional Airport. The bonds were issued for a twenty-year period, with a final maturity in December 2029.

In August 2010, the County issued \$9,540,000 in general obligation bonds to bond short-term bond anticipation notes. The \$9,540,000 in new bond proceeds along with existing Butler County funds were used to pay the bond anticipation notes that included the Yankee Road TIF Improvement, Cincinnati-Dayton Road TIF Improvement and the Cincinnati-Dayton Road Widening. The bonds were issued for a twenty five-year period, with a maturity in December 2034.

In September 2010, the County issued \$7,200,000 in general obligation bonds for the purpose of current refunding of the 2005 Sales Tax Bonds. The County used \$190,174 in trust accounts to assist in the refunding. The bonds matured in December 2019.

In June 2012, the County issued \$13,095,000 in general obligation bonds for the purpose of advance refunding \$7,100,000, the remaining portion of the 2002 general obligation bonds, as well as current refunding \$1,785,000 of special assessment bonds issued in 2001, and advance refunding \$4,210,000 of water judgment bonds issued in 2002. The 2002 refunded portion of the general obligation bonds were issued for an eleven-year period, with the final maturity in December 2022. In December 2017, the County chose to defease the final bond payment by placing \$2,432,047 of County funds with an escrow agent. As a result, \$2,135,000 of the 2012 Adult Detention Facility Bonds were considered defeased and the liability for the bonds has been removed from the County's financial statements. At December 31, 2019, \$2,055,000 of the bonds are still outstanding.

In September 2014, the County issued \$7,520,000 in general obligation bonds for the purpose of current refunding \$8,030,000 of 2004 various purpose bonds, in order to take advantage of lower interest rates. These bonds will mature in December 2024.

In May 2015, the County issued \$10,015,000 in general obligation bonds for the purpose of advance refunding \$10,180,000 of 2006 various purpose bonds, in order to take advantage of lower interest rates. These bonds are paid from the bond retirement fund and will mature in December 2022.

In October 2017, the County issued \$3,865,000 in general obligation bonds for the purpose of current refunding \$3,975,000 of the 2007 various purpose bonds, in order to take advantage of lower interest rates. These bonds are paid from the bond retirement fund and will mature in December 2020.

In November 2019, the County issued \$634,000 in General Obligation Bonds to current fund \$1,340,000 of the 2009 By Pass 4 bonds, in order to take advantage of lower interest rates. These bonds are paid from the bond retirement fund and will mature in December 2024. As a result, \$1,340,000 of the 2009 By-Pass 4 bonds were considered defeased and the liability for the refunded bonds have been removed from the County's financial statements. The County decreased its total debt service payments by \$965,081 as a result of the refunding.

The County also incurred an economic gain (difference between present value of the old and new debt service payments) of \$837,955, and incurred an accounting gain of \$8,846 (difference between amount paid to bond escrow agent and the refunding amount), which is shown in the following table:

| Bonds Outstanding | \$1,435,000 |
|-----------------------------------------------------------|-------------|
| Premium on bonds | 18,596 |
| Total 2009 By-Pass 4 Bonds Outstanding | 1,453,596 |
| Principal Payment Prior to Refunding | (95,000) |
| Payment to Refunded Bond Escrow Agent-Debt Service | (725,000) |
| Payment to Refunded Bond Escrow Agent-Other Financing Use | (624,750) |
| 2009 By-Pass 4 Bonds Refunding Accounting Gain | \$8,846 |

The County sent \$1,349,750 to the escrow fund, which included \$725,000 of Butler County cash flow used to pay a substantial portion of the refunding bond issue. The bonds were called in January 2020.

LONG TERM NOTES

In 2019 the County paid off the \$2,600,000 in long term bond anticipation notes. This issuance was related to the Motorola radio agreement and purchase that was initiated in 2017. The note was paid from the Non Major Governmental Funds.

SPECIAL ASSESSMENT BONDS WITH GOVERNMENTAL COMMITMENT

Special assessment debt will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner defaults on an assessment, the County would be responsible for the debt payments. Special assessment bonds are retired from the Bond Retirement Fund using special assessment revenues.

In August 2005, the County issued a \$1,144,000 special assessment bond for the purpose of bonding shortterm bond anticipation notes for the Venice Gardens Sewer project. The bonds were issued for a forty-year period with final maturity in August 2045.

In April 2007, the County issued \$4,790,000 in special assessment bonds for the purpose of advance refunding \$220,000 of the 2000 Lakota Drive Bonds, \$650,000 of the 2000 Union Center Phase II Bonds and \$3,815,000 of the 2000 Muhlhauser Road Bonds. The bonds were issued for a fourteen-year period, with final maturity in December 2020.

In August 2008, the County issued \$3,315,000 in special assessment bonds for the purpose of bonding shortterm bond anticipation notes for the University Pointe Landscaping and the Liberty Interchange (Cox Road Extension). The bonds were issued for a twenty-year period, with a final maturity in December 2028.

In June 2012, the County issued \$13,095,000 in general obligation bonds, \$1,785,000 for the purpose of current refunding \$1,835,000 of the 2001 special assessment bonds for phase one and three at Union Centre. Bonds were issued for a ten-year period with final maturity in December 2021.

The County has pledged future special assessment revenues, net of operating expenses to repay the general obligation bonds in the General Fund. The total interest and principal remaining on the bonds is \$4,493,894 payable through 2045. The purpose, terms and balances outstanding are identified above. For the current year, principal and interest paid and special assessment revenues were \$660,277 and \$884,099 respectively.

LONG-TERM LOANS

In 2005, the County entered into a loan with the Ohio Public Works Commission (OPWC) for \$789,748 to make improvements to Cincinnati Dayton Road using proceeds from the loan. The loan was issued for twenty-years with the final payment due in July 2024. The loan will be repaid from Motor Vehicle Fund revenues.

In 2009, the County entered into a loan with OPWC for \$329,549 for the widening of Tylersville Road between Cincinnati Dayton and Wetherington Drive, including the replacement of an existing bridge using proceeds from the loan. The loan was issued for twenty-years with the final payment due in 2029. The loan will be repaid from Motor Vehicle Fund revenues.

In 2009, the County entered into a loan with the OPWC for \$157,188 for the restoration of the Hamilton Eaton Slip located at the intersection of State Road and Hamilton Eaton Road where Seven Mile Creek has eroded into the roadway area. The loan was issued for twenty-years with the final payment due in 2030. The loan will be repaid from Motor Vehicle Fund revenues.

In 2010, the County entered into a loan with OPWC for \$305,000 for phase one of the restoration of the Reily Millville Road Slip. The loan was issued for twenty-years with the final payment due in 2030. The loan will be repaid from Motor Vehicle Fund revenues.

In 2010, The County entered into a loan with OPWC for phase two of the restoration of the Reily Millville Road Slip not to exceed \$416,498. The loan was issued for fifteen-years with the final payment due in 2027. The loan will be repaid from Motor Vehicle Fund revenues.

In 2011, the County entered into a loan with OPWC not to exceed \$348,950 for the construction of new left turns lanes on Trenton and Busenbark Road. The loan was issued for twenty-years with the final payment due in 2032. The loan will be repaid from Motor Vehicle Fund revenues.

OTHER PAYABLES

Claims payable represent the County's liability for self insurance and workers compensation as well as Butler County Developmental Disabilities liability for all employees. Claims liabilities and expenses are estimated through a case by case review of all claims. The claims liability will be paid from the Health Insurance, Workers' Compensation, and Jefferson Health Plan Internal Service Funds. For additional information relating to the claims liability, see Note 11.

Compensated absences will be paid from the General Fund, Developmental Disabilities, Mental Health and Addiction Recovery Service, Children Services and Elderly Services Funds. There is no repayment schedule for the net pension/OPEB liability. However, employer pension contributions are made from the following funds: General Fund, Developmental Disabilities, Job and Family Services, Children Services, Road Improvement, Real Estate Assessment, Motor Vehicle, Mental Health and Addiction Recovery Service, County Care Facility, Child Support Enforcement and Elderly Services. For additional information related to the net pension/OPEB liability see Note 12 and Note 13.

Contracts payable represent long-term contractual agreements for the payment of bonds issued by the Butler County Transportation Improvement District (TID), Liberty Community Authority, and the Butler County Port Authority.

The County pledged the Voice of America net TIF revenues (collections less debt service and school district payments) as a primary source to the Transportation Improvement District (TID) to assist in paying for the \$41,130,000 of 2007 Butler County Transportation Improvement District Highway Improvement Bonds. There is no set amortization schedule reflecting the amount sent to the TID. The County has recorded a long term obligation in the amount of \$15,646,666, the estimated portion of the bonds to be paid by the net TIF revenues. The County paid \$860,982 on the bonds in 2019.

Excess dollars paid to the TID from the TIF revenues will be returned to the County each year once debt service coverage is met. In the event the dollars are not sufficient to cover the debt requirements the County has pledged one-quarter of its Non-Tax Revenues of the General Fund as a secondary pledge. The TID Bonds have three pledged receipts for payment, which include Butler County along with pledges from Liberty Township and West Chester Township.

During 2014, the County partnered with Liberty Township and the Liberty Community Authority(LCA) for the construction of public parking garages and infrastructure for the Liberty Center project, also known as the Steiner Development. When the project is complete, the assets will belong to the Liberty Community Authority. The parties entered into a funding agreement and issued \$37,310,000 in bonds for capital financing through the Butler County Port Authority. The bonds were issued November 14, 2014, and will be paid solely from the pledged amounts identified in the funding agreement: the Port Authority shall never be required to use its own funds to make such payments. The County pledged the excess dollars remaining on the Voice of America net TIF revenues for the \$11,085,000 Series A bonds. The series A bonds were issued to assist in constructing public parking garages. In the event the net TIF revenues are not sufficient to cover the debt requirements, the County has pledged one-quarter of its Non-Tax Revenues of the General Fund as a secondary pledge. The Series B bonds in the amount of \$6,045,000 will be paid by Liberty Township and the Series C bonds of \$20,180,000 will be paid by the Liberty Community Authority.

The Series C Bonds will be paid from the pledged revenues from the Liberty Community Authority. LCA revenues are the Assessed Valuation Charge, the Facilities Charge and the Core Retail Assessed Valuation Charge imposed by the Liberty Community Authority pursuant to the declaration. The Assessed Valuation Charge is an annual charge based on the assessed value of each parcel within the site that is not owned by a political subdivision. The Facilities Charge is a retail sales charge in the maximum amount of one-half of one percent (0.5%) of the price paid by each customer on the retail sales in the development. For purposes of the Series C bonds, the Core Retail Assessed Valuation Charges are insufficient to cover the debt service on the Series C Bonds. In the event the Liberty Community Authority is unable to meet their debt obligation, the County has pledged any remaining dollars in the TIF related to the parcels in the Liberty Center Project as a secondary pledge. The bonds mature in 2032.

The Liberty Community Authority, a component unit of the County, has issued \$12,237,111 in OWDA loans to construct certain public infrastructure projects at the Liberty Center Project. The first principal payment due on the loans was scheduled to start in January 2019 with semiannual payments expected to be paid through July 2037. The County has agreed to assign to the LCA the Available County Revenues in an amount sufficient to secure the repayment of debt service payable on of the OWDA Loan to the extent the County OWDA Obligation amounts have not been expended for payment of debt service on the Series C Bonds, provided that County OWDA Obligation amounts shall be used to pay debt service on the OWDA Loan only if available and Liberty Community Authority Revenues are insufficient to pay such debt service. The County is required to send approximately \$825,000 each year from 2017 through 2031 to a bank account to be held by the trust agent if the Liberty Community Authority revenues are insufficient to cover the OWDA loan obligation. The total sent to this trust account shall not exceed \$12,363,500, which is considered the maximum liability Butler County can incur for the OWDA loan and the Series C Bonds.

In 2019, The Liberty Community Authority had insufficient revenues to make their payment on the OWDA loan obligation and the Series C Bonds. In accordance with the financial guarantees provided by Butler County, \$995,217 of Butler County TIF revenues was used by the fiscal agent for payment of the Liberty Community Authority OWDA obligations and the Series C Bonds. Because of the high likelihood that Butler County will continue to make these payments, we have recognized a Long Term Contractual Obligation increase of \$2,223,460 in 2019. The Contractual Obligation is shown on the Statement of Activities as Public Works – Intergovernmental and on the Statement of Net Position as Long Term Liabilities Due within One year and Due in More than One Year. The liability at the end of 2019 is \$10,530,606 with no expectation of repayment from the Liberty Community Authority at this time.

Annual debt service requirements to maturity for general obligation bonds, special assessment bonds and loans for all governmental activities are as follows:

| | General Obli | gatio | Loans | |
|------------|-------------------|-------|-----------|-----------------|
| Year | Principal | | Interest | Principal |
| 2020 | \$ 4,414,000 | \$ | 1,051,810 | \$ 124,288 |

GENERAL OBLIGATION BONDS

All business-type activities general obligation bonded debt is supported by the full faith and credit of the County. Enterprise supported general obligation bonds are being paid by Enterprise Funds.

In August 2005, the County issued a \$600,000 general obligation bond for the purpose of bonding short-term bond anticipation notes for the Venice Gardens Sewer project. The bonds were issued for a forty-year period, with final maturity in August 2045.

In September 2006, the County issued a \$3,200,000 general obligation bond for the purpose of bonding shortterm bond anticipation notes for the New Miami Sewer Improvement project. These bonds are registered with the United States Department of Agriculture Rural Development (USDA). The bonds were issued for a fortyyear period, with maximum maturity in August 2046.

In November 2009, the County issued \$10,695,000 in general obligation bonds for the purpose of current refunding \$10,245,000 of the 1999 Water Revenue bonds and \$5,605,000 of the 1999 Sewer Revenue Bonds. The bonds matured in December 2019.

WATER JUDGEMENT BONDS

The 2007 and 2017 Water Judgement Bonds are general obligation bonds that were court ordered to settle the water contract dispute between Butler County and the City of Hamilton. The County received Water Rights assets as part of the settlement agreement. See Capital Assets Note 10 for additional information. The principal and interest are paid from the Water fund.

In April 2007, the County issued \$24,135,000 in Water Judgement bonds for the purpose of advance refunding \$24,000,000 of the 2002 Water Judgment Bonds. The bonds were issued for a twenty year period, with final maturity in December 2026.

In October 2017, the County issued \$7,370,000 in general obligation bonds for the purpose of current refunding \$7,820,000 of the 2007 Water Judgement bonds, in order to take advantage of lower interest rates. These bonds are paid from the water fund and will mature in December 2022.

REVENUE BONDS

Revenue bonds are supported by user charges and are not backed by the full faith and credit of the County. These bonds have been issued to pay for water and sewer projects.

In June 2005 the County issued a \$19,575,000 Sewer Revenue bond for the purpose of partially advance refunding \$1,485,000 of existing 1997, \$5,490,000 of existing 1998, and \$12,790,000 of existing 1999 Sewer bonds. The bonds were issued for an eighteen year period, with final maturity in December 2023.

In September 2006, the County issued a \$4,000,000 Sewer Revenue bond for the purpose of bonding shortterm bond anticipation notes for the New Miami Sewer Improvement project. These bonds are registered to the United States Department of Agriculture, Rural Development. The bonds were issued for a forty-year period, with the final maturity in December 2045.

In September 2014, the County issued \$9,640,000 of Sewer Revenue Bonds for the purpose of current refunding \$10,150,000 of 2004 Sewer Revenue Bonds, in order to take advantage of lower interest rates. These bonds are paid from the Sewer Fund and will mature in December 2024. As a result, \$10,150,000 of the 2004 sewer revenue bonds were considered defeased and the liability for the refunded bonds have been removed from the County's financial statements. All refunded bonds have been repaid.

In September 2014, the County issued \$7,335,000 of water revenue bonds for the purpose of advance refunding \$7,320,000 of 2005 Water Revenue Bonds, in order to take advantage of lower interest rates. These bonds are paid from the Water Fund and will mature in December 2021. As a result, \$7,320,000 of the 2005 Water Revenue Bonds were considered defeased and the liability for the refunded bonds have been removed from the county's financial statements. All refunded bonds have been repaid.

In September 2014, the County issued \$9,345,000 of Water Revenue Bonds for the purpose of advance refunding \$10,275,000 of 2005 Water Revenue Bonds, in order to take advantage of lower interest rates. These bonds are paid from the Water Fund and will mature in December 2025. As a result, \$10,275,000 of the 2005 Water Revenue Bonds were considered defeased and the liability for the refunded bonds have been removed from the County's financial statements. All refunded bonds have been repaid.

In September 2017, the County issued \$1,400,000 of Sewer System Taxable Revenue Bonds for the purpose of financing the extension of the public sewer service to the Williamsdale area of the county. The bonds were retired in February 2019.

The County has pledged future revenues, net of operating expenses, to repay Revenue Bonds, Cincinnati Waterworks Loans, OPWC, and OWDA loans in the Water fund. The debt is payable solely from water customer net revenues and are payable through 2046. The purpose, terms and balances outstanding are identified above. Annual Principal and Interest payments on debt are expected to require 27% of net revenues. The total principal and interest remaining to be paid on the bonds and loans is \$17,706,854. Of this total \$8,511,856 is for the revenue bonds, \$2,054,602 for the Cincinnati Waterworks, and \$7,140,396 for the OPWC/OWDA loans. Principal and interest paid for the current year and total net revenues were \$2,992,369 and \$10,932,004 respectively.

Principal and interest and fiscal charges paid for the current year for Revenue Bonds was \$2,166,549, \$353,384 for the Cincinnati Waterworks Ioan and \$472,436 for the remaining OPWC/OWDA Ioans.

The County has pledged future revenues, net of operating expenses, to repay Revenue Bonds and OWDA loans in the Sewer fund. The debt is payable solely from sewer customer net revenues and are payable through 2046. The purpose, terms and balances outstanding are identified above. Annual Principal and interest payments on debt are expected to require 66% of net revenues. The total principal and interest remaining to be paid on the bonds and loans is \$33,373,380. Of this total \$11,533,785 is for the revenue bonds and \$21,839,595 is for the OPWC/OWDA loans.

Principal and interest paid for the current year and total net revenues were \$7,043,460 and \$10,718,248 respectively. Principal and interest and fiscal charges paid for the current year for Revenue Bonds was \$5,674,117 and \$1,369,343 for the OPWC/OWDA loans.

LONG-TERM LOANS

In 2005, Butler County entered into a contractual agreement with the City of Cincinnati for \$4,634,892 to assist in financing the construction of water lines and a master meter that runs from International Boulevard to Mulhauser Road. This expansion will allow Butler County a secondary water source and provide access to water for future development. Approximately \$549,623 of Butler County water lines were added while intangible assets of \$4,085,629 were recorded as depreciable capital assets, net. The balance owed to the City of Cincinnati at December 31, 2019 as a result of this project is \$1,751,590. This amount has been recorded on the County's books as a long-term liability in the Water Enterprise Fund. This loan matures in October 2025.

In 2006, the County entered into a loan with the OPWC for \$700,871 and \$874,581 to make improvements to watermains in Butler County using proceeds from OPWC loans. The 2006 cast iron watermain loan was issued for twenty-years with the first payment starting in July 2009 and a final payment due in January 2029. The 2006 watermain improvements loan was issued for twenty-years with the first payment starting in July 2008 and a final payment due in January 2028. Both OPWC loans will be repaid by Water fund user charges.

In 2009, the County entered into a loan with the OPWC for \$470,318 to replace watermains using proceeds from the loan. The loan was issued for thirty-years with the final payment due in 2040. The loan will be repaid by Water Fund revenues.

In 2009, the County entered into a loan with Ohio Water Development Authority (OWDA) for \$3,158,694 to replace over 7,000 failing polybutylene service lines in Butler County. The loan was issued for thirty-years with the final payment due in 2031. The loan will be repaid by Water Fund revenues.

In 2009, the County entered into a loan with the OWDA for \$849,987 to restore and stabilize eroding stream banks of Shaker Creek. The loan was issued for twenty-years with the final payment due in 2029. The loan will be repaid by Sewer Fund revenues.

In 2009, the County entered into a loan with the OWDA for \$1,153,728 to reduce erosion, sedimentation and nutrient enrichment for the Big Monroe project located at Mill Creek. The loan was issued for twenty-years with the final payment due in 2029. The loan will be repaid by Sewer Fund revenues.

In 2009, the County entered into a loan with the OWDA for \$1,587,221 to construct a new sewage receiving facility, a new vactor truck unloading facility, and install a second sludge-dewatering centrifuge. The loan was issued for twenty-years with the final payment due in 2030. The loan will be repaid by Sewer Fund revenues.

In 2010, the County entered into a loan with the OWDA for \$2,466,203 to design and construct a 2.0 million gallon ground-level storage tank that will serve as a buffer, isolating the pump station from other systems that are surrounding the area. In addition, control valves will be included to smooth out flow rates going into the tank and insuring that pressures are not drawn below acceptable levels. The loan was issued for twenty-years with the final payment due in 2030. The loan will be repaid by Water Fund revenues.

In 2010, the County entered into a loan with the OPWC for \$510,468 to replace and improve an existing sanitary force main with a new sanitary force main and gravity sewer. The loan proceeds also were used to increase the height of a cascade wall approximately two feet to prevent overflows that occur during heavy storm events. The loan was issued for thirty-years with the final payment due in 2041. The loan will be repaid by Sewer Fund revenues.

In 2010, the County entered into a loan with the OPWC for \$600,000 to replace over 15,000 feet of failing cast iron watermains for the subdivision of Dalewood located in West Chester Township. The loan was issued for thirty-years with the final payment due in 2042. The loan will be repaid by Water Fund revenues.

In 2011, the County entered into a loan with the OWDA for an amount not to exceed \$35,500,000 to upgrade and improve the LeSourdsville Wastewater Treatment Plant. The project includes upgrading existing systems and equipment at the plant. The loan was issued for twenty-years with the final payment due in 2034. The loan will be repaid by Sewer Fund revenues.

In 2011, the County entered into a loan with the OPWC for an amount not to exceed \$201,000 to replace the aging cast iron water main along West Chester Road from Barret Road to John Street in West Chester Twp. The loan was issued for thirty-years with the final payment due 2042. The loan will be repaid by Water Fund revenues.

In 2011, the County entered into a loan with the OPWC for an amount not to exceed \$580,000 to replace polybutylene water lines in at various locations including Fairfield Township, Liberty Township, and West Chester Township. The loan was issued for thirty-years with the final payment due in 2043. The loan will be repaid by Water Fund revenues.

In 2012, the County entered into a loan with Ohio Public Works Commission (OPWC) for an amount not to exceed \$169,873 to replace a watermain in Liberty-Fairfield Township. The loan was issued for thirty-years with the final payment due 2043. The loan will be repaid by Water Fund revenues.

In 2013, the County entered into a loan with the OPWC for \$1,275,000 for polybutylene water line replacement. The 2013 project was completed in 2015 with a loan payoff date in 2045. The loan will be paid from the Water Fund revenues.

In 2014, the County entered into a loan with the OPWC for \$308,512 for Liberty Fairfield Rd water main replacement. The 2014 project was completed in 2016 with a loan payoff date in 2046. The loan will be paid from the Water Fund revenues.

In 2017, the County entered into a loan with the OPWC for \$265,975 for Polybutylene water line services . The loan will be paid from the Water Fund Revenues. The loan matures in 2047.

OTHER PAYABLES

Compensated absences will be paid from the Water and Sewer enterprise funds. There is no repayment schedule for the net pension/OPEB liability. However, employer pension contributions are made from the following funds: Water, Sewer, Health Insurance, Workers Compensation, and Jefferson Health Plan. For additional information related to the net pension/OPEB liability see Note 12 and Note 13.

Annual debt service requirements to maturity for general obligation bonds, judgment bonds, revenue bonds and revenue bonds and loans are as follow:

| | General Oblig | ation I | Bonds | | S | | |

MULTIFAMILY HOUSING

The County has served as the issuer of Multifamily Housing bonds. The proceeds were used to acquire, construct, improve, and equip multifamily housing. The Multifamily Housing revenue bonds do not constitute a general obligation, debt or bonded indebtedness of the County. Neither is the full faith and credit or taxing power of the County pledged to make repayment. The amount of revenue bonds outstanding at December 31, 2019 was \$89,845,000.

INDUSTRIAL DEVELOPMENT REVENUE BONDS

The County has served as the issuer of industrial revenue bonds. The proceeds were used for facilities used by private corporations or other entities. The County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they have been excluded entirely from the County's debt presentation. There has not been and is not any condition of default under the bonds or the related financing documents. The principal balance outstanding at December 31, 2019 is \$4,000,000.

HOSPITAL REVENUE BONDS

The County has served as the issuer of hospital revenue bonds. The proceeds were used to acquire, construct, improve, and equip hospital facilities. The hospital revenue bonds do not constitute a general obligation, debt or bonded indebtedness of the County. Neither is the full faith and credit or taxing power of the County pledged to make repayment. The amount of revenue bonds outstanding at December 31, 2019 was \$663,085,000.

CAPITAL FUNDING REVENUE BONDS

The capital funding revenue bonds were issued on behalf of the County Commissioners Association of Ohio for their low cost capital pooled financing program. Butler County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they have been excluded entirely from the County's debt presentation. The principal payments will begin in 2035. The principal balance outstanding at December 31, 2019 was \$47,325,000.

LEGAL DEBT MARGIN

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County, less the same exempt debt, shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2019 are an overall debt margin of \$200,247,479 and unvoted debt margin of \$77,837,552.

NOTE 18– SHORT-TERM OBLIGATIONS

A summary of the short-term bond anticipation notes for all governmental funds are as follows:

| | I | Balance | | | | | E | Balance |
|---------------------------------------|----|-----------|----------|-----------|----------|-----------|----|-----------|
| Fund Type | 1 | 12/31/18 | Increase | | Decrease | | 1 | 2/31/19 |
| Capital Projects | | | | | | | | |
| 0.30% Courts Remodeling and Expansion | \$ | 1,300,000 | \$ | - | \$ | 1,300,000 | \$ | - |
| 0.30% Hutsenpiller Hamilton Mason TIF | | 1,955,000 | | 1,815,000 | | 1,955,000 | | 1,815,000 |
| 0.30% Princeton Road Admin Building | | 1,770,000 | | - | | 1,770,000 | | - |
| Motorola Radio Purchase | | 4,400,000 | | 2,600,000 | | 4,400,000 | | 2,600,000 |
| Motorola Radio Purchase Premium | | 5,038 | | - | | 5,038 | | - |
| Total Governmental Funds | \$ | 9,430,038 | \$ | 4,415,000 | \$ | 9,430,038 | \$ | 4,415,000 |

The notes are issued in anticipation of long-term bond financing and will be refinanced until such bonds are issued. They are backed by the full faith and credit of the County and will mature within one year. The liability for the notes is presented in the fund that received the note proceeds.

NOTE 19- INTERFUND BALANCES AND ACTIVITY

Transfers In/Transfers Out activity for 2019 consisted of the following:

| | Transfers From | | | | | | | | | | |
|-----------------------------------------------------|--------------------------------------------------------|------------|----|------------|----|------------|--|--|--|--|--|
| | Residential Incentive Districts and Tax Incremental | | | | | | | | | | |

| Total | \$ | 125,586 | \$ | 12,400 | \$ | 83,788 | \$ | 131,125 | \$ | 237,818 | \$ | 2,389 | \$ 44,360 | \$ 19,730 | \$ 657,196 |

Advances From/Advances To balances at December 31, 2019 consist of the following individual fund receivables and payables:

| | A | dvances |
|------------------------|----|---------|
| | | From |
| Advances To | | General |
| Non Major Governmental | \$ | 821,525 |

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Non-major governmental funds received transfers from the General Fund and the Residential Incentive Districts and Tax Incremental Financings Fund to pay principal and interest on various County issued notes and bonds.

All balances in the Due From/Due To schedule resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The balance of \$821,525 due to the General Fund from Non Major Governmental Funds results from cash flow issues in those funds. The amounts reported as Due From/Due to Other Funds are expected to be repaid within one year; the advances are not.

NOTE 20- CONTINGENT LIABILITIES

The County has received federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their representatives. These audits could lead to a request for reimbursement to the grantor agency for any expenses disallowed under terms of the grant. Based on prior experience the County believes such disallowances, if any, will be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County the resolution of these matters will not have a material adverse effect on the financial condition of the County.

NOTE 21 – JOINTLY GOVERNED ORGANIZATIONS/RISK SHARING POOL/INSURANCE PURCHASING POOL/RELATED ORGANIZATIONS

TRANSPORTATION IMPROVEMENT DISTRICT OF BUTLER COUNTY

The Transportation Improvement District, a jointly governed organization, provides the opportunity to construct roads, bridges and accompanying improvements within the County. The Transportation Improvement District Board, which consists of representatives from each of the participating governments, including the County, oversees the operation of the District. Complete financial statements can be obtained from the Transportation Improvement District, 315 High St. 6th Floor Hamilton, OH 45011.

OHIO KENTUCKY INDIANA REGIONAL COUNCIL OF GOVERNMENTS

The Ohio Kentucky Indiana Regional Council of Governments (OKI), a jointly governed organization, was formed in 1964. OKI is a council of local governments, business organizations and community groups that work together to improve the economic development of the Tri-State.

BUTLER/CLERMONT/WARREN WORKFORCE POLICY BOARD (AREA 12)

The Butler/Clermont/Warren Workforce Policy Board is a jointly governed organization with thirty-one board members consisting of representatives from business, education, labor and government. The Butler County Commissioners appoint two of the members of the board. The Policy Board is a regional organization developed as a result of the Workforce Investment Act. The role of the Policy Board is to assess the workforce needs of area employers, assess the employment and training needs of job seekers and to identify fiscal and other available resources to meet current and future workforce needs in the region.

COMMUNITY-BASED CORRECTIONAL FACILITY

The Community-Based Correctional Facility is a jointly governed organization that provides an alternative to prison incarceration for felony offenders. The Facility is the last step in the continuum of increasing punishment before prison incarceration. The Facility is a minimum-security operation. The Facility's governing board oversees the operations of the organization. Common Pleas Judges from the participating counties comprise a Judicial Advisory Board. The Judicial Advisory Board appoints two-thirds of the members of the Facility Governing Board and advises the Facility's Governing Board regarding Facility matters. The Board includes at least one Common Pleas Court Judge from each participating county. The Facility serves Butler, Clermont, and Warren County.

The Facility's Governing Board has contracted with Talbert House for daily operational functions, a non-profit organization. Talbert House is responsible for essentially all management decisions related to the Facility, subject to the Facility Governing Board's oversight. Complete financial statements can be obtained from the Community-Based Correctional Facility, 5234 State Route 63, Lebanon, OH 45036.

SOUTHWEST OHIO COUNCIL OF GOVERNMENTS

The Southwest Ohio Council of Governments was created by the Board of Developmental Disabilities of Butler, Hamilton, Clermont and Warren Counties. The Council consists of four members representing each of the four counties. Any other County Board of Developmental Disabilities may petition for membership to the Council however membership must be approved by two-thirds vote of the Council members. The role of the Council is to coordinate the powers and duties of the member Boards to better serve and benefit persons with developmental disabilities within the four counties. The Council serves as its own taxing and debt issuance authority and is a jointly governed organization. In 2019, Butler County contributed \$5,000 to the Council. Financial information for the Southwest Ohio Council of Governments may be obtained at 1910 Fairgrove Avenue Suite E, Hamilton Ohio 45011.

COUNTY RISK SHARING AUTHORITY (CORSA)

The County Risk Sharing Authority (CORSA) is a risk sharing pool made up of sixty-five counties in Ohio. CORSA was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. An elected board of not more than nine trustees manages the affairs of the Corporation. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County's payment for insurance to CORSA in 2019 was \$630,078.

JEFFERSON HEALTH PLAN

The Butler County Board Development Disabilities (BCBDD) participated in the Jefferson Health Plan during 2019. BCBDD provides health insurance to its employees through a self-insurance plan. BCBDD pays \$575.20 per month for employees enrolled in a single plan and \$1,590.70 per month for employees enrolled in a family plan, with the employees paying \$71.10 per month for single coverage, and \$196.60 per month for family coverage.

REGIONAL TRANSIT AUTHORITY (RTA)

The Regional Transit Authority (RTA) is a related organization to the County. The County Commissioners are responsible for appointing the board of directors of the RTA; however, the County Commissioners cannot influence the RTA's operations, nor does the RTA represent a potential financial benefit or burden to the County. Although the County does serve as the taxing authority and may issue tax related debt on behalf of the RTA, its role is limited to a ministerial function. Once the RTA determines to present a levy to the voters, including the determination of the rate and duration, the County must place the levy on the ballet. The RTA may issue debt and determine its own budget. Financial information for the RTA may be obtained at 3045 Moser Ct. Hamilton, OH 45011.

METROPARKS OF BUTLER COUNTY

The Park District Commissioners are appointed by the Probate Judge of the County. The Commissioners adopt their own budget, authorize expenditures, hire and fire staff, and do not rely on the County to finance deficits. Metroparks provides educational programs along with recreational opportunities throughout the year. The County is not financially accountable for the District nor is the District fiscally dependent on the County. The District serves as its own taxing and debt issuance authority and is a related organization of the County. Financial information for the Metroparks of Butler County may be obtained at 2051 Timberman Road, Hamilton, OH 45013.

NOTE 22– CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods and services. Encumbrances accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

| Governmental Funds: | |
|---------------------------------------------------------------|-------------------------------|
| General | \$ 3,555,937 |
| Mental Health and Addiction Recovery Services Board | 1,303,779 |
| Developmental Disabilities | 809,342 |
| Job and Family Services/Children Services | 2,147,848 |
| Residential Incentive Districts and Tax Incremental Financing | 356,652 |
| Nonmajor Governmental Funds | 6,652,171 |
| | , , |
| Total Governmental Funds | \$ 14,825,729 |
| | \$ 14,825,729 |
| | \$ 14,825,729 |
| Total Governmental Funds | \$ 14,825,729 3,751,831 |
| Total Governmental Funds Proprietary Funds: | \$ |
| Total Governmental Funds Proprietary Funds: Sewer | \$ 3,751,831 |

The County has several outstanding contracts for construction and professional services. The following amounts remain on these contracts as of December 31, 2019.

| Project | Outsta | nding Balance |
|-----------------------------------------------------|--------|---------------|
| Majors Enterprises, Inc | \$ | 101,239 |

NOTE 23 – TAX ABATEMENTS

For 2019, County property taxes were reduced by \$389,994 under community reinvestment areas and enterprise tax zone exemption agreements entered into by various municipalities as summarized below.

| Overlapping Government | Amount of 2019 Taxes Abated |
|------------------------------------|--------------------------------|
| Community Reinvestment Areas: | |
| City of Fairfield | \$137,222 |
| City of Hamilton | 3,802 |
| City of Monroe | 158,609 |
| Total Community Reinvestment Areas | 299,633 |
| Enterprise Zone Exemptions: | |
| City of Hamilton | 76,218 |
| City of Middletown | 14,143 |
| Total Enterprise Zone Expemtions | 90,361 |
| Total Abatements | \$389,994 |

NOTE 24- SUBSEQUENT EVENT

On January 23, 2020 the County paid \$2,600,000 in Principal plus interest on the Motorola Radio System Bond Anticipation Note.

In July 2020, the County issued \$1,700,000 of General Obligation Bonds for the purpose of paying off the Hutsenpiller Hamilton Mason Road Bond Anticipation Note.

The United State and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVD-19 and the ensuing emergency measures will impact subsequent periods of the County. Because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact of the County's future operating costs, revenues and any recovery from emergency funding, either federal or state, cannot be estimated.

NOTE 25- BUTLER COUNTY LAND REUTILIZATION CORPORATION

Reporting Entity

The Butler County Land Reutilization Corporation (the "Corporation") is a county land reutilization corporation that was formed on June 15, 2012, when the Butler County Board of Commissioners authorized the incorporation of the Corporation under Chapter 1724 of the Ohio Revised Code through resolution as a not-for-profit corporation under the laws of the State of Ohio. The Corporation is a component unit of Butler County. The purpose of the Corporation is to strengthen neighborhoods in Butler County (the "County") by returning vacant and abandoned properties to productive use. The Corporation has been designated as the County's agent to further its mission to reclaim, rehabilitate, and reutilize vacant, abandoned, tax foreclosed and other real property in the County by exercising the powers of the County under Chapter 5722 of the Ohio Revised Code.

Basis of Accounting

The basic financial statements of the Corporation have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Land Reutilizations' accounting policies are described below:

General Fund - The general fund is the Corporation's only governmental fund. This fund accounts for all financial resources that are received from the County Treasurer from penalties collected on delinquent property taxes and interest on those delinquencies. The general fund receives 1% of all collections of delinquent real property, personal property, and manufactured and mobile home taxes that are deposited into the County's Delinquent Tax Assessment and Collection Tax (DTACT) fund. The general fund also receives various other grants, primarily the NIP Grant. The general fund balance is available to the Corporation for any purpose provided it is expended or transferred according to the general laws of Ohio. In addition, the fund receives State grant revenues.

Measurement Focus

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets, all deferred outflows of resources, all liabilities and all deferred inflows of resources associated with the operation of the Corporation are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. There were no deferred outflows of resources at December 31, 2019.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the Corporation, deferred inflows of resources include unavailable revenue. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the Corporation, unavailable revenue includes intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. There were no deferred inflows of resources at December 31, 2019.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Process

The Corporation is not bound by the budgetary laws prescribed by the Ohio Revised Code for purely governmental entities.

Federal Income Tax

The Corporation is exempt from federal income tax under Section 115(1) of the Internal Revenue Code.

Cash and Cash Equivalents

All monies received by the Corporation are deposited in a demand deposit account. The Corporation had no investments during the year or at the end of the year.

Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed. At year end, because prepayments are not available to finance future governmental fund expenditures, a nonspendable fund balance is recorded by an amount equal to the carrying value of the asset on the fund financial statements.

Assets Held for Resale

Assets held for resale represent properties purchased by or donated to the Corporation. These properties are valued based upon the purchase price plus any costs of maintenance, rehabilitation, or demolition of homes on the properties. For donated or forfeited properties, the asset is reported at fair value. The Corporation holds the properties until the home is either sold to a new homeowner, sold to an individual who will rehabilitate the home, or the home on the property is demolished. Properties with demolished homes could be transferred to the city or township they are in after demolition, until those parcels may be merged with adjacent parcels for development or green space projects, or the Corporation may sell other lots to the owners of adjacent parcels for a nominal cost.

Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Corporation had no restricted net position at December 31, 2019.

Intergovernmental Revenue

The Corporation receives operating income through Butler County. This money represents the penalties and interest on current unpaid and delinquent property taxes once these taxes are paid. Pursuant to ORC 321.263, these penalty and interest monies are collected by the County when taxes are paid and then are paid to the Corporation upon the Corporation's written request. In addition, the Corporation receives State grant funding.

Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria has been satisfied. The unearned revenue for the Corporation is from Fairfield Township for future acquisition costs.

Deposits and Investments

At December 31, 2019, the carrying amount of all Corporation deposits was \$1,089,784. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of December 31, 2019, \$250,000 of the Corporation's bank balance of \$1,109,663 was covered by the Federal Deposit Insurance Corporation (FDIC) and the remaining amount was either covered by the Ohio Pooled Collateral System (OPCS) or exposed to custodial credit risk as described below.

Custodial credit risk is the risk that, in the event of bank failure, the Corporation will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Corporation has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the Corporation's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2019, the Corporation's financial institutions were approved for a reduced collateral rate of 50 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the Corporation to a successful claim by the FDIC

Transactions with Butler County

Pursuant to and in accordance with Section 321.261 (B) of the Ohio Revised Code, the Corporation has been authorized by the Butler County Board of Commissioners to receive 1% of all collections of delinquent real property, personal property, and manufactured and mobile home taxes that are deposited into the County's Delinquent Tax Assessment and Collection Tax (DTACT) fund and will be available for appropriation by the Corporation to fund operations. At December 31, 2019, the Corporation recognized revenues of \$198,783 for these fees that were collected by the County in 2019. The Corporation also received \$28,289 in various other revenues.

During 2019, the Corporation paid \$41,467 in various costs to various Butler County departments.

NOTE 26- LIBERTY COMMUNITY AUTHORITY

Reporting Entity

The Liberty Community Authority, Butler County, Ohio (the "Authority") is a community authority created pursuant to Chapter 349 of the Ohio Revised Code (ORC) and is a component unit of Butler County. Liberty Center Holdings, LLC (the Developer) filed a petition (the Petition) for creation of the Authority with the Board of County Commissioners of Butler County, Ohio, and the Petition was accepted by Resolution No. 13-08-03783

of the Board of County Commissioners of Butler County on August 22, 2013. The Petition, which may be subject to amendment or change, defines the boundaries of the Authority and allows the Authority to finance the costs of publicly owned and operated improvements and community facilities with Community Development Charges.

The Authority includes approximately 65 acres of land located in Liberty Township, Butler County, Ohio with a mixed use commercial project known as Liberty Center including retail space, office space, hospitality components and residential units. Liberty Center's grand opening was in October 2015.

Measurement Focus, Basis of Accounting and Basis of Presentation

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

Operating revenues are those revenues that are generated from the primary activity of the Authority and consist of both assessed valuation charges and facility charges. Operating expenses consist of administrative expenses and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

Cash and Cash Equivalents

The Authority considers all highly liquid investments with an original maturity of three months or less at the time they are purchased to be cash and cash equivalents.

Capital Assets and Depreciation

Capital assets, including parking garages and infrastructure, are recorded at historical cost for assets acquired or constructed and fair value for contributed infrastructure. Expenses that increase values or extend the useful life of the respective assets are capitalized while the costs of maintenance and repairs are charged to operating expenses. Interest costs related to the construction are capitalized. Depreciation is calculated on a straightline basis over the estimated useful life of the various classes of assets. The useful life for computing depreciation is 50 years for parking garages and infrastructure.

Bonds Payable and Discounts

Bonds payable are reported net of the unamortized bond discount which is deferred and amortized over the term of the bonds. Issuance costs are expensed as incurred.

Due to Developer

The amounts reported as Due to Developer represent administrative and constructions costs funded by the Developer in accordance with the master agreement to be reimbursed by the Authority.

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The Authority applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a custodial risk policy. Ohio law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the Authority places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). Financial institutions participating in the Ohio Pooled Collateral System (OPCS), a centralized collateral system monitored by the Ohio Treasurer of State, must pledge eligible securities equal to at least 102% of the carrying value of all public deposits held by each institution. Financial institutions choosing not to participate in the OPCS must pledge eligible securities equal to at least 105% of the carrying value of the all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

As of December 31, 2019 and 2018, the carrying amount and bank balance of the Authority's deposits was \$23,406, and \$36,457, respectively. These balances were covered by the FDIC.

Assessed Valuation Charge

The Assessed Valuation Charge is an annual charge on each chargeable parcel of land within the Authority based on the Assessed Valuation of each parcel which may be expressed as a number of mills. In 2019 and 2018, the Assessed Valuation Charge was the full 10 mills on the total Assessed Valuation. In 2019, the Authority also assessed a Core Retail Valuation Charge of 3.06 mills.

Facility Charge

The Authority has levied a Facility Charge upon all retail sales conducted within the Authority of one half one percent (0.5%) of the price paid by each consumer in connection with such retail sales. The Facility Charge is collected by tenants from consumers and remitted on a monthly basis.

Restricted Assets

Restricted assets consist of cash with fiscal agent whose use has been restricted by bond indenture for a debt service reserve, a capitalized interest fund to pay debt service during construction and a project construction fund. Restricted assets at December 31, 2019 and 2018 were \$1,565,539 and \$1,537,798 respectively.

Capital Assets

Capital Assets Activity for the year ended December 31, 2019 was as follows:

| | Balance 1/1/19 | Increases | Dec | reases | Balance 12/31/2019 | | |
|-------------------------------------------|-------------------|-----------------|----------|--------|-----------------------|-------------|--|
| Capital assets not being depreicated: | 0.000.000 | | _ | | • | 0.000.000 | |
| Land Capital assets being depreciated: | \$ 2,333,662 | \$ - | \$ | - | \$ | 2,333,662 | |
| Parking garages | 27,025,015 | - | | - | | 27,025,015 | |
| Infrastructure | 13,871,256 | - | | - | | 13,871,256 | |
| Total Capital Assets Not Depreciated | 40,896,271 | - | | - | | 40,896,271 | |
| Less accumulated depreciation: | | | | | | | |
| Parking garages | (1,756,625) | (540,500) | | - | | (2,297,125) | |
| Infrastructure | (901,631) | (277,425) | | - | | (1,179,056) | |
| Total accumulated depreciation | (2,658,256) | (817,925) | | - | | (3,476,181) | |
| Capital assets, net | \$ 40,571,677 | \$ (817,925) | \$ | - | \$ | 39,753,752 | |

LONG-TERM DEBT

In November 2014, the Authority entered into a funding agreement with the Butler County Port Authority for the issuance of public infrastructure revenue bonds in the amount of \$20,180,000 for the primary purpose of financing the cost of construction of parking garages and water, sewer and storm water system improvements. The proceeds were also used to fund capitalized interest on the bonds through the June 1, 2016 payment date, fund a debt service reserve and pay costs of issuance. The bonds were issued at discount and pay interest at rates ranging from 5% to 6% and fully mature on December 1, 2043.

The Authority has pledged its community development charges, including both Assessed Valuation Charges and Facility Charges, for the payment of principal and interest on the bonds.

The bond issuance was a portion of a partnership with Butler County and Liberty Township for the construction of public parking garages and infrastructure for the Liberty Center project. The constructed assets belong to the Authority. The parties entered into a funding agreement and issued \$37,310,000 in bonds for capital financing though the Butler County Port Authority. The bonds will be paid solely from the pledged amounts identified in the funding agreement and the Port Authority shall never be required to use its own funds to make such payments. The County pledged revenues for the \$11,085,000 Series A bonds. The Series B bonds in the amount of \$6,045,000 will be paid by Liberty Township and the Series C bonds of \$20,180,000 will be paid by the Authority as noted above.

Also in November 2014, the Authority entered into a loan with the Ohio Water Development Authority (OWDA) in the amount of \$12,000,000 to finance the construction of a storm water collection system throughout the Liberty Center site. The loan matures on July 1, 2037 and pays annual interest at 2.5% with the first payment due on January 1, 2018. The interest capitalization period ran through June 30, 2017.

| | Balance 1/1/19 | | | dditions | R | eductions | Balance 12/31/19 | Due Within One Year | | |
|--------------------------------------------|-------------------|------------|----|----------|----|-----------|---------------------|------------------------|---------|--|
| 2014 Revenue Bonds Less deferred amount | \$ | 19,390,000 | \$ | - | \$ | (370,000) | \$ 19,020,000 | \$ | 390,000 | |
| for issuance discounts | | (391,423) | | - | | 15,657 | (375,766) | | - | |
| Total Revenue Bonds | | 18,998,577 | | - | | (354,343) | 18,644,234 | | 390,000 | |
| OWDA Loan Development | | 11,787,644 | | - | | (491,529) | 11,296,115 | | 503,894 | |
| Subordinate Bond | | 3,194,298 | | 117,644 | | | 3,311,942 | | | |
| Total Long Term Obiligations | \$ | 33,980,519 | \$ | 117,644 | \$ | (845,872) | \$ 33,252,291 | \$ | 893,894 | |

Debt activity for the year ended December 31, 2019 was as follows:

In accordance with the Construction Services Agreement between the Authority and the Developer for the construction of community facilities by the Developer, the Authority agreed to issue notes or bonds to the Developer to evidence the Authority's obligation to reimburse the Developer for public infrastructure costs funded by the Developer. The Developer incurred additional development costs that were included in the Public Infrastructure Scope that exceeded the amounts paid for by the Bond Issuance and the OWDA loan that could be reimbursable to the Developer after all other obligations are fulfilled per the Funding and Trust Agreements. In 2016, the Developer submitted cost certificates to the Authority which were approved by the Board for reimbursement of costs. Thus, in November 2016, the Authority issued a Development Subordinate Bond payable to the Developer in the principal amount of \$2,941,091. In 2019 and 2018, there was \$117,644 and \$122,492 respectively, in capitalized interest on the bond.

The bond matures 40 years from the date of issuance in 2056 and bears interest at a rate of 4% per year. Principal and interest payments shall be payable on each February 1 and August 1 until the principal has been paid provided that interest and principal shall be payable only to the extent of available pledges revenues after the payment of revenue bonds, OWDA loan and operating costs. Thus, no specific repayment schedule is provided.

Under funding agreements, Butler County has pledged tax increment financing (TIF) revenues in the event assessed valuation and facility charges are insufficient to pay debt service on the revenue bonds or OWDA loan. During 2019 and 2018, Butler County provided \$783,168 and \$697,637, respectively, in TIF revenues to use toward OWDA loan debt service and \$211,460 and \$142,105 respectively, in TIF revenues to pay towards the revenue bonds debt service. A liability for these amounts have been recorded on the statement of net position as Due to the County.

A summary of the annual debt service requirements for the bonds payable as of December 31, 2019 follows:

| | Р | rincipal | | Interest | | Total |
|-----------|------|------------|---|------------------|---|------------------|
| 2020 | \$ | 390,000 | | \$ 1,103,162 | | \$ 1,493,162 |
| 2021 | | 410,000 | | 1,083,662 | | 1,493,662 |
| 2022 | | 430,000 | | 1,063,162 | | 1,493,162 |
| 2023 | | 455,000 | | 1,041,662 | | 1,496,662 |
| 2024 | | 475,000 | | 1,018,912 | | 1,493,912 |
| 2025-2029 | | 2,815,000 | | 4,670,775 | | 7,485,775 |
| 2030-2034 | | 3,760,000 | | 3,758,826 | | 7,518,826 |
| 2035-2039 | | 5,030,000 | | 2,517,900 | | 7,547,900 |
| 2040-2043 | | 5,255,000 | _ | 811,800 | _ | 6,066,800 |
| Total | \$ 1 | 19,020,000 | - | \$ 17,069,861 | | \$ 36,089,861 |

Annual debt serice Requirements for the OWDA Loan as of December 31, 2019 follows:

| | I | Principal | Interest | | | Total | |
|-----------|----|------------|----------|----|-----------|-------|------------|
| 2020 | \$ | 503,894 | | \$ | 279,273 | \$ | 783,167 |
| 2021 | | 516,570 | | | 266,597 | | 783,167 |
| 2022 | | 529,565 | | | 253,602 | | 783,167 |
| 2023 | | 542,887 | | | 240,280 | | 783,167 |
| 2024 | | 556,544 | | | 226,623 | | 783,167 |
| 2025-2029 | | 2,999,905 | | | 915,930 | | 3,915,835 |
| 2030-2034 | | 3,396,706 | | | 519,129 | | 3,915,835 |
| 2035-2037 | | 2,250,044 | | | 99,458 | | 2,349,502 |
| Total | \$ | 11,296,115 | | \$ | 2,800,892 | \$ | 14,097,007 |

Related Party Transactions

Under an agreement with the Authority, the Developer was responsible for overseeing the construction and development of the public infrastructure projects. In addition, the Developer will fulfill certain administrative and operational functions for the Authority on an ongoing basis. The Developer has paid operating costs on behalf of the Authority for which it is eligible for reimbursement. At a minimum, the Authority will pay the Developer \$225,000 per year to reimburse these costs. However, the agreement also allows for additional reimbursements to the Developer after debt obligations are paid if surplus revenues exist. Thus, the Authority has reported amounts due to the Developer for operating costs incurred on its behalf by the Developer.

During 2019 and 2018, the Authority hadn't paid the Developer, as required, due to insufficient resources available.

By law, the Authority is governed by a seven-member board of trustees. At inception, the Board of County Commissioners of Butler County appointed four of the trustees and the remaining three trustees were appointed by the Developer. The trustees appointed by the Developer are employees of a related party to the Developer. During 2018, the three trustees of the Developer were replaced by three trustees from the new property manager of Liberty Center. During 2019, these trustees were again replaced by three trustees from a new property manager.

Risk Management

The Authority is exposed to various risks of loss related to torts and liability, damage to and theft of or destruction of assets; errors and omissions; and natural disasters. The Authority maintains comprehensive insurance coverage with private carriers for property and general liability insurance. Claim payments have not exceeded coverage in the past three years. There was no decline in the level of coverage from the prior year.

Contingent Liabilities

There are no claims and lawsuits pending against the Authority.

Subsequent Events

Butler County provided TIF funds to pay \$391,584 for OWDA loan debt service in January 2020. The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and ensuing emergency measures will impact subsequent periods of the Authority. The impact on the Authority's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated at this time.

NOTE 27- BUTLER COUNTY PORT AUTHORITY

Reporting Entity

The Butler County Port Authority (the "Port Authority") is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The Port Authority was established in September 2004 pursuant to section 4582.22 of the Ohio Revised Code by resolution of Butler County. The seven voting member Board of Directors directs the Port Authority. The Port Authority is a component unit of Butler County.

The Port Authority provides services that are enumerated in Sections 4582.21 to 4582.29 of the Ohio Revised Code. The services include but are not limited to the power to purchase, construct, reconstruct, enlarge, improve, equip, develop, sell, exchange, lease, convey other interest in, and operate Port Authority facilities.

Basis of Presentation

Enterprise accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all asset and all liabilities are included on the statement of net position. Equity (i.e., net position) consists of retained earnings. The operating statement presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made. The accrual basis of accounting is utilized for reporting purposes. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

Budgetary Data

Ohio Revised Code Section 4582.39 requires the port authority to annually prepare a budget.

Ohio Revised Code Section 5705(B)(2)(a) requires the Port Authority, on or before the fifteenth day of July each year, to adopt an operating budget for the ensuing fiscal year. The operating budget should include an estimate of receipts from all sources, a statement of all taxing unit expenses that are anticipated to occur, and the amount required for debt charges during the fiscal year. The operating budget is not required to be filed with the county auditor or the county budget commission. Ohio Revised Code Section 5705(B)(2)(b) requires the Port Authority to certify beginning balances on or about the first day of each fiscal year; certify revenue available for appropriation; adopt appropriations within available resources; certify the availability of funds prior to incurring obligations; and, limit expenditures to appropriations for each fund. However, documents prepared in accordance with such Sections are not required to be filed with the county auditor or county budget commission.

Cash and Cash Equivalents

The Port Authority maintains a cash management program whereby cash is deposited with a banking institution in Butler County. The agreements restrict activity to certain deposits. These deposits are stated at cost which approximates market value. Investment procedures are restricted by the provisions of the Ohio Revised Code. During 2019, the Port Authority invested in STAR Ohio. For purposes of the statement of cash flows and for the presentation on the statement of net position, the funds in the cash management pool are considered to be cash equivalents.

Operating and Non-Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly by the Port Authority's primary mission. For the Port Authority, operating revenues include intergovernmental contributions to fund operations and local business contributions to work on grant applications, as well as administrative fees charged to cover operating expenses. Operating expenses are necessary costs incurred to support the Port Authority's primary mission. Non-operating revenues and expenses are those that are not generated directly by the Port Authority's primary mission. Various state grants, local government contributions, interest income and expenses comprise the non-operating revenues and expenses of the Port Authority.

Accrued Liabilities

In general, payables and accrued liabilities are reported as obligations regardless of whether they will be liquidated with current resources.

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The Port Authority applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Conduit Debt Financing

One of the Port Authority's main functions is to provide Butler County companies and organizations with the ability to issue debt at a tax-exempt rate. These companies may use the Port Authority's tax-exempt status for such offerings by issuing conduit revenue bonds backed by reimbursement agreements with the Port Authority and trustee. The Port Authority has recognized both a *Receivable from Conduit Debt Recipients* and a *Payable to Conduit Debt Financial Institution Trustees* for the approximate, aggregate amount of principal outstanding on conduit debt at year end.

Deposits and Investments

In accordance with state statute, active deposits are designated as public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the Port Authority Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

The Port Authority has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the Port Authority or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Conduit Debt

The Port Authority has issued various debt obligations on behalf of other entities that constitute conduit debt. While the Port Authority has no obligation for the conduit debt, the aggregate amount of conduit debt outstanding at year end has been recognized as a Payable to Conduit Debt Financial Institution Trustees in the Port Authority's Statement of Net Position in addition to an offsetting Receivable from Conduit Debt Recipients.

Conduit debt outstanding at December 31, 2019 consisted of the following:

| Greater Miami Valley YMCA | \$ 13,211,500 |
|------------------------------------------|-------------------|
| Liberty Center Project Series A | 9,200,000 |
| Liberty Center Project Series B | 5,795,000 |
| Liberty Center Project Series C | 19,020,000 |
| Colonial Senior Services, Inc. | 5,650,000 |
| Mother Teresa Catholic Elementary School | 3,017,572 |
| Northpoint | 19,669,239 |
| Storypoint | 42,140,000 |
| NorthPoint Rinck | 30,834,082 |
| NorthPoint Brate | 6,687,944 |
| | \$ 155,225,337 |

The Greater Miami Valley YMCA conduit debt was issued for the purpose of constructing a new facility in ordination with the Middletown Regional Hospital's Atrium Facility along Interstate 75 and the refinancing of outstanding debt on other YMCA facilities in Butler County.

The Liberty Center Project Series A, B and C conduit debt was issued for the purpose of acquiring and constructing certain public infrastructure improvements in relation to the Liberty Center Project.

The Colonial Senior Services, Inc. conduit debt was issued for the purpose of constructing a new rehabilitation facility in the City of Hamilton.

The Mother Teresa Catholic Elementary School conduit debt was issued for the purpose of expanding the Mother Teresa Catholic Elementary School in Liberty Township.

The NorthPoint conduit debt was issued for the purpose of constructing two new modern distribution buildings in the City of Fairfield.

The StoryPoint conduit debt was issued for the purpose of constructing a new assisted living complex in Fairfield Township.

The NorthPoint Rinck conduit debt was issued for the purpose of constructing two new modern distribution buildings in West Chester Township.

The NorthPoint Brate conduit debt was issued for the purpose of constructing three new modern distribution buildings in West Chester Township.

NOTE 28- BUTLER COUNTY VISITORS BUREAU

Reporting Entity

The Butler County Visitors Bureau (the "BCVB") was organized in 2006 for the purpose of spotlighting Butler County as a unique travel and tourism destination through target marketing, sales and development efforts. The BCVB also promotes the community as a successful meeting, conference, convention and event destination. All levels of sporting events, statewide and nationwide, are actively solicited and secured by the BCVB. The BCVB receives financial support from Butler County through revenues collected from the hotel/motel room tax.

Basis of Accounting

The financial statements of the BCVB have been prepared on the accrual basis of accounting and accordingly, reflect all significant receivables, payables and other liabilities.

Basis of Presentation

The financial statements are presented in accordance with FASB ASC 958, Financial Statements for Not- for-Profit Organizations. Under this standard, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions. In addition, the BCVB is required to present a statement of cash flows when a statement of financial position and a statement of activities are reported upon.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the BCVB's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and granters. Some donor restrictions are temporary in nature; those restrictions will be met by the actions of the BCVB or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Contributions

Unconditional promises to give are recognized as revenue when the underlying promises are received. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions; depending on the existence and/or nature of any donor-imposed restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Fair Value

The carrying amount of financial instruments, including cash and accounts receivable approximated fair value due to the short maturity of these instruments.

Accounts Receivable

The BCVB uses the allowance method of accounting for doubtful accounts. All accounts were considered to be fully collectible at December 31, 2019. Therefore, no allowance for doubtful accounts has been recorded in these financial statements.

Property & Equipment

Property and equipment are valued at cost if purchased and fair value if contributed. Property and equipment over \$500 are capitalized. Depreciation is computed using the modified accelerated cost recovery system (MACRS) based upon the estimated useful lives of the assets. Computer equipment, computer software and office equipment are generally depreciated over 3 to 7 years. Depreciation expense for the year ended December 31, 2019 was \$3,394.

Revenue Recognition

Revenue and expenses are recorded on the accrual basis. Hotel and motel room tax is recognized as earned in the period in which applicable tax receipts are collected by Butler County.

Income Taxes

The BCVB is exempt from Federal income taxes under Section 501(c)(6) of the Internal Revenue Code, except for advertising revenue and program administration fees which are subject to unrelated business income tax. There is no provision for unrelated business income taxes at December 31, 2019. The BCVB's federal income tax returns for 2017, 2018 and 2019 are subject to examination by the IRS, generally for three years after they were filed. Management has evaluated the effect of accounting guidance regarding uncertain income tax positions and concluded that the BCVB has no significant financial statement exposure to uncertain tax positions. The BCVB is not currently under audit by any tax jurisdiction.

Advertising Costs

Advertising Costs are expensed as incurred and amounted to \$458,747 for the year ended December 31, 2019.

Subsequent Events

Subsequent Events have been evaluated through August 26, 2020, which is the date the financial statements were available to be issued.

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2019

Butler County reports its infrastructure assets using the modified approach as outlined in Governmental Accounting Standards Board (GASB) Statement No. 34. The following disclosures pertain to the conditional assessment and budgeted versus actual expenditures for the preservation of these assets. Data for the conditional assessment is presented in each of the following three sections for 2017, 2014, and 2011. Beginning with reporting year 2009, the County moved to a three year conditional assessment rotation cycle.

County Roads

The condition of road pavement is evaluated and measured using a physical condition rating system. This approach assigns a numerical rating to each road, or section thereof, based on the following criteria: age of pavement, date of last surface maintenance, traffic flow and volume, traffic type and availability of funds. The physical condition rating is determined by a committee of experts from the County Engineer's Office based on the criteria below:

| Pavement | Condition | |
|----------|-----------|--------------------------------------------------------------------------|
| Rating | Rating | Description |
| 1 | Excellent | Pavements not in need of maintenance. New condition. Typically |
| | | pavements 1-4 years old fall into this category. Older pavements with |
| | | lower traffic counts and low truck traffic also fall into this category. |
| 2 | Good | Pavement in need of minor maintenance to restore to Excellent condition. |
| | | Typically pavements 5-8 years old with high traffic counts or a large |
| | | percentage of truck traffic. |
| 3 | Fair | Pavement in need of major maintenance to restore to Excellent condition. |
| | | Typically pavements are 9-15 years old. |
| 4 | Poor | Pavement in need of major repair or heavy overlays to bring to Excellent |
| | | condition. Pavements over 15 years old, or with high traffic volume |
| | | and/or high truck traffic could be rated 4. |

It is the County policy that at least 90% of the roadways will have a rating of 3 (Fair) or higher. The Butler County Engineer's Office has a goal whereby the total mileage of the roadway in the County will be re-paved on a 17-year rotational basis. Historical data has shown that with yearly inspection and maintenance, the average road of the County will be maintained at a usable level for a 25-year period. Each roadway in the County will be assessed once every three years, with higher emphasis on older and more heavily used pavements.

The following summarizes the physical condition assessment of County roads as of December 31 for 2017, 2014, and 2011:

| | 20 | 17 | 20 | 14 | 2011 | | |
|----------------|------------|------------|------------|------------|------------|------------|--|
| Road Condition | Road Miles | % of Total | Road Miles | % of Total | Road Miles | % of Total | |
| Fair or Better | 257 | 95.2% | 254 | 95% | 241 | 90% | |
| Less than Fair | 13 | 4.8% | 14 | 5% | 26 | 10% | |
| Total | 270 | 100% | 268 | 100% | 267 | 100% | |

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2019

The following is a comparison of County budgeted and actual expenditures for preservation of the existing roadways:

| Year | Budgeted Expenditures | Actual Expenditures | Difference |
|------|-----------------------|---------------------|-------------|
| 2019 | \$16,618,092 | \$18,705,201 | \$2,087,109 |
| 2018 | 19,731,975 | 17,765,600 | 1,966,375 |
| 2017 | 6,241,041 | 6,241,041 | 0 |
| 2016 | 3,187,007 | 3,187,007 | 0 |
| 2015 | 1,939,082 | 1,869,777 | 69,305 |
| 2014 | 6,078,718 | 5,171,078 | 907,640 |
| 2013 | 5,486,762 | 5,486,762 | 0 |

County Bridges

The condition of the County's bridges is determined using a general appraisal and operational status rating which is a conditional coding system developed by the Federal Highway Administration. This system is comprised of ratings for the individual elements of the structure. The primary elements of this appraisal system include the following:

- *bridge decks* (riding surface, roadway approaches, end joints, curbing and sidewalks)
- *superstructures* (side rails, above-road piers and overhead truss)
- *substructures* (undercarriage, piers, footings, abutments and erosion protection)

The Federal Highway Administration has defined specific criteria for each element of the bridge, based on its construction. For each element, a 0-9 rating scale is used, where 4 or less is defined as "poor" condition. The ratings of all elements are combined to summarize the structural condition of a bridge as follows:

| Bridge | Condition | |
|--------|--------------|-------------------------------------------------------------------------|
| Rating | Rating | Description |
| 9 | Excellent | Superior to present desirable criteria. |
| 8 | Very Good | Equal to present desirable criteria. |
| 7 | Good | Better than present minimum criteria. |
| 6 | Satisfactory | Equal to present minimum criteria. |
| 5 | Fair | Better than minimum adequacy to tolerate being left in place as is. |
| 4 | Poor | Meets minimum tolerable condition requiring high priority to repair. |
| 3 | Serious | Basically intolerable condition requiring high priority to repair. |
| 2 | Critical | Basically intolerable condition requiring high priority of replacement. |
| 1 | Imminent | |
| 1 | Failure | Immediate repair necessary to put back into service. |
| 0 | Closed | Bridge closed. |

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2019

It is the County policy to maintain the bridge system in the County where 85% of the structures have a general appraisal summary of 5 (Fair) condition or higher. *The following is a summary of the conditional assessment for bridges as of December 31 for 2017, 2014, and 2011:*

| | 2017 | | 20 | 14 | 2011 | | |
|------------------|-----------|------------|-----------|------------|-----------|------------|--|
| | Number of | | Number of | | Number of | | |
| Bridge Condition | Bridges | % of Total | Bridges | % of Total | Bridges | % of Total | |
| Fair or Better | 384 | 94.3% | 368 | 92% | 374 | 94% | |
| Less than Fair | 23 | 5.7% | 30 | 8% | 25 | 6 % | |
| Total | 407 | 100% | 398 | 100% | 399 | 100% | |

The following is a comparison of County budgeted and actual expenditures for preservation of the existing bridges:

| Year | Budgeted Expenditures | Actual Expenditures | Difference |
|------|-----------------------|---------------------|------------|
| 2019 | \$1,978,112 | \$2,226,550 | \$248,438 |
| 2018 | 743,591 | 684,674 | 58,917 |
| 2017 | 1,439,933 | 1,439,933 | 0 |
| 2016 | 1,973,078 | 1,973,078 | 0 |
| 2015 | 1,970,084 | 1,970,084 | 0 |
| 2014 | 2,761,500 | 2,357,403 | 404,097 |
| 2013 | 1,289,620 | 1,289,620 | 0 |

County Culverts

The Butler County Engineer maintains a culvert inventory system. All culverts are inspected every three years with any critical structure being inspected as needed, as per the Engineer's internal policy. A committee of experts from the County Engineer's Office determines the condition rating, and a general appraisal of the condition is categorized as follows:

| (| Culvert | Condition | |
|---|---------|-----------|----------------------------------------------------------------------------------|
|] | Rating | Rating | Description |
| | 1 | Good | No repair required. |
| | 2 | Fair | Minor deficiency, culvert still functioning as designed. |
| | 3 | Poor | Major deficiency, culvert in need of repair to continue functioning as designed. |
| | 4 | Critical | Culvert no longer functioning as designed. |

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2019

It is the goal of the Butler County Engineer to maintain 75% of culverts in a condition of 2-Fair or better. The following is a summary of the conditional assessment for culverts as of December 31 for 2017, 2014, and 2011:

| | 2017 | | 20 | 14 | 2011 | |
|-------------------|-----------|------------|-----------|------------|-----------|------------|
| | Number of | | Number of | | Number of | |
| Culvert Condition | Culverts | % of Total | Culverts | % of Total | Culverts | % of Total |
| Fair or Better | 816 | 83% | 798 | 78% | 834 | 82% |
| Less than Fair | 166 | 17% | 222 | 22% | 189 | 18% |
| Total | 982 | 100% | 1,020 | 100% | 1,023 | 100% |

The following is a comparison of County budgeted and actual expenditures for preservation of the existing culverts:

| Year | Budgeted Expenditures | Actual Expenditures | Difference |
|------|-----------------------|---------------------|------------|
| 2019 | \$153,689 | \$172,991 | \$13,302 |
| 2018 | 250,000 | \$152,189 | 97,811 |
| 2017 | 225,682 | 225,682 | 0 |
| 2016 | 108,845 | 108,845 | 0 |
| 2015 | 50,000 | 33,689 | 16,311 |
| 2014 | 109,842 | 76,045 | 33,798 |
| 2013 | 174,572 | 174,572 | 0 |

(1) Information prior to 2013 is not available for the traditional plan. Information prior to 2016 is not available for the combined plan.

(2) Beginning in 2016, OPERS used one trust fund as the funding vehicle for all health care plans; therefore,

information prior to 2016 is not presented. (3) The OPEB plan includes the members from the traditional plan, the combined plan and the member directed plan. The member directed pension plan is a defined contribution pension plan; therefore, the pension side is not included above.

Butler County, Ohio Notes to the Required Supplementary Information For the year ended December 31, 2019

Changes in Assumptions – OPERS Pension – Traditional Plan

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2017 and in 2016 and prior are presented below:

| | 2019 | 2018 and 2017 | 2016 and prior |
|-------------------------------------------------------------------------------------------|-------------------------------------------------------------------|-------------------------------------------------------------------|-------------------------------------------------------------------|
| Wage Inflation Future Salary Increases, including inflation COLA or Ad Hoc COLA: | 3.25 percent 3.25 to 10.75 percent including wage inflation | 3.25 percent 3.25 to 10.75 percent including wage inflation | 3.75 percent 4.25 to 10.05 percent including wage inflation |
| Pre-January 7, 2013 Retirees Post-January 7, 2013 Retirees | 3 percent, simple 3 percent, | 3 percent, simple 3 percent, | 3 percent, simple 3 percent, |
| 10st-sandary 7, 2013 Reffects | simple through 2018, then 2.15 percent, simple | simple through 2018, then 2.15 percent, simple | simple through 2018, then 2.8 percent, simple |
| Investment Rate of Return Actuarial Cost Method | 7.2 percent Individual Entry Age | 7.5 percent Individual Entry Age | 8 percent Individual Entry Age |

Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

Changes in Assumptions – OPERS OPEB-Combined Plan

For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent

Changes in Assumptions – OPERS OPEB

For 2019, the single discount rate changed from 3.85 percent to 3.96 percent and the municipal bond rate changed from 3.31 percent to 3.71 percent. For 2019, the health care cost trend rate was 10 percent, initial; 3.25 ultimate in 2029. For 2018, the health care cost tend rate was 7.25 percent, initial; 3.25 percent ultimate in 2028.

For 2018, the single discount rate changed from 4.23 percent to 3.85 percent.

Combining Statements and Individual Fund Schedules

Combining Statements – Non-major Governmental Funds

Non-major Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than capital projects) that are legally restricted to expenditures for specified purposes. The following are descriptions of each non-major special revenue fund:

<u>Real Estate Assessment</u> – To account for restricted State mandated county-wide real estate appraisals that are funded by charges to the County's political subdivisions.

<u>All Other Legislative and Executive</u> – To account for restricted state, federal, or local revenue for all other legislative and executive activities not presented on an individual basis.

<u>All Other Judicial</u> – To account for restricted state, federal, or local revenue for all other judicial activities not presented on an individual basis.

<u>All Other Public Safety</u> – To account for restricted state, federal, or local revenue for all other Public Safety activities not presented on an individual basis.

<u>Motor Vehicle</u> – To account for the revenues derived from motor vehicle licenses and gasoline taxes. Expenditures in this special revenue fund are restricted by State law to County roads and bridge repair/improvement programs.

<u>All Other Public Works</u> – To account for restricted state, federal, or local revenue for all other public works activities not presented on an individual basis.

<u>Child Support Enforcement</u> – To account for grant money as well as the poundage fees collected by the Bureau of Child Support that are restricted by State statute to finance the operation of the Child Support Enforcement Agency.

<u>County Care Facility</u> – To account for the collection of restricted state and federal Medicaid and fees from residents' families for the operation of the County Home.

<u>Elderly Services Levy</u> – To account for restricted dollars associated with a county-wide property tax and the expenditures of those funds.

<u>All Other Human Services</u> – To account for restricted state, federal, or local revenue for all other human services activities not presented on an individual basis.

<u>All Other Conservation and Recreation</u> – To account for fees collected on permits by the County restricted to State law to finance erosion and sediment control activities.

Combining Statements – Non-major Governmental Funds (Continued)

Non-major Capital Project Funds

Capital project funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the Proprietary funds). The following are descriptions of each non-major capital project fund:

<u>Technology</u> – To account for restricted note, bond, loan or grant proceeds used to finance the cost of County technology activities.

<u>Other Capital Improvements</u> – To account for restricted note, bond, loan or grant proceeds used to finance all other capital improvements not presented on an individual basis. This fund had no cash activity during 2019, therefore, no budgetary statement is presented.

<u>Road Improvements</u> – To account for restricted note, bond, loan or grant proceeds used to finance the cost of projects related to the construction of roads.

<u>Buildings Construction and Renovations</u> – To account for restricted note, bond, loan or grant proceeds used to finance the cost of improvements and new construction of buildings.

Non-major Bond Retirement

The <u>Bond Retirement Fund</u> is used to account for proceeds and payments on Butler County bonds. The County's Bond Retirement Fund accounts for financing and related costs of issuing and paying County bonds.

Non-major Permanent Fund

The <u>Developmental Disabilities Permanent Fund</u> is used to account for nonspendable gifts and investment earnings that are donor restricted to assist individuals with developmental disabilities.

Internal Service Funds

The Internal Service Funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the County, or to other governmental units, on a cost-reimbursement basis. The following are descriptions of each Internal Service Fund:

<u>Health Insurance</u> – To account for monies received from governmental and proprietary funds agencies to pay for the actual expense of medical, dental and life insurance costs for employees.

<u>Workers' Compensation</u> – To account for funds received from governmental and proprietary funds and regional governmental agencies to pay for the actual expense of workers' compensation benefits.

<u>Jefferson Health Plan</u> – To account for medical claims and premiums for Butler County Developmental Disabilities Board for their self-insured employee medical coverage. The medical and claims activity for this plan occurred in an outside bank account, therefore no budgetary statements are presented.

Agency Funds

Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results and operations. The following are the County's agency funds:

<u>Undivided Tax</u> – Accounts for various agency funds used for the collection and distribution of taxes by the County.

<u>All Other Agency</u> – Accounts for various individual agency funds combined for reporting purposes.

| | Undivided Tax | All Other Agency | Total |

Statistical Section

This part of Butler County Ohio's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

| <u>Contents</u> | Page(s) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| Financial Trends | 172-178 |
| These schedules contain trend information to help the reader understand how the County's financial position has changed over time. | |
| | 179-190 |
| These schedules contain information to help the reader understand and assess the factors affecting the County's ability to generate its most significant local revenue source, the property tax. | |
| Debt Capacity | 191-195 |
| These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future. | |
| Economic and Demographic Information 1 | 196-197 |
| These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments. | |
| Operating Information 1 | 198-202 |
| These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs. | |

Butler County, Ohio Assessed and Estimated Actual Value of Taxable Property Last Ten Years

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property tax has ben phased out. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies at 5 percent for 2010. No tangible personal property taxes were levied or collected after 2008 from general business taxpayers, (except telephone companies whose last year to pay tangible personal property tax was 2010).

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes.

Real property is reappraised every six years and property values are updated in the third year following each reappraisal.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Butler County, Ohio Property Tax Levies and Collections (1) Last Ten Years

| Collection Year | Current Tax Levy | Current Tax Collections | Percent of Current Tax Collections to Current Tax Levy | Delinquent Tax Collections (2) | Total Tax Collections | Percent of Total Tax Collections to Current Tax Levy |
