INDEPENDENT AUDITOR'S REPORT

Fulton County Health Department Fulton County 606 South Shoop Avenue Wauseon, Ohio 43567-1712

To the Board of Health:

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fulton County Health Department, Fulton County, Ohio (the Health Department), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Health Department's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Health Department's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Health Department's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Efficient • Effective • Transparent

Fulton County Health Department Fulton County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Fulton County Health Department, Fulton County, Ohio, as of December 31, 2019, and the respective changes in cash financial position and the respective budgetary comparison for the General and Environmental Funds thereof for the year then ended in accordance with the accounting basis described in Note 2.

Accounting Basis

We draw attention to Note 2 of the financial statements, which describes the accounting basis. The financial statements are prepared on the cash basis of accounting, which differs from generally accepted accounting principles. We did not modify our opinion regarding this matter.

Emphasis of Matter

As Discussed in Note 12 to the financial statements, the financial impact of COVID-19 and the ensuring emergency measures will impact subsequent periods of the Health Department. We did not modify our opinion regarding this matter.

Other Matters

Supplementary Information

Our audit was conducted to opine on the Health Department's financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Fulton County Health Department Fulton County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2020, on our consideration of the Health Department's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Health Department's internal control over financial reporting and compliance.

Keith Faber Auditor of State

Columbus, Ohio

Notes to the Basic Financial Statements For the Year Ended December 31, 2019

Note 1 - Reporting Entity

The Fulton County Health Department (the Health Department), is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. A sixmember Board of Health, four appointed by the District Advisory Council, one member is appointed by the City of Wauseon and one member is appointed by the Fulton County Licensing Council, governs the Health Department. The Board appoints a health commissioner and all employees of the Health Department.

The reporting entity is composed of the primary government that is included to ensure the financial statements of the Health Department are not misleading.

Primary Government

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Health Department. The Health Department's services include communicable disease investigations, immunization clinics, inspections, public health nursing services, the issuance of health-related licenses and permits, health education and emergency response planning.

Public Entity Risk Pools

The Health Department participates in a public entity risk pool. This organization is presented in Note 6 to the financial statements.

The Health Department's management believes these financial statements present all activities for which the Health Department is financially accountable.

Note 2 - Summary of Significant Accounting Policies

As discussed further in the "Basis of Accounting" section of this note, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the Health Department's accounting policies.

Basis of Presentation

The Health Department's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Health Department as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The statements distinguish between those activities of the Health Department that are governmental in nature and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other non-exchange transactions.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Health Department has no business-type activities.

The statement of net position presents the cash balance of the governmental activities of the Health Department at year-end. The statement of activities compares disbursements and program receipts for each program or function of the Health Department's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the Health Department is responsible. Program receipts include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be sent back to the Ohio Department of Health. Receipts which are not classified as program receipts are presented as general receipts of the Health Department, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental program is self-financing on a cash basis or draws from the general receipts of the Health Department.

Fund Financial Statements

During the year, the Health Department segregates transactions related to certain Health Department functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Health Department at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non major funds are aggregated and presented in a single column.

Fund Accounting

The Health Department uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the Health Department are presented in the governmental fund category.

Governmental Funds Governmental funds are those through which most governmental functions of the Health Department are financed. The following are the Health Department's major governmental funds:

General - The General Fund accounts for and reports all financial resources not accounted for and reported in another fund. The General Fund balance is available to the Health Department for any purpose provided it is expended or transferred according to the general laws of Ohio.

Environmental Fund - The fund accounts for monies received from licenses and permits for items such as food, water, sewage, swimming pools, camps, solid waste, and other non-mandated programs.

The other governmental funds of the Health Department account for and report grants and other resources, whose use is restricted, committed or assigned to a particular purpose.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Basis of Accounting

The Health Department's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the Health Department's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the Health Department are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Health Department may appropriate. The appropriations resolution is the Health Department's authorization to spend resources and sets annual limits on disbursements plus encumbrances at the level of control selected by the Health Department. The legal level of control has been established by the Health Department at the object level for all funds.

ORC Section 3709.28 establishes budgetary requirements for the Health Department, which are similar to ORC Chapter 5705 budgetary requirements. On or about the first Monday of April the Health Department must adopt an itemized appropriation measure. The appropriation measure, together with an itemized estimate of revenues to be collected during the next fiscal year, shall be certified to the county budget commission. Subject to estimated resources, the Health Department may, by resolution, transfer appropriations from one appropriation item to another, reduce or increase any item, create new items, and make additional appropriations or reduce the total appropriation. Such appropriation modifications shall be certified to the county budget commission for approval.

The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources in effect when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Health Department.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budget reflect the first appropriation resolution that covered the entire year, including amounts automatically carried forward from prior years. The amount reported as the final budgeted amounts represents the final appropriations passed by the Health Department during the year.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Cash and Investments

The County Treasurer is the custodian for the Health Department's cash and investments. The County's cash and investment pool holds the Health Department's cash and investments, which are reported at the County Treasurer's carrying amount. Deposits and investments disclosures for the County as a whole may be obtained from the County. This information may be obtained by writing Charlene E. Lee, Fulton County Treasurer, 152 S Fulton Street, Wauseon Ohio 43567-1390 or by calling 419-337-9252.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. The Health Department has no restricted assets.

Inventory and Prepaid Items

The Health Department reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

Interfund Receivables/Payables

The Health Department reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities in the accompanying financial statements. Interfund balances are eliminated in the statement of net position.

Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the Health Department's modified cash basis of accounting.

Employer Contributions to Cost-Sharing Pension Plans

The Health Department recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 7 and 8, the employer contributions include portions for pension benefits and for postretirement health care benefits.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Net Position

Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for the following funds: Environmental; Women, Infant and Children; Breast and Cervical Cancer Project; Maternal Health Services; Reproductive Health & Wellness; Immunization Action Plan; MOMS Quit for Two; Public Health Emergency Preparedness; Healthy Choices Caring Communities; and Tobacco Use Prevention and Cessation.

The Health Department's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

Fund Balance

Fund balance is divided into classifications based primarily on the extent to which the Health Department must observe constraints imposed upon the use of the resources in the governmental-fund resources. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board of Health. Those committed amounts cannot be used for any other purpose unless the Board of Health removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the Health Department for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Health or a Health Department official delegated that authority by resolution, or by State Statute.

Unassigned Unassigned fund balance is the residual classification for the General Fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

The Health Department applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Inter-fund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented in the financial statements.

Note 3 - Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the General Fund and any major special revenue fund are prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The differences between the budgetary basis and the cash basis are as follows:

	General Fund
Cash Basis	\$316,859
Encumbrances	(80)
Budget Basis	\$316,779

Note 4 - Deposits and Investments

As required by the Ohio Revised Code, the Fulton County Treasurer is custodian for the Health Department's deposits. The County's deposit and investment pool holds the Health Department's assets, valued at the Treasurer's reported carrying amount.

Note 5 - Taxes

Property Taxes

Property taxes include amounts levied against all real and public utility property located in the Health District. Property tax revenue received during 2019 for real and public utility property taxes represents collections of 2018 taxes.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

2019 real property taxes are levied after October 1, 2019, on the assessed value as of January 1, 2019, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2019 real property taxes are collected in and intended to finance 2020.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2019 public utility property taxes which became a lien December 31, 2018, are levied after October 1, 2019, and are collected in 2020 with real property taxes.

The full tax rate for all Health Department operations for the year ended December 31, 2019, was \$1 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2019 property tax receipts were based are as follows:

Real Property	\$977,674,410
Public Utility Personal Property	96,248,510
Total	\$1,073,922,920

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the County. The County Auditor periodically remits to the Health Department its portion of the taxes collected.

Tax Abatements

Fulton County entered into a tax abatement agreements with various companies for the abatement of property taxes to bring jobs and economic development into the area. The agreement affects the property tax receipts collected and distributed to the Health Department. Under the agreements, the Health Department property taxes were reduced by \$7,931 during fiscal year 2019. The Health Department received \$1,384 in compensation for the forgone property taxes.

Note 6 - Risk Management

The Health Department is exposed to various risks of property and casualty losses and injuries to employees.

The Health Department insures against injuries to employees through the Ohio Bureau of Worker's Compensation.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

The Health Department is a member of the Public Entities Pool of Ohio (The Pool). The Pool assumes the risk of loss up to the limits of the Health Department's policy. The Pool covers the following risks:

- General liability and casualty
- Public official's liability
- Cyber
- Law enforcement liability
- Automobile liability
- Vehicles
- Property
- Equipment breakdown

The Pool reported the following summary of assets and actuarially-measured liabilities available to pay those liabilities as of December 31:

	2018
Cash and investments	\$ 35,381,789
Actuarial liabilities	\$12,965,015

Note 7 - Defined Benefit Pension Plans

Ohio Public Employees Retirement System (OPERS)

Plan Description – Health Department employees, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. Health Department employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

_	 	
G		

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a traditional plan benefit recipient has received benefits for 12 months, an annual cost-of-living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment of the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the purchase of a monthly defined benefit annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

2019 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee*	10.0	%
2019 Actual Contribution Rates Employer:		
Pension	14.0	%
Total Employer	14.0	%
Employee	10.0	%

^{*} Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Health Department's contractually required contribution was \$192,667 for year 2019.

Social Security System

Six of the Health Department's employees contributed to Social Security. This plan provides retirement benefits, including survivor and disability benefits to participant.

Employees contributed 6.2 percent of their gross salaries. The District contributed an amount equal to 6.2 percent of participants' gross salaries. The District has paid all contributions required through December 31, 2019.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Note 8 - Postemployment Benefits

Ohio Public Employees Retirement System

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2019, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2019, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2019 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Health District's contractually required contribution was \$19,182 for the year 2019.

Note 9 - Fund Balances

Fund balance is classified as restricted, committed, assigned and/or unassigned based primarily on the extent to which the Health Department is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

	Environmental					
Fund Balances	Fund Balances General Fund		Fund		Total	
Restricted for General Health	\$	88,440			\$	88,440
Environmental	Ψ	00,110	\$	35,712	Ψ	35,712
Total Restricted		88,440		35,712		124,152
Assigned to						
Insurance		80				80
Unassigned:		1,370,609				1,370,609
Total Fund Balances	\$	1,459,129	\$	35,712	\$	1,494,841

Note 10 - Interfund Transfers

The General Fund transferred \$140,840 to the Environmental Fund since the fees and licenses collected do not cover environmental health expenses.

Note 11 - Contingent Liabilities

Amounts grantor agencies pay to the Health Department are subject to audit and adjustment by the grantor, principally the federal government. Grantors may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

Notes to the Basic Financial Statements For the Year Ended December 31, 2019 (Continued)

Note 12 - Subsequent Event Disclosure

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the Health Department. In addition, the impact on the Health Department's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

The accompanying notes are an integral part of this schedule.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Fulton County Health Department, Fulton County, Ohio (the Health Department's) under programs of the federal government for the year ended December 31, 2019. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Health Department, it is not intended to and does not present the financial position or changes in net position of the Health Department.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement

NOTE C - INDIRECT COST RATE

The Health Department has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - SUBRECIPIENTS

The Health Department passes certain federal awards received to other governments or not-for-profit agencies (subrecipients). As Note B describes, the Health Department reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the Health Department has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE E - MATCHING REQUIREMENTS

Certain Federal programs require the Health Department to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The Health Department has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE F - MEDICAID ADMINISTRATIVE CLAIMING (MAC)

During the calendar year, the Health Department received reimbursements passed through the Ohio Department of Health for the Medicaid program (CFDA #93.778) in the amount of \$40,312. These MAC reimbursements are for administrative costs by participating in a quarterly time study, and are considered to be earned state revenue. The MAC funding is based on time study results and calculated using a Medicaid Eligible Rate (MER) specific to the Health Department. The underlying expenses are on a cost reimbursement basis and occurred in prior reporting periods and are not listing on the Health Department's Schedule of Expenditures of Federal Awards.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Fulton County Health Department Fulton County 606 South Shoop Avenue Wauseon, Ohio 43567-1712

To the Board of Health:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the cash-basis financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Fulton County Health Department, Fulton County, Ohio, (the Health Department) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Health Department's basic financial statements and have issued our report thereon dated June 25, 2020 wherein we noted the Health Department uses a special purpose framework other than generally accepted accounting principles. We also noted the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the Health Department.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Health Department's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Health Department's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Health Department's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Fulton County Health Department
Fulton County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the Health Department's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Health Department's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Health Department's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State

Columbus, Ohio

June 25, 2020

One Government Center, Suite 1420 Toledo, Ohio 43604-2246 (419) 245-2811 or (800) 443-9276 NorthwestRegion@ohioauditor.gov

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Fulton County Health Department Fulton County 606 South Shoop Avenue Wauseon, Ohio 43567-1712

To the Board of Health:

Report on Compliance for Each Major Federal Program

We have audited Fulton County Health Department, Fulton County, Ohio's (the Health Department) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of Fulton County Health Department's major federal programs for the year ended December 31, 2019. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Health Department's major federal programs.

Management's Responsibility

The Health Department's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the Health Department's compliance for each of the Health Department's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Health Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the Health Department's major programs. However, our audit does not provide a legal determination of the Health Department's compliance.

Efficient • Effective • Transparent

Fulton County Health Department
Fulton County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

Opinion on Each Major Federal Program

In our opinion, Fulton County Health Department, Fulton County, Ohio complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

The Health Department's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Health Department's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Health Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State

Columbus, Ohio
