

REGULAR AUDIT

FOR THE YEAR ENDED DECEMBER 31, 2020

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

City Council City of Northwood 6000 Wales Road Northwood, Ohio 43619

We have reviewed the *Independent Auditor's Report* of the City of Northwood, Wood County, prepared by Plattenburg & Associates, Inc., for the audit period January 1, 2020 through December 31, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Northwood is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	1

This page intentionally left blank.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

City Council City of Northwood

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregated remaining fund information of the City of Northwood (the City), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 22, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INTRODUCTORY SECTION

City of Northwood, Ohio

6000 Wales Road Northwood, Ohio 43619 Phone (419) 693-9328 Fax (419) 693-6705

June 22, 2021

Introduction

To the Honorable Mayor, Members of City Council and All Citizens of the City of Northwood, Ohio:

I am pleased to present the twenty-second Comprehensive Annual Financial Report for the City of Northwood, Ohio for the fiscal year ended December 31, 2020. The report has been prepared in accordance with Generally Accepted Accounting Principles (GAAP) established by statements of the Governmental Accounting Standards Board (GASB), other authoritative pronouncements and guidelines recommended by the Government Finance Officers Association (GFOA) of the United States and Canada, and audited in accordance with Generally Accepted Government Auditing Standards (GAGAS) by the Auditor of the State of Ohio. GAAP requires a narrative introduction, overview, and analysis called the Management's Discussion and Analysis (MD&A) to accompany the basic financial statements. This Letter of Transmittal (LOT) is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

The Report

State law, along with *Administrative Rules* of the Auditor of State, requires all city governments to publish an Annual Report within 150 days of the close of each fiscal year. This report must present a complete set of financial statements presented in conformity with GAAP. Various City debt service *Trust Agreements* require Audited Annual Reports in accordance with GAAS. Pursuant to these requirements, we hereby issue the Comprehensive Annual Financial Report of the City of Northwood, Ohio, for the fiscal year ended December 31, 2020.

While there is no legal requirement for the preparation of a Comprehensive Annual Financial Report, it represents a commitment by the City, and its officers, to conform to nationally recognized standards of excellence in financial reporting. This report consists of management's representations concerning the finances of the City. Responsibility for both the accuracy of the presented data and the completeness and reliability of the presentation, including all disclosures, rests with City management.

Management of the City has established various internal controls designed to compile reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's various internal controls are designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City; and that all disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been presented.

The City's financial statements have been audited by Plattenburg and Associates, Certified Public Accountants. The Auditor issued an unmodified opinion that the basic financial statements are presented fairly in conformity with GAAP, in all material respects, representing the financial position of the City as of December 31, 2020. The report from the Auditor is presented as the first component of the financial section of this report.

PROFILE OF THE CITY OF NORTHWOOD

Early History

In 1846, John Mossler built a log cabin on the east side of Plank Road, later named Goss Road and now called East Broadway. This road was made of logs, smoothed on one side. The curved side sunk into mud. The road was maintained with dirt and stone. There were no school boundary lines and children could attend any place of learning that was desirable.

In 1896 Edward Ross Ford purchased property along the Maumee River. In 1898, Mr. Ford built the Edward Ford Plate Glass Factory, which is now situated in the City of Rossford. He also built rows of homes for his employees because of a lack of transportation. At that time the people did not want to be part of Perrysburg and Lake Townships so they petitioned the Wood County Commissioners and the State of Ohio to establish a new township. Ross Township was formed, bound by the Maumee River on the West, Lucas County on the North, Ottawa County on the East and Lake and Perrysburg Townships on the South. The Village of Northwood was incorporated at a special election on August 7, 1962 and comprises all of Ross Township. Northwood acquired its name by residents submitting suggestions. Larry Brough, editor of the Rossford Township News, said it was located in the "Northern" most part of "Wood" County, hence, the name "Northwood" was selected. The Village of Northwood became a City on January 1, 1982 as designated by the State of Ohio after the voters passed the Charter of the City of Northwood on November 3, 1981.

Location

Located in northern Wood County, Northwood occupies approximately eight square miles and is bounded by Rossford on the West, Lucas County (Oregon and Toledo) on the North, Ottawa County on the East and Lake and Perrysburg Townships on the South. Three highways pass through the City including State Route 51 (locally known as Woodville Road) and Interstates 280 and 75. I-280 connects with the Ohio Turnpike six miles south of the City, while I-75 joins I-80/90 three miles south of Northwood. The City is also served by Norfolk Southern and the CSX Transportation railroads as well as the Toledo Express Airport located 20 miles west and Metcalf Field 3 miles south, providing lighted and paved runways for private aircraft.

Form of Government

The City of Northwood is a home-rule municipal corporation created under the laws of the State of Ohio operating under its own Charter. The current charter, which was adopted in 1981 and became effective in 1982, provides for a Council/Mayor form of government.

Legislative authority is vested in a seven member City Council. Four members are elected at-large to four-year terms and the other three members are also elected at-large to staggered four year terms, with each term of office beginning January 1st, following the November election. The Council sets compensation of City Officials and employees, enacts ordinances and resolutions relating to City services and tax levies, appropriating and borrowing funds, licensing and regulating business and trades as well as other municipal purposes. The presiding officer is the Mayor who has no vote unless there is a tie in the votes cast by the members of City Council. The Charter establishes certain administrative departments and the City Council may establish various divisions of those departments.

The City's chief executive officer is the Mayor. The Mayor appoints, subject to the approval of City Council, the City Administrator and all Directors of the City's departments. The City Administrator serves as the Chief Administrative Officer and may appoint or remove subordinate officers or employees of the City under the direct supervision of the Mayor.

The Clerk of Council is appointed by City Council. The City Treasurer's role is assumed by the Finance & Revenue Director, who is appointed by the Mayor and confirmed by City Council.

City Services

Police:.

The Northwood Police Department is a full-time department with an authorized strength of 19 sworn fulltime positions. Current staffing includes the Chief, a Captain, 4 sergeants, 12 patrol officers, a School Resource Officer and a seasonal crossing guard. The City received partial grant funding for the Bulletproof Vest Partnership Program, a DARE grant, Operating a Vehicle while Intoxicated Enforcement. The School Resource Officer with Northwood Local Schools was postponed during 2020.

The department includes dispatching services for police, fire, and public works and is staffed by 5 fulltime and 2 part-time dispatchers.

The Northwood Police Department serves the community in many different capacities. The police are involved in the protection of life and property, law enforcement and community education. Community service programs include Ohio Public Safety Department's Third Grade Safety Belt Program, A.L.E.I.A. (Area Law Enforcement Investigators Association), School Resource Officer, DARE and Bike Patrol.

Fire:

The City of Northwood Fire Department operates out of two stations. An ambulance is staffed on a 24 hour basis by two trained personnel to ensure rapid response to emergencies in the city. The fire department is led by a part-time Fire Chief and is supported by 30 part-time firefighters. The department provides a full range of fire, EMS and rescue services to its residents. Their equipment includes; 3 ambulances, 3 class A pumpers, 1 102' aerial ladder, 1 mini pumper and other support units. Northwood has a Class 4 ISO rating.

Parks and Recreation:

The City owns four major parks. Nature Trails Park located on Curtice Road features a one mile walking or jogging trail that is partially wooded. Brentwood Park, located on Brentwood Road, features a new concession stand, shelter house, picnic facilities, playground equipment and one mile walking and biking trail. Central Park, located on Wales Road, features a shelter house, picnic facilities, a baseball diamond, tennis courts and playground equipment. Ranger Park located on Curtice Road features a pond and walking trail.

The City postponed during 2020 a Summer T-Ball, Softball and Baseball Recreation Program for boys and girls ages 6 to 16. The City contracts with the YMCA for a Senior Program.

Public Works:

The Public Works Department maintains the 47 miles of streets in the City. The department's functions include repairs to City streets as well as cleaning and snow removal. Weekly refuse collection is provided through a contract with Waste Management. The Street Department provides a brush pick up service to the residents as well as a fall leaf collection and a Christmas tree recycling/mulching program. Tree maintenance and new tree plantings are planned each year.

Water and Wastewater:

The City of Northwood has separate water and wastewater services. The western portion of the City is served by water treated by the City of Toledo and purchased through the Northwestern Water & Sewer District. The water is delivered through the distribution system owned and maintained by the Northwestern Water & Sewer District. The eastern portion of the City is served by water treated by the City of Oregon and purchased through the Northwestern Water & Sewer District. The Northwestern Water & Sewer District.

Budgetary and Accounting Controls

The City's budgetary accounting system was designed to provide reasonable assurance that:

- 1. The City's assets are protected against loss and unauthorized use or disposition; and
- 2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated using the following criteria:

- 1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
- 2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the City administration and members of the finance office.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the City's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

Budgetary internal controls are maintained to ensure compliance with legal provisions embodied in the annual appropriated budget by City Council. The activity of all funds is included in the annual appropriation budget. The City also maintains an encumbrance accounting system to maintain budgetary control. The control is maintained through the encumbering of estimated purchases through the use of formal approved purchase orders. Encumbered amounts do not lapse at year-end, unused encumbrances are carried over to the following year. The Administration, Mayor, and City Council receive a monthly report of amounts in the City's bank accounts reconciled to the amounts on the City's internal records. In addition, the Administration, Mayor, and City Council receive a monthly report comparing budgeted and actual revenue and expenditure.

As demonstrated by the statements and schedules included in the financial section of this report, the City continues meeting its responsibility for sound financial management.

INFORMATION USEFUL IN ASSESSING ECONOMIC CONDITION

Economic Outlook

The City of Northwood is located in the middle of the rapid economic growth of Wood County, in the northwestern corner of Ohio. Just across the river from the City of Toledo, the downtown skyline is visible from vantage points in Northwood. The Ohio Turnpike and I-75 intersect just a few miles south of the city limits – a major crossroads to consumer and industrial markets. 18,000,000 people are within a four-hour driving radius from the I-75 and I-80/90 link. There is easy access to the metropolitan areas of Detroit, Chicago, Cleveland, Cincinnati and beyond.

Numerous rail lines intersect Northwood and provide excellent access to local, state and national and international markets. In addition, an international seaport, an inland port, an air cargo hub and an international airport are all minutes away. Getting products to and from markets is a key focus with over 100 truck lines serving the area. A strong industrial base contributes to the economic stability of the City and schools. Several industrial parks for light or heavy industry offer available sites. Sites with high-tech infrastructure are available in a privately owned industrial park. Many businesses have been long time residents of Northwood, and two hospitals service the area and create employment opportunities.

Setting Northwood apart from surrounding areas is it's available commercial and industrial sites plus a "can-do" attitude reinforced by City elected and appointed officials. With an available workforce of nearly 67,000 strong, the City is ideally situated for economic expansion and growth. Numerous economic opportunities and incentives are offered through the City, County and State. The City of Northwood is happy to assist companies interested in moving here.

The number of permits for commercial, industrial and residential totaled 250 in 2020. The Planning and Zoning Department will continue to work on economic development issues and plan for the future of the city through promotion of the Comprehensive Plan and continue to support and encourage the necessary enforcement of our Zoning Code to promote the livability and desirability of Northwood.

2020 was another good year for Northwood's "economic development begins at home" strategy. This holistic approach takes into consideration the improvement of all the city's systems from the improvement of neighborhoods, its transportation systems that connect people and products, and through economic development programs that incentivize individual initiative and investments.

One of our community's most aggressive publicly-generated initiatives to date, "The Enclave", became fully incentivized in 2019. Due to close interaction between city and school officials, this redevelopment area was fortified with tax increment financing (TIF) with 100% of the new real property tax revenues being redirected back to the site for thirty years to develop a multitude of "age in place" amenities including a public park, walking trails and Northwood's first "Main Street". The city's zoning ordinance was also updated to provide the 120+ acre site with flexibility and a streamlined approval process. City officials worked closely with developers in the residential and senior living markets. Construction on this project began in May, 2021.

The city's dedication and devotion towards lean government allows Northwood officials to work faster and smarter, allowing the community to accommodate the eager and the industrious. Throughout 2020, our businesses, property owners and investors were welcomed by a streamlined regulatory environment and incentives that can be authorized quicker than any community in the region.

At the present time, Northwood offers residents and businesses every economic tool allowable under the Ohio Revised Code. This includes property tax abatement programs (Community Reinvestment Area and Enterprise Zone), income tax refund programs (jobs grant), a façade and building grant program (Woodville Road Renewal Program), tax increment financing, and a revitalization district that provides for potential restauranteurs to receive a D-5 liquor license if they are located within the designated zone.

Notable economic & community development projects occurring during 2020 include:

- Over \$800K in road resurfacing projects and neighborhood initiatives that include work on a new concession and restroom facility. In 2020, the city invested over \$3M back into your neighborhoods between capital and general fund revenues.
- Implementing Phase One of the City's Corridor Beautification Strategy working closely with employers and other property owners at the near the I-75, Wales Road area. The city's position is that the visual appearance of the city's primary corridors is linked to improved property investments. To that end, the former Speedway Gas Station was demolished and city officials deployed planning professionals to develop a phased beautification approach that improves landscaping amenities, signage and wayfinding. To help pay for these amenities, special improvement districts may be developed in strategic areas of the community.

- Working with local businesses to tap into the Toledo/Lucas County Port Authority's Energy Special Improvement District to provide low interest financing for energy-related building improvements.
- •
- Working with Ohio Department of Transportation officials to improve safety and improve pedestrian connectivity along Woodville Road. This study is the first step in a proposed 2020-23 Woodville Road upgrade safety improvement grant funded through the Ohio Department of Transportation.
- Coordinating with the Wood County Engineer, ODOT, Owens Community College, Perrysburg Township, and businesses along Oregon Road to enhance connectivity and safety. Major pedestrian connectivity improvements along Wales Road will include sidewalks, timed crosswalks, and dedicated bike lanes. A portion of Wales Road south to SR 795 will also include a road diet and further pedestrian connectivity enhancements to better connect Owens Community College and its students to Northwood.
- The \$10 million RISE Commercial building project expected to bring over 400 jobs and \$14.6 in new payroll when completed in 2022.
- The implementation of Northwood's Safe Routes to School Plan and grant program that encourages K-8 students to bike and walk to school.
- Close interaction with Northwest Water and Sewer District in developing cost effective utility solutions for residents and businesses.
- Proactive property maintenance enforcement to address blight and vacant buildings.
- Pursing the feasibility of creating a community improvement corporation to help frame, guide, and help monetize broad community initiatives.

The year 2021 will see additional progress due to the City's incremental and conservative, yet innovative approach to economic development.

Unemployment Rates

According to the Ohio Bureau of Employment Services, the 2020 annual average unemployment rate for Wood County was 4.2% which was lower than the state rate of 5.2% and also lower than the national rate of 6.5%.

Employee Relations

The City has 36 full-time and 47 part-time employees. A statewide public employee collective bargaining law applies to public employee relations and collective bargaining. There are three bargaining units representing 29 full-time employees. The A.F.S.C.M.E. (American Federation of State, County and Municipal Employees) Local 755 Ohio represents 8 full-time employees. The O.P.B.A. (Ohio Patrolmen's Benevolent Association) represents 13 patrol officers and 5 police dispatchers. The FOP/OLC represents 4 sergeants.

The City negotiated in 2018 with A.F.S.C.M.E. for a 3-year term ending on March 31, 2021. The contract with O.P.B.A. was negotiated in 2017 for a 3-year term ending December 31, 2020. The City reached agreement with FOP/OLC in 2019 for a 3-year term ending June 30, 2022.

Major City Initiatives

During 2020, the City continued focusing on improving the quality of life and employment opportunities for its residents and taxpayers. The City pursued possible assistance such as federal, state and local grant funds. In 2019, the City received the following Police related grants; Bulletproof Vest, DARE and D.U.I. Task Force. The City also received grants from Wood County Recycling, Landfill Sponsorship along with other training and equipment grants for the Fire Department.

During 2020, the City completed six Street Resurfacing Improvements and four drainage projects.

Unemployment Rates

According to the Ohio Bureau of Employment Services, the 2020 annual average unemployment rate for Wood County was 4.2% which was lower than the state rate of 5.2% and also lower than the national rate of 6.5%.

Continuing and Future Projects

Demolition of the Woodville Mall by a contractor hired by the owner took place in 2015 by removing the mall and Sears store. The City purchased the property in 2016 and began removing the former Elder Beerman and Andersons stores in 2017. The remainder of the mall was removed in 2018. During 2018 and 2019, the property was renamed The Enclave and the city has envisioned an "Age in Place" type development containing commercial and residential components. Phase I for the infrastructure of the development began construction in May, 2021.

The City will continue making infrastructure improvements throughout the City in 2021, including resurfacing projects on Eden East, Revilla, Skagway, Beachcraft and Sheffield Place. The Andrus Rd. storm water project will start Summer 2021. The concession stand project including handicap restrooms began in 2019 and will continue into 2021 at Brentwood Park.

AWARDS AND ACKNOWLEDGEMENTS

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to those governments who qualify. To be awarded a Certificate of Achievement, a governmental unit must prepare an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. I believe this, our twenty-third Comprehensive Annual Financial Report, meets the high standards set by the GFOA for a Certificate of Achievement for Excellence in Financial Reporting and we are submitting it to the GFOA.

Public Disclosure

The publication of this report represents an important achievement in the ability of the City of Northwood to provide significantly enhanced financial information and accountability to the citizens, its elected officials, City Administration and investors. In addition to the citizens of Northwood, the recipients of this report will include city, state and federal officials, schools, libraries, newspapers, investment banking firms, banks and rating agencies. The extensive effort to prepare and distribute this report is indicative of the continued efforts of the City of Northwood to improve its overall financial accounting, management and reporting capabilities.

Acknowledgements

The City of Northwood is proud to be submitting this GAAP financial report utilizing the guidelines recommended by GFOA. This report is the result of continued cooperation, and combined services of the Mayor, City Council, Administrative Officials, City employees, the Wood County Auditor's Office and the Auditor's Division of the State of Ohio.

Sincere appreciation and acknowledgement is extended to Donald J. Schonhardt & Associates, Inc, for their guidance in the preparation of this report.

Respectfully,

Kenneth a. yast

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Northwood (the City) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2020, and the respective changes in financial position thereof and the respective budgetary comparisons for the General and Street Construction, Maintenance and Repair funds thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of pension information and postemployment information to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2021, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis	
For the Year Ended December 31, 2020	Unaudited

The discussion and analysis of the City of Northwood's financial performance provides an overall review of the City's financial activities for the fiscal year ended December 31, 2020. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the City's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2020 are as follows:

- □ In total, net position increased \$1,870,115, which represents a 8.7% increase from 2019.
- □ General revenues accounted for \$7.3 million in revenue or 78% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for 22% of total revenues of \$9.4 million.
- □ The City had \$7.5 million in expenses related to governmental activities; only \$2.1 million of these expenses were offset by program specific charges for services, grants or contributions.
- □ Among major funds, the general fund had \$5.8 million in revenues and \$4.9 million in expenditures. The general fund's fund balance increased \$896,986 to \$8,379,846.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, the *basic financial statements*, and an optional section that presents *combining statements* for nonmajor governmental funds and internal service funds. The basic financial statements include two kinds of statements that present different views of the City:

These statements are as follows:

- 1. <u>*The Government-Wide Financial Statements*</u> These statements provide both long-term and short-term information about the City's overall financial status.
- 2. <u>The Fund Financial Statements</u> These statements focus on individual parts of the City, reporting the City's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Unaudited

Government-wide Statements

The government-wide statements report information about the City as a whole using accepting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how they have changed. Netposition (the difference between the City's assets plus deferred outflows of resources and the City's liabilities plus deferred inflows of resources) is one way to measure the City's financial health or position.

- Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as property tax base, current property tax laws, conditions of the City's streets and continued growth within the City.

The government-wide financial statements of the City are divided into two categories:

- <u>Governmental Activities</u> Most of the City's programs and services are reported here including security of persons and property, public health and welfare services, leisure time activities, community environment, basic utility services, transportation and general government.
- <u>Business-Type Activities</u> These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The City has no business-type activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – Most of the City's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance City activities. The relationship (or differences) between governmental activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Management's Discussion and Analysis	
For the Year Ended December 31, 2020	Unaudited

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City's own programs. All of the City's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities and a separate Statement of Fiduciary Net Position.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The following table provides a comparison of the City's net position between 2020 and 2019:

		nmental vities
	2020	2019
Current and other assets	\$18,139,994	\$16,951,718
Capital assets, Net	16,544,476	15,695,111
Total assets	34,684,470	32,646,829
Deferred outflows of resources	1,251,085	2,150,824
Net pension liability	4,966,116	6,433,184
Net OPEB liability	1,724,109	1,662,737
Other long-term liabilities	3,830,451	3,896,050
Other liabilities	287,139	338,729
Total liabilities	10,807,815	12,330,700
Deferred inflows of resources	1,660,136	869,464
Net position:		
Net investment in capital assets	15,178,140	14,287,903
Restricted	1,716,577	1,513,566
Unrestricted	6,572,887	5,796,020
Total net position	\$23,467,604	\$21,597,489

The net pension liability (NPL) is reported by the City pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For fiscal year 2018, the City adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*.

Unaudited

GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows. As a result of implementing GASB 75, the City is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting.

Ending Net Position	\$23,467,604	\$21,597,489			

Unaudited

Governmental Activities

Net position of the City's governmental activities increased by \$1,870,115. The increase in net position is primarily due to changes in the Police and Fire Net OPEB which is reflected insecurity of persons and property expenditures.

The City also receives an income tax, which is based on 1.5% of all salaries, wages, commissions and other compensation earned from residents living within the City and from nonresidents for work done or services performed or rendered in the City. Residents who work outside the City and are subject to a municipal income tax receive a 100% credit against the income tax liability due to Northwood.

Property taxes and income taxes made up 2% and 66% respectively of revenues for governmental activities for the City in fiscal year 2020. The City's reliance upon tax revenues is demonstrated by the following graph indicating 68% of total revenues from general tax revenues:

		Percent	
Revenue Sources	2020	of Total	21.90%
General Shared Revenues	\$264,824	2.82%	21.90%
Program Revenues	2,057,931	21.90%	
General Tax Revenues	6,434,497	68.47%	2.82%
Payments in Lieu of Taxes	219,098	2.33%	4.48%
General Other	421,535	4.48%	2.33%
Total Revenue	\$9,397,885	100.00%	

This space intentionally left blank.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The City's governmental funds reported a combined fund balance of \$16,862,148, which is an increase from last year's balance of \$15,592,485. The most significant factor contributing to this increase was an increase in intergovernmental revenue related to the additional funding from the CARES Act. The schedule below indicates the fund balance and the total change in fund balance by major and nonmajor fund as of December 31, 2020 and 2019:

	Fund Balance December 31, 2020	Fund Balance December 31, 2019	Increase (Decrease)
General	\$8,379,846	\$7,482,860	\$896,986
Street Construction, Maitenance and Repair	402,538	373,157	29,381
General Obligation Debt Retirement	723,497	723,536	(39)
Capital Improvement	3,892,076	3,855,176	36,900
Capital Replacement	2,467,232	2,127,603	339,629
Other Governmental	996,959	1,030,153	(33,194)
Total	\$16,862,148	\$15,592,485	\$1,269,663

General Fund – The City's General Fund balance increase is due to many factors. The City's General Fund balance increase was due to revenues exceeding expenditures as noted below. The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2020 2019		Increase
	Revenues	Revenues	(Decrease)
Property Taxes	\$225,778	\$225,121	\$657
Municipal Income Tax	4,328,287	4,370,720	(42,433)
Other Local Taxes	21,049	37,400	(16,351)
Intergovernmental Revenue	317,745	309,450	8,295
Charges for Services	138,267	172,464	(34,197)
Licenses and Permits	91,570	89,461	2,109
Investment Earnings	286,368	402,344	(115,976)
Special Assessments	102,901	112,816	(9,915)
Fines & Forfeitures	119,091	149,851	(30,760)
Donations	2,010	52	1,958
All Other Revenue	154,186	166,441	(12,255)
Total	\$5,787,252	\$6,036,120	(\$248,868)

General Fund revenues in 2020 decreased 4.1% compared to revenues in fiscal year 2019. The most significant factor contributing to this decrease was a decrease of \$115,976 in investment earnings during 2020 due to lower interest rates of brokered Certificates of Deposits held in the investment portfolio.

	2020	2019	Increase
	Expenditures	Expenditures	(Decrease)
Security of Persons and Property	\$2,933,118	\$3,101,531	(\$168,413)
Public Health and Welfare Services	6,187	5,482	705
Leisure Time Activities	42,906	61,660	(18,754)
Community Environment	244,231	214,054	30,177
Transportation	0	63	(63)
General Government	1,445,771	1,474,880	(29,109)
Total	\$4,672,213	\$4,857,670	(\$185,457)

General Fund expenditures decreased by \$185,457 or about 3.8% from the prior year mostly due to careful monitoring of expenditures during the pandemic.

The Street Construction, Maintenance Repair Fund balance increased by \$29,381 in 2020. This increase was due to a slight increase in gas taxes during 2020 and an increase in transfers into the fund during 2020 compared to 2019 when most of the expenditures came directly from the fund balance.

The General Obligation Debt Retirement Fund balance decreased by \$39 in 2020.

The Capital Improvement Fund balance increased by \$36,900 in 2020. This increase was due to a slight increase in income taxes receivable in 2020.

The Capital Replacement Fund balance increased by \$339,629 in 2020. This increase was due to a decrease in capital expenditures out of the fund during 2020 compared to 2019.

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, final budget basis revenue of \$5.8 million did not change from the original budget estimates of \$5.8 million. There were no significant variances between the final budget and actual results for the General Fund. The General Fund had an adequate fund balance to cover expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2020 the City had \$16,544,476 net of accumulated depreciation invested in land, improvements, infrastructure, buildings, vehicles and machinery and equipment. The following table shows fiscal year 2020 and 2019 balances:

	Govern	Increase	
	Activ	ities	(Decrease)
	2020	2019	
Land	\$2,248,673	\$2,248,673	\$0
Land Improvements	113,168	113,168	0
Buildings and Improvements	4,686,770	4,411,939	274,831
Machinery and Equipment	2,013,917	1,755,195	258,722
Vehicles	4,200,125	3,924,527	275,598
Infrastructure	11,920,281	11,056,868	863,413
Less: Accumulated Depreciation	(8,638,458)	(7,815,259)	(823,199)
Totals	\$16,544,476	\$15,695,111	\$849,365

The primary increase occurred in infrastructure. This increase is the result of street paving projects completed in 2020.

As of December 31, 2020, the City had contractual commitments of \$9,783,090. This is primarily related to the Enclave Infrastructure Phase I construction and the new Recreation Community Center Construction. Additional information on the City's capital assets can be found in Note 8.

Debt

The following table summarizes the City's debt outstanding as of December 31, 2020 and 2019:

	2020	2019
Governmental Activities:		
General Obligation Bonds	\$1,890,000	\$1,935,000
Ohio Water Development Authority	1,138,360	1,285,833
Compensated Absences	574,115	553,842
Capital Leases Payable	227,976	121,375
Net Pension Liability	4,966,116	6,433,184
Net OPEB Liability	1,724,109	1,662,737
Totals	\$10,520,676	\$11,991,971

State statutes limit the amount of unvoted general obligation debt the City may issue. The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions. The actual aggregate amount of the City's unvoted debt, when added to that of other political subdivisions within the respective counties in which Northwood lies, is limited to 11.5 mills. At December 31, 2020, the City's outstanding debt was below the legal limit. Additional information on the City's long-term debt can be found in Note 13.

ECONOMIC FACTORS

The City's original budget for 2020 utilized conservative revenue estimates with limited increases in base operating costs. Original General Fund revenues were projected to be 4.6% lower than actual receipts for 2019. This difference was due to less miscellaneous revenue estimated in 2020.

General Fund expenditures were originally budgeted at 13% more than 2019 actual expenditures. Department requests were reduced from original submissions and in general, departments closely monitored spending, resulting in actual expenditures being less than the final budget by \$983,040.

City Council continues to pursue new revenue sources, while reviewing the possibility of increasing existing sources, in addition to a continued review of reducing expenditures. The City's conservative approach and sound financial management has allowed the City government to financially sustain services subsequent to the start of the COVID-19 crisis. The City will continue to monitor the financial extent of the crisis for any extended financial effects, and if necessary, modify operations accordingly.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Finance Department by calling 419-693-9328 or writing to City of Northwood Finance Department, 6000 Wales Road, Northwood, Ohio 43619.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to The Statement of Activities For the Year Ended December 31, 2020

Net Change in Fund Balances - Total Governmental Funds		\$ 1,247,311
Amounts reported for governmental activities in the statement of activities are different because		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over		
their estimated useful lives as depreciation expense. This is the amount		
by which capital outlay exceeded depreciation in the current period.		
Capital Outlay	\$ 1,672,564	
Depreciation	(823,199)	849,365
Revenues in the statement of activities that do not provide current		
financial resources are not reported as revenues in the funds.		
Municipal Income Taxes	12,306	
Property Taxes	(24,277)	
Charges for Services	31,270	
Interest Revenues	(5,769)	
Special Assessments	(10,846)	
Intergovernmental	55,458	58,142
Contractually required contributions are reported as expenditures in		
governmental funds; however, the statement of net position reports		
these amounts as deferred outflows:		
Pension	430,246	
OPEB	6,553	436,799
Except for amounts reported as deferred inflows/outflows, changes in the net pension and OPEB liabilities are reported as pension/OPEB expense in the statement of activities:		
Pension	(646,249)	
OPEB	(167,301)	(813,550)

The issuance of long-term debt provides current financial resources to		
governmental funds, but has no effect on net position. In addition,		
repayment of bond, note and capital lease principal is an expenditure in the		
governmental funds, but the repayment reduces long-term liabilities in the		
statement of net position.		
Inception of Capital Lease	(227,976)	
General Obligation Bonds Principal	45,000	
OWDA Loan Principal	147,473	
Capital Lease Principal	121,375	85,872
Interest is reported as an expenditure when due in the governmental		
funds but is accrued on outstanding debt on the statement of net position.		
Premiums are reported as revenues when the debt is first issued;		
however, these amounts are deferred and amortized on the		
statement of net position.		
Accrued Interest Payable		715
Some expenses reported on the statement of activities do not		
require the use of current financial resources and, therefore, are		
not reported as expenditures in governmental funds.		
Increase in Supplies Inventory	22,352	
Increase in Compensated Absences Payable	(16,891)	 5,461
Change in Net Position of Governmental Activities		\$ 1,870,115

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Northwood, Ohio (the "City") is a charter municipal corporation operating under the charter and the laws of the State of Ohio. Northwood became a City on January 1, 1982. The City operates under a council/mayor form of government. Legislative power is vested in a seven-member council, including the President, each elected to four-year terms. The Mayor is elected to a four-year term and is the chief executive officer of the City. The Administrator is appointed by the Mayor with Council approval and handles the operational activities of the City's departments. All other City officials are appointed by the Mayor with Council approval.

The accompanying basic financial statements of the City present the financial position of the various fund types and the results of operations of the various fund types. The financial statements are presented as of December 31, 2020 and for the year then ended and have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to local governments. The Governmental Accounting Standards Board (the GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's <u>Codification of Governmental Accounting Accounting and Financial Reporting Standards</u> (GASB Codification).

A. <u>Reporting Entity</u>

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, "*The Financial Reporting Entity*," as amended by GASB Statement No. 61 "*The Financial Reporting Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34*," in that the financial statements include all organizations, activities, functions and component units for which the City (the primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the City.

Based on the foregoing, the City's financial reporting entity has no component units but includes all funds, agencies, boards and commissions that are part of the primary government, which includes the following services: police protection, fire protection, ambulance transport, parks and recreation and street maintenance and repair, as well as a staff to provide administrative support (i.e., payroll processing, accounts payable and revenue collection) to the service providers.

B. <u>Basis of Presentation - Fund Accounting</u>

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. The various funds are summarized by type in the basic financial statements. The following fund types are used by the City:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Governmental Funds

The governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the City's expendable financial resources and the related current liabilities are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the City's major governmental funds:

<u>General Fund</u> – This fund is used to account for all financial resources except those accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio and the limitations of the City Charter.

<u>Street Construction Maintenance and Repair Fund</u> - This fund is used to account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance and repair of dedicated streets.

<u>General Obligation Debt Retirement Fund</u> - This fund is used to account for the accumulation of resources for and the payment of, principal and interest on general obligation debt.

<u>Capital Improvement Fund</u> - This fund is used to account for 20% of the City's income tax collections which is used for capital projects financing or related capital expenditures attributable to various capital improvements.

<u>Capital Replacement Fund</u> - This fund is used to account for resources designated for planned replacement of major capital items for various departments within the City.

Other governmental funds of the City are used to account for (a) the accumulation of resources for, and payment of, general long-term debt principal, interest and related costs; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds; and (c) for grants and other resources whose use is restricted or committed to a particular purpose.

Fiduciary Funds

These funds are used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The City's only fiduciary fund is a custodial fund. This fund is used to account for the collection and distribution of mayor's court fines and forfeitures, except those due to the City of Northwood.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements

<u>Government-wide Financial Statements</u> – The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities. The City has no activities considered business-type activities.

Interfund receivables and payables between governmental funds have been eliminated in the government-wide Statement of Net Position. These eliminations minimize the duplicating effect on assets and liabilities within the governmental activities total column; however, the interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. This differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the City.

<u>Fund Financial Statements</u> – Fund financial statements report detailed information about the City. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures in the accounts and reported in the financial statements, and relates to the timing of the measurements made. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the modified accrual basis when the exchange takes place and the resources are available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the City is 60 days after year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. Revenue from income taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. Revenue considered susceptible to accrual at year end includes income taxes withheld by employers, interest on investments, and state levied locally shared taxes (including motor vehicle license fees and local government assistance). Other revenue, including licenses, permits, certain charges for services, income taxes other than those withheld by employers and miscellaneous revenues, is recorded as revenue when received in cash because it is generally not measurable until received.

The accrual basis of accounting is utilized for reporting purposes for the government-wide financial statements. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

Special assessment installments including related accrued interest, which are measurable but not available at December 31, are recorded as deferred inflows of resources. Property taxes measurable as of December 31, 2020, but which are not intended to finance 2020 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred inflows of resources as further described in Note 4.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation ordinance, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation ordinance are subject to amendment throughout the year.

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is by the object level within each fund. Budgetary control is maintained by not permitting expenditures to exceed appropriations at the object level within each fund without the approval of City Council. Budgetary modifications above the object level by fund may only be made by ordinance of the City Council.

1. Tax Budget

The City Finance Director submits an annual tax budget for the following fiscal year to City Council by July 15 for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission reviews estimated revenue and determines if the budget substantiates a need to levy all or part of previously authorized taxes. The Budget Commission then certifies its actions to the City by September 1 of each year. As part of the certification process, the City receives an official certificate of estimated resources stating the projected receipts by fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year do not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or if actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the first and final amended official certificate of estimated resources issued during 2020.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. <u>Budgetary Process</u> (Continued)

3. Appropriations

A temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 through March 31. An annual appropriation ordinance must be passed by April 1 of each year for the period January 1 through December 31. The appropriation ordinance establishes spending controls at the fund, object level, and may be modified during the year by ordinance of the City Council. Total fund appropriations may not exceed the current estimated resources as certified by the County Budget Commission. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances--Budget and Actual--General Fund and Street Construction, Maintenance and Repair Fund" are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities and are reported in the fund balances for governmental funds in the accompanying basic financial statements.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

6. Budgetary Basis of Accounting

The City's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

6. Budgetary Basis of Accounting (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund and the Street Construction, Maintenance and Repair Fund:

Net Change In Fund Balance		
	General Fund	Street Construction, Maintenance and Repair Fund
GAAP Basis (as reported)	\$890,039	\$13,976
Increase (Decrease):		
Accrued Revenues at		
December 31, 2020		
received during 2021	(590,195)	(59,613)
Accrued Revenues at		
December 31, 2019		
received during 2020	473,726	67,094
Accrued Expenditures at		
December 31, 2020		20.2.0
paid during 2021	151,376	28,363
Accrued Expenditures at		
December 31, 2019	(125.4(2))	(10012)
paid during 2020	(125,462)	(16,913)
2019 Prepaids for 2020	49,322	0
2020 Prepaids for 2021	(52,764)	0
2019 Mark to Market	77,039	0
2020 Mark to Market	(259,683)	0
Outstanding Encumbrances	(12,624)	(5,153)
Budget Basis	\$600,774	\$27,754

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits. The City pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 3, "Pooled Cash, Cash Equivalents and Investments."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution, the Ohio Revised Code and local ordinances. Interest revenue credited to the general fund during fiscal year 2020 amounted to \$286,368, which includes \$148,890 assigned from other City funds. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the City records all its investments at fair value except for nonparticipating investment contracts (repurchase agreements) which are reported at cost, which approximates fair value. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. Fair value is determined by quoted market prices. See Note 3, "Pooled Cash, Cash Equivalents and Investments."

H. Inventory

Inventories are stated at cost (first-in, first-out). The costs of inventory items are recorded as expenditures in the governmental funds when purchased.

I. <u>Prepaid Items</u>

Payments made to vendors for services that will benefit periods beyond December 31, 2020, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

J. Capital Assets and Depreciation

Capital assets are defined by the City as assets with an initial, individual cost of more than \$15,000.

1. Property, Plant and Equipment - Governmental Activities

Governmental activities capital assets generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net position, but they are not reported in the Fund Financial Statements. Infrastructure acquired prior to the implementation of GASB Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*", has not been reported. Only additions to infrastructure since the implementation of GASB Statement No. 34, "*Basic Financial Statement No. 34*, "*Basic Financial Statements*", has not been reported. Only additions to infrastructure since the implementation of GASB Statement No. 34, "*Basic Financial Statement No. 34*, "*Basic Financial Statement No. 34*, "*Basic Financial Statements*", has not been reported. Only additions to infrastructure since the implementation of GASB Statement No. 34, "*Basic Financial Statement No. 34*, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*", have been reported.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets and Depreciation (Continued)

2. Depreciation

All capital assets are depreciated, excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Estimated Lives (in years)
Buildings & Improvements	15 - 40
Machinery, Equipment, Furniture and Fixtures	5-10
Vehicles	5
Infrastructure	50

K. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

Obligation	Fund	
General Obligation Bonds	General Bond Retirement Fund	
Ohio Public Works Commission Loan	General Bond Retirement Fund	
Capital Leases	General Bond Retirement Fund	
Compensated Absences	General Fund	
Pension/OPEB Liabilities	General Fund	
	Street Construction, Maintenance and	
	Repair Fund State Highway Improvement Fund Northwood Waste/Environmental Fund	
	Storm Water Management Fund	

L. Compensated Absences

In accordance with GASB Statement No. 16, "*Accounting for Compensated Absences*," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees who are eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees who are expected to become eligible in the future to receive such payments.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Compensated Absences (Continued)

For governmental funds, that portion of unpaid compensated absences that has matured and is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of net position, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account.

M. <u>Net position</u>

Net position represents the difference between assets plus the deferred outflow of resources and liabilities plus the deferred inflow of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Fund Balances

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form or legally contractually required to be maintained intact.

Restricted – Restricted fund balance consists of amounts that have constraints placed on them either externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. <u>Fund Balances</u> (Continued)

Committed – Committed fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision making authority. For the City, these constraints consist of ordinances passed by City Council. Committed amounts cannot be used for any other purpose unless the City removes or changes the specified use by taking the same type of action (ordinance) it employed previously to commit those amounts.

Assigned – Assigned fund balance consists of amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The City has no formal policy authorizing a body or official to assign amounts for specific purposes.

Unassigned – Unassigned fund balance consists of amounts that have not been restricted, committed or assigned to specific purposes within the General Fund as well as negative fund balances in all other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted (committed, assigned and unassigned) resources as they are needed.

O. Pension/OPEB

The provision for pension/OPEB cost is recorded when the related payroll is accrued and the obligation is incurred. For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Council and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2020.

S. Deferred Inflows/Outflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditures) until then. For the City, deferred outflows related to pension/OPEB are explained in notes 9 and 10.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, *unavailable amounts*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for delinquent property taxes, income taxes, special assessments, charges for services, interest and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension/OPEB are reported on the government-wide statement of net position. (See Note 9 and 10)

T. <u>Fair Value</u>

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Level 2 inputs are significant other observable inputs. Investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs.

NOTE 2 - FUND BALANCE CLASSIFICATION

Fund balance is classified as nonspendable, restricted, committed, assigned and unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General Fund	Street Construction, Maintenance and Repair Fund	General Obligation Debt Retirement Fund	Capital Improvement Fund	Capital Replacement Fund	Other Governmental Funds	Total Governmental Funds
Nonspendable:							
Supplies Inventory	\$27,440	\$102,276	\$0	\$0	\$0	\$0	\$129,716
Prepaid Items	52,764	0	0	9,646	0	0	62,410
Total Nonspendable	80,204	102,276	0	9,646	0	0	192,126
Restricted:							
General Obligation Debt Service Payments	0	0	723,497	0	0	0	723,497
Street Construction and Maintenance	0	300,262	0	0	0	0	300,262
Motor Vehicle License Tax	0	0	0	0	0	14,401	14,401
State Highway Improvements	0	0	0	0	0	155,392	155,392

Fiscal Year 2021 Appropriations	280,510	0	0	0	0	0	280,510
Unassigned	8,009,478	0	0	0	0	0	8,009,478
Total Fund Balances	\$8,379,846	\$402,538	\$723,497	\$3,892,076	\$2,467,232	\$996,959	\$16,862,148

NOTE 3 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash resources of a majority of individual funds are combined to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Cash Equivalents." Ohio law requires the classification of funds held by the City into three categories.

Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "cash equivalent" status for immediate use by the City. Such funds must be maintained either as cash in the City treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" funds - those funds which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

NOTE 3 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. The City's policy is to place deposits with major local banks.

Ohio law requires that deposits be either insured or be protected by eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

All of the City's financial institutions have enrolled in OPCS as of December 31, 2020. One of the City's financial institutions (Huntington National Bank) was approved for a reduced collateral rate of 50 percent through the Ohio Pooled Collateral System.

At year end the carrying amount of the City's deposits was \$8,206,564, which includes \$700 of petty cash on hand, and the bank balance was \$8,537,521. Federal depository insurance covered \$250,000 of the bank balance and \$8,287,521 was exposed to custodial risk and was collateralized with securities held by the pledging financial institutions trust department or agent but not in the City's name and securities held in the Ohio Pooled Collateral System.

NOTE 3 - POOLED CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. Investments

The City's investments at December 31, 2020 are summarized below:

			Fair Value		Investment Maturities (in Years)	
	Fair Value	Credit Rating	Hierarchy	less than 1	1-3	3-5
FFCB	\$249,998	AAA^{1} / Aaa^{2}	Level 2	\$0	\$249,998	\$0
FHLMC	250,058	AAA^{1} / Aaa^{2}	Level 2	0	250,058	0
Negotiable CD's	7,389,627	N/A	N/A	2,190,818	3,812,405	1,386,404
Total Investments	\$7,889,683			\$2,190,818	\$4,312,461	\$1,386,404

¹ Standard & Poor's

² Moody's Investor Service

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The City adheres to the Ohio Revised Code's five year policy.

Credit Risk – The City's investment policy addresses credit risk by limiting investments to the safest types of securities, pre-qualifying financial institutions, brokers, intermediaries and financial advisors and by diversifying the investment portfolio so that potential losses on individual securities do not exceed income generated from the remaining portfolio.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with custodial credit risk beyond the requirements of State statute which prohibit payment for investments prior to the delivery of the securities representing the investments to the treasurer or qualified trustee. The City's investments in FFCB, FHLMC and negotiable certificates of deposit were not insured by Federal Depository Insurance.

Concentration of Credit Risk – The City places no limit on the amount the City may invest in one issuer. The City's investments in FFCB, FHLMC and negotiable certificates of deposit represent 3.2%, 3.2% and 93.6%, respectively of the City's total investments.

NOTE 4 - TAXES

A. Property Taxes

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the City. Real property taxes (other than public utility) collected during 2020 were levied after October 1, 2019 on assessed values as of January 1, 2019, the lien date. Assessed values were established by the County Auditor at 35 percent of appraised market value. All property is required to be reappraised every six years and equalization adjustments made in the third year following reappraisal. The last revaluation was completed in 2017. Real property taxes are payable annually or semi-annually. The first payment is due January 20, with the remainder payable by June 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

This space intentionally left blank.

NOTE 4 – TAXES (Continued)

A. Property Taxes (Continued)

The County Treasurer collects property taxes on behalf of all taxing districts in the County including the City of Northwood. The County Auditor periodically remits to the City its portion of the taxes collected.

The full tax rate for all City operations for the year ended December 31, 2020 was \$1.60 per \$1,000 of assessed value. The assessed value upon which the 2020 tax receipts were based was \$141,557,180. This amount constitutes \$136,013,600 in real property assessed value and \$5,543,580 in public utility assessed value.

Ohio law prohibits taxation of property from all taxing authorities in excess of 1% of assessed value without a vote of the people. Under current procedures, the City's share is .16% (1.60 mills) of assessed value.

B. Income Tax

The City levies a tax of 1.5% on all salaries, wages, commissions and other compensation and on net profits earned within the City as well as on incomes of residents earned outside the City. In the latter case, the City allows a credit of 100% of the tax paid to another municipality to a maximum of the total amount assessed.

Employers within the City are required to withhold income tax on employees compensation and remit the tax to the City either monthly or quarterly, as required. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

This space intentionally left blank.

NOTE 5 – TAX ABATEMENT DISCLOSURES

As of December 31, 2020, the City provides tax incentives under The Community Reinvestment Area (CRA) and a TIF with Alcoa.

Real Estate Tax Abatement

Pursuant to Ohio Revised Code Chapter 5709, the City established a Community Reinvestment Area. The City authorizes incentives through passage of public ordinances, based upon each businesses investment criteria and through a contractual application process with each business. The abatement equals an agreed upon percentage of the additional property tax resulting from the increase in assessed value as a result of the improvements. The amount of the abatement is deducted from the recipient's property tax bill. The establishment of the Community Reinvestment Area gave the City the ability to maintain and expand business located within the City and created new jobs by abating or reducing assessed valuation of properties, resulting in abated taxes, from new or improved business real estate and includes major housing improvements in specified areas.

The City has offered the CRA abatements to encourage economic stability, maintain property values, and generate new employment opportunities and population growth.

Below is the information relevant to the disclosure of those programs for the year ending December 31, 2020.

	Total Amount of
	Taxes Abated
	(Incentives Abated
	For the Year 2020
Property Tax Abatement	In Actual Dollars)
Adient US LLC (2013 - 2027) - Gross Dollar amount of taxes abated during 2020	\$111,854
<i>Fed Ex/KWToledo LLC (2014 - 2023)</i> - Gross Dollar amount of taxes abated during 2020	228,425
All Others - Gross Dollar amount of taxes abated during 2020	
Total	\$649,027

NOTE 6 - RECEIVABLES

Receivables at December 31, 2020 consisted of taxes, special assessments, interest receivable, accounts receivable and intergovernmental receivables.

NOTE 7 - TRANSFERS

Following is a summary of transfers in and out for all funds for 2020:

		Transfers In:	
	Street Construction,		
	Maintenance	Other	
	and Repair	Governmental	
Transfers Out:	Fund	Funds	Total
General Fund	\$125,000	\$100,000	\$225,000

Transfers are used to (1) move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization.

This space intentionally left blank.

NOTE 8 – CAPITAL ASSETS

Summary by *category* of changes in governmental activities capital assets at December 31, 2020:

December 31,			December 31,
2019	Additions	Deletions	2020
\$2,248,673	\$0	\$0	\$2,248,673

Vehicles	(2,296,958)	(273,795)	0	(2,570,753)
Infrastructure	(2,254,133)	(345,066)	0	(2,599,199)
Total Depreciation	(\$7,815,259)	(\$823,199) *	\$0	(\$8,638,458)
Net Value:	\$15,695,111			\$16,544,476

* Depreciation expenses were charged to governmental functions as follows:

Security of Persons and Property	\$260,664
Leisure Time Activities	5,761
Basic Utility Services	49,671
Transportation	377,924
General Government	129,179
Total Depreciation Expense	\$823,199

NOTE 9 – DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees— of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A	Group B	Group C
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after
after January 7, 2013	ten years after January 7, 2013	January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 60 with 60 months of service credit	Age 60 with 60 months of service credit	Age 57 with 25 years of service credit
or Age 55 with 25 years of service credit	or Age 55 with 25 years of service credit	or Age 62 with 5 years of service credit
Formula:	Formula:	Formula:
2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of
service for the first 30 years and 2.5%	service for the first 30 years and 2.5%	service for the first 35 years and 2.5%
for service years in excess of 30	for service years in excess of 30	for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.00% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.00% to the member's FAS for the first 30 years of service.

NOTE 9 – DEFINED BENEFIT PENSION PLANS (Continued)

A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 3.00% COLA adjustment on the defined benefit portion of their benefit.

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS's Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS Comprehensive Annual Financial Report.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2020 Statutory Maximum Contribution Rates		
Employer	14.0 %	
Employee	10.0 %	
2020 Actual Contribution Rates		
Employer:		
Pension	14.0 %	
Post-employment Health Care Benefits	0.0	
Total Employer	14.0 %	
Employee	10.0 %	

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$181,239 for 2020. Of this amount, \$16,978 is reported as accrued wages and benefits.

NOTE 9 – DEFINED BENEFIT PENSION PLANS (Continued)

Plan Description – Ohio Police & Fire Pension Fund (OPF)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OPF), a cost-sharing, multiple-employer defined benefit pension plan administered by OPF. OPF provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OPF issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OPF fiduciary net position. The report that may be obtained by visiting the OPF website at <u>www.op-f.org</u> or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OPF may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.00% or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to 3.00% of their base pension or disability benefit.

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2020 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee:		
January 1, 2020 through December 31, 2020	12.25 %	12.25 %
2020 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
Total Employer	19.50 %	24.00 %
Employee:		
January 1, 2020 through December 31, 2020	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OPF was \$249,007 for 2020. Of this amount, \$22,286 is reported as accrued wages and benefits.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OPF's total pension liability was measured as of December 31, 2019, and was determined by rolling forward the total pension liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Proportionate Share of the Net Pension Liability	OPERS \$1,707,558	OP&F \$3,258,558	Total \$4,966,116
Proportion of the Net Pension Liability-2020	0.008639%	0.048371%	\$1,200,110
Proportion of the Net Pension Liability-2019	0.008997%	0.048625%	
Percentage Change	(0.000358%)	(0.000254%)	
Pension Expense	\$273,135	\$373,114	\$646,249

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	OP&F	Total
Deferred Outflows of Resources			
Changes in assumptions	\$91,207	\$79,991	\$171,198
Differences between expected and			
actual experience	0	123,346	123,346
Change in proportionate share	10,983	13,045	24,028
City contributions subsequent to the			
measurement date	181,239	249,007	430,246
Total Deferred Outflows of Resources	\$283,429	\$465,389	\$748,818
Deferred Inflows of Resources			
Net difference between projected and			
actual earnings on pension plan investments	\$340,619	\$157,414	\$498,033
Differences between expected and			
actual experience	21,590	168,054	189,644
Change in proportionate share	47,166	141,873	189,039
Total Deferred Inflows of Resources	\$409,375	\$467,341	\$876,716

\$430,246 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS	OP&F	Total
Year Ending December 31:			
2021	(\$59,195)	(\$77,080)	(\$136,275)
2022	(126,850)	(44,756)	(171,606)
2023	14,106	36,020	50,126
2024	(135,246)	(149,555)	(284,801)
2025	0	(15,588)	(15,588)
Total	(\$307,185)	(\$250,959)	(\$558,144)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2019 and December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	December 31, 2019
Wage Inflation	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA (Pre 1/7/13 retirees)	3 percent simple
COLA or Ad Hoc COLA (Post 1/7/13 retirees)	1.4 percent simple through 2020. 2.15 percent simple, thereafter
Investment Rate of Return	7.2 percent
Actuarial Cost Method	Individual Entry Age
	December 31, 2018
Wage Inflation	December 31, 2018 3.25 percent
Wage Inflation Future Salary Increases, including inflation	
8	3.25 percent
Future Salary Increases, including inflation	3.25 percent 3.25 to 10.75 percent including wage inflation
Future Salary Increases, including inflation COLA or Ad Hoc COLA (Pre 1/7/13 retirees)	3.25 percent 3.25 to 10.75 percent including wage inflation 3 percent simple

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.2% for 2019.

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

	Target	Weighted Average Long-Term Expected Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	25.00 %	1.83 %
Domestic Equities	19.00	5.75
Real Estate	10.00	5.20
Private Equity	12.00	10.70
International Equities	21.00	7.66
Other investments	13.00	4.98
Total	100.00 %	5.61 %

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.2 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.20%)	(7.20%)	(8.20%)
City's proportionate share			
of the net pension liability	\$2,816,314	\$1,707,558	\$710,817

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

Actuarial Assumptions – OPF

OPF's total pension liability as of December 31, 2019 is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OPF's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2019, compared with January 1, 2018, are presented below.

	January 1, 2019	January 1, 2018
Valuation Date	January 1, 2019, with actuarial liabilities	January 1, 2018, with actuarial liabilities
	rolled forward to December 31, 2019	rolled forward to December 31, 2018
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Investment Rate of Return	8.0 percent	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent	3.75 percent to 10.5 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5	Inflation rate of 2.75 percent plus productivity increase rate of 0.5
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple	3.00 percent simple; 2.2 percent simple
	for increases based on the lesser of the	for increases based on the lesser of the
	increase in CPI and 3 percent	increase in CPI and 3 percent

For the January 1, 2019 valuation, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

For the January 1, 2019 valuation, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

NOTE 9 – DEFINED BENEFIT PENSION PLANS (Continued)

Age	Police	Fire
50 1	25. 04	25 04
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF's target asset allocation as of December 31, 2019 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return	
Cash and Cash Equivalents	0.00 %	1.00 %	
Domestic Equity	16.00	5.40	
Non-US Equity	16.00	5.80	
Private Markets	8.00	8.00	
Core Fixed Income *	23.00	2.70	
High Yield Fixed Income	7.00	4.70	
Private Credit	5.00	5.50	
U.S. Inflation Linked Bonds*	17.00	2.50	
Master Limited Partnerships	8.00	6.60	
RealAssets	8.00	7.40	
Private Real Estate	12.00	6.40	
Total	120.00 %		

* levered 2x

OPF's Board of Trustees has incorporated the "risk parity" concept into OPF's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

NOTE 9 – DEFINED BENEFIT PENSION PLANS (Continued)

Discount Rate For 2019, the total pension liability was calculated using the discount rate of 8.00 percent. The discount rate used for 2018 was 8.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount *Rate* Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent), or one percentage point higher (9.00 percent) than the current rate.

		Current		
	1% Decrease Discount Rate 1% Increa			
	(7.00%)	(8.00%)	(9.00%)	
City's proportionate share				
of the net pension liability	\$4,516,245	\$3,258,558	\$2,206,624	

This Space Intentionally Left Blank

NOTE 10 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the City's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Comprehensive Annual Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care is not being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 0 percent during calendar year 2020. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2020 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$0 for 2020.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at <u>www.op-f.org</u> or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

OP&F maintains funds for health care in two separate accounts. There is one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. An Internal Revenue Code 401(h) account is maintained for Medicare Part B reimbursements.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2020, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$6,553 for 2020.

OPEB Liabilities, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2019, and was determined by rolling forward the total OPEB liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	OPERS	OP&F	Total
Proportionate Share of the Net OPEB Liability	\$1,246,310	\$477,799	\$1,724,109
Proportion of the Net OPEB Liability-2020	0.009023%	0.048371%	
Proportion of the Net OPEB Liability-2019	0.009357%	0.048625%	
Percentage Change	(0.000334%)	(0.000254%)	
OPEB Expense	\$134,966	\$32,335	\$167,301

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS	OP&F	Total
Deferred Outflows of Resources			
Changes in assumptions	\$197,278	\$279,341	\$476,619
Differences between expected and			
actual experience	33	0	33
Change in proportionate share	6,215	12,847	19,062
City contributions subsequent to the			
measurement date	0	6,553	6,553
Total Deferred Outflows of Resources	\$203,526	\$298,741	\$502,267
Deferred Inflows of Resources			
Net difference between projected and			
actual earnings on OPEB plan investments	\$63,462	\$21,988	\$85,450
Changes in assumptions	0	101,826	101,826
Differences between expected and			
actual experience	113,981	51,382	165,363
Change in proportionate share	25,278	98,256	123,534
Total Deferred Inflows of Resources	\$202,721	\$273,452	\$476,173

\$6,553 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	OPERS	OPERS OP&F	
Year Ending December 31:			
2021	\$23,039	\$1,699	\$24,738
2022	4,833	1,699	6,532
2023	52	6,211	6,263
2024	(27,119)	(903)	(28,022)
2025	0	1,317	1,317
2026	0	4,834	4,834
2027	0	3,879	3,879
Total	\$805	\$18,736	\$19,541

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25 percent
Projected Salary Increases,	3.25 to 10.75 percent
including inflation	including wage inflation
Single Discount Rate:	
Current measurement date	3.16 percent
Prior Measurement date	3.96 percent
Investment Rate of Return:	
Current measurement date	6.00 percent
Prior Measurement date	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.75 percent
Prior Measurement date	3.71 percent
Health Care Cost Trend Rate:	
Current measurement date	10.5 percent initial,
	3.5 percent ultimate in 2030
Prior Measurement date	10.0 percent, initial
	3.25 percent, ultimate in 2029
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

The long-term expected rate of return on health care investment assets was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the moneyweighted rate of return is considered to be the same for all plans within the portfolio. The annual moneyweighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.7 percent for 2019.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00	5.75
Real Estate Investment Trust	6.00	5.69
International Equities	23.00	7.66
Other investments	14.00	4.90
Total	100.00 %	4.55 %

Discount Rate A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.75 percent.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount *Rate* The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 3.16 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16 percent) or one-percentage-point higher (4.16 percent) than the current rate:

	Current				
	1% Decrease Discount Rate 1%				
	(2.16%)	(3.16%)	(4.16%)		
City's proportionate share					
of the net OPEB liability	\$1,630,997	\$1,246,310	\$938,302		

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	Current Health Care				
	Cost Trend Rate				
	1% Decrease Assumption 1% Incre				
City's proportionate share					
of the net OPEB liability	\$1,209,533	\$1,246,310	\$1,282,619		

Changes between Measurement Date and Reporting Date

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current year financial statements but are expected to decrease the associated OPEB liability.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Actuarial Assumptions – OP&F

OP&F's total OPEB liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019	January 1, 2018, with actuarial liabilities rolled forward to December 31, 2018

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire	
-		50 64	
67 or less	77 %	68 %	
68-77	105	87	
78 and up	115	120	

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire		
59 or less	35 %	35 %		
60-69	60	45		
70-79	75	70		
80 and up	100	90		

The most recent experience study was completed for the five year period ended December 31, 2016. The prior experience study was completed December 31, 2011.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2019, are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	0.00 %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation Linked Bonds*	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
Total	120.00 %	

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

* levered 2x

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate For 2019, the total OPEB liability was calculated using the discount rate of 3.56 percent. For 2018, the total OPEB liability was calculated using the discount rate of 4.66 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.75 percent at December 31, 2019 and 4.13 percent at December 31, 2018, was blended with the long-term rate of 8 percent, which resulted in a blended discount rate of 3.56 percent for 2019 and 4.66 percent for 2018. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

NOTE 10 - DEFINED BENEFIT OPEB PLANS (Continued)

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount *Rate* The net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 3.56 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.56 percent), or one percentage point higher (4.56 percent) than the current rate.

		Current			
	1% Decrease Discount Rate 1% In (2.56%) (3.56%) (4.50)				
City's proportionate share					
of the net OPEB liability	\$592,441	\$477,799	\$382,541		

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

Changes between Measurement Date and Report Date There was a decrease in the discount rate from 4.66 percent at the prior measurement date to 3.56 percent at the current measurement date. There are no changes to benefit terms.

This Space Intentionally Left Blank

NOTE 11 - COMPENSATED ABSENCES

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

The costs of vacation and sick leave benefits are recorded as they are earned. Employees earn vacation leave at varying rates based upon length of service. Sick leave is earned at various rates as defined by City policy and union contracts. Employees are paid for 100 percent of earned, unused vacation leave upon termination. Any employee with more than ten years of full-time service with the City who elects to retire is entitled to receive half of the value of their accumulated unused sick leave up to a maximum of seventy-five to ninety days.

At December 31, 2020, the City's accumulated, unpaid compensated absences amounted to \$574,115, which has been recorded as a liability of the Governmental Activities.

NOTE 12 - CAPITAL LEASES

The City leases an ambulance under a capital lease. The original cost of the ambulance was \$227,976. The related liabilities are reported in the Government-Wide Statement of Net Position.

The following is a schedule of future minimum lease payments under the capital lease together with the present value of the net minimum lease payments as of December 31, 2020:

	Capital
Year Ending December 31,	Lease
2021	\$58,689
2022	58,689
2023	58,690
2024	58,690
Minimum Lease Payments	234,758
Less amount representing	
interest at the City's incremental	
borrowing rate of interest	(6,782)
Present value of minimum lease payments	\$227,976

NOTE 13 - LONG-TERM DEBT

Long-term debt of the City at December 31, 2020 is as follows:

	Issue Date	Original Issue Amount	Restated Balance December 31, 2019	Issued	(Retired)	Balance December 31, 2020	Amounts Due Within One Year
Governmental Activities:							
General Obligation Bonds:							
8.00% TIF Improvement	2007	\$2,200,000	\$1,935,000	\$0	(\$45,000)	\$1,890,000	\$50,000
Direct Borrowing:							
Ohio Water Development Authority (OWDA) Loan:							
2.43% Woodville Mall Brownfield - 7555	2017	778,188	1,285,833	0	(147,473)	1,138,360	151,080
Compensated Absences			553,842	574,115	(553,842)	574,115	193,687
Capital Leases			121,375	227,976	(121,375)	227,976	58,689
Net Pension Liability			6,433,184	0	(1,467,068)	4,966,116	0
Net OPEB Liability			1,662,737	61,372	0	1,724,109	0
Total Governmental Activities							
Long-Term Debt			\$11,991,971	\$863,463	(\$2,334,758)	\$10,520,676	\$453,456

During 2007, the City issued TIF bonds to finance certain public improvements within the City limits of Northwood. This was done to help pay for infrastructure associated with the construction of a building paid for by Menard's, Inc.

During 2017, the City entered into an OWDA loan agreement (#7555) for the improvements made at the Woodville Mall Brownfield property, which was purchased by the City and is being improved for future development. The loan has an interest rate of 2.43% and matures in 2028.

OWDA Loan Payable - The OWDA loan from direct borrowings represents the amount borrowed from the Ohio Water Development Authority for construction of water and sewer system improvements. The intention is to repay the loan with income tax revenues of the Capital Improvement fund. Annual principal and interest payments on the loan are expected to require less than 100 percent of these revenues. In the event of default on the loan, (1) the amount of the default shall bear interest at the default rate from the due date until the date of payment, (2) if any of the charges have not been paid within thirty days, in addition to the interest calculated at the default rate, a late charge of 1 percent on the amount of each default shall also be paid to OWDA, and (3) for each additional thirty days during which the charges remain unpaid, the City shall continue to pay an additional late charge of 1 percent on the amount of the default until such charges are paid.

NOTE 13 - LONG-TERM DEBT (Continued)

The City's future long-term obligation funding requirements, including principal and interest payments as of December 31, 2020, follow:

	General Obligation Bonds		OWDA Loan	
Years	Principal	Interest	Principal	Interest
2021	\$50,000	\$151,200	\$151,080	\$26,750
2022	55,000	147,200	154,773	23,056
2023	60,000	142,800	158,557	19,273
2024	65,000	138,378	162,433	15,396
2025	70,000	132,800	166,404	11,425
2026-2030	435,000	571,915	345,113	10,546
2031-2035	635,000	368,629	0	0
2036-2038	520,000	85,314	0	0
Totals	\$1,890,000	\$1,738,236	\$1,138,360	\$106,446

NOTE 14 - CONSTRUCTION COMMITMENTS

As of December 31, 2020 the City had the following commitments with respect to capital projects:

	Remaining	Expected
	Construction	Date of
Project	Commitment	Completion
Brentwood Park Concession Stand	\$50,000	2021
Resurfacing Projects	815,900	2021
Traffic Signal Oregon and Wales Roads	46,090	2021
Fishing Dock at Ranger Park	50,000	2021
Andrus Road Storm Sewer	108,600	2021
The Enclave Infrastructure Phase I	4,600,000	2022
Recreation Community Center	4,112,500	2022
Total	\$9,783,090	

Notes to the Basic Financial Statements For the Year Ended December 31, 2020

NOTE 15 - RISK MANAGEMENT

The City of Northwood is a participant in the Ohio Plan (the Pool). The Pool was established in 1988 and is administered under contract by Hylant Administrative Services to provide a program of property and casualty insurance for its member organizations throughout the State of Ohio.

The Pool's general objectives are to formulate, develop and administer a program of insurance, to obtain lower costs for that coverage, and to develop a comprehensive loss control program on behalf of the member political subdivisions. Political subdivisions joining the Pool may withdraw at the end of any coverage period upon 30 days prior written notice to the Pool. Under agreement, members who terminate participation in the Pool, as well as current members, are subject to a supplemental assessment or a refund, at the discretion of the board of trustees, depending on the ultimate loss experience of all the entities it insures for each coverage year. To date, there have been no assessments or refunds, due to the limited period of time that the Pool has been in existence and the nature of the coverage that is afforded to the participants.

Type of Coverage	Limits
Property	\$9,588,196
Liability	\$5,000,000/
	\$7,000,000
Wrongful Acts	\$5,000,000/
-	\$7,000,000
Law Enforcement	\$5,000,000/
	\$7,000,000
Automobile	\$5,000,000
Inland Marine Equipment	\$892,318
Fire Vehicles	\$2,188,997
Bonds	\$50,000
Crime	\$25,000
EDP	\$50,000
Employee Benefit Liability	\$5,000,000/
	\$7,000,000

The City obtained insurance coverage from the Pool from July, 2020 through July, 2021 for various insurance coverages, as follows:

Notes to the Basic Financial Statements For the Year Ended December 31, 2020

NOTE 15 - RISK MANAGEMENT (Continued)

The City provides a self-funded dental insurance program for its employees which is funded through the general fund. GASB Statement No. 10, "*Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*," as amended by GASB Statement No. 30 "*Risk Management Omnibus*," requires that a liability for claims be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the claims liability amount in fiscal 2019 and 2020 were:

	Beginning of	Current Year Claims and	Claims	Balance at
Fiscal Year	Year Liability	Changes in Estimates	Payments	Year End
2019	\$266	\$43,704	(\$43,970)	\$0
2020	0	31,679	(31,679)	0

Workers' compensation claims are covered through the City's participation in the State of Ohio's program. The City pays the State Workers' Compensation System a premium based upon a rate per \$100 of payroll. The rate is determined based on accident history and administrative costs.

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

NOTE 16 - CONTINGENCIES

The City is not a party to any legal proceeding, which seeks damages or injunctive relief generally incidental to its operations and pending projects.

The City has received several federal and state grants for specific purposes, which are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based upon prior experience, City management believes such disallowances, if any, will be immaterial.

NOTE 17 – SIGNIFICANT COMMITMENTS

There were significant encumbrances outstanding at year-end in the Capital Improvement Fund (capital projects fund) in the amount of \$132,948. This amount is reported as part of the committed fund balance.

REQUIRED SUPPLEMENTARY **I**NFORMATION

Schedule of City's Proportionate Share of the Net Pension Liability Last Seven Years

Ohio Public Employees Retirement System

Changes in assumptions:

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

2017: The following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Reduction in actuarial assumed rate of return from 8.00% to 7.50%

- Decrease in wage inflation from 3.75% to 3.25%

- Change in future salary increases from a range of 4.25%-10.02% to 3.25%-10.75%

- Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant mortality Table.

2018: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

2019: The following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Reduction in actuarial assumed rate of return from 7.50% to 7.20%

2020: The following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Change in COLA from 3.00% to 1.4% for post 1/7/13 retirees.

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms: There were no changes in benefit terms for the period 2014-2020.

Changes in assumptions:

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

Notes to the Required Supplementary Information For the Year Ended December 31, 2020

<u>NET PENSION LIABILITY</u> – COST SHARING PLANS (Continued)

OHIO POLICE AND FIRE (OP&F) PENSION FUND (Continued)

2018: The following were the most significant changes of assumptions that affected total pension liability since the prior measurement date:

- Reduction in actuarial assumed rate of return from 8.25% to 8.00%
- Decrease salary increases from 3.75% to 3.25%
- Change in payroll growth from 3.75% to 3.25%
- Reduce DROP interest rate from 4.5% to 4.0%
- Reduce CPI-based COLA from 2.6% to 2.2%
- Inflation component reduced from 3.25% to 2.75%

- For the January 1, 2017, valuation, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006

- For the January 1, 2017, valuation, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006

2019-2020: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

<u>NET OPEB LIABILITY</u> - COST SHARING PLANS

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms: There were no changes in benefit terms for the periods 2018-2020.

Changes in assumptions:

For 2018, the single discount rate changed from 4.23% to 3.85%.

2019: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 3.85% to 3.96%.
- Reduction in actuarial assumed rate of return from 6.50% to 6.00%
- Change in health care cost trend rate from 7.5% to 10%
- The Municipal Bond Rate changed from 3.31% to 3.71%

2020: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 3.96% to 3.16%.
- Change in health care cost trend rate from 10.0% to 10.5%
- The Municipal Bond Rate changed from 3.71% to 2.75%

Notes to the Required Supplementary Information For the Year Ended December 31, 2020

<u>NET OPEB LIABILITY</u> - COST SHARING PLANS (Continued)

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms:

2018: There were no changes in benefit terms.

2019: The retiree health care model and the current self-insured health care plan were replaced with a stipend-based health care model.

2020: There were no changes in benefit terms.

Changes in assumptions:

2018: The single discount rate changed from 3.79% to 3.24%.

2019: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 3.24% to 4.66%.

2020: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 4.66% to 3.56%.

Combining and Individual Fund Statements and Schedules

The following combining statements and schedules include the Major and Nonmajor Governmental Funds.

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Motor Vehicle License Tax Fund

To account for county-levied motor vehicle registration fees designated for street construction, maintenance and repair.

State Highway Improvement Fund

To account for that portion of the state gasoline tax and motor vehicle registration fees designated for street maintenance and repair of state highways within the City.

Northwood Waste/Environmental Fund

To account for the portion of disposal fees designated by City Ordinance to be used for monitoring and related expenses associated with a privately owned and operated solid waste disposal site located within the City.

Drug Fine Fund

To account for proceeds from mandatory drug fines disbursed for law enforcement purposes.

Special Law Enforcement Fund

To account for proceeds received from the sale of property confiscated/forfeited during criminal related arrests. Expenditures are to be used solely for law enforcement purposes.

Enforcement and Education Fund

To account for financial resources used to educate and treat persons with alcohol related problems and to enhance law enforcement activities as a deterrent to the operation of motor vehicles while under the influence of alcohol.

Computerized Research Fund

To account for the acquisition, improvement, replacement and repair of the computerized research system of the Mayor's Court.

Storm Water Management Fund

To account for storm water fees and surcharges related to the City's storm water program.

Keep Northwood Beautiful Fund

To account for donations used to promote Northwood Clean-Up Day and for a recycling program.

Special Revenue Funds

Coronavirus Relief Fund

This fund is used to account for Coronavirus Relief funds received through passage of the CARES Act. These funds can be used for necessary expenditures incurred due to the Covid-19 public health emergency.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

Recreation Parks Combined Fund

To account for funds received from tax on new residential and mobile homes to be used for the development, maintenance and operation of public owned recreational facilities.

Economic Development Acquisition Fund

To account for funds used for various Economic Development programs and initiatives.

Fire Station Addition Fund

To account for funds used for the construction of an addition to the fire station.

The Enclave Construction Fund

To account for funds used for the construction of The Enclave.

THE ENCLAVE CONSTRUCTION FUND

STATISTICAL SECTION

STATISTICAL TABLES

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the city's overall financial health.

Contents

Financial Trends These schedules contain trend information to help the reader understand how the City's financial position has changed over time.	S 2 – S 11
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the City's ability to generate its most significant local revenue sources, the property tax and the income tax.	S 12 – S 15
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	S 16 – S 23
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S 24 – S 27
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	S 28 – S 33
Sources Note:	

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
