## INDEPENDENT AUDITOR'S REPORT

Gallia County  
18 Locust Street  
Gallipolis, Ohio 45631

To the Board of County Commissioners:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Gallia County, Ohio (the County), as of and for the ended December 31 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the Table of Contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the 's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the 's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Gallia County, Ohio, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General, Motor Vehicle Gasoline Tax, Job and Family Services, and Board of Developmental Disabilities Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 3 to the financial statements, during 2020, the County adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 83, *Certain Asset Retirement Obligations*. Also, as discussed in Note 27 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the County. We did not modify our opinion regarding these matters.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's Discussion and Analysis*, and *Schedules for Infrastructure Assets Accounted for Using the Modified Approach*, and Schedules of Net Pension and Other Post-Employment Benefit Liabilities and Pension and Other Post-Employment Benefit Contributions listed in the Table of Contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### *Supplementary and Other Information*

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards (the Schedule) presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The Schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2021, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2020*

---

The discussion and analysis of Gallia County's (the County) financial performance provides an overall review of the County's financial activities for the year ended December 31, 2020. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the County's financial performance.

## **FINANCIAL HIGHLIGHTS**

**Key financial highlights for year 2020 are as follows:**

- In total, net position increased \$738,725. Net position of governmental activities increased \$947,666, or 0.92 percent from 2019. Net position of business-type activities decreased \$208,941, or 2.12 percent from 2019.
- Overall, the fund balance of governmental funds increased \$15,985,216. While the General Fund increased \$2,137,024, the Motor Vehicle Gasoline Tax Fund increased \$737,796, the Job and Family Services Fund increased \$117,633, the Board of Developmental Disabilities Fund increased \$451,037, and the Jail Project Capital Improvement Fund increased \$11,432,212.

## **USING THIS ANNUAL FINANCIAL REPORT**

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the financial position of Gallia County.

The Statement of Net Position and the Statement of Activities provide information about the activities of the County as a whole, presenting both an aggregate and a longer-term view of the County. Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. Fund financial statements report the County's most significant funds individually and the County's non-major funds in a single column.

### ***Reporting Gallia County as a Whole***

#### *Statement of Net Position and Statement of Activities*

While this document contains information about the funds used by the County to provide services to our citizens, the view of the County as a whole looks at all financial transactions and asks the question, "How did we do financially during 2020?" The Statement of Net Position and Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting considers all of the current year's revenues and expenses regardless of when cash is received or paid.

These statements report the County's net position and changes in net position. This change in net position is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or worsened. Over time, these changes are one indicator of whether the financial position is improving or deteriorating. However, in evaluating the overall position of the County, non-financial information, such as the condition of the County's capital assets and changes in the County's property tax base will also need to be evaluated.

---

In the Statement of Net Position and the Statement of Activities, the County is divided into two kinds of activities:

- **Governmental Activities** – Most of the County's programs or services are reported here, including legislative and executive, judicial, public safety, public works, health, human services, and economic development. These services are funded primarily by taxes and intergovernmental receipts, including federal and state grants and other shared revenues.
- **Business-Type Activities** – These services are provided on a charge for goods or services basis to recover all or most of the cost of the services provided. The County's Sewer system is reported here.

***Reporting the Gallia County's Most Significant Funds***

*Fund Financial Statements*

The basic governmental fund financial statements begin on page 16. Fund financial reports provide detailed information about the County's major funds. Based upon restrictions on the use of monies, the County has established many funds which account for the multitude of services provided to our residents. However, these fund financial statements focus on the County's most significant funds. The County's major funds are the General Fund; the Motor Vehicle Gasoline Tax, Job and Family Services, and Board of Developmental Disabilities Special Revenue Funds; the Jail Project Capital Improvement Fund; and the Sewer Enterprise Fund.

***Governmental Funds*** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the County's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a number of individual governmental funds. Information for major funds, identified earlier, is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single aggregated presentation.

***Proprietary Funds*** The County uses enterprise funds to account for its sewer operations. For these operations, the County charges a fee to customers, based upon the amount of usage, to recover the costs of the services provided, and to cover the capital assets associated with the services.

The net pension liability (NPL) is the one of the largest liabilities reported by the County at December 31, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the

---

retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability (asset) and net OPEB (asset) liability, respectively, not accounted for as deferred inflows/outflows.

Governmental activities assets increased \$16,966,573, due mostly to increases in equity in pooled cash and cash equivalents, capital assets, and intergovernmental receivable. Equity in pooled cash and cash equivalents increased \$15,894,486, due mostly to unspent bond proceeds of \$12,702,782 for the new County Jail project and the GALLCO Workshop Renovation project, as well as increased revenues from sales taxes and CARES Act funding. Intergovernmental receivable increased in the amount of \$797,104, due to increases in grant funding. Deferred outflows of resources related to pension and OPEB decreased \$3,214,517. The significant decrease in total deferred outflow of resources in 2020 was mostly due to changes in amortization relating to changes of assumption used in calculations of the net pension liability.

Total governmental activities liabilities increased \$8,442,511, due mostly from an increase in other amounts due in more than one year, offset by a decrease in the net pension liability. Other amounts due in one year increased \$12,881,729 as a result of debt issued for the County Jail Project. Net pension liability decreased \$5,683,104. The net pension liability decrease represents the County's proportionate share of the OPERS traditional and combined plans' unfunded benefits. As indicated above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability.

Total business-type activities assets decreased \$453,385. Capital assets decreased by \$287,094, due to depreciation which was offset by ongoing construction in progress. Current and other assets decreased \$166,291 due to a \$59,079 decrease in cash and cash equivalents and a \$128,735 increase in internal balances payable.

Table 2 reflects the change in net position of the current year from the prior year.

**Governmental Activities**

Program revenues accounted for 64.36 percent of total revenues for governmental activities in 2020. Governmental activities services are primarily funded through these program revenues, with operating grants accounting for \$19,827,100 or 50.65 percent of total revenues. The major recipients of these intergovernmental receipts were the Motor Vehicle Gasoline Tax, Job and Family Services, and Board of Developmental Disabilities Special Revenue Funds.

---

The County's direct charges to users of governmental services made up \$5,337,918 or 13.64 percent of total governmental revenues. These charges are for fees associated with emergency medical services, the collection of property taxes, fines and forfeitures related to judicial activity, licenses and permits, and public assistance fees.

General revenues, primarily property and sales taxes, accounted for 35.64 percent of total revenues. This highlights the County's dependence upon its citizens and taxpayers to fund those programs most important to them.

Human service programs accounted for \$10,508,467 or 27.51 percent of total expenses for governmental activities. The expenses are primarily for Job and Family Services, Children's Services, and Child Support Enforcement activity. These activities are almost entirely paid from program revenues. These grants and entitlements allow the County to continue to offer a wide variety of quality services to its citizens without increasing the tax burden on our citizens.

Public safety programs are a major activity of the County, accounting for \$7,647,851 or 20.02 percent of all governmental expenses. These activities are funded primarily through property and sales taxes. The County attempts to supplement the income and activities of the sheriff department to enable the department to widen the scope of its activity at the lowest cost to the taxpayer.

Public works programs accounted for \$6,125,440 or 16.04 percent of all governmental activities. These activities are paid entirely with program revenues. The funding from other governmental granting agencies was used for numerous road and bridge projects throughout the County.

General government legislative and executive and judicial, health, economic development, and interest and fiscal charges expenditures account for the remaining 36.43 percent of governmental expenses.

### ***Business-Type Activities***

The County's sewer operations experienced a decrease in net position of \$208,941 during 2020. Charges for services accounted for \$1,024,805, or 97.32 percent of total revenue. Sewer expenses decreased \$56,429 from 2019.

## **THE COUNTY'S FUNDS**

The County's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$38,892,402 and expenditures of \$42,120,794.

The fund balance of the General Fund increased \$2,137,024. This increase was a result of CARES Act funding reducing the expenses paid by the General Fund during 2020. The General Fund's unassigned fund balance of \$4,338,755 represented 44.96 percent of current year expenditures. Most of this balance remains in the County's treasury.

The fund balance of the Motor Vehicle Gasoline Tax Special Revenue Fund increased \$737,796. The Motor Vehicle Gasoline Tax Special Revenue Fund's spendable fund balance of \$3,506,060 represented 57.19 percent of current year expenditures.

---

The fund balance of the Job and Family Services Special Revenue Fund increased \$117,633. The Job and Family Services Special Revenue Fund's spendable fund balance of \$523,251 represented 7.20 percent of current year expenditures.

The fund balance of the Board of Developmental Disabilities Special Revenue Fund increased \$451,037. The Board of Developmental Disabilities Special Revenue Fund's spendable fund balance of \$1,883,004 represented 64.58 percent of current year expenditures.

The fund balance of the Jail Project Capital Improvement Fund increased \$11,432,212 due to the proceeds from bonds issued.

The net position of the Sewer Enterprise Fund decreased \$208,941. The Sewer Fund's unrestricted net position of \$489,190 represented 47.2 percent of current year expenses.

### ***General Fund Budgeting Highlights***

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. From time to time during the year, the fund's budget may be amended as needs or conditions change.

During the course of 2020, the County amended its General Fund budget several times, though none were significant. All recommendations for a budget change came from either the County Auditor or departmental managers to the Finance Committee of the County Commissioners for review before going to the whole Commission for Ordinance enactment on the change. The allocation of appropriations among the departments and objects within a fund may be changes during the year with approval from the County Commissioners. With the General Fund supporting many of our major activities such as our sheriff department, as well as most legislative and executive activities, the General Fund is monitored closely looking for possible revenue shortfalls or overspending by individual departments.

For the General Fund, increases of \$2,316,537 were made to the original budgeted revenues to account mostly for increases in sales tax revenue and a large refund from the Bureau of Workers Compensation. Final budgeted expenditures decreased \$544,983 from the original amount to account mostly for expenditures which were paid by CARES Act funding. Gallia County's ending unencumbered fund balance in the General Fund was \$20,397 more than the final budgeted amount.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### ***Capital Assets***

At the end of 2020, the County had \$112,497,089 in governmental activities and \$18,112,925 in business-type activities invested in land, infrastructure, construction in progress, land improvements, buildings and improvements, furniture, fixtures, and equipment, and vehicles. Table 3 shows 2020 balances compared to 2019.

The assets of the County are reported at cost, net of depreciation. The County uses the modified approach to present infrastructure for its governmental type activities. Disclosures about the condition assessments for infrastructure can be found in the Required Supplementary Information. For additional information on capital assets, see Note 10 to the basic financial statements.

**Debt**

By year end, the County had various outstanding notes, bonds, loans, and capital leases payable, totaling \$26,024,380 of which \$968,507 is due within one year.

The County's overall legal debt margin was \$15,614,344 at December 31, 2020. For additional information on the County's debt, see Notes 19 and 24 to the basic financial statements.

**CURRENT ISSUES**

As the preceding information shows, the County depends heavily on its taxpayers and grants and entitlements. Gallia County has tightened spending to better bring expenses in line with revenues and carefully watched financial planning, in order to remain on firm financial footing.

**CONTACTING THE COUNTY AUDITOR'S DEPARTMENT**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Larry M. Betz, Gallia County Auditor, 18 Locust Street, Gallipolis, Ohio 45631.

**Gallia County, Ohio**  
*Reconciliation of the Statement of Revenues, Expenditures, and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Year Ended December 31, 2020*

**Net Change in Fund Balances - Total Governmental Funds** \$15,985,216

*Amounts reported for governmental activities in the statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period:

Capital Assets Additions	1,552,761	
Depreciation Expense	<u>(973,371)</u>	579,390

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the proceeds and gain on disposal of assets:

Proceeds from Sale of Capital Assets	(39,225)	
Gain on the Disposal of Capital Assets	<u>17,293</u>	(21,932)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Delinquent Property Taxes	77,387	
Sales Taxes	38,557	
Intergovernmental Revenues	163,175	
Charges for Services	(80,777)	
Interest	(18,911)	
Other Revenues	<u>(436)</u>	178,995

Repayments of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position:

General Obligation Bonds Payable	5,382,886	
OPWC Loans Payable	13,360	
Capital Leases Payable	<u>291,005</u>	5,687,251

Debt proceeds are other financing sources in the governmental funds, but the issuance increases long-term liabilities in the statement of net position:

Bond Anticipation Notes	(4,206,790)	
Bonds Issued	(13,500,000)	
Premium on Bonds Issued	<u>(478,481)</u>	(18,185,271)

Bond insurance premiums are debt service expenditures in governmental funds when paid, but are reported as unamortized bond insurance premiums on the statement of net position, and are allocated as an expense over the life of the outstanding debt on the statement of activities.

Bond Insurance Paid		56,843
---------------------	--	--------

The inception of capital lease is reported as an other financing source in the governmental funds, but increases long-term liabilities on the statement of net position. (929,986)

The internal service fund used by management to charge the cost of insurance to individual individual funds is not reported in the government-wide statement of activities. Governmental expenditures and the related internal service fund revenue are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities: (25,105)

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	1,662,171	
OPEB	<u>5,928</u>	1,668,099

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liabilities/assets are reported as pension/OPEB expense in the statement of activities.

Pension	(2,706,475)	
OPEB	<u>(1,227,622)</u>	(3,934,097)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds:

Accrued Interest	(37,542)	
Amortization of Bond Insurance Premium	(1,421)	
Vacation and Other Leave Benefits Payable	(57,538)	
Compensated Absences Payable	<u>(15,236)</u>	(111,737)

*Change in Net Position of Governmental Activities* \$947,666

**NOTE 1 - REPORTING ENTITY**

Gallia County, Ohio (the County), was created in 1803. The County is governed by a board of three Commissioners elected by the voters of the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the County Auditor, County Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Sheriff, a Common Pleas Court Judge, and a Probate/Juvenile Court Judge. Although the elected officials manage the internal operations of their respective departments, the County Commissioners authorize expenditures as well as serve as the budget and taxing authority, contracting body, and the chief administrators of public services for the entire County.

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Gallia County, this includes the Gallia County Board of Developmental Disabilities, Gallia County Children Services Board, and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the program's governing board and (1) the County is able to significantly influence the programs of services performed or provided by the organization; or (2) the County is legally entitled to or can access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent upon the County in that the County approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefit to, or impose specific financial burdens on, the primary government. The County has no material component units.

The Gallia-Jackson-Meigs Counties Board of Alcohol, Drug Addiction, and Mental Health Services (ADAMH) and the O.O. McIntyre Park District are presented as custodial funds of the County because the County Auditor serves as the fiscal agent for these organizations.

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County treasury. In the case of the legally separate agencies, boards, and commissions listed below, the County serves as fiscal agent, but is not financially accountable for their operations nor are they fiscally dependent on the County. Accordingly, the activity of the following districts and agencies are presented as custodial funds within the County's financial statements.

***Gallia County Health Department*** is governed by a five member Board of Health which oversees the operation of the Health District. The Board is elected by a District Advisory Council composed of township trustees, county commissioners, and mayors of participating municipalities. The Board adopts its own budget and hires and fires its own staff. The Board has sole budgetary authority, and controls surpluses and deficits. The County is not legally obligated for the Health District's debt.

***Gallia County Soil and Water Conservation District*** is statutorily created as a separate and distinct political subdivision of the State. The five Supervisors of the Soil and Water Conservation District are elected officials authorized to contract and sue on behalf of the District. The Supervisors adopt their own budget, authorize District expenditures, hire and fire staff, and do not rely on the County to finance deficits. The District submits a budget to the Board of County Commissioners for inclusion on the County's annual

appropriation resolution. The Ohio Department of Natural Resources provides funding to match what is provided by the County out of the General Fund.

**Local Emergency Planning Committee (LEPC)** of Gallia County is a single county district. The State Emergency Response Commission designates Emergency Planning Districts within the state. The committee members are recommended by the County Commissioners for approval by the State Emergency Response Commission. The LEPC receives operating resources in the form of grants from the State. The activities of the LEPC are accounted for as a custodial fund of the County. The County has no ability to impose its will on the organization. No benefit/burden relationship exists. The County's accountability ceases with the recommendation of appointments of committee members.

**Gallia County Council on Aging** is operated under a separate board of directors, which currently consists of 18 members from various clubs, companies, and the Gallia County community. Although the County collects tax monies for the Council, the County is not involved in the selection of directors or management of the Council on Aging or in the authorization of expenditures.

**Gallia County Family and Children First Council** is controlled by an oversight committee. The chair of the County Commissioners serves on the committee. The County is the fiscal agent for the Council's monies.

The County is associated with the following organizations that are defined as jointly governed organizations, related organizations, or shared risk pools. These organizations are presented in Notes 20, 21, and 22 to the basic financial statements.

- Solid Waste Management District
- Gallia-Jackson-Meigs Counties Board of Alcohol, Drug Addiction, and Mental Health Services (ADAMH)
- Area Agency on Aging, District 7, Inc.
- Ohio Valley Resource Conservation and Development Area, Inc.
- Gallia-Meigs Community Action Agency
- Gallia-Jackson Child Abuse and Neglect Advisory Board
- Ohio Valley Regional Development Commission
- Southern Ohio Council of Governments
- Regional Child Abuse Prevention Council
- O.O. McIntyre Park District
- Bossard Memorial Library
- Gallia Metropolitan Housing Authority
- County Risk Sharing Authority, Inc. (CORSA)
- County Commissioners Association of Ohio Workers' Compensation Group Rating Plan

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the County's accounting policies are described below.

*A. Basis of Presentation*

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

***Government-wide Financial Statements*** The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. The policy of the County is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program; grants and contributions that are restricted to meeting the operational or capital requirements of a particular program; and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

***Fund Financial Statements*** During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

*B. Fund Accounting*

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

***Governmental Funds*** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

---

**General Fund** - The General Fund accounts for and reports all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the County for any purpose, provided it is expended and transferred according to the general laws of Ohio.

**Motor Vehicle Gasoline Tax Fund** - This fund accounts for the County road and bridge maintenance, repair and improvement programs. Revenue sources include Federal and State grants and distributions.

**Job and Family Services Fund** - This fund accounts for various Federal and State grants, as well as transfers from the General Fund that are used to provide public assistance to general relief recipients and to pay their providers of medical assistance and certain public social services.

**Board of Developmental Disabilities Fund** - This fund accounts for the operation of a school, workshop, and resident homes for the developmentally disabled. Revenue sources include a county-wide property tax levy and Federal and State grants.

**Jail Project Capital Improvement Fund** - This fund accounts for the construction and improvement of the County Jail. Revenue sources include Bond Proceeds used toward project costs associated with the County Jail.

The other governmental funds of the County account for grants and other resources and capital projects, whose use is restricted for a particular purpose.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as either enterprise or internal service.

**Enterprise Fund** Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following is a description of the County's Enterprise Fund:

**Sewer Fund** This fund accounts for sanitary sewer services provided to County individual and commercial users. The costs of providing these services are financed primarily through user charges.

**Internal Service Funds** Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The internal service fund accounts for funds held in reserve to cover excess deductible costs in providing health insurance for the County's employees.

**Fiduciary Funds** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

The County's fiduciary funds are custodial funds. Custodial funds are used to account for assets held by the County as fiscal agent for the Board of Health and other districts and entities; for various taxes, assessments, fines and fees collected for the benefit of and distributed to other governments; for State shared resources received from the State and distributed to other local governments; for federal coronavirus relief funds distributed to other local governments.

*C. Measurement Focus*

**Government-wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

**Fund Financial Statements** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary and fiduciary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities. Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from investment trust, private purpose trust funds, and custodial funds.

*D. Basis of Accounting*

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of year end. Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

is recognized in the year for which the taxes are levied (see Note 8). Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales tax (see Note 9), interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees, and rentals.

Unearned revenue represents amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

***Deferred Outflows/Inflows of Resources*** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources are reported on the government-wide statement of net position for asset retirement obligations, pension, and OPEB. The deferred outflows of resources related to asset retirement obligations is originally measured at the amount of the corresponding liability. This amount is expensed in a systematic and rational manner over the tangible asset's useful life. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes, pension, OPEB, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes delinquent property taxes, sales taxes, interest, charges for services, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balance to net position of governmental activities found on page 18. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 12 and 13)

***Expenses/Expenditures*** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

*E. Budgetary Process*

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The level of control has been established by the County Commissioners at the fund, function, and object level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during 2020 upon which the final appropriations were based.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the County Commissioners during the year.

*F. Cash and Cash Equivalents*

To improve cash management, cash received by the County Treasurer is pooled. Cash balances, except cash held by a fiscal agent or held in segregated accounts, are pooled and invested in short-term investments in order to provide improved cash management. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

The Gallia County Board of Developmental Disabilities has an account held separate from the County's pooled accounts. This depository account is presented as "Cash and Cash Equivalents with Fiscal Agents" since it is not deposited into the County's treasury.

Various departments within the County have segregated bank accounts for monies held separate from the County's central bank account. These accounts are presented as "Cash and Cash Equivalents in Segregated Accounts" since they are not required to be deposited with the County Treasurer.

Investment procedures are restricted by the provisions of the Ohio Revised Code. County policy requires interest earned on investments to be credited to the General Fund except where there is a legal requirement or there are bond proceeds for capital improvements. Interest revenue credited to the General Fund during 2020 amounted to \$216,050, which includes \$195,688 assigned from other County funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the County are considered to be cash equivalents.

*G. Inventory*

Inventories are presented at cost on a first-in, first-out basis and are expensed/expensed when used. Inventory consists of expendable supplies held for consumption.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

*H. Restricted Assets*

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by the creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Unclaimed monies that are required to be held for five years before they may be utilized by the County are reported as restricted.

*I. Receivables and Payables*

Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined material and substantiated not only by supporting documentation, but also, by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

Using these criteria, the County has elected to not record child support arrearages. These amounts, while potentially significant, are not considered measurable, and because collections are often significantly in arrears, the County is unable to determine a reasonable value.

*J. Prepaid Items*

Payments made to vendors for services that will benefit periods beyond December 31, 2020, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

*K. Interfund Balances*

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

*L. Capital Assets*

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The County maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities	Business-Type Activities
Land Improvements	20 - 40 Years	N/A
Buildings and Improvements	10 - 40 Years	N/A
Furniture, Fixtures, and Equipment	5 - 30 Years	5 - 30 Years
Vehicles	5 - 20 Years	5 - 20 Years
Infrastructure	N/A	15 - 40 Years

The County's infrastructure consists of County roads and bridges, certain culverts, and sewer systems. The County reports infrastructure acquired prior to December 31, 1980.

County road and bridges (infrastructure reported in the Governmental activities column of the statement of net position) are presented using the modified approach and therefore these assets are not depreciated. In addition, expenditures made by the County to preserve existing roads or bridges are expensed rather than capitalized. Only expenditures for additions or improvements are capitalized. Additional disclosures about the condition assessments and maintenance cost regarding the County's roads and bridges appear in the Required Supplementary Information.

*M. Compensated Absences*

The County reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences" as interpreted by Interpretation No. 6 of the GASB, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements".

Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The liability is recorded as "vacation and other leave benefits payable" as the balances are to be used by employees in the year following the year in which the benefit was earned.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those employees for whom it is probable will become eligible to receive payment in the future. The County has determined that employees with the County for ten to twenty years, depending on each department, are probable to receive payment in the future. The liability is based on accumulated sick leave and employees' wage rates at year end.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are reported as "matured compensated absences payable" in the fund from which the employees who will receive the payment are paid.

*N. Accrued Liabilities and Long-term Obligations*

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are

reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

*O. Fund Balance*

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale, unless the use of proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

***Restricted*** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (County resolutions).

Enabling legislation authorizes the County to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the County can be compelled by an external party, such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specific by the legislation.

***Committed*** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the Commission removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by County Commissioners, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

***Assigned*** Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In the General Fund, assigned amounts represent intended uses established by the County Commissioners or a County official delegated that authority by resolution or by State Statute.

***Unassigned*** Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first, followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

*P. Net Position*

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for marriage license services, hotel taxes, election security, and community reinvestment area administration activities.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

*Q. Pensions/Other Postemployment Benefits (OPEB)*

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

*R. Operating Revenues and Expenses*

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for wastewater treatment and self-insurance programs. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as non-operating.

*S. Internal Activity*

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated. Internal allocations of overhead expenses from one program to another or within the same program are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

*T. Extraordinary and Special Items*

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the County and that are either unusual in nature or infrequent in occurrence. The County did not have any extraordinary or special items in 2020.

*U. Estimates*

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF NET POSITION**

For 2020, the County implemented the Governmental Accounting Standard Board's (GASB) Statement No. 83, Certain Asset Retirement Obligations. GASB Statement 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. The implementation of GASB Statement No. 83 had the following effect on net position as of December 31, 2019:

	Governmental Activities	Business-Type Activities
Net Position December 31, 2019	\$102,446,332	\$10,070,562
Adjustments:

**NOTE 4 - FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

**NOTE 5 - DEFICIT FUND BALANCES**

The following funds had deficit fund balances as of December 31, 2020:

Other Governmental Funds:	<u>Deficit</u>
Dog and Kennel	\$3,935

This deficit resulted from payables recorded in accordance with Generally Accepted Accounting Principles. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

**NOTE 6 - BUDGETARY BASIS OF ACCOUNTING**

While reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual (Budget Basis) for the General and major special revenue funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Outstanding year end encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).
4. Unrecorded cash and interest, segregated accounts, and prepaid items are reported on the balance sheet (GAAP) but not on the budgetary basis.
5. Cash that is held by the custodial funds on behalf of County funds on a budget basis are allocated and reported on the balance sheet (GAAP basis) in the appropriate County fund.
6. Advances in and advances out are operating transactions (budget) as opposed to balance sheet transactions (cash).
7. Certain funds are accounted for as separate funds internally with legally adopted budgets (budget basis) that do not meet the definitions of special revenue funds under GASB Statement No. 54 and were reported with the General Fund (GAAP basis).

Adjustments necessary to convert the results of operations at the end of the year on the Budget basis to the GAAP basis are as follows:

**NOTE 7 - DEPOSITS AND INVESTMENTS**

Monies held by the County are classified by State statute into two categories. Active monies are public monies determined to be necessary to meet current demands upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Monies held by the County which are not considered active are classified as inactive. Inactive monies may be deposited or invested with certain limitations in the following securities provided the County has filed a written investment policy with the Ohio Auditor of State:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
2. Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of this state or the political subdivisions of this state, provided the bonds or other obligations of political subdivisions mature within ten years from the date of settlement;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts, in eligible institutions pursuant to ORC sections 135.32;
6. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in (1) or (2) above; commercial paper as described in ORC section 135.143 (6); and repurchase agreements secured by such obligations, provided these investments are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange either securities or cash, equal value for equal value, within certain limitations;
9. Up to forty percent of the County's average portfolio, if training requirements have been met in either of the following:
  - a. Commercial paper notes in entities incorporated under the laws of Ohio, or any other State, that have assets exceeding five hundred million dollars, which are rated in the highest classification established by two nationally recognized standard rating services, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation, which mature within 270 days after purchase, and the investment in commercial paper notes of a single issuer shall not exceed the aggregate five percent of interim monies available for investment at the time of purchase.
  - b. Bankers acceptances of banks that are insured by the federal deposit insurance corporation and that mature not later than 180 days after purchase.
10. Up to fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions doing business under authority granted by the U.S. or any state provided the notes are rated in the three highest categories by at least two nationally recognized standard rating services at the time of purchase and the notes mature not later than three years after purchase;
11. A current unpaid or delinquent tax line of credit, provided certain conditions are met related to a County land reutilization corporation organized under ORC Chapter 1724; and,
12. Up to two percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government, subject to certain limitations. All interest and principal shall be denominated and payable in United States funds.

---

Reverse repurchase agreements, investments in derivatives, and investments in stripped principal or interest obligations that are not issued or guaranteed by the United States, are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of settlement, unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

***Cash with Fiscal Agent*** The County utilizes a fiscal agent to hold monies from the County Board of Developmental Disabilities supportive living program. The balances in these accounts are presented on the balance sheet as cash and cash equivalents with fiscal agent.

***Cash on Hand*** At year end, the County had \$39,618 in undeposited cash on hand which is included as a part of "Equity in Pooled Cash and Cash Equivalents".

**NOTE 8 - RECEIVABLES**

Receivables at December 31, 2020, consisted of property taxes, sales taxes, special assessments, accrued interest, accounts (billings for user fees including unbilled utility services), loans, intergovernmental receivables arising from entitlements and shared revenues, and interfund. All receivables, except property taxes, special assessments, and a portion of the loan receivable, are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

***A. Property Taxes***

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2020 for real and public utility property taxes represents collections of 2019 taxes.

2020 real property taxes were levied after October 1, 2020, on the assessed value as of January 1, 2020, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2020 real property taxes are collected in and intended to finance 2021.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2020 public utility property taxes which became a lien December 31, 2019, are levied after October 1, 2020, and are collected in 2021 with real property taxes.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

The full tax rate for all County operations for the year ended December 31, 2020, was \$9.50 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2018 property tax receipts were based are as follows:

Real Property	\$542,058,160
Public Utility Tangible Personal Property	243,742,880
Total Assessed Value	\$785,801,040

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. The collection and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds. Property taxes receivable represents real and public utility taxes and outstanding delinquencies which were measurable as of December 31, 2020, and for which there was an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2020 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

**NOTE 9 - PERMISSIVE SALES AND USE TAX**

On November 17, 1981, the County Commissioners adopted, by resolution, a one-half percent tax on all retail sales made in the County and on the storage, use, or consumption in the County of tangible personal property, including automobiles, not subject to the sales tax. On March 5, 1987, the County Commissioners adopted, by resolution, a proposal for an additional one-half percent tax as allowed by Sections 5705.026 and 5705.023, Revised Code, which was approved by the voters at a special election held on May 5, 1987. On August 18, 1994, the County Commissioners adopted, by resolution, a proposal for an additional one-quarter of one percent tax for the implementation of a county-wide 9-1-1 system, as allowed by Sections 5739.026 and 5741.023 of the Revised Code, which was voted on and passed by the voters on November 8, 1994. The tax for the 9-1-1 system is approved for a period of five years. On March 1, 2019, the County Commissioners adopted, by resolution, a proposal for an additional one-quarter of one percent tax, as allowed by Sections 5739.026 and 5741.023 of the Revised Code.

Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the Office of Budget Management the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of the month. The Tax Commissioner shall then, on or before the twentieth day of the month in which certification is made, provide for payment to the County.

In 2020, the General Fund received \$5,558,051 and the 9-1-1 Special Revenue Fund received \$1,112,918 in sales and use tax revenue. A receivable is recognized at year end for amounts that will be received from sales which occurred during 2020.

**NOTE 10 - CAPITAL ASSETS**

Capital asset activity for the year ended December 31, 2020, was as follows:

	Balance at 12/31/19	Additions	Deductions	Balance at 12/31/20

**NOTE 11 - RISK MANAGEMENT**

*A. Property and Liability*

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2020, the County contracted with the County Risk Sharing Authority, Inc. (CORSA), an insurance purchasing pool (see Note 22A), for liability, auto, and crime insurance. CORSA, a non-profit corporation sponsored by the County Commissioners of Ohio, was created to provide affordable liability, property, casualty, and crime insurance coverage for its members and was established May 12, 1987. Coverage provided by the program and applicable deductibles are as follows:

Computer Fraud	2,500	500,000 Per Occurrence
Automobile	2,500	1,000,000 Per Occurrence

Settled claims have not exceeded coverage in any of the past three years. There has been no significant reduction in insurance coverage from the prior year.

**B. Workers' Compensation**

For 2020, the County participated in the County Commissioners Association of Ohio Workers' Compensation Group Rating Plan (Plan), an insurance purchasing pool (see Note 22B). The Plan is intended to achieve lower workers' compensation rates while establishing safer working conditions and environments for the participants. The workers' compensation experience of the participating Counties is calculated as one experience and a common premium rate is applied to all participants in the Plan. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate. In order to allocate the savings derived by formation of the Plan, and to maximize the number of participants in the Plan, the Plan's executive committee annually calculates the total savings which accrued to the Plan through its formation. This savings is then compared to the overall savings percentage of the Plan. The Plan's executive committee then collects rate contributions from or pays rate equalization rebates to the various participants. Participation in the Plan is limited to Counties that can meet the Plan's selection criteria. The firm of Gates McDonald, Inc. provides administrative, cost control and actuarial services to the Plan. Each year, the County pays an enrollment fee to the Plan to cover the costs of administering the program.

The County may withdraw from the Plan if written notice is provided sixty days prior to the prescribed application deadline of the Ohio Bureau of Workers' Compensation. However, the participant is not relieved of the obligation to pay any amounts owed to the Plan prior to withdrawal, and any participant leaving the Plan allows the representative of the Plan to access loss experience for three years following the last year of participation.

**C. Medical Expense Reimbursement Plan**

The County has a Medical Expense Reimbursement Plan, Max 105, to reimburse eligible employees (those that are participating in the County's health plan) for the portion of their and their dependent's health claims. The Max 105 program is a combination of benefits that are provided by the County and CEBCO - Anthem. The County's health plan with CEBCO - Anthem covers the employees' major medical costs. The policy is a high deductible plan. The Max 105 program covers the difference between the high deductible plan with CEBCO - Anthem and the employees' personal deductible.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

The purpose of the Max 105 program is to reimburse providers for employees covered under the Max 105 program for a portion of the uninsured medical expenses they incur each year while they are employed with the County and the Max 105 remains in effect. It is to help the employee and their dependents receive the medical care needed in the most cost-effective manner possible.

The claims paid are those submitted after the employee's deductible amount has been reached, but before the employer's health plan deductible with CEBCO - Anthem has been reached. Claims covered are for amounts applied to the medical deductible and co-insurance expenses incurred during the plan year, up to the employer's health plan annual deductible amount with CEBCO - Anthem.

**NOTE 12 - DEFINED BENEFIT PENSION PLANS**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

***Net Pension Liability (Asset)/Net OPEB Liability (Asset)***

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the County's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

---

The proportionate share of each plan's unfunded benefits is presented as a *net pension/OPEB asset* or a long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

***Plan Description – Ohio Public Employees Retirement System (OPERS)***

County Employees, other than certified teachers, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Comprehensive Annual Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, current law provides for a 3 percent COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses

resulting from the member’s investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members’ contributions, vested employer contributions and investment gains or losses resulting from the members’ investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

- \* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- \*\* These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.
- \*\*\* This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.
- \*\*\*\* These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2020, The County’s contractually required contribution was \$1,537,295 for the traditional plan, \$48,421 for the combined plan and \$14,821 for the member-directed plan. Of these amounts, \$103,636 is reported as an intergovernmental payable for the traditional plan, \$3,179 for the combined plan, and \$390 for the member-directed plan.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description – County licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues

a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

*Notes to the Basic Financial Statements*  
For the Year Ended December 31, 2020

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2020, the full employer contribution was allocated to pension.

The County’s contractually required contribution to STRS was \$76,455 for 2020. Of this amount \$5,321 is reported as an intergovernmental payable.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability (asset) for OPERS was measured as of December 31, 2019, and the net pension liability for STRS was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of the respective measurement dates. The County's proportion of the net pension liability (asset) was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS Traditional Plan</u>	<u>OPERS Combined Plan</u>	<u>STRS</u>

2020 pension expense for the member-directed defined contribution plan was \$14,821. The aggregate pension expense for all pension plans was \$2,721,296 for 2020.

At December 31, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2019, are presented below.

	<u>OPERS Traditional Plan</u>	<u>OPERS Combined Plan</u>
Wage Inflation	3.25 percent	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation	3.25 to 8.25 percent including wage inflation
COLA or Ad Hoc COLA:		
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	1.4 percent, simple through 2020, then 2.15 percent, simple	3 percent, simple through 2020, then 2.15 percent, simple
Investment Rate of Return	7.2 percent	7.2 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age

In October 2019, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 3 percent simple through 2018 then 2.15 simple to 1.4 percent simple through 2020 the 2.15 percent simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within

**Gallia County, Ohio**

For the Year Ended December 31, 2020

the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.2 percent for 2019.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	25.00%	1.83%
Domestic Equities	19.00	5.75
Real Estate	10.00	5.20
Private Equity	12.00	10.70
International Equities	21.00	7.66
Other investments	13.00	4.98
Total	<u>100.00%</u>	<u>5.61%</u>

**Discount Rate** The discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the County's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate** The following table presents the County's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

***Actuarial Assumptions – STRS***

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation are presented below:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

Asset Class	Target Allocation	Long-Term Expected Rate of Return *
Domestic Equity	28.00%	7.35%
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
 Total	 100.00%	

\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

**Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
County's proportionate share of the net pension liability	\$1,525,307	\$1,071,273	\$686,518

**NOTE 13 - POSTEMPLOYMENT BENEFITS**

See Note 12 for a description of the net OPEB liability

***Plan Description – Ohio Public Employees Retirement System (OPERS)***

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit postemployment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member-directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS Comprehensive Annual Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

**Gallia County, Ohio**

*For the Year Ended December 31, 2020*

---

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2020, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2020 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$5,928 for 2020. Of this amount, \$390 is reported as an intergovernmental payable.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended December 31, 2020, STRS did not allocate any employer contributions to post-employment health care.

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. For STRS, the net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an independent actuarial valuation as of that date. The County's proportion of the net OPEB liability (asset) was based on the County's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25 percent
Projected Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
Single Discount Rate:	
Current measurement date	3.16 percent
Prior Measurement date	3.96 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.75 percent
Prior Measurement date	3.71 percent
Health Care Cost Trend Rate:	
Current measurement date	10.0 percent, initial 3.50 percent, ultimate in 2030
Prior Measurement date	7.25 percent, initial 3.25 percent, ultimate in 2029
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are

based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.7 percent for 2019.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00	5.75
Real Estate Investment Trust	6.00	5.69
International Equities	23.00	7.66
Other investments	14.00	4.90
Total	<u>100.00 %</u>	<u>4.55 %</u>

**Discount Rate** A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
For the Year Ended December 31, 2020

rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.75 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

***Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate*** The following table presents the County's proportionate share of the net OPEB liability calculated using the single discount rate of 3.16 percent, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16 percent) or one-percentage-point higher (4.16 percent) than the current rate:

	1% Decrease (2.16%)	Current Discount Rate (3.16%)	1% Increase (4.16%)
County's proportionate share of the net OPEB liability	\$13,277,563	\$10,145,919	\$7,638,492

***Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate*** Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
County's proportionate share of the net OPEB liability	\$9,846,522	\$10,145,919	\$10,441,500

***Changes between Measurement Date and Reporting Date***

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current year financial statements but are expected to decrease the associated OPEB liability.

***Actuarial Assumptions – STRS***

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends	
Medical	
Pre-Medicare	5.00 percent initial, 4 percent ultimate
Medicare	-6.69 percent initial, 4 percent ultimate
Prescription Drug	
Pre-Medicare	6.50 percent initial, 4 percent ultimate
Medicare	11.87 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

***Discount Rate*** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2020.

*For the Year Ended December 31, 2020*

***Sensitivity of the County's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate*** The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
County's proportionate share of the net OPEB asset	(\$67,701)	(\$77,811)	(\$86,390)
	1% Decrease	Current Trend Rate	1% Increase
County's proportionate share of the net OPEB asset	(\$85,857)	(\$77,811)	(\$68,010)

**NOTE 14 - OTHER EMPLOYER BENEFITS**

*A. Deferred Compensation Plan*

Gallia County employees and elected officials may participate in a state-wide deferred compensation plan created in accordance with Internal Revenue Code Section 457 offered by the State of Ohio. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

*B. Compensated Absences*

County employees follow various personnel policies as established by the County Commissioners, union agreements, or departmental mandates. Some employees of the Board of Developmental Disabilities, Engineer, Sheriff, Emergency Management Services, and Job and Family Services are represented by union agreements. All other County employees follow the Commissioners policy.

Each employee accrues 4.6 hours of sick time for each two week pay period worked. Accrual continues during periods of approved paid leave. Unused sick leave is cumulative without limit. Upon retirement, with 10 or more years service with the County, the State, or any of its political subdivisions, all employees except those of the Board of Developmental Disabilities, Engineer, Sheriff, 911, and the Emergency Management Services, are paid 25% of their sick leave up to a maximum of 360 hours. The Board of Developmental Disabilities employees are paid at varying rates of 30% to 50% of all accumulated sick leave depending upon length of service with the Gallia County Board of Developmental Disabilities. The Engineer department employees hired before August 1, 2016, are paid for accumulated sick leave at a rate of 100% up to 30 days, 50% up to 75 days, and 25% for all remaining unused sick leave above 75 days. The Engineer department employees hired after August 1, 2016, are paid for accumulated sick leave at a rate of 80% up to 240 hours. Sheriff department employees are paid 100% for all accumulated sick leave to a maximum of 240 hours. Emergency Management Services employees are paid 25% of their sick leave up to a maximum of 600 hours if hired before 2017. Emergency Management Services employees hired after 2017 are paid 25% of their sick leave up to a maximum of 360 hours. 911 employees are paid 25% of their sick leave or 30 days, whichever is less.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

Unused vacation time and compensatory time are paid to a terminated employee at varying rates depending on length of service and department policy and can be accumulated up to one year.

*C. Insurance Benefits*

In 2020, the County contracted with United Healthcare to provide all employees with \$25,000 each in life and accidental death and dismemberment insurance.

The County provides comprehensive major medical and dental insurance through CEBCO - Anthem and vision insurance through VSP for all employees except those of the Engineer's office. Monthly premiums are \$1,027.66 for single coverage and \$2,689.36 for family coverage. The County pays \$900.14 of the premiums for single plans and the County's employees pay the remaining balances. The County pays \$2,287.08 of the premiums for employees participating in the family plan with the remainder being paid by the employee. For the Engineer's office, the County pays \$883.79 for single coverage and the employee pays the remaining balance. For family coverage the County pays \$2,312.85 and the Engineer employees pay the remaining balance.

**NOTE 15 - SIGNIFICANT COMMITMENTS**

*A. Contractual Commitments*

As of December 31, 2020, the County had contractual purchase commitments as follows:

Project	Fund	Contract Amount	Amount Expended	Balance at 12/31/2020
<b>Governmental Activities:</b>				
Contractual Services:				
New Jail Architecture	Jail Interim Financing	\$1,081,281	\$797,218	\$284,063
<b>Business-Type Activities:</b>				
Green Sewer Improvements		10,312,061	9,854,529	457,532
Total Contractual Commitments		<u>\$11,393,342</u>	<u>\$10,651,747</u>	<u>\$741,595</u>

*B. Encumbrances*

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds:	
General Fund	\$233,040
Board of Developmental Disabilities	65,000
Nonmajor Governmental Funds	<u>81,074</u>
Total	<u>\$379,114</u>

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

**NOTE 16 - FOOD STAMPS**

The County's Department of Job and Family Services distributes, through contracting issuance centers, federal food stamps to entitled recipients within Gallia County. The receipt and issuance of the stamps have the characteristics of a federal grant. However, the Department of Job and Family Services merely acts in an intermediary capacity. Therefore, the inventory value of these stamps is not reflected in the accompanying financial statements, as the only economic interest related to these stamps rests with the ultimate recipient.

**NOTE 17 - CONTINGENT LIABILITIES**

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

Several claims and lawsuits are pending against the County. In the opinion of the County Prosecutor, any potential liability would not have a material effect on the County's financial condition.

**NOTE 18 - INTERFUND TRANSFERS AND BALANCES**

Interfund balances, as of December 31, 2020, consist of the following individual interfund receivables and payables:

Interfund Payable	Interfund Receivable				
	Major Funds				Total
	General	Job and Family Services	Board of Developmental Disabilities	Other Governmental Funds	
Major Funds:					
General	\$0	\$0	\$799	\$0	\$799
Motor Vehicle					
Gasoline Tax	26,522	0	0	0	26,522
Job and Family Services	47,503	0	0	406	47,909
Board of Developmental Disabilities	40,640	0	0	0	40,640
Jail Project Capital Improvement Fund	1,000,000	0	0	0	1,000,000
Sewer Enterprise Fund	302,986	0	0	0	302,986
Other Governmental Funds	103,605	1,301	0	34,237	139,143
	<u>\$1,521,256</u>	<u>\$1,301</u>	<u>\$799</u>	<u>\$34,643</u>	<u>\$1,557,999</u>

The interfund payable in the Sewer Enterprise Fund is a result of the General Fund making sewer related expenditures. These items are expected to be repaid upon completion of the related projects and generation of revenues by the system. The remaining interfund receivables/payables are due to lags between the dates interfund goods and services are provided, transactions were recorded in the accounting system, and payments between funds were made. Remaining interfund receivables/payables will be reimbursed either when funds become available or when payments for services are rendered.

**Gallia County, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2020*

Interfund transfers for the year ended December 31, 2020, consisted of the following:

<u>Transfer Out</u>	Transfer In		
	Major Fund		Total
	Job and Family Services	Other Governmental Funds	
Major Funds:			
General	\$77,591	\$815,679	\$893,270
Motor Vehicle			
Gasoline Tax	0	157,463	157,463
Board of Developmental			
Disabilities	0	91,213	91,213
Other Governmental			
Funds	0	104,462	104,462
	\$77,591	\$1,168,817	\$1,246,408

Transfers were used to move revenues from the fund that Statute or budget requires to collect them to the fund that Statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**NOTE 19 - CAPITAL LEASES - LESSEE DISCLOSURE**

In 2020, the County entered into two new leases for trucks and equipment for the Engineer's office and six new vehicles for the Sheriff's office. In prior years, the County entered into agreements to lease copiers, an excavator, and graders. Such agreements are, in substance, lease purchases and are reflected as capital lease obligations in the financial statements. Capital lease payments are reflected as debt service expenditures on the statement of revenues, expenditures, and changes in fund balance for the governmental funds.

Equipment acquired by leases has been capitalized in the government wide statements for governmental activities in the amount of \$1,736,561, which is equal to the present value of the future minimum lease payments at the time of acquisition. A corresponding liability was recorded in the government wide statements for governmental activities. Governmental activities capitalized leased assets are reflected net of accumulated depreciation for a book value of \$1,420,699 as of December 31, 2020. Principal payments for all capital leases during 2020 totaled \$291,005 for governmental activities.

Future minimum lease payments through 2028 are as follows:

<u>Year</u>	Governmental Activities	
	Principal	Interest
2021	\$272,830	\$29,119
2022	278,104	23,213
2023	284,134	17,183
2024	231,938	11,005
2025	43,228	6,387
2026-2028	138,989	9,855
Total	\$1,249,223	\$96,762

**NOTE 20 - JOINTLY GOVERNED ORGANIZATIONS**

*A. Solid Waste Management District*

The County is a member of the Gallia, Jackson, Meigs and Vinton Solid Waste Management District (the District), which is a jointly governed organization of the four named counties. The purpose of the District is to make disposal of waste in the four-county area more comprehensive in terms of recycling, incinerating, and land filling.

The District is governed and operated through three groups. A twelve member Board of Directors, comprised of the three commissioners from each county, is responsible for the District's financial matters. Financial records are maintained by the District. The District's sole revenue source is a waste disposal fee for in-district and out-of-district waste. A twenty-five member Policy Committee, comprised of six members from each county and one at-large member appointed by the Policy Committee, is responsible for preparing the solid waste management plan of the District in conjunction with a Technical Advisory Council whose members are appointed by the Policy Committee. Each participating County's influence is limited to the numbers of members each appoints to the Board. Continued existence of the District is not dependent upon the County's continued participation, no equity interest exists, and no debt is outstanding. The County made no contributions to the District in 2020.

*B. Gallia-Jackson-Meigs Counties Board of Alcohol, Drug Addiction, and Mental Health Services*

The Gallia, Jackson, and Meigs Counties Alcohol, Drug Addiction, and Mental Health Services Board (ADAMH), is a jointly governed organization of the three named counties. The ADAMH provides no direct services but contracts for their delivery. The ADAMH's function is to assess needs, and to plan, monitor, fund and evaluate the services. The ADAMH is managed by an eighteen member Board. The Board is comprised of five members appointed by the Jackson County Commissioners, two by the Gallia County Commissioners, and three by the Meigs County Commissioners, which are proportionate to population, four by the Ohio Department of Drug and Alcohol, and four by the State Department of Mental Health. Each participating county's influence is limited to the number of members each appoints to the Board. The Board exercises total control of the budgeting, appropriating, contracting and managing.

All of the Board's revenue is derived from State and Federal grants awarded to the multi-county Board. Gallia County serves as fiscal agent for the Board and it is presented as an Agency Fund. Continued existence of the ADAMH is not dependent upon the County's continued participation, no debt exists, and the County does not have an equity interest in the Board. During 2020, the County made no payments to the Board.

*C. Area Agency on Aging, District 7, Inc.*

The Area Agency on Aging is a regional council of governments that assists ten counties, including Gallia County, in providing services to senior citizens in the Council's service area. The Council is governed by a eight member Board of Trustees. The Gallia County Commissioners along with other county organizations can nominate new board members, but they must be representatives of local community service organizations. At least one-half of the board members must be over the age of fifty-five. The Board has total control over budgeting, personnel, and all other financial matters. The continued existence of the Council is not dependent upon the County's continued participation and no equity interest exists. The Council has no outstanding debt.

---

*D. Ohio Valley Resource Conservation and Development Area, Inc.*

The Ohio Valley Resource Conservation and Development Area, Inc. is a jointly governed organization that is operated as a non-profit corporation. The Ohio Valley Resource Conservations and Development Area, Inc. was created to aid regional planning to participating counties. Jackson County, along with Ross, Vinton, Highland, Gallia, Brown, Adams, Pike, Scioto, and Lawrence Counties each appoint three members to the thirty member Council. The Council selects an administrator to oversee operations. In 2020, the County made no contributions to the Ohio Valley Resource Conservation and Development Area, Inc.

*E. Gallia-Meigs Community Action Agency*

The Gallia-Meigs Community Action Agency (the Agency) is a non-profit corporation organized to plan, conduct and coordinate programs designed to combat social and economic problems and to help eliminate conditions of poverty within Gallia and Meigs Counties. The agency is governed by an eighteen member board which consists of three commissioners from each county, three business owners from each county, and three low income individuals elected by each county. The three business owners are nominated by other local business owners and the three low income individuals are nominated by local town council meetings. The Agency received federal and state monies which are applied for and received by, and in the name of, the Board of Directors. The Gallia County Commissioners apply for the Community Housing Improvement Program Grant and the HOME Grant which are administered implemented by the Agency. The County is the fiscal agent for the grant, but the grants are used by the Agency to improve low income family housing in Gallia County. The Agency contracts for expenses that relate to the grants and then the County Commissioners issue the payments. The Board of County Commissioners exercises total control of the budgeting, appropriation, contracting and management. Continued existence of the Agency is not dependent upon the County's continued participation, nor does the County have an equity interest in the Agency. The Agency is not accumulating significant financial resources and is not experiencing fiscal distress that may cause an additional financial benefit to or burden on the County. In 2020, the County paid \$93,275 to the Agency for services provided to the County.

*F. Gallia-Jackson Child Abuse and Neglect Advisory Board*

The Child Abuse and Neglect Advisory Board (the Board) is a jointly governed organization formed to prevent child abuse and neglect in its members counties. The Board is controlled by a five member Board of Directors. Gallia and Jackson County each appoints two members and there is one at-large member. The at-large member is currently the Gallia, Jackson, and Meigs Counties Alcohol, Drug Addiction, and Mental Health Services Board director. The Board Organization receives \$20,000 a year from the State for birth registration fees, of which \$19,400 is sent directly to the Ohio Children's Trust Fund Board. The Gallia, Jackson, and Meigs Counties Alcohol, Drug Addiction, and Mental Health Services Board received the remaining \$600 for administrative services. Continued existence of the Board is not dependent upon the County's continued participation, nor does the County have an equity interest in the Board. The Board is not accumulating significant financial resources nor is it experiencing fiscal distress that may cause an additional financial benefit to or burden on the County. The Board currently does not prepare year end financial statements due to the limited amount of financial activity.

*G. Ohio Valley Regional Development Commission*

The Ohio Valley Regional Development Commission (the Commission) is a jointly governed organization that serves a twelve county economic development planning district in southern Ohio. The Commission was formed to influence favorably the future economic, physical and social development of Adams, Brown, Clermont, Fayette, Gallia, Highland, Jackson, Lawrence, Pike, Ross, Scioto, and Vinton Counties. Membership is comprised of elected and appointed county, municipal, and township officials or their officially appointed designees, as well as members of the private sector, community action agencies and regional planning commissions. The Commission is not dependent upon Gallia County for its continued existence. In 2020, the County paid \$5,696 to the Ohio Valley Regional Development Commission for membership.

*H. Southern Ohio Council of Governments*

The County is a member of the Southern Ohio Council of Governments (the “Council”), which is a jointly governed organization created under Ohio Revised Code Section 167.01. The governing body consists of a thirteen member board with each participating County represented by its Director of its Board of Developmental Disabilities (BDD). Member counties include: Adams, Athens, Brown, Fayette, Gallia, Highland, Jackson, Lawrence, Pickaway, Pike, Ross, Scioto, and Vinton Counties. The Council acts as fiscal agent for the Gallia County BDD’s supportive living program monies. As of December 31, 2020, the County had a \$238,920 balance on hand with the Council. These monies are recorded as “Cash and Cash Equivalents with Fiscal Agents” on the County’s financial statements. Financial statements can be obtained from the Council at 43 N. Paint St., Chillicothe, Ohio 45601.

*J. Regional Child Abuse Prevention Council*

The Regional Child Abuse Prevention Council of the Ohio Children’s Trust Fund is a jointly governed organization whereby up to two County Prevention Specialists may be appointed by the Gallia County Commissioners to sit on the council. Currently, Gallia County has one appointee. The Regional Child Abuse Prevention Council is the state’s sole public funding source dedicated to preventing child abuse and neglect. Each regional council is directed by a regional prevention coordinator or coordinating entity and led by county prevention specialists. The continued existence of the Regional Child Abuse Prevention Council is not dependent upon the County’s continued participation and no equity interest or debt exists.

**NOTE 21 - RELATED ORGANIZATIONS**

*A. O.O. McIntyre Park District*

The County Probate Judge is responsible for appointing the three-member board of the O.O. McIntyre Park District. Removal of the members requires due process. The County has no ability to impose its will on the organization nor is a benefit/burden relationship exist. The Park District has a one-half mill property tax that is collected by Gallia County and then transferred into the Park District Custodial Fund. In addition, the Park District receives one-quarter of a percent of the County’s share of Undivided Local Government Revenue Assistance and State income taxes. These items totaled \$2,189 in 2020. The Park District is its own budgeting and taxing authority and has no outstanding debt. The County Auditor serves as the fiscal agent for the Park District; therefore, the financial activity is reflected in the Park District Custodial Fund.

*B. Bossard Memorial Library*

The Bossard Memorial Library is statutorily created as a separate and distinct political subdivision of the State. Four trustees of the Library are appointed by the County Commissioners, and three trustees are appointed by the judges of the Common Pleas Court. Due process is required to remove board members. The Library has a 1.3 mill property tax that is collected by Gallia County and then transferred into the Library District Agency Fund. Although the County collects and distributes the tax, this function is strictly ministerial and the County provides no contributions of its own. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend upon the County for operational subsidies.

*C. Gallia Metropolitan Housing Authority*

The Gallia Metropolitan Housing Authority is a nonprofit organization established to provide adequate public housing for low income individuals and was created pursuant to State Statutes. The Authority is operated by a five member board. Two board members are appointed by the City of Gallipolis, one member is appointed by the Probate Court Judge, one member is appointed by the Common Pleas Court Judge, and one member is appointed by the County Commissioners. The Authority receives funding from the U.S. Department of Housing and Urban Development. The Board sets its own budget and selects its own management, and the County is not involved in its management or operation. The County is not financially accountable for the Authority.

**NOTE 22 - SHARED RISK POOLS**

*A. County Risk Sharing Authority, Inc. (CORSA)*

The County Risk Sharing Authority, Inc. (CORSA) is a public entity shared risk pool among fifty-five counties in Ohio. CORSA was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage losses and pay all contributions necessary for the specified insurance coverages provided by CORSA. These coverages include comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of the certificates. The County does not have an equity interest in or a financial responsibility for CORSA. Any additional premium or contribution amounts and estimates of losses are not reasonably determinable. The County's payment for insurance to CORSA in 2020 was \$181,551.

**B. County Commissioners Association of Ohio Workers' Compensation Group Rating Plan**

The County is participating in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The County Commissioners Association Service Corporation (CCAOSC) was established through the County Commissioners Association of Ohio (CCAO) as a group purchasing pool.

A group executive committee is responsible for calculating annual rate contributions and rebates, approving the selection of a third party administrator, reviewing and approving proposed third party fees, fees for risk management services and general management fees, determining ongoing eligibility of each participant, and performing any other acts and functions which may be delegated to it by the participating employers. The group executive committee consists of seven members. Two members are the president and treasurer of CCAOSC; the remaining five members are representatives of the participants. These five members are elected for the ensuing year by the participants at the meeting held in the month of December each year. No participant can have more than one member of the group executive committee in any year and each elected member shall be a County Commissioner.

**NOTE 23 - DECLINING MORTGAGE LOANS**

Gallia County administers a loan program with funds provided by the U.S. Department of Housing and Urban Development, through the Ohio Department of Development, Office of Housing and Community Partnerships. The purpose of this program is to provide loans to low and moderate income families for home improvements. Loans are provided as declining mortgage loans with the intent that they do not have to repay 85% of the loan (85% of the loan is released at the end of either a five or ten year period), unless they would sell the residence before the five or ten year period ended. The remaining 15 percent would remain as a mortgage to the property until such time as the owner either pays it off or sells the property. When the owner repays the remaining 15 percent, these monies are deposited into the County's Housing Program Income Fund and then used as a match to current Home Investment Partnership Program Grants. As of December 31, 2020, the total amount of loans outstanding was \$261,254. Due to the nature of these loans, they do not constitute a receivable or pledge and the loans accordingly have not been reported in the accompanying basic financial statements.

The County's outstanding OPWC loans from direct borrowings contain provisions that in the event of default (1) OPWC may apply late fees of 8 percent per year, (2) loans more than 60 days late will be turned over to the Attorney General's office for collection, and as provided by law, OPWC may require that such payment be taken from the County's share of the county undivided local government fund, and (3) the outstanding amounts shall, at OPWC's option, become immediately due and payable.

*C. Pledged Revenue*

The County has pledged future customer revenues, net of specified operating expenses, to repay \$6,018,000 in revenue bonds issued from 2000 to 2015 and \$2,120,411 in OWDA loans issued from 2009 to 2015. Proceeds from these loans provided financing for various sewer projects. The bonds and loans are payable solely from customer net revenues and are payable through 2055. Annual principal and interest payments on the loans should require less than 100 percent of net revenues in future years. Net revenues include all revenues received by the sewer utility less all operating expenses other than depreciation expense. The total principal and interest outstanding to be paid on the revenue bonds are \$8,988,279. The total principal and interest outstanding to be paid on the OWDA loans are \$2,857,517. Principal and interest payments for the current year were \$306,974 for the revenue bonds and \$129,058 for the OWDA loans. Net revenues were \$352,399 and total revenues were \$1,053,009.

*D. Debt Margin*

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total valuation of the County. The Code further provides that the total shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000. The County's total debt margin was \$15,614,344 and the unvoted debt margin was \$5,327,328 at December 31, 2020.

*E. Conduit Debt*

Pursuant to State statute, various industrial revenue bonds have been issued for private industry within the County. The proceeds of the industrial revenue bonds are used by the various private industries for new construction or improvements. The bonds are to be repaid by the recipients of the proceeds and do not represent obligations of the County. As of December 31, 2020, \$158,155,000 of industrial revenue bonds had been issued, and \$143,060,000 of those remained outstanding.

**NOTE 25 - GALLIA COUNTY LANDFILL**

In 1978, Gallia County established the Gallia County Sanitary Landfill. The County contracted with Greg Fields to operate the landfill when it opened. In 1991, Mid-American Waste Systems, Inc. (Mid-American) purchased Greg Field's business. At this time Gallia County operated the landfill on its own for a three month period until the County signed the lease agreement with Mid-American in June 1991. In 2001, the County signed the current lease agreement with USA Waste Services, Inc. (Waste Management). The lease agreement states that Waste Management is the operator of the landfill and that the County is to receive a portion of the landfill fees. The lease also states that Waste Management will comply with the Ohio Environmental Protection Agency (EPA) closure and post closure requirements; therefore, Waste Management is responsible for these costs unless the County does not renew the lease agreement. The EPA issued a Sub-Title D that states that landfill operators are to purchase a Final Assurance Bond for the closure and post closure costs and Waste Management has met the requirement.

**NOTE 26 - ASSET RETIREMENT OBLIGATIONS**

Ohio Revised Code Section 6111.44 requires the County to submit any changes to their sewerage system to the Ohio EPA for approval. Through this review process, the County would be responsible to address any public safety issues associated with their waste water treatment facilities. Engineers associated with the County's sewer improvement projects estimate these public safety issues to include removing/filling any tankage, cleaning/removing certain equipment, and backfilling certain exposed areas. This asset retirement obligation (ARO) of \$580,000 associated with the County waste water treatment facilities was estimated by the County's contracted engineers. The remaining useful life of these facilities is 40 years.

**NOTE 27 - COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the County. The County's investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined. In addition, the impact on the County's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated. Additional funding will be available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

The County reports its road and bridge infrastructure assets using the modified approach. The following disclosures pertain to the condition assessments of these assets:

**County Roads**

The Gallia County Engineer uses a pavement management system to evaluate the condition of over 454 miles of roadway. All roads are inspected on an annual basis using the following system, and criteria consisting of current condition, last date of maintenance or resurfacing, traffic count and type.

<u>Surface Rating</u>	<u>Condition Rating</u>	<u>Description</u>
1	Excellent	Surface not in need of maintenance. New condition. Surface age typically 1-5 years. Older surfaces with low traffic counts and low truck traffic also in this category.
2	Good	Surface requires minor maintenance to restore to excellent condition. Generally, surfaces 6-10 years of age in this category.
3	Fair	Surface requires major maintenance to restore to excellent condition. Generally, surfaces 11-15 years of age in this category.
4	Deficient	Surface requires major maintenance to restore to excellent condition. Surfaces older than 15 years, or with high traffic counts and high truck traffic in this category.
5	Poor	Surface is no longer useable.

It is the practice of the Gallia County Engineer to maintain the county roadway system where at least 85% of the roadways will have a rating of '3 - Fair' or better.

**Bridges and Large Culverts**

All bridges and large culverts are inspected on an annual basis, as required by ORC. The rating system used was developed by FHWA, and entails the inspection of all components of the structure, as described in the following system.

8	Very Good	Equal to current desirable criteria.
7	Good	Better than current minimum criteria.
6	Satisfactory	Equal to current desirable criteria.
5	Fair	Low priority for repair.
4	Poor	High priority for repair.
3	Serious	Low priority for replacement.
2	Critical	High priority for replacement.
1	Imminent Failure	Immediate repair/replacement necessary.
0	Closed	Bridge closed.

It is the practice of the Gallia County Engineer to maintain the county bridge and large culvert system where at least 80% of the structures will have a rating of '5 - Fair' or better.

The following summarizes the road and bridge conditions as of December 31, 2020, 2019, 2018, 2017, 2016, 2015, 2014, and 2013.

**Changes in Assumptions – OPERS Pension– Traditional Plan**

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	2019	2018 and 2017	2016 and prior
Wage Inflation	3.25 percent	3.25 percent	3.75 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation	3.25 to 10.75 percent including wage inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA:			
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	see below	see below	see below
Investment Rate of Return	7.2 percent	7.5 percent	8 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age

The assumptions related COLA or Ad Hoc COLA for Post-January 7, 2013 Retirees are as follows:

COLA or Ad Hoc COLA, Post-January 7, 2013 Retirees:

2020	1.4 percent, simple through 2020 then 2.15 percent, simple
2017 through 2019	3.0 percent, simple through 2018 then 2.15 percent, simple
2016 and prior	3.0 percent, simple through 2018 then 2.80 percent, simple

Amounts reported beginning in 2017 use mortality rates based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

**Changes in Assumptions – OPERS Pension – Combined Plan**

For 2020, the Combined Plan had the same change in COLA or Ad Hoc COLA for Post-January 2, 2013 retirees as the Traditional Plan. For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent.

**Changes in Assumptions – STRS Pension**

Amounts reported beginning in 2017 incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2016 and prior are presented below:

	2017	2016 and Prior
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Beginning in 2017, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For 2016 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males’ ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

**Changes in Assumptions – STRS OPEB**

For 2018, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

**Changes in Benefit Terms – STRS OPEB**

For 2020, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For 2019, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020, to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020, from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For 2018, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019, and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2020

#### **NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Gallia County (the County), under programs of the federal government for the year ended December 31, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

#### **NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

#### **NOTE C – INDIRECT COST RATE**

The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **NOTE D - SUBRECIPIENTS**

The County passes certain federal awards received from Ohio Department of Job and Family Services to other governments or not-for-profit agencies (subrecipients). As Note B describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

#### **NOTE E - CHILD NUTRITION CLUSTER**

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

#### **NOTE F - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS with REVOLVING LOAN CASH BALANCE**

The current cash balance on the County's local program income account as of December 31, 2020 is \$67,240.

#### **NOTE G - MATCHING REQUIREMENTS**

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Gallia County  
18 Locust Street  
Gallipolis, Ohio 45631

To the Board of County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Gallia County, Ohio (the County), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated October 28, 2021, wherein we noted the County adopted Governmental Accounting Standards Board (GASB) Statement No. 83, *Certain Asset Retirement Obligations*. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the County.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Gallia County  
18 Locust Street  
Gallipolis, Ohio 45631

To the Board of County Commissioners:

### ***Report on Compliance for Each Major Federal Program***

We have audited Gallia County's, Ohio (the County), compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Gallia County's major federal programs for the year ended December 31, 2020. The *Summary of Auditor's Results* in the accompanying Schedule of Findings identifies the County's major federal programs.

### ***Management's Responsibility***

The County's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to opine on the County's compliance for the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, Gallia County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended December 31, 2020.

***Report on Internal Control Over Compliance***

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
