Members of the Board  
Ohio Petroleum Underground Storage Tank Release Compensation Board  
4151 Executive Parkway Ste 350  
Westerville, OH 43081

We have reviewed the *Independent Auditor's Report* of the Ohio Petroleum Underground Storage Tank Release Compensation Board, Franklin County, prepared by Rea & Associates, Inc., for the audit period July 1, 2019 through June 30, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio Petroleum Underground Storage Tank Release Compensation Board is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Keith Faber".

## INDEPENDENT AUDITOR'S REPORT

December 29, 2020

Ohio Petroleum Underground Storage Tank Release Compensation Board  
4151 Executive Parkway, Suite 350  
Westerville, Ohio 43081

To the Board:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the Ohio Petroleum Underground Storage Tank Release Compensation Board (the Board), located in Franklin County, Ohio, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Board's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Ohio Petroleum Underground Storage Tank Release Compensation Board, located in Franklin County, Ohio, as of June 30, 2020 and the changes in its financial position and its cash flows for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note 10 to the financial statements, the financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of the Board. Our opinion is not modified with respect to this matter.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2020, on our consideration of the Board's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Management's Discussion and Analysis  
For the Year Ended June 30, 2020  
(Unaudited)

The following Management's Discussion and Analysis (MD&A) section of the Ohio Petroleum Underground Storage Tank Release Compensation Board's (the Board) financial report represents a discussion and analysis of the Board's financial performance during the fiscal year ended June 30, 2020. Please read it in conjunction with the Board's financial statements, which follow this section.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The Board accounts for all transactions under a single enterprise fund (Financial Assurance Fund) and the financial statements are prepared using proprietary fund (enterprise fund) accounting. Under this method of accounting, an economic resources measurement focus and an accrual basis of accounting are used. Revenue is recognized in the year for which coverage is provided, and expenses are recorded when incurred. The financial statements include Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; and Statement of Cash Flows. These are followed by notes to the financial statements.

The Statement of Net Position presents information on the assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between these items reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position reports the operating revenues and expenses and non-operating revenue and expenses of the Board for the fiscal year.

The Statement of Cash Flows reports cash and cash equivalent activities for the fiscal year resulting from operating activities, noncapital financing activities, capital and related financing activities, and investing activities. The net result of these activities added to the beginning of the year's cash and cash equivalents balance reconciles to the cash and cash equivalents balance at the end of the current fiscal year.

<b>NET POSITION</b>		
Investment in capital assets	\$ 88,708	\$ 81,736
Unrestricted net position	<u>(14,288,970)</u>	<u>(16,490,276)</u>
Total Net Position	<u>\$ (14,200,262)</u>	<u>\$ (16,408,540)</u>

**Current assets and unrestricted investments** decreased by approximately \$2,862,000 (7.54%) from last year primarily due to a decrease in investments and an increase in cash with custodian of \$4,768,000, and, \$1,888,000, respectively.

The decrease in unrestricted investments of approximately \$4,768,000 (13.49%) is due to an increase in payments made from the obligated account for claim settlements. At its November 20, 2019 meeting, the Board approved entering into a Settlement Agreement and Release (Settlement Agreement) with a major oil company in exchange for a mutual release and covenant not to sue. Pursuant to the Settlement Agreement executed on December 5, 2019,

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Management's Discussion and Analysis  
For the Year Ended June 30, 2020  
(Unaudited)

the Board agreed to pay and the major oil company agreed to accept \$12,600,000 as full and complete satisfaction of all claim applications that have or could be submitted by the major oil company or its vendors for corrective action costs it incurred related to eligibility applications submitted on or before the effective date of the Agreement. In compliance with the payment schedule established under the agreement, the first payment of \$4,100,000 was issued in February 2020.

Commencing in fiscal year 2013, the Board has used unobligated funds to purchase U.S Treasury Notes and U.S. Agency Bonds. As of July 1, 2019 the Board had approved the investment of \$16,000,000 unobligated funds in U.S. Treasury Notes and U.S. Agency Bonds with maturity dates laddered over one, two, three, and four years with the intent to hold the investments to maturity. As approved by the Board, investments that mature or are redeemed are reinvested in U.S. Treasury Notes and U.S. Agency Bonds. Investments with maturity dates exceeding one year are reported separately from Current Assets as Unrestricted Investments in the Statement of Net Position. The amount of the long-term unrestricted investments is approximately \$5,175,000 at June 30, 2020.

The increase in the cash with custodian of \$1,888,000 (115.06%) is due to the timing of the transfer of excess funds from the custodial account to the STAR Ohio unobligated account at year end. A significant amount of the annual tank fees for the program year commencing July 1 are received in May and June and transfers of the excess cash from the custodial account to the unobligated account are typically made prior to June 30. A larger portion of the fees received in May and June and held in the custodial account were transferred to the unobligated account prior to June 30 in the 2019 fiscal year than in the 2020 fiscal year.

Fees receivable, net of allowance for uncollectible amounts, increased by \$12,350 (1.30%) from the prior year. A detailed review of each receivable was undertaken and based on information available as of June 30, 2020, accounts were separated into six categories, each with an assigned probability of collection. The estimated collectible amount was then determined by applying the assumed probability of collection percentage to each category. The estimated collectible amount of the largest category of outstanding fees, which consists of delinquent fees certified to the State of Ohio Attorney General's Office, Collections Enforcement for collection, as well as delinquent fees not yet certified, is calculated using percentages based on the per-tank fee and late fee payments received for delinquent accounts previously certified to Collections Enforcement. Historically, the Attorney General's Office has collected 14.14%, 5.46% and 4.03% of the fees certified within one, two and three years of the date of certification, respectively. Late payment fees have been collected by the Attorney General's Office at rates of 5.65%, 1.71% and 1.13% within one, two, and three years of the date of certification, respectively.

The allowance for uncollectible amounts was approximately \$2,889,000 and \$3,064,000 for fiscal years 2020 and 2019, respectively. The \$175,000 decrease in the allowance for uncollectible amounts is primarily attributable to the aging of accounts certified to the Attorney General's Office for collection as the receivable is written off for those accounts outstanding more than three years from the date of certification and a reduction in outstanding late fees resulting from negotiations in the process of collecting delinquent fees.

Collateral on loaned securities increased by approximately \$6,200 (55.89 %) from the prior year due to an increase in cash equity with the Treasurer of State as of June 30, 2020.

**Capital assets** increased by approximately \$7,000 (8.53%). Approximately \$35,400 was spent on data processing equipment; and accumulated depreciation increased by \$28,400. Of the \$35,400 spent on data processing equipment, \$28,300 was spent on scanning hardware and software, \$5,600 was spent on computer replacements, and \$1,500 was spent on pdf editing software.

There is no related debt on capital assets.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Management's Discussion and Analysis  
For the Year Ended June 30, 2020  
(Unaudited)

**Current liabilities** increased by \$3,928,000 (21.92%) primarily due to increases in claims payable and refundable fees of \$7,738,000 and \$76,000 respectively; and decreases in the current portion of reserve for unpaid claims and fees received in advance of \$3,738,000 and \$141,000 respectively.

Claims payable increased 712.29% due to the Settlement Agreement. The remaining balance payable to the major oil company of \$8,500,000 is included in claims payable as of June 30. Under the Settlement Agreement, the remaining payments will be made on the following schedule: \$4,000,000 in July 2020; \$4,000,000 in July 2021, and \$500,000 in July 2022.

The increase in refundable fees of 4.30% is attributable to the amount of tank fee refunds identified exceeding the amount of refunds paid, or applied to offset outstanding fees. This is due in large part to one owner of approximately 260 USTs overpaying the 2020 program year's fees by \$66,000.

Fees received in advance decreased 2.10%. A few owners of 100 to 300 tanks submitted payment of the program year 2020 subsequent to June 30, 2020, and payment of the program year 2019 fees prior to June 30, 2019.

The current portion of reserve for unpaid claims represents the amount obligated for the payment of claims in the upcoming fiscal year less claims payable as of June 30, 2020. In determining the amount to obligate, the Board considers the unobligated balance, claims paying experience and anticipated revenue. At its June 12, 2019 meeting the Board obligated \$9,000,000 for the payment of claims anticipated to be paid in the 2020 fiscal year and as a result of the Settlement Agreement, at its January 8, 2020 meeting, the Board obligated an additional \$4,000,000 for the payment of claims for fiscal year 2020. At its June 10, 2020 meeting the Board obligated \$13,000,000 for the payment of claims anticipated to be paid in the 2021 fiscal year.

**Reserve for unpaid claims**, including the current portion, decreased by approximately \$12,943,000 (30.45%) due to the Settlement Agreement, which had the effect of decreasing the ultimate estimated loss of the claims associated with the Settlement Agreement, increasing the amount of claims paid in fiscal year 2020, and increasing the claims payable which includes the payments due under the Settlement Agreement for fiscal years 2021 through 2023. Ultimate estimated loss is an estimate of the amount the Financial Assurance Fund will ultimately pay for releases discovered on or before June 30, 2020, and includes both losses for the most recent year and changes in the estimates of ultimate losses for prior years. The estimated ultimate loss for both reported and incurred but not reported (IBNR) covered events increased approximately \$5,479,000 from June 30, 2019 to June 30, 2020; fiscal year 2020 claim payments were approximately \$10,684,000. Additional discussion regarding the reserve for unpaid claims can be found in Note 3 to the financial statements. The Board issues a stand-alone report, titled "Estimated Unpaid Claims Liability as of June 30, 2020" that represents the analysis of the loss reserves. It is available on the Board's website at [www.petroboard.org](http://www.petroboard.org), or may be obtained by writing to the Board at P.O. Box 2280, Westerville, Ohio 43086-2280 or by calling 614-752-8963.

**Total net position** increased approximately \$2,208,000 (13.46%) due primarily to operating and non-operating net revenue exceeding operating expenses during fiscal year 2020.

The unrestricted net position includes management's estimate of the current and long-term reserve for unpaid claims of approximately \$38,395,000.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Management's Discussion and Analysis  
For the Year Ended June 30, 2020  
(Unaudited)

**Financial Information**

**Revenue**

The following schedule presents a summary of revenues for the fiscal years ended June 30, 2020 and 2019:

	<u>2020</u>	<u>2019</u>
Operating Revenues:		
Tank fees	\$ 8,467,497	\$ 8,457,656
Recovery of bad debt	72,937	136,289
Claim Refunds	468,750	-
Other	1,829	256
	<u>9,011,013</u>	<u>8,594,201</u>
Non-operating Revenues:		
Earnings on investments	761,311	964,246
	<u>761,311</u>	<u>964,246</u>
Total Revenue	<u>\$ 9,772,324</u>	<u>\$ 9,558,447</u>

Total revenue for 2020 increased approximately \$214,000 (2.24%) from the previous year due to an increase in operating revenues of \$417,000 and a decrease in non-operating revenues of \$203,000.

The 4.85% increase in operating revenues is primarily due to claim refunds, net of attorney's fees, of approximately \$469,000. At its November 20, 2019 meeting, the Board approved entering into an agreement with a major oil company to resolve allegations that the company failed to disclose to the Board insurance coverage and sought coverage from its insurers for environmental liabilities, including costs associated with releases of petroleum from underground storage tanks at sites for which the Financial Assurance Fund reimbursed a subsequent owner costs associated with the investigation and remediation of these petroleum releases. The agreement was fully executed on November 26, 2019 and the settlement amount of \$625,000, less attorney fees, was received by the Board on December 13, 2020. Attorney's fees were 25% of the settlement amount.

Tank fees collected, including the recovery of bad debt, for the current and prior fiscal years decreased \$54,000. For 2020, the Board maintained its fee structure of \$350 per-tank for the standard \$55,000 deductible and \$550 for the reduced \$11,000 deductible.

Non-operating revenues decreased by 21.05% due to a decrease in earnings on monies held in the State Treasury Asset Reserve of Ohio ("STAR Ohio") and on US Treasury and US Agency Bond investments. During fiscal year 2020, the interest earned on monies held in STAR Ohio was \$282,000. The investments in US Treasuries and Agency Bonds earned \$280,000 in interest and the fair market value increased \$199,000 from the prior year.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Management's Discussion and Analysis  
For the Year Ended June 30, 2020  
(Unaudited)

**Expenses**

The following schedule presents a summary of expenses for the fiscal years ended June 30, 2020 and 2019:

	<u>2020</u>	<u>2019</u>
Incurring claims and claims adjustment	\$ 5,478,863	\$ 6,576,939
Administration	2,056,808	2,181,421
Depreciation	<u>28,375</u>	<u>25,571</u>
Total Operating Expenses	\$ <u>7,564,046</u>	\$ <u>8,783,931</u>

Total operating expenses decreased approximately \$1,220,000 from 2019 (13.89%) due to a decrease in the incurred claims and claims adjustment expense of \$1,098,000, a decrease in administration expense of \$125,000, and an increase in depreciation expense of \$2,800.

Incurring claims and claims adjustment expense decreased 16.70% from the prior year. For fiscal year 2020, incurred claims and claims adjustment expense represent the provision for insured events of the current year and the change in provision for prior years of approximately \$5,807,000 and \$328,000, respectively. For fiscal year 2019, the provision for insured events of the current year was approximately \$4,772,000 and change in provision for prior years was approximately \$1,805,000.

As previously stated, the Board annually obligates funds for the payment of claims in the upcoming fiscal year. For fiscal year 2020, the Board obligated \$13,000,000. Claim determinations issued for fiscal years 2020 and 2019 provided for reimbursement amounts of approximately \$6,280,000 and \$4,700,000, respectively. Claimants are provided a 30-day period in which to object to the claim determination. If an objection is not received, payment is issued to the claimant within 45 days of the date of the determination. Claim reimbursement payments made during 2020 totaled \$10,684,000, and included payment of \$4,100,000 in accordance with the Settlement Agreement.

Administration costs decreased 5.71% from fiscal year 2019. This change is a net result of decreases in salary, legal and professional, and rent expenses, and an increase in temporary services.

- Salary costs decreased by \$75,700 due to a decrease in the proportionate share of pension expense, netted with increases in the proportionate share of OPEB expense; and an increase in employee wages and accrued leave due to a 2.75% increase in all Board employees' hourly rates to maintain parity with state employees under the OCSEA contract.
- Legal and Professional expenses decreased by \$42,100 due to decreased costs for the engagement of an independent actuarial firm, the Assistant Attorney General and expenses related to IT services.
- Rent expense decreased by \$12,700 due to the timing of rent payments made during the prior and current fiscal years.
- Temporary Services expense increased by \$5,400 due to the use of a contract employee to temporarily replace a permanent employee on extended leave.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 1 - DESCRIPTION OF THE BOARD

The Ohio Petroleum Underground Storage Tank Release Compensation Board (the Board) was established as a body both corporate and politic of the State of Ohio upon enactment of House Bill 421 (the Act) in 1989 in response to USEPA Resource Conservation and Recovery Act Subtitle I regulations, which require responsible persons to demonstrate financial responsibility for paying the costs of corrective action resulting from accidental releases of petroleum from the operation of underground storage tanks. The Board consists of the Treasurer of State and the directors of the State of Ohio Departments of Commerce and Environmental Protection as ex-officio members, and nine members appointed by the Governor with the advice and consent of the Senate.

The Board may issue revenue bonds, payable solely from its revenues, for the purpose of funding the Financial Assurance Fund (the Fund). The Act created the Fund to reimburse responsible persons for the costs of corrective actions and third-party compensation for bodily injury or property damage resulting from releases of petroleum from underground storage tanks. Pursuant to the Act, the Board may determine the amount of payment or reimbursement to responsible persons.

The Fund is authorized by law to collect (1) annual and supplemental fees from underground storage tank owners/operators, (2) interest earned on monies in the Fund, and (3) proceeds from revenue bonds authorized by the Board. Authorized disbursements from the Fund are for (1) the Board's administrative expenses, (2) payment of claims to tank owner/operators who hold valid certificates of coverage, (3) transfers of funds required under trust agreements established in connection with bond issuances, and (4) placement of certificates of deposit with financial institutions for the purpose of providing low-cost financing to eligible tank owners through the Board's linked deposit program.

The Board may establish annual fees and assess supplemental fees needed to maintain the financial soundness of the Fund. The Act prohibits the Board from assessing annual fees for any year in which the unobligated fund balance exceeds \$45 million, except the Board may assess a fee in the year to which the determination applies to the extent required in or by, or necessary to comply with covenants or other requirements in, revenue bonds. Supplemental fees may be assessed in any fiscal year in which the unobligated fund balance is less than \$15 million. The Act excludes the State of Ohio from responsibility for liabilities of the Fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements follows:

Classification and Basis of Accounting - The Fund is classified as an Enterprise Fund and is reporting as a special-purpose government engaged in business-type activities. The accrual basis of accounting is applied to the Fund.

Operating revenues and expenses generally result from providing services in connection with ongoing operations. Operating revenues are primarily derived from tank fees. Operating expenses include the costs of claims and related administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Application of Financial Accounting Standards Board (FASB) Statements and Interpretation - In accordance with GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting", the Board follows Governmental Accounting Standards Board

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(GASB) guidance as applicable to proprietary funds.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Cash and Cash Equivalents – The Treasurer of the State of Ohio (Treasurer) acts as the custodian of the funds for the State. Cash and Cash Equivalents of the Board are pooled and invested by the Treasurer. Account integrity is maintained through a series of checks and balances with the Auditor, Treasurer, and the Office of Budget and Management.

The Cash and Cash Equivalents with the Treasurer has the general characteristics of a demand deposit account whereby additional cash can be deposited at any time and can also be effectively withdrawn at any time, within certain budgetary limitations, without prior notice or penalty.

Unobligated Fund Balance - The Ohio Revised Code requires the Board to maintain an unobligated fund balance at a level that ensures the continued financial soundness of the Fund and allows the Board to assess a supplemental fee in any fiscal year in which the unobligated fund balance is less than \$15 million. The unobligated fund balance is included in unrestricted investments and defined by the Ohio Administrative Code as monies not previously designated by the Board for claims reimbursement, not legally restricted, not placed in the unclaimed monies trust account, not placed in a linked deposit account, and not placed in a debt service account. The unobligated fund balance is \$31,320,969 at June 30, 2020.

Investments - Investments are stated at fair value in accordance with GASB Statement No. 72, “Fair Value Measurement and Application”. The Board’s investments consist of U.S. Treasury Notes and Agency Bonds, which are stated at fair value. Dividends, interest earnings, the net increase (decrease) in the fair value of investments (which includes both the change in fair value and realized gains and losses), and investment expenses are aggregated and reported as net investment income in the statement of revenues, expenses and changes in net position. The cost of securities sold is determined using the average cost method. Purchases and sales of investments are recorded as of the trade date.

Capital Assets - Capital asset purchases are recorded at historical cost, and are depreciated using the straight-line method over the estimated useful life of five years.

Refundable Fees - The Board has determined that certain fees were collected from individuals not required to contribute to the Fund. Accordingly, the Board has recorded a liability for the refund of these fees.

Pensions/Other Postemployment Benefits (OPEB) - For the purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The OPERS pension system reports investments at fair value.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows of Resources – In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Board, deferred outflows of resources are reported on the statement of net position for pension and OPEB and are explained in Notes 7 and 8.

Deferred Inflows of Resources – In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Board, deferred inflows of resources are reported on the statement of net position for pension and OPEB and are explained in Notes 7 and 8.

Revenue Recognition - Fees are recognized in the year for which coverage is provided. Fees received in advance of the coverage year are deferred. Earnings on investments are accrued as earned.

Claims Expenses - Claims expenses are recognized to the extent risk has transferred to the Fund. Risk is deemed transferred when the Board approves a claim for payment. Accordingly, claims expenses are accrued when a claim is approved for payment. In order to expedite certain claims, the Board may approve partial (installment) payments. Partial claims expenses are also recognized when approved. These partial payments are subject to further review, upon which the Board may approve additional payments, or, in limited circumstances, require a refund.

The amount of the reserve for unpaid claims is estimated using actuarial assumptions and is not discounted to present value. Assumptions include the estimate of IBNR claims, the Board's payment experience, the eligibility approval rate and third-party claims.

Accounting Pronouncements - The GASB has issued the following new accounting pronouncements that will be effective in future years and may be relevant to the Board:

- GASB No. 84, "Fiduciary Activities"
- GASB No. 87, "Leases"
- GASB No. 89, "Accounting for Interest Cost Incurred before the End of a Construction Period"
- GASB No. 90, "Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61"
- GASB No 91, "Conduit Debt Obligations"
- GASB No. 92, "Omnibus 2020"
- GASB No. 93, "Replacement of Interbank Offered Rates"
- GASB No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements"
- GASB No. 95, "Postponement of the Effective Dates of Certain Authoritative Guidance"

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- GASB No. 96, “Subscription-Based Information Technology Arrangements”
- GASB No. 97, “Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32”

Management has not yet determined the impact that these new GASB Pronouncements will have on the Board’s financial statements.

NOTE 3 - COVERAGE

Petroleum underground storage tank owners/operators must pay a fee each fiscal year as determined by the Board (\$350 per tank in 2020). The tank owners/operators must also demonstrate an ability to fund \$55,000 of eligible costs caused by petroleum releases, in compliance with rules promulgated by the State Fire Marshal. Tank owners/operators with six or fewer tanks may elect to reduce their deductible from \$55,000 to \$11,000 by paying an additional fee per tank (\$200 in 2020). The Board’s obligation to pay eligible claims is limited to (1) an annual maximum per individual owner/operator and (2) the availability of unobligated assets in the Fund. The maximum annual disbursement per fiscal year to an individual owner/operator is as follows:

<u>Number of Tanks Owned</u>	<u>Maximum Annual Disbursements (Net of Deductibles)</u>
Less than 100	\$1 million
101 to 200	\$2 million
201 to 300	\$3 million
Over 300	\$4 million

The Board is not required to make payments for the costs of corrective action when the amount of approved claims exceeds the unobligated fund balance. The Board annually sets fees to ensure the solvency of the Fund based on projected revenues, administrative expenses and claim payment obligations. In the event that unobligated funds fall below \$15 million, the Board is able to assess a supplemental fee, and again consider payout of all eligible claims.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 3 - COVERAGE (Continued)

The Board establishes a liability for both reported and unreported covered events, which includes estimates for future payments of losses. The amount of the liability is estimated using actuarial techniques. The following represents changes in those aggregate liabilities of the Board during the past fiscal year:

	<u>Year Ended</u> <u>June 30, 2020</u>
Unpaid claims and claim adjustment expenses- Beginning of year	\$ <u>43,600,452</u>
Incurred claim and claim adjustment expenses:	
Provision for insured events of current year	5,807,100
Change in provision for prior years	<u>(328,237)</u>
Total Incurred Claims and Claim Adjustment Expense	<u>5,478,863</u>
Claim and claim adjustment payments attributable to Insured events of prior years	<u>(10,684,295)</u>
Total Unpaid Claims and Claim Adjustment Expenses- End of year	\$ <u><u>38,395,020</u></u>
This liability is shown in the statement of net position as follows:	
Claims payable	\$ 8,824,405
Current portion of reserve for unpaid claims	4,175,595
Reserve for unpaid claims-less current portion	<u>25,395,020</u>
Estimated Unpaid Liability	\$ <u><u>38,395,020</u></u>

Changes in the unpaid claim liability are the combined impact of:

- i. Estimated ultimate losses on newly reported claims (increases the liability);
- ii. Changes in the estimated ultimate losses on previously reported claims (may increase or decrease the liability);
- iii. Changes in the estimated ultimate losses on unreported claims (may increase or decrease the liability);
- iv. Claim reimbursement payments (decreases the liability).

The amounts that the Fund will ultimately pay (items i, ii, and iii) are measured, in part, by the reported gross claim face values adjusted for non-reimbursable and undocumented costs and deductible amounts.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 4 - CASH AND INVESTMENTS

Provisions within the Ohio Revised Code govern the investment and deposit of Board monies. In accordance with these statutes, investments are restricted to obligations of the United States or of any agency or instrumentality thereof (and funds consisting exclusively of, and repurchase agreements secured by, those obligations), obligations guaranteed as to principal and interest by the United States, obligations of the State of Ohio or any political subdivision thereof, the State Treasury Asset Reserve of Ohio investment pool, and certificates of deposit of any national bank located in Ohio and certain other banks incorporated in Ohio and subject to inspection by the Superintendent of Institutions.

Cash:

Cash with custodian is held by the Treasurer of State. The carrying amount and custodial balance of cash with custodian at June 30 were as follows:

	<u>2020</u>
Carrying amount	\$ 3,528,250
Custodial balance	\$ 3,138,950

Differences between the carrying amount and the custodial balance was principally due to deposits in transit. Custodial balances are collateralized with securities held by the pledging financial institution's trust department or an agent in the State's name.

Investments:

The Investment policy approved by the Board provides investment guidance for the monies within the Fund. The objective of the investment policy is to conform with state and federal legal requirements and to maintain safety of principal with a focus on liquidity, yield, and the minimization of cost.

U.S Government and U.S. Government Agency Obligations – At its January 9, 2013 meeting, the Board authorized the investment of \$6,000,000 of unobligated funds in equal amounts of U.S. Treasury Notes and U.S. Agency Bonds with maturity dates of the investments laddered over one, two and three years. Authorization was also granted by the Board to reinvest the funds in like securities upon maturity. In May 2013, U.S. Treasury Notes and U.S. Agency Bonds with par values of \$3,000,000 each were purchased. At its March 20, 2014 meeting, the Board authorized the investment of an additional \$2,000,000 of unobligated funds in equal amounts of U.S. Treasury Notes and U.S. Agency Bonds having maturity dates of three years which were subsequently purchased in June 2014. At its January 13, 2016 meeting, the Board authorized the investment of an additional \$6,000,000 of unobligated funds in equal amounts of U.S. Treasury Notes and U.S. Agency Bonds having maturity dates laddered equally over two, three, and four years which were subsequently purchased between January and March 2016. At its November 29, 2017 meeting, the Board authorized the investment of an additional \$2,000,000 of unobligated funds in U.S. Agency Bonds with maturity dates of three years, which were subsequently purchased in January 2018. At its January 9, 2019 meeting, the Board authorized the reinvestment of US Treasuries or U.S. Agency Bonds at the discretion of the Treasurer of State and the Executive Director of the Board, so long as the duration of the buy and hold portfolio does not exceed three years.

STAR Ohio - STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities and Exchange Commission as an investment company, but has adopted Governmental Accounting Standards Board

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 4 - CASH AND INVESTMENTS (Continued)

Statement No. 79, "Certain External Investment Pools and Pool Participants." The Board measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value. For the year ended June 30, 2020, there were no limitations on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. The value of the STAR Ohio investments were approximately \$20,320,000 as of June 30, 2020.

The State Treasurer's Office issues a publicly available stand-alone financial report for STAR Ohio that includes financial statements and required supplementary information. That report may be obtained online at <http://tos.ohio.gov/starohio>, or by writing to State Treasury Asset Reserve of Ohio, STAR Ohio, 30 East Broad Street, 9<sup>th</sup> Floor, Columbus, Ohio 43215-3461 or by calling 1-800-228-1102.

Linked Deposits - The Act authorizes the Board to place certificates of deposit with financial institutions at interest rates below current market rates. These deposits are insured by the Federal Deposit Insurance Corporation. The financial institutions loan these deposits to tank owners approved by the Board to replace or improve underground storage tanks. The financial institutions assume credit risks associated with these loans.

The fair value of the investments as of June 30, 2020 are as follows:

Investment Type	Fair Value	Investment Maturities (in years)	
		Less than 1	1-3
U.S. government obligations	\$ 8,221,948	\$ 5,073,841	\$ 3,148,107
U.S. government agency obligations	2,026,703	-	2,026,703
STAR Ohio	20,320,309	20,320,309	-
	<u>\$ 30,568,960</u>	<u>\$ 25,394,150</u>	<u>\$ 5,174,810</u>

The Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation of inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Board's U.S. government obligations and U.S. government agency obligations are valued using pricing models (Level 2 inputs). STAR Ohio is reported at NAV per share, which approximates fair value.

Custodial Credit Risk - Custodial credit risk for deposits is the risk that in the event of a public depository failure, the Board will be unable to recover the value of deposits. Public depositories must provide security for all public funds on deposit. These institutions may either specifically collateralize individual accounts in addition to amounts insured by the Federal Deposit Insurance Corporation (FDIC), or may pledge a pool of government securities valued at least 102% of the total value of public monies on deposit at the institution.

Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. State law does not require security for public deposits and investments to be maintained in the Board's name. The Board is not exposed to custodial credit risk because the funds are held by the State Treasurer's Office.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 4 - CASH AND INVESTMENTS (Continued)

STAR Ohio investments are not exposed to custodial credit risk, as defined by Statement No. 40. Securities in STAR Ohio are either insured, registered or held by STAR Ohio or by its agent in the name of STAR Ohio. The Board's investment in U.S. government obligations and U.S. government agency obligations are not exposed to custodial credit risk since the Board's investments are held in the Board's name at Huntington National Bank.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater sensitivity of its fair value to changes in market interest rates. The Board mitigates interest rate risk by maintaining adequate liquidity, investing primarily in shorter term securities, and diversification of maturity dates so ongoing operations can be funded without a sale of investments. The investments held in STAR Ohio limit exposure to fair value losses arising from increasing interest rates by limiting the weighted average maturity of the portfolio to 60 days, and limiting the final stated maturity on any investment to 397 days, with the exception of U.S. Treasury and Federal Agency obligations with a floating rate of interest which are limited to a maximum maturity of 762 days.

Credit Risk - Credit risk is the risk of loss due to the failure of a security issuer to pay principal or interest, or the failure of the issuer to make timely payments of principal or interest. Eligible investments, pursuant to the Ohio Revised Code, affected by credit risk include certificates of deposit, commercial paper, bankers' acceptances, and counterparties involved in repurchase agreements.

The Fund's unrestricted investments include investments held in the Treasurer of State's investment pool (STAR Ohio), and investments in U.S. government obligations and U.S. government agency obligations held by Huntington National Bank in the Board's name. Standard and Poor's rating for both the U.S. government obligations and U.S. government agency obligations is AA+. Unrestricted investments are carried at fair value, which approximates cost and includes \$2,616,367 obligated by the Board for the payment of claims at June 30, 2020. Standard & Poor's rating for the STAR Ohio fund is AAAM. STAR Ohio's investment policy requires money market funds to be rated AAAM by Standard & Poor's Corporation, and all other securities held by STAR Ohio to have short-term ratings equivalent of A-1+ or A-1. Commercial paper holdings are required to have short-term ratings of A-1/P-1 or above. Collateralization of bank deposit investments is required to secure a rating of AAAM. As of June 30, 2020, all investments met the short-term and long-term credit ratings requirements of STAR Ohio's investment policies.

Concentration of Credit Risk - Concentration of credit is the risk of loss that may be attributed to the magnitude of the Board's investment in a single issuer. The calculation of risk excludes investments issued by or guaranteed by the U.S. government, U.S. government agencies, and STAR Ohio. In 2020 the Board had no single issuer which was not exempt that represented 5% or more of the Board's total investments.

Securities Lending - As of June 30, 2020 the Board had no securities out on loan. The Board has been allocated with cash collateral of \$17,396 for fiscal year 2020 from the securities lending program administered through the Treasurer of State's Office based on the amount of cash equity with the State's common cash and investment account.

OHIO PETROLEUM UNDERGROUND STORAGE

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 5 - CAPITAL ASSETS

A summary of the changes in capital assets for the year ended June 30, 2020 follows:

	Balance June 30, 2019	Additions	Disposals/ Deletion	Balance June 30, 2020
Capital assets:				
Furniture	\$ 118,454	\$ -	\$ -	\$ 118,454
Data processing equipment	<u>880,805</u>	<u>35,347</u>	<u>-</u>	<u>916,152</u>
Total Capital Assets	<u>999,259</u>	<u>35,347</u>	<u>-</u>	<u>1,034,606</u>
Less accumulated depreciation				
Furniture	87,861	10,818	-	98,679
Data processing equipment	<u>829,662</u>	<u>17,557</u>	<u>-</u>	<u>847,219</u>
Total Accumulated Depreciation	<u>917,523</u>	<u>28,375</u>	<u>-</u>	<u>945,898</u>
Net Capital Assets	<u>\$ 81,736</u>	<u>\$ 6,972</u>	<u>-</u>	<u>\$ 88,708</u>

NOTE 6 - OPERATING LEASES

The Board leases office space under an operating lease agreement expiring in fiscal year 2024. Rent expense for the fiscal year ended June 30, 2020 was \$149,000. Future minimum payments under the operating lease agreement are as follows:

Years ending June 30	Minimum Lease Payments
2021	153,400
2022	153,400
2023	153,400
2024	<u>38,400</u>
Total minimum operating lease payments	<u>\$ 498,600</u>

NOTE 7 - DEFINED BENEFIT PENSION PLANS

The Board's employees are covered by the Ohio Public Employees Retirement System. The State of Ohio accounts for the activities of the retirement systems and the amounts of these funds are not reflected in the accompanying financial statements.

Net Pension Liability - The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions – between an employer and its

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

employees - of salaries and benefits for employee services. Pensions are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Board's proportionate share of the Ohio Public Employee Retirement System (OPERS) Pension Plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of its fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the Board's obligation for this liability to annually required payments. The Board cannot control benefit terms or the manner in which pensions are financed; however, the Board does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the OPERS to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, the OPERS Board of Trustees must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as long-term net pension liability on the accrual basis of accounting. Any liability for the contractually required pension contribution outstanding at the end of the year is included in accrued liabilities on the accrual basis of accounting.

Plan Description - The Board participates in OPERS, which operates three separate pension plans: The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS's fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (See OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to Retire on of January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other groups and members hired on after January 7, 2013
Age and Service Requirements:		
Age 60 with 60 months of service credit or age 55 with 25 years of service credit	Age 60 with 60 months of service credit or age 55 with 25 years of service credit	Age 57 with 25 years of service credit or age 62 with 5 years of service credit
Formula:		
2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service in years in excess of 30	2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service in years in excess of 30	2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service in years in excess of 35

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefit receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

Funding Policy: The Ohio Revised Code provides statutory authority for member and employer contributions as follows:

<b>FY 2020 Statutory Maximum Contribution Rates</b>	
Employer	14.0 %
Employee	10.0 %
 <b>FY 2020 Actual Contribution Rates</b>	
Employer – July 1, 2019 through June 30, 2020	
Pension	14.0 %
Post-employment Health Care Benefits	0.0
Total Employer	<u>14.0 %</u>
 Employee	 <u>10.0 %</u>

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Board's contractually required contribution was \$132,632 for fiscal year 2020. The entire amount was used to fund pension benefits.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The net pension liability for OPERS was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on the Board's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>Pension Plan</u>
Proportionate Share of the Net Pension Liability	\$ 1,211,242
2019 Proportion of the Net Pension Liability	.006128%
2018 Proportion of the Net Pension Liability	<u>.006170%</u>
2019 Change in Proportionate Share	(.000042%)
 Pension Expense	 \$ 226,948

TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

At June 30, 2020, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Pension Plan</u>
<b>Deferred Outflows of Resources</b>	
Changes of Assumptions	64,695
Change in proportionate share	39,519
Board contribution subsequent to the measurement date	65,700
Total Deferred Outflows of Resources	\$ 169,914
<b>Deferred Inflows of Resources</b>	
Differences between expected and actual experience	\$ 15,315
Net difference between projected and actual earnings on pension plan investment	241,614
Change in proportionate share	5,533
Total Deferred Inflows of Resources	\$ 262,462

The \$65,700 reported as deferred outflows of resources related to pension resulting from the Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For Fiscal Year Ending June 30	<u>Pension Plan</u>
2021	\$ 7,691
2022	(80,009)
2023	10,006
2024	(95,937)
Total	\$ (158,249)

Actuarial Assumptions OPERS - Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions and methods applied to all prior periods included in the measurement:

Wage Inflation	3.25 %
Projected Salary Increases	3.25 - 10.75 % including wage inflation at 3.25%
COLA or Ad Hoc COLA	
Pre-January 7, 2013 Retirees	3.00 %, simple
Post-January 7, 2013 Retirees	1.40%, simple, through 2020 then 2.15% simple
Investment Rate of Return	7.20 %
Actuarial Cost Method	Individual entry age normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The allocation of investment assets within the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the OPERS Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</u>
Fixed Income	25.00 %	1.83 %
Domestic Equities	19.00 %	5.75 %
Real Estate	10.00 %	5.20 %
Private Equity	12.00 %	10.70 %
International Equities	21.00 %	7.66 %
Other investments	13.00 %	4.98 %
Total	<u>100.00 %</u>	<u>5.61 %</u>

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 7 - DEFINED BENEFIT PENSION PLANS (Continued)

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a loss of 17.2% for 2019.

Discount Rate - The discount rate used to measure the total pension liability was 7.2%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the Board's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.2%, as well as what the Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.2%) or 1% higher (8.2%) than the current rate:

	1% Decrease (6.2%)	Current Discount Rate (7.2%)	1% Increase (8.2%)
Board's proportionate share of the net pension liability	\$ 1,997,728	\$ 1,211,242	\$ 504,212

NOTE 8 – DEFINED BENEFIT OPEB PLAN

The Board's employees are covered by the Ohio Public Employees Retirement System. The State of Ohio accounts for the activities of the retirement systems and the amounts of these funds are not reflected in the accompanying financial statements.

Net OPEB Liability - The net OPEB liability reported on the statement of net position represents a liability to employees for other post-employment benefits (OPEB). OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the Board's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

Ohio Revised Code limits the Board's obligation for this liability to annually required payments. The Board cannot control benefit terms or the manner in which OPEB are financed; however, the Board does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year would be included in intergovernmental payable. The Board had no such liability at fiscal year-end.

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan is a defined contribution plan; and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to initially provide a funding mechanism for a health reimbursement arrangement (HRA), as the prior trust structure could not support the HRA. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate health care assets into the 115 Trust. The 401(h) Health Care Trust (401(h) Trust) was a pre-funded trust that provided health care funding for eligible members of the Traditional Pension Plan and the Combined Plan through December 31, 2015, when plans funded through the 401(h) Trust were terminated. The Voluntary Employees' Beneficiary Association Trust (VEBA Trust) accumulated funding for retiree medical accounts for participants in the Member-Directed Plan through June 30, 2016. The 401(h) Trust and the VEBA Trust were closed as of June 30, 2016 and the net positions transferred to the 115 Trust on July 1, 2016. Beginning in 2016, the 115 Trust, established under Internal Revenue Code (IRC) Section 115, is the funding vehicle for all health care plans.

The OPERS health care plans are reported as other post-employment benefit plans (OPEB) based on the criteria established by the Governmental Accounting Standards Board (GASB). Periodically, OPERS modifies the health care program design to improve the ongoing solvency of the plans. Eligibility requirements for access to the OPERS health care options have changed over the history of the program for Traditional Pension Plan and Combined Plan members. Prior to January 1, 2015, 10 or more years of service were required to qualify for health care coverage. Beginning January 1, 2015, generally, members must be at least age 60 with 20 years of qualifying service credit to qualify for health care coverage or 30 years of qualifying service at any age. Beginning 2016, Traditional Pension Plan and Combined Plan retirees enrolled in Medicare A and B were eligible to participate in the OPERS Medicare Connector (Connector). The Connector, a vendor selected by OPERS, assists eligible retirees in the selection and purchase of Medicare supplemental coverage through the Medicare market. Retirees that purchase supplemental coverage through the Connector may receive a monthly allowance in their HRA that can be used to reimburse eligible health care expenses.

TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 1-800-222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund post-employment health care through their contributions to OPERS. A portion of each employer’s contribution to OPERS may be set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In fiscal year 2020, the Board contributed at a rate of 14 percent of earnable salary which is the maximum employer contribution rate permitted by the Ohio Revised Code. A portion of each employer contribution to OPERS may be set aside for the funding of post-employment health care coverage. The portion of employer contributions allocated to healthcare was zero for fiscal year 2020.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - The net OPEB liability for OPERS was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Board’s proportion of the net OPEB liability was based on the Board’s share of contributions to the retirement system relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	<u>OPERS Health Care Plan</u>
Proportionate Share of the Net OPEB Liability	\$ 848,646
2019 Proportion of the Net OPEB Liability	.006144%
2018 Proportion of the Net OPEB Liability	<u>.006197%</u>
2019 Change in Proportionate Share	(.000053%)
OPEB Expense	\$ 112,483

TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

At June 30, 2020, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		<u>OPERS Health Care Plan</u>
<b>Deferred Outflows of Resources</b>		
Differences between expected and actual experience	\$	23
Changes of Assumptions		134,330
Change in proportionate share		25,022
Total Deferred Outflows of Resources	\$	<u>159,375</u>
<b>Deferred Inflows of Resources</b>		
Differences between expected and actual experience	\$	77,612
Net difference between projected and actual earnings on pension plan investment		43,213
Change in proportionate share		4,634
Total Deferred Inflows of Resources	\$	<u>125,459</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

For Fiscal Year Ending June 30		<u>OPERS Health Care Plan</u>
2021	\$	43,048
2022		9,300
2023		34
2024		(18,465)
Total	\$	<u>33,917</u>

Actuarial Assumptions OPERS - Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

Projections of health care costs for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing costs between the System and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied all periods included in the measurement:

Wage Inflation	3.25 %
Projected Salary Increases	3.25 - 10.75 % including wage inflation at 3.25%
Single Discount Rate	3.16 %
Investment Rate of Return	6.00 %
Municipal Bond Rate	2.75 %
Health Care Cost Trend Rate	10.5 % initial, 3.50% ultimate in 2030
Actuarial Cost Method	Individual entry age normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The allocation of investment assets within the Health Care portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System’s primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit.

The table below displays the OPERS Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00 %	5.75 %
Real REITs	6.00 %	5.69 %
International Equities	23.00 %	7.66 %
Other investments	14.00 %	4.90 %
Total	100.00 %	4.55 %

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

The long-term rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contributions are made into the plans, the contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested for the Health Care portfolio was 19.7% for 2019.

Discount Rate - The discount rate used to measure the total OPEB liability was 3.16 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of Board’s Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate - The following table presents the Board’s proportionate share of the net OPEB liability calculated using the current period discount rate assumption of 3.16%, as well as what the Board’s proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1% lower (2.16%) or 1% higher (4.16%) than the current rate:

	1% Decrease (2.16%)	Single Discount Rate (3.16%)	1% Increase (4.16%)
Board’s proportionate share of the net OPEB liability	\$ 1,110,589	\$ 848,646	\$ 638,915

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2020

NOTE 8 – DEFINED BENEFIT OPEB PLAN (Continued)

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.5%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

	1% Decrease (9.50%)	Current Health Care Cost Trend Rate (10.50%)	1% Increase (11.50%)
Board’s proportionate share of the net OPEB liability	\$ 823,603	\$ 848,646	\$ 873,370

NOTE 9 - CONTINGENCIES

The Board is involved in various claims and legal proceedings arising from the normal course of business. While the ultimate liability, if any, from these proceedings is presently indeterminable, in the opinion of management, these matters should not have a material adverse effect on the Board’s financial statements.

NOTE 10 – SUBSEQUENT EVENT

The United States and the State of Ohio declared a state of emergency in March 2020 due to the coronavirus (COVID-19) pandemic. The financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of the Board. The impact on the Board’s future operating costs and revenues cannot be estimated.

OHIO PETROLEUM UNDERGROUND STORAGE  
TANK RELEASE COMPENSATION BOARD

Notes to Required Supplementary Information  
For the Year Ended June 30, 2020

NET PENSION LIABILITY – OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM

Changes of benefit terms - There were no significant changes of benefit terms in 2020.

Changes of assumptions - Amounts reported in 2020 reflect changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed cost-of-living adjustments for post January 7, 2013 retirees from 3.00 percent simple through 2020 to 1.40 percent simple through 2020.

NET OPEB LIABILITY - OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM

Changes of benefit terms - There were no significant changes of benefit terms in 2020.

Changes of assumptions - Amounts reported in 2020 reflect changes in both demographic and economic assumptions. For 2020, the single discount rate changed from 3.96 percent to 3.16 percent and the municipal bond rate changed from 3.71 percent to 2.75 percent. The health care cost trend rate also changed from 10.00 percent initial and 3.25 percent ultimate in 2029 to 10.5 percent initial and 3.50 percent ultimate in 2030.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

December 29, 2020

Ohio Petroleum Underground Storage Tank Release Compensation Board  
4151 Executive Parkway, Suite 350  
Westerville, Ohio 43081

To the Board:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the Ohio Petroleum Underground Storage Tank Release Compensation Board (the Board), located in Franklin County, Ohio, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements and have issued our report thereon dated December 29, 2020, wherein we noted the financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods.

***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the Board's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Board's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the Board's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this report is not suitable for any other purpose.
