Board of Trustees Portage Metropolitan Housing Authority 2832 State Route 59 Ravenna, Ohio 44266

We have reviewed the *Independent Auditor's Report* of the Portage Metropolitan Housing Authority, Portage County, prepared by Kevin L. Penn, Inc, for the audit period January 1, 2020 through December 31, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Portage Metropolitan Housing Authority is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees Portage Metropolitan Housing Authority Ravenna, Ohio 44266

#### Report on the Financial Statements

I have audited the accompanying financial statements of the business-type activities of Portage Metropolitan Housing Authority, Portage County as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Portage Metropolitan Housing Authority's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

My responsibility is to opine on these financial statements based on my audit. I audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require me to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on my judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, I consider internal control relevant to the Portage Metropolitan Housing Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Portage Metropolitan Housing Authority's internal control. Accordingly, I express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as my evaluation of the overall financial statement presentation.

I believe the audit evidence I obtained is sufficient and appropriate to support my audit opinions.

#### **Opinion**

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Portage Metropolitan Housing Authority, Portage County, Ohio as of December 31, 2020, and the respective changes in financial position and cash flows for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

# **Emphasis of Matter**

As discussed in Note 14 to the financial statements, during 2020, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the Portage Metropolitan Housing Authority. I did not modify our opinion regarding this matter.

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. I applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, to the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not opine or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to opine or provide any other assurance.

#### Supplementary

My audit was conducted to opine on the Government's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The Supplemental Financial Data Schedules and Schedule of Federal Award Expenditures is management's responsibility and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. I subjected these schedules to the auditing procedures I applied to the basic financial statements. I also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated May 5, 2021 on my consideration of the Portage Metropolitan Housing Authority's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of my internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Portage Metropolitan Housing Authority's internal control over financial reporting and compliance.

Kevin L. Penn, Inc.

Cleveland, Ohio May 5, 2021

This Management's Discussion and Analysis (MD&A) for the Portage Metropolitan Housing Authority (the Authority) is intended to assist the reader to identify what management feels are significant financial issues, provide an overview of the financial activity for the year, and identify changes in the Authority's financial position. It is designed to focus on the financial activity for the calendar year ended December 31, 2020, resulting changes, and currently known facts. Please read it in conjunction with the financial statements found elsewhere in this report.

#### FINANCIAL HIGHLIGHTS

During FY 2020, the Authority's net position increased by \$805,000 (or 9%). The increase was mainly due to the increase in CARES funding. Net Position was \$8,300,000 and \$9,105,000 for FY 2019 and FY 2020 respectively.
The revenue increased by $1,173,000$ (or $7\%$ ) during FY 2020, and was $17,684,000$ and $16,511,000$ for FY 2019 and FY 2020 respectively.
The total expenses of the Authority decreased by \$122,000 (or .7%). Total expenses were \$17,001,000 and \$16,879,000 for FY 2019 and FY 2020 respectively.

#### **Overview in the Financial Statements**

The basic financial statements included elsewhere in this report are the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

The Statement of Net Position is very similar to what most people would think of as a Balance Sheet. In the first half it reports the value of assets the Authority holds at December 31, 2020; that is, the cash the Authority has, the amounts that are owed the Authority from others, and the value of the equipment the Authority owns. The other half reports the Authority's liabilities; that is, what the Authority owes others at December 31, 2020, and what Net Position (equity) the Authority has at December 31, 2020. The two parts of the report are in balance and is why many might refer to this type of report as a balance sheet, in that the total of the assets part equals the total of the liabilities plus Net Position (or equity) part. In the statement, the Net Position is broken out into three broad categories:

Net Investment in Capital Assets, Net of Related Debt Net Position Restricted Net Position Unrestricted

The balance in Net Investment in Capital Assets, Net of Related Debt reflects the value of capital assets (assets such as land, buildings, and equipment) reported in the top part of the statement reduced by the amount of accumulated depreciation of those assets and by the outstanding amount of debt yet owed on those assets.

The balance in Restricted Net Position reflects the value of assets reported in the top part of the statement that are restricted for use by law or regulation, or when the use of those assets is restricted by constraints placed on the assets by creditors.

The balance in Unrestricted Net Position is the remainder of Net Position after what is classified in the two previously mentioned components of Net Position. It reflects the value of assets available to the Authority for its use in furthering its purposes.

The Statement of Revenues, Expenses, and Changes in Fund Balance (or Net Position or equity) is very similar to, and may commonly be referred to, as an Income Statement. It is a report showing what the Authority earned, that is what its revenues or incomes were, versus what expenses the Authority had over the same period. It also shows how the fund balance (or Net Position or equity) changed because of how the revenue exceeded or were less than the expenses. It helps the reader to determine if the Authority had more in revenues than in expenses, or vice-versa, and then how that net gain or net loss affected the fund balance (or Net Position or equity). The ending total Net Position is what is referred to in the above discussion of the Statement of Net Position which when added to the liabilities the Authority has, equals the total assets of the Authority.

The Statement of Cash Flows shows how the amount of cash the Authority had at the end of the previous year was impacted by the activities of the current year. It breaks out in general categories the cash coming in and going out. It helps the reader to understand the sources and uses of cash by the Authority during the year, to include a measurement of cash gained or used by operating activities, by activities related to acquiring capital assets and by activities related to investing activities.

# The Authority's Business Type Fund

The financial statements included elsewhere in this report are presented using the Authority-wide perspective, meaning the activity reported reflects the summed results of all the programs, or business type funds, of the Authority. The Authority consists exclusively of an enterprise fund. The full accrual basis of accounting is used for the Authority's enterprise fund. The accrual method of accounting is very similar to accounting used in the private sector.

The Authority's business type fund includes the following programs:

Moving to Work Programs – These programs are demonstration programs that allow participating housing authorities to design and test ways to promote self-sufficiency among assisted households, reduce costs through improved efficiency, and increase housing choice for low-income families. The programs provide no additional funding to the housing authority, but permit waivers of laws included within the Housing Act of 1937. The Conventional Public Housing Programs and the Section 8 Housing Choice Voucher Program are the Moving to Work Programs of the Portage Metropolitan Housing Authority.

<u>Conventional Public Housing Program</u> -Under the Conventional Public Housing Program, the Authority rents units it owns to low-income households. The Conventional Public Housing Program is operated under an Annual Contributions Contract (ACC) with HUD, and HUD provides operating subsidy to enable the Authority to provide the housing at a rent that is based upon 30 percent of household income. The Conventional Public Housing Program also includes the Capital Fund Program, which is the primary funding source for physical and management improvements to the Authority's properties.

Section 8 Housing Choice Voucher Program -Under the Housing Choice Program, the Authority administers contracts with independent landlords that own the property. The Authority subsidizes the participant's rent through a Housing Assistance Payment made to the landlord. The program is administered under an Annual Contributions Contract (ACC) with HUD. HUD provides Annual Contribution Funding to enable the Authority to structure a lease that sets the participants' rent at 30 percent of household income.

<u>Shelter Plus Care Program</u>-This program links rental assistance to supportive services for hard-to-reach homeless persons with disabilities, primarily those who are seriously mentally ill, have chronic substance abuse problems, or have AIDS and related diseases.

<u>Section 8 Mod Rehab Program and Mainstream Voucher Program</u> -These programs provide rental assistance to clients in a manner that is very similar to how rental assistance is provided under the Housing Choice Voucher Program but serves target populations.

Other Non-major Programs -In addition to the major programs described above, the Authority also administers programs that have assets, liabilities, and revenues or expenses of less than 6 percent of the Authority's total assets, liabilities, revenues or expenses.

<u>Resident Opportunities and Self-Sufficiency (ROSS)</u> -This grant program is funded by HUD to assist residents in the process of moving from welfare to work.

Business Activities -This program represents non-HUD resources developed from a variety of activities.

#### GASB 68 and GASB 75

The net pension liability (NPL) is the largest single liability reported by the Authority at December 31, 2020 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For calendar year 2020, the Authority adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Authority's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pension costs (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability or net OPEB liability*.

GASB 68 and GASB 75 takes an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the Authority's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Authority is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute.

The Ohio revised Code permits but does not require the retirement systems to provide health care to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is for the administration of the plan pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability.

As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability is satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and 75, the Authority's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

The following represents a condensed Statement of Net Position compared to prior year. The Authority is engaged only in business type activities. For more detailed information, see the Statement of Net Position.

Table 1 - Condensed Statement of Net Position Compared to Prior Year

		<u>2020</u>	<u>2019</u>
	Assets		
Current and Other Assets		\$4,265,000	\$4,877,000
Capital Assets		7,696,000	<u>6,689,000</u>
Total Assets		<u>\$11,961,000</u>	<u>\$11,566,000</u>
	Liabilities		
Current Liabilities		\$824,000	\$464,000

<b>Total Liabilities</b>		\$2,856,000	\$3,266,000
	<b>Net Position</b>		
Net Investment in Capital Assets		\$7,696,000	\$6,689,000
Restricted Net Position		264,000	316,000
Unrestricted Net Position		1,145,000	1,295,000
<b>Total Net Position</b>		9,105,000	8,300,000
<b>Total Liabilities and Net Position</b>		<u>\$11,961,000</u>	<u>\$11,566,000</u>

# **Major Factors Affecting the Statement of Net Position**

The total net position increased 3% from year-end 2019 to year-end 2020. See the discussion in the next section of factors contributing to this change. During 2020, current and other assets decreased by \$612,000 while current liabilities increased by \$360,000. Capital assets increased \$1,007,000 reflecting capital fund increases.

The following is a condensed Statement of Revenues, Expenses, and Changes in Net Position. The Authority is engaged only in business type activities.

Table 2 -Statement of Revenues, Expenses, and Changes in Net Position

(Values rounded to nearest Thousand)

	<u>2020</u>	<u>2019</u>
Revenues		
Tenant Revenues	\$ 1,013,000	\$ 930,000
<b>HUD Operating Subsidies and Grants</b>	14,356,000	13,509,000
Capital Grants	941,000	822,000
Non-Operating Revenue	35,000	70,000
Other Revenues	1,339,000	1,180,000
Total Revenues	\$17,684,000	\$16,511,000
Expenses		
Administrative	\$ 3,282,000	\$ 4,045,000
Tenant Services	55,000	56,000
Utilities	422,000	419,000
Maintenance and Operations	1,450,000	1,237,000
General	312,000	467,000
Housing Assistance Payments	10,688,000	10,190,000
Depreciation	670,000	587,000
<b>Total Expenses</b>	\$ 16,879,000	\$ 17,001,000
Net Increase (Decrease) in Net Position	\$ 805,000	\$ (490,000)

For 2020, the Authority revenues increased 7% and expenses decreased .7%. The Authority experienced increases in tenant revenues, HUD subsidies and capital funding. The Authority experienced decreases in expenses because of GASB 68.

# Table 3 – Change in Net Position (Values rounded to nearest Thousand)

Restated Unrestricted Net Position 12/31/2019		\$ 1,295,000
Results from Operations	805,000	
Adjustments:		
Depreciation(1)	<u>670,000</u>	
Adjusted Results from Operations		1,475,000
Decrease in Restricted Net Position		52,000
Capital Expenditures, net		(1,677,000)
Unrestricted Net Position 12/31/2020		<u>\$ 1,145,000</u>
Restricted Net Position 12/31/2019		\$ 316,000
HAP reserves	(55,000)	
Restricted Investment Income	3,00 <u>0</u>	52,000
Restricted Net Position 12/31/2020		\$ 264,000

- (1) Depreciation is treated as an expense and reduces the results of operations but does not have an impact on Unrestricted Net Position.
- (2) The Housing Choice Voucher Program and VASH require the equity portion attributable to the excess housing assistance payments be reflected as restricted net position. The corresponding funds are reflected in the cash accounts.

The following is a condensed Statement of Changes in Capital Assets comparing balances in capital assets for 2019 and 2020.

**Table 4 - Condensed Statement of Changes in Capital Assets** 

	<u>2020</u>	<u>2019</u>
Land and Land Rights	\$ 1,623,000	\$ 1,623,000
Building and Improvements	25,226,000	23,855,000
Equipment	544,000	476,000
Construction in Progress	0	0
Accumulated Depreciation	<u>(19,697,000)</u>	(19,265,000)
Total	\$ 7,696,000	\$ 6,689,000

#### **Debt**

The Authority has no debt outstanding at year end 2020.

# **Economic Factors**

Significant economic factors affecting the Authority are as follows:

- Federal funding provided by Congress to the Department of Housing and Urban Development has increased.
- Local inflationary, recessionary, and employment trends, which can affect resident incomes and therefore the amount of rental income
- Federal Reserve Bank interest rates on investments
- Local labor supply and demand, which can affect salary and wage rates.

# **Contact the Authority**

Questions concerning this report or requests for additional information should be directed to Pamela Nation Calhoun, Executive Director of the Portage Metropolitan Housing Authority, 2832 State Route 59, Ravenna, Ohio 44266.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# **Summary of Significant Accounting Policies**

The financial statements of the Portage Metropolitan Housing Authority (the Authority) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below.

#### **Reporting Entity**

The Portage Metropolitan Housing Authority was created under the Ohio Revised Code, Section 3735.27. The Authority contracts with the United States Department of Housing and Urban Development (HUD) to provide low and moderate income persons with safe and sanitary housing through subsidies provided by HUD. The Authority depends on the subsidies from HUD to operate.

The Authority was created under the Ohio Revised Code, Section 3735.27. The Authority contracts with the United States Department of Housing and Urban Development (HUD) to provide low and moderate income persons with safe and sanitary housing through subsidies provided by HUD. The Authority depends on the subsidies from HUD to operate. The accompanying basic financial statements comply with the provisions of GASB Statement No. 39, *Determining Whether Organizations are Component Units*, in that the financial statements include all organizations, activities and functions for which the Authority is financially accountable. This report includes all activities considered by management to be part of the Authority by virtue of Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards.

Section 2100 indicates that the reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity.

It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's government body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# **Reporting Entity** (Continued)

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government a) is entitled to the organization's resources; b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or c) is obligated in some manner for the debt of the organization.

Management believes the financial statements included in this report represent all of the funds of the Authority over which the Authority is financially accountable. Based on the above criteria, the Authority has no component units.

# **Fund Accounting**

The Authority uses an enterprise fund to report on its financial position and the results of its operations for the Section 8 and Public Housing programs. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Funds are classified into three categories: governmental, proprietary, and fiduciary. The Authority uses the proprietary category for its programs.

#### **Proprietary Fund Types**

Proprietary funds are used to account for the Authority's ongoing activities which are similar to those found in the private sector. The following is the proprietary fund type:

Enterprise Fund - This fund is used to account for the operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

#### **Measurement Focus/Basis of Accounting**

The Authority has prepared its financial statements in conformity with accounting principles generally accepted in the United States of America. The Authority follows the business-type activities reporting requirements of GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments. In accordance with GABS Statement No. 34, the accompanying basic financial statements are reported on an Authority-wide basis. GASB Statement No. 34 (as amended by GASB Statement No. 63) requires the following, which collectively make up the Authority's basic financial statements:

**Basic Financial Statements:** 

Statement of Net Position Statement of Revenues, Expenses, and Changes in Net Position Statement of Cash Flows Notes to the Financial Statements

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Accounting and Reporting for Nonexchange Transactions**

Nonexchange transactions occur when the Public Housing Authority (PHA) receives (or gives) value without directly giving equal value in return. GASB 33 identifies four classes of nonexchange transactions as follows:

Derived tax revenues: result from assessments imposed on exchange transactions (i.e., income taxes, sales taxes and other assessments on earnings or consumption).

Imposed nonexchange revenues: result from assessments imposed on nongovernmental entities, including individuals, other than assessments on exchange transactions (i.e. property taxes and fines).

Government-mandated nonexchange transactions: occur when a government at one level provides resources to a government at another level and requires the recipient to use the resources for a specific purpose (i.e., federal programs that state or local governments are mandated to perform). Voluntary nonexchange transactions: result from legislative or contractual agreements, other than exchanges, entered into willingly by the parties to the agreement (i.e., certain grants and private donations).

PHA grants and subsidies will be defined as government-mandated or voluntary nonexchange transactions.

GASB 33 establishes two distinct standards depending upon the kind of stipulation imposed by the provider.

Time requirements specify (a) the period when resources are required to be used or when use may begin (for example, operating or capital grants for a specific period) or (b) that the resources are required to be maintained intact in perpetuity or until a specified date or event has occurred (for example, permanent endowments, term endowments, and similar agreements). Time requirements affect the timing of recognition of nonexchange transactions.

Purpose restrictions specify the purpose for which resources are required to be used. (i.e. capital grants used for the purchase of capital assets). Purpose restrictions do not affect when a nonexchange transaction is recognized. However, PHAs that receive resources with purpose restrictions should report resulting Net Position, equity, or fund balance as restricted.

The PHA will recognize assets (liabilities) when all applicable eligibility requirements are met or resources received whichever is first. Eligibility requirements established by the provider may stipulate the qualifying characteristics of recipients, time requirements, allowable costs, and other contingencies.

The PHA will recognize revenues (expenses) when all applicable eligibility requirements are met. For transactions that have a time requirement for the beginning of the following period, PHAs should record resources received prior to that period as deferred revenue and the provider of those resources would record an advance.

The PHA receives government-mandated or voluntary nonexchange transactions, which do not specify time requirements. Upon award, the entire subsidy should be recognized as a receivable and revenue in the period when applicable eligibility requirements have been met.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Net Position**

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount reported as restricted net position at calendar year end represents the amounts restricted by HUD for future Housing Assistance Payments. When an expense is incurred for purposes which both restricted and unrestricted net position is available, the Authority first applies restricted resources. There were no net Position restricted by HUD.

#### **Investments**

Investments are restricted by the provisions of the HUD Regulations (See Note 2). Investments are valued at market value. Interest income earned in calendar year 2020 totaled \$35,441.

#### **Capital Assets**

Capital assets are stated at cost and depreciation is computed using the straight line method over an estimated useful life of the assets. The cost of normal maintenance and repairs, that do not add to the value of the asset or materially extend the asset life, are not capitalized.

# Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and cash equivalents include all highly liquid debt instruments with original maturities of three months or less, and certificates of deposits regardless of original maturities.

# **Compensated Absences**

The Authority accounts for compensated absences in accordance with GASB Statement No. 16. Sick leave and other compensated absences with similar characteristics are accrued as a liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments. To calculate the liability, these accumulations are reduced to the maximum amount allowed as a termination payment. All employees who meet the termination policy of the Authority for years of service are included in the calculation of the compensated absences accrual amount.

# NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# **Compensated Absences** (Continued)

Vacation leave and other compensated absences with similar characteristics are accrued as a liability as the benefits are earned by the employees if both of the following conditions are met: (1) the employees' rights to receive compensation are attributable to services already rendered and are not contingent on a specific event that is outside the control of the employer and employee. (2) It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

In the proprietary fund, the compensated absences are expensed when earned with the balance reported as a fund liability.

#### **Inventories**

Inventories are stated at cost. The allowance for obsolete inventory was \$2,000 at December 31, 2020.

#### **Budgetary Accounting**

The Authority annually prepares its budget as prescribed by the U.S. Department of Housing and Urban Development. This budget is approved by the Board of the Housing Authority.

#### **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Authority, deferred outflows of resources are reported on the statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 5.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Authority, deferred inflows of resources include pension. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (See Note 5).

#### NOTE 2: **DEPOSITS AND INVESTMENTS**

#### **Deposits**

At calendar year end, the carrying amount of the Authority's deposits were \$3,909,767 and the bank balance was \$4,074,257. Included in the carrying amount of deposits at December 31, 2020 is \$75 in petty cash. Based on criteria described in GASB Statement No. 40, Deposits and Investments Risk Disclosures, as of December 31, 2020, \$816,841 of the Authority's bank balance was covered by Federal Depository Insurance. The remainder was collateralized by securities pledged in the name of the Authority.

Custodial credit risk is the risk that, in the event of bank failure, the Authority's deposits may not be returned. The Authority's policy is to place deposits with major local banks approved by the Authority's Board. All deposits are collateralized with eligible securities in amounts equal to 105 percent of the carrying value of deposits. Such collateral, as permitted by Chapter 135 of the Ohio Revised Code, is held in financial institution pools at Federal Reserve banks, or at member banks of the Federal Reserve System, in the name of the respective depository bank, and pledged as a pool of collateral against the public deposits it holds, or as specific collateral held at the Federal Reserve bank in the name of the Authority.

#### **Investments**

The Authority has a formal investment policy; however the Authority's investments at December 31, 2020, were limited to certificates of deposit.

#### **Interest Rate Risk**

The Authority's investment policy limits investments to 1 year but does not limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The Authority staggers maturity dates of investments to avoid losses from rising interest rates.

### **Credit Risk**

Any deposits of the Authority exceeding the FDIC insurance limit are fully and continuously collateralized by securities pledged in the name of the Authority.

#### **Concentration of Credit Risk**

The Authority does not limit the amount of funds that may be on deposit with any one financial institution; however, as was mentioned in the preceding paragraph, all deposits exceeding the FDIC insurance limit are fully and continuously collateralized by securities pledged in the name of the Authority.

Cash and investments included in the Authority's cash position at December 31, 2020, are as follows:

		Maturities (in Years)
Cash and Investment Type	Fair Value	<u>&lt;1</u>
Carrying Amount of Deposits – Unrestricted	\$3,556,485	\$3,556,485
Carrying Amount of Deposits – Restricted	353,282	353,282
Totals	<u>\$3,909,767</u>	\$3,909,767

# NOTE 3: **RESTRICTED CASH**

The restricted cash balance of \$353,282 on the financial statements represents the following:

FSS Escrow Funds	\$ 53,451
Sale of HUD Property	211,533
Tenant Security Deposits	 88,298
Total Restricted Cash	\$ 353,282

# NOTE 4: <u>CAPITAL ASSETS</u>

A summary of capital assets at December 31, 2020, by class is as follows:

	12/31/2019	Reclasses	Additions <u>Disposals</u>	12/31/2020
Capital Assets Not Being Depreciated				
Land	\$1,623,261	\$ 0	\$ 0 \$ 0	\$ 1,623,261
Construction in Progress	0	0	0	0
Total Capital Assets Not				
Being Depreciated	1,623,261	0	00	1,623,261
Capital Assets Being Depreciated				
Buildings and Improvements	23,850,403	4,125	1,582,042 (211,329)	25,225,241
Furniture, Equipment, and Machinery-				
Administrative	480,479	(4,125)	<u>118,676</u> ( 51,173)	543,857
Subtotal Capital Assets Being Depreciated	24,330,882	0	1,700,718 ( 262,502)	25,769,098
Accumulated Depreciation:				
Buildings and Improvements	(19,017,805)	4,039	(579,646) 205,013	(19,396,477)
Furniture, Equipment and Machinery-				
Administrative	(247,351)	(4,039)	( 89,995) 33,083	( 300,224)
Total Accumulated Depreciation	(19,265,156)	0	(669,641) 238,096	(19,696,701)
Depreciable Assets, Net	5,065,726	0	<u>1,031,077</u> <u>( 24,406)</u>	6,072,397
Total Capital Assets, Net	<u>\$ 6,688,987</u>	<u>\$</u> 0	<u>\$1,031,077</u> <u>\$ ( 24,406)</u>	<u>\$ 7,695,658</u>

Depreciation is calculated using the straight line method with lives varying between 3 and 30 years. The depreciation expense for the year ended December 31, 2020 was \$669,641.

#### NOTE 5: **DEFINED BENEFIT PENSION PLAN**

Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the Authority's proportionate share of the Ohio Public Employee Retirement System (OPERS) Pension Plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of its fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Authority's obligation for this liability to annually required payments. The Authority cannot control benefit terms or the manner in which pensions are financed; however, the Authority does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees).

State statute requires the OPERS to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, the OPERS Board of Trustees must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

Organization - OPERS is a cost-sharing, multiple-employer public employee retirement system comprised of three separate pension plans: The Traditional Plan, a defined benefit plan; the Combined Plan, a combination defined benefit/contribution plan; and the Member-Directed Plan, a defined contribution plan. All public employees in Ohio, except those covered by one of the other state or local retirement systems in Ohio, are members of OPERS. New public employees (those who establish membership in OPERS on or after January 1, 2003) have 180 days from the commencement of employment to select membership in one of the three pension plans. Contributions to OPERS are effective with the first day of the employee's employment. Contributions made prior to the employee's plan selection are maintained in the Traditional Pension Plan and later transferred to the plan elected by the member, as appropriate.

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

#### **Plan Description**

All public employees, except those covered by another state retirement system in Ohio or the Cincinnati Retirement System, are required to become contributing members of OPERS when they begin public employment unless they are exempted or excluded as defined by the Ohio Revised Code. For actuarial purposes, employees who have earned sufficient service credit (60 contributing months) are entitled to a future benefit from OPERS. Employer, employee and retiree data as of December 31, 2019 can be found in the OPERS 2019 Comprehensive Annual Financial Report.

**Pension Benefits** – All benefits of the OPERS, and any benefit increases, are established by the legislature pursuant to Ohio Revised Code Chapter 145.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. Members who were eligible to retire under law in effect prior to SB 343 or will be eligible to retire no later than five years after January 7, 2013, comprise transition Group A. Members who have 20 years of service credit prior to January 7, 2013, or will be eligible to retire no later than 10 years after January 7, 2013, are included in transition Group B. Group C includes those members who are not in either of the other groups and members who were hired on or after January 7, 2013.

Age-and-Service Defined Benefits – Benefits in the Traditional Pension Plan are calculated on the basis of age, final average salary (FAS), and service credit. Members in transition Groups A and B are eligible for retirement benefits at age 60 with 60 contributing months of service credit or at age 55 with 35 or more years of service credit. Group C is eligible for retirement at age 57 with 25 years of service or at age 62 with 5 years of service. For Groups A and B, the annual benefit is based on 2.2% of final average salary multiplied by the actual years of service for the first 30 years of service credit and 2.5% for years of service in excess of 30 years. For Group C, the annual benefit applies a factor of 2.2% for the first 35 years and a factor of 2.5% for the years of service in excess of 35. FAS represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career. Refer to the age-and-service tables located in the OPERS 2014 CAFR Plan Statement for additional information regarding the requirements for reduced and unreduced benefits.

Members who retire before meeting the age and years of service credit requirement for unreduced benefit receive a percentage reduction in the benefit amount. The base amount of a member's pension benefit is locked in upon receipt of the initial benefit payment for calculation of annual cost-of-living adjustment.

Prior to 2000, payments to OPERS benefit recipients were limited under Section 415(b) of the Internal Revenue Code (IRC). OPERS entered into a Qualified Excess Benefit Arrangement (QEBA) with the Internal Revenue Service (IRS) to all OPERS benefit recipients to receive their full statutory benefit even when the benefit exceeds IRC 415(b) limitations. Monthly QEBA payments start when the total amount of benefits received by the recipients exceeds the IRC limit each year. The portion of the benefit in excess of the IRC 415(b) limit is paid out of the QEBA and taxed as employee payroll in accordance with IRS regulations.

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for members in transition Groups A and B applies a factor of 1.0% to the member's FAS for the first 30 years of service. A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the members' FAS for the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions.

<u>Defined Contribution Benefits</u> – Defined contribution plan benefits are established in the plan documents, which may be amended by the Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined Plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-Directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits.

The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employee contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. At retirement, members may select one of several distribution options for payment of the vested balance of their individual OPERS accounts. Options include the purchase of a monthly annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vest account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

<u>Disability Benefits</u> – OPERS administers two disability plans for participants in the Traditional Pension and Combined plans. Members in the plan as of July 29, 1992, could elect, by April 7, 1993, coverage under either the original plan or the revised plan. All members who entered OPERS after July 29, 1992, are automatically covered under the revised plan. Under the original plan, a member who becomes disabled before age 60 and has completed 60 contributing months is eligible for a disability benefit. Benefits are funded by the employee and employer contributions and terminate if the member is able to return to work.

The revised plan differs in that a member who becomes disabled at any age with 60 contributing months will be eligible for disability benefits until a determined age. The benefit is funded by reserves accumulated from employer contributions. After the disability benefit ends, the member may apply for a service retirement benefit or a refund of contributions, which are not reduced by the amount of disability benefits received. Members participating in the Member-Directed Plan are not eligible for disability benefits.

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

Survivor Benefits – Dependents of deceased members who participated in either the Traditional Pension Plan or the Combined Plan may quality for survivor benefits if the deceased employee had at least one and a half years of service credit with the plan, and at least one quarter year of credit within the two and one-half years prior to the date of death. Ohio Revised Code Chapter 145 specifies the dependents and the conditions under which they quality for survivor benefits. Other Benefits – Once a benefit recipient retiring under the Traditional Pension Plan has received benefits for 12 months, an annual 3% cost-of-living adjustment is provided on the member's base benefit. Members retiring under the Combined Plan receive a 3% cost-of-living adjustment on the defined benefit portion of their benefit. A death benefit of \$500-\$2,500, determined by the number of years of service credit of the retiree, is paid to the beneficiary of a deceased retiree or disability benefit recipient under the Traditional Pension Plan and Combed Plan. Death benefits are not available to beneficiaries of Member-Direct Plan participants.

Money Purchase Annuity - Age-and-service retirees who become re-employed in an OPERS-covered position must contribute the regular contribution rates, which are applied towards a money purchase annuity. The money purchase annuity calculation is based on the accumulated contributions of the retiree for the period of re-employment, and an amount of the employer contributions determined by the Board of Trustees. Upon termination of service, members over the age of 65 can elect to receive a lump-sum payout or a monthly annuity. Members under age 65 may leave the funds on deposit with OPERS to receive an annuity benefit at age 65 or may elect to receive a refund of their employee contributions made during the period of reemployment, plus interest.

<u>Refunds</u> – Members who have terminated service in OPERS-covered employment may file an application for refund of their account. The Ohio Revised Code requires a three-month waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's rights and benefits in OPERS.

Refunds processed for the Traditional Pension Plan members include the member's accumulated contributions, interest and any qualifying employer funds. A Combined Plan member's refund may consist of member contributions for the purchase of service plus interest, qualifying employer funds, and the value of their account in the defined contribution plan consisting of member contributions adjusted by the gains or losses incurred based on their investment selections. Refunds paid to members in the Member-Direct Plan include member contributions and vested employer contributions adjusted by the gains or losses incurred based on their investment selections.

<u>Contributions</u> – The OPERS funding policy provides for periodic employee and employer contributions to all three plans (Traditional Pension, Combined and Member-Directed) at rates established by the Board of Trustees, subject to limits set in statute. The rates established for member and employer contributions were approved based upon the recommendations of the OPERS external actuary. All contribution rates were within the limits authorized by the Ohio Revised Code. Member and employer contribution rates, as a percent of covered payroll, were the same for each covered group across all three plans for the year ended December 31, 2019.

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

Within the Traditional Pension Plan and Combined Plan, member and employer contributions (employer contributions only for the Combined Plan) and an actuarially determined rate of return are adequate to accumulate sufficient assets to pay defined benefits when due. Employee contributions within the Combined Plan are not used to fund the defined benefit retirement allowance. Employer contribution rates as a level percent of payroll dollars are determined using the entry age actuarial funding method.

This formula determines the amount of contributions necessary to fund: (1) the current service cost, representing the estimated amount necessary to pay for defined benefits earned by the employees during the current service year; and (2) the prior service cost for service earned prior to the current year and subsequent benefit increases. These contributions represent the amount necessary to fund accrued liabilities for retirement allowances and survivor benefits over a period of time.

The employee and employer contribution rates are currently set at the maximums authorized by Ohio Revised Code of 10% and 14%, respectively. Based upon the recommendation of the OPERS external actuary, a portion of each employer's contributions to OPERS is set aside for the funding of post-employment health care coverage. The portion of Traditional Pension Plan and Combined Plan employer contributions allocated to health care was 1.0% for fiscal year 2020. The employer contribution as a percent of covered payroll deposited to the VEBA for participants in the Member-Directed Plan for fiscal year 2020 was 4.5%. The amount of contributions recognized by the OPERS from the Authority during calendar year 2020 was \$229,329, which represented 100% of the Authority's required contribution, and the Authority's proportionate share of pension expense during the same period was \$229,329. The Authority did not make any contributions to the Combined Plan during calendar year 2020.

Ohio Revised Code Chapter 145 assigned authority to the Board of Trustees to amend the funding policy. As of December 31, 2019, the Board of Trustees adopted the contribution rates that were recommended by the external actuary. The contribution rates were included in a new funding policy adopted by the Board of Trustees in October 2013 and are certified biennially by the Board of Trustees as required by the Ohio Revised Code.

As of December 31, 2019, the date of the last actuarial study, the funding period for all defined benefits of the OPERS was 21 years.

#### **Net Pension Liability**

The net pension liability was measured as of December 31, 2019, and the total pension liabilities were determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on both member and employer contributions to OPERS relative to the projected contributions of all participating entities. Following is information related to the proportionate share and pension expense:

#### Traditional Plan:

Proportionate Share of the Net Pension Liability	\$1,896,912
Proportion of the Net Pension Liability	0.0095970%
Pension Expense	\$ 310,177

# NOTE 5: <u>DEFINED BENEFIT PENSION PLAN</u> (continued)

Combined Plan:

Proportionate Share of the Net Pension Liability \$ (601)
Proportion of the Net Pension Liability 0.0002880%
Pension Expense \$ 69

#### **Actuarial Methods and Assumptions**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requires of GASB 67. Key methods and assumptions used in the latest actuarial valuations are presented below:

Actuarial Information	Traditional Pension Plan	Combined Plan
Valuation Date	December 31, 2019	December 31, 2019
Experience Study	5 Year Period Ending December 31, 2015	5 Year Period Ending December 31, 2015
Actuarial Cost Method	Individual entry age	Individual entry age
Actuarial Assumptions: Investment Rate of Return Wage Inflation	7.20% 3.25%	7.20% 3.25%
Projected Salary Increases	3.25-10.75% (includes wage inflation at 3.25%)	3.25–8.25% (includes wage inflation at 3.25%)
Cost-of-living Adjustments	3.00% Simple	3.00% Simple

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

#### **Actuarial Methods and Assumptions** (continued)

Mortality rates are based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The discount rate used to measure the total pension liability was 7.2%, post-experience study results, for the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of Net Pension Liability to Changes in the Discount Rate</u> - The following table presents the net pension liability calculated using the discount rate of 7.2% and the expected net pension liability if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

	Current		
	1% Decrease (6.20%)	Discount Rate (7.20%)	1% Increase (8.20%)
Authority's proportio	nate share of the net p	ension liability/(assets)	
Traditional Plan Contribution Plan	\$ 3,128,622 \$ ( 36)	\$ 1,896,912 \$ (601)	\$ 789,641 \$ (772)

# NOTE 5: **DEFINED BENEFIT PENSION PLAN** (continued)

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The following table displays the Board of Trustees approved asset allocation policy for 2019 and the long-term expected real rates of return.

Asset Class	Allocation	Real Rate of Return
Fixed Income	25.00%	1.83%
Domestic Equities	19.00%	5.75%
Real Estate	10.00%	5.20%
Private Equity	12.00%	10.70%
International Equities	21.00%	7.66%
Other Investments	<u>13.00%</u>	4.98%
Total	100.00%	5.61%

The long-term expected rate of return on defined benefit investment assets was determined using a building block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan, and the VEBA Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money-weighted rate of return, net of investment expense, for the Defined Benefit portfolio was .4% for 2018.

#### **Average Remaining Service Life**

GASB 68 requires that changes arising from differences between expected and actual experience or from changes in actuarial assumptions be recognized in pension expense over the average remaining service life of all employees provided with benefits through the pension plan (active and inactive). This is to consider these differences on a pooled basis, rather than an individual basis, to reflect the expected remaining service life of the entire pool of employees with the understanding that inactive employees have no remaining service period. As of December 31, 2019, the average of the expected remaining service lives of all employees calculated by our external actuaries for the Traditional Pension Plan was 2.55555 years and for the Combined Plan was 8.8010 years.

# NOTE 5: <u>DEFINED BENEFIT PENSION PLAN</u> (continued)

#### **Deferred Inflows and Deferred Outflows**

The deferred inflows and outflows reported in the Statement of Net Position do not include the layer of amortization that is recognized in current year pension expense and represents the balances of deferred amounts as of December 31, 2019. The table below discloses the original amounts of the deferred inflows and outflows, calculated by OPERS external actuaries, and the current year amortization on those amounts included in pension expense as of and for the year ended December 31, 2019.

At December 31, 2020, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### Traditional Plan:

Deferred Outflows of Resources Changes in Assumptions Total Deferred Outflows of Resources	\$101,317 \$101,317
Deferred Inflows of Resources  Net difference between projected and actual earnings  on paging plan investments	\$279.201
on pension plan investments Differences between expected and actual experience Total Deferred Inflows of Resources	\$378,391 23,984 \$402,375
Combined Plan:	
Deferred Outflows of Resources	
Changes in Assumptions	<u>\$ 62</u>
Total Deferred Outflows of Resources	<u>\$ 62</u>
Deferred Inflows of Resources	
Net difference between projected and actual earnings	
on pension plan investments	\$ 78
Differences between expected and actual experience	<u>141</u>
Total Deferred Inflows of Resources	<u>\$ 219</u>

Amounts reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date is recognized as a reduction of the net pension liability in the Authority's financial statements. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as disclosed in the table below:

### NOTE 5: **<u>DEFINED BENEFIT PENSION PLAN</u>** (continued)

	Traditional Pension	Combined Plan
	Plan Net Deferred	Net Deferred
	Outflows of	Inflows of
Calendar Year Ending December 31	Resources	Resources
2020	\$ 442,751	\$13,287
2021	122,205	3,667
2022	( 15,669)	(470)
2023	150,246	4,509
2024	-	-
Thereafter	<del>_</del>	<u>-</u>
Total	\$ 699,533	<u>\$20,993</u>

### NOTE 6 OTHER POST-EMPLOYMENT BENEFITS

**Net OPEB Liability** 

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees - of salaries and benefits for employee services. OPEB are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the Authority's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the Authority's obligation for this liability to annually required payments. The Authority cannot control benefit terms or the manner in which OPEB are financed; however, the Authority does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in accounts payable on both the accrual and modified accrual bases of accounting.

### NOTE 6: OTHER POST-EMPLOYMENT BENEFITS – CONTINUED

Plan Description - OPERS

Health Care Plan Description - The Ohio Public Employees Retirement System (OPERS. OPERS administers three separate plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit plan. The member directed plan is a defined contribution plan and the combined plan is a cost sharing, multiple-employer defined benefit plan with defined contribution features. As of December 2019, OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to initially provide a funding mechanism for a health reimbursement arrangement (HRA), as the prior trust structure could not support the HRA. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate health care assets into the 115 Trust. The 401(h) Health Care Trust (401(h) Trust) was a pre-funded trust that provided health care funding for eligible members of the Traditional Pension Plan and the Combined Plan through December 31, 2015, when plans funded through the 401(h) Trust were terminated. The Voluntary Employees' Beneficiary Association Trust (VEBA Trust) accumulated funding for retiree medical accounts for participants in the Member-Directed Plan through June 30, 2016. The 401(h) Trust and the VEBA Trust were closed as of June 30, 2016 and the net positions transferred to the 115Ttrust on July 1, 2016. Beginning in 2016, the 115 Trust, established under Internal Revenue Code (IRC) Section 115, is the funding vehicle for all health care plans.

The OPERS health care plans are reported as other post-employment benefit plans (OPEB) based on the criteria established by the Governmental Accounting Standards Board (GASB). Periodically, OPERS modifies the health care program design to improve the ongoing solvency of the plans. Eligibility requirements for access to the OPERS health care options have changed over the history of the program for Traditional Pension Plan and Combined Plan members. Prior to January 1, 2015, 10 or more years of service were required to qualify for health care coverage.

Beginning January 1, 2015, generally, members must be at least age 60 with 20 years of qualifying service credit to qualify for health care coverage or 30 years of qualifying service at any age. Beginning 2016, Traditional Pension Plan and Combined Plan retirees enrolled in Medicare A and B were eligible to participate in the OPERS Medicare Connector (Connector). The Connector, a vendor selected by OPERS, assists eligible retirees in the selection and purchase of Medicare supplemental coverage through the Medicare market. Retirees that purchase supplemental coverage through the Connector may receive a monthly allowance in their HRA that can be used to reimburse eligible health care expenses.

The Ohio Revised Code permits, but does not require, OPERS to provide OPEB benefits to its eligible benefit recipients. Authority to establish and amend health care coverage is provided in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#CAFR, by writing OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 1-800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Employer contribution rates are expressed as a percentage of the earnable salary of active members. In fiscal year 2020, Authority contributed at a rate of 14 percent of earnable salary.

### NOTE 6: **OTHER POST-EMPLOYMENT BENEFITS** – CONTINUED

The Ohio Revised Code currently limits the employer contribution rate not to exceed 14 percent of covered payroll. Active member contributions do not fund health care. With the assistance of the System's actuary and Board approval, a portion of each employer contribution to OPERS may be set aside for the funding of post-employment health care coverage.

The portion of employer contributions allocated to healthcare was 1.0% for calendar year 2019. As recommended by OPERSs actuary, the portion of employer contributions allocated to healthcare beginning January 1, 2020 decrease to 0%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

Authority's contractually required contribution was \$229,329 for the calendar year 2020.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.

The net OPEB liability for OPERS was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net OPEB liability was based on The Authority's share of contributions to the retirement system relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Proportionate Share of the Net OPEB Liability	\$	37,018
Proportion of the Net OPEB Liability	0.0	026800%
OPEB Expense	\$	4,197

At December 31, 2020, The Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

### **Deferred Inflows of Resources**

Net difference between projected and actual earnings		
on pension plan investments	\$	1,885
Differences between expected and actual experience		3,385
Total Deferred Inflows of Resources	<u>\$</u>	5,270

## Deferred Outflows of Resources Changes in assumptions Spifferences between expected and actual experience

Differences between expected and actual experience

Total Deferred Outflows of Resources

\$ 5,861

5,860

### NOTE 6: OTHER POST-EMPLOYMENT BENEFITS – CONTINUED

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Calendar Year Ending December 31	Traditional Pension Plan Net Deferred Inflows/(Outflows) of Resources
2020	\$(949)
2021	(445)
2022	(2)
2023	805
Thereafter	0
Total	<u>\$ (591)</u>

**Actuarial Assumptions - OPERS** 

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of costs between the System and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all periods included in the measurement:

Wage Inflation	3.25%
Future Salary Increases, including inflation	3.25% 3.25 - 10.75%
Single Discount Rate	3.16%
Investment Rate of Return	6.50%
Municipal Bond Rate	2.75%
Health Care Cost Trend Rate	10.5% initial, 3.50% ultimate in 2030
Actuarial Cost Method	Individual entry age

### NOTE 6: **OTHER POST-EMPLOYMENT BENEFITS** – CONTINUED

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively.

Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively.

Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit.

The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

		Weighted Average
		Long-Term
		Expected Real Rate
Asset Class	Target Allocation	of Return
Fixed Income	36.00%	1.53%
Domestic Equities	21.00%	5.75%
REITs	6.00%	5.69%
International Equities	23.00%	7.66%
Other Investments	<u>14.00%</u>	4.90%
TOTAL	<u>100.00%</u>	4.55%

Discount Rate: The single discount rate used to measure the OPEB liability was 3.16 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This discount rate was based on an expected rate of return on the health care investment portfolio of 6.50% and a municipal bond rate of 3.31%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

### NOTE 6: OTHER POST-EMPLOYMENT BENEFITS – CONTINUED

Sensitivity of Authority's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate:

The following table presents the Authority's proportionate share of the net OPEB liability calculated using the current period discount rate assumption of 3.16 percent, as well as what The Authority's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16 percent) or one percentage-point higher (4.16 percent) than the current rate:

	10/ Dannaga	Single Discount Rate	10/ Тигинг
	1% Decrease (2.16%)	(3.16%)	1% Increase (4.16%)
	(2010)	(3012073)	
Authority's proportionate sh			
of the net OPEB liability	\$ 48,444	\$ 37,018	\$ 27,869

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability.

The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate. Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50%.

If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries' project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25% in the most recent valuation.

1	% Decrease (6.50%)	Current Cost Trend Rate (10.50%)	1% Increase (8.50%)
Authority's proportionate share of the net OPEB liability	\$ 35,925	\$ 37,018	\$ 38,096

### NOTE 6: OTHER POST-EMPLOYMENT BENEFITS – CONTINUED

### **Average Remaining Service Life**

GASB 75 requires that changes arising from differences between expected and actual experience or from changes in actuarial assumptions be recognized in OPEB expense over the average remaining service life of all employees provided with coverage through the health care plans (active and inactive). This is to consider these differences on a pooled basis, rather than an individual basis, to reflect the expected remaining service life of the entire pool of employees with the understanding that inactive employees have no remaining service period. As of December 31, 2019, the average of the expected remaining service lives of all employees calculated by our external actuaries was 2.6884 years. Employers should use this amount when calculating elements of OPEB expense subject to amortization requirements as defined in GASB 75 and reported in the Schedule of Collective OPEB Amounts.

### NOTE 7: **COMPENSATED ABSENCES**

Vacation and sick leave policies are established by the Board of Directors based on local and state laws.

All full-time employees earn 5.0 hours sick leave per pay period. Unused sick leave may be accumulated up to a total of 130 hours per year. There is no maximum on the total accumulation of sick time hours; however, only employees with 10 years or more of service will be paid for accumulated sick leave upon voluntary separation, up to a maximum of 25 percent of accumulated sick leave hours, not to exceed payment for 240 hours.

All full-time non contract employees will earn vacation hours accumulated based on length of service. All vacation time accumulated will be paid upon separation.

At December 31, 2020, based on the vesting method, \$135,715 was accrued by the Authority for unused vacation and sick time.

### NOTE 8: **INSURANCE**

The Authority is covered for property damage, general liability, automobile liability, law enforcement liability, public officials liability and other crime liabilities through membership in the State Housing Authority Risk Pool Association, Inc. (SHARP). SHARP is an insurance risk pool comprised of thirty-nine (39) Ohio housing authorities, of which Portage is one. Deductibles and coverage limits are summarized below:

Type of Coverage	Deductible	Coverage Limits
Property	\$ 1,500	\$ 53,778,200
		(per occurrence)
Boiler and Machinery	1,000	50,000,000
General Liability	0	6,000,000
Automobile Physical Damage/Liability	500/0	ACV/6,000,000
Public Officials	0	6,000,000

Additionally, Workers' Compensation insurance is maintained through the State of Ohio Bureau of Workers' Compensation, in which rates are calculated retrospectively. The Authority is also fully insured through a premium payment plan with SummaCare for employee health care benefits. Settled claims have not exceeded the Authority's insurance in any of the past three years.

### NOTE 9: **CONTINGENCIES AND OTHER COMMITMENTS**

### **Litigation and Claims**

In the normal course of operations, the Authority may be subject to litigation and claims. At December 31, 2020, the Authority was involved in no matters which management believes would have a material effect on the financial statements. In addition, the Authority had no material operating lease commitments or construction commitments at December 31, 2020.

### NOTE 10: **RESTRICTED NET POSITION**

Portage Metropolitan Housing Authority reported Restricted Net Position from the sale of Public Housing property in the amount of \$211,533 and \$52,090 for VASH as of December 31, 2020.

### NOTE 11: LONG-TERM LIABILITIES

The following is a summary of long-term liabilities at December 31, 2020:

	Balance			Balance	Due Within
	at 12/31/19	<u>Additions</u>	<u>Deletions</u>	at 12/31/20	One Year
Compensated Absences	\$ 141,680	\$ 24,042	\$( 30,007)	\$ 135,715	\$ 90,517
Net OPEB Liability	33,767	\$ 3,251	\$ 0	\$ 37,018	\$ 0
Net Pension Liability	\$2,673,303	<u>\$</u>	<u>\$(776.992)</u>	\$1,896,311	<u>\$</u>
Total	\$2,848,750	\$ 27,293	\$(806,999)	\$2,069,044	\$ 90,517

See Notes 5 and 6 for information on the Authority's net pension liability.

### NOTE 12: SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") presents the activity of all federal financial assistance programs of the Portage Metropolitan Housing Authority (the Authority) for the year ended December 31, 2020. The Authority's reporting entity is defined in Note 1 to the Authority's financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principals contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The Authority has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

### NOTE 13: **OPERATING TRANSFERS**

The Authority had the following operating transfers in 2020:

	<u>Transfer From</u>	<u>Transfer To</u>		
Moving to Work Demonstration		\$ 547,870		
COCC	\$ 26,000	\$ 30,000		
Business Activities	\$ 37,870			
Public Housing	\$ 2,580,568	\$ 2,066,568		
Total	<u>\$ 2,644,438</u>	<u>\$ 2,644,438</u>		

### NOTE 14: SUBSEQUENT EVENTS

Generally accepted accounting principles define subsequent events as events or transactions that occur after the statement of financial position date, but before the financial statements as issued or are available to be issued. Management has evaluated subsequent events through May 5, 2021, the date on which the financial statements were available to be issued and concluded that no subsequent events have occurred that would require recognition in the Financial Statements; however the following subsequent event has occurred, which required disclosure in the in the Notes to the Financial Statements.

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the Portage Metropolitan Housing Authority. The Portage Metropolitan Housing Authority's investments of the pension and other employee benefit plan in which the Portage Metropolitan Housing Authority participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the Portage Metropolitan Housing Authority's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

# PORTAGE METROPOLITAN HOUSING AUTHORITY RAVENNA, OHIO NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE CALENDAR YEAR ENDED DECEMBER 31, 2020 (UNAUDITED)

### **Ohio Public Employees' Retirement System**

Information about factors that significantly affect trends in the amounts reported in the schedules should be presented as notes to the schedule.

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for calendar years presented.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for the calendar years presented. The experience study incorporates both a historical review and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. See the notes to the basic financial statements for the methods and assumptions in this calculation.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Trustees Portage Metropolitan Housing Authority Ravenna, Ohio 44266

I have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of Portage Metropolitan Housing Authority, Portage County, Ohio as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued my report thereon dated May 5, 2021.

### Internal Control Over Financial Reporting

As part of my financial statement audit, I considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support my opinion(s) on the financial statements, but not to the extent necessary to opine on the effectiveness of the Authority's internal control. Accordingly, I have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Authority's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, I did not identify any deficiencies in internal control that I consider material weaknesses. However, unidentified material weaknesses may exist.

### Compliance and Other Matters

As part of reasonably assuring whether the Authority's financial statements are free of material misstatement, I tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of my audit and accordingly, I do not express an opinion. The results of my tests disclosed no instances of noncompliance or other matters I must report under *Government Auditing Standards*.

I noted certain matters that I reported to management of the Portage Metropolitan Housing Authority's in a separate letter dated May 5, 2021.

### Purpose of this Report

This report only describes the scope of my internal control and compliance testing and my testing results and does not opine on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees Portage Metropolitan Housing Authority Ravenna, Ohio 44266

### Report on Compliance for Each Major Federal Program

I have audited Portage Metropolitan Housing Authority's (the Authority) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of Portage Metropolitan Housing Authority's major federal programs for the Year Ended December 31, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Authority's major federal programs.

### Management's Responsibility

The Authority's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

My responsibility is to opine on the Authority's compliance for each of the Authority's major federal programs based on my audit of the applicable compliance requirements referred to above. My compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe my audit provides a reasonable basis for my compliance opinion on each of the Authority's major programs. However, my audit does not provide a legal determination of the Authority's compliance.

### Opinion on each Major Federal Program

In my opinion, Portage Metropolitan Housing Authority complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs For the Year Ended December 31, 2020.

### Report on Internal Control Over Compliance

The Authority's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing my compliance audit, I considered the Authority's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine my auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, I have not opined on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of my internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
