## INDEPENDENT AUDITOR'S REPORT

South Point Local School District Lawrence County 302 High Street South Point, Ohio 45680

To the Board of Education:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South Point Local School District, Lawrence County, Ohio (the School District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

South Point Local School District Lawrence County Independent Auditor's Report Page 2

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the South Point Local School District, Lawrence County, Ohio, as of June 30, 2020, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As discussed in Note 3 to the financial statements, during 2020, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Also, as discussed in Note 22 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. We did not modify our opinion regarding this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

South Point Local School District Lawrence County Independent Auditor's Report Page 3

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2021, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio May 6, 2021

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

The discussion and analysis of the South Point Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

## FINANCIAL HIGHLIGHTS

## Key financial highlights for fiscal year 2020 are as follows:

- Net Position of governmental activities decreased \$2,707,074.
- General revenues accounted for \$17,468,614 in revenue or 81.9 percent of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$3,869,143 or 18.1 percent of total revenues of \$21,337,757.
- The School District had \$24,044,831 in expenses related to governmental activities; only \$3,869,143 of these expenses were offset by program specific charges for services and sales, grants and contributions. General revenues (primarily taxes and intergovernmental) of \$17,468,614 were not adequate to cover the remaining expenses.
- Total governmental funds had \$21,281,984 in revenues and \$22,422,509 in expenditures. The total governmental fund balance decreased \$1,140,525.

## USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the South Point Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column.

### Reporting the School District as a Whole

### Statement of Net Position and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities for students, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets, liabilities, and deferred inflows and outflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

These two statements report the School District's Net Position and changes in that position. This change in Net Position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, all of the School District's activities are reported as governmental including instruction, support services, operation of non-instructional services, debt service, and extracurricular activities.

### Reporting the School District's Most Significant Funds

#### Fund Financial Statements

The analysis of the School District's major funds begins on page 11. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multiple of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund and the Bond Retirement Fund.

*Governmental Funds* All of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's Net Position for 2020 compared to 2019.

Total Net Position         \$22,063,734         \$24,770,808         (\$2,707,074)	Total Net Position	\$22,063,734	\$24,770,808	(\$2,707,074)

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Total assets of governmental activities decreased \$1,811,242, which was primarily due to a decrease in capital assets of \$1,299,917, resulting largely from depreciation, as well as a decrease in cash and cash equivalents in the amount of \$1,303,424. These decreases were partially offset by an increase in property taxes receivable in the amount of \$703,348.

In total, liabilities increased by \$134,120. This increase is primarily due to an increase in the net pension liability. This increase was partially offset by a decrease in the net OPEB liability as well as a decrease in other amounts due in more than one year due to the repayment of debt.

Table 2 shows the changes in Net Position for the fiscal year ended June 30, 2020, and comparisons to fiscal year 2019.

Net Position at End of Year	\$22,063,734	\$24,770,808	(\$2,707,074)

The largest component of the increase in program expenses results from changes in benefit terms related to OPEB in the prior year. For the prior year, STRS adopted certain changes in benefit terms. As a result of these changes, OPEB expense for STRS increased from a negative \$2,293,283 in fiscal year 2019 to a negative OPEB expense of \$346,384 for fiscal year 2020.

Property taxes made up approximately 23.7 percent of revenues for governmental activities for the South Point Local School District. Of the remaining revenues, the School District receives 73.9 percent from state foundation, federal, and state grants; 1.9 percent from charges for services and sales; and 0.5 percent from investment earnings and miscellaneous.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. As the result of legislation enacted in 1976, the overall revenue generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increases in value is comparable to other property owners) the effective tax rate would become 0.5 mills and the owner would still pay \$35.00. This legislation helps explain the relatively sizable increase in the District's taxable value accompanied by the relatively small increase in tax revenue. Additionally, increases in property taxes would only have a nominal effect upon the School District's total revenue. This is due to the funding formula in place in Ohio, any increase in property tax revenue would be offset by a corresponding decrease in state funding the School District would receive.

Approximately 64.1 percent of the School District's budget for expenses is used to fund instructional expenses. Support services make up 29.7 percent of expenses and 6.2 percent is used for interest and fiscal charges, extracurricular activities, and food service operations.

The Statement of Activities shows the cost of program services and the charges for services, grants, contributions, and interest earnings offsetting those services. Table 3 shows the total cost of services and the net cost of services. In other words, it identifies the cost of those services supported by tax revenue and unrestricted State entitlements.

Operation of Non-Instructional Services	:				
Food Service Operations	800,417	206,827	817,199	128,083	
Extracurricular Activities	414,408	284,767	418,013	292,418	
Interest and Fiscal Charges	275,364	275,364	393,052	393,052	
Totals	\$24,044,831	\$20,175,688	\$20,728,344	\$17,147,141	

The dependence upon tax revenues and state subsidies for governmental activities is apparent. 83.9 percent of total expenses are supported through taxes and other general revenues.

#### THE SCHOOL DISTRICT FUNDS

The School District has two major funds: the General Fund and the Bond Retirement Fund. All governmental funds had total revenues of \$21,281,984 and expenditures of \$22,422,509.

The fund balance of the General Fund decreased \$1,120,717 due to increases in overall expenses. The General Fund's unassigned fund balance of \$1,773,433 represented 9.4 percent of current year expenditures. The Bond Retirement Fund's balance decreased \$30,292 due to expenses relating to long-term liabilities exceeding revenues from property taxes and homestead and rollback.

#### General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal 2020, the School District amended both estimated revenues and appropriations for the General Fund. The School District uses a modified site-based budgeting technique which is designed to tightly control total site budgets but provide flexibility for site management.

For the General Fund, the final estimated revenues were \$17,674,558, which represented a 9.1 percent increase from original estimates of \$16,195,395. The final estimated expenditures of \$19,082,052 represented a 4.7 percent increase from the original estimates of \$18,185,701.

The School District's ending unobligated General Fund balance was \$4,605,260.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

At the end of fiscal year 2020, the School District had \$42,507,183 invested in capital assets. Table 4 shows fiscal year 2020 balances compared to 2019.

Table 4 Capital Assets at June 30 (Net of Depreciation)					
2020 2019

For additional information on capital assets, see Note 10 to the basic financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

## Debt

The School District has two bonds and two capital leases outstanding. Table 5 shows fiscal year 2020 balances compared to 2019.

	2020	2019
2013 Refunding Bonds:		
Serial 1.75% - 2.625%	\$2,540,000	\$2,540,000
Term 3.00% - 3.25%	4,485,000	4,485,000
Capital Appreciation Bonds	0	44,007
CAB Premium	575,958	628,318
Accretion on Capital Appreciation Bonds	0	364,280
Capital Leases	81,394	217,775
Totals	\$7,682,352	\$8,279,380

For additional information on debt, see Notes 15 and 21 to the basic financial statements.

### **CURRENT ISSUES**

The financial future of the School District is not without its challenges. These challenges are external and internal in nature. The internal challenges will continue to exist, as the School District must rely heavily on local property taxes.

Externally, the School District is largely dependent on State funding sources (approximately 73.9 percent of the School District's operating funds come from State foundation payments and other entitlements). State foundation revenue is fundamentally a function of student enrollment and a district's property tax wealth.

As the preceding information shows, the School District continues to depend upon its taxpayers. Although South Point Local School District has attempted to keep spending in line with revenues, and carefully watched financial planning, it must improve its revenue to expense ratios if the School District hopes to remain on firm financial footing.

**COVID-19** - The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. The School District's investment portfolio and the investments of the pension and other employee benefit plan in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

### CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional information, contact Tresa Baker, Treasurer at South Point Local School District, 302 High Street, South Point, Ohio 45680.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities

June 30, 2020

Total Governmental Fund Balances		\$6,554,539
Amounts reported for governmental activities in the statement of net position are different because		
Capital Assets used in governmental activities are not financial resources and therefore are not reported in the funds.		42,507,183
Other long-term assets are not available to pay for current-period		12,507,105
expenditures and therefore are not reported in the funds:		
Delinquent Property Taxes	474,865	
Intergovernmental Revenues	99,190	
Tuition and Fees	12,552	
Miscellaneous	6,666	593,273
Deferred Outflows of Resources represent deferred charges on		
refunding which do not provide current financial resources and		
therefore are not reported in the funds.		568,367
incretore are not reported in the funds.		500,507
The net pension liability and net OPEB liability/asset is not due and		
payable in the current period; therefore, the liability/asset and related		
deferred inflows/outflows are not reported in the governmental funds:		
Deferred Outflows - Pension	4,016,117	
Deferred Inflows - Pension	(1,135,030)	
Net Pension Liability	(19,255,817)	
Deferred Outflows - OPEB	404,978	
Deferred Inflows - OPEB	(1,937,314)	
Net OPEB Asset	1,122,901	
Net OPEB Liability	(1,791,652)	(18,575,817)
Long-term liabilities are not due and payable in the current period		
and therefore are not reported in the funds:		
Refunding Bonds Payable	(7,600,958)	
Accrued Interest Payable	(16,636)	
Capital Leases Payable	(81,394)	
Compensated Absences Payable	(1,884,823)	(9,583,811)
Net Position of Governmental Activities		\$22,063,734
	=

Fund Balances at End of Year	\$4,531,708	\$1,479,348	\$543,483	\$6,554,539

#### Net Change in Fund Balances - Total Governmental Funds (\$1,140,525) Amounts reported for governmental activities in the statement of activities are different because Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays: Capital Asset Additions 216,311 **Depreciation Expense** (1,516,228)(1,299,917)Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds: 74.604 Delinquent Taxes Intergovernmental Revenues 10.180 Tuition and Fees 1,582 Miscellaneous (30, 593)55,773 Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Capital Appreciation Bonds 44,007 CAB Accretion 435,993 Capital Leases 136,381 616,381 Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of net position. Premiums are reported as revenues when the debt is first issued; however, these amounts are deferred and amortized on the statement of activities: Capital Appreciation Bond Premium 52,360 Amortization of Deferred Amount on Refunding (51, 669)Annual Accretion (71,713) (71,022)Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of net position reports these amounts as deferred outflows. Pension 1,529,638 OPEB 33,924 1,563,562 Except for amounts reported as deferred inflows/outflows, changes in the net pension and OPEB liabilities/asset are reported as pension and OPEB expense in the statement of activities. Pension (2,703,618)**OPEB** 306,222 (2,397,396)Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds: **Compensated Absences Payable** (33, 930)Change in Net Position of Governmental Activities (\$2,707,074)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

#### Note 1 - Description of the School District and Reporting Entity

South Point Local School District (the School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as authorized by State statute and federal guidelines. This Board of Education controls the School District's four instructional/support facilities staffed by 82 classified employees and 124 certified teaching and administrative personnel who provide services to 1,504 students and other community members.

### **Reporting Entity**

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For South Point Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefit to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District participates in the Metropolitan Educational Technology Association, the Collins Career Center, and the Educational Regional Service System Region 15, which are defined as jointly governed organizations, and the Ohio School Plan, the Lawrence County Schools Council of Governments Health Benefits Program, and the Ohio School Boards Association Workers' Compensation Group Rating Program, which are defined as insurance purchasing pools. These organizations are presented in Notes 17 and 18.

### **Note 2 - Summary of Significant Accounting Policies**

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

#### A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

*Government-wide Financial Statements* The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for the fiduciary funds. The School District has no fiduciary funds. The statements usually distinguish between those activities that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program; grants and contributions that are restricted to meeting the operational or capital requirements of a particular program; and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

*Fund Financial Statements* During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

### **B.** Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The School District utilizes governmental funds.

*Governmental Funds* Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

*General Fund* The General Fund accounts for and reports all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

District for any purpose, provided it is expended and transferred according to the general laws of Ohio.

*Bond Retirement Fund* The Bond Retirement Fund accounts for tax revenues collected to repay outstanding general obligation bonds.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

### C. Measurement Focus

*Government-wide Financial Statements* The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets, liabilities, and deferred inflows and outflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities accounts for increases (revenues) and decreases (expenses) in total net position.

*Fund Financial Statements* All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and certain deferred inflows and outflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes and grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, fees, and rentals.

**Deferred Outflows/Inflows of Resources** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB plans, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the School District, unavailable revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balance to Net Position of Governmental Activities found on page 15. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 12 and 13).

*Expenses/Expenditures* On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

### E. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2020, investments included non-negotiable certificates of deposit, which are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2020 amounted to \$26,880, which includes \$9,153 assigned from other School District funds.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented as cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

### F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which the services are consumed.

### G. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories consist of expendable supplies held for consumption and donated and purchased food.

### H. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. The School District was able to estimate the historical cost for the initial reporting of certain assets by back trending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Description	Estimated Lives
Land Improvements	20 years
Buildings and Improvements	20-50 years
Furniture, Fixtures, and	
Equipment	5-20 years
Vehicles	8 years

### I. Internal Activity

Transfers within governmental activities are eliminated on the government-wide statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Payments for interfund services provided and used aren't eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

### J. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments or imposed by law through constitutional provisions or enabling legislation. Restricted assets include unexpended revenues restricted for capital improvements, school bus purchases, and for unclaimed monies.

### K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. A liability is recorded for vacation eligible employees after one year of service with the School District. Employees may carry over unused vacation balances based on years of service with the School District.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for employees with fifteen or more years of current service with the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

The entire compensated absences liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each person upon the occurrence of employee resignations and retirements. These amounts are recorded in the accounts "matured compensated absences payable" in the funds from which these payments will be made.

### L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital leases are recognized as a liability on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

## M. Bond Premiums

On government-wide financial statement, bond premiums are deferred and amortized over the term of the bonds using the effective interest method. Bond premiums are presented as an increase of the face amount of the bonds payable. On the governmental fund statements, bond premiums are recorded in the year the bonds are issued. Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

## N. Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

## **O.** Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

<u>Nonspendable</u> The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

**<u>Restricted</u>** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or it is imposed by law through constitutional provisions.

<u>Committed</u> The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements.

<u>Assigned</u> Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution or by State Statute. State statute authorizes the School District's Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The School District's Board of Education assigned fund balance to cover a gap between estimated revenue and appropriations in fiscal year 2021's appropriated budget.

<u>Unassigned</u> Unassigned fund balance is the residual classification for the General Fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report deficit balances.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first, followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which the amounts in any of the unrestricted fund balance classifications can be used.

## P. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

### Q. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

### R. Net Position

Net Position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

### S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The School District did not recognize any extraordinary or special items during the fiscal year.

### T. Budgetary Process

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate appropriations to the function and object levels.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts in the amended certificate in effect when final appropriations for the fiscal year were passed.

The appropriation resolution is subject to amendment throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

### Note 3 - Changes in Accounting Principles and Restatement of Fund Balances and Net Position

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The School District evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

For fiscal year 2020, the School District implemented GASB Statement No. 84, *Fiduciary Activities*, and related guidance from (GASB) Implementation Guide No. 2019-2, *Fiduciary Activities*.

For fiscal year 2020, the School District also implemented the Governmental Accounting Standards Board's (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the School District's 2020 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency funds and certain funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the School District's financial statements.

#### **Restatement of Fund Balances and Net Position**

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2019:

	Governmental Funds			
	Bond			
	General	Retirement	Non Major	Total
Fund Balances, June 30, 2019	\$5,652,425	\$1,509,640	\$492,369	\$7,654,434
Adjustments:				
GASB 84	0	0	40,630	40,630
Restated Fund Balances, June 30, 2019	\$5,652,425	\$1,509,640	\$532,999	\$7,695,064

The implementation of GASB Statement No. 84 had the following effect on net position as of June 30, 2019:

	Governmental
	Activities
Net Position June 30, 2019	\$24,730,178
Adjustments:	
GASB 84	40,630
Restated Net Position June 30, 2019	\$24,770,808

The implementation of GASB Statement No. 84 had the following effect on net position as of June 30, 2019:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

	Agency
Net Position June 30, 2019	\$0
Adjustments:	
Assets	(40,630)
Liabilities	40,630
Restated Net Position June 30, 2019	\$0

#### Note 4 - Fund Deficits

The following funds had deficit fund balances as of June 30, 2020:

	Deficit
Special Revenue Funds:	
Food Service	\$49,278
Title I	61,948
Miscellaneous Federal Grants	8,260

These deficits resulted from payables recorded in accordance with Generally Accepted Accounting Principles. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

### **Note 5 - Budgetary Basis of Accounting**

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis) for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP (modified accrual) basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than committed or assigned fund balance (GAAP basis).
- 4. Prepaid items and unreported cash are reported on the balance sheet (GAAP basis), but not on the cash basis.
- 5. Advances are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

6. Certain funds are accounted for as separate funds internally with legally adopted budgets (budget basis) that do not meet the definition of special revenue funds under GASB Statement No. 54 and were reported with the General Fund (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance			
GAAP Basis	(\$1,120,717)		
Revenue Accruals	(238,433)		
Expenditure Accruals	34,796		
Prepaid Items:			
Beginning of Year	113,357		
End of Year	(106,997)		
Unreported Cash:			
End of Year	(8,437)		
Advances In	114		
Advances Out	(69,048)		
To reclassify excess of revenues and other sources of			
financial resources over expenditures and other uses			
of financial resources into financial statement fund types	87,030		
Encumbrances	(331,977)		
Budget Basis	(\$1,640,312)		

### Note 6 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active deposits are public deposits determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Interim monies held by the School District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio); and
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

### Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2020, \$2,071,823 of the School District's total Certificates of Deposit balance of \$2,321,823 was exposed to custodial credit risk because those deposits were uninsured and collateralized with securities held by the pledging financial institution.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

### **Note 7 - Property Taxes**

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Public utility real personal property taxes received in calendar year 2020 became a lien December 31, 2018, were levied after April 1, 2019, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Lawrence County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Accrued property taxes receivable includes real property and public utility property taxes which were measurable as of June 30, 2020, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reflected as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources - property taxes.

The amount available as an advance for June 30, 2020, was \$619,357 in the General Fund, \$84,997 in the Bond Retirement Debt Service Fund, and \$10,649 in the Classroom Facilities Maintenance Special Revenue Fund. The amount available as an advance June 30, 2019, was \$387,539 in the General Fund, \$52,723 in the Bond Retirement Debt Service Fund, and \$7,157 in the Classroom Facilities Maintenance Special Revenue Fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenues.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Second Half Collections		2020 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential Public Utility Personal	\$197,753,230 18,370,800	91.50% 8.50%	\$226,874,630 22,321,540	91.04% 8.96%
Total	\$216,124,030	100.00%	\$249,196,170	100.00%
Tax Rate per \$1,000 of Assessed Valuation	\$23.65		\$23.65	

#### Note 8 – Receivables

Receivables at June 30, 2020, consisted of property taxes, interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables, except delinquent property taxes, are expected to be collected in one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. The delinquent property taxes amounted to \$474,865.

A summary of the principal items of intergovernmental receivables follows:

Governmental Activities	Amounts
Title I Grants to Local Educational Agencies	\$207,385
IDEA-B	66,527
Title II-A	16,653
State Foundation	15,708
Title IV-A	10,913
Miscellaneous Intergovernmental	6,666
SERS Overpayment	6,615
VI-B Restoration	5,542
Total	\$336,009

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

### **Note 9 - Significant Commitments**

### **Encumbrances**

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at fiscal year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At fiscal year end, the School District's commitments for encumbrances in the governmental funds were as follows:

Fund	Amount
General	\$331,977
Nonmajor Governmental Funds	54,171
Total	\$386,148

#### **Note 10 - Capital Assets**

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance at 6/30/19	Additions	Deductions	Balance at 6/30/20
Capital Assets:				
Capital Assets not being Depreciated: Land	\$1,978,553	\$0	\$0	\$1,978,553
Depreciable Capital Assets:				
Land Improvements	5,029,222	111,500	0	5,140,722
Buildings and Improvements	54,435,376	7,028	0	54,442,404
Furniture, Fixtures, and Equipment	1,618,699	0	0	1,618,699
Vehicles	1,493,913	97,783	0	1,591,696
Total Depreciable Capital Assets	62,577,210	216,311	0	62,793,521
Less Accumulated Depreciation:				
Land Improvements	(2,431,849)	(276,726)	0	(2,708,575)
Buildings and Improvements	(16,101,591)	(1,087,710)	0	(17,189,301)
Furniture, Fixtures, and Equipment	(1,001,161)	(72,638)	0	(1,073,799)
Vehicles	(1,214,062)	(79,154)	0	(1,293,216)
Total Accumulated Depreciation	(20,748,663)	(1,516,228) *	0	(22,264,891)
Total Capital Assets being Depreciated, Net	41,828,547	(1,299,917)	0	40,528,630
Capital Assets, Net	\$43,807,100	(\$1,299,917)	\$0	\$42,507,183

\*Depreciation expense was charged to governmental functions as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Instruction:	
Regular	\$782,694
Special	156,368
Vocational	20,986
Student Intervention Services	8,451
Support Services:	
Pupils	43,420
Instructional Staff	33,453
Administration	126,626
Fiscal	35,858
Operation and Maintenance of Plant	125,984
Pupil Transportation	161,766
Extracurricular Activities	20,622
Total Depreciation Expense	\$1,516,228

#### Note 11 - Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For fiscal year 2020, the School District contracted with Hylant Administrative Services Selective Insurance for the following coverage:

Property	Deductible	Coverage
Building and Contents - Replacement Cost	\$1,000	\$67,226,096
General Liability:		
Each Occurrence	0	4,000,000
Aggregate Limit	0	6,000,000
Products - Completed Operations Aggregate Limit	0	4,000,000
Personal and Advertising Injury Limit - Each Offense	0	4,000,000
Fire Legal Liability	0	500,000
Medical Expense Limit - Per Person/Accident	0	10,000
Employers' Liability - Stop Gap:		
Each Occurrence	0	4,000,000
Per Disease Each Employee	0	4,000,000
Per Disease Policy Limit	0	4,000,000
Employee Benefits Liability:		
Per Claim	2,500	4,000,000
Aggregate Limit	2,500	6,000,000
Vehicles:		
Bodily Injury and Property Damage:		
Per Person	0	4,000,000
Medical Payments - Each Person	0	5,000
Uninsured Motorist:		
Each Accident	0	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. The School District reviewed its insurance coverage and made adjustments as deemed appropriate. There have been no significant reductions in insurance coverage from fiscal year 2020.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

For fiscal year 2020, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 18). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

The School District participates in the Lawrence County Schools Council of Governments Health Benefits Program (Note 18) to provide employee medical benefits. Rates are set through an annual calculation process. The School District pays monthly premiums to the fiscal agent, which is placed into a Council Fund from which claim payments are made for all participating School Districts.

### **Note 12 - Defined Benefit Pension Plans**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

### Net Pension Liability/Net OPEB Liability

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

### Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$345,084 for fiscal year 2020. Of this amount, \$35,858 is reported as an intergovernmental payable.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$1,184,554 for fiscal year 2020. Of this amount, \$215,148 is reported as an intergovernmental payable.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

	SERS	STRS	
Proportion of the Net Pension Liability:			
Prior Measurement Date	0.07089140%	0.06570720%	
Current Measurement Date	0.07124400%	0.06779820%	
Change in Proportionate Share	0.00035260%	0.00209100%	
Proportionate Share of the Net			Total
Pension Liability	\$4,262,653	\$14,993,164	\$19,255,817
Pension Expense	\$647,622	\$2,055,996	\$2,703,618

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and			
actual experience	\$108,092	\$122,069	\$230,161
Changes of assumptions	0	1,761,237	1,761,237
Changes in proportionate Share and			
difference between School District contributions			
and proportionate share of contributions	36,307	458,774	495,081
School District contributions subsequent to the			
measurement date	345,084	1,184,554	1,529,638
Total Deferred Outflows of Resources	\$489,483	\$3,526,634	\$4,016,117
Deferred Inflows of Resources			
Differences between expected and			
actual experience	\$0	\$64,902	\$64,902
Net difference between projected and			
actual earnings on pension plan investments	54,716	732,785	787,501
Changes in Proportionate Share and			
Difference between School District contributions			
and proportionate share of contributions	30,995	251,632	282,627
Total Deferred Inflows of Resources	\$85,711	\$1,049,319	\$1,135,030

\$1,529,638 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2021	\$121,498	\$897,980	\$1,019,478
2022	(90,202)	208,505	118,303
2023	(3,640)	23,892	20,252
2024	31,032	162,384	193,416
Total	\$58,688	\$1,292,761	\$1,351,449

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment
	expense, including inflation
Actuarial Cost Method	Entry Age Normal
	(Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	0.50%
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00%	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
School District's proportionate share			
of the net pension liability	\$5,973,501	\$4,262,653	\$2,827,893

#### **Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to
	2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment
	expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments	0.0 percent, effective July 1, 2017
(COLA)	

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	28.00%	7.35%
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00%	

\* Target weights will be phased in over a 24-month period concluding on July1, 2019.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	Current		
	1% Decrease Discount Rate 1% Incre		
	(6.45%)	(7.45%)	(8.45%)
School District's proportionate share			
of the net pension liability	\$21,910,840	\$14,993,164	\$9,136,998

### Note 13 - Postemployment Benefits

See Note 12 for a description of the net OPEB liability.

### Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For fiscal year 2020, the School District's surcharge obligation was \$33,924.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$33,924 for fiscal year 2020, of which all is reported as an intergovernmental payable.

### Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

### **OPEB** Liabilities, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	
Proportion of the Net OPEB Liability:			
Prior Measurement Date	0.07165290%	0.06570720%	
Current Measurement Date	0.07124460%	0.06779820%	
Change in Proportionate Share	-0.00040830%	0.00209100%	
Proportionate Share of the:			Total
Net OPEB Liability	\$1,791,652	\$0	\$1,791,652
Net OPEB (Asset)	\$0	(\$1,122,901)	(\$1,122,901)
OPEB Expense	\$40,162	(\$346,384)	(\$306,222)

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

SERS	STRS	Total
\$26,300	\$101,799	\$128,099
130,860	23,603	154,463
4,301	0	4,301

	\$26,300 130,860 4,301 25,585 33,924 \$220,970 \$393,614 100,399 0 34,566	\$26,300       \$101,799         130,860       23,603         4,301       0         25,585       58,606         33,924       0         \$220,970       \$184,008         \$393,614       \$57,129         100,399       1,231,129         0       70,526         34,566       49,951

\$33,924 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Notes to the Basic Financial Statements

2024	(49,618)	(232,462)	(282,080)
2025	(51,361)	(213,846)	(265,207)
Thereafter	(24,720)	5,239	(19,481)
Total	(\$341,533)	(\$1,224,727)	(\$1,566,260)

#### **Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense,	
including price inflation	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

**Discount Rate** The discount rate used to measure the total OPEB liability at June 30, 2019, was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024, and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

	1% Decrease (2.22%)	Current Discount Rate (3.22%)	1% Increase (4.22%)
School District's proportionate sha of the net OPEB liability	se \$2,174,726	\$1,791,652	\$1,487,063
		Current	
	1% Decrease	Trend Rate	1% Increase
	(6.00 % decreasing	(7.00 % decreasing	(8.00 % decreasing
	to 3.75%)	to 4.75%)	to 5.75%)
School District's proportionate share of the net OPEB liability	\$1,435,476	\$1,791,652	\$2,264,211

#### Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends	
Medical	
Pre-Medicare	5.87 percent initial, 4 percent ultimate
Medicare	4.93 percent initial, 4 percent ultimate
Prescription Drug	
Pre-Medicare	7.73 percent initial, 4 percent ultimate
Medicare	9.62 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011, through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020, to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020, from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021, to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.45%)	(7.45%)	(8.45%)
School District's proportionate share of the net OPEB asset	(\$958,172)	(\$1,122,901)	(\$1,261,399)
		Current	
	1% Decrease	Trend Rate	1% Increase
School District's proportionate share			
of the net OPEB asset	(\$1,273,318)	(\$1,122,901)	(\$938,676)

#### **Note 14 - Employee Benefits**

#### A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees and administrators who are contracted to work on a twelve month contract, earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers, administrators, and classified employees who are contracted to work less than 230 days per year do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. There is no limit to the amount of sick leave that may be accumulated by classified employees. Teachers and administrators can accumulate up to a maximum of 375 days. Upon retirement, payment is made for one-half of the total sick leave accumulation, up to a maximum payment of 93.75 to 112.5 for certified employees and 100 to 112.5 days for classified employees depending on the date of hire.

### **B.** Insurance Benefits

Health insurance is provided by Anthem Inc. Premiums for this coverage are \$2,214 for family coverage and \$896 for single coverage. The School District pays 80% of both premiums for employees hired after July 1, 2002. The School District pays 100% of single premiums for employees hired before July 1, 2002.

The School District provides life insurance and accidental death and dismemberment insurance to certified, classified, and administrative employees through Guardian Insurance Company. The coverage amount is \$30,000 for certified and classified employees and \$50,000 for administrators.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Dental and vision insurance is provided by Guardian. Premiums for dental coverage are \$81 for family coverage and \$22 for single coverage. Premiums for vision coverage are \$11 for family coverage and \$5 for single coverage. The School District pays 100% of single coverage. Employees are responsible for the excess cost of the family premium.

#### **Note 15 - Long-Term Obligations**

Changes in long-term obligations of the School District during fiscal year 2020 were as follows:

	Principal Outstanding 6/30/19	Additions	Deductions	Principal Outstanding 6/30/20	Amounts Due in One Year
Governmental Activities:					
2013 Refunding Bonds					
Serial Bonds - 1.75%-2.625%	\$2,540,000	\$0	\$0	\$2,540,000	\$480,000
Term bonds - 3.00%-3.25%	4,485,000	0	0	4,485,000	0
Capital Appreciation bonds	44,007	0	44,007	0	0
Accretion on Capital Appreciation Bonds	364,280	71,713	435,993	0	0
Premium on Bonds	628,318	0	52,360	575,958	0
	8,061,605	71,713	532,360	7,600,958	480,000
Net Pension Liability:					
STRS	14,447,538	545,626	0	14,993,164	0
SERS	4,060,082	202,571	0	4,262,653	0
Total Net Pension Liability	18,507,620	748,197	0	19,255,817	0
Net OPEB Liability:					
SERS	1,987,845	0	196,193	1,791,652	0
Capital Leases	217,775	0	136,381	81,394	81,394
Compensated Absences	1,850,893	301,263	267,333	1,884,823	148,678
Total Governmental Activities Long-Term Liabilities	\$30,625,738	\$1,121,173	\$1,132,267	\$30,614,644	\$710,072

Compensated absences and capital leases will be paid from the General Fund. There are no repayment schedules for the net pension and net OPEB liabilities. However, employer pension/OPEB contributions are made from the following funds: General Fund, and the Food Service, Title I, IDEA-B, and Title II-A Special Revenue Funds. See Notes 12 and 13 for additional information related to net pension and net OPEB liabilities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

2013 Refunding Bonds - On July 13, 2012, the School District issued refunding bonds of \$7,784,996 consisting of \$3,115,000 in serial bonds, \$184,996 in capital appreciation bonds, and \$4,485,000 in term bonds. The refunding bonds will mature on December 1, 2031. These bonds were issued to advance refund part of the 2004 School Building Construction Bonds. The advance refunded portion of the bonds, as well as the unamortized premium and discount of these advance refunded bonds, were removed from the financial statements of the School District. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$994,838. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being amortized to interest expense over the life of the refunded bonds using the straight-line method. The amortization of this difference for 2020 was \$51,669. At the date of the refunding, \$8,779,834 (including underwriter fees and other issuance costs) was deposited in an irrevocable trust to provide for all future debt service payments on the refunded 2004 bonds. The refunded bonds were called and paid on December 1, 2016. The 2013 refunding capital appreciation bonds mature December 1, 2017, through December 1, 2020. At maturity all compounded interest is paid and the bond holder receives the face value of the bond. As the value of the bond increases, the accretion is reflected as a liability. The maturity amount of the bonds was \$1,415,000. In fiscal year 2020, \$435,993 capital appreciation principal was repaid. For fiscal year 2020, \$71,713 was accreted.

Principal and interest requirements to retire the general obligation bonds outstanding at June 30, 2020, were as follows:

	Serial/Term Bonds				
Fiscal Year	Principal	Interest			
2021	\$480,000	\$194,531			
2022	490,000	183,919			
2023	510,000	172,669			
2024	525,000	160,369			
2025	535,000	146,784			
2026-2030	3,065,000	476,125			
2031-2032	1,420,000	46,313			
Totals	\$7,025,000	\$1,380,710			

The overall debt margin of the School District was \$16,882,003, with an unvoted debt margin of \$249,196 at June 30, 2020.

### **Note 16 - Interfund Activity**

During fiscal year 2020, the General Fund made a transfer out in the amount of \$163,884 to the Food Service Special Revenue Fund. The transfer was used to move unrestricted revenue collected in the General Fund to finance food service programs in accordance with budgetary authorizations.

Interfund receivables and payables at June 30, 2020, consisted of \$69,048, representing \$48,146 advanced to the Title I Special Revenue Fund and \$20,902 advanced to the Miscellaneous Federal Grants Special Revenue Fund to be repaid to the General Fund when grant funds are received.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

#### Note 17 - Jointly Governed Organizations

### A. Metropolitan Educational Technology Association (META)

The School District participates in the Metropolitan Educational Technology Association (META), formed from the merger of the Metropolitan Educational Council (MEC) and the South Central Ohio Computer Association Regional Council of Governments (SCOCARCoG) during fiscal year 2016, which is a jointly governed organization, created as a regional council of governments pursuant to Chapter 167 of the Ohio Revised Code. META operates as, and has all the powers of, a data acquisition site/information technology center pursuant to applicable provisions of the Ohio Revised Code. The organization was formed for the purpose of identifying, developing, and providing to members and nonmembers innovative educational and technological services and products, as well as expanded opportunities for cooperative purchasing. The General Assembly of META consists of one delegate from every member school district. The delegate is the superintendent of the school district or the superintendent's designee. The degree of control exercised by any participating school district is limited to its representation on the General Assembly. The General Assembly exercises total control over the operation of META including budgeting, appropriating, contracting, and designating management. During 2020, the School District paid \$55,186 for services with META. Financial information can be obtained from META at 100 Executive Drive, Marion, Ohio 43302.

### **B.** Collins Career Center

Collins Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from Chesapeake Union Exempted Village School District, two from the Ironton City School District, and two from the Lawrence County Educational Service Center, which possesses its own budgeting and taxing authority. South Point Local School District made no payments to the Career Center in fiscal year 2020. To obtain financial information write to the Collins Career Center, 11627 State Route 243, Chesapeake, OH 45619.

#### C. The Educational Regional Service System (ERSS) Region 15

The Educational Regional Service System (ERSS) Region 15 is a jointly governed organization consisting of educational entities within Lawrence, Pike, Scioto, and Ross counties. The purpose of the ERSS is to provide support services to school districts, community schools, and chartered nonpublic schools within the region by supporting State and school initiatives and efforts to improve school effectiveness and student achievement with a specific reference to the provision of special education and related services. The ERSS is governed by an advisory council, which is the policymaking body for the educational entities within the region, who identifies regional needs and priorities for educational services and develops corresponding policies to coordinate the delivery of services. The Advisory Council is made up of the director of the ERSS, the superintendent of each educational service center within the region, the superintendent of the region's largest and smallest school district, the director and an employee from each education technology center, one representative of a four-year institution of higher education and appointed by the Ohio Board of Regents, one representative of a two-year institution of higher education and appointed by the Ohio Association of Community Colleges, three board of education members (one each from a city, exempted village, and local school district within the region), and one business representative. The degree of control exercised by any participating educational entity is limited to its representation on the Advisory Council. Financial information can be obtained from the South Central Educational Service Center, 411 Court Street, Portsmouth, Ohio 45662.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

#### **Note 18 - Insurance Purchasing Pools**

#### A. Ohio School Plan

The School District participates in the Ohio School Plan (OSP), an insurance purchasing pool. The Ohio School Plan (OSP) is created and organized pursuant to and as authorized by Section 2744.081 of the Ohio Revised Code. The OSP is an unincorporated, non-profit association of its members and an instrumentality for each member for the purpose of enabling members of the Plan to provide for a formalized, joint insurance purchasing program to maintain adequate insurance protection, risk management programs and other administrative services. The OSP's business and affairs are conducted by a fifteen member Board of directors consisting of school district superintendents and treasurers, as well as the president of Harcum-Hyre Insurance Agency, Inc. and a partner of the Hylant Group, Inc. Hylant Group, Inc. is the Administrator of the OSP and is responsible for processing claims. Harcum-Hyre Insurance Agency, Inc. is the sales and marketing representative, which establishes agreements between OSP and member schools.

### B. Lawrence County Schools Council of Governments Health Benefits Program

The School District participates in the Lawrence County Schools Council of Governments Health Benefits Program (Council), a shared risk pool created pursuant to State statute for the purpose of administering health care benefits. The Council is governed by a council, which consists of the superintendent from each participating school district. The council elects officers for one-year terms to serve on the Board of Directors. The council exercises control over the operation of the Council. All council revenues are generated from charges for services received from the participating school districts, based on the established premiums for the insurance plans. The Lawrence County Educational Service Center is the fiscal agent of the council. Each School District reserves the right to withdraw from the plan. If this is done, no further contributions will be made and the school district's net pooled share will be distributed and all claims submitted by covered members of the school district after the distribution will be exclusively the liability of the school district.

### C. Ohio School Boards Association Workers' Compensation Group Rating Program (GRP)

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the plan.

#### Note 19 - Set-Aside Calculations

The School District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years. In prior fiscal years, the School District was also required to set aside money for budget stabilization and textbooks.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

Effective April 10, 2001, through Amended Substitute Senate Bill 345, the requirements for school districts to establish and appropriate money for the budget stabilization was deleted from law. A school district may still establish reserve balance accounts consistent with Section 5705.13, Revised Code, if it so chooses; however, the requirement is no longer mandatory. In addition, any money on hand in a school district's budget reserve set-aside as of April 10, 2001, may at the discretion of the board of education be returned to the school district's general fund or may be left in the account and used by the board to offset any budget deficit the district may experience in future fiscal years. The bill placed special conditions on any Bureau or Workers' Compensation monies remaining in the budget reserve. For fiscal year 2020, the Board of Education approved maintaining HB412 budget reserve funds of \$67,581 to offset any budget deficit the district may experience in the future.

The following cash basis information describes the changes in the fiscal year end set-aside amounts for capital acquisitions. Disclosure of this information is required by the State statute.

	Capital
	Improvements
Set-Aside Reserve Balance as of	
as of June 30, 2019	\$86,381
Current Year Set-Aside Requirement	279,193
Current Year Qualifying Expenditures	(134,963)
Current Year Offsets	(82,492)
Totals	\$148,119
Set-Aside Balance Carried Forward	
to Future Fiscal Years	\$148,119

### Note 20 - Contingencies

#### A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2020, if applicable, cannot be determined at this time.

### **B.** Litigation

At June 30, 2020, the School District was not party to any legal proceedings.

### C. State Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 are finalized. An additional receivable in the amount of \$3,155 has been recorded by the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020 (Continued)

### Note 21 - Capital Leases - Lessee Disclosure

In prior fiscal years, the School District entered into a capitalized lease for a football stadium, baseball/softball complex, administrative office renovations, buses, and synthetic turf at the High School football field. The leases meet the criteria of a capital lease which is defined as transferring benefits and risks of ownership to the lessee.

Capital lease payments have been reclassified from functional expenditures and are reflected as General Fund debt service expenditures in the financial statements. They are presented as current expenditures in the budgetary statements. Capital assets acquired by governmental activities through capitalized leases were recorded in the amount of \$1,185,292 acquired in 2015 and \$353,000 in 2018, which is equal to the present value of the minimum lease payments at the time of acquisition. Accumulated depreciation on the assets is \$381,673, leaving a book value of \$1,156,619. Principal payments in fiscal year 2020 totaled \$136,381 in the governmental funds. The \$185,292 acquisition in fiscal year 2015 was paid off in fiscal year 2018. The \$1,000,000 acquisition in fiscal year 2015 was paid off in fiscal year 2020.

Future minimum lease payments for the \$353,000 acquisition in fiscal year 2018 are as follows:

Fiscal Year			
Ending June 30	Principal	Interest	Total
2020	\$81,394	\$980	\$82,374

#### Note 22 - COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. The School District's investment portfolio and the investments of the pension and other employee benefit plan in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

# **Net Pension Liability**

# **Changes in Benefit Terms – SERS**

With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

#### **Changes in Assumptions – SERS**

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

	Fiscal Year 2017	Fiscal Year 2016 and Prior
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases,		
including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments	7.75 percent net of investments
	expense, including inflation	expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

#### **Changes in Assumptions - STRS**

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	Fiscal Year 2018	Fiscal Year 2017 and Prior
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to	12.25 percent at age 20 to
	2.50 percent at age 65	2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, ,2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

# South Point Local School District, Ohio Notes to the Required Supplementary Information

For the Fiscal Year Ended June 30, 2020

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

# **Net OPEB Liability**

# **Changes in Assumptions – SERS**

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense,	
including price inflation	
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

In fiscal year 2020, the discount rate was changed from 3.70% to 3.22%

In fiscal year 2019, the discount rate was changed from 3.63% to 3.70%. The health care trend rates were also updated.

In fiscal year 2018, the discount rate was change from 2.98% to 3.63%.

In fiscal year 2017, the following assumptions were changed:

Assumed rate of inflation was reduced from 3.25% to 3.00% Payroll Growth Assumption was reduced from 4.00% to 3.50% Assumed real wage growth was reduced from 0.75% to 0.50% Rates of withdrawal, retirement and disability were updated to reflect recent experience. Mortality among active members was updated to the following: o RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.

# **South Point Local School District, Ohio** Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2020

Mortality among service retired members, and beneficiaries was updated to the following: o RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates.

Mortality among disabled members was updated to the following:

o RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

# **Changes in Assumptions – STRS**

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

# **Changes in Benefit Terms – STRS OPEB**

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

#### SOUTH POINT LOCAL SCHOOL DISTRICT LAWRENCE COUNTY

#### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2020

# NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of South Point Local School District (the School District's) under programs of the federal government for the year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

# NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

# NOTE C – INDIRECT COST RATE

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

# NOTE D – CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

# NOTE E – FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

#### NOTE F - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The School District transferred the following amounts from:

#### 2019 to 2020 Programs:

	CFDA	<u>Amt.</u>	
Program Title	<u>Number</u>	<b>Transferred</b>	
Title I Grants to Local Educational Agencies	84.010	\$22,024	

# **NOTE G - TRANSFERS BETWEEN FEDERAL PROGRAMS**

During fiscal year 2020, the School District made allowable transfers of \$55,049 from the Title II-A Supporting Effective Instruction (84.367) program to the Title I-A Improving Basic Programs (84.010) program. The Schedule shows the School District spent approximately \$49,820 on Title II-A Supporting Effective Instruction program. The amount reported for the Title II-A Supporting Effective Instruction program. The amount transferred to the Title I-A Improving Basic Programs program. The amount transferred to the Title I-A Improving Basic Programs sprogram is included as Title I-A Improving Basic Programs expenditures when disbursed. The following table shows the gross amount transferred to the Title II-A Supporting Effective Instruction program during fiscal year 2020 and the amount transferred to the Title I-A Improving Basic Programs program.

Title II-A Supporting Effective Instruction	\$ 104,869
Transfer to Title I-A Improving Basic Programs	<u>(55,049)</u>
Total Title II-A Supporting Effective Instruction	\$ 49,820

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

South Point Local School District Lawrence County 302 High Street South Point, Ohio 45680

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South Point Local School District, Lawrence County, Ohio (the School District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated May 6, 2021 wherein we noted the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District.

# Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

South Point Local School District Lawrence County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

#### **Compliance and Other Matters**

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State Columbus, Ohio May 6, 2021

Corporate Centre of Blue Ash 11117 Kenwood Road Blue Ash, Ohio 45242-1817 (513) 361-8550 or (800) 368-7419 SouthwestRegion@ohioauditor.gov

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

South Point Local School District Lawrence County 302 High Street South Point, Ohio 45680

To the Board of Education:

# Report on Compliance for the Major Federal Program

We have audited South Point Local School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect South Point Local School District's major federal program for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal program.

#### Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

#### Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major program. However, our audit does not provide a legal determination of the School District's compliance.

#### **Opinion on the Major Federal Program**

In our opinion, South Point Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2020.

South Point Local School District Lawrence County Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance Page 2

#### **Report on Internal Control Over Compliance**

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
