SOUTH-WESTERN CITY SCHOOL DISTRICT FRANKLIN COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2020

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the South-Western City School District, Franklin County (the School District) under programs of the federal government for the fiscal year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE E - FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at fair value. The School District allocated donated commodities to the respective program that benefited from use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

South-Western City School District Franklin County 3805 Marlane Drive Grove City, Ohio 43123

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South-Western City School District, Franklin County, Ohio (the School District) as of and for the year ended June, 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 21, 2020, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Efficient • Effective • Transparent

South-Western City School District
Franklin County
Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and Other
Matters Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber Auditor of State Columbus, Ohio

December 21, 2020

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

South-Western City School District Franklin County 3805 Marlane Drive Grove City, Ohio 43123

To the Board of Education:

Report on Compliance for Major Federal Programs

We have audited the South-Western City School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the South-Western City School District's major federal programs for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal programs.

Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major programs. However, our audit does not provide a legal determination of the School District's compliance.

Efficient • Effective • Transparent

South-Western City School District
Franklin County
Independent Auditor's Report on Compliance with Requirements
Applicable to the each Major Federal Program and on Internal Control Over
Compliance Required By the Uniform Guidance
Page 2

Opinion on the Major Federal Programs

In our opinion, the South-Western City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the South-Western City School District (the School District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements. We issued our unmodified report thereon dated December 21, 2020, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District. We conducted our audit to opine on the School District's basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to December 21, 2020. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements.

South-Western City School District
Franklin County

Applicable to the each Major Federal Program and on Internal Control Over
Compliance Required By the Uniform Guidance
Page 3

We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole

CITIZENS AND BOARD OF EDUCATION OF THE SOUTH-WESTERN CITY SCHOOL DISTRICT:

The thirty-first Comprehensive Annual Financial Report (CAFR) from the South-Western City School District (the "School District") Treasurer's Office contains financial statements, supplemental statements, and statistical information to provide complete and full disclosure of all material aspects of the School District for the 2019-20 fiscal year. This report prepared by the Treasurer's office including the unmodified opinion of the Ohio Auditor of State for the fiscal year ended June 30, 2020, is hereby submitted. Responsibility for the accuracy, completeness, and fairness of the report rests with the School District. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District. All disclosures necessary to enable the reader to gain an understanding of the School District's financial activities have been included. This report was prepared in conformance with accounting principles generally accepted in the United States of America (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The School District's MD&A can be found immediately following the report of the independent auditors.

Copies of this report will be widely distributed throughout the School District. A copy will be posted on the School District's website and copies will be sent to the Southwest Public Library, Moody's Investors Services, Standard and Poor's Financial Rating Services, banks, and any other interested parties.

SCHOOL DISTRICT ORGANIZATION

The School District was established in 1959 through the consolidation of existing land areas and several smaller local school districts and is organized under Sections 2 and 3, Article VI of the constitution of the State of Ohio. Under Ohio law, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at large for staggered four year terms.

The Superintendent is the chief administrative officer of the School District, responsible for both education and support operations. The Treasurer is the chief fiscal officer of the School District, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the School District, and investing idle funds as specified by Ohio law.

THE REPORTING ENTITY AND SERVICES PROVIDED

The School District serves an area of approximately one hundred nineteen square miles. It encompasses most of the southwest quadrant of Franklin County, including a substantial portion of the southwest quadrant of the City of Columbus and five other cities and villages and a number of townships. In addition, a very small portion of Pickaway County is included within the School District boundaries.

THE REPORTING ENTITY AND SERVICES PROVIDED – (Continued)

The School District maintains thirty-six instruction/support facilities staffed by 995 non-certificated employees, 1,614 certificated full-time teaching personnel and 103 administrative employees to provide services to almost 22,000 students.

This report includes all funds of the School District. The School District provides a full range of traditional and non-traditional educational programs, services and facilities. These include elementary and secondary curriculum offerings at the college preparatory and career technical levels; a broad range of co-curricular and extracurricular activities; special education programs and community recreation facilities.

The City of Grove City; Townships of Franklin, Jackson, Pleasant and Prairie; and the Southwest Public Library have not met the established criteria for inclusion in the reporting entity, and accordingly are excluded from this report.

ECONOMIC CONDITION AND OUTLOOK

The School District is an independent political subdivision characterized as a "city school district" under Ohio Law, and provides educational services as mandated by State and/or federal agencies. The School District is located primarily in Franklin County, Ohio southwest of, and included in parts of the City of Columbus, the State capital. Generally speaking, the Columbus area is noted for its attractive service-based economy, cultural and educational elements. The School District shares these demographic components with the resultant quality of life. Unemployment in Franklin County, as listed by the Ohio Department of Job and Family Services, was 8.3 percent for the period ending September 2020. The seasonally adjusted rate of unemployment in Ohio was 8.4 percent and the national rate was 7.9 percent for the same period.

The Columbus metropolitan statistical area is characterized by its diverse economy and economic growth. A strong residential, commercial and industrial tax base, a very diverse labor force, and an unemployment rate below the State average have resulted in strong growth throughout the area. The School District's specific economic and jurisdictional territory is comprised primarily of the City of Columbus and the City of Grove City (the "City"), both of which contain approximately 36 percent of the School District's territory, and the townships of Franklin, Jackson, Pleasant and Prairie. The Grove City Area Community Improvement Corporation (the "Grove City CIC") was incorporated on August 8, 1979 in order to advance, encourage, and promote the industrial, economic, commercial and civic development in the City. The Grove City CIC is the agency and instrumentality of the City for industrial, commercial, distribution and research development and works to retain, expand, and attract capital investment and jobs to the City. Strategies used to implement the Grove City CIC's mission include the promotion of local, state, and federal financial assistance, tax incentives, and training/technical assistance programs. The Treasurer of the School District is a member of the Grove City CIC.

Economic Development Initiatives and Incentives within Grove City

In the City of Grove City (the "City"), opportunities for residential, commercial and industrial development have been enhanced by major expansions of the City's water distribution, sanitary sewer and street systems. On August 13, 2012, the reconstructed and expanded interchange located at Interstate 71 and State Route 665 opened. The I-71/SR 665 interchange can handle 41,600 vehicles a day, more than three times the previous capacity. By using the single-point urban interchange design, this project opens up hundreds of acres for development serving as a gateway to Rickenbacker International Airport ("Rickenbacker") located only minutes from the City. This interchange has significantly improved the safety and congestion on I-71 and SR 665 and serves as the western gateway to I-71 from Rickenbacker, thereby becoming an important expansion area for logistics companies capitalizing on the area's access to Rickenbacker's intermodal terminal.

Rickenbacker is a first-class cargo airport offering high-speed logistical movement of goods and serves as the area's only U.S. Foreign Trade Zone. With improved access to major interstate highways and area airports, the new redesigned interchange is also valuable to existing companies such as FedEx and Tigerpoly Manufacturing. These infrastructure improvements are a result of a comprehensive planning process that coordinates actions of the City with area developers.

ECONOMIC CONDITION AND OUTLOOK - (Continued)

The construction of the Rickenbacker Intermodal Connector (the "Intermodal Connector"), which is within two miles of the School District but is not within the territory of the City or the School District, is a critical part of regional economic development effort. Also known as the Pickaway East West Connector, the Intermodal Connector has been designed in three phases. Phase I was completed in 2014 and was funded by various funding sources, including the Ohio Department of Development, the Ohio Department of Transportation, and other public and private funding partners. Phase II and Phase III, which include various road widening and constructing a new interchange at U.S. Route 23 and State Route 762, await additional funding. The Intermodal Connector will connect the Norfolk-Southern Rickenbacker Intermodal Terminal with U.S. Route 23 on the very northern edge of Pickaway County. The Columbus region has shaped itself as a logistics hub for the eastern United States, and the area around Rickenbacker Global Logistics Park has become the epicenter. Warehousing growth in the past ten years has been strong north of Rickenbacker. The completion of the Intermodal Connector is expected to increase activity and business growth in the I-71 Corridor of the School District significantly.

The Pinnacle Club of Grove City ("Pinnacle"), a 597-acre master planned residential community, is one example of the successful projects that have grown out of the City's planning process and coordination. Pinnacle began development in the spring of 2004, and it is expected, when fully developed, to include approximately 1,600 homes with prices ranging from \$250,000 to \$700,000, all centered around the championship golf course designed by Lanny Watkins that opened in September 2006.

Another development that highlights the City's commitment to furthering its public-private collaborations is the revitalization of the City's historic Town Center (the "Town Center"). The Town Center project is being completed in various phases, and it includes a new library that was completed in fall 2016, new streetscapes, improved pedestrian circulation, and additional parking. Broadway Station Apartments opened in 2017, and it offers 120 one- and two-bedroom units in the Town Center area.

In April 2019, Mount Carmel Health System ("MCHS") opened a new hospital, Mt. Carmel Grove City (the "Hospital"), in the City. MCHS moved inpatient services from an older facility just west of downtown Columbus to the Hospital, which included the relocation of 1,500 employees to the Hospital. The 210-bed Hospital has seven stories and 500,000 square feet of space, and it was estimated to cost \$361 million to construct. The Hospital's 110-acre campus also includes a five-story, 120,000 square foot medical office building.

In October 2018, OhioHealth opened OhioHealth Grove City Methodist Hospital, a 79,850-square foot facility with 26 inpatient beds on a 22-acre campus. The new facility includes a full-service emergency department, cost approximately \$46.5 million to build, and added 285 jobs to the City. In April 2018, OhioHealth opened Grove City Surgery Center on the same campus. The 40,000-square foot building contains five operating rooms and two procedure rooms as well as a medical office building that houses independent physicians and multiple surgical specialties. The Grove City Surgery Center is a joint venture with 33 physician investors who own 51 percent of the venture. OhioHealth is now one of the 10 largest employers in the City with approximately 433 employees as of 2019.

To accommodate industrial and commercial growth, the City has cooperated with private investors in the development of seven business and industrial parks, including: (1) Grove City Industrial Park, a 100- acre park with thirteen major buildings near the intersection of I-71 and SR 665; (2) Southpark, a 350-acre park with eighteen major buildings near the intersection of I-71 and I-270; (3) Capital Park South, a 150- acre park with eight major buildings at I-270 and State Route 62; (4) Southpointe, a 53-acre park with seven major building at SR 665; (5) Gateway Business Park, 114- acre park with four major buildings at I-71 and SR 665; (6) Gateway to the City Office Park, a 35-acre park with twelve major buildings at I-71 and Stringtown Road; and (7) Gateway Business Park West, a 232-acre park that was platted in 1999.

Immediate access to I-71 and I-270 has resulted in the City's development as a travel center offering over 1,200 guest rooms with gross sales exceeding \$10 million per year. A growing list of restaurants complements the variety of accommodations found in the City.

ECONOMIC CONDITION AND OUTLOOK – (Continued)

The City offers the following economic development incentive programs:

- 1. Community Reinvestment Area ("CRA"): The City has four CRAs, including one in the Town Center that has recently been expanded. Properties within a CRA are eligible to receive real property tax abatement for real property improvements.
- 2. Tax Increment Financing ("TIF"): There are five TIF Districts within the City. Payments derived from the increased assessed value of any improvement to real property are directed towards a separate fund to finance the construction of the public infrastructure defined within the legislation approving the respective TIFs A-15.
- 3. Enterprise Zones ("EZ"): In early 2004, the City passed Ordinance C-133-03 designating the territory as an EZ, which provides certain tax exemptions to certain businesses located in the EZ.

Major employers in the City include the following: MCHS, FedEx Ground Package Distribution Systems; Wal-Mart Distribution Center; the School District; PCCW Teleservices (US), Incorporated (HKT); OhioHealth; Halcore Group, Incorporated; Tigerpoly Manufacturing Incorporated; Tosoh America, Incorporated's headquarters for sales, marketing, and business development for North America; and Nationwide Mutual Insurance Company. Among those largest employers, Tigerpoly Manufacturing, Incorporated locates its corporate headquarters within the City, including a 32-acre manufacturing site.

The redevelopment of the former Beulah Park horse racetrack into a residential development is one of the largest current projects in the City. The project is expected to result in approximately 1,008 new residential units, including a 385-unit apartment complex, 70 townhouse condominiums, 110 ranch-style condominiums, 266 single-family houses; and a 177-bed assisted and independent senior living facility. Developers are already selling units within the development.

Fischer Homes is currently building out a new development of 535 single-family homes on a 210- acre site located within the School District. The development, which is called Farmstead, is located west of State Route 104 (Jackson Pike), and has easy access to I-71 and I-270. Plans for Farmstead call for 415 single-family detached houses and 120 single-family attached houses, and 10-11 acres is being set aside to provide land for the School District to eventually build a new elementary school.

Development Initiatives and Incentives within the School District but outside the City

Economic development and land management in the Jackson and Franklin Township portion of the School District is described in great detail in the 2009 Southwest Area Plan, a joint effort completed by the Southwest Area Commission ("SWAC"), the newest Columbus City Area Commission. The boundaries of SWAC run just west of 3C highway on the west, Mound Street on the north, I-71 South on the east, and I-270 on the south. SWAC's goal is to identify and encourage productive land use and economic development within the territory of SWAC. SWAC worked cooperatively with the City of Columbus, Franklin County, Franklin Township, Jackson Township and groups of interested residents and stakeholders to research, develop and adopt the Southwest Area Plan in March of 2009. This comprehensive 71-page plan provides detailed plans and considerations from the point of view of land use, current and recommended, by all zoning types. It further describes existing priority development sites and action oriented recommendations.

The most significant development in the SWAC area is the Hollywood Casino Columbus (the "Casino"), which is located in Franklin Township and in the School District. The Casino opened in October 2012, with the final construction and development costs valued at approximately \$146.5 million. The project area encompasses 133 acres, and the Casino floor is 180,000 square feet. The Casino currently employs approximately 1,000 permanent workers for operations. The Casino features a steakhouse, a 10,000 square-foot banquet hall, cocktail lounge and sports bar. The School District commenced the receipt of property-tax revenue in calendar year 2014 associated with the Casino's final building and land value. Additionally, 33 percent of funds from the Casino's taxes and license fees are required to go to school districts throughout the State and are distributed on a per pupil basis, in August and January each year.

ECONOMIC CONDITION AND OUTLOOK - (Continued)

The Casino is supported by a Joint Planning and Zoning Overlay Agreement (the "JPZO Agreement") between Franklin Township, the City of Columbus and Franklin County to ensure better coordination on projects, set forth future infrastructure and public investment opportunities, jointly market economic development opportunities and pursue a seamless look along the West Broad Street corridor.

The JPZO Agreement includes the creation of a 50-year joint economic development district ("JEDD"), which splits the City of Columbus income tax rate as follows: (i) 70 percent revenues to a project fund, (ii) 15 percent of revenues to the City of Columbus, and (iii) 15 percent of revenues to Franklin Township. It also set aside 2 percent of the total income tax revenue collected from the Casino's construction site for the first five years of operation to be used to encourage businesses to participate in the JEDD, to assist in the mobilization, creation and coordination of the business working group in their effort to enhance the economic viability of the corridor area, and to make improvements in the right-of-way and other projects to revitalize the West Broad Street corridor. The JPZO Agreement further compensates Franklin Township over the life of the agreement through additional income tax payments.

Economic Condition and Outlook of the School District

On July 18, 2019, the State biennial budget bill, Ohio House Bill 166, was signed into law. Ohio House Bill 166 increased school district budgets throughout the State. Funding received from the State of Ohio represents roughly 56.6 percent of all General Fund operating revenues. Over the two-year biennial budget period, the School District had originally anticipated an increase in State funding of roughly 4.2 percent during the 2019-20 fiscal year, with an additional 1.7 percent anticipated for the 2020-21 fiscal year.

However, due to the COVID pandemic, the School District actually realized a \$3.4 million reduction in State funding during the 2019-20 fiscal year. The reduction was due to the negative impact that the COVID pandemic had on the State's overall economy. As the economy has stabilized, the School District anticipates receiving State funding at the same levels received during the 2019-20 fiscal year for the 2020-21 fiscal year.

The School District maintained its promise to the community to make the property tax dollars received from the passage of the November 3, 2009, 7.4 mill operating levy last through calendar year 2013. In fact, the School District's current five-year financial forecast projects a positive cash balance through fiscal year 2024-25.

MAJOR INITIATIVES

Strategic Planning

The School District developed long-term goals through a strategic planning process. To complete the process, the School District utilized a strategic performance management tool called the Balanced Scorecard to build its framework. The School District's balanced scorecard is a mixture of educational and financial measures that articulates the links between both human and physical inputs, processes and desired outcomes. It focuses the importance of managing these components to achieve the organization's strategic priorities through answering the questions of: 1) Who we are; 2) What we do; 3) Where education is headed; and 4) Where we want to be in the future.

Six Strategic Dimensions

With community input and the services of volunteer facilitators, six strategic dimensions were identified as follows:

- 1. Academic Achievement.
- 2. Student Development/Extracurricular Activities.
- 3. Innovation in Education.
- 4. College/Vocation Preparation.
- 5. Parent Engagement.
- 6. Diversity of the School District.

MAJOR INITIATIVES – (Continued)

Four Themes

From these six dimensions, four themes emerged as follows:

- 1. Access for all students to the highest quality educational opportunities.
- 2. Instruction created to meet the individual skills of students while advancing them toward their full potential.
- 3. Seamless and universal access to instructional, enhancement and remedial learning opportunities through the integration of technology and other forms of communication.
- 4. Engage the community to foster a fully integrated support system that feeds the development of every child.

Five Bold Goals

Through this process, we have been able to identify five long-term goals for the School District:

- 1. Students can enter college without remediation.
- 2. Parents actively receive communication.
- 3. Students graduate on time.
- 4. Students exit emotionally, socially and physically prepared.
- 5. Families are vested in planning their future.

Eight High Yield Strategies

- 1. K-12 career exploration and skills development for students.
- 2. Parent education activities for preparing children for the 21st century workplace.
- 3. Remediation and intervention for students in math, reading and writing to ensure on grade level performance.
- 4. K-12 character, social skills and well-being programming for students.
- 5. A rolling four-year plan that supports each student's post-secondary goals.
- 6. Student access to rigorous coursework to earn credits toward graduation and beyond.
- 7. Two-way communication of issues of concern and importance to families through multiple communication methods and partnerships.
- 8. A comprehensive menu of services supporting the continuity of care for students.

Data measurement and collection and systems alignment are significant parts of this process to fully meet the needs of the School District's students.

As part of the strategic planning process, the School District has embraced the demand for a highly educated and skilled workforce. This demand requires an innovative approach for students that accelerates and challenges their learning opportunities.

The Accelerated Learning Center ("ALC") provides students in the School District an opportunity to take tuition-free college courses, based on their future plans, while completing their high school graduation requirements. Due to the nature of the programs and capacity limitations, there may be priority considerations made for acceptance into the ALC. Students who are not accepted into the program due to capacity limitations will still have the ability to participate in the College Credit Plus program through online coursework or courses taken on a college campus.

The ALC provides a unique, half-day approach, which allows students to earn college credits without paying the cost of college and without leaving the School District. Students experience college-level coursework and gain an in-depth understanding of the skills and dedication necessary to succeed in a college environment, while also meeting their high school graduation requirements. ALC programs are located at Central Crossing High School and are being offered in cooperation with Columbus State Community College (CSCC). Transportation is provided for students who enroll in one of the three full ALC programs of study.

MAJOR INITIATIVES – (Continued)

The ALC offers three programs of study:

- 1. Software Development designed for the student interested in technology and associated college majors.
- General Liberal Arts designed to fulfill the requirements leading to a Bachelor's Degree for liberal arts-related fields.
- 3. Applied Sciences designed to fulfill the requirements leading to a Bachelor's Degree for mathematics, the sciences, allied health and other fields.

College credits earned through the General Liberal Arts and General Sciences programs are transcripted to CSCC and guaranteed transfer to any public college in Ohio, as well as many private colleges.

College credits earned through the Software Development program may transfer to other Ohio public and private colleges, but they are guaranteed to seamlessly align with the following four Associate's Degree tracks at CSCC and can also count towards a related Bachelor's Degree at other colleges and universities:

- 1. Software Developer.
- 2. Network Security.
- 3. Web Developer.
- 4. Network Administrator.

Over the past several years, the School District's State achievement scores improved in almost every category in every grade level. The prestigious National Merit Scholarship Program has recognized numerous School District high school students for their accomplishments. The School District's graduates are receiving full or partial scholarships to some of the country's top colleges and universities, and the School District's career-technical students are finding well-paying positions in highly competitive job markets.

The School District offers a wide array of affordable community adult education programs as well as GED preparation and English as a Second Language classes. The School District has also partnered with local colleges and universities to offer the community college level courses in their own backyard. Classes are conveniently located at the South-Western Career Academy. The School District's athletes have won numerous Ohio Capital Conference league team championships, as well as individual local, regional and State honors in a variety of sports; including football, basketball, volleyball, soccer, baseball, softball, wrestling, gymnastics, track and field, swimming, and cheerleading.

The School District also has some of the most recognized music programs in the country. More than 1,200 high school and middle school students participate in School District music programs annually. The School District's high school bands, choirs, and orchestras compete on a national-level, winning praise wherever they perform.

Many of the School District's students have received honors for artwork at the local, State, and national level. The School District's student artwork is frequently on display in the Governor's office, and Port Columbus International Airport, as well as exhibited at the Congressional Art Show in Washington D.C.

The School District's staff members have been recognized as well. Some of the more notable awards received by the School District staff include the prestigious Milken National Teacher of the Year, Secondary Mathematics Teacher of the Year, Ohio Vocational Association New Teacher of the Year, and Ohio PTA Outstanding Educator Award.

The School District's students and staff realize that they benefit from the support of the community, and they work hard to identify and raise funds to address the community's needs as well. Students and staff raise tens of thousands of dollars each year for such organizations as the American Heart Association, Toys for Tots, The American Cancer Society, Children's Hospital, homeless shelters, etc.

MAJOR INITIATIVES – (Continued)

Capital Improvements

On November 6, 2018, the School District passed a \$93,400,000 bond issue to secure its local share to participate in a classroom facilities assistance program with the Ohio Facilities Construction Commission with a total project cost of \$122,127,728. The project, co-funded by the State of Ohio, will replace four of the School District's five middle school buildings. The remaining middle school building will receive a significant addition. In addition to the middle schools, the School District will be renovating one existing elementary building.

The middle school buildings will be designed using a prototypical design process to create a "kit of parts" that will allow various site specific orientation options maximizing the energy efficiency of each building. The prototypical designs provide an equitable and repeatable design throughout the School District while saving architectural design fees in the process. Additionally, the replacement buildings will provide instructional space designed for twenty-first century learning that will serve students for years to come.

FINANCIAL INFORMATION

Long-term Financial Planning – The School District annually prepares a five-year financial forecast to ensure long-term financial success. The five-year financial forecast is prepared in November of each year and amended, if necessary, in May. The five-year financial forecast provides actual data on each major revenue and expenditure category for the past three fiscal years and forecasts these same categories for an additional five years. The five-year financial forecast is a planning tool used to certify if funds are available for future expenditures and additionally to strategize when the School District will need to return to voters for additional funds or reduce expenditures accordingly. The five-year financial forecast is published on the Ohio Department of Education website for public use.

Internal and Budgetary Controls – In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted by law no later than October 1 or once the County Auditor has completed the tax duplicate for the upcoming calendar year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriations measures, including any supplements or amendments, do not exceed the amount set forth in the latest of these official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board of Education. The Board of Education has established the legal level of control at the fund level; however, management controls budgets at the object level within a function and fund. All requisition requests must be approved by the individual program managers and be certified by the Business Manager and the Treasurer; necessary funds are then encumbered and purchase orders are created and released to vendors.

FINANCIAL INFORMATION – (Continued)

The accounting system used by the School District provides interim financial reports which detail year-todate expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each program manager is furnished daily reports showing the status of the budget account for which he or she is responsible.

As an additional safeguard, a blanket bond covers all employees involved with receiving and depositing funds, and a separate higher bond covers certain individuals in policy making roles. The basis of accounting and the various funds utilized by the School District are fully described in the notes to the basic financial statements. Additional information on the School District's budgetary accounts can also be found in the notes to the basic financial statements.

OTHER INFORMATION

Independent Audit – Provisions of State statute require an annual audit by independent accountants. Those provisions have been satisfied, and the opinion of the Ohio Auditor of State whose unmodified opinion thereon is included at the beginning of the Financial Section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The School District adopted and has been in conformance with that system for many years.

In addition to the financial audit, a single audit was performed as required by Office of Management and Budget's (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (commonly called "Uniform Guidance"). The single audit report is not included in the CAFR.

Award – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to South-Western City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose content conforms to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This was the thirtieth consecutive year that the School District has received this prestigious award. We believe our current report continues to conform to the standards required by the Certificate of Achievement Program, and we are submitting it to the GFOA for review.

Acknowledgments – Appreciation is extended to Zachary Niblick, Assistant Treasurer, and the Treasurer's office staff for their dedication and support in publishing the fiscal year 2019-20 Comprehensive Annual Financial Report on a timely basis. Sincere thanks are also extended to various administrators and employees of the School District, the Franklin County Auditor's office staff and other outside agencies whose efforts assisted us with the fair presentation of the statistical information. Additionally, appreciation is expressed to the South-Western City School District Board of Education for their support, commitment and leadership to which the preparation of this report would not be possible.

Respectfully submitted,

1817.

INDEPENDENT AUDITOR'S REPORT

South-Western City School District Franklin County 3805 Marlane Drive Grove City, Ohio 43123

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South-Western City School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Efficient • Effective • Transparent

South-Western City School District Franklin County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the South-Western City School District, Franklin County, Ohio, as of June 30, 2020, and the respective changes in its financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of matter

As discussed in Note 24 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, required budgetary comparison schedules, and schedules of net pension and postemployment benefit liabilities and pension and postemployment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

South-Western City School District Franklin County Independent Auditor's Report Page 3

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2020, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

The discussion and analysis of South-Western City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2020 are as follows:

- □ Total net position increased during fiscal year 2020 primarily due to the activity related to the Ohio Facilities Construction Commission (OFCC) projects. The School District had a significant unspent portion of the bonds issued for these projects, as well as a corresponding intergovernmental receivable related to the State-funded portion.
- □ Fiscal year 2020 expenses increased significantly from the prior fiscal year due to the changes in assumptions and benefit terms related to pensions and OPEB in the prior fiscal year.
- □ The School District's governmental funds reported an increase in combined fund balances for fiscal year 2020, primarily due to the receipt of bond proceeds related to the upcoming construction and renovation of various buildings within the School District.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District financially as a whole. The governmental-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds — the general, bond retirement, capital improvements, building and classroom facilities funds, with all other funds presented in one column as non-major funds. The School District has an internal service proprietary fund, which accounts for the School District's health self insurance program. The remaining statement, the statement of fiduciary assets and liabilities, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2020?" The statement of net position and the statement of activities answer this question. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, all of the School District's activities are classified as governmental. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, non-instructional services, operation of food services and extracurricular activities.

Reporting the School District's Most Significant Funds

The analysis of the School District's major funds begins on page 11. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general, bond retirement, capital improvements, building, and classroom facilities funds.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds The School District maintains an internal service fund, which is an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District maintains such a fund for its self-insurance program of health related employee benefits. This fund has been included within governmental activities in the government-wide financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for fiscal year 2020 compared to 2019:

Table 1

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

The net pension liability (NPL) is the largest liability reported by the School District at June 30, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange; however, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained previously, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

The School District's net position was \$203,669,317 at June 30, 2020. During fiscal year 2020, the School District issued 2019A and 2019B school facilities bonds and 2019C refunding bonds, therefore increasing its long-term liabilities. Total current and other assets increased primarily due to the \$85,406,166 in unspent proceeds related to these issuances, as well as a small portion related to the 2012 school facilities bonds. Net investment in capital assets totaling \$176,674,297, compares the original cost, less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net positions are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use that net position for day-to-day operations.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year.

South-Western City School District Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

Table 2 shows total revenues, expenses and changes in net position for fiscal years 2020 and 2019.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

Governmental Activities

As reported in the statement of activities, the cost of all activities this fiscal year was \$343,444,978. Certain activities were partially funded from those who benefited from the programs in the amount of \$8,168,610 or by other governments and organizations that subsidized certain programs with grants and contributions in the amount of \$54,035,939. The remaining "public benefit" portion of the governmental activities was paid for with \$91,409,096 in property taxes, \$1,392,636 in payments in lieu of taxes, \$200,203,277 in grants and entitlements, and \$9,281,787 with other revenues. As one can see, property taxes decreased from the prior year significantly. This was due to the property tax due date being moved back from June 20th to August 5th due to the COVID-19 pandemic. This caused the amount available as advance to be significantly lower for the current fiscal year.

The School District experienced an increase in net position of \$21,046,367. This increase was experienced primarily due to the activity related to the OFCC projects. The School District had a significant unspent portion of the bonds issued for these projects, as well as a corresponding intergovernmental receivable related to the State-funded portion.

As discussed previously, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and grants and entitlements constitute the vast majority of the School District's operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with available unrestricted resources.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those costs. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The deficit amounts indicated in Table 3 should not be construed as something negative; they are merely indicative of whether a particular function of government relies on general revenues for financing or is a net contributor of resources to the School District. The community, as a whole, is by far the primary support for South-Western City School District students.

The School District's Funds

Information regarding the School District's major funds begins on page 16. These funds are accounted for using the modified accrual basis of accounting. Total governmental funds had an increase in fund balance, primarily due to the issuance of general obligation bonds related to the construction and improvement of school facilities. The general fund had a decrease in fund balance for fiscal year 2020, mainly due to a decrease in property tax revenues related to a significant decrease in amounts available as an advance and an increase in overall expenditures related to wages, materials and supplies, and capital outlay. The bond retirement fund continues to make the bonded debt service requirements and had an increase in fund balance as revenues and debt refinancing exceeded debt service requirements. The capital improvement fund balance decreased during the fiscal year due to less property tax revenues for the same reason as the general fund. The building fund had a significant increase in fund balance during fiscal year 2020 due to the issuance of general obligation bonds related to the construction and improvement of buildings within the School District. The classroom facilities fund balance also increased significantly from the prior fiscal year for the same reason. Other governmental funds had an increase in fund balance due to the timing of State and Federal grants.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the general fund.

During the course of fiscal year 2020, the School District amended its general fund budget several times. The School District uses an operational unit budget process and has in place systems that are designed to tightly control expenses but provide flexibility for program based decisions and management.

The School District likes to take a conservative approach when budgeting. Because of this, as the fiscal year went on, the School District only needed to amend and increase its final certificate of estimated resources by \$15,978. With large construction projects ensuing, the School District increased its final appropriations by \$2,553,320, overall, with the largest increase being seen in special instruction. Actual revenues and expenditures came in higher and lower than final budgets, respectively. This is due in large part to the School District's continued commitment to provide a quality education while still controlling costs.

Capital Assets and Debt Administration

Capital Assets

Capital assets decreased for fiscal year 2020. The majority of the capital asset additions were for construction in progress and the completion of building projects. Ohio law requires school districts to set aside three percent of certain revenues for capital improvements. For fiscal year 2020, this amounted to \$3,976,964 for the set-aside. See Note 13 to the basic financial statements for additional information on the School District's capital assets and Note 20 for additional information regarding required set-asides.

Debt Administration

The School District's general obligation bond rating is periodically reviewed by two independent rating firms: Moody's Investors Service and Standard and Poor's. Moody's Investors Services affirmed the School District's Aa2 credit rating on September 30, 2019. Standard and Poor's raised the District's credit rating to AA from AA- on August 21, 2019. The State limits the amount of general obligation debt that schools can issue to nine percent of the assessed value of all taxable property within the School District's boundaries. During fiscal year 2020, the School District issued \$163,974,962 in 2019A and 2019B school facilities general obligation bonds and 2019C refunding bonds, while refunding the 2012 school facilities bonds, in addition to making payments on the 2016 refunding bonds. The School District's outstanding general obligation debt of \$235,164,962 is below the \$254,408,324 statutorily imposed limit.

The School District's overall legal debt margin decreased to approximately \$19 million. This is the additional amount of debt the School District could issue. The debt margin decreased from fiscal year 2019 due to the higher assessed values within the School District being counteracted by the additional debt issuances during the fiscal year. See Note 16 to the basic financial statements for detail on the School District's long-term obligations.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2020 Unaudited

School District Outlook

The School District has three bargaining units. The teaching and certified staffs are represented by the South-Western Education Association (SWEA). The classified staff is represented by Chapter 211 of the Ohio Association of Public School Employees (OAPSE). The administrative staff is represented by the South-Western Schools Administrators Association (SWAA).

SWEA is affiliated with the Ohio Education Association (OEA), and the National Education Association (NEA). The Board of Education ("the Board") has bargained with the SWEA since 1968. On May 21, 2019, the Board and SWEA agreed to a three year contract effective July 1, 2019, through June 30, 2022. The agreement provides a 2.50 percent base salary increase in each year of the contract.

Chapter 211 of the OAPSE is affiliated with AFSCME. On August 10, 2020, the Board and OAPSE signed a one-year contract extension effective July 1, 2020, through June 30, 2021 retroactive to July 1, 2020. The Board and OAPSE agreed to provide a 2.50 percent base salary increase effective July 1, 2020.

On June 10, 2019, the Board and SWAA signed a three-year contract effective July 1, 2019, through June 30, 2022. The agreement provides a 2.50 percent base salary increase in each year of the contract.

On July 18, 2019, the State biennial budget bill, Ohio House Bill 166, was signed into law. Ohio House Bill 166 increased school district budgets throughout the State. Funding received from the State of Ohio represents roughly 56.6 percent of all general fund operating revenue. Over the two-year biennial budget period, the School District was to receive an increase in State funding of roughly 4.2 percent during the first year of the biennium, with an additional increase of 1.7 percent in the second year of the biennium. Due budget reductions at the State level due to the COVID-19 pandemic, the School District's fiscal year 2020 funding was reduced by \$3.4 million dollars and will remain at fiscal year 2020 levels for fiscal year 2021. The School District's current five-year financial forecast projects a positive cash balance through fiscal year 2025.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions or need additional financial information, please feel free to contact Hugh W. Garside Jr., Treasurer at South-Western City School District, 3805 Marlane Drive, Grove City, Ohio 43123 or E-Mail at hugh.garside@swcsd.us.

Note 1 – Description of the School District and Reporting Entity

South-Western City School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms.

The School District is located in Franklin County and encompasses approximately 119 square miles, which is most of the southwestern quadrant of Franklin County including a substantial portion of the southwestern quadrant of the City of Columbus, Ohio along with five other cities and townships. In addition, a very small portion of Pickaway County is included within the School District boundaries. The School District is staffed by 1,085 classified employees and 1,627 certified personnel who provide services to 21,963 students and other community members. The School District currently operates 16 elementary schools, 5 intermediate schools, 5 middle schools, 4 comprehensive high schools, and a career academy high school.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments and agencies that are not legally separate from the School District. For the School District, this includes the agencies and departments that provide the following services: general operations, food service, head start, student guidance, extracurricular activities and care and upkeep of grounds and buildings of the School District.

Non-public Schools – Within the School District boundaries, there are various parochial schools operated through the Catholic Diocese and local churches. Current State legislature provides funding to these non-public schools. These monies are received and disbursed on behalf of the non-public school by the Treasurer of the School District, as directed by the non-public school. These transactions are reported in a special revenue fund and as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burden on, the primary government. The School District has no component units.

The School District participates in one jointly governed organizations, which is the Metropolitan Educational Technology Association. This organization is presented in Note 19 to the basic financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 2 – Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described as follows.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is used to account and report for all financial resources, except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund The bond retirement fund accounts for and reports property tax and intergovernmental revenues that are restricted for payment of principal and interest and fiscal charges on general obligation debt.

Capital Improvements Fund The capital improvements fund is used to account for and report restricted resources used for the acquisition or construction of major capital facilities.

Building Fund The building fund is used to account for and report restricted locally funded initiatives (LFI) used for the building, restoration, and improvement of the School District property as they relate to the Ohio Facility Construction Commission projects.

Classroom Facilities Fund The classroom facilities fund is used to account for and report restricted grants and debt proceeds used for the building, restoration, and improvement of the School District property as they relate to the Ohio Facility Construction Commission projects.

The other governmental funds of the School District account for grants and other resources whose uses are restricted, committed, or assigned to a particular purpose.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows and are classified as either enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund The internal service fund accounts and reports for financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund is a self insurance fund that accounts for dental, vision and health benefits of the School District's employees.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are distinguished from agency funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. The School District has no trust funds. Agency funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District's agency funds account for and report student activities and competitions and tournaments hosted by the School Disrict.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the fund is included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its internal service fund activity.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – **Exchange and Non-exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 7). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, grants, interest, and tuition and fees.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and pension and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 22 and 23.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include deferred gains on refunding, property taxes, payment in lieu of taxes, pension and OPEB plans, and unavailable revenue. Property taxes and payment in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Deferred gains on refunding represent the difference between the requisition price and the net carrying amount of the School District refunded debt. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental revenue, and tuition and fees. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities found on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see Notes 22 and 23).

Expenditures/Expenses On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. Budgetary modifications at this level require a resolution of the Board of Education. The Treasurer has been given authority to allocate Board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that were in effect at the time the original and final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2020, investments were limited to federal home loan bank bonds, federal home loan mortgage corporation bonds, federal national mortgage association bonds, federal farm credit bank bonds, negotiable certificates of deposit, commercial paper, treasury notes, first American treasury obligation fund accounts, a money market account, repurchase agreements, and STAR Ohio, the State Treasurer's Investment Pool. Investments are reported at fair value except for STAR Ohio, repurchase agreements and commercial paper. The School District's repurchase agreements are reported at cost and commercial paper is measured at amortized cost, as it is a highly liquid debt instrument with a remaining maturity at the time of purchase of less than one year.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates; however, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transactions to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2020 amounted to \$4,795,599, which includes \$424,145 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Inventory

Materials and supplies inventory is reported at cost, while inventory held for resale is presented at the lower of cost or market value, and donated commodities are presented at their entitlement value. Inventories are presented on a first-in, first-out basis and are expended/expensed when used. Inventories consist of materials and supplies held for consumption and donated and purchased food held for resale.

Capital Assets

The School District's capital assets are classified as general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars and a useful life of at least five years. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	10 - 20 years
Buildings and Improvements	5 - 45 years
Furniture and Equipment	5 - 20 years
Vehicles	8 - 13 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the School District's termination policy.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the proprietary fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds; however, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plans' fiduciary net position are not sufficient for payment of those benefits. Bonds are recognized as a liability on the fund financial statements when due.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance includes the remaining amount that is not restricted or committed. These assigned balances are established by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution or by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order, provided such amounts have been lawfully appropriated. The School District Board of Education also assigned fund balance to cover a gap between fiscal year 2021's estimated revenue and appropriated budget and for uniform school supplies and vocational rotary.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are charges for services for the self insurance program. Operating expenses are necessary costs that are incurred to provide the goods or services that is the primary activity of the fund. Any revenues and expenses not meeting the definitions of operating are reported as non-operating.

Bond Premiums and Discounts

On the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. On fund financial statements, bond premiums are receipted in the year the bonds are issued. On the government-wide financial statements, bond discounts are presented as a decrease of the face amount of the general obligation bonds payable. On the fund financial statements, bond discounts are expended in the year the bonds are issued.

Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent.

Deferred Charge (Gain) on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources or deferred inflows of resources on the statement of net position.

Internal Activity

Transfers between governmental funds are eliminated on the government-wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform with the presentation in the current year financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 3 – Changes in Accounting Principles

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The School District evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For fiscal year 2020, the School District implemented the Governmental Accounting Standards Board's (GASB) *Implementation Guide No. 2018-1*. These changes were incorporated in the School District's 2020 financial statements; however, there was no effect on beginning net position/fund balance.

Note 4 – Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The statement of revenues, expenditures and changes in fund balance – budget (non-GAAP basis) and actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Advances In and Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
- 3. Investments are reported at cost (budget) rather than fair value (GAAP).
- 4. Unrecorded cash represents amounts received but not reported by the School District on the operating statements (budget), but which is reported on the GAAP basis operating statements.
- 5. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 6. Encumbrances are treated as expenditures (budget) rather than as restricted, committed, or assigned (GAAP).
- 7. Budgetary revenues and expenditures of the public school support funds are classified to general fund for GAAP reporting.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund:

Net Change in Fund Balance

GAAP Basis	(\$21,024,383)
Net Adjustment for Revenue Accruals	34,712,147
Advances In	2,067,201
Advances Out	(1,287,601)
Beginning Fair Value Adjustment for Investments	340,898
Ending Fair Value Adjustment for Investments	(117,565)
Beginning Unrecorded Cash	308,502
Ending Unrecorded Cash	(96,718)
Net Adjustment for Expenditure Accruals	4,531,608
Encumbrances	(4,949,466)
Perspective Difference:	
Public School Support	(106,894)
Budget Basis	\$14,377,729

Note 5 – Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active deposits are public deposits determined to be necessary to meet current demands upon the School District treasury. Active deposits must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim monies available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial Credit Risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2020, \$709,345 of the School District's total bank balance of \$7,765,115 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. One of the School District's financial institutions participates in the Ohio Pooled Collateral System (OPCS) and was approved for a reduced collateral floor of 50 percent resulting in the uninsured and uncollateralized balance.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2020, the School District had the following investments:

	Measurement		Standard & Poor's	Percent of Total
Measurement/Investment	Amount	Maturity	Rating	Investments
Cost:				
Repurchase Agreements	\$16,384,702	Less Than One Year	N/A	N/A
Amortized Cost:				
Commercial Paper	10,347,032	Less Than One Year	A-1 - A1+	N/A
Net Asset Value Per Share:				
STAR Ohio	131,252,318	Less Than One Year	AAAm	N/A
Fair Value - Level 1 Input:				
First American Treasury Obligation Fund	141,972	Less Than One Year	AAAm	N/A
Fair Value - Level 2 Inputs:				
Federal Home Loan Bank Bonds	7,897,829	Less Than Two Years	AA+	N/A
Federal Home Loan Mortgage Corporation Bonds	13,036,702	Less Than Three Years	AA+	N/A
Federal National Mortgage Association Bonds	9,191,561	Less Than Two Years	AA+	N/A
Federal Farm Credit Bank Bonds	71,122,551	Less Than Three Years	AA+	19.18 %
Negotiable Certificates of Deposit	215,348	Less Than One Year	N/A	N/A
Treasury Notes	84,817,935	Less Than Three Years	A-1+	22.88
Money Market Account	26,379,211	Less Than One Year	N/A	7.11
Total Investments	\$370,787,161	:		

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The preceding chart identifies the School District's recurring fair value measurements as of June 30, 2020. The first American treasury obligation fund account is measured at fair value and is valued using quoted market prices (Level 1 inputs). The School District's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data (Level 2 inputs).

The School District has adopted a formal investment policy. There are two investment objectives: safety of principal and compliance with all federal and state laws.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the School District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that addresses credit risk.

Concentration of Credit Risk The School District places no limit on the amount it may invest in any one issuer.

Note 6 – Fund Deficits

At fiscal year-end, the School District had unassigned fund deficits in the following funds:

Fund	Deficit
All State Grants	\$22,737
All Federal Grants	177,762

These deficits resulted from adjustments for accrued liabilities. The general fund is liable for any deficits in these funds and provides transfers when cash is required, rather than when accruals occur.

Note 7 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax distributions are received by the School District in the second half of the fiscal year. Second half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility located in the School District. Real property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State statute at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2020 represent the collections of calendar year 2019 taxes. Public utility real taxes received in calendar year 2020 became a lien December 31, 2018, were levied after April 1, 2019 and are collected in calendar year 2020 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

The School District receives property taxes from Franklin and Pickaway Counties. The County Auditors periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents the real property and public utility property taxes which were measurable as of June 30, 2020, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at June 30, 2020 was \$6,992,005 in the general fund, \$1,067,713 in the bond retirement debt service fund, \$242,783 in the capital improvements capital projects fund, and \$30,890 in the classroom facilities maintenance special revenue fund. The amount available as an advance at June 30, 2019 was \$43,193,673 in the general fund, \$6,344,272 in the bond retirement debt service fund, and \$1,849,764 in the capital improvements capital projects fund. The difference was in the timing and collection by the County Auditors.

Collectible delinquent property taxes have been recorded as a receivable and revenue on a full accrual basis. On a modified accrual basis, the revenue has been reported as deferred inflows of resources – unavailable revenue.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Sec Half Colle		2020 First Half Collections		
	Amount	Percent	Amount	Percent	
Real Estate Public Utility Personal	\$2,614,172,240 151,805,130	94.51 % 5.49	\$2,662,063,460 164,695,690	94.17 % 5.83	
Total	\$2,765,977,370	100.00 %	\$2,826,759,150	100.00 %	
Tax Rate per \$1,000 of Assessed Valuation	\$73.15	5	\$73.15		

Note 8 – Tax Abatements

School District property taxes were reduced under multiple Community Reinvestment Area (CRA) and Enterprise Zone agreements entered into by an overlapping government. As a result of the agreements, the School District had the following taxes abated for fiscal year 2020:

	Amount of
Overlapping Governments	Taxes Abated
Community Reinvestment Area Agreements:	
City of Grove City	\$3,405,642
Village of Urbancrest	1,016,756
Enterprise Zone Agreement:	
City of Columbus	649,562

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

The CRA abatements will last between 10 to 15 years with a 50 to 100 percent abatement of property taxes depending on the agreement. All Enterprise Zone abatements will last for 10 years with a 75 to 100 percent abatement of property taxes depending on the agreement.

Pursuant to Section 5709.82 of the Ohio Revised Code, the City of Grove City, the City of Columbus, the Village of Urbancrest, and the South-Western School District, created various CRA compensation agreements. These agreements include various reimbursement percentages (30, 15, and 10 percent), and require municipal income tax revenue sharing with the School District when new income tax collections exceed \$1 million dollars and the corresponding CRA abatement percentage on the project is greater than 50 percent. The following are the required amounts of income tax dollars received by the School District in fiscal year 2020:

Amount of
Overlapping Government
Enterprise Zone Agreement:
City of Columbus

Amount of
Taxes Abated

\$66,270

Note 9 – Payments in Lieu of Taxes

The School District is party to Tax Increment Financing (TIF) agreements. Municipalities, townships and counties can enter into TIF agreements, which lock in real property at its unimproved value for up to 30 years in a defined TIF district. Some TIF agreements also require the TIF government to allocate service payments to the School District and other governments to help offset the property tax these governments would have received had the improvements to real property not been exempted. The service payments that the School District receives as part of the TIF agreements are presented on the financial statements as payment in lieu of taxes.

Note 10 – Receivables

Receivables at June 30, 2020, consisted of taxes, payment in lieu of taxes, accounts (rent and student fees), interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current fiscal year guarantee of Federal funds. All receivables, except for delinquent property taxes and the OFCC grant, are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

In November of 2019, the School District signed an agreement with the Ohio Facilities Construction Commission (OFCC) to build four new middle schools and to renovate another. Under this agreement, the State share is \$61,063,864 and the local share is \$61,063,864. This receivable will not be collected within one year. \$59,406,424 is the outstanding balance of the State share portion.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

At June 30, 2020, the School District had the following intergovernmental receivables:

	Amount
Governmental Activities:	
Ohio Facilities Construction Commission	\$59,406,424
Title I Grant	3,498,256
Foundation	1,094,117
Title VI-B Grant	961,923
Other Reimbursements	646,708
Food Service Grants	486,871
Class Size Reduction Grant	393,316
Immigrant Education Grant	173,866
Miscellaneous Federal Grants	154,775
Carl D. Perkins Grant	98,931
Title I School Improvement Grant	87,683
Project Head Start Grant	61,051
Miscellaneous State Grants	43,334
Public Preschool Grant	16,000
Total Intergovernmental Receivable	\$67,123,255

Note 11 – Interfund Transactions

Interfund Transfers

The general fund made transfers of \$500,000 and \$409,027 to the bond retirement debt service fund and other governmental funds, respectively. The transfer to the bond retirement was made to provide funding for debt service payments and the transfer to other governmental funds was to provide funding for various programs. Also, the bond retirement debt service fund transferred \$9,500,000 to the building capital projects fund in order to retire the short-term fund liability during fiscal year 2020.

Interfund Balances

The advance of \$1,287,601 from the general fund to the other governmental funds was made to support the activities of those funds due to the timing of grant collections. The balances are anticipated to be repaid within one year.

Note 12 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

South-Western City School District *Notes to the Basic Financial Statements* For the Fiscal Year Ended June 30, 2020

Fund Balances	General	Bond Retirement	Capital Improvements	Building	Classroom Facilities	Other Governmental Funds	Total
Nonspendable:							
Inventory	\$390,687	\$0	\$0	\$0	\$0	\$64,161	\$454,848
Restricted for:

South-Western City School District *Notes to the Basic Financial Statements* For the Fiscal Year Ended June 30, 2020

Note 13 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance 06/30/19	Additions	Deductions	Balance 06/30/20
Capital Assets not being Depreciated: Land Construction in Progress	\$8,678,711 4,311,497	\$162,357 8,929,523	\$0 (7,999,106)	\$8,841,068 5,241,914
Total Capital Assets not being Depreciated	12,990,208	9,091,880	(7,999,106)	14,082,982
Capital Assets being Depreciated: Land Improvements Buildings and Improvements Furniture and Equipment Vehicles	37,731,700 412,754,829 11,630,947 18,825,637	125,351 8,562,273 296,003 1,393,207	0 0 (87,618) (1,210,474)	37,857,051 421,317,102 11,839,332 19,008,370
Total Capital Assets being Depreciated	480,943,113	10,376,834	(1,298,092)	490,021,855
Less Accumulated Depreciation: Land Improvements Buildings and Improvements Furniture and Equipment Vehicles	(8,974,729) (130,769,572) (7,462,504) (11,425,621)	(1,903,083) (10,870,617) (595,252) (1,091,494)	0 0 56,956 1,197,824	(10,877,812) (141,640,189) (8,000,800) (11,319,291)
Total Accumulated Depreciation	(158,632,426)	(14,460,446) *	1,254,780	(171,838,092)
Total Assets being Depreciated, Net	322,310,687	(4,083,612)	(43,312)	318,183,763
Governmental Activities Capital Assets, Net	\$335,300,895	\$5,008,268	(\$8,042,418)	\$332,266,745

^{*} Depreciation expense was charged to governmental activities as follows:

Instruction:	
Regular	\$10,904,551
Special	15,935
Vocational	568,137
Support Services:	
Pupil	687
Instructional Staff	3,213
Administration	214,573
Business	5,543
Operation and Maintenance of Plant	227,698
Pupil Transportation	1,017,631
Central	773,202
Operation of Non-Instructional Services	133,082
Operation of Food Service	188,745
Extracurricular Activities	407,449
Total Depreciation Expense	\$14,460,446

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 14 – Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Twelve month classified employees and administrators earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to employees at the end of each contract year, depending upon negotiated agreements, or upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one fourth days per month. A percentage of unused sick time is paid at retirement. All employees who are eligible to retire receive a severance benefit upon retirement limited to what is specified in the respective employment agreements.

Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees from American United Life Insurance Company through the Ohio School Council.

Note 15 – Short-Term Obligation

A summary of the short-term note transactions for the fiscal year ended June 30, 2020 is as follows:

	Principal			Principal
	Outstanding			Outstanding
	06/30/19	Additions	Deductions	06/30/20
Governmental Activities				
School Facilities Construction and				
Improvement Notes, Series 2019	\$9,500,000	\$0	\$9,500,000	\$0

The notes were issued in anticipation of long-term bond financing and were backed by the full faith and credit of the School District. The notes carried an interest rate of 2.006 percent and matured on December 5, 2019.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 16 – Long-Term Obligations

Changes in long-term obligations of the School District during fiscal year 2020 were as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

On August 14, 2012, the School District issued \$140,250,000 in school facilities bonds, which included serial and term bonds in the amounts of \$73,210,000 and \$67,040,000, respectively. The bonds were issued for the purpose of constructing, furnishing, equipping, and constructing additions to existing school facilities. The serial bonds have interest rates ranging from 3.00 to 4.50 percent and a maturity date of December 1, 2032. The term bonds have interest rates ranging from 3.50 to 5.00 percent and a final maturity date of December 1, 2042. At June 30, 2020, the School District had \$8,917 in unspent proceeds related to this issuance.

<u>Optional Redemption</u> The term bonds maturing on or after December 1, 2022 are subject to redemption at the option of the School District, either in whole, or in part, in such order of maturity as the School District shall determine, on any date on or after June 1, 2022, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

<u>Mandatory Sinking Fund Redemption</u> The term bonds maturing on December 1, 2038 are subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

	Issue
Year	\$13,665,000
2037	\$6,715,000
Stated Maturity	12/1/2038

The remaining principal amount of the term bonds (\$6,950,000) will mature at the stated maturity.

On August 3, 2016, the School District issued \$35,800,000 in refunding general obligation bonds. The bonds were issued for the purpose of partially refunding the 2006 refunding school facilities bonds. The serial bonds have interest rates ranging from 3.00 to 5.00 percent and a maturity date of December 1, 2026. The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the School District's financial statements. On June 30, 2020, \$30,725,000 of the defeased bonds are still outstanding.

On December 5, 2017, the School District issued \$10,000,000 in refunding general obligation bonds, which included serial and term bonds in the amounts of \$1,750,000 and \$8,250,000, respectively. The bonds were issued for the purpose of partially refunding the 2012 school facilities bonds. The serial bonds had an interest rate of 2.00 percent and matured on December 1, 2018. The term bonds have an interest rate of 3.00 percent and a maturity date of December 1, 2036. The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the School District's financial statements. On June 30, 2020, \$10,000,000 of the defeased bonds are still outstanding.

<u>Optional Redemption</u> The term bonds maturing on or after December 1, 2027 are subject to redemption at the option of the School District, either in whole, or in part, in such order of maturity as the School District shall determine, on any date on or after December 1, 2027, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

<u>Mandatory Sinking Fund Redemption</u> The term bonds maturing on December 1, 2036 are subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

	Issue
Year	\$8,250,000
2035	\$2,780,000
Stated Maturity	12/1/2036

The remaining principal amount of the term bonds (\$5,470,000) will mature at the stated maturity.

On September 17, 2019, the School District issued \$83,900,000 in 2019A school facilities bonds, which included serial and term bonds in the amounts of \$37,250,000 and \$46,650,000, respectively. The bonds were issued for the purpose of constructing, furnishing, and equipping new school facilities and renovating, repairing, improving, furnishing, equipping, and constructing additions to existing school facilities, buildings, and infrastructure. The serial bonds have interest rates ranging from 2.00 to 4.00 percent and a maturity date of December 1, 2042. The term bonds have interest rates ranging from 3.00 to 4.00 percent and a final maturity date of December 1, 2053. At June 30, 2020, the School District had \$82,650,000 in unspent proceeds related to this issuance.

<u>Optional Redemption</u> The term bonds maturing on or after December 1, 2029 are subject to redemption at the option of the School District, either in whole, or in part, in such order of maturity as the School District shall determine, on any date on or after December 1, 2029, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

<u>Mandatory Sinking Fund Redemption</u> The term bonds maturing on December 1, 2044, 2048 and 2053, respectively, are subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

	Issue			
Year	\$6,140,000	\$16,450,000	\$24,060,000	
2043	\$3,025,000	\$0	\$0	
2045	0	3,875,000	0	
2046	0	4,030,000	0	
2047	0	4,190,000	0	
2049	0	0	4,535,000	
2050	0	0	4,665,000	
2051	0	0	4,810,000	
2052	0	0	4,950,000	
	\$3,025,000	\$12,095,000	\$18,960,000	
Stated Maturity	12/1/2044	12/1/2048	12/1/2053	

The remaining principal amount of the term bonds (\$3,115,000, \$4,355,000, and \$5,100,000) will mature at the stated maturity.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

On October 3, 2019, the School District issued \$8,870,000 in 2019B school facilities bonds, which included serial and term bonds in the amounts of \$7,060,000 and \$1,810,000, respectively. The bonds were issued for the purpose of constructing, furnishing, and equipping new school facilities and renovating, repairing, improving, furnishing, equipping, and constructing additions to existing school facilities, buildings, and infrastructure. The serial bonds have interest rates ranging from 3.00 to 4.00 percent and a maturity date of December 1, 2041. The term bonds have an interest rate of 3.00 percent and a final maturity date of December 1, 2044. At June 30, 2020, the School District had \$2,747,249 in unspent proceeds related to this issuance.

<u>Optional Redemption</u> The term bonds maturing on or after December 1, 2029 are subject to redemption at the option of the School District, either in whole, or in part, in such order of maturity as the School District shall determine, on any date on or after December 1, 2029, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

<u>Mandatory Sinking Fund Redemption</u> The term bonds maturing on December 1, 2044 are subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

	Issue	
Year	\$1,810,000	
2042	\$585,000	
2043	605,000	
	\$1,190,000	
Stated Maturity	12/1/2044	

The remaining principal amount of the term bonds (\$620,000) will mature at the stated maturity.

On October 3, 2019, the School District issued \$71,204,962 in 2019C school facilities bonds, which included serial, term, and capital appreciation bonds in the amounts of \$48,995,000, \$22,075,000, and \$134,962, respectively. The bonds were issued for the purpose of partially refunding the 2012 school facilities bonds. The serial bonds have interest rates ranging from 1.919 to 3.032 percent and a maturity date of December 1, 2035. The term bonds have an interest rate of 3.316 percent and a final maturity date of December 1, 2042.

The serial and capital appreciation bonds remained outstanding at June 30, 2020. The capital appreciation bonds were originally sold at a discount of \$6,405,038, which is being accreted annually until the point of maturity of the capital appreciation bonds, which is 2020 through 2028. The maturity amount of outstanding capital appreciation bonds at June 30, 2020 is \$6,540,000. The accretion recorded for 2020 was \$46,065, for a total outstanding bond liability of \$181,027 at June 30, 2020.

<u>Optional Redemption</u> The term bonds maturing on or after December 1, 2029 are subject to redemption at the option of the School District, either in whole, or in part, in such order of maturity as the School District shall determine, on any date on or after December 1, 2029, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

<u>Mandatory Sinking Fund Redemption</u> The term bonds maturing on December 1, 2042 are subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

	Issue
Year	\$22,075,000
2036	\$445,000
2037	460,000
2038	475,000
2039	7,685,000
2040	7,940,000
2041	3,015,000
	\$20,020,000
Stated Maturity	12/1/2042

The remaining principal amount of the term bonds (\$2,055,000) will mature at the stated maturity.

Net proceeds of 2019C refunding bonds were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded portion of the 2012 school facilities bonds. As a result, \$73,818,303 of the 2012 school facilities bonds was considered defeased and the liability for the refunded bonds has been removed from the School District's financial statements. At June 30, 2020, \$33,295,000 of the defeased bonds are still outstanding. The refunding resulted in a total debt service savings of \$11,618,216. The School District also incurred an economic gain (difference between the present values of the old and new debt service payments) of \$6,623,808 and incurred a difference on refunding of (\$3,330,974) (difference between amount paid to bond escrow agent and the refunding amount), that will be amortized over the shorter of the life of the refunded bonds or the refunding bonds, which is shown in the following table:

2012 School Facilities Bonds Refunded:

Refunded Amount:	
Current Interest Serial Bonds	\$27,830,000
Current Interest Term Bonds	43,375,000
Unamortized Premium	2,613,303
Total Amount Refunded	73,818,303
Amount Paid to Refunded Bond Escrow Agent	(77,149,277)
2020 Refunding Difference	(\$3,330,974)
·	

An analysis of the principal refunding follows:

2012 School Facilities Bonds Refunded:

Outstanding at June 30, 2019	\$109,155,000
Principal Payment	(4,655,000)
Amount Refunded	(71,205,000)
Outstanding at June 30, 2020	\$33,295,000

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

On May 3, 2011, the School District issued \$6,670,000 in energy conservation bonds with an interest rate of 5.60 percent and a maturity date of December 1, 2025. The bonds were issued for the purpose of purchasing and installing energy conservation measures and were issued under House Bill 164 Energy Conservation Bond legislation.

The School District's overall debt margin was \$19,243,362 with an unvoted debt margin of \$2,826,759 at June 30, 2020. Principal and interest requirements to retire the general obligation and energy conservation bonds follows:

General Obligation Bonds				Energy Conserv	vation Bonds			
	Ser	ial	Ter	m	Capital App	reciation		
Fiscal Year	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
2021	\$9,875,000	\$7,403,478	\$0	\$247,500	\$0	\$0	\$0	\$373,520
2022	9,825,000	6,999,563	0	247,500	0	0	0	373,520

2046-2050	0	0	20,985,000	4,888,975	0	0	0	0
2051-2054	0	0	19,525,000	1,193,175	0	0	0	0
Total	\$135,910,000	\$86,216,879	\$92,450,000	\$18,644,816	\$134,962	\$6,405,038	\$6,670,000	\$2,054,360

The general obligation bonds and energy conservation bonds will be paid from the bond retirement fund. Compensated absences will be paid from the general fund and the food service and various State and Federal grant special revenue funds. There is no repayment schedule for the net pension liability and the net OPEB liability; however, employer pension and OPEB contributions are made from the general fund and the food service and various State and Federal grant special revenue funds. For additional information related to the net pension liability and the net OPEB liability, see Notes 22 and 23.

Note 17 – Risk Management

Property and Liability

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, workers' compensation as well as medical benefits provided to employees, and the School District has purchased commercial insurance for property loss, torts, errors and omissions, workers' compensation, health, life, dental and vision insurance claims. During fiscal year 2020, the School District contracted with various insurance companies through the Ohio School Plan insurance program. The following is a summary of the School District's insurance coverage as of June 30, 2020:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Company	Coverage	Amount
Hylant Insurance	Buildings and Contents - Replacement Costs	\$661,628,738
•	General Liability:	
	Per occurrence	1,000,000
	Total per year	2,000,000
	Crime Insurance	100,000
	Automobile Liability	2,000,000
	Uninsured Motorists	Not Covered
Ohio School Plan	Cyber:	
	Per occurrence	1,000,000
	Total per year	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from the prior year.

Self Insurance

The School District provides health, dental, and vision benefits for its employees and their covered dependents through its self insurance fund. Aetna, Delta Dental, and Vision Service Plan (VSP) administer the plans, respectively, and review all claims paid by the School District. A specific excess loss coverage (stop-loss) insurance policy covers health claims in excess of \$225,000 per employee, per year.

The claims liability of \$3,208,706 reported in the internal service fund at June 30, 2020, is based on an estimate provided by the third party administrators and the requirements of GASB Statement No. 30 "Risk Financing Omnibus", which requires that a liability for unpaid claims cost, including estimates of cost relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claims adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Management's expectation is the claims liabilities will be paid within one year. Changes in the fund's claims liability amount in 2019 and 2020 were as follows:

Fiscal	Beginning	Current Year	Claim	Ending
Year	Balance	Claims	Payments	Balance
2019	\$2,963,000	\$31,420,100	\$31,041,000	\$3,342,100
2020	3,342,100	30,410,703	30,544,097	3,208,706

Workers' Compensation

The School District pays the Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 18 – Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds; however, in the opinion of management, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2020, if applicable, cannot be determined at this time.

School Foundation

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2020 financial statement impact is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the School District.

Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

Note 19 – Jointly Governed Organization

Metropolitan Educational Technology Association (META)

The School District is a participant in the Metropolitan Educational Technology Association (META), which is a computer consortium. META is an educational solutions partner providing services across Ohio. META provides cost-effective fiscal, network, technology and student services, a purchasing cooperative and other individual services based on each clients' needs.

The governing board of META consists of a president, vice president and six board members who represent the members of META. The Board works with META's Chief Executive Officer, and Chief Financial Officer to manage operations and ensure the continued progress of the organization's mission, vision and values. The Board exercises total control over the operations of the Association including budgeting, appropriating, contracting and designating management. Each School District's degree of control is limited to its representation on the Board. In fiscal year 2020, the School District paid \$264,205 to META. Financial information can be obtained from META Solutions, Treasurer, 100 Executive Drive, Marion, Ohio 43302.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Note 20 – Set-Aside Calculation

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. These amounts must be carried forward to be used for the same purposes in future years.

The following cash basis information describes the changes in the fiscal year-end set-aside amounts for capital acquisitions. Disclosure of this information is required by the State statute.

	Capital
	Acquisition
Set-aside Balance as of June 30, 2019	\$0
Current Year Set-aside Requirement	3,976,964
Current Year Offsets - Capital Improvements Fund	(4,134,953)
Current Year Offsets - Classroom Facilities Maintenance Fund	(822,780)
Qualifying Disbursements	(2,827,403)
Totals	(\$3,808,172)
Set-aside Balance Carried Forward to Future Fiscal Years	\$0
Set-aside Balance as of June 30, 2020	\$0

Although the School District had qualifying disbursements during the fiscal year that reduced the capital acquisition set-aside amounts below zero, these amounts will not be used to reduce the set-aside requirements of future years.

Note 21 – Significant Commitments

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year-end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

Covernmental.

Governmentat:	
General	\$4,949,466
Capital Improvements	1,617,580
Building	4,516,101
Classroom Facilities	6,451,928
Other Governmental Funds	1,158,072
Total	\$18,693,147

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Contractual Commitments

At June 30, 3020, the various projects within the School District had contractual commitments consisting of the following:

Project	Contract Amount	Amount Paid	Remaining on Contract
Darby Woods Elementary Renovation	\$2,227,552	\$963,668	\$1,263,884
Preschool Roof Replacement	240,000	72,969	167,031
East Franklin Elementary Renovations	5,676,851	1,120,692	4,556,159
OFCC Segment II Pre-construction and Design	6,477,828	2,245,237	4,232,591
Total	\$14,622,231	\$4,402,566	\$10,219,665

The amounts remaining on these contracts were encumbered at year end. The amount of \$1,220,851 in contracts payable has been capitalized.

Note 22 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liabilities (asset) represent the School District's proportionate share of each pension/OPEB plans' collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plans' fiduciary net position. The net pension/OPEB liabilities (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the School District's obligation for these liabilities to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 both assume the liabilities are solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liabilities (asset). Resulting adjustments to the net pension/OPEB liabilities (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liabilities* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 23 for the required OPEB disclosures.

Plan Description – School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$5,184,432 for fiscal year 2020. Of this amount \$479,282 is reported as an intergovernmental payable.

Plan Description – State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a standalone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$18,583,650 for fiscal year 2020. Of this amount \$2,800,989 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the Net Pension Liability:			
Prior Measurement Date	1.04434530%	1.07464663%	
Current Measurement Date	1.01685361%	1.09036745%	
		_	
Change in Proportionate Share	-0.02749169%	0.01572082%	
Proportionate Share of the Net Pension Liability	\$60,840,134	\$241,128,209	\$301,968,343
Pension Expense	\$9,539,361	\$38,764,612	\$48,303,973

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$1,542,772	\$1,963,185	\$3,505,957
Changes of assumptions	0	28,325,164	28,325,164
Changes in proportionate share and difference between School			
District contributions and proportionate share of contributions	454,137	7,516,152	7,970,289
School District contributions subsequent to the measurement date	5,184,432	18,583,650	23,768,082
Total Deferred Outflows of Resources	\$7,181,341	\$56,388,151	\$63,569,492
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$1,043,797	\$1,043,797
Net difference between projected and			
actual earnings on pension plan investments	780,957	11,785,040	12,565,997
Changes in proportionate share and difference between School			
District contributions and proportionate share of contributions	1,330,459	0	1,330,459
Total Deferred Inflows of Resources	\$2,111,416	\$12,828,837	\$14,940,253

\$23,768,082 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:		_	
2021	\$1,131,182	\$18,361,004	\$19,492,186
2022	(1,636,618)	5,056,592	3,419,974
2023	(51,968)	(365,606)	(417,574)
2024	442,897	1,923,674	2,366,571
Total	(\$114,507)	\$24,975,664	\$24,861,157

Actuarial Assumptions – SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented as follows:

Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA
Investment Rate of Return

Actuarial Cost Method

3.00 percent
3.50 percent to 18.20 percent
2.5 percent
7.50 percent net of investment expense, including inflation
Entry Age Normal
(Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members; therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
School District's proportionate share			
of the net pension liability	\$85,258,779	\$60,840,134	\$40,362,045

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented as follows:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to
	2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment
	expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{*} Target weights will be phased in over a 24-month period concluding on July 1, 2019.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019; therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

^{** 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.45%)	(7.45%)	(8.45%)
School District's proportionate share			
of the net pension liability	\$352,382,014	\$241,128,209	\$146,946,163

Note 23 – Defined Benefit OPEB Plans

See Note 22 for a description of the net OPEB liability (asset).

Plan Description – School Employees Retirement System (SERS)

Health Care Plan Description – The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides health care benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For fiscal year 2020, the School District's surcharge obligation was \$337,514.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$337,514 for fiscal year 2020, all of which is reported as an intergovernmental payable.

Plan Description – State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

	SERS	STRS	Total
Proportion of the Net OPEB Liability (Asset):			
Prior Measurement Date	1.05676150%	1.07464663%	
Current Measurement Date	1.00182896%	1.09036745%	
Change in Proportionate Share	-0.05493254%	0.01572082%	
Proportionate Share of the:			
Net OPEB Liability	\$25,193,892	\$0	\$25,193,892
Net OPEB (Asset)	\$0	(\$18,059,102)	(\$18,059,102)
OPEB Expense	\$401,283	(\$5,279,942)	(\$4,878,659)

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$369,825	\$1,637,187	\$2,007,012
Changes of assumptions	1,840,127	379,601	2,219,728
Net difference between projected and			
actual earnings on OPEB plan investments	60,475	0	60,475
Changes in proportionate share and difference between School			
District contributions and proportionate share of contributions	685,147	1,260,225	1,945,372
School District contributions subsequent to the measurement date	337,514	0	337,514
Total Deferred Outflows of Resources	\$3,293,088	\$3,277,013	\$6,570,101
Deferred Inflows of Resources			
Differences between expected and actual experience	\$5,534,927	\$918,777	\$6,453,704
Changes of assumptions	1,411,791	19,799,688	21,211,479
Net difference between projected and			
actual earnings on OPEB plan investments	0	1,134,244	1,134,244
Changes in proportionate share and difference between School			
District contributions and proportionate share of contributions	1,790,839	0	1,790,839
Total Deferred Inflows of Resources	\$8,737,557	\$21,852,709	\$30,590,266

\$337,514 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Fiscal Year Ending June 30:	SERS	STRS	Total
2021	(\$1,796,068)	(\$4,061,816)	(\$5,857,884)
2022	(875,968)	(4,061,827)	(4,937,795)
2023	(858,217)	(3,607,242)	(4,465,459)
2024	(861,105)	(3,447,765)	(4,308,870)
2025	(929,188)	(3,464,098)	(4,393,286)
Thereafter	(461,437)	67,052	(394,385)
Total	(\$5,781,983)	(\$18,575,696)	(\$24,357,679)

Actuarial Assumptions – SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented as follows:

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense,	
including price inflation:	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption:	
Pre-Medicare	7.00 to 4.75 percent
Medicare	5.25 to 4.75 percent

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan (see Note 22).

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025; therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

	Current		
	1% Decrease	Discount Rate	1% Increase
	(2.22%)	(3.22%)	(4.22%)
School District's proportionate share			
of the net OPEB liability	\$30,580,606	\$25,193,892	\$20,910,823

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

		Current	
	1% Decrease	Trend Rate	1% Increase
	(6.00 % decreasing	(7.00 % decreasing	(8.00 % decreasing
	to 3.75%)	to 4.75%)	to 5.75%)
School District's proportionate share			
of the net OPEB liability	\$20,185,410	\$25,193,892	\$31,838,933

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented as follows:

Projected salary increases 12.50 percent at age 20 to 2.50 percent at age 65

Investment Rate of Return 7.45 percent, net of investment expenses, including inflation

Payroll Increases 3 percent
Discount Rate of Return 7.45 percent

Health Care Cost Trends:

Medical:

Pre-Medicare 5.87 percent initial, 4 percent ultimate Medicare 4.93 percent initial, 4 percent ultimate

Prescription Drug:

Pre-Medicare 7.73 percent initial, 4 percent ultimate Medicare 9.62 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan (see Note 22).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2020

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019; therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

		Current	
	1% Decrease	Discount Rate	1% Increase
_	(6.45%)	(7.45%)	(8.45%)
School District's proportionate share			
of the net OPEB asset	(\$15,409,847)	(\$18,059,102)	(\$20,286,504)
		Current	
_	1% Decrease	Trend Rate	1% Increase
School District's proportionate share			_
of the net OPEB asset	(\$20,478,191)	(\$18,059,102)	(\$15,096,301)

Note 24 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the School District. The School District's investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District's future operating costs, revenues, and any recovery from emergency funding, either Federal or State, cannot be estimated.

Net Pension Liability

Changes in Assumptions – SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc COLA. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented as follows:

	Fiscal Year 2017	Fiscal Year 2016 and Prior
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases,		
including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes in Assumptions – STRS

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented as follows:

	Fiscal Year 2018	Fiscal Year 2017 and Prior
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to	12.25 percent at age 20 to
	2.50 percent at age 65	2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, ,2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2020

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022 – Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Net OPEB Liability (Asset)

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

Municipal Bond Index Rate:	
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense,	
including price inflation:	
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74*, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2020

Changes in Benefit Terms – STRS

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

Combining and Individual Fund Statements and Schedules

Combining Statements – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Following is a description of the School District's nonmajor special revenue funds:

Food Service Fund – To account for and report restricted grants and charges for services related to the food service operations of the School District.

Other Grants Fund – To account for and report restricted funds for specified purposes other than state and federal grants.

Classroom Facilities Maintenance Fund – To account for and report restricted property taxes for the maintenance and upkeep of classroom facilities.

District Managed Student Activities Fund – To account for and report restricted funds that belong to the student bodies of the various schools, related to sales and other revenue generating activities to support extracurricular activities.

All State Grants Fund – To account for and report restricted grant monies from the State appropriated for miscellaneous purposes, which include auxiliary services, early childhood education, data connectivity student wellness and success, and other State grants.

All Federal Grants Fund – This fund accounts for and reports restricted monies received through State agencies from the Federal government or directly from the Federal government which are not classified elsewhere. These programs include the elementary and secondary school emergency relief, IDEA B, Carl D. Perkins, project head start, title I school improvement, title III, refugee children school impact act, title I, IDEA preschool grant for the handicapped, improving teacher quality, and other Federal grants.

Public School Support Fund – To account for and report specific local revenue sources, other than taxes or expendable trusts, (i.e. profits from vending machines, sale of pictures, etc.), that are committed to expenditures of specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases. These funds have been established at each school and at certain administrative centers for the purposes described above. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Combining Statements – Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into the following four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the School District's own programs. Agency funds are used to report fiduciary activities that are not required to be reported in a trust fund. These funds do not account for the School District's own source revenue. The following are descriptions of the School District's agency funds:

Agency Funds

Student Activity Fund This fund reflects resources that are held for those student activity programs, which have student participation in the activity and have students involved in the management of the programs.

District Competition Host Agency Fund This fund reflects resources that are held for those competitions and tournaments hosted by the School District on behalf of outside various organizations. The revenue and expenses are accounted for by the School District with any excess funds being returned to the appropriate organization.

 ⁽¹⁾ Expenses are first impacted by the implementation of GASB Statement No. 75 beginning in fiscal year 2018.
 (2) Expenses are first impacted by the implementation of GASB Statement No. 68 beginning in fiscal year 2015.
 (3) Property taxes declined in fiscal year 2020 due to the property tax due date being moved from June 20th to August 5th due to the COVID-19 pandemic. This caused the amount available as advance to be significantly lower for the current fiscal year.

⁽¹⁾ Property taxes declined in fiscal year 2020 due to the property tax due date being moved from June 20th to August 5th due to the COVID-19 pandemic. This caused the amount available as advance to be significantly lower for the current fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies, at 5 percent for 2010. The last year telephone companies paid tangible personal property tax was 2010.

The tangible personal property values associated with each year were the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by a 10 percent and a 2 1/2 percent rollback, and homestead exemptions before being billed.

Source: Office of the County Auditor, Franklin County, Ohio. Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditor.

⁽¹⁾ Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental Revenue.

⁽²⁾ The County's current system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. This presentation will be updated as new information becomes available.

⁽³⁾ Tax information cannot be broken out for real property, public utility, and personal tangible.

Source: Office of the County Auditor, Franklin County, Ohio. Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditor.

Notes

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes.

Overlapping rates are those of local and county governments that apply to property owners with the School District.

Emergency and Debt Service levies are designed to raise a fixed amount of revenue each year. A rate is set each year so that when it is applied to the total assessed value, that fixed amount is generated.

Figures in parenthesis reflect "effective" millage for residential/agricultural (upper) and commercial/industrial (lower) for the current collection year only.

All other figures reflect voted millage.
