INDEPENDENT AUDITOR'S REPORT

Central Academy of Ohio Lucas County 2727 Kenwood Boulevard Toledo, Ohio 43606-3216

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of the Central Academy of Ohio, Lucas County, Ohio (the Academy), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Academy's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Academy's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Central Academy of Ohio Lucas County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Academy, as of June 30, 2021, and the changes in its financial position and its cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 16 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the Academy. We did not modify our opinion regarding this matter.

As discussed in Note 14 to the financial statements, the Academy has suffered recurring losses from operations and has a net deficiency of \$3,071,102. Note 15 also describes management's evaluation of the events and conditions and their plan to mitigate these matters. Our opinion is unmodified regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Central Academy of Ohio Lucas County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 13, 2022, on our consideration of the Academy's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Academy's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 UNAUDITED

The management discussion and analysis of the Central Academy of Ohio's (the Academy) financial performance provides an overall view of the Academy's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the Academy's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Academy's financial performance.

Financial Highlights

- Total Assets were \$318,737
- > Total Deferred Outflows of Resources were \$508,127
- Total Liabilities were \$3,565,151
- > Total Deferred Inflows of Resources were \$332815
- > Total Change in Net Position was \$13,454

Using this Annual Financial Report

This report consists of three parts, the Management's Discussion and Analysis (MD&A), the basic financial statements, and notes to those statements. The basic financial statements include a statement of net positon, a statement of revenues, expenses and changes in net position, and statement of cash flows.

Reporting the Academy as a Whole

One of the most important questions asked about the Academy is, "As a whole, what is the Academy's financial condition as a result of the year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position, which appear first in the Academy's financial statements, report informationonthe Academyas a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and deferred outflows of resources and all liabilities and deferred inflows of resources, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cashis received or paid.

These two statements report the Academy's net position- the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources, as reported in the Statement of Net Position - as one way to measure the Academy's financial health or financial position. Over time, increases or decreases in the Academy's net position - as reported in the Statement of Net Position - are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the Academy's operating results. However, the Academy's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the Academy, to assess the overall health of the Academy.

The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report the activities for the Academy, which encompass all of the Academy's services, which are reported as purchased services. Unrestricted state aid and state and federal grants financemost of these activities.

The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its operations.

In addition to the basic financial statements, this report presents certain required supplementary information concerning the Academy's net pension liability and net OPEB liability/asset.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 UNAUDITED

Statement of Net Position

The Statement of Net Position answers the question, "How did we do financially during 2021?" This statement includes all assets and deferred outflows of resources and all liabilities and deferred inflows of resources, both financial and capital, and short-term and long-term using the accrual basis of accounting and economic resources focus, which is similar to the accounting used by most private-sector companies. This basis of accounting considers all of the current year's revenues and expenses regardless of when cash is received or paid.

The net pension liability (NPL) is the second largest single liability reported by the Academy at June 30, 2021 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The Academy adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Academy's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 UNAUDITED

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the Academy's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Academy is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the Academy's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 UNAUDITED

Total assets were \$318,737. Cash and cash equivalents amounted to \$14,325. Intergovernmental Receivables amounted to \$227,637, consisting primarily of receivables from federal awards.

The most significant liabilities are the payable to Global Educational Excellence, the management company in the amount of \$1,873,461, as well as the net pension liability in the amount of \$1,476,777.

The (\$3,071,102) deficit in net position represents the accumulated results of the past year's operations. Since the net position balance is a deficit, the Academy has difficulty meeting its working capital and cash flow requirements. The liabilities of the Academy are financed through a balance owed to the management company. The operating results of the Academy will have a significant impact on the change in net position from year to year.

Table 2 shows the changes in net position for fiscal year 2021 and 2020:

	2021	2020
Revenues		
Operating Revenues:		
Foundation Payments	\$ 1,318,291	\$ 1,578,518
Other Operating Revenues	16,078	7,755
Non-Operating Revenues:

Total Revenues	1,598,930	1,777,971
Expenses		
Operating Expenses		
Purchased Services	1,612,384	1,909,759
Change in Net Position	\$ (13,454)	<u>(131,788)</u>

Table 2

During the 2020-2021 school year, there were approximately 156 students enrolled in the Academy. Per pupil base formula amount for fiscal year 2021 amounted to \$5,980 per student.

The Academy's business-type activities consist of enterprise activity. Community Schools receive no support from tax revenues. Operating revenues decreased as a result of an increase in enrollment from the prior year.

Most expenses are purchased services. Per contract, the Academy remits most of its revenue to Global Educational Excellence, the management company, which incurs costs on behalf of the Academy to provide instruction and other costs. See Note 9 for more detail. The increase in net position is largely attributable to the decrease in purchased services expenditures, which is largely attributable to a decrease in the OPEB expense reported in the Academy's basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 UNAUDITED

Capital Assets and Debt Administration

The Academy had no capital assets or debt to report at June 30, 2021.

Current Financial Issues

The state foundation revenue is determined based on the student count and the foundation allowance per pupil. Approximately 99% percent of revenue is from the foundation allowance and federal operating grant funds. As a result, Academy funding is heavily dependent on the State's ability to fund local school operations. Since the Academy's revenue is heavily dependent on state funding and the health of the State's school aid, the actual revenue received depends on the State's ability to collect revenues.

Contacting the Academy's Financial Management

This financial report is designed to provide our citizens with a general overview of the Academy's finances and to show the Academy's accountability for the money it receives. If you have questions about this report or need additional information, contact the Academy at 419-205-9800.

NOTE 1 - DESCRIPTION OF THE ACADEMY AND REPORTING ENTITY

Central Academy of Ohio (the Academy) is a nonprofit corporation established pursuant to Ohio Revised Code Chapters 3314 and 1702 to address the needs of students in grades kindergarten through eight. The Academy's objective is to promote lifelong learning by nurturing academic excellence, positive character, and an appreciation of cultures. The Academy, which is part of the State's education program, is independent of any school district and is nonsectarian in its programs, admission policies, employment practices, and all other operations. The Academy may sue and be sued, acquire facilities as needed, and contract for any services necessary for the operation of the Academy. The Academy qualifies as an exempt organization under Section 501c(3) of the Internal Revenue Code.

The Academy has renewed its charter agreement under the oversight of Ohio Council of Community Schools (OCCS) for a period of ten years which commenced July 1, 2013 and ending June 30, 2022. The Sponsor is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration. In consideration of permitting the creation of the Academy, for the time, organization, oversight, fees, and costs of the Sponsor, the Academy makes annual payments of 3% percent of the total state funds received each year to the Sponsor.

The Academy operates under the direction of a five-member board of directors. The board of directors is responsible for carrying out the provisions of the contract, which include, but are not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualifications of teachers. The board of directors controls the Academy's instructional/support facility staffed by eleven noncertified and twelve certified full-time teaching personnel who provide services to approximately 158 students.

The governing board has entered into a management contract with Global Educational Excellence to provide consulting services, including teacher training, curriculum development, financial management, and state relations. (See Note 9)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Academy have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to a governmental nonprofit organization. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Academy's accounting policies are described below.

A. Reporting Entity

The Academy's reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining whether Certain Organizations Are Component Units", and GASB Statement No. 61, "The Financial Reporting Entity Omnibus and Amendment of GASB Statements No. 14 and No. 34". The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the Academy are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the Academy. For the Academy, this includes general operations of the Academy. Component units are legally separate organizations for which the Academy is financially accountable. The Academy is financially accountable for an organization if the Academy appoints a voting majority of the organization's governing board and (1) the Academy is able to significantly influence the programs or services performed or provided by the organization; or (2) the Academy is legally

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

entitled to or can otherwise access the organization's resources; the Academy is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization or the Academy is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Academy in that the Academy approves the budget, the issuance of debt, or the levying of taxes for the organization. The financial statement of the reporting entity includes only those of the Academy (the primary government). The Academy has no component units.

B. Basis of Presentation

The Academy's basic financial statements consist of a statement of net position, a statement of revenues, expenses, and change in net position, and a statement of cash flows. Enterprise fund reporting focuses on the determination of the change in net position, financial position, and cash flows.

C. Measurement Focus

Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets deferred outflows of resources and all liabilities and deferred inflows of resources are included on the statements of net position. The statement of revenues, expenses, and change in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its enterprise activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Academy's financial statements are prepared using the accrual basis of accounting.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Revenues resulting from non-exchange transactions, in which the Academy receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Academy must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Academy on reimbursement basis.

Expenses are recognized at the time they are incurred.

E. Budgetary Process

Unlike other public schools located in the state of Ohio, community schools are not required to follow budgetary provisions set forth in Ohio Revised Code Section 5705.391, the Academy must prepare a five year spending plan and submit it to the Ohio Superintendent of Public Instruction, unless specifically provided in the contract between the Academy and its Sponsor. The contract between the Academy and the Sponsor does prescribe an annual budget requirement in addition to preparing a five-year forecast that is to be updated on an annual basis.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Cash and Cash Equivalents

All monies received by the Academy are accounted for by the Academy's management company, Global Educational Excellence, which serves as the Academy's fiscal agent. All cash received by the fiscal agent is maintained in a separate bank account in the Academy's name.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the fiscal year in which services are consumed.

H. Accrued Liabilities Payable

The Academy has recognized certain liabilities on its statement of net position relating to expenses, which are due but unpaid as of June 30, 2021, including accounts payable, and amounts payable to the Management Company, Global Educational Excellence.

I. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Academy, deferred outflows of resources have been reported for the following two items related the Academy's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the Academy's contributions to the pension systems subsequent to the measurement date.

In addition to liabilities, the statement of net position will report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the Academy, deferred inflows of resources include the net difference between projected and actual earnings on pension plan investments related to the Academy's net pension liability.

J. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Academy or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Academy applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities. For the Academy, these revenues are primarily foundation payments from the State. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the Academy. Revenues and expenses not meeting this definition are reported as non-operating.

L. Intergovernmental Revenue

The Academy currently participates in the State Foundation Basic Aid Program. Revenues from this program are recognized as operating revenues in the accounting period in which all eligibility requirements are met.

Grants and entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements are met.

Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditures requirements, in which the resources are provided to the Academy on a reimbursement basis.

M. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

N. Pensions / Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension liability/OPEB liability and net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 3 - DEPOSITS

At June 30, 2021, the carrying amount of the Academy's deposits and the bank balance was \$14,325. As of June 30, 2021, the bank balance was fully covered by the Federal Deposit Insurance Corporation.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 4 - RECEIVABLES

Receivables at June 30, 2021, consisted of intergovernmental receivables for reimbursements for federal related expenditures. All receivables are considered collectable in full and are expected to be received within one year.

The Intergovernmental Receivables consist of the following:

Title I	\$ 121,466
Title IIA	17,780
IDEA	37,403
ESSER	 50,988
Total Intergovernmental Receivables	\$ 227,637

NOTE 5 - RISK MANAGEMENT

A. Property and Liability

The Academy is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the fiscal year ended 2021, the Academy obtained insurance through broker Sterling Agency with the following insurance coverage:

Commercial General Liability per Occurrence Commercial General Liability Aggregate	\$1,000,000 2,000,000
Educators Professional Liability Per Occurrence Aggregate Business Personal Property	1,000,000 2,000,000 150,000
Excess Liability: Limits of Liability	10,000,000

Claims have not exceeded coverage for the past three fiscal years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

B. Workers' Compensation

The Academy pays the state workers' compensation system a premium for employee injury coverage. The premium is calculated by multiplying the monthly total gross payroll by a factor that is calculated by the State.

NOTE 6 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions and OPEB are provided to an employee on a deferred payment basis as part of the total compensation package offered by an

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 6 - DEFINED BENEFIT PENSION PLANS (Continued)

employer for employee services each financial period. The obligation to sacrifice resources for pensions and OPEB are a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the Academy's proportionate share of each pension and OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension and OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the Academy's obligation for this liability to annually required payments. The Academy cannot control benefit terms or the manner in which pensions and OPEB are financed; however, the Academy does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB Statements No. 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability (asset) on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the required pension disclosures. See Note 8 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description – Academy non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 6 - DEFINED BENEFIT PENSION PLANS (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Effective January 1, 2018, SERS cost-of-living (COLA) changed from a fixed 3% annually increase to one based on the Consumer Price Index (CPI-W) with a cap of 2.5% and a floor of 0%. SERS also has the authority to award or suspend the COLA, or to adjust the COLA above or below CPI-W. SERS Suspended the COLA increases for 2018, 2019, and 2020 for current retirees, and confirmed their intent to implement a four-year waiting period for the start of a COLA for future retirees. For 2021, the COLA was 0.5%.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the Academy is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, 14% was designated to pension, death benefits, and Medicare B.

The Academy's contractually required contribution to SERS was \$28,086 for fiscal year 2021.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – Academy licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 6 - DEFINED BENEFIT PENSION PLANS (Continued)

percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 27 years of service, or 30 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory employer rate is 14% and the statutory member rate is 14% of covered payroll. The Academy was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2021 contribution rates were equal to the statutory maximum rates.

The Academy's contractually required contribution to STRS Ohio was \$58,852 for fiscal year 2021.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability reported as of June 30, 2021 was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Academy's proportion of the net pension liability was based on the Academy's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share and the pension expense:

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.50 percent
Inflation	3.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

NOTE 6 - DEFINED BENEFIT PENSION PLANS (Continued)

The most recent experience study was completed for the five-year period ended June 30, 2015. The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	2.00 %	1.85 %
US Stocks	22.50	5.75
Non-US Stocks	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Estate	17.00	6.60
Multi-Asset Strategy	5.00	6.65
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

	July 1, 2020
Inflation	3.00 percent
Projected salary increases	12.50% at age 20 to 2.50% at age 65
Payroll Increases	3.0%
Investment Rate of Return	7.45 percent, net of investment expenses
Discount Rate of Return	7.45%
Cost-of-Living Adjustments (COLA)	0%

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP- 2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Rate of Return**
Domestic Equity International Equity Alternatives Fixed Income Real Estate Liquidity Reserves	28.00 % 23.00 17.00 21.00 10.00 1.00	7.35%7.55%7.09%3.00%6.00%2.25%
Total	100.00 %	

*Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with the

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 6 - DEFINED BENEFIT PENSION PLANS (Continued)

rates described previously. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS Ohio's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the Academy's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the Academy's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

School Employees Retirement System

Health Care Plan Description - The Academy contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not

NOTE 7 - DEFINED BENEFIT OPEB PLANS (Coninued)

contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, no allocation of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the Academy's surcharge obligation was \$4,011.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The Academy's contractually required contribution to SERS was \$4,011 for fiscal year 2021.

State Teachers Retirement System

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a costsharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

Net Other Post Employment Benefit (OPEB) Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB Liability (Asset)

The net OPEB (asset) liability was measured as of June 30, 2020, and the total OPEB (asset) liability used to calculate the net OPEB (asset) liability was determined by an actuarial valuation as of that date. The Academy's proportion of the net OPEB (asset) liability was based on the Academy's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation are presented below:

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63%. The discount rate used to measure total OPEB liability prior to June 30, 2020 was 3.22%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2020(i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%).

NOTE 7 - DEFINED BENEFIT OPEB PLANS (Coninued)

* Target weights will be phased in over a 24-month period concluding on July 1, 2020.

**10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate — The discount rate used to measure the total OPEB liability was 7.45% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB (asset) liability as of June 30, 2020.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB (asset) liability as of June 30, 2019, calculated using the current period discount rate assumption of 7.45%, as well as what the net OEPB (asset) liability would be if it were calculated using a discount rate that is one percentage point lower (6.45%) or one percentage point higher (8.45%) than the current assumption. Also shown is the net OPEB (asset) liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
Academy's proportionate share of the net OPEB liability (asset)	(\$57,457)	(\$66,038)	(\$73,318)

Assumption Changes Since the Prior Measurement Date – There were no changes in assumptions since the prior measurement date of June 30, 2020.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 7 - DEFINED BENEFIT OPEB PLANS (Coninued)

Benefit Term Changes Since the Prior Measurement Date - There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2021 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

NOTE 8 - OTHER EMPLOYEE BENEFITS

Employees of the Academy are employed by Global Educational Excellence. Policies and procedures, and benefits are approved by the Global Educational Excellence.

NOTE 9 - MANAGEMENT AGREEMENT

The Academy entered into a 5-year contract, effective March 14, 2007 with an original expiration date of June 30, 2012, with Global Educational Excellence for educational management services. The contract contains a provision which extends the contract for successive one-year periods unless terminated by either party. In exchange for its services, Global Educational Excellence receives a management fee equal to 10% percent of all revenue sources and is reimbursed for all costs incurred on behalf of the Academy. Terms of the contract require Global Educational Excellence to provide the following:

- A. **Responsibility.** Contractor shall be responsible, and accountable to the Board, for the administration, operation and performance of the Academy, in accordance with appropriate sections of the law and the Contract. Contractor shall use its best efforts to perform the obligations and responsibilities of the Academy under the law and the Contract on behalf of the Academy or to assist the Academy in performing those obligations and responsibilities. Nothing in this Agreement shall be construed to prevent the Board from exercising its statutory, contractual or fiduciary responsibilities or from setting policies governing the operation of the Academy. Decisions made by the Contractor which by law or the Contract must be made by the Board in compliance with the Ohio Open Meetings Act shall not be binding on the Academy and its Board.
- B. <u>Educational Program</u>. The educational program and the program of instruction shall be designed by Contractor in accordance with the Contract, and may be adapted and modified from time to time with prior Board approval, it being understood that an essential principle of a successful, effective educational program is its flexibility, adaptability, and capacity to change in the interest of continuous improvement and efficiency, and that the Board and Contractor are interested in results and not in inflexible prescriptions. Notwithstanding the foregoing, the Board shall have the right to approve material changes to the educational program and programs of instruction necessitated by the failure of the Academy to meet the goals identified in the Contract or otherwise abide by the terms of the Contract. The parties acknowledge that changes to the educational program may require an amendment to the Contract prior to implementation. As between the parties, all intellectual property, proprietary information or other rights in or to any curriculum, educational materials or teaching techniques developed by Contractor for the Academy shall be the property of the Academy and shall be subject to disclosure under the law and the Ohio Freedom of Information Act unless specifically exempt.
- C. <u>Strategic Planning</u>. Contractor shall design strategic plans for the continuing educational and financial benefit of the Academy.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 9 - MANAGEMENT AGREEMENT (Continued)

- D. <u>Public Relations</u>. Contractor shall design an ongoing public relations strategy for the development of beneficial and harmonious relationships with other organizations and the community, for implementation by the Academy and Board. Marketing and development costs paid by or charged to the Academy shall be limited to those costs specific to the Academy program, and shall not include any costs for the marketing and development of the Contractor or any other school managed by the Contractor.
- E. <u>Specific Functions</u>. Contractor shall be responsible for the management, operation, administration, and provision of educational and custodial activities at the Academy. Such functions may include, but are not limited to:
 - 1. Implementation and administration of the Educational Program, including the recommendation and acquisition of instructional materials, equipment and supplies (subject to the right of the Board to approve text books), and the administration of any and all extra and co-curricular activities and programs as approved by the Academy Board;
 - 2. Management of all personnel functions, including professional development for the Principal, all instructional personnel and other staff, and the personnel functions outlined in Article I;
 - 3. Maintenance and operation of the school building and installation of technology for educational or operational purposes;
 - 4. All aspects of the business administration of the Academy;
 - 5. All business, educational, and community partnering programs;
 - 6. All strategic planning;
 - 7. All fund raising and grant development programs and strategies;
 - 8. Public relations programs, strategies and events;
 - 9. Any other function necessary or expedient for the administration of the Academy, or as may be required under the law, the Contract, or by OCCS.
 - 10. Contractor and the Board acknowledge that the school building is currently leased and that the Board Liaison will be responsible for compliance with the tenant's obligations thereunder, the expense of which shall be borne by the Board. Contractor shall identify to the Board Liaison those tenant obligations it performs on behalf of the Academy. The parties acknowledge that nothing contained herein shall affect the respective obligations of the landlord and tenant under the lease of the school building.
- F. <u>Subcontracts</u>. Contractor reserves the right to subcontract, with Academy Board approval, any and all aspects of all other services it agrees to provide to the Academy, including, but not limited to transportation and/or food service.
- G. <u>Place of Performance</u>. Contractor reserves the right to perform functions other than instruction, such as purchasing, professional development and administrative functions, off-site, unless prohibited by state or local law.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 9 - MANAGEMENT AGREEMENT (Continued)

- H. <u>Materials Purchased</u>. All equipment, materials and supplies purchased by Contractor on behalf of the Academy shall be property of the Academy. If Contractor purchases equipment, material and supplies for the Academy, it shall comply with state law as if the Academy were making all such purchases directly.
- Student Recruitment. Contractor and the Board shall be jointly responsible for the recruitment of students, subject to the Board's direction on general recruitment and admission policies and the Contract. Application by or for students shall be voluntary, and shall be in writing. Students shall be selected in accordance with the procedures set forth in the Contract and in compliance with state law and other applicable law.
- J. <u>Due Process Hearings</u>. Contractor shall provide student due process hearings in conformity with the requirements of state and federal law regarding discipline, special education, confidentiality and access to record, consistent with the Academy's own obligations and policy.
- K. <u>Legal Requirements</u>. Contractor shall provide educational programs that meet federal, state, and local laws and regulations, and the requirements imposed under the law and the Contract, unless such requirements are or have been waived.
- L. <u>Rules and Procedures</u>. Contractor shall recommend reasonable rules, regulations, and procedures applicable to the Academy and is authorized and directed to enforce those rules, regulations and procedures adopted by the Academy Board.
- M. <u>School Year and School Day</u>. Contractor shall establish the calendar for the school year and the school day, subject to the requirements under law and as determined annually by the Board.
- N. <u>Additional Grades and Student Population</u>. Contractor shall make recommendations to the Board concerning limiting, increasing, or decreasing the number of grades offered and the number of students served per grade or in total, within the limits provided for by the Contract. In the event the Board seeks to expand the Academy to a new grade level, the Board shall involve Contractor in such efforts as early as possible.
- O. <u>Material Breach of Agreement</u>. Failure of Contractor to reasonably perform these functions, unless prevented from doing so by the Academy, its Board or circumstances beyond Contractor's control, shall be considered a material breach of this Agreement.

For the year ended June 30, 2021, Global Educational Excellence Management Company incurred the following expenses on behalf of the Academy:

NOTE 11 - OPERATING LEASES – LESSEE DISCLOSURE

The Academy is located at 2727 Kenwood Boulevard, Toledo, Ohio 43606 and entered into an extended lease for the period July 1, 2019 and shall run concurrent with the term of the Charter Contract, with Central Academy of Toledo LLC, with lease terms of 13% of the annual pupil enrollment grant amount received, but in no event less than minimum \$10,000 month. The expense under the new lease for the Academy totaled \$120,000.

NOTE 12 - CONTINGENCIES

A. Grants

The Academy receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Academy. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on any of the financial statements of included herein or on the overall financial position of the Academy at June 30, 2021.

B. State Funding

School Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, schools must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school, which can extend past the fiscal year end.

Under Ohio Rev. Code Section 3314.08, ODE may also perform a FTE Review subsequent to the fiscal year end that may result in an additional adjustment to the enrollment information as well as claw backs of Foundation funding due to a lack of evidence to support student participation and other matters of noncompliance. ODE performed such a review on the Academy for fiscal year 2021.

As of the date of this report, additional ODE adjustments for fiscal year 2021 are finalized. ODE has made adjustments based on attendance adjustments reported by the Academy totaling an decrease of \$352. This amount has been recorded on the financial statements.

In addition, the Academy's contracts with their Sponsor require payment based on revenues received from the State. As discussed above, additional FTE adjustments for fiscal year 2021 have been finalized. The impact on the fiscal year 2021 financial statements, related to additional reconciliation necessary with this contract resulted in a difference of \$11. This amount is not material to the Academy's financial statements and has not been recorded.

NOTE 13 - RELATED PARTY TRANSACTIONS

The Academy leases its building from Central Academy of Toledo, LLC. Mohamad Issa is a part owner of Central Academy of Toledo, LLC and is the President of Global Educational Excellence (the Management Company). The Academy paid \$120,000 for building lease during fiscal year 2021.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

NOTE 14 - MANAGEMENT PLAN

The Academy had a deficit net position of \$3,071,102 at June 30, 2021. This deficit is largely attributable to recurring losses and the corresponding liability payable to the Academy's management company, Global Educational Excellence, in the amount of \$1,873,461. Management intends to eliminate the deficit by increasing enrollment and improving operating efficiencies, in addition to paying down the Academy's \$1,873,461 liability with Global Educational Excellence.

NOTE 15 - LONG TERM LIABILITIES

The changes in the Academy's net pension liabilities and net OPEB liabilities during the fiscal year 2020 were as follows:

	Balance Outstanding 06/30/20	Additions	Deductions	Balance Outstanding 06/30/21
Net Pension Liability: STRS SERS Total Net Pension Liability	\$ 648,315 482,325 \$ 1,130,640	\$ 260,864 85,273 \$ 346,137	\$ -	\$ 909,179 567,598 \$ 1,476,777
Net OPEB Liability: SERS	\$ 209,803		(16,515)	\$ 193,288

<u>NOTE 16 – COVID-19</u>

The United States and the State of Ohio declared a state of emergency in March 2021 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the Academy. The investments of the pension and other employee benefit plans in which the Academy participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the Academy's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

NOTE 17 – SUBSEQUENT EVENTS

For fiscal year 2022, community school foundation funding received from the State of Ohio will be funded using a direct funding model. For fiscal year 2021 and prior, the amounts related to students who were residents of a particular school district were funded to the school district who, in turn, made the payment to the respective community school. For fiscal year 2021, the Community School reported \$1,318,291 in revenue related to these programs. The new funding system calculates a unique base cost for each community school. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2023.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Central Academy of Ohio Lucas County 2727 Kenwood Boulevard Toledo, Ohio 43606-3216

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the Central Academy of Ohio, Lucas County, Ohio, (the Academy) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements and have issued our report thereon dated April 13, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the Academy. We also noted the Academy has suffered recurring losses from operations and has a net deficiency.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Academy's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the Academy's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Academy's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a material weakness. We consider finding 2021-001 to be a material weakness.

Central Academy of Ohio Lucas County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the Academy's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2021-002

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Academy's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Academy's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS JUNE 30, 2021

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2021-001

Material Weakness – Financial Reporting

In our audit engagement letter, as required by AU-C Section 210, Terms of Engagement, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph .101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

The following errors requiring adjustments to the basic financial statements and notes to the basic financial statements were identified:

- Federal Operating Grants were understated in the amount of \$227,637 and Unavailable Revenue was overstated in the amount of \$227,637 due to errors in accruing intergovernmental revenue.
- Net Position Restricted for federal programs was understated in the amount of \$227,637 due to errors in accruing intergovernmental revenue.
- Accounts Payable to GEE and Purchased Services were understated in the amount of \$22,764 as a result of the error in recording Federal Operating Grant revenue.

These errors were not identified and corrected prior to the Academy preparing its financial statements and notes to the financial statements due to deficiencies in the Academy's internal controls over financial statement monitoring. Failing to prepare accurate financial statements could lead the Board of Directors to make misinformed decisions. The accompanying financial statements and notes to the financial statements have been adjusted to reflect these changes. In addition to the adjustments noted above, we also identified additional misstatements ranging from \$1,570 to \$3,140 that we brought to the Academy's attention.

To help ensure the Academy's basic financial statements and notes to the basic financial statements are complete and accurate, the Academy should adopt policies and procedures over financial reporting, including a final review of the financial statements and notes to the financial statements by the Finance Director and Board of Directors to help identify and correct errors and omissions.

FINDING NUMBER 2021-002

Noncompliance Citation

Ohio Rev. Code § 3314.03(A)(8) includes the requirements of community schools to have financial audits performed by the Auditor of State (AOS). The contract between the sponsor and the governing authority shall require financial records of the school to be maintained in the same manner as are financial records of school districts, pursuant to rules of the Auditor of State, and the audits shall be conducted in accordance with Ohio Rev. Code § 117.10. This includes preparing the footnote of management company expenses in accordance with Ohio Rev. Code § 3314.024.

Ohio Rev. Code § 3314.024(A) states "A management company that receives more than twenty percent of the annual gross revenues of a community school shall provide a detailed accounting including the nature and costs of goods and services it provides to the community school. This information shall be reported using the categories and designations set forth in divisions (B) and (C) of this section, as applicable."

Ohio Rev. Code § 3314.024(C) states "The expenses set forth in division (B) of this section shall be disaggregated according to the following designations, as applicable:

- 1. Regular instruction;
- 2. Special instruction;
- 3. Vocational instruction;
- 4. Other instruction;
- 5. Support services;
- 6. Noninstructional activities."

In order to meet these requirements, management companies may elect to have AOS (or contracting IPAs) audit this information at the management company or may provide independently audited financial statements and a statement showing the direct and allocated indirect (e.g., overhead) expenses for each school it manages. The companies should present this statement in a combining or consolidating format (i.e., present a column for each school). If a management company does not have audited financial statements or the audited financial statements do not present combining or consolidating columns for each of its schools, or if the management company's auditor does not provide opinion-level assurance on the combining or consolidating columns presenting each school, the Auditor of State will accept an agreed upon procedures (AUP) report per AICPA Clarified Attestation Standards Section 215.

Global Educational Excellence, the Academy's management company, received more than 20% of the Academy's annual gross revenue for fiscal year 2021. Due to deficiencies in the Academy's internal controls over compliance, the Academy's management company did not provide audited financial statements, presenting combining or consolidating columns for each of its schools, or an agreed-upon procedures (AUP) report. Additionally, the management company note to the financial statements was not presented in accordance with Section (C) above, as the note contained only a single, non-disaggregated column of reported expenses. Without this information, the Academy cannot gain the necessary assurances regarding the details of the management company expenses related to monies paid to the management company by the Academy as reported in the notes to the basic financial statements. The Academy should obtain the necessary audit or AUP report.

For additional information, the Academy refer to the following website: https://ohioauditor.gov/references/guidance/communityschools.html

Officials' Response:

We did not receive a response from Officials to these findings.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS JUNE 30, 2021

Finding Number	Finding Summary	Status	Additional Information
2020-001	Finding was first issued in the 2019 audit. Material weakness due to errors in financial reporting.	Not corrected and reissued as Finding 2021-001 in this report.	The finding reoccurred due to inadequate policies and procedures in reviewing the financial statements and accounting records throughout the audit period. The Academy is implementing procedures to correct these errors for the future.
2020-002	Finding was first issued in the 2019 audit. Noncompliance with Ohio Rev. Code §3314.03(A)(8), 3314.024(A), and 3314.024(C) for not acquiring audited financial statements or an AUP report from the Academy's management company and for not properly presenting the management company not in the required disaggregated format.	Not corrected and repeated as Finding 2021-002 in this report.	The finding reoccurred due to deficiencies in the Academy's internal controls over compliance. The Academy is implementing procedures to correct these errors for the future.
