Annual Comprehensive
Financial Report
FOR THE
FISCAL YEAR ENDED
JUNE 30, 2021

CHARDON LOCAL SCHOOL DISTRICT

Chardon, Ohio

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Board of Education Chardon Local School District 428 North Street Chardon, Ohio 44024

We have reviewed the *Independent Auditor's Report* of the Chardon Local School District, Geauga County, prepared by James G. Zupka, CPA, Inc., for the audit period July 1, 2020 through June 30, 2021. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Chardon Local School District is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

Capital Asset Statistics - Last One Fiscal Year	164
Free or Reduced Lunch Program Percentages - Last Ten School Years	166 - 167

INTRODUCTORY SECTION

December 21, 2021

The Board of Education and residents of Chardon Local District:

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) of the Chardon Local District (the "District") for the fiscal year ended June 30, 2021. This ACFR, which includes financial statements and other financial and statistical data, conforms to Generally Accepted Accounting Principles (GAAP) as applicable to governmental entities. The ACFR enables the District to comply with the Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP basis, and Ohio Revised Code Section 117.38 which requires school districts reporting on a GAAP basis to file an unaudited ACFR with the Auditor of State within 150 days of fiscal year end. The District last completed a CAFR in 2009, electing at that time to forego the annual cost of approximately \$12,000. Since that time, the District has filed a cash-basis financial report instead.

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the Districts' financial activities have been included.

This report provides the taxpayers of the District, bond rating agencies and other interested parties with comprehensive financial information, enabling them to gain a clear understanding of the District's finances. This report is intended to contribute to meeting the accountability requirements of the public. The District assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatement.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

Organizational Structure

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code, to provide services mandated by state and/or federal agencies. The Board of Education (the "Board") of the District is comprised of five (5) members elected at large by the citizens of the District for overlapping four-year terms. The Board serves as the taxing authority, contracting body, and policy maker for the District. The Board is a politic and corporate, as defined by Section 3313.03 of the Ohio Revised Code and has only those powers and authority conferred upon it by the Ohio Revised Code. The Chardon Board of Education is comprised of the following members:

<u>Member</u>	Term of Office	Years on the Board
Mrs. Madelon Horvath	1/1/2018 - 12/13/2021	8
Mrs. Karen Blankenship	1/1/2020 - 12/31/2023	10
Mr. Keith Brewster	1/1/2020 - 12/31/2023	2
Mr. Paul Stefanko	1/1/2018 - 12/31/2021	16
Dr. Guy Wilson	1/1/2020 - 12/31/2023	10

The Board elects its President and Vice President annually at the Organizational Meeting held in January. The Board is also responsible for hiring the Superintendent and the Treasurer.

The Superintendent is the Chief Executive Officer (CEO) of the District and is responsible directly to the Board for all operations within the District. Dr. Michael P. Hanlon, Jr., Ph.D. was appointed Superintendent of the District on August 1, 2013. He is currently employed under a five-year contract which ends on July 31, 2024.

The Treasurer is the Chief Financial Officer (CFO) of the District and is responsible directly to the Board for all financial operations and serves as Secretary to the Board. Mrs. Deb Armbruster was appointed Treasurer of the District on August 1, 2019. She is currently employed under a three-year contract which ends on July 31, 2022.

Profile of the District

The Chardon Local District is located in northeastern Ohio, east of the City of Cleveland. The District is primarily a residential suburban/rural community located in the northwest corner of Geauga County adjacent to the following Lake County communities; Concord Township; the Village of Kirtland Hills; the City of Kirtland; as well as the Geauga County communities of the City of Chesterland; the Village of Burton; the Village of Newbury; and the Village of Montville. It is approximately 25 miles southeast of Cleveland, 45 miles northwest of Youngstown, and 39 miles north of Akron. When Chardon was established as a Western Reserve community, the pioneers, who mainly came from New England, modeled their new existence after their New England heritage. The settlers showed the importance they attached to common school education from which they had received so much benefit. They implemented voluntary associations for district schools wherever a sufficient number of youths and children could be gathered. Classes were held in homes, and school houses were built before any legal organizations were affected. The townships were geographically scattered, and because travel was restrictive, the pioneers created several small primary grade schools in each township and village for the local students. In 1938, Chardon High School was built on the Chardon Square and the townships sent their children to this institution for secondary education. Around 1957 the townships merged their grade schools to become what is currently the Chardon Local School District.

The Chardon Local District is the largest of the five (5) school districts located in Geauga County and serves the City of Chardon, Chardon Township (portion), Munson Township (portion), Claridon Township (portion) and Hambden Township. The District provides education to 2,631 students in grades Pre-Kindergarten through twelve. The District operates one high school, one middle school, two elementary schools and one Early Learning Center (PK - Kindergarten).

Students enrolled in the Chardon Local District attend classes in the following District owned buildings during the 2020-2021 school year:

Chardon High School (grades 8 – 12), built in 1951

Chardon Middle School (grades 4-7), built in 1965

Chardon Early Learning Center (Pre-K – Kindergarten), built in 1958

Munson Elementary School (1st – 3rd grade), built in 1955

Park Elementary School (1st – 3rd grade), built in 1938

The Chardon Local District is proud of the broad spectrum of programs it offers. In addition to many academic choices, Chardon offers a wide array of co-curricular and extra-curricular opportunities for students. Chardon Schools has enjoyed an excellent reputation as one of the top school systems in Ohio. This is due, at least in part, to its excellent and committed staff, the majority of whom hold advanced degrees.

Strategic Thinking, Mission, Beliefs and Goals

Vision 2020

In 2015, a representative group of approximately fifty Chardon employees, community members, parents and students partnered in strategic planning sessions to gather important feedback from our stakeholders. These key leaders in the district and community provided valuable insight into the strategic thinking process to transform our classrooms and schools into an engagement-focused organization and formulated the following goals:

Our Vision

The Chardon Local Schools will be a destination school district

Mission Statement

"High achievement for all students where learning is our most important work."

Strategic Plan Goal Areas

Curriculum and Instruction Goal

Chardon Local Schools will meet and exceed the instructional needs of all students, equipping them for success in college and career.

Resource Goal

Chardon Local Schools will maximize the capacity, effectiveness and efficiency of all our current and future resources. Continue to build the community trust that Chardon Local Schools are dedicated to educating all the students in the district, show transparency to all stakeholders, and are good financial stewards of public funds.

Facilities and Technology Goal

Chardon Local Schools will provide learning environments appropriate for all students to grow academically and socially. The goal includes completing an annual Capital Improvement Plan, evaluating and analyzing the costs of renovation. The District will provide a physically and emotionally safe and secure environment for students, staff and community.

Community Partnerships Goal

To continually address the needs of all children in Chardon Local Schools through community partnerships to help them thrive as students and citizens.

Strategic Planning Update

In December 2019 the Strategic Planning committee met to begin updating the Vision 2020 Strategic Plan developed in 2015. Community collaboration included goals in Curriculum and Instruction, Safety and Security, School Facilities, Technology, School Finance, and the overall Strategic Planning Process. Strategic Thinking is the ability to recognize the relationships, complexities and implications of a situation and anticipate possibilities and plans. As a result of the onset of the COVID pandemic, the district temporarily suspended the strategic planning process to address the rapidly changing nature of education in this environment.

The Chardon Local Schools are equipped and ready to address the 4E's: Employment, Enlistment, Entrepreneurship, and Education. This includes an increased demand for college and career readiness, and to keep pace with necessary access to technology and information, academically and socially. The school district must emphasize the importance of students knowing and understanding their role as citizens; This awareness positions them to contribute and successfully function in our worldwide community. Students need to learn how to connect and collaborate with others in a broader community.

Employee Relations

Certified/licensed personnel including classroom teachers, tutors, librarians, guidance counselors, and specialists are represented by the Chardon Education Association (CEA) and are affiliated with the Ohio Education Association (OEA). On March 20, 2019, the District and the CEA announced ratification of a three-year collective bargaining agreement for the period of August 1, 2019 through July 31, 2022. The contract provided for a two percent (2%) cost of living adjustment (COLA) in each of the three (3) years of the agreement. For the 2019-20 school year, the base salary is \$39,257 and the base salary for the 2020-21 school year is \$40,042 and the base salary for the 2021-22 school year is \$40,843

Classified employees (educational aides, cafeteria staff, secretarial-clerical, custodial, maintenance and grounds staff, transportation staff, mechanics, health aides and proctors) of the District are represented by the Chardon Association of Classified Employees (CACE) and are affiliated with the Ohio Education Association (OEA). On March 20, 2019, the District and CACE announced ratification of a three-year collective bargaining agreement for the period of July 1, 2019 through June 30, 2022. This contract provides for a two percent (2%) wage increase in each year of the agreement.

The District's certified/licensed administrators, supervisors and other exempt employees are not members of any bargaining unit and are provided individual contracts approved by the Board of Education.

The Reporting Entity

The District has reviewed its reporting entity definition in order to insure conformity with the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and 34". In evaluating how to define the District for financial reporting purposes, Management considers all agencies, departments and organizations making up the District (the primary government) and its potential component units. The District has no component units and the District is not a component unit of any other governmental organization.

Excluded from the reporting entity because they are fiscally independent of the School District are the City of Chardon, Village of Aquilla, Chardon, Hambden, Claridon and Munson Townships, the Geauga County Library, the Parent Teacher Organizations, the nonpublic schools, the Chardon Athletic Boosters, Music and Academic clubs, the Gridiron Club, and the Chardon Schools Foundation.

The School District participates in the Lake Geauga Computer Association, the Ohio Schools' Council Association, and the Auburn Career Center, jointly governed organizations, and the Ohio Association of School Business Officials Workers' Compensation Group Rating Program, an insurance purchasing pool.

A complete discussion of the District's reporting entity is provided in Note 2 to the basic financial statements.

Economic Condition and Outlook

In May 2018, the Chardon community supported a 3.9 mill operating levy. Funds generated by the operating levy were first collected in 2019 and are used to pay for the District's daily operation. The district receives approximately \$2.9 million annually related to the 3.9 mill levy. In addition, in May 2006, the Chardon community approved a permanent improvement levy of 2.0 mills. Funds generated by the bond issue are used to pay for capital improvements within the district including technology infrastructure, building repairs, heating and cooling upgrades, updates to the transportation department and updates to other facilities.

The District's primary sources of revenues are through the levying of property taxes on real and agricultural property, commercial and industrial property and public utilities (including state property tax reimbursements) and the State Foundation Program, which combined accounts for nearly ninety-one percent (91%) of total operating revenue used to pay for the day-to-day operating expenses of the District, including salaries, benefits, contracted services, supplies and materials, equipment and dues and fees.

Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions generally occur in a new fiscal year. Property taxes include amounts levied against all real and public utilities located in the District. Assessed values are established by State law at thirty-five percent (35%) of appraised market value. All property is required to be revalued every six (6) years. The Ohio Revised Code and Ohio Administrative Code mandate Geauga County to conduct a re-appraisal of property every six (6) years, an update every three (3) years and annual valuation of improvements based upon building permits received from each township annually. The last re-appraisal took place for tax year 2017 for tax collections beginning in calendar year 2018 and the last update took place for tax year 2020 for tax collections beginning in calendar year 2021.

State laws grant tax relief to property owners (property tax rollbacks) in the form of a ten percent (10%) reduction in real property tax bills. This property tax rollback applies to levies currently in effect and approved by voters prior to 2013. In addition, a two and one-half percent (2.5%) reduction is granted for owner occupied homesteads (a total of 12.5%). Additionally, the State of Ohio contributes a portion of real estate taxes for qualified senior and/or disabled citizens, based on income thresholds, on the dwelling that is the individual's principal place of residence (known as the Homestead Exemption). The State reimburses the District for the loss of real property taxes as a result of the rollback provisions and the homestead exemption.

Ohio law grants tax credits to offset increases in taxes resulting from increases in the true value of real property. Legislation implementing a 1980 constitutional amendment classifies real property between (1) residential and agricultural and (2) all other real property, and provides for tax reduction factors to be separately computed for and applied to each class (1 & 2). These credits apply to certain voted levies on real property, and do not apply to unvoted tax levies or voted tax levies to pay debt service on general obligation debt.

Additionally, in 1976 the General Assembly passed House Bill 920 (HB 920). This law provides that real property owners receive tax credits equal to any tax increase caused by an increase in value of all real property in taxing districts as a result of reappraisal, update or readjustment. This does not apply to inside non-voted millage, tangible property or new construction. In effect, HB 920 removes inflationary revenue growth from the applicable real property by requiring an adjustment to the voted millage rate, thereby resulting in a lower effective millage rate.

Property taxes are also collected for the payment of principal and interest on voter approved bond issues related to the construction of buildings. Bond issue millage rates are set by the County Auditor, with information provided by the District, in order to generate sufficient revenue to pay the principal and interest on the bonds issued.

State Foundation Aid

The State's School Foundation program is the second largest source of revenue and accounts for approximately fourteen (14%) of the District's General Fund. The State assists public school districts under a statutory program, which includes direct payments to districts based upon a statutory formula. Such payments are made through the School Foundation program established by the Ohio Revised Code. School Foundation program funds distributed to a District are required to be used for current operating expenses, unless specifically allocated by the State for some other purpose. Basic eligibility for School Foundation program payments is based on a District's compliance with State-mandated minimum standards.

Under the funding formula in the State Budget Act, the State Department of Education (the Department) will compute and pay to each city, exempted village and local school district, an amount of State Education Aid based on a base amount of spending per pupil multiplied by (i) the school district's "average daily membership" (ADM), generally a full-time equivalent number of students to be certified by each school district to the Department, and (ii) an index (the State Share index) dependent on factors such as a school district's tax valuation percentage of the base amount for school districts with less tax valuation or lower median income residents. For Fiscal Year 2018, the base amount was \$6,010 and for Fiscal Year 2019 the base amount is \$6,020. As of July 1, 2014, school districts are required to report student enrollment (rather than average daily membership) data to the State as of the last day of October, March and June of each year.

In addition to the funding amount of State Education Aid describe above (known as an "Opportunity Grant"), under the new core funding formula school districts may also receive, as applicable, State Education Aid in the form of (i) targeted assistance based on tax valuation and income factors, (ii) targeted assistance based on a percentage of a school district's agricultural property, (iii) a specific amount based on six (6) categories of disabilities for special education and related services, (iv) kindergarten through third grade literacy funds, (v) economically disadvantaged funds, (vi) a specific amount of each of three (3) English proficiency categories, (vii) career-technical categories, and (viii) career-technical education associated services funds. As with Opportunity funds, special education, kindergarten through third grade literacy, limited English proficiency and career-technical funds are subject to the State Share Index. Certain other categories of funding, including pupil transportation funding, are funded in whole or in part by the State outside of the core funding formula.

Notwithstanding the amount of State Education Aid a school district is scheduled to receive under the funding formula, funding increases for core funding are capped at not more than seven and one-half percent (7.5%) of the previous years' State aid. All school districts are guaranteed to receive at least the amount of State aid as they received in Fiscal Year 2019. The Chardon Local District is a guaranteed district.

In the spring of 2019, the State of Ohio approved their 2020-2021 biennial budget which became law on July 1, 2019. At this time the State placed a guarantee of funds to be equivalent to the amounts calculated in the 2018-2019 biennial budget. Under this biennial budget, the State elimination of Tangible Personal Property (TTP) reimbursement was upheld, although a strong push was made through advocacy. Included in the biennial budget that impacted the District was the phase out of the "guarantee" within the State Foundation funding formula. Districts can be on the funding formula in three (3) different scenarios:

• Formula district – a district would receive the amount generated by the formula

- Capped district a district would receive the amount generated by the formula, less a certain percentage of growth from the previous year
- **Guarantee district** a district would receive the amount generated by the formula, plus an amount to at least receive the same level of funding from the previous biennial budget

In the summer of 2021, the State of Ohio approved their FY 22-23 biennial budget which became law on July 1, 2021. Under the new biennial budget, the State Foundation Formula adopted the new Fair School Funding Plan. The biennial budget did provide additional dollars restricted for Student Wellness programs. The District received Student Wellness funds of \$175,168.67 in Fiscal Year 2021.

The Chardon Local District is a member of the Alliance for Adequate School Funding. This organization represents high property value/low state aid school districts at the state legislature level. The organization has successfully protected the financial interests of its member school districts from major reductions in state support.

Major Initiatives

At the Chardon Local District, learning is engaging,meaningful, and aligned with state of Ohio content-area standards. Standards-based instruction is designed to promote deep and rich learning. Beyond consumers of important academic content, our goal is to nurture students to be thinkers and problem-solvers. All District teachers participated in professional development in the area of student engagement to ensure all students receive the support needed for engaged learning to maximize their individual growth. Within the framework of the Four E's - Enlistment, Enrollment, Entrepreneurship and Enrollment, student experiences are focused on the development of critical thinking skills, collaborative learning, communication strategies and the fostering of creativity.

In 2019, the District was awarded the Comprehensive Literacy grant from the Ohio Department of Education - an award of \$1.1 million over four years. District staff have engaged in professional development regarding the science of reading instruction, integrating a systematic phonics instructional program in preschool through third grade, and the implementation of rigorous texts for all students.

District teachers and principals continue to engage with implementation and professional development of Professional Learning Communities to ensure alignment of instruction, assessment, and interventions with curricular standards.

The District also has an agreement with the Educational Service Center of Northeast Ohio for education services through collaborating and partnering with local, regional and state agencies and organizations. The District believes this relationship provides greater opportunities for professional development, innovations, and collaborations with neighboring school districts. In addition, the district is an active participant in the ESC NEO Business Advisory Committee, and Teaching and Learning Knowledge Network. The District is also a part of the Educational Service Center of the Western Reserve cooperative agreement for special education services.

The District is actively involved with individuals, organizations, and businesses in planning for student success. The District maintains regular dialogue with many community organizations, to develop programs and initiatives to promote student growth. The District has partnered with the Chardon Chamber of Commerce, the Geauga Growth Partnership, the Geauga County Department of Jobs and Family Services, and the Alliance for working together. This combination connects Chardon students with community partners providing exceptional learning experiences that encourage career development with a strong focus on community business partnerships.

Committed to a holistic education, the District incorporates additional priorities within the academic program including citizenship, health, workforce development and wellness and innovation.

Innovation, Technology Integration

It is essential for the District to prepare our students for a technology-based economy. Recent advances in our technology infrastructure, devices and instructional support for teachers and students have allowed us to provide increased opportunities to develop digital skills. The targeted infusion of technology throughout the curriculum provides instructional enhancements, increases student engagement and offers real-world applications. Blending classroom instruction with online resources fosters unique and deep learning that expands the pace and place of their experience.

The District has demonstrated a commitment to integrate technology into the educational experience with the addition of one-to-one devices in the grades 4-12 and ChromeBook carts in grades K-3, our students have ready access to this learning tool. Technology integration coaches in each building support the meaningful use of technology across the curriculum by supporting and guiding teachers and students.

As a Google district, all administrators, teachers and students are users of this common platform for instruction, communication and collaboration. Computing environments within the district include portable wireless stations for laptops, ChromeBooks and IPads, multi-media labs and interactive devices such as white boards, projectors, document cameras, digital printers, and green screens which are available to our students.

It is a goal of the District to be innovative and forward-thinking while remaining practical and relevant. Some endeavors in this area include: district-wide LED lighting, hydration stations, recycling, outdoor classroom, etc..

Healthy Choices

Academic and life success is linked to physical activity and nutrition. The District has committed resources and curricular activities to educate and expose students to healthy lifestyle choices. Brain breaks, fitness rooms, increased recess and physical education periods are some of the ways we support this initiative. Through building activities, health and physical education classes and in collaboration with our food service department, we strive to model healthy practices in District decision-making. Building our capacity for the support of student mental and emotional wellness is a focus area for our district.

Positive Behavioral Interventions and Supports

Positive Behavioral Interventions and Supports are an essential component of a positive school culture for learning. This program represents a belief system that expects all members of the Chardon community to act in a manner towards themselves and others that instills a harmonious existence. Monthly character traits are identified and emphasized, a common logo is used, and district and building level committees use the Positive Behavioral Interventions and Supports (PBIS) framework to identify strategies to embed the goals of this program in everyday routines and expectations.

There is always an emphasis on student safety; with faculty reviews of safe training, development of the Emergency Plan, and parent education on internet safety as well as training on texting and driving.. A review of the D.A.R.E. curriculum and collaborative efforts with the local police department identify the best methods to educate students on safe lifestyle choices. A resource office is present daily on campus to support the District's safety efforts.

College and Career Readiness

The District is committed to preparing students for life beyond our campus. This is accomplished through the development of individual pathways for each student. In addition to suggested academic pathways, students have ongoing opportunities to participate in business and community visitations, shadowing experiences, internships, technical training, speaker series, and career fairs to guide them in decision-making for their future.

Specific programs which support College and Career Readiness include: printed materials and a dedicated website for parent information, the addition of career tech courses at the Middle School and partnerships with local career centers and ESC's for student services.

Chardon's secondary program employs four Counselors at the high school, and two Counselors at the middle school, who have had training in academic and career advising. Additionally, the Counselors oversee the use of a digital platform, Naviance, in grades 6-12 which manages individual student records, career interests and college preparation activities.

College Credit Plus is a statewide program that allows students to earn college and high school credit simultaneously in a designated class offered on the Chardon campus or through community colleges or universities. The purpose of the program is to provide rigorous academic options to college ready students.

Major Academic Achievements and Honors

Academic Achievements

Chardon students, as a whole, exhibit a strong and committed academic ability. Here are some of the Class of 2021 Graduate Highlights:

Graduates*	259
AP Scholars with Distinction	15
AP Scholars with Honors	18
AP Scholars	18
Valedictorians	23
Honors Diplomas	86
Rural & Small-Town Scholars	2
AP Capstone Diploma	1
National Merit Finalists	2
National Merit Commended Scholars	3
Community Service Awards	1
Attended since Kindergarten	138
ACT Perfect Score (36)*	5

- * Additionally, 64% of the graduating class plans to attend a two or four-year college or university, and 36% plan to enter the workforce, become an entrepreneur, or join the military.
- * 1/10th of 1% of students who take the ACT earn the top score of 36. In the U.S. high school graduating class of 2018, only 3,741 out of more than 1.9 million graduates who took the ACT earned a top composite score of 36.

Honors

- Best High Schools U.S. News and World Report 2013-2021 (CHS)
- AP Top 10% Distinguished School 2020
- ODE Recognized 2-year "A" School 2020 Chardon Middle School
- US News and World Reports Best Elementary AND Best Middle Schools 2022
- PBIS (Positive Behavioral Interventions and Support) U.S. Department of Education
 - o Chardon Early Learning Center 2021 Ohio Bronze Recognition
 - o Chardon High School 2021 Ohio Bronze Recognition
 - o Chardon Middle School 2021 Ohio Silver Recognition
 - o Munson Elementary 2021 Ohio Silver Recognition
 - o Park Elementary 2021 Ohio Silver Recognition
- Ohio Assistant Principal of the Year 2020-2021 Ryan Bandiera, Chardon High School
- Franklin B. Walter Outstanding Educator Award 2021 Nancy Johnston, Chardon Early Learning Center
- OAHPERD (Ohio Association for Health, Physical Education, Recreation and Dance) 2021 Shape America Midwest District Teacher of the Year - Julie Kenny, Chardon Middle School

Long-Term Financial Planning

Annually, through a collaborative process, the administration assists the Board of Education in determining and prioritizing the needs of the District. As a result of this process, the District prepares a five-year financial forecast for the general operating fund of the district. The financial forecast is the foundation for the District's operations and is used as a financial planning tool to assist the District with short and long range financial planning which attempts to forecast the need for future educational and capital expenditures. The forecast provides a snapshot of the past three (3) fiscal year's actual revenue and expenses and projected revenue and expenses for the next five (5) years and is accompanied by the financial assumption notes. In accordance with state law, the Board of Education approves the financial forecast and submits it to the Ohio Department of Education prior to November 30th and updates it and submits again prior to May 31.

The most recent District five-year forecast (May, 2021) indicates a positive cash balance through Fiscal Year 2025, with a projected carryover balance of \$20,903,369 at the end of Fiscal Year 2025.

The Chardon Board of Education is committed to long-term financial planning and strongly supports this notion through its policy 6210 – Fiscal Planning (revised on January 11, 2021). This policy states as follows:

6210 - FISCAL PLANNING

The Board of Education shall collect and assemble the information necessary to discharge its responsibility for the fiscal management of the School District and to plan for the financial needs of the educational program. The Board will strive toward maintaining both short and long range projections of District financial requirements.

Accordingly, the Board directs the Treasurer and/or the Superintendent to:

- A. prepare a long range year-by-year plan for the maintenance and replacement of facilities and equipment;
- B. maintain a plan of anticipated local, State, and Federal revenues;
- C. report to the Board any serious financial implications that emerge from the District's ongoing fiscal planning.

In addition, the Board directs the Treasurer to maintain annually a detailed five (5) year projection of estimated revenues and expenditures, as required by Policy 6231.

Financial Information

Internal Accounting and Controls

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes an automated accounting and payroll system as designed by the state software development team. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the District adopts either a temporary or permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon the receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations must not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the District's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority. Budgets are controlled at the fund level. All purchases must be approved by the appropriate levels of authority and purchase orders are certified by the treasurer, encumbering the necessary funds. The state software accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date.

The District maintains a cash management program that expedites the receipt of revenues and prudently deposits and invests available cash in obligations collateralized by instruments issued by the U.S. government, government agencies, corporations, or the State of Ohio, or insured by the Federal Deposit Insurance Corporation (FDIC) and/or the Securities Investor Protection Corporation (SIPC.)

Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of the budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than custodial funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level. Any budgetary modifications are made by board resolution.

The basis of accounting and the various funds utilized by the District are fully described in Note 2 D. of the financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

Financial Reporting

The District's basic financial statements report on the financial activities as follows:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by many businesses. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

<u>Fund financial statements:</u> The focus of fund financial statements is on major funds rather than reporting funds by type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and included reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Enterprise and fiduciary funds use the accrual basis of accounting.

<u>Statements of budgetary comparisons:</u> These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

Independent Audit

State statutes require the District to be subjected to an annual examination either by the Auditor of State or an independent public accounting firm, if permitted by the Auditor of State. James G. Zupka, C.P.A., Inc. rendered an opinion on the District's financial statements as of June 30, 2021 and the Independent Auditor's Report on the basic financial statements is included in the financial section of this report. The independent audit was conducted by James G. Zupka, C.P.A., Inc. and the goal was to provide reasonable assurance that the financial statements of the District for the year ended June 30, 2021 are free of material misstatement.

Acknowledgments

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's Office and various administrators and employees of the District. Assistance from the Geauga County Auditor's office staff, Geauga Growth Partnership, and other outside agencies made possible the fair presentation of statistical data. Special appreciation is expressed to Julian & Grube, for assistance in planning, designing, and compiling this financial report. Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

INDEPENDENT AUDITOR'S REPORT

To the Members of Board of Education Chardon Local School District Chardon, Ohio The Honorable Keith Faber Auditor of State State of Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chardon Local School District, Geauga County, Ohio, (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Chardon Local School District as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3C, the District has converted its governmental funds to the modified accrual basis of accounting and converted its governmental activities to the accrual basis of accounting, and restated its fund balance and net position at June 30, 2020. As discussed in Note 19 to the basic financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. As discussed in Note 20 to the basic financial statements, the school foundation aid received from the State of Ohio will be funded through the direct funding model. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Net Pension and Postemployment Benefit Liabilities and Pension and Postemployment Benefit Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

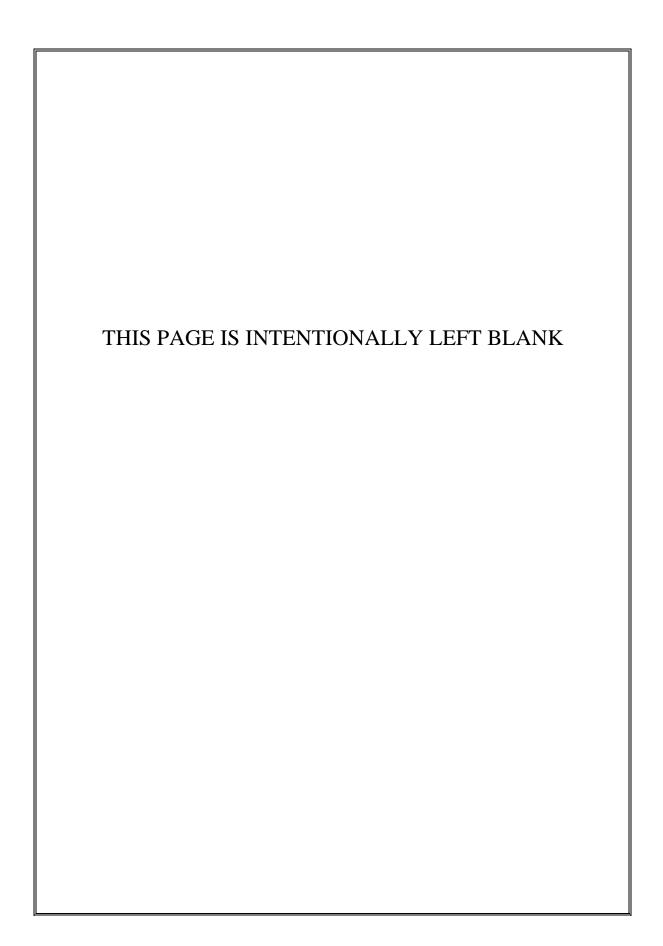

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CHARDON LOCAL SCHOOL DISTRICT GEAUGA COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The discussion and analysis of the Chardon Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements, and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2021 are as follows:

- In fiscal year 2021, the District prepared, for the first time since fiscal year 2009, financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Restatements necessary to implement this change in accounting principle are presented in Note 3.C. to the basic financial statements.
- During fiscal year 2021, net position of the District increased \$7,607,806 or 97.72% from 2020's restated net position.
- General revenues accounted for \$40,328,519 in revenue or 85.70% of total revenues. Program specific revenues in the form of charges for services and sales, operating and capital grants and contributions accounted for \$6,728,801 or 14.30% of total revenues of \$47,057,320.
- The District had \$39,449,514 in expenses related to governmental activities; only \$6,728,801 of these expenses was offset by program specific charges for services, operating and capital grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$40,328,519 were adequate to provide for these programs.
- The District's major governmental funds are the general fund and the permanent improvement fund. The general fund had \$40,288,034 in revenues and \$33,550,615 in expenditures and other financing uses. During fiscal year 2021, the general fund's fund balance increased \$6,737,419 from a restated balance of \$17,257,534 to \$23,994,953.
- The permanent improvement fund had \$5,642,477 in revenues and other financing sources and \$2,031,201 in expenditures. During fiscal year 2021, the permanent improvement fund's fund balance increased \$3,611,276 from a restated balance of \$2,294,441 to \$5,905,717. In fiscal year 2021, the District issued \$3,750,000 in tax anticipation notes for a roof replacement project.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and permanent improvement fund are by far the most significant funds, and the only governmental funds reported as major funds.

CHARDON LOCAL SCHOOL DISTRICT GEAUGA COUNTY, OHIO

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2021?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current fund's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and statement of activities, the governmental activities include the District's programs and services, including instruction, support services, extracurricular activities, and operation of non-instructional services.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and permanent improvement fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

The District maintains only one type of proprietary fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District has internal service funds that account for a self-insurance program, which provides health and dental benefits to employees, and a Chromebook insurance program.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

Reporting the District's Fiduciary Responsibilities

The District acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in custodial funds. The District's fiduciary activities are reported in a separate statement of changes in fiduciary net position. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations. During fiscal year 2021, the District's fiduciary activities reported no activity.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

Required supplementary information present information on the District's net pension liability and net OPEB liability/asset.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The District as a Whole

The statement of net position provides the perspective of the District as a whole. The table below provides a summary of the District's net position at June 30, 2021. This is the District's first year for government-wide financial statements using the accrual basis of accounting, since 2009; therefore, a comparison with prior year is not available. A comparative analysis will be presented in future years when prior year information is available.

Net Position

	Governemtnal <u>Activities</u>
	2021
<u>Assets</u>	
Current and other assets	\$ 62,626,438
Net OPEB asset	2,217,455
Capital assets, net	5,484,315
Total assets	70,328,208
Deferred outflows	
Pension	6,637,232
OPEB	956,478
Total deferred outflows	7,593,710
<u>Liabilities</u>	
Current liabilities	4,468,541
Long-term liabilities	
Due within one year	863,689
Due in more than one year	
Net pension liability	38,923,471
Net OPEB liability	2,843,844
Other amounts	5,117,246
Total liabilities	52,216,791
Deferred inflows	
Property taxes	20,816,583
Pension	741,290
OPEB	4,324,939
Total deferred inflows	25,882,812
Net position	
Net investment in capital assets	1,058,774
Restricted	7,460,222
Unrestricted (deficit)	(8,696,681)
Total net position (deficit)	<u>\$ (177,685)</u>

The net pension liability is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability/asset is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

GASB standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2021, the District's liabilities plus deferred inflows of resources exceeded assets plus deferred outflows by \$177,685.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

At year-end, capital assets represented 7.80% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. The net investment in capital assets at June 30, 2021, was \$1,058,774. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

For more information on the District's deferred outflows related to pension and OPEB, see Note 12 and 13, respectively.

Total assets include a net OPEB asset reported by STRS. See Note 13 for more detail.

Long-term liabilities include amounts for the net pension liability and the net OPEB liability. These liabilities are outside of the control of the District. The District contributes its statutorily required contributions to the pension systems; however, it's the pension systems that collect, hold and distribute pensions and OPEB to District employees, not the District.

For more information on the District's deferred inflows and inflows related to pension and OPEB, see Note 12 and 13, respectively.

A portion of the District's net position, \$7,460,222, represents resources that are subject to external restriction on how they may be used. The balance of unrestricted net position is a deficit of \$(8,696,681), which is primarily caused by the reporting of the net pension liability and net OPEB liability.

The graphs below show the assets plus deferred outflows, liabilities plus deferred inflows and net position of the governmental activities at June 30, 2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The table below shows the changes in net position for 2021. This is the District's first year for government-wide financial statements using the accrual basis of accounting, since 2009; therefore, a comparison with prior year is not available. A comparative analysis will be presented in future years when prior year information is available.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

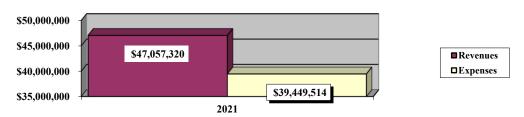

Governmental Activities

For fiscal year 2021, the net position of the District's governmental activities increased \$7,607,806 from 2020's restated net position. Total governmental expenses of \$39,449,514 were partially offset by program revenues of \$6,728,801 and general revenues of \$40,328,519 were adequate to cover the remaining expense. Program revenues supported 17.06% of the total governmental expenses.

Instruction expenses totaled \$22,739,707 and include expenses related to regular, special, vocational, and other student instruction services provided by the District. Support services totaled \$13,315,202. The most significant support services are pupil transportation, administration, pupil, and operations and maintenance expense. Operation of non-instructional services includes food service operations provided by the District. Extracurricular activities account for the District's after school activities offered to students. Interest and fiscal charges account for interest paid on the District's debt obligations.

The graph below presents the School District's governmental activities revenue and expenses for fiscal year 2021.

Governmental Activities - Revenues and Expenses

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2021. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements. As stated above, fluctuations in the pension expense reported under GASB 68 makes it difficult to compare financial information between years.

Governmental Activities

	Total Cost of Services 2021	Net Cost of Services 2021
Program expenses:		
Instruction:		
Regular	\$ 15,759,899	\$ 14,610,234
Special	5,270,432	4,014,894
Vocational	121,668	114,167
Other	1,587,708	1,495,787
Support services:		
Pupil	2,473,027	1,875,494
Instructional staff	727,329	678,792
Board of education	55,659	55,659
Administration	2,812,204	2,628,881
Fiscal	998,189	998,189
Business	462,056	381,473
Operations and maintenance	2,320,342	2,307,354
Pupil transportation	3,236,362	3,000,824
Central	230,034	204,374
Operation of non-instructional services:		
Operation of non-instructional services	1,462,088	167,751
Food service operations	978,426	(174,051)
Extracurricular activities	920,404	327,204
Interest and fiscal charges	33,687	33,687
Total expenses	\$ 39,449,514	\$ 32,720,713

The dependence upon tax revenues during fiscal year 2021 for governmental activities is apparent, as 88.99% of 2021 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 82.94%. The District's taxpayers and unrestricted grants and entitlements from the State of Ohio, are the primary support for District's students.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The graph below presents the District's governmental activities revenue for fiscal years 2021.

Governmental Activities - General and Program Revenues

The District's Funds

Governmental Funds

The District's governmental funds reported a combined fund balance of \$30,884,719, which is more than last year's restated fund balance of \$20,306,782.

The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2021 and 2020. The fund balances at June 30, 2020 have been restated as described in Note 3.C.

		Restated		
	Fund Balance	Fund Balance		
	<u>June 30, 2021</u>	June 30, 2020	_	Change
General	\$ 23,994,953	\$ 17,257,534	\$	6,737,419
Permanent improvement	5,905,717	2,294,441		3,611,276
Other governmental	984,049	754,807		229,242
Total	\$ 30,884,719	\$ 20,306,782	\$	10,577,937

General Fund

For the tables below, since this is the District's first year for governmental fund financial statements using the modified accrual basis of accounting, since 2009, a comparison with prior year is not available. A comparative analysis will be presented in future years when prior year information will be available.

The District's general fund balance increased \$6,737,419. The table that follows assists in illustrating the revenues of the general fund.

	2021
	Amount
Revenues	
Property taxes	\$ 30,570,809
Payment in lieu of taxes	560
Intergovernmental	8,485,425
Investment earnings	38,214
Tuition and fees	942,994
Other revenues	250,032
Total	\$ 40,288,034

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

In total, revenues were \$40,288,034. Property taxes revenue can fluctuate based on the taxes available for advance from the County. In response to the COVID-19 pandemic, Geauga County, Ohio received approval from the Ohio Tax Commissioner to extend the due date of the second half 2020 real estate tax payments. As a result of the extension, the amount of property taxes collected by Geauga County and available as advance to the District at June 30, 2020 decreased dramatically. In fiscal year 2021, the second half 2021 real estate tax payments returned to the normal due date and thus the amount available for advance at June 30, 2021 increased dramatically form the prior year. The amounts of taxes collected and available as advance to the general fund were \$5,836,992 and \$2,308,296 at June 30, 2021, and 2020, respectively. These amounts are reported as tax revenue by the District.

	2021
	Amount
Expenditures	
Instruction	\$ 21,129,364
Support services	12,013,298
Operation of non-instructional services	62,741
Extracurricular activities	75,712
Total	\$ 33,281,115

In total, expenditures were \$33,281,115 in the general fund. General fund expenditures consists of the same categories as described in the governmental activities.

Permanent Improvement Fund

The permanent improvement fund had \$5,642,477 in revenues and other financing sources and \$2,031,201 in expenditures. During fiscal year 2021, the permanent improvement fund's fund balance increased \$3,611,276 from a restated balance of \$2,294,441 to \$5,905,717. In fiscal year 2021, the District issued \$3,750,000 in tax anticipation notes for a roof replacement project.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, the original and final budgeted revenue and other financing sources were \$34,518,593 and \$34,847,593, respectively. Actual revenue and other financing sources were \$37,891,582, which was a \$3,043,989 increase from final budgeted amounts.

The original budgeted expenditures and other financing uses were \$36,869,297. Final budgeted expenditures and other financing uses were \$37,506,417, which was a \$637,120 increase. Total actual expenditures and other financing uses on the budget basis (cash outlays plus encumbrances) were \$35,371,031. This amount was \$2,135,386 less than the final budgeted amount (appropriations plus prior year encumbrances).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the District had \$5,484,315 invested in land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. The following table shows fiscal year 2021 compared to 2020 balances:

Capital Assets at June 30 (Net of Depreciation)

	Governmental Activities						
		2021		2020			
Land	\$	45,853	\$	195,853			
Land improvements		1,907,749		1,527,870			
Buildings and improvements		1,000,432		964,808			
Furniture and equipment		311,608		355,222			
Vehicles		1,527,023		1,640,908			
Construction in progress		691,650		_			
Total	\$	5,484,315	\$	4,684,661			

Overall capital assets, net of accumulated depreciation, increased \$799,654 from fiscal year 2020 to fiscal year 2021. Capital outlays of \$1,553,279 exceeded depreciation expense of \$603,625 and disposals, net of depreciation of \$150,000 during the year. See Note 8 to the basic financial statements for more detail on the District's capital assets.

Debt Administration

At June 30, 2021, the District has \$4,079,716 in long-term debt outstanding. Of this total, \$514,858 is due within one year and \$3,564,858 is due in greater than one year. The following table summarizes outstanding long-term debt:

Outstanding Debt, at Year End

	Governmental Activities	Governmental Activities 2020		
Tax anticipation notes Capital lease	\$ 3,750,000 329,716	\$ - -		
Total	\$ 4,079,716	<u>\$</u>		

See Note 9 to the basic financial statements for more detail on the District's long-term obligations.

Current Financial Related Activities

The Chardon Local School District (the "District") is located in Geauga County. The District includes the City of Chardon, the Village of Aquilla and the Townships of Munson, Hambden, Chardon and part of Claridon. The District serves an area of approximately 88 square miles. It is staffed by 148 classified employees, 194 certified teaching personnel, and 16 administrative employees who provide services to 2,631 students and other community members. The District currently operates 5 instructional buildings, one bus garage, and one administrative facility.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2021 (UNAUDITED)

The Board of Education and administration closely monitors revenues and expenditures so as to remain financially sound. The District is in a solid financial position stemming from the results of grade-level reconfiguration in 2019 and the passing of an operating levy in 2018. Property tax revenue comprise 77.9% of the annual total revenue while the State currently provides 14.7% in revenue. COVID 19 caused the State to reduce education spending in order to avoid a shortfall in fiscal year 2020; this reduction continued into 2021 at a reduction of half has much as 2020 (Roughly \$250,000 for Chardon Local Schools).

The District's management will continue to carefully and prudently plan to provide effective and efficient programs and services to meet the needs of our students while taking advantage of all available resources. Grant revenue has increased 20% in the last year and is due to increase again by an additional 29% in FY 2022 due to Federal ARP ESSER (American Rescue Plan Elementary and Secondary School) funds. Chardon Local Schools investigates each and every grant opportunity for the qualifications to the specifications listed within each grant option.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information, contact Deb Armbruster, Treasurer/CFO at Chardon Local School District, 428 North Street, Chardon, Ohio 44024 or e-mail at deb.armbruster@chardonschools.org.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES ${\tt JUNE~30,2021}$

Total governmental fund balances		\$ 30,884,719
Amounts reported for governmental activities on the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		5,484,315
Other long-term assets are not available to pay for current- period expenditures and therefore are deferred inflows in the funds.	f) 4.240.470	
Property taxes receivable Accounts receivable Intergovernmental receivable	\$ 4,340,478 128,427 209,462	
Total	207,102	4,678,367
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in		
governmental activities on the statement of net position.		1,543,986
Accrued interest payable is not due and payable in the current period and therefore is not reported in the funds.		(5,156)
The net pension/OPEB assets & liabilities are not due and payable in the current period; therefore, the assets, liabilities and related		
deferred inflows/outflows are not reported in governmental funds. Deferred outflows - pension	6,637,232	
Deferred inflows - pension Net pension liability	(741,290) (38,923,471)	
Deferred outflows - OPEB Deferred inflows - OPEB	956,478 (4,324,939)	
Net OPEB asset	2,217,455	
Net OPEB liability Total	(2,843,844)	(37,022,379)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported		
in the funds.	(220.716)	
Capital lease obligations Compensated absences	(329,716) (1,661,821)	
Tax anticipation notes	(3,750,000)	
Total		 (5,741,537)
Net position of governmental activities		\$ (177,685)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2021

Net change in fund balances - total governmental funds	\$	10,577,937
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital asset additions \$ 1,553,279 Current year depreciation (603,625) Total	-	949,654
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.		(150,000)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Property taxes: 537.458		
Property taxes 537,458 Classroom materials and fees (96) Intergovernmental 124,954 Total	-	662,316
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.		164,859
Issuance of notes and capital leases are recorded as other financing sources in the funds; however, in the statement of activities, they are not reported as other financing sources as they increase liabilities on the statement of net position. Tax anticipation notes (3,750,000)		
Capital lease (494,575) Total	-	(4,244,575)
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities: (Increase) in accrued interest payable		(5,156)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
Pension 2,884,416 OPEB 89,523 Total	-	2,973,939
Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability/asset are reported as pension/OPEB expense in the statement of activities. Pension (4,510,565)		
OPEB (4,510,505) Total (15,745)	-	(4,394,820)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		65,809
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues		
are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.		1,007,843
Change in net position of governmental activities	\$	7,607,806

Operating income	\$ 1,007,843
Changes in assets and liabilities:	
Increase in accounts payable	512
(Decrease) in claims payable	 (236,400)
Net cash provided by	
operating activities	\$ 771,955

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1 - DESCRIPTION OF THE DISTRICT

Chardon Local School District (the "District") was organized in 1957 under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by State statute and federal guidelines.

The Chardon Local School District (the "District") is located in Geauga County. The District includes the City of Chardon, the Village of Aquilla and the Townships of Munson, Hambden, Chardon and part of Claridon. The District serves an area of approximately 88 square miles. It is staffed by 148 classified employees, 194 certified teaching personnel, and 16 administrative employees who provide services to 2,631 students and other community members. The District currently operates 5 instructional buildings, one bus garage, and one administrative facility.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity</u>: <u>Omnibus an Amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATIONS

Lake Geauga Computer Association

The Lake Geauga Computer Association (the LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS, and other applications to its eighteen member Districts. Each of the Districts supports LGCA based upon a per pupil charge. The Executive Committee (Governing Board) consists of the superintendents and treasurers of the member Districts. The degree of control exercised by any participating District is limited to its representation on the Governing Board. LGCA's continued existence is not dependent on the District's continued participation. LGCA is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the District. Financial information can be obtained from 8221 Auburn Road, Concord Twp., Ohio 44077.

Auburn Career Center

The Auburn Career Center is a joint vocational District that is a jointly governed organization among eleven Districts. Each participating District appoints one member of the Auburn Career Center's Board of Education. The students of each participating District may attend classes. Each participant's control over the operation of the center is limited to its representation on the board. Continued existence of the Auburn Career Center is not dependent on the District's continued participation. In fiscal year 2021, the District paid nothing to the Career Center. Financial information can be obtained by writing the Auburn Career Center, 8140 Auburn Road, Painesville, Ohio 44077.

Ohio Schools' Council Association

The Ohio Schools' Council Association (Council) is a jointly governed organization among 241 Districts, educational service centers, joint vocational districts, and Developmental Disabilities boards in 33 Ohio counties. The jointly governed organization was formed to bring quality products and services at the lowest possible cost to the member Districts. The Council's Board consists of seven superintendents of the participating Districts whose terms rotate every year. The degree of control exercised by any District is limited to its representation on the Board. Financial information can be obtained by contacting William J. Zelei, the Executive Director of the Ohio Schools' Council at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

The District participates in the natural gas purchase program. This program allows the District to purchase natural gas at reduced rates. Compass Energy has been selected as the supplier and program manager. There are currently 161 program members in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and Districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

The Council partnered with the Ohio School Boards Association (OSBA), Ohio Association of School Business Officials (OASBO) and the Buckeye Association of School Administrators (BASA) to negotiate with First Energy Solutions for electric generation savings beginning June 1, 2011. The four education associations established the Power4Schools Program to endorse an electricity supplier, bringing savings on electricity and budget certainty to Ohio public schools. The program is for 8 ½ years. For the first three years (June 1, 2011 to May 31, 2014) the price for electric generation was \$0.0528 cents per kWh and the second three years (June 1, 2014 to May 31, 2017) the rate is \$0.0602 cents per kWh. In December 2021, the Council negotiated a new agreement to run from January 2022 through December 2023. These rates are for districts in First Energy territories (Ohio Edison, The Illuminating Company and Toledo Edison). Similar savings, depending on market conditions, will continue for the remaining 1 ½ years of the program.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

<u>General fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Permanent improvement fund</u> - The permanent improvement capital projects fund accounts for levy collections used for the acquisition, construction, or improvement of capital facilities.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) financial resources that are restricted, committed, or assigned to expenditures for debt service, and (c) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

Proprietary Funds

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Funds</u> - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. The District's internal service funds are self-insurance funds; the Employee Benefits Self Insurance Fund and the Chromebook Insurance Fund.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. The District does not have any trust funds. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District's custodial fund accounts for monies collected on behalf of and disbursed to the Ohio High School Athletic Association. During fiscal year 2021, the District's fiduciary fund had no activity.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Basis of Presentation and Measurement Focus

<u>Government-Wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund operating activity is eliminated to avoid overstatement of revenues and expenses.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities and current deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, all liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenue of the District's internal service fund is charges for services. Operating expenses for internal service funds include claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Non-exchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donation. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, and student fees.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see Notes 12 and 13 for deferred outflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

For the District, see Notes 12 and 13 for deferred inflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than custodial funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level for all budgeted funds. Any budgetary modifications are made by Board resolution.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Geauga County Budget Commission for rate determination.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commissions' certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts from the certificate of estimated resources that was in effect at the time the original permanent appropriations covering the entire fiscal year were passed by the Board of Education. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts from the certificate of amended resources that was in effect at the time the final appropriations were passed by the Board of Education.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The District's legal level of budgetary control has been established at the fund level for all budgeted funds. The appropriation resolution, established at the legal level of control funds, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the legal level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from the prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Lapsing of Appropriations:

Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be re-appropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the legal level of control.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash, cash equivalents, and investments" on the basic financial statements.

During fiscal year 2021, investments were limited to U.S. treasury bonds, U.S. government money market mutual fund, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for investments in STAR Ohio, investments are reported at fair value, which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2021 amounted to \$38,214, which includes \$10,671 assigned from other District funds.

For presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments. An analysis of the District's investment account at fiscal year end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method.

On the fund financial statements, reported inventory, except for food service inventory, is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food. At June 30, 2021, the District had no inventory.

H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Land Improvements	5 - 30 Years
Buildings and Improvements	20 - 50 Years
Furniture and Equipment	5 - 20 Years
Vehicles	5 - 10 Years

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable." These amounts are eliminated in the governmental activities column on the statement of net position.

J. Compensated Absences

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees age 50 or greater with at least 10 years of service; or 20 years service at any age were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2021, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes. When unassigned fund balance is a deficit in the general fund, assigned fund balance may not be presented in the general fund.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

M. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing (including contracts and retainage payable) used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents local resources received that are restricted to support of school operations.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

P. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Q. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepayments in both government-wide and fund financial statements. These items are reported in the financial statements using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

S. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither one of these transactions occurred during fiscal year 2021.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2021, the District has applied GASB Statement No. 95, "Postponement of the Effective Dates of Certain Authoritative Guidance." GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

Certain provisions contained in the following pronouncements were scheduled to be implemented for the fiscal year ended June 30, 2021. Due to the implementation of GASB Statement No. 95, the effective dates of certain provisions contained in these pronouncements are postponed until the fiscal year ended June 30, 2022:

- Statement No. 87, *Leases*
- Implementation Guide No. 2019-3, *Leases*
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates

For fiscal year 2021, the District has implemented GASB Statement No. 98, "<u>The Annual Comprehensive Financial Report.</u>" GASB Statement No. 98 establishes the term <u>annual comprehensive financial report</u> and its acronym <u>ACFR</u>. That new term and acronym replace instances of <u>comprehensive annual financial report</u> and its acronym in general accepted accounting principles for state and local governments. The implementation of GASB Statement No. 98 did not have an effect on the financial statements of the District.

B. Deficit Fund Balances

Fund balances at June 30, 2021 included the following individual fund deficits:

Nonmajor funds	Deficit
Elementary and secondary school emergency relief	\$ 104,756
Improving teacher quality	523
IDEA Part B	2,955

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

C. Restatement of fund balances/net position

For the fiscal year ended June 30, 2021, the District has presented for the first time its basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). In conjunction with this presentation, the District has (1) converted its governmental funds to the modified accrual basis of accounting and (2) converted its governmental activities to the accrual basis of accounting.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

Modified Accrual Basis Adjustments – the conversion of the governmental funds from the cash-basis of accounting to the modified accrual basis of accounting required certain adjustments to be recorded at June 30, 2020 to the fund cash balances as previously reported to reflect the prior year's effect of adopting these new accounting principles.

The restatement to the June 30, 2020 fund cash balances for the governmental funds and internal service fund follows:

	General	-	Permanent	Nonmajor vernmental Funds	Total Governmental Funds	Internal Service
Fund Balance as previously reported	\$ 17,283,962	\$	2,206,522	\$ 1,379,651	\$ 20,870,135	\$ 1,339,243
Modified Accrual Basis Adjustments	(26,428)	_	87,919	 (624,844)	(563,353)	 (803,100)
Restated Fund Balance, at June 30, 2020	\$ 17,257,534	\$	2,294,441	\$ 754,807	\$ 20,306,782	\$ 536,143

The restatement to the June 30, 2020 fund cash balances for the fiduciary funds follows:

	P	Private Turpose Trust	,	Agency
Fund Balance as previously reported	\$	66,061	\$	182,370
Modified Accrual Basis Adjustments		(66,061)		(182,370)
Restated Fund Balance, at June 30, 2020	\$	<u> </u>	\$	

Under GAAP, the District's government-wide financial statements are prepared on the accrual basis of accounting. The government-wide financial statements show the District's programs for governmental activities. The conversion of the governmental activities from the cash-basis of accounting to the accrual basis of accounting required certain adjustments to be recorded at June 30, 2020 to the net cash position as previously reported to reflect the prior year's effect of adopting these new accounting principles.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

The restatement to the June 30, 2020 net cash position for the governmental activities follows:

	Governmental Activities	Business-type Activities
Net position as previously reported	\$ 22,209,378	\$ 117,185
Modified accural basis basis adjustments	(1,366,453)	-
Accrual basis adjustments:		
Fund reclassification	-	(117,185)
Assets	6,779,268	-
Deferred outflows	7,401,435	-
Liabilities	(40,745,492)	-
Deferred inflows	(2,063,627)	
Net reporting basis adjustments	(29,994,869)	(117,185)
Restated net position (deficit)		
at June 30, 2020	\$ (7,785,491)	<u>\$</u>

D. Budgetary Prior Period Adjustment

In prior years certain funds that are legally budgeted in separate special revenue funds were considered part of the general fund on a budgetary basis. The District has elected to report only the legally budgeted general fund in the budgetary statement; therefore, a restatement to the beginning budgetary balance is required. The restatement of the general fund's budgetary-basis fund balance at June 30, 2020 is as follows:

Budgetary Basis	General Fund	
Fund balance at June 30, 2020 Funds budgeted elsewhere	\$	16,773,249 (194,268)
Restated fund balance at June 30, 2020	\$	16,578,981

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio); and,
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

A. Deposits with Financial Institutions

At June 30, 2021, the carrying amount of all District deposits was \$440,170 and the bank balance of all District deposits was \$711,314. Of the bank balance, \$500,000 was covered by the FDIC, \$105,657 was covered by the Ohio Pooled Collateral System, and \$105,657 was exposed to custodial credit risk discussed below because those deposits were uninsured and uncollateralized.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2021, the District's financial institutions were approved for a reduced collateral rate of 50 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2021, the District had the following investments and maturities:

			Investment Maturities	
Measurement/	Measurement		6 months or	
Investment type	Value	less		
Fair Value:				
U.S. treasury bonds	\$ 13,198,416	\$	13,198,416	
U.S. government money				
market mutual fund	292,184		292,184	
Amortized Cost:				
STAR Ohio	 16,973,801		16,973,801	
Total	\$ 30,464,401	\$	30,464,401	

The District's weighted average length to maturity for investments in is 0.10 years.

The District's investments in U.S Government money market mutual funds are valued using quoted market prices (Level 1 inputs). The District's investments in U.S. treasury bonds are valued using quoted market prices that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either direct or indirectly (Level 2 inputs).

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in U.S. Government money market mutual fund and STAR Ohio have been assigned an AAAm money market rating by Standard & Poor's. Ohio Law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investments in U.S. treasury bonds are rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The District has no investment policy dealing with credit risk.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk: The District's investment policy places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2021:

Measurement/	Measurement	
Investment type	Value	% of Total
Fair Value:		
U.S. treasury bonds	\$ 13,198,416	43.32
U.S. government money		
market mutual fund	292,184	0.96
Amortized Cost:		
STAR Ohio	16,973,801	55.72
Total	\$ 30,464,401	100.00

C. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported above on the statement of net position as of June 30, 2021:

<u>Cash and investments per note</u>	
Carrying amount of deposits	\$ 440,170
Investments	 30,464,401
Total	\$ 30,904,571
Cash and investments per statement of net position	
Governmental activities	\$ 30,904,571

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund balances

Interfund balances at June 30, 2021 as reported on the fund statements consist of the following interfund loans receivable and payable:

Receivable fund	Payable fund	Amount
General fund	Nonmajor governmental funds	\$ 987.000

The primary purpose of the interfund balances is to cover negative cash balances in specific funds where revenues were not received by June 30. Interfund balances between governmental funds are eliminated on the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 5 - INTERFUND TRANSACTIONS - (Continued)

B. Transfers

Interfund transfers for the fiscal year ended June 30, 2021, consisted of the following, as reported on the fund statements:

Transfers from general fund to:

Nonmajor governmental funds

\$ 269,500

Interfund transfers represent the use of unrestricted revenues collected in the general fund that are used to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers between governmental funds are eliminated for reporting on the statement of activities. All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2021 represent the collection of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed values as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised fair value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2021 represent the collection of calendar year 2020 taxes. Public utility real and personal property taxes received in calendar year 2021 became a lien on December 31, 2019, were levied after April 1, 2020, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Geauga County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available as an advance at June 30, 2021 was \$5,836,992 in the general fund and \$54,482 in the permanent improvement fund. This amount is recorded as revenue. The amount available as an advance at June 30, 2020 was \$2,308,296 in the general fund and \$94,569 in the permanent improvement fund. This amount was recorded as revenue. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2021 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 6 - PROPERTY TAXES - (Continued)

The assessed values upon which the fiscal year 2021 taxes were collected are:

	2020 Second Half Collections			2021 First Half Collections				
	 Amount	Percent	_	Amount	Percent			
Agricultural/residential and other real estate Public utility personal	\$ 665,676,930 28,517,310	95.89 4.11	\$	729,153,480 26,840,230	96.45 3.55			
Total	\$ 694,194,240	100.00	\$	755,993,710	100.00			
Tax rate per \$1,000 of assessed valuation	\$ 80.68		\$	80.68				

NOTE 7 - RECEIVABLES

Receivables at June 30, 2021 consisted of taxes, accounts, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net position follows:

	Governmental				
	Activities				
Property taxes	\$	31,048,535			
Accounts		140,538			
Intergovernmental		495,794			
Total	\$	31,684,867			

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 8 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2021, was as follows:

	Restated Balance 06/30/20	Additions	Deductions	Balance 06/30/21
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 195,853	\$ -	\$ (150,000)	\$ 45,853
Construction in progress	_	691,650		691,650
Total capital assets, not being depreciated	195,853	691,650	(150,000)	737,503
Capital assets, being depreciated:				
Land improvements	4,071,364	534,946	-	4,606,310
Building and improvements	6,748,242	119,892	-	6,868,134

Pupil transportation	268,718
Operation of non-instructional services:	
Food service operations	402
Other non-instructional services	6,974
Extracurricular activities	 97,365
Total depreciation expense	\$ 603,625

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 9 - LONG-TERM OBLIGATIONS

During fiscal year 2021, the following changes occurred in governmental and business-type activities long-term obligations.

		Restated							Amount
		Balance					Balance		Due in
	_	06/30/20	_	Additions	Deletions	_	06/30/21		One Year
Governmental Activities									
Series 2020, Tax Anticipation notes - direct borrowing	\$	-	\$	3,750,000	\$ -	\$	3,750,000	\$	350,000
Net Pension Liability		35,697,791		3,225,680	-		38,923,471		-
Net OPEB Liability		3,320,071		-	(476,227)		2,843,844		-
Compensated Absences		1,839,498		301,192	(239,471)		1,901,219		348,831
Capital lease obligations				494,575	 (164,859)		329,716	_	164,858
Total Governmental Long-Term Liabilities	\$	40,857,360	\$	7,771,447	\$ (880,557)	\$	47,748,250	\$	863,689

Series 2020 Tax anticipation notes

On December 15, 2020, the District issued \$3,750,000 in general obligation tax anticipation notes to provide for roof replacements for the District's buildings. The tax anticipation notes are capital related and long-term in nature and therefore are reported as a long-term obligation of the governmental activities. The notes bear an interest rate of 1.65% and mature on December 1, 2030. Interest payments are due June 1 and December 1 of each year. Principal and interest payments are paid from the bond retirement fund. As of June 30, 2021, the remaining balance of the Series 2020 Tax anticipation notes is \$3,750,000.

The tax anticipation note is considered a direct borrowing. Direct borrowings have terms negotiated directly between the District and the lender (Huntington Public Capital Corporation) and are not offered for public sale. The note is collateralized by future tax collections.

Principal and interest requirements to retire Series 2020 Tax anticipation notes outstanding at June 30, 2021, are as follows:

Fiscal Year	Tax anticipation notes							
Ending June 30	_	Principal		Interest	<u>Total</u>			
2022	\$	350,000	\$	58,988	\$	408,988		
2023		355,000		53,171		408,171		
2024		360,000		47,272		407,272		
2025		365,000		41,291		406,291		
2026		370,000		35,228		405,228		
2027 - 2031	_	1,950,000		81,593		2,031,593		
Total	\$	3,750,000	\$	317,543	\$	4,067,543		

Capital Lease Obligations

See Note 18 for information on the District's capital lease obligations.

Net Pension Liability

The District's net pension liability is described in Note 12. The District pays obligations related to employee compensation from the fund benefitting from their service which, for the District, is primarily the general fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

Net OPEB liability/asset

The District's net OPEB liability/asset is described in Note 13. The District pays obligations related to employee compensation from the fund benefitting from their service which, for the District, is primarily the general fund.

Compensated Absences

The liability for compensated absences will be paid from the fund from which the employee was paid. For the District, this is primarily the general fund and the food service fund (nonmajor enterprise fund).

Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation use in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2021, are a voted debt margin of \$64,289,434 (including available funds of \$0), an unvoted debt margin of \$755,994.

NOTE 10 - COMPENSATED ABSENCES

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and state laws.

Only twelve-month (260-day contract) administrative, supervisors, and school support personnel accumulate annual vacation leave. Accumulated unused vacation time is paid upon termination of employment. Administrative personnel are advanced 20 days of vacation leave per their contract and Supervisors receive 15 paid vacation days per contract year during their first 5 years of employment, thereafter receive 20 paid vacation days per contract year. The Superintendent and Treasurer accumulate 20 days of vacation per contract year.

Each professional staff member is entitled to fifteen (15) days sick leave with pay for each year under contract. The sick leave accrues at the rate of one and one fourth (1-1/4) days for each calendar month under contract. An employee is paid a severance benefit based on their negotiated agreement or specific contract. The severance benefit is calculated at current approved retirement wage rates, upon retirement with the balance being forfeited.

THIS SPACE INTENTIONALLY LEFT BLANK

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 11 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2021, the District contracted with Liberty Mutual Insurance Group and Hylant Group for various coverages, which are outlined below:

Type of Coverage	Coverage		
Property, \$5,000 deductible	\$	81,254,437	
General Liability:	Ψ	01,234,437	
Each occurrence		1,000,000	
In aggregate		2,000,000	
Medical Expense, any one person		15,000	
Automoblie Liability, single limit		1,000,000	
Comprehensive deductible		1,000	
Collision deductible		1,000	
Unisured Motorists		1,000,000	
Umbrella		10,000,000	
Limit of Liability - aggregate		10,000,000	
Tresaurer's Bond		100,000	

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

B. Employee Insurance Benefits

The District provides medical/prescription and dental insurance to employees through a self-insurance internal service fund. The District's self-insurance program has been administered by Medical Mutual of Ohio (MMO). Payments are made to MMO for the actual amount of claims processed, monthly stop-loss premiums, and administrative charges. Operating revenues of the internal service fund consist of payments from other funds and are based on self-insurance losses, stop-loss premiums, and other operating expenses.

The claims liability of \$566,700 reported in the internal service fund at June 30, 2021, is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 30, which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. The balance of claims payable at June 30, 2021 represents an estimate of the liability for unpaid claims costs provided by Medical Mutual of Ohio.

Changes in the claims liability for the past two fiscal years follows:

Fiscal Year	Beginning Balance	Current Year Claims	Claims Payments	Ending Balance
2021	\$ 803,100	\$ 3,858,759	\$ (4,095,159)	\$ 566,700
2020	-	5,090,539	(4,287,439)	803,100

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 11 - RISK MANAGEMENT - (Continued)

C. Workers' Compensation

For fiscal year 2021, the District participated in the Ohio Group Retrospective Rating Program, which is administered by Sheakley UniService, a third-party administrator. The Group Retrospective Rating Program offers an opportunity for Districts that may not qualify for a traditional Group Rating program to receive substantial refunds on their premiums. There is also an increased emphasis on safety and claims management. Through the program, Districts are grouped together to achieve premium refunds based on the performance of the group. However, Districts continue to pay their own individual merit-rated premium to the Ohio BWC and depending on the performance, the participating Districts can receive either a retrospective premium refund or an assessment. Retrospective refunds are achieved when the standard premium of the group exceeds the developed claims costs. Sheakley UniComp, a manage care organization, assists the District in active claims management throughout the year.

D. Life Insurance

The District provides life insurance to most employees through the American United Life Insurance Company of Indianapolis, Indiana, by MEC/OSE – Chardon Local Schools in the amount of \$25,000 for qualified certified and classified staff. Each administrator is provided \$200,000 in term life insurance. Each Supervisor is provided \$100,000 in term life insurance. The Superintendent is provided with two (2) times his annual salary in life insurance, and the Treasurer is provided two and a half (2.5) times her annual salary in life insurance.

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability/Asset

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in pension and postemployment benefits payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description - The District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire after August 1, 2017			
Full benefits	Age 65 with 5 years of services credit: or Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit			
Actuarially reduced benefits	Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit			

^{*} Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Effective January 1, 2018, SERS cost-of-living adjustment (COLA) changed from a fixed 3% annual increase to one based on the Consumer Price Index (CPI-W) with a cap of 2.5% and a floor of 0%. SERS also has the authority to award or suspend the COLA, or to adjust the COLA above or below CPI-W. SERS suspended the COLA increases for 2018, 2019 and 2020 for current retirees, and confirmed their intent to implement a four-year waiting period for the start of a COLA for future retirees. For 2021, the COLA was 0.5%.

Funding Policy - Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0%.

The District's contractually required contribution to SERS was \$649,268 for fiscal year 2021. Of this amount, \$1,847 is reported as pension and postemployment benefits payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Plan Description - State Teachers Retirement System (STRS)

Plan Description - Licensed teachers participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 28 years of service, or 33 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all of their member contributions and 9.53% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate goes to the DC Plan and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For fiscal year 2021, plan members were required to contribute 14% of their annual covered salary. The District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2021 contribution rates were equal to the statutory maximum rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The District's contractually required contribution to STRS was \$2,235,148 for fiscal year 2021. Of this amount, \$413,928 is reported as pension and postemployment benefits payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

		SERS		STRS		Total
Proportion of the net pension						
liability prior measurement date	0	.12919960%	(0.12646761%		
Proportion of the net pension						
liability current measurement date	0	.12691710%	(0.12617106%		
Change in proportionate share	- <u>0</u>	.00228250%	-(0.00029655%

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

\$2,884,416 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS		Total	
Fiscal Year Ending June 30:	 				
2022	\$ (158,576)	\$	901,292	\$	742,716
2023	129,868		366,008		495,876
2024	222,116		728,917		951,033
2025	 166,839		655,062		821,901
Total	\$ 360,247	\$	2,651,279	\$	3,011,526

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Wage inflation
Future salary increases, including inflation
COLA or ad hoc COLA
Investment rate of return
Actuarial cost method

7.50% net of investment expense, including inflation Entry age normal (level percent of payroll)

3.00%

3.50% to 18.20%

2.50%

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

For 2020, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members was based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00 %	1.85 %
US Equity	22.50	5.75
International Equity	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate - The total pension liability was calculated using the discount rate of 7.50%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%), or one percentage point higher (8.50%) than the current rate.

				Cullent		
	19	1% Decrease		count Rate	1% Increase

of the net pension liability	\$	11,499,528	\$	8,394,564	\$	5,789,441

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation are presented below:

	July 1, 2020				
Inflation	2.50%				
Projected salary increases	12.50% at age 20 to				
	2.50% at age 65				
Investment rate of return	7.45%, net of investment expenses, including inflation				
Payroll increases	3.00%				
Cost-of-living adjustments (COLA)	0.00%				

For the July 1, 2020, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{**10-}Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

		Current						
	19	% Decrease	Dis	scount Rate	1% Increase			
District's proportionate share				_				
of the net pension liability	\$	43,467,849	\$	30,528,907	\$	19,564,232		

NOTE 13 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability/Asset

See Note 12 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for noncertificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2021, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the District's surcharge obligation was \$89,523.

The surcharge added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$89,523 for fiscal year 2021. Of this amount, \$89,523 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset was measured as of June 30, 2020, and the total OPEB liability/asset used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability/asset was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Following is information related to the proportionate share and OPEB expense:

		SERS		STRS	 Total

Total	\$ (1,167,230)	\$	(2,290,754)	\$	(3,457,984)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020 are presented below:

Wage inflation	3.00%
Future salary increases, including inflation	3.50% to 18.20%
Investment rate of return	7.50% net of investment
	expense, including inflation
Municipal bond index rate:	
Measurement date	2.45%
Prior measurement date	3.13%
Single equivalent interest rate, net of plan investment expense,	
including price inflation:	
Measurement date	2.63%
Prior measurement date	3.22%
Medical trend assumption:	
Measurement date	
Medicare	5.25 to 4.75%
Pre-Medicare	7.00 to 4.75%
Prior measurement date	
Medicare	5.25 to 4.75%
Pre-Medicare	7.00 to 4.75%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120% of male rates and 110% of female rates. RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	1.85 %
US Equity	22.50	5.75
International Equity	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63%. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.22%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45%, as of June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. A municipal bond rate of 3.13% was used as of June 30, 2019. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate (7.00% decreasing to 4.75%).

	19⁄	6 Decrease	Dis	Current scount Rate	19	% Increase
District's proportionate share of the net OPEB liability	\$	3,480,795	\$	2,843,844	\$	2,337,470
	19⁄	6 Decrease	T	Current rend Rate	19	% Increase
District's proportionate share of the net OPEB liability	\$	2,239,311	\$	2,843,844	\$	3,652,260

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation, compared with July 1, 2019, are presented below:

	July 1, 2020		July 1, 2019		
Inflation	2.50%		2.50%		
Projected salary increases	12.50% at age 20) to	12.50% at age 20	0 to	
·	2.50% at age 65		2.50% at age 65	;	
Investment rate of return	7.45%, net of inv		7.45%, net of investment		
D 11:	expenses, inclu	uing inflation	expenses, inclu	ding inflation	
Payroll increases	3.00%		3.00%		
Cost-of-living adjustments (COLA)	0.00%		0.00%		
Discount rate of return	7.45%		7.45%		
Blended discount rate of return	N/A		N/A		
Health care cost trends					
	Initial	Ultimate	Initial	Ultimate	
Medical					
Pre-Medicare	5.00%	4.00%	5.87%	4.00%	
Medicare	-6.69%	4.00%	4.93%	4.00%	
Prescription Drug					
Pre-Medicare	6.50%	4.00%	7.73%	4.00%	
Medicare	11.87%	4.00%	9.62%	4.00%	

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Assumption Changes Since the Prior Measurement Date - There were no changes in assumptions since the prior measurement date of June 30, 2019.

Benefit Term Changes Since the Prior Measurement Date - There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{**10-}Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total OPEB asset was 7.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB asset as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45%) or one percentage point higher (8.45%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

				Current		
	19	1% Decrease Discount Rate		1% Increase		
District's proportionate share of the net OPEB asset	\$	1,929,330	\$	2,217,455	\$	2,461,918
	1% Decrease		Current Trend Rate		1% Increase	
District's proportionate share of the net OPEB asset	\$	2,446,743	\$	2,217,455	\$	1,938,146

NOTE 14 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 14 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	General fund
Budget basis	\$ 2,520,551
Net adjustment for revenue accruals	3,171,502
Net adjustment for expenditure accruals	279,905
Net adjustment for other sources/uses	478,129
Funds budgeted elsewhere	(125,150)
Adjustment for encumbrances	412,482
GAAP basis	<u>\$ 6,737,419</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the public school support fund.

NOTE 15 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 15 - CONTINGENCIES - (Continued)

B. Litigation

The District is involved in no material litigation as either plaintiff or defendant.

C. Foundation Funding

Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2021 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

NOTE 16 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	Capital rovements
Set-aside balance June 30, 2020	\$ -
Current year set-aside requirement	489,439
Current year offsets	 (489,439)
Total	\$
Balance carried forward to fiscal year 2022	\$
Set-aside balance June 30, 2021	\$

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 17 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance to the extent fund balance is available. For the general fund, fund balance is not reported as assigned for encumbrances as unassigned fund balance is negative. At year end, the District's commitments for encumbrances (less amounts already reported as payables) in the governmental funds were as follows:

	7	Year-End
<u>Fund</u>	Enc	umbrances
General fund	\$	359,072
Permanent Improvement		3,917,329
Nonmajor governmental		205,518
Total	\$	4,481,919

NOTE 18 - CAPITAL LEASES - LESSEE DISCLOSURE

During fiscal year 2021, the District entered into a capital lease agreement for field turf for the stadium. This lease meets the criteria of a capital lease as defined by GASB which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term.

Capital lease payments have been reclassified and are reflected as debt service expenditures in the statement of revenues, expenditures and changes in fund balances – permanent improvement fund. These expenditures are reflected as program/function expenditures on a budgetary basis. The lease terms are same as cash; therefore, the lease carries no interest. Capital assets acquired by lease have been capitalized in the amount of \$494,575, which represents the present value of the future minimum lease payments at the time of acquisition. Accumulated depreciation as of June 30, 2021 was \$24,729 leaving a current book value of \$469,846.

At inception, a liability was recorded on the statement of net position for the present value of the future minimum lease payments required under the lease agreements. Principal payments in the 2021 fiscal year totaled \$164,859. This amount is reflected as debt service principal retirement in the permanent improvement fund, and as a reduction to the long-term liabilities reported on the statement of net position. The outstanding principal to be paid on the field turf leases is \$329,716. The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2021:

	Governmental
Fiscal Year Ending June 30,	Activities
2022	164,858
2023	164,858
	329,716
Less: amount representing interest	
Present value of minimum lease payments	\$ 329,716

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

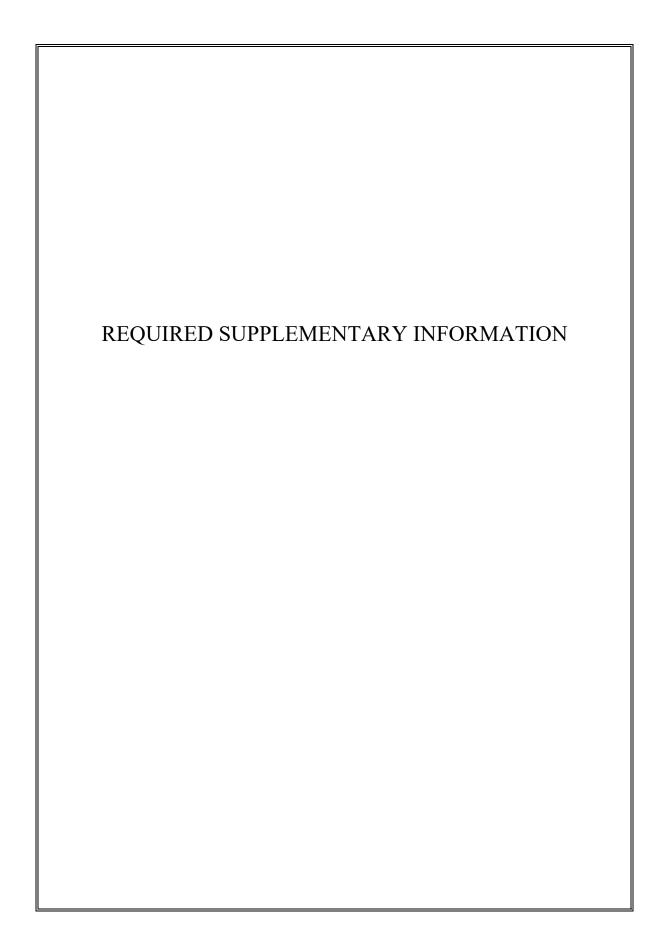

NOTE 19 - COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. The District's investment portfolio and the pension and other employee benefits plan in which the District participate fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

During fiscal year 2021, the District received \$755,601 as an on-behalf of grant from another government. These amounts are recorded in the Coronavirus Relief Special Revenue Fund and the Elementary and Secondary School Emergency Relief Special Revenue Fund.

NOTE 20 - SUBSEQUENT EVENT

For fiscal year 2022, District foundation funding received from the state of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school and scholarship funding will be directly funded by the State of Ohio to the respective schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the District were funded to the District who, in turn, made the payment to the respective school. For fiscal year 2021, the District reported \$901,726 in revenue and expenditures/expense related to these programs. This new funding system calculates a unique base cost and a unique "per-pupil local capacity amount" for each District. The District's state core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

SEE ACCOMPANYING NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2021

PENSION

SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014-2017. For fiscal year 2018, SERS changed from a fixed 3% annual increase to a Cost of Living Adjustment (COLA) based on the changes in the Consumer Price Index (CPI-W), with a cap of 2.5% and a floor of 0%. There were no changes in benefit terms from the amounts previously reported for fiscal years 2019-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2016. For fiscal year 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates and 110% of female rates, (g) mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement and (h) the discount rate was reduced from 7.75% to 7.50%. There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2018-2021.

STATE TEACHERS RETIREMENT SYSTEM (STRS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014-2017. For fiscal year 2018, STRS decreased the Cost of Living Adjustment (COLA) to zero. There were no changes in benefit terms from amounts previously reported for fiscal years 2019-2021.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2017. For fiscal year 2018, the following changes of assumption affected the total pension liability since the prior measurement date: (a) the long-term expected rate of return was reduced from 7.75% to 7.45%, (b) the inflation assumption was lowered from 2.75% to 2.50%, (c) the payroll growth assumption was lowered to 3.00%, (d) total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation, (e) the healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016 and (f) rates of retirement, termination and disability were modified to better reflect anticipated future experience. There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2019-2021.

OTHER POSTEMPLOYMENT BENEFITS (OPEB)

SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts previously reported for fiscal years 2017-2021.

(Continued)

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2021

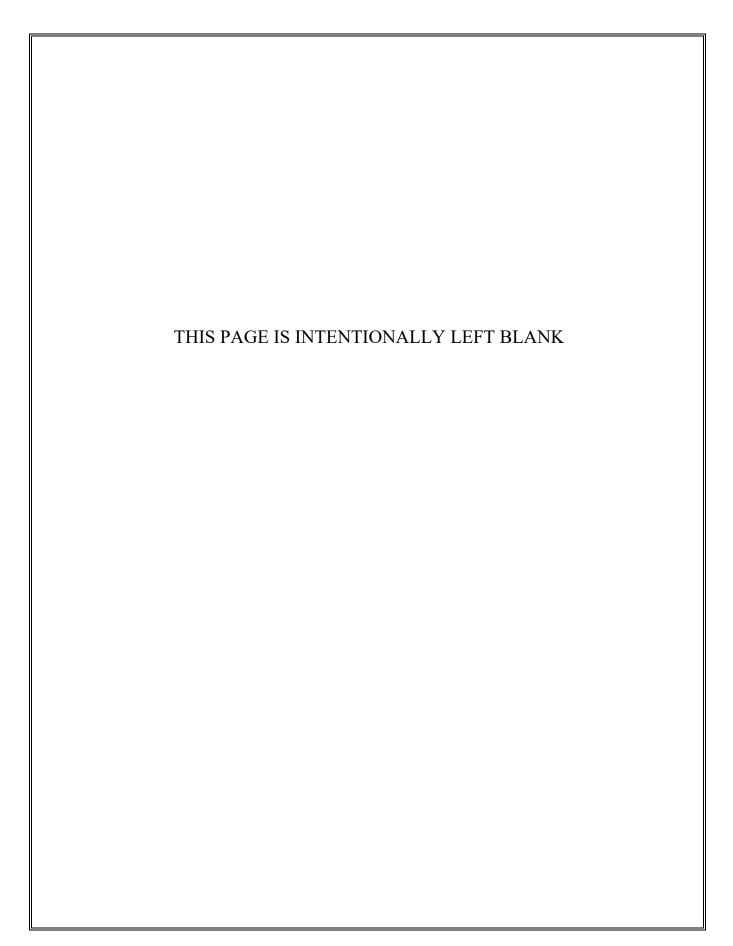

OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

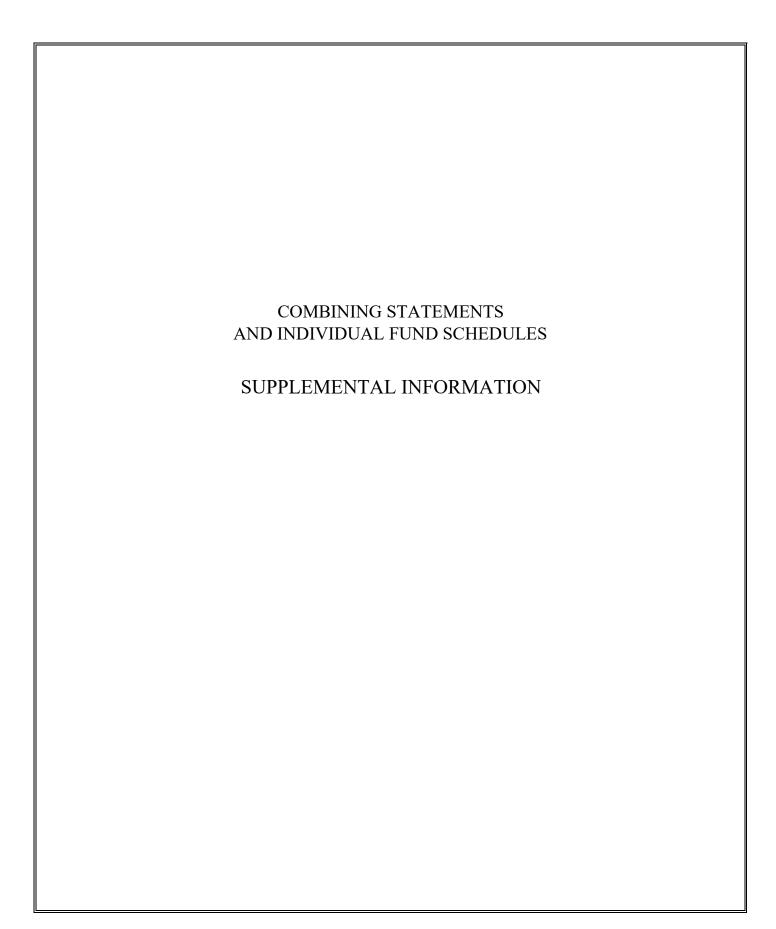

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal year 2017. For fiscal year 2018, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) rates of withdrawal, retirement, and disability were updated to reflect recent experience, (e) mortality among active members was updated to the following: RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females, (f) mortality among service retired members and beneficiaries was updated to the following: RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, (g) mortality among disabled members was updated to the following: RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, (h) the municipal bond index rate increased from 2.92% to 3.56% and (i) the single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.98% to 3.63%. For fiscal year 2019, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate increased from 3.63% to 3.70%, (b) the health care cost trend rates for Medicare were changed from a range of 5.50%-5.00% to a range of 5.375%-4.75% and Pre-Medicare were changed from a range of 7.50%-5.00% to a range of 7.25%-4.75%, (c) the municipal bond index rate increased from 3.56% to 3.62% and (d) the single equivalent interest rate, net of plan investment expense, including price inflation increased from 3.63% to 3.70%. For fiscal year 2020, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate decreased from 3.70% to 3.22%, (b) the health care cost trend rates for Medicare were changed from a range of 5.375%-4.75% to a range of 5.25%-4.75% and Pre-Medicare were changed from a range of 7.25%-4.75% to a range of 7.00%-4.75%, (c) the municipal bond index rate decreased from 3.62% to 3.13% and (d) the single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.70% to 3.22%. For fiscal year 2021, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate decreased from 3.22% to 2.63% and (b) the municipal bond index rate decreased from 3.13% to 2.45%.

STATE TEACHERS RETIREMENT SYSTEM (STRS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts previously reported for fiscal year 2017. For fiscal year 2018, STRS reduced the subsidy multiplier for non-Medicare benefit recipients from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. For fiscal year 2019, STRS increased the subsidy multiplier for non-Medicare benefit recipients from 1.9% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. For fiscal year 2020, STRS increased the subsidy percentage from 1.944% to 1.984% effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021. For fiscal year 2021, the non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal year 2017. For fiscal year 2018, the following changes of assumptions affected the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB), (b) the long term expected rate of return was reduced from 7.75% to 7.45%, (c) valuation year per capita health care costs were updated, and the salary scale was modified, (d) the percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased and (e) the assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs. For fiscal year 2019, the following changes of assumptions affected the total OPEB liability/asset since the prior measurement date: (a) the discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and (b) decrease in health care cost trend rates from 6.00%-11.00% initial; 4.50% ultimate down to Medical Pre-Medicare 6.00% and Medicare 5.00% initial; 4.00% ultimate and Prescription Drug Pre-Medicare 8.00% and Medicare (5.23%) initial; 4.00% ultimate. For fiscal year 2020, health care cost trend rates were changed to the following: medical pre-Medicare from 6.00% initial - 4.00% ultimate down to 5.87% initial -4.00% ultimate; medical Medicare from 5.00% initial - 4.00% ultimate down to 4.93% initial - 4.00% ultimate; prescription drug pre-Medicare from 8.00% initial - 4.00% ultimate down to 7.73% initial - 4.00% ultimate and (5.23%) initial - 4.00% ultimate up to 9.62% initial - 4.00% ultimate. For fiscal year 2021, health care cost trend rates were changed to the following: medical pre-Medicare from 5.87% initial - 4.00% ultimate down to 5.00% initial - 4.00% ultimate; medical Medicare from 4.93% initial - 4.00% ultimate down to 9.62% initial - 4.00% ultimate up to 11.87% initial - 4.00% ultimate.

MAJOR FUNDS

General Fund

The general fund is used to account for resources traditionally associated with a school district which are not required legally or by sound financial management to be accounted for in another fund. These activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation, and administration

Since the legal level of budgetary control is not greater than that presented in the basic financial statements, no additional financial statements are presented for the general fund.

OTHER MAJOR FUNDS

Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

FUND DESCRIPTIONS

Nonmajor Special Revenue Funds

The special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The title of each special revenue fund is descriptive of the activities accounted for therein. The nonmajor special revenue funds are

Miscellaneous Grants

To account for a number of small local grants that are restricted for specific expenditures.

District Managed Student Activity

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

Auxiliary Services

To account for State funds which provide services and materials to students attending non-public schools within the boundaries of the District as provided by State law.

Student Managed Activity

To account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund includes activities which consist of a student body, student president, student treasurer, and faculty advisor.

Athletic Tournament

To account for the District's revenues and expenditures related to hosting OHSAA tournament events.

Data Communications

To account for revenues received from the State to be used to install and provide support costs for data communication links to connect any school to the local A-site.

Special Trust

To account for scholarship programs, not administered through a trust agreement, where the District has administrative involvement in the selection of the scholarship recipient.

Endowment Fund

To account for scholarship programs, not administered through a trust agreement, where money was endowed to the District and where the District has administrative involvement in the selection of the scholarship recipient.

Student Wellness and Success

To account for revenues received from the State to be used for students well being and success, sucah as providing mental health services for students.

Miscellaneous State Grants

To account for monies received from State agencies which are not classified elsewhere.

Title VI-B

To account for Federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

Limited English Proficiency

To account for Federal funds to meet the educational needs of children of limited English proficiency at the preschool, elementary and secondary levels.

FUND DESCRIPTIONS

Nonmajor Special Revenue Funds (Continued)

Title I

To account for Federal funds for services provided to meet special educational needs of educationally deprived children.

EHA Preschool Grant

To account for Federal funds used for the improvement and expansion of services for handicapped children ages three through five years.

Supporting Effective Instruction

To account for a Federal grant aimed at providing resources effective instruction for students.

Miscellaneous Federal Grants

To account for Federal revenues received through State agencies from the Federal government or directly from the Federal government which are not classified elsewhere.

Food Service

To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the District students and staff.

Latchkey Programs

A fund to account for the revenues and expenditures of the District's Latchkey program.

Elementary and Secondary School Emergency Relief

To account for a Federal grant received by the District to combat the coronavirus pandemic.

Coronavirus Relief Fund

To account for a Federal grant received by the District to combat the coronavirus pandemic.

FUND DESCRIPTIONS

Nonmajor Special Revenue Funds (Continued)

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Uniform School Supplies

To account for the purchase and sale of school supplies for use in the schools of the District.

Adult Education Program

To account for revenues and expenditures related to providing adult education classes.

Workers Compensation

To account for employee workers compensation deductions and payment to the Ohio Bureau of Workers Compensation.

Rotary Fund - Special Services

To account for operations made in connection with goods and services provided by the District.

Underground Storage Tanks

To account for underground storage tank money required by ORC Section 1301: 7-9-05.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (e.g. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

Termination Benefits

To account for cash accumulated for paying termination benefits or for paying salaries when the number of pay periods exceeds the usual and customary for a year.

THIS PAGE IS INTENTIONALLY LEFT BLANK

FUND DESCRIPTION

Nonmajor Debt Service Fund

A fund used to account for and report financial resources that are restricted, committed, or assigned to expenditure for payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation bonds and library bonds payable, as required by Ohio Law.

Debt Service

To account for the accumulation of restricted resources and payment of general obligation bond and note principal and interest and related costs.

FUND DESCRIPTION

Internal Service Fund

A fund category used to account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost-reimbursement basis. Charges are intended only to recoup the total cost of such services.

Employee Benefits Self-Insurance

This fund is provided to account for monies received from other funds as payment for providing dental benefits. The Self-Insured fund may make payments for services provided to employees, for reimbursement to employees who have paid providers, to third party administrators for claims payment or administration, for stop-loss coverage, or for any other reinsurance or other similar purposes.

Chromebook Self-Insurance

This fund is provided to account for monies received from other funds as payment for providing Chromebook insurance.

Source: Office of the County Auditor, Geauga County, Ohio

⁽¹⁾ Includes Homestead/ Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental revenue.

⁽²⁾ Data is presented on a calendar year basis, consistent with the County Auditor's method of maintaining the information.

⁽³⁾ The County is aware of the requirement to report delinquent tax collections by levy year rather than by collection year. The County's current computer system tracks levy amounts by either current levy or delinquent levy. Once amounts become part of the delinquent levy, the ability to track information by levy year is lost. The County is looking at options to provide this information in the future.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2021

Governmental Unit	Net General Tax Supported Debt	Estimated Percentage Applicable	Estimated Share of Overlapping Debt		
Direct Debt of Chardon Local School District:	\$ 3,750,000	100.00%	\$ 3,750,000		
General obligation debt (Net)	\$ 3,750,000 3,750,000	100.0076	\$ 3,750,000 3,750,000		
Overlapping debt:

CHARDON LOCAL SCHOOL DISTRICT GEAUGA COUNTY, OHIO

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

NOTE 1: **BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Chardon Local School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Chardon Local School District, it is not intended to and does not present the financial position, changes in net position or cash flows of the Chardon Local School District.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3: INDIRECT COST RATE

Chardon Local School District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4: CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE 5: **FOOD DONATION PROGRAM**

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

To the Members of Board of Education Chardon Local School District Chardon. Ohio The Honorable Keith Faber Auditor of State State of Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chardon Local School District, Geauga County, Ohio, (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 21, 2021, wherein we noted the District has converted its governmental funds to the modified accrual basis of accounting and coverted its governmental activities to the accrual basis of accounting, and restated its fund balance and net position at June 30, 2020, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District, and the school foundation aid received from the State of Ohio will be funded through the direct funding model.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Members of Board of Education Chardon Local School District Chardon, Ohio The Honorable Keith Faber Auditor of State State of Ohio

Report on Compliance for Each Major Federal Program

We have audited the Chardon Local School District, Geauga County, Ohio's (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Chardon Local School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 21, 2021, which contained unmodified opinions on those financial statements, wherein we noted the District has converted its governmental funds to the modified accrual basis of accounting and coverted its governmental activities to the accrual basis of accounting, and restated its fund balance and net position at June 30, 2020, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District, and the school foundation aid received from the State of Ohio will be funded through the direct funding model. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purpose of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
