### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Clayton Montgomery County P.O. Box 280 Clayton, Ohio 45315

To the City Council:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clayton, Montgomery County, (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 27, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City.

### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

City of Clayton Montgomery County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Keith Faber Auditor of State Columbus, Ohio

June 27, 2022

### CITY OF CLAYTON MONTGOMERY COUNTY

### SCHEDULE OF FINDINGS DECEMBER 31, 2021

### FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

None.

### **OTHER – FINDINGS FOR RECOVERY**

In addition, we identified the following other issues related to Findings for Recovery. These issues did not impact our GAGAS Compliance and Controls report.

### FINDING NUMBER 2021-001

### Finding for Recovery Repaid Under Audit – OPERS Interest & Penalties

**State ex rel. McClure v. Hagerman, 155 Ohio St. 320 (1951)** provides that expenditures made by a governmental entity should serve a public purpose. Typically the determination of "proper public purpose" rests with the governmental entity unless such determination is arbitrary or unreasonable. Even if a purchase is reasonable, Ohio Attorney General Opinion No. 82-006 indicates that it must be memorialized by a duly enacted ordinance or resolution and may have a prospective effect only.

Under Ohio law, public officials are strictly liable for all public money received or collected by them or their subordinates under color of law. Ohio Rev. Code § 9.39; *Cordray v. Internatl. Preparatory School*, 128 Ohio St.3d 50 (2010).

The City paid a total of \$5,636.13 in interest and penalty fees accumulated for delinquent payroll withholding submissions to the Ohio Public Employees Retirement System ("OPERS") pertaining to two City employees (see Findings 2021-002 and 2021-003). Interest and penalty fees accumulated for delinquent payroll withholding submissions to OPERS are unnecessary expenditures which do not serve a proper public purpose. These charges would have been avoided had the payroll withholding submissions been remitted to OPERS by the required due dates.

In accordance with the foregoing facts and pursuant to Ohio Rev. Code Section 117.28, a Finding for Recovery for public monies illegally expended is hereby issued, jointly and severally, in the amount of \$5,636 against Kevin Schweitzer, Finance Director, and his bonding company, State Farm Fire and Casualty Company, in favor of the City's General Fund.

On July 12, 2022, Finance Director Kevin Schweitzer repaid the City \$5,636.13 via check no. 3643 to the credit of the City's General Fund via receipt no. 2022-0874.

Management and the City Council should establish and implement procedures to verify employees are properly enrolled in the Ohio Public Employees Retirement System and that subsequent withholdings and payments are made in a timely manner to avoid interest and penalties for delinquent submissions. Failure to do so could result in potential findings for recovery being issued in future audits.

### Officials' Response:

Controls are in place for ensuring employees are registered and withholdings made for all retirement systems. The controls were circumvented when Amanda Zimmerlin was added to the payroll system by the Assistant to the Finance Director as employees had just started working remotely due to the COVID Pandemic and processes had to be created to keep the city operating to its best efforts. The Assistant to the Finance Director also processes remittances to the retirement systems. It is also noted that Ohio Public Employees Retirement System failed to notify, as required, the city that active employees were not receiving remittances during the entire period.

City of Clayton Montgomery County Schedule of Findings Page 2

### FINDING NUMBER 2021-002

### Finding for Recovery Resolved Under Audit

**Ohio Rev. Code § 145.47** requires that each public employee who is a contributor to the public employees retirement system shall contribute eight per cent of the contributor's earnable salary to the employees' savings fund, except that the public employees retirement board may raise the contribution rate to a rate not greater than ten per cent of the employee's earnable salary. The head of each state department, institution, board, and commission, and the fiscal officer of each local authority subject to this chapter, shall transmit to the system for each contributor's earnable salary at such intervals and in such form as the system shall require. The head of each state department and the fiscal officer of each local authority subject to this chapter to this chapter shall transmit promptly to the system a report of contributions at such intervals and in such form as the system shall require, showing thereon all the contributions and earnable salary of each contributor employed, together with warrants, checks, or electronic payments covering the total of such deductions.

Amanda Zimmerlin was hired by the City in 2020 and enrolled in OPERS. However, the City did not withhold the required employee contribution from Amanda Zimmerlin's paychecks, nor remit any employee/employer withholdings to OPERS. As a result, the City incurred interest and penalty fees for delinquent contributions (see Finding 2021-001) along with amounts due for the employee and employer contributions. On May 19, 2022, notably, the City remitted employee and employer contributions for Amanda Zimmerlin in the amounts of \$22,176.93 and \$31,047.71, respectively, for the dates of service of March 1, 2020 to December 31, 2021 to OPERS.

In accordance with the foregoing facts and pursuant to Ohio Rev. Code Section 117.28, a Finding for Recovery for public monies illegally expended is hereby issued, jointly and severally, in the amount of \$22,176 against Amanda Zimmerlin and Kevin Schweitzer, Finance Director, and his bonding company, State Farm Fire and Casualty Company, in favor of the City's General Fund.

On May 18, 2022, an agreement was entered into between the City of Clayton and Amanda Zimmerlin for repayment for the employee contribution amount owed. Per the reached agreement, there will be \$150.00 deducted from Ms. Zimmerlin's pay, per payroll period, starting the first pay in June of 2022 and the payments will raise \$50.00 each proceeding January until the amount is repaid in full. As a result of this agreed-upon plan covering the amount owed, the Finding for Recovery has been resolved under audit.

Management and the City Council should establish and implement procedures to verify employees are properly enrolled in the Ohio Public Employees Retirement System and that subsequent withholdings and payments are made in a timely manner to avoid interest and penalties for delinquent submissions. Failure to do so could result in potential findings for recovery being issued in future audits.

### Officials' Response:

Controls are in place for ensuring employees are registered and withholdings made for all retirement systems. The controls were circumvented when Amanda Zimmerlin was added to the payroll system by the Assistant to the Finance Director as employees had just started working remotely due to the COVID Pandemic and processes had to be created to keep the city operating to its best efforts. The Assistant to the Finance Director also processes remittances to the retirement systems. It is also noted that Ohio Public Employees Retirement System failed to notify, as required, the city that active employees were not receiving remittances during the entire period.

City of Clayton Montgomery County Schedule of Findings Page 3

### FINDING NUMBER 2021-003

### Finding for Recovery Resolved Under Audit

**Ohio Rev. Code § 145.47** requires that each public employee who is a contributor to the public employees retirement system shall contribute eight per cent of the contributor's earnable salary to the employees' savings fund, except that the public employees retirement board may raise the contribution rate to a rate not greater than ten per cent of the employee's earnable salary. The head of each state department, institution, board, and commission, and the fiscal officer of each local authority subject to this chapter, shall transmit to the system for each contributor's earnable salary at such intervals and in such form as the system shall require. The head of each state department and the fiscal officer of each local authority subject to this chapter to this chapter shall transmit promptly to the system a report of contributions at such intervals and in such form as the system shall require, showing thereon all the contributions and earnable salary of each contributor employed, together with warrants, checks, or electronic payments covering the total of such deductions.

Evan Sluterbeck was hired by the City in 2020 and enrolled in OPERS. However, the City did not withhold the required employee contribution from Evan Sluterbeck's paychecks, nor remit any employee/employer withholdings to OPERS. As a result, the City incurred interest and penalty fees for delinquent contributions (see Finding 2021-001) along with amounts due for the employee and employer contributions. On May 19, 2022, the City notably remitted employee and employer contributions for Evan Sluterbeck in the amounts of \$492.31 and \$689.23, respectively, for the dates of service of July 1, 2020 to December 31, 2021 to OPERS.

In accordance with the foregoing facts and pursuant to Ohio Rev. Code Section 117.28, a Finding for Recovery for public monies illegally expended is hereby issued, jointly and severally, in the amount of \$492 against Evan Sluterbeck and Kevin Schweitzer, Finance Director, and his bonding company, State Farm Fire and Casualty Company, in favor of the City's General Fund.

On June 23, 2022, an agreement was entered into between the City of Clayton and Evan Sluterbeck for repayment for the employee contribution amount owed. Per the reached agreement, there will be \$101.44 deducted from Mr. Sluterbeck's pay, per payroll period, starting the first pay in June of 2022 until the amount is repaid in full. As a result of this agreed-upon plan covering the amount owed, the Finding for Recovery has been resolved under audit.

Management and the City Council should establish and implement procedures to verify employees are properly enrolled in the Ohio Public Employees Retirement System and that subsequent withholdings and payments are made in a timely manner to avoid interest and penalties for delinquent submissions. Failure to do so could result in potential findings for recovery being issued in future audits.

### Officials' Response:

Controls are in place for ensuring employees are registered and withholdings made for all retirement systems. The two instances where employees did not have Ohio Public Employees Retirement contributions withheld from their pay occurred during the employment of an Assistant to the Finance Director that was employed a short time and was still learning the financial software system. It is also noted that Ohio Public Employees Retirement System failed to notify, as required, the city that active employees were not receiving remittances during the entire period.

Citizens of Clayton Members of Council City of Clayton, Ohio

We are pleased to present the nineteenth Annual Comprehensive Financial Report (ACFR) for the City of Clayton. This report, for the year ended December 31, 2021, contains the financial statements and other financial and statistical data that provide complete and full disclosure of all material financial aspects of the City of Clayton (the "City").

State law requires that every general-purpose local government file with the Auditor of State of Ohio and publish the availability of the financial statements within 150 days of the close of each year. The general purpose external financial statements from this report were filed to fulfill that requirement for the year ended December 31, 2021.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Auditor of State of Ohio's office has issued an unmodified ("clean") opinion on the City of Clayton's financial statements for the year ended December 31, 2021. The Independent Auditors' Report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### CITY OVERVIEW

Randolph Township was formed in 1802 out of the Northwest Territory. Hipple's Mill, later known as Salem, was platted in 1814 as the unincorporated Village of Salem. In 1940, Salem was briefly changed to West Salem and about one year later it was incorporated as the Village of Clayton (there was already an incorporated Village of Salem). On January 1, 1998, Randolph Township and the Village of Clayton merged to form the current boundary lines of the City of Clayton. In November of that year, as a result of the Village of Clayton having more than 5,000 electors registered in the Village at the 1998 General Election, the Secretary of State proclaimed the Village of Clayton to be a city effective December 31, 1998.

The City of Clayton is the newest city in the Northmont community. It is just minutes from Interstates 70 and 75, major shopping areas, and the Dayton International Airport. The City of Clayton is located in central western Ohio just north of Dayton. It is located within Montgomery County, Ohio approximately midway between Indianapolis and Columbus.

### CITY ORGANIZATION AND REPORTING ENTITY

The current charter provides for a Council-Manager form of government. The City Council consists of seven members elected from the community to serve staggered four year terms. Three are elected at-large, three are from wards, and the Mayor is elected at large. As a Council member, the Mayor has the right to vote on all issues before the Council. Council appoints the City Manager. The City Manager appoints all department managers of the City.

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the City are not misleading.

The primary government consists of all funds and departments which provide various services including police and fire/EMS protection, sewer services, street maintenance and repair, zoning, and staff to provide support services (i.e., payroll processing and accounts payable). The City Manager has direct responsibility for these activities.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations for which the City approves their budget, the issuance of their debt or the levying of their taxes. Currently, the City does not have any component units.

The City participates in a joint venture, the Clay Township-City of Clayton Joint Economic Development District (the "District") with Clay Township. The District was established for the purpose of facilitating economic development to create or preserve jobs and employment opportunities and to improve the economic welfare of the people in the District. The District will permit the City and the Township to share income tax revenues from the development of business operations within the District. The Miami Valley Regional Planning Commission is a jointly governed organization. The Commission prepares plans, including studies, maps, recommendations, and reports concerning the physical, environmental, social, economic, and governmental characteristics, functions, and services of the region. The City is also a member of the Economic Development/Government Equity Program (ED/GE), a jointly governed organization which promotes developing plans and programs designed to assure that City resources are efficiently used, that economic growth is properly balanced, and that City economic development is coordinated with that of the State of Ohio and other local governments. The City belongs to the Public Entities Pool of Ohio, a risk-sharing pool available to Ohio local governments. These organizations are presented in Notes 18, 19 and 20.

Council adopts an annual budget prior to the beginning of the year. Upon the presentation by the City Manager of a proposed budget document to Council, Council calls and publicizes a public hearing. Council will subsequently adopt such budget, as it may have been amended, as the City's annual budget effective for the year beginning January 1.

This annual budget serves as the foundation for the City of Clayton's financial planning and control. The budget is prepared by fund, program, personal services and all other objects level for all funds. Department heads may transfer resources within a department as they see fit.

### ITEMS OF LOCAL INTEREST

### Parks and Recreation

The City contains five parks covering 216.27 acres and provides year-round recreational and educational programs for its citizens. Hardscrabble Park is a 21.1 acre park that provides outdoor playing fields and is the home of the Clayton Hardscrabble Baseball League. Northview Playground is a 6.37 acre park with playground equipment, a picnic shelter and basketball courts. Westbrook Park is a 17.8 acre park with walking trails and tennis courts. Meadowbrook at Clayton golf course is an 18 hole course with a driving range and a full service banquet facility that the City has owned since 2015.

### Culture and Education

The City has many nearby educational facilities, churches, cultural resources, parks and playgrounds. Numerous colleges and universities in the surrounding metropolitan area provide excellent opportunities and facilities for higher educational study to the citizens of Clayton.

The city is also located within 15 miles of three outdoor music venues.

The Miami Valley Career-Technology Center offers various areas of study, primarily to provide education in the industrial and commercial field. In addition, an adult education program offers courses in a wide variety of subjects.

### **Transportation**

The Dayton International Airport is located five miles east of the City and offers full commercial air passenger and freight service by many major airlines.

Several motor transport companies are based in the area and, together with those of the adjacent metropolitan areas, provide reliable freight transportation to and from the City.

An extensive network of interstate and State highways, including I-75, I-675, I-70 and State Routes 49, 40 and 48 serve the City and surrounding communities.

### ECONOMIC CONDITIONS AND OUTLOOK

2021 offered a slow progression back to normalcy. The city was able to go back to in person meetings and begin to hold community events again. The City was able to host a variety of community events, including the annual Easter Egg Hunt, Labor Day Fire Works, Costumes and Carvings, and Breakfast with Santa.

Major points of action that occurred in Clayton during 2021 were as follows:

- Approximately \$863,945 of road improvements were completed during the year. The majority of these improvements were focused on the repaying of all lane miles of State Route 49 within the city and completing concrete work along Westbrook Road in anticipation of paving work in conjunction with the City of Trotwood.
- There was also considerable interest in Development in Clayton. In September 2021 City Council approved the development plan for Grand Villas of Clayton, an apartment home community with a maximum of 128 apartment homes located along Hoke Road. Plans for a 125 single family home

development at the corner of Union Road and Westbrook Road also worked its way through the City's development process, with the first reading of the final development plan taking place at the December 9, 2021 meeting.

- One of the recommendations from the Plan Clayton Implementation Committee was the continued improvements to Main Street. City Council made the decision to allocate a portion of the 2021 Community Development Block Grant Funding (CDBG) to the façade improvements along Main Street through grant program.
- City Council approved as part of the 2021 budget body camera program for the Police Department. In August of 2021 the City entered into an agreement with Utility BodyWorn for camera services increasing transparency in the police department.

The City of Clayton did receive the first tranche of money from American Rescue Plan Act (ARPA) in the amount of \$692,509. The program guidance provided to the states detail the funds can be used to: Respond to health emergencies or the negative impacts of COVID on the community; provide premium pay to front line workers in the organization; revenue replacement; and/or to make necessary improvements to water, sewer, or broad band infrastructure. At the June 17, 2021 Council meeting staff discussed with Council the proposed projects for the first tranche of money. Staff tried to leverage grant funding with the ARPA Funds to get the best value for the City. Projects slated in Clayton for the first tranche of money are: Wenger Rd. Storm Sewer Project; Talmadge Rd. Storm Sewer Project; Parking Lot Mill and Fill (Resurfacing) Project at Clayton Park at Hardscrabble; All-Inclusive Playground & Equipment Project at Northview Park; ADA Compliant Restrooms Project at Westbrook Park; and HVAC System Replacement at Meadowbrook at Clayton.

Several new businesses were started in the City and home sales are occurring at brisk pace and elevated price.

To further enhance potential economic development opportunities, City Council continues to belong to the Montgomery County ED/GE program. The ED/GE program is a combined economic development/tax-sharing program whose participants include Montgomery County and its townships, villages and cities. The City also participates in the Community Development Block Grant program with the County. The City has received various monies from CDBG funding the past several years.

Despite these challenges, City staff is currently assisting several development companies with potential housing developments in the western area of the City which would attract new residents and increase the income and property tax base.

### FINANCIAL PLANNING AND POLICIES

The Finance Department investment policy lists its primary objectives of safety, liquidity and yield. Policies on Capital Assets, Budgeting, Accounting, Debt, Fund Reserves, and Capital Improvements were also completed.

The City of Clayton contracts with the Central Collection Agency (CCA) to administer the tax ordinances and collect the City income taxes by the authority of those ordinances. The credit given to residents who work outside of the City and pay taxes to those cities was also reduced from one hundred percent to fifty percent for 2016.

The City of Clayton also continues to maintain a Moody's "Aa2" bond rating.

The following items are the goals established by City Council. These goals provide a plan for the City to continue the consistent, reliable service to the citizens, providing a safe and secure community as well as aiding in a solid economic development plan for the present and future. These goals directly affect the long-term financial planning and budgeting and are reviewed throughout the year as to the measure of striving or reaching these goals.

### GOALS

A. Maintain Financial Stability

Priorities:

- Broaden the tax base by expanding commercial and retail economic opportunities
- Pursue grants and new revenue sources for essential services
- Only take on debt to fund essential projects that have no other funding source
- B. Broaden the economic base to reduce the financial burden and increase urban amenities

Priorities:

- Develop a five-year Economic Development Plan to include commercial and retail development
- Cultivate diverse business, including North Clayton
- Develop a business attraction and retention strategy
- Work with the Joint Economic Development District to generate business for additional City income
- Update the City's economic development statistics
- Contract for a property that can be "shovel ready" for economic development purposes
- C. Make Clayton a better place to live (including improving and expanding the infrastructure)

Priorities:

- Improve the appearance of the City
  - Main Street streets, curbs, gutters and sidewalks
  - Salem Avenue streets, curbs and gutters
  - Develop a budget to support the priorities
- Develop a Comprehensive Road Revitalization Plan and schedule
- Plan more community engagement activities

### MAJOR INITIATIVES

- The emphasis of replacing road, curb and gutter continued in 2021 with all of State Route 49 curb being replaced in preparation of the State of Ohio paving State Route 49 in 2022.
- The City was able to upgrade the Council Chambers Video/Audio system with funds from the CARES Act by installing a new system that allowed streaming to numerous platforms including Zoom which allowed residents to interact with Council meetings during the pandemic and abide by health orders limiting gathering sizes.
- The city continued its cooperation with Northmont City Schools, Miami Valley Career Technical Center as well as neighboring cities in acquiring or borrowing personnel and equipment. This process

reduces the need to purchase equipment that is not consistently needed and allows resources to be utilized elsewhere.

• A concentrated effort to improve efficiencies and services at the golf course will receive focus in the fall of 2021 with input from Staff as well as Council.

### OTHER INFORMATION

### Independent Audit

An audit team from the Auditor of State of Ohio's Office has performed this year's audit. The results of the audit are presented in the Independent Auditors' Report.

### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Clayton for its Annual Comprehensive Financial Report (ACFR) for the year ended December 31, 2020. This was the eighteenth year that the City of Clayton achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### ACKNOWLEDGEMENTS

Sincere appreciation is extended to the many people who have contributed their time and effort to prepare this report. We would also like to express appreciation to the Montgomery County Auditor's office for their continued effort in helping gather the information presented in the report. Finally, we would like to express appreciation to Julian & Grube, Inc. for their guidance and assistance in preparing this report.

Respectively Submitted,

Amende Gemmerlin

### INDEPENDENT AUDITOR'S REPORT

City of Clayton Montgomery County P.O. Box 280 Clayton, Ohio 45315

To the City Council:

### **Report on the Audit of the Financial Statements**

### Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clayton, Montgomery County, Ohio (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clayton, Montgomery County, Ohio as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparisons for the General, Police, Fire, and Street Funds for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Emphasis of Matter

As discussed in Note 24 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. Our opinion is not modified with respect to this matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

City of Clayton Montgomery County Independent Auditor's Report Page 2

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

City of Clayton Montgomery County Independent Auditor's Report Page 3

### Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual non-major fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2022, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

June 27, 2022

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

The management's discussion and analysis of the City of Clayton's (the "City") financial performance provides an overall review of the City's financial activities for the year ended December 31, 2021. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

### **Financial Highlights**

Key financial highlights for 2021 are as follows:

- The total net position of the City increased \$2,781,301. Net position of governmental activities increased \$2,785,058 or 15.36% from 2020's net position, and net position of business-type activities decreased \$3,757 or 1.1% from 2020's net position.
- General revenues accounted for \$9,278,744 or 76.46% of total governmental activities revenue. Program specific revenues accounted for \$2,856,969 or 23.54% of total governmental activities revenue.
- The City had \$9,175,192 in expenses related to governmental activities; \$2,856,969 of these expenses were offset by program specific charges for services, grants or contributions. The remaining expenses of the governmental activities of \$6,318,223 were offset by general revenues (primarily property taxes, income taxes and unrestricted grants and entitlements) of \$9,278,744.
- The general fund had revenues of \$5,085,621 in 2021. This represents an increase of \$375,099 from 2020 revenues. The expenditures and other financing uses of the general fund, which totaled \$5,347,079 in 2021, increased \$843,010 from 2020. Expenditures excluding transfers decreased \$22,755. The net decrease in fund balance for the general fund was \$261,458 or 4.84% compared with the 2020 balance.
- The police fund had revenues and other financing sources of \$2,666,035 in 2021. This represents an increase of \$286,964 from 2020 revenues and other sources. The expenditures of the police fund, which totaled \$2,661,475 in 2021, increased \$609,561 from 2020. The net increase in fund balance for the police fund was \$4,560, resulting in a fund balance of \$378,480.
- The fire fund had revenues and other financing sources of \$1,637,501 in 2021. This represents an increase of \$123,658 from 2020 revenues and other financing sources. The expenditures of the fire fund, which totaled \$1,673,091 in 2021, increased \$422,031 from 2020. The net decrease in the fund balance for the fire fund was \$35,590 or 9.42%.
- The street fund had revenues and other financing sources of \$1,294,502 in 2021. This represents a decrease of \$27,803 from 2020 revenues and other financing sources. The expenditures of the street fund, which totaled \$1,301,718 in 2021, increased \$151,291 from 2020. The net decrease in the fund balance for the street fund was \$7,216 or 1.39%.
- The bond retirement fund had revenues and other financing sources of \$823,310 in 2021. The expenditures and other financing uses of the bond retirement fund totaled \$823,310 in 2021. The net decrease in the fund balance for the bond retirement fund was \$0.
- The capital improvement fund had revenues and other financing sources of \$2,128,178 in 2021. The expenditures of the capital improvement fund totaled \$1,939,120 in 2021. The net increase in the fund balance for the capital improvement fund was \$189,058 or 26.78%. This increase was a result of the timing of capital project expenditures, as there were projects that were budgeted but not performed.
- Net position for the business-type activities, which is made up of the sewer operating department, decreased in 2021 by \$3,757.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

In the general fund, the actual revenues sources came in \$975,055 more than they were in the final budget and actual expenditures and other financing uses were \$798,115 less than the amount in the final budget. Final budgeted revenues and other financing sources were equal to the original budgeted revenues and other financing uses increased \$11,358 from the original to the final budget.

### Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the City as a whole, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

### Reporting the City as a Whole

### Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2021?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in net position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required community programs and other factors.

In the statement of net position and the statement of activities, the City is divided into two distinct kinds of activities:

Governmental activities - Most of the City's programs and services are reported here including police, fire, street department, capital improvements and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's sewer operating department is reported here.

The City's statement of net position and statement of activities can be found on pages 21-23 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

### **Reporting the City's Most Significant Funds**

### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The analysis of the City's major governmental and proprietary funds begins on page 13.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. The City has segregated these funds into major funds and nonmajor funds. The City's major governmental funds are the general fund, police fund, fire fund, street fund, bond retirement fund and capital improvement fund. Information for major funds is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 24-34 of this report.

### **Proprietary Funds**

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sewer function. City's enterprise funds considered to be major funds include the sewer operating fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City reports no internal service funds. The basic proprietary fund financial statements can be found on pages 35-39 of this report.

### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be found on page 40-41 of this report.

### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 42-91 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

### **Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's net pension and OPEB liabilities. The required supplementary information can be found on pages 94-109 of this report.

### **Government-Wide Financial Analysis**

The statement of net position provides the perspective of the City as a whole. The table on the following page provides a summary of the City's net position for 2021 compared to 2020.

	2021 Governmental <u>Activities</u>	2020 Governmental Activities	Net Position 2021 Business-type Activities	2020 Business-type Activities	2021 Total	2020 Total
Assets		• • • • • • • • • •	<b>^</b>	<b>•</b>		<b>•</b> • <b>•</b> • • • • • • • • • • • • • • •
Current and other assets Capital assets, net	\$ 17,980,492 22,108,014	\$ 17,056,126 21,748,089	\$	\$ 25,730 2,566,186	\$ 17,980,492 24,583,989	\$ 17,081,856 24,314,275
Total assets	40,088,506	38,804,215	2,475,975	2,591,916	42,564,481	41,396,131

Other liabilities	6,676,055	7,711,911	2,024,107	2,140,823	8,700,162	9,852,734
Total liabilities	16,794,345	19,078,403	2,140,823	2,253,007	18,935,168	21,331,410
Deferred inflows	5,491,035	4,705,204			5,491,035	4,705,204
Net Position						
Net investment in	14.046.000	12 470 572	225 152	212 170	15 100 0(1	12 701 752
capital assets	14,846,909	13,478,573	335,152	313,179	15,182,061	13,791,752
Restricted	4,881,578	4,765,875	-	-	4,881,578	4,765,875
Unrestricted	1,191,423	(109,596)		25,730	1,191,423	(83,866)
Total net position	\$ 20,919,910	\$ 18,134,852	\$ 335,152	\$ 338,909	\$ 21,255,062	\$ 18,473,761

The net pension liability/asset is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net pension asset.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability/asset or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability/asset and the net OPEB liability to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability/asset and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2021, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$21,255,062. At year-end, net position was \$20,919,910 and \$335,152 for the governmental activities and the business-type activities, respectively.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

Capital assets, net of related debt, reported on the government-wide statements represent the largest portion of the City's net position. At year-end, capital assets, net represented 57.76% of total assets. Capital assets include land, buildings, improvements other than buildings, furniture, fixtures and equipment, vehicles, and infrastructure. The City's net investment in capital assets at December 31, 2021, was \$14,846,909 and \$335,152 in the governmental activities and business-type activities, respectively. These capital assets are used to provide services to citizens and are not available for future spending.

A portion of the City's net position, \$4,881,578 represents resources that are subject to external restriction on how they may be used. In the governmental activities, the remaining balance of unrestricted net position is \$1,191,423.

The table below shows the changes in net position for years 2021 and 2020.

	2021	Change in Ne 2020	t Position 2021	2020		
	Governmental Activities	Governmental Activities	Business-Type Activities	Business-Type Activities	2021 Total	2020 Total
Revenues						
Program revenues:						
Charges for services	\$ 1,466,028	\$ 1,711,395	\$ -	\$-	\$ 1,466,028	\$ 1,711,395
Operating grants and contributions	1,081,391	2,127,404	-	-	1,081,391	2,127,404
Capital grants and contributions	309,550	154,322			309,550	154,322

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

#### **Governmental Activities**

Governmental activities net position increased 15.36% or \$2,785,058 in 2021.

Expenses of the governmental activities decreased \$2,467,055 or 21.19%. This decrease is primarily the result of the decrease in OPEB expense for the Ohio Public Employees Retirement System (OPERS). On an accrual basis, the City had OPERS OPEB expense of (\$1,524,342) in 2021 compared to \$214,805 in 2020. On January 15, 2020, OPERS approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation which are reported by the City at December 31, 2021. These changes along with changes in assumptions related to an increase in discount rate from 3.16% to 6.00% significantly decreased the total OPEB liability for the measurement date December 31, 2020.

Security of persons and property, which primarily supports the operations of the police and fire departments accounted for \$4,657,352 of the total governmental expenses of the City. These expenses were partially funded by \$532,253 in direct charges to users of the services and \$75,055 in operating grants and contributions. Transportation expenses totaled \$1,640,982. Transportation expenses were partially funded by \$60,340 in direct charges to users of the services and \$945,574 in operating grants and contributions. General government expenses totaled \$2,036,120. General government expenses were partially funded by \$267,426 in direct charges to users of the services and \$309,550 in capital grants and contributions. General government expenses were partially funded by \$60,742 in operating grants and contributions.

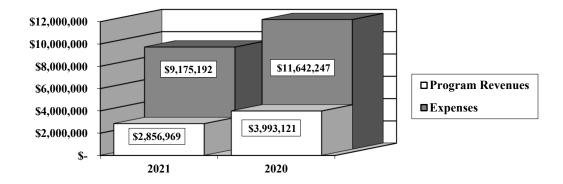

The state and federal government contributed to the City a total of \$1,081,391 in operating grants and contributions. These revenues are restricted to a particular program or purpose.

General revenues totaled \$9,278,744 and amounted to 76.46% of total governmental revenues. These revenues primarily consist of property taxes, other local taxes and income tax revenue of \$8,060,334. Unrestricted grants and entitlements of \$671,311, which includes local government funds, is the other primary source of general revenues.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state grants and entitlements. As can be seen in the graph below, the City is highly dependent upon property and income taxes as well as unrestricted grants and entitlements to support its governmental activities.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

# Governmental Activities - Program Revenues vs. Total Expenses

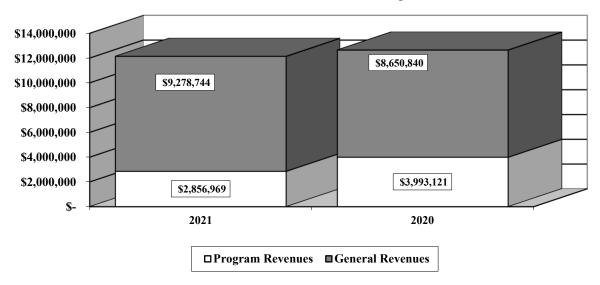

## **Governmental Activities**

	Total Cost of Services 2021	Total Cost of Services 2020	Net Cost of Services 2021	Net Cost of Services 2020
Program Expenses:				
General government	\$ 2,036,120	\$ 3,215,976	\$ 1,398,402	\$ 2,756,086
Security of persons and property	4,657,352	4,467,551	4,050,044	3,324,883
Public health and welfare	11,151	780,866	3,551	(5,326)
Transportation	1,640,982	1,995,699	635,068	983,977
Leisure time activity	580,782	898,166	(17,647)	305,517
Interest and Fiscal Charges	248,805	283,989	248,805	283,989
Total Expenses	\$ 9,175,192	\$ 11,642,247	\$ 6,318,223	\$ 7,649,126

The dependence upon general revenues for governmental activities is apparent, with 68.86% of expenses supported through taxes and other general revenues.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

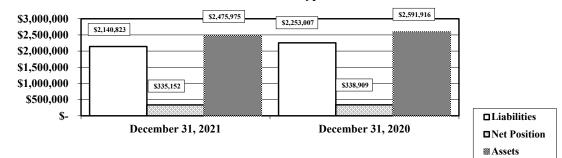

### **Governmental Activities - General and Program Revenues**

# **Business-Type Activities**

Business-type activities include the sewer operating department. These programs had expenses of \$179,220, and transfers in from governmental activities of \$175,463 for 2021.

The graph below shows the business-type activities assets, liabilities and net position at year-end 2021 and 2020.

#### Net Position in Business - Type Activities

### Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

# **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at year-end.

The City's governmental funds (as presented on the balance sheet on page 24-25) reported a combined fund balance of \$10,121,488 which is \$205,384 above last year's balance of \$9,916,104. The schedule below indicates the fund balances and the total change in fund balances as of December 31, 2021 for all major and nonmajor governmental funds.

	Fund Balances 12/31/21	Fund Balances 12/31/20	Increase (Decrease)
Major Funds:			
General	\$ 5,135,278	\$ 5,396,736	\$ (261,458)
Police	378,480	373,920	4,560
Fire	342,267	377,857	(35,590)
Street	510,173	517,389	(7,216)
Capital improvement	895,031	705,973	189,058
Other nonmajor governmental funds	2,860,259	2,544,229	316,030
Total	\$ 10,121,488	\$ 9,916,104	\$ 205,384

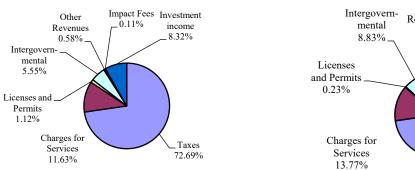

# MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

# **General** Fund

The City's general fund balance decreased \$261,458. The table that follows assists in illustrating the revenues of the general fund.

	2021 Amount	2020 Amount	Percentage Change
Revenues			
Taxes	\$ 4,050,792	\$ 3,426,380	18.22 %
Charges for services	647,993	648,750	(0.12) %
Licenses and permits	62,680	11,069	466.27 %
Change in fair value	(487,166)	(73,616)	561.77 %
Investment income	463,438	224,693	106.25 %
Impact fees	5,915	-	100.00 %
Intergovernmental	309,439	415,993	(25.61) %
Other	32,530	57,253	(43.18) %
Total	\$ 5,085,621	\$ 4,710,522	7.96 %

Tax revenue represents 79.65% of all general fund revenue. The City has experienced growth, both in an increase in residential properties and commercial ventures, which directly impacts tax revenue. The City holds investments until maturity, the change in fair value is due to the timing of investment purchases and is temporary in nature.

#### Revenues - 2021

#### Revenues - 2020

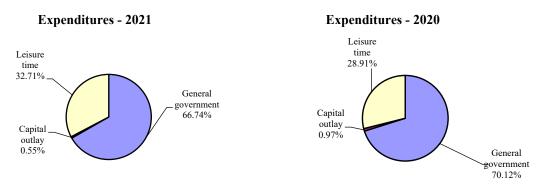

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

The table that follows assists in illustrating the expenditures of the general fund.

	2021 Amount	2020 Amount	Percentage Change
Expenditures General government Leisure time activities Capital outlay	\$ 1,713,077 839,602 14,140	\$ 1,815,821 748,746 	(5.66) % 12.13 % (43.46) %
Total	\$ 2,566,819	\$ 2,589,574	(0.88) %

Expenditures remained relatively stable with a decrease of .88% from 2020. The largest expenditure line item, general government, decreased 5.66%. This decrease was primarily due to a decrease in contract services expense.

# **Police** Fund

The police fund had revenues and other financing sources of \$2,666,035 in 2021. This represents an increase of \$286,964 from 2020 revenues and other sources. The expenditures of the police fund, which totaled \$2,661,475 in 2021, increased \$609,561 from 2020. Personnel costs for public safety continue to increase as wages and benefit costs are a significant part of the expenditures of the fund. Income taxes and charges for services saw a small increase while personnel costs increased at a larger rate resulting in the need for a 58% increase in Transfers-In. The net increase in fund balance for the police fund was \$4,560.

# Fire Fund

The fire fund had revenues and other financing sources of \$1,637,501 in 2021. This represents an increase of \$123,658 from 2020 revenues and other financing sources. The expenditures of the fire fund, which totaled \$1,673,091 in 2021, increased \$422,031 from 2020. Property taxes remained about the same while intergovernmental revenues decreased and mainly personnel costs increased expenses by 33.8%. The net decrease in the fund balance for the fire fund was \$35,590 or 9.42%.

# Street Fund

The street fund had revenues and other financing sources of \$1,294,502 in 2021. This represents a decrease of \$27,803 from 2020 revenues and other financing sources. The expenditures of the street fund, which totaled \$1,301,718 in 2021, increased \$151,291 from 2020. Charges for Services and intergovernmental receipts decreased which caused an increase in Transfers-In to offset the increase of 13.2% in expenditures. The net decrease in the fund balance for the street fund was \$7,216 or 1.39%.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

#### **Bond Retirement Fund**

The bond retirement fund had revenues and other financing sources of \$823,310 in 2021. The expenditures and other financing uses of the bond retirement fund totaled \$823,310 in 2021. The net decrease in the fund balance for the bond retirement fund was \$0.

#### Capital Improvement Fund

The capital improvement fund had revenues and other financing sources of \$2,128,178 in 2021. The expenditures of the capital improvement fund totaled \$1,939,120 in 2021. The net increase in the fund balance for the capital improvement fund was \$189,058 or 26.78%. This increase was a result of the timing of capital project expenditures, as there were projects that were budgeted but not performed.

# **Budgeting Highlights**

The City's budgeting process is prescribed by the Ohio Revised Code (ORC), as well as the City of Clayton Charter and Administrative Code. Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted accordingly.

Budgetary information is presented for the general fund, fire fund, police fund, and street fund. In the general fund, the actual revenues were \$975,055 more than they were in the final budget and actual expenditures and other financing uses were \$798,115 less than the amount in the final budget. Final budgeted revenues were equal to the original budgeted revenues. Budgeted expenditures and other financing uses increased \$11,358 from the original to the final budget.

The variance between actual revenues and other financing sources compared to final budget was a result of reduced income taxes anticipated to be collected due to uncertainty of employment status and resident work location due to the COVID 19 pandemic, but the City saw a collection of income taxes better than anticipated. The City only transfers monies to other funds as needed. Monitoring of expenditures and overtime of other departments resulted in less monies needed being transferred. This resulted in a favorable variance between final budget and actual expenditures and other financing uses. Additional expenditures arose during the year that produced final budgeted expenditures exceeding the original budget amount.

# **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The only difference between the amounts reported as business-type activities and the amounts reported in the proprietary fund statements is related to interfund activity. The only interfund activity reported in the government wide statements are those between business-type activities and governmental activities (reported as internal balances and transfers) whereas interfund amounts between various enterprise funds are reported in the proprietary fund statements.

The sewer operating fund had a decrease in net position of \$3,757. The sewer fund receives operating transfers to pay an outstanding OWDA loan associated with sewer line construction. The City transferred \$175,463 to the fund to support operations.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

#### **Capital Assets and Debt Administration**

#### Capital Assets

At the end of 2021, the City had \$24,583,989 (net of accumulated depreciation) invested in land, buildings and improvements, improvements other than buildings, equipment, vehicles, and infrastructure. Of this total, \$22,108,014 was reported in governmental activities and \$2,475,975 was reported in business-type activities. See Note 10 in the basic financial statements for additional capital asset disclosure. The following table shows 2021 balances compared to 2020:

# Capital Assets at December 31 (Net of Depreciation)

	Governmen	tal Activities	Business-Ty	pe Activities	Total		
	<u>2021</u>	2020	2021	2020	<u>2021</u>	<u>2020</u>	
Land	\$ 5,597,025	\$ 5,597,025	\$ -	\$ -	\$ 5,597,025	\$ 5,597,025	
Improvements	521,203	443,719	-	-	521,203	443,719	
Buildings	1,287,251	1,371,185	-	-	1,287,251	1,371,185	
Furniture	1,128,233	1,062,513	-	-	1,128,233	1,062,513	
Vehicles	2,700,301	2,662,439	-	-	2,700,301	2,662,439	
Infrastructure	10,874,001	10,611,208	2,475,975	2,566,186	13,349,976	13,177,394	
Totals	\$ 22,108,014	\$ 21,748,089	\$ 2,475,975	\$ 2,566,186	\$ 24,583,989	\$ 24,314,275	

The City's largest general capital asset category is infrastructure which includes bridges, thoroughfares, curbs, gutters, sidewalks, storm sewers, traffic signals and street signs. These items are immovable and of value only to the City, however, the annual cost of purchasing these items is quite significant. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 49.19% of the City's total governmental capital assets.

The City's only business-type capital asset category is infrastructure which primarily includes sewer lines. These items play a vital role in the income producing ability of the business-type activities.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2021 (UNAUDITED)

# **Debt** Administration

The City had the following long-term obligations outstanding at December 31, 2021 and 2020:

	 Governmental Activities					
	<u>2021</u>		2020			
General obligation bonds Capital lease obligation	\$ 6,997,184 464,872	\$	7,717,355 780,207			
Total long-term obligations	\$ 7,462,056	\$	8,497,562			
	 Business-type Activities					
	<u>2021</u>		2020			
OWDA loans	\$ 2,140,823	\$	2,253,007			
Total long-term obligations	\$ 2,140,823	\$	2,253,007			

See Note 15 to the basic financial statements for detail on the City's long-term obligations.

#### **Current Financial Issues**

The effects of COVID-19 are still occurring with staffing issues with Police and Fire, supply chain issues preventing equipment being ordered or being delivered on-time. The threat of inflation is increasing cost of all items especially gasoline and diesel fuel reflecting the biggest increases in cost. The City is expecting the second tranche of the American Rescue Plan Act (ARPA) monies to be received mid-2022. Fortunately, income taxes are providing a increase in revenues as well as the City obtaining several grants to facilitate priority projects. Economic Development continues to be strong with several residential subdivisions being proposed as well as commercial ventures in the works.

### **Contacting the City's Financial Management**

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Kevin A. Schweitzer, CPA, Finance Director, City of Clayton, P.O. Box 280, Clayton, Ohio 45315.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2021

Net change in fund balances - total governmental funds		\$	205,384
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation expense in the current period. Capital asset additions Current year depreciation	\$ 1,688,882 (1,316,312)		
Total			372,570
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.			(12,645)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Income taxes Real and other taxes Intergovernmental revenues Special assessments Investment income	11,363 68,061 1,905 (328,317) (4,834)		
Other Total	 (17,149)		(268,971)
Repayment of bond principal and matured accreted interest is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.			1,000,335
Contractually required pension/OPEB contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows. Pension OPEB Total	 747,864 11,015		758,879
Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability and net OPEB liability are reported as pension/OPEB expenses or reductions in expenses in the statement of activities. Pension OPEB Total	 (620,346) 1,372,294		751,948
The City's share of the expense of the Joint Economic Development District is presented as a deduction to the equity interest in the statement of activities.			(3,534)
In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due. Decrease in accrued interest payable Amortization of deferred amounts on refunding Amortization of bond premiums Total	 939 (27,095) 35,171		9,015
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not			(05.000)
reported as expenditures in governmental funds. Change in net position of governmental activities		\$	(27,923)
Change in net position of governmental activities		Φ	2,703,030

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 1 - DESCRIPTION OF THE CITY

The City of Clayton (the "City") was formed January 1, 1998, as a result of a merger approved by the voters of Randolph Township and the Village of Clayton in an election held November 1997. Randolph Township was founded in 1802 from the original Elizabeth Township. The Village of Clayton was incorporated in 1942. The newly merged City continued as a statutory village until the 1998 General Election when Clayton became a city. The voters of the City approved a charter in May 1999 under which the City continues to operate.

The City charter calls for a Council-Manager form of government. The Council consists of seven members: a Mayor, three at-large Council members and three ward representatives. The City elects the three ward representatives in one election cycle, with the Mayor and the at-large members elected two years later. They serve as the legislative body and are governed by the provisions of the charter. All council members, including the Mayor, are elected to four year terms.

The Council, by majority vote, appoints the City Manager who serves as chief executive officer. The City Manager is responsible for appointing and removing all other full and part-time City employees.

#### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City's accounting policies are described below.

#### A. Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, and activities that are not legally separate from the City. They comprise the City's legal entity which provides various services including police, fire, emergency medical, planning and zoning, street construction, maintenance and repair, administrative services, water services, sewer services, and golf course. Council and the City Manager have direct responsibility for these activities.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the organization's budget, the issuance of its debt or the levying of its taxes. The City has no component units.

The City participates in the Clay Township-City of Clayton Joint Economic Development District (the "District") with Clay Township, which is defined as a joint venture. A joint venture is a legal entity or other organization that results from a contractual arrangement, and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility. This organization is presented in Note 18 to the Basic Financial Statements.

The City participates in five jointly governed organizations, the Miami Valley Regional Planning Commission, the Miami Valley Fire/EMS Alliance, the Hazardous Material Response Team, the Montgomery County Office of Emergency Management, and the Economic Development/Government Equity Program. A jointly governed organization is governed by representatives from each of the governments that create the organization, but there is no ongoing financial interest or responsibility on the part of the participating governments. These organizations are presented in Note 19 to the Basic Financial Statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The City participates in one risk sharing pool, the Public Entities Pool of Ohio. This organization is presented in Notes 17 and 20 to the Basic Financial Statements.

#### **B.** Basis of Presentation

The City's Basic Financial Statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

*Government-Wide Financial Statements* - The Statement of Net Position and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government, except for the fiduciary funds. The statements distinguish between those activities of the City that are governmental in nature and those that are considered business-type activities.

The Statement of Net Position presents the financial condition of the governmental and business-type activities of the City at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business segment is self-financing or draws from the general revenues of the City.

*Fund Financial Statements* - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary Funds are reported by type.

#### C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

*Governmental Funds* - Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflow of resources and liabilities and deferred inflow of resources is reported as fund balance. The following are the City's major governmental funds:

<u>General Fund</u> - The General Fund accounts for and reports all financial resources not accounted for and reported in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio and the Charter of the City.

<u>*Police Fund*</u> - The Police Fund is used to account for and report revenues received from a City-wide voted property tax levy and fines and forfeitures that are restricted to expenditures of the police department.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

*<u>Fire Fund</u>* - The Fire Fund is used to account for and report revenues received from a City-wide voted property tax levy restricted to expenditures of the fire department.

<u>Street Fund</u> - The Street Fund is used to account for the revenues collected for all transactions relating to street maintenance and construction.

<u>Bond Retirement Fund</u> - The Bond Retirement Fund is used to account for the revenues collected for payment of general obligation debt principal, interest and related costs.

<u>Capital Improvement Fund</u> - The Capital Improvement Fund is used to account for and report the portion of the voted municipal income tax, restricted for improving, constructing, maintaining, and purchasing those items necessary to enhance the operation of the City.

The nonmajor governmental funds of the City account for grants and other resources whose use is restricted, committed, or assigned for a particular purpose.

**Proprietary Funds** - Proprietary funds focus on the determination of operating income, changes in net position, financial position, and cash flows. The City's proprietary fund is one enterprise fund.

<u>Enterprise funds</u> - The enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following is the City's major enterprise fund:

<u>Sewer Operating Fund</u> - This fund is used to account for and report resources used for sewer expansion debt paid from transfers from other funds.

*Fiduciary Funds* - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. The three types of trust funds are to be used to report resources held and administered by the City when it is acting in a fiduciary capacity for individuals, private organizations, or other governments. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City's only trust fund is a private purpose trust fund which accounts for a bequest to aid needy families who experience a fire or other calamity. The City has two custodial funds. One accounts for collecting and distributing the Clay Township-City of Clayton Joint Economic Development District income taxes for which the City is fiscal agent. The other custodial fund accounts for association fees received from various homeowners within the North Clayton development which are then distributed to the North Clayton Development Association.

#### D. Measurement Focus and Basis of Accounting

*Government-Wide Financial Statements* - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, liabilities, and deferred inflows and outflows of resources associated with the operation of the City are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total Net Position.

*Fund Financial Statements* - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and current deferred inflows of resources generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Like the government-wide statements, the enterprise funds are accounted for using a flow of economic resources measurement focus. All assets, deferred inflows, liabilities, and deferred outflow of resources associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in total Net Position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its enterprise activities.

The Private Purpose Trust Fund and custodial funds are reported using the economic resources measurement focus.

#### E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; the enterprise and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Nonexchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within 31 days of year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, other local taxes, payment in lieu of taxes, municipal income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6). Revenue from municipal income taxes is recognized in the year in which the income is earned. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: municipal income taxes, intergovernmental revenues (including motor vehicle license tax, gasoline tax, and local government assistance) fines and forfeitures, accrued interest, and grants.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, see Notes 11 and 12 for deferred outflows of resources related the City's net pension asset/liability and net OPEB liability, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2021, but which were levied to finance 2022 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes, but is not limited to, income taxes, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the City, see Notes 11 and 12 for deferred inflows of resources related to the City's net pension asset/liability and net OPEB liability, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### F. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net pension asset, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### G. Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the City's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During 2021 the City's investments included Federal Home Loan Mortgage Corporation Bonds, Federal National Mortgage Association REMIC Trust Bonds, Federal National Mortgage Association Bonds, U.S. Government money market and Negotiable Certificates of Deposit.

Interest income and gains or losses on investments are distributed to the funds according to Ohio constitutional and statutory requirements. Interest revenue and gains or losses on investments credited to the General Fund during 2021 amounted to \$463,438 of which \$191,556 was assigned from other City funds. Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the City are presented on the financial statements as cash equivalents.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2021, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

#### I. Capital Assets

General capital assets are capital assets that are associated with and generally rise from governmental activities. They usually result from expenditures in governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position, but are not reported in the fund financial statements. Capital assets used by the enterprise funds are reported in both the business-type activities column of the government-wide Statement of net respective funds.

All capital assets are capitalized at cost (or estimated historical cost, which is determined by indexing the current replacement cost back to the year of acquisition) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values on the date received. The City maintains a capitalization threshold of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements. Depreciation is computed equally, each year of the asset's life starting the year after acquisition using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings	30 - 40 Years
Improvements Other Than Buildings	10 Years
Vehicles	5 - 25 Years
Furniture, Fixtures and Equipment	2 - 20 Years
Infrastructure	10 - 60 Years

The City's infrastructure system consists of streets, curbs, gutters, sidewalks, street lights, and water and sewer lines. General infrastructure assets acquired prior to January 1, 2004 are not reported in the Basic Financial Statements. General infrastructure assets include all streets and other infrastructure assets acquired subsequent to January 1, 2004.

#### J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and unpaid amounts for interfund services are classified as "Interfund Receivable/Payable." Long-term interfund loan receivables, reported as "Advances to Other Funds" or "Advances from Other Funds," are classified as nonspendable fund balance, which indicates that they are not in spendable form even though it is a component of net current assets. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

#### K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the enterprise funds are reported on the proprietary fund financial statements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences and net pension liability that will be paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long-term bonds, notes, and capital leases are recognized as liabilities on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

#### L. Compensated Absences

Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation and compensatory time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at year-end, taking into consideration any limits specified in the City's termination policy. The City records a liability for accumulated unused sick leave for all employees after 10 years of service with the City.

#### M. Bond Premiums and Compounded Interest on Capital Appreciation Bonds

For governmental activities, bond premiums are deferred and amortized over the term of the bonds using the straight-line method since the results are not significantly different from the effective interest method. Capital appreciation bonds are accreted each fiscal year for the compounded interest accrued during the fiscal year. Bond premiums and the compounded interest on the capital appreciation bonds are presented as an addition to the face amount of the bonds payable.

On the governmental fund financial statements, bond premiums are recognized in the period in which the bonds were issued. Accretion on the capital appreciation bonds is not reported. Interest on the capital appreciation bonds is recorded as an expenditure when the debt becomes due.

#### N. Net Position

Net Position represents the difference between assets and deferred outflows of resources compared to liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### **O.** Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash. The nonspendable fund balances for the City includes prepaid items and materials and supplies inventory.

<u>Restricted</u> - The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (City ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party - such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the amount that assigned for capital asset replacement. In the General Fund, assigned amounts represent intended uses established by City Council or a City official delegated that authority by City charter or ordinance. The future appropriations amount assigned in the General Fund represents 2021 appropriations that exceed estimated resources. State statute authorizes the finance director to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. The City has not adopted a formal fund balance policy.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### P. Internal Activity

Transfers within governmental activities are eliminated on the government-wide financial statements.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### **Q.** Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the City, these revenues are charges for services, tap-in fees, and impact fees for sewer services. Operating expenses are the necessary costs incurred to provide the services that are the primary activities of the fund. Revenues and expenses that do not meet these definitions are reported as non-operating.

#### **R.** Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### S. Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

#### T. Materials and Supplies Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed at the time consumed. Inventory consists of expendable supplies.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds.

#### U. Budgetary Process

All funds, other than the custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations ordinance, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations ordinance is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of budgetary control has been established by Council at the fund, program, personal services and all other objects level for all funds.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Finance Director. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final budgeted amounts on the budgetary statements reflect the amounts on the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by Council.

The appropriations ordinance is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year, including all supplemental appropriations.

# NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

#### **Change in Accounting Principles**

For 2021, the City has implemented GASB Statement No. 89, "<u>Accounting for Interest Cost Incurred before the End of</u> <u>a Construction Period.</u>"

GASB Statement No. 89 establishes accounting requirements for interest cost incurred before the end of a construction period. GASB Statement No. 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. GASB Statement No. 89 also reiterates that financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The implementation of GASB Statement No. 89 did not have an effect on the financial statements of the City.

For 2021, the City has applied GASB Statement No. 95, "<u>Postponement of the Effective Dates of Certain Authoritative</u> <u>Guidance</u>" to GASB Statement Nos. 91, 92 and 93, which were originally due to be implemented in 2021 and to GASB Statement No. 87, which was originally due to be implemented in 2020. GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The following pronouncements are postponed by one year and the City has elected delaying implementation until the fiscal year ended December 31, 2022:

- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates

The following pronouncements are postponed by eighteen months and the City has elected delaying implementation until the fiscal year ended December 31, 2022:

- Statement No. 87, *Leases*
- Implementation Guide No. 2019-3, *Leases*

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 4 - BUDGETARY BASIS OF ACCOUNTING**

While reporting financial position, and results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) for the General, Police, Fire and Street Funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).
- 4. Unrecorded cash represents amounts received, but not included as revenue on the budget basis operating statement. These amounts are included as revenue on the GAAP basis operating statement.
- 5. Cash is held by the custodial fund on behalf of the City on a budget basis and allocated and reported on the balance sheet (GAAP basis) in the appropriate City funds.
- 6. Investments are reported at fair value (GAAP basis) rather than cost (budget basis).
- 7. Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis are as follows:

#### Net Change in Fund Balance

	 General Fund	 Police Fund	 Fire Fund	Street Fund
Budget basis	\$ (120,448)	\$ (42,122)	\$ (78,781)	\$ (332,899)
Net adjustment for revenue accruals	(394,989)	(27,547)	-	(15,824)
Net adjustment for expenditure accruals	(628)	(4,486)	(14,417)	(11,534)
Net adjustment for other sources/uses	-	75,000	-	-
Funds budgeted elsewhere	114,106	-	-	-
Adjustment for encumbrances	 140,501	 3,715	 57,608	353,041
GAAP basis	\$ (261,458)	\$ 4,560	\$ (35,590)	\$ (7,216)

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

## NOTE 5 - DEPOSITS AND INVESTMENTS

Monies held by the City are classified by State statute into three categories.

Active deposits are public monies determined to be necessary to meet current demands upon the City treasury. Active monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the City can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the Sate of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio);
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been me.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)**

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The City may also invest any monies not required to be used for a period of six months or more in the following:

- 1. Bonds of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest, or coupons; and,
- 3. Obligations of the City.

#### **Deposits with Financial Institutions**

As of December 31, 2021, \$2,244,814 of the City's bank balance of \$2,744,814 was exposed to custodial risk as discussed below, while \$500,000 was covered by the FDIC.

#### Investments

As of December 31, 2021, the City had the following investments:

		Investment Maturities						
Measurement/	Measurement	6 months	7 to 12	13 to 18	19 to 24	Greater than		
Investment type	Amount	or less	months	months	months	24 months		
Fair Value:								
Negotiable CD's	\$ 5,337,982	\$ 1,789,655	\$ 978,375	\$ 568,259	\$ 105,239	\$ 1,896,454		
FNMA REMIC	952,758	-	-	-	-	952,758		
FNMA	652,129	-	-	-	-	652,129		
FHLMC	267,033	-	-	-	-	267,033		
US Government Money Market	4,079	4,079	-	-	-	-		
Total	\$ 7,213,981	\$ 1,793,734	\$ 978,375	\$ 568,259	\$ 105,239	\$ 3,768,374		

The City's investments in federal agency securities are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs). The weighted average maturity of investments is 6.83 years.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)

#### Credit Risk

The federal agency securities carry a rating of AA+ and Aaa by Standard & Poor's and Moody, respectively. The City's investment policy is designed to minimize credit risk by limiting investments to US Treasury Obligations, US federal agency securities, Certificates of deposit maturing not more than one year from deposit date, negotiables certificates of deposit, no load money market mutual funds consisting exclusively of US Treasury obligations and US federal agency securities, Star Ohio, Bankers acceptances that are eligible for purchase by the Federal Reserve System that mature no later than 180 days after purchase and commercial paper that is rated in the highest tier by at least two nationally recognized rating agencies. The aggregate value of the commercial paper can not exceed ten percent of the aggregate outstanding commercial paper of the corporation or mature no later than one hundred and eight days after purchase and can't exceed twenty five percent of interim monies.

The City's investment policy also requires the use of pre-qualifying financial institutions, broker/dealers, intermediaries and advisors in accordance with guidelines specified in the policy. In addition, the policy requires the diversification of the portfolio so that the impact of potential losses from any one individual issuer will be minimized.

#### **Interest Rate Risk**

As a means of limiting its exposure to fair value losses caused by rising interest rates, the City's investment policy requires that the investment portfolio remain sufficiently liquid to enable the City to meet all operating requirements by investing in an adequate amount of short-term investments in the portfolio to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the City, and that an investment must be purchased with the expectation that it will be held to maturity. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least two percent and be marked to market daily.

#### Custodial Credit Risk

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the OPCS, a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2021, the City's financial institutions were approved for a reduced collateral rate through the OPCS.

Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

#### **Concentration of Credit Risk**

The City has no policy placing a limit on the amount it may invest in any one financial institution.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)

Measurement/	Μ	easurement	
Investment type	Amount		<u>% of Total</u>
Fair Value:

The following is a reconciliation of cash as reported in the note above to cash as reported on the statement of net position as of December 31, 2021:

Cash per note	
Carrying amount of deposits	\$ 2,678,008
Investments	 7,213,981
Total	\$ 9,891,989
<u>Cash per statement of net position</u> Governmental activities	\$ 9,880,062
Business type activities	-
Private-purpose trust funds	 11,927
Total	\$ 9,891,989

#### **NOTE 6 - PROPERTY TAXES**

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2021 public utility property taxes became a lien December 31, 2020, are levied after October 1, 2021, and are collected in 2022 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County collects property taxes on behalf of all taxing districts in the County, including the City of Clayton. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2021 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by deferred inflow of resources since the current taxes were not levied to finance 2021 operations and the collection of delinquent taxes has been offset by deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is a deferred inflow of resources.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 6 - PROPERTY TAXES – (Continued)**

The full tax rate for all City operations for the year ended December 31, 2021was \$13.78 per \$1,000 of assessed value. The assessed values of real property and public utility personal property upon which 2021 property tax receipts were based are as follows:

# Real propertyResidential/agricultural\$ 252,157,000Commercial/industrial14,660,060Public utility8,343,360Total assessed value\$ 275,160,420

## NOTE 7 - MUNICIPAL INCOME TAX

The City levies a municipal income tax of 1.5 percent on all salaries, wages, commissions, other compensation and net profits earned within the City as well as on incomes of residents earned outside the City.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually.

Income tax proceeds are distributed to the General Fund and the Capital Improvement Fund as required by a City ordinance.

#### **NOTE 8 - TAX ABATEMENTS**

The City was part of one Enterprise Zone (EZ) tax abatement agreement with a local business. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investment. The Enterprise Zone Program provides tax exemptions for a portion of the value of new real property when the investment is made in conjunction with a project that includes job creation or job retention. These tax abatements reduce assessed value by a percentage agreed upon by all parties that authorize these types of agreements. The City's share of taxes forgone for this agreement in 2021 totaled \$151,006.

#### **NOTE 9 - RECEIVABLES**

Receivables at December 31, 2021, consisted of property taxes, other local taxes, municipal income taxes, payment in lieu of taxes, accounts, special assessments, interest, and amounts due from other governments arising from grants, entitlements and shared revenues. All receivables are considered fully collectible and will be received within one year with the exception of property taxes, income taxes, payment in lieu of taxes, and special assessments. Property, income, and payment in lieu of taxes, although ultimately collectible, include some portion of delinquents that will not be collected within one year.

Total special assessments for Street Lights Fund amount to \$40,280. The City has \$203,656 of delinquent special assessments at December 31, 2021. There are \$1,143,801 in special assessments for sidewalks and curbs that will be collected over the next ten years.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 9 - RECEIVABLES - (Continued)

A summary of the principal items of amounts due from other governments follows:

<u>Governmental activities:</u>	Amount	
Local Government	\$	83,315
Homestead Exemption and Rollbacks		196,799
Gasoline Tax		383,651
Motor Vehicle Tax		49,063
Permissive Tax		8,956
Charges for services		80,971
Total Due from Other Governments	\$	802,755

#### Payment in Lieu of Taxes Receivable

The City granted real property tax exemptions to landowners for improvements made to their properties. The City requires the owners to make an annual payment to the City in lieu of taxes in the amount that would be payable on the increase in the value of the property if not for the exemption. The City then uses these monies to pay for public infrastructure improvements benefiting the owners. Additional payments are made to the School District since it is impacted by the tax exemption for a period of up to 30 years. The City accrues a receivable for the amounts measurable at December 31, 2021. The City is not able to measure the receivable for all future payments because the payments are based upon projected tax collections.

#### SPACE INTENTIONALLY LEFT BLANK

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

#### Net Pension Liability/Asset and Net OPEB Liability/Asset

Pensions and OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability/asset and the net OPEB liability/asset represent the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability/asset on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in due to other governments on both the accrual and modified accrual basis of accounting.

The remainder of this note includes the pension disclosures. See Note 12 for the OPEB disclosures.

#### Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost–of–living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Memberdirected plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

## NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2021 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee *	10.0	%
2021 Actual Contribution Rates		
Employer:		
Pension	14.0	%
Post-employment Health Care Benefits **	0.0	%
Total Employer	14.0	%
Employee	10.0	%

\* This rate is determined by OPERS' Board and has no maximum rate es

\*\* This employer health care rate is for the traditional and combined plan contribution for the member-directed plan is 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$285,259 for 2021. Of this amount, \$20,826 is reported as due to other governments.

#### Plan Description - Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at <a href="https://www.op-f.org">www.op-f.org</a> or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.00% of the member's base pension benefit.

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.00% or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-ofliving allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2021 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
2021 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50 %	0.50 %
Total Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$462,605 for 2021. Of this amount, \$49,143 is reported as due to other governments.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

# Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for OPERS was measured as of December 31, 2020, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2020, and was determined by rolling forward the total pension liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

		OPERS - raditional	-	PERS - ombined	Μ	PERS - ember- irected		OP&F	 Total

#### Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2020, are presented below.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Wage inflation	3.25%
Future salary increases, including inflation	3.25% to 10.75% including wage inflation
COLA or ad hoc COLA	Pre 1/7/2013 retirees: 3.00%, simple
	Post 1/7/2013 retirees: 0.50%, simple
	through 2021, then 2.15% simple
Investment rate of return	
Current measurement date	7.20%
Prior measurement date	7.20%
Actuarial cost method	Individual entry age

In October 2020, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 1.40% simple through 2020 then 2.15% simple to 0.50% simple through 2021 then 2.15% simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables. The most recent experience study was completed for the five-year period ended December 31, 2015.

During 2020, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 11.70% for 2020.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The longterm expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed income	25.00 %	1.32 %
Domestic equities	21.00	5.64
Real estate	10.00	5.39
Private equity	12.00	10.42
International equities	23.00	7.36
Other investments	9.00	4.75
Total	100.00 %	5.43 %

**Discount Rate** - The discount rate used to measure the total pension liability/asset was 7.20%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2020 was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability/Asset to Changes in the Discount Rate -The following table presents the proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 7.20%, as well as what the proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (6.20%) or one-percentage-point higher (8.20%) than the current rate:

	Current							
	1% Decrease		Dis	Discount Rate		Increase		
City's proportionate share								
of the net pension liability (asset):								
Traditional Pension Plan	\$	3,823,943	\$	2,004,683	\$	491,971		
Combined Plan		(56,051)		(80,497)		(98,716)		
Member-Directed Plan		(1,105)		(1,259)		(1,381)		

#### Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2021, are presented below.

Valuation date	1/1/20 with actuarial liabilities rolled forward to $12/31/20$
Actuarial cost method	Entry age normal (level percent of payroll)
Investment rate of return	8.00%
Projected salary increases	3.75% - 10.50%
Payroll increases	3.25% per annum, compounded annually, consisting of
	inflation rate of 2.75% plus productivity increase rate of 0.50%
Cost of living adjustments	2.20% per year simple

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire
67 or less	77%	68%
68-77	105%	87%
78 and up	115%	120%

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy and Guidelines. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### **NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return **
Cash and Cash Equivalents	- %	0.00 %
Domestic Equity	21.00	4.10
Non-US Equity	14.00	4.80
Private Markets	8.00	6.40
Core Fixed Income *	23.00	0.90
High Yield Fixed Income	7.00	3.00
Private Credit	5.00	4.50
U.S. Inflation		
Linked Bonds *	17.00	0.70
Midstream Energy Infrastructure	5.00	5.60
Real Assets	8.00	5.80
Gold	5.00	1.90
Private Real Estate	12.00	5.30
Total	125.00 %	

Note: assumptions are geometric.

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - The total pension liability was calculated using the discount rate of 8.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

*Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate* - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00%), or one percentage point higher (9.00%) than the current rate.

	Current							
	1% Decrease Discount Rate					6 Increase		
City's proportionate share								
of the net pension liability	\$	7,313,936	\$	5,253,781	\$	3,529,639

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS

#### *Net OPEB Liability/Asset*

See Note 11 for a description of the net OPEB liability/asset.

#### Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERScovered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and reemployed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <u>https://www.opers.org/financial/reports.shtml</u>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2021 was 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$100 for 2021. Of this amount, \$7 is reported as due to other governments.

#### Plan Description - Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at <u>www.op-f.org</u> or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% and 24.00% of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2021, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$10,915 for 2021. Of this amount, \$1,160 is reported as due to other governments.

# Net OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2020, and was determined by rolling forward the total OPEB liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Following is information related to the proportionate share and OPEB expense:

	OPERS	OP&F	Total

Total	\$	(669,650)	\$	480,866	\$	(188,784)

#### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25%
Projected Salary Increases,	3.25 to 10.75%
including inflation	including wage inflation
Single Discount Rate:	
Current measurement date	6.00%
Prior Measurement date	3.16%
Investment Rate of Return	
Current measurement date	6.00%
Prior Measurement date	6.00%
Municipal Bond Rate	
Current measurement date	2.00%
Prior Measurement date	2.75%
Health Care Cost Trend Rate	
Current measurement date	8.50% initial,
	3.50% ultimate in 2035
Prior Measurement date	10.50%, initial
	3.50%, ultimate in 2030
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year of 2006. The base year for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2020, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 10.50% for 2020.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	34.00 %	1.07 %
Domestic Equities	25.00	5.64
Real Estate Investment Trust	7.00	6.48
International Equities	25.00	7.36
Other investments	9.00	4.02
Total	100.00 %	4.43 %

**Discount Rate** - A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2020. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20- year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.00%. The projection of cash flows used to determine this single discount rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

*Change in Benefit Terms* - On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation which are reported by the City at December 31, 2021. These changes significantly decreased the total OPEB liability for the measurement date December 31, 2020.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate - The following table presents the proportionate share of the net OPEB asset calculated using the single discount rate of 6.00%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.00%) or one-percentage-point higher (7.00%) than the current rate:

			(	Current		
	1%	Decrease	Disc	count Rate	1%	Increase
City's proportionate share						
of the net OPEB asset	\$	60,642	\$	243,880	\$	394,517

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate - Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

			Cur	rent Health		
			Care	Trend Rate		
	1%	Decrease	As	sumption	1%	Increase
City's proportionate share of the net OPEB asset	\$	249,824	\$	243,880	\$	237,230

#### Actuarial Assumptions - OP&F

OP&F's total OPEB liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

#### NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Investment Rate of Return	8.00%
Projected Salary Increases	3.75% to 10.50%
Payroll Growth	3.25%
Single discount rate:	
Current measurement date	2.96%
Prior measurement date	3.56%
Cost of Living Adjustments	2.20% simple per year

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire
67 or less	77%	68%
68-77	105%	87%
78 and up	115%	120%

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return **
Cash and Cash Equivalents	- %	0.00 %
Domestic Equity	21.00	4.10
Non-US Equity	14.00	4.80
Private Markets	8.00	6.40
Core Fixed Income *	23.00	0.90
High Yield Fixed Income	7.00	3.00
Private Credit	5.00	4.50
U.S. Inflation		
Linked Bonds *	17.00	0.70
Midstream Energy Infrastructure	5.00	5.60
RealAssets	8.00	5.80
Gold	5.00	1.90
Private Real Estate	12.00	5.30
Total	125.00 %	

Note: assumptions are geometric.

\* levered 2.5x

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - For 2020, the total OPEB liability was calculated using the discount rate of 2.96%. For 2019, the total OPEB liability was calculated using the discount rate of 3.56%. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8.00%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.12% at December 31, 2020 and 2.75% at December 31, 2019, was blended with the long-term rate of 8.00%, which resulted in a blended discount rate of 2.96% for 2020 and 3.56% for 2019. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

*Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate* - Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.96%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.96%), or one percentage point higher (3.96%) than the current rate.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

		Current						
	1%	1% Decrease Discount Rate		1% Increase				
City's proportionate share								
of the net OPEB liability	\$	1,018,186	\$	816,546	\$	650,216		

*Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate* - The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

# **NOTE 13 - OTHER EMPLOYEE BENEFITS**

# **Deferred Compensation**

City employees may participate in the Ohio Public Employees Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

# **Compensated Absences**

City employees earn universal leave at varying rates based upon length of service up to a maximum of 320 hours. Upon departure from City employment, an employee (or their estate) will be paid one hour of pay for each four hours of their accumulated universal leave up to a payment of 320 hours, based on the union agreements and the City's personnel policy.

City employees are allowed to place any hours over 320 hours into an extended universal leave balance. In the case of retirement, employees with 10 years of service with the City will be paid one hour of pay for each four hours of their accumulated extended universal leave up to a payment of 240 hours, based on the union agreements and the City's personnel policy.

# Insurance

Medical/surgical benefits are provided to full-time City employees through Anthem Blue Cross in conjunction with a Health Savings Account. The City pays 100 percent of the single plan monthly premiums and 90 percent of the additional cost of the family plan premiums. All employees pay at least seven percent of the cost of all plans offered by the City. The premium varies with each employee depending on the plan and coverage selected. New hires pay 20 percent for single or family plans. Life insurance is provided through Anthem Life. All employees of the City receive \$50,000 in life insurance. Group dental insurance is provided through Superior Dental.

# NOTE 14 - LEASES - LESSEE DISCLOSURE

# <u>Capital</u>

In prior years, the City entered into lease purchase agreements for the purchase of golf equipment, vehicles, and a fire vehicle. These leases meet the criteria of a capital lease as benefits and risks of ownership have transferred to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the Basic Financial Statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 14 - LEASES - LESSEE DISCLOSURE - (Continued)

Capital assets acquired by leases have been capitalized in the Statement of Net Position for governmental activities in the amount of \$1,515,585. A corresponding liability was recorded on the Statement of Net Position for governmental activities. Principal payments during 2021 totaled \$315,335.

The assets acquired through capital leases are as follows:

	Asset Value		Accumulated Depreciation		Net Book Value December 31, 2021	
Asset:						
Furniture, Fixtures and Equipment	\$	226,294	\$	(40,090)	\$	186,204
Vehicles		1,289,291		(290,712)		998,579
Total	\$	1,515,585	\$	(330,802)	\$	1,184,783

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of December 31, 2021:

Year Ending December 31,	Total Payments				
2022 2023	\$	344,794 142,020			
Total minimum lease payments		486,814			
Less: amount representing interest		(21,942)			
Present value of future minimum lease payments	\$	464,872			

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 15 - LONG-TERM OBLIGATIONS

Changes in long-term obligations during 2021 were as follows:

0 0 0 0								A	mounts
	Balance					Balance		Due in	
Governmental Activities:	_	12/31/20	Additions	F	Reductions		12/31/21	C	ne Year

Long-Term Obligations	\$	2,253,007	\$ -	\$	(112,184)	\$	2,140,823	\$	116,716

The 2010 Road Improvement Bonds were issued December 2, 2010, in the amount of \$1,515,000 in unvoted general obligation bonds that were issued for the purpose of constructing, rebuilding, widening and making drainage improvements to roadways in the City of Clayton. Current interest bonds were issued in an aggregate principal amount of \$1,480,000. Of these bonds, \$600,000 were serial bonds and \$880,000 were term bonds. \$35,000 were issued as capital appreciation bonds. The bonds were issued for a 20 year period with final maturity in December of 2030. The bonds will be retired from the Capital Improvement Fund.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# **NOTE 15 - LONG-TERM OBLIGATIONS - (Continued)**

The term bonds issued at \$880,000 and maturing on December 1, 2030, are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed plus accrued interest to the date of redemption, on December 1, in the years and in the respective principal amounts as follows:

Year Ending		
December 31,	A	mount
2022	\$	75,000
2023		75,000
2024		80,000
2025		85,000
2026		85,000
2027 - 2030		405,000
Total	\$	805,000

The capital appreciation bonds, issued at \$35,000, are not subject to prior redemption. The capital appreciation bonds matured in 2019 and 2020.

In 2013, the City issued various purpose refunding bonds, in the amount of \$3,665,000, to refund bonds previously issued in 2005 for various purposes. Of these bonds, \$3,130,000, are serial bonds and \$535,000 are term bonds. The bonds were issued with interest rates varying from 1.25 to 3.25 percent. The bonds were issued for a seventeen year period with final maturity during 2029. The bonds are paid from the Bond Retirement Fund and Other Governmental Funds.

The term bonds portion of the 2013 various purpose refunding bonds are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows (with the balance of \$250,000 to be paid at maturity on December 1, 2029):

	Principal					
Year	Amount					
2028	\$ 285,000					

The bonds maturing after December 1, 2022 are subject to redemption at the option of the City, either in whole, or in part in such order of maturity as the City shall determine, on any date on or after December 1, 2022, at a redemption price equal to 100 percent of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

In 2016, the City issued road improvement bonds, in the amount of \$6,000,000, for the purpose of constructing, reconstructing, resurfacing, widening, opening and improving roadways. The bonds were issued with interest rates varying from 1.00 to 4.00 percent. The bonds were issued for a fifteen-year period with final maturity during 2030. The bonds are retired through the Bond Retirement Fund.

Compensated absences and required pension and OPEB contributions will be paid from the General, Police, Fire, EMS, and Street Department. Capital lease obligations will be paid from the Capital Improvement Fund. The City pays obligations relating to employee compensation from the funds benefitting their service. For additional information related to the net pension liability and net OPEB liability see notes 11 and 12, respectively.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 15 - LONG-TERM OBLIGATIONS - (Continued)

The City has an OWDA Loan outstanding at December 31, 2021, which was issued during 2005 at a rate of four percent. The total original amount of the loan was \$3,481,913. The loan was for a 30 year period with the final payment due in January 2036. The loan was issued for the construction of the sewer system expansion phase I and sewer lines and will be paid from the Debt Service and Tax Increment Funds. In the event of default, the OWDA may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

The City's overall legal debt margin was \$22,211,844 at December 31, 2021, and the unvoted debt margin was \$8,453,823.

Principal and interest requirements to retire the long-term debt obligations outstanding at December 31, 2021, are as follows:

		Governmental Activities										
Year Ending		Serial Bonds		Serial Bonds		Term Bonds		Term Bonds				
December 31,	I	Principal	Interest		Interest		cipal Int		Principal		Interest

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# **NOTE 16 - INTERFUND ACTIVITY**

# **Interfund Transfers**

Interfund transfers for the year ended December 31, 2021, consisted of the following, as reported in the fund financial statements:

		Transfers from							
			Nonmajor						
		Bond	Governmental						
Transfers to	General	<u>Retirement</u>	Funds	Total					
Police Fund	\$ 1,161,808	\$ -	\$ -	\$ 1,161,808					
Fire Fund	745,532	-	-	745,532					
Street Fund	400,025		-	400,025					
Bond Retirement Fund	472,895	-	-	472,895					
Sewer Operating Fund		111,082	64,381	175,463					
Total	\$ 2,780,260	\$ 111,082	\$ 64,381	\$ 2,955,723					

Transfers are made to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers to the Sewer Operating Fund were for the repayment of debt. All transfers were made in accordance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

# **NOTE 17 - RISK MANAGEMENT**

The City is exposed to various risks of property and casualty losses, and injuries to employees.

The City insures against injuries to employees through the Ohio Bureau of Workers' Compensation.

The City belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool (see Note 20) available to Ohio local governments. PEP provides property and casualty coverage for its members. York Risk Services Group, Inc. (York), a division of York Insurance Services Group, Inc. (York), functions as the administrator of PEP and provides underwriting, claims, loss control, risk management, and reinsurance services for PEP. PEP is a member of the American Public Entity Excess Pool (APEEP), which is administered by York. Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the members' deductibles.

The Pool uses reinsurance and excess risk-sharing arrangements to reduce its exposure to loss. These agreements permit recovery of a portion of its claims from reinsurers and a risk-sharing pool; however, they do not discharge the Pool's primary liability for such payments. The Pool is a member of American Public Entity Excess Pool (APEEP), which is also administered by York Risk Pooling Services, Inc. (YORK). APEEP provides the Pool with an excess risk-sharing program. Under this arrangement, the Pool retains insured risks up to an amount specified in the contracts. (At December 31, 2021, the Pool retained \$500,000 for casualty claims and \$250,000 for property claims). The Board of Directors and YORK periodically review the financial strength of the Pool and other market conditions to determine the appropriate level of risk the Pool will retain.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# **NOTE 17 - RISK MANAGEMENT - (Continued)**

## **Financial Position**

PEP's financial statements conform to generally accepted accounting principles, and reported the following assets, liabilities and net position at December 31, 2021 and December 31, 2020:

Casualty and Property Coverage	2021	2020
Assets	\$41,996,850	\$40,318,971
Liabilities	14,974,099	14,111,510
Net Position- Unrestricted	\$27,022,751	\$26,207,461

Based on discussions with PEP, the expected rates PEP charges to compute member contributions, which are used to pay claims as they become due, are not expected to change significantly from those used to determine the historical contributions detailed below. By contract, the annual liability of each member is limited to the amount of financial contributions required to be made to PEP for each year of membership. The contribution for this year is:

Contributions to PEP	Amount
2021	\$110,781

Upon withdrawal, members are eligible for a full or partial refund of their capital contributions, minus the subsequent year's budgetary contribution. Withdrawing members have no other future obligation to the pool. Also upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim occurred or was reported prior to the withdrawal.

# **NOTE 18 - JOINT VENTURE**

# Clay Township - City of Clayton Joint Economic Development District

On July 1, 2007, the City entered into a contract for the creation of the Clay Township-City of Clayton Joint Economic Development District (the "District") with Clay Township in Montgomery County. The contract was entered into under the authority of the Ohio Revised Code Sections 715.72 – 715.83. The District was established for the purpose of facilitating economic development to create or preserve jobs and employment opportunities and to improve the economic welfare of the people in the District. The District will permit the City and the Township to share income tax revenues from the development of business operations within the District. After the payment of the District's obligations, the District shall distribute 85 percent of any remaining income tax receipts, at 60 percent to the Township and 40 percent to the City. The contract will terminate on December 31, 2037, and can be renewed for two additional ten year periods. Upon contract termination, all assets and liabilities of the District will be distributed 60 percent to the City, a representative of the Township, a representative of the business owners located within the District, a representative of the people working within the District, and a representative appointed by the other four representatives who will serve as the Chairperson of the Board.

The percentage of equity interest for the City is based on the amount that will be distributed to the City if the contract is terminated. The City's equity interest of \$93,104 represents 40 percent of the total equity of the District. The District is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the City. The City of Clayton paid a onetime contribution of \$25,000 to pay mutual start-up costs. Additional information can be obtained from Joe Tuss, President, at 451 West Third Street, Dayton, Ohio 45422.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 19 - JOINTLY GOVERNED ORGANIZATIONS

# Miami Valley Regional Planning Commission

The Miami Valley Regional Planning Commission (the "Commission") is a jointly governed organization between Preble, Warren, Clark, Clinton, Darke, Greene, Miami and Montgomery Counties, the City of Clayton, the City of Huber Heights, the City of Riverside, the City of New Carlisle, and the City of Dayton. The Commission prepares plans, including studies, maps, recommendations, and reports concerning the physical, environmental, social, economic, and governmental characteristics, functions, and services of the region. These reports show recommendations for systems of transportation, highways, parks and recreational facilities, water supply, sewage disposal, garbage disposal, civic centers, and other public improvements and land uses which affect the development of the region.

The degree of control exercised by any participating government is limited to its representation on the Board. Members of the Board are as follows: the officers of the Commission (elected by member representatives), the immediate past Chair of the Commission, the Commission member representing the City of Dayton, the Commission member representing each of the respective member counties, the representatives selected by each county caucus, a nongovernmental member, and two at-large representatives. The Board exercises total control over the operations of the Commission including budgeting, appropriating, contracting and designating management. Each member's degree of control is limited to representation on the Board. Payments to the Commission are made from the General Fund.

The City contributed \$6,076 for the operation of the Commission during 2021. Financial information may be obtained by writing to Donald Spang, Executive Director, One South Main Street, Suite 260, Dayton, Ohio 45402.

# Miami Valley Fire/EMS Alliance

The Miami Valley Fire/EMS Alliance (the Alliance) is a jointly governed organization between municipal corporations and townships in Montgomery, Greene and Warren Counties. The purpose of the Alliance is to foster cooperation among the political subdivisions by promoting programs and recommending matters which will result in more efficient methods of delivering fire and emergency medical services in the region. The Board of the Alliance is made up of, a representative appointed by the members who are provided Fire/EMS Services by volunteers, two representatives and a representative appointed by the members who are provided Fire/EMS Services by full time employees and volunteers and a representative appointed by the members who are provided Fire/EMS Services by full time employees. Payments to the Alliance are made from the general fund. The City contributed \$3,670 for the operation of the Alliance during 2021. Financial information can be obtained from Franklin E. Clay, Executive Director, at 444 W. Third Street, Sinclair Building 20, Room 231, Dayton, Ohio 45402.

# Hazardous Material Response Team

The City is a member of a Hazardous Material Response Team ("HAZMAT") which is a jointly governed organization with other local governments. The organization was created to provide hazardous material response protection and mutual assistance in the event of a hazardous material incident.

The HAZMAT Advisory Board oversees the operation of HAZMAT and consists of representatives from sixteen organizations. The City's ability to affect operations is limited to its representation on the Board.

The Board established hazardous materials incident response guidelines to provide for response procedures in the event of an incident. In the event of a hazardous material incident within any local government that is a member of this organization, the other members will respond to render assistance. The funding for the operation of the response team is through contributions from each entity. In addition, the persons or company responsible for any hazardous materials emergency is required by State law to reimburse the team any costs associated with clean up. There is no explicit and measurable equity interest in HAZMAT. During 2021, the City did not contribute to HAZMAT during 2021. Financial information can be obtained from Danny Bristow, Coordinator, at 444 West Third Street, Suite 20-231, Dayton, Ohio 45402.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# NOTE 19 - JOINTLY GOVERNED ORGANIZATIONS - (Continued)

# **Montgomery County Office of Emergency Management**

The Montgomery County Office of Emergency Management (MCOEM) is a jointly governed organization between various political subdivisions in the Miami Valley Region. The MCOEM is responsible for developing plans and programs that prepare the region to effectively prevent, respond to, and recover from catastrophic disasters.

The funding for the operation of the MCOEM is through contributions from each participating entity. Payments to the MCOEM are made from the general fund. The City contributed \$2,640 to the operations of MCOEM during 2021. Financial information can be obtained from Jeff Jordan, Executive Director, 117 South Main Street, Suite 721, Dayton, Ohio 45422.

# **Economic Development/Government Equity Program**

The Economic Development/Government Equity Program ("ED/GE") was established pursuant to Ohio Revised Code Chapter 307 for the purpose of developing and promoting plans and programs designed to assure that County resources are efficiently used, economic growth is properly balanced, and that county economic development is coordinated with that of the State of Ohio and other local governments.

Members include villages, townships, and cities within Montgomery County, and Montgomery County itself. Cooperation and coordination between the members is intended to promote economic health and improve the economic opportunities of the people in Montgomery County by assisting in the establishment or expansion within the County of industrial, commercial or research facilities and by creating and preserving job and employment opportunities for the people of the County.

The ED/GE Advisory Committee, made up of alternating member entities' representatives, decides which proposed projects will be granted each year. Sales tax revenues, set aside by Montgomery County, are used to fund the projects. Members annually contribute to or receive benefits based on an elaborate zero-based formula designed to distribute growth in contributing communities to those communities experiencing less economic growth. The City has agreed to be a member for 10 years, ending December 31, 2029. Any member in default of paying its contributions will be liable for the amount of the contribution, any interest accrued, and penalties. During this time, the member will not be entitled to any allocations from ED/GE. The Board exercises total control over the operations of the Commission including budgeting, appropriating, contracting and designating management. Each member's degree of control is limited to representation on the Board. Payments to ED/GE are made from and received in the General Fund. Financial information may be obtained by writing to Pamela Frannin, Secretary, 451 West Third Street, Dayton, Ohio, 45422.

# **NOTE 20 - RISK SHARING POOL**

The Public Entities Pool of Ohio (PEP) is a statutory entity created pursuant to section 2744.081, of the Ohio Revised Code, by the execution of an intergovernmental contract ("Participation Agreements"). PEP enables the subscribing subdivisions to pool risk for property, liability and public official liability. PEP has no employees, rather it is administered through contracts with various professionals.

Pursuant to a contract, the firm of Wells Fargo Insurance Services administers PEP. PEP is a separate legal entity. PEP subcontracts certain self-insurance, administrative and claims functions to a "Pool Operator," currently Pottering Insurance. PEP has executed contracts with various professionals for actuary services, as independent auditors, as loss control representatives, as litigation management and defense law firms, as counsel to PEP and others as required.

PEP is governed by a seven member Board of Trustees elected by the members of PEP. The City makes an annual contribution to PEP for the coverage it is provided, based on rates established by PEP. Financial information may be obtained by writing to the Public Entities Pool of Ohio, 229 Riverside Drive, Dayton, Ohio, 45402.

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# **NOTE 21 - FUND BALANCE**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund balance	General	Police Fund	Fire Fund	Street Fund	Capital Improvement Fund	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:							
Materials and supplies inventory	\$ -	s -	\$ -	\$ 38,919	s -	\$ 49,211	\$ 88,130
Prepaids	° 79,941	25,944	35,244	26,305	-	46	167,480
Total nonspendable	79,941	25,944	35,244	65,224		49,257	255,610
Restricted:							
Road Improvements	-	-	-	444,949	-	203,130	648,079

Unassigned	3,244,414						3,244,414
Total fund balances	\$ 5,135,278	\$ 378,480	\$ 342,267	\$ 510,173	\$ 895,031	\$ 2,860,259	\$ 10,121,488

# **NOTE 22 – SIGNIFICANT COMMITMENTS**

#### **Encumbrances**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year-end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General Fund	\$ 134,301
Police Fund	3,295
Fire Fund	41,878
Capital Improvement Fund	124,281
Nonmajor Governmental Funds	 364,339
Total	\$ 668,094

# NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

# **NOTE 23 - CONTINGENT LIABILITIES**

# A. Federal and State Grants

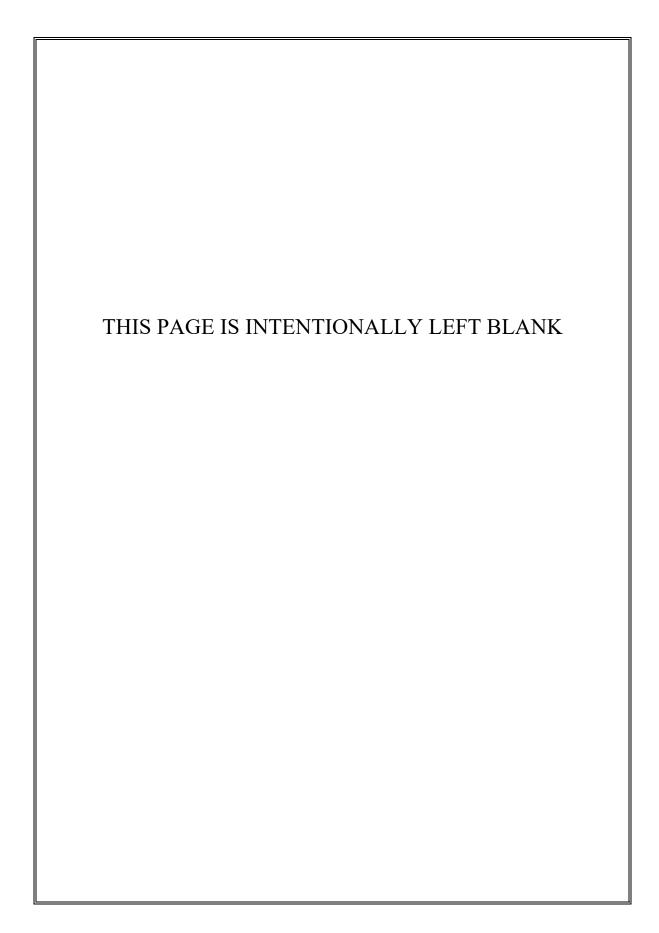

For the period January 1, 2021, to December 31, 2021, the City received federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designees. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

# **B.** Litigation

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City the resolution of these matters will not have a material adverse effect on the financial condition of the City.

# NOTE 24 - COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June, 2021 while the national state of emergency continues. During 2021, the City received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. The impact on the City's future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated. The City's investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined.

#### NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2021

#### PENSION

# OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms :

• There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions :

- <sup>a</sup> There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016.
- <sup>D</sup> For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%.
- There were no changes in assumptions for 2018.
- <sup>a</sup> For 2019, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the assumed rate of return and discount rate were reduced from 7.50% down to 7.20%.
- <sup>a</sup> There were no changes in assumptions for 2020.
- There were no changes in assumptions for 2021.

#### OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms:

<sup>a</sup> There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions :

- <sup>a</sup> There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017.
- For 2018, the following were the most significant changes of assumptions that affected the total pension since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.50% down to 8.00%, (b) changing the future salary increases from a range of 4.25%-11.00% to 3.75%-10.50%, (c) reduction in payroll increases from 3.75% down to 3.25%, (d) reduction in inflation assumptions from 3.25% down to 2.75% and (e) Cost of Living Adjustments (COLA) were reduced from 2.60% and 3.00% simple to 2.20% and 3.00% simple.
- There were no changes in assumptions for 2019.
- <sup>a</sup> There were no changes in assumptions for 2020.
- <sup>D</sup> There were no changes in assumptions for 2021.

(Continued)

# NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (CONTINUED) FOR THE YEAR ENDED DECEMBER 31, 2021

# OTHER POSTEMPLOYMENT BENEFITS (OPEB)

# OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms :

- <sup>D</sup> There were no changes in benefit terms from the amounts reported for 2017-2020.

For 2021, the following were the most significant changes in benefit terms since the prior measurement date: the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation. These changes significantly decreased the total OPEB liability for the measurement date December 31, 2020.

Changes in assumptions :

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017.
- <sup>a</sup> For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 4.23% down to 3.85%.
- <sup>a</sup> For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.85% up to 3.96%, (b) The investment rate of return was decreased from 6.50% percent down to 6.00%, (c) the municipal bond rate was increased from 3.31% up to 3.71% and (d) the health care cost trend rate was increased from 7.50%, initial/3.25%, ultimate in 2028 up to 10.00%, initial/3.25% ultimate in 2029.
- <sup>a</sup> For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.96% up to 3.16%, (b) the municipal bond rate was decreased from 3.71% up to 2.75% and (c) the health care cost trend rate was increased from 10.50%, initial/3.25%, ultimate in 2029 up to 10.50%, initial/3.50% ultimate in 2030.
- <sup>a</sup> For 2021, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.16% up to 6.00%, (b) the municipal bond rate was decreased from 2.75% up to 2.00% and (c) the health care cost trend rate was decreased from 10.00%, initial/3.50%, ultimate in 2030 down to 8.50%, initial/3.50% ultimate in 2035.

#### OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms:

- <sup>a</sup> There were no changes in benefit terms from the amounts reported for 2017-2018.
- For 2019, OP&F changed its retiree health care model from a self-insured health care plan to a stipend-based health care model.
- <sup>•</sup> There were no changes in benefit terms from the amounts reported for 2020.
- <sup>a</sup> There were no changes in benefit terms from the amounts reported for 2021.

Changes in assumptions :

- <sup>a</sup> There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017.
- <sup>D</sup> For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) DROP interest rate was reduced from 4.50% to 4.00%, (b) CPI-based COLA was reduced from 2.60% to 2.20%, (c) investment rate of return was reduced from 8.25% to 8.00%, (d) salary increases were reduced from 3.75% to 3.25% and (e) payroll growth was reduced from 3.75% to 3.25%.
- <sup>a</sup> For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.24% up to 4.66%. For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 4.66% up to 3.56%.
- <sup>a</sup> For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 4.66% up to 3.56%.
- <sup>a</sup> For 2021, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.56% down to 2.96%.

# THIS PAGE IS INTENTIONALLY LEFT BLANK

# COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

# FUND DESCRIPTIONS - NONMAJOR GOVERNMENTAL FUNDS

#### Nonmajor Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

#### **Enforcement and Education Fund**

To account for and report fines imposed by the courts which are restricted for programs aimed at further education and enforcement of OVI laws.

#### Drug Law Enforcement Fund

To account for and report fines and costs collected for felonious drug trafficking convictions. This money is restricted to drug law enforcement activities.

# Law Enforcement Trust Fund

To account for fines and forfeitures revenue and proceeds from the sale of confiscated property restricted to law enforcement training and equipment.

#### EMS Fund

To account for and report revenues received from a voted property tax levy and fees for services restricted to pay for the cost of the EMS department.

#### State Highway Fund

To account for and report gasoline tax and motor vehicle license fees restricted for routine maintenance of State highways within the City.

#### Permissive Motor Vehicle License Tax Fund

To account for and report additional motor vehicle license tax levied by the City and restricted for routine street maintenance and

#### Street Lights Fund

To account for and report special assessments restricted to expenditures for street lighting within the City.

#### **Cemetery Fund**

To account for and report revenues received from the sale of lots, charges for burial services, and foundations, restricted to operating and maintaining the City cemetery.

#### Joint Economic Development District (JEDD) Fund

To account for and report the City's share of the income tax levied by the Clay Township-City of Clayton Joint Economic Development District restricted to economic development and the benefit and welfare of the properties located within the Joint Economic Development District.

#### Tax Increment Fund

To account for and report service fees received from various business owners restricted for City-owned infrastructure improvements that will benefit the business owners' property.

## Tax Increment Financing Towne Center Fund

To account for and report service fees received from property owners to be used to reimburse the developers at the Towne Center for City capital assets constructed by the developer.

#### Local Coronavirus Relief Fund

To account for federal monies used to combat and prevent the spread of COVID-19, specifically sourced from the Coronavirus Aid, Relief and Economic Security (CARES).

#### Local Fiscal Recovery Fund

To account for federal monies that were part of the American Rescue Plan to support the City's response to and recover from the COVID-19 public health emergency.

# FUND DESCRIPTIONS - NONMAJOR GOVERNMENTAL FUNDS

## Nonmajor Capital Projects Fund

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary funds or assets that will be held in trust funds.

#### Asset Replacement Fund

To account for and report transfers from the General Fund assigned to the purchase or replacement of capital assets.

# Funds Included in the General Fund

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

#### **Emergency** Fund

This fund accounts for resources transferred the the general fund to be used for emergency expenditures.

# Impact Fee Fund

This fund accounts for a one-time payment imposed by the City on new construction

#### FUND DESCRIPTIONS - FIDUCIARY FUNDS

Custodial Funds are used to account for assets held by the City as an agent for individuals, private organizations, or other governmental units.

#### Joint Economic Development District Fund

To account for income tax monies received from various business owners within the Clay Township-City of Clayton Joint Economic Development District which are then distributed to Clay Township, the City of Clayton and the District.

#### North Clayton Development Fund

To account for association fees received from various homeowners within the North Clayton development which are then distributed to the North Clayton Development Association.

# THE FOLLOWING UNAUDITED STATISTICAL TABLES REFLECT SOCIAL AND ECONOMIC DATA, FINANCIAL TRENDS AND FISCAL CAPACITY OF THE CITY

# THIS PAGE IS INTENTIONALLY LEFT BLANK

#### STATISTICAL SECTION

This part of the City of Clayton's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	Page
Financial Trends	
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	150
Revenue Capacity	
These schedules contain information to help the reader assess the City's most significant local revenue source, the income tax, property tax and special assessments.	160
Debt Capacity	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	170
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	177
Operating Information	
This schedule contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	178

Sources: Sources are noted on the individual schedules. The City implemented GASB Statement 63 in 2012; schedules presenting net position begin in that year.

# ASSESSED VALUATION AND ESTIMATED ACTUAL VALUE OF TAXABLE PROPERTY LAST TEN FISCAL YEARS

Source: County Auditor; Montgomery County, Ohio

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property.

No tangible personal property taxes were levied or collected in 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property is 2010.)

General Business and Public Utility Personal	4.3300	5.8900	6.2900	5.8900

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents. Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes. Real property is reappraised every six years and property values are updated in the third year of each reappraisal. Overlapping rates are those of local and county governments that apply to property owners within the City.

2020		2,790,680	2,776,872	99.51%		54,766		2,831,638	101.47%
2021		2,840,248	2,808,141	98.87%		38,041		2,846,182	100.21%

Current taxes levied and current tax collections do not include rollback and homestead amounts.
 The County's current reporting system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

Total Overlapping Debt	108,613,887		54,798,514		
Total Direct and Overlapping Debt	\$ 116,075,943		\$ 62,260,570		

Source: County Auditor; Montgomery County

(1) Percentages were determined by dividing each overlapping subdivision's assessed valuation within the City by its total assessed valuation.

(2) The debt outstanding is as of June 30, 2021.

Overlapping governments are those that coincide, at least in part, with the geographic boundries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by residents and businesses should be taken into account.
