88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

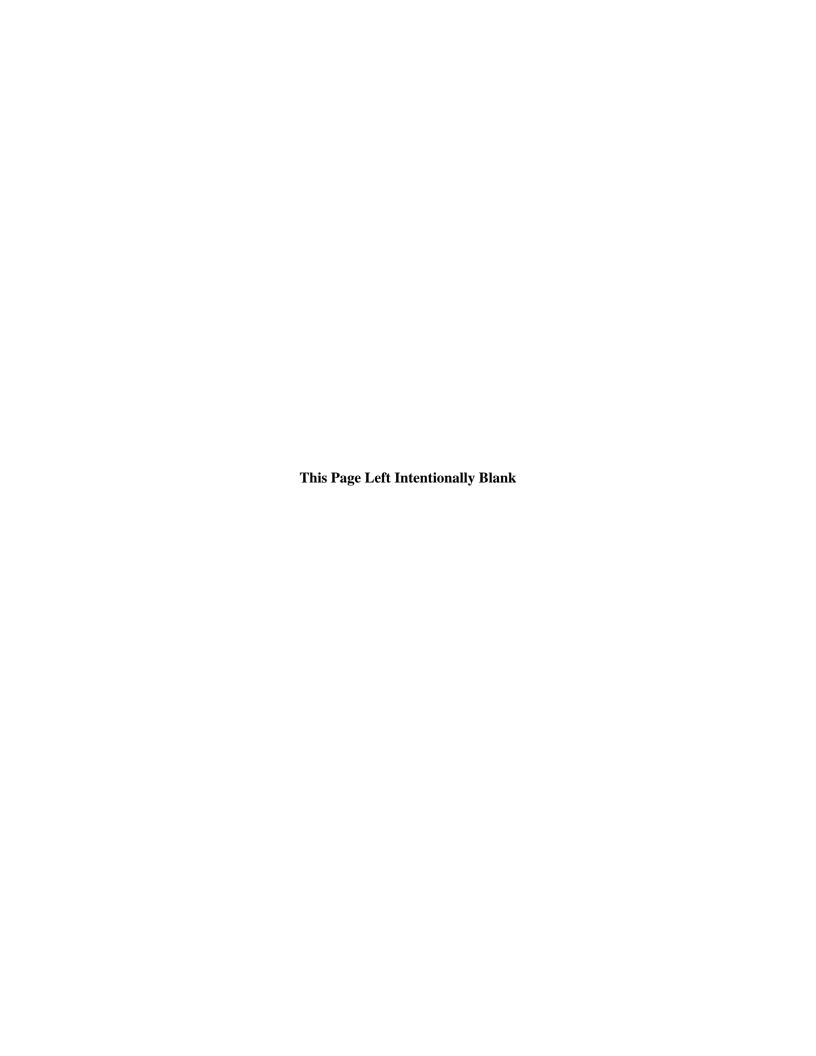

Members of Council City of Norwood 4645 Montgomery Road Norwood, Ohio 45212

We have reviewed the *Independent Auditor's Report* of the City of Norwood, Hamilton County, prepared by J.L. Uhrig and Associates, Inc., for the audit period January 1, 2021 through December 31, 2021. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Norwood is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

Report on Audit of the Financial Statements

Opinions

We have audited the financial statements of the City of Norwood, Hamilton County, Ohio (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Norwood, Hamilton County, Ohio as of December 31, 2021, and the respective changes in financial position and where applicable cash flows thereof and the respective budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City of Norwood, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 25 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the City. We did not modify our opinion regarding this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Members of Council City of Norwood, Ohio Independent Auditor's Report

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Members of Council City of Norwood, Ohio Independent Auditor's Report

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2022, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended December 31, 2021

Unaudited

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Norwood's financial performance provides an overall review of the City's financial activities for the year ended December 31, 2021. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the basic financial statements and notes to the financial statements to enhance their understanding of the City's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2021 are as follows
--

The City's net OPEB liability for the Ohio Public Employees Retirement System became a net OPEB asset due to a change in benefit terms.
The net pension and net OPEB liabilities also significantly influenced unrestricted net position of governmental activities, which increased but is still a deficit.
The City contracted and finished several street projects during 2021.

OVERVIEW OF THE FINANCIAL STATEMENTS

Report Components

The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole. Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the City as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the basic financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanations and details regarding the information reported in the statements.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; the proprietary funds and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended December 31, 2021

Unaudited

REPORTING THE CITY AS A WHOLE

Statement of Net Position and the Statement of Activities

The analysis of the City as a whole begins with the Statement of Net Position and the Statement of Activities. These statements provide information that will help the reader to determine if the City of Norwood is financially better off or worse off as a result of the year's activities. These statements include all assets, deferred outflows or resources, liabilities and deferred inflows of resources using the accrual basis of accounting which is similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes to those assets. These changes inform the reader whether the City's financial position, as a whole, has improved or diminished. In evaluating the overall financial health, the reader of these financial statements needs to take into account non-financial factors that also impact the City's financial well-being. Some of these factors include the City's tax base and the condition of capital assets.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities.

Governmental Activities – Most of the City's services are reported here including police, fire, street maintenance, parks and recreation, and general administration. Income taxes, property taxes, building permits and interest finance most of these activities.
Business-Type Activities – This activity includes the City's water fund and refuse fund. Service fees for these operations are charged based on the amount of usage or a usage fee. The intent is that the fees charged recoup operational costs.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS Fund Financial Statements

The analysis of the City's major funds is presented later in the Management's Discussion and Analysis section. Fund financial statements provide detailed information about the City's major funds – not the City as a whole. Some funds are required by State law and bond covenants. Other funds may be established by the City Auditor, with approval of City Council, to help control, manage and report money received for a particular purpose or to show that the City is meeting legal responsibilities for use of grants. The City's major funds are the General Fund and the Debt Service Fund.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended December 31, 2021

Unaudited

Governmental Funds – Most of the City's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or less financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds – When the City charges citizens for the services it provides, with the intent of recapturing operating costs, these services are generally reported in the proprietary funds. Operations are accounted for in such a manner to show a profit or loss on the basis comparable with industries in the private sector.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. All of the City's fiduciary assets and liabilities are reported in a separate Statement of Fiduciary Net Position.

THE CITY AS A WHOLE

Table 1 provides a summary of the City's net position for 2021 compared to 2020:

The net pension liability (NPL) is one of the largest liabilities reported by the City at December 31, 2021, and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The City also adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended December 31, 2021

Unaudited

financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting the net pension asset and deferred outflows related to pension and OPEB and the net pension asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability (asset) and the net OPEB liability to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB liabilities, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended December 31, 2021

Unaudited

exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability (asset) and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2021 and 2020.

Total assets increased \$2,588,410 which was primarily from depreciable capital assets, net. The City contracted and finished many street projects during 2021.

Overall the City's total liabilities decreased \$2,582,159. Net OPEB liability in governmental activities decreased \$2,289,127, due to the expense adjustments and contributions, the Ohio Public Employees Retirement System went from an OPEB liability to an OPEB asset.

The net position of governmental activities increased \$4,269,604 during 2021. Unrestricted net position was largest increase, which is primarily due to decrease in the net OPEB liability.

Table 2 shows the changes in net position for the years ended December 31, 2021 and 2020.

Governmental program revenues represent only 12 percent of total governmental activities revenue and are primarily comprised of charges for services & sales, grants, and contributions.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended December 31, 2021

Unaudited

General revenues of governmental activities represent 88 percent of the City's governmental receipts. The City's municipal income taxes make up over half of the general revenues. The City had a decrease primarily the result of change in work from home opportunities by some City companies. Other revenues decreased from State of Ohio sending higher than normal rebates on workers compensation during the pandemic in 2020.

The City's business-type activities, Water and Refuse Funds, accounted for 16 percent of the City's total revenues in 2021.

Governmental Activities

The two percent earnings tax is the largest source of revenue for the City. Revenues generated by the earnings tax represent approximately 58 percent of the City's total governmental activities revenue. The earnings tax is used to pay the cost of many City services including general government, security of persons and property, and community and economic development.

If you look at the Statement of Activities, you will see that the first column lists the major services provided by the City. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for security of persons and property, which accounts for 49 percent of all governmental expenses. General government also represents a significant cost, approximately 23 percent. The next three columns of the Statement entitled Program Receipts identify amounts paid by people who are directly charged for the service and grants received by the City that must be used to provide a specific service. The Net (Expense) Revenue column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS

				·

The dependence upon property and income tax receipts is apparent as 86 percent of governmental activities are supported through these general revenues.

Business-Type Activities

The City's business-type activities include the City's Water and Refuse Funds. The water utility provides public water service to businesses and residents.

The Refuse Fund is used to account for moneys collected from Norwood citizens, businesses and industries for refuse disposal service; and to account for the payment of refuse disposal bills. The Refuse Fund was established in 2005.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Information about the City's major governmental funds is presented in the fund financial statements. These funds are reported using the modified accrual basis of accounting. In total, all governmental funds reported revenues of \$35,095,688 and expenditures of \$36,592,513.

Within the General Fund, there were revenues of \$25,812,072 and expenditures of \$25,478,563. The fund balance of the General Fund increased \$368,266. The change was a decrease from 2020 General Fund change due to increase in expenditures to work on capital projects per the City's recovery plan.

CITY OF NORWOOD, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended December 31, 2021

Unaudited

Within the Debt Service Fund, there were revenues of \$5,568,042 and expenditures of \$6,814,749. The fund balance of this fund decreased \$1,246,707 due to debt payments as well as refunded debt by the Port of Greater Cincinnati of City debt obligations.

Governmental Fund Budgeting Highlights

The City's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During 2021, the City amended its General Fund budget several times to reflect changing circumstances. Final budgeted revenues were less than original budgeted revenues by \$596,467 due to receiving a decrease in income tax revenue compared to originally anticipated. The difference between final budgeted revenues and actual revenues was \$865,414 which was due primarily to an increase in income taxes.

Final budgeted expenditures were more than original budgeted expenditures by \$1,267,658 due to overall increase in City projects from the financial recovery plan. Final expenditures were budgeted at \$29,235,670 for the General Fund. Actual expenditures were \$25,975,870 with a difference of \$3,259,800 due to expenditures being lower than anticipated.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2021 amounts to \$30.3 million (net of accumulated depreciation).

The City's overall unvoted legal debt margin was \$11,612,884 as of December 31, 2021. The more restrictive unvoted legal debt margin was \$2,881,316 as of the same date.

For more information regarding long-term obligations and capital leases, refer to notes 12 and 13 of the notes to the basic financial statements.

ECONOMIC AND OTHER POTENTIALLY SIGNIFICANT MATTERS

On October 6, 2016, the Auditor of State declared the City of Norwood to be in a state of fiscal emergency in accordance with Section 118.03 of the Ohio Revised Code. The declaration resulted in the establishment of a financial planning and supervision commission. The Commission is comprised of a representative of the Office of Budget and Management, a representative of the Treasurer of State, the Mayor, the President of Council, and three individuals appointed by the Governor who are residents of the City and meet certain criteria.

In accordance with Section 118.06 of the Ohio Revised Code, the City is required to submit to the Commission a financial recovery plan for the City which outlines the measures to be taken to eliminate the fiscal emergency conditions. The initial recovery plan was approved by the City on July 5, 2017. The last amended recovery plan is dated May 24, 2022.

CITY OF NORWOOD, OHIO RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES DECEMBER 31, 2021

Total Governmental Fund Balances		\$15,051,388
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:		
Land	12,649,348	
Construction in progress	35,600	
Depreciable capital assets	38,134,210	
Accumulated depreciation	(22,298,810)	
Total capital assets		28,520,348
Some of the City's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures		
and therefore are deferred in the funds:		
Property taxes	345,873	
Due from other governments:		
Charges for services	90,958	
Shared taxes and local government revenue assistance	631,280	
Income taxes	2,424,198	0.400.000
Total		3,492,309
The net pension and net OEPB liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in the governmental funds:		
Net OPEB Asset	325,217	
Deferred Outflows - Pension	3,482,343	
Deferred Outflows - OPEB	2,180,696	
Deferred Inflows - Pension	(5,778,580)	
Deferred Inflows - OPEB	(4,412,289)	
Net Pension Liability	(25,575,518)	
Net OPEB Liability	(3,543,123)	
Total		(33,321,254)
In the Statement of Activities, interest is accrued on outstanding bonds, whereas		
in governmental funds, an interest expenditure is reported when due.		(302,301)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:		
Discount on bonds	59,903	
Capital leases	(475,178)	
Bonds	(27,380,000)	
Loans	(1,056,439)	
Police & Fire Liability	(1,530,143)	
Contracts Payable	(15,184,460)	
Compensated absences	(4,027,175)	
Total		(49,593,492)
Net Position of Governmental Activities		(\$36,153,002)

CITY OF NORWOOD, OHIO RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2021

Net Change in Fund Balances - Total Governmental Funds	(\$864,729)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current	
period, these amounts are:	22 117
·	32,117 47,749 <u>)</u>
Total	2,284,368
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each sale.	
	34,757) 06,117)
Total	(140,874)
Because some revenues will not be collected for several months after the City's year-end, they are not considered "available" revenues and are deferred in the governmental funds.	
Property Taxes Due From Other Governments:	21,454
Charges for Services	49,739)
	70,631 29,786)
Total	(187,440)
The issuance of long-term debt provides current financial resources to governmental funds, but in the Statement of Net Postion, the debt is reported as a liability.	
· ·	69,230) 28,109)
Total	(597,339)
Repayment of long-term obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	
· ·	99,302
· ·	82,816 59,685
· ·	40,830
Total long-term obligation repayment	1,282,633
In the Statement of Activities, interest accrued on outstanding bonds and bond accretion, bond premiums, bond issuance costs and the gain/loss on refunding are amortized over the terms of bonds, whereas in the governmental funds the expenditure is reported when the bonds are issued.	ed.
· · · · · · · · · · · · · · · · · · ·	83,618) 51,375
Total	(32,243)
Contractually required contributions are reported as expenditures in governmental funds; howeve Statement of Net Position reports these amounts as deferred outflows.	r, the
	34,817
OPEB	<u>43,758</u> 2,078,575
Except for amounts reported as deferred inflows/outflows, changes in the net pension	, .,.
liability (asset) are reported as pension expense in the Statement of Activities. Pension (1,2)	15,221)
OPEB <u>2,1</u>	47,704
Total	932,483
Some expenses reported in the Statement of Activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

CITY OF NORWOOD

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

NOTE 1 - DESCRIPTION OF THE CITY AND REPORTING ENTITY

The City of Norwood, Ohio (the City) is a statutory municipal corporation, established in 1888 as a political subdivision of the State of Ohio, for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The City operates under a mayor-council form of government. Legislative power is vested in a seven member council and a council president, each elected to four-year terms. The Mayor is elected to a four-year term and is the chief executive officer of the City. All City officials, with the exception of the Service Safety Director, are elected positions. The Service Safety Director is appointed by the Mayor.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds and departments, which comprise the legal entity of the City. The City provides the following services: public safety (police and fire), highways and streets, water, sanitation, health and social services, culture and recreation, public improvements, community development, planning and zoning and general administrative services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves their budget, the issuance of their debt or the levying of their taxes.

The component unit column in the basic financial statements identifies the financial data of the City's discretely component unit, the City of Norwood Board of Health. It is discretely reported to emphasize that it is legally separate from the City.

City of Norwood Board of Health

The City of Norwood Board of Health (Board) was created as a legally separate organization under chapter 3709 of the Ohio Revised Code. Among its various duties, the Board provides for the prompt diagnosis and control of communicable diseases. The Board may also inspect businesses where food is manufactured, handled, stored, or offered for sale. The Board is operated by a five-member board with all members being appointed by the City. The rates charged by the Board are subject to the approval of City Council. In addition, the City provides funding to the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Board, thus the City can impose will on the Board, and the Board imposes a financial burden to the City. Therefore, the Board of Health is considered a discretely presented component unit of the City. Information for the component unit is identified in Note 24. Statements for the Board can be obtained from the City Auditor's Office.

The City is associated with one jointly governed organization, the Ohio Energy Special Improvement District, Inc. (SID) (see Note 19) and one shared risk pool, the Public Entities Pool of Ohio (PEP) (see Note 20).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Norwood have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

Basis of Presentation

The City's basic financial statements consist of government-wide financial statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government, except for the City's fiduciary funds. The statements distinguish between those activities of the City that are governmental in nature and those that are considered business-type activities.

The Statement of Net Position presents the financial condition of the governmental and business-type activities of the City at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business segment is self-financing or draws from the general revenues of the City.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds utilized by the City: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the City are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

General Fund – This is the chief operating fund for the City and it is used to account for all revenues and expenditures which are not accounted for in other funds. The primary sources of revenue for this fund are earnings taxes, property taxes and local government funds. The General Fund Balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, general obligation bond principal and interest and certain other long-term obligations when the City is obligated for the payment.

The other governmental funds of the City account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Proprietary Fund

Proprietary funds focus on the determination of operating income, changes in net position, financial position, and cash flows. The City's only proprietary funds are enterprise funds.

Enterprise Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

Water Fund – This fund is used to account for the provision of water treatment and distribution to residential and commercial users within the City.

Refuse Fund – This fund is used to account for refuse services provided to residents, businesses and industries located within the City.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangement that has certain characteristics. The City does not have any trust funds. Custodial funds are used to report fiduciary activities that are not required to be separated in a trust fund. The City's only fiduciary funds are custodial funds. The City's custodial funds are used to account for fines and fees held for distribution to other government, Mayor's Court that is used to account for various fines and fees and collected and distributed on behalf of another government and for the collection of sewer billings that are collected on behalf of the Metropolitan Sewer District of Greater Cincinnati, and then disbursed to them monthly.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and liabilities and deferred inflows of resources associated with the operation of the City are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows of resources generally are included on the Balance Sheet.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund financial statements.

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the Statement of Fund Net Position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

For proprietary funds, the Statement Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a Statement of Changes in Fiduciary Net Position which reports additions to and deductions from custodial fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Proprietary funds and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. "Measurable" means that the amount of the transaction can be determined and "available" means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty-one days of year-end.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the year in which the income is earned. Revenue from property taxes/payments in lieu of taxes is recognized in the year for which the taxes are levied or would have been levied (See Notes 7 and 8). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: municipal income taxes, intergovernmental revenues (including motor vehicle license tax, gasoline tax, and local government assistance) fines and forfeitures, and grants.

<u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide Statement of Net Position for pension and OPEB. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 15 and 16.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenues) until that time. For the City, deferred inflows of resources include property taxes, payments in lieu of taxes, pension, OPEB, and unavailable revenue. Property taxes and revenue in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2021, but which were levied to finance 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide Statement of Net Position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes, other local taxes, municipal income taxes, delinquent payments in lieu of taxes, intergovernmental grants, and charges for services. These amounts are deferred and recognized as revenue in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balance to Net Position of

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Governmental Activities found on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide Statement of Net Position. (See Notes 15 and 16).

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Budgetary Process

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations ordinance, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations ordinance is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the object level within each department and fund. Budgetary modifications may only be made by ordinance of Council.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the City Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as final budgeted amounts represent estimates from the amended certificate in force at the time final appropriations were passed by Council.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The appropriations ordinance is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year, including all supplemental appropriations.

Cash and Cash Equivalents

Cash balances of the City's funds, except cash held by fiscal agents, are pooled and invested in order to provide improved cash management. Individual fund integrity is maintained through City records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During 2021, the City invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, Certain External Investment Pools and Pool Participants. The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAR Ohio reserves the right to limit the transactions to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as "Cash and Cash Equivalents."

The City also utilizes a financial institution to service proceeds of debt. The balance in this account is presented as "Cash and Cash Equivalents with Fiscal Agents".

The City Council has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during 2021 amounted to \$9,414 which includes \$4,074 assigned from other funds.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislations. Restricted Assets in the governmental funds represent Cash and Cash Equivalents with Fiscal Agents set aside to satisfy bond indenture requirements for future debt payments.

In the enterprise funds, water customer deposits are presented as Restricted Assets: Equity in Pooled Cash and Cash Equivalents.

Capital Assets and Depreciation

General capital assets are capital assets that are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position, but are not reported in the fund financial statements. Capital assets used by the enterprise funds are reported in both the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost, which is determined by indexing the current replacement cost back to the year of acquisition) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values on the date received. The City maintains a capitalization threshold of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements.

Depreciation is computed using the straight-line method over the following useful lives:

Asset	Years
Buildings	45-100
Land Improvements	10-60
Vehicles	6-15
Furniture, Fixtures and Equipment	3-20
Infrastructure	40-100

The City's infrastructure consists of roads, bridges, curbs, gutters, sidewalks, water lines and storm water drainage systems.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and unpaid amounts for interfund services are classified as "Interfund Receivable/Payable." Long-term interfund loan receivables/payables, reported as "Advances to Other Funds" or "Advances from Other Funds," are classified as nonspendable fund balance, which indicates that they are not in spendable form even though it is a component of net current assets. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for all accumulated unused vacation time when earned for all employees after one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditures to the extent that payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employees will be paid.

The entire compensated absences liability is reported on the government-wide financial statements.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as liabilities on the fund financial statements only to the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

extent that they are due for payment during the current year. Long-term bonds, notes, loans, capital leases, and the long-term police and fire pension are recognized as liabilities on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water and refuse. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the fund. Revenues and expenses that do not meet these definitions are reported as non-operating.

Internal Activity

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Bond Discounts

On the government-wide financial statements bond discounts are deferred and amortized over the term of the bonds using the straight-line (bonds outstanding) method, which approximates the effective interest method. Bond discounts are presented as reductions to the face amount of bonds payable.

On the governmental fund financial statements discounts are recognized in the period when the debt is issued.

Net Positions

Net positions represent the difference between assets and deferred outflows of resources compared to liabilities and deferred inflows of resources. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition,

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

construction or improvement of those assets. Net Position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include funds for court programs, telecommunications and public health programs.

The long-term liability for the 2006 Tax Increment Financing Bonds and 2015 Rookwood Exchange Tax Increment Financing Bonds are not related to governmental activities because the proceeds were not used to construct a capital asset reported by the City. This liability is included in the calculation of unrestricted net position.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It includes the long-term amount of interfund loans.

Restricted The restricted fund balance category includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (City ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resources providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

resources created by enabling legislation only for the purposes specified by the legislation.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified are restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by City Council or a City official delegated that authority by City Charter or ordinance. The City Auditor assigned fund balance to cover a gap between estimated revenue and appropriations in the 2022 appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the General Fund and includes all amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLES

For 2021, the City is implementing Implementation Guide No. 2019-1. These changes were incorporated in the City's 2021 financial statements; however, there was no effect on beginning net position/fund balance.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

NOTE 4 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented on the following page.

		All Other			
	General	Debt	Governmental		
Fund Balances	Fund	Service Fund	Funds	Total	
Nonspendable

Total Fund Balances	\$11,282,303	\$238,154	\$3,530,931	\$15,051,388	

NOTE 5 – BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for the General Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis are as follows:

Net Changes in Fund Balance

	General
GAAP Basis	\$368,266
Revenue Accruals	892,917
Expenditure Accruals	(113,595)
Encumbrances	(383,712)
Custodial Fund Cash Allocation - 2020	1,762
Budget Basis	\$765,638

NOTE 6 – DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

State statutes classify monies held by the City into three categories.

Active deposits are public monies determined to be necessary to meet current demands upon the City treasury. Active monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the City may be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 5. Bonds and other obligations of the State of Ohio, and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 6. The State Treasurer's investment pool (STAROhio);
- 7. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Investments

Investments are reported at fair value. As of December 31, 2021, the City had the following investments:

				Percent
Measurement/	Measurement			of Total
Investment	Amount	Maturity (in Years)	Rating	Investments
Net Asset Value per Share:				
STAROhio	\$13,573,808	Less than one	AAAm	N/A

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. The above chart identifies the City's recurring fair value measurements as of December 31, 2021.

NOTE 7 – MUNICIPAL INCOME TAX

The City levies a municipal income tax of 2.0 percent on all salaries, wages, commissions, other compensation and on net profits earned within the City as well as on incomes of residents earned outside the City. However, the City allows a credit for income taxes paid to another municipality up to 100 percent of the City's current tax rate.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. Income tax proceeds are distributed to the General Fund.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

NOTE 8 – PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2021 for real and public utility property taxes represents collections of 2020 taxes.

2021 real property taxes were levied after October 1, 2021, on the assessed value as of January 1, 2021, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2021 real property taxes are collected in and intended to finance 2022.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2020 public utility property taxes which became a lien December 31, 2020, are levied after October 1, 2021, and are collected in 2022 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2021, was \$11.40 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2020 property tax receipts were based are as follows:

Real Property	\$263,832,770
Public Utility Personal Property	26,051,230
Total	\$289,884,000

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which were measurable as of December 31, 2021, and for which there was an enforceable legal claim. In the governmental funds, the portion of the receivable not levied to finance 2021 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

NOTE 9 – RECEIVABLES

Receivables at December 31, 2021, consisted of accounts, property taxes, municipal income taxes, revenue in lieu of taxes, advances to other funds, due from component unit, and intergovernmental receivables arising from grants, entitlements and shared

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

revenues. All receivables are considered fully collectible and will be received within one year with the exception of property taxes, income taxes, and revenue in lieu of taxes. Property, income taxes, and revenue in lieu of taxes although ultimately collectible, include some portion of delinquents that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

Governmental Activities	
Homestead and Rollback	\$96,421
Local Government	193,838
Gasoline Excise Tax	395,381
Motor Vehicle License Tax	51,735
Total Intergovernmental Receivable	\$737,375

Revenue in Lieu of Taxes

In 2002, the City entered into the Cornerstone Tax Increment Financing Agreement between the City and Cornerstone at Norwood LLC, for the purpose of constructing the Cornerstone commercial facility and parking garage. In 2007, the City entered into an Urban Renewal Plan with Linden Pointe LLC, as the Redeveloper, for the purpose of constructing the Linden Pointe commercial and retail facility. To encourage improvements, Cornerstone at Norwood LLC and Linden Pointe LLC were granted a 100 percent exemption from paying any property taxes on the new construction. For Cornerstone at Norwood LLC, the exemption was granted for 30 years. For Linden Pointe LLC, the exemption is in effect for the earliest of the duration that the bonds issued in connection with this project are outstanding, or 30 years. Payments in lieu of taxes are made to the City in an amount equal to the real property taxes that otherwise would have been due in that current year. These payments are being used to finance public infrastructure improvements. Additional payments are made to the Norwood City School District since they are impacted by the exemption.

A receivable for the amount of the payments estimated to be received in the following year has been recorded in the respective Debt Service and Linden Pointe Construction Funds, with a corresponding credit to deferred inflows of resources – revenue in lieu of taxes.

NOTE 10 – CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2021 was as follows:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

NOTE 11 – ASSET RETIREMENT OBLIGATION

Ohio Revised Code Section 6111.44 requires the City to submit any changes to their sewerage system to the Ohio EPA for approval. Through this review process, the City would be responsible to address any public safety issues associated with the waste water treatment facilities. Any ARO associated with these public safety issues are not reasonably estimable. Currently, there is significant uncertainty as to what public safety items would need addressed; therefore, a reliable estimated amount could not be determined.

NOTE 12 – LONG-TERM DEBT

A schedule of changes in bonds and other long-term obligations of the governmental activities of the City during 2021 follows:

The general obligation debt is supported by the General Fund.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

In 2015, Paycor Notes were issued in the amount of \$3,607,719. TIF Revenues from all incremental property taxes are paid from parcels within the TIF district as defined by the City. These incremental taxes on the TIF district will be collected by the Hamilton County Auditor and disbursed to the City of Norwood for the payment of bonds. In August, 2021, the Port of Greater Cincinnati Development Authority (Port) refinanced this issuance for \$3,665,000 and paid off the City debt.

In 2017, the City issued Central Park Special Assessment Bonds. TIF revenues from all incremental property taxes are paid from parcels within the TIF district as defined by the City encompassing the project known as the "Central Park Bond". These incremental taxes on the TIF district will be collected by the Hamilton County Auditor and disbursed to the City of Norwood for the payment of the bonds.

In 2006, the Tax Increment Financing Bonds were refinanced. TIF revenues from all incremental property taxes are paid from parcels within the TIF district as defined by the City encompassing the project known as the "Cornerstone at Norwood". These incremental taxes on the TIF district will be collected by the Hamilton County Auditor and disbursed to the City of Norwood for the payment of the bonds. In June, 2021, the Port of Greater Cincinnati Development Authority (Port) refinanced this issuance for \$9,240,000 and paid off the City debt.

In 2010, the City issued \$3,595,000 in Tax Increment Financing Bonds. A portion of the proceeds was used to retire the 2007 Linden Pointe Tax Increment Financing Bonds. In August, 2021, the Port of Greater Cincinnati Development Authority (Port) refinanced this issuance for \$3,430,000 and paid off the City debt.

In 2015, the Rookwood Exchange Tax Increment Financing Bonds were issued in the amount of \$20,350,000. TIF Revenues from all incremental property taxes are paid from parcels within the TIF district as defined by the City. These incremental taxes on the TIF district will be collected by the Hamilton County Auditor and disbursed to the City of Norwood for the payment of bonds.

During 2003, the City entered into a loan agreement with the Ohio Public Works Commission to help resurface Williams Avenue. This is an interest free, 20 year loan and the maturity date is January 1, 2024.

During 2003, the City entered into a loan agreement with the Ohio Public Works Commission for the Montgomery Road Phase II project. This is an interest free, 20 year loan and the maturity date is July 1, 2024.

During 2019, the City entered into a loan agreement with the Ohio Public Works Commission for the Forest Avenue Street Improvement project. This is an interest free, 30 year loan and the maturity date is July 1, 2049. The OPWC is paid for by Permissive Tax collections.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

During 2017, the City entered into a loan agreement with the Ohio Public Works Commission for the Beech Street Improvement project. This is an interest free, 30 year loan and the maturity date is July 1, 2046. The OPWC is paid for by Permissive Tax collections.

During 2017, the City entered into a loan agreement with the Ohio Public Works Commission for the Williams Avenue project. This is an interest free, 30 year loan and the maturity date is July 1, 2047. The OPWC is paid for by Permissive Tax collections.

During 2017, the City entered into a loan agreement with the Ohio Public Works Commission for the Hunter Avenue Improvement project. This is an interest free, 30 year loan and the maturity date is July 1, 2047. The OPWC is paid for by Permissive Tax collections.

During 2021, the City entered into a loan agreement with the Ohio Public Works Commission for the Indian Mound Street Improvement project. This is an interest free, 20 year loan and the maturity date is January 1, 2042. The OPWC is paid for by Permissive Tax collections.

Police and Fire Past Service Liability

The City's accrued past service liability to the Ohio Police and Fire Pension Fund (OP&F) was determined and became a legal obligation to the State at the date the City became a participant in OP&F. The principal and interest payments are recorded in the security of persons and property expenditures in the general fund on the governmental fund statements.

The Police and Fire Pension Liability is paid from special revenue fund taxes, and is recorded as an expenditure of Debt Service: Principal Retirement.

Contracts Payable

Contracts payable represent long-term contractual agreements for the payment of refunded bonds issued by the Port of Greater Cincinnati Development Authority (Port). Each contract payable was originally debt issued by the City. The City debt obligations were paid off by the refunding bond debt proceeds of the Port.

The City pledged the Cornerstone net service payments (revenue in lieu of taxes) to assist in paying the Cornerstone Taxable Development Revenue Bonds, Series 2021D of the Port for \$9,240,000. The City has recorded a long term obligation in the amount of \$9,240,000 and paid \$760,540 in 2021.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The City pledged the Linden Pointe and Paycor net service payments (revenue in lieu of taxes) to assist in paying the Series 2021 Various Purpose Refunding Development Revenue Bonds of the Port for \$7,095,000. The City has recorded a long term obligation in the amount of \$7,095,000 and paid \$390,000 in 2021

Compensated absences will be paid from the General Funds. The capital lease liability will be paid from the General Fund.

There is no repayment schedule for the net pension/OPEB liability. However, employer pension/OPEB contributions are made from the General Fund. For additional information related to the net pension and net OPEB liabilities see Notes 15 and 16.

Changes in the long-term obligations reported in business-type activities of the City during 2021 were as follows:

Business-Type Activities

	Balance			Balance	Due Within
Types/Issues	12/31/20	Increases	Decreases	12/31/21	One Year
2009 OPWC Smith Road					
Waterline from Direct

Rusiness Type

NOTE 13 – LEASES - LESSEE DISCLOSURE

In prior years, the City entered into capital leases for equipment and vehicles. By the terms of the agreements, ownership of the equipment is transferred to the City by the end of the four year lease term. The leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Capital assets acquired by leases have been capitalized in the Statement of Net Position for governmental activities in the amount of \$1,357,659. A corresponding liability was

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

recorded on the Statement of Net Position for governmental activities. Principal payments in 2021 totaled \$240,830.

The assets acquired through capital leases are as follows:

	Asset	Accum.	Net Book Value
Asset	Value	Depr.	Dec. 31, 2021
Vehicles	\$270,597	\$88,839	\$181,758
Furniture, Fixtures, and Equipment	1,087,062	256,055	831,007
Total	\$1,357,659	\$344,894	\$1,012,765

The following is a schedule of future minimum payments on capital leases and the present value of the minimum lease payments at December 31, 2021:

	Governmental
Year	Activities
2022	\$239,794
2023	160,086
2024	51,328
2025	51,328
Total Minimum Lease Payments	502,536
Less: Amount Representing Interest	(27,358)
Present Value of Minimum Lease Payments	\$475,178

NOTE 14 - RISK MANAGEMENT

The City is exposed to various risks of property and casualty losses, and injuries to employees.

The City insures against injuries to employees through the Ohio Bureau of Worker's Compensation.

The City belongs to the Public Entities Pool of Ohio (The Pool). The Pool assumes the risk of loss up to the limits of the City's policy. The pool covers the following risks: general liability and casualty, public official's liability, cyber, law enforcement liability, automobile liability, vehicles, property, and equipment breakdown.

The Pool reported the following summary of assets and actuarially-measured liabilities available to pay those liabilities as of December 31:

	2020
Cash and Investments	\$40,318,971
Actuarial Liabilities	14,111,510

By contract, the annual liability of each member is limited to the amount of financial contributions required to be made to the Pool for each year of membership. The City's

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

contributions for the last three years are:

Contributions to PEP	Amount
2019	\$184,791
2020	185,307
2021	208,468

NOTE 15 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability (Asset)/Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represents the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a net pension/OPEB asset or a long-term net pension/OPEB liability on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 16 for the required OPEB disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Group A
Eligible to retire prior to
January 7, 2013 or five years
after January 7, 2013

ter January 7, 2013 State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

State and Local

Age and Service Requirements:
Age 60 with 60 months of service credit
or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost—of—living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State
	and Local
2021 Statutory Maximum Contribution Rates	
Employer	14.0%
Employee *	10.0%
2021 Actual Contribution Rates	
Employer:	
Pension **	14.0%
Post-employment Health Care Benefits **	0.0%
Total Employer	14.0%
Employee	10.0%

- * Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- ** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2021, the City's contractually required contribution was \$440,328 for the traditional plan and \$14,491 for the member-directed plan. Of these amounts, \$78,035 is reported as an intergovernmental payable for the traditional plan and \$2,566 for the member-directed plan.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.0 percent of the member's base pension benefit.

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.0% or the percentage increase in the consumer price index, if any, over

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2021 Statutory Maximum Contribution Rates		
Employer	19.50%	24.00%
Employee	12.25%	12.25%
2021 Actual Contribution Rates		
Employer:		
Pension	19.00%	23.50%
Post-employment Health Care Benefits	0.50%	0.50%
Total Employer	19.50%	24.00%
Employee	12.25%	12.25%

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,656,135 for 2021. Of this amount, \$225,886 is reported as an intergovernmental payable.

In addition to current contributions, the City pays installments on a specific liability the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2021, the specific liability of the City was \$1,530,143 payable in semi-annual payments through the year 2035.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2020, and was determined by rolling forward the total pension liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net pension liability (asset) was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense of the City's defined benefit pension plans:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	OPERS		
	Traditional Plan	OP&F	Total
Proportion of the Net Pension			
Liability/Asset:			
Current Measurement Date	0.02181846%	0.33440950%	
Prior Measurement Date	0.02185800%	0.33511090%	
Change in Proportionate Share	-0.00003954%	-0.00070140%	
Proportionate Share of the:			
Net Pension Liability	\$3,230,838	\$22,796,996	\$26,027,834
·			
Pension Expense	8,974	1,093,669	1,102,643

2021 pension expense for the member-directed defined contribution plan was \$14,491. The aggregate pension expense for all pension plans was \$1,117,134 for 2021.

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to defined benefit pensions from the following sources:

	OPERS		
	Traditional Plan	OP&F	Total
Deferred Outflows of Resources:			
Differences between expected and			
actual experience	\$0	\$952,992	\$952,992
Changes of assumptions	0	382,317	382,317
Changes in proportion and differences			
between City contributions and			
proportionate share of contributions	31,067	81,150	112,217
City contributions subsequent to the			
measurement date	440,328	1,656,135	2,096,463
Total Deferred Outflows of Resources	\$471,395	\$3,072,594	\$3,543,989
Deferred Inflows of Resources:			
Differences between expected and			
actual experience	\$135,148	\$888,103	\$1,023,251

2025	(171,748)	(185,331)	(357,079)
2026	0	37,197	37,197
Total	(\$1,438,178)	(\$3,158,225)	(\$4,596,403)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2020, are presented below.

	OPERS Traditional Plan	OPERS Combined Plan	
Wage Inflation	3.25 percent	3.25 percent	
Future Salary Increases,	3.25 to 10.75 percent	3.25 to 8.25 percent	
including inflation	including wage inflation	including wage inflation	
COLA or Ad Hoc COLA:			
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	
Post-January 7, 2013 Retirees	.5 percent, simple through 2021,	.5 percent, simple through 2021,	
	then 2.15 percent, simple	then 2.15 percent, simple	
Investment Rate of Return	7.2 percent	7.2 percent	
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	

In October 2020, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 1.4 percent simple through 2020 then 2.15 simple to .5 percent simple through 2021 then 2.15 percent simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

		Weighted Average		
		Long-Term Expected		
	Target	Real Rate of Return		
Asset Class	Allocation	(Arithmetic)		
Fixed Income	25.00% %	1.32%		
Domestic Equities	21.00	5.64		
Real Estate	10.00	5.39		
Private Equity	12.00	10.42		
International Equities	23.00	7.36		
Other investments	9.00	4.75		
Total	100.00% %	5.43%		

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	(6.20%)	(7.20%)	(8.20%)
City's proportionate share			
of the net pension liability (asset)			
OPERS Traditional Plan	\$6,162,842	\$3,230,838	\$792,883

Changes between the Measurement Date and the Reporting Date During 2021, the OPERS Board lowered the investment rate of return from 7.2 percent to 6.9 along with certain other changes to assumptions for the actuarial valuation as of December 31, 2021. The effects of these changes are unknown.

Actuarial Assumptions – OP&F

OP&F's total pension liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered are: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2020, are presented as follows.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Valuation Date January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020 Actuarial Cost Method Entry Age Normal Investment Rate of Return 8.0 percent 3.75 percent to 10.5 percent Projected Salary Increases Payroll Growth 3.25 percent per annum, compounded annually, consisting of Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent Cost of Living Adjustments 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized as follows:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash and Cash Equivalents	0.00%	0.00%
Domestic Equity	21.00	4.10
Non-US Equity	14.00	4.80
Private Markets	8.00	6.40
Core Fixed Income *	23.00	0.90
High Yield Fixed Income	7.00	3.00
Private Credit	5.00	4.50
U.S. Inflation Linked Bonds *	17.00	0.70
Midstream Energy Infrastructure	5.00	5.60
Real Assets	8.00	5.80
Gold	5.00	1.90
Private Real Estate	12.00	5.30
Total	125.00%	

Note: Assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return of 8.00 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 8.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent), or one percentage point higher (9.00 percent) than the current rate.

^{*} levered 2x

NOTE 16 - DEFINED BENEFIT OPEB PLANS

See Note 15 for a description of the net OPEB liability

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement (HRA) to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The heath care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses. These changes are reflected in the December 31, 2020, measurement date health care valuation.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary. These are the maximum employer contribution rates permitted by the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$5,796 for 2021. Of this amount, \$1,026 is reported as an intergovernmental payable.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2021, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$38,773 for 2021. Of this amount, \$5,340 is reported as an intergovernmental payable.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2020, and was determined by rolling forward the total OPEB liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net OPEB liability (asset) was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	OPERS	OP&F	
Proportion of the Net OPEB Liability:	·		
Current Measurement Date	0.02122600%	0.33440950%	
Prior Measurement Date	0.02123200%	0.33511090%	
Change in Proportionate Share	-0.00000600%	-0.00070140%	
			Total
Proportionate Share of the Net			
OPEB Liability	\$0	\$3,543,123	\$3,543,123
OPEB Asset	(\$378,159)	\$0	(\$378,159)
OPEB Expense	(\$2,320,399)	(\$211,171)	(\$2,531,570)

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS	OP&F	Total
Deferred Outflows of Resources:			
Changes of assumptions	\$185,907	\$1,957,382	\$2,143,289
Changes in proportion and differences between City contributions and			
proportionate share of contributions	19,705	0	19,705
City contributions subsequent to the			
measurement date	5,796	38,773_	44,569
Total Deferred Outflows of Resources	\$211,408	\$1,996,155	\$2,207,563
Deferred Inflows of Resources:			
Differences between expected and			
actual experience	\$341,285	\$584,426	\$925,711
Changes of assumptions	612,730	564,840	1,177,570
Net difference between projected and			
actual earnings on OPEB plan investments	201,413	131,669	333,082
Changes in proportion and differences			
between City contributions and proportionate			
share of contributions	44,754	2,137,250	2,182,004
Total Deferred Inflows of Resources	\$1,200,182	\$3,418,185	\$4,618,367

\$44,569 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Year Ending December 31:	OPERS_	OP&F	Total
2022	(\$531,038)	(\$397,888)	(\$928,926)

2026	0	28,470	28,470
Thereafter	0	47,196	47,196
Total	(\$994,570)	(\$1,460,803)	(\$2,455,373)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation Projected Salary Increases, including inflation	3.25 percent 3.25 to 10.75 percent including wage inflation
Single Discount Rate:	
Current measurement date	6.00 percent
Prior Measurement date	3.16 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.00 percent
Prior Measurement date	2.75 percent
Health Care Cost Trend Rate:	
Current measurement date	8.5 percent, initial
	3.50 percent, ultimate in 2035
Prior Measurement date	10.5 percent, initial
	3.50 percent, ultimate in 2030
Actuarial Cost Method	Individual Entry Age

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic rates of return were provided by OPERS investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	34.00%	1.07%
Domestic Equities	25.00	5.64
Real Estate Investment Trust	7.00	6.48
International Equities	25.00	7.36
Other investments	9.00	4.02
Total	100.00%	4.43%
		-

Discount Rate A single discount rate of 6.0 percent was used to measure the OPEB liability on the measurement date of December 31, 2020. A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

31, 2019. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.00 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate The following table presents the City's proportionate share of the net OPEB asset calculated using the single discount rate of 6.00 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.00 percent) or one-percentage-point higher (7.00 percent) than the current rate:

	Current		
	1% Decrease Discount Rate 1% Increas		
	(5.00%)	(6.00%)	(7.00%)
City's proportionate share			
of the net OPEB asset	(\$94,031)	(\$378, 159)	(\$611,733)

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

percent in the most recent valuation.

	Current Health Care		
	Cost Trend Rate		
	1% Decrease	Assumption	1% Increase
City's proportionate share		.	
of the net OPEB asset	(\$387,375)	(\$378,159)	(\$367,847)

Changes between Measurement Date and Reporting Date

During 2021, the OPERS Board made various changes to assumptions for the actuarial valuation as of December 31, 2021. The effects of these changes are unknown.

Actuarial Assumptions – OP&F

OP&F's total OPEB liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented as follows.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Valuation Date January 1, 2020, with actuarial liabilities

rolled forward to December 31, 2020

Actuarial Cost Method Entry Age Normal

Investment Rate of Return 8.0 percent

Projected Salary Increases 3.75 percent to 10.5 percent

Payroll Growth 3.25 percent

Single discount rate:

Current measurement date 2.96 percent Prior measurement date 3.56 percent

Cost of Living Adjustments 2.2 percent simple

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77%	68%
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016.

The OP&F health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

Discount Rate For 2020, the total OPEB liability was calculated using the discount rate of 2.96 percent. For 2019, the total OPEB liability was calculated using the discount rate of 3.56 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8 percent. Based on those assumptions, OP&F's fiduciary net position was

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.12 percent at December 31, 2020 and 2.75 percent at December 31, 2019, was blended with the long-term rate of 8 percent, which resulted in a blended discount rate of 2.96 percent for 2020 and 3.56 percent for 2019. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2037. The long-term expected rate of return on health care investments was applied to projected costs through 2037, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.96 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.96 percent), or one percentage point higher (3.96 percent) than the current rate.

	Current		
	1% Decrease Discount Rate 1% Increase		
	(1.96%)	(2.96%)	(3.96%)
City's proportionate share			
of the net OPEB liability	\$4,418,072	\$3,543,123	\$2,821,393

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

NOTE 17 - OTHER EMPLOYEE BENEFITS

Deferred Compensation

City employees may participate in the Ohio Public Employees Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. The Deferred pay and income earned on it is not subject to federal and State income until actually received by the employee. According to the plan, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

Insurance

Medical/surgical benefits are provided to full-time City employees. The provider of these benefits is Anthem BC/BS Health Care. The City pays between 80 and 100 percent of the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

single monthly premiums depending on which plan and coverage is selected. The cost of the premium varies with each employee depending on the plan and coverage selected.

NOTE 18 – INTERFUND ACTIVITY

The General Fund advanced monies to the Parks Fund, the outstanding balance is \$10,711. The Permissive Tax fund advanced monies to the Water Fund, the outstanding balance is \$8,831.

NOTE 19 – JOINTLY GOVERNED ORGANIZATION

The City participates in the Ohio Energy Special Improvement District, Inc. (SID), a 501(c)(3) not for profit corporation. The SID was created to encourage and participate in programs which maintain, improve, and expand the central business district as a viable business, cultural, and recreational community, to provide programming which will preserve the economic well-being and employment opportunities in the central business district, and to encourage and participate in programs to preserve the aesthetic, architectural, and historical character of the central business district. The SID is governed by an eight member board of trustees consisting of the Mayor of the City of Norwood, Ohio. The Board exercises total control over the operation of the SID including budgeting, appropriating, contracting and designating management. Each member's degree of control is limited to it's representation on the Board. The City did not make any contributions to the SID.

NOTE 20 - SHARED RISK POOL

The Public Entities Pool of Ohio (PEP) is a statutory entity created pursuant to section 2744.081, of the Ohio Revised Code, by the execution of an intergovernmental contract ("Participation Agreements"). PEP enables the subscribing subdivisions to pool risk for property, liability and public official liability. PEP has no employees, rather it is administered through contracts with various professionals.

Pursuant to a contract, the firm of Wells Fargo Insurance Services administers PEP. PEP is a separate legal entity. PEP subcontracts certain self-insurance, administrative and claims functions to a "Pool Operator," currently Pottering Insurance. PEP has executed contracts with various professionals for actuary services, as independent auditors, as loss control representatives, as litigation management and defense law firms, as counsel to PEP and others as required.

PEP is governed by a seven member Board of Trustees elected by the members of PEP. The City makes an annual contribution to PEP for the coverage it is provided, based on rates established by PEP. Financial information may be obtained by writing to the Public Entities Pool of Ohio, 10100 Innovation Drive, Dayton, Ohio, 45342.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

NOTE 21 - SIGNIFICANT COMMITMENTS

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods and services. Encumbrances accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

Governmental Funds:	
General Fund	\$383,712
Nonmajor Governmental Funds	1,307,909
Total Governmental Funds	1,691,621
Proprietary Funds:	
Water Fund	81,936
Refuse Fund	104,921
Total Proprietary Funds	186,857
Total	\$1,878,478

NOTE 22 – CONTINGENCIES

Litigation

The City is party to legal proceedings. The City is of the opinion that ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

Federal and State Grants

For the period January 1, 2021, to December 31, 2021, the City received federal and State grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

NOTE 23 - FISCAL EMERGENCY

On October 6, 2016, the Auditor of State declared the City of Norwood to be in a state of fiscal emergency in accordance with Section 118.03 of the Ohio Revised Code. The declaration resulted in the establishment of a financial planning and supervision commission. The Commission is comprised of a representative of the Office of Budget and Management, a representative of the Treasurer of State, the Mayor, the President of City Council, and three individuals appointed by the Governor who are residents of the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

City and meet certain criteria. In accordance with Section 118.06 of the Ohio Revised Code, the City is required to submit to the Commission a financial recovery plan for the City which outlines the measures to be taken to eliminate the fiscal emergency conditions. The initial recovery plan was approved by the City on July 5, 2017. The last amended recovery plan is dated May 24, 2022.

NOTE 24 - COMPONENT UNIT - CITY OF NORWOOD BOARD OF HEALTH

Description of Reporting Entity

The constitution and laws of the State of Ohio establish the rights and privileges of the City of Norwood Board of Health (the Board) as a body corporate and politic. A five member Board and a Health Commissioner govern the Board. Consistent with the provisions of Ohio Revised Code Section 3709.36, the Board is a legally separate organization. Among its various duties, the Board provides for the prompt diagnosis and control of communicable diseases. The Board may also inspect businesses where food is manufactured, handled, stored, or offered for sale. The Board is operated by a board with all members being appointed by the City. The rates charged by the Board are subject to the approval of City Council.

Summary of Significant Accounting Policies

The financial statements of the Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Basis of Presentation

The Board's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Fund Accounting

The Board uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The Board's general fund and the grants special revenue fund are both governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Measurement Focus

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Board are included on the statement of net position. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Non-exchange transactions, in which the Board receives value without directly giving equal value in return, include grants. Revenue from grants are recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Board must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Board on a reimbursement basis.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the Board, deferred outflows of resources are reported on the government-wide Statement of Net Position for pension and OPEB.

In addition to liabilities, the statement of financial position report a separate section of deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the Board, deferred inflows of resources, include pension and OPEB

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Cash and Cash Equivalents

The City of Norwood's Auditor's Office is custodian for the Board's deposits. The City's deposit and investment pool holds the Board's assets, valued at the Auditor's Office reported carrying amount.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the Board will compensate the employees for the benefits through paid time off or some other means. The Board records a liability for all accumulated unused vacation time when earned for all employees after one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the Board's past experience of making termination payments.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditures to the extent that payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee will be paid.

The entire compensated absences liability is reported on the government-wide financial statements.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

Net Position

Net position represents the difference between all other elements on the statement of financial position. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Board's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Deposits and Investments

Cash balances of the Board's funds are pooled and invested in order to provide improved cash management. Individual fund integrity is maintained by the City of Norwood's Auditor's Office as they are the custodians for the Board assets. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements, and is valued at the City Auditor's reported carrying amount.

Receivables

Receivables at December 31, 2021, consisted of \$8,897 intergovernmental receivable from City of Norwood.

Risk Management

Casualty Coverage

The Board is covered under the City of Norwood's insurance coverage. During 2021, the City contracted with USI Insurance Services for various types of insurance. The Board is covered as follows:

Type of Coverage	Coverage
Valuable Papers and Records	\$250,000
Business Electronics Equipment	188,022

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Other Employee Benefits

Deferred Compensation

The Board's employee may participate in the Ohio Public Employees Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. The deferred pay and income earned on it is not subject to federal and State income until actually received by the employee. According to the plan, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

Insurance

Medical/surgical benefits are provided to full-time Board employees. The provider of these benefits is Anthem BC/BS Health Care. The Board pays between 80 and 100 percent of the single monthly premiums depending on which plan and coverage is selected. The cost of the premium varies with each employee depending on the plan and coverage selected.

Defined Benefit Pension Plan

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability (Asset)/Net OPEB Liability (Asset)

The net pension liability (asset) and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represents the Board's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Ohio Revised Code limits the Board's obligation for this liability to annually required payments. The Board cannot control benefit terms or the manner in which pensions are financed; however, the Board does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a net pension/OPEB asset or a long-term net pension/OBEB liability on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Board Employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A Eligible to retire prior to	Group B 20 years of service credit prior to	Group C Members not in other Groups
January 7, 2013 or five years after January 7, 2013	January 7, 2013 or eligible to retire ten years after January 7, 2013	and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age and Service Requirements: Age and Service Requirements: Age 60 with 60 months of service credit Age 60 with 60 months of service credit Age 57 with 25 years of service credit or Age 55 with 25 years of service credit Age 62 with 5 years of service credit		
Traditional Plan Formula:	Traditional Plan Formula:	Traditional Plan Formula:
2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of	2.2% of FAS multiplied by years of
service for the first 30 years and 2.5%	service for the first 30 years and 2.5%	service for the first 35 years and 2.5%
for service years in excess of 30	for service years in excess of 30	for service years in excess of 35
Combined Plan Formula:	Combined Plan Formula:	Combined Plan Formula:
1% of FAS multiplied by years of	1% of FAS multiplied by years of	1% of FAS multiplied by years of
•		service for the first 35 years and 1.25%
for service years in excess of 30	for service years in excess of 30	for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost—of—living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Memberdirected participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	State	
	and Local	
2021 Statutory Maximum Contribution Rates		
Employer	14.0 %	
Employee *	10.0 %	
2021 Actual Contribution Rates		
Employer:		
Pension **	14.0 %	
Post-employment Health Care Benefits **	0.0	
Total Employer	14.0 %	
Employee	10.0 %	

- * Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- ** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2021, the Board's contractually required contribution was \$8,776 for the traditional plan with no contributions for the combined plan or the member-directed plans; none of which is reported as an intergovernmental payable for the traditional plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability (asset) for OPERS was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability (asset) was based on the Board's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense of the Board's defined benefit pension plans:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	OPERS
	Traditional Plan
Proportion of the Net Pension	
Liability/Asset:	
Current Measurement Date	0.00015100%
Prior Measurement Date	0.00000000%
Change in Proportionate Share	0.00015100%
Proportionate Share of the:	
Net Pension Liability	\$22,359
•	
Pension Expense	14,186

At December 31, 2021, the Board reported deferred outflows of resources related to defined benefit pensions from the following sources:

	OPERS Traditional Plan
Deferred Outflows of Resources	
Changes in proportion and differences	
between Board contributions and	
proportionate share of contributions	\$20,792
Board contributions subsequent to the	
measurement date	8,776
Total Deferred Outflows of Resources	\$29,568
Deferred Inflows of Resources	
Differences between expected and	
actual experience	\$935
Net difference between projected	
and actual earnings on pension	
plan investments	8,716
Total Deferred Inflows of Resources	\$9,651

\$8,776 reported as deferred outflows of resources related to pension resulting from Board contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS
	Traditional
	Plan
Year Ending December 31:	
2022	\$10,112
2023	5,769
2024	(3,553)
2025	(1,187)
Total	\$11,141

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2020, are presented as follows.

	OPERS Traditional Plan	OPERS Combined Plan
Wage Inflation	3.25 percent	3.25 percent
Future Salary Increases,	3.25 to 10.75 percent	3.25 to 8.25 percent
including inflation	including wage inflation	including wage inflation
COLA or Ad Hoc COLA:		
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	.5 percent, simple through 2021,	.5 percent, simple through 2021,
	then 2.15 percent, simple	then 2.15 percent, simple
Investment Rate of Return	7.2 percent	7.2 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age

In October 2020, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 1.4 percent simple through 2020 then 2.15 simple to .5 percent simple through 2021 then 2.15 percent simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

		Weighted Average		
	T	Long-Term Expected		
A 1.01	Target	Real Rate of Return		
Asset Class	Allocation	(Arithmetic)		
Fixed Income	25.00 %	1.32 %		
Domestic Equities	21.00	5.64		
Real Estate	10.00	5.39		
Private Equity	12.00	10.42		
International Equities	23.00	7.36		
Other investments	9.00	4.75		
Total	100.00 %	5.43 %		

Discount Rate The discount rate used to measure the total pension liability was 7.2 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Board's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the Board's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 7.2 percent, as well as what the Board's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	(6.20%)	(7.20%)	(8.20%)
Board's proportionate share		-	
of the net pension liability			
OPERS Traditional Plan	\$42,651	\$22,359	\$5,487

Changes between the Measurement Date and the Reporting Date During 2021, the OPERS Board lowered the investment rate of return from 7.2 percent to 6.9 along with certain other changes to assumptions for the actuarial valuation as of December 31, 2021. The effects of these changes are unknown.

Defined Benefit OPEB Plans

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage. prescription drug coverage and deposits to a Health Reimbursement Arrangement (HRA) to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The heath care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses. These changes are reflected in the December 31, 2020, measurement date health care valuation.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

traditional plan and the combined plan

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary. This is the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Board's contractually required contribution was \$0 for 2021.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB asset and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The Board's proportion of the net OPEB asset was based on the Board's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	OPERS
Proportion of the Net OPEB Liability:	
Current Measurement Date	0.00014000%
Prior Measurement Date	0.00000000%
Change in Proportionate Share	0.00014000%
Proportionate Share of the Net	
OPEB Asset	(\$2,494)
OPEB Expense	(\$7,906)

At December 31, 2021, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	OPERS
Deferred Outflows of Resources	
Changes of assumptions	\$1,226
Changes in proportion and differences	
between Board contributions and	
proportionate share of contributions	11,807
Total Deferred Outflows of Resources	\$13,033
Deferred Inflows of Resources	
Differences between expected and	
actual experience	\$2,251
Changes of assumptions	4,041
Net difference between projected and	
actual earnings on OPEB plan investments	1,329
Total Deferred Inflows of Resources	\$7,621

\$0 is reported as deferred outflows of resources related to OPEB resulting from Board contributions subsequent to the measurement date will be recognized as an increase of the net OPEB asset in 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	OPERS
Year Ending December 31:	
2022	Φ 2 .00 <i>5</i>
2022	\$3,885
2023	2,261
2024	(577)
2025	(157)
Total	\$5,412

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

measurement date of December 31, 2020. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation 3.25 percent
Projected Salary Increases, 3.25 to 10.75 percent
including inflation including wage inflation

Single Discount Rate:

Current measurement date 6.00 percent
Prior Measurement date 3.16 percent
Investment Rate of Return 6.00 percent

Municipal Bond Rate:

Current measurement date 2.00 percent Prior Measurement date 2.75 percent Health Care Cost Trend Rate:

8.5 percent, initial 3.50 percent, ultimate in 2035

10.5 percent, initial
3.50 percent, ultimate in 2030

Individual Entry Age

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Postretirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

percentage, adjusted for inflation. Best estimates of arithmetic rates of return were provided by OPERS investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2019, these best estimates are summarized in the following table:

		Weighted Average Long-Term Expected		
	Target	Real Rate of Return		
Asset Class	Allocation	(Arithmetic)		
Fixed Income	34.00 %	1.07 %		
Domestic Equities	25.00	5.64		
Real Estate Investment Trust	7.00	6.48		
International Equities	25.00	7.36		
Other investments	9.00	7.02		
Total	100.00 %	4.43 %		

Discount Rate A single discount rate of 6.0 percent was used to measure the OPEB liability on the measurement date of December 31, 2020. A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.00 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the Board's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate The following table presents the Board's proportionate share of the net OPEB asset calculated using the single discount rate of 6.00 percent, as well as what the Board's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.00 percent) or one-percentage-point higher (7.00 percent) than the current rate:

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

	Current		
	1% Decrease	Discount Rate	1% Increase
	(5.00%)	(6.00%)	(7.00%)
Boards's proportionate share			
of the net OPEB asset	(\$620)	(\$2,494)	(\$4,035)

Sensitivity of the Board's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	Current Health Care		
	Cost Trend Rate		
	1% Decrease	Assumption	1% Increase
Board's proportionate share			
of the net OPEB asset	(\$2,555)	(\$2,494)	(\$2,426)

Changes between Measurement Date and Reporting Date During 2021, the OPERS Board made various changes to assumptions for the actuarial valuation as of December 31, 2021. The effects of these changes are unknown.

Long-Term Obligations

A schedule of changes in long-term obligations of the Board during 2021 follows:

- "	Balance		_	Balance	Due Within
Types/Issues	12/31/20	<u>Increases</u>	Decreases	12/31/21	One Year
Compensated Absences	\$34,676	\$0	\$34,676	\$0	\$0
Net OPEB Liability:					
OPERS	0	22,359	0	22,359	0
Total Governmental Activities	\$34,676	\$22,359	\$34,676	\$22,359	\$0

Hamilton County, Ohio Notes to the Basic Financial Statements For the Year Ended December 31, 2021

For 2021, there is no compensated absences liability. There is no repayment schedule for the net pension liability. However, employer pension contributions are made from the General Fund.

Significant Commitments

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods and services. Encumbrances accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the following year were \$3,143 and \$62,565 in the General Fund and the Grants Fund, respectively.

NOTE 25 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the Board. The impact on the Boards' future operating costs, revenues, and additional recovery from emergency funding, either federal or State, cannot be estimated. Additional funding will be available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

NOTE 26 – SUBSEQUENT EVENTS

On July 6, 2022, the City issued Special Obligation Refunding Revenue Bonds, Series 2022 for \$6,325,000 that refunded 2013 Tax Increment Financing Bond. The bonds were issued at 5.176 percent interest. The bonds were issue to Refund Special Obligation Development Revenue Bond, Series 203 (University Station Project).

- (1) Information prior to 2013 is not available for traditional plan. Information prior to 2016 is not available for the combining plan.
- (2) Beginning in 2016, OPERS used one trust fund as the funding vehicle for all health care plans; there information prior to 2016 is not presented.
- (3) The OPEB plan includes the members from the traditional plan, the combined plan and the member directed plan. The member directed pension plan is a defined contribution pension plan; therefore, the pension side is not included above.

<u>Changes in Assumptions – OPERS Pension – Traditional Plan</u>

Amounts reported beginning in 2019 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	2019	2018 and 2017	2016 and prior
\\\\ \. \. \. \. \. \. \. \. \. \. \. \. \.	2.05	2.05	2.75
Wage Inflation	3.25 percent	3.25 percent	3.75 percent
Future Salary Increases,	3.25 to 10.75 percent	3.25 to 10.75 percent	4.25 to 10.05 percent
including inflation	including wage inflation	including wage inflation	including wage inflation
COLA or Ad Hoc COLA:			
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	see below	see below	see below
Investment Rate of Return	7.2 percent	7.5 percent	8 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age

The assumptions related COLA or Ad Hoc COLA for Post-January 7, 2013 Retirees are as follows:

COLA or Ad Hoc COLA, Post-January 7, 2013 Retirees:

2021	0.5 percent, simple through 2021
	then 2.15 percent, simple
2020	1.4 percent, simple through 2020
	then 2.15 percent, simple
2017 through 2019	3.0 percent, simple through 2018
	then 2.15 percent, simple
2016 and prior	3.0 percent, simple through 2018
	then 2.80 percent, simple

Amounts reported beginning in 2017 use pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

Notes to the Required Supplementary Information For the Year Ended December 31, 2021

Amounts reported for 2016 and prior use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

<u>Changes in Assumptions – OPERS Pension – Combined Plan</u>

For 2021 and 2020, the Combined Plan had the same change in COLA or Ad Hoc COLA for Post-January 2, 2013 retirees as the Traditional Plan. For 2019, the investment rate of return changed from 7.5 percent to 7.2 percent.

Changes in Assumptions – OP&F Pension

Amounts reported beginning in 2018 incorporate changes in assumptions used by OP&F in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2017 and prior are presented below:

	Beginning in 2018	2017 and Prior
Actuarial Cost Method Investment Rate of Return Projected Salary Increases	Entry Age Normal 8.0 percent 3.75 percent to 10.5 percent	Entry Age Normal 8.25 percent 4.25 percent to 11 percent
Payroll Growth	Inflation rate of 2.75 percent plus	Inflation rate of 3.25 percent plus
Cost of Living Adjustments	productivity increase rate of 0.5 percent 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent	productivity increase rate of 0.5 percent 3.00 percent simple; 2.6 percent simple for increases based on the lesser of the increase in CPI and 3 percent

Amounts reported beginning in 2018 use valuation, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck/Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Notes to the Required Supplementary Information For the Year Ended December 31, 2021

Amounts reported beginning in 2018 use valuation, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck/Conduent Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

Amounts reported for 2017 and prior use valuation, rates of death were based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

2021	2.96 percent
2020	3.56 percent
2019	4.66 percent
2018	3.24 percent

Changes in Benefit Terms – OPERS OPEB

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in 2021.

Changes in Benefit Terms - OP&F OPEB

For 2019, OP&F recognized a change in benefit terms. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements. This new model replaced the self-insured health care plan used in prior years.

CERTIFIED PURLIC ACCOUNTANT AND MANAGEMENT CONSULTANTS

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards

City of Norwood Hamilton County 4645 Montgomery Road Norwood, Ohio 45212

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Norwood, Hamilton County, (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated September 22, 2022, wherein we noted the financial impact of COVID-19 and the ensuing emergency measures that will impact subsequent periods of the City.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Members of Council
City of Norwood, Hamilton County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Entity's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

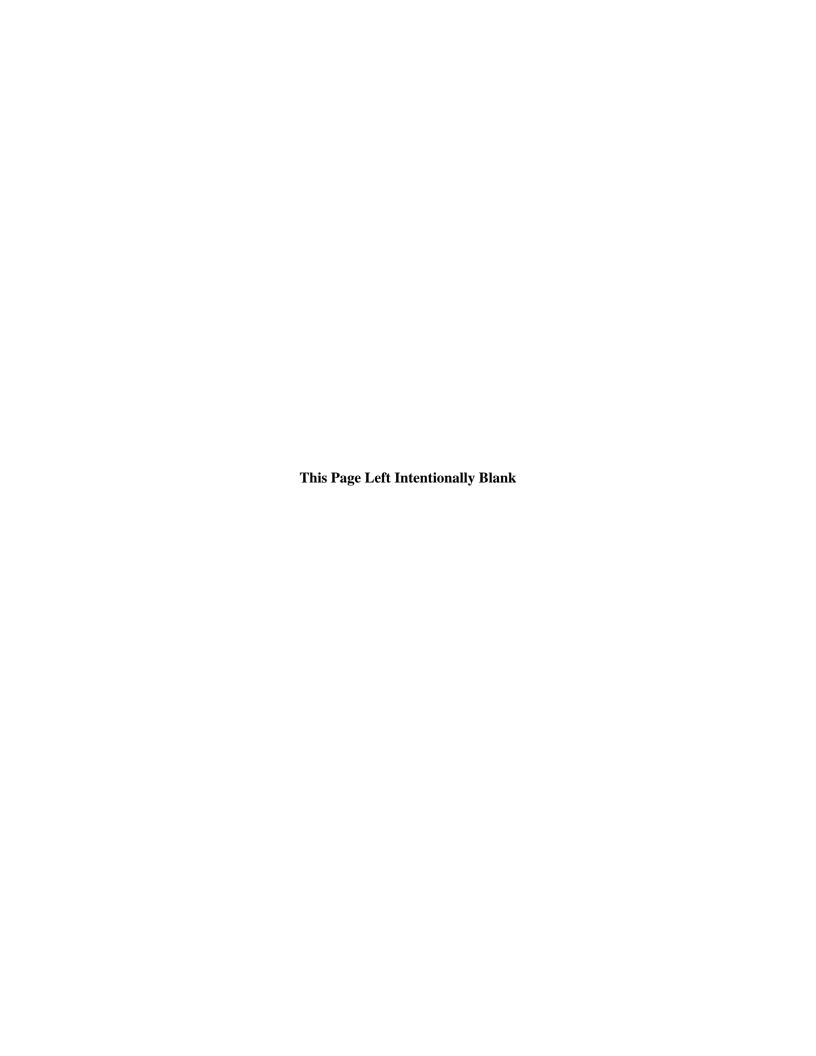

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
