NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2021

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Columbus City School District (the School District) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Columbus City School District Franklin County 270 East State Street Columbus, Ohio 43215

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Columbus City School District, Franklin County, (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 21, 2021, wherein we noted the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the School District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a significant deficiency. We consider finding 2021-001 to be a significant deficiency.

Columbus City School District Franklin County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statement. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

School District's Response to Findings

The School District's response to the finding identified in our audit is described in the accompanying corrective action plan. We did not subject the School District's response to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Columbus City School District Franklin County 270 East State Street Columbus, Ohio 43125

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited the Columbus City School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Columbus City School District's major federal programs for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal programs.

Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major programs. However, our audit does not provide a legal determination of the School District's compliance.

Columbus City School District Franklin County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance Page 2

Opinion on the Major Federal Program

In our opinion, the School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Therefore, we cannot assure we have identified all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that we compliance that we consider to be a significant deficiency, described in the accompanying schedule of findings as item 2021-002.

The School District's response to the internal control over compliance finding we identified is described in the accompanying corrective action plan. We did not subject the School District's response to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

This report only describes the scope of our tests of internal control over compliance and the results of this testing based on the Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Columbus City School District Franklin County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance Page 3

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Columbus City School District (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements. which collectively comprise the School District's basic financial statements. We issued our unmodified report thereon dated December 21, 2021, wherein we noted the financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the School District. We conducted our audit to opine on the School District's basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to December 21, 2021. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2021-001

Supervisor Approval of Timecards – Significant Deficiency

The School District has implemented the Kronos System for payroll timekeeping and approvals. The School District relies on electronic review and approval of these timesheets by Supervisors to ensure employees are being properly paid and certify payment for certain hourly employees paid from Federal Grant Funds.

At the end of each pay period, the supervisor provides approval for timesheets of each individual for which the supervisor is responsible by either providing an electronic signature for Kronos timesheets or signing physical timesheets. Once the pay period has been approved by the supervisor, only he/she can make any corrections that may be needed. After the supervisor's approval, electronic timesheets are sent to the System Administrator who imports Kronos payroll into MUNIS for processing.

In review of electronic signatures, we examined output spreadsheets produced by the Kronos System for all 26 pay-periods in fiscal year 2021. Per these spreadsheets, we identified unapproved timesheets for 6,204 out of 81,146 (7.64%) total payroll transactions in fiscal year 2021. The unapproved timesheets were primarily the result of a lack of coverage of supervisory approvals during periods in which the approving supervisor was on leave. Prior to 2021 fiscal year end, School District has corrected this oversight by implementing an automatic email notification system to inform responsible parties of overdue approvals.

Failure of the immediate supervisor to approve employees' timesheets may result in timesheet errors not detected or corrected, resulting in payment for inappropriate hours and/or improper use of Federal Grant funds.

We recommend the immediate supervisors approve each individual timesheet before timesheets are processed.

See Finding 2021-002 in Section 3 below.

Officials' Response: See Corrective Action Plan.

SCHEDULE OF FINDINGS 2 CFR § 200.515 JUNE 30, 2021 (Continued)

3. FINDINGS FOR FEDERAL AWARDS

Supervisor Approval of Timecards – Significant Deficiency

| Finding Number: Assistance Listing Number and Title: | 2021-002 Child Nutrition Cluster – School Breakfast Program #10.553; National School Lunch Program #10.555; |
|---|---|
| | Special Education Cluster (IDEA) – Special Education Grants to States #84.027; Special Education Preschool Grants #84.173 |
| Federal Award Identification Number / Year: | 2021 |
| Federal Agency: | U.S. Department of Education and U.S. Department of Agriculture |
| Compliance Requirement: | A. Activities Allowed or Unallowed |
| | B. Allowable Costs / Cost Principles |
| Pass-Through Entity: | Ohio Department of Education |
| Repeat Finding from Prior Audit? | No |

At the end of each pay period, the supervisor provides approval for timesheets of each individual for which the supervisor is responsible by either providing an electronic signature for Kronos timesheets or signing physical timesheets. Once the pay period has been approved by the supervisor, only he/she can make any corrections that may be needed. After the supervisor's approval, electronic timesheets are sent to the System Administrator who imports Kronos payroll into MUNIS for processing.

In review of electronic signatures, we examined output spreadsheets produced by the Kronos System for all 26 pay-periods in fiscal year 2021. Per these spreadsheets we identified unapproved timesheets for payroll transactions in fiscal year 2021. Error rate specific to the applicable Federal Programs are as follows:

- Child Nutrition Cluster error rate of 4.21%
- Special Education Cluster error rate of 1.13%

See GAGAS Finding 2021-001 in Section 2 above. Uniform Guidance also requires us to report this finding in this section of this schedule.

Officials' Response: See Corrective Action Plan.

Columbus City Schools Auditor of State Schedule of Findings and Questioned Cost 2 CFR 200.511(c) Fiscal Year 2021

| Finding Number/ Recommendation(s) | Process Owner | Planned Corrective Action/ Implementation Date |
|--|------------------|---|
| 2021-RPT-001 – Supervisor Approval of Timecards (Kronos) Recommendation: 1. We recommend the immediate supervisors approve each individual timesheet before timesheets are processed. | Bahorek | During the audit period, the percent of unapproved timesheets per pay period ranged from 0.2% to 48.3% and the accumulative unapproved equaled 8.2%. During the audit period, there were three outlier events – one occurred immediately following the two-week holiday break and the other two occurred during an extended unanticipated absence of the primary employee responsible for UKG (Kronos) as well as a software conversion. For the 19 pay periods following the audit period, unapproved timesheets per pay period ranged from 0.4% to 11.1% with an accumulative total percentage of 2.4%. In the spring of 2021, management implemented automatic email notifications to inform responsible parties that their approval was overdue. Subsequently, the percent of unapproved timesheets dropped below 1%. Additionally, management is in the process of adding staff to assume and consolidate the timekeeping functions currently spread across district departments and buildings to ensure accuracy and timeliness of timekeeping data. Implementation Date: Email notifications: April 2021, Change in timekeeping functions: October 2022. |

Columbus City Schools

270 East State Street Columbus, Ohio 43215 Ph. 614-365-5000 Fax 614-365-5628 www.ccsoh.us

Mission: Each student is highly educated, prepared for leadership and service, and empowered for success as a citizen in a global community.

December 21, 2021

To the Citizens and Board of Education of the Columbus City School District

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the Columbus City School District (the "School District") for the fiscal year ended June 30, 2021. This ACFR, which includes financial statements and other financial and statistical data, conforms to generally accepted accounting principles as applicable to governmental entities. The intent of this report is to provide the taxpayers of the Columbus City School District with comprehensive financial data in a format that enables them to gain a true understanding of the School District's financial affairs as well as provide management with better financial information for future decision-making.

State law requires that every general-purpose local government file with the Auditor of State and publish the availability of its financial statements within five months of the close of each fiscal year. This report is published to fulfill that requirement for the fiscal year ended June 30, 2021. This report will also be available on the School District's website at www.ccsoh.us.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free from any material misstatements.

The Auditor of State of Ohio has issued an unmodified ("clean") opinion on the Columbus City School District's financial statements for the fiscal year ended June 30, 2021. The Independent Auditor's Report is located at the front of the Financial Section of this report.

Management's Discussion and Analysis immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. Management's Discussion and Analysis complements this letter of transmittal and should be read in conjunction with it.

The Columbus City School District does not discriminate because of race, color, national origin, religion, sex or handicap with regard to admission, access, treatment or employment. This policy is applicable in all district programs and activities.

This report includes all funds of the School District. The School District provides a full range of traditional and non-traditional educational programs, services and facilities. These include elementary and secondary curriculum offerings at general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; and special education programs and facilities.

FORM OF GOVERNMENT AND REPORTING ENTITY

The Board of Education of the Columbus City School District (the "Board") is a body politic and corporate charged with the responsibility of managing and controlling affairs of the School District and is, together with the School District, governed by the general laws of the State of Ohio. The Board is comprised of seven members who are elected for overlapping four-year terms. The Board members during the fiscal year ended June 30, 2021, were:

| | Date Current Term Commenced | Present Term Expires |
|------------------------------|--------------------------------|-------------------------|
| Jennifer Adair, President | 01/01/20 | 12/31/23 |
| Ramona Reyes, Vice-President | 01/01/18 | 12/31/21 |
| Carol Beckerle | 01/01/20 | 12/31/23 |
| Eric S. Brown | 01/01/20 | 12/31/23 |
| Michael Cole | 01/01/18 | 12/31/21 |
| Dr. Tina D. Pierce | 01/01/20 | 12/31/23 |
| James Ragland | 01/01/20 | 12/31/21 |

The Superintendent of Schools (the "Superintendent"), appointed by the Board for a maximum term of five years, is the executive officer of the School District and has the responsibility for directing and assigning teachers and other employees, assigning the pupils to the proper schools and grades, and performing other such duties as determined by the Board. Dr. Talisa Dixon was appointed as the District's 21st superintendent since 1847, effective March 4, 2019, and her contract runs through July 31, 2022.

The Treasurer is the chief financial officer of the School District and is directly responsible to the Board for all financial operations, investments, and custody of all School District funds and assets, and serves as secretary to the Board. Stanley J. Bahorek was appointed Treasurer, effective August 1, 2014, and his current contract runs through July 31, 2023.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. This includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organization's budget, the issuance of its debt, or the levying of its taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the School District. The School District has no component units.

The School Board adopts an annual budget by July 1, for all funds, which may be amended any time during the fiscal year as new information becomes available. This annual budget serves as the foundation of the Columbus City School District's financial planning and control. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution. The legal level of control has been established by the Board of Education at the operational unit level for the General Fund and at fund level for all other funds. The Treasurer has been authorized to allocate Board appropriations to the function and object level within each fund.

ECONOMIC CONDITION AND OUTLOOK

Employment in the greater Columbus area continues to be service oriented. Three of the top ten largest employers in the Columbus area are government or government-oriented (The Ohio State University, the State of Ohio, and the City of Columbus (the "City")). The ten largest employers in the greater Columbus area are shown under the heading "Demographic and Economic Information – Principal Employers" herein. These major employers, representing government, insurance, manufacturing, banking, medical and services, provide a broad and diverse employment base.

A significant factor in the area's history of consistent growth is the balance between its manufacturing and other major employment sectors. The sectors and their percentage of the Columbus metropolitan statistical area's employment base are as follows:

| Construction and Mining | 3% |
|------------------------------------|-----|
| Manufacturing | 8% |
| Transportation and Utilities | 5% |
| Wholesale and Retail Trade | 15% |
| Financial Activities | 7% |
| Professional and Business Services | 18% |
| Educational and Health Services | 15% |
| Leisure and Hospitality Services | 10% |
| Other Services | 3% |
| Government | 16% |

Source: City of Columbus, Economic Development by Sector Website

The Franklin County average annual unemployment rate (6.1 percent) at June 30, 2021, is above the State of Ohio (5.1 percent) rate and the United States (5.9 percent) rate. The City has grown to an area covering 228.4 square miles through an aggressive annexation policy. Easy access to markets makes the City a good location for business. Columbus, Ohio's capital city, is located in the central part of the State, approximately 150 miles southwest of Cleveland and 110 miles northeast of Cincinnati.

The City entered the 21st century ascending the ranks of America's largest municipalities, with a growing population, economic growth, and a history of strict fiscal management. These factors allowed the City to weather the national financial downturn, albeit with little spending growth, while continuing to provide a high level of quality public services. Administrations, councils, and the actively engaged civic organizations from across the City have been partners in building Columbus for the 21st century, and these responsible policies will continue to ensure the City's economic success for future generations.

Over the past ten years the School District has seen enrollment go from 48,675 in 2012, to 45,489 in 2021. Over the last four years, student enrollment averaged 48,498 per year. The School District anticipates its student enrollment will return to previous levels moving forward.

THE SCHOOL DISTRICT AND ITS FACILITIES

The School District covers approximately 140 square miles. According to information obtained from the City of Columbus' 2020 annual financial report, the City of Columbus has a population of 914,449 as of December 31, 2020.

During fiscal year 2021, the School District's average daily membership was 45,489. Of the total membership, 20,101 students reported to 67 regular elementary schools, 6,623 students reported to 17 middle schools, 10,277 students reported to 19 high schools and career centers, 2,030 students reported to 5 STEM schools, and 6,458 students reported to 4 special assignment schools. The School District's special schools provide special curricula, vocational education and skills programs, and programs for handicapped pupils, including physically handicapped and hearing impaired children. More detailed information related to the School District's buildings can be found on page S38.

EMPLOYEE RELATIONS

The School District currently has 8,408 full-time equivalent employees. During fiscal year 2021, the School District paid (determined on a cash basis) from its General Fund approximately \$428.1 million in salaries and wages and \$177.3 million for fringe benefits and other labor-related costs such as employer retirement contributions, workers' compensation coverage, unemployment compensation, and life, medical, and dental insurance premiums.

Of the current full-time employees, 4,498 are professionals serving as teachers, all of whom have at least a bachelor's degree. The 2020-2021 starting salary for a teacher with a bachelor's degree is \$44,271; the maximum teacher salary (for a teacher with a Ph.D. degree and 31 years' experience) is \$104,542.

The School District's administrators and supervisors (such as principals) are represented by the Columbus Administrators Association (CAA).

Classified supervisors and employees not eligible for membership in a bargaining unit are represented by the Columbus Schools Classified Supervisors Association (CSCSA).

The School District's teachers and educational specialists are represented for collective bargaining purposes by the Columbus Education Association (CEA).

The Columbus School Employees Association (CSEA), a division of the Ohio Association of Public School Employees (OAPSE), represents classified employees (secretarial-clerical, custodial, maintenance, transportation and food services staff) of the School District for collective bargaining purposes.

In the judgment of the Board, labor relations with its employees are good.

MAJOR INITIATIVES

In 2021-2022, Columbus City Schools is launching its new five-year Strategic Plan along with its Portrait of a Graduate vision for all students and Board of Education-adopted goals that outline specific student outcomes. These initiatives, which have been years in the making, will be integral in shaping the future of CCS.

Students Leading the Way

At the heart of the School District's vision and priorities will be the concept of "students leading the way." Every decision we make and initiative we put forth will keep students at the center of our work. They will be engaged in the process and help shape the opportunities we offer them. Students must have a voice in our School District and be active participants in determining the outcomes we strive to achieve. Our students will lead Columbus City Schools into the future.

Portrait of a Graduate

The Portrait of a Graduate is the School District's "north star" that ensures we prepare students for success, now and in the future. The Portrait is a collective vision that articulates our community's aspirations for **every student** in Columbus City Schools.

Beginning in December 2019, Columbus City Schools partnered with Battelle for Kids to engage stakeholders to develop a Portrait of a Graduate that is unique to our community and our schools. The Portrait Design Team was composed of more than 150 internal and external stakeholders, who represented the various groups of our community including families, students, teachers, administrators, staff, partners, policymakers, and business leaders. This Design Team enabled our School District to engage diverse perspectives to build a shared vision for our students.

What resulted was a final Portrait of a Graduate that includes six attributes that we envision for every CCS student to embody:

- Adaptability
- Communication
- Creativity
- Critical Thinking
- Global Empathy
- Technology

Strategic Priorities

Following the creation of the Portrait of a Graduate, Columbus City Schools continued its community engagement process to identify four strategic priorities that will guide the organization over the next five years. These priorities are aligned with the goals adopted by the Board of Education and support the School District's mission, vision, and Portrait of a Graduate.

As part of the Strategic Plan work, Columbus City Schools will also identify strategic objectives within its business and operations teams to provide a foundation of support that enables the organization to produce its targeted student outcomes.

Columbus City Schools' new Strategic Priorities are:

- **Priority 1 Whole-Child Focused:** Columbus City Schools will design and implement curriculum with a holistic approach, so that students find their education more relevant, rewarding, and rigorous.
- **Priority 2 Equitable Opportunities for All:** Columbus City Schools will ensure equitable outcomes for all students and employees, in order to create communities that promote excellence, personal and professional growth, and a culture of belonging.
- **Priority 3 Strong Learning Communities in Every Region:** Columbus City Schools will strengthen a high quality, interdependent set of learning communities so that within and among these centers of growth are reliable sources of support, identity, and hope.
- **Priority 4 Authentic Engagement:** Columbus City Schools will actively engage all stakeholders to ensure that every experience with the School District engenders mutual trust, develops quality relationships, and strengthens collective support for the benefit of our students.

Board Goals and Guardrails

The Board of Education worked closely with the Council of the Great City Schools (CGCS) to help develop specific goals, guardrails, and metrics. Beginning last fiscal year, Board Members met and talked with stakeholders, community partners, families, students, teachers, administrators, and staff. They held several special public meetings with a CGCS consultant to discuss and review what they learned and what they wanted to see in the goals and guardrails.

The three Board Goals are:

- Strengthen Reading Proficiency The percentage of third-grade students proficient in Reading on the Ohio State Test (OST) will increase from 43% in School Year 2018-2019 to 55% by June of 2026.
- **Develop Portrait-Ready Graduates** The percentage of the Class of 2028 who earn the Portrait of a Graduate Seal will increase from 0% in June 2022 to 25% by June 2028.
- Close Opportunity Gaps The percentage of four-year graduation cohort students who complete state and district graduation requirements will increase from 81.2% in August 2020 to 86% in August 2026.

The four Board Guardrails are:

- **Fund Intervention Supports** The superintendent will not allow the Multi-Tiered Systems of Supports (MTSS) for students' needs to be underfunded.
- **Prioritize a Whole Child Focus** The superintendent will not allow the School District to ignore a whole child approach.
- Align Resources Equitably The superintendent will not allow any region to be without strong learning communities.

• **Ensure a Culturally-Responsive Staff** - The superintendent will not allow the staff to be culturally non-responsive.

SCHOOL DISTRICT DEMOGRAPHICS

FISCAL ACCOUNTABILITY

Five Year Vision

The Columbus City School's Board of Education will create a world class model of public education that prepares members of our communities to reach their full potential. Each student is highly educated, prepared for leadership and service, and empowered for success as a citizen in a global community. Each student reaches the student's full potential; to continue education, serve in the military, go to college, start a business, and enter the workforce as a lifelong learner. The School District creates safe, student centered, innovative learning environments and recruits, develops, and retains world class talent. The School District is accountable to our communities and customers; confidence in the School District is maintained through strategic, responsible and transparent leadership. The School District's ability to effectively and efficiently manage resources in support of the schools is underscored by a strong track record of fiscal responsibility.

The School District is committed to improved student achievement, with 75 percent of all School District General Fund dollars going to support students in the classroom. Direct student support includes textbooks and other educational materials, along with salaries and benefits for school-based staff.

The School District continues its practice of "value-based budgeting," a budgeting system similar to the popular "zero-based budgeting" concept with an emphasis on goal alignment. The School District requires budget managers to thoroughly review and evaluate their current budget and expenditures and develop a detailed five-year plan that aligns their activities and planned expenditures with the School District's mission and goals. Existing as well as new proposed programs were evaluated as to their effectiveness in achieving stated goals and estimated costs were assigned to the activities within each program. This "bottom up", program-driven five-year

budget plan served as the basis for both the annual appropriations and the Five Year Forecast. The latest Five Year Forecast, for fiscal years 2022 through 2026 and adopted by the Board of Education in November 2021, shows revenues exceeding expenditures through fiscal year 2024. While conservative forecast assumptions may lead to better than expected financial outcomes, the Board and School District management are well aware of the need to address the projected declining cash balance situation while at the same time maintaining a high level of educational programming. The "value-based" budgeting process ensures that educational program needs drive resource allocation and enhances understanding of the connection between behavior and cost. This budget provides a five-year detailed plan for achieving School District goals and the impact on the educational programming that any future shortfall in resources may have.

FINANCIAL TRENDS

For fiscal year 2021, the School District's GAAP basis expenses did not exceed its general revenues and program revenues. The School District intends to continue monitoring its revenue and expenditure streams in order to provide consistency as enrollment fluctuates.

FINANCIAL OUTLOOK AND FINANCIAL PLANNING

FINANCIAL OUTLOOK

Economic Environment Affecting Forecast Variables – State Economy

General economic conditions drive State and local tax revenues, which in turn impact school district finances. Local tax revenues are derived from property taxes, which tend to be a more stable source of income. Boards of education can levy additional taxes on real property upon a favorable vote of the residents of the district; anecdotally, voters tend to be more likely to support imposing additional taxes upon themselves when the economy is good, and less so when economic conditions are poor. State revenue – which is typically distributed via a funding formula – is an amalgamation of various tax sources, though the primary drivers in Ohio are the sales and income taxes. These two sources are often directly correlated with economic conditions (though specific policy decisions may also impact collections).

The advent of the COVID-19 crisis in March 2020 resulted in a decline in State revenues and a decline in economic activity during the waning days of fiscal year 2020. The State reduced Foundation payments by \$300 million for the last three payments for fiscal year 2020; while those reductions were carried over into fiscal year 2021, the cuts were partially restored in February 2021 and should be fully restored in fiscal year 2022 with the advent of a new school funding formula. Fortunately, districts also have been allocated funding through various federal stimulus packages, which has helped to alleviate some of the reductions and additional costs associated with mitigating the pandemic in schools and districts as well as position districts to begin to invest in those strategies designed to spur learning recovery from the challenges brought on by the pandemic.

According to the Ohio Office of Budget and Management (OBM):

According to the Bureau of Economic Analysis (BEA)'s 'advance' estimate, Real Gross Domestic Product (GDP) expanded in the third quarter of calendar year 2021 at an annualized rate of 2.0 percent. The third quarter deceleration in growth was due in large part to a decrease in consumer spending. As the delta variant of COVID-19 surged nationally, some re-openings of businesses were delayed, and new restrictions were put in place in some areas of the country. Additionally, as federal pandemic assistance came to an end during the third quarter, some pullback was expected (OBM, 2021).

As stated in the Notes to the previous Five-Year Forecast, due to the challenges of making comparisons using the BEA's data:

Moody's Analytics and CNN created the Back-to-Normal Index to track the economic recovery. The national index includes 37 indicators of economic activity, combining the 25 traditional economic indicators used in Moody's High Frequency GDP model, with 12 real-time indicators. Each state index is composed of a weighted average of the national index and seven state-level indicators. Both indices range from zero, representing no economic activity, to 100 percent, indicating full economic recovery to pre-pandemic levels. As of November 3, 2021, the national index was at 94.6 percent. Ohio's index was 2.9 percentage points ahead of that at 97.5. Ohio's average in October was 2.9 percentage (OBM, 2021).

OBM indicates that the Ohio unemployment rate remained at 5.4 percent in September 2021 for the third month in a row (OBM, 2021). OBM further notes that:

... national unemployment rate decreased 0.2 percentage points to 4.6 percent between September and October. The number of unemployed individuals decreased by 255,000 to 7.4 million. Despite both measures being substantially lower than their April 2020 highs, they remained above February 2020 levels by 1.1 percentage points and 1.7 million individuals, respectively (OBM, 2021).

According to the Ohio Legislative Service Commission (LSC), for fiscal year 2022 through October, "GRF tax revenue exceeded the estimate published by OBM by \$127 million... With the strong performance for the month, year to date (YTD) GRF tax revenue was \$261 million over estimate at the end of October" (LSC, 2021). Per LSC:

GRF tax sources have performed well in the first four months of FY 2022. The largest tax sources had positive variances, including the PIT (personal income tax), \$132.1 million; the sales and use tax, \$58.2 million; the commercial activity tax (CAT), \$41.3 million; and the cigarette tax, \$7.4 million. (These four taxes are estimated to provide about 94% of GRF tax revenue and nearly two-thirds of total GRF sources in FY 2022) (LSC, 2021).

As noted in the Notes to the previous Five-Year Forecast, the specter of inflation continues to cast a pall over otherwise positive news. According to the Bureau of Labor Statistics, the "Consumer Price Index for All Urban Consumers (CPI-U) increased 0.9 percent in October...Over the last 12 months, the all items index increased 6.2 percent before seasonal adjustment" (Bureau of Labor Statistics, 2021). The BLS goes on to note:

The monthly all items seasonally adjusted increase was broad-based, with increases in the indexes for energy, shelter, food, used cars and trucks, and new vehicles among the larger contributors. The energy index rose 4.8 percent over the month, as the gasoline index increased 6.1 percent and the other major energy component indexes also rose. The food index increased 0.9 percent as the index for food at home rose 1.0 percent (Bureau of Labor Statistics, 2021).

Ohio's strong performance on the Moody's / CNN Back-to-Normal Index coupled with strongerthan-expected tax receipts provide for continued optimism for economic recovery. However, inflationary increases not seen in years will continue to put pressure on the recovery and will impact School District expenditures, particularly in energy, fuel, and food costs. While there are positive signs for the economy, there remain pressures that may still unravel the recovery.

November 2021 Forecast

Our financial forecast is laden with risks and uncertainty not only due to economic uncertainties but also due to the potential volatility of the possible legislative changes that may occur in the spring of 2023 during deliberations of the next State biennium budget for fiscal years 2024-2025, which affects this forecast. The most significant event since the previous forecast was the inclusion of a new State aid funding formula in the State's FY22-23 biennial budget bill (HB110). This new formula contained two major provisions:

- Fund students where educated
- Remove the deduction for community schools and scholarships (CS&S) from the State aid payments

Funding students where educated means those Columbus City School District students attending community and other chartered non-public schools will not be included in CCS' formula thereby reducing gross State aid. Removing the CS&S deduction reduces CCS' expenditures. The overall impact on the forecasted ending cash balance is positive with State aid (revenue) declining less than expenditures. For the five-year period ending fiscal year 25 (the period of the May forecast), the projected ending cash balance increased a net \$235 million.

We have estimated revenues and expenditures based on the best data available to us at the time of this forecast. The items below give a short description of the current issues and how they may affect our forecast long term:

Revenue

Local revenues (e.g. property taxes, tuition, fees, investment earnings, rentals, and donations) are projected to increase at the rate of 1.3 percent annually to \$616.7 million in fiscal year 2026 from \$577.0 million in fiscal year 2021. Property taxes, 96 percent of local revenues, increase at a projected rate of 1.9 percent annually from fiscal year 2021 to fiscal year 2026. Other local revenues are projected to level off at \$26 million during the forecast period largely due to the phase-out of Win-Win payments from other districts.

State revenues (e.g. State Foundation Program, rollback and homestead exemption reimbursement, and personal property tax reimbursement) are projected to decrease at a rate of just under 12.0 percent annually during the forecast period; from \$409.2 million in fiscal year 2021 to \$216.8 million in fiscal year 2026. State aid, 83 percent of State revenues, drops in fiscal year 2022 to an estimated \$168.8 million from \$375 million the prior year due to the change in the State aid calculation formula. The estimate for State aid increases in fiscal year 2023 to \$180.5 million¹ and remains flat through the end of the forecast. Under the new formula, students are funded "where educated" as opposed to where they reside; therefore, community school students and those utilizing scholarships no longer appear in the revenue calculation and are no longer deducted from

¹ The estimates for fiscal year 2022 and fiscal year 2023 are based on the LSC estimates publicized during the State budget discussions. The new funding formula which provide a calculation based on current year data will not be available until December 2021.

State aid on the expenditure side. Both revenue and expenditures drop as a result but not by the same magnitude.

Another change is that Student Wellness and Success Funds (SWSF) are no longer distributed and recorded in a separate fund outside of the General Fund and this forecast. Recently passed State law (House Bill 110), combined the Student Wellness and Success Fund² with the Economically Disadvantaged Student Fund to create the new Disadvantaged Pupil Impact Aid (DPIA). DPIA is incorporated into the new school funding formula specifies a portion of this funding to be dedicated to Student Wellness and Success initiatives³. In fiscal year 2022, \$16.8 million of SWSF related expenditures were recoded to the General Fund correlated to this change in accounting treatment for SWSF.

The State property tax allocation is anticipated to grow at an annual rate of 1.4 percent over fiscal year 2021 levels and now, due to the change in the State aid formula, represents 17 percent of the funding received from the State. Although distributed through the State, this allocation is a part of overall property taxes and is calculated as such. Changes in the estimates for the property taxes (and how much is to be received through the State) impact this revenue line. The reimbursement for the loss of personal property taxes came to an end in fiscal year 2019.

Non-operating revenues ("Other Financing Sources" in the Five-Year Forecast and comprised of transfers-in, advances-in and other financing sources) are projected to decline to \$10.6 million in fiscal year 2026 from \$16.7 million in fiscal year 2021 due to the retirement of certain debt obligations that are reported within the forecast.

Expenditures

Total expenditures are projected to decline from \$1.0 billion in fiscal year 2021 to \$868 million in fiscal year 2026, solely due to the new State aid funding formula and the elimination of deductions for community schools and scholarships. Personnel related expenditures (Salaries/Wages and Benefits, lines 3.010 and 3.020 in the FYF) are forecasted to increase at a rate of 4.5% annually from \$605 million in fiscal year 2021 to \$753 million in fiscal year 2026. Non-personnel items (lines 3.020 – 3.050 in the FYF) decrease from \$294 million in fiscal year 2021 to \$93 million in fiscal year 2026, due to the previously mentioned elimination of deductions for community schools and scholarships⁴. Debt related expenditures (lines 4.020 - 4.060 in the FYF) are projected to remain substantially unchanged through fiscal year 2024 and then decline as certain debt is fully retired. Other operating expenditures (line 4.300 in the FYF) are relatively flat at \$10.0 to \$10.6 million annually. Non-Operating expenditures ("Other Financing Uses", line 5.040 in the FYF, which includes Transfers and Advances Out and Other Financing Uses) include \$750,000 each year for a transfer to the WCBE fund. The spike in fiscal year 2019 was related to the one-time transfer out of \$30.9 million to address the estimated costs for the Dominion-North-Brookhaven program realignments⁵ and shortfall in the WCBE fund⁶. \$80 million was transferred in fiscal year 2021 to the Permanent Improvement Fund to initially fund the start of a Student Transportation Fleet Replacement Plan beginning in fiscal year 2022.

² The allowable uses of SWSF have been rolled into the allowable uses under DPIA.

³ It is unclear how SWSF, Economically Disadvantage Student Fund, and DPIA will be reported on the State's School Foundation Payment Report (SFPR).

⁴ The non-personnel forecast (outside of the significant reduction due to the new state funding formula, is based on the district's 5-year budget process, not a "last year plus" methodology.

⁵ \$30 million.

⁶ \$870,000.

FINANCIAL PLANNING

The School District annually prepares a five-year financial forecast to ensure long-term financial success. The five-year financial forecast is prepared and approved by the Board in November and May of each fiscal year. The five-year financial forecast provides actual data on each major revenue and expenditure category for the past three fiscal years and forecasts these same categories for an additional five fiscal years.

The five-year financial forecast is a planning tool used to certify if funds are available for future expenditures and additionally to strategize when the School District will need to return to voters for additional funds or reduce expenditures accordingly. The five-year financial forecast is published on the Ohio Department of Education's website for public use.

INDEPENDENT AUDIT

The Basic Financial Statements of the School District are audited by the School District's independent auditor, Keith Faber, Auditor of State. The Independent Auditor's Report is included in the financial section of this report.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Columbus City School District for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2020. This was the twenty-first consecutive year that the School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We are submitting our current ACFR to GFOA to determine its eligibility for another certificate as we believe our current report conforms to the Certificate of Achievement Program's requirements.

CERTIFICATE OF EXCELLENCE

The Columbus City School District received the Association of School Business Officials International (ASBO) Certificate of Excellence in Financial Reporting for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2020. This was the twenty-first year that the School District has received this award. This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International. An expert ASBO Panel of Review consisting of certified public accountants and practicing school business officials grants the award only after an intensive review of financial reports. Receiving the award is recognition that a school system has met the highest standards of excellence in school financial reporting. A Certificate of Excellence is valid for a period of one year only. We are submitting our current ACFR to ASBO, as we believe that our current report conforms to the Certificate of Excellence Program requirements.

ACKNOWLEDGEMENTS

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Treasurer's Office. We want to express our appreciation to all who assisted and contributed to its preparation.

We also thank the members of the Board for their interest and support in planning and conducting the financial operations of the School District in a fiscally responsible and progressive manner.

INDEPENDENT AUDITOR'S REPORT

Columbus City School District Franklin County 270 East State Street Columbus, Ohio 43215

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Columbus City School District, Franklin County, Ohio (the School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Columbus City School District Franklin County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2021 and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 24 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Columbus City School District Franklin County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2021, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

December 21, 2021

THIS PAGE INTENTIONALLY LEFT BLANK

The discussion and analysis of the Columbus City School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, financial statements, and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

- In total, net position increased \$151,087,617 from the prior fiscal year.
- Current and other assets increased mainly due to an increase in cash from revenues increasing due to a large amount of Board of Revisions Cases being settled during the fiscal year.
- Property taxes revenues increased from the prior fiscal year due to the County's triennial update on the assessed values.
- Intergovernmental revenue increased during fiscal year 2021, due to an increase in COVID-19 grant monies received.
- Expenses increased during fiscal year 2021 when compared to the prior fiscal year mainly due to increased pension expense as well as the School District giving a three percent pay increase for certified and classified staff.

Using this Annual Comprehensive Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Columbus City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's major funds with all other nonmajor funds presented in total in one column.

Reporting the School District as a Whole

One of the most important questions asked about the School District is "How did we do financially during fiscal year 2021?" The Statement of Net Position and the Statement of Activities, which appear first in the School District's financial statements, report information on the School District

as a whole and its activities in a way that helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District has only one kind of activity:

Governmental Activities – All of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services, and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 11. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's major funds, which are the General Fund, the Debt Service Fund, and the Permanent Improvement Fund.

Governmental Funds – Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using the accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds – The School District maintains proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District's internal service funds account for health self-insurance and workers compensation. The proprietary funds use the accrual basis of accounting.

Fiduciary Funds – The School District's only fiduciary fund is a custodial fund. All of the School District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The Custodial fund had no activity during fiscal year 2021.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net position for fiscal year 2021 and fiscal year 2020:

| | Table 1 Net Position | | |

| Unrestricted (Deficit) | (327,344,317) | (493,703,711) | 166,359,394 |
| Total Net Position(Deficit) | \$35,650,231 | (\$115,437,386) | \$151,087,617 |

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2021. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Total assets experienced an increase from the prior fiscal year. This is due to the increase in current and other assets. Current and other assets increased \$20,444,029. Cash increased due to an increase in property taxes from the County's triennial update and miscellaneous revenues increasing from a large amount of Board of Revisions cases being settled throughout the fiscal year. A decrease occurred in Capital Assets, Net of \$12,589,411. This is due to the current year capital asset deletions and accumulated depreciation exceeding the current year additions.

Total Liabilities of the School District increased \$60,078,166 for fiscal year 2021. Net pension liability increased due to an increase in the net pension liability reported by Statewide Pension Systems. Other amounts due in more than one year decreased \$35,771,077 due to current year principal payments.

Deferred Inflows of Resources had a decrease of \$188,390,838 from the prior fiscal year due to fluctuations in the amount of property taxes available for advance.

Total Net Position increased \$151,087,617 from the prior fiscal year. Unrestricted Net Position increased by \$166,359,394 mainly due to changes in assumptions and benefits associated with the Statewide pension systems and from the triennial update and amount certified from the County available for advance. Net Invested in Capital Assets decreased \$10,166,411 due to the decrease in capital assets and long-term debt obligations. Restricted Net Position decreased by \$5,105,366 due to debt service payments being made.

Table 2 shows the changes in net position for fiscal years 2021 and 2020:

The Statement of Activities shows the cost of program services and the charges for services and sales, operating grants, and contributions, and capital grants, and contributions.

Program revenues, which are primarily represented by charges for tuition, fees, sales, and extracurricular activities, as well as operating grants and contributions, and capital grants and contributions, were \$214,173,777 for fiscal year 2021. The largest increase was \$13,554,369 in operating grants and contributions revenue, due to an increase in receiving COVID-19 grant monies during fiscal year 2021.

General revenues were \$1,156,017,445 for fiscal year 2021. Property tax revenue increased \$351,775,016 due to the County's triennial update on the assessed values of property during the fiscal year as well as the Franklin County Auditor certifying a larger amount of property tax revenues available for advance when compared to the prior fiscal year. Grants and entitlements not restricted to specific programs increased \$24,037,540 due to an increase in State foundation revenue.

Total expenses showed an increase of \$91,397,591 from the prior fiscal year. The increase in mainly the result of the School District giving a three percent salary increase to certified and classified employees, staffing increases, and additional expenses associated with the School Emergency Relief and Coronavirus Relief funds, both of which are new for fiscal year 2021.

The Statement of Activities shows the cost of program services and the charges for services and sales and grants and contributions, including interest, offsetting those services. That is, it identifies the cost of these services supported by tax revenue and unrestricted grants and entitlements. The dependence upon tax revenues and intergovernmental foundation monies is apparent. The community and the State of Ohio, as a whole, provide the vast majority of resources for Columbus City School District students.

The School District's Funds

Information about the School District's major funds starts on page 17. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$1,377,486,861 and expenditures of \$1,189,114,554.

The General Fund balance increased \$144,543,453. This was primarily due to an increase in property taxes, payments in lieu of taxes, intergovernmental revenue, and miscellaneous revenue. Property tax revenue increased due to the County's triennial update on the assessed values of property during the fiscal year as well as a larger amount of property tax revenues available for advance when compared to the prior fiscal year. Payments in lieu of taxes increased from the addition of two new tax increment financing districts. Intergovernmental revenues increased from an increase in State Foundation. Miscellaneous revenue increased due to a large amount of Board of Revision cases settled in the fiscal year.

The Debt Service Fund balance increased \$16,004,332, which is primarily due to the increase in property tax revenue associated with the County's triennial update on the assessed values of property during the fiscal year as well as a larger amount of property tax revenues available for advance when compared to the prior fiscal year.

The Permanent Improvement Fund increased \$32,962,750, which is mainly due to the transfer from the General Fund for the Student Transportation Fleet Replacement Plan.

General Fund - Budget Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2021, the School District revised its budget as it attempted to deal with unexpected changes in revenues and expenditures.

A review of the budgetary comparison statement for the General Fund reflects a \$91,458,593 change between the original budget and the final budgeted revenues resulting from conservative budgeting. The increase in actual revenue from the final budget of \$28,420,845 is mainly due to an increase in intergovernmental revenue due to an increase in State funding.

The total decrease in expenditures from the original to the final budget was \$11,422,570. The difference in actual expenditures compared to the final budget was \$43,496,619, resulting from conservative spending.

The School District's ending unobligated cash balance was \$76,453,233 above the final budgeted amount. This increase was the result of conservative spending and repayment of advances received by the General Fund.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the School District had \$581,657,853 invested in capital assets (net of accumulated depreciation). Additions to capital assets consisted of the purchase of various furniture and equipment, and vehicles. Disposals for the fiscal year were land, buildings and improvements, furniture and equipment, and vehicles. For further information regarding the School District's capital assets, refer to Note 10 in the Notes to the Basic Financial Statements.

Debt

At June 30, 2021, the School District had \$480,764,781 in outstanding long-term general obligation debt, which includes serial, term, and capital appreciation bonds as well as the accretion on the capital appreciation bonds. The School District's long-term liabilities also include bond premiums. Current year activity included accretion of capital appreciation bonds of \$2,756,728, principal payments of \$29,005,000, and amortization of bond premiums of \$4,510,234. The School District also has a capital lease outstanding in the amount of \$55,605.

At June 30, 2021, the School District's overall legal debt margin was \$758,511,637 with an unvoted debt margin of \$12,386,530 and an Energy Conservation debt margin of \$111,478,769.

For further information regarding the School District's debt obligations, refer to Note 16 in the Notes to the Basic Financial Statements.

Contacting the School District's Financial Management

This financial report is designed to provide our citizen's, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Stanley J. Bahorek, Treasurer, at Columbus City School District, 270 East State Street, Columbus, Ohio 43215, or e-mail at sbahorek@columbus.k12.oh.us.

Columbus City School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2021

| Net Change in Fund Balances - Total Governmental Funds | | \$193,131,001 |
|---|--|----------------|
| Amounts reported for governmental activities in the Statement of Activities are different because: | | |
| Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are: | | |
| Capital Assets Additions Depreciation Expense | 6,706,400 | |
| Excess of depreciation expense over capital outlay | (18,898,800) | (12,192,400) |
| The proceeds from the sale of capital assets are reported as revenue in the governmental funds. However, the cost of capital assets is removed from the capital assets account in the Statement of Net Position and offset against the proceeds from the sale of capital assets resulting in a gain or loss on the sale of capital assets in the Statement of Activities. Proceeds from Sale of Capital Assets Gain on Sale of Capital Assets | (4,423,936) 4,026,925 | |
| Total | | (397,011) |
| Because some revenues will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are therefore recorded as deferred inflows of resources in the governmental funds. Deferred inflows of resources changed by these amounts this fiscal year: Delinquent Property Taxes Intergovernmental Investment Earnings Contributions and Donations | (7,211,729) (5,758,400) (188,592) 1,836,157 | (11,322,564) |
| Contractually required contributions are reported as expenditures in governmental funds; however, the Statement of Net Position reports these amounts as deferred outflows. Pension | 70,408,881 | |
| OPEB | 727,196 | 71,136,077 |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension and OPEB liability (asset) are reported as pension expense in the Statement of Activities. Pension OPEB | (122,613,475) 2,813,130 | |
| Total | , , | (119,800,345) |
| The issuance of long-term debt provides current financial resources to governmental funds, but in the Statement of Net Position, the debt is reported as a liability. | | |
| Proceeds of general obligation refunding bonds Premium on general obligation refunding bonds | (36,645,000) (5,816,255) | |
| Total | (3,010,233) | (\$42,461,255) |
| | | (continued) |

Columbus City School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2021 (continued)

| Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current fiscal year, these amounts consist of: | |
|---|---------------|
| Payment to Refunded Bond Escrow Agent \$42,92 | 5,168 |
| General Obligation Bonds Principal Payments 29,00 | |
| | 5,244 |
| Total | 71,955,412 |
| Accretion and amortization of bond premiums, the deferred loss/gain on refunding debt, as well as accrued interest payable on the bonds are not reported in the funds, but are allocated as an expense over the life of the debt in the Statement of Activities | |
| | 9,374 |
| | 6,728) |
| | 0,234 |
| | 7,047) |
| Total | (494,167) |
| Some items reported in the Statement of Activities do not require the use of | |
| current financial resources and therefore are not reported as expenditures in | |
| governmental funds. These activities consist of: | |
| Decrease in Compensated Absences Payable 5,97 | 2,990 |
| Decrease in Compensated Time Payable 16 | 4,033 |
| Total | 6,137,023 |
| Internal service funds used by management to charge the costs of insurance and workers' compensat individuals funds are not reported in the entity-wide Statement of Activities. The net income of the service funds is reported with governmental activities. | |
| Change in Net Position (4,59 | 1,789) |
| Compensated Absences (1 | 1,658) |
| Compensated Time | (707) |
| Total | (4,604,154) |
| Change in Net Position of Governmental Activities | \$151,087,617 |

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Columbus City School District, Franklin County, Ohio (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The School District operates under a locally elected Board of Education (seven members) and is responsible for the provision of public education to residents of the School District. The School District also provides vocational (job training) education for residents of the School District.

The School District serves an area of approximately 140 square miles. It is staffed by 3,544 noncertificated employees, 4,498 certificated personnel and 366 administrative employees who provide services to 45,489 students and other community members. The School District currently operates 112 instructional buildings, three bus compounds, two maintenance service buildings, and ten administration buildings.

Reporting Entity:

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, student guidance, extracurricular activities, educational media, care and upkeep of grounds and buildings of the School District, and other appropriate areas.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the School District. The School District has no component units.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Columbus City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the School District as a whole. These statements include the financial activities of the School District, except for fiduciary funds. The activity of the Internal Service Fund is eliminated to avoid "doubling up" revenues and expenditures. The government-wide financial statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type; however, the School District has no business-type activities.

The Statement of Net Position presents the financial condition of the governmental activities of the School District at fiscal year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The Internal Service Fund is presented in a single column on the face of the proprietary fund statement. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into three categories; governmental, proprietary, and fiduciary.

Governmental Funds:

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

<u>General Fund</u> – This fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> – This fund is used to account for and report the accumulation of resources restricted for, and the payment of, general obligation bond principal and interest and certain other long-term obligations when the School District is obligated for the payment.

<u>Permanent Improvement Fund</u> – This fund is to account for and report all restricted and committed transactions relating to the acquiring, constructing, or improving facilities and the acquiring of buses within the School District.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose. The School District's permanent nonmajor fund is a fund used to account for donations/contributions where the principal balance is non-expendable and the interest can only be used for public school services.

Proprietary Funds:

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds. The School District has two internal service funds for the operation of its health self-insurance and its workers' compensation activities.

Fiduciary Funds:

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefits) trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District has one custodial fund which is used to account for the Ohio High School Athletic Association tournament (OHSAA) monies. The Ohio High School Athletic Association (OHSAA) Fund had no activity during fiscal year 2021.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and liabilities and deferred inflows of resources associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the Statement of Fund Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position. The Statement of Cash Flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means that the amount of the transaction can be determined,

and "available" means that the resources are collectible within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes and payments in lieu of taxes is recognized in the fiscal year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available for advance, grants, investment earnings, and miscellaneous.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, and pension and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include deferred charge on refunding, property taxes, payments in lieu of taxes, pension and OPEB plans, and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds Balance Sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental revenue, investment earnings, contributions and donations, and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities fund on page 18. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide Statement of Net Position. (See Notes 12 and 13)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Cash and Cash Equivalents

Cash received by the School District is deposited into one of several bank accounts with individual fund integrity being maintained through the School District's records for cash that is pooled. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements. The School District has monies related to the Ohio School Facilities Commission Project invested separately from the School District's internal investment pool. The School District also has monies related to the Permanent Improvement fund invested separately from the School District's internal investment pool. Both of these amounts are presented as "Investments" on the financial statements. The School District holds money in a sinking fund to be used for the payment of the 2011 School Improvement Bonds. The balance in this account is presented on the financial statements as "Restricted Assets: Cash and Cash Equivalents with Fiscal Agents" on the financial statements. The School District also has amounts in escrow accounts to hold retainage amounts still owed to contractors. These amounts are presented as "Restricted Assets: Cash and Cash Equivalents with Escrow Agent."

During fiscal year 2021, the School District's investments were limited to STAROhio, Discount Commercial Paper, Money Market Mutual Funds, Negotiable Certificates of Deposit, federal agency securities, Municipal Bonds, and US Treasury Note. Investments, except for STAROhio and Commercial paper, are reported at fair value which is based on quoted market prices. For investments in open-end mutual funds, the fair value is determined by the fund's current share price. The School District's commercial paper is measured at amortized cost as it is a highly liquid debt instrument with a remaining maturity at the time of purchase of less than one year.

During fiscal year 2021, the School District invested in STAROhio. STAROhio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAROhio at the net asset value (NAV) per share provided by STAROhio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, twenty-four hours advance notice is appreciated for deposits and withdrawals of \$100 million or more. STAROhio reserves the right to limit the transactions to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of investment earnings. Investment earnings credited to the General Fund during fiscal year 2021 amounted to \$582,329 which includes \$343,312 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions. Restricted assets in the Debt Service Fund represent monies held with a fiscal agent in a sinking fund for debt service payments related to the 2011 School Improvement Bonds. Restricted assets in the Classroom Facilities nonmajor Capital Projects Fund represent monies held in an escrow account that is still owed to contractors for work completed relating to the school construction project.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivable/Payable". Interfund balances are eliminated in the Statement of Net Position.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the fiscal year in which services are consumed.

Inventory

Materials and supplies inventory is reported at cost, while inventory held for resale is presented at the lower of cost or market value, and donated commodities are presented at their entitlement value. Inventories are presented on a first-in, first-out basis and are expended/expensed when used. Inventories consist of materials and supplies held for consumption and donated and purchased food held for resale.

Capital Assets

All capital assets of the School District are general capital assets that are associated with governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost, which is determined by indexing the current replacement cost back to the year of acquisition) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of \$5,000 for furniture, equipment, and vehicles. For construction in progress, land improvements, and building improvements, the School District maintains a capitalization threshold of \$50,000. The capitalization threshold for land and buildings is zero dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Estimated Lives |
|----------------------------|-----------------|
| Land Improvements | 10 - 40 years |
| Buildings and Improvements | 5 - 100 years |
| Furniture and Equipment | 3 - 30 years |
| Vehicles | 3 - 25 years |

Compensated Absences

Vacation, personal leave, and compensated time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditures to the extent that payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employees will be paid.

The entire compensated absences liability is reported on the government-wide financial statements.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. This includes the corpus of the permanent fund which is required to be maintained intact.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level of formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The fund balance also represents donations for the operations and services provided by the School District's FM radio station as well as the Board transfer for the bus purchase program.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education. The Treasurer has been given authority to assign amounts for these purposes by the School District Board of Education. The Treasurer assigned fund balance to cover a gap between estimated revenue and appropriations in the 2022 appropriated budget. The fund balance also represents purchases on order, public school purposes, and capital improvements.

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit fund balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The expendable and non-expendable portions of the Permanent Fund's net position is based upon external restrictions imposed by donors whereas the

expendable portion of net position must be used for School District purposes and the nonexpendable portion must be retained intact by the School District.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Internal Activity

Transfers between governmental activities are eliminated on the government-wide financial statements.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers and are eliminated from the Statement of Activities. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Budgetary Process

All funds, other than the custodial funds, are legally required to be budgeted and appropriated. Certain special revenue funds did not adopt budgets as no cash activity was anticipated and none occurred. Advances are unbudgeted by the School District. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the operational unit level for the General Fund and at fund level for all other funds. The Treasurer has been authorized to allocate Board appropriations to the function and object level within each fund.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts reflect the amounts in the amended certificate in effect at the time the final appropriations were passed.

The appropriations resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically

carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during the fiscal year, including all supplemental appropriations.

Bond Premiums and Compounded Interest on Capital Appreciation Bonds

For governmental activities, bond premiums are deferred and amortized over the term of the bonds using the straight-line method since the results are not significantly different from the effective interest method. Capital appreciation bonds are accreted each fiscal year for the compounded interest accrued during the fiscal year. Bond premiums and the compounded interest on the capital appreciation bonds are presented as an addition to the face amount of the bonds payable.

On the governmental fund financial statements, bond premiums are recognized in the period in which the bonds were issued. Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund. Ohio law does allow premiums on refunding debt to be used as part of the payment to the bond escrow agent. Accretion on the capital appreciation bonds is not reported. Interest on the capital appreciation bonds is recorded as an expenditure when the debt becomes due.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This deferred amount is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows/inflows of resources on the Statement of Net Position.

<u>Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for the self-insurance programs. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the fund. All revenues and expenses not meeting this definition are classified as non-operating.

<u>NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF NET</u> <u>POSITION AND FUND BALANCES</u>

Change in Accounting Principles

For fiscal year 2021, the School District implemented GASB Statement No. 84, *Fiduciary Activities* and related guidance from (GASB) Implementation Guide No. 2019-2, *Fiduciary Activities*.

For fiscal year 2021, the School District implemented the Governmental Accounting Standards Board's *Implementation Guide No. 2019-1*. These changes were incorporated in the School District's fiscal year 2021 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency funds and certain funds will be reported in the new fiduciary fund classification of custodial funds, while other funds have been reclassified as governmental funds. The School District's only GASB 84 custodial fund had no beginning balance. These fund reclassifications resulted in the restatement of the School District's financial statements.

Restatement of Fund Balances and Net Position

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2020:

| | | | Permanent | Nonmajor | Total |
|------------------------------|---------------|--------------|--------------|---------------|---------------|
| | General | Debt Service | Improvement | Governmental | Governmental |
| | Fund | Fund | Fund | Funds | Funds |
| Fund Balances, June 30, 2020 | \$283,511,451 | \$48,934,508 | \$90,451,975 | \$98,760,416 | \$521,658,350 |
| Adjustments: | | | | | |
| GASB Statement No. 84 | 4,436,704 | 0 | 0 | 1,915,138 | 6,351,842 |
| Restated Fund Balances, | | | | | |
| June 30, 2020 | \$287,948,155 | \$48,934,508 | \$90,451,975 | \$100,675,554 | \$528,010,192 |

The implementation of GASB Statement No. 84 had the following effect on net position as of June 30, 2020:

Covernmental

| tivities |
|------------|
| 1,789,228) |
| |
| 6,351,842 |
| 5,437,386) |
| (|

The implementation of GASB Statement No. 84 had the following effect on fiduciary net position as of June 30, 2020:

| | Private Purpose Trust |
|--------------------------------------|--------------------------|
| Net Position, June 30, 2020 | \$212,571 |
| Adjustments: | <i> </i> |
| GASB 84 | |
| Governmental funds | (212,571) |
| Restated Net Position, June 30, 2020 | \$0 |

At June 30, 2020, the School District's agency funds reported assets and liabilities of \$6,139,271. Due to the implementation of GASB Statement No. 84, the new classification of custodial funds had no beginning balance, resulting in no net position being presented.

NOTE 4 – ACCOUNTABILITY

At June 30, 2021, the following funds had deficit fund balances:

| Fund Name | Amount |
|---|-------------|
| Nonmajor Special Revenue Funds: | |
| Latchkey | \$1,679,352 |
| School Emergency Relief | 33,216 |
| Drug Free Grant | 5,316 |
| IDEA-B Early Childhood Education | 3,165 |
| Title III - Limited English Proficiency | 4,889 |
| Transition Program for Refugee Children | 7,658 |
| Improving Teacher Quality - Title II-A | 55,638 |
| Total | \$1,789,234 |

The deficits in all fund balances were due to accruals in GAAP as well as short-term interfund loans from the General Fund needed for operations until the receipt of grant monies. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTE 5 – BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budget Basis) is presented for the General Fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- Advances In and Advances Out are operating transactions (budget basis) as opposed to 3. Balance Sheet transactions (GAAP basis).
- 4. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).
- 5. Investments are recorded at fair value (GAAP basis) rather than cost (budget basis).
- 6. Unrecorded cash represents amounts expended but not included as expenditures on the budget basis operating statements. These amounts are included as expenditures on the GAAP basis operating statements.
- Budgetary revenues and expenditures of the Rotary, Public School Support, Other 7. Grants-General, and Flower-General Special Revenue Funds are classified to the General Fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund.

| Net Change in Fund Balance | | |
|---|----------------|--|
| GAAP Basis | \$144,543,453 | |
| Adjustments: | | |
| Revenue Accruals | (162,786,953) | |
| Expenditure Accruals | 6,566,080 | |
| Advances | 4,457,077 | |
| Encumbrances | (26,324,312) | |
| Increase in Fair Value of Investments - 2020 | 6,778,072 | |
| Increase in Fair Value of Investments - 2021 | (2,326,727) | |
| Unrecorded Cash - Fiscal Year 2020 | 601,961 | |
| Unrecorded Cash - Fiscal Year 2021 | (259,433) | |
| Excess of revenues under expenditures for Rotary Fund | 1,409 | |
| Excess of revenues over expenditures for Public School Support Fund | 22,121 | |
| Excess of revenues over expenditures for Other Grants-General Fund | 16,067 | |
| Excess of revenues under expenditures for Flower Fund | 2,809 | |
| Budget Basis | (\$28,708,376) | |

NOTE 6 – DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State Statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the School District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;

- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAROhio); and
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted, above, an investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Investments: As of June 30, 2021, the School District had the following investments. All investments, except those relating to the Ohio School Facilities Commission Project and the School District's local share of the project, are in an internal investment pool.

| Measurement/Investment | Measurement Amount | Maturity | S&P's/ Moody's Rating | Percent of Total Investments |
|-------------------------------------|-----------------------|----------------------|-----------------------------|------------------------------------|
| | | | | |
| Net Asset Value per Share: | \$210,522,002 | . . | | 57/4 |
| STAROhio | \$210,523,983 | Less than one year | AAAm | N/A |
| Amortized Cost: | | | | |
| Discount Commercial Paper | 68,855,019 | Less than one year | P1/A1 to A1+ | 9.98% |
| - | | 2 | | |
| Fair Value - Level One Inputs: | | | | |
| Money Market Mutual Funds | 23,257,639 | Less than one year | AAAm | N/A |
| Esin Value I and True Instate | | | | |
| Fair Value - Level Two Inputs: | 22 225 005 | T 1 (* | 27/4 | 27/1 |
| Negotiable Certificates of Deposit | 23,337,897 | Less than five years | N/A | N/A |
| Federal Farm Credit Bank Bonds | 128,651,800 | Less than four years | Aaa | 18.64% |
| Federal Farm Mortgage | | | | |
| Corporation Bank Bonds | 8,540,730 | Less than five years | Aaa | N/A |
| Federal Home Loan Bank Bonds | 32,095,094 | Less than five years | Aaa | N/A |
| Federal Home Loan Mortgage | - , , | | | |
| Corporation Bonds | 89,288,813 | Less than five years | Aaa | 12.94% |
| Federal National Mortgage | , , | 5 | | |
| Association Bonds | 59,106,479 | Less than five years | Aaa | 8.56% |
| United States Treasury Notes | 45,371,121 | Less than four years | N/A | 6.57% |
| Municipal Bonds | 1,178,678 | Less than five years | AAA/Aaa | N/A |
| Total Fair Value - Level Two Inputs | 387,570,612 | | | |
| Total | \$690,207,253 | | | |
| | . , - , | | | |

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the School District's recurring fair value measurements as of June 30, 2021. The money market mutual fund is measured at fair value using quoted market prices (Level 1 inputs). The School District's remaining investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs).

Interest Rate Risk: As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District attempts, to the extent possible, to match investments with anticipated cash flow requirements. Unless matched to a specific obligation or debt of the School District, the School District will not directly invest in securities maturing more than five years from the date of investment. The School District does not have a formal policy regarding interest rate risk.

Credit Risk: The Standard and Poor's or Moody's rating of the School District's investments is listed in the table above. STAROhio is permitted by Ohio Revised Code Section 135.45. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service and that the money market mutual funds be rated in the highest category at the time of purchase by at least one nationally recognized rating service. The fair value of the School District's position in the pool is the same as the value of the pool shares. The Discount Commercial Paper investments are rated P1/A1 to A1+ by Moody's and Standard and Poor's. The School District's investment policy limits investments to those authorized by State statute which restricts investments to those that are highly rated or issued by United States Government sponsored enterprises. The School District's negotiable CDs are covered by FDIC.

Concentration of Credit Risk: The School District's investment policy places no limit on the amount it may invest in any one issuer. The percentage that each investment represents of the total investments is listed in the table preceding.

Custodial Credit Risk: Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party.

At June 30, 2021, \$3,259,038 of the School District's bank balance of \$13,205,702 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized. Four of the School District's financial institutions participate in the Ohio Pooled Collateral System (OPCS) and three were approved for a reduced collateral floor of 60 percent, resulting in the uninsured and uncollateralized balance.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposite being secured or a rate set by the Treasurer of State.

The School District has investments in the amount of \$6,930,134 being held by Huntington Bank, which consists of Federated Government Mutual Fund, Federal Home Loan Bank Bonds, Federal Farm Credit Bank Bonds, Federal Home Loan Mortgage Corporation Bonds, and Federal National Mortgage Association Bonds. These investments are restricted in their use for debt payment of the 2011 School Improvement Bonds, and are included in the investment table on the previous page.

NOTE 7 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed value listed as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Public utility real and tangible personal property taxes received in calendar year 2021 became a lien December 31, 2019, were levied after April 1, 2020 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The Franklin County Treasurer collects property taxes on behalf of all governments in the County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes that are measurable as of June 30, 2021, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit of deferred inflows – property taxes.

The amount available as an advance at June 30, 2021, was \$218,431,858 and is recognized as revenue: \$195,824,160 in the General Fund, \$19,003,572 in the Debt Service Fund, \$1,965,887 in the Permanent Improvement Fund and \$1,638,239 in the Classroom Facilities Maintenance Special Revenue Fund. The amount available as an advance at June 30, 2020, was \$38,711,595 and is recognized as revenue: \$34,801,724 in the General Fund, \$3,259,516 in the Debt Service Fund, \$352,276 in the Permanent Improvement Fund and \$298,079 in the Classroom Facilities Maintenance Special Revenue Fund.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis, the revenue has been reported as deferred inflows of resources – unavailable revenue.

| | 2020 Second- Half Collections | | 2021 First Half Collecti | |
|--|----------------------------------|---------|-----------------------------|---------|
| | Amount | Percent | Amount | Percent |
| Real Estate | \$9,963,941,860 | 95.76% | \$11,907,646,610 | 96.13% |
| Public Utility Personal | 441,176,030 | 4.24% | 478,883,320 | 3.87% |
| Total Assessed Value | \$10,405,117,890 | 100.00% | \$12,386,529,930 | 100.00% |
| Tax rate per \$1,000 of assessed valuation | \$82.08 | | \$81.63 | |

The assessed values upon which fiscal year 2021 taxes were collected are:

Payments in Lieu of Taxes

The School District is party to Tax Increment Financing (TIF) agreements. Municipalities, townships, and counties can enter into TIF agreements which lock in real property at its unimproved value for up to 30 years in a defined TIF district. Some TIF agreements also require the TIF government to allocate service payments to school districts and other governments to help offset the property taxes these governments would have received had the improvements to real property not been exempted. The service payments that the School District receives as part of TIF agreements are presented on the financial statements as Payments in Lieu of Taxes.

NOTE 8 – TAX ABATEMENTS

School District property taxes were reduced as follows under multiple Community Reinvestment Area and Enterprise Zone Tax exemption agreements entered into by overlapping governments:

| | Amount of Fiscal Year |
|-------------------------------------|-----------------------|
| Overlapping Government | 2021 Taxes Abated |
| Community Reinvestment Areas: | |
| Franklin County / Hamilton Township | \$1,284,024 |
| City of Columbus | 3,923,558 |
| | |
| Enterprise Zone Tax Exemptions: | |
| City of Columbus | 3,524,043 |

Pursuant to Section 5709.82 of the Ohio Revised Code, the City of Columbus and the Columbus City School District, created various Community Reinvestment Area (CRA) Compensation Agreements. During the fiscal year 2021, the School District received \$889,843 under these compensation agreements.

NOTE 9 – RECEIVABLES

Receivables at June 30, 2021, consisted of property taxes, payments in lieu of taxes, accounts, intergovernmental grants, accrued interest, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. Property taxes, although ultimately collectible, include some portion of delinquents that will not be collected within one year. A summary of the principal items of intergovernmental receivables follows:

| | Amount |
|--|--------------|
| Governmental Activities: | |
| Title I | \$29,104,318 |
| Title I - School Improvement, Stimulus A Grant | 1,092,630 |
| Title II - A, Improving Teacher Quality | 3,590,490 |
| Title III, LEP Grant | 1,341,028 |
| Title I, School Improvement Stimulus G Grant | 1,370,646 |
| Carl D. Perkins Grant | 600,128 |
| Special Education, Part B - IDEA Grant | 2,635,007 |
| Early Childhood Special Education, IDEA Grant | 105,774 |
| Agriculture Education | 5,930 |
| Title IV - A, Student Support and Academic Enrichment | 3,821,978 |
| Striving Readers Comprehensive Literacy Grant | 27,433 |
| Charges/reimbursements from other | |
| governmental entities | 263,679 |
| EL/Civics Grant | 394,217 |
| Early Childhood Education Grant | 47,296 |
| Diversifying The Education Profession Grant | 10,000 |
| Parent Mentor Grant | 5,140 |
| Auxiliary Services | 3,527 |
| Century Grant | 270,309 |
| Equity For Each Grant | 44,335 |
| Comprehensive Literacy State Development Subgrant | 413,774 |
| Elementary and Secondary School Emergency Relief Grant | 2,874,697 |
| Higher Education Emergency Relief Fund Grant | 41,117 |
| SERS Reimbursement | 2,065,467 |
| Total Governmental Intergovernmental Receivables | 50,128,920 |
| | |
| Internal Service Activities: | |
| SERS Reimbursement | 1,223 |
| Tetel Internet and Descion 11 | ¢50 120 142 |
| Total Intergovernmental Receivables | \$50,130,143 |

NOTE 10 – CAPITAL ASSETS

Capital assets activity for the fiscal year ended June 30, 2021, was as follows:

| | Balance at 6/30/20 | Additions | Deductions | Balance at 6/30/21 |
|--|--------------------|----------------|-------------|--------------------|
| Governmental Activities: | | | | |
| Capital Assets Not Being Depreciated: | | | | |
| Land | \$30,284,134 | \$0 | (\$362,605) | \$29,921,529 |
| | | | | |
| Capital Assets Being Depreciated: | | | | |
| Land Improvements | 15,278,333 | 0 | 0 | 15,278,333 |
| Buildings and Improvements | 907,661,311 | 0 | (3,837,655) | 903,823,656 |
| Furniture and Equipment | 26,633,022 | 540,062 | (209,511) | 26,963,573 |
| Vehicles | 70,818,601 | 6,166,338 | (523,777) | 76,461,162 |
| Total Capital Assets Being Depreciated | 1,020,391,267 | 6,706,400 | (4,570,943) | 1,022,526,724 |
| Less Accumulated Depreciation: | | | | |
| Land Improvements | (13,305,662) | (99,961) | 0 | (13,405,623) |
| Building and Improvements | (375,590,503) | (13,526,063) | 3,837,655 | (385,278,911) |
| Furniture and Equipment | (21,611,535) | (837,980) | 201,295 | (22,248,220) |
| Vehicles | (45,920,437) | (4,434,796) | 497,587 | (49,857,646) |
| Total Accumulated Depreciation | (456,428,137) | (18,898,800) * | 4,536,537 | (470,790,400) |
| Total Capital Assets Being | | | | |
| Depreciated, Net | 563,963,130 | (12,192,400) | (34,406) | 551,736,324 |
| Governmental Activities | | | | |
| Capital Assets, Net | \$594,247,264 | (\$12,192,400) | (\$397,011) | \$581,657,853 |

*Depreciation expense was charged to governmental functions as follows:

| Instruction: | |
|---|--------------|
| Regular | \$11,509,607 |
| Special | 30,744 |
| Vocational | 1,546,798 |
| Adult/Continuing | 3,024 |
| Support Services: | |
| Pupils | 16,205 |
| Instructional Staff | 15,554 |
| Administration | 333,904 |
| Business | 41,480 |
| Operation and Maintenance of Plant | 205,942 |
| Pupil Transportation | 4,331,094 |
| Central | 327,027 |
| Operation of Non-Instructional Services | 216,303 |
| Extracurricular Activities | 321,118 |
| Total Depreciation Expense | \$18,898,800 |

NOTE 11 – RISK MANAGEMENT

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School District maintains comprehensive insurance coverage with private carriers for real property, building contents, vehicles, general liability, boiler and machinery, and builder's risk. Settled claims have not exceeded the coverage in any of the past three fiscal years. There has not been a significant reduction in coverage from the prior fiscal year.

Employee Health Care Benefits

The School District is self-insured for employee health care benefits, including prescription drug coverage, for all of its employees. The health care benefits program is currently administered by United Healthcare, which provides claims review and processing services. The prescription drug coverage is administered by Express Scripts.

The liability for unpaid claims of \$15,717,000 reported in the Health Self-Insurance Fund at June 30, 2021, is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," as amended by GASB Statement No. 30, "Risk Management Omnibus," which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. Estimates were calculated based upon an independent actuarial evaluation of claims payable. The estimate was not affected by incremental claims adjustment expenses and does not include other allocated or unallocated claims adjustment expenses.

Employees choosing the United Healthcare have an unlimited lifetime benefit. The School District does not purchase stop loss coverage and is, therefore, responsible for all claims within the plans' limits.

Changes in claims activity for employee health care benefits for the past two fiscal years are as follows:

| | Balance at Beginning of Fiscal Year | Current Fiscal Year Claims | Claims Payments | Balance at End of Fiscal Year |
|------|---|----------------------------------|--------------------|-------------------------------------|
| 2020 | \$15,433,000 | \$129,994,422 | \$133,121,422 | \$12,306,000 |
| 2021 | 12,306,000 | 153,464,468 | 150,053,468 | 15,717,000 |

Ohio Bureau of Workers' Compensation Retrospective Rating Program

The School District participated in the Ohio Bureau of Workers' Compensation (the "Bureau") Retrospective Rating Program. Under the program, the School District assumes a portion of the risk in return for a reduction in current premiums. Current limits for claims incurred in calendar year 2015 are \$200,000 per claim and 150 percent of the annual premium in the aggregate. Estimates of claim liabilities based on actuarial methods, for incurred claims as calculated by the Bureau for the cumulative retrospective rating period January 1, 2011, through December 31, 2015, total \$2,044,968 and are recorded in addition to an estimate for incurred but not reported (IBNR) claims totaling \$541,323 in the government-wide financial statements. The Workers' Compensation Fund pays the workers' compensation claims and then charges a percentage based upon historical information to each of the respective funds in the same year that the salaries are paid. The liability for the Workers' Compensation Retrospective Rating Program is included within long-term liabilities in the Statement of Net Position for \$2,586,291.

The amounts reported in the government-wide financial statements at June 30, 2021, are based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," as amended by GASB Statement No. 30, "Risk Management Omnibus," which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. Estimates were calculated based upon an independent actuarial evaluation of claims payable. This estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Settled claims have not exceeded the coverage in any of the past three fiscal years. There has not been a significant reduction in coverage from the prior fiscal year.

Changes in claims activity for the Workers' Compensation Retrospective Rating Program for the past two fiscal years are as follows:

| | Balance at | Claims and | | Balance at |
|------|----------------|---------------|-----------|---------------|
| | Beginning | Changes in | Claims | End of Fiscal |
| | of Fiscal Year | Estimates | Payments | Year |
| | | | | |
| 2020 | \$5,519,783 | (\$1,498,452) | \$796,819 | \$3,224,512 |
| 2021 | 3,224,512 | (99,408) | 538,813 | 2,586,291 |

NOTE 12 – DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions-between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement

system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

| | Eligible to Retire on or before August 1, 2017 * | Eligible to Retire on or after August 1, 2017 |
|------------------------------|---|--|
| Full Benefits | Any age with 30 years of service credit | Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit |
| Actuarially Reduced Benefits | Age 60 with 5 years of service credit Age 55 with 25 years of service credit | Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit |

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and

2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. In 2020, the Board of Trustees approved a 0.5 percent cost-of-living adjustment (COLA) for eligible retirees and beneficiaries in 2021.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2021, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$18,687,857 for fiscal year 2021, none of which is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2021 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2021, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$51,721,024 for fiscal year 2021. Of this amount, \$9,775,512 is reported as an intergovernmental payable.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to Pensions</u>

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The

School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

| | SERS | STRS | Total |
|---|---------------|---------------|---------------|
| Proportion of the Net Pension Liability | | | |
| Current Measurement Date | 4.06456700% | 2.81992639% | |
| Proportion of the Net Pension Liability | | | |
| Prior Measurement Date | 3.91224310% | 2.80282128% | |
| Change in Proportionate Share | 0.15232390% | 0.01710511% | |
| | | | |
| Proportionate Share of the Net | | | |
| Pension Liability | \$268,839,025 | \$682,321,848 | \$951,160,873 |
| Pension Expense | \$37,607,125 | \$85,006,350 | \$122,613,475 |

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| SERS | STRS | Total |
|--------------|--|---|
| | | |
| | | |
| \$522,204 | \$1,530,959 | \$2,053,163 |
| 0 | 36,627,505 | 36,627,505 |
| | | |
| 17,065,825 | 33,181,387 | 50,247,212 |
| | | |
| | | |
| 7,119,595 | 8,986,969 | 16,106,564 |
| | | |
| 18,687,857 | 51,721,024 | 70,408,881 |
| \$43,395,481 | \$132,047,844 | \$175,443,325 |
| | | |
| | | |
| \$0 | \$4,362,983 | \$4,362,983 |
| | | |
| | | |
| 0 | 15,548,092 | 15,548,092 |
| \$0 | \$19,911,075 | \$19,911,075 |
| | \$522,204 0 17,065,825 7,119,595 <u>18,687,857</u> <u>\$43,395,481</u> \$0 <u>0</u> | \$522,204 \$1,530,959 0 36,627,505 17,065,825 33,181,387 7,119,595 8,986,969 18,687,857 51,721,024 \$43,395,481 \$132,047,844 \$132,047,844 \$0 \$4,362,983 0 15,548,092 |

\$70,408,881 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| | SERS | STRS | Total |
|-----------------------------|--------------|--------------|--------------|
| Fiscal Year Ending June 30: | | | |
| 2022 | \$5,238,535 | \$21,735,275 | \$26,973,810 |
| 2023 | 7,012,620 | 5,253,244 | 12,265,864 |
| 2024 | 7,113,410 | 17,307,095 | 24,420,505 |
| 2025 | 5,343,059 | 16,120,131 | 21,463,190 |
| Total | \$24,707,624 | \$60,415,745 | \$85,123,369 |

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

| 3.00 percent |
|--------------------------------|
| 3.50 percent to 18.20 percent |
| 2.5 percent |
| 7.50 percent net of investment |
| expense, including inflation |
| Entry Age Normal |
| (Level Percent of Payroll) |
| |

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table

with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

| | Target | Long-Term Expected |
|------------------------|------------|---------------------|
| Asset Class | Allocation | Real Rate of Return |
| Cash | 2.00% | 1.85% |
| US Stocks | 22.50 | 5.75 |
| Non-US Stocks | 22.50 | 6.50 |
| Fixed Income | 19.00 | 2.85 |
| Private Equity | 12.00 | 7.60 |
| Real Assets | 17.00 | 6.60 |
| Multi-Asset Strategies | 5.00 | 6.65 |
| Total | 100.00% | |

Discount Rate

The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

<u>Sensitivity of the School District's Proportionate Share of the Net Pension Liability to</u> <u>Changes in the Discount Rate</u>

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

| | Current | | |
|---------------------------------------|---------------|---------------|---------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| | (6.50%) | (7.50%) | (8.50%) |
| School District's proportionate share | | | |
| of the net pension liability | \$368,276,637 | \$268,839,025 | \$185,408,977 |

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation, are presented below:

| Inflation | 2.50 percent |
|-----------------------------------|-------------------------------------|
| Projected salary increases | 12.50 percent at age 20 to |
| | 2.50 percent at age 65 |
| Investment Rate of Return | 7.45 percent, net of investment |
| | expenses, including inflation |
| Discount Rate of Return | 7.45 percent |
| Payroll Increases | 3.0 percent |
| Cost-of-Living Adjustments (COLA) | 0.0 percent, effective July 1, 2017 |

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement disabled mortality rates are based on the RP-2014. Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| | Target | Long-Term Expected |
|----------------------|------------|--------------------|
| Asset Class | Allocation | Rate of Return * |
| Domestic Equity | 28.00% | 7.35% |
| International Equity | 23.00 | 7.55 |
| Alternatives | 17.00 | 7.09 |
| Fixed Income | 21.00 | 3.00 |
| Real Estate | 10.00 | 6.00 |
| Liquidity Reserves | 1.00 | 2.25 |
| Total | 100.00% | |

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate

The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

<u>Sensitivity of the School District's Proportionate Share of the Net Pension Liability to</u> <u>Changes in the Discount Rate</u>

The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

| | Current | | |
|---------------------------------------|---------------|---------------|---------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| | (6.45%) | (7.45%) | (8.45%) |
| School District's proportionate share | | | |
| of the net pension liability | \$971,507,523 | \$682,321,848 | \$437,261,075 |

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2021, one member of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

<u>NOTE 13 – DEFINED BENEFIT OPEB PLANS</u>

See Note 12 for a description of the net OPEB liability.

Plan Description – School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this

amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the School District's surcharge obligation was \$727,196.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$727,196 for fiscal year 2021, which is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a costsharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

| | SERS | STRS | Total |
|--------------------------------------|--------------|----------------|----------------|
| Proportion of the Net OPEB Liability | | | |
| Current Measurement Date | 3.81686960% | 2.81992639% | |
| Proportion of the Net OPEB Liability | | | |
| Prior Measurement Date | 3.68944480% | 2.80282128% | |
| Change in Proportionate Share | 0.12742480% | 0.01710511% | |
| | | | |
| Proportionate Share of the | | | |
| Net OPEB (Asset) | \$0 | (\$49,560,150) | (\$49,560,150) |
| Net OPEB Liability | \$82,953,068 | \$0 | \$82,953,068 |
| OPEB Expense | \$183,709 | (\$2,996,839) | (\$2,813,130) |

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | SERS | STRS | Total |
|--|--------------|--------------|---------------|
| Deferred Outflows of Resources: | | | |
| Differences between expected and | | | |
| actual experience | \$1,089,499 | \$3,175,575 | \$4,265,074 |
| Changes of assumptions | 14,140,613 | 818,117 | 14,958,730 |
| Net difference between projected and | | | |
| actual earnings on OPEB plan investments | 934,690 | 1,736,877 | 2,671,567 |
| Changes in proportionate share and | | | |
| difference between School District contributions | | | |
| and proportionate share of contributions | 2,691,498 | 1,830,038 | 4,521,536 |
| School District contributions subsequent to the | | | |
| measurement date | 727,196 | 0 | 727,196 |
| Total Deferred Outflows of Resources | \$19,583,496 | \$7,560,607 | \$27,144,103 |
| Deferred Inflows of Resources: | | | |
| Differences between expected and | | | |
| actual experience | \$42,187,432 | \$9,871,660 | \$52,059,092 |
| Changes of assumptions | 2,089,392 | 47,073,821 | 49,163,213 |
| Changes in Proportionate share and | | | |
| Difference between School District contributions | | | |
| and proportionate share of contributions | 4,343,885 | 2,704,797 | 7,048,682 |
| Total Deferred Inflows of Resources | \$48,620,709 | \$59,650,278 | \$108,270,987 |

\$727,196 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | SERS | STRS | Total | |
|-----------------------------|----------------|----------------|----------------|--|
| Fiscal Year Ending June 30: | | | | |
| 2022 | (\$6,377,747) | (\$12,847,942) | (\$19,225,689) | |
| 2023 | (6,310,121) | (11,672,286) | (17,982,407) | |
| 2024 | (6,321,123) | (11,259,842) | (17,580,965) | |
| 2025 | (5,479,704) | (11,606,967) | (17,086,671) | |
| 2026 | (3,870,733) | (2,311,737) | (6,182,470) | |
| Thereafter | (1,404,981) | (2,390,897) | (3,795,878) | |
| Total | (\$29,764,409) | (\$52,089,671) | (\$81,854,080) | |

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented below:

Columbus City School District Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

| Inflation | 3.00 percent |
|--|--|
| Wage Increases | 3.50 percent to 18.20 percent |
| Investment Rate of Return | 7.50 percent net of investments expense, including inflation |
| Municipal Bond Index Rate: | |
| Measurement Date | 2.45 percent |
| Prior Measurement Date | 3.13 percent |
| Single Equivalent Interest Rate, net of plan investment expense, | |
| including price inflation | |
| Measurement Date | 2.63 percent |
| Prior Measurement Date | 3.22 percent |
| Medical Trend Assumption | |
| Medicare | 5.25 to 4.75 percent |
| Pre-Medicare | 7.00 to 4.75 percent |

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2020, was 2.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the State statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

<u>Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to</u> <u>Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates</u>

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

| | 1% Decrease (1.63%) | Current Discount Rate (2.63%) | 1 % Increase (3.63%) |
|---|------------------------|-------------------------------------|-------------------------|
| School District's proportionate shar | | (210070) | (210270) |
| of the net OPEB liability | \$101,532,494 | \$82,953,068 | \$68,182,456 |
| | | Current | |
| | 1% Decrease | Trend Rate | 1% Increase |
| | (6.00% decreasing | (7.00% decreasing | (8.00% decreasing |
| | to 3.75%) | to 4.75%) | to 5.75%) |
| School District's proportionate share of the net OPEB liability | \$65,319,230 | \$82,953,068 | \$106,534,023 |

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

| Projected Salary Increases | 12.50 percent at age 20 to 2.50 percent at age 65 |
|----------------------------|---|
| Investment Rate of Return | 7.45 percent, net of investment expenses, including inflation |
| Payroll Increases | 3.00 percent |
| Discount Rate of Return | 7.45 percent |
| Health Care Cost Trends | |
| Medical | |
| Pre-Medicare | 5.00 percent initial, 4 percent ultimate |
| Medicare | -6.69 percent initial, 4 percent ultimate |
| Prescription Drug | |
| Pre-Medicare | 6.50 percent initial, 4 percent ultimate |
| Medicare | 11.87 initial, 4 percent ultimate |

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011, through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021, premium based on June 30, 2020, enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021, from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021, to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2020.

<u>Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes</u> in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

| | Current | | | | |
|---------------------------------------|----------------|----------------|----------------|--|--|
| | 1% Decrease | Discount Rate | 1% Increase | | |
| | (6.45%) | (7.45%) | (8.45%) | | |
| School District's proportionate share | | | | | |
| of the net OPEB asset | (\$43,120,566) | (\$49,560,150) | (\$55,023,926) | | |
| | | | | | |
| | | Current | | | |
| | 1% Decrease | Trend Rate | 1% Increase | | |
| School District's proportionate share | | | | | |
| of the net OPEB asset | (\$54,684,774) | (\$49,560,150) | (\$43,317,622) | | |

<u>NOTE 14 – EMPLOYEE BENEFITS</u>

Compensated Absences

The criteria for determining vacation, sick, and compensated time leave benefits are derived from negotiated agreements and State laws. Eligible classified employees and administrators earn 10 to 25 days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, classified employees, and administrators earn sick leave at the rate of one and one-half days per month. Sick leave may be accumulated without limit for all employees. Upon retirement, payment is made for accumulated, unused sick leave up to a maximum number of days, depending upon length of service and the negotiated contract.

Accumulated, unused compensated time is paid up to a maximum number of hours, depending on negotiated agreements, to employees upon separation of employment from the School District.

Insurance

The School District is self-insured for employee healthcare benefits for all its employees. Employees are provided with life insurance through Hartford Insurance Company, dental insurance through Delta Dental Plan of Ohio, and vision insurance through Vision Service Plan (VSP).

Deferred Compensation

School District employees may participate in the Ohio Public Employees Deferred Compensation Plan, NEA Value Builders, MetLife, AXA Equitable, and ING plans. These plans were created in accordance with Internal Revenue Code Section 457. School District employees are also permitted to participate in the 403b plans offered by many Board approved vendors. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plans, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

NOTE 15 – LEASES – LESSEE DISCLOSURE

In prior fiscal year, the School District entered into a new capital lease for copiers in the print shop. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

The copiers acquired by lease were capitalized in the amounts of \$126,736 during fiscal year 2019, which is equal to the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded on the Statement of Net Position for governmental activities. Principal payments in fiscal year 2021 totaled \$25,244 and were paid from the General Fund.

The assets acquired through the capital lease as of June 30, 2021, are as follows:

| | Asset | Accumulated | Net Book |
|------------------------------------|-----------|--------------|----------|
| | Value | Depreciation | Value |
| Asset: | | | |
| Furniture, Fixtures, and Equipment | \$126,736 | (\$76,041) | \$50,695 |

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2021:

T 1

| | Total |
|---|----------|
| Fiscal Year Ending June 30, | Payments |
| 2022 | \$29,700 |
| 2023 | 29,700 |
| Total Outstanding Lease Liability | 59,400 |
| Less: Amount Representing Interest | (3,795) |
| Present Value of Net Minimum Lease Payments | \$55,605 |

During prior fiscal years, the School District entered into noncancelable operating leases for the use of copiers. The lease agreements provide for a purchase of the copiers at fair market value at the end of the lease term. Operating lease payments are reported as function expenditures in governmental funds and on budgetary statements. Total operating lease payments for fiscal year 2021 totaled \$411,816 in the General Fund.

The following is a schedule of the future minimum operating lease payments:

| Fiscal Year | Total |
|-----------------|----------|
| Ending June 30, | Payments |
| 2022 | \$94,574 |

NOTE 16 – LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during the fiscal year 2021 were as follows:

2006 School Facilities Construction and Improvement Refunding Bonds

On October 11, 2006, the School District issued \$282,864,897 of general obligation bonds. The bond issue included serial, term and capital appreciation bonds in the amounts of \$214,480,000, \$64,300,000 and \$4,084,897, respectively. The serial and term bonds were refunded with the 2016 School Facilities Construction and Improvement Refunding Bonds.

The capital appreciation bonds, issued at \$4,084,897, are not subject to prior redemption. The fiscal year 2021 accretion amount was \$2,750,664. The capital appreciation bonds will mature December 1, 2027, 2028, and 2029 as follows:

| | Maturity |
|------|--------------|
| Year | Amount |
| 2027 | \$21,670,000 |
| 2028 | 21,675,000 |
| 2029 | 15,470,000 |

2009 School Facilities Construction and Improvement Bonds Series B

On September 18, 2009, the School District issued \$41,999,987 in Series B general obligation bonds for the purpose of paying off a portion of the March 2009 bond anticipation notes at their maturity. The bond issue included serial and capital appreciation bonds, in the amounts of \$40,845,000 and \$1,154,987, respectively. The bonds were issued for a 20 year period with first maturity at December 1, 2011, and final maturity at December 1, 2029. The bonds were paid off in fiscal year 2021.

2011 School Improvement Bonds

On May 1, 2011, the School District issued \$9,865,000 in School Improvement Bonds, Series 2011 (Taxable Qualified School Construction Bonds), for the purpose of paying part of the cost of renovating, remodeling, and improving Stewart Elementary School and acquiring land together with equipment, furnishings, landscaping, and other site improvements. The bonds were issued for a 15 year period. The School District has elected to make annual payments into a sinking fund account with the first payment due on December 1, 2011, and the final payment due on December 1, 2025. On a budgetary basis, the payments to the sinking fund are reflected as debt service principal expenditures. However, on a GAAP basis, the sinking fund balance of \$6,930,134 is reflected on the School District's statements of financial position. The remaining sinking fund payments are as follows:

| | Sinking Fund |
|-------------|--------------|
| Fiscal Year | Payments |
| 2022 | \$657,665 |
| 2023 | 657,665 |
| 2024 | 657,665 |
| 2025 | 657,665 |
| 2026 | 657,690 |
| | \$3,288,350 |
| | |

2011 School Facilities Construction and Improvement Bonds

On November 30, 2011, the School District issued \$14,810,000 in general obligation bonds for the purpose of paying off a portion of the December 2010 bond anticipation notes issued for the purpose of paying part of the cost of renovating, remodeling, and acquiring land together with equipment, furnishings, landscaping, and other site improvements. The bond issue included serial and term bonds, in the amounts of \$5,635,000 and \$9,175,000, respectively. The bonds were issued for a 22 year period with first maturity at December 1, 2013, and final maturity at December 1, 2033. During fiscal year 2019, the term bonds were refunded with the 2019 School Facilities Construction and Improvement Refunding Bonds.

2012 School Facilities Construction and Improvement Refunding Bonds

On April 19, 2012, the School District issued \$11,255,000 of general obligation bonds. The bond issue included serial and term bonds in the amounts of \$9,045,000 and \$2,210,000, respectively. The bonds refunded \$11,360,000 of outstanding 2003 School Facilities Construction and Improvement Bonds. The bonds were issued for a 17 year period with final maturity on December 1, 2028. During fiscal year 2021, \$1,250,000 in serial bonds and \$1,990,000 in term bonds were refunded with the 2020 Various Purpose Refunding Bonds.

2013 General Obligation School Bus Acquisition Bonds

On June 25, 2013, the School District issued \$26,150,000 in general obligation bonds for the purpose of acquiring school buses and other equipment used in transporting pupils. The bonds were issued for a 10 year period with first maturity at December 1, 2014, and final maturity at December 1, 2023.

2014 Various Purpose Refunding Bonds Series A

On December 10, 2014, the School District issued \$50,340,000 in Series A various purpose refunding bonds in order to refund a portion of the 2007, 2008, and two of the 2009 school facilities construction and improvement bonds in order to take advantage of lower interest rates. These bonds will mature on December 1, 2032. During fiscal year 2021, \$19,185,000 in serial bonds were refunded with the 2020 Various Purpose Refunding Bonds.

2014 School Facilities Construction and Improvement Refunding Bonds Series B

On December 10, 2014, the School District issued \$98,600,000 in Series B school facilities construction and improvement refunding bonds in order to refund a portion of the 2006 school facilities construction and improvement bonds in order to take advantage of lower interest rates. These bonds will mature on December 1, 2024.

2014 School Facilities Construction and Improvement Refunding Bonds

On August 13, 2014, the School District issued \$14,970,000 in school facilities construction and improvement refunding bonds in order to refund a portion of the 2009 school facilities construction and improvement bonds in order to take advantage of lower interest rates. The bond issue included serial, term and capital appreciation bonds in the amounts of \$11,495,000, \$3,470,000 and \$5,000, respectively. These bonds will mature in December 2031. The capital appreciation bonds, issued at \$5,000, are not subject to prior redemption. The fiscal year 2021 accretion amount was \$6,064. The capital appreciation bonds will mature December 1, 2030, at \$285,000. During fiscal year 2021, \$11,385,000 in serial bonds and \$3,350,000 in term bonds were refunded with the 2020 Various Purpose Refunding Bonds.

2015 School Facilities Construction and Improvement Refunding Bonds

On May 21, 2015, the School District issued \$69,130,000 in school facilities construction and improvement refunding bonds in order to refund a portion of the 2006 school facilities construction and improvement bonds in order to take advantage of lower interest rates. These bonds will mature on December 1, 2026.

2016 Various Purpose Refunding Bonds Series B

On April 6, 2016, the School District issued \$46,460,000 in Series B various purpose refunding bonds in order to refund a portion of the 2007, a portion of the 2009A, a portion of the 2009B, and a portion of the 2011 school facilities construction and improvement bonds in order to take advantage of lower interest rates. These bonds will mature on December 1, 2033.

2016 School Facilities Construction and Improvement Refunding Bonds, Series A

On September 15, 2016, the School District issued \$55,130,000 in Series A school facilities construction and improvement refunding bonds in order to refund a portion of the 2006 school facilities construction and improvement refunding bonds in order to take advantage of lower interest rates. These bonds will mature on December 1, 2032.

2017 School Facilities Construction and Improvement Bonds

On February 16, 2017, the School District issued \$75,000,000 in general obligation bonds for the purpose of improving the safety and security of existing buildings, equipping classrooms with upgraded technology, acquiring school buses and other vehicles, and other improvements. The bond issue included serial and term bonds, in the amounts of \$39,925,000 and \$35,075,000, respectively. The bonds were issued for a 31 year period with first maturity at December 1, 2018, and final maturity at December 1, 2047.

2019 School Facilities Construction and Improvement Bonds

On September 19, 2019, the School District issued \$50,000,000 in school facilities construction and improvement bonds for the purpose of improving the safety and security of existing buildings, equipping classrooms with upgraded technology, acquiring school buses and other vehicles, and other improvements. The bond issue included serial and term bonds, in the amounts of \$36,665,000 and \$13,335,000, respectively. The bonds were issued for a 28 year period with first maturity at December 1, 2020, and final maturity at December 1, 2047.

2019 School Facilities Construction and Improvement Refunding Bonds

On September 19, 2019, the School District issued \$7,680,000 in school facilities construction and improvement refunding bonds in order to refund a portion of the 2011 school facilities construction and improvement refunding bonds in order to take advantage of lower interest rates. These serial bonds will mature on December 1, 2033.

2020 Various Purpose Refunding Bonds

On September 2, 2020, the School District issued \$36,645,000 in Various Purpose Taxable Refunding Bonds, Series 2020 in order to refund a portion of the 2012 and 2014 School Facilities Construction and Improvement Refunding bonds and a portion of the 2014 Various Purpose Refunding bonds and take advantage of lower interest rates. These bonds are paid from the Debt Service Fund and will mature on December 1, 2033. The net proceeds were deposited in an irrevocable trust with an escrow agent to provide for the future debt service payments on the refunded bonds. As a result, \$3,240,000 of the 2012, \$14,735,000 of the 2014, School Facilities Construction and Improvement Bonds and \$19,185,000 of the 2014 Various Purpose Bonds are considered defeased and the liability for the refunded bonds has been removed from the School District's financial statements.

The School District decreased total debt service payments by \$3,833,743 as a result of the refunding. The School District also incurred an economic gain (difference between the present

values of the old and new debt service payments) of 3,687,634, but incurred a deferred inflow – deferred charge on refunding of 71,006, and a deferred outflow – deferred charge on refunding of 2,713,755, which is shown in the following table:

| School Facilities Construction | | | | |
|---|-------------|---------------|---------------|---------------|
| and Improvement Refunding Bonds | 2012 | 2014A | 2014 | Total |
| | | | | |
| Refunded Bonds Outstanding at 6/30/20 | \$3,240,000 | \$19,185,000 | \$14,735,000 | \$37,160,000 |
| Premium on Refunded Bonds at 6/30/20 | 336,812 | 2,501,203 | 350,018 | 3,188,033 |
| Total Refunded Bonds Outstanding at 6/30/20 | 3,576,812 | 21,686,203 | 15,085,018 | 40,348,033 |
| Payment to Refunded Bond Escrow Agent: | | | | |
| Debt Service | (41,290) | (301,098) | (456,283) | (798,671) |
| Other Financing Use | (3,454,965) | (23,025,961) | (15,645,571) | (42,126,497) |
| Amortization of Premium Prior to Refunding | (9,551) | (49,581) | (6,482) | (65,614) |
| Deferred Inflow-Deferred Charge on Refunding | \$71,006 | | | 71,006 |
| Deferred Outflow-Deferred Charge on Refunding | | (\$1,690,437) | (\$1,023,318) | (\$2,713,755) |

The bonds were sold at a premium of \$5,816,255.

Principal and interest requirements to retire the School District's outstanding debt at June 30, 2021, are as follows:

| | General Obligation Bonds | | | | |
|-----------------|--------------------------|-------------------|-------------|----------------------------|--|
| Fiscal Year | Serial/Ter | Serial/Term Bonds | | Capital Appreciation Bonds | |
| Ending June 30, | Principal | Interest | Principal | Interest | |
| 2022 | \$29,875,000 | \$20,445,277 | \$0 | \$0 | |
| 2023 | 30,050,000 | 18,422,391 | 0 | 0 | |

| Totals | \$417,125,000 | \$170,751,524 | \$4,089,897 | \$55,010,103 | |

All general obligation bonds will be retired from the Debt Service Fund with property tax revenues. There is no repayment schedule for the net pension/OPEB liability. However, employer pension/OPEB contributions are made from the following funds: General Fund, the Food Service, Rotary Special Service, Adult Education, WCBE, Latchkey, Classroom Facilities Maintenance, Auxiliary Services, Public School Preschool, Miscellaneous State Grants, Adult Basic Education, Special Education Part B – IDEA, Vocational Education, Title I - School Improvement Stimulus A, Title I – School Improvement Stimulus G, Title III – Limited English Proficiency, Title I, Early Childhood Special Education, and Improving Teacher Quality – Title II-A Special Revenue Funds. For additional information related to the net pension and net OPEB liability see Notes 12 and 13.

Compensated absences will be paid from the General Fund, the Food Service, Adult Education, WCBE, Latchkey, Auxiliary Services, Public School Preschool, Student Wellness and Success,

Miscellaneous State Grants, Adult Basic Education, Education Stabilization, Special Education Part B – IDEA, Vocational Education, Title I – School Improvement Stimulus G, Title III – Limited English Proficiency, Title I, Drug Free Grant Early Childhood Special Education, and Improving Teacher Quality – Title II-A Special Revenue Funds, and the Worker's Compensation Internal Service Fund. The Ohio Bureau of Workers' Compensation Retrospective Rating Program Claims Payable will be paid from the Workers' Compensation Internal Service Fund.

The School District's overall legal debt margin was \$758,511,637 with an unvoted debt margin of \$12,386,530 and an Energy Conservation debt margin of \$111,478,769 at June 30, 2021.

As of June 30, 2021, \$4,883,344 of the debt proceeds were unexpended.

NOTE 17 – PRIOR YEAR DEFEASANCE OF BONDS

The School District has defeased various bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust assets and the liability for the defeased bonds are not included on the School District's financial statements. As of June 30, 2021, the bonds listed below were unmatured and unpaid.

| | | | Unmatured and Unpaid |
|--|--------------------|----------------|-------------------------|
| Refunded Bond Issues | Dated | Original Issue | at 6/30/21 |
| School Facilities Construction and Improvement Bonds | Novermber 30, 2011 | \$14,810,000 | \$9,175,000 |
| School Facilities Construction and Improvement Bonds | April 19, 2012 | 11,255,000 | 3,240,000 |
| School Facilities Construction and Improvement Bonds | August 13, 2014 | 14,969,999 | 14,735,000 |
| School Facilities Construction and Improvement Bonds | December 10, 2014 | 50,340,000 | 19,185,000 |

NOTE 18 – INTERFUND ACTIVITY

As of June 30, 2021, the Nonmajor Governmental Funds owed the General Fund \$6,694,024. General Fund advances are made to move unrestricted balances to support programs and projects accounted for in other funds. Advancing monies to other funds is necessary due to timing differences in the receipt of grant monies. When the monies are finally received, the grant fund will use these restricted monies to reimburse the General Fund for the initial advance. All advances are expected to be repaid within one year.

Transfers made during the fiscal year ended June 30, 2021, were as follows:

| | | Transfers From |
|-----------------|-----------------------------|-----------------------|
| | | General Fund |
| Ś | Debt Service Fund | \$2,930,550 |
| Transfers To | Permanent Improvement Fund | 80,000,000 |
| ran T | Nonmajor Governmental Funds | 1,344,758 |
| L | Total | \$84,275,308 |

Transfers were made from the General Fund to reallocate monies for debt service payments, to support bus purchase program, and to support programs accounted for in other funds.

NOTE 19 – SET-ASIDES

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years.

The following cash basis information identifies the change in the fiscal year-end set-aside amounts for capital acquisitions. Disclosure of this information is required by State statute.

| | Capital |
|---|---------------|
| | Acquisitions |
| Set-aside Balance as of June 30, 2020 | \$0 |
| Current Fiscal Year Set-aside Requirement | 8,462,154 |
| Current Fiscal Year Offsets | (8,385,702) |
| Qualifying Disbursements | (5,076,688) |
| Total | (\$5,000,236) |
| Set-aside Balance as of June 30, 2021 | \$0 |

Although the School District had offsets and qualifying expenditures for capital acquisitions that exceeded the set-aside requirements, these amounts may not be used to reduce the set-aside requirements of future fiscal years and therefore are not presented as being carried forward to the next fiscal year.

NOTE 20– SIGNIFICANT COMMITMENTS

Contractual Commitments

The School District has been and will continue to undertake a number of new construction projects as part of the Ohio School Facilities Commission Accelerated Urban Assistance Program and the School District's Operation Fix It Program. The outstanding construction commitments at June 30, 2021, are:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

| | Contract | Amount | Balance at |
|----------------------------------|--------------|--------------|--------------|
| Contractor | Amount | Expended | 6/30/21 |
| Accurate Electric | \$206,692 | \$202,928 | \$3,764 |
| Advanced Enginnering Consultants | \$575,993 | \$287,996 | 287,997 |
| Ascension Construction | 49,710 | 12,762 | 36,948 |
| Brewer Garrett | 12,631,806 | 7,004,224 | 5,627,582 |
| Electrical Systems Consultants | 175,338 | 59,810 | 115,528 |
| Energy Efficient Equipment | 349,839 | 76,733 | 273,106 |
| Kalkreuth Roofing | 946,800 | 370,114 | 576,686 |
| Lehman Daman Construction | 285,700 | 108,468 | 177,232 |
| MAK Engineering Service | 467,918 | 78,464 | 389,454 |

| Sheedy Paving | 1,304,782 | 407,780 | 897,002 |
| T-Built Construction | 684,249 | 237,419 | 446,830 |
| Trane | 7,190,361 | 4,025,687 | 3,164,674 |
| Triad Architects | 103,299 | 85,830 | 17,469 |
| Tyveco | 319,000 | 139,189 | 179,811 |
| Total | \$25,741,629 | \$13,309,441 | \$12,432,188 |

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

| Governmental Funds: | |
|------------------------------|--------------|
| General Fund | \$26,324,312 |
| Debt Service | 261 |
| Permanent Improvement Fund | 29,402,326 |
| Nonmajor Governmental Funds | 24,495,513 |
| Total Governmental Funds | 80,222,412 |
| Internal Service Funds: | |
| Health Self Insurance | 8,003,351 |
| Workers' Compensation | 438,239 |
| Total Internal Service Funds | 8,441,590 |
| Total | \$88,664,002 |

NOTE 21 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints

imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

| | General | Debt Service | Permanent Improvement | Nonmajor Governmental | |
|-------------------------------------|---------------|-----------------|--------------------------|--------------------------|---------------|
| Fund Balances | Fund | Fund | Fund | Funds | Total |
| Nonspendable: | | | | | |
| Prepaids | \$0 | \$0 | \$0 | \$180,930 | \$180,930 |
| Materials and Supplies Inventory | 160,676 | 0 | 0 | 350,865 | 511,541 |

| | | | | | |

NOTE 22 – ENDOWMENTS

The School District's permanent funds include donor-restricted endowments. The Net Position-Non-Expendable amounts of \$81,360 represent the principal portion of the endowments. The Net Position – Expendable amount of \$56,260 represents the interest earnings on donor-restricted investments and is available for expenditure by the governing board, for purposes consistent with the endowment's intent. State law permits the governing board to appropriate, for purposes consistent with the endowment's intent, net appreciation, realized and unrealized, unless the endowment terms specify otherwise.

NOTE 23 – CONTINGENCIES

<u>Grants</u>

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2021, if applicable, cannot be determined at this time.

School Foundation

In fiscal year 2021, School District foundation funding was based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end.

As of the date of this report, additional ODE adjustments for fiscal year 2021 were finalized. As a result, the School District had an additional payable of \$968,577.

Litigation

The School District is party to various legal proceedings for damages or injunctive relief. The School District's legal counsel estimates that the potential uninsured claims against the School District resulting from the proceedings would not materially affect the financial statements of the School District.

<u>NOTE 24 – COVID–19</u>

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2021, the School District received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. The School District's investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In

addition, the impact on the School District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated. Additional funding has been made available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

NOTE 25 – SUBSEQUENT EVENTS

For fiscal year 2022, School District foundation funding received from the State of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the School District were funded to the School District who, in turn, made the payment to the educating school. For fiscal year 2021, the School District reported \$212,155,006 in revenue and expenditures/expense related to these programs. Also during fiscal year 2021, the School District reported \$1,717,254 in tuition and fees from the resident school districts which will be direct funded to the School District as the educating entity in fiscal year 2022. This new funding system calculates a unique base cost and a unique "per-pupil local capacity amount" for each School District. The School District's State core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

Required Supplementary Information

Columbus City School District Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

NET PENSION LIABILITY

Changes in Assumptions - SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

| | Fiscal Year 2017 | Fiscal Year 2016 and Prior | |
|---------------------------|--|--|--|
| Wage Inflation | 3.00 percent | 3.25 percent | |
| Future Salary Increases, | - | - | |
| including inflation | 3.50 percent to 18.20 percent | 4.00 percent to 22.00 percent | |
| Investment Rate of Return | 7.50 percent net of investments expense, including inflation | 7.75 percent net of investments expense, including inflation | |

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age setback for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes in Assumptions – STRS

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

| | Fiscal Year 2018 | Fiscal Year 2017 and Prior |
|--------------------------------------|---|--|
| Inflation | 2.50 percent | 2.75 percent |
| Projected salary increases | 12.50 percent at age 20 to | 12.25 percent at age 20 to |
| | 2.50 percent at age 65 | 2.75 percent at age 70 |
| Investment Rate of Return | 7.45 percent, net of investment expenses, including inflation | 7.75 percent, net of investment expenses, including inflation |
| Payroll Increases | 3 percent | 3.5 percent |
| Cost-of-Living Adjustments (COLA) | 0.0 percent, effective July 1, 2017 | 2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date. |

Columbus City School District Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

NET OPEB LIABILITY

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

| Municipal Bond Index Rate: | |
|--|--------------|
| Fiscal year 2021 | 2.45 percent |
| Fiscal year 2020 | 3.13 percent |
| Fiscal year 2019 | 3.62 percent |
| Fiscal year 2018 | 3.56 percent |
| Fiscal year 2017 | 2.92 percent |
| Single Equivalent Interest Rate, net of plan investment expense, | |
| including price inflation: | |
| Fiscal year 2021 | 2.63 percent |
| Fiscal year 2020 | 3.22 percent |
| Fiscal year 2019 | 3.70 percent |
| Fiscal year 2018 | 3.63 percent |
| Fiscal year 2017 | 2.98 percent |
| | |

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed

Columbus City School District Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

<u>Changes in Benefit Terms – STRS OPEB</u>

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019, and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020, to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020, from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021, to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021, premium based on June 30, 2020, enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021, from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021, to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

COLUMBUS CITY SCHOOL DISTRICT

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

Nonmajor Governmental Fund Descriptions

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The following are descriptions of the School District's nonmajor special revenue funds:

Nonmajor Special Revenue Funds

Food Service Fund

To account for and report the proceeds from the sale of lunches and grants restricted to the food service operations of the School District.

Library Donation Fund

To account for and report contributions restricted for specific School District programs. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Scholarship Fund

To account for and report contributions to the School District without conditions or limitations that are restricted for student scholarships. The School District has administrative involvement in awarding the scholarships. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Public School Purposes Fund

To account for and report contributions restricted for specific School District programs which the School District has administrative involvement.

Adult Education Fund

To account for and report the tuition and grants restricted for adult education classes.

Other Grants Fund

To account for and report local grants, charges for services, and donations restricted to expenditures for specified purposes.

WCBE Fund

To account for and report committed donations for the operations and services provided by the School District's FM radio station.

Latchkey Fund

To account for and report fees restricted for after-school care and instructional services to students whose parents are not at home when the student gets out of school.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Classroom Facilities Maintenance Fund

To account for and report property taxes restricted to expenditures for the maintenance and upkeep of classroom facilities.

Student Managed Activities Fund

This fund accounts for and reports resources restricted to the student bodies of the various schools, accounting for sales and other revenue generating activities for which the School District has administrative involvement.

District Managed Student Activities Fund

To account for and report program fees restricted for student activity programs which have student participation in the activity, but do not have student management of the programs.

Auxiliary Services Fund

To account for and report restricted State grants for services and materials provided to pupils attending non-public schools within the School District.

Post Secondary Vocational Education Fund

To account for and report restricted State grants used to provide opportunities for adults to acquire adequate employment skills.

Public School Preschool Fund

To account for and report State grants restricted to preschool programs for 3 and 4-year-olds.

Data Communication Fund

To account for and report State grants restricted to Ohio Educational Computer Network Connections.

Vocational Enhancement Fund

To account for and reports restricted State monies which support vocational education enhancements that expand the number of students enrolled in tech programs, and also enables students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills and credentials to present to future employers, universities, and other training institutes. This fund is also used to replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Straight A Fund

To account for and report State grants restricted to collaborating with other school districts to create pathways that combine high school, career tech, college and work-based experiences to produce graduates who are credentialed for a career and/or are well on their way to a college degree. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Student Wellness and Success Fund

To account for and report restricted grants for student wellness and success initiatives.

Miscellaneous State Grants Fund

To account for and report various restricted grants received from State agencies which are not classified elsewhere.

Adult Basic Education Fund

To account for and report federal and State grants restricted to programs in reading, writing, and math competency for adults that do not have a high school diploma.

School Emergency Relief Fund

To account for and report emergency coronavirus relief restricted federal grant monies for related COVID-19 pandemic expenses.

Title IV Part B Fund

To account for and report federal grants restricted to providing enrichment for students to meet State academic standards.

Coronavirus Relief Fund

To account for and report coronavirus relief restricted federal grant monies for related COVID-19 pandemic expenses.

Special Education Part B – IDEA Fund

To account for and report federal grants restricted to providing an appropriate public education to all children with disabilities.

Vocational Education Fund

To account for and report restricted State grants used for the development of vocational education programs.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Title II-D Technology Fund

To account for and report federal grants restricted to professional development and student learning. The grant offers a unique opportunity to schools that are ready and willing to embrace the change that is required for 21st Century learning. Through sustained, collaborative, job-embedded professional development and the use of research-based methods, teachers will experience new models and strategies for teaching and learning. Teachers will become facilitators and co-learners, and create technology-enabled learning environments in which students will meet or exceed the State academic content standards and develop 21st Century skills. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Title I – School Improvement, Stimulus A Fund

To account for and report federal grants restricted to economically disadvantaged school districts and some of their eligible schools for improving educational outcomes for students who are failing or at risk of failing to meet State standards.

Title I – School Improvement, Stimulus G Fund

To account for and report restricted federal grants provided to School District buildings through a competitive process for implementing a school improvement plan that is focused on the specific reasons that caused the building to be identified for school improvement under the No Child Left Behind Act.

<u>Title III – Limited English Proficiency Fund</u>

To account for and report federal grants restricted to elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency.

Transition Program for Refugee Children Fund

To account for and report federal grants restricted to the educational needs of refugee children who are enrolled in public and non-profit private elementary and secondary schools.

Title I Fund

To account for and report federal grants restricted to the special needs of educationally deprived children.

Innovative Programs – Title V Fund

To account for and report federal grants restricted to the reform of elementary and secondary education. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Safe and Drug Free Schools Grant - Title IV-A Fund

To account for and report restricted federal grants used to offer a disciplined environment conducive to learning, by preventing violence in and around schools and strengthening programs that prevent the illegal use of alcohol, tobacco, and drugs, involving parents, and coordinating with related federal, State, and community efforts and resources. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Early Childhood Special Education, IDEA Fund

To account for and report federal grants restricted to Preschool Grant Programs (Section 619 of Public Law 99-457) which address the improvement and expansion of services for handicapped children ages three through five years.

Improving Teacher Quality – Title II-A Fund

To account for and report restricted federal grants used to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced, and to improve teacher quality.

Miscellaneous Federal Grants Fund

To account for and report restricted grants received from the federal government which are not classified elsewhere.

Uniform School Supplies Fund

This fund accounts for and reports the purchase and sale of school supplies, such as workbooks, as adopted by the Board of Education. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source. This fund had no cash activity during fiscal year 2021. Therefore, no budgetary statement is presented.

Rotary Fund

This fund accounts for and reports donations to the traffic scouts which are used for activities such as field trips. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source.

Public School Support Fund

This fund accounts for and reports individual school sites sales revenue such as vending machines sales, and expenditures for field trips, assemblies, and other activity costs. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source. The Board of Education grants the principal of each site the authority to spend monies on allowable activities.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Special Revenue Funds - (continued)

Other Grants - General Fund

To account for and report monies received from building rentals, Ohio Bureau of Criminal Investigation background checks, and the teachers union for reimbursement of leadership services provided by the School District. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source.

Lost/Replacement Books Fund

A fund to account for and report a fee charged to recover the costs of lost or stolen textbooks. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source.

Flower Fund

This fund accounts for and reports employee contributions from vending machine sales and employee contributions that are for flowers, gifts, food and other activity costs. This fund is included with the General Fund for GAAP reporting as it does not have a restricted or committed revenue source.

CAPITAL PROJECTS FUNDS

The Capital Projects Funds are established to account for and report financial resources that are restricted or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. The following are descriptions of the School District's nonmajor capital projects funds:

Nonmajor Capital Projects Funds

Building Fund

This fund is used to account for and report all transactions restricted for constructing improvements, renovations and additions to the School District's buildings, including equipment, furniture and fixtures.

Replacement Fund

To account for and report resources assigned to rebuilding, restoration or improvement of school buildings.

Classroom Facilities Fund

This fund is used to account for and report grants restricted for constructing improvements, renovations and additions to the School District's buildings, including equipment, furniture and fixtures.

Nonmajor Governmental Fund Descriptions - (continued)

Nonmajor Capital Projects Funds - (continued)

PERMANENT FUND

The Permanent Fund accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the School District's programs, that is, for the benefit of the School District or its citizenry.

Nonmajor Permanent Fund

Endowment Fund

To account for and report restricted contributions and donations and interest which have been set aside as an investment for public school purposes. The income from this fund may be expended, but the principal must remain intact. The funds may be spent for School District purposes. This Page Intentionally Left Blank

Proprietary Fund Descriptions

INTERNAL SERVICE FUNDS

Internal service funds are used to account for and report financing of services provided by one department or agency to other departments or agencies of the School District on a cost-reimbursement basis.

<u>Health Self-Insurance Fund</u> – A fund provided to account for and report monies received from other funds as payment for providing medical, hospitalization, life, dental, and vision insurance.

<u>Workers' Compensation Fund</u> – To account for and report the accumulation of resources from the funds in which employees are paid. These resources are used to pay the premiums and claims related to the School District's participation in the Ohio Bureau of Workers' Compensation Retrospective Rating Program.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by a 10 percent and a 2 1/2 percent rollback, and homestead exemptions before being billed.

Source: Ohio Department of Taxation

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue for that year.

Rates may only be raised by obtaining the approval of the voters at a public election.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes. Real property is reappraised every six years and property values are updated in the third year following each reappraisal.

(1) The overlapping rates by taxing district are presented for all overlapping governments by type of government and property type. Each corresponding range provides the lowest and highest tax rate for each type of property by government type. All property tax rates for each type of government fall within the ranges presented.

- (1) The 2021 information cannot be presented because all collections have not been made by June 30, 2021.
- (2) Taxes levied and collected are presented on a cash basis because that is the manner that information is maintained by the County Auditor.
- (3) Penalties and interest are included since, by Ohio law, they become part of the tax obligation as assessment occurs.

(1) Percentages were determined by dividing the assessed valuation of the political subdivision located within the boundaries of the School District by the total assessed valuation of the subdivision.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the School District. This process recognizes that, when considering the School District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken in account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government.

Computation of Legal Debt Margin Last Ten Fiscal Years

(1) Ohio Bond Law sets a limit of nine percent for voted debt and .10 percent for unvoted debt.

(2) Effective fiscal year 2011, railroad and telephone property valuation and general business tangible personal property valuation revenues were phased out, and are therefore no longer included as an exclusion above.
