**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED JUNE 30, 2021**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Highland Local School District (the District) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 22, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Efficient • Effective • Transparent

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Highland Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Highland Local School District's major federal program for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, Highland Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Highland Local School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated February 22, 2022, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Highland Board of Education Members and
The Citizens of the Highland Local School District:

The Annual Comprehensive Financial Report (ACFR) of the Highland Local School District (the “School District”) is hereby submitted for the fiscal year ended June 30, 2021. This report, prepared by the Treasurer’s Office, includes financial statements, supplemental schedules, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the School District for fiscal year 2021.

The responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District's management. To the best of our knowledge and belief, this ACFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds as well as the School District as a whole.

This ACFR, which includes an opinion from the Ohio Auditor of State, conforms to generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB), and is representative of the School District’s commitment to provide meaningful information to the citizens of the Highland Local School District.

Copies of this report will be distributed to Board of Education members, School District administrators, Financial Rating Services, and other interested parties upon request.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

DESCRIPTION OF THE SCHOOL DISTRICT

Nestled among the rolling hills and extensive park system of Medina County, the School District’s stated mission is to guarantee that each learner reaches maximum potential by providing, in partnership with the community, a quality, progressive, educational program in a safe and dynamic life-long learning environment.

Catherine Aukerman, Superintendent

Neil Barnes, CPA, Treasurer

Laurie Boedicker, Director of Curriculum & Instruction

Deborah Yorke, Director of Pupil Services

Dawn Marzano, Director of Communications

The sprawling 78-square mile School District is situated in the eastern portion of Medina County with a very small portion located in Summit County. The majority of the students educated by the School District reside in Granger, Hinckley, Sharon, and Montville Townships. The School District's boundaries also include small segments located in the City of Wadsworth, Copley Township, Medina Township, and Brunswick Hills Township. Interstates 71 and 271 and State Routes 18 and 94 provide easy access to the area. Major hospitals, Cleveland Hopkins International Airport, Akron-Canton Airport, and numerous institutions of higher learning are located within a forty-five minute drive. The School District's communities are predominantly rural residential. The socioeconomic status of residents generally ranges from middle to upper.

The Highland Local School District's core townships are rich in history. The lands were part of the Connecticut Western Reserve. Granger and Sharon Townships were laid out in 1816; Hinckley Township was formed in 1819. Each township was quick to recognize the importance of education to its children. The people agreed that the schoolhouse was a "thing of necessity."

Granger became a centralized school district in 1900, meaning that the one-room schoolhouses were abandoned for one central school. Granger continued to have a single township school district until 1950 when the Granger and Sharon Districts merged. In 1952, Hinckley was added to create the Highland Local School District.

The original Sharon, Granger, and Hinckley Elementary School buildings were constructed in 1922, 1929, and 1949, respectively. The 2020-2021 school year represented the final year of service for these buildings. In November 2017, the voters of the School District passed a \$63 million bond issue to construct three new elementary buildings and partially renovate the middle school. The new elementary buildings opened in September 2021 with the start of the 2021-2022 school year. The Highland Middle School building was constructed in 1958. Renovations and additions have been made to this building throughout the years in order to modernize and boost classroom space as enrollment increased.

The award winning Highland High School building was opened in the fall of 2004. The building received the Outstanding Design award from the Council of Educational Facility Planners International and School Planning & Management magazine.

The School District provides a wide array of programs and services to students including instruction, support services, non-instructional services, and extracurricular activities. The instructional programs provide regular instruction from preschool through twelfth grade, special education for students with learning and other disabilities, and vocational education. Support services include pupil and staff support, school administration, fiscal and business services, maintenance of buildings and grounds, and pupil transportation. Non-instructional services include a food service operation for pupils, a latchkey program for before and after school child care, and community education activities. The extracurricular activities are designed to enhance the instructional experience for pupils and include student organizations and athletic activities.

As of June 30, 2021, the School District had 3,320 students enrolled in its five school buildings: Sharon Elementary, Granger Elementary, Hinckley Elementary, Highland Middle School housing grades 6 through 8, and Highland High School housing grades 9 through 12. During the 2020-2021 school year, 62 students in the School District attended the Medina County Career Center.

The School District also operates a bus garage, maintenance facility, and athletic facilities. In the summer of 2015, the School District opened a brand-new, state-of-the-art athletic complex that includes a field with all-purpose synthetic turf, eight lane running track, grandstands with a combined seating capacity of 5,000, field house, locker rooms, concessions, tennis courts, storage buildings, and expanded parking facilities.

Beginning in the early 1990's through 2007, the School District experienced significant increases in annual enrollment. From 2008 through 2017, the trend of relatively fewer new housing starts and increased alternative public school choice options led to a steadier, slightly decreasing student population. More recently, enrollment is trending upwards once again particularly in the southern portion of the School District where several large tracts of land in Sharon Township have been annexed into the City of Wadsworth allowing for higher density housing developments. It is anticipated that enrollment will continue to increase in the future as development continues.

A Legacy of Excellence

Through the 2011-2012 school year, the School District had been rated "Excellent with Distinction" or "Excellent" by the Ohio Department of Education on its local report card for 13 consecutive years.

The Ohio Department of Education unveiled a new local report card format beginning with the 2012-2013 school year. Under the new reporting system, school districts receive letter grades on specified components. Currently, these components include achievement, progress, gap closing, graduation rate, K-3 literacy, and prepared for success (i.e. college and career readiness). Recent report cards continue to evidence that Highland's students are achieving at a high level. For the 2018-2019 school year, the School District was one of only 31 districts in the entire State of Ohio to receive an overall letter grade of "A". The School District's performance index score placed it 26th out of Ohio's 608 public school districts. The 2019-2020 and 2020-2021 state report cards did not include grades or ratings due to the pandemic.

In December 2019, the State Board of Education of Ohio recognized the School District as one of only 48 districts statewide to earn the prestigious Momentum Award. The Momentum Award recognizes school districts for exceeding expectations in student growth for the year. Districts must earn straight A's on all Value-Added measures on the report card. The School District also earned this award in 2016, 2017 and 2018.

Approximately 82% of Highland High School's most recent graduating class enrolled in either a four-year or a two-year college. Highland also boasts an average SAT score of 1121 and an average ACT score of 24.3, which are both above the national mean scores. Highland High School offers 43 Advanced Placement, Honors, and Third/Fourth Year World Language courses. Over 74% of participating Highland students scored a 3 or better on Advanced Placement tests during the 2020-2021 school year. College readiness for Highland High School graduates remains consistently high.

For the 9th consecutive year, Highland High School was recognized in the annual Best High Schools Rankings published by *US News & World Report*. For the 2020-2021 school year, Highland ranked an impressive 34th among Ohio high schools and 881 nationally out of nearly 18,000 high schools. The rankings are primarily based upon state proficiency test results, graduation rates, and college readiness.

In December 2017, Highland High School was also among 447 school districts across the U.S. and Canada to be named to the 8th Annual AP District Honor Roll by the College Board. This was Highland's 5th time receiving this honor. Highland was recognized for simultaneously increasing access to Advanced Placement course work while increasing the percentage of students earning scores of 3 or higher on AP Exams. Reaching these goals indicates that the School District is successfully identifying motivated, academically prepared students who are likely to benefit from rigorous AP course work.

In December 2019, the School District’s “Little Hornets” Preschool Program once again received the Five-Star Step Up to Quality Award from the State of Ohio ~ the highest rating attainable. Step Up to Quality is Ohio’s rating system for learning and development programs. Participating programs can earn a one to five-star rating. Star ratings are awarded only to learning and development programs that exceed licensing standards and are committed to continuous improvement, the continuing education of teachers, the use of learning and development standards to support children’s learning, as well as relationship-building with families and communities.

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education (the “Board”) of the School District is comprised of five members elected at large by the citizens of the School District. The Board serves as the taxing authority, contracting body, and policy maker for the School District. The Board is responsible for the adoption of the tax budget and the annual operating budget of the School District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Ohio Revised Code. Current members include Dr. Norman Christopher, President, Mrs. Diane Thomas, Vice President, Mr. Robert Kelly, Mr. Mike Houska, and Mr. Christopher Wolny.

The Superintendent is the chief executive officer of the School District and is responsible directly to the Board for all operations within the School District. Mrs. Catherine Aukerman was appointed Superintendent of the School District on August 1, 2008. She is currently employed under a five-year contract, which ends on July 31, 2026.

The Treasurer is the chief financial officer of the School District and is responsible directly to the Board for all financial operations, including but not limited to budgeting, investments, debt management, risk management, and capital asset inventory. The Treasurer also serves as Secretary to the Board. Mr. Neil Barnes was appointed to serve as the Treasurer effective August 1, 2010. He is currently employed under a five-year contract, which ends on July 31, 2024.

All other School District employees, with the exception of the Treasurer’s department, are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

REPORTING ENTITY

The School District has reviewed its reporting entity definition in order to ensure conformance with applicable Governmental Accounting Standards Board (GASB) requirements. In evaluating how to define the School District for financial reporting purposes, management has considered all boards, funds, agencies, departments and organizations making up the Highland Local School District (the primary government).

Other governmental entities (i.e. Townships of Granger, Hinckley, Sharon, Montville, Brunswick Hills, Copley, and Medina and the City of Wadsworth) conducting business activities within School District boundaries are excluded from the accompanying financial statements. The School District’s Board does not appoint the boards/councils of those entities, nor are they fiscally dependent on the School District. The School District cannot legally access their resources, has no obligation to finance deficits or provide financial support, and is not obligated for their debts.

A complete discussion of the School District’s reporting entity is provided in Note 1 to the basic financial statements.

FINANCIAL INFORMATION

The School District is required by Ohio law to complete a five-year financial forecast annually. This document is updated regularly and serves as a financial roadmap for the School District. The forecast is designed to provide the administration, Board of Education and the public a general indication of the probable future financial position of the School District based on information currently available to the School District. The forecast is a critical planning document for the School District. It is a necessary tool focusing discussion and attention on future financial needs while facilitating management's strategic planning.

Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received.

The School District is responsible for establishing and maintaining an internal control structure designed to protect its assets from loss, theft or misuse. Furthermore, the accounting system must be adequate to allow for the preparation of basic financial statements in conformity with generally accepted accounting principles. In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The valuation of costs and benefits requires estimates and judgments by management. As an additional safeguard, all employees are covered under an employee dishonesty provision of the School District's insurance policy and certain individuals in policy-making roles are covered by separate, higher limit performance and/or position bonds.

The School District utilizes a fully automated accounting system as well as an automated system for payroll. These systems, coupled with the manual auditing of receipts and each voucher prior to payment, help ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted on or about July 1st, then a permanent appropriation measure must subsequently be adopted by October 1st of the fiscal year. The permanent appropriation measure may be amended by the Board throughout the fiscal year as necessary.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all funds. All purchase order requests must be approved by the Superintendent and certified by the Treasurer. Following approval and certification, the necessary funds are then encumbered and purchase orders are released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Administrators are furnished with monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site.

The basis of accounting and the various funds utilized by the Highland Local School District are fully described in Note 1 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 3.

ECONOMIC CONDITION AND FUTURE OUTLOOK

For the future, the School District's overall focus will be to continue to improve the educational program for the benefit of students, parents and community residents. The process involves assessing current programs, identifying strengths and weaknesses, developing and implementing new courses of action, and evaluating the results.

Easily accessible via interstate highways between the metropolitan areas of Akron and Cleveland, the School District offers a wealth of opportunity for cultural, social and economic resources for its residents. Three major state universities, The University of Akron, Kent State University and Cleveland State University, and numerous other small colleges and universities are within reasonable traveling distance from the community.

The townships within the School District offer an excellent opportunity for business growth. There exists a healthy, favorable environment with a relatively low tax base for business establishments. The School District works cooperatively with the Medina County Economic Development Corporation to attract new businesses to the area. In recent years, the School District has realized increased activity in commercial development and new residential housing starts continue to occur each year. School District officials will continue to monitor the impact of the aforementioned annexation on its southern boundary and the resulting potential for enrollment increases.

In May 2011, the Highland community passed a 10-year Emergency Levy that generated in excess of \$4.6 million annually. This levy has greatly contributed to the financial stability of the School District for the past decade. In May 2021, voters approved a Substitute Levy that will replace the Emergency Levy for a continuous period of time. The new Substitute Levy generates the same amount of revenue in the initial year of collection, but also provides the opportunity for increased revenues in the future as new construction occurs within the School District.

As previously mentioned, in November 2017, voters approved a \$63 million bond levy to construct three new elementary schools and partially renovate the middle school. The School District issued school improvement notes totaling \$5.9 million in December 2017. These notes were paid off in June 2018. The School District then issued school improvement bonds totaling \$63 million in April and May 2018. Moody's Investors Service assigned a rating of Aa2 in relation to these debt issuances. The newly opened elementary buildings will make the District an even more attractive location for individuals and businesses.

In March 2020, the School District executed a refunding transaction in relation to the aforementioned school improvement bonds taking advantage of historically low interest rates. This transaction reduces debt service requirements by nearly \$21 million over the remaining term of the bonds.

The Board and school administration are committed to containing costs and maximizing revenues in an effort to extend the levy cycle as long as possible.

OTHER INFORMATION

Independent Audit

Provisions of state statute require the School District's financial statements to be subjected to a biannual examination by the Ohio Auditor of State unless an annual Single Audit is required, which is the case for the School District. The Ohio Auditor of State performed the audit of the School District for the year ended June 30, 2021. The auditor's unmodified opinion rendered on the School District's basic financial statements is included in the financial section of this Annual Comprehensive Financial Report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the School District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2020. The School District has submitted this report for consideration to the GFOA. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, the contents of which conform to program standards. The ACFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

Additional Information

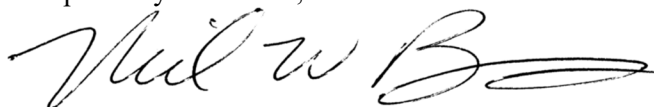

For a more in depth discussion of the financial condition of the Highland Local School District, please refer to the Management's Discussion and Analysis and the Notes to the Basic Financial Statements of the Annual Comprehensive Financial Report.

Acknowledgments

My sincere appreciation and thanks are extended to the many individuals who made the preparation and publication of this Annual Comprehensive Financial Report a reality. This accomplishment would not have been possible without the support and efforts of the staff in the Treasurer's office and many other dedicated employees of the School District. In addition, sincere thanks are extended to the Medina County Auditor's office staff and other outside agencies whose efforts contributed to the fair presentation of the statistical data.

I would also like to extend my appreciation to the members of the Highland Board of Education for their leadership, commitment to excellence, and support. It is with great pride that the Highland Local School District presents the 2021 Annual Comprehensive Financial Report to the citizens and taxpayers of the School District.

Respectfully Submitted,

INDEPENDENT AUDITOR'S REPORT

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2021, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 21 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated February 22, 2022, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber
Auditor of State
Columbus, Ohio

February 22, 2022

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

This discussion and analysis of Highland Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the letter of transmittal, basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2021 are as follows:

- Net position of governmental activities increased \$173,243 representing a 1.74 percent increase from 2020.
- General revenues accounted for \$40,439,303 in revenue or 90.3 percent of all revenues. Program revenues in the form of charges for services and operating grants, contributions and interest accounted for \$4,341,264 or 9.7 percent of total revenues of \$44,780,567.
- The School District had \$44,607,324 in expenses related to governmental activities. Of this amount, \$4,341,264 was offset by program specific revenues. General revenues of \$40,439,303 were adequate to provide for these programs.
- At the end of the current fiscal year, the governmental funds reported a combined ending fund balance of \$51,185,490, which is a decrease of \$36,481,736 from the prior fiscal year.
- During the fiscal year, the School District entered into a lease-purchase agreement for \$8,500,000.

Using this Annual Financial Report

This annual report consists of a series of financial statements, notes to those statements and the required supplementary information. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the School District, the general fund, the debt service fund, and the building fund are the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2021?" The statement of net position and the statement of activities are designed to answer this question. These statements include all non-fiduciary assets, liabilities, deferred outflows of resources and deferred inflows of resources using the accrual basis of accounting similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader the extent to which the financial position of the School District as a whole has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the School District's activities are considered to be all Governmental Activities.

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 11. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. Fund financial reports provide detailed information about the general fund, the debt service fund, and the building fund, which are considered major funds. Data from the other funds is combined into a single, aggregated presentation.

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Over time, net position can serve as a useful indicator of a government's financial position. For the fiscal year ended June 30, 2021, the School District had an increase in net position of \$173,243.

Net investment in capital assets on the government-wide statements represents a large portion of the School District's net position for fiscal year 2021 amounting to \$4,826,918. Capital assets, which include land, construction in progress, land improvements, buildings and building improvements, furniture, fixtures, and equipment, and vehicles, are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$24,377,417, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted assets, \$8,932,995 or 36.64 percent is restricted for debt service payments; \$14,497,196 or 59.48 percent is restricted for capital projects; \$433,105 or 1.78 percent is restricted for food service; \$256,367 or 1.05 percent is restricted for extracurricular; \$47,183 or 0.19 percent is restricted for scholarships; and \$210,571 or 0.86 percent is restricted for other purposes. Restricted for other purposes for the School District are net positions restricted for special revenue funds which are used for educational services.

The remaining significant balance of government-wide unrestricted net position is a deficit of \$(19,089,897).

Table 1 provides a summary of the School District's net position for 2021 and 2020:

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense equal to its proportionate share of each plan's change in net pension liability and net OPEB liability or asset, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing the accounting standard for pension and OPEB, the School District is reporting a significant net pension liability, net OPEB liability, related deferred inflows of resources and an increase in pension expense for the fiscal year which have a negative effect on net position. In addition, the School District is reporting a net OPEB asset, deferred outflows of resources and a decrease in expenses related to OPEB, which have a positive impact on net position. The increase and decrease in pension and OPEB expense is the difference between the contractually required contributions and the pension and OPEB expense resulting from the change in the liability or asset that is not reported as deferred inflows or outflows. These amounts can be found in the reconciliation of the statement of revenues, expenditures and changes in fund balances of governmental funds to the statement of activities. To further explain the impact of these accounting standards on the School District's net position, additional information is presented below.

	<u>2021</u>	<u>2020</u>
Deferred outflows - pension	\$ 7,774,267	\$ 7,765,675
Deferred outflows - OPEB	1,387,433	882,335

Highland Local School District

Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

Governmental Activities - The School District has carefully planned for its financial future by forecasting its revenues and expenses over the next five years. The School District’s revenue growth is mostly dependent upon property tax collections. Property taxes made up 65.3 percent of revenues for governmental activities for the School District in fiscal year 2021. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating costs.

Instruction comprises 57.1 percent of governmental program expenses. Additional supporting services, including but not limited to those for pupils, staff, administration, fiscal, operation and maintenance of plant, and pupil transportation, encompassed an additional 29.2 percent. The remaining 13.7 percent of program expenses is used for other obligations of the School District such as non-instructional services, extracurricular activities and interest and fiscal charges.

Highland Local School District

Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The School District’s Funds

The School District’s governmental funds are accounted for using the modified accrual basis of accounting. The total revenues and other financing sources for governmental funds were \$53,215,806 and total expenditures and other financing uses were \$89,697,542. The total net change in fund balance across all governmental funds was a decrease of \$36,481,736. The decrease in fund balance was most significant in the building fund, amounting to \$36,968,515. This decrease was the result of increased capital expenditures related to the ongoing construction of three new elementary school buildings and renovations to the middle school during the fiscal year.

The net change in the general fund was a decrease of \$728,590 or 3.2 percent. This decrease was primarily due to lower amounts of property tax collections being available as an advance at fiscal year end and significantly reduced interest and investment income resulting from sharp declines in yields. The net change in the debt service fund was an increase of \$338,072 or 3.8 percent. This increase was primarily due to the continued positive financial impact of a debt refunding in the prior year. The net change in fund balance in the other governmental funds was an increase of \$877,297 or 62.1 percent. This change was the result of an increase in intergovernmental revenues including new pandemic related federal relief grants and programs.

Table 3 shows fiscal year 2021 fund balances compared to fiscal year 2020.

Table 3
Fund Balances

	<u>Fund Balance</u> <u>June 30, 2021</u>	<u>Fund Balance</u> <u>June 30, 2020</u>	<u>Increase/</u> <u>(Decrease)</u>	<u>Percent</u> <u>Change</u>
General	\$ 21,904,637	\$ 22,633,227	\$ (728,590)	(3.2%)
Debt service	9,140,509	8,802,437	338,072	3.8%
Building	17,850,232	54,818,747	(36,968,515)	(67.4%)
Other governmental	<u>2,290,112</u>	<u>1,412,815</u>	<u>877,297</u>	<u>62.1%</u>
Total	<u>\$ 51,185,490</u>	<u>\$ 87,667,226</u>	<u>\$(36,481,736)</u>	<u>(41.6%)</u>

General Fund

The School District’s general fund balance decreased \$728,590 during the fiscal year. The following table assists in illustrating the change in revenues of the general fund.

Highland Local School District
 Management's Discussion and Analysis
 For the Fiscal Year Ended June 30, 2021
 Unaudited

Table 4
General Fund - Change in Revenue

	<u>2021</u>	<u>2020</u>	Percent <u>Change</u>
Taxes	\$ 23,479,685	\$ 24,230,852	(3.1%)
Intergovernmental	8,620,289	8,231,946	4.7%
Interest	155,846	833,125	(81.3%)
Increase (decrease) in fair value of investments	(104,818)	261,650	(140.1%)
Tuition and fees	398,771	555,923	(28.3%)
Extracurricular activities	353,353	352,510	0.2%
Gifts and donations	26,027	5,056	414.8%
Rent	2,323	19,826	(88.3%)
Miscellaneous	84,587	54,945	53.9%
Total revenues	<u>\$ 33,016,063</u>	<u>\$ 34,545,833</u>	

General fund revenues decreased \$1,529,770 or 4.4 percent. The main reason for the overall decline were decreases in property tax revenues and interest/investment income from the prior year.

The following table assists in illustrating the change in expenditures of the general fund.

Table 5
General Fund - Change in Expenditures by Type

<u>Expenditures</u>	<u>2021</u>	<u>2020</u>	Percent <u>Change</u>
Instruction	\$ 21,542,371	\$ 21,127,391	2.0%
Support services	10,754,495	10,981,427	(2.1%)
Extracurricular activities	1,185,753	1,190,648	(0.4%)
Operation of non-instructional services	198,034	247,364	(19.9%)
Capital outlay	-	6,206	(100.0%)
Total	<u>\$ 33,680,653</u>	<u>\$ 33,553,036</u>	

General fund expenditures increased \$127,617 or 0.4 percent from the previous year. The overall rise in expenditures over the prior year was primarily attributable to increased compensation and benefit costs associated with contractual obligations and general inflationary pressures.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During fiscal year 2021, the School District amended its general fund budget; however, not significantly. Budget revisions are presented to the Board of Education for approval.

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

For the general fund, the final budget basis revenues and other financing sources estimate was \$34,823,533, which was higher than the original budget estimate of \$34,038,412. The \$785,121 difference was most notably the result of significant, unexpected dividends and rebates provided by the State of Ohio Bureau of Workers' Compensation. The actual revenues and other sources received were \$34,862,957, which was \$824,545 more than originally anticipated, but consistent with the final budget estimate.

The original expenditures and other financing uses estimate of \$35,604,125 was revised over the course of the fiscal year. The final budgeted expenditures and other financing uses were \$35,609,125, which was an increase of \$5,000 or 0.01 percent over the original budget. This was not attributable to any single item. Actual expenditures, including encumbrances and other financing uses, were under budget by \$696,658 or 1.96 percent. This favorable variance was also not attributable to any one specific budget line item or event.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the School District had \$93,802,732 invested in capital assets. Table 6 shows fiscal year 2021 balances compared to fiscal year 2020:

Table 6
Capital Assets, at Fiscal Year End
(Net of Depreciation)

	<u>Governmental Activities</u>	
	<u>2021</u>	<u>2020</u>
Land and construction in progress	\$ 58,394,302	\$ 12,769,865
Land improvements	5,647,961	5,984,150
Buildings and building improvements	26,572,551	27,847,275
Furniture, fixtures and equipment	2,158,154	2,297,904
Vehicles	<u>1,029,764</u>	<u>1,278,006</u>
Total capital assets	<u>\$ 93,802,732</u>	<u>\$ 50,177,200</u>

Significant additions to capital assets were reported by the School District for construction in progress related to the ongoing construction of three new elementary buildings and renovations to the middle school. The School District reported a net increase in the total carrying value of capital assets of \$43,625,532 after the recognition of \$2,023,997 in depreciation expense. See Note 8 to the basic financial statements for detail on the School District's capital assets.

Debt

At June 30, 2021, the School District had \$81,984,535 in bonds (including unamortized bond premium and accreted interest on capital appreciation bonds) outstanding with \$2,820,000 due within one year and \$14,747,223 in direct borrowing lease-purchase agreements outstanding with \$930,070 due within one year. Table 7 summarizes the debt outstanding:

Highland Local School District
 Management's Discussion and Analysis
 For the Fiscal Year Ended June 30, 2021
 Unaudited

Table 7
Outstanding Debt, at Fiscal Year End
Governmental Activities

	<u>2021</u>	<u>2020</u>
School improvement bonds	\$ 6,735,790	\$ 6,896,218
School improvement bonds refunding bonds	75,248,745	78,767,238
School facilities lease-purchase agreement	8,500,000	-
Athletic complex lease-purchase agreement	<u>6,247,223</u>	<u>6,646,902</u>
Total	<u>\$ 96,731,758</u>	<u>\$ 92,310,358</u>

During the fiscal year, the School District received \$8,500,000 from a lease-purchase agreement. The proceeds are being used to finance various improvements of school facilities including the construction, furnishing and equipping of Sharon Elementary School facilities.

At June 30, 2021, the School District's overall legal debt margin was \$25,091,230 with an unvoted debt margin of \$992,814. The School District is rated Aa2 by Moody's Investors Service. The School District has budgeted to meet all of its debt requirements, which are to be repaid from the debt service fund and the sales tax capital projects fund. See Note 12 to the basic financial statements for details on the School District's debt.

Current Issues Affecting Financial Condition

The Board of Education and administration closely monitor the School District's revenues and expenditures. The five year financial forecast is discussed and updated regularly. The School District will be faced with financial challenges in the future. These challenges stem from issues at the local, state, and federal levels. The local challenges will continue to exist as the School District must rely heavily on property taxes to fund its operations as a result of the state's current funding system. The state funding system limits basic aid for school districts such as Highland who are deemed to be relatively wealthy from both a property value and taxpayer income standpoint. Moreover, unfunded state mandates and the expansion of public school choice options continue to divert potential unrestricted operating resources away from traditional public school districts.

Due to the unsettled issues in school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years. Beginning in 2022, a new formula is being used to determine funding from the State, however it is uncertain as to whether it will have a positive or negative impact on the School District's cash position. All of the School District's financial abilities will be required to meet the challenges of the future.

Highland Local School District

**Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2021**

Net change in fund balances - total governmental funds \$ (36,481,736)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.

In the current period, these amounts are:

Capital asset additions	\$ 45,669,857	
Depreciation expense	(2,023,997)	
		43,645,860

The proceeds from the sale of capital assets are reported as a source of financing in the governmental funds. However, the cost of the capital assets sold is removed from the capital assets account in the statement of net position and offset against the sales proceeds resulting in a loss on the disposal of capital assets in the statement of activities. Thus, more revenue is reported in the governmental funds and more expenses in the statement of activities. (20,328)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. These activities consist of:

Property taxes	\$ (23,891)	
Intergovernmental	146,057	
Tuition and fees	(5,144)	
Extracurricular activities	4,838	
Miscellaneous	6,901	
		128,761

Contractually required contributions are reported as expenditures in the governmental funds; however, the statement of activities reports these amounts as deferred outflows.

Pension		3,028,304
OPEB		97,038

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability and OPEB asset are reported as pension/OPEB expense in the statement of activities.

Pension		(5,684,284)
OPEB		70,742

Repayment of debt and lease agreement principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 3,459,679

Lease purchase agreement issued current financial resources and are reported as a financing source in the governmental funds but are not reported as such in the statement of activities. (8,500,000)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Increase in compensated absences	\$ (165,960)	
Decrease in deferred amount from refunding	(19,172)	
Decrease in accrued interest payable	(4,582)	
		(189,714)

The amortization of issuance costs, bond premium and accretion is reflected as an expense in the statement of activities.

Premium	\$ 789,774	
Bond accretion	(170,853)	
		618,921

Change in position of governmental activities \$ 173,243

See accompanying notes to the basic financial statements.

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DESCRIPTION OF REPORTING ENTITY

A. Description of the School District

The Highland Local School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Highland Local School District was established in 1952 through the consolidation of the former Granger-Sharon and Hinckley Local School Districts. The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's seven instructional/support facilities staffed by 160 non-certificated employees, 197 certificated teaching and support personnel, and 17 administrators that provide services to 3,320 students and other community members.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District's accounting policies.

B. Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. This includes general operations, food service, preschool and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. Based on the above criteria, the School District had no component units at June 30, 2021.

The School District is associated with Connect (formerly known as North Coast Council (NCC)) and the Ohio Schools Council, which are defined as jointly governed organizations. Jointly governed organizations are governed by representatives from each of the governments that create the organization. Information regarding Connect and the Ohio Schools Council is presented in Note 13.

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

C. Basis of Presentation - Fund Accounting

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of internal activity of governmental funds are eliminated to avoid "doubling-up" revenues and expenses of governmental activities. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

D. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into two categories: governmental and fiduciary.

Governmental Fund Types

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The School District has three major governmental funds:

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

General Fund: The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund: The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Building Fund: The building capital projects fund is used to account for all receipts and expenditures related to the construction and renovation of new school buildings.

Fiduciary Fund Types

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four categories: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's custodial fund is used to account for money temporarily held for Ohio High School Athletic Association (OHSAA) tournaments.

E. Measurement Focus and Basis of Accounting

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets, liabilities, deferred outflows of resources and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is reported using the economic resources measurement focus.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The private purpose trust fund and agency funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Revenue - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, shared revenue, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Shared revenue and revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and other postemployment benefits (OPEB). The deferred outflows of resources related to pension and OPEB are explained in Notes 10 and 11.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB, deferred amount from refunding, and unavailable revenues. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance the fiscal year 2022 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, tuition and fees, and County levied sales tax. These amounts are deferred and recognized as inflows of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB are reported on the government-wide statement of net position (See Notes 10 and 11).

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the bonds outstanding method and is presented as a deferred inflows of resources and as a deferred outflows of resources on the statement of net position.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating Grants, Contributions and Interest" program revenue account. Unused donated commodities are reported in the account "Inventory held for resale" within the basic financial statements.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

F. Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Certificate of Estimated Resources and the Appropriation Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The amounts reported as original budgeted revenues in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as final budgeted revenues in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2021. The amounts reported as original budgeted expenditures reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as final budgeted expenditures represent the final appropriation amounts passed by the Board during the year.

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

G. Cash and Investments

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or used to purchase investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and investments".

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Some of the School District's monies for the building capital projects fund are held separate from the School District's central bank account and are presented on the statement of net position as "Cash and cash equivalents in segregated accounts" and "Investments in segregated accounts".

During the fiscal year, investments were limited to certificates of deposit, instruments of government sponsored mortgage-backed securities, money market mutual fund, commercial paper, U.S. treasury notes and an interest in STAR Ohio, the State Treasurer's Investment Pool. These investments are stated at cost, which approximates market value (fair value).

The School District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the School District. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year 2021, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice is appreciated 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds, unless the Board specifically allows the interest to be recorded in other funds. The Board of Education has passed a resolution to allow interest to also be recorded in other funds as indicated in Note 4.

For presentation on the basic financial statements, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

I. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". Interfund balances, are eliminated in the statement of net position.

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

J. Inventory

On the governmental-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

Inventories of the general fund primarily include maintenance and custodial supplies, paper supplies, transportation supplies, and fuel. Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale.

K. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are imposed by creditors, contributors, grantors, laws of other governments, or enabling legislation. Restricted assets may include unexpended revenues required to be set aside by the School District for the acquisition or construction of capital improvements.

Restricted assets may also include amounts set aside as a reserve for budget stabilization, which is now optional as determined by the School District. The School District expended all restricted assets in accordance with specific restrictions during the fiscal year. See Note 15 for additional information.

L. Pension and other postemployment benefits (OPEB)

For purposes of measuring the net pension/OPEB liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

The current accounting standard requires school districts to report their proportionate share of the net pension/OPEB liability or asset using the earning approach to pension and OPEB accounting instead of the funding approach as previously used. The funding approach limited pension and postemployment costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability or asset. Under the new standards, the net pension/OPEB liability or asset equals the School District's proportionate share of each plan's collective present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service minus plan assets available to pay these benefits.

Pension and OPEB obligations, whether funded or unfunded, are part of the employment exchange. The employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. The unfunded portion of this benefit of exchange is a liability of the School District. However, the School District is not responsible for key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Benefit provisions and both employer and employee contribution rates are determined by State statute. The employee and employer enter the employment exchange with the knowledge that the exchange is limited by law. The pension system is responsible for the administration of the pension and OPEB plans.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

There is no repayment schedule for the net pension liability or the net OPEB liability. The School District has no control over the changes in the benefits, contribution rates, and return on investments affecting the balance of the liabilities or assets. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not identify the responsible party for the unfunded portion. Due to the unique nature of how the pension liability and the OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

M. Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The School District's policy is not to capitalize interest costs incurred as part of construction.

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land improvements	5 - 20 years
Buildings and building improvements	20 - 50 years
Furniture, fixtures and equipment	3 - 20 years
Vehicles	8 - 20 years

N. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, compensated absences (including employee separation incentives) are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

O. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

P. Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net position restricted for other purposes primarily include amounts generated by individual school buildings to supplement co-curricular and extra-curricular programs, and for operating or capital costs for any new and innovative programs designed to enhance or promote education with the School District.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Q. Interfund Transactions

Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of activities.

R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

S. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. The purpose constraint that represents the intended use is established by the Board of Education or by their designated official. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District or by State statute. The Treasurer is authorized to assign fund balance using encumbrances for planned purchases, provided such amounts have been lawfully appropriated. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

NOTE 2 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are as follows:

Fund Balances	General	Debt Service	Building	Other Governmental Funds	Total Governmental Funds
<u>Nonspendable</u>					
Materials and					
supplies inventory	\$ 96,597	\$ -	\$ -	\$ -	\$ 96,597

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
4. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).
5. The revenues, expenditures and other financing sources and uses of the general fund include activity that is budgeted within special revenue funds (GAAP basis). However, on the budgetary basis, the activity of the special revenue funds is excluded resulting in perspective differences.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the general fund.

Net Change in Fund Balance

	<u>General</u>
GAAP basis	\$ (728,590)
Net adjustment for revenue accruals	1,868,504
Advances in	185,500
Net adjustment for expenditure accruals	(284,215)
Advances out	(5,784)
Encumbrances (Budget basis) outstanding at year-end	(1,176,040)
Perspective differences from funds budgeted as special revenue funds:	
Revenues	(207,110)
Expenditures	298,225
Budget basis	<u>\$ (49,510)</u>

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing within five years from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement, unless the investment is matched to a specific obligation or debt of the School District and the investment is not a commercial paper note, a banker's acceptance or a repurchase agreement:

1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements for a period not to exceed thirty days in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

7. Commercial paper notes, limited to 40% (5% for a single issuer) in total of the interim monies available for investment at any one time and for a period not to exceed two hundred seventy days; and
8. Bankers acceptances, limited to 40% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must provide security for the repayment of all public deposits. These institutions shall give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC). The security for these deposits will be made under an agreement using a surety bond and/or by means of pledging allowable securities as collateral to be held by a qualified trustee. The pledged collateral can be held for each public depositor or in a pool for multiple public depositors and must have a market value of at least 105% of the total value of public monies on deposit at the institution. If the institution participates in the Ohio Pooled Collateral System (OPCS), the total market value of the securities pledged can be 102% or lower if permitted by the Treasurer of State.

One of the School District's financial institutions participates in the OPCS and was approved for a reduced collateral floor of 50 percent whereas, their other financial institutions do not participate in this program. As of June 30, the carrying amount of the School District's deposits was \$45,991,387, and \$568,278 of the School District's total bank balance of \$46,354,432 was exposed to custodial credit risk because those deposits were uninsured and uncollateralized.

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

B. Investments

As of June 30, 2021, the School District had the following investments and maturities:

Investment Type	Fair Value	Percentage of Investments	Investment Maturities (in years)		
			< 1 year	< 2 years	3-5 years
Federal Home Loan Mortgage Corporation Bonds	\$ 962,162	9.77%	\$ -	\$ -	\$ 962,162
Federal Home Loan Bank Bonds	249,668	2.54%	-	-	249,668
Federal Farm Credit Bank Bonds	382,943	3.89%	-	382,943	-
Federal National Mortgage Association Bonds	258,963	2.63%	-	-	258,963
U.S. Treasury notes	494,063	5.02%	-	-	494,063
Negotiable certificates of deposit	5,114,857	51.96%	-	3,814,476	1,300,381
Nonnegotiable certificates of deposit	2,245,000	22.81%	-	1,245,000	1,000,000
First American government obligation	34,184	0.35%	34,184	-	-
STAR Ohio	916	0.01%	916	-	-
Investments recorded in building fund:					
First American government obligation	100,301	1.02%	100,301	-	-
STAR Ohio	457	0.00%	457	-	-
Total investments recorded in building fund	100,758	1.02%	100,758	-	-
Total investments	<u>\$ 9,843,514</u>	<u>100.00%</u>	<u>\$ 135,858</u>	<u>\$ 5,442,419</u>	<u>\$ 4,265,237</u>

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The preceding table identifies the School District's recurring fair value measurement as of June 30, 2021. As previously discussed Star Ohio is reported at its net asset value. Other investments of the School District are valued using Level 2 inputs using valuation techniques that incorporate market data for similar investments, broker quotes and inactive transactions prices.

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The investments in Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Federal National Mortgage Association (FNMA) and commercial paper are held by the counterparty's trust department or agent and not in the School District's name. All of the School District's negotiable certificates of deposit are registered securities and covered in full by FDIC insurance. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Interest rate risk is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Credit risk is the possibility that an issuer or other counterparty to an investment will not fulfill its obligation. Standard and Poor's has assigned STAR Ohio and the First American Government Obligation an AAAM rating, the FHLMC, FHLB, FFCB and FNMA bonds an AA+ rating, the U.S. Treasury notes have a A-1+ rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard service rating. The School District's investment policy requires certain credit ratings for some investments as allowed by state law.

Concentration of credit risk is the possibility of loss attributed to the magnitude of the School District's investment in a single issuer. More than 5% of the School District's investments are in U.S. Treasury notes. These investments are presented in the table on the previous page. The investment in STAR Ohio is a pooled investment and not of a single issuer. The investments in negotiable CD's are all individually below the 5 percent. The School District's policy does not specify stricter limits than allowed by law.

All interest is legally required to be placed in the general fund, the food service and auxiliary services special revenue funds, the building capital projects fund and the Scholarships private purpose trust fund. Interest revenue and the change in fair value of investments credited to the general fund during fiscal year 2021 amounted to \$51,028, which includes \$16,271 assigned from other School District funds.

NOTE 5 - PROPERTY TAX

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used for public utilities) located in the School District. Real property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed value listed as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2021 represents collections of calendar year 2020 taxes. Public utility real and tangible personal property taxes received in calendar year 2021 became a lien December 31, 2019, were levied after April 1, 2020 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Medina and Summit Counties. The Medina County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by year-end are available to finance the current fiscal year operations. The amount available to be advanced can vary based on the date the tax bills are sent and on the collection of delinquent taxes. The Board has passed a resolution to accept advances of property taxes and make them available for appropriation.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2021 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at year-end was \$2,083,239 in the general fund and \$678,506 in the debt service fund, and is recognized as revenue on the fund financial statements.

On the accrual basis, collectible delinquent property taxes have been recorded as revenue on the statement of activities.

The assessed values totaling \$992,813,720 upon which the current fiscal year taxes were collected are:

2020 <u>Property Category</u>	<u>Medina County</u>	<u>Summit County</u>
<u>Real Property</u>		
Residential and agricultural	\$ 891,438,450	\$ 9,037,220
Commercial, industrial and minerals	73,340,940	-
<u>Tangible Personal Property</u>		
Public utilities	<u>18,785,150</u>	<u>211,960</u>
Total	<u>\$ 983,564,540</u>	<u>\$ 9,249,180</u>

NOTE 6 – SHARED SALES TAX REVENUE

During 2007, the voters of Medina County passed an additional one-half percent sales tax to be used for capital improvements at all school districts within the County. Collection began in October 2007 for a period of 30 years. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The County then allocates this tax to the school districts within the County based on the number of students enrolled.

NOTE 7 - RECEIVABLES

Receivables at year-end consisted of taxes, accounts, accrued interest, interfund, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds. The general fund and nonmajor governmental funds reported intergovernmental receivables as follows:

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

<u>Governmental Activities</u>	<u>Amounts</u>
General:	
School foundation adjustments	\$ 88,267

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

During fiscal year 2021, some assets previously reported in furniture, fixtures and equipment have been reclassified as land improvements.

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 458,707
Special	19,452
Vocational	3,415
Support services:	
Pupils	50,761
Instructional staff	34,664
Administration	21,604
Fiscal	3,572
Business	334
Operation and maintenance of plant	376,263
Pupil transportation	238,559
Central	1,707
Food service operations	78,963
Extracurricular activities	<u>735,996</u>
Total depreciation expense	<u>\$ 2,023,997</u>

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years.

The School District has contracted with the Stark County Schools Council of Governments (COG) to provide medical/surgical, dental, vision, life insurance and accidental death and dismemberment insurance for its employees and their covered dependents. The COG is a shared risk pool comprised of more than one hundred member school districts, educational service centers, libraries, colleges and related agencies. The employer participants pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees and their covered dependents. This plan includes both individual and aggregate stop-loss provisions. Premium contributions are determined annually in a manner that ensures the pool is funded up to the aggregate stop loss attachment point. Premium holidays may be declared by the COG to ensure reserves do not exceed thirty percent of annual expenditures.

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries and wages. This rate is calculated based on accident history and administrative costs.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

NOTE 10 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual basis of accounting.

A. School Employees Retirement System

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before <u>August 1, 2017</u> *	Eligible to Retire on or after <u>August 1, 2017</u>
Full benefits	Age 65 with 5 years of service; or Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. In 2020, the Board of Trustees approved a 0.5 percent cost-of-living adjustment (COLA) for eligible retirees and beneficiaries in 2021.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2021, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District's contractually required contribution to SERS was \$677,821 for fiscal year 2021. Of this amount \$73,515 is reported as an intergovernmental payable.

B. State Teachers Retirement System of Ohio

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 27 years of service, or 30 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2021, plan members were required to contribute 14 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2021 contribution rates were equal to the statutory maximum rates.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

The School District's contractually required contribution to STRS was \$2,350,483 for fiscal year 2021. Of this amount \$414,087 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the net pension liability - prior measurement date	0.1406755%	0.1347205%	
Proportion of the net pension liability - current measurement date	<u>0.1473738%</u>	<u>0.1349207%</u>	
Change in proportionate share	<u>0.0066983%</u>	<u>0.0002002%</u>	
Proportionate share of the net pension liability	\$9,747,614	\$32,646,004	\$42,393,618
Pension expense	\$1,256,292	\$4,427,992	\$5,684,284

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and actual experience	\$ 18,934	\$ 73,249	\$ 92,183
Changes of assumptions	-	1,752,460	1,752,460
Net difference between projected and actual earnings on pension plan investments	618,776	1,587,579	2,206,355
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	248,446	446,519	694,965
School District contributions subsequent to the measurement date	<u>677,821</u>	<u>2,350,483</u>	<u>3,028,304</u>
Total deferred outflows of resources	<u>\$ 1,563,977</u>	<u>\$ 6,210,290</u>	<u>\$ 7,774,267</u>
Deferred inflows of resources			
Net difference between expected and actual experience	<u>\$ -</u>	<u>\$ 208,749</u>	<u>\$ 208,749</u>

\$3,028,304 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Fiscal Year	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
2022	\$ 157,632	\$ 1,315,782	\$ 1,473,414
2023	276,875	669,185	946,060
2024	257,919	936,930	1,194,849
2025	<u>193,730</u>	<u>729,161</u>	<u>922,891</u>
Total	<u>\$ 886,156</u>	<u>\$ 3,651,058</u>	<u>\$ 4,537,214</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Wage inflation	3 percent
Future salary increases, including inflation	3.5 percent to 18.2 percent
COLA or Ad Hoc COLA	2.5 percent
Investment rate of return	7.5 percent net of investments expense, including inflation
Actuarial cost method	Entry age normal

For 2020, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members was based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset class</u>	<u>Target allocation</u>	<u>Long term expected real rate of return</u>
Cash	2.00 %	1.85 %
US stocks	22.50	5.75
Non-US stocks	22.50	6.50
Fixed income	19.00	2.85
Private equity	12.00	7.60
Real assets	17.00	6.60
Multi-asset strategies	<u>5.00</u>	6.65
Total	<u>100.00</u> %	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease <u>(6.5%)</u>	Current discount rate <u>(7.5%)</u>	1% Increase <u>(8.5%)</u>
School District's proportionate share of the net pension liability	\$ 13,353,040	\$9,747,614	\$6,722,592

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent
Projected salary increases	2.5 percent at age 65 to 12.5 percent at age 20
Investment rate of return	7.45 percent, net of investment expenses, including inflation
Discount rate of return	7.45 percent
Payroll increases	3 percent
Cost of living adjustments (COLA)	0 percent, effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2020 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset class	Target allocation **	Long term expected real rate of return*
Domestic equity	28.00 %	7.35 %
International equity	23.00	7.55
Alternatives	17.00	7.09
Fixed income	21.00	3.00
Real estate	10.00	6.00
Liquidity reserves	1.00	2.25
Total	<u>100.00 %</u>	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30 year period, STRS's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Target weights will be phased in over a 24 month period concluding on July 1, 2019.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current discount rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$ 46,482,226	\$32,646,004	\$20,920,958

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2021, members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages paid.

NOTE 11 – DEFINED BENEFIT OPEB PLANS

Net OPEB Liability or Asset

The net OPEB liability or asset reported on the statement of net position represents a liability or asset to employees for OPEB. OPEB is a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. OPEB are provided to an employee on a deferred payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability or asset represents the School District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability or asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability or asset. Resulting adjustments to the net OPEB liability or asset would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability or asset on the accrual basis of accounting. Any liability for the contractually required OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

A. School Employees Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, prorated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the School District's surcharge obligation was \$97,038.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$97,038 for fiscal year 2020. Of this amount \$97,038 is reported as an intergovernmental payable.

B. State Teachers Retirement System

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liability or Asset, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability or asset was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability or asset was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability or asset was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the net OPEB liability (asset) - prior measurement date	0.1443167%	0.1347205%	
Proportion of the net OPEB liability (asset) - current measurement date	<u>0.1528959%</u>	<u>0.1349207%</u>	
Change in proportionate share	<u>0.0085792%</u>	<u>0.0002002%</u>	
Proportionate share of the net OPEB liability (asset)	\$3,322,928	(\$2,371,228)	\$951,700
OPEB expense	\$39,153	(\$109,895)	(\$70,742)

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and actual experience	\$ 43,643	\$ 151,937	\$ 195,580
Changes of assumptions	566,444	39,143	605,587
Net difference between projected and actual earnings on pension plan investments	37,442	83,102	120,544
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	255,935	112,749	368,684
School District contributions subsequent to the measurement date	<u>97,038</u>	<u>-</u>	<u>97,038</u>
Total deferred outflows of resources	<u>\$ 1,000,502</u>	<u>\$ 386,931</u>	<u>\$ 1,387,433</u>
Deferred inflows of resources			
Differences between expected and actual experience	\$ 1,689,941	\$ 472,314	\$ 2,162,255
Changes of assumptions	83,697	2,252,269	2,335,966
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	<u>47,482</u>	<u>-</u>	<u>47,482</u>
Total deferred inflows of resources	<u>\$ 1,821,120</u>	<u>\$ 2,724,583</u>	<u>\$ 4,545,703</u>

\$97,038 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an adjustment to the net OPEB asset in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
2022	\$ (192,474)	\$ (581,226)	\$ (773,700)
2023	(189,765)	(524,976)	(714,741)

2026	(126,266)	(107,330)	(233,596)
2027	<u>(40,552)</u>	<u>(114,540)</u>	<u>(155,092)</u>
Total	<u>\$ (917,656)</u>	<u>\$ (2,337,652)</u>	<u>\$ (3,255,308)</u>

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented below:

Wage inflation	3 percent
Future salary increases, including inflation	3.5 percent to 18.2 percent
Investment rate of return	7.5 percent net of investments expense, including inflation
Municipal bond index rate:	
Measurement date	2.45 percent
Prior measurement date	3.13 percent
Single equivalent interest rate, net of plan investment expense, including price inflation	
Measurement date	2.63 percent
Prior measurement date	3.22 percent
Medical trend assumption	
Pre-Medicare	7.00 to 4.75 percent
Medicare	5.25 to 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 10.

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63 percent. The discount rate used to measure total OPEB liability at June 30, 2019, was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024, and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45 percent, as of June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	1% Decrease <u>(1.63%)</u>	Current discount rate <u>(2.63%)</u>	1% Increase <u>(3.63%)</u>
School District's proportionate share of the net OPEB liability	\$ 4,067,182	\$3,322,928	\$2,731,248

	1% Decrease <u>(6.00% decreasing to 3.75%)</u>	Current trend rate <u>(7.00% decreasing to 4.75%)</u>	1% Increase <u>(8.00% decreasing to 5.75%)</u>
School District's proportionate share of the net OPEB liability	\$ 2,616,553	\$3,322,928	\$4,267,533

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment rate of return	7.45 percent, net of investment expenses, including inflation
Payroll increases	3 percent
Discount rate of return	7.45 percent
Health care cost trends:	
Medical	
Pre-Medicare	5.00 percent initial, 4.00 percent ultimate
Medicare	(6.69) percent initial, 4.00 percent ultimate
Prescription drug	
Pre-Medicare	6.50 percent initial, 4.00 percent ultimate
Medicare	11.87 percent initial, 4.00 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

Since the prior measurement date, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 10.

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	<u>1% Decrease</u> <u>(6.45%)</u>	<u>Current</u> <u>discount rate</u> <u>(7.45%)</u>	<u>1% Increase</u> <u>(8.45%)</u>
School District's proportionate share of the net OPEB asset	\$ (2,063,123)	(\$2,371,228)	(\$2,632,645)

	<u>1% Decrease</u>	<u>Current</u> <u>trend rate</u>	<u>1% Increase</u>
School District's proportionate share of the net OPEB asset	\$ (2,616,418)	(\$2,371,228)	(\$2,072,552)

Highland Local School District

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

General Obligation Bonds:

On March 8, 2016, the School District issued \$19,205,000 in General Obligation Bonds with interest rates ranging from 2% to 5% to current refund \$22,325,000 of outstanding School Improvement Bonds with an average interest rate of 4.25%. The bond proceeds consisted of bond principal and \$3,817,887 of premium. The net proceeds of \$18,994,692 (after payment of \$210,308 in underwriting fees, insurance, and other issuance costs) was deposited into an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of School Improvement Bonds refunded. As a result of this issue, a portion of the School Improvement Facilities Bonds are considered to be redeemed and the liability has been removed. As of June 1, 2016, all of the old bonds have been called and redeemed. The new bonds are serial bonds. The School District current refunded the School Improvement Bonds to reduce their total debt service payments over the next 11 years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$3,609,699.

In April 2018, the School District issued \$57,100,000 in School Improvement Bonds with interest rates ranging from 3% to 5.25%. The School Improvement bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. The bonds were issued for providing resources for constructing, furnishing, and equipping new elementary schools, renovating, remodeling, reconstructing, adding to, furnishing, equipping, and otherwise improving school facilities and their sites, including the middle school. The bonds and interest are to be repaid by the debt service fund from the proceeds of property taxes collected from a levy that was approved by the taxpayers.

In May 2018, the School District issued \$5,900,000 in School Improvement Bonds with interest rates ranging from 2% to 4.25%. The School Improvement bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. The bonds were issued for providing resources for constructing, furnishing, and equipping new elementary schools, renovating, remodeling, reconstructing, adding to, furnishing, equipping, and otherwise improving school facilities and their sites, including the middle school. The bonds and interest are to be repaid by the debt service fund from the proceeds of property taxes collected from a levy that was approved by the taxpayers.

On March 3, 2020, the School District issued \$53,945,000 in General Obligation Bonds with interest rates ranging from 3% to 5.25% to refund \$53,945,000 of outstanding School Improvement Bonds with an average interest rate of 5.125%. The bond proceeds consisted of bond principal and \$7,698,073 of premium. The net proceeds of \$61,128,743 (after payment of \$514,330 in underwriting fees, insurance, and other issuance costs) was deposited into an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of School Improvement Bonds refunded. As a result of this issue, a portion of the School Improvement Bonds are considered to be redeemed and the liability has been removed. The old bonds have a call date of June 1, 2023. The new bonds include serial and capital appreciation bonds. The School District refunded the School Improvement Bonds to reduce their total debt service payments over the next 35 years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$12,267,201.

Direct borrowings: During February 2021, the School District entered into a lease-purchase agreement to finance \$8,500,000. The proceeds from the transaction are being used to finance various improvements of school facilities including the construction, furnishing and equipping of Sharon Elementary School facilities. The repayment terms are using an interest rate of 2.25% and maturity date of December 1, 2035.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

On June, 5, 2014, the School District entered into a lease-purchase agreement to finance the construction of a new athletic complex. The aggregate amount of the principal component of payments under the agreement is \$7,255,066 and the interest component of those payments accrues at the fixed rate of 3.272%. Payments under the agreement, amounting to \$500,000 annually and first due on June 5, 2015, are planned to be paid from County sales tax revenue and private donations received by the School District. The final payment under the agreement is due June 5, 2034.

On October 21, 2014, the School District entered into a supplemental lease-purchase agreement to provide additional financing for the aforementioned athletic complex project in the aggregate principal amount of \$1,440,725. The interest component of payments accrues at the fixed rate of 3.25%. Payments under the supplemental agreement, amounting to \$99,091 annually and first due on October 21, 2015, are also to be paid from County sales tax revenue and private donations received by the School District. The final payment under the supplemental agreement is due October 21, 2034.

In February 2020, the School District refinanced the lease-purchase agreements. The interest component of payments in the new agreement accrues at a fixed rate of 2.60%. Payments under the new agreement, amount to \$572,498 annually and are due on June 5 each year. The final payment under the new lease-purchase agreement is June 5, 2034.

The outstanding lease-purchase agreements contain: (1) a provision that funds must be legally appropriated for an amount sufficient to make all lease payments during the lease term or the lease terminates and (2) a provision that in the event of default leased property be returned at the School District's expense.

Compensated absences: Compensated absences are typically paid from the fund from which the employee is paid. Substantially all compensated absence obligations have been paid from the general fund in prior years.

There is no repayment schedule for the net pension liability and net OPEB liability; however the School District pays pension and OPEB obligations related to employee compensation from the fund benefitting from their service.

Principal and interest requirements to amortize all bonds and the lease-purchase agreement outstanding at June 30, 2021 are as follows:

NOTE 13 - JOINTLY GOVERNED ORGANIZATIONS

Connect is a jointly governed organization comprised of twenty-four member school districts, three educational service centers and the Ohio Schools Council. The jointly governed organization was formed for the purpose of providing support and leadership which enables organizations to achieve their objectives through innovative and cost effective shared technology solutions. Connect is governed by a four member Board of Directors consisting of the Superintendent of the Educational Service Center of Northeast Ohio, the Superintendent of the Educational Service Center of Lorain County, the Superintendent of the Educational Service Center of Medina County and the Executive Director of the Ohio Schools Council. Each participating entity's contribution to Connect is dependent upon student enrollment and/or software packages and services utilized. Financial information for Connect can be obtained by contacting the Treasurer at the Educational Service Center of Northeast Ohio, which serves as fiscal agent. During fiscal year 2021, the School District contributed \$76,103 to Connect.

The Ohio Schools Council (Council) is a jointly governed organization among 254 school districts, educational service centers, joint vocational school districts, and developmental disabilities boards in thirty-four Ohio counties. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to its members. Each member supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. During fiscal year 2021, the School District paid the Council \$52,813 for natural gas purchases, and \$1,573 for membership fees. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council, at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

NOTE 14 - CONTINGENCIES

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2021, if applicable, cannot be determined at this time.

In the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2021.

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. ODE has finalized the impact of enrollment adjustments to the June 30, 2021 Foundation funding for the School District. These adjustments were insignificant for the School District for fiscal year 2021.

NOTE 15 - STATUTORY RESERVES

The School District is required by the state law to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. The School District may replace using general fund revenues with proceeds from various sources (offsets), such as bond or levy proceeds related to the acquisition, replacement, enhancement, maintenance or repair of permanent improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

Although the School District had qualifying disbursements and current year offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance reserve, this amount may not be used to reduce the set aside requirement for future years. This negative balance is, therefore, not presented as being carried forward to future years.

The following information describes the change in the year-end set-aside amounts for capital maintenance.

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	Capital Maintenance <u>Reserve</u>
Set-aside cash balance as of June 30, 2020	\$ -
Current year set-aside requirement	586,354
Current year offset	(3,060,000)
Qualifying disbursements	<u>(411,455)</u>
Total	<u>\$ (2,885,101)</u>
Balance carried forward to future years	<u>\$ -</u>

NOTE 16 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund balances at June 30, 2021 consisted of the following:

Due to general fund from:	
Nonmajor governmental funds	\$ 5,784
Advances from general fund to:	
Nonmajor governmental funds	<u>240,000</u>
Total interfund receivable/payable	<u>\$ 245,784</u>

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2021, the \$5,784 interfund loan outstanding is anticipated to be repaid in fiscal year 2022. The \$240,000 interfund loan outstanding is classified as long-term and is anticipated to be repaid in installments over the next several years.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers for the year ended June 30, 2021, consisted of the following:

Transfers to nonmajor governmental funds from:	
General fund	\$ 64,000

NOTE 17 – ENCUMBRANCES

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. The School District had outstanding encumbrances at June 30, 2021 in the following funds:

Highland Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

General fund	\$ 1,176,034
Building fund	9,310,159
Other governmental funds	<u>101,900</u>
Total encumbrances at year end	<u>\$ 10,588,093</u>

The building fund has significant contractual commitments for design services, property services and renovations and improvements for the new elementary schools and middle school.

NOTE 18 – ACCOUNTABILITY

As of June 30, 2021, several funds had a deficit fund balance. These deficits were caused by the application of GAAP; namely in the reporting of various liabilities attributable to the fiscal year. This deficit balance will be eliminated by anticipated future intergovernmental revenues or other subsidies not recognized and recorded at June 30. The following fund had a deficit balance:

	<u>Amount</u>
<u>Nonmajor special revenue fund:</u>	
IDEA, Part B	\$ 84,658
Title II - A	5,195

NOTE 19 – TAX ABATEMENTS

Pursuant to Ohio Revised Code (ORC) Section 3735, Medina County established a Community Reinvestment Area (CRA) program. The CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRAs are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing has traditionally been discouraged. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for the renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity’s property tax bill.

The total value of the School District’s share of taxes abated for fiscal year 2021 was \$192,410.

Pursuant to ORC Section 5709.82, Medina County and the School District have entered into various Community Reinvestment Area Compensation Agreements. These agreements require compensation to the School District for a specified portion of the property tax revenues forgone as a result of the tax incentives granted. Compensation agreement payments are made directly to the School District by the taxpayer(s) receiving the tax benefit. The School District received a total of \$37,950 in compensation agreement payments during fiscal year 2021.

Highland Local School District

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2021

NOTE 20 – CHANGE IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF NET POSITION AND FUND BALANCE

For fiscal year 2021, the School District has implemented GASB Statement No. 84, “Fiduciary Activities”. GASB Statement No. 84 establishes specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business-type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the District will no longer be reporting agency funds. The School District reviewed its agency funds, and these funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the School District’s financial statements.

A net position restatement is required in order to implement GASB Statement No. 84. The June 30, 2020, net position of the governmental activities has been restated as follows:

	<u>Governmental Activities</u>
Net position June 30, 2020	\$ 9,763,664
Restatement GASBS No. 84	<u>177,531</u>
Restated net position at July 1, 2021	<u>\$ 9,941,195</u>

The implementation of GASB Statement No. 84 had the following effect on fund balance as reported at June 30, 2020:

	<u>General</u>	<u>Debt Service</u>	<u>Building</u>	<u>Other Governmental Funds</u>	<u>Total Governmental Funds</u>
Fund balance June 30, 2020	\$ 22,633,227	\$ 8,802,437	\$ 54,818,747	\$ 1,235,284	\$ 87,489,695
Restatement GASBS No. 84	<u>-</u>	<u>-</u>	<u>-</u>	<u>177,531</u>	<u>177,531</u>
Restated fund balance at July 1, 2021	<u>\$ 22,633,227</u>	<u>\$ 8,802,437</u>	<u>\$ 54,818,747</u>	<u>\$ 1,412,815</u>	<u>\$ 87,667,226</u>

NOTE 21 – CORONAVIRUS PANDEMIC (COVID-19)

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures have impacted the current period and will continue to impact subsequent periods of the School District. Furthermore, due to the dynamic environment and changes in fiscal policies, the exact impact on the School District’s future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be reasonably estimated.

**Combining Statements for Nonmajor
Governmental Funds**

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

NONMAJOR SPECIAL REVENUE FUNDS

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. A description of the School District's nonmajor special revenue funds follows:

Food Service

To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the School District's students and staff.

Special Trust

To account for the use of donations used to provide educational experiences for the School District's elementary students.

Miscellaneous Local Grant

To account for a number of small local grants that are restricted for specific expenditures.

Student Managed Student Activity

To account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

District Managed Student Activity

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleading, dance, and other similar types of activities.

Auxiliary Services

To account for state monies used to provide services and materials for pupils attending non-public schools within the School District.

Student Wellness and Success

To account for monies to support students' academic achievement through mental health counseling, wraparound services, mentoring, and after-school programs.

Miscellaneous State Grant

To account for monies restricted from state agencies which are not classified elsewhere.

Elementary and Secondary School Emergency Relief

To account for emergency relief grants to school districts related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students.

Coronavirus Relief

To account for costs that are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19).

IDEA, Part B

To account for federal funds for the provision of full educational opportunities to disabled children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the disabled.

Title III Limited English Proficiency

To account for monies to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I

To account for federal funds for services provided to meet special educational needs of educationally deprived children.

IDEA Preschool Grant

To account for federal funds used for the improvement and expansion of services for disabled children ages three through five years.

Improving Teacher Quality

To account for monies to hire additional classroom teachers grades 1 through 3, so that the number of students per teacher will be reduced.

Miscellaneous Federal Grant

To account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are established to account for financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities. The nonmajor capital projects fund are:

Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

Sales Tax

To account for shared sales tax monies to be used for permanent improvement projects.

NONMAJOR PERMANENT FUNDS

Permanent funds are established to account for resources that are restricted to the extent that only earnings, not principal, may be used for purposes that support the School District's programs.

Sharon Elementary Trust

To account for principal trust amounts received and related interest income. The interest portion of the trust can be used for the upkeep and maintenance of the Sharon Elementary garden.

Endowment

To account for all other principal trust amounts received and related interest income. The interest portion of the trust can be used to support the School District's programs.

**Individual Fund Schedules of Revenues, Expenditures and Changes
in Fund Balance – Budget (Non-GAAP Basis) and Actual
Governmental Funds – Major and Nonmajor**

MAJOR GENERAL FUND

The general fund is the main operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

FUNDS BEING REPORTED AS PART OF THE GENERAL FUND

The following funds are legally budgeted as separate special revenue funds but are being reported as part of the general fund for GAAP reporting purposes.

Uniform School Supplies

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

Latchkey and Community Education

To account for income and expenditures made in connection with goods and services provided relative to the School District's before and after school care program and personal enrichment addressing the unique interests of individuals and meeting the community needs.

MAJOR DEBT SERVICE FUND

The debt service fund is used to account for the accumulation of resources and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the government is obligated in some manner for the payment. It is also used to account for the accumulation of resources and the payment of general obligation notes payable, as required by Ohio Law.

MAJOR CAPITAL PROJECTS FUND

The building capital projects fund is used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificate of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

Statistical Section

This part of the School District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.	S2 - S13
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source, the property tax.	S14 - S21
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S22 - S26
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S27 - S28
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S29 - S35

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property including public utility real property is 35% of estimated true value. The assessed value of public utility personal property ranges from 0% of true value for railroad property to 85% for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25% for machinery and equipment. General business inventory tangible personal property tax was phased out beginning in 2006. The listing percentages during the phase out were 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and zero for 2009. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies. No tangible personal property taxes were levied or collected in 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property tax was in 2010).

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property was eliminated.

- (1) Includes homestead exemptions and rollback of locally assessed taxes which are reimbursed by the State and reported as intergovernmental revenue.
- (2) The 2021 information cannot be presented because all collections have not been made by June 30, 2021.
- (3) The County's current reporting system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

(1) Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt.

(2) Beginning in fiscal year 2006, HB530 changed the assessed valuation utilized in the legal debt margin calculation to exclude certain tangible personal property as well as railroad and telephone tangible property.

(3) Excludes accretion and premium on the bonds.

n/a - information is not available at this time or is no longer published.

(1) Beginning with the 2012-2013 Local Report Card, the Ohio Department of Education implemented changes that affect the manner in which the graduation rate is reported. The graduation rate disclosed in the new Local Report Card represents a 4-year longitudinal graduation rate that takes into consideration the amount of time it takes an incoming freshman to successfully complete high school. Graduation rates are also published one year in arrears.
