Members of the Board  
School Employees Retirement System of Ohio  
300 E Broad Street, Suite 100  
Columbus, Ohio 43215

We have reviewed the *Independent Auditor's Report* for the GASB 68 (Pension) related schedules and the GASB 75 (OPEB) related schedules of the School Employees Retirement System of Ohio, Franklin County, prepared by RSM US LLP, for the audit period July 1, 2020 through June 30, 2021. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying schedules and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The School Employees Retirement System of Ohio is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Keith Faber".

## Independent Auditor's Report

The Retirement Board  
School Employees Retirement System of Ohio  
and The Honorable Keith Faber  
Columbus, Ohio

### Report on the Schedules

We have audited the accompanying schedule of employer allocations of the School Employees Retirement System of Ohio (SERS) Pension Plan as of and for the year ended June 30, 2021, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer of the SERS' Pension Plan as of and for the year ended June 30, 2021, and the related notes.

### Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Independent Auditor's Report (Continued)

### Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations, the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense for all participating entities for SERS' Pension Plan as of and for the year ended June 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

### Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of SERS' Pension Plan as of and for the year ended June 30, 2021, and our report thereon, dated December 9, 2021, expressed an unmodified opinion on those financial statements.

### Restriction on Use

Our report is intended solely for the information and use of SERS' Plan management, and SERS' plan employers as of and for the year ended June 30, 2021 and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### **Note 1. Nature of Entity**

School Employees Retirement System of Ohio (SERS) is a statewide, cost-sharing, multiple-employer, defined benefit public employee retirement system. Established by state law in 1937, SERS provides retirement, disability, and survivor benefits to non-teaching employees of Ohio's public K-12 school districts, vocational, technical, and community schools, community colleges, and the University of Akron.

SERS is governed by Chapter 3309 of the Ohio Revised Code. These statutes assign the authority to establish and amend the benefit provisions of the plan to the State Legislature. The operation of SERS and the direction of its policies are the responsibility of the Retirement Board of SERS. The Retirement Board has fiduciary responsibility for the oversight of the general administration and management of SERS. The Board is composed of nine members: four elected employee members; two elected retiree members; and three appointed investment expert members. One investment expert is appointed by the Governor, a second one by the State Treasurer, and the third one jointly by the Speaker of the House and President of the Senate.

**Defined benefit plan:** A traditional defined benefit plan was established in 1937 (the Plan). A summary of the benefit provisions can be found in SERS' Annual Comprehensive Financial Report (ACFR). SERS' ACFR can be accessed on its website at [www.ohsers.org](http://www.ohsers.org).

#### **Note 2. Summary of Significant Accounting Policies**

**Nature of schedules:** Employers participating in a cost-sharing pension plan, and any non-employer contributing entities that meet the definition of a special funding situation, are required to recognize their proportionate share of the collective pension amounts for pension benefits provided to members through the SERS plan. State retirement law requires contributions by covered employees and their employers, and limits the maximum rate of contributions. The Retirement Board sets contribution rates within the allowable limits. The adequacy of employer contribution rates is determined annually by actuarial valuation using the entry age normal cost method. During fiscal year 2021, employees and their employers were required to contribute 10% and 14%, respectively, of active member payroll. SERS does not have a special funding situation and accordingly has no non-employer contributing entities.

The Schedule of Employer Allocations presents the contributions for each employer for the year ended June 30, 2021 and the respective allocation percentage. The Schedule of Pension Amounts by Employer presents the proportionate share of total net pension liability as of June 30, 2021 and total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the year ended June 30, 2021 for all SERS employers. The pension expense includes the amortization of the current year differences between expected and actual economic and demographic experience, differences between projected and actual investment earnings (net) on Plan investments, and the impact of changes of assumptions about future economic or demographic factors or other inputs. The pension expense does not include amortization of deferred inflows and deferred outflows recognized during previous periods.

**Measurement focus and basis of accounting:** The financial transactions are recorded using the economic resources measurement focus and the accrual basis of accounting. Employer contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

**Use of estimates:** The preparation of the Schedule of Employer Allocations and Schedule of Pension Amounts by Employer (Schedules) in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts, and changes therein, and disclosures. Actual results could differ from those estimates and differences could be material.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### Note 2. Summary of Significant Accounting Policies

**Basis of allocation:** In determining the proportionate share of the net pension liability and corresponding employer pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions are made to the Plan, excluding those contributions to separately finance specific liabilities of an individual employer. SERS has determined that the actual contributions made to the Plan during fiscal year 2021 are appropriate as the allocation basis because they are representative of future contributions.

#### Note 3. Contributions

The fiscal year 2021 actual employer contribution total used as the denominator for the allocation calculation in the Schedule of Employer Allocations can be reconciled to SERS' fiscal year 2021 ACFR as follows:

Defined Benefit Plan Employer Contributions - ACFR Total	\$ 483,851,685
Service credits and ARP payments paid by employees	(657,573)
Employer penalties	(243,100)
Other employer payments and miscellaneous revenue	293,081
<b>Total Contributions - Schedule of Employer Allocations</b>	<u><u>\$ 483,244,093</u></u>

#### Note 4. Deferred Outflows and Deferred Inflows

Deferred outflows of resources are the consumption of net position by SERS that is applicable to future reporting periods. Deferred inflows are the acquisition of net position by SERS that is applicable to a future reporting period. Other than differences between projected and actual investment earnings, deferred inflows and outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through SERS (active and inactive), determined as of the beginning of the measurement period. Net deferred inflows (or outflows) of resources pertaining to differences between projected and actual investment earnings are similarly recognized over a closed 5-year period.

The future amortization of the deferred outflows and inflows for the year ended June 30, 2021 is as follows:

	Deferred Outflows**	Deferred Inflows**
2021	\$ 48,864,403	\$ (643,461,169)
2022	28,829,997	(618,786,603)
2023	-	(583,279,300)
2024	-	(583,279,300)
2025	-	-
	<u><u>\$ 77,694,400</u></u>	<u><u>\$ (2,428,806,372)</u></u>

\*\* The tables above do not include deferred outflows/inflows from previous years. Refer to previous year reports to calculate the cumulative deferred outflows/inflows for financial reporting purposes. The change in proportionate share of contributions as reflected on the Schedule of Pension Amounts by Employer results in deferred outflows and inflows, which have been excluded from this table. These amounts will be amortized at the employer level over the average expected remaining service life of all members.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### Note 5. Pension Expense

The components of pension expense for the year ended June 30, 2021:

Service cost	\$ 373,675,302
Interest on the Total Pension Liability	1,525,995,298
Employee contributions	(346,781,820)
Projected earnings on plan investments	(1,060,599,366)
Pension plan administrative expenses	12,770,334
Recognition of Outflow (Inflow) of current period differences in changes in assumptions	48,864,402
Recognition of outflow (inflow) of current period differences in expected and actual experience	(60,181,869)
Recognition of outflow (inflow) of current period differences in expected and actual earnings of plan investments	(583,279,300)
<b>Total Pension Expense - Schedule of Pension Amounts by Employer</b>	<u>(89,537,019)</u>
Recognition of beginning deferred outflows of resources as pension expense	(448,864)
Recognition of beginning deferred inflows of resources as pension expense	-
<b>Total Pension Expense</b>	<u><u>\$ (89,985,883)</u></u>

The average of the expected remaining service lives of all members for fiscal year 2021 is 2.59 years.

#### Note 6. Net Pension Liability and Actuarial Information – Defined Benefit Plans

The net pension liability (NPL) is the portion of the actuarial present value of projected benefit payments related to past periods. The NPL for the employers is based on the allocation percentages from the Schedule of Employer Allocations.

The components of the net pension liability as of June 30, 2021 are as follows:

	Total Pension Liability (a)	Fiduciary Net Position (b)	Net Pension Liability (Surplus) (a) - (b)	Fiduciary Net Position as a Percent of Total Pension Liability (b) / (a)
Pension funds	\$ 21,529,757,004	\$ 17,840,046,988	\$ 3,689,710,016	82.86%

The activity related to the net pension liability for fiscal year 2021 is set forth in the following table:

Net pension liability, July 1, 2020	\$ 6,614,210,692
Total pension expense	(89,985,883)
Change in deferred outflows of resources	78,143,264
Change in deferred inflows of resources	(2,428,806,372)
Employer contributions	(483,851,685)
Net pension liability, June 30, 2021	<u><u>\$ 3,689,710,016</u></u>

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

---

#### Note 6. Net Pension Liability and Actuarial Information – Defined Benefit Plans (Continued)

The total pension liability is determined by SERS' actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation are presented below:

Valuation Date	June 30, 2021
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Actuarial Assumptions Experience Study Date	5-year period ended June 30, 2020
Investment Rate of Return	7.00% net of System expenses
Cost of Living Increases (COLA) or "Ad Hoc" COLA	2.00%, on and after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement.
Future Salary Increases, including Inflation	3.25% - 13.58%
Inflation	2.40%
Mortality Assumptions	Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### Note 6. Net Pension Liability and Actuarial Information – Defined Benefit Plans (Continued)

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in the *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00%	(0.33%)
US Equity	24.75%	5.72%
Non-US Equity Developed	13.50%	6.55%
Non-US Equity Emerging	6.75%	8.54%
Fixed Income/Global Bonds	19.00%	1.14%
Private Equity	11.00%	10.03%
Real Estate/Real Assets	16.00%	5.41%
Multi-Asset Strategy	4.00%	3.47%
Private Debt/Private Credit	3.00%	5.28%

Total pension liability was calculated using the discount rate of 7.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%), or one percentage point higher (8.00%) than the current rate.

	1% Decrease	Current Discount	1% Increase
Rate	6.00%	7.00%	8.00%
System's net pension liability	\$ 6,138,771,258	\$ 3,689,710,016	\$ 1,624,309,612

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### Note 7. Short-Term Solvency Test

SERS' financing objective is to pay for pension benefits through contributions that remain approximately level from year to year as a percent of member payroll.

If the contributions are level in concept and soundly executed, SERS will pay all promised benefits when due, which is the ultimate test of financial soundness. Testing for level contribution rates is the long-term test.

A short-term solvency test is one means of checking a system's progress under its funding program. In a short-term solvency test, the present assets (cash and investments) are compared with:

1. Active member contributions on deposit.
2. The liabilities for future benefits to present retired lives.
3. The liabilities for service already rendered by active members.

Under the level percent of payroll financing, liabilities for active member contributions on deposit and the liabilities for future benefits to present retirees and beneficiaries will be fully covered by present assets except in rare circumstances. In addition, liabilities for active member benefits earned or to be earned in the future will be partially covered by the remainder of present assets. Generally, if SERS has been using level cost financing, the funded portion of active member benefits will increase over time.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of Pension Amounts by Employer

#### **Note 8. COVID-19 Pandemic and Economic Uncertainty**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of SERS, including the fair value of SERS' investment portfolio. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that may be recognized in subsequent periods cannot be determined with half of the fiscal year remaining. In addition, the impact on SERS' future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

## Independent Auditor's Report

The Retirement Board  
School Employees Retirement System of Ohio  
and The Honorable Keith Faber  
Columbus, Ohio

### Report on the Schedules

We have audited the accompanying schedule of employer allocations of the School Employees Retirement System of Ohio (SERS) OPEB Plan as of and for the year ended June 30, 2021, and the related notes. We have also audited the total for all entities of the columns titled net OPEB liability, total deferred outflows of resources, total deferred inflows of resources, and total employer OPEB expense (specified column totals) included in the accompanying schedule of OPEB amounts by employer of the SERS' OPEB Plan as of and for the year ended June 30, 2021, and the related notes.

### Management's Responsibility for the Schedule

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of OPEB amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Independent Auditor's Report (Continued)

### Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and the total for all entities of the columns titled net OPEB liability, total deferred outflows of resources, total deferred inflows of resources and total employer OPEB expense for all participating entities for SERS' OPEB Plan as of and for the year ended June 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

### Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of SERS' OPEB Plan as of and for the year ended June 30, 2021, and our report thereon, dated December 9, 2021, expressed an unmodified opinion on those financial statements.

### Restriction on Use

Our report is intended solely for the information and use of SERS' Plan management, and SERS' plan employers as of and for the year ended June 30, 2021 and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

---

#### Note 1. Nature of Entity

School Employees Retirement System of Ohio (SERS) is a statewide, cost-sharing, multiple-employer, defined benefit public employee retirement system. Established by state law in 1937, SERS provides retirement, disability, and survivor benefits to non-teaching employees of Ohio's public K-12 school districts, vocational, technical, and community schools, community colleges, and the University of Akron.

SERS is governed by Chapter 3309 of the Ohio Revised Code. These statutes assign the authority to establish and amend the benefit provisions of the plan to the State Legislature. The operation of SERS and the direction of its policies are the responsibility of the Retirement Board of SERS. The Retirement Board has fiduciary responsibility for the oversight of the general administration and management of SERS. The Board is composed of nine members: four elected employee members; two elected retiree members; and three appointed investment expert members. One investment expert is appointed by the Governor, a second one by the State Treasurer, and the third one jointly by the Speaker of the House and President of the Senate.

**Defined benefit plan:** A traditional defined benefit plan was established in 1937 (the DB Pension Plan). A summary of the benefit provisions can be found in SERS' Annual Comprehensive Financial Report (ACFR).

**Health care plan:** A cost-sharing, multiple-employer, defined benefit OPEB plan (the OPEB Plan) that provides various levels of health care to retired, disabled and beneficiaries, as well as their dependents. A summary of the benefit provisions can be found in SERS' Annual Comprehensive Financial Report (ACFR).

SERS' ACFR can be accessed on its website at [www.ohsers.org](http://www.ohsers.org).

#### Note 2. Summary of Significant Accounting Policies

**Nature of schedules:** Employers participating in a cost-sharing OPEB plan, and any non-employer contributing entities that meet the definition of a special funding situation, are required to recognize their proportionate share of the collective OPEB amounts for OPEB benefits provided to members through the SERS plan. The Health Care Plan is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The Board seeks to maintain a funded ratio of at least 90% for basic pension benefits. If the basic benefit funded ratio is less than 70%, the entire 14% of the employers' contributions will be allocated to basic pension benefits. If the funded ratio is at least 70% but less than 80%, the minimum portion of the employers' contribution allocated to basic pension benefits is 13.50% of payroll; the remaining 0.50% may be allocated to the Health Care Fund at the Board's discretion. If the funded ratio is at least 80% but less than 90%, at least 13.25% of the employers' contribution will be allocated to basic pension benefits with the remaining 0.75% being allocated to the Health Care Fund at the Board's discretion. If the funded ratio is 90% or greater, the Health Care Fund may receive any portion of the employers' contribution that is not needed to fund basic pension benefits. In addition, there is a health care surcharge designed to compensate for low-wage salaries, levied against employers, and exclusively used for funding health care coverage. A surcharge is payable for any annual payroll salaries falling below the minimum salary threshold; however, the surcharge amount is capped at 2.0% of each employer's payroll and 1.5% of statewide reported payroll.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

#### **Note 2. Summary of Significant Accounting Policies (Continued)**

SERS does not have a special funding situation and accordingly has no non-employer contributing entities.

The Schedule of Employer Allocations presents the contributions for each employer for the year ended June 30, 2021 and the respective allocation percentage. The Schedule of OPEB Amounts by Employer presents the proportionate share of total net OPEB liability as of June 30, 2021 and total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense for the year ended June 30, 2021 for all SERS employers. The OPEB expense includes the amortization of the current year differences between expected and actual economic and demographic experience, differences between projected and actual investment earnings (net) on Plan investments, and the impact of changes of assumptions about future economic or demographic factors or other inputs. The OPEB expense does not include amortization of deferred inflows and deferred outflows recognized during previous periods.

**Measurement focus and basis of accounting:** The financial transactions are recorded using the economic resources measurement focus and the accrual basis of accounting. Employer contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

**Use of estimates:** The preparation of the Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer (Schedules) in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts, and changes therein, and disclosures. Actual results could differ from those estimates and differences could be material.

**Basis of allocation:** In determining the proportionate share of the net OPEB liability and corresponding employer OPEB amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions are made to the OPEB Plan, excluding those contributions to separately finance specific liabilities of an individual employer. SERS has determined that the actual contributions made to the DB Pension Plan plus actual surcharge contributions made to the OPEB Plan represents an appropriate allocation basis because the total of these two amounts is most representative of the level of future contributions to the OPEB Plan.

As described in Note 2, "Nature of schedules", the portion of the 14% employers' contributions allocated to the OPEB Plan may vary from year-to-year and may at times be 0%. In addition, the surcharge contributions made to the OPEB Plan are not made by all employers due to the minimum salary threshold, but potentially all employers have participants in the OPEB Plan and all employers do make contributions to the OPEB Plan when any portion of the 14% employers' contributions is allocated to the OPEB Plan. Therefore, SERS did not deem (i) the amount of the 14% employers' contributions allocated to the OPEB Plan or (ii) the surcharge contributions made to the OPEB Plan to be an appropriate allocation basis individually.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

#### Note 3. Contributions

The fiscal year 2021 actual employer contribution total used as the denominator for the allocation calculation in the Schedule of Employer Allocations can be reconciled to SERS' fiscal year 2021 CAFR as follows:

Defined Benefit Plan Employer Contributions - ACFR Total	\$ 483,851,685
Service credits and ARP payments paid by employees	(657,573)
Employer penalties	(243,100)
Other employer payments and miscellaneous revenue	293,081
	<u>483,244,093</u>
OPEB Employer Contributions - ACFR Total	53,533,333
Other employer payments and miscellaneous revenue	(2,917,289)
	<u>50,616,044</u>
<b>Total Contributions - Schedule of Employer Allocations</b>	<b><u>\$ 533,860,137</u></b>

For fiscal year 2021 employer contributions for OPEB were provided by the health care surcharge. The surcharge minimum salary was \$23,000 for fiscal year 2021.

#### Note 4. Deferred Outflows and Deferred Inflows

Deferred outflows of resources are the consumption of net position by SERS that is applicable to future reporting periods. Deferred inflows are the acquisition of net position by SERS that is applicable to a future reporting period. Other than differences between projected and actual investment earnings, deferred inflows and outflows of resources are recognized in OPEB expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEBs through SERS (active and inactive), determined as of the beginning of the measurement period. Net deferred inflows (or outflows) of resources pertaining to differences between projected and actual investment earnings are similarly recognized over a closed five year period.

The future amortization of the deferred outflows and inflows for the year ended June 30, 2021 is as follows:

	Deferred Outflows**	Deferred Inflows**
	<u>                    </u>	<u>                    </u>
2022	\$ -	\$ 65,111,423
2023	-	65,111,423
2024	-	65,111,423
2025	-	65,111,423
2026	-	50,080,594
Thereafter	-	27,043,526
	<u>\$ -</u>	<u>\$ 337,569,812</u>

\*\* The change in proportionate share of contributions as reflected on the Schedule of OPEB Amounts by Employer results in deferred outflows and inflows, which have been excluded from this table. These amounts will be amortized at the employer level over the average expected remaining service life of all members.

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

#### Note 5. OPEB Expense

The components of OPEB expense for the year ended June 30, 2021:

Service cost	\$ 159,635,250
Interest on the Total OPEB Liability	69,007,716
Projected earnings	(36,426,055)
OPEB plan administrative expenses	3,311,946
Recognition of current period deferred outflow (inflow) resulting from OPEB Employer Contributions - ACFR Total	(39,798,808)
Recognition of current period deferred outflow (inflow) resulting from differences between expected and actual economic experience	(10,281,786)
Recognition of current period deferred outflow (inflow) resulting from differences between expected and actual investment earnings	(15,030,829)
<b>Total OPEB Expense - Schedule of OPEB Amounts by Employer</b>	<u>130,417,434</u>
Recognition of beginning deferred outflows of resources as OPEB expense	89,200,037
Recognition of beginning deferred inflows of resources as OPEB expense	(237,483,589)
<b>Total OPEB Expense</b>	<u>\$ (17,866,118)</u>

The average of the expected remaining service lives of all members for fiscal year 2021 is 6.54 years.

#### Note 6. Net OPEB Liability and Actuarial Information

The net OPEB liability is the portion of the actuarial present value of projected benefit payments related to past periods. The net OPEB liability for the employers is based on the allocation percentages from the Schedule of Employer Allocations.

The components of the net OPEB liability as of June 30, 2021 are as follows:

	Total OPEB Liability (a)	Fiduciary Net Position (b)	Net OPEB Liability (Surplus) (a) - (b)	Fiduciary Net Position as a Percent of Total OPEB Liability (b) / (a)
OPEB	\$ 2,492,912,153	\$ 600,330,188	\$ 1,892,581,965	24.08%

The activity related to the net OPEB liability for fiscal year 2021 is set forth in the following table:

Net OPEB Liability, July 1, 2020	\$ 2,173,327,272
Total OPEB expense	(17,866,118)
Change in deferred outflows of resources	(89,200,037)
Change in deferred inflows of resources	(100,086,223)
Employer contributions	(53,533,333)
Net reimbursements from Medicare Part D qualified prescription drug program and risk-sharing contract with Medicare Advantage provider	(20,059,596)
Net OPEB liability, June 30, 2021	<u>\$ 1,892,581,965</u>

## School Employees Retirement System of Ohio

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

---

#### Note 6. Net OPEB Liability and Actuarial Information (Continued)

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation are presented below:

Valuation Date	June 30, 2021
Actuarial Assumptions	
Experience Study Date	5-year period ended June 30, 2020
Investment Rate of Return	7.00% net of investment expense, including inflation
Inflation	2.40%
Wage Increases	3.25% - 13.58%
Municipal Bond Index Rate	
Prior Measurement Date	2.45%
Measurement Date	1.92%
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Prior Measurement Date	2.63%
Measurement Date	2.27%
Medical Trend Assumption	
Pre-Medicare	6.750% - 4.400%
Medicare	5.125% - 4.400%
Mortality Assumptions	<p><b>Healthy Retirees</b> – PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females.</p> <p><b>Disabled Retirees</b> – PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females.</p> <p><b>Contingent Survivors</b> - PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females.</p> <p><b>Actives</b> – PUB-2010 General Amount Weighted Below Median Employee mortality table</p>

#### Note 6. Net OPEB Liability and Actuarial Information (Continued)

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2015 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2020 five-year experience study, are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00%	(0.33%)
US Equity	24.75%	5.72%
Non-US Equity Developed	13.50%	6.55%
Non-US Equity Emerging	6.75%	8.54%
Fixed Income/Global Bonds	19.00%	1.14%
Private Equity	11.00%	10.03%
Real Estate/Real Assets	16.00%	5.41%
Multi-Asset Strategy	4.00%	3.47%
Private Debt/Private Credit	3.00%	5.28%

The discount rate used to measure the total OPEB liability at June 30, 2021, was 2.27%. The discount rate used to measure total OPEB liability prior to June 30, 2021, was 2.63%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50% of projected covered payroll each year, which includes a 1.50% payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make all projected future benefit payments of current System members by SERS actuaries. The Municipal Bond Index Rate is used in the determination of the SEIR for both the June 30, 2020 and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate is 1.92% at June 30, 2021 and 2.45% at June 30, 2020.

### Notes to Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer

#### Note 6. Net OPEB Liability and Actuarial Information (Continued)

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower and higher than the current discount rate.

	1% Decrease	Current Discount Rate	1% Increase
Rate	1.27%	2.27%	3.27%
Net OPEB Liability	\$ 2,345,138,104	\$ 1,892,581,965	\$ 1,531,047,864

The following table presents the OPEB liability of SERS, what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower and higher than the current rate.

	1% Decrease	Current Trend Rate	1% Increase
Rate	6.00% decreasing to 3.75%	7.00% decreasing to 4.75%	8.00% decreasing to 5.75%
Net OPEB Liability	\$ 1,457,133,024	\$ 1,892,581,965	\$ 2,474,208,058

#### Note 7. Short-Term Solvency Test

SERS' financing objective is to pay for OPEB benefits through contributions that remain approximately level from year to year as a percent of member payroll.

If the contributions are level in concept and soundly executed, SERS will pay all promised benefits when due, which is the ultimate test of financial soundness. Testing for level contribution rates is the long-term test.

A short-term solvency test is one means of checking a system's progress under its funding program. In a short-term solvency test, the present assets (cash and investments) are compared with:

1. Active member contributions on deposit.
2. The liabilities for future benefits to present retired lives.
3. The liabilities for service already rendered by active members.

Under the level percent of payroll financing, liabilities for active member contributions on deposit and the liabilities for future benefits to present retirees and beneficiaries will be fully covered by present assets except in rare circumstances. In addition, liabilities for active member benefits earned or to be earned in the future will be partially covered by the remainder of present assets. Generally, if SERS has been using level cost financing, the funded portion of active member benefits will increase over time.

2012	-	1,074	1,617	355	100.0%	33.1%	0.0%	

**Note 8. COVID-19 Pandemic and Economic Uncertainty**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of SERS, including the fair value of SERS' investment portfolio. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that may be recognized in subsequent periods cannot be determined with half of the fiscal year remaining. In addition, the impact on SERS' future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.
