Board of Directors The Graham School 3950 Indianola Ave Columbus, Ohio 43214

We have reviewed the *Independent Auditor's Report* of The Graham School, Franklin County, prepared by Rea & Associates, Inc., for the audit period July 1, 2020 through June 30, 2021. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Graham School is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of The Graham School, Franklin County, Ohio (TGS), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise TGS's basic financial statements as listed in the table of contents. We also have audited the accompanying schedule of management company expenses presented as supplementary information for the year ended June 30, 2021.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to TGS's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TGS's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TGS as of June 30, 2021, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the supplemental information referred to above presents fairly, in all material respects, the management expenses incurred by TGS on behalf of other schools for the year ended June 30, 2021, in accordance with accounting principles generally accepted in the United State of America.

The Graham School Independent Auditor's Report Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion* and Pension and Other Post-Employment Benefit Schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2021, on our consideration of TGS's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of TGS's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering TGS's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

Our discussion and analysis of The Graham School (TGS) financial performance provides an overall review of TGS' financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at TGS' financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the TGS' financial performance.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Government issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS -

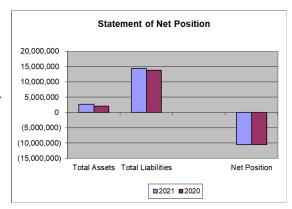

Key Financial Highlights for TGS for the fiscal year 2021 are as follows:

- In total, net position decreased \$47,148, which represents a .4 percent decrease from 2020.
- Total assets increased \$583,059 which represents a 28 percent increase from 2020.
- Total liabilities increased \$577,760 which represents a 4 percent increase from 2020.
- TGS received a PPP loan in the amount of \$1,592,655. The loan was forgiven during the fiscal year.

USING THIS ANNUAL REPORT

This report consists of required supplementary information, the basic financial statements, notes to the basic financial statements and notes to the required supplementary information. The basic financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows.

The Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position reflect how TGS did financially during fiscal year 2021. These statements include all assets, deferred outflows of resources, liabilities, and

deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting includes all of the current year revenues and expenses regardless of when cash is received or paid.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

These statements report TGS' net position and changes in net position. This change in net position is important because it tells the reader whether the financial position of TGS has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include TGS' student enrollment, per-pupil funding as determined by the State of Ohio, change in technology, required educational programs, and other factors.

TGS uses enterprise presentation for all of its activities.

Table 1 provides a summary of TGS' net position for fiscal years 2021 and 2020.

Table 1

Total Net Position	\$ (10,546,230)	\$ (10,499,082)	\$ (47,148)

The net pension liability (NPL) is the largest single liability reported by TGS at June 30, 2021, and is reported pursuant to GASB Statement 68, Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27. In a prior period, TGS also adopted GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of TGS's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal TGS's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2 Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, TGS is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. For STRS, the plan's fiduciary net OPEB position was sufficient to cover the plan's total OPEB liability resulting in a net OPEB asset for fiscal year 2021 that is allocated to each school based on its proportionate share. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability reported by the retirement boards. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

In accordance with GASB 68 and GASB 75, TGS's statements include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

At fiscal year end, capital assets represented 30 percent of total assets. Capital assets include land, buildings, improvements and furniture and equipment. Net investment in capital assets was \$348,991 at June 30, 2021. These capital assets are used to provide services to students and are not available for future spending. Although TGS' investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

The increase in current assets can be attributed to cash accumulated through benefit of additional COVID resources offset by a decrease in services to schools due to COVID.

There was a significant change in net pension/OPEB liability/asset for TGS. These fluctuations are due to changes in the actuarial liabilities/assets and related accruals that are passed through to TGS's financial statements. All components of pension and OPEB accruals contribute to the fluctuations in deferred outflows/inflows and NPL/NOL/NOA and are described in more detail in their respective notes.

The increase in long-term liabilities is due to an increase in net pension liabilities as discussed above, offset with principal payments on the capital lease. Current liabilities decreased primarily in accounts payable from monies owed to The Charles School at Ohio Dominican University (TCS) and The Graham Elementary and Middle School (GEMS).

Statement of Revenues, Expenses and Changes in Net Position

Table 2 shows the changes in net position for fiscal years 2021 and 2020, as well as a listing of revenues and expenses. This change in net position is important because it tells the reader whether, for TGS as a whole, the financial position of TGS has improved or diminished. The cause of this may be the result of many factors, some financial, some not. Non-financial factors include the current laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

Net Position at Beginning of Year	(10,499,082)	(10,629,315)	130,233	
Net Position at End of Year	\$ (10,546,230)	\$ (10,499,082)	\$ (47,148)	

Per management agreement, as TCS and GEMS enrollment increases and operating revenues increase, the amount of management fees TGS collects also increases. During 2021, services to schools declined due to a decline in enrollment. TGS received a forgiveness of loan during fiscal year 2021. See Note 12.

Salaries increased significantly due to an increase in accrued wages and an increase in principal salaries and special education administration, and general increases during the fiscal year. Fringe benefits decreased significantly. The changes in fringe benefits are primarily associated to changes in the TGS's proportionate share of the net pension liability, net OPEB liability/asset and related accruals. As previously indicated, these items are explained in detail within their respective notes.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2021

CAPITAL ASSETS

TGS has \$803,111 invested in capital assets, net of accumulated depreciation. Detailed information regarding capital asset activity is included in the Note 5 to the basic financial statements.

DEBT OBLIGATIONS

TGS has long-term debt obligations of \$454,120 at June 30, 2021, of which \$45,647 is current. Note 12 to the basic financial statements summarize all of the TGS' debt obligations at June 30, 2021.

OTHER INFORMATION

For the Future

Our financial position improved considerably during fiscal year 2021 due to the forgiveness of our PPP loan.

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures have impacted the current period and will continue to impact subsequent periods of TGS. Due to the dynamic environment and changes in fiscal policies, the exact impact on TGS's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be reasonably estimated.

CONTACTING THE GRAHAM SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizen's, taxpayers, investors and creditors with a general overview of TGS' finances and to demonstrate accountability for the money it receives. If you have questions about this report or need additional information contact Ms. Jennifer Smith of The Graham School, 3950 Indianola Avenue, Columbus, Ohio 43214 or e-mail at jsmith.1@mail.thegrahamschool.org.

Contributions were received from TCS and GEMS for debt service on copiers in the amount of \$13,351, of which \$12,959 is related to principal payments.

The School qualified for \$1,592,655 in loan forgiveness through Paycheck Protection Program.

See accompanying notes to the basic financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

1. DESCRIPTION OF THE REPORTING ENTITY

The Graham School (TGS) is a nonprofit corporation established pursuant to Ohio Revised Code Chapters 3314 and 1702. TGS is an approved tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code. Management is not aware of any course of action or series of events that have occurred that might adversely affect TGS' tax-exempt status. TGS' objective is to use the Columbus community to form partnerships for student learning. Individualized programs are used to meet students' needs. Parents and students are included in all decision-making. TGS, which is part of the State's education program, is independent of any school district and is nonsectarian in its programs, admission policies, employment practices, and all other operations. TGS may acquire facilities as needed and contract for any services necessary for its operation.

TGS was approved for operation under a contract with the Delaware-Union Educational Service Center (the Sponsor) for a period of one year commencing July 1, 2008. A new one year contract was approved commencing July 1, 2009. The Sponsor is responsible for evaluating the performance of TGS and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration.

On January 1, 2009, the Sponsor merged with the Franklin County Service Center. The surviving organization, the Educational Service Center of Central Ohio, acknowledges its obligations under the existing contract between the Sponsor and TGS, and expects to honor provisions contained therein, as documented in the Memorandum of Understanding dated January 3, 2009. The contract ran through July 2014 and has been renewed again through June 30, 2022.

TGS operates under the direction of a seven-member governing board. The governing board is responsible for carrying out the provisions of the contract, which include but are not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualifications of teachers. The governing board controls TGS and The Charles School at Ohio Dominican University (TCS) instructional/support facilities staffed by non-certified and certificated full time personnel who provide services to students at TGS, TCS, and Graham Elementary and Middle School (GEMS).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of TGS have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of TGS's accounting policies.

A. Basis of Presentation

TGS uses enterprise accounting to maintain its financial records during the fiscal year. Enterprise accounting focuses on the determination of operating income, changes in Net Position, financial position, and cash flows. Enterprise accounting may be used to account for any activity for which a fee is charged to external users for goods or services.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

B. Measurement Focus and Basis of Accounting

Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources are included on the Statement of Net Position. Operating statements present increases and decreases in net position. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made. The accrual basis of accounting is used for reporting purposes. Revenues are recognized when earned and expenses are recognized when they are incurred.

C. Budgetary Process

Community schools are statutorily required to adopt a budget by Ohio Revised Code 3314.032(C). However, unlike traditional public schools located in the State of Ohio, community schools are not required to follow the specific budgetary process and limits set forth in the Ohio Revised Code Chapter 5705, unless specifically provided in the contract between the School and its Sponsor. The contract between TGS and its Sponsor does not require TGS to follow the provisions Ohio Revised Code Chapter 5705; therefore, no budgetary information is presented in the basic financial statements.

D. Cash and Investments

All cash received by the TGS is deposited in accounts in the TGS' name and reflected as Cash and Investments on the Statement of Net Position.

Investments with a maturity of three months or less at the time they are purchased by TGS are considered to be cash equivalents.

E. Prepaid Items

TGS records payments made to vendors for services that will benefit future periods using the consumption method. No prepaid items were recorded at June 30, 2021. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is recorded in the year in which the services are consumed.

F. Capital Assets and Depreciation

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. TGS' capitalization threshold is one thousand dollars.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest costs incurred before the end of a construction period of capital assets is recognized as an expense in the period in which the cost is incurred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

All reported capital assets except land are depreciated. Depreciation of furniture and equipment is computed using the straight—line method over an estimated life of five years. Improvements to capital assets are depreciated over five to fifteen years. Buildings are depreciated over forty years.

G. Intergovernmental Revenues

TGS currently participates in the state's foundation, facilities aid and casino tax programs. Revenues received from these programs are recognized as operating revenues in the accounting period in which they are earned and become measurable. Funding from these programs is listed as "State Aid", "Facilities Aid" and "Casino Aid" on the Statement of Revenues, Expenses, and Changes in Net Position.

Restricted grants are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which Graham must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to TGS on a reimbursement basis.

Resources where the timing requirement is not met are recorded as a liability to the funding source, and reported as a non-operating expense. Resources received prior to the period of use are unearned.

H. Net Position

Net Position represent the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net Position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net Position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by TGS or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. As of June 30, 2021, TGS had no net position restricted for enabling legislation.

TGS applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

I. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of TGS. Operating expenses are necessary costs incurred to provide the service that is the primary activity of TGS. All revenues and expenses not meeting this definition are reported as non-operating.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

J. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

K. Pension and Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense; information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For TGS, deferred outflows of resources are reported on the statement of net position for pension and OPEB. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 7 and 8.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For TGS, deferred inflows of resources include pension and OPEB, which are reported on the statement of net position. (See Notes 7 and 8).

3. DEPOSITS AND INVESTMENTS

A. Deposits with Financial Institutions

At year-end, \$451,766 of TGS' bank balance of \$932,937 was covered by the Federal Deposit Insurance Corporation (FDIC) and \$481,171 was uninsured and uncollateralized. There are no significant statutory restrictions regarding the deposit and investment of funds by TGS.

Protection of TGS' deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Custodial credit risk for deposits is the risk that in the event of a bank failure, TGS will not be able to recover deposits or collateral securities that are in possession of an outside party. TGS does not have a policy for custodial credit risk.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

B. Investments

TGS has received donations in the form of equity stock. The investment banker, Morgan Stanley Smith Barney, LLC holds the investment. The carrying value of the equity stock is recorded at its fair market value at June 30, 2021. TGS is exposed to market and custodial risk on this investment to the extent of the value of the equity stock, and any undistributed earnings.

				N	1 aturity	
		Mea	surement		0 - 12	Percent
Rating	Investment Type	A	Amount		Ionths	of Total
N/A	Morgan Stanley Securities	\$	21,251	\$	21,251	100.00%

TGS categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies TGS's recurring fair value measurements as of June 30, 2021. All investments of TGS are valued using quoted market prices (Level 1 inputs).

4. RECEIVABLES

At June 30, 2021, TGS had accounts and intergovernmental receivables. Intergovernmental receivables are amounts due from ODE related to federal grants and state aid. Accounts receivable are primarily management fees due from TCS. All receivables are expected to be collected within one year.

5. CAPITAL ASSETS

At June 30, 2021, the following table represents TGS' changes in capital assets. Capital assets are considered depreciable, except for land.

		Balance /30/2020	Additions		Disposals			Balance /30/2021
Capital Assets Not Being Depreciated								
Land	\$	141,800	\$		\$		\$	141,800
Capital Assets Being Depreciated								
Building		1,108,200		-		_		1,108,200
Improvements		770,677		-		-		770,677
Furniture and Equipment		380,379		54,450		_		434,829
Total Capital Assets Being Depreciated		2,259,256		54,450				2,313,706
Accumulated Depreciation								
Building		(525,985)		(27,705)		_		(553,690)
Improvements		(770,677)		_		_		(770,677)
Furniture and Equipment		(293,091)		(34,937)		-		(328,028)
Total Accumulated Depreciation	((1,589,753)		(62,642)			(1,652,395)
Total Capital Assets Being Depreciated	!	669,503		(8,192)				661,311
Capital Assets, Net	\$	811,303	\$	(8,192)	\$		\$	803,111

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

6. RISK MANAGEMENT

A. Insurance Coverage

TGS is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the fiscal year ended 2021, TGS contracted with the Philadelphia Insurance Co.:

Commercial General Liability per Occurrence	\$ 1,000,000
Commercial General Liability Aggregate	2,000,000
Umbrella Liability per Occurrence	5,000,000
Umbrella Liability Aggregate	5,000,000
Automobile Liability Combined Single Limit	1,000,000
Commercial Property Liability - Personal	
Property (\$1,000 Deductible)	25,600
Excess Volunteer Liability per Occurrence	1,000,000
Excess Volunteer Liability Aggregate	3,000,000

Settled Claims have not exceeded this coverage in any of the past three years. The Umbrella Liability per occurrence and Umbrella Aggregate coverage was reduced \$1,000,000 each from the prior year.

B. Workers' Compensation

TGS pays the State Worker's Compensation System a premium for employee injury coverage. The premium is calculated by multiplying the monthly total gross payroll by a factor that is calculated by the State.

C. Employee Medical, Dental and Vision Benefits

TGS has contracted through an independent agent to provide employee medical, dental, and vision insurance to its full-time employees who work 40 or more hours per week.

7. DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

The net pension/OPEB liability (asset) represents the TGS's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the TGS's obligation for this liability to annually required payments. The TGS cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the TGS does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities (assets) within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net* pension/OPEB liability (asset) on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits.

The remainder of this note includes the required pension disclosures. See Note 8 for the required OPEB disclosures.

Plan Description - TGS Employees Retirement System (SERS)

Plan Description – TGS non-teaching employees participate in SERS, a statewide, cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

	Eligible to	Eligible to
	Retire on or before	Retire on or after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or
		Age 57 with 30 years of service credit
Actuarially Reduced	Age 60 with 5 years of service credit	Age 62 with 10 years of service credit; or
Benefits	Age 55 with 25 years of service credit	Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of zero percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the TGS is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. SERS did not allocate employer contributions to the Health Care Fund for fiscal year 2021.

The TGS's contractually required contribution to SERS was \$165,975 for fiscal year 2021. Of this amount, \$21,554 is reported as an accrued wages and benefits.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – TGS licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Effective August 1, 2017 – July 1, 2019, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2019 – July 1, 2021, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 28 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased through August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and at least age 60. Eligibility changes for actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit plan unfunded liability. A member is eligible to receive a monthly retirement benefit at age 50 and termination of employment. The member may elect to receive a lump-sum withdrawal.

The Combined plan offers features of both the DB Plan and the DC Plan. In the Combined plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory employer rate is 14 percent and the statutory member rate is 14 percent of covered payroll. The TGS was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The 2021 contribution rates were equal to the statutory maximum rates.

The TGS's contractually required contribution to STRS was \$743,955 for fiscal year 2021. Of this amount, \$98,191 is reported as an accrued wages and benefits.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. The TGS's proportion of the net pension liability was based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

		SERS		STRS		Total
Proportion of the Net Pension Liability:						
Current Measurement Date	(0.03006360%		0.04126161%		
Prior Measurement Date		0.03090600%		0.04179144%		
Change in Proportionate Share		-0.00084240%		-0.00052983%		
Proportionate Share of the Net						
Pension Liability	\$	1,988,470	\$	9,983,841	\$	11,972,311
Pension Expense	\$	242,329	\$	1,481,927	\$	1,724,256

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the TGS's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2021 the TGS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

	SERS		STRS		Total	
Deferred Outflows of Resources						
Differences between Expected and						
Actual Experience	\$	3,863	\$	22,401	\$	26,264
Net Difference between Projected and						
Actual Earnings on Pension Plan Investments		126,229		485,515		611,744
Changes of Assumptions		-		535,941		535,941
Changes in Proportion and Differences between						
TGS Contributions and Proportionate						
Share of Contributions		-		243,770		243,770
TGS Contributions Subsequent to the						
Measurement Date		165,975		743,955		909,930
Total Deferred Outflows of Resources	\$	296,067	\$	2,031,582	\$	2,327,649
Deferred Inflows of Resources						
Differences between Expected and						
Actual Experience	\$	-	\$	63,838	\$	63,838
Changes in Proportion and Differences between						
TGS Contributions and Proportionate						
Share of Contributions		26,722		102,761		129,483
Total Deferred Inflows of Resources	\$	26,722	\$	166,599	\$	193,321

\$909,930 reported as deferred outflows of resources related to pension resulting from TGS contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS		 STRS		Total	
Fiscal Year Ending June 30:						
2022	\$	(18,858)	\$ 471,918	\$	453,060	
2023		30,092	193,659		223,751	
2024		52,616	260,658		313,274	
2025		39,520	 194,793		234,313	
	\$	103,370	\$ 1,121,028	\$	1,224,398	

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2130.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Actuarial Cost Method Entry Age Normal (Level Percentage of Payroll, Closed)

Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent, net of investment expense, including inflation COLA or Ad Hoc COLA

2.50 percent, on and after April 1, 2018, COLA's for future

retirees will be delayed for three years following

commencement

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120 percent of male rates and 110 percent of female rates used. The RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	1.85 %
US Stocks	22.50	5.75
Non-US Stocks	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate Total pension liability was calculated using the discount rate of 7.50 percent. The discount rate determination does not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 24-year amortization period of the unfunded actuarial accrued liability. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the TGS's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the TGS's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the TGS's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

		Current					
	1%	Decrease	Dis	count Rate	19	6 Increase	
TGS's Proportionate Share							
of the Net Pension Liability	\$	2,723,961	\$	1.988.470	\$	1.371.379	

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation, are presented below:

Inflation	2.50 percent
Acturial Cost Method	Entry Age Normal (Level Percent of Payroll)
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3.00 percent
Cost-of-Living Adjustments	0.00 percent

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Tables, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the June 30, 2020 valuation, were based on the results of the latest available actuarial experience study, which is for the period July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Rate of Return*
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

*Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate. The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that employer and member contributions will be made at statutory contribution rates of 14 percent each. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

Sensitivity of the TGS's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table represents the TGS's proportionate share of the net pension liability as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the TGS's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption:

		Current					
	1	% Decrease	Dis	scount Rate	19	% Increase	
TGS's Proportionate Share							
of the Net Pension Liability	\$	14,215,252	\$	9,983,841	\$	6,398,073	

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Social Security System

Effective July 1, 1991, all employees not otherwise covered by School Employees Retirement System or State Teachers Retirement System have an option to choose Social Security. The TGS's liability is 6.2 percent of wages paid.

8. DEFINED BENEFIT OPEB PLANS

See Note 7 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The TGS contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2021, SERS did not allocate any employer contributions to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the TGS's surcharge obligation was \$1,627, which is reported as an accrued wages and benefits.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements were discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The TGS's proportion of the net OPEB liability (asset) was based on the TGS's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

		SERS		STRS	Total
Proportion of the Net OPEB Liability (Asset):					
Current Measurement Date	(0.02769700%		0.04126200%	
Prior Measurement Date	(0.02838800%		0.04179100%	
Change in Proportionate Share	-0.00069100%		-0.00052900%		
Proportionate Share of the Net					
OPEB Liability (Asset)	\$	601,946	\$	(725,179)	
OPER Expense	\$	1.573	\$	(25.567)	\$ (23.994)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

At June 30, 2021, the TGS reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS		STRS		Total	
Deferred Outflows of Resources				_		_
Differences between Expected and						
Actual Experience	\$	7,907	\$	46,466	\$	54,373
Net Difference between Projected and						
Actual Earnings on OPEB Plan Investments		6,783		25,418		32,201
Changes of Assumptions		102,611		11,971		114,582
Changes in Proportion and Differences between						
TGS Contributions and Proportionate						
Share of Contributions		5,332		75,228		80,560
TGS Contributions Subsequent to the						
Measurement Date		1,627				1,627
Total Deferred Outflows of Resources	\$	124,260	\$	159,083	\$	283,343
		_		_		
Deferred Inflows of Resources						
Differences between Expected and						
Actual Experience	\$	306,132	\$	144,448	\$	450,580
Net Difference between Projected and						
Actual Earnings on OPEB Plan Investments		-		-		-
Changes of Assumptions		15,162		688,799		703,961
Changes in Proportion and Differences between						
TGS Contributions and Proportionate						
Share of Contributions		52,431		24,446		76,877
Total Deferred Inflows of Resources	\$	373,725	\$	857,693	\$	1,231,418

\$1,627 reported as deferred outflows of resources related to OPEB resulting from TGS contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	 SERS		STRS		Total
Fiscal Year Ending June 30:					
2022	\$ (49,775)	\$	(169,710)	\$	(219,485)
2023	(49,286)		(152,507)		(201,793)
2024	(49,363)		(146,472)		(195,835)
2025	(49,632)		(156,808)		(206,440)
2026	(38,969)		(37,945)		(76,914)
Thereafter	 (14,067)		(35,168)		(49,235)
	\$ (251,092)	\$	(698,610)	\$	(949,702)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented below:

Inflation 3.00 percent

Salary Increases, including inflation 3.50 percent to 18.20 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation

Municipal Bond Index Rate

Measurement Date 2.45 percent Prior Measurement Date 3.13 percent

Single Equivalent Interest Rate

Measurement Date 2.63 percent, net of plan investment expense, including price inflation Prior Measurement Date 3.22 percent, net of plan investment expense, including price inflation

Health Care Cost Trend Rate

Pre-Medicare 7.00 percent - 4.75 percent Medicare 5.25 percent - 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	1.85 %
US Stocks	22.50	5.75
Non-US Stocks	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	100.00 %	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2020 was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the plan at the contribution rate of 2.00 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2034. However, since SERS' actuaries indicate the fiduciary net position is projected to be depleted at a future measurement date, the single equivalent interest rate is determined as the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion by the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45 percent, as of June 30, 2020 (i.e., municipal bond rate).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Sensitivity of the TGS's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.63 percent) and higher (3.63 percent) than the current discount rate (2.63 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percentage point lower (6.00 percent decreasing to 3.75 percent) and higher (8.00 percent decreasing to 5.75 percent) than the current rate.

	Current								
	1% Decrease		Disc	count Rate	1% Increase				
TGS's Proportionate Share									
of the Net OPEB Liability	\$	736,768	\$	601,946	\$	494,764			
			(Current					
	1%	1% Decrease		end Rate	1% Increase				
TGS's Proportionate Share									
of the Net OPEB Liability	\$	473,987	\$	601,946	\$	773,061			

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

Inflation	2.50 percent						
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65						
Payroll Increases	3.00 percent						
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation						
Discount Rate of Return	7.45 percent						
Health Care Cost Trend Rates							
Medical	<u>Initial</u>	<u>Ultimate</u>					
Pre-Medicare	5.00 percent	4.00 percent					
Medicare	-6.69 percent	4.00 percent					
Prescription Drug							
Pre-Medicare	6.50 percent	4.00 percent					
Medicare	11.87 percent	4.00 percent					

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

The actuarial assumptions used in the June 30, 2020 valuation were adopted by the board from the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Rate of Return*
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{*}Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total OPEB liability as of June 30, 2020.

Sensitivity of the TGS's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as of June 30, 2020, calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates.

	Current								
	1%	1% Increase							
TGS's Proportionate Share									
of the Net OPEB Liability (Asset)	\$	(630,953)	\$	(725,179)	\$	(805,126)			
				Current					
	1% Decrease		Tı	rend Rate	1% Increase				
TGS's Proportionate Share									
of the Net OPEB Liability (Asset)	\$	(800,164)	\$	(725,179)	\$	(633,836)			

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Benefit Term Changes since the Prior Measurement Date There were no changes to the claims costs process. Claim curves were updated to reflect the projected fiscal year 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to .1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

9. CONTINGENCIES

A. Grants

TGS receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the operating fund. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of TGS at June 30, 2021.

B. Foundation Funding

School foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. However, there is an important nexus between attendance and enrollment for foundation funding purposes. Community schools must provide documentation that clearly demonstrates students have participated in learning opportunities. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end.

Under Ohio Rev. Code Section 3314.08, ODE may also perform a FTE Review subsequent to the fiscal year end that may result in an additional adjustment to the enrollment information as well as claw backs of Foundation funding due to a lack of evidence to support student participation and other matters of noncompliance. ODE performed such a review for fiscal year 2021 as of the date of this report.

As of the date of this report, all ODE adjustments have been completed.

In addition, TGS' contract with their Sponsor requires payment based on revenues received from the State. As discussed above, all ODE adjustments through fiscal year 2021 have been completed. A reconciliation between payments previously made and the FTE adjustments has taken place with this contract.

C. Litigation

There are currently no matters in litigation with TGS as defendant.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

10. CAPITAL LEASES – LESSEE DISCLOSURE

During fiscal year 2019, TGS entered into a lease agreement for three copiers, replacing the existing lease with Modern Leasing. Monthly payments on the new lease agreement are \$2,039 per month at an interest rate of 4.869 percent. Capital assets of \$113,174 have been recorded, which represents the present value of the minimum lease payments at time of acquisition. Net book value of the copiers is \$50,929 at June 30, 2021.

The following is a schedule of the future minimum payments required under the capital lease as of June 30, 2021.

Fiscal Year Ending	C	Copiers
2022		24,473
2023		24,473
2024		12,236
Total minimum Lease Payments	\$	61,182
Less: amount representing interest		(3,687)
Present value of minumum lease payments	\$	57,495

11. ACCOUNTS PAYABLE

Accounts payable consists of obligations at June 30, 2021 incurred during the normal course of conducting operations, including amounts due to GEMS.

12. DEBT AND LONG-TERM OBLIGATIONS

The changes in TGS' long-term obligations during the year consist of the following:

•	Outstanding 6/30/20 Additions		Reductions	Outstanding 6/30/2021	Amounts Due in One Year	
Direct Borrowing:						
Dantomka Ltd.	\$ 397,498	\$ -	\$ 873	\$ 396,625	\$ 23,483	
Loan Payable - PPP		1,592,655	1,592,655			
Total Direct Borrowing	397,498	1,592,655	1,593,528	396,625	23,483	
Net Pension Liability	11,091,086	881,225	-	11,972,311	-	
Net OPEB Liability	713,893	-	111,947	601,946	-	
Capital Leases - Copiers	78,608		21,113	57,495	22,164	
Total Governmental Activities						
Long-Term Liabilities	\$ 12,281,085	\$ 2,473,880	\$ 1,726,588	\$ 13,028,377	\$ 45,647	

In November 2011, TGS entered into a new mortgage promissory note agreement with Dantomka, Ltd. in the amount of \$544,375 for a 15 year term at an interest rate of 2.5% annually. Monthly payments on the note are \$900 and will increase to \$4,645 during fiscal year 2022. Total interest paid during fiscal year 2021 was \$9,928.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

Effective April 8, 2003, Ohio Revised Code Section 3314.08 (J) (1) (b) was amended, in part, to permit facilities acquisition debt with a maturity not exceeding fifteen years. All current notes comply with this provision of the revised code.

In the event of default, as defined by the mortgage agreement for Dantomka Ltd. mortgage, the amounts payable by TGS may become due. If payments are not made, the lender may take possession of and sell the mortgaged property.

The Coronavirus Aid, Relief and Economic Security Act (CARES Act) was passed on March 27, 2020 in response to COVID-19. The Paycheck Protection Program (PPP) was formed as part of the CARES Act. The PPP allows certain entities to apply for aid through forgivable loans. TGS entered into a note payable agreement with a bank under PPP. The unsecured note has a principal amount of \$1,592,655 with an interest rate of one percent maturing on July 28, 2021. This loan was fully forgiven by Small Business Administration (SBA) in fiscal year 2021.

The annual requirements to retire all outstanding long-term obligations (excluding capital leases) as of June 30, 2021, including interest are as follows:

Fiscal Year			
Ending June 30,	Principal	Interest	Total
2022	23,483	9,788	33,271
2023	46,950	8,793	55,743
2024	48,137	7,606	55,743
2025	49,354	6,388	55,742
2026	50,602	5,140	55,742
2027-2030	178,099	7,709	185,808
Total	\$ 396,625	\$ 45,424	\$ 442,049

13. SPONSOR

On May 13, 2014, a sponsorship agreement was executed between TGS and the Educational Service Center of Central Ohio for a two (2) year period beginning July 1, 2014. In July 2014, the contract was extended for three years through June 2017. Additional two year extensions extended this contract through June 30, 2019 and most currently, through June 30, 2022. Under this agreement, TGS pays the Sponsor "up to" 3% of State Aid (see Note 2.). TGS sponsor fee expense at June 30, 2021 totaled \$56,650.

14. BENEFICIAL INTEREST IN ASSETS HELD BY OTHERS

The Columbus Foundation holds in trust a money market account valued at \$20,919 at June 30, 2021. The account is a designated fund which is to be used for the renovation of TGS' property. The investment is not held in TGS' name. In the event all assets are not required to renovate the property, any remaining assets may be used for its operating needs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

15. MANAGEMENT AGREEMENT WITH THE CHARLES SCHOOL (TCS)

Effective July 1, 2007, TGS entered into a Management Agreement (the Agreement) with TCS. The Agreement was subsequently renewed and modified though June 2014. Since June of 2014, the Board has approved another one year renewal annually. Per the contract, TGS receives a base fee of three (3) percent of TCS' state foundation, and reimbursement of all direct costs for expenses incurred under the federal or state grant programs. TGS also receives up to ninety-five (95) percent of TCS' federal and state awards, after a minimum of five (5) percent is spent by TCS to pay its direct expenses. TCS management fee expense for the fiscal year total \$2,407,571, as reported in the TCS Statement of Revenues, Expenses and Changes in Net Position. Of this fee, \$1,899,217 was for general fund related fees and \$421,048 was for grant related reimbursements. The remainder of the expense was for base licensing fees in the amount of \$87,306.

16. MANAGEMENT AGREEMENT WITH GRAHAM ELEMENTARY AND MIDDLE SCHOOL (GEMS)

Effective July 1, 2015, GEMS entered into a one year Management Agreement (the Agreement) with TGS. The Agreement has been renewed annually through June 30, 2021. Per the contract, TGS receives a base fee of three (3) percent of GEMS' state foundation, and reimbursement of all direct costs for expenses incurred under the federal or state grant programs. TGS also receives ninety-five (95) percent of GEMS' remaining revenues after the School pays its direct expenses. GEMS management fee expense for the fiscal year total \$3,111,171, as reported in the GEMS' Statement of Revenues, Expenses and Changes in Fund Net Position. Of this fee, \$2,555,889 was for general fund related fees, and \$449,982 was for grant related reimbursements. The remainder of the expense was for base licensing fees in the amount of \$105,300.

17. IMPLEMENTATION OF NEW ACCOUNTING PRINCIPLES

For the fiscal year ended June 30, 2021, TGS has implemented Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, GASB Statement No. 90, Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61, certain provisions of GASB Statement No. 93, Replacement of Interbank Offered Rates and GASB Statement No. 98, The Annual Comprehensive Financial Report.

GASB Statement No. 84 establishes specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. The implementation of GASB Statement No. 84 did not have an effect on the financial statements of TGS.

GASB Statement No. 90 improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. The implementation of GASB Statement No. 90 did not have an effect on the financial statements of TGS.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

GASB Statement No. 93 addresses accounting and financial reporting effects that result from the replacement of interbank offered rates (IBORs) with other reference rates in order to preserve the reliability, relevance, consistency, and comparability of reported information. The implementation of certain provisions (all except for paragraphs 13 and 14, which are effective for fiscal years beginning after June 15, 2021), of GASB Statement No. 93 did not have an effect on the financial statements of TGS.

GASB Statement No. 98 establishes the term *annual comprehensive financial report* and its acronym *ACFR*. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The implementation of GASB Statement No. 98 did not have an effect on the financial statements of TGS.

18. RELATED PARTY TRANSACTION

Dantomka, Ltd. is a limited liability corporation, which is a general partner of DK Services. Eileen Meers, who serves as the Dean of Academics and is the developer of TGS, also serves as the president of DK Services and a general partner of Dantomka, Ltd. Note disclosure 12 details the terms and payment arrangements of the notes. Eileen Meers retired from her position at TGS in August 2020.

19. TAX EXEMPT STATUS

TGS was approved under § 501(c)(3) of the Internal Revenue Code as a tax exempt organization. Management is not aware of any course of action or series of events that might adversely affect TGS's tax exempt status.

20. JOINTLY GOVERNED ORGANIZATION

META Solutions

Effective July 1, 2017, TGS became a participant in META (Metropolitan Educational Technology Association) Solutions. META Solutions is an association of public school districts throughout Ohio. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of META Solutions consists of the superintendent from 11 member districts. Financial information can be obtained from the Metropolitan Educational Technology Association, 100 Executive Drive, Marion, Ohio 43302.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2021

21. COVID-19

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June 2021 while the national state of emergency continues. During fiscal year 2021, TGS received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. Additional funding has been made available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

22. SUBSEQUENT EVENT

For fiscal year 2022, community school foundation funding received from the State of Ohio will be funded using a direct funding model. For fiscal year 2021 and prior, the amounts related to students who were residents of a particular school district were funded to the school district who, in turn, made the payment to the respective community school. This new funding system calculates a unique base cost for each community school. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

Supplementary Information
Schedule of Management Company Expenses

For the fiscal year ended June 30, 2021, TGS incurred the following expenses on-behalf of TCS and GEMS:

The Charles School	Regular Special Instruction Instruction		Support Services		Total	
Direct expenses:						
Salaries & wages (100 object codes)	\$	1,018,805	\$ 156,560	\$	536,021	\$ 1,711,386
Employees' benefits (200 object codes)	\$	316,340	\$ 48,613	\$	166,435	\$ 531,388
Indirect expenses:						
Overhead	\$	306,710	\$ 46,006	\$	158,467	\$ 511,183
Total expenses	\$	1,641,855	\$ 251,179	\$	860,923	\$ 2,753,957

Graham Elementary and Middle School	Regular Special Instruction Instruction		•	Support Services		Total	
Direct expenses:							
Salaries & wages (100 object codes)	\$	1,268,507	\$	432,743	\$	466,594	\$ 2,167,844
Employees' benefits (200 object codes)	\$	424,617	\$	144,855	\$	156,187	\$ 725,659
Indirect expenses:							
Overhead	\$	322,791	\$	109,421	\$	114,892	\$ 547,103
Total expenses	\$	2,015,915	\$	687,018	\$	737,672	\$ 3,440,606

Management uses enterprise accounting to maintain its financial records during the fiscal year. Overhead charges are assigned to TCS and GEMS based on a percentage of full-time equivalent student enrollment. These charges represent the indirect cost of services provided in the operation of the School. Such services include, but are not limited to facilities management, equipment, operational support services, management and management consulting, board relations, human resources management, training and orientation, financial reporting and compliance, purchasing and procurement, education services, technology support and marketing and communications.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

NOTE 1 - NET PENSION LIABILITY

Changes in Assumptions - SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc COLA. Prior to 2018, an assumption of 3.0 percent was used.

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90
 percent for male rates and 100 percent for female rates, set back five years is used for the period
 after disability retirement.

Changes in Assumptions – STRS

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Changes in Benefit Terms - SERS

With the authority granted to the Board under SB 8, the Board enacted a three-year COLA delay for future benefit recipients commencing on or after April 1, 2018.

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

Changes in Benefit Terms - STRS

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

NOTE 2 - NET OPEB LIABILITY (ASSET)

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

Municipal Bond Index Rate:

Fiscal year 2021	2.45 percent
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent

Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

2.63 percent
3.22 percent
3.70 percent
3.63 percent
2.98 percent

Pre-Medicare

7.00 percent initially, decreasing to 4.75 percent
7.00 percent initially, decreasing to 4.75 percent
7.25 percent initially, decreasing to 4.75 percent
7.50 percent initially, decreasing to 4.00 percent

Medicare

Fiscal year 2021	5.25 percent initially, decreasing to 4.75 percent
Fiscal year 2020	5.25 percent initially, decreasing to 4.75 percent
Fiscal year 2019	5.375 percent initially, decreasing to 4.75 percent
Fiscal year 2018	5.50 percent initially, decreasing to 5.00 percent

Changes in Assumptions – STRS

For fiscal year 2021, valuation year per capita health care costs were updated. Health care cost trend rates ranged from -5.20 percent to 9.60 percent initially for fiscal year 2020 and changed for fiscal year 2021 to a range of -6.69 percent to 11.87 percent, initially.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent. Valuation year per capita health care costs were updated. Health care cost trend rates ranged from 6.00 percent to 11 percent initially and a 4.50 percent ultimate rate for fiscal year 2018 and changed for fiscal year 2019 to a range of -5.20 percent to 9.60 percent, initially and a 4.00 ultimate rate.

For fiscal year 2018, the blended discount rate was increased from 3.26 percent to 4.13 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2021

and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Changes in Benefit Terms - SERS

There have been no changes to the benefit provisions.

Changes in Benefit Terms – STRS

For fiscal year 2021, there were no changes to the claims costs process. Claim curves were updated to reflect the projected fiscal year 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to .1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. This was subsequently extended, see above paragraph.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Graham School, Franklin County, Ohio (TGS) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise TGS's basic financial statements, as well as the accompanying schedule of management company expenses presented as supplementary information, and have issued our report thereon dated December 9, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered TGS's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of TGS's internal control. Accordingly, we do not express an opinion on the effectiveness of TGS's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Graham School
Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*Page 2 of 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether TGS's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
