# SOUTHERN STATE COMMUNITY COLLEGE HIGHLAND COUNTY

SINGLE AUDIT

FOR THE YEARS ENDED JUNE 30, 2023 AND JUNE 30, 2022

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Board of Trustees Southern State Community College 100 Hobart Drive Hillsboro, Ohio 45133

We have reviewed the *Independence Auditor's Report* of the Southern State Community College, Highland County, prepared by Plattenburg & Associates, Inc., for the audit period July 1, 2022 through June 30, 2023. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Southern State Community College is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

#### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Trustees Southern State Community College

#### **Report on the Audit of the Financial Statements**

#### Opinions

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of the Southern State Community College (the College), a component unit of the State of Ohio, as of and for the year ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the College, as of June 30, 2023 and 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of pension information and other postemployment information to be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements and themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2023, on our consideration of the College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Plattenburg & Associates, Inc.

Plattenburg & Associates, Inc. Cincinnati, Ohio October 30, 2023

#### Accounting Standards

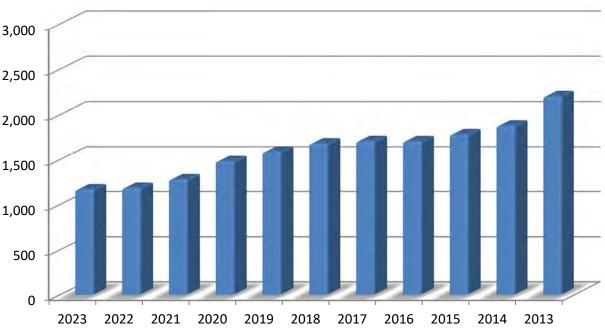

In June 1999, the Governmental Accounting Standards Board (GASB) released Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments," which established a new reporting format for annual financial statements. In November 1999, GASB released Statement No. 35, "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities," which applies the new reporting standards to public colleges and universities. Southern State Community College was required to adopt these new standards for the fiscal year ending June 30, 2002, and has done so.

The following discussion and analysis provides an overview of the College's financial activities. This is the 21<sup>st</sup> year using this format.

The annual report consists of three basic financial statements that provide information on the College: the statement of net position; the statement of revenues, expenses and changes in net position; and the statement of cash flows. Each one of these statements will be discussed.

#### **Financial and Enrollment Highlights**

- State Appropriations decreased 9.00%.
- In FY2023 the College experienced a decrease in full-time equivalent enrollment of 1.44%.

# **Annual FTE**

#### **Statement of Net Position**

The statement of net position includes assets, liabilities, and deferred inflows/outflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. Net position – the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources – is one way of measuring the financial health of the College.

	2023	2022	2021
Assets:			
Current Assets	\$13,460,040	\$13,230,306	\$7,596,446
Noncurrent Assets	4,592,435	4,959,198	5,032,988
Capital assets, net	21,760,076	26,495,207	28,812,450
Total Assets	39,812,551	44,684,711	41,441,884
Deferred Outflows of Resources	4,340,273	2,484,085	1,986,351
Liabilities:			
Current Liabilities	2,252,573	2,590,503	2,396,612
Noncurrent Liabilities	20,810,975	15,586,091	22,909,486
Total Liabilities	23,063,548	18,176,594	25,306,098
Deferred Inflows of Resources	2,797,579	9,513,357	5,497,660
Net Position:			
Net Investment in Capital Assets	13,605,075	16,105,207	17,337,450
Restricted	3,357,541	3,135,682	3,319,887
Unrestricted	1,329,081	237,956	(8,032,860)
Total Net Position	\$18,291,697	\$19,478,845	\$12,624,477

Receivables include student accounts for tuition, company accounts for training, and grant receivables. Deferred inflows of resources in FY2023 and FY2022 are largely a result of the continued reporting in accordance with GASB 68 and GASB 75. These balances decreased in FY2023 due to changes in actuarially determined deferrals and the net pension liability and net OPEB liability recognized by the College. See below for more discussion on GASB 68 and GASB 75. Long-term liabilities include deferred compensation (accrued vacation and sick days), outstanding balances of bond issues, and the College's proportionate share of the State-wide net pension liability and net OPEB liability. The overall increase in noncurrent liabilities for 2023 is due to an increase in the actuarially determined net pension and OPEB liabilities, and bond principal payments. Net position includes the net investment in capital assets and both restricted and unrestricted funds. Total net position decreased approximately 6.09% from FY2022 to FY2023.

The net pension liability (NPL) is the one of the largest liability's reported by the College at June 30, 2023 and is reported pursuant to GASB Statement 68, Accounting and Financial Reporting for Pensions an Amendment of GASB Statement 27. The College adopted GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the College's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB. Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OBEP liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the College's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the College is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position. In accordance with GASB 68 and GASB 75, the College's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the College is reporting a net OPEB liability/asset and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting.

#### Statement of Revenues, Expenses and Changes in Net Position

The statement of revenues, expenses and changes in net position presents the operating results of the College operations, as well as the non-operating revenues and expenses. Annual state appropriations, while budgeted for, are considered non-operating revenues according to generally accepted accounting principles.

principies.	2022	2022	2024
	2023	2022	2021
Operating revenue:	44 700 500	44 700 500	<u> </u>
Net tuition and fees	\$4,733,588	\$4,720,532	\$4,226,291
Auxiliary	1,255,879	1,421,465	1,049,645
Grants and contracts	3,465,921	2,752,474	2,490,528
Other	387,850	593,883	495,413
Total operating revenue	9,843,238	9,488,354	8,261,877
Operating expenses:			
Instructional	5,046,475	7,824,068	3,797,774
Community service	3,027,139	2,036,993	1,385,375
Academic support	2,216,384	1,494,056	1,215,573
Student services	1,905,124	2,757,077	2,183,472
Institutional support	2,407,070	1,461,973	1,724,753
Plant operations	1,276,050	1,242,290	1,018,758
Depreciation	950,028	918,440	1,108,194
Scholarships	1,991,777	1,427,675	1,484,225
Auxiliary	1,263,997	1,050,129	902,514
Total operating expenses	20,084,044	20,212,701	14,820,638
Operating loss	(10,240,806)	(10,724,347)	(6,558,761)
Nonoperating revenues (expenses):			
Federal grants	2,683,779	9,923,829	3,812,779
State subsidy	7,592,522	8,343,066	8,137,457
Investment income (loss)	531,274	(201,221)	576,627
Interest on capital asset-related debt	(322,822)	(392,659)	(418,620)
Capital appropriations	631,218	980,274	3,196,663
Loss on disposal of real estate	(2,062,314)	(1,074,574)	0
Total Nonoperating revenues (expenses)	9,053,657	17,578,715	15,304,906
Change in net position	(1,187,149)	6,854,368	8,746,145
Net position - beginning of year	19,478,845	12,624,477	3,878,332
Net position - end of year	\$18,291,696	\$19,478,845	\$12,624,477

Net tuition and fees were \$4,733,588 in FY2023 and \$4,720,532 in FY2022. Auxiliary revenue consists of the non-grant portion of corporate and community services. These revenues decreased from FY2022 to FY2023. Operating expense decreases primarily reflect decreases in pension and OPEB expenses, associated with these balances were lower than the prior year, based on actuarially determined information, allocated amongst various functions. State appropriation in FY2023 and FY2022 represented 72.4% and 47.2%, respectively of non-operating revenues (expenses).

#### **Statement of Cash Flows**

The statement of cash flows provides information about cash receipts and cash payments during the year. This statement also helps users assess the College's ability to generate net cash flows, its ability to meet obligations as they come due, and its need for external funding.

	2023	2022	2021
Cash provided by (used in):			
Operating actvities	(\$9,591,778)	(\$13,058,849)	(\$9,837,938)
Non-capital financing activities	10,276,301	18,266,895	11,950,236
Capital and related financing activities	(211,371)	(173,156)	(1,528,252)
Investing activities	299,633	132,076	196,658
Net increase (decrease) in cash	772,785	5,166,966	780,704
Cash - beginning of year	9,359,742	4,192,776	3,412,072
Cash - end of year	\$10,132,527	\$9,359,742	\$4,192,776

The primary cash receipts from operating activities are student fees. State subsidies and federal grants represent the primary non-operating sources of funds. Payments to employees are the primary use of funds.

#### **Capital Assets**

Capital assets, net of accumulated depreciation totaled \$21,760,076 at June 30, 2023 and \$26,495,207 at June 30, 2022 a decrease of \$4,735,131 from the prior year-end. Additions to capital assets during the year totaled \$276,835 and disposals were \$5,647,816 in FY2023. Depreciation expense for the year ended June 30, 2023 totaled \$950,028. For more information on capital assets, see note 4 to the basic financial statements.

#### Debt

As of June 30, 2023, the College had outstanding debt of \$8,155,000 of which \$795,000 was short-term (or due within one year) and \$7,360,000 was long-term debt (would come due beyond one year). The outstanding debt related to three 20 year bond issues that were used to provide a portion of the funding of the Patriot Center located on the Central Campus, and a portion of the funding for a renovation and expansion project on the Fayette Campus, and the construction of a new Brown County campus, which will replace the existing facility. The Patriot Center was completed in March of 2005. The Fayette expansion was completed in 2009. The construction of the new Brown County Campus began March 2013, and completed in July 2014. For more information on debt, see note 9 to the basic financial statements.

#### Economic Factors that will affect the Future

#### Challenges

- The historically strong local and national economies along with declining demographics present major enrollment challenges.
- Responding responsibly to market demand for technical programs while limiting disruption.
- Addressing current facility roles and online potential expeditiously.

#### **Opportunities**

- Building on the recent Program Vitality Assessments can serve to assure that offerings remain relevant in preparing students to succeed in the current and future workforce.
- Taking advantage of the college community's overall awareness of the financial impact of recent enrollment challenges provides an excellent atmosphere to work towards major structural budget modifications that are sustainable.
- To become an even stronger resource for college credit plus students.

The notes to the basic financial statements are an integral part of this statement

#### Note 1 – Summary of Significant Accounting Policies

#### **Reporting Entity**

Southern State Community College (the College) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio and is considered to be a component unit of the primary reporting unit of the State of Ohio. The financial statements present the financial position and results of operations of the College along with the Southern State Community College Foundation (the Foundation), as a component unit of the College.

The College was chartered on February 21, 1975 as the Southern State General and Technical College. On October 21, 1977, the name of the College was officially changed to Southern State Community College.

The College operates under the direction of a nine member Board of Trustees who are appointed by the Governor with the advice and consent of the Ohio Senate. A President is appointed by the Board of Trustees to oversee day- to-day operations of the College. An appointed treasurer is the custodian of funds and is responsible for the fiscal control of the resources of the College.

The College was organized principally to offer educational programs beyond high school, normally not exceeding two years in duration, and leading to the award of an associate degree. The College offers programs in the liberal arts and sciences, technical training, and adult and continuing education, as outlined in ORC Section 3358.01.

#### **Basis of Presentation**

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB), including Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments,* and Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis of Public Colleges and Universities,* issued in June and November 1999, respectively. The College reports as a special purpose government engaged solely in "business-type activities" under GASB Statement No. 34.

#### **Basis of Accounting**

The financial statements of the College have been prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when obligations have been incurred. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by providers have been met.

#### **Cash and Cash Equivalents**

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and shortterm investments with original maturities of three months or less from the date of acquisition. Cash equivalents include the College's investment in the STAR Ohio and money market funds, which amounted to \$9,748,496 and \$8,962,894 at June 30, 2023 and 2022, respectively. During fiscal years 2023 and 2022, the College and Foundation invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The College and Foundation measure their investments in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal years 2023 and 2022, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice for deposits and withdrawals of \$100 million or more is encouraged. STAR Ohio reserves the right to limit the transaction to \$250 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

#### **Investments**

The College does not have a formal investment policy but consults the Ohio Revised Code for guidance with respect to allowable investments. The Foundation does have a formal policy, and the purchase of specific investment instruments is at the discretion of the Treasurer within these policy guidelines. As of June 30, 2023 and 2022, investments held by the Foundation were valued at \$2,983,683 and \$2,752,041, respectively. In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are reported at fair value.

#### **Accounts and Pledges Receivables**

At June 30, 2023 and 2022, accounts receivable consist primarily of student tuition and fees, third party, and intergovernmental grants and contracts. Student and third party accounts receivable are reported net of an allowance for doubtful accounts of \$724,893 and \$608,327 at June 30, 2023 and 2022, respectively, whereas other receivables are reported at net, based on separate allowances for doubtful accounts estimated by management. Pledges receivable are unconditional promises to give and are recognized at the present value of future cash flows. No allowance for uncollectible promises to give is considered necessary.

#### Inventory

Inventories consist principally of office supplies and the truck driving academy tire stock. Inventories, which are stated at the lower of cost or market, are determined on the first-in-first-out (FIFO) basis.

#### **Restricted Assets**

Restricted assets represent assets whose use is restricted by external parties or by law through constitutional or enabling legislation.

#### **Capital Assets**

Capital assets with a unit cost of over \$5,000, and all library books, are recorded at cost at the date of acquisition, or, if donated, at acquisition value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to the functional expenditure categories. Expenditures for construction in progress are capitalized as incurred. Interest expense related to construction is capitalized net of interest income earned on

resources set aside for this purpose. Routine maintenance and repairs are charged to expenses as incurred. Certain assets purchased through capital leases have been capitalized and included as part of equipment in the accompanying financial statements.

#### Lease Assets

A lease asset is a lessee's right to use an asset over the life of a lease. The asset is calculated as the initial amount of the lease liability, plus any lease payments made to the lessor before the lease commencement date, plus any initial direct costs incurred, minus any lease incentives received. The amortization period of the lease asset is from the lease commencement date to the earlier of the end of the lease term or the end of the useful life of the asset. At the termination of a lease, the lease asset and associated lease liability are removed from the books of the lessee. The difference between the two amounts is accounted for as a gain or loss at that time.

#### Deferred Inflows/Outflows of Resources

Deferred inflows of resources is comprised primarily of receipts relating to tuition and student fees in advance of the services to be provided and grant funds not earned as of June 30, 2023 and 2022. Deferred inflows and outflows of resources related to pensions/OPEB are explained in notes 6 and 7.

#### **Operating Revenues**

All revenues from programmatic sources are considered to be operating revenues. Included in nonoperating revenues are certain federal grants and contracts, state appropriations, investment income, and gifts. Gifts (pledges) that are received on an installment basis are recorded at net present value.

#### **Scholarships and Allowances and Student Aid**

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid such as loans, funds provided to students as awarded by third parties, and Federal Direct Lending is accounted for as a third party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses, or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Scholarship allowances for fiscal years 2023 and 2022, were \$785,843 and \$3,838,231 respectively.

#### Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

#### Federal Financial Assistance Programs

The College participates in federally funded Pell Grants, SEOG Grants, and Federal Direct Lending programs. Federal programs are audited in accordance with the Single Audit Act Amendments of 1996, and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost

Principles, and Audit Requirements for Federal Awards (Uniform Guidance). During fiscal years 2023 and 2022, the College distributed \$1,997,772 and \$1,454,364, respectively, for direct lending through the U.S. Department of Education, which is not included as revenues and expenses on the accompanying financial statements.

#### Net Position

Net position is classified according to external donor restrictions or availability of assets for satisfaction of College obligations. Capital assets, net of accumulated depreciation, reduced by related debt represents the College's net investment in capital assets. Nonexpendable restricted net position represents gifts that have been received for endowment purposes, the corpus of which cannot be expended. Expendable restricted net position represents funds that have been received for specific purposes. Unrestricted net position includes resources which can be used at the College's discretion. Of the College's \$3,357,541 and \$3,135,682 in restricted net position at June 30, 2023 and 2022, respectively, none is restricted by enabling legislation.

#### Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the respective fiscal year end, are recorded as prepaid items. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

#### Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Note 2 – Cash, Cash Equivalents and Investments

Statement No. 3 of the Governmental Accounting Standards Board requires governmental entities to categorize deposits and investments to give an indication of the level of risk assumed by the entity at year-end. These categories of risk follow:

	Cash	Investments
Category 1	Deposits that are either insured or collateralized with securities held by the College or by its agent in the College's name.	Investments that are insured or registered, or securities held by the College or by its agent in the College's name.
Category 2	Deposits collateralized with securities held by the pledging financial institution's trust department or agent in the College's name.	Investments that are uninsured and registered, with securities held by the counterparty's trust department or agent in the College's name.

	Cash	Investments
Category 3	Deposits that are uncollateralized (including any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent, but not in the College's name).	Investments that are uninsured and unregistered, with securities held by the counterparty's trust department or agent but not held in the College's name.
Not Categorized		Investments in mutual funds, money markets and investment management funds are not categorized because they are not evidenced by securities that exist in physical or book entry form.

#### Primary Government - College

At June 30, 2023, the carrying amount of the College's cash deposits was \$2,424,690 and the bank balance was \$2,617,808. At June 30, 2023, \$324,486 of the bank balance was insured by the FDIC (Category 1); the remaining bank balances were Category 3.

The College held \$6,540,114 in STAR Ohio investments, which is an external investment pool and is considered cash equivalents under GASB Statement No. 9. Oversight of the pool is through the Treasurer of State. The fair value of the College's position in the pool is the same as the value of its pool shares. Such investments are not required to be categorized in accordance with Governmental Accounting Standards Board Statement No. 3. All other investments are Category 1. The following summarizes the market value of the College's investments:

J	une 30, 2023		
			Fair Value
Investment Type	Fair Value/NAV	< 1 Year	Hierarchy
Star Ohio	\$6,540,114	\$6,540,114	N/A
Money Market Funds	783,692	783,692	Level 1
Total	\$7,323,806	\$7,323,806	

At June 30, 2022, the carrying amount of the College's cash deposits was \$4,163,651 and the bank balance was \$4,808,276. At June 30, 2022, \$264,165 of the bank balance was insured by the FDIC (Category 1); the remaining bank balances were Category 3.

The College held \$3,960,005 in STAR Ohio investments, which is an external investment pool and is considered cash equivalents under GASB Statement No. 9. Oversight of the pool is through the Treasurer of State. The fair value of the College's position in the pool is the same as the value of its pool shares. Such investments are not required to be categorized in accordance with Governmental Accounting Standards Board Statement No. 3. All other investments are Category 1. The following summarizes the market value of the College's investments:

#### Southern State Community College Highland County Notes to the Basic Financial Statements

For the Fiscal Years Ended June 30, 2023 and 2022

J	une 30, 2022		
			Fair Value
Investment Type	Fair Value/NAV	< 1 Year	Hierarchy

Money Market Funds	839,238	839,238	Level 1
Total	\$4,799,243	\$4,799,243	

#### Component Unit – Foundation

At June 30, 2023, the carrying amount of the Foundation's cash deposits was \$0 and the bank balance was \$0. At June 30, 2022, the carrying amount of the Foundation's cash deposits was \$0 and the bank balance was \$0. The following summarizes the market value of the Foundation's investments:

June 30, 2023				
	Investment			
		Maturities		
Investment Type	Fair Value/NAV	<1Year		
Star Ohio	\$296,246	\$296,246		
Money Market Funds	87,785	87,785		
Other Bonds	1,282,120	1,282,120		
Equity Funds	1,439,483	1,439,483		
Common Stock	262,080	262,080		
Total	\$3,367,714	\$3,367,714		

June 30, 2022			
	Investment		
		Maturities	
Investment Type	Fair Value/NAV	<1Year	
Star Ohio	\$275,086	\$275,086	
Money Market Funds	121,761	121,761	
Other Bonds	1,188,353	1,188,353	
Equity Funds	1,306,289	1,306,289	
Common Stock	257,400	257,400	
Total	\$3,148,889	\$3,148,889	

The College has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. STAR Ohio is reported at its share price. All other investments of the College are valued using pricing sources as provided by the investments managers (Level 1 inputs). The

Foundation's money market fund, bond, and equity fund investments are also Level 1 inputs. STAR Ohio investments are valued as previously noted. Common stock investments are Level 3 inputs.

<u>Interest rate risk</u> – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

<u>Primary Government</u> - The College does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>ComponentUnit</u> - As a means of limiting its exposure to fair value losses arising from rising interest rates, the Foundation's investment policy provides for management of the portfolio to minimize principal fluctuations with a long-term investment mix and with an initial target allocation of 40 percent of its assets to be invested in fixed income investments. Cash equivalents should represent maturities of one year or less at the time of purchase. Also, weighted average portfolio maturity may not exceed 10 years.

<u>Credit Risk</u> – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

<u>PrimaryGovernment</u> - The College has no investment policy that limits its investment choices. As of the fiscal years ended June 30, 2023 and 2022, the College's investments in STAR Ohio rated AAAm by Standard & Poor's. Money market funds are unrated.

<u>Component Unit</u> - The Foundation's investment policy limits investments to the following categories: Cash Equivalents, Fixed Income Assets, Equities Assets, and Mutual Funds. Fixed income assets are subject to several limitations including only corporate debt issues that meet or exceed a credit rating of "A" from S&P or "A2" or higher from Moody's. Preferred stocks should be rated "A" or better by Moody's or S&P at the time of purchase. Equities holdings should represent companies meeting a minimum capitalization requirement of two hundred and fifty million with high market liquidity. Standard & Poor's rated STAR Ohio and money market funds AAAm. All other investments are unrated.

<u>Concentration of credit risk</u> – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

<u>Primary Government</u> - The College places no limit on the amount the College may invest in any one issuer. More than 5% of the College's investments are in STAR Ohio and money market funds. These investments were 89% and 11% as of June 30, 2023 and 83% and 17% as of June 30, 2022, respectively of the College's total investments.

<u>Component Unit</u> - The Foundation's investment policy calls for initial targets of asset categories along with acceptable ranges in order to balance the risks as follows:

	Initial	
	Target	Acceptable
Asset Category	Allocation	Range
Cash	10%	1-10%
Fixed Income	40%	30-70%
Stocks	50%	30-70%

For the fiscal year ended June 30, 2023, more than 5% of the Foundation's investments are equity funds, common stock, and other bonds. These investments represent 48%, 8%, and 43% of the Foundation's total investments, respectively. For the fiscal year ended June 30, 2022, more than 5% of the Foundation's investments are equity funds, common stock, and other bonds. These investments represent 41%, 8%, and 38% of the Foundation's total investments, respectively.

<u>Custodial credit risk</u> – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it.

<u>Primary Government</u> - *Deposits*. As of June 30, 2023 and 2022, the College's bank balances of \$2,617,808 and \$4,808,276, respectively, was either covered by FDIC or collateralized by the financial institution's public entity deposit pool in the manner described below.

The College has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

- Eligible securities pledged to the College and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or
- Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

<u>Component Unit</u> - The Foundation's endowment investment policy provides that the investments will be made for the sole interest and exclusive purpose of providing benefits to the investment committee. All investments are held in the name of the Foundation.

#### Note 3 – Accounts Receivable

Accounts receivable at June 30, 2023 was comprised of the following:

	Allowance Gross for Doubtful Net Receivables Accounts Receivabl		
Current Receivables:			
Students	\$4,034,575	(\$724,893)	\$3,309,682
Intergovernmental	69,135	0	69,135
Third Party	55,242	0	55,242
Total Current Receivables	\$4,158,952	(\$724,893)	\$3,434,059

#### Accounts receivable at June 30, 2022 was comprised of the following:

	Allowance			
	Gross	for Doubtful	Net	
	Receivables	Accounts	Receivables	
Current Receivables:				
Students	\$4,051,487	(\$608,327)	\$3,443,160	
Intergovernmental	417,581	0	417,581	
Third Party	69,900	0	69,900	
Total Current Receivables	\$4,538,968	(\$608,327)	\$3,930,641	

#### Note 4 – Capital Assets

Capital asset activity for the years ended June 30, 2023 and 2022 were as follows:

	2023			
	Beginning			Ending
	Balance	Additions	Reductions	Balance
Capital assets not depreciated:				
Land	\$4,517,468	\$0	(\$700,000)	\$3,817,468
Construction in Progress	0	0	0	0
Non-Depreciable Artwork	4,400	0	0	4,400
Total capital assets not depreciated	4,521,868	0	(700,000)	3,821,868
Capital assets being depreciated:

Total accumulated depreciation	(21,394,740)	(918,441)	2,335,547	(19,977,634)
Capital assets, net	\$28,812,450	\$3,876,807	(\$6,194,050)	\$26,495,207

The following estimated useful lives are used to compute depreciation:

Buildings and Improvements	20 – 40 years
Library Books	7 years
Equipment and Vehicles	5 – 15 years

#### Note 5 – State Support

The College is a state-assisted institution of higher education and receives a student-based subsidy from the State of Ohio, as determined annually based upon a formula devised by the Ohio Board of Regents.

In addition to the student subsidies, the State of Ohio provides the funding for the construction of major plant facilities on the College's campus. The funding is obtained from the issuance of revenue bonds by the Ohio Public Facilities Commission (OPFC), which in turn causes the construction and subsequent lease of the facility by the Ohio Board of Regents. Upon completion of a facility, the Board of Regents turns over control to the College, which capitalizes the cost thereof. Neither the obligation for the revenue bonds issued by the Ohio Public Facilities Commission nor the annual debt service charges for principal and interest on the bonds are reflected in the College's financial statements. These are currently being funded through appropriations to the Board of Regents by the General Assembly.

The facilities are not pledged as collateral for the revenue bonds. Instead, the bonds are supported by a pledge of monies in the Higher Education Bond Service Fund established in the custody of the Treasurer of State. If sufficient monies are not available from this fund, a pledge exists to assess a special student fee uniformly applicable to students in state assisted institutions of higher education throughout the State. As a result of the above-described financial assistance provided by the State of Ohio to the College, outstanding debt issued by the Ohio Public Facilities Commission is not included on the College's statement of net position.

#### Note 6 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

#### Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the College's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the College's obligation for this liability to annually required payments. The College cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the College does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 7 for the required OPEB disclosures.

#### Plan Description – Ohio Public Employees Retirement System (OPERS)

#### **Plan Description**

The College's employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. College employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan. Effective January 1, 2022 the Combined Plan is no longer available for member selection.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A	Group B	<u>Group C</u>
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after
after January 7, 2013	ten years after January 7, 2013	January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost– of–living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Effective January 1, 2022, the Combined Plan is no longer available for member selection.

#### **Funding Policy**

The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
Statutory Maximum Contribution Rates	
Employer	14.00 %
Employee	10.00 %
Actual Contribution Rates Employer: Pension Post-employment Health Care Benefits	14.00 % 0.00
Total Employor	14.00 %
Total Employer	14.00 %
Employee	10.00 %

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The College's contractually required contributions to OPERS were \$453,778 and \$491, 388 for fiscal years 2023 and 2022, respectively.

#### Plan Description - State Teachers Retirement System (STRS)

#### **Plan Description**

College licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0.0% upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3.0% of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Eligibility changes will be phased in August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 34 years of service credit and any age. Further adjusting to five years of service and age 65, or 35 years of service credit and any age as of August 1, 2028.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53% of the 14.0% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47% of the 14.0% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12.0% of the 14.0% member rate is deposited into the member's DC account and the remaining 2.0% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the

member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

#### **Funding Policy**

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2023 employer and employee contribution rate of 14.0% was equal to the statutory maximum rates. For 2023, the full employer contribution was allocated to pension.

The College's contractually required contributions to STRS were \$539,164 and \$579,943 for fiscal years 2023 and 2022, respectively.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2022 (OPERS) and June 30, 2022 (STRS), and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

-	OPERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$5,860,154	\$7,083,370	\$12,943,524
Proportion of the Net Pension Liability:			
Current Measurement Date	0.01983800%	0.03186383%	
Prior Measurement Date	0.02055400%	0.03236327%	
Change in Proportionate Share	-0.00071600%	-0.00049944%	
Pension Expense	\$806,961	\$184,730	\$991,691

At June 30 2023, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$194,650	\$90,676	\$285,326
Changes of assumptions	61,908	847,667	909,575
Net difference between projected and			
actual earnings on pension plan investments	1,670,328	246,486	1,916,814
Changes in employer proportionate share of net			
pension liability	0	0	0
Contributions subsequent to the measurement date	226,889	539,164	766,053
Total Deferred Outflows of Resources	\$2,153,775	\$1,723,993	\$3,877,768
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$27,096	\$27,096
Net difference between projected and			
actual earnings on pension plan investments	0	638,049	638,049
Changes in employer proportionate share of net			
pension liability	85,505	1,211,063	1,296,568
Total Deferred Inflows of Resources	\$85,505	\$1,876,208	\$1,961,713

\$766,063 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement dates will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year				
Ending June 30:	OPERS	STRS	Total	
2023	\$165,687	(\$518,891)	(\$353,204)	
2024	365,792	(484,573)	(118,781)	
2025	491,659	(406,284)	85,375	
2026	818,243	718,369	1,536,612	
Total	\$1,841,381	(\$691,379)	\$1,150,002	

As of and for the year ended June 30, 2022, the proportionate share and pension expense were as follows:

-	OPERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$1,788,281	\$4,137,935	\$5,926,216
Proportion of the Net Pension Liability:			
Current Measurement Date	0.02055400%	0.03236327%	
Prior Measurement Date	0.02083300%	0.03666464%	
Change in Proportionate Share	-0.00027900%	-0.00430137%	
Pension Expense	(\$439,691)	(\$658,637)	(\$1,098,328)

At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$91,164	\$127,842	\$219,006
Changes of assumptions	223,623	1,147,937	1,371,560
Contributions subsequent to the measurement date	245,694	579,943	825,637
Total Deferred Outflows of Resources	\$560,481	\$1,855,722	\$2,416,203
Deferred Inflows of Resources			
Differences between expected and actual experience	\$39,221	\$25,936	\$65,157
Net difference between projected and			
actual earnings on pension plan investments	2,127,096	3,566,108	5,693,204
Changes in employer proportionate share of net			
pension liability	44,584	1,715,762	1,760,346
Total Deferred Inflows of Resources	\$2,210,901	\$5,307,806	\$7,518,707

\$825,637 reported as deferred outflows of resources related to pension resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense in subsequent years.

#### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2021, using the following key actuarial assumptions and methods applied to all periods included in the measurement in accordance with the requirements of GASB 67.

Key actuarial assumptions and methods used in the latest actuarial valuation, prepared as of December 31, 2022, reflecting experience study results, are presented below:

Actuarial Cost Method	Individual Entry Age
Investment Rate of Return	6.90%
Wage Inflation	2.75%
Projected Salary Increases	2.75% to 10.75%, includes wage inflation at 2.75%
COLA or Ad Hoc COLA:	
Pre-January 7, 2013 Retirees	3.00%, simple
Post-January 7, 2013 Retirees	3.00%, simple through 2023, then 2.05%, simple

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five year period ended December 31, 2020.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a longterm objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2022, these best estimates are summarized in the following table:

		Weighted Average Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Geometric)
Fixed Income	22.00%	2.62%
Domestic Equities	22.00%	4.60%
Real Estate	13.00%	3.27%
Private Equity	15.00%	7.53%
International Equities	21.00%	5.51%
Risky Parity	2.00%	4.37%
Other Investments	5.00%	3.27%
Total	100.00%	

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a loss of 12.1% for 2022.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 6.9% for the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the net pension liability or asset calculated using the discount rate of 6.9%, and the expected net pension liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	5.90%	6.90%	7.90%
Proportionate share of the net pension liability	\$8,778,315	\$5,860,154	\$3,432,768

For the year ended June 30, 2022 the following table presents the net pension liability or asset calculated using the discount rate of 6.9%, and the expected net pension liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
-	5.90%	6.90%	7.90%
Proportionate share of the net pension liability	\$4,714,882	\$1,788,281	(\$647,040)

#### Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2022, actuarial valuation compared to those used in the June 30, 2021, actuarial valuation are presented below:

	June 30, 2022	June 30, 2021
Inflation	2.50%	2.50%
Projected Salary Increases	From 2.50% to 8.50% based on age	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.00% net of investments expense, including inflation	7.00% net of investments expense, including inflation
Discount Rate of Return	7.00%	7.00%
Payroll Increases	3.00%	3.00%
Cost-of-Living Adjustments (COLA)	0.00%	0.00%

For 2022, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For 2021, post-retirement mortality rates are based on RP-2014 Annuitant Mortality Table with 50.0% of rates through age 69, 70.0% of rates between ages 70 and 79, 90.0% of rates between ages 80 and 84, and 100.0% of rates, thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90.0% of rates for males and 100.0% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Assot Class	Target	Long-Term Expected
Asset Class	Allocation *	Rate of Return **
Domestic Equity	26.00%	6.60%
International Equity	22.00%	6.80%
Alternatives	19.00%	7.38%
Fixed Income	22.00%	1.75%
Real Estate	10.00%	5.75%
Liquidity Reserves	1.00%	1.00%
Total	100.00%	

\* Final target weights reflected October 1, 2022.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2022.

#### Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the College's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00%, as well as what the College's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00%) or one-percentage-point higher (8.00%) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.00%
Proportionate share of the net pension liability	\$10,700,393	\$7,083,370	\$4,024,488

For the year ended June 30, 2022 the following table presents the net pension liability or asset calculated using the discount rate of 7.00%, and the expected net pension liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.00%	7.00%	8.45%
Proportionate share of the net pension liability	\$7,748,803	\$4,137,935	\$1,086,759

#### Changes Between the Measurement Date and the Reporting Date

In May 2023, the Board approved the following:

- 1. Retirees who started receiving benefits on June 1, 2019, or earlier will receive a 1.0% cost-ofliving adjustment (COLA) in fiscal year 2024. The increase will be added to the base benefit on the retirement date anniversary.
- 2. For teachers now in the classroom, the current retirement eligibility rule requiring 34 years of service for an unreduced retirement has been extended five years through July 2028. The requirement was scheduled to increase to 35 years of service on August 1, 2023.

Any effect on the net pension liability is not known at this time.

#### Note 7 - Defined Benefit OPEB Plans

See Note 6 for a description of the net OPEB liability (asset).

#### Ohio Public Employees Retirement System (OPERS)

#### Health Care Plan Description

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement (HRA) to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS. For those retiring on or after January 1, 2015, the allowance has been determined by applying a percentage to the base allowance. The percentage applied is based on years of qualifying service credit and age when the retiree first enrolled in OPERS health care. Monthly allowances range between 51 percent and 90 percent of the base allowance. Those who retired prior to January 1, 2015, will have an allowance of at least 75 percent of the base allowance.

The heath care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan.

OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60. Members in Group A are eligible for coverage at any age with 30 or more years of qualifying service. Members in Group B are eligible at any age with 32 years of qualifying service, or at age 52 with 31 years of qualifying service. Members in Group C are eligible for coverage with 32 years of qualifying service and a minimum age of 55. Current retirees eligible (or who became eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets. The definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <u>www.opers.org/financial/reports.shtml</u>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

#### **Funding Policy**

The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In calendar years 2022 and 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For calendar years 2022 and 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for calendar years 2022 and 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The College's contractually required contributions to OPERS were \$0 and \$0 for fiscal years 2023 and 2022, respectively.

#### Plan Description - State Teachers Retirement System (STRS)

#### **Plan Description**

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

#### **Funding Policy**

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14.0% of covered payroll. For the fiscal year ended June 30, 2023, STRS did not allocate any employer contributions to post-employment health care.

#### OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of December 31, 2022 (OPERS) and June 30, 2022 (STRS), and the total OPEB liability (asset) used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The College's proportion of the net OPEB liability (asset) was based on the College's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

	OPERS	STRS	Total
Proportionate Share of the Net OPEB (Asset)	\$135,227	(\$825,060)	(\$689,833)
Proportion of the Net OPEB Liability/Asset:			
Current Measurement Date	0.02144700%	0.03186383%	
Prior Measurement Date	0.02188800%	0.03236327%	
Change in Proportionate Share	-0.00044100%	-0.00049944%	
OPEB Expense	(\$272,277)	(\$167,299)	(\$439,576)

At June 30 2023, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$0	\$11,961	\$11,961
Changes of assumptions	132,080	35,145	167,225
Net difference between projected and			
actual earnings on OPEB plan investments	268,566	14,362	282,928
Changes in employer proportionate share of net			
OPEB liability	0	392	392
Total Deferred Outflows of Resources	\$400,646	\$61,860	\$462,506
Deferred Inflows of Resources			
Differences between expected and actual experience	\$33,731	\$123,909	\$157,640
Changes of assumptions	10,868	585,048	595,916
Net difference between projected and			
actual earnings on OPEB plan investments	0	0	0
Changes in employer proportionate share of net			
OPEB liability	1,574	38,541	40,115
Total Deferred Inflows of Resources	\$46,173	\$747,498	\$793,671

No amount is reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as an adjustment to net OPEB asset in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year			
Ending June 30:	OPERS	STRS	Total
2023	\$42,875	(\$207,852)	(\$164,977)
2024	98,111	(201,012)	(102,901)
2025	83,748	(92,148)	(8,400)
2026	129,740	(38,557)	91,183
2027	0	(48,523)	(48,523)
Thereafter	0	(97,546)	(97,546)
Total	\$354,474	(\$685,638)	(\$331,164)

Following is information related to the proportionate share and OPEB expense for the fiscal year ending June 30, 2022:

	OPERS	STRS	Total
Proportionate Share of the Net OPEB (Asset)	(\$685,566)	(\$682,353)	(\$1,367,919)
Proportion of the Net OPEB Liability/Asset:			
Current Measurement Date	0.02188800%	0.03236327%	
Prior Measurement Date	0.02211100%	0.03666464%	
Change in Proportionate Share	-0.00022300%	-0.00430137%	
OPEB Expense	(\$738,380)	(\$66,337)	(\$804,717)

At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$0	\$24,297	\$24,297
Changes of assumptions	0	43,585	43,585
Total Deferred Outflows of Resources	\$0	\$67,882	\$67,882
Deferred Inflows of Resources			
Differences between expected and actual experience	\$103,990	\$125,020	\$229,010
Changes of assumptions	277,509	407,074	684,583
Net difference between projected and			
actual earnings on OPEB plan investments	326,830	189,136	515,966
Changes in employer proportionate share of net			
OPEB liability	30,268	56,882	87,150
Total Deferred Inflows of Resources	\$738,597	\$778,112	\$1,516,709

No amount is reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as an adjustment to net OPEB asset in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense in subsequent years.

#### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between the System and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2021, rolled forward to the measurement date of December 31, 2022.

The actuarial valuation used the following key actuarial assumptions and methods, reflecting experience study results, applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Actuarial Cost Method Wage Inflation Projected Salary	Individual Entry Age 2.75% 2.75% to 10.75% (including wage inflation at 2.75%)
Single Discount Rate:	
Current measurement date	5.22%
Prior Measurement date	6.00%
Investment Rate of Return	6.00%
Municipal Bond Rate:	
Current measurement date	4.05%
Prior Measurement date	1.84%
Health Care Cost Trend Rate:	
Current measurement date	5.50% initial, 3.50% ultimate in 2036
Prior Measurement date	5.50% initial, 3.50% ultimate in 2034

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five year period ended December 31, 2020.

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined benefit pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Health Care portfolio's target asset allocation as of December 31, 2022, these best estimates are summarized in the following table:

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Geometric)
Fixed Income	34.00%	2.56%
Domestic Equities	26.00%	4.60%
Real Estate Investment Trusts	7.00%	4.70%
International Equities	25.00%	5.51%
Risk Parity	2.00%	4.37%
Other Investments	6.00%	1.84%
Total	100.00%	

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the moneyweighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a loss of 15.6% for 2022.

#### **Discount Rate**

A single discount rate of 5.22% was used to measure the total OPEB liability on the measurement date of December 31, 2022; however, the single discount rate used at the beginning of the year was 6.00%. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 4.05%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care investments was applied to projected costs through the year 2054, and the municipal bond rate was applied to all health care costs after that date.

## Sensitivity of the College's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates

The following table presents the net OPEB liability calculated using the single discount rate of 5.22%, and the expected net OPEB liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

June 30, 2023			
	1%	Single	1%
	Decrease	Discount Rate	Increase
	4.22%	5.22%	6.22%
Proportionate share of the net OPEB liability	\$460,253	\$135,277	(\$132,971)

The following table presents the net OPEB liability or asset calculated using the single discount rate of 6.00%, and the expected net OPEB liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

#### June 30, 2022

June 30, 2022			
	1%	Single	1%
	Decrease	Discount Rate	Increase
	5.00%	6.00%	7.00%
Proportionate share of the net OPEB (asset)	(\$403,177)	(\$685,566)	(\$919,953)

#### Sensitivity of the College's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

Retiree health care valuations use a health care cost trend assumption with changes over several years built into that assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2023 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health care cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

June 30, 2023

	C	Current Health Care Cost Trend Rate	
	1% Decrease Assumption		1% Increase
Proportionate share of the net OPEB liability	\$126,752	\$135,227	\$144,767
June 30, 2022			
	C	Current Health Care	
		Cost Trend Rate	
	1% Decrease	Assumption	1% Increase
Proportionate share of the net OPEB (asset)	(\$692,974)	(\$685,566)	(\$676,777)

#### Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2022, actuarial valuation and the June 30, 2021 actuarial valuation are presented below:

#### Southern State Community College Highland County Notes to the Basic Financial Statements

For the Fiscal Years Ended June 30, 2023 and 2022

	June 30, 2022	June 30, 2021
Projected salary increases	Varies by service from 2.50% to 8.50%	Varies by service from 2.50% to 12.50%
Investment Rate of Return	7.00%, net of investment expenses, including inflation	7.00%, net of investment expenses, including inflation
Payroll Increases	3.00%	3.00%
Discount Rate of Return	7.00%	7.00%
Health Care Cost Trends: Medical		
Pre-Medicare	7.50% initial, 3.94% ultimate	5.00% initial, 4.00% ultimate
Medicare	-68.78% initial, 3.94% ultimate	-16.18% initial, 4.00% ultimate
Prescription Drug		
Pre-Medicare	9.00% initial, 3.94% ultimate	6.50% initial, 4.00% ultimate
Medicare	-5.47% initial, 3.94% ultimate	29.98% initial, 4.00% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For 2022, healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For 2021, healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50.0% of rates through age 69, 70.0% of rates between ages 70 and 79, 90.0% of rates between ages 80 and 84, and 100.0% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90.0% of rates for males and 100.0% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

#### Southern State Community College Highland County Notes to the Basic Financial Statements

For the Fiscal Years Ended June 30, 2023 and 2022

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.60%
International Equity	22.00%	6.80%
Alternatives	19.00%	7.38%
Fixed Income	22.00%	1.75%
Real Estate	10.00%	5.75%
Liquidity Reserves	1.00%	1.00%
Total	100.00%	

\* Target allocation percentage is effective as of July 1, 2022. Target weights will be phased in over a 3-month period concluding on October 1, 2022.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

#### **Discount Rate**

The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on health care plan investments of 7.00% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2022.

## Sensitivity of the Proportionate Share of the Net OPEB (Asset) to Changes in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2022, calculated using the current period discount rate assumption of 7.00%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
Proportionate share of the net OPEB (asset)	(\$762,747)	(\$825,060)	(\$878,438)
	1%	Current	1%
	Decrease	Trend Rate	Increase
Proportionate share of the net OPEB (asset)	(\$855,789)	(\$825,060)	(\$786,274)

The following table represents the net OPEB asset as of June 30, 2021, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

#### June 30, 2022

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
Proportionate share of the net OPEB (asset)	(\$575,800)	(\$682,353)	(\$771,362)
	1%	Current	1%
	Decrease	Trend Rate	Increase
Proportionate share of the net OPEB (asset)	(\$767,755)	(\$682,353)	(\$576,745)

#### Changes Between the Measurement Date and the Reporting Date

In May 2023, the Board approved the following:

- 1. Retirees who started receiving benefits on June 1, 2019, or earlier will receive a 1.0% cost-ofliving adjustment (COLA) in fiscal year 2024. The increase will be added to the base benefit on the retirement date anniversary.
- 2. For teachers now in the classroom, the current retirement eligibility rule requiring 34 years of service for an unreduced retirement has been extended five years through July 2028. The requirement was scheduled to increase to 35 years of service on August 1, 2023.

Any effect on the net OPEB asset is not known at this time.

#### Note 8 – Compensated Absences

College faculty and support staff accrue vacation benefits; however, vacation carryover balances are limited to a maximum of 60 days. For all classes of employees, any earned but unused vacation benefit is payable upon termination. Sick leave may be accrued without limit. However, earned but unused sick leave benefits are payable only upon retirement from the College. The amount of sick leave benefit payable at retirement is one fourth of the value of the accrued but unused sick leave up to a maximum of 43 days.

The College accrues sick leave liability for those employees who are currently eligible to receive termination payments as well as other employees who are expected to become eligible to receive such payments. This liability is calculated using the "vesting method" which is set forth in Appendix C, Example 5 of GASB Statement No. 16, *Accounting for Compensated Absences*. Under the vesting method, the College calculates the probability factor that employees will meet retention and eligibility requirements.

The liability for the cost of vacation and sick leave benefits was approximately \$372,224 and \$384,875 as of June 30, 2023 and 2022, respectively.

#### Note 9 – Long-Term Liabilities

During fiscal year ended June 30, 2008, the College issued General Receipts Bonds, Series 2008. During fiscal year ended June 30, 2012, the College issued General Receipts Bonds, Series 2011 and Series 2012.

The following summarizes as of June 30, 2023:

			2	2023			
		Due Serially	Beginning			Ending	Current
	Interest Rate	Thorugh	Balance	Additions	Deletions	Balance	Portion
Bonds:							
Series 2008	3.5-5.05%	2025	\$1,275,000	\$0	(\$1,275,000)	\$0	\$0

Principal and interest amounts due within each of the next five years and thereafter on obligations outstanding at June 30, 2023, are as follows:

Fiscal	Series 2011		Series	2012
Year End	Principal	Interest	Principal	Interest
2024	550,000	195,583	245,000	77,974
2025	565,000	178,293	250,000	70,795
2026	585,000	159,746	260,000	63,143
2027	600,000	139,740	265,000	55,004
2028	625,000	118,303	275,000	46,361
2029-2032	2,735,000	220,352	1,200,000	86,799
Total	\$5,660,000	\$1,012,016	\$2,495,000	\$400,076

In connection with the General Receipts Bonds, the College has pledged future general revenues of the main campus, net of certain specified receipts such as state appropriations and taxes, to repay these bonds. The bonds are payable, through their final maturities, from net revenues applicable to the main campus. Annual principal and interest payments on the bonds are expected to require less than 1.4 percent of net revenues. Total principal and interest remaining to be paid on these bonds is \$9,567,092.

The College pays obligations related to employee compensation from the program benefitting from their service.

#### Note 10 – Risk Management

The College is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters, for which the College carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### Note 11 – Implementation of New Accounting Principles

For fiscal year 2023, the College implemented Governmental Accounting Standards Board (GASB) Statement No. 91, Conduit Debt Obligations; GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements; GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs); and portions of GASB Statement No. 99, Omnibus 2022.

GASB Statement No. 91 clarifies the definition of a conduit debt obligation, establishing that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. The implementation of GASB Statement No. 91 did not have an effect on the financial statements of the College.

GASB Statement No. 94 primary objective is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

GASB Statement No. 94 also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The implementation of GASB Statement No. 94 did not have an effect on the financial statements of the College.

GASB Statement No. 96 provides guidance on the accounting and financial reporting for subscriptionbased information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. The implementation of GASB Statement No. 96 did not have an effect on the financial statements of the College.

GASB Statement No. 99 addresses a variety of topics and includes clarification of provisions related to accounting and reporting of leases under GASB Statement No. 87, provides extension of the period which the London Interbank Offered Rate is considered appropriate benchmark interest rate, guidance on disclosure of nonmonetary transaction, accounting for pledges of future revenues when resources are not received by the pledging government under GASB Statement No. 48, and terminology updates related to certain provisions of GASB Statement No. 63 and No. 53. These topics under GASB Statement No. 99 provisions were implemented and did not have an effect on the financial statements of the College.

Other topics in GASB Statement No. 99 includes classification of other derivative instruments within the scope of GASB Statement No. 53, clarification of provisions related to accounting and reporting of Public-Private and Public-Public Partnerships under GASB Statement No. 94, and clarification of provisions to accounting and reporting of subscription-based information technology arrangements under GASB Statement No. 96. These topics are effective for future fiscal years and have not been implemented by of the College.

#### Note 1 - Net Pension Liability

#### State Teachers Retirement System (STRS)

#### **Changes in Benefit Terms:**

2019-2023: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

#### **Changes in Assumptions:**

2023: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table:
  - a. Adjusted 110.0% for males, projected forward generationally using mortality improvement scale MP-2020
- (2) Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table:
  - a. Adjusted 95.0% for females, projected forward generationally using mortality improvement scale MP-2020
- (3) Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table:
  - a. Projected forward generationally using mortality improvement scale MP-2020
- (4) Projected salary increases changed from 2.50% to 12.50% to 2.50% to 8.50%

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

2019-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (5) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (6) The inflation assumption was lowered from 2.75% to 2.50%,
- (7) The payroll growth assumption was lowered to 3.00%,
- (8) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (9) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (10)Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

#### **Ohio Public Employees Retirement System (OPERS)**

#### **Changes in Benefit Terms:**

2014-2023: There were no changes in benefit terms for this period.

#### **Changes in Assumptions:**

2023: There were no changes in assumptions from the amounts reported for this period.

2022: The following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- (1) Reduced the investment rate of return assumption from 7.20% to 6.90%,
- (2) Reduced the Wage Inflation from 3.25% to 2.75%, and
- (3) Changing the future salary increases from a range of 3.25%-10.05% to 2.75%-10.75%.

2020-2021: There were no changes in assumptions from the amounts reported for this period.

2019: The investment rate of return decreased from 7.5 percent to 7.2 percent.

2018: There were no changes in assumptions since the prior measurement date.

2017: The following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- (1) Reduction in the actuarially assumed rate of return from 8.00% down to 7.50%,
- (2) For defined benefit investments, decreasing the wage inflation from 3.75% to 3.25%, and
- (3) Changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%.

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for

#### Note 2 - Net OPEB (Asset)/Liability

#### State Teachers Retirement System (STRS)

#### **Changes in Benefit Terms:**

2023: Salary increase rates were updated based on the actuarial experience study for the period July 1, 2015 through June 30, 2021 and were changed from age based to service based. Healthcare trends were updated to reflect emerging claims and recoveries experience.

2022: The non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055% to 2.100%. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D subsidy was updated to reflect it is expected to be negative in CY2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

2021: There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

2020: There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

2019: The subsidy multiplier for non-Medicare benefit recipients was increased from 1.900% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. The Board is extending the current Medicare Part B partial reimbursement program for one year. Under this program, benefit recipients currently enrolled in the STRS Ohio Health Care Program and Medicare Part B receive \$29.90 per month to reimburse a portion of the Medicare Part B premium. The reimbursement was set to be reduced to \$0 beginning January 1, 2020. This impacts about 85,000 benefit recipients.

2018: The subsidy multiplier for non-Medicare benefit recipients was reduced from 2.10% to 1.90% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.

2017: There were no changes in benefit terms from the amounts reported for this fiscal year.

#### **Changes in Assumptions:**

2023: The discount rate remained unchanged at 7.00% for the June 30, 2022 valuation.

2022: There were changes in assumptions since the prior measurement date, which the discount rate was adjusted to 7.00% from 7.45%.

2021: There were changes in assumptions during the measurement year, which decreased the total OPEB liability by approximately \$0.26 billion. The assumption changes included changes in healthcare costs and trends.

2020: There were changes in assumptions during the measurement year, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

2019: The discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

2018: The discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

#### **Ohio Public Employees Retirement System (OPERS)**

#### Changes in Benefit Terms:

2021-2023: There were no changes in benefit terms for this period.

2020: On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees.

2018-2019: There were no changes in benefit terms for the period.

#### **Changes in Assumptions:**

2023: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate increased from 6.00 percent to 5.22 percent, and
- The municipal bond rate decreased from 1.84 percent to 4.05 percent.

2022: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- Wage inflation changed from 3.25 percent to 2.75 percent,
- Projected salary changed from 3.25 percent-10.75 percent to 2.75 percent-10.75 percent,
- The municipal bond rate decreased from 2.00 percent to 1.84 percent, and
- The initial health care cost trend rate decreased from 8.5 percent to 5.5 percent.

2021: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate increased from 3.16 percent to 6.00 percent,
- The municipal bond rate decreased from 2.75 percent to 2.00 percent, and
- The initial health care cost trend rate decreased from 10.5 percent to 8.5 percent.

2020: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate decreased from 3.96 percent to 3.16 percent,
- The municipal bond rate decreased from 3.71 percent to 2.75 percent, and
- The initial health care cost trend rate increased from 10.0 percent to 10.5 percent.

2019: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate increased from 3.85 percent to 3.96 percent,
- The investment rate of return decreased from 6.5 percent to 6 percent,
- The municipal bond rate increased from 3.31 percent to 3.71 percent, and
- The initial health care cost trend rate increased from 7.5 percent to 10 percent.

2018: The single discount rate changed from 4.23 percent to 3.85 percent.

#### Note 1 - Net Pension Liability

See accompanying notes to the Schedule of Expenditures of Federal Awards.

#### Note 1 – Basis of Presentation

The accompanying schedule of federal awards expenditures (the schedule) is a summary of the activity of the College's federal award programs. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the College, it is not intended to and does not present the financial position, changes in net position, or cash flows of the College.

#### **Note 2 - Significant Accounting Policies**

Expenditures reported on the schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The College has elected not to use the 10- percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### Note 3 – Federal Direct Student Loan Program

The College participates in the Federal Direct Student Loan Program. The dollar amounts listed in the schedule of federal awards expenditures represents new loans advanced during the fiscal year ended June 30, 2023. The College is a direct lender for these loan funds; however, they are not responsible for collecting these loans in future periods.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

#### To the Board of Trustees Southern State Community College

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and discretely presented component unit of Southern State Community College, Highland County, Ohio, (the College) a component unit of the State of Ohio, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated October 30, 2023.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Southern State Community College

#### **Report on Compliance for Each Major Federal Program**

#### **Opinion on Each Major Federal Program**

We have audited the Southern State Community College (the College) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the College's major federal programs for the year ended June 30, 2023. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the College, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the College's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the College's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the College's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the College's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance compliance with a type of compliance ment of a federal program that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
