Board of Trustees  
Ohio Public Employees Retirement System  
277 East Town Street  
Columbus, Ohio 43215

We have reviewed the *Independent Auditor's Report* of the Ohio Public Employees Retirement System, Franklin County, prepared by Plante & Moran, PLLC, for the audit period January 1, 2023 through December 31, 2023. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio Public Employees Retirement System is responsible for compliance with these laws and regulations.

**This page intentionally left blank.**

## **Employer composition and membership information**

For actuarial purposes, participating employers are divided into State, Local, Law Enforcement and Public Safety divisions. A complete description of the OPERS membership is contained in the Plan Statement Section of this document, beginning on page 209.

## **Annual report organization**

This annual report is divided into six sections, listed as each appears in this document:

- 1 Introductory Section**—with the Letter of Transmittal, organizational chart, and recognition awards garnered in 2023
- 2 Financial Section**—with the Independent Auditor's Report, Management's Discussion and Analysis, the financial statements of the System, Required Supplementary Information and Other Supplementary Information.
- 3 Investment Section**—with the Chief Investment Officer's report on investment activity, Independent Investment Consultant's Report, investment policies, investment results, and various investment schedules
- 4 Actuarial Section**—with the Actuary's Certification Letter and the most recent results of the annual actuarial valuations for pension and health care
- 5 Statistical Section**—with significant data pertaining to the System
- 6 Plan Statement**—with membership information and details about the retirement plans offered through OPERS

## Is your retirement security a feeling, a number or a responsibility?

Yes, and...

### **OPERS is a piece of the puzzle.**

OPERS is committed to providing members—current and future—with both the feeling and the numbers that provide our members financial security in retirement. The responsibility to build on that financial foundation is yours, through your contributions while working; the responsibility to preserve that financial foundation for all members is ours. We accept that responsibility and have preserved that trust for almost 90 years.

This annual report provides you with a snapshot of the actions taken and results attained to protect retirement security of all members—current and future. It's your responsibility to see what's happening inside your pension system—and these pages illustrate our commitment to keeping your assets secure.

OPERS remains committed to and diligent in protecting members' benefits. We are proud to present this annual report to our members. We know our work is important to our members and we remain steadfast in our commitment to you.

## Board of Trustees as of January 2024

**From left to right:** James Tilling, General Assembly Appointed Investment Expert; Chris Mabe, Representative for State Employees and Board Chair; Scott Richter, Treasurer-Appointed Investment Expert; Steve Toth, Representative for Retirees; James Kunk, Governor-Appointed Investment Expert; Julie Albers, Representative for County Employees; Randy Desposito, Representative for Non-teaching College/University Employees; Ken Thomas, Representative for Municipal Employees; Stewart Smith, Representative for Miscellaneous Employees and Board Vice Chair; Kathleen Madden, Director—Department of Administrative Services (Statutory Member); Tim Steitz, Representative for Retirees

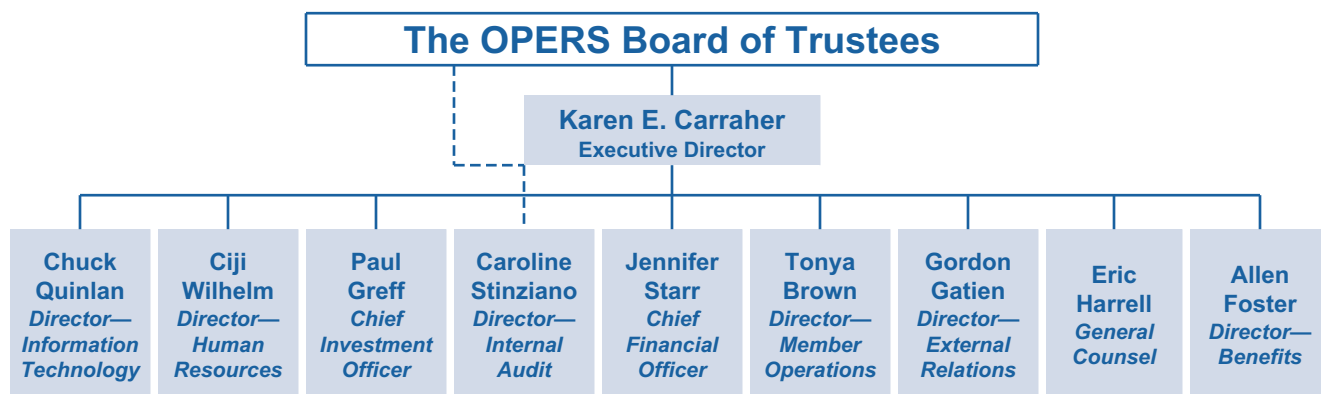

The 11-member Board of Trustees is the governing body of the Ohio Public Employees Retirement System (referred to as OPERS, System or Fund). The Board is ultimately responsible for the administration and management of all OPERS activities including oversight of investment activities.

The Board is comprised of seven individuals who are elected by the specific stakeholder group each represents: college/university employees, state employees, miscellaneous employees, county employees, municipal employees, and two retiree elected representatives. Three individuals with investment expertise are appointed by Ohio's Governor, Treasurer and jointly by the Ohio Legislature. The Board is completed by the Director of the Ohio Department of Administrative Services who serves on the Board by virtue of office.

The Board appoints the Executive Director, an actuary, and other advisors necessary for the transaction of business. By law, the Treasurer of the state of Ohio is custodian of the OPERS funds.

The Board meets periodically throughout the year and receives no compensation, but is reimbursed for necessary expenses.

### OPERS Leadership Team

**Front Row (left to right):** Chuck Quinlan, Director—Information Technology; Paul Greff, Chief Investment Officer; Karen Carraher, Executive Director; Gordon Gatien, Director—External Relations; Allen Foster, Director—Benefits

## Ohio Public Employees Retirement System

277 East Town Street Columbus, Ohio 43215-4642 1-800-222-7377 [www.opers.org](http://www.opers.org)

May 3, 2024

Dear Chairman and Members of the Board of Trustees:

It's a pleasure to present to you the *2023 Annual Comprehensive Financial Report* (annual report) of the Ohio Public Employees Retirement System (OPERS or System) for the fiscal year ended December 31, 2023. Our theme—*Continued Commitment to Our Members*—captures the focus, attitude, efforts, dedication and diligence displayed by our Board of Trustees and staff throughout 2023—qualities displayed every year. We believe our cumulative results for 2023 illustrate this commitment.

### A History of Commitment

Commitment is required for OPERS to be in the position of delivering on our stated mission of consistently providing a secure financial retirement for our members. OPERS has remained steadfast in its commitment to provide quality pension, disability, and survivor benefits, as well as access to health care, while working to deliver superior service to all members. As of year-end 2023, OPERS served approximately 1,286,000 members, including almost 221,000 retirees and beneficiaries. The System continues to work with approximately 3,700 public employers. With a net asset base of \$114.8 billion, OPERS is the largest public pension system in Ohio and the 14<sup>th</sup> largest public pension system in the nation.

During 2023, the investments markets remained volatile with elevated uncertainty coming out of 2022, facing headwinds as interest rates remained high. Through discipline and commitment to stay the course of asset diversification through periods of poor performance, we experienced the benefits of strong returns earned over a short period of time in the second half of 2023. The total fund returns for 2023 ended with a gain of 11.72%, which is an increase of \$12.1 billion. Markets remained challenging throughout 2023 as they moved up and down significantly during the year.

The investment market highs and lows emphasize the importance and value of the consistency of a defined benefit pension plan for retirement. This commitment we have demonstrated through the decades. Created by legislation in 1933, OPERS began operations January 1, 1935, prior to the Social Security Administration. In 1974, OPERS added access to health care—an element of significant importance to retirees yet it is neither mandated nor guaranteed. In 2003, OPERS increased the pension plan options offered to three distinct plans. Most recently, in 2022, OPERS closed one plan to new entrants, thus reducing the options for new members to two plans. More information on current benefits can be found in the Plan Statement starting on page 209.

We remain committed to executing on established plans, solid frameworks and structures that have been proven to be financially stable during these challenging markets. As we continue looking ahead, monitoring investment markets in 2024, working to address our

challenges, evaluating health care allowances, and investing contributions in a fiscally responsible manner, we remain focused on our five overarching plan goals that guide our actions. Specifically, the goals are:

- Provide a stable pension for all OPERS retirees
- Continue to provide a meaningful retiree health care program
- Minimize drastic plan design changes by making incremental changes
- Ensure OPERS is financially positioned to react to market volatility
- Maintain intergenerational equity

As with all years, we had successes and challenges—throughout all, we remain committed to moving OPERS forward and providing a secure retirement for our present and future members.

### Summary of Key Activities in 2023

#### ***Investments***

Our commitment to members drives our focus for issues, projects and initiatives. This commitment is very important as investment markets continue to be increasingly complex and challenging. Since investment returns provide approximately two-thirds of the funding for a retiree's ultimate pension, the market volatility means we must remain committed in our adherence to the proven principles of asset allocation and diversification, both of which are regularly reviewed, to produce solid results.

Heading into 2023, inflation was still high, interest rates were still rising, and concerns of a recession were at top of mind. Ultimately, a massive stock market rally defied expectations. Stocks rallied from October lows and the market finished 2023 at its highs for the year. Overall, the total OPERS portfolio for 2023 returned 11.72%, compared to a loss of 12.49% in 2022. This clearly demonstrates the volatility of the investment market despite our continued commitment to thoughtful planning to maintain stability through market highs and lows.

OPERS' total portfolio is made up of underlying portfolios that fund pension benefits and the health care program. These underlying portfolios have different asset allocations based on their funding and liquidity needs; thus, their investment returns will vary. Investment returns presented are based on year-to-date, time-weighted returns. The underlying portfolios include: the Defined Benefit portfolio, the Defined Contribution portfolio, and the Health Care portfolio. By portfolio, the 2023 returns were:

- The Defined Benefit portfolio returned 11.26%, exceeding both the benchmark return of 10.46%, and the anticipated actuarial funding plan rate of 6.90%.
- The Defined Contribution portfolio returned 18.08%, compared to the benchmark return of 18.16%.
- The Health Care portfolio returned 13.97%, also exceeding both the benchmark return of 13.65%, and the anticipated actuarial funding plan rate of 6.00%.

A complete discussion of investment returns, activities, asset allocation strategy, safeguards, and policies governing those activities can be found in the Investment Section, beginning on page 85. Additionally, information on investment fees and commissions can be found beginning on page 96.

***Pension Funding***

To achieve the required funding necessary to provide pension benefits, OPERS collects member and employer contributions and invests those assets. This is a shared responsibility between contributions and investments towards the commitment to funding a member's retirement. The investment assets are expected to earn a targeted investment return over the long-term. As the System has matured, the investment earnings have become the largest source of funding for the benefits.

The December 31, 2023 actuarial valuation reflected that OPERS remained 84% funded for both 2023 and 2022. The stable funding position results from actuarial smoothing, in which market gains and losses are recognized over a four-year period to reduce the impact of market volatility. At the end of 2023, the market value of assets was lower than the funding value by \$5.5 billion. This accumulated net loss will be phased in over the next three years—having an impact on our funded ratio if not offset with future excess market gains.

The funded ratio is a key measure of the System as it reflects OPERS has accumulated 83.8% of the assets necessary to fund the liability for both active and retired members. By law, OPERS is obligated to pay the benefits that have commenced with retirees. To make these payments each year, OPERS transfers funds from the active member funding to the retired member funding. Thus, after this annual transfer, the Traditional Pension Plan active member funding is 55% as of December 31, 2023. The amortization period reflects how long it will take to fund remaining liabilities based on the current actuarial assumptions. The OPERS amortization period declined from 16 years as of December 31, 2022, to 15 years as of December 31, 2023, and is within the statutorily required 30-year amortization period.

The Actuarial Section, beginning on page 125, provides complete schedules of funding progress for pension and health care.

***Health Care***

Although health care is neither mandated nor guaranteed, the Board, management and staff recognize the importance to our members of providing access to meaningful health care as it is a significant component of a secure retirement. This commitment to maintaining health care has become increasingly challenging as health care costs continue to increase due to the growing number of retirees, increasing life expectancies and overall increases in the cost of health care due to medical advances especially in the prescription drug component. OPERS did not fund health care in 2023 and likely will not in future years until the pension funding improves.

As a result of these challenges, OPERS adopted changes to the health care program over the past several years. The most recent changes effective in 2022 include the elimination of the group health care plan for non-Medicare retirees and transition to a health reimbursement arrangement (HRA) that can be used for reimbursement of qualified health care expenses. A high-level summary of the key elements to the health care program are described in the Plan Statement beginning on page 209.

As of December 31, 2022, the date of the most recent health care valuation, the health care assets accumulated to fund the liabilities exceeded the liabilities by \$1.7 billion, resulting in a funded ratio of 115.5%, a slight improvement over the prior year's funded ratio of 115.2%. Based on a combination of the decreased health care expenditures, the investment losses from 2022, and that OPERS is currently unable to fund the health care trust for all members, the current trust fund is expected to last approximately 21 years, a decline over the prior year's solvency period of 29 years. The decline of this measurement is a direct result of the

poor investment market in 2022. Since the health care valuation is one year in arrears, this does not include 2023's strong market returns.

### Other Activities in 2023

#### ***Health Care Education Initiative***

During 2023, OPERS expanded health care education for both retirees and active members, designing and providing education to target members with specific health care topics. The initial phase focused on understanding Medicare, geared toward members who are approaching 65 and members who are over 65 and have chosen to keep working. OPERS is committed to developing and offering additional targeted, deep-dive educational sessions throughout 2024.

#### ***Combined Plan Changes***

During 2023, the General Assembly passed the state budget bill (HB 33) which allows OPERS to consolidate the Combined Plan with the Traditional Pension Plan. Thus, beginning January 1, 2022, new members may no longer select the Combined Plan, and current members may no longer make a plan change to the Combined Plan. For those participating in the plan prior to the closure, the plan retains all plan design features so that participants in the plan will experience no changes.

#### ***Mainframe Replacement***

OPERS staff continued to work on a multi-year project to replace the mainframe computer system and migrate the various applications to a new, more current system. This project, expected to be completed in 2024, involves transferring the coding language to a new language and migrating the member system applications to the new platform with appropriate testing.

### Report Contents and Structure

This annual report is designed to comply with the reporting requirements of the Governmental Accounting Standards Board (GASB) and in accordance with the Governmental Accounting Standards Best Practices. The responsibility for the accuracy of the data presented here, as well as the completeness and fairness of the presentation, rests with OPERS management.

The management of OPERS is responsible for internal accounting controls designed to provide reasonable assurance for the safeguarding of assets and the reliability of financial records. The concept of reasonable assurance recognizes the relationship between the cost of a control and the benefit likely to be derived, based on the judgment of management. We believe the established internal accounting controls are adequate to meet the purpose for which they were intended.

The financial statements presented in this report, supporting schedules, and statistical tables are presented fairly in all material aspects. These assertions can be made because OPERS has established a comprehensive internal control framework designed to protect assets from loss and to compile sufficient reliable information for the preparation of the OPERS financial statements in conformity with generally accepted accounting principles. Even effective internal controls may not prevent or detect misstatements and can provide only a reasonable assurance with respect to financial statement preparation.

The System's external auditors, Plante & Moran, PLLC, conducted an independent audit of the financial statements in accordance with U.S. generally accepted government auditing

standards. This audit and the financial statements are described in the Financial Section, beginning on page 15.

Additionally, readers are encouraged to refer to the Investment Section for information on investment policies and strategies, safeguards on investments, and yield.

### 2023 Financial Highlights

**Retirement Contributions:** Employee contributions, employer contributions, and income from investments provide the funds necessary to finance retirement benefits. Approximately two-thirds of OPERS revenue from which benefits are paid is generated from investment returns. The remaining funding comes from employee and employer contributions. The System reports a total of \$1.8 billion in member and \$2.5 billion in employer contributions for the year ended December 31, 2023. Total net position is \$114.8 billion as of December 31, 2023.

**Expenses:** Expenses (including pension benefit payments, health care payments and account refunds) for fiscal year 2023 were \$8.4 billion. In 2023, OPERS paid \$7.2 billion in pension benefits and \$0.5 billion in health care to more than 220,000 OPERS retirees and their beneficiaries. Because approximately 90% of all OPERS retirees remain in Ohio, this represents a significant driver for Ohio's economy.

**Administrative Costs:** OPERS management remains diligent in monitoring and, where possible, reducing or containing expenses. Administrative costs are paid through investment returns generated; our goal is always to be responsible stewards of public funds. Administrative costs in 2023 were \$127.9 million, including investment expenses.

Complete details of all administrative expenses are included in the Financial Section, on page 84. In addition, the Management's Discussion and Analysis, beginning on page 19, has a more detailed discussion of the OPERS funded status and provides a complete analysis of the additions and deductions to Plan Net Position.

### Professional Services

Professional services are provided to OPERS by consultants appointed by the Board. Actuarial services are provided by Gabriel, Roeder, Smith & Company, Southfield, Michigan. The investment advisor to the Board for all the plans is NEPC, LLC, Cambridge, Massachusetts. The financial records of the System are audited by Plante & Moran, PLLC, Certified Public Accountants, Cleveland, Ohio under contract with the Ohio Auditor of State.

### Acknowledgments

This annual report is the result of the combined teamwork of the System's staff under the direction of the Board. Our sincere appreciation is extended to all who assisted in and contributed toward the completion of this document.

As always, this annual report is designed to provide complete and reliable information for transparent communication and to serve as a resource. We take our commitment to members and fiscal responsibility very seriously. We are effective and diligent managers of the assets held in trust for members of this System. As a result, OPERS continues to be a strong pension system, well-positioned to continue to keep our commitment to members—the promise of a secure financial retirement.

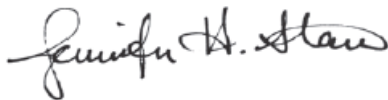

As stewards of the trust funds, we must take actions and make responsible decisions that strengthen our continued commitment. This organization is led by a dedicated and diligent

Board that works tirelessly with OPERS management and staff to meet each challenge and each opportunity with professionalism, innovation, and commitment. We have a fiduciary responsibility to make decisions in the best interest of all members. We have a responsibility to be prudent stewards and to look forward and prepare for the challenges we see, not wait for them to occur. We will continue to take action to position OPERS to remain a strong, financially stable pension system. We will always plan to do this working in conjunction with members, retirees and stakeholders. We are honored to be associated with and appreciate and acknowledge the efforts of all involved as we continue our commitment to members.

Respectfully Submitted,

Karen E. Carraher, CPA  
Executive Director

Jennifer H. Starr, CPA  
Chief Financial Officer

Left to Right: Jennifer Starr and Karen Carraher

### Fiduciary Responsibilities

The Board and executive management of OPERS are fiduciaries of the pension and health care trust funds. Fiduciaries are charged with the responsibility of assuring that the assets of OPERS are used exclusively for the benefit of plan participants and their beneficiaries.

### Request for Information

This financial report is designed to provide the Board, our membership, taxpayers, investment managers, and stakeholders with an overview of OPERS finances and accountability for the funds received. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Ohio Public Employees Retirement System  
Chief Financial Officer

Columbus, Ohio 43215-4642

## Introductory Section

### In Memoriam

#### Cinthia Sledz: Member, OPERS Board of Trustees, 2002-2021

Announcing the death of a colleague is never easy. When that colleague has provided nearly two decades of leadership, stability, and guidance, the message becomes especially difficult. Such is the case with Cinthia Sledz, who died October 5, 2023.

Cinthia Sledz positively impacted the lives of Ohioans of all ages. As a public employee, she was a librarian with the Cuyahoga County Public Library, where she dedicated her time to children and teen services. Beyond her professional life, Ms. Sledz gave generously of her time and intellect by actively working with the Ohio Public Employees Retirement System (OPERS) as an active Board member.

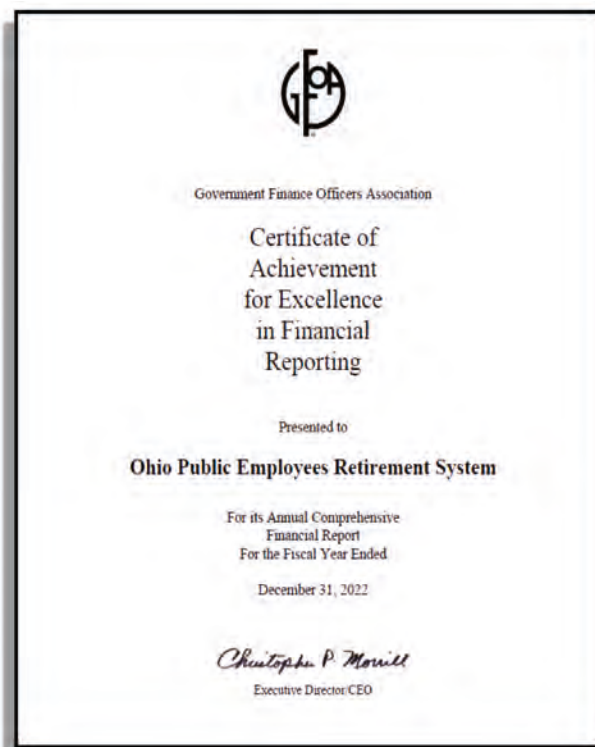

Sledz served as an elected representative on the OPERS board of trustees, representing members in the miscellaneous group—the group that includes library public employees—but as was her fiduciary responsibility, she truly served all members. During her tenure she was involved in multiple committees and took on the leadership roles of chairperson and vice chairperson. She was instrumental in establishing the OPERS Corporate Governance program and championing health care changes to preserve health care access for members.

Sledz helped steer OPERS through significant change—interacting with OPERS management, her constituents, and all members. She was known for her passion and adherence to funding principles. She engaged others' viewpoints, but able to share her point of view with passion, respect and commitment.

Cinthia Sledz will be remembered as independent, assertive, self-reliant and resourceful. We are grateful to have known her and worked with her. She made a difference in our lives and OPERS. Her memory lives on within this organization and in our hearts.

OPERS has been recognized by national financial experts and organizations for commitment to the highest possible fiscal standards. We are honored to have been recognized with the following awards:

**2022 Certificate of Achievement for Excellence in Financial Reporting**—For the 40<sup>th</sup> consecutive year, the Government Finance Officers Association of the United States and Canada (GFOA) awarded OPERS a Certificate of Achievement for Excellence in Financial Reporting for its annual comprehensive financial report for the fiscal year ended December 31, 2022. In order to be awarded a certificate of achievement, a government organization must publish an easily readable and efficiently organized annual comprehensive financial report that satisfies both generally accepted accounting principles and applicable legal requirements.

**2023 Public Pension Standards Award**—Issued by the Public Pension Coordinating Council, this award recognizes OPERS for demonstrating a high level of plan design, funding, member communications and administrative practices. The standards serve as a benchmark by which all public defined benefit plans are managed.

## Stability with transparency

OPERS recognizes the importance of providing both stability for and transparency about finances. We are committed to providing both for our members and stakeholders.

For nearly 90 years, OPERS has provided a secure financial retirement to Ohio public employees. We've accomplished that through strict adherence to the highest possible tenets of financial responsibility. This organization follows stringent government-mandated financial practices.

Equally important, OPERS has openly and voluntarily disclosed activities and actions regarding each decision that may impact members. The result? OPERS has established, maintained and disclosed a shared-responsibility model where contributions, investment earnings, a sustainable benefit plan, and expenses are all balanced to ensure long-term financial stability—for our members and for the System.

OPERS provides significant, ongoing communication for members. The organization is committed to providing information to members and retirees to keep each informed about the stability of the pension system, information to help each make personal decisions, and general information to help members make the most of retirement years. Our numbers are impressive; each year, OPERS produces and delivers:

- Webinar access for members for education and counseling
- Access to Board meetings and Board-meeting reports—especially around critical decisions
- Newsletters targeted to specific groups
- Annual financial reports—consistently award-winning—available to our membership and the public
- A website providing 24/7/365 access to important information and data
- In 2023, continuing a tradition, OPERS has conducted a series of road show meetings to which all members, retirees, and other stakeholders were invited. OPERS leadership traveled around the state to present information and to answer questions.

### Putting it all together

In addition to system-wide communications, designed to build confidence and trust, annually each member receives a personalized statement. Retirement and finances are incredibly personal. All members and retirees need information to know that OPERS can meet its commitment to members. Through System-wide information, such as this annual report, and individualized information, such as the annual statements, we assist members in making the best decision for their particular situation.

### Independent Auditor's Report

To the Board of Trustees  
 Ohio Public Employees Retirement System  
 and the Honorable Keith Faber, Auditor of State

#### Report on the Audit of the Financial Statements

##### **Opinions**

We have audited the financial statements of Ohio Public Employees Retirement System (OPERS) as of and for the year ended December 31, 2023 and the related notes to the financial statements, which collectively comprise OPERS' basic financial statements, as listed in the table of contents. We have also audited the Traditional Pension Plan, the Combined Plan, the Member-Directed Plan, and the 115 Health Care Trust of Ohio Public Employees Retirement System as of and for the year ended December 31, 2023, as displayed in OPERS' basic financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the fiduciary net position of Ohio Public Employees Retirement System, as well as the Traditional Pension Plan, the Combined Plan, the Member-Directed Plan, and the 115 Health Care Trust of OPERS, as of December 31, 2023 and the respective changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

##### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of OPERS and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

##### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about OPERS' ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Board of Trustees  
Ohio Public Employees Retirement System  
and the Honorable Keith Faber, Auditor of State

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of OPERS' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about OPERS' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Board of Trustees  
Ohio Public Employees Retirement System  
and the Honorable Keith Faber, Auditor of State

***Other Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Ohio Public Employees Retirement System's basic financial statements. The administrative expenses and schedule of investment expenses are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the administrative expenses and schedule of investment expenses are fairly stated in all material respects in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory, investment, actuarial, statistical, and plan statement sections, as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated May 3, 2024 on our consideration of Ohio Public Employees Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Ohio Public Employees Retirement System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Ohio Public Employees Retirement System's internal control over financial reporting and compliance.

*Plante & Moran, PLLC*

May 3, 2024

The management of the Ohio Public Employees Retirement System (OPERS or System) offers readers of the System's financial statements this narrative overview of the financial activities of OPERS for the year ended December 31, 2023. This narrative is intended to supplement the System's financial statements. Readers are encouraged to consider the information presented here in conjunction with the financial statements that begin on page 30.

The *OPERS Annual Comprehensive Financial Report* (annual report) presents financial statements for the most recent year end. Users of this annual report can refer to the Statistical Section, beginning on page 149, for historical financial information.

## Overview of the Financial Statements

The following discussion and analysis are intended to serve as an introduction to the OPERS financial statements. The basic financial statements include:

1. Combining Statement of Fiduciary Net Position
2. Combining Statement of Changes in Fiduciary Net Position
3. Notes to Combining Financial Statements

As required, this annual report also contains the following schedules, referred to as Required Supplementary Information:

1. Schedules of Changes in Net Pension Liability/(Asset) and Related Ratios—Traditional Pension Plan, Combined Plan and Member-Directed Plan
2. Schedules of Employer Contributions—Traditional Pension Plan, Combined Plan and Member-Directed Plan
3. Schedule of Investment Returns—Defined Benefit Portfolio
4. Schedule of Changes in Net OPEB Liability/(Asset) and Related Ratios—Health Care
5. Schedule of Employer Contributions—Health Care
6. Schedule of Investment Returns—Health Care Portfolio
7. Notes to Required Supplementary Information

Expenses associated with administering the System are presented immediately following the Notes to Required Supplementary Information in the following Other Supplementary Information schedules:

1. Administrative Expenses
2. Schedule of Investment Expenses

The financial statements contained in this annual report disclose financial data for each of the benefit plans and the health care trust described below. Please refer to the Plan Statement, beginning on page 209, for a summary description of the plan structures and benefits. These plans are established as separate legal entities in accordance with Internal Revenue Service (IRS) regulations and Ohio law and are summarized below.

### • The Traditional Pension Plan

The Traditional Pension Plan is a defined benefit plan in which a member's retirement benefits are calculated using a formula that considers years of service and final average salary (FAS). The pension benefits are funded by both member and employer contributions, and investment gains or losses on those contributions.

- **The Combined Plan**

The Combined Plan is a hybrid defined benefit/defined contribution plan. Under the Combined Plan, members earn a formula benefit similar to, but at a factor less than, the Traditional Pension Plan benefit. This defined benefit is funded by employer contributions and associated investment earnings. Additionally, member contributions are deposited into a defined contribution account in which the member self-directs the investment. Upon retirement or termination, the member may choose a defined contribution retirement distribution that is equal in amount to the member's contributions to the plan and investment gains or losses on those contributions. Members may also elect to annuitize their defined contribution account balances. Effective January 1, 2022, new members may no longer select this plan, and current members may no longer make a plan change to this plan.

- **The Member-Directed Plan**

The Member-Directed Plan is a defined contribution plan in which members self-direct the investment of both member and employer contributions. The retirement distribution under this plan is equal to the sum of member and vested employer contributions, plus investment gains or losses on those contributions. Employer contributions and associated investment gains or losses vest over a five-year period at a rate of 20% per year.

Upon retirement or termination, the member may choose a defined contribution retirement distribution, including annuitization.

- **115 Health Care Trust**

The 115 Health Care Trust (115 Trust) was established in 2014, under Section 115 of the Internal Revenue Code (IRC). The purpose of the 115 Trust is to fund health care for the Traditional Pension, Combined and Member-Directed plans. Retirees in the Traditional Pension and Combined plans may have an allowance credited to a health reimbursement arrangement (HRA) account to be used toward the health care program of their choice and other eligible expenses. An OPERS vendor is available to assist with the selection of a health care program.

Upon separation or retirement of Member-Directed Plan participants, participants may use the vested funds in their retiree medical account for qualified health care expenses. Vesting requirements for Member-Directed health care have changed over the life of the plan. Members with an account prior to July 1, 2015 become vested in the account at a rate of 20% for each year of participation until the member is fully vested at the end of five years. Effective July 1, 2015, new participants to the plan are required to participate for 15 years to become fully vested. Additional details on the OPERS health care program and the Member-Directed Plan health care vesting schedule can be found in the Plan Statement beginning on page 209.

Financial activity for each of the pension plans and the health care trust is reported in the basic combining financial statements described below.

- **Combining Statement of Fiduciary Net Position**

The Combining Statement of Fiduciary Net Position is a point-in-time snapshot of fund balances at fiscal year-end for pension and health care. It reflects assets available to pay future benefits to retirees, and any liabilities owed as of the statement date. The resulting Net Position (equal to Assets less Liabilities and Deferred Inflows) represents the value of assets restricted for pension benefits and health care. (See Combining Statement of Fiduciary Net Position as of December 31, 2023 on page 30 of this report.)

- **Combining Statement of Changes in Fiduciary Net Position**

The Combining Statement of Changes in Fiduciary Net Position displays the effect of financial transactions that occurred during the fiscal year, where Additions less Deductions equal Net Increase (or Net Decrease) in net position. This Net Increase or Decrease in net position reflects the change in the value of fiduciary net position that occurred between the current and prior year. (See Combining Statement of Changes in Fiduciary Net Position for the year ended December 31, 2023 on page 31 of this report.)

- **Notes to Combining Financial Statements**

The Notes to Combining Financial Statements provide additional information that is essential for a comprehensive understanding of the data provided in the financial statements and is an integral part of the financial statements. These notes describe the accounting and administrative policies under which OPERS operates, and provide additional levels of detail for selected financial statement items. (See Notes to Combining Financial Statements, December 31, 2023 on pages 32-65 of this report.)

The financial statements described are prepared in accordance with Governmental Accounting Standards Board (GASB) pronouncements. Information on the significant accounting policies and recent GASB standards reviewed and adopted in the preparation of the financial statements can be found in Note 2 in the Notes to Combining Financial Statements beginning on page 39.

Because of the long-term nature of most pension plans, financial statements alone cannot provide sufficient information to properly reflect the ongoing plan perspective. Therefore, in addition to the financial statements, this annual report includes additional Required Supplementary Information (RSI) schedules and required notes. The RSI includes schedules of changes in net pension liability/(asset) and net other post-employment benefit (OPEB), or health care, liability/(asset), investment returns for the defined benefit portion of the pension plans and for the health care trust, and schedules of employer contributions for both defined benefit pension plans and health care. The schedules of funding progress for defined benefit pension plans and health care have been included in the Actuarial Section of this document. Each of the schedules includes historical-trend information when required by standards, except when historical information is unavailable prior to the implementation of GASB Statement No. 74 (GASB 74), *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*.

- **Schedules of Changes in Net Pension Liability/(Asset) and Related Ratios—Traditional Pension Plan, Combined Plan and Member-Directed Plan**

The Schedules of Changes in Net Pension Liability/(Asset) and Related Ratios (pages 66-73) include actuarial information regarding the increase (or decrease) of each element of the net pension liability/(asset) between the beginning and end of the year for the OPERS defined benefit pension plans. The information reported in these schedules was calculated using the assumptions and requirements defined in GASB Statement No. 67 (GASB 67, or also referred to as the Accounting Basis throughout this document), *Financial Reporting for Pension Plans*. The calculation method defined in GASB 67 requires different assumptions from those used to calculate the funded status of a plan (also referred to as the Funding Basis throughout this document). The key difference is the Accounting Basis schedule uses the fair value of assets rather than the smoothed value of assets used for the Funding Basis (refer to page 25 for additional information on actuarial smoothing techniques). Therefore, the GASB 67 Accounting Basis net pension liability/(asset) results differ from the Funding Basis unfunded actuarial accrued liability results provided in the Schedule of Funding Progress included on page 24 of this section and in the Actuarial Section of this document beginning on page 141. Although these changes affect the accounting information disclosed in the Notes to Combining Financial Statements

and RSI, they do not have an effect on the actuarial methods and assumptions used by OPERS to determine the employer contributions needed to fund the plans.

- **Schedules of Employer Contributions—Traditional Pension Plan, Combined Plan and Member-Directed Plan**

The Schedules of Employer Contributions (pages 74-75) provide historical-trend information regarding the value of total annual contributions required to be paid by employers for the employees participating in each plan, and the actual amounts remitted. The information contained in these schedules also reflects the required contributions based on the contribution rates approved by the OPERS Board of Trustees. The Member-Directed Plan is a defined contribution plan with the option for retirees to annuitize their benefit, which converts the retiree's benefit to a defined benefit. The employer contributions deposited to the defined benefit portion of the Member-Directed Plan are included in these schedules.

- **Schedule of Investment Returns—Defined Benefit Portfolio**

The Schedule of Investment Returns (page 76) provides information regarding the annual money-weighted rates of return on pension plan investments in the Defined Benefit portfolio, as required by GASB 67.

- **Schedule of Changes in Net OPEB Liability/(Asset) and Related Ratios—Health Care**

The Schedule of Changes in Net OPEB Liability/(Asset) and Related Ratios (page 78) includes actuarial information regarding the increase (or decrease) of each element of the net OPEB liability/(asset) between the beginning and end of the year for OPERS defined benefit health care plans. The values included in this schedule were calculated using the assumptions and requirements defined in GASB 74 (also referred to as the Accounting Basis throughout this document, similar to GASB 67). The calculation method defined in GASB 74 requires different assumptions from those used to calculate the funded status of a plan (also referred to as the Funding Basis throughout this document). Similar to GASB 67, the Accounting Basis requires the use of fair value of assets versus the smoothed value of assets used for the Funding Basis (refer to page 25 for additional information on actuarial smoothing techniques). Therefore, the GASB 74 Accounting Basis net OPEB liability/(asset) results differ from the Funding Basis unfunded actuarial accrued health care liability results provided in the Schedule of Funding Progress included on page 25 of this section and in the Actuarial Section of this document on page 143. While these changes will affect the accounting information disclosed in the Notes to Combining Financial Statements and RSI, they do not have an effect on the actuarial methods and assumptions used by OPERS to determine the employer contributions needed to fund the plans.

Historical information is not available prior to the GASB 74 implementation in 2017. The schedule will be expanded each subsequent year until it contains the required 10-year presentation.

- **Schedule of Employer Contributions—Health Care**

The Schedule of Employer Contributions (page 80) presents historical-trend information regarding the value of actuarially determined health care contributions, and the actual amounts remitted. The information contained in this schedule reflects the required contributions based on the contribution rates approved by the Board. Based on the provisions of GASB 74, all OPERS health care plans are considered to be defined benefit other post-employment plans. Therefore, the information contained in this schedule includes health care funding for the Traditional Pension Plan, the Combined Plan and the Member-Directed Plan.

- **Schedule of Investment Returns—Health Care Portfolio**

The Schedule of Investment Returns (page 80) provides information regarding the annual money-weighted rates of return on investments in the Health Care portfolio, calculated and presented as required by GASB 74. Historical information is not available prior to the GASB 74 implementation in 2017. The schedule will be expanded each subsequent year until it contains the required 10-year presentation.

- **Notes to Required Supplementary Information**

The Notes to Required Supplementary Information (pages 81-83) provide background information, a summary of the actuarial assumptions used in determining contribution rates for valuation of the pension plans and health care, and explanatory detail to help in understanding the required supplementary schedules.

The following schedules are provided as Other Supplementary Information regarding the expenses associated with administering the System:

- **Administrative Expenses**

The Administrative Expenses schedule reflects the total operating costs of managing the System, by major expense category (page 84).

- **Schedule of Investment Expenses**

The Schedule of Investment Expenses summarizes the costs incurred in managing the investment assets of the System (page 84). These costs are reported as Investment Administrative Expenses in the Combining Statement of Changes in Fiduciary Net Position, and are reflected as a reduction in net investment income or loss.

## Financial Highlights

- In October 2023, the legislature approved House Bill 33 which allows for the consolidation of the Combined Plan with the Traditional Pension Plan with the timing of the consolidation at the discretion of the OPERS Board. As of December 31, 2023, the consolidation has not been executed and the 2023 financial statements are not impacted.
- OPERS net income from investing activity for the year ended December 31, 2023 totaled \$12.1 billion, a gain of 11.72%, compared to a loss of 12.49% in 2022. The total portfolio is divided into three sub-portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio, and the Health Care portfolio. Investment returns presented for each portfolio within this Management's Discussion and Analysis are based on year-to-date, time-weighted returns. Net income from investing activity for the Defined Benefit portfolio comprised \$10.1 billion of this total, or a gain of 11.26% in 2023, compared to a loss of 12.03% in 2022. The Defined Contribution portfolio had a net gain from investing activity of \$0.4 billion, or a gain of 18.08% in 2023, compared to a loss of 16.00% in 2022. The Health Care portfolio had a net gain from investing activity of \$1.6 billion, or a gain of 13.97% in 2023, compared to a loss of 15.51% in 2022.
- Net position increased by \$8.0 billion to \$114.8 billion as of December 31, 2023, compared to \$106.8 billion in 2022. Table 1 presents a two-year comparative history of Changes in Fiduciary Net Position.

Changes in Fiduciary Net Position (for the years ended December 31, 2023 and 2022)				Table 1
	2023	2022	Amount Increase/ (Decrease) from 2022 to 2023	Percent Increase/ (Decrease) from 2022 to 2023
Member and Employer Contributions	\$4,249,906,080	\$4,006,145,035	\$243,761,045	6.1%
Contract Receipts and Other Income	125,331,563	122,730,911	2,600,652	2.1
Net Income/(Loss) from Investing Activity	12,078,361,904	(15,950,779,683)	28,029,141,587	>100.0
<b>Total Additions</b>	<b>16,453,599,547</b>	<b>(11,821,903,737)</b>	<b>28,275,503,284</b>	<b>&gt;100.0</b>
Benefits, Health Care and Account Refunds	8,354,070,896	8,242,792,642	111,278,254	1.4
Administrative and Other Expenses	124,668,454	114,985,953	9,682,501	8.4
<b>Total Deductions</b>	<b>8,478,739,350</b>	<b>8,357,778,595</b>	<b>120,960,755</b>	<b>1.4</b>
<b>Net Increase/(Decrease) in Fiduciary Net Position</b>	<b>7,974,860,197</b>	<b>(20,179,682,332)</b>	<b>28,154,542,529</b>	<b>&gt;100.0</b>
Net Position, Beginning of Year	106,777,120,479	126,956,802,811	(20,179,682,332)	(15.9)
<b>Net Position, End of Year</b>	<b>\$114,751,980,676</b>	<b>\$106,777,120,479</b>	<b>\$7,974,860,197</b>	<b>7.5%</b>

- Table 2 provides the current pension funding as of December 31, 2023. The health care funding presented in Table 3 is a year in arrears as the most recent health care funding information is as of December 31, 2022.
- To fully understand the funding status of a retirement system, it is advisable to view actuarial data in conjunction with financial data. Both Tables 2 and 3 are presented on the Funding Basis. Under the Funding Basis, value of assets is based on the actuarial value of assets which smooths market gains and losses over a rolling four-year period, subject to a 12% market corridor. This differs from the Accounting Basis (or GASB 67 and GASB 74 basis), which calculates the funding status using the market value of assets.

Schedule of Funding Progress—Funding Basis (\$ in millions)				Defined Benefit Plans <sup>1</sup> —Table 2	
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities (UAAL)	Ratio of Assets to AAL	Funding Years
2023	\$125,473	\$105,133	\$20,340	83.8%	15
2022	122,463	102,852	19,611	84.0	16
2021	118,517	99,710	18,807	84.1	16
2020 <sup>a</sup>	115,242	93,970	21,272	81.5	21
2020 <sup>b</sup>	113,372	93,970	19,402	82.9	18
2019	111,371	88,572	22,799	79.5	23
2018	108,705	84,287	24,418	77.5	27
2017 <sup>c</sup>	106,090	83,292	22,798	78.5	25
2017	102,656	83,292	19,364	81.1	18
2016	100,167	80,280	19,887	80.1	19
2015 <sup>a</sup>	97,177	78,061	19,116	80.3	20
2015 <sup>b</sup>	91,832	78,061	13,771	85.0	19
2014	89,285	74,865	14,420	83.8	21

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Results after change in discount rate from 7.5% to 7.2%.

<sup>1</sup> Defined Benefit Plans include the Traditional Pension Plan, the defined benefit portion of the Combined Plan and purchased annuities in the Member-Directed Plan.

- As a result of actuarial smoothing techniques, the fair value of assets may be significantly different from the funding value (actuarial value) of assets at a given point in time. This means that in periods of extended market decline the fair value of assets will usually be less than the funding, or actuarial value, of assets. Conversely, during periods of extended market gains, the fair value of assets will usually be greater than the funding, or actuarial value, of assets.
- To ensure the funding value of assets and the market value of assets remain within reasonable proximity of each other, the OPERS Board requires a 12% market corridor in conjunction with its four-year smoothing. This policy ensures that the funding value of assets is within 88% to 112% of the market value of the assets. At the end of 2022, the market value of assets was lower than the funding value by \$9.7 billion. At the end of 2023, the market value of assets was lower than the funding value by \$5.5 billion.
- By law, OPERS is obligated to pay certain benefits that have commenced with retirees. To make these payments each year, and to account for benefits that have commenced with retirees, OPERS transfers funds from the active member (the Employers' Accumulation Fund) to the retiree funds (the Annuity and Pension Reserve Fund and the Survivors' Benefit Fund). Thus, the Traditional Pension Plan active member funding has remained at 55.3% after this annual transfer for the past two years.
- As of December 31, 2023, the date of the latest actuarial valuation, the funded ratio for defined benefit pensions was 83.8%. In general, this means that for each dollar of future pension liability, OPERS has accumulated approximately \$0.84 to meet that obligation. The funded ratio remained the same in 2023 as in 2022, primarily due to the 2023 excess gain offsetting a portion of the 2022 unrealized loss carryforward of \$9.7 billion. A net unrealized funding asset loss carryforward of \$5.5 billion remains as of December 31, 2023 and will be recognized over the next three years. If current assumptions are met, OPERS would accumulate sufficient assets to pay all pension liabilities for active members and retirees within 15 years on a Funding Basis, a decline of one year from 16 years in 2022.

Schedule of Funding Progress—Funding Basis (\$ in millions)				Health Care—Table 3	
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities (UAAL)	Ratio of Assets to AAL	Solvency Years <sup>1</sup>
2022	\$11,119	\$12,841	(\$1,722)	115.5%	21
2021	11,037	12,713	(1,676)	115.2	29
2020 <sup>a</sup>	11,215	12,385	(1,170)	110.4	25
2020 <sup>b</sup>	11,414	12,385	(971)	108.5	25
2019 <sup>c</sup>	11,462	11,943	(481)	104.2	23
2018	17,849	11,647	6,202	65.3	11
2017 <sup>d</sup>	18,393	12,021	6,372	65.4	13
2017	17,389	12,021	5,368	69.1	13
2016	19,924	12,098	7,826	60.7	12
2015 <sup>a</sup>	19,224	11,933	7,291	62.1	Indefinite
2015 <sup>b</sup>	18,515	11,933	6,582	64.5	Indefinite
2014	19,405	12,062	7,343	62.2	Indefinite
2013	19,784	12,031	7,753	60.8	Indefinite

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Results reflect health care program changes effective January 2022, approved by the Board in January 2020.

<sup>d</sup> Results after change in discount rate from 6.5% to 6.0%.

<sup>1</sup> Solvency Years represents an estimate of the number of years the fund will be able to provide health care under the intermediate actuarial assumptions. Indefinite indicates funds are expected to be sufficient to fund future health care needs.

- The funding objective is to meet long-term pension benefit obligations and, to the extent possible, fund post-employment health care. As of December 31, 2022, the date of the latest health care actuarial valuation, under the Funding Basis, the actuarial liability for health care was \$11.1 billion and the System had accumulated assets of \$12.8 billion for that obligation, an excess of \$1.7 billion. This compares to the 2021 excess assets of \$1.7 billion. The funded ratio remained relatively stable at 115.5% in 2022, compared to 115.2% at the end of 2021.
- Health care coverage is not statutorily guaranteed and is subordinate to pension funding. Beginning in 2018, OPERS allocated all of the 14% employer contribution rate to funding pension for both the Traditional Pension and Combined plans with no funding to health care. Effective July 1, 2022, OPERS began allocating 2% of the 14% employer contribution rate to health care funding for the Combined Plan. The portion of the 14% employer contribution rate allocated to health care for the Member-Directed Plan remains at 4%.
- The funding progress of health care is measured in terms of solvency years, or the number of years funds are projected to be available to pay health care expenses under the current plan design before health care would be reduced to a pay-as-you-go basis. As of December 31, 2022, the date of the latest health care actuarial valuation under the Funding Basis, health care funding is expected to remain solvent for 21 years, compared to 29 years in 2021. This decline is the result of poor investment returns in 2022. Refer to Table 3 for a comparative history of actuarial liabilities and solvency years for health care.

### Analysis of Financial Activities

The OPERS funding objective is to meet long-term benefit obligations with investment income and contributions. The following discussion provides an analysis of the current-year financial activities. Comparative data is presented, where appropriate.

### Additions to Fiduciary Net Position (Revenues)

The reserves needed to finance retirement benefits are accumulated primarily through the collection of member and employer contributions and investment income (net of investment expense). Revenues (Additions to Fiduciary Net Position) for the year 2023 were \$16.5 billion, and include net income from investment activities of \$12.1 billion, member and employer contributions of \$4.3 billion and other income totaling \$0.1 billion. Other income consists of purchased service agreements, employer interest and penalty charges, vendor performance guarantees, interplan activities, and miscellaneous other income. Interplan Activity in Table 4 represents transactions between plans that are additions to plan assets. Revenues for the year 2022 represented a net loss of \$11.8 billion, comprised of \$16.0 billion in net loss from investment activities, offset by member and employer contributions of \$4.0 billion, and other income totaling approximately \$0.1 billion. Refer to Table 4 for a comparative history of Additions to Fiduciary Net Position.

Additions to Fiduciary Net Position (Revenues) (for the years ended December 31, 2023 and 2022)				Table 4
	2023	2022	Amount Increase/ (Decrease) from 2022 to 2023	Percent Increase/ (Decrease) from 2022 to 2023
Member Contributions	\$1,771,099,964	\$1,669,552,482	\$101,547,482	6.1%
Employer Contributions	2,478,806,116	2,336,592,553	142,213,563	6.1
Contract and Other Receipts	76,478,623	78,897,024	(2,418,401)	(3.1)
Other Income, net	650,356	583,828	66,528	11.4
Interplan Activity	48,202,584	43,250,059	4,952,525	11.5
Net Income/(Loss) from Investing Activity	12,078,361,904	(15,950,779,683)	28,029,141,587	>100.0
<b>Total Additions</b>	<b>\$16,453,599,547</b>	<b>(\$11,821,903,737)</b>	<b>\$28,275,503,284</b>	<b>&gt;100.0%</b>

Member and employer contributions for 2023 increased by \$243.8 million, or 6.1%, compared to 2022. Member and employer contributions include amounts paid by active members and their employers for future retirement benefits. In general, as wages increase, the retirement contributions from active members, and their employers, also increase. The 2023 increase in contributions primarily reflects the continued impacts of wage inflation and an increasing actively contributing member population of 3.6%.

Contract and Other Receipts represents funds received for member purchase of service contracts, employer early retirement incentive programs, and funds received from other Ohio retirement systems for members with service credit at more than one retirement system. These receipts totaled \$76.5 million in 2023, compared to \$78.9 million received in 2022. This net decrease of \$2.4 million is largely due to a decrease of \$6.9 million in retirement transfers from other Ohio retirement systems for members selecting a joint retirement option, partially offset by an increase in purchased service by members of \$3.0 million and delinquent employer contributions received of \$1.3 million.

Other Income, net, is comprised of miscellaneous proceeds, gains or losses on the disposal of capital assets and litigation settlements activity. Other income for 2023 was \$0.7 million, compared to \$0.6 million in 2022. This activity typically fluctuates from year-to-year. In 2023, other income was primarily comprised of rental income of \$0.5 million, which remained flat compared to 2022.

Interplan Activity represents transfers to record activity occurring between the plans. This activity includes members changing from one plan to another. Interplan Activity in 2023 resulted in a net inflow of \$48.2 million into the Traditional Pension Plan, compared to \$43.3 million in 2022. Since this activity represents payments between plans, there is a corresponding interplan expense activity of the same amount in each year. (Refer also to the Deductions from Fiduciary Net Position discussion beginning below.)

Net Income/(Loss) from Investing Activity represents total investment income or loss, net of external management fees and investment administrative expenses. Investment income or loss includes dividends, interest, gains or losses on the sale of investments, and change in fair value of investments. OPERS reflects both income or loss and management fees from external managers in this category.

**Deductions from Fiduciary Net Position (Expenses)**

OPERS was created to provide retirement, survivor, and disability benefits to qualified members and their beneficiaries. The cost of such programs includes recurring benefit payments, elective refunds of contributions to members who terminate employment with a participating employer, and the cost of administering the System.

Expenses (Deductions from Fiduciary Net Position) for 2023 were \$8.5 billion, an increase of \$0.1 billion, or 1.4%, compared to 2022. Total pension benefits and health care expenses combined increased slightly in 2023 to \$7.8 billion from \$7.6 billion in 2022. Included within health care costs were \$62.0 million and \$64.5 million in 2023 and 2022, respectively, in health care-related receipts netted against health care expenses. Pension benefits and health care expenses paid on behalf of current retirees and their beneficiaries comprised approximately 91.7% of the total expenses reported. Refunds of member contributions, including interest and additional payments on withdrawal where required by statute, fluctuate each year, and were \$580.2 million in 2023, or 5.5% lower than 2022. Non-investment related administrative expenses increased to \$76.5 million, or 6.6%, and represented 0.9% of the total expenses. The remaining expenses were comprised of interplan activity transactions representing the expenses associated with members changing from one plan to another. Refer to Table 5 for a comparative history of Deductions from Fiduciary Net Position.

<b>Deductions from Fiduciary Net Position (Expenses)</b> (for the years ended December 31, 2023 and 2022)					<b>Table 5</b>
	2023	2022	Amount Increase/ (Decrease) from 2022 to 2023	Percent Increase/ (Decrease) from 2022 to 2023	
Benefits—Pension	\$7,228,906,262	\$7,037,982,598	\$190,923,664	2.7%	
Benefits—Health Care Expenses	544,959,559	591,090,699	(46,131,140)	(7.8)	
Refunds	580,205,075	613,719,345	(33,514,270)	(5.5)	
Administrative Expenses (Non-investment)	76,465,870	71,735,894	4,729,976	6.6	
Interplan Activity	48,202,584	43,250,059	4,952,525	11.5	
<b>Total Deductions</b>	<b>\$8,478,739,350</b>	<b>\$8,357,778,595</b>	<b>\$120,960,755</b>	<b>1.4%</b>	

Pension benefits totaled \$7.2 billion in 2023, an increase of \$0.2 billion, or 2.7%, over 2022 benefits. The increase in 2023 reflects the combination of an annual simple cost-of-living adjustment granted on the retiree's benefit anniversary, and demographic changes in the retiree population. Total pension benefits will continue to increase as the retiree population increases and wage growth and price inflation increase pension benefit amounts. The cumulative increase associated with the cost-of-living adjustments was \$1.7 billion at the end of 2023. Refer to the Schedules of Average Benefits on page 196 of the Statistical Section for details related to the new retiree populations by year. Refer to the Plan Statement beginning on page 209 for details on pension benefits.

Total health care expenses decreased in 2023 by \$46.1 million, or 7.8%, to \$545.0 million, compared to 2022. Health care receipts, or payments, from retirees and health care vendors to OPERS, including retiree-paid health care premiums for OPERS sponsored dental and vision plans, offset the related health care expenses incurred by OPERS during the year by \$62.0 million, compared to \$64.5 million in 2022. The continued decrease in health care expenses is a result of a decline in the number of retirees enrolled in the HRA program, primarily non-Medicare retirees. This results in a decrease in the average HRA expenses reimbursed to eligible retirees in 2023.

Refunds of member accounts are at the discretion of the member and vary from year-to-year. Members may refund their account if they have been separated from OPERS-covered employment for at least two months, representing disbursements of inactive member accounts. In 2023, member-elected refunds totaled \$580.2 million, compared to \$613.7 million in 2022. The number of refunded accounts increased by 0.6% in 2023 compared to 2022, while the average member balance refunded in 2023 decreased to approximately \$23,300 from approximately \$24,800 in 2022.

OPERS has consistently managed its administrative expense budget with no material variances in either 2023 or 2022. Administrative Expenses shown in Table 5 do not include investment administrative expenses. Non-investment Administrative Expenses totaled \$76.5 million in 2023, compared to \$71.7 million in 2022. Non-investment Administrative Expenses primarily increased as a result of rising personnel costs and an increase in subscription costs for software critical to OPERS' operations.

### Net Position Summary

Net position may serve over time as a useful indicator of OPERS' financial status. At the close of calendar years 2023 and 2022, the net positions of OPERS totaled \$114.8 billion and \$106.8 billion, respectively. Net position is available to meet OPERS ongoing obligations to plan participants and their beneficiaries, and to the extent possible, OPERS post-employment health care.

Net Position (as of December 31, 2023 and 2022)			Table 6	
	2023	2022	Amount Increase/ (Decrease) from 2022 to 2023	Percent Increase/ (Decrease) from 2022 to 2023

<b>Net Increase/(Decrease) in Net Position</b>	<b>\$7,974,860,197</b>	<b>(\$20,179,682,332)</b>	<b>\$28,154,542,529</b>	<b>&gt;100.0%</b>

### Summary

OPERS remains committed to keeping this System strong today and well into the future for all our members, current and future. OPERS continues to manage the System in a manner that proactively addresses issues and trends and plans for market volatility; thus contributing to the strength of the System. The funding levels and 2023 results are found, in detail, and by category, in this annual report.

## 1. Description of OPERS

- a. **Organization**—The Ohio Public Employees Retirement System (OPERS or System) is a cost-sharing, multiple-employer public employee retirement system comprised of three separate pension plans: the Traditional Pension Plan, a defined benefit plan; the Combined Plan, a hybrid defined benefit/defined contribution plan; and the Member-Directed Plan, a defined contribution plan. Effective January 1, 2022 the Combined Plan is no longer available for member selection. In October 2023, the legislature approved House Bill (HB) 33 which allows for the consolidation of the Combined Plan with the Traditional Pension Plan with the timing of the consolidation at the discretion of the OPERS Board. OPERS is a qualified governmental plan under Section 401(a) of the Internal Revenue Code (IRC) and is administered in accordance with Ohio Revised Code (ORC) Chapter 145. All state and local governmental employees in Ohio, except those covered by one of the other state or local retirement systems in Ohio, are members of OPERS. New public employees (those who establish membership in OPERS on or after January 1, 2003) have 180 days from the commencement of employment to select membership in one of the pension plans. Contributions to OPERS are effective with the first day of the member's employment. Contributions made prior to the member's plan selection are maintained in the Traditional Pension Plan and later transferred to the plan elected by the member, as appropriate.

The OPERS health care plans are reported as cost-sharing, multiple-employer other post-employment benefit plans (OPEB) based on the criteria established by the Governmental Accounting Standards Board (GASB). OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to fund health care for the Traditional Pension, Combined and Member-Directed plans. Health care coverage is neither guaranteed nor statutorily required.

The accompanying financial statements comply with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, and with the provisions of GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units—an amendment of GASB Statement No. 14*. These statements require that financial statements of the reporting entity include all the organizations, activities, functions and component units for which the reporting entity is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board of directors and either (1) the reporting entity's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide a financial benefit to, or impose a financial burden on, the reporting entity. OPERS does not have financial accountability over any entities.

OPERS is not part of the state of Ohio financial-reporting entity, nor is OPERS a component unit of the state of Ohio. Responsibility for the organization is vested in the OPERS Board of Trustees; there is no financial interdependency with the state of Ohio. The Board is the governing body of OPERS, with responsibility for administration and management. Of the Board, seven members are elected by the group they represent: the retirees (two representatives), employees of the state, employees of counties, employees of municipalities, non-teaching employees of state colleges and universities, and miscellaneous employees. The remaining four members are appointed or designated by position. The Governor, General Assembly and the Treasurer of the state of Ohio each appoint an investment expert Board member. The Director of the Ohio Department of Administrative Services completes the Board.

The Board appoints the Executive Director, an actuary, an investment consultant and other consultants necessary for the transaction of business. The Board typically meets monthly and receives no compensation, but is reimbursed for necessary expenses.

**Plan membership**—All state and local governmental employees, except those covered by another state retirement system in Ohio or the Cincinnati Retirement System, are required to become contributing members of OPERS when they begin public employment unless they are exempted or excluded as defined by the ORC. For actuarial purposes, employees who have earned sufficient service credit (five years) are entitled to a future retirement benefit from OPERS. Employer, member and retiree data as of December 31, 2023 is found below.

<sup>1</sup> Combined Plan members receiving a defined formula benefit may also be receiving a distribution of their defined contribution account, therefore may be counted more than once in this table.

<sup>2</sup> All health care coverage is funded through the 115 Health Care Trust. This table reflects the breakout of health care programs between those supporting members in the Traditional Pension Plan and Combined Plan, and a separate column for the Member-Directed Plan.

<sup>3</sup> Inactive members in transition Groups A and B with at least five years of service are eligible for a retirement benefit at the age of 60. Inactive members in transition Group C with at least five years of service are eligible for a retirement benefit at the age of 62. Inactive members with less than five years of service are eligible for a refund of account. Inactive members with five or more years of service are displayed based on their age eligibility for a retirement benefit as of the end of the year.

b. **Benefits**—All benefits of the System, and any benefit increases, are established by the legislature pursuant to ORC Chapter 145. The Board, pursuant to ORC Chapter 145, has elected to maintain funds to provide health care coverage to eligible Traditional Pension Plan and Combined Plan retirees and survivors of members. Health care coverage does not vest and is not required under ORC Chapter 145. As a result, coverage may be reduced or eliminated at the discretion of the Board.

- **Age-and-Service Defined Benefits**—Effective January 7, 2013, Senate Bill (SB) 343 modified components of the Traditional Pension Plan and Combined Plan. Members were impacted (to varying degrees) by the changes based on their transition group. Three transition groups (A, B and C) were designed to ease the transition for key components of the pension plan changes. Members who were eligible to retire under law in effect prior to SB 343, or were eligible to retire no later than five years after January 7, 2013, comprise transition Group A. Members who had at least 20 years of service credit prior to January 7, 2013, or will be eligible to retire no later than 10 years after January 7, 2013, are included in transition Group B. Group C included those members who are not in either of the other groups and members who were hired on or after January 7, 2013. Please see the Plan Statement for additional details.

Benefits in the Traditional Pension Plan for State and Local members are calculated on the basis of age, final average salary (FAS), and service credit. State and Local members in transition Groups A and B are eligible for retirement benefits at age 60 with five years of service credit or at age 55 with 25 or more years of service credit. Group C for State and Local is eligible for retirement benefits at age 57 with 25 years of service or at age 62 with five years of service. For Groups A and B, the annual benefit is based on 2.2% of FAS multiplied by the actual years of service for the first 30 years of service credit and 2.5% for years of service in excess of 30 years. For Group C, the annual benefit applies a factor of 2.2% for the first 35 years and a factor of 2.5% for the years of service in excess of 35. FAS represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career. Refer to the age-and-service tables located in the Plan Statement beginning on page 209 for additional information regarding the requirements for reduced and unreduced benefits. Members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests at retirement.

Effective January 1, 2001, HB 416 divided the OPERS Law Enforcement Program into two separate divisions: Law Enforcement and Public Safety. Both groups of members, as defined in ORC Chapter 145, and updated in HB 520, are eligible for special retirement options under the Traditional Pension Plan and are not eligible to participate in the Member-Directed Plan or Combined Plan. Public Safety members may file an application for retirement benefits at age 48 or older with 25 or more years of credited service or 52 or older with 15 or more years of credited service for Groups A and B. Public Safety Group C is eligible for benefits at age 52 or older with 25 years or at age 56 or older with 15 years. Those members classified as Law Enforcement officers are eligible for retirement at age 52 or older with 15 or more years of credited service for Group A. Law Enforcement Group B is eligible at age 48 or older with 25 years or at age 52 or older with 15 years of service. Law Enforcement Group C is eligible at age 48 or older with 25 years of service or at age 56 with 15 years of service. Annual benefits under both divisions are calculated by multiplying 2.5% of FAS by the actual years of service for the first 25 years of service credit, and 2.1% of FAS for each year of service over 25 years. Members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

Prior to 2000, payments to OPERS benefit recipients were limited under Section 415(b) of the IRC. OPERS entered into a Qualified Excess Benefit Arrangement (QEBA) with the IRS to allow OPERS benefit recipients to receive their full statutory benefit even when the benefit exceeds IRC 415(b) limitations. Monthly QEBA payments start when the total amount of benefits received by the recipients exceeds the IRC limit each year. The portion of the benefit in excess of the IRC 415(b) limit is paid out of the QEBA and taxed as employee payroll in accordance with IRS regulations.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.0% to the member's FAS for the first 30 years of service. A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's FAS for the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit.

- **Defined Contribution Benefits**—Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined Plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-Directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual accounts. Options include the annuitization of their benefit account (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance (net of taxes withheld), or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.
- **Early Retirement Incentive Plan (ERIP)**—Employers under OPERS may establish an early retirement incentive plan by purchasing service credit for eligible employees. To be eligible, employees must be able to retire under existing plan provisions after the purchase of the additional credit. Electing employers must contribute all such additional costs as are actuarially determined to fund the benefit. Such a plan, if adopted by an employer, must be offered to a minimum of 5% of covered employees, and may provide for the purchase of up to five years of service credit, limited to a maximum of 20% of the member's total service credit. Members electing to participate in the employer's plan must retire within 90 days of receiving notice of the purchased service or the service is withdrawn and refunded to the employer. Employers offering an ERIP pay the full cost of the additional benefits at the time the plan is adopted and the required contributions are recognized in full by OPERS.

- **Disability Benefits**—OPERS administers two disability plans for participants in either the Traditional Pension Plan or Combined Plan. Members in the plan as of July 29, 1992, could elect, by April 7, 1993, coverage under either the original plan or the revised plan. All members who entered the System after July 29, 1992 are automatically covered under the revised plan. Under the original plan, a member who becomes disabled before age 62 and has completed five years of total service is eligible for a disability benefit. Benefits are funded by the member and employer contributions and terminate if the member is able to return to work. The revised plan differs in that a member who becomes disabled at any age with five years of total service will be eligible for disability benefits until a determined age. The benefit is funded by reserves accumulated from employer contributions. After the disability benefit ends, the member may apply for a service retirement benefit or a refund of contributions, which are not reduced by the amount of disability benefits received. Law Enforcement officers are immediately eligible for disability benefits if disabled by an on-duty illness or injury. Members participating in the Member-Directed Plan are not eligible for disability benefits.
- **Survivor Benefits**—Dependents of deceased members who participated in either the Traditional Pension Plan or the Combined Plan may qualify for survivor benefits if the deceased member had at least one and a half years of service credit with the plan, and at least one quarter year of credit within the two and one-half years prior to the date of death. ORC Chapter 145, updated by HB 520, and the corresponding Combined Plan document specify the dependents and the conditions under which they qualify for survivor benefits. Qualified survivors of Law Enforcement and Public Safety officers are eligible for survivor benefits immediately upon employment.
- **Health Care Coverage**—The ORC permits, but does not require, OPERS to offer post-employment health care coverage. The ORC allows a portion of the employers' contributions to be used to fund health care coverage. Periodically, OPERS modifies the health care program design to improve the ongoing solvency of the plans. Eligibility requirements for access to the OPERS health care options have changed over the history of the program for Traditional Pension Plan and Combined Plan members.

At the inception of the health care plan in 1976, the System provided comprehensive health care coverage to retirees with five or more years of qualifying service credit. In 1986, the years of service requirement changed to 10 or more years. Beginning January 1, 2015, the service eligibility criteria for health care coverage increased to 20 years with a minimum age of 60, or, generally, 30 years of qualifying service at any age. Effective January 1, 2022, retirees must generally be at least age 65 with a minimum of 20 years of qualifying service credit, or a minimum of 30 years of qualifying service credit at any age, to qualify for health care benefits.

Beginning 2016 for Medicare retirees enrolled in Medicare A and B, and beginning 2022 for non-Medicare retirees, eligible retirees were able to participate in the OPERS Connector (Connector) in lieu of comprehensive health care coverage. The Connector, a vendor selected by OPERS, assists eligible retirees in the evaluation, selection and purchase of a health care plan on the open market. Eligible retirees may receive a monthly allowance in their health reimbursement arrangement (HRA) account that can be used to reimburse eligible health care expenses. Additional details on health care coverage can be found in the Plan Statement beginning on page 209.

Participants in the Member-Directed Plan have access to the Connector and have a separate health care funding mechanism. A portion of employer contributions for these participants is allocated to a retiree medical account (RMA). Members who elect the Member-Directed Plan after July 1, 2015 will vest in the RMA over 15 years at a rate of 10% each year starting with the

sixth year of participation. Members who elected the Member-Directed Plan prior to July 1, 2015 vest in the RMA over a five-year period at a rate of 20% per year. Upon separation or retirement, participants may use vested RMA funds for reimbursement of qualified medical expenses. Please see the Plan Statement beginning on page 209 for additional details.

- **Other Benefits**—Once a benefit recipient retiring under the Traditional Pension Plan has received benefits for 12 months, the member is eligible for an annual cost-of-living adjustment. This cost-of-living adjustment is calculated on the member's original base retirement benefit at the date of retirement and is not compounded. Members retiring under the Combined Plan receive a cost-of-living adjustment on the defined benefit portion of their retirement benefit. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3%. For those retiring on or after January 7, 2013, beginning in 2019, the adjustment is based on the average percentage increase in the Consumer Price Index (CPI), capped at 3%. A death benefit of \$500-\$2,500, determined by the number of years of service credit of the retiree, is paid to the beneficiary of a deceased retiree or disability benefit recipient under the Traditional Pension Plan and Combined Plan. Death benefits are not available to beneficiaries of Member-Directed Plan participants.
- **Money Purchase Annuity**—Age-and-service retirees from any of the three pension plans who become re-employed in an OPERS-covered position must contribute the regular contribution rates, which are applied towards a money purchase annuity. The money purchase annuity calculation is based on the accumulated contributions of the retiree for the period of re-employment, and an amount of the employer contributions determined by the Board. Upon termination of service, members over the age of 65 can elect to receive a lump-sum payout or a monthly annuity. Members under age 65 may leave the funds on deposit with OPERS to receive an annuity benefit at age 65, or may elect to receive a refund of their member contributions made during the period of re-employment, plus interest.
- **Refunds**—Members who have terminated service in OPERS-covered employment may file an application for refund of their account. The ORC and applicable plan documents require a two-month waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's rights and benefits in OPERS.

Refunds processed for Traditional Pension Plan members include the member's accumulated contributions, interest, and any qualifying employer funds, as determined by the Board. A Combined Plan member's refund may consist of member contributions for the purchase of service plus interest, qualifying employer funds, as determined by the Board, and the value of the account in the defined contribution plan consisting of member contributions adjusted by the gains or losses incurred based on their investment selections. Refunds paid to participants in the Member-Directed Plan include member contributions and vested employer contributions adjusted by the gains or losses incurred based on their investment selections.

- c. **Contributions**—The OPERS funding policy provides for periodic member and employer contributions to all three pension plans at rates established by the Board, subject to limits set in statute. The rates established for member and employer contributions were approved based upon the recommendations of the System's actuary. All contribution rates were within the limits authorized by the ORC.

Member and employer contribution rates, as a percent of covered payroll, were the same for each covered group across all three plans for the year ended December 31, 2023, compared to the prior year. Within the Traditional Pension Plan and Combined Plan, member and employer contributions (employer contributions only for the Combined Plan) and an actuarially determined rate of return are adequate to accumulate sufficient assets to pay defined benefits when due.

Member contributions within the Combined Plan are used to fund the defined contribution benefits and are not used to fund the defined benefit retirement allowance. Employer contribution rates as a level percent of payroll dollars are determined using the entry age actuarial funding method. This formula determines the amount of contributions necessary to fund: (1) the current service cost, representing the estimated amount necessary to pay for defined benefits earned by the members during the current service year; and (2) the prior service cost for service earned prior to the current year and subsequent benefit increases. These contributions represent the amount necessary to fund accrued liabilities for retirement allowances and survivor benefits over a period of time. The annual employer contributions reported for the Traditional Pension Plan for 2023 were \$2,308,781,808. Employer contributions for the Combined Plan for 2023 were \$55,411,208. Employers satisfied 100% of the contribution requirements.

The following table displays the member and employer contribution rates as a percent of covered payroll for each division for 2023. With the assistance of the System's actuary and Board approval, a portion of each employer contribution to OPERS may be set aside for the funding of post-employment health care coverage. For 2023, no portion of the employer contribution rate was allocated to health care for the Traditional Pension Plan. The employer contribution as a percent of covered payroll deposited for the Combined Plan and Member-Directed Plan health care programs in 2023 was 2.0% and 4.0%, respectively.

Board of Trustees—Approved Contribution Rates—All Plans		
	2023 Member Rate	2023 Employer Rate
State Division	10.0%	14.0%
Local Division	10.0	14.0
Law Enforcement Division	13.0	18.1
Public Safety Division	12.0	18.1

The member and employer contribution rates for the State and Local divisions are currently set at the maximums authorized by the ORC of 10.0% and 14.0%, respectively. The Public Safety and Law Enforcement employer rates are also set at the maximum authorized rate of 18.1%. The member rate for Public Safety is determined by the Board and has no maximum rate established by the ORC. The member rate for Law Enforcement is also determined by the Board, but is limited by the ORC to not more than 2.0% greater than the Public Safety rate.

ORC Chapter 145 assigns authority to the Board to amend the funding policy. As of December 31, 2023, the Board adopted the contribution rates that were recommended by the actuary. The contribution rates were included in a funding policy adopted by the Board in October 2013, and are certified periodically by the Board as required by the ORC.

As of December 31, 2023, the date of the last pension actuarial study, the funding period for all defined benefits of the System was 15 years.

- d. **Commitments and Contingencies**—OPERS has committed to fund various private equity and real estate investments totaling approximately \$9.6 billion as of December 31, 2023. The expected funding dates for these commitments extend through 2029. OPERS is a party in various lawsuits relating to plan benefits and investments. While the final outcome cannot be determined at this time, management is of the opinion that the liability, if any, for these legal actions will not have a material adverse effect on OPERS' financial position.

## 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by OPERS for all pension and health care plans:

- a. **Basis of Accounting**—The financial statements are prepared using the economic resources measurement focus and accrual basis of accounting under which deductions are recorded when the expense is incurred and revenues are recognized when earned. Pension benefit payments are due the first day of the month following the retirement of a member, and the first of each month thereafter. Health care payments are considered an expense and recognized as a liability in the Combining Statement of Fiduciary Net Position when a present obligation exists and a condition that requires the event creating the liability has taken place. Therefore, OPEB plan expenses are recognized when the benefits are currently due and payable in accordance with the benefit terms. Health care expenses are reported net of certain health care receipts. Retiree-paid health care premiums and rebates are included in health care expenses in Benefits under Deductions in the Combining Statement of Changes in Fiduciary Net Position. Health care liabilities contain estimates on incurred but not reported amounts for the current year.

OPERS notionally funds and tracks member balances in the HRA, Member-Directed health care accounts and wellness RMAs. As of December 31, 2023, the notional member balances in the HRAs and Member-Directed health care accounts were \$410.0 million and \$352.1 million, respectively. The amounts recognized as currently due for 2023 claims based on estimates were \$149.2 million and \$2.5 million, respectively. The Wellness RMA program was terminated effective December 31, 2022, and, during the first quarter of 2023, eligible member balances were transferred to the member's HRA or forfeited and transferred to the 115 Trust if the member did not have an HRA. Although all health care activity is reflected in the 115 Trust, OPERS internally accounts for health care activity separately. Total net position reported for the 115 Trust as of December 31, 2023 was \$12.5 billion, which includes a net position of \$470.9 million related to funds accumulated for the Member-Directed health care plan.

Refunds, for any member who makes a written application to withdraw their contributions, are payable two months after termination of the member's OPERS-covered employment. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Additions to the plans consist of contributions (member and employer), contracts and other receipts, interplan activities, net investment income/loss, and other miscellaneous income. Contributions are recorded in the period the related salaries are earned and become measurable pursuant to formal commitments, statutory or contractual requirements. Accordingly, both member and employer contributions for the year ended December 31, 2023 include year-end accruals based upon estimates derived from subsequent payment activity and historical payment patterns. Member and employer contributions are due 30 days after the month in which salaries are earned based on pay period end date. Health care reimbursements are recognized when they become measurable and due to OPERS based on contractual requirements. Therefore, health care reimbursements contain estimates based on information received from health care vendors and other sources. Plan changes, or interplan activity, are recorded as an addition or deduction based on the nature of the transaction, when the transaction occurs. Investment purchases and sales are recorded as of their trade date.

The accounting and reporting policies of OPERS conform to accounting principles generally accepted in the United States (referred to as GAAP) as applicable to government organizations. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and to disclose contingent assets and liabilities at the date of the financial statements, as well as the

reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

OPERS reviews the requirements of all new GASB pronouncements and their impact on the financial statements. For the fiscal year ended December 31, 2023, there was no material impact to the OPERS financial statements resulting from the implementation of new accounting pronouncements.

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this statement is to align the recognition and measurement guidance for compensated absences under a unified model and amend required disclosures. The requirements of this statement are effective for fiscal years beginning after December 15, 2023. OPERS has implemented this new requirement in the current annual report.

In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this statement is to provide information about risks related to an entity's vulnerabilities due to certain concentrations and constraints. The requirements of this statement are effective for fiscal years beginning after June 15, 2024. OPERS is currently evaluating the impact of these requirements.

- b. Investments**—OPERS is authorized by ORC Section 145.11 to invest under a prudent person standard and does so through an investment policy established by the Board. ORC 145.11 states:

The Board and other fiduciaries shall discharge their duties with respect to the funds solely in the interest of the participants and beneficiaries; for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the public employees retirement system; with care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims; and by diversifying the investments of the system so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.

Member-Directed Plan participants self-direct the investment of both member and employer contributions. Contributions must be invested with an investment manager approved by the Board. Similarly, participants in the Combined Plan self-direct the investment of member contributions. The investment assets for all other plans and the health care trust are invested under the direction of the OPERS Investment staff in conformance with policies approved by the Board.

Investments are generally reported at fair value. Fair value is the amount that a plan can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller, that is, other than in a forced or liquidation sale. All investments, with the exception of real estate, private equity, risk parity and hedge funds, are valued based on closing market prices or broker quotes. Securities not having a quoted market price have been valued based on yields currently available on comparable securities of issuers with similar credit ratings. The fair value of some real estate investments, private equity, risk parity and hedge funds is based on a net asset value, which is established by the fund or by the fund's third-party administrator. Refer to Note 3i for additional information on valuation of investments.

Net increase/(decrease) in the fair value of investments is determined by calculating the change in the fair value of investments between the end of the year and the beginning of the year, less purchases of investments at cost, plus sales of investments at fair value. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Commissions paid to brokers are considered a part of the investment asset cost and are, therefore, not reported as expenses of the System. Brokerage commissions for 2023 were \$7.8 million. Investment administrative expenses consist of custodial banking fees and those expenses directly related to OPERS internal investment operations, and include a proportional amount of allocated overhead.

c. **Capital Assets**—OPERS maintains two categories of capital assets: tangible capital assets and intangible right-to-use assets.

- **Tangible Capital Assets**—Tangible capital assets are recorded at cost and do not meet the definition of an investment under GASB Statement No. 72, *Fair Value Measurement and Application*. OPERS has adopted a capitalization threshold used to identify whether assets purchased by the System are classified as capital assets or operating expenses. Building enhancements, furniture and equipment with a cost equal to or greater than \$5,000 and computer software purchases of \$25,000 or more are recorded as tangible capital assets and depreciated based on the useful life of the asset.

Depreciation for tangible capital assets is computed using the straight-line method over the estimated useful lives of the related assets according to the following schedule:

Useful Lives of Tangible Capital Assets	
	Years
Buildings and Building Improvements	50
Furniture and Equipment	3-10
Computer Software	3-10

- **Intangible Right-to-use Assets**—Intangible right-to-use assets are recorded under GASB Statement No. 87 (GASB 87), *Leases*, and GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* (SBITA). The intangible right-to-use assets and the related liabilities are recorded at the commencement date of the related contract. The lease or subscription liabilities, included within Accounts Payable and Other Liabilities on the Combining Statement of Fiduciary Net Position, are measured at the present value of expected payments over the contract term. The intangible right-to-use assets are based on the initial measurement of the liability, plus any payments made to the vendor at or before the commencement of the contract term. OPERS has adopted a capitalization threshold of \$250,000 for lease assets and subscriptions assets. Intangible right-to-use assets are amortized over the shorter of the term of the contract or the useful life of the underlying asset. Interest expense is recognized ratably over the contract term.

The table below is a schedule of the capital asset account balances as of December 31, 2022 and 2023, with changes to those account balances during the year ended December 31, 2023:

Capital Asset Account Balances					
	Land	Building and Building Improvements	Furniture and Equipment	Intangible Right-to-use Assets	Total Capital Assets
<b>Cost</b>					
Balances December 31, 2022	\$3,734,813	\$110,277,808	\$166,627,459	\$24,896,819	\$305,536,899
Additions	—	—	16,787,241	7,487,280	24,274,521
Disposals	—	(45,591)	(686,364)	(2,867,538)	(3,599,493)
Balances December 31, 2023	3,734,813	110,232,217	182,728,336	29,516,561	326,211,927
<b>Accumulated Depreciation and Amortization</b>					
Balances December 31, 2022	—	47,800,380	113,619,839	10,192,097	171,612,316
Depreciation and Amortization Expense	—	2,283,841	9,843,213	6,264,022	18,391,076
Disposals	—	(18,548)	(686,364)	(2,815,356)	(3,520,268)
Balances December 31, 2023	—	50,065,673	122,776,688	13,640,763	186,483,124
<b>Net Capital Assets December 31, 2023</b>	<b>\$3,734,813</b>	<b>\$60,166,544</b>	<b>\$59,951,648</b>	<b>\$15,875,798</b>	<b>\$139,728,803</b>

- d. **Lessor Obligations**—OPERS recognizes a lease receivable and a deferred inflow of resources (lessor obligation) at the commencement of the lease term. The lease receivable and lessor obligation are measured at the present value of lease payments expected to be received during the lease term, as defined by GASB 87. The lease receivable is recognized as additions to net position over the term of the lease.
- e. **Vacation and Sick Leave**—Employees who resign or retire are entitled to full compensation for all earned but unused vacation balances up to three times their annual accrual rate at the time of separation. Unused sick leave is forfeited upon termination. However, employees who retire with more than 10 years of service with OPERS are entitled to receive payment for 50% of unused sick leave up to a maximum of 2,000 hours, or payment of 1,000 hours. As of December 31, 2023, \$11.3 million is accrued within Accounts Payable and Other Liabilities for unused vacation and sick leave for employees.
- f. **Federal Income Tax Status**—OPERS is a qualified plan under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a).
- g. **Funds**—In accordance with the ORC and IRS regulations, various funds have been established to account for the reserves held for future and current payments. Statutory and IRS-mandated funds within each of the three pension plans are described below:

#### Traditional Pension Plan

- **The Employees' Savings Fund**—represents member contributions held in trust pending refund or transfer to a benefit disbursement fund. Upon a member's refund or retirement, such member's account is credited with an amount of interest (statutory interest) on the member's contributions based on a Board-approved rate, which currently ranges from 1% to 4%. Members eligible for a refund also receive additional funds from the Employers' Accumulation Fund, if qualified. ORC Chapter 145 requires statutory interest to be compounded annually.

- **The Employers' Accumulation Fund**—accumulates employer contributions to provide the reserves required for transfer to the Annuity and Pension Reserve Fund as members retire or become eligible for disability benefits, and to the Survivors' Benefit Fund for benefits due to dependents of deceased members.
- **The Annuity and Pension Reserve Fund**—is the fund from which retirement benefits that do not exceed the IRC 415(b) limitations and health care costs are paid. By law, OPERS is obligated to pay certain benefits that have commenced with retirees. In order to make these payments each year and hold sufficient assets in this fund to pay the vested benefits of all retirees and beneficiaries as of the actuarial valuation date, OPERS transfers funds from the active member employer fund (the Employers' Accumulation Fund) to the pension funds (the Annuity and Pension Reserve Fund and the Survivors' Benefit Fund). Thus, the active member funding was 55% as of December 31, 2023.
- **The Survivors' Benefit Fund**—is the fund from which benefits due to beneficiaries of deceased members of the System that do not exceed the IRC 415(b) limitations are paid. Refer to the description under the Annuity and Pension Reserve Fund for additional information.
- **Qualified Excess Benefit Arrangement (QEBA) Fund**—is the fund from which annuity, disability and survivors' benefits are paid when the recipient exceeds the IRC 415(b) limits. This reserve is funded by employer contributions.
- **The Income Fund**—is the fund credited with all investment gains or losses and miscellaneous income. Annually, the balance in this fund is transferred to other funds to aid in the funding of future benefit payments and administrative expenses.
- **The Expense Fund**—provides for the payment of administrative expenses with the necessary monies allocated to it from the Income Fund.

#### Member-Directed Plan

- **The Defined Contribution Fund**—represents member and employer contributions held in trust pending refund or commencement of benefit payments. Members self-direct the investment of these funds. The member vests in employer contributions over a five-year period at a rate of 20% per year.
- **The Annuity and Pension Reserve Fund**—is the fund from which purchased annuity benefits are paid. Upon retirement, Member-Directed participants may elect to liquidate their defined contribution accounts to purchase a defined benefit annuity. The value of the annuity is based on the value of the defined contribution account at the time of liquidation.
- **The Income Fund**—is the fund credited with all investment gains or losses, account fees, and miscellaneous income. The balance in this fund is used to fund the gains or losses incurred by participants and to fund the administrative expenses of the Member-Directed Plan.
- **The Expense Fund**—provides for the payment of administrative expenses with the necessary monies allocated to it from the Income Fund.
- **The Employers' Accumulation Fund**—is related to the annuitization of defined contribution accounts and death refunds.

#### Combined Plan

- **The Defined Contribution Fund**—represents member contributions held in trust pending refund or commencement of benefit payments. Members self-direct the investment of these funds.

- **The Employees' Savings Fund**—represents member deposits for the purchase of service credit held in trust pending refund or transfer to the plan Annuity and Pension Reserve Fund. Upon a member's refund or retirement, accounts are credited with an amount of interest (statutory interest) on the member's deposits based on a Board-approved rate. The interest rate has been 1% since January 1, 2003.
- **The Employers' Accumulation Fund**—accumulates employer contributions to provide the reserves required for transfer to the Annuity and Pension Reserve Fund as members retire. Disability and survivor benefits are funded by transfers to Traditional Pension Plan funds, which pay such benefits.
- **The Annuity and Pension Reserve Fund**—is the fund from which retirement benefits and health care costs are paid.
- **The Income Fund**—is the fund credited with all investment gains or losses, account fees and miscellaneous income. The balance in this fund is transferred to other funds, to credit member accounts and to aid in the funding of future benefit payments and administrative expenses.
- **The Expense Fund**—provides for the payment of administrative expenses with the necessary monies allocated to it from the Income Fund.

#### 115 Health Care Trust

- **The Employers' Accumulation Health Care Fund (IRC 115)**—accumulates Traditional Pension Plan and Combined Plan employer contributions to provide the reserves required for transfer to the Annuity and Pension Reserve and Survivors' Benefit funds. These funds are for monthly deposits to an HRA for eligible retirees. The Employers' Accumulation Health Care Fund is also used to accumulate a portion of employers contributions into an RMA for Member-Directed Plan members.

The statutory funds defined by ORC Chapter 145 and the IRC-required funds are not mutually exclusive. The Combining Statement of Fiduciary Net Position and the Combining Statement of Changes in Fiduciary Net Position are presented based on IRC requirements. The following schedule provides the values of the statutory funds and how they are distributed among the various retirement plans and the health care trust administered by the System. In total, these funds will equal the net position of the System. To support the net position for each plan and trust included in the statements, the schedule has been expanded to include the value of the statutory funds as they relate to each plan and trust.

Statutory and IRC Fund Balances as of December 31, 2023 were as follows:

Statutory and IRC Fund Balances (as of December 31, 2023)					
	Traditional Pension Plan	Combined Plan	Member-Directed Plan	115 Health Care Trust	Total
Employees' Savings Fund	\$16,798,520,924	\$6,082,473	(\$348,136)		\$16,804,255,261
Employers' Accumulation Fund	8,922,357,088	913,699,265	8,523,414	\$12,530,502,734	22,375,082,501
Annuity and Pension Reserve Fund	70,615,017,626	77,526,039	35,368,383		70,727,912,048
Survivors' Benefit Fund	2,083,679,661				2,083,679,661
Defined Contribution Fund		882,165,065	1,743,648,140		2,625,813,205
Income Fund	133,895,911				133,895,911
Expense Fund	1,342,089				1,342,089
<b>Total</b>	<b>\$98,554,813,299</b>	<b>\$1,879,472,842</b>	<b>\$1,787,191,801</b>	<b>\$12,530,502,734</b>	<b>\$114,751,980,676</b>

- h. Risk Management**—OPERS is exposed to various risks of loss related to theft of, damage to, or destruction of assets; injuries to employees; and court challenges to fiduciary decisions. To cover these risks, OPERS maintains commercial insurance and holds fidelity bonds on employees. There were no reductions in coverage nor have there been any settlements exceeding insurance coverage. As required by state law, OPERS is registered and insured through the state of Ohio Bureau of Workers' Compensation for injuries to employees. OPERS is self-insured for employee health care coverage. The only outstanding liabilities as of December 31, 2023 were \$0.9 million accrued within Accounts Payable and Other Liabilities related to the employee health care coverage.

### 3. Cash and Investments

A summary of cash, cash equivalents and investments held as of December 31, 2023 was as follows:

<b>Summary of Cash, Cash Equivalents and Investments</b> (as of December 31, 2023)	
	Fair Value
<b>Cash and Cash Equivalents</b>	
Cash	\$83,027,860
Cash Equivalents	
Commercial Paper	2,053,301,298
U.S. Treasury Obligations	1,638,101,813
Repurchase Agreements	1,690,000,000
Interest-Bearing Short-Term Certificates	250,000,000
Short-Term Investment Funds (STIF)	757,320,705
Subtotal Cash Equivalents	6,388,723,816
<b>Total Cash and Cash Equivalents</b>	<b>\$6,471,751,676</b>
<b>Investments</b>	
Fixed Income	
U.S. Corporate Bonds	\$9,853,807,609
Non-U.S. Notes and Bonds	3,443,556,616
U.S. Government and Agencies	10,358,408,176
U.S. Mortgage Backed	4,802,141,715
Subtotal Fixed Income	28,457,914,116
Domestic Equities	26,057,282,814
Real Estate	11,748,528,710
Private Equity	14,802,930,878

Risk Parity	1,623,922,475
Collective Trust Funds	1,334,346,701
Other Investments	(4,769,034)
<b>Total Investments Before Collateral on Loaned Securities</b>	<b>107,640,738,936</b>
Collateral on Loaned Securities	
Securities and Reinvested Cash Collateral for Loaned Securities	10,623,542,006
<b>Total Collateral on Loaned Securities</b>	<b>10,623,542,006</b>
<b>Total Investments Including Collateral on Loaned Securities</b>	<b>\$118,264,280,942</b>
<b>Total Cash, Cash Equivalents and Investments</b>	<b>\$124,736,032,618</b>

- a. **Custodial Credit Risk, Deposits**—Custodial credit risk for deposits is risk that, in the event of the failure of a depository financial institution, OPERS will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The total amount of cash balances reported was \$83,027,860 at December 31, 2023. Balances on deposit are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. The remaining bank deposits are covered by collateral held in the name of OPERS' pledging financial institution, as required by the ORC. OPERS has not experienced any losses in accounts and the System is not exposed to significant credit risk on its cash. OPERS has no formal policy specific to custodial credit risk. These assets are under the custody of the Treasurer of the state of Ohio.
- b. **Custodial Credit Risk, Investments**—Custodial credit risk for investments is the risk that, in the event of the failure of the custodian, OPERS will not be able to recover the value of its investment or collateral securities that are in the possession of the custodian. The Treasurer of the state of Ohio, as custodian, selects the custodian in the name of OPERS or its nominee; thus, OPERS investments are not exposed to custodial credit risk.
- c. **Credit Risk**—Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This risk is measured by ratings assigned by a nationally recognized statistical rating organization.

The OPERS Fixed Income Policy limits non-investment grade securities to within 15% of the market value percentage of non-investment grade securities in the Fixed Income Aggregate Benchmark within the Defined Benefit portfolio and the Health Care portfolio. Limitations on holdings of non-investment grade securities are included in portfolio guidelines.

- d. **Interest Rate Risk**—Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. OPERS monitors the interest rate risk inherent in its portfolio by measuring the weighted-average duration of its portfolio. Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. The effective duration measures the sensitivity of the market price to parallel shifts in the yield curve. The OPERS Fixed Income Policy limits the average option-adjusted duration of the defined benefit and health care fixed income assets to within 20% of the option-adjusted duration of the benchmark.

The following table presents the credit quality ratings and effective durations of OPERS fixed income assets, including short-term investments, as of December 31, 2023:

2023 Average Credit Quality and Exposure Levels of Guaranteed Investments <span style="float: right;">(continued on next page)</span>					
Fixed Income Security Type	Fair Value	Percent of All Fixed Income Assets	Weighted Average Duration to Maturity (years)	AAA	AA
Commercial Paper	\$2,053,301,298	5.89%	0.05		\$348,645,278

- e. **Concentration of Credit Risk**—Concentration of credit risk is the risk of loss that may be attributed to the magnitude of an investment in a single issuer. As of December 31, 2023, the portfolio has no single-issuer exposure that comprises 5% or more of the overall portfolio, excluding investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments. Therefore, no concentration of credit risk exists.
- f. **Foreign Currency Risk**—Foreign currency risk is the risk that changes in exchange rates will adversely impact the local currency value of an investment. The OPERS foreign currency exposures primarily reside within non-U.S. investment holdings. The OPERS investment policy allows external managers to decide what action to take within approved portfolio guidelines for their respective portfolios’ foreign currency exposures using forward-currency contracts. See table on the next page for foreign currency detail.

Exposure to Foreign Currency Risk in U.S. Dollars (as of December 31, 2023)							
Currency	Cash	Futures	Forwards	Fixed Income	International Equities	Real Estate	Private Equity
Argentine Peso	\$10,224

- g. Securities Lending**—ORC and Board policy permits OPERS to maintain a securities lending program. OPERS uses its discretion to determine the type and amount of securities lent under the program. Under this program, securities are loaned to brokers through a third-party securities lending agent and OPERS global custodian. In return, OPERS receives cash collateral or collateral securities considered liquid and agrees to return the collateral for the same securities in the future. Securities loaned are collateralized at a minimum of 102% of the fair value of loaned U.S. securities and 105% of the fair value of loaned international securities. Collateral is marked-to-market daily. These collateral requirements minimize OPERS' credit risk exposure to borrowers.

Cash collateral from securities loaned is, simultaneous to the loan, reinvested in repurchase agreements and other highly liquid short-term securities. OPERS does not have the ability to pledge or sell reinvested collateral securities during the term of a loan absent a broker default. OPERS has the ability to pledge or sell collateral securities from securities loaned. If the fair value of the collateral held falls below the required levels, additional collateral is provided. Since loans are terminable at will, their duration does not generally match the duration of the reinvested collateral securities. As of December 31, 2023, the weighted average maturity of the reinvested collateral securities is 80 days.

As of December 31, 2023, the fair value of securities on loan was \$10,334,344,857. Associated collateral totaling \$10,617,430,025 was received, of which \$9,912,963,321 was reinvested cash collateral and \$704,466,704 was securities collateral. The fair market value of reinvested collateral was \$10,623,542,006 as of December 31, 2023, which includes net unrealized gains on securities lending activity totaling \$6,111,981. The change in unrealized gains on reinvested collateral for the year ended December 31, 2023 was \$6,908,247.

Net securities lending income/(loss) is composed of four components: gross income, broker rebates, agent fees and unrealized gains/(losses) on collateral. Gross income is equal to earnings on cash collateral received in a securities lending transaction. A broker rebate is the cost of using that cash collateral. Agent fees represent the fees paid to the agent for administering the lending program. Unrealized gains/(losses) result from the change in fair value of the reinvested cash collateral. Net securities lending income/(loss) is equal to gross income less broker rebates, agent fees, and unrealized gains/(losses) on collateral. Securities lending income for 2023 was recorded on an accrual basis.

- h. Derivative Instruments**—Derivative instruments are generally defined as contracts whose values depend on, or are derived from, the value of an underlying asset, reference rate or index. OPERS has classified the following as derivative instruments:
- **Forward-Currency Contracts**—OPERS enters into various forward-currency contracts to manage exposure to changes in foreign currency exchange rates on its foreign portfolio holdings. The System may also enter into forward-currency exchange contracts to provide a quantity of foreign currency needed at a future time at the current exchange rates, if rates are expected to change dramatically. A forward-exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risk associated with such contracts includes movement in the value of foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. The contracts are valued at forward-exchange rates, and the changes in value of open contracts are recognized as net increase/decrease in the fair value of investments in the Combining Statement of Changes in Fiduciary Net Position. The forward-currency purchases are recognized in Investment Commitments Payable on the Combining Statement of Fiduciary Net Position and the forward-currency sales are recognized in Investment Sales Proceeds. The realized gains or losses on forward-currency contracts represent the difference between the value of the original contracts and the closing value of

such contracts and are included as net increase/decrease in the fair value of investments in the Combining Statement of Changes in Fiduciary Net Position. The net realized and unrealized gain on forward-currency contracts for the year 2023 was \$1,150,800.

The fair values of forward-currency contracts were as follows:

<b>Forward-Currency Contracts</b> (as of December 31, 2023)		
	Fair Value (USD)	Notional (USD)
Forward-currency purchases (pay USD)	\$545,309	\$35,614,631
Forward-currency sales (receive USD)	(\$750,018)	\$27,687,200

- Futures Contracts**—OPERS enters into various futures contracts to manage exposure to changes in equity, fixed income and currency markets and to take advantage of movements on an opportunistic basis. A stock index future is a futures contract that uses a stock index as its base, and which is settled by cash or delivery of the underlying stocks in the index. Financial futures represent an off balance sheet obligation, as there are no balance sheet assets or liabilities associated with those contracts; however, the realized and unrealized gains and losses on futures are recorded in the Combining Statement of Changes in Fiduciary Net Position. Futures contracts differ from forward-currency contracts by their standardization, exchange trading, margin requirements, and daily settlement (marking-to-market). Risk associated with stock index futures contracts includes adverse movements in the underlying stock index. The following table shows the futures positions held by OPERS as of December 31, 2023. The net realized and unrealized gain on futures contracts for the year 2023 was \$269,115,673.

<b>Futures Positions Held</b> (as of December 31, 2023)		
Futures Contracts	Number of Contracts	Contract Principal
U.S. Equity Index Futures purchased long	6,097	\$1,413,105,440
U.S. Treasury Futures purchased long	30,395	\$3,698,241,210
U.S. Treasury Futures purchased short	108	(\$14,561,508)
Non-U.S. Equity Index Futures purchased long	12,910	\$975,328,601
Non-U.S. Government Bond Futures purchased long	1,499	\$590,540,455
Commodities Futures purchased long	11,158	\$1,094,999,641

- Total Return Swaps**—OPERS may manage market exposure through the use of total return swaps. A total return swap is an agreement in which one party commits to pay a fee in exchange for a return linked to the market performance of an underlying security, group of securities, index or other asset (reference obligation). Risks may arise if the value of the swap acquired decreases because of an unfavorable change in the price of the reference obligation or in the counterparty's ability to meet the terms of the contract. OPERS held total return swaps with a notional value of \$3,335,131,613 as of December 31, 2023. The net unrealized loss for total return swaps as of December 31, 2023 was \$5,340,890. The net realized loss in total return swaps for the year 2023 was \$257,115,347.

- **Credit Default Swaps**—OPERS may manage credit exposure through the use of credit default swaps or credit default swap indices. A credit default swap is a contract whereby the credit risk associated with an investment is transferred by entering into an agreement with another party, who, in exchange for periodic fees, agrees to make payments in the event of a default or other predetermined credit event. A credit default swap allows for exposure to credit risk while limiting exposure to other risks, such as interest rate and currency risk. OPERS held credit default swaps with a short notional value of \$930,000,000 as of December 31, 2023. The net realized and unrealized loss in credit default swaps for the year 2023 was \$42,663,996.
- **Options**—Options give buyers the right, but not the obligation, to buy or sell an asset at a predetermined strike price over a specified period. The option premium is usually a small percentage of the underlying asset value. When writing an option, OPERS receives a premium initially and bears the risk of an unfavorable change in the price of the underlying asset during the option life. When OPERS purchases an option, it pays a premium to a counterparty that bears the risk of an unfavorable change in the price of the underlying asset during the option life. OPERS did not hold any option positions as of December 31, 2023. The net realized loss in options contracts for the year 2023 was \$4,278,116.
- i. **Fair Value Leveling**—Generally accepted accounting principles specify a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:
  - Level 1—Unadjusted quoted prices for identical instruments in active markets.
  - Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and, model-derived valuations in which all significant inputs and significant value drivers are observable.
  - Level 3—Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy; in which case OPERS defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments.

The following tables present fair value as of December 31, 2023:

<b>Investments and Short-Term Holdings Measured At Fair Value</b> (as of December 31, 2023)				
	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments classified as Level 1 in the previous tables are comprised of common stock, international equity and exchange-traded funds.

Investments classified as Level 2 are primarily comprised of investments in U.S. corporate notes and bonds, international debt, U.S. mortgage-backed securities and U.S. government and agency securities, including Federal Home Loan Mortgage Corporation (Freddie Mac) securities, Federal National Mortgage Association (Fannie Mae) securities, Government National Mortgage Association (Ginnie Mae) securities, U.S. Treasury notes and bonds, U.S. Treasury floating rate notes, U.S. and commercial mortgage trusts, and derivative instruments, including foreign exchange contracts and swaps.

Investments classified as Level 3 are comprised of common stock, U.S. corporate notes and bonds, U.S. mortgage-backed securities, international equity, international debt and direct-owned real estate.

Changes in the significant unobservable inputs may result in a materially higher or lower fair value measurement.

In certain instances, debt and equity securities are valued on the basis of prices from an orderly transaction between market participants provided by brokers/dealers or pricing services (Level 1 in the tables). In determining the value of a particular investment, pricing services may use information with respect to transactions in such investments, including broker quotes, pricing matrices, market transactions in comparable investments and various relationships between investments. As part of its independent price verification process, OPERS selectively performs detailed reviews of valuations provided by brokers/dealers or pricing services.

Foreign exchange contracts are valued by interpolating a value using the spot foreign exchange rate and forward points (based on the spot rate and currency interest rate differentials), which are all inputs that are observable in active markets (Level 2 in the tables).

In the absence of observable market prices, OPERS values its investments using valuation methodologies applied on a consistent basis (Levels 2 or 3 in the tables). For some investments, little market activity may exist; management's determination of fair value is then based on the best information available in the circumstances, and may incorporate management's own assumptions and involves a significant degree of judgement, taking into consideration a combination of internal and external factors. Such investments are evaluated on a quarterly basis, taking into consideration any changes in key inputs and changes in economic and other relevant conditions, and valuation models are updated accordingly. The valuation process also includes a review by the OPERS internal valuation committee, comprised of senior members from various departments within OPERS. The valuation committee provides independent oversight of the valuation policies and procedures.

The fair values in certain investments are based on the net asset value (NAV) per share (or its equivalent) provided by the investee or third-party administrator, as applicable. Investments categorized according to NAV include risk parity funds, collective trust funds, mutual funds, some real estate, private equity limited partnership interests, and remaining hedge funds.

Unlike more traditional investments, private equity and private real estate investments generally do not have readily obtainable market values and take the form of limited partnerships. OPERS values these investments based on the partnerships' audited financial statements, typically as of calendar year-end. If December 31 statements are available, those values are used for these statements. However, some partnerships have fiscal years ending on dates other than December 31. If December 31 valuations are not available, the value is progressed from the most recently available valuation on the financial statements, taking into account subsequent calls and distributions.

Commingled mutual funds and collective trust funds are managed externally on OPERS' behalf, subject to an investment management agreement. These assets are not available for purchase by the general public, and thus no public prices are available. As stated above, OPERS considers the NAV reported by the investment manager a fair approximation of fair value for these assets.

Risk parity and hedge funds are most often established as private investment limited partnerships open to a limited number of accredited investors. Investments in these funds may be illiquid as investors in certain funds may be required to keep their investment in the fund for a year or longer, and withdrawals may be limited to intervals such as monthly, quarterly, annually or bi-annually. OPERS monitors liquidity provisions of each individual fund investment and reports characteristics of the asset classes.

Real estate investments typically do not trade on organized exchanges, but rather through privately negotiated transactions between a buyer and a seller, and transactions are predicated on the availability of capital, and a willing buyer and seller. Investments in direct-owned real

estate assets are classified as Level 3 and other real estate assets are categorized under NAV in the tables.

The nature of the private equity investments is that distributions are received through the liquidation of the underlying assets of the fund, rather than through redemptions, and these assets are not sold in the secondary market.

The expected liquidation period for applicable investments is as follows:

Private Equity	10 to 12 years
Closed-End Real Estate	10 to 12 years
Open-End Real Estate	Quarterly
Direct-owned Real Estate	3 to 10 years
Hedge Funds	In Liquidation
Risk Parity Funds	Monthly

As of December 31, 2023, the investments mentioned above are not expected to be sold at an amount different from the NAV per share (or its equivalent) of the System's ownership interest in partners' capital.

The following table presents the unfunded commitments, redemption frequency (if currently eligible), and the redemption notice period for OPERS investments measured at the NAV as of December 31, 2023:

<b>Investments Measured at the Net Asset Value (NAV)</b> (as of December 31, 2023)				
	Net Asset Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
<b>Real Estate</b>				
Closed-End Private Real Estate <sup>1</sup>	\$1,707,211,580	\$2,514,897,744	N/A	N/A

<b>Total Investments Measured at the NAV</b>	<b>\$26,280,151,806</b>			

Footnotes found on next page.

**Footnotes for Investments Measured at the Net Asset Value table**

- <sup>1</sup> **Closed-End Private Real Estate**—Closed-end private real estate includes finite-life, commingled or fund of one, private-market investment vehicles that are typically structured as limited partnerships, where the investors are limited partners (LPs) and the fund sponsor/manager is the general partner (GP). The LPs have limited control and limited liability. Real estate closed-end funds typically invest in value add and opportunistic private market real estate assets. The valuations are based on manager-provided net asset values, located in quarterly capital account statements, that are cash flow adjusted to the end of the reporting period.
- <sup>2</sup> **Open-End Private Real Estate**—Open-end private real estate holds infinite-life, commingled, private-market investment vehicles that typically invest in stabilized properties in major metropolitan areas. Open-end commingled funds provide liquidity to investors quarterly, subject to each fund's ability to honor investment and redemption requests. The valuations are based on manager-provided net asset values, located in quarterly capital account statements, that are cash flow adjusted to the end of the reporting period.
- <sup>3</sup> **Private Equity**—Private equity invests through closed-end, finite-life, commingled funds or fund of one that are typically structured as limited partnerships, where the investors are LPs and the fund sponsor/manager is the GP. The LPs have limited control and limited liability. Private equity closed-end funds typically invest in corporate finance, venture capital and special situations (secondary fund-of-funds and distressed debt strategies). The valuations are based on manager-provided net asset values, located in quarterly capital account statements, that are cash flow adjusted to the end of the reporting period.
- <sup>4</sup> **Risk Parity**—Risk parity strategies invest in multiple asset types and leverage exposures to global markets in order to obtain the desired risk-aware mix. The risk parity allocation is structured to achieve roughly balanced risk exposure across equities, nominal fixed income, and inflation sensitive assets, targeting a total volatility level. The valuations are based on manager-provided net asset values, located in monthly capital account statements, that are adjusted for estimated performance.
- <sup>5</sup> **Other Investments**—Includes remaining hedge funds.
- <sup>6</sup> **Event-driven**—Event-driven managers maintain positions in companies currently or prospectively involved in various corporate transactions including, but not limited to, mergers, restructurings, financial distress, tender offers, shareholder buybacks, debt exchanges, security issuance or other capital structure adjustments. Security types can range from most senior in the capital structure to most junior or subordinated, and frequently involve additional derivative instrument securities. Event-driven exposure includes a combination of sensitivities to equity markets, credit markets and company-specific developments. The valuations are based on manager-provided net asset values located in the monthly capital account statements, that are adjusted for estimated performance.
- <sup>7</sup> **Multi-strategy**—Multi-strategy managers combine several strategies within the same fund to provide diversification benefits to reduce return volatility and decrease asset-class and single-strategy risks. These funds typically add incremental returns through active allocation adjustments based on market opportunities. Risk is managed through a combination of quantitative and qualitative constraints including, but not limited to, active risk, liquidity risk, currency risk, manager risk, derivative instruments risk, and leverage risk. The valuations are based on manager-provided net asset values located in the monthly capital account statements, that are adjusted for estimated performance.
- <sup>8</sup> **Commingled Mutual Funds**—The commingled mutual funds seek to outperform the MSCI Emerging Markets Small Cap Index. The valuations are based on manager-provided net asset values located in the monthly capital account statements.

<sup>9</sup> **Defined Contribution Funds**— The assets within the Domestic Equities, U.S. Corporate Bonds, and International Equities lines are index-managed, meaning they seek to mirror investment results of broadly based and publicly quoted market indices. They are not intended to outperform such indices. The assets within the Collective Trust Funds line are managed portfolios that link a defined contribution member's investment portfolio to a particular time horizon, typically an expected retirement date. The valuations for all the Defined Contribution Funds are based on manager-provided net asset values located in the monthly capital account statements. The stable value fund is considered to be a cash equivalent asset and therefore not measured at fair value.

#### 4. Schedule of Required Contributions

All employees of OPERS are eligible for membership in the benefit plans of the System. The employer contributions paid on behalf of these employees are funded by revenues in the Income Fund, arising from investment activity and other income. The annual required pension and health care contributions for employees for the year ended December 31, 2023 are as follows:

Annual Required Pension and Health Care Contributions				
Year Ended	Pension		Health Care	
	Annual Required Contributions	Percent Contributed	Annual Required Contributions	Percent Contributed
2023	\$6,694,294	100%	\$579,841	100%

In accordance with accounting rules, internal payroll related to the implementation of capital projects and SBITA is capitalized as part of the capital asset cost. The capitalized cost includes salary and wages, as well as the corresponding employer-paid Medicare and retirement contribution expenses. The portion of the 2023 Annual Required Contributions included in capital assets for capital projects and SBITA was \$688,150 for pension and \$59,730 for health care.

#### 5. Net Pension Liability

The components of the net pension liability of the defined benefit portion of the pension plans as of December 31, 2023 are as follows:

Net Pension Liability/(Asset) (\$ in millions)				
As of December 31, 2023	All Plans	Traditional Pension Plan	Combined Plan <sup>1</sup>	Member-Directed Plan <sup>1</sup>
Total Pension Liability	\$125,458	\$124,735	\$690	\$33
Plan Fiduciary Net Position	99,596	98,555	997	44
Net Pension Liability/(Asset)	\$25,862	\$26,180	(\$307)	(\$11)
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	79.39%	79.01%	144.55%	134.44%

<sup>1</sup> The Combined Plan and Member-Directed Plan information in the Net Pension Liability/(Asset) table includes only the defined benefit portion of these plans to comply with GASB-reporting standards and does not include the defined contribution portion. The Combining Statements of Fiduciary Net Position and Changes in Fiduciary Net Position present the combined defined benefit and defined contribution portions of the Combined Plan and Member-Directed Plan.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2023, using the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB 67.

Key Methods and Assumptions Used in Valuation of Total Pension Liability			
Actuarial Information	Traditional Pension Plan	Combined Plan	Member-Directed Plan
<b>Measurement and Valuation Date</b>	December 31, 2023	December 31, 2023	December 31, 2023
<b>Experience Study</b>	5-Year Period Ended December 31, 2020	5-Year Period Ended December 31, 2020	5-Year Period Ended December 31, 2020
<b>Actuarial Cost Method</b>	Individual entry age	Individual entry age	Individual entry age
<b>Actuarial Assumptions</b>			
<b>Investment Rate of Return</b>	6.90%	6.90%	6.90%
<b>Wage Inflation</b>	2.75%	2.75%	2.75%
<b>Projected Salary Increases</b>	2.75%-10.75% (includes wage inflation at 2.75%)	2.75%-8.25% (includes wage inflation at 2.75%)	2.75%-8.25% (includes wage inflation at 2.75%)
<b>Cost-of-living Adjustments</b>	Pre-1/7/2013 Retirees: 3.00% Simple Post-1/7/2013 Retirees: 2.30% Simple through 2024, then 2.05% Simple	Pre-1/7/2013 Retirees: 3.00% Simple Post-1/7/2013 Retirees: 2.30% Simple through 2024, then 2.05% Simple	Pre-1/7/2013 Retirees: 3.00% Simple Post-1/7/2013 Retirees: 2.30% Simple through 2024, then 2.05% Simple

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The discount rate used to measure the total pension liability was 6.9% for the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant. For each major asset class that is

included in the Defined Benefit portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized in the following table:

Asset Class	Target Allocation as of December 31, 2023	Weighted Average Long-Term Expected Real Rate of Return
		(Geometric)
Fixed Income	24.00%	2.85%
Domestic Equities	21.00	4.27
Real Estate	13.00	4.46
Private Equity	15.00	7.52
International Equities	20.00	5.16
Risk Parity	2.00	4.38
Other Investments	5.00	3.46
<b>TOTAL</b>	<b>100.00%</b>	

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a gain of 11.2% for 2023.

The following table presents the net pension liability or asset calculated using the discount rate of 6.9%, and the expected net pension liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

Sensitivity of Net Pension Liability/(Asset) to Changes in the Discount Rate (\$ in millions)			
Net Pension Liability/(Asset) As of December 31, 2023	1% Decrease 5.9%	Current Discount Rate 6.9%	1% Increase 7.9%
All Plans	\$41,021	\$25,862	\$13,259
Traditional Pension Plan	\$41,215	\$26,180	\$13,676
Combined Plan	(\$186)	(\$307)	(\$403)
Member-Directed Plan	(\$8)	(\$11)	(\$14)

The funding status of the three pension plans and their Schedules of Funding Progress may be found in the Actuarial Section of this document on pages 141-142. The Member-Directed Plan is a defined contribution pension plan allowing members at retirement to have the option to convert their defined contribution account to a defined benefit annuity. The defined contribution annuitized balances under this plan were included in this annual report from a GASB 67 perspective.

## 6. Net OPEB Liability/(Asset)—Health Care

The components of the net OPEB liability or asset of the defined benefit health care plans as of December 31, 2023 are as follows:

<b>Net OPEB Liability/(Asset)</b> (\$ in millions)	
As of December 31, 2023	
Total OPEB Liability	\$11,628
Plan Fiduciary Net Position	12,531
Net OPEB Liability/(Asset)	(\$903)
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	107.76%

The total OPEB liability was determined by an actuarial valuation as of December 31, 2022, rolled forward to the measurement date of December 31, 2023, by incorporating the expected value of health care cost accruals, the actual health care payments, and interest accruals during the year for the defined benefit health care plans. In accordance with GASB Statement No. 75 (GASB 75), *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the Member-Directed Plan health care is a defined benefit health care plan, although the pension plan is defined contribution. Interest is credited to member accounts based on the investment performance of the stable value fund, not to exceed 4.0%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between the System and plan members.

The actuarial valuation used the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB Statement No. 74 (GASB 74), *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*:

<b>Key Methods and Assumptions Used in Valuation of Total OPEB Liability</b>	
Actuarial Information	
Actuarial Valuation Date	December 31, 2022
Rolled-Forward Measurement Date	December 31, 2023
Experience Study	5-Year Period Ended December 31, 2020
Actuarial Cost Method	Individual entry age
Actuarial Assumptions	
Single Discount Rate	5.70%
Investment Rate of Return	6.00%
Municipal Bond Rate	3.77%
Wage Inflation	2.75%
Projected Salary Increases	2.75%-10.75% (includes wage inflation at 2.75%)
Health Care Cost Trend Rate	5.50% initial, 3.50% ultimate in 2038

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

A single discount rate of 5.70% was used to measure the total OPEB liability on the measurement date of December 31, 2023; however, the single discount rate used at the beginning of the year was 5.22%. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 3.77%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2070. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2070, and the municipal bond rate was applied to all health care costs after that date.

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined benefit pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Health Care portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized in the following table:

Asset Class	Target Allocation as of December 31, 2023	Weighted Average Long-Term Expected Real Rate of Return
		(Geometric)
Fixed Income	37.00%	2.82%
Domestic Equities	25.00	4.27
REITs	5.00	4.68
International Equities	25.00	5.16
Risk Parity	3.00	4.38
Other Investments	5.00	2.43
<b>TOTAL</b>	<b>100.00%</b>	

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 14.0% for 2023.

The following table presents the net OPEB liability or asset calculated using the single discount rate of 5.70%, and the expected net OPEB liability or asset if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

<b>Sensitivity of Net OPEB Liability/(Asset) to Changes in the Discount Rate</b> (\$ in millions)			
As of December 31, 2023	1% Decrease 4.70%	Single Discount Rate 5.70%	1% Increase 6.70%
Net OPEB Liability/(Asset)	\$496	(\$903)	(\$2,061)

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability or asset. The following table presents the net OPEB liability or asset calculated using the assumed trend rates, and the expected net OPEB liability or asset if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate.

<b>Sensitivity of Net OPEB Liability/(Asset) to Changes in the Health Care Cost Trend Rate</b> (\$ in millions)			
As of December 31, 2023	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
Net OPEB Liability/(Asset)	(\$940)	(\$903)	(\$860)

Retiree health care valuations use a health care cost trend assumption with changes over several years built into that assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2024 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health care cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

The funding status of health care and the Schedule of Funding Progress are found in the Actuarial Section of this document on page 143.

## 7. Subsequent Event

Subsequent to year-end, the Ohio Deferred Compensation (ODC) Board voted to have OPERS provide executive leadership to ODC. Accordingly, OPERS has defined staff to lead the ODC organization. ORC section 148.02 establishes the ODC Board and system as a separate legal entity and dictates the structure of the benefits to be provided. This section further leaves decisions about how to administer the ODC system to the discretion of the ODC Board as it also authorizes the OPERS Board to utilize its employees and property in the administration of the ODC system on behalf of the ODC Board, in consideration of a reasonable service charge for such use of OPERS resources. OPERS will report the impact of this activity in OPERS 2024 annual report under GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34*, and GASB Statement No. 84, *Fiduciary Activities*.

**Defined Benefit Pension Plans**

The Schedules of Changes in Net Pension Liability/(Asset) and Related Ratios display the components of the total pension liability and plan fiduciary net position for each pension plan with a defined benefit component, calculated in conformity with the requirements of GASB 67. Covered Payroll represents the collective total of the OPERS eligible wages of all OPERS employers within each plan. As required by GASB 67, the most recent 10 years of data is presented in the following tables.

<b>Schedule of Changes in Net Pension Liability and Related Ratios</b> (\$ in millions) <span style="float: right;">(continued on next page)</span>

The Combined Plan defined benefit pension is funded only from the employer contributions, with the member contributions deposited to a defined contribution account. The Member-Directed Plan is a defined contribution plan with the option for retirees to annuitize their benefit, which converts the retiree's benefit to a defined benefit. The employer contributions deposited to the defined benefit portion of the Member-Directed Plan are included in these schedules. Employer contributions are used to determine the proportionate share for employers of this actuarial liability and related activity. The following tables display the actuarially determined contributions for employers of the defined benefit pension plans based on the actuarially determined rate, and the amount of these contributions paid by the employers each year.

Schedule of Employer Contributions <sup>1</sup>					All Plans
Year Ended December 31	Actuarially Determined Contributions	Contributions Paid	Contribution Deficiency/ (Excess)	Covered Payroll <sup>2</sup>	Contributions as a Percent of Covered Payroll
2023	\$2,364,193,016	\$2,366,152,017	(\$1,959,001)	\$17,504,567,185	13.5%

<sup>1</sup> The Board has approved all contribution rates recommended by the actuary. Actuarially determined contributions exclude funds deposited for purchase of service, employer-paid retirement incentive programs, interest and penalties. These deposits are included in Contract and Other Receipts in the Combining Statement of Changes in Fiduciary Net Position.

<sup>2</sup> Covered Payroll was calculated based on actual information obtained from OPERS-contributing employers during the fiscal year.

See Notes to Required Supplementary Information, beginning on page 81.

See accompanying Independent Auditor's Report, beginning on page 16.

<sup>1</sup> The Board has approved all contribution rates recommended by the actuary. Actuarially determined contributions exclude funds deposited for purchase of service, employer-paid retirement incentive programs, interest and penalties. These deposits are included in Contract and Other Receipts in the Combining Statement of Changes in Fiduciary Net Position.

<sup>2</sup> Covered Payroll was calculated based on actual information obtained from OPERS-contributing employers during the fiscal year.

See Notes to Required Supplementary Information, beginning on page 81.  
 See accompanying Independent Auditor's Report, beginning on page 16.

During 2023, OPERS managed its investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, with the exception of Member-Directed annuitized accounts, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered the same for all plans within the portfolio.

<b>Schedule of Investment Returns</b>		<b>Defined Benefit Portfolio</b>
Year	Annual Money-Weighted Rate of Return Net of Investment Expenses	
2023	11.2%	
2022	(12.1%)	
2021	15.3%	
2020	11.7%	
2019	17.2%	
2018	(2.9%)	
2017	16.8%	
2016	8.3%	
2015	0.4%	
2014	7.0%

**Post-employment Health Care Coverage or OPEB**

The Schedule of Changes in Net OPEB Liability/(Asset) and Related Ratios displays the components of the total OPEB liability and plan fiduciary net position for the defined benefit health care plans, calculated in conformity with the requirements of GASB 74. Covered Payroll represents the collective total of the OPERS eligible wages of all OPERS employers within each pension plan. GASB 74 requires that data be reported for 10 years; however, data prior to 2017 is not available.

<sup>1</sup> Refer to the Notes to Required Supplementary Information, Factors Significantly Affecting Trends in Reported Amounts, for additional information.

<sup>2</sup> Other includes Contract and Other Receipts and Other Income.

With the assistance of the System’s actuary, the Board may approve a portion of each employer contribution to OPERS to be set aside for the funding of post-employment health care coverage. In 2023, no employer contributions were allocated to health care for the Traditional Pension Plan. The employer contribution as a percent of covered payroll allocated to health care for the Combined Plan was 2.0%. The employer contribution as a percent of covered payroll deposited into the Member-Directed Plan participants' health care accounts was 4.0%. For the Member-Directed Plan, interest is credited to member accounts based on the investment performance of the stable value fund, not to exceed 4.0%.

See Notes to Required Supplementary Information, beginning on page 81.

See accompanying Independent Auditor's Report, beginning on page 16.

The table below displays the actuarially determined contributions for employers allocated to health care based on the actuarially determined rate, and the amount of these contributions paid by the employers each year based on the allocations determined by the Board. Due to the discretionary nature of health care funding and the potential for frequent changes in allocations, including not having funding available to allocate to health care for some plans, the calculation of proportionate shares of employers is based on total employer contributions, as disclosed in the Schedules of Employer Contributions within the Defined Benefit Pension Plans section of the Required Supplementary Information.

Schedule of Employer Contributions					Health Care
Year Ended December 31	Actuarially Determined Contributions	Contributions Paid	Contribution Deficiency/ (Excess)	Covered Payroll <sup>1</sup>	Contributions as a Percent of Covered Payroll
2023	\$247,697,888	\$33,833,553	\$213,864,335	\$17,504,567,185	0.2%
2022	229,408,392	29,899,481	199,508,911	16,500,847,449	0.2
2021	212,713,761	25,631,727	187,082,034	15,463,730,018	0.2
2020	987,819,505	24,489,938	963,329,567	14,998,065,952	0.2
2019	855,315,505	24,318,141	830,997,364	14,987,616,732	0.2
2018	850,929,552	23,441,668	827,487,884	14,391,093,640	0.2
2017	739,451,097	157,417,888	582,033,209	14,058,005,653	1.1
2016 <sup>a</sup>	762,698,127	284,903,259	477,794,868	13,717,592,219	2.1
2015	731,847,564	253,673,333	478,174,231	13,177,006,156	1.9
2014	684,421,764	247,083,670	437,338,094	12,932,540,544	2.0

<sup>a</sup> In 2016, IRS guidance allowed OPERS to consolidate all health care funding into the 115 Trust. Based on criteria in GASB 74, all OPERS health care plans are reported as defined benefit OPEB. Therefore, beginning in 2016, the total employer contributions presented includes the contributions for all health care plans.

<sup>1</sup> Covered Payroll was calculated based on actual information obtained from OPERS-contributing employers during the fiscal year, which differs from the Covered Payroll in the funding valuation. Covered Payroll used in the funding valuation is based on the annualized pay rate of all pension plan active members as of the valuation date.

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Defined Contribution portfolio and the Health Care portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plan are assumed to be received continuously through the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. GASB 74 requires that data be reported for 10 years; however, data prior to 2017 is not available.

Schedule of Investment Returns		Health Care Portfolio
Year	Annual Money-Weighted Rate of Return Net of Investment Expenses	
2023	14.0%	
2022	(15.6%)	
2021	14.3%	
2020	10.5%	
2019	19.7%	
2018	(5.6%)	
2017	15.3%	

See Notes to Required Supplementary Information, beginning on page 81.

See accompanying Independent Auditor's Report, beginning on page 16.

## Defined Benefit Pension Plans

### Actuarial Assumptions and Methods Used in Determining Contribution Rates

Actuarially determined contributions are constrained by contribution limits established by statute. The actuarial assumptions and methods used to determine contribution rates for the year ended December 31, 2023 are based on the December 31, 2020 pension actuarial valuation and are described below.

- **Valuation Method**—Individual entry age actuarial cost method of valuation is used in determining benefit liabilities and normal cost. Differences between assumed and actual experience (the actuarial gains and losses) become part of the actuarial accrued liability.
- **Asset Valuation Method**—For actuarial purposes, assets are valued utilizing a method that recognizes assumed total investment returns each year. Differences between actual and assumed investment returns are phased in over a closed four-year period. This funding value is not permitted to deviate from fair value by a corridor of plus or minus 12.00%.
- **Amortization Method**—Level percent of payroll, closed amortization period, for the Traditional Pension and Combined plans; Level dollar, closed amortization period, for the Member-Directed Plan.
- **Investment Return**—An investment rate of return of 6.90% compounded annually (net after investment administrative expenses) was assumed.
- **Wage Inflation**—The active member payroll was assumed to increase 2.75% annually, which is the portion of the individual pay increase assumption attributable to inflation and overall productivity.
- **Salary Scale**—Wage inflation plus additional projected salary increases ranged up to 8.00% per year depending on age, attributable to seniority and merit, or 2.75% to 10.75%, including inflation.
- **Cost-of-living Adjustments**—Pre-January 7, 2013 retirees: 3.0% simple; post-January 7, 2013 retirees: 0.5% for calendar year 2021, then 2.05% simple.
- **Multiple Decrement Tables—Mortality**—Pre-retirement mortality rates were based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates were based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees were based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year were determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

## Post-employment Health Care Coverage or OPEB

### Actuarial Assumptions and Methods Used in Determining Contribution Rates

The Actuarial Determined Employer Contribution for the year ended December 31, 2023 is based on the December 31, 2021 health care actuarial valuation. The actuarial assumptions and methods used to determine contribution rates are described below.

- **Valuation Method**—Individual entry age actuarial cost method of valuation is used in determining health care liabilities and normal cost. Differences between assumed and actual experience (the actuarial gains and losses) become part of the total actuarial accrued liability.
- **Asset Valuation Method**—For actuarial purposes, assets are valued utilizing a method that recognizes assumed total investment returns each year. Differences between actual and assumed investment returns are phased in over a closed four-year period. This funding value is not permitted to deviate from fair value by a corridor of plus or minus 12.00%.
- **Amortization Method**—Level percent of payroll, open 15 year amortization period.
- **Investment Return**—An investment rate of return of 6.00% compounded annually (net after investment administrative expenses) was assumed.
- **Wage Inflation**—The active member payroll was assumed to increase 2.75% annually, which is the portion of the individual pay increase assumption attributable to inflation and overall productivity.
- **Salary Scale**—Wage inflation plus additional projected salary increases ranged up to 7.50% per year depending on age, attributable to seniority and merit, or 2.75% to 10.75%, including inflation.
- **Multiple Decrement Tables—Mortality**—Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

## Factors Significantly Affecting Trends in Reported Amounts

Listed below is a summary of the key changes during the time period presented:

In 2021, a five-year experience study was completed for the period January 1, 2016 through December 31, 2020. The Board adopted changes to the demographic and economic assumptions for pension and health care as a result of the study. One key trend in the demographic portion of the study is the continued reduction in disability rates resulting from the changes in the disability program that encourage disabled participants to seek rehabilitation and return to work. The most notable changes in economic assumptions were a reduction in the long-term pension investment return assumption from 7.2% to 6.9%, a reduction in the long-term expected wage inflation from 3.25% to 2.75%, and a reduction in long-term expected price inflation from 2.50% to 2.35%. These assumptions, which were included beginning in the 2022 actuarial valuation, are disclosed in the Actuarial Section beginning on page 125.

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes were effective January 1, 2022 and included changes to base allowances and eligibility for Medicare retirees, as well as replacing the OPERS-sponsored self-insured medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes were first reflected beginning in the 2022 financial statements; however, they were already reflected beginning in the December 31, 2020 measurement date health care valuation. These changes significantly decreased the total OPEB liability beginning with the measurement date December 31, 2020. For more information on the health care program, see the Plan Statement beginning on page 209.

In 2023, 2019 and 2016, OPERS, in conjunction with the Board's investment consultants, also completed an asset liability study for pension and health care. Periodically, the System engages in a more comprehensive study that examines the nature of the pension liabilities we will ultimately pay and the characteristics of the asset allocation projections and the associated level of risk. As a result of this study, OPERS modified the asset allocation slightly, but not substantively in 2019 and 2016. In 2023, asset allocation changes increased alternative assets by 6% in total, while decreasing other asset classes accordingly.

Dynamic or strategic asset allocation reviews for the Defined Benefit and Health Care portfolios are completed annually. Generally, these reviews do not result in significant changes to the asset allocation. However, in 2020, the Board approved the elimination of the allocation to the Hedge Fund asset class in both portfolios. To reduce the Hedge Funds allocation, transitional allocation targets were approved for both portfolios that resulted in several changes in both portfolios.

There was also a change in the investment rate of returns for pension and health care in a non-experience study year. Conditions are monitored and assumptions are reviewed annually to ensure that the assumptions remain reasonable until the next scheduled experience study. If conditions change materially, it may become necessary to review and update assumptions in advance of the next scheduled experience study. In 2018, the Board adopted changes to further reduce the long-term pension investment return assumption from 7.5% to 7.2% and the long-term health care investment return assumption from 6.5% to 6.0%.

In 2016, a five-year experience study was completed on the period January 1, 2011 through December 31, 2015. The Board adopted changes to the demographic and economic assumptions for pension and health care as a result of the study. The most notable change in demographic assumptions was an increased life expectancy for members. The most notable change in economic assumptions was a reduction in the long-term pension investment return assumption from 8.0% to 7.5%.

Annually, the single discount rate used to measure the total OPEB liability is determined based upon several factors, including the long-term health care investment return assumption and a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating. Additionally, the total OPEB liability is impacted by the assumed health care cost trend rate. The changes in these rates, in particular the changes in the single discount rate noted within the Investment Rates by Portfolio table found on page 123 in the Investment Section, had significant impacts to the calculation of the total OPEB liability in several years presented.

<b>Administrative Expenses</b> (for the year ended December 31, 2023)

## How pensions are generated

Generating funds through investment returns is a vital element of the OPERS commitment to members. Why does this activity matter? A significant percentage (60-80%) of pension payments is funded through investment returns. As a mature retirement system, OPERS relies more each year on investment performance to pay benefits to our members. Responsibly seeking consistent investment performance is the main goal of institutional investors—and is essential so that OPERS can continue to meet our stated commitment of providing pension benefits for our members.

### Institutional investing targets-and-timelines

OPERS members have a long-term view of working toward retirement over decades. Most members plan to enjoy that retirement for a long time. In turn, institutional investors like OPERS take a long-term view on generating the funds necessary to pay benefits.

The returns for 2023 were positive and exceeded the target rate—always a pleasure to announce. However, although institutional investors recognize that what happens every day, week or month matters, those incremental returns are not our main focus. We seek—and traditionally attain—targeted returns over the long term. We are not chasing the highest of highs and we seek to avoid the lowest of lows—we aim for targeted consistency in returns. That consistency allows OPERS to meet our commitment to members—to support the benefits that provide financial security to our members in retirement. And, although some element of investment market volatility is always present in investment markets, through responsible investing, institutional investors like OPERS seek long-term consistency from returns.

### Our approach

How do institutional investors like OPERS provide consistency of returns? We take a diversified approach and look for long-term results. This means investments are made across a number of areas, from traditional stocks and bonds to real estate, private alternatives, and more. Diversification allows for more consistent investment results over the long term. When some asset classes are up, others may be down.

We seek growth over decades. This long-term outlook allows investments time to grow and time to overcome losses experienced—and expected—during years of significant volatility or poor returns. While a good or even great year in investment returns is cause for satisfaction, we do not pause in our diligence to celebrate. Similarly, a year with less-than-anticipated returns is not reason to despair—we anticipate poor markets and position the System as positively as possible to maximize returns even in a less-than-ideal marketplace.

### Measuring success

Simply put, we do not seek glamorous performance during any single year but work to attain targeted success over a long horizon. That's how OPERS can continue to meet our commitment to members.

*Once you have commitment, you need discipline and hard work to get you to your goal.*  
—Haile Gebreselassie, international track star and businessman

## Ohio Public Employees Retirement System

277 East Town Street Columbus, Ohio 43215-4642 1-800-222-7377 [www.opers.org](http://www.opers.org)

To My Fellow Members:

It's always a pleasure to report strong results. The 2023 Investment Division results showcase the market's robust financial performance as a byproduct of ongoing resilience in U.S. economic growth, combined with a decline in inflation. Risk assets, notably equities, experienced a dramatic rebound, yielding double-digit positive returns. This resurgence propelled the OPERS Defined Benefit Fund to an impressive 11.26% return for the year, surpassing the actuarial target of 6.9%. Similarly, the Health Care Fund delivered a noteworthy 13.97% return, also exceeding the actuarial target of 6.0%.

### A Review of 2023

At the onset of 2023, many investors braced for a continuation of the dismal financial market performance of 2022. The ongoing Russia-Ukraine conflict, coupled with the Federal Reserve's (Fed) aggressive interest rate hiking—pushing rates up by more than 5%—led most investors to anticipate an economic recession in the U.S. for 2023. The prevailing sentiment was not if, but when, and to what magnitude, this recession might reveal itself.

#### ***Fast forward to the close of 2023***

The U.S. economy dodged a recession and also managed to achieve an average annual growth rate of 2.5%. Inflation, which had previously soared to more than 9%, declined remarkably to 3.4%, albeit at a less rapid pace in the final months. Despite the Fed's interest rate hikes, totaling four increases throughout the year, investors were reassured by signals indicating an end to the rate-raising cycle and looked forward to the potential for lower rates in 2024. With the markets factoring in the prospect of reduced rates, risk assets, such as equities and corporate bonds, experienced a rally into year's end.

#### ***Plenty of volatility***

Final results can be misleading. The surface-level data at year end belies the turbulence experienced in navigating the market's actual trajectory. It was a rollercoaster. For instance, the S&P 500 equity index commenced the year positively, rallying by nearly 10%, only to plummet by 8% and then surge again by 19% during the summer. Subsequently, it retreated by more than 10% in early fall before concluding the year with a robust 16% rally, resulting in a total annual gain of 26.3%.

Similarly, interest rates exhibited significant volatility throughout the year. The 10-year Treasury note oscillated between a high yield of almost 5% and a low of 3.3%, ultimately ending the year precisely where it began, at 3.9%.

Simply stated, the volatility across all assets posed considerable challenges throughout the year. Central to our mission, and our commitment to members, is the need to provide funding for the over \$7 billion in benefit payments that OPERS is committed to provide for retirees annually. Because OPERS has allocated a high proportion of its assets to internal professional staff, versus those overseen by external managers,

we were able to swiftly and cost-effectively provide for these benefit payments as needed. In short, the investment staff enabled OPERS to again meet its commitment to members.

### 2023 Investment Division Initiatives

Each year, the Investment Division undertakes significant initiatives aimed at augmenting the capabilities and performance of our program. In addition to delivering significant returns for the year, the following strategic initiatives enjoyed noteworthy progress or completion in 2023:

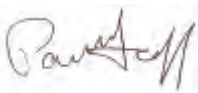

- Upgrades to the portfolio and risk system for the Private Alternatives teams to enhance reporting and monitoring capabilities.
- Creation of a standalone investment-grade credit portfolio for both the Defined Benefit and Health Care funds. The portfolio was launched April 1, 2023.
- Completion of an internal Risk Parity strategy to complement our external manager strategies and at a lower cost.

As we move toward 2024, the Investment Division anticipates ongoing analysis to refine the core strategies of the OPERS investment program to optimize returns in each asset class while minimizing risk.

### Ever forward

Looking forward, the markets remain fixated on inflation, the actions of the Federal Reserve, and the ongoing prospect of the U.S. economy steering clear of recession and sustaining growth. We anticipate another challenging, yet productive, year. Rest assured, staff will maintain vigilance to ensure that OPERS assets are in the best position possible to generate positive returns and fulfill all benefit payments as scheduled.

As always, we extend our recognition and gratitude to the OPERS Board of Trustees. This governing body rigorously evaluates investment strategies, scrutinizes allocations, and monitors ongoing performance. We express our sincere appreciation to the Board's Investment Advisor, NEPC, for invaluable assistance, insights and research—providing indispensable contributions to our success. With the guidance and support of these essential partners, the OPERS Investment Division remains resolute in our commitment to deliver long-term results for OPERS members—current and future.

Paul Greff  
Chief Investment Officer

Note: The returns presented throughout the Investment Section are the result of the returns generated by Defined Benefit, Health Care and Defined Contribution portfolio investments, based on a combination of time-weighted and market value-weighted calculations. The returns presented are net of external manager fees, overdraft charges, debit interest, registration expenses, stamp duties and taxes spent on foreign securities. In addition, securities lending money market returns are net of custodial fees, transfer agent expenses and professional fees.

### Board Investment and Fiduciary Duties

- (A) The members of the public employees retirement board shall be the trustees of the funds created by section 145.23 of the Revised Code. The board shall have full power to invest the funds. The board and other fiduciaries shall discharge their duties with respect to the funds solely in the interest of the participants and beneficiaries; for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the public employees retirement system; with care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims; and by diversifying the investments of the system so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.
- (B) In exercising its fiduciary responsibility with respect to the investment of the funds, it shall be the intent of the board to give consideration to investments that enhance the general welfare of the state and its citizens where the investments offer quality, return, and safety comparable to other investments currently available to the board. In fulfilling this intent, equal consideration shall also be given to investments otherwise qualifying under this section that involve minority owned and controlled firms and firms owned and controlled by women either alone or in joint venture with other firms.

**Board of Trustees**  
**Ohio Public Employees Retirement System**  
**277 East Town Street**  
**Columbus, OH 43215-4642**

As an independent investment advisor to the Ohio Public Employees Retirement System ('OPERS') and the Board of Trustees (the 'Board'), NEPC, LLC is providing an opinion on the reporting of OPERS investment results, investment policies, internal compliance procedures and the Board's oversight of the Retirement System's investments.

#### **Investment Results**

To the best of NEPC's knowledge and belief, OPERS investment results, as presented in this Annual Comprehensive Financial Report (ACFR), accurately represent the performance of the Retirement System's Defined Benefit, Health Care and Defined Contribution assets. All measurements shown have been calculated using standard performance evaluation methods and are presented in a manner that is consistent with investment industry standards.

#### **Investment Policies**

OPERS investment policies can be accessed online at <https://www.opers.org/investments/inv-plans.shtml> and are organized as follows: Part I: Investment Objectives and Asset Allocation Policies; Part II: Asset Class and Sub-Asset Class Policies; Part III: Investment-Wide Policies; and Part IV: Corporate Governance and Proxy Voting Policies.

In NEPC's opinion, OPERS assets are managed under a set of transparent investment policies and guidelines. These policies and guidelines adequately highlight the strategic performance objectives of the Ohio Public Employees Retirement System and emphasize the dual importance of maintaining robust risk controls and program diversification.

#### **Internal Compliance**

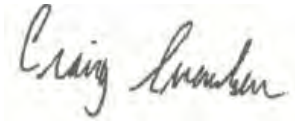

The constant testing of Fund portfolios and the continuous review of the compliance function itself is considered to be best practice within the investment industry. While serving as OPERS generalist investment consultant, NEPC has witnessed Staff's consistent and ongoing efforts to improve the effectiveness of their internal compliance procedures. NEPC also believes that the Investment Division's support of the CFA® Institute's Code of Ethics and Standards of Professional Conduct, as well as the guidelines and procedures that are set forth in the OPERS Code of Ethics and OPERS Personal Trading Policies, are consistent with industry best practice for investment professionals.

www.NEPC.com | 617.374.1300

**Prudent Oversight**

The daily management of the OPERS assets has been clearly delegated to the Retirement System's investment Staff. In NEPC's opinion, this clear delegation of accountability helps the Board maintain effective oversight of the OPERS Defined Benefit, Health Care and Defined Contribution Funds through quarterly performance reviews, regular oversight of Staff's activities and monthly meetings with Staff, the investment consultants and other independent service providers.

Best Regards,

Craig Svendsen, CFA  
Partner

## Introduction

The total OPERS investment portfolio, as reflected in the Combining Statement of Fiduciary Net Position, page 30, is comprised of Defined Benefit, Health Care, and Defined Contribution portfolio assets. The Defined Benefit portfolio assets originate from Traditional Pension Plan member and employer contributions, employer contributions to the Combined Plan, and funds from defined contribution accounts for annuities. The investment of these assets is the responsibility of the Investment staff, adhering to the policies approved by the OPERS Board of Trustees.

The Health Care portfolio assets are segregated from the pension portfolio and invested with a more conservative, and shorter term, asset-allocation strategy. The Health Care portfolio is comprised of assets set aside to pay post-employment health care expenses for the retirees of the Traditional Pension Plan, Combined Plan and Member-Directed Plan. The investment of these assets is the responsibility of the Investment staff, adhering to the policies approved by the Board.

Defined Contribution portfolio assets originate from member contributions to the Combined Plan and both member and employer contributions to the Member-Directed Plan. The investment of Defined Contribution portfolio assets is self-directed by members of the Combined and Member-Directed plans, but is limited to investment options approved by the Board and the self-directed brokerage account window.

## Investment Summary

The Total Investment Summary (beginning on the next page) relates to System-wide investments and includes the assets of all three portfolios as of December 31, 2023. The balance of information in this Investment Section is organized as follows: Defined Benefit portfolio investments (pages 100-104) relating exclusively to defined benefit assets; Health Care portfolio investments (pages 105-109) relating exclusively to health care assets; and Defined Contribution portfolio investments (pages 110-112) relating exclusively to defined contribution assets. The Investment Objectives and Policies and Asset Class Policies (pages 113-122) provide information on the System investment policies and performance objectives.

The returns presented throughout the Investment Section are the result of the returns generated by Defined Benefit, Health Care and Defined Contribution portfolio investments, based on a combination of time-weighted and market value-weighted calculations. The returns presented throughout this Investment Section are net of external manager fees, overdraft charges, debit interest, registration expenses, stamp duties, and taxes spent on foreign securities. In addition, securities lending money market returns are net of custodial fees, transfer-agent expenses, and professional fees.

A list of assets held as of December 31, 2023 is available upon request.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last-reported sales price at current exchange rates. Performance results and fair values for the real estate and private equity asset classes are typically reported on a quarter lag basis, adjusted for cash flow activity during the fourth quarter. The investment results reported for these asset classes in the Investment Section reflect this practice. If any significant market gains or losses occur in the fourth quarter, these asset classes are adjusted for financial reporting purposes to reflect the estimated fair value at year end. The table on the next page displays the fair values of investment assets consistent with the presentation in the financial statements on page 30.

**Total Investment Summary** (as of December 31, 2023, \$ in billions)

**Total Investment Returns—Annual Rates of Return<sup>1</sup>**

	2023	Rolling 3-Yr	Rolling 5-Yr	Rolling 10-Yr	Rolling 30-Yr
Total Investment Returns	11.72%	4.04%	8.20%	6.79%	7.04%
Policy Benchmark Returns	10.99%	3.98%	8.04%	6.49%	7.39% <sup>a</sup>

<sup>a</sup> The benchmark returns for 1996 and prior years were estimated.

<sup>1</sup> Annual Rates of Return—The returns are the result of the returns generated by Defined Benefit, Health Care and Defined Contribution portfolio investments, based on a combination of time-weighted calculations and market value-weighted calculations. The policy benchmark is derived by a market value-weighted calculation of the Defined Benefit, Health Care, and Defined Contribution investment policy benchmarks while all other returns throughout the remainder of this section are derived from a time-weighted calculation. All returns presented throughout the Investment Section are net of external manager fees, overdraft charges, debit interest, registration expenses, stamp duties, and taxes spent on foreign securities. In addition, the securities lending money market returns are net of custodial fees, transfer-agent expenses, and professional fees.

<sup>a</sup> Returns are six-month cumulative returns as of June 30, 2016 in the 401(h) Health Care Trust. The 401(h) Health Care Trust and the Voluntary Employees' Beneficiary Association (VEBA) Trust were closed as of June 30, 2016. Prior to July 1, 2016, the VEBA Trust assets were included in the Defined Benefit portfolio. On July 1, 2016, the 401(h) Health Care Trust and VEBA Trust assets were transferred to the 115 Health Care Trust portfolio. The combined return on the total health care assets for the year ended December 31, 2016 was 7.55%. The number disclosed in the 115 Health Care Trust column, 5.11%, represents the return for the 115 Health Care Trust portfolio assets.

<sup>b</sup> The 115 Health Care Trust was established September 2014. Returns are two-month cumulative returns in 2014 since funding of the 115 Health Care Trust portfolio began November 2014.

<sup>1</sup> Prior to 2005, the 401(h) Health Care Trust assets were included in the Defined Benefit portfolio. In 2005, the 401(h) Health Care Trust assets were segregated from the Defined Benefit portfolio into a separate portfolio with portfolio-specific asset allocation and investment policies. Accordingly, Defined Benefit returns for 2004 and prior represent a composite of the Defined Benefit and 401(h) Health Care Trust assets.

<sup>2</sup> Defined Contribution plans commenced January 1, 2003, with a separate portfolio established in 2004.

<b>Total Non-U.S. Equity Commissions</b>	<b>\$5,118,266</b>	<b>3,924,466,517</b>	<b>\$0.001</b>

<b>Futures Commissions</b> (for the year ended December 31, 2023)			
Brokerage Firm	Futures Commissions Paid	Contracts Traded	Average Commission Per Contract
Wells Fargo Securities LLC	\$835,110	421,477	\$1.98
Goldman Sachs & Co.	652,789	393,550	1.66
Merrill Lynch & Co. Inc.	86,279	67,733	1.27
<b>Total Futures Commissions</b>	<b>\$1,574,178</b>	<b>882,760</b>	<b>\$1.78</b>
<b>Total U.S. Equity, Non-U.S. Equity and Futures Commissions</b>	<b>\$7,792,034</b>	<b>N/A</b>	<b>N/A</b>

Brokerage commissions do not include commissions paid by external investment managers using commingled fund structures. OPERS maintains a commission recapture program with several of its non-U.S. Equity managers. Capital Institutional Services Inc. and Frank Russell Securities Inc. perform record-keeping services for the commission recapture program.

The total commissions schedule includes \$53,569 in commissions paid that were part of a commission sharing agreement (CSA). CSA funds are held by the participating brokers and may be used to purchase qualifying investment research services. During 2023, \$212,500 of investment research services were purchased using CSA funds.

<b>Schedule of Fees to External Asset Managers by Portfolio</b> (for the year ended December 31, 2023)

<sup>1</sup> All investment manager fees reported to OPERS, whether directly invoiced or subtracted from the fund on a net basis, are reported as External Asset Management Fees in the Combining Statement of Changes in Fiduciary Net Position. OPERS makes a good faith attempt to account for fees that are not readily separable. Net Management Fees are net of management fee offsets. Performance Fees represent the investment managers' share of the profits realized by the fund during the period.

<b>Schedule of External Asset Managers</b> (for the year ended December 31, 2023)

Beach Point Capital Management	Oceanwood Capital Management LLP	

<sup>1</sup> Hedge fund allocations eliminated in 2020 were liquidated through 2023.

As noted previously, the Investment Division manages the total investment portfolio by dividing it into three sub-portfolios. These portfolios are: the Defined Benefit portfolio, the Defined Contribution portfolio, and the Health Care portfolio. All information prior to this point has been reported on the OPERS total investment portfolio; however, all following information will be presented at the specific portfolio level.

**Defined Benefit Portfolio Asset Allocation** (as of December 31, 2023, \$ in billions)

**Investment Returns**

The Defined Benefit portfolio reported an investment return of 11.26% in 2023. The overall portfolio return is compared to a composite benchmark return that could be achieved by a portfolio that is passively invested in the broad market, with percentage weights allocated to each asset class as specified in the *OPERS Statement of Investment Objectives and Policies*. The return of the policy benchmark for 2023 was 10.46%.

**Investment Returns—Annual Rates of Return<sup>1</sup>**

**Defined Benefit Portfolio**

Defined Benefit Portfolio Returns <sup>3</sup>	11.26%	4.13%	8.19%	6.92%	7.10%
Policy Benchmark Returns <sup>3</sup>	10.46%	4.09%	8.07%	6.61%	7.43% <sup>a</sup>

<sup>a</sup> The benchmark returns for 1996 and prior years were estimated.

<sup>1</sup> Annual Rates of Return—The Defined Benefit portfolio return is based on a time-weighted calculation. The policy benchmark is derived by a market value-weighted calculation of the Defined Benefit investment policy benchmarks. All returns are net of external manager fees, overdraft charges, debit interest, registration expenses, stamp duties, and taxes spent on foreign securities.

<sup>2</sup> The 401(h) Health Care Trust portfolio was segregated from the Defined Benefit portfolio in 2005; thus, the 30-year rolling return information reflects both the Defined Benefit and 401(h) Health Care Trust portfolios.

<sup>3</sup> Performance was reduced by 0.37% in the Rolling 3-Yr, 0.23% in the Rolling 5-Yr and 0.12% in the Rolling 10-Yr because of a change in the methodology used for cash distributions from private equity and real estate funds made on January 1, 2022.

Investment returns for the Defined Benefit portfolio underlying asset class composites and the respective benchmarks are shown below:

<b>Schedule of Investment Results</b> (for the year ended December 31, 2023)		<b>Defined Benefit Portfolio</b>

Footnotes for Schedule of Investment Results—Defined Benefit Portfolio

<sup>1</sup> **Defined Benefit Portfolio Results**—Performance was reduced by 0.37% in the Rolling 3-Yr, and 0.23% in the Rolling 5-Yr because of a change in the methodology used for cash distributions from private equity and real estate funds.

<sup>2</sup> **Defined Benefit Portfolio Benchmark**—The returns for this benchmark are derived from the asset class composite benchmark returns summarized in the table on the previous page, the historical asset class target allocations listed below, and the asset class composite benchmark indices listed in the table on the next page.

<sup>3</sup> Investment Grade Credit allocations began in May 2023. Returns are eight-month cumulative returns (May 2023-December 2023).

<sup>4</sup> REITs allocations began in April 2022.

<sup>5</sup> Real Estate Composite Results—Performance was reduced by 1.23% in the Rolling 3-Yr, and 0.72% in the Rolling 5-Yr because of a change in the methodology used for cash distributions from real estate funds.

<sup>6</sup> Private Equity Composite Results—Performance was reduced by 2.29% in the Rolling 3-Yr, and 1.37% in the Rolling 5-Yr because of a change in the methodology used for cash distributions from private equity funds.

<sup>7</sup> Opportunistic allocations began in November 2020.

<sup>8</sup> Cash Composites have a zero allocation but can hold residual cash balances of the Defined Benefit portfolio. This can result in residual performance that does not affect the overall Defined Benefit portfolio.

## Footnotes for Schedule of Investment Results—Defined Benefit Portfolio

The footnotes below provide definitions for the asset class composite benchmark indices as of December 31, 2023:

- <sup>1</sup> **Bloomberg U.S. Aggregate Bond Index**—A market capitalization-weighted bond index consisting of Bloomberg corporate, government, mortgage-backed, and asset-backed securities. This index is the broadest available measure of the aggregate U.S. fixed income market.
- <sup>2</sup> **Bloomberg U.S. Corporate Bond Index**—Measures the investment grade, fixed-rate, taxable corporate bond market. It includes USD-denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers.
- <sup>3</sup> **Custom Emerging Markets Debt Benchmark**—As of December 31, 2023, blend was 50% J.P. Morgan Emerging Markets Bond Index (EMBI) Global, and 50% J.P. Morgan Government Bond Index (GBI-EM)-Emerging Markets Global Diversified.
- <sup>4</sup> **Bloomberg U.S. Corporate High Yield Total Return Index**—Covers the universe of USD-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Ba1/BB+/BB+ or below.
- <sup>5</sup> **Custom Securitized Debt Benchmark**—As of December 31, 2023, blend was 50% Bloomberg Non-Agency Investment Grade CMBS: BBB Total Return Index Unhedged USD, and 50% Bloomberg Non-Agency CMBS Agg Eligible Total Return Index Value Unhedged USD.
- <sup>6</sup> **Bloomberg U.S. Treasury Index**—Measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury. Treasury bills are excluded, but are part of a separate Short Treasury bond index. Separate Trading of Registered Interest and Principal of Securities (STRIPS) are excluded from the index because their inclusion would result in double-counting.
- <sup>7</sup> **Bloomberg U.S. TIPS Index**—Consists of inflation-protected securities issued by the U.S. Treasury.
- <sup>8</sup> **Russell 3000 Index**—A market capitalization-weighted stock index consisting of the 3,000 largest publicly traded U.S. stocks by capitalization. This index is a broad measure of the performance of the aggregate domestic equity market.
- <sup>9</sup> **Dow Jones U.S. Select Real Estate Securities Index (RESI)**—The Dow Jones U.S. Select RESI Total Return Index represents equity real estate investment trusts (REITs) and real estate operating companies (REOCs) traded in the U.S.
- <sup>10</sup> **Net NFI-ODCE plus 85 bps**—NCREIF Fund Index - Open End Diversified Core Equity (NFI-ODCE) net of fees plus an annual premium of 85 bps is a capitalization-weighted index consisting of 26 open-end commingled funds pursuing a core investment strategy.
- <sup>11</sup> **State Street Private Equity Index (SSPEI)**—Evaluates the performance of actively managed private equity portfolios. SSPEI includes venture capital, buyout, and distressed debt funds within the U.S.
- <sup>12</sup> **Credit Suisse Leveraged Loan Index**—Tracks the investable universe of the U.S. dollar denominated leveraged loan market.
- <sup>13</sup> **Custom Non-U.S. Equity Benchmark**—As of December 31, 2023, blend was 55% MSCI World Index ex U.S. Standard, 31% MSCI Emerging Markets Standard Index, 10% MSCI World Index ex U.S. Small Cap, and 4% MSCI Emerging Markets Small Cap Index.
- <sup>14</sup> **Custom Risk Parity Benchmark**—A market value-weighted index of the underlying portfolio benchmarks, which as of December 31, 2023, included the HFR Risk Parity Institutional Custom Index and the S&P Risk Parity Index - 10% Target Volatility.
- <sup>15</sup> **Bloomberg Commodity Index Total Return**—Consists of futures contracts and reflects the returns on a fully collateralized investment in Bloomberg Commodity Index (BCOM). BCOM Index provides broad-based exposure to commodities. Combines the returns of BCOM with the returns on cash collateral invested in three-month U.S. Treasury Bills.
- <sup>16</sup> **Custom Opportunistic Benchmark**—A market value-weighted index of the underlying portfolio benchmarks, which as of December 31, 2023 included the Russell 2000 Index and the Bloomberg Gold Subindex Total Return.
- <sup>17</sup> **ICE Bank of America Merrill Lynch (BofAML) U.S. 3-Month Treasury Bill Index**—The three-month Treasury Bill return as measured by Bank of America Merrill Lynch.

**Health Care Portfolio Asset Allocation** (as of December 31, 2023, \$ in billions)

**Investment Returns**

The Health Care portfolio reported an investment return of 13.97% in 2023. The overall returns are compared to a composite benchmark return that could be achieved by a portfolio that is passively invested in the broad market, with percentage weights allocated to each asset class as specified in the *OPERS Statement of Investment Objectives and Policies*. The return of the policy benchmark for 2023 was 13.65%.

**Investment Returns—Annual Rates of Return<sup>1</sup>** Health Care Portfolio

<sup>1</sup> Annual Rates of Return—The Health Care portfolio return is based on a time-weighted calculation. The policy benchmark is derived by a market value-weighted calculation of the Health Care investment policy benchmarks. All returns are net of external manager fees, overdraft charges, debit interest, registration expenses, stamp duties, and taxes spent on foreign securities.

<sup>2</sup> The Health Care portfolio (previously known as the 401(h) Health Care Trust portfolio) was segregated from the Defined Benefit portfolio in 2005; thus, the 30-year rolling return information does not exist.

<sup>3</sup> The 115 Health Care Trust portfolio was established in September 2014, and the 401(h) Health Care Trust portfolio was closed on June 30, 2016 with the assets transferring to the 115 Health Care Trust portfolio on July 1, 2016. Beginning 2017, one health care trust exists, referred to as the Health Care portfolio. The Rolling 10-Year returns are the combined returns of the former 401(h) Health Care Trust portfolio and the current 115 Health Care Trust portfolio for all years prior to 2017.

Investment returns for the Health Care portfolio underlying asset class composites and the respective benchmarks are shown below:

Opportunistic Composite <sup>3</sup>	15.21	3.25	N/A
Opportunistic Composite Benchmark <sup>3</sup>	16.76	3.73	N/A
Cash Composite <sup>4</sup>	5.44	2.52	2.18
Cash Composite Benchmark <sup>4</sup>	5.05	2.17	1.89

<sup>1</sup> **Health Care Portfolio Benchmark**—The returns for this benchmark are derived from the asset class composite benchmark returns summarized in the table above, the historical asset class target allocations listed on the next page, and the asset class composite benchmark indices listed in the table on page 108.

<sup>2</sup> Investment Grade Credit allocations began in May 2023. Returns are eight-month cumulative returns (May 2023-December 2023).

<sup>3</sup> Opportunistic allocations began in November 2020.

<sup>4</sup> Cash Composites have a zero allocation but can hold residual cash balances of the Health Care portfolio. This can result in residual performance that does not affect the overall Health Care portfolio.

Historical Asset Class Target Allocations				Health Care Portfolio	
Asset Class	2023	2022	2021	2020	2019

**Footnotes for Schedule of Investment Results—Health Care Portfolio**

The footnotes below provide definitions for the asset class composite benchmark indices as of December 31, 2023:

- <sup>1</sup> **Bloomberg U.S. Aggregate Bond Index**—A market capitalization-weighted bond index consisting of Bloomberg corporate, government, mortgage-backed, and asset-backed securities. This index is the broadest available measure of the aggregate U.S. fixed income market.
- <sup>2</sup> **Bloomberg U.S. Corporate Bond Index**—Measures the investment grade, fixed-rate, taxable corporate bond market. It includes USD-denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers.
- <sup>3</sup> **Custom Emerging Markets Debt Benchmark**—As of December 31, 2023, blend was 50% J.P. Morgan Emerging Markets Bond Index (EMBI) Global, and 50% J.P. Morgan Government Bond Index (GBI-EM)-Emerging Markets Global Diversified.
- <sup>4</sup> **Bloomberg U.S. Corporate High Yield Total Return Index**—Covers the universe of USD-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Ba1/BB+/BB+ or below.
- <sup>5</sup> **Custom Securitized Debt Benchmark**—As of December 31, 2023, blend was 50% Bloomberg Non-Agency Investment Grade CMBS: BBB Total Return Index Unhedged USD, and 50% Bloomberg Non-Agency CMBS Agg Eligible Total Return Index Value Unhedged USD.
- <sup>6</sup> **Bloomberg U.S. Treasury Index**—Measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury. Treasury bills are excluded, but are part of a separate Short Treasury bond index. Separate Trading of Registered Interest and Principal of Securities (STRIPS) are excluded from the index because their inclusion would result in double-counting.
- <sup>7</sup> **Bloomberg U.S. TIPS Index**—Consists of inflation-protected securities issued by the U.S. Treasury.
- <sup>8</sup> **Russell 3000 Index**—A market capitalization-weighted stock index consisting of the 3,000 largest publicly traded U.S. stocks by capitalization. This index is a broad measure of the performance of the aggregate domestic equity market.
- <sup>9</sup> **Dow Jones U.S. Select Real Estate Securities Index (RESI)**—The Dow Jones U.S. Select RESI Total Return Index represents equity real estate investment trusts (REITs) and real estate operating companies (REOCs) traded in the U.S.
- <sup>10</sup> **Custom Non-U.S. Equity Benchmark**—As of December 31, 2023, blend was 55% MSCI World Index ex U.S. Standard, 31% MSCI Emerging Markets Standard Index, 10% MSCI World Index ex U.S. Small Cap, and 4% MSCI Emerging Markets Small Cap Index.
- <sup>11</sup> **Custom Risk Parity Benchmark**—A market value-weighted index of the underlying portfolio benchmarks, which as of December 31, 2023, included the HFR Risk Parity Institutional Custom Index and the S&P Risk Parity Index - 10% Target Volatility.
- <sup>12</sup> **Bloomberg Commodity Index Total Return**—Consists of futures contracts and reflects the returns on a fully collateralized investment in Bloomberg Commodity Index (BCOM). BCOM Index provides broad-based exposure to commodities. Combines the returns of BCOM with the returns on cash collateral invested in three-month U.S. Treasury Bills.
- <sup>13</sup> **Custom Opportunistic Benchmark**—A market value-weighted index of the underlying portfolio benchmarks, which as of December 31, 2023 included the Russell 2000 Index and the Bloomberg Gold Subindex Total Return.
- <sup>14</sup> **ICE Bank of America Merrill Lynch (BofAML) U.S. 3-Month Treasury Bill Index**—The three-month Treasury Bill return as measured by Bank of America Merrill Lynch.

**Defined Contribution Portfolio Asset Allocation** (as of December 31, 2023, \$ in billions)

**Investment Returns**

The Defined Contribution portfolio reported an investment return of 18.08% in 2023. The portfolio composite is derived from the individual investment option returns and their actual year-end market values. Members may not invest in this portfolio composite, but choose to invest in the individual investment options provided. The returns for the investment options, and their respective indices, are shown on the next page.

**Investment Returns—Annual Rates of Return<sup>1</sup>** **Defined Contribution Portfolio**

	2023	Rolling 3-Yr	Rolling 5-Yr	Rolling 10-Yr
Defined Contribution Portfolio Returns <sup>2</sup>	18.08%	4.17%	9.61%	6.94%
Policy Benchmark Returns <sup>2</sup>	18.16%	4.25%	9.66%	6.96%

<sup>1</sup> Annual Rates of Return—The Defined Contribution portfolio return is the result of the returns generated by defined contribution investments based on a combination of time-weighted and market value-weighted calculations. The defined contribution plans began in 2003; thus, 30-year return information does not exist.

<sup>2</sup>The Defined Contribution portfolio transitioned to new investment funds and share classes in 2022; thus, the Rolling 3-Yr, Rolling 5-Yr, and Rolling 10-Yr return information reflects a time-weighted, blended return of current and historical fund performance.

Investment returns for the Defined Contribution portfolio underlying asset class composites and the respective benchmarks are shown below:

Schedule of Investment Results <sup>1</sup> (for the year ended December 31, 2023)		Defined Contribution Portfolio

**Footnotes for Schedule of Investment Results—Defined Contribution Portfolio**

The footnotes below provide definitions for the asset class composite benchmark indices as of December 31, 2023:

- <sup>1</sup> **Schedule of Investment Results**—The Defined Contribution portfolio transitioned to new investment funds and share classes through a different provider in March 2022; thus, the Rolling 3-Year, and Rolling 5-Year return information reflects a time-weighted, blended return of current provider fund performance from March 2022 through December 2023 and historical fund performance in similar funds prior to March 2022.
- <sup>2</sup> **LifePath Index Custom Benchmark**—The LifePath Index Funds' Custom Benchmarks are comparison benchmarks for the performance of the Funds. The Custom Benchmarks are calculated using blended returns of third-party indices that proportionally reflect the respective weightings of the Funds' asset classes. The third-party index proportions of the Custom Benchmarks are adjusted quarterly to reflect the Funds' changing asset allocations over time. As the Funds' asset classes have been re-defined or added over time, the indices used to calculate the Custom Benchmarks have changed accordingly. The indices used to calculate the Custom Benchmarks are: Russell 1000 Index, Russell 2000 Index, MSCI ACWI ex-US IMI Net Dividend Return Index, Bloomberg U.S. Long Credit Bond Index, Bloomberg U.S. Intermediate Credit Bond Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg U.S. Securitized: MBS, ABS and CMBS Index, Bloomberg U.S. Treasury Inflation Protected Securities (TIPS) Index (Series-L), FTSE EPRA Nareit Developed Index, and the Bloomberg Commodity Index Total Return.
- <sup>3</sup> **ICE Bank of America Merrill Lynch (BofAML) U.S. 3-Month Treasury Bill Index**—The three-month Treasury Bill return as measured by Bank of America Merrill Lynch.
- <sup>4</sup> **Bloomberg U.S. Aggregate Bond Index**—A market capitalization-weighted bond index consisting of Bloomberg corporate, government, mortgage-backed, and asset-backed securities. This index is the broadest available measure of the aggregate U.S. fixed income market.
- <sup>5</sup> **Russell 3000 Index**—A market capitalization-weighted stock index consisting of the 3,000 largest publicly traded U.S. stocks by capitalization. This index is a broad measure of the performance of the aggregate domestic equity market.
- <sup>6</sup> **Russell 1000 Index**—A market capitalization-weighted stock index consisting of the 1,000 largest companies in the Russell 3000 Index, which represents approximately 92% of the total market capitalization of the Russell 3000 Index.
- <sup>7</sup> **Russell 2000 Index**—A market capitalization-weighted stock index consisting of the 2,000 smallest companies in the Russell 3000 Index, which represents approximately 8% of the total market capitalization of the Russell 3000 Index.
- <sup>8</sup> **MSCI All Country World ex USA Net Dividend Return Index**—A market capitalization-weighted stock index representing 45 developed and emerging country markets, excluding the U.S. market.

The largest direct investments in the state of Ohio, measured at the fair value of OPERS' investment in the securities of firms headquartered in Ohio, totaled approximately \$0.5 billion at the end of the year.

The largest indirect investments, measured at the fair value of OPERS' investment in the securities of companies with the largest employment presence in the state, totaled approximately \$1.6 billion. Employment presence is measured by the number of employees at a business located in Ohio, as defined in the most current Ohio Major Employers Report issued by the Office of Strategic Research, Ohio Department of Development. Firms with the largest employment presence in Ohio in which OPERS held investments at the end of 2023 employed more than 249,000 people as of December 31, 2022, the most recent information available.

Top Ohio Holdings (as of December 31, 2023)

## Investment Objectives and Policies

The investment and fiduciary responsibilities of the Board are governed by Ohio Revised Code (ORC) 145.11, the requirements of the *OPERS Code of Ethics and Personal Trading Policy* and applicable state statutes. The Board discharges its duties solely in the interest of participants and beneficiaries, for the exclusive purpose of providing benefits and defraying reasonable administrative expenses. Prudent Person standards apply.

The Board reviews all policies and approves changes or additions as appropriate. The Investment staff fulfills the mandates and obligations described in the policies and recommends changes to the Board, as appropriate. The following policies reflect those in place for the 2023 fiscal year.

The OPERS Board manages the assets in a fashion that reflects OPERS' unique liabilities, funding resources and portfolio size, by incorporating accepted investment theory and reliable, empirical evidence. The Board ensures adequate risk control of the portfolios through diversification, adhering to portfolio guidelines, providing risk budgeting, adhering to compliance and ongoing monitoring.

The purpose of the OPERS policies is to provide a broad strategic framework for managing portfolios. Approved Board asset class policies are summarized beginning on page 119 and are posted on the OPERS website, OPERS.org, where they can be viewed in their entirety.

*Note: Policies have been adapted to meet plain-language standards of the OPERS Annual Comprehensive Financial Report and provide an overview. Complete policy information, with exact verbiage approved by the Board, is available on OPERS.org.*

## Rebalancing

Markets are dynamic and portfolios must be reviewed regularly to ensure holdings remain within their strategic asset allocations. To ensure conformance with the asset allocation policies, the portfolios are reviewed daily for compliance within the target asset allocation percentages, specified by portfolio, reasonable costs, and best interest of OPERS.

The Board establishes and reviews asset allocation targets, ranges and investment policies against capital market expectations, the investment landscape, and an annual actuarial assessment by the actuarial consultant. A comprehensive strategic asset allocation review is completed approximately every three-to-five years or if market conditions change substantially. This review helps to assess the continuing appropriateness of the asset allocation policy. Additionally, the review may also include a study of portfolio design and comparisons with peers.

## Defined Benefit Investment Policies

### Investment Objective

The primary objective of the Defined Benefit portfolio is to secure statutory benefits provided by OPERS and to keep OPERS costs reasonable for employees and employers.

### Asset Allocation and Performance Objectives

The Board's asset allocation policy establishes a framework designed to achieve the OPERS long-term investment objectives. The Defined Benefit portfolio performance objectives are to exceed the OPERS performance benchmark, net of investment expenses over five-year periods, and exceed the actuarial interest rate, currently 6.9%, over the long term.

The Board sets target allocations to various asset classes designed to meet the OPERS long-term investment objectives. Allocations for the Public Equity and Fixed Income asset classes are 43% and 22%, respectively, with the remaining 33% and 2% allocated to Alternatives (Private Equity, Real Estate, Private Credit, REITs, Commodities, and Opportunistic) and Risk Parity, respectively. The Board also establishes a band of minimum and maximum allowable allocations, or ranges, surrounding each asset class target. The purpose of ranges is to appropriately and cost-effectively balance the Board's investment policy with the investment strategies pursued over shorter time-periods. The table on the next page lists the Defined Benefit portfolio target allocations, ranges and performance benchmarks for each asset class.

Defined Benefit Asset Allocation			
Asset Class	Target Allocation	Range	Benchmark Index
<b>Public Equity</b>	<b>43.0%</b>	<b>34 to 52%</b>	
U.S. Equity	Custom Allocation <sup>1</sup>	+/- 5%	Russell 3000 Index

<b>Total</b>	<b>100.0%</b>		

<sup>1</sup> The custom allocation is set to the fixed U.S. Equity and Non-U.S. Equity target weights.

## Health Care Investment Policies

### Investment Objective

The primary objective of the Health Care portfolio is to provide funding for discretionary health care for eligible members. The assets of the Health Care portfolio are invested with the objectives of:

a) preservation of capital, b) earning a reasonable return, and c) liquidity.

### Asset Allocation and Performance Objectives

The approved asset allocation policy establishes a framework designed to achieve the long-term investment objective. The Health Care portfolio performance objective is to exceed the performance benchmark net of investment expenses. The table below sets forth targets, ranges and performance benchmarks for each asset class.

Health Care Asset Allocation			
Asset Class	Target Allocation	Range	Benchmark Index
<b>Public Equity</b>	<b>51.0%</b>	<b>41 to 61%</b>	
U.S. Equity	Custom Allocation <sup>1</sup>	+/- 5%	Russell 3000 Index

<b>Risk Parity</b>	<b>2.0%</b>	<b>0 to 5%</b>	Market value weight of underlying portfolio benchmarks
<b>Operating Cash</b>	<b>0.0%</b>	<b>0 to 5%</b>	N/A
<b>Total</b>	<b>100.0%</b>		

<sup>1</sup> The custom allocation is set to the fixed U.S. Equity and Non-U.S. Equity target weights.

## Defined Contribution Investment Policies

### Investment Objective

The Defined Contribution portfolio investment options are intended to be primary retirement savings vehicles for members. The long-term objectives of the Defined Contribution portfolio are to support defined contribution plan members in having independent control over their OPERS retirement assets, while providing a suitable framework to invest their assets over the long-term.

### Asset Allocation

The asset allocation and diversification objective is based on three components: target date funds, standalone funds and the self-directed brokerage account that offers members in the defined contribution plans (the Member-Directed Plan and the Combined Plan) diversified investment options. The default investment option for defined contribution plan members who fail to make a selection is the target date fund that most closely corresponds to the member's current age, assuming a payout at age 65.

#### • Target Date Funds

Target Date Funds is a passive program that links a defined contribution member's investment portfolio to a particular time horizon, typically an expected retirement date. A target date fund with a corresponding target date in the distant future will have an allocation tilted more toward equities and other higher risk/higher reward asset classes to enhance the opportunity to accumulate capital. As target date funds move toward their target payout dates, allocations to such assets are reduced to better preserve accumulated capital, while simultaneously increasing allocation to fixed income and cash. These transitions, called glide paths, are accomplished by assigning each target date fund an asset class investment allocation and an asset class range surrounding such targets.

#### • Standalone Funds

Standalone Funds offer members in the defined contribution plans low cost, primarily passive, asset class specific investment funds. Those funds, and their respective indices, are as follows:

Standalone Fund	Market Index
Invesco Stable Value Trust - Class B1	ICE BofAML U.S. 3-Month Treasury Bill Index <sup>1</sup>
U.S. Debt Index Fund M	Bloomberg U.S. Aggregate Bond Index
BlackRock Russell 3000 Index Fund J	Russell 3000 Index
BlackRock Russell 1000 Index Fund J	Russell 1000 Index
BlackRock Russell 2000 Index Fund J	Russell 2000 Index
BlackRock MSCI ACWI ex-US Index Fund J	MSCI ACWI ex USA Net Dividend Return Index

<sup>1</sup>The stable value fund is managed actively. Its primary objective is to preserve the value of principal. Its secondary objective is to exceed the long-term return of the ICE Bank of America Merrill Lynch 3-Month U.S. Treasury Bill Index. A typical stable value fund return fluctuates less than 1% a year; therefore, neither the short-term returns nor volatility of the stable value fund is consistent with market value instruments such as those in the custom index.

- **Self-Directed Brokerage Account**

The self-directed brokerage account option provides defined contribution members more flexibility in choosing their own retirement savings investments by allowing them to invest in a variety of active and passive mutual funds, and exchange-traded funds (ETF). The program parameters are the following:

- Only designated mutual funds and ETFs can be purchased through the window.
- Maximum of 90% of a member's portfolio is allowed to be invested through the brokerage window. (The plan will not rebalance the brokerage investments should they grow to exceed 90% of participant's assets.)
- Account minimum of \$5,000 is required before a participant can use the window.
- The annual cost of the window is borne by the participant using the window.

**Performance Objectives and Risk Management**

The performance objective for the target date funds is to meet the return of the respective performance benchmarks. The performance benchmarks are a custom index comprised of market indices for the component funds weighted in accordance with the target date fund target allocations as calculated by the external manager of the fund. The performance objective for the standalone funds is to meet the return of respective performance benchmarks, gross of external investment manager fees. There is no plan-level performance objective for the self-directed brokerage account because the mutual funds and ETFs purchased through it are selected by members.

Defined contribution fund investment options offer diversification to minimize the impact of loss from individual positions. In addition to diversification, the program is passively managed for the target date funds and standalone funds. The self-directed brokerage account offers participants a broad range of mutual fund and ETF choices that are self-selected and subject to the program parameters.

## Cash

Cash management seeks to preserve principal, provide liquidity and exceed its target benchmark, net of fees. This program actively invests cash and lending cash collateral relative to the target benchmarks for each portfolio. Interest rate, credit and liquidity risk are managed with quantitative and qualitative constraints.

## Commodities

Commodity investments provide exposure to global commodities and achieve returns comparable to or in excess of the benchmark return, net of fees. Commodity portfolios are governed by guidelines that establish management parameters to achieve competitive commodity-based returns. Commodity investments may include commodities not specified in the Bloomberg Commodity Index Total Return at the time of purchase.

## Derivatives

Derivative instruments are used periodically to mitigate risk and to smooth trading efficiencies so that the risk/return profile of individual securities or portfolios are better managed. Derivative instruments may be used to enhance returns and reduce risk by managing or hedging exposure including, but not limited to stock markets, commodities and currencies.

Derivative instruments are grouped into three categories:

- **Category I:** Securities-based and traded either via an exchange or over-the-counter transactions.
- **Category II:** Non-securities-based, exchange-traded and cleared through a clearinghouse.
- **Category III:** Non-securities-based, over-the-counter instruments customized with a counterparty and not cleared through a clearinghouse.

To manage overall fund liquidity and to balance the use of derivative instruments and physical securities, limits have been established:

- Use of Category III derivative instruments are limited to 10% of the total net asset value of public market assets held in separate accounts, excluding foreign exchange derivative instruments used for hedging. (Additional portfolio-level restrictions may apply.)
- The combined gross notional exposure of Category II and Category III derivative instruments will not exceed 30% of total net asset value, excluding foreign exchange derivative instruments used for hedging. (Additional portfolio-level restrictions may apply.)
- Currency forwards are one year or less to maturity, unless approved by the chief investment officer.

## Fixed Income

A broad exposure to fixed-income asset classes to ensure diversification and provide a competitive return is the overriding goal. In doing so, OPERS is better positioned to provide for the known liabilities associated with the defined benefit plan and the health care trust. Diversification is established via activity in a variety of sub-asset classes including market debt, investment grade credit, securities debt, Treasury inflation-protected securities (TIPS), high yield and U.S. Treasuries.

Both active and passive management strategies are used by internal and external portfolio managers. Internal managers position the majority of the fixed income portfolio with risk-controlled active strategies, focusing on investment-grade securities and managing the TIPS and U.S. Treasury allocations as indices. External managers, with special expertise, manage the high yield and emerging debt investments.

## Opportunistic

Investments in the Opportunistic sub-asset class include investment strategies or assets not currently used or employed to the level desired in the respective Defined Benefit or Health Care portfolios, but which have the potential to improve investment results over time. Assets and strategies used must have the potential to be mainstreamed into the investment program over time, or be opportunistic-based on either valuation or circumstances.

Every strategy within the Opportunistic sub-asset class has a specific performance benchmark. The overall benchmark is the market value weight of the underlying benchmarks. Long-term returns should match or exceed the OPERS Total Fund benchmark, which is a measure of the cost of investing in this category.

The primary risk control mechanisms are the limited size of the opportunistic allocation and the limits on the size of single assets and strategies. No single investment strategy or portfolio assigned to the same benchmark within the Opportunistic sub-asset class may exceed 1% of the sum of the Defined Benefit or Health Care portfolio assets at the time of funding.

Performance is benchmarked against a market value-weighted index of two underlying portfolio benchmarks, the Russell 2000 Index and the Bloomberg Gold Subindex Total Return.

## Private Credit

The new private credit program invests with external managers to obtain exposure to higher risk adjusted returns than that available through the public fixed income markets by investing in non-publicly traded debt. The program can be comprised of various private credit strategies that may include direct lending, subordinated capital, structured credit, stressed or distressed debt, and specialty finance.

A summary of the long-term guidelines are as follows:

- Total holdings outside the U.S. are limited to no more than 30% of the private credit net asset value.
- Single commingled fund commitment is limited to \$500 million.
- Single fund of one commitment is limited to \$800 million.
- Single co-investment fund commitment is limited to \$200 million.

Additional specific quantitative and qualitative constraints govern the program. Performance is benchmarked against the Credit Suisse Leveraged Loan Index.

## Private Equity

Private equity seeks competitive returns plus a liquidity premium by investing with managers who have a consistent record of producing superior returns. Not publicly traded, this sub-asset class provides access to opportunities that may be long term.

Exclusively using external managers who employ active management strategies, private equity adds diversification to the Defined Benefit portfolio. Risk is managed by limiting the commitment amount of single, closed-end commingled funds to \$600 million for primary funds and to \$800 million for fund of funds, including secondary fund of funds. Additional specific quantitative and qualitative constraints govern the program.

Performance is benchmarked against the State Street Private Equity Index (SSPEI).

## Private Real Estate

The private market real estate program uses active management strategies implemented through external managers. Single managers are limited to no more than 20% of the program. A summary of the long-term guidelines are as follows:

- Holdings outside the U.S. are limited to no more than 25% of the real estate portfolio net asset value.
- Single property investments are limited to \$500 million.
- Single closed-end commingled funds are limited to \$750 million.
- Single open-end commingled funds are limited to \$1 billion.

Additional specific quantitative and qualitative constraints govern the program. The OPERS private market real estate program performance is monitored, or benchmarked, using the National Council of Real Estate Investment Fiduciaries (NCREIF) Fund Index - Open End Diversified Core Equity (ODCE). This asset class is expected to meet or exceed the net ODCE plus 85 basis points, over rolling five-year periods.

## Public Equities (domestic and international stocks)

With both active (active trades) and passive (indexed funds) components, this program provides broad exposure to global, publicly traded, stock markets. The active management of the program is structured to allow managers to identify and capture opportunities.

Both active and passive components are designed to produce risk-adjusted return, net of fees, that exceeds benchmarks over a complete market cycle—at all times conducting business within pre-established risk constraints.

This program is monitored using a tracking error range—tracking error is a statistical variance measurement that shows the degree to which OPERS returns differ from industry returns:

Asset Class	Benchmark	Tracking Error Range
U.S. Equity	Russell 3000 Index	0-100 basis points
Non-U.S. Equity	Custom benchmark of the following indices: 55% MSCI World Index ex U.S. Standard 10% MSCI World Index ex U.S. Small Cap 31% MSCI Emerging Markets Standard Index 4% MSCI Emerging Markets Small Cap Index	0-300 basis points

## Real Estate Investment Trusts

The public market real estate investment trusts (REITs) sub-asset class is comprised of instruments intended to add diversification to the portfolio. The instruments may be exchange-traded or non-exchange-traded and may be physical securities or derivatives.

The overall sub-asset class is expected to produce risk-adjusted returns similar to that of the Dow Jones U.S. Select Real Estate Securities Index (RESI) by using active and index management strategies with both internal and external managers. Single external managers are limited to no more than 30% of the sub-asset class.

The risk factors of REIT investments are mitigated through quantitative and qualitative management including defined tracking error ranges for specific portfolios and single company allocation limits. Additional security type constraints may be applied in the investment manager portfolio guidelines.

## Risk Parity

Risk Parity is an alternative allocation of assets designed to achieve a better balance of economic outcomes in growth and inflation environments. This requires investing in multiple asset types and leveraging exposures to global markets in order to obtain the desired risk exposure. The Risk Parity allocation is structured to achieve roughly balanced risk exposure across equities, nominal fixed income, and inflation-sensitive assets, targeting a total volatility level comparable to that of the Defined Benefit and Health Care portfolios.

Exposure can be obtained through externally and internally managed approaches. The benchmark is the market value-weighted index of the underlying portfolio benchmarks, which includes the HFR Risk Parity Institutional Custom Index and the S&P Risk Parity Index - 10% Target Volatility. The Board sets performance expectations through approval of the *Annual Investment Plan*. By allocating to multiple Risk Parity managers, concentration to any one manager is limited.

## Securities Lending

The Securities Lending program actively lends securities through various programs to qualified borrowers to provide incremental income to the respective asset classes. Performance of the securities lending program is assessed annually.

Cash reinvestment risk and counterparty risk are managed through a combination of quantitative and qualitative constraints. Excess collateral, marked-to-market daily, is held for each loan with a minimum amount of 102% for domestic securities and 105% for international securities. The maximum percentage of assets that may be on loan is 50% of the eligible assets while the maximum amount that may be on loan with any one borrower is 15% of the eligible assets.

## Investment Rates by Portfolio—Defined Benefit and Health Care

OPERS uses several rates to evaluate the results of the investment portfolios. Actual and benchmark returns for the years listed can be found in this section. The expected rate of return is based on the asset allocation in place during the year presented and the actuarial assumed rate of return is the assumption used for the annual actuarial valuations, described further in the Actuarial Section. Finally, the single discount and long-term municipal bond rates reflect the requirements of Governmental Accounting Standards Board Statement No. 74. These rates are used in the Accounting Basis valuations for health care and are not available prior to 2016.

Rates are presented for ten years in the following table:

Investment Rates by Portfolio										
	2023	2022	2021	2020	2019	2018	2017	2016	2015	2014
<b>Defined Benefit Portfolio</b>										
Actual Rate of Return	11.26%	(12.03%) <sup>a</sup>	15.34%	12.02%	17.23%	(2.99%)	16.82%	8.31%	0.33%	6.96%
Benchmark Return	10.46	(11.44)	15.28	11.65	17.06	(3.07)	15.19	8.64	0.25	5.81
Long-Term Expected Rate of Return	7.87	7.87	6.81	6.90	8.00	8.00	8.00	8.00	8.00	8.00
Actuarial Assumed Rate of Return	6.90	6.90	6.90	7.20	7.20	7.20	7.50	7.50	8.00	8.00
<b>Health Care Portfolio<sup>1</sup></b>										
Actual Rate of Return	13.97%	(15.51%)	14.34%	10.96%	19.59%	(5.76%)	15.25%	7.55%	(2.18%)	5.28%
Benchmark Return	13.65	(15.56)	13.76	10.13	19.20	(5.96)	14.31	7.75	(1.88)	5.01
Long-Term Expected Rate of Return	7.27	7.27	6.05	6.31	6.50	6.50	6.50	6.50	6.50	6.50
Actuarial Assumed Rate of Return	6.00	6.00	6.00	6.00	6.00	6.00	6.50	5.00	5.00	5.00
Single Discount Rate (GASB 74) <sup>2</sup>	5.70	5.22	6.00	6.00	3.16	3.96	3.85	4.23	N/A	N/A
Long-Term Municipal Bond Rate <sup>2</sup>	3.77	4.05	1.84	2.00	2.75	3.71	3.31	3.78	N/A	N/A

<sup>a</sup> Performance was reduced by 0.94% in 2022 because of a change in the methodology used for cash distributions from private equity and real estate funds.

<sup>1</sup> In 2016, the 401(h) Health Care Trust closed and assets were transferred to the 115 Health Care Trust. The 2016 partial year results for both portfolios can be found in this section, reflecting six month returns for the 401(h) Health Care Trust. For 2016, this chart displays the combined health care rates as disclosed in this section. For previous years, the rates represent the 401(h) Health Care Trust, as the majority of the health care assets resided in this trust until transferred to the 115 Health Care Trust.

<sup>2</sup> Projected benefit payments are required to be discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on other post-employment benefits (OPEB) plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Additional information on the Single Discount Rate can be found in Note 6 of the Notes to Combining Financial Statements found in the Financial Section.

The following exhibit illustrates the structure and relationship of the 29 investment policies within the total System and its three investment portfolios in 2023.

## As the world changes, so must pensions

Actuaries apply mathematical and statistical approaches to assess the level of risk for pension systems (and other industries and professions) to meet their commitments. Simply put, actuaries help provide definition around matters of uncertainty so that organizations, such as OPERS, can anticipate and plan for areas of uncertainty to ensure stability. This includes developing assumptions about how long members may work, how long they will live in retirement, what level of pay increases members will receive through their working career, and many other assumptions supported by historical data.

As the world of retirement changes, OPERS needs the parameters supplied by actuaries to help ensure we meet our commitments. The rise in the retiree population as well as the longevity of retirees was anticipated by OPERS' actuaries. As a result, OPERS was able to make incremental changes to help ensure the stability of this organization and, therefore, help ensure the financial stability of our members—current and future.

### Always forward-looking

It's anticipated the retiree evolution will continue. In the U.S., a record-breaking number of Americans will be turning 65, a traditional retirement age, through 2027. These youngster retirees, known as the silver tsunami, anticipate—and have worked for—many years in retirement.

At OPERS, with the expertise of professional actuaries, we proactively evaluate our membership data and monitor trends—only then can we anticipate and plan for necessary changes to help ensure we meet our commitment of a secure financial retirement for members.

OPERS has a strong history of forecasting future retirements and analyzing the impact on our funding. OPERS has been and will continue to monitor the impact of the surge in retirements as it may impact funding needs. Only by proactively planning for these changes within the retirement population can our continued financial stability—and that of our members—be assured.

Retirement Board  
Ohio Public Employees Retirement System  
277 East Town Street  
Columbus, Ohio 43215

Dear Board Members:

The basic financial objective of the defined benefit pension portion of the Ohio Public Employees Retirement System (OPERS) is to establish and receive contributions which:

- When expressed in terms of percents of active member payroll will remain approximately level from generation to generation; and
- When combined with present assets and future investment return will be sufficient to meet the financial obligations of OPERS to present and future retirees and beneficiaries.

This financial objective is addressed within the annual actuarial funding valuation of the defined benefit pension portion of OPERS. The purposes of the funding valuation are as follows:

- Measure the financial position of OPERS;
- Assist the Board in establishing employer and employee contribution rates subject to statutory limits;
- Assist the Board in establishing the employer contribution rate allocation between pension and retiree health;
- Determine the number of years required to amortize the unfunded actuarial accrued liabilities based upon established contribution rates;
- Provide actuarial reporting disclosure information for the System's financial report; and
- Analyze experience of the System over the past year.

The most recent funding valuation was completed based upon population data, asset data, and plan provisions as of December 31, 2023. A report containing the results of the funding valuation is produced annually, in some cases due to timing issues, after the publication of the Annual Comprehensive Financial Report.

In addition to the funding valuation report for the defined benefit pension plan, separate reports are issued to provide financial reporting information for OPERS in accordance with Governmental Accounting Standards Board (GASB) Statement Nos. 67 and 68 (pension benefits) and Nos. 74 and 75 (retiree health benefits, or OPEB). Reports containing the actuarial results of the financial reporting valuations are produced annually, in some cases, after the publication of the Annual Comprehensive Financial Report. Financial reporting information has been produced based upon a measurement date of December 31, 2023 for GASB Statement Nos. 67 and 68 and December 31, 2023 for GASB Statement Nos. 74 and 75.

 Page 2

The following schedules in the Financial Section and Actuarial Section of the Annual Comprehensive Financial Report were prepared based upon certain information presented in the previously mentioned funding and financial reporting valuation reports:

**Financial Section**

- Net Pension Liability/(Asset)
- Key Methods and Assumptions Used in Valuation of Total Pension Liability/(Asset)
- Sensitivity of Net Pension Liability/(Asset) to Changes in the Discount Rate
- Net OPEB Liability/(Asset)
- Key Methods and Assumptions Used in Valuation of Total OPEB Liability/(Asset)
- Sensitivity of Net OPEB Liability/(Asset) to Changes in the Discount Rate
- Sensitivity of Net OPEB Liability/(Asset) to Changes in the Health Care Cost Trend Rate
- Schedule of Changes in Net Pension Liability/(Asset) and Related Ratios
- Schedules of Member and Employer Contributions
- Schedule of Changes in Net OPEB Liability/(Asset) and Related Ratios

**Actuarial Section**

- Summary of Assumptions
- Schedules of Average Defined Benefits Paid
- Actuarial Valuation Data – Pension
- Schedules of Funding Progress
- Short-Term Solvency Test
- Analysis of Financial Experience

The individual member statistical data required for the valuations was furnished by OPERS, together with pertinent data on financial operations. The cooperation of OPERS in furnishing these materials is acknowledged with appreciation. We checked for internal and year-to-year consistency, but did not audit the data. We are not responsible for the accuracy or completeness of the data. Assets are valued on a market related basis that recognizes each year’s difference between actual and assumed investment return over a closed four-year period. Beginning with the December 31, 2023 defined benefit pension plan funding valuation, assets are valued on a market basis for the defined benefit portion of the Member-Directed Plan. For determining the Net Pension Liability/(Asset) under GASB Statement No. 67, assets are valued on a market basis. The long-term assumed rate of investment return on pension fund assets is 6.90%. Based upon the results of a projection performed in accordance with GASB Statement No. 67 parameters, the Single Discount Rate for purposes of discounting pension liabilities for pension financial reporting purposes is also 6.90%. For determining the Net OPEB Liability/(Asset) under GASB Statement No. 74, assets are valued on a market basis. The long-term assumed rate of investment return on Health Care fund assets is 6.00%. Based upon the results of a projection performed in accordance with GASB Statement No. 74 parameters, the Single Discount Rate for purposes of discounting Health Care liabilities for OPEB financial reporting purposes is 5.70%.

Retirement Board  
Ohio Public Employees Retirement System  
May 2, 2024  
Page 3

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board adopted the actuarial assumptions after considering the advice of the actuary and other professionals. The assumptions and methods used for funding and financial reporting purposes are in conformity with the Actuarial Standards of Practice issued by the Actuarial Standards Board. They are also in conformity with the Board's funding policy. The December 31, 2023 valuations were based upon assumptions that were recommended in connection with an Experience Study covering the 2016-2020 period.

The computed pension amortization period as of the December 31, 2023 annual valuation is 15 years and the System is 84% funded with respect to pension benefits, based upon the actuarial accrued liability and the funding value of assets.

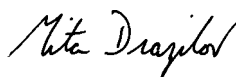

Based upon the results of the December 31, 2023 valuations, we are pleased to report to the Board that the Ohio Public Employees Retirement System is meeting its basic financial objective and continues to operate in accordance with the actuarial principles of level percent of payroll financing.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law.

Readers desiring a more complete understanding of the actuarial condition of OPERS are encouraged to obtain and read the complete valuation reports. The Actuarial and Financial Sections of this Annual Comprehensive Financial Report contain some, but not all of, the information in the valuation reports.

Mita D. Drazilov, James R. Sparks and Jeffrey T. Tebeau are Members of the American Academy of Actuaries (MAAA), are independent of the plan sponsor and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

Jeffrey T. Tebeau, FSA, EA, FCA, MAAA

MDD/JRS/JTT:rmn

The defined benefit pension and health care actuarial information presented in this *2023 Annual Comprehensive Financial Report* (annual report) is based on the most current actuarial valuations for the System. This section presents actuarial information for pension and health care on a Funding Basis. The pension funding valuation results are valued and presented as of December 31, 2023; the health care funding valuation results are valued and presented as of December 31, 2022, based on the most recent data available. The pension actuarial assumptions are applicable to 2023. The health care actuarial assumptions are applicable to 2022, unless otherwise noted. In conjunction with Governmental Accounting Standards Board (GASB) Statement No. 67 (GASB 67), *Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25*, OPERS is reporting actuarial results of pensions as of the December 31, 2023 valuation date in the Financial Section of the annual report on a financial reporting basis, or Accounting Basis. Also, in conjunction with GASB Statement No. 74 (GASB 74), *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* (or OPEB), OPERS is reporting actuarial results of health care as of the December 31, 2022 valuation date, rolled forward to the measurement date of December 31, 2023, in the Financial Section of the annual report on a financial reporting basis, or Accounting Basis.

The Accounting Basis calculation methodologies defined by GASB 67 and 74 require different methods and may require different assumptions than are used to calculate the funded status of a plan. Both GASB 67 and 74 require the use of the fair value of assets, instead of the smoothed value of assets used for the Funding Basis. Both GASB 67 and 74 require that the actuarial information presented under the Accounting Basis represent the most current year-end or measurement period. Therefore, the GASB 67 net pension liability/(asset) and the GASB 74 net OPEB, or health care, liability/(asset) results will differ from the unfunded actuarial accrued liability results provided in the Schedules of Funding Progress included in this section, beginning on page 141. These changes affect the accounting information disclosed in the Notes to Combining Financial Statements and Required Supplementary Information, both included in the Financial Section. However, the changes do not impact the actuarial methods and assumptions used by OPERS to determine the contributions needed to fund the plans. The assumptions disclosed in this section were used for both funding and financial reporting valuations, unless otherwise noted.

OPERS is administered in accordance with Chapter 145 of the Ohio Revised Code (ORC), which assigns authority to the OPERS Board of Trustees to amend the funding policy. OPERS conducts an experience study every five years in accordance with ORC Section 145.22 with the most recent experience study performed in 2021 for the period 2016-2020. In addition to the experience studies, conditions are monitored and assumptions are reviewed annually to ensure the assumptions remain reasonable until the next scheduled experience study. If conditions change materially, it may become necessary to review and update assumptions in advance of the next scheduled experience study.

These methods and assumptions apply to the pension plans (Traditional Pension Plan, Combined Plan, and Member-Directed Plan), as well as health care.

Pension plan and health care details can be found in the Plan Statement beginning on page 209.

## Valuation Data

The demographic and financial data used in the actuarial valuations were provided to the actuary by OPERS. The actuary examined the data for general reasonableness and year-to-year consistency, but did not audit the information.

## Funding Method

The individual entry-age actuarial-cost method of valuation was used in determining pension and health care liabilities and normal costs under both of the funding valuations included in this section, as well as the financial reporting valuations done under GASB 67 and 74 included in the Financial Section. Differences between assumed and actual experience (actuarial gains and losses) become part of actuarial accrued liabilities. For funding valuation purposes, unfunded actuarial accrued liabilities are amortized to produce payments (principal and interest), which are a level percent of payroll contributions.

## Asset Valuation Method

For actuarial purposes, and under the Funding Basis, the funding value of defined benefit pension and health care assets recognizes total assumed investment returns each year. Differences between actual and assumed investment returns are phased in over a closed four-year period. The funding value is not permitted to deviate from market value by more than 12%.

## Economic Assumptions

The following economic assumptions were used by the actuary in the pension and healthcare valuations, as noted:

- **Investment Return**—For pension, 6.90% compounded annually, net of administrative expenses. For health care, 6.00% compounded annually, net of administrative expenses.
- **Wage Inflation Rate**—Calculated at 2.75% per year. Wage inflation is defined to be the portion of total pay increases for an individual due to macroeconomic forces including productivity, price inflation, and labor market conditions. The wage-inflation rate does not include the effects of pay changes related to individual merit and seniority.
- **Price Inflation**—Of the investment return rate and wage inflation rate, 2.35% is assumed to be price inflation.
- **Assumed Real Rate of Return Over Wage Inflation**—For pension, 4.15% per year. For health care, 3.25% per year. The assumed real rate of return for the Funding Basis is defined as the portion of the pension and the health care investment return, 6.90% and 6.00%, respectively, that is more than the assumed total wage growth rate of 2.75%. Refer to the Notes to Combining Financial Statements, Note 6, in the Financial Section for more information on the Single Discount Rate used for the Accounting Basis calculations of the health care liability.
- **Active Member Population**—For pension, the sum of the active members in the Traditional Pension Plan and Combined Plan is assumed to remain constant. For purposes of financing the unfunded actuarial accrued liabilities, total payroll is assumed to grow at the wage-inflation rate of 2.75% per year.
- **Health Care Payments**—The health reimbursement arrangement (HRA) account allowances for eligible retirees were assumed to remain level through 2025, then increase by 3.00% annually thereafter. This long-term assumption will be reduced beginning with the 2023 valuation. For projection and valuation purposes, HRA and retiree medical accounts (RMA), including Member-Directed Plan health care and wellness RMA accounts, are assumed to be allocated to the members and cannot be used in the future to fund other retiree health care expenses.
- **Individual Member Pay Increases**—An active member's pay is assumed to increase each year, in accordance with an age-based table. Part of the assumed increase was for merit and/or seniority increases, and the balance recognizes the wage inflation rate. The following table on the next page describes annual increase percentages for sample ages.

Individual Member Pay Increases									
Age	Merit and Seniority				Wage Inflation	Total Increase Next Year			
	State	Local	Public Safety	Law		State	Local	Public Safety	Law
30	3.88%	3.88%	4.20%	4.20%	2.75%	6.63%	6.63%	6.95%	6.95%

Demographic Assumptions

- **Turnover**—Represents the probabilities of separation from OPERS-covered employment before age- and-service retirement because of employment termination (withdrawal from service), death, or disability. The separation probabilities are based on historical trends of OPERS actual experience, without consideration of the manner in which the members’ accounts are distributed.

Percent Separating Within Next Year—Withdrawal from Employment									
Sample Ages	Years of Service	Withdrawal

The turnover probabilities in the tables on the previous page estimate the number of active members who will separate from employment based on the criteria of age, gender, and years of service. These members may be eligible for a refund of their account or an annuity benefit, depending on the nature of the separation. Members eligible for an annuity benefit may be eligible to participate in one of the OPERS health care plans. The method of distribution and the resulting liabilities are calculated for this population based on the following assumptions:

- **Withdrawal from Service**—Assumes that members terminating with less than five years of service and a percentage of all other members will withdraw their contributions and forfeit their entitlement to an employer financed benefit. For State and Local Government members, the percentage withdrawing their contributions is 35% for ages at or below 48 and is reduced for each year of age after 48, becoming 0% at age 55. For Public Safety and Law Enforcement division members, the percentage withdrawing their contributions is 50% for ages at or below 40 and is reduced for each year after 40, becoming 0% at age 45.
- **Death-in-service and Disability Benefits**—Assumes that members with at least five years of service will elect to receive an annuity benefit. It is assumed that Combined Plan members will transfer to, and take a benefit from, the Traditional Pension Plan, unless a lump-sum distribution from the Combined Plan would have a greater value. It is assumed death-in-service members have two qualified survivor beneficiaries. Members eligible for an annuity may be eligible to participate in OPERS health care.
- **Mortality**—For pension and healthcare, pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.
- **Retirement**—Probabilities of age-and-service retirement applicable to members eligible to retire are as shown in the schedules on pages 133-137.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three pension groups with varying provisions of the law applicable to each group:

- **Transition Group A**—Members eligible to retire under law in effect prior to SB 343, or who were eligible to retire no later than five years after January 7, 2013.
- **Transition Group B**—Members who had earned at least 20 years of service credit prior to January 7, 2013, or who will be eligible to retire no later than 10 years after January 7, 2013.
- **Transition Group C**—Members who are not in either of the other groups, as well as members who were hired on or after January 7, 2013.

See the Plan Statement beginning on page 209 for additional information.

**Percent of Eligible Active Members Retiring Within Next Year**

**With Unreduced Age-and-Service Retirement Benefits**

Members may retire with no reduction in benefits if they have attained the following division specific years of service credit and minimum ages:

**Transition Group A**

- **State and Local**—30 years of service at any age; five years of service at age 65:
  - A service-based probability is used for members who attain 30 years of service prior to age 65;
  - An age-based probability is used for members who attain 30 years of service on or after age 65.
- **Public Safety**—25 years of service and attained the age of 52; 15 years of service at age 62.
- **Law Enforcement**—25 years of service and attained the age of 48; 15 years of service at age 62.

Years of Service	State		Local

Transition Group B

- **State and Local**—31 years of service at age 52; 32 years of service at any age; or five years of service at age 66:
  - A service-based probability is used for members who attain 32 years of service at any age;
  - An age-based probability is used for members who attain 32 years of service on or after age 66.
- **Public Safety**—25 years of service and attained the age of 54; 15 years of service and attained the age of 64.
- **Law Enforcement**—25 years of service and attained the age of 50; 15 years of service and attained the age of 64.

**Percent of Eligible Active Members Retiring Within Next Year**

**With Reduced Age-and-Service Retirement Benefits**

**Transition Group A**

Members in the State and Local divisions who have a minimum of 25 years of total service credit and who have attained age 55, and members with five years of service who have attained age 60 may retire with a reduced benefit. Members in the Public Safety and Law Enforcement divisions who have a minimum of 25 years of service and who have attained age 48, and members with 15 years of service and who have attained age 52 may also retire with a reduced benefit.

Age	State		Local		Public Safety
	Men	Women	Men	Women	
48-51	N/A	N/A	N/A	N/A	4.00%

**Schedules of Average Defined Benefits Paid**

The following tables display statistical information regarding the average defined pension benefits paid to retirees receiving an age-and-service, disability or survivor benefit. Additional benefits paid through the additional annuity and re-employed retiree programs, and annuities purchased from defined contribution accounts are excluded, as these benefits are not calculated under the defined benefit formula.

The following table displays information for OPERS retirees receiving benefits in each year presented, regardless of retirement date.

Average Defined Benefits Paid - All OPERS Retirees						All Plans
Year	Average Age at Retirement	Average Service at Retirement	Average Final Average Salary	Average Pension at Retirement	Average Age on Valuation Date	Average Pension on Valuation Date
2023	58.1	23.7	\$48,653	\$24,128	72.3	\$32,126
2022	58.1	23.6	47,664	23,590	71.9	31,172
2021	58.0	23.5	46,591	23,012	71.6	30,233
2020	58.0	23.4	45,397	22,422	71.4	29,505

## Actuarial Valuation Data—Pension

The following tables display the actuarial valuation data for the active and retired members of the Traditional Pension Plan, and the defined benefit component of the Combined Plan:

Actuarial Valuation Data			Traditional Pension Plan						
Valuation Year	Participating Employers <sup>1</sup>	Employer Units <sup>1</sup>	Active Members				Retired Lives		
			Number	Annual Payroll <sup>2</sup> (\$ millions)	Average Pay <sup>2</sup>	Percent Increase in Average Pay <sup>2</sup>	Number <sup>3</sup>	Annual Allowance (\$ millions)	Average Allowance
2023	3,219	3,680	292,190	\$16,082	\$55,040	2.95%	227,274	\$7,168	\$31,537
2022	3,220	3,689	281,966	15,075	53,464	5.32	227,048	6,947	30,597
2021	3,219	3,690	274,449	13,932	50,764	2.04	225,740	6,698	29,670
2020	3,222	3,695	271,345	13,499	49,748	5.12	222,577	6,448	28,972
2019	3,219	3,694	285,843	13,528	47,327	2.56	220,448	6,219	28,209
2018	3,221	3,693	284,808 <sup>a</sup>	13,143	46,147	11.95	218,226	5,986	27,431
2017	3,227	3,683	323,318	13,328	41,223	2.12	216,260	5,766	26,663
2016	3,232	3,678	323,179	13,046	40,368	3.17	213,550	5,527	25,882
2015	3,247	3,683	321,383	12,575	39,128	2.53	210,792	5,296	25,124
2014	3,251	3,692	322,318	12,300	38,161	3.41	208,395	5,085	24,401

<sup>a</sup> In 2018, the data aggregation methodology was modified for active and inactive member counts after system reconfigurations. No material impact to the actuarial valuations resulted.

<sup>1</sup> The number of employer units exceeds the number of reporting or participating employers as some employers report multiple divisions or agencies. The employer unit count also includes private-sector employers that have assumed privatized functions from public employers for indeterminate periods. The number of participating employers is included to comply with GASB 67 requirements for presentation of a primary government and its component units as one employer.

<sup>2</sup> The Annual Payroll, Average Pay and Percent Increase in Average Pay values in this table, for 2014 through 2016, were restated to reflect the annual covered payroll calculated under the Funding Basis. The annual covered payroll under the Funding Basis represents the annualized pay rate for all active Traditional Pension Plan members. The previous amounts reported were calculated under the Accounting Basis, which calculated annual covered payroll based on member contributions submitted within a given calendar year.

<sup>3</sup> The number of Retired Lives represents an individual count of retirees and primary beneficiaries.

Actuarial Valuation Data							Combined Plan		
Valuation Year	Participating Employers <sup>1</sup>	Employer Units <sup>1</sup>	Active Members				Retired Lives		
			Number	Annual Payroll <sup>2</sup> (\$ millions)	Average Pay <sup>2</sup>	Percent Increase in Average Pay <sup>2</sup>	Number <sup>3</sup>	Annual Allowance (\$ millions)	Average Allowance

The previous amounts reported were calculated under the Accounting Basis, which calculated annual covered payroll based on member contributions submitted within a given calendar year.

<sup>3</sup> The number of Retired Lives represents an individual count of retirees and primary beneficiaries.

Members of the Combined Plan and Member-Directed Plan may purchase a defined benefit annuity with the funds available in their defined contribution accounts. The following table displays the actuarial valuation data for these annuitized accounts:

Actuarial Valuation Data				Purchased Annuities		
Valuation Year	Member-Directed Plan <sup>1</sup>			Combined Plan <sup>1</sup>		
	Number <sup>2</sup>	Annual Allowance (\$ millions)	Average Allowance	Number <sup>2</sup>	Annual Allowance (\$ millions)	Average Allowance
2023	464	\$3	\$6,095	443	\$2	\$5,016
2022	423	3	5,928	400	2	4,700
2021	382	2	5,584	365	2	4,591
2020	331	2	5,337	314	1	4,314
2019	317	2	5,301	267	1	4,097
2018	280	1	4,948	230	1	3,840
2017	242	1	4,849	193	1	3,623
2016	219	1	4,593	159	1	3,618
2015	185	1	4,480	128	0	3,303
2014	155	1	4,305	101	0	3,257

<sup>1</sup> Plan inception January 1, 2003. Number of purchased annuities increasing as the population gradually becomes eligible for benefits.

<sup>2</sup> Number represents an individual count of retirees and beneficiaries.

## Retirees and Beneficiaries Added to and Removed from Rolls Actuarial Section

The following tables display the changes in the retiree population that occurred each year within the Traditional Pension Plan and the Combined Plan. The Annual Allowances in the Rolls at End of Year and the Average Annual Allowances represent the value of pension payments for the retiree population on the rolls at December 31, 2023.

The following statistics represent the number of retired members' accounts under which either the member or the members' beneficiaries are receiving defined formula benefits for age-and-service retirements, disability or survivor benefits. Annual Allowances include annual cost-of-living adjustments, but exclude other annuities such as money purchase or additional annuities.

Schedule of Retirees and Beneficiaries Added to and Removed from Rolls								Traditional Pension Plan	
Year Ended	Added to Rolls			Removed from Rolls		Rolls at End of Year		Percentage Increase in Annual Allowances	Average Annual Allowances
	Number	Average Age at Retirement <sup>1</sup>	Annual Allowances	Number	Annual Allowances	Number	Annual Allowances		
2023	6,919	62.9	\$234,405,160	6,792	\$153,872,600	218,222	\$7,117,325,738	3.1%	\$32,615

<sup>1</sup> Average age of new age-and-service retirees only, beginning in 2017. Information for prior years is unavailable.

<sup>2</sup> Plan inception January 1, 2003.

The following Schedules of Funding Progress include the Traditional Pension Plan, the defined benefit component of the Combined Plan, and the liabilities and assets associated with the annuitized defined contribution accounts for the Combined Plan and Member-Directed Plan. Members in the Combined Plan and Member-Directed Plan have the option of converting their defined contribution accounts to a defined benefit annuity at retirement. This section also includes the Schedules of Funding Progress for health care. Separate schedules are displayed for each pension plan and health care reflecting the funding status of the plans on a valuation, or funding, basis. See pages 182, 183 and 186 in the Statistical Section for the schedules of funding progress on an accounting, or financial, basis, for pension and health care, respectively. Separate schedules are included in the Required Supplementary Information of the Financial Section disclosing the 10-year schedule of actuarially determined contributions and actual contributions paid.

Schedule of Funding Progress—Funding Basis <sup>1</sup> (\$ in millions)							All Pension Plans
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities (UAAL)	Ratio of Assets to AAL	Active Member Payroll	UAAL as Percent of Active Member Payroll	Amortization Years
2023	\$125,473	\$105,133	\$20,340	83.8%	\$16,752	121%	15

2015 <sup>a</sup>	96,863	77,700	19,163	80.2	12,321	152	20
2015 <sup>b</sup>	91,535	77,700	13,835	84.9	12,321	110	19
2014	89,017	74,567	14,450	83.8	12,140	117	21

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Results after change in discount rate from 7.5% to 7.2%.

<sup>1</sup> The amounts reported on this schedule do not include assets or liabilities for health care. For the health care funding progress, refer to the table on page 143.

## Schedules of Funding Progress

## Actuarial Section

The Combined Plan is a retirement plan with both a defined benefit and a defined contribution component. At retirement, members have the option to convert their defined contribution account to a defined benefit annuity. The schedule below includes the funding status for both defined formula benefits and the purchased annuities, when applicable.

Schedule of Funding Progress—Funding Basis <sup>1</sup> (\$ in millions)							Combined Plan
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities/(Assets) (UAAL)	Ratio of Assets to AAL	Active Member Payroll	UAAL as Percent of Active Member Payroll	Amortization Years
2023	\$694	\$1,048	(\$354)	151.0%	\$462	0%	0
2022	638	963	(325)	150.9	467	0	0
2021	567	874	(307)	154.2	458	0	0
2020 <sup>a</sup>	508	752	(244)	148.1	443	0	0
2020 <sup>b</sup>	502	752	(250)	149.8	443	0	0
2019	461	646	(185)	140.1	448	0	0
2018	420	552	(132)	131.3	431	0	0
2017 <sup>c</sup>	382	479	(97)	125.3	413	0	0
2017	365	479	(114)	131.0	413	0	0
2016	336	402	(66)	119.6	392	0	0
2015 <sup>a</sup>	303	350	(47)	115.6	367	0	0
2015 <sup>b</sup>	288	350	(62)	121.7	367	0	0
2014	260	289	(29)	111.2	346	0	0

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Results after change in discount rate from 7.5% to 7.2%.

<sup>1</sup> The amounts reported on this schedule do not include assets or liabilities for health care. For the health care funding progress, refer to the table on the next page.

The Member-Directed Plan is a defined contribution plan. At retirement, members have the option to convert their defined contribution account to a defined benefit annuity. The schedule below displays the funding status of the purchased defined benefit annuities.

Schedule of Funding Progress—Funding Basis <sup>1</sup> (\$ in thousands)							Member-Directed Annuities
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities/(Assets) (UAAL)	Ratio of Assets to AAL	Active Member Payroll	UAAL as Percent of Active Member Payroll	
2023	\$43,544	\$43,544	\$0	100.0%	N/A	N/A	
2022	41,020	41,020	0	100.0	N/A	N/A	
2021	39,431	39,431	0	100.0	N/A	N/A	
2020 <sup>a</sup>	37,151	37,151	0	100.0	N/A	N/A	
2020 <sup>b</sup>	37,151	37,151	0	100.0	N/A	N/A	
2019	22,821	22,821	0	100.0	N/A	N/A	
2018	19,917	19,917	0	100.0	N/A	N/A	
2017 <sup>d</sup>	16,770	16,770	0	100.0	N/A	N/A	
2016 <sup>c</sup>	12,961	12,961	0	100.0	N/A	N/A	
2015 <sup>a</sup>	10,291	10,622	(331)	103.2	N/A	N/A	
2015 <sup>b</sup>	9,767	10,622	(855)	108.8	N/A	N/A	
2014	8,291	8,772	(481)	105.8	N/A	N/A	

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Restated upon finalization of actuarial valuation subsequent to issuance of the 2016 report.

<sup>d</sup> Change in discount rate from 7.5% to 7.2% did not have an impact on the results from original valuation prior to the change in discount rate.

<sup>1</sup> The amounts reported on this schedule do not include assets or liabilities for health care. Participants in the Member-Directed Plan do not have access to the health care program provided to the members of the Traditional Pension Plan or Combined Plan. Instead, a portion of the employer contributions are deposited in a retiree medical account. The retiree medical account can reimburse qualified medical expenses when a Member-Directed Plan participant terminates service or retires. For the health care funding progress, refer to the table on the next page.

The health care assets provide funding for a group of cost-sharing, multiple-employer health care plans that provide health care coverage for eligible benefit recipients in the Traditional Pension Plan and Combined Plan, as well as the Member-Directed Plan retiree medical accounts. The following schedule displays the estimated solvency years the health care assets will be able to provide health care under the intermediate actuarial assumptions.

Schedule of Funding Progress—Funding Basis (\$ in millions)							Health Care
Valuation Year	Actuarial Accrued Liabilities (AAL)	Valuation Assets	Unfunded Actuarial Accrued Liabilities/(Assets) (UAAL)	Ratio of Assets to AAL	Active Member Payroll	UAAL as Percent of Active Member Payroll	Solvency Years <sup>1</sup>
2022	\$11,119	\$12,841	(\$1,722)	115.5%	\$15,806	0%	21
2021	11,037	12,713	(1,676)	115.2	14,822	0	29
2020 <sup>a</sup>	11,215	12,385	(1,170)	110.4	14,383	0	25
2020 <sup>b</sup>	11,414	12,385	(971)	108.5	14,383	0	25
2019 <sup>c</sup>	11,462	11,943	(481)	104.2	14,380	0	23
2018	17,849	11,647	6,202	65.3	13,807	45	11
2017 <sup>d</sup>	18,393	12,021	6,372	65.4	13,498	47	13
2017	17,389	12,021	5,368	69.1	13,498	40	13
2016	19,924	12,098	7,826	60.7	13,186	59	12
2015 <sup>a</sup>	19,224	11,933	7,291	62.1	12,688	57	Indefinite
2015 <sup>b</sup>	18,515	11,933	6,582	64.5	12,688	52	Indefinite
2014	19,405	12,062	7,343	62.2	12,486	59	Indefinite
2013	19,784	12,031	7,753	60.8	12,331	63	Indefinite

<sup>a</sup> Revised actuarial assumptions based on experience study.

<sup>b</sup> Results from original valuation prior to restatement after completion of experience study.

<sup>c</sup> Results reflect health care program changes effective January 2022, approved by the Board in January 2020.

<sup>d</sup> Results after change in discount rate from 6.5% to 6.0%.

<sup>1</sup> Solvency Years represents an estimate of the number of years the fund will be able to provide health care under the intermediate actuarial assumptions. Indefinite indicates funds are expected to be sufficient to fund future health care needs.

The OPERS funding objective is to pay for retirement benefits through contributions that remain approximately level from year to year as a percent of member payroll. If the contributions to the System are level in concept and soundly executed, the System will pay all promised benefits when due—the ultimate test of financial soundness.

A short-term solvency test is one method of validating the progress of the funding program. In a short-term solvency test, the plan’s present assets (cash and investments) are successively compared to: 1) active and inactive member contributions on deposit; 2) liabilities for future benefits payable to present retired lives; and 3) liabilities for service already rendered by active and inactive members.

In a plan following the discipline of level percent of payroll financing, the liabilities for member contributions on deposit (Column (1)) and the liabilities for future benefits payable to present retired lives (Column (2)) will be fully covered by existing assets (except in rare circumstances). In addition, the liabilities for service already rendered by active and inactive members (Column (3)) will be partially or fully covered by the remaining assets.

The following tables display the results of the Short-Term Solvency Test for asset values in the defined benefit Traditional Pension Plan and Combined Plan, based on the actuarial value of assets at year end.

Accrued Pension Liabilities (\$ in millions)					Traditional Pension Plan		
Valuation Year	Aggregate Accrued Liabilities for			Valuation Assets <sup>1</sup>	Portions of Accrued Liabilities Covered by Reported Assets		
	(1) Active Member Contributions	(2) Retirees and Beneficiaries	(3) Active/Inactive Members (Employer-Financed Portion)		(1)	(2) <sup>a</sup>	(3)
2023	\$16,799	\$78,422	\$29,514	\$104,041	100%	100%	30%
2022	16,159	77,195	28,430	101,848	100	100	30
2021	15,806	75,251	26,853	98,796	100	100	29
2020 <sup>b</sup>	15,550	72,735	26,412	93,181	100	100	19
2020 <sup>c</sup>	15,550	71,737	25,546	93,181	100	100	23
2019	15,209	70,089	25,589	87,903	100	100	10
2018	14,764	68,379	25,122	83,715	100	100	2
2017 <sup>d</sup>	14,298	66,546	24,847	82,797	100	100	8
2017	14,298	64,834	23,142	82,797	100	100	16
2016	13,912	62,798	23,108	79,865	100	100	14
2015 <sup>b</sup>	13,469	56,376	27,018	77,700	100	100	29
2015 <sup>c</sup>	13,469	56,815	21,250	77,700	100	100	35
2014	13,191	55,102	20,724	74,567	100	100	30

<sup>a</sup> By law, OPERS is obligated to pay certain benefits that have commenced with retirees. In order to make these payments each year and hold sufficient assets in this fund to pay the vested benefits of all retirees and beneficiaries as of the actuarial valuation date, OPERS transfers funds from the active member employer fund (the Employers’ Accumulation Fund) to the pension funds (the Annuity and Pension Reserve Fund and the Survivors’ Benefit Fund). Thus, the amount available for active member funding is negatively impacted.

<sup>b</sup> Results restated based on experience study.

<sup>c</sup> Results from original valuation prior to completion of experience study.

<sup>d</sup> Results after change in discount rate from 7.5% to 7.2%.

<sup>1</sup> Does not include assets set aside for health care.

Accrued Pension Liabilities (\$ in millions)					Combined Plan		
Valuation Year	Aggregate Accrued Liabilities for			Valuation Assets <sup>1</sup>	Portions of Accrued Liabilities Covered by Reported Assets

2014	3	10	246	289	100	100	112

<sup>a</sup> By law, OPERS is obligated to pay certain benefits that have commenced with retirees. In order to make these payments each year and hold sufficient assets in this fund to pay the vested benefits of all retirees and beneficiaries as of the actuarial valuation date, OPERS transfers funds from the active member employer fund (the Employers' Accumulation Fund) to the pension funds (the Annuity and Pension Reserve Fund and the Survivors' Benefit Fund). Thus, the amount available for active member funding is negatively impacted.

<sup>b</sup> Results restated based on experience study.

<sup>c</sup> Results from original valuation prior to completion of experience study.

<sup>d</sup> Results after change in discount rate from 7.5% to 7.2%.

<sup>1</sup> Does not include assets set aside for health care.

### Actual vs. Recommended Contribution Rates

The Board adopted all contribution rates as recommended by the actuary.

The following tables display the actual financial experience in relation to the actuarially assumed experience for each of the defined benefit pension plans and health care. Actuarial gains and losses in accrued liabilities result from differences between the assumed experience and actual experience.

Analysis of Financial Experience (\$ in millions, continued on next page)				
Type of Activity	Gains (or Losses) for Year			
	2023	2022	2021	2020
<b>Age-and-Service Retirements</b> When members retire at older ages than assumed, a gain results. If members retire at ages younger than assumed, a loss occurs.	(\$15.4)	(\$78.8)	(\$99.6)	(\$53.3)
<b>Disability Retirements</b> When disability claims are less than assumed, a gain results. If claims are greater than assumed, a loss occurs.	60.1	42.0	57.8	96.3
<b>Death-In-Service Annuities</b> When survivor claims are less than assumed, a gain results. If claims are greater than assumed, a loss occurs.	42.6	40.0	34.7	37.4
<b>Other Separations</b> When liabilities released by other separations are greater than assumed, a gain results. If liabilities released are less than assumed, a loss occurs.	30.8	159.5	96.6	41.5
<b>Pay Increases</b> When pay increases are less than assumed, a gain results. If pay increases are greater than assumed, a loss occurs.	(196.4)	(1,336.5)	(424.6)	476.7
<b>Investment Return</b> When investment returns are greater than assumed, a gain results. If investment returns are less than assumed, a loss occurs.	(1,017.9)	113.0	2,996.3	2,541.8
<b>Retiree Mortality<sup>1</sup></b> When liabilities released due to death of members are greater than assumed, a gain results. If liabilities released are less than assumed, a loss occurs.	98.1	218.6	139.9	231.3
<b>Retiree Cost-of-Living Adjustments</b> When cost-of-living adjustments are less than assumed, a gain results. If cost-of-living adjustments are greater than assumed, a loss occurs.	(57.2)	(202.6)	(178.2)	262.1
<b>Gains/(Losses) During Year From Financial Experience</b>	<b>(\$1,055.3)</b>	<b>(\$1,044.8)</b>	<b>\$2,622.9</b>	<b>\$3,633.8</b>

## Fulfilling commitment through the decades

Statistics reflect facts. The statistics shown here clearly reflect this organization's ongoing commitment to members and retirees. The OPERS statistics provide a powerful picture of the organization's inter-generational commitment to members.

Consider this:

- For more than 1,056 consecutive months (88 years), OPERS has paid benefits to retirees, disability recipients, and their survivors.
- Payments have been made through good, poor and indifferent markets. Even when investment targets were not attained, OPERS delivered benefits payments as expected.
- In 2023, OPERS needed to generate 45% of the nearly \$8 billion in annual benefits payments (including health care).

Although no organization can predict the future, organizations CAN review past performance to help ensure the future. For generations, OPERS members have earned security in retirement. OPERS has honored that commitment—and intends to continue to responsibly meet that commitment for generations to come.

*Productivity is never an accident. It is always the result of a commitment to excellence, intelligent planning and focused effort.*

—Fred Meyer, American businessman

The Statistical Section provides pertinent information to assist readers when viewing the Financial Statements, Notes to the Financial Statements and Required Supplementary Information to help in understanding and assessing the System's overall financial condition. The information reported here is in compliance with Governmental Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section*. This statement establishes standardized reporting requirements for the supplementary information provided in this section.

The schedules and graphs beginning on the next page show financial trend information about the growth of assets for the past 10 years (where available). These schedules provide detailed information about the trends of key sources of additions and deductions to the System's assets and assist in providing a context framing how the OPERS financial position has changed over time. The financial trend schedules presented are:

- Net Position by Plan,
- Statutory Fund Balance by Plan,
- Fiduciary Net Position,
- Changes in Fiduciary Net Position,
- Additions by Source,
- Deductions by Type,
- Benefits by Type,
- Health Care Expenses by Type,
- Refunds by Type, and
- Number of Refund Payments by Plan.

The schedules on pages 182-185 compare the pension assets accumulated to cover the projected pension liabilities that are ultimately due at retirement for each of the defined benefit plans and the corresponding funded ratio under both the accounting basis (GASB Statement No. 67) and the funding basis. Health care coverage is not statutorily guaranteed and may be changed to ensure long-term solvency of the plans and OPERS' ability to provide future coverage for all eligible retirees. The schedules on pages 186-188 display similar information for health care assets and projected liabilities under both the accounting basis (GASB Statement No. 74) and the funding basis, as well as the solvency period under the funding basis, or the estimated number of years for which assets are available to cover the projected liabilities. Refer to the schedules of pension and health care assets vs. liabilities.

The schedules beginning on page 180 show demographic and economic information and operating information. The demographic and economic information is designed to assist in understanding the environment in which OPERS operates. The operating information is intended to provide contextual information about operations to assist in assessing the System's economic condition. The demographic and economic information and the operating information presented include:

- Funds Restricted for Member Health Care Accounts,
- Pension Assets vs. Pension Liabilities,
- Health Care Assets vs. Health Care Liabilities,
- Contribution Rates (Health Care),
- Health Care Self-Funding Rate,
- Investment Rates by Portfolio,
- Number of Retirees/Benefit Recipients by Category,
- Number of Covered Lives by Category,
- Schedule of Retirees by Benefit Type and Amount,
- Number of New Pension Retirees,
- Schedule of Average Benefits (Traditional Pension Plan and Combined Plan),
- Member Counts by Plan,
- 2023 Pension Benefits and Retirees by Ohio County,
- Retirees by Geographical Location,
- Contribution Rates (Pension Plans),
- Number of Employer Units, and
- Principal Participating Employers.

All non-accounting data is derived from OPERS internal sources.

<b>Net Position Restricted for OPEB, End of Year</b>				

<sup>1</sup> GASB Statement No. 74 requires health care expenses be reported net of certain health care receipts. The presentation of Retiree-Paid Health Care Premiums, Federal Subsidy and formulary rebates included in Contract and Other Receipts has been revised and is now included in Health Care Expenses, starting in 2017 upon implementation of this standard.

<sup>2</sup> The 115 Health Care Trust was established in 2014. The 401(h) Health Care Trust and the VEBA Trust were terminated as of June 30, 2016. The net positions of these trusts were consolidated into the 115 Health Care Trust on July 1, 2016. The Special Item represents this interplan activity and nets to zero in consolidation.

<sup>3</sup> Beginning October 2014, the Board approved the funding of the VEBA Trust participant accounts using the reserves in the VEBA Trust rather than the allocation of employer contributions. Instead, employer contributions were allocated to the Member-Directed Plan to repay the original plan start-up and administrative costs. Contributions to the VEBA Trust resumed January 1, 2016.

<sup>1</sup> GASB Statement No. 74 requires health care expenses be reported net of certain health care receipts. The presentation of Retiree-Paid Health Care Premiums, Federal Subsidy and formulary rebates included in Vendor Rebates and Other Receipts has been revised and is now included in Health Care Expenses, starting in 2017 upon implementation of this standard.

<sup>2</sup> The 115 Health Care Trust was established in 2014. The 401(h) Health Care Trust and the VEBA Trust were terminated as of June 30, 2016. The net positions of these trusts were consolidated into the 115 Health Care Trust on July 1, 2016.

<sup>3</sup> Beginning October 2014, the Board approved the funding of the VEBA Trust participant accounts using the reserves in the VEBA Trust rather than the allocation of employer contributions. Instead, employer contributions were allocated to the Member-Directed Plan to repay the original plan start-up and administrative costs. Contributions to the VEBA Trust resumed January 1, 2016.

<sup>1</sup> GASB Statement No. 74 requires health care expenses be reported net of certain health care receipts. The presentation of Retiree-Paid Health Care Premiums, Federal Subsidy and formulary rebates included in Vendor Rebates and Other Receipts (beginning on page 166) has been revised. Starting in 2017, upon implementation of GASB 74, these line items are included in Health Care Expenses. In this schedule, the receipts are included with Medical, Dental and Vision line items beginning in 2017.

<sup>2</sup> The 115 Health Care Trust was established in 2014. The 401(h) Health Care Trust and the VEBA Trust were terminated as of June 30, 2016. The net positions of these trusts were consolidated into the 115 Health Care Trust on July 1, 2016.

<sup>3</sup> Effective January 1, 2022, OPERS no longer offered group medical and prescription drug plans to non-Medicare retirees. Instead, eligible non-Medicare retirees received a monthly HRA allowance. In 2022, residual adjustments and claim credits were received resulting in negative deductions (or income) being reported for both the Medical and Prescription Drug line items.

<sup>1</sup> Prior to 2016, the Member-Directed Retiree Medical Account Plan Claims were categorized with Annuities and Installment Payments. In order to consistently report all health care activity, the Member-Directed Retiree Medical Account Plan Claims are included on a separate line, similar to Wellness Retiree Medical Account Plan Claims and Health Reimbursement Account Plan Claims. The line item for Annuities and Installment Payments has been reduced for the Retiree Medical Account Plan Claims for all previous years presented.

<sup>2</sup> QEBA represents Qualified Excess Benefit Arrangements.

<sup>3</sup> The 115 Health Care Trust was established and funding began in 2014. Notional deposits to retiree accounts and initial health care disbursements began in October 2015, during the initial open enrollment period, for January 2016 premium reimbursements. The 401(h) Health Care Trust and the VEBA Trust were terminated as of June 30, 2016. The net positions of these trusts consolidated into the 115 Health Care Trust on July 1, 2016.

<sup>4</sup> GASB Statement No. 74 requires health care expenses be reported net of certain health care receipts. The presentation of Retiree-Paid Health Care Premiums, Federal Subsidy and formulary rebates included in Vendor Rebates and Other Receipts (beginning on page 166) has been revised and is now included in health care deductions, starting in 2017 upon implementation of this standard. These health care receipts are broken out by Annuities, Disabilities and Survivors on this schedule.

## Statistical Section

### Health Care Expenses by Type

<sup>a</sup> Beginning in 2017, GASB Statement No. 74 requires health care expenses to be reported net of certain health care receipts. The presentation of Retiree-Paid Health Care Premiums, Federal Subsidy and formulary rebates included in Vendor Rebates and Other Receipts (beginning on page 166) has been revised and is now included in health care deductions. In this table, the receipts are netted against the Medical/Dental/Vision/Disease Management category.

<sup>b</sup> Effective January 1, 2022, OPERS no longer offers group medical and prescription drug plans to non-Medicare retirees. Instead, eligible non-Medicare retirees received a monthly HRA allowance. Residual adjustments and claim credits were received resulting in negative expenses (or income) being reported for Medical in 2022 and Prescription Drug in 2022 and 2023.

## Refunds by Plan

OPERS notionally funds and tracks member balances in the health reimbursement arrangement (HRA) accounts and Member-Directed Plan retiree medical accounts (RMA). The wellness retiree medical account program was terminated effective December 31, 2022, and remaining balances in member accounts were either transferred to the retiree's HRA account or forfeited in 2023. The Combining Statement of Fiduciary Net Position recognizes health care payments as liabilities when a present obligation exists and a condition requires that the event creating the liability has taken place. Therefore, health care liabilities are recognized when the benefits are currently due and payable in accordance with benefit terms, as clarified in GASB 74. Health care liabilities recorded in the combining financial statements also contain estimates on incurred but not reported amounts for the current year.

<sup>1</sup> Upon the death of an HRA participant, the participant's coverage terminates. Any unused amount in the deceased participant's HRA is forfeited 24 months after the date of death. Prior to September 3, 2019, forfeitures occurred 24 months following the later of the date of death or the date the last claim was submitted on a rolling basis.

<sup>2</sup> Enrollment in wellness incentive programs was discontinued December 2016 and deposits to the wellness RMA ceased. If wellness RMA account holders also had an HRA, the balance in the wellness RMA was transferred to the HRA. Effective December 31, 2022, the Wellness RMA program was terminated. Eligible member balances were transferred to the HRA in 2023 and remaining account balances were forfeited and transferred to the 115 Health Care Trust.

<sup>3</sup> Upon the death of an RMA participant, the participant's coverage terminates. Any unused amount in the deceased participant's RMA is forfeited 12 months after the later of the date of death or the date the last claim was submitted on a rolling basis. Prior to March 25, 2015, forfeitures occurred 24 months following the later of the date of death or the date the last claim was submitted on a rolling basis.

## Statistical Section

As a result, unspent balances remaining in the member health care accounts are not recorded as liabilities in the combining financial statements beyond what is described here as clarified in GASB 74. Total funds restricted for health care costs of all OPERS health care plans are \$12.5 billion as of December 31, 2023. While OPERS is not required to disclose the funds restricted for health care by individual plans, funds set aside in member health care accounts are tracked. The table beginning on the previous page shows these balances and a summary of activity for the year for the member HRA accounts, Member-Directed Plan, and wellness RMAs, starting with the year 2016 as that was the year of implementation for the HRA and the consolidation of all health care assets into one trust.

The calculation method defined in GASB 67 (Accounting Basis) requires different assumptions than are used to calculate the funded status of a plan (Funding Basis). The following table identifies the two key differences between the two methods. Additional details on the Accounting Basis actuarial assumptions can be found in the Financial Section (see Note 5 beginning on page 59). Funding Basis assumptions can be found in the Actuarial Section beginning on page 125.

Pension Assumptions—Key Differences Between Accounting and Funding Valuations		
Valuation Basis	Accounting	Funding
Measurement and Valuation Date	December 31, 2023	December 31, 2023
Assets Valuation Method	Fair Value	4-year, smoothed market-12% corridor
Investment Rate of Return Used to Calculate Liability	Single Discount Rate <sup>1</sup> 6.90%	Actuarial Assumed 6.90%

<sup>1</sup>As required in GASB 67, a Single Discount Rate may be required to measure the pension liability if existing assets are not projected to be available to make all projected future benefit payments of current plan members. The GASB 67 pension calculation determined that a blended rate for the year ended December 31, 2023 was not needed. Therefore, the long-term expected rate of return on pension plan investments, 6.90%, was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Pension Assets vs Pension Liabilities—Accounting Basis				All Plans
(last 10 fiscal years, \$ in millions)

<sup>a</sup> Information after completion of the experience study.

<sup>b</sup> Information prior to completion of the experience study.

<sup>c</sup> Information after change in discount rate from 7.5% to 7.2%.

<sup>d</sup> Restated upon finalization of actuarial valuation subsequent to issuance of the 2016 report.

<sup>1</sup> Beginning with the December 31, 2023 actuarial valuation, the funding value of assets (funding basis) is set equal to the market value of assets (accounting basis) for the defined benefit portion of the Member-Directed Plan. Therefore there is no unrealized gain or loss.

## Statistical Section

The calculation method defined in GASB 74 (Accounting Basis) requires different assumptions than are used to calculate the funded status of the program (Funding Basis). The following table identifies the key differences between the two methods. Additional details on the Accounting Basis actuarial assumptions can be found in the Financial Section (see Note 6 on page 62). Funding Basis assumptions can be found in the Actuarial Section starting on page 125.

Health Care Assumptions—Key Differences Between Accounting and Funding Valuations		
Valuation Basis	Accounting	Funding
Actuarial Valuation Date	December 31, 2022	December 31, 2022
Rolled-Forward Measurement Date	December 31, 2023	N/A
Asset Valuation Method	Fair Value	4-year, smoothed market—12% corridor
Investment Rate of Return Used to Calculate Liability	Single Discount Rate <sup>1</sup> 5.70%	Actuarial Assumed 6.00%

<sup>1</sup> Projected benefit payments are required to be discounted to their actuarial present value using a Single Discount Rate that reflects: (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the rolled-forward measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of this rolled-forward measurement date valuation, the expected rate of return on OPEB plan investments is 6.00%; the municipal bond rate is 3.77% (based on the daily rate closest to but not later than the measurement date of the Fidelity 20-year Municipal GO AA Index). The resulting Single Discount Rate is 5.70%.

Health Care Assets vs Health Care Liabilities—Accounting Basis (last seven years, \$ in millions)					
Year	Plan Fiduciary Net Position	Total OPEB Liability	Net OPEB Liability/(Asset)	Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	Single Discount Rate
2023	\$12,531	\$11,628	(\$903)	107.76%	5.70%
2022	11,465	12,096	631	94.79	5.22
2021	14,225	11,093	(3,132)	128.23	6.00

<sup>c</sup> Information after change in discount rate from 6.5% to 6.0%.

<sup>d</sup> Results reflect health care program changes effective January 2022, approved by the Board in January 2020.

## Statistical Section

The Board approved changes to the OPERS health care plans in 2012. The ultimate goal of the health care changes was to fund the health care expenditures from the health care income. Additionally, the Board established a health care stabilization fund to hold excess income if income exceeds expenditures. The balance of the stabilization fund will supplement income to the health care core (operating) fund when employer contributions, investment income or disbursements do not meet targets. The stabilization fund is an accounting function only and not listed separately in the combining financial statements. Health care valuations disclosed previously (both on a Funding and Accounting basis) are prepared using total health care fund assets. The table below displays the valuation results for the health care plans using only the core fund assets and no stabilization fund assets.

Health Care Assets vs Health Care Liabilities				Health Care—Core Fund	
(last 10 fiscal years, \$ in millions)					
Year	Health Care Assets	Accrued Liabilities	Unfunded Liabilities	Funded Ratio	Solvency Period
2022	\$10,903	\$11,119	\$216	98.06%	20
2021	10,747	11,037	290	97.37	20

<sup>d</sup> Information prior to completion of the experience study.

<sup>e</sup> Information after change in discount rate from 6.5% to 6.0%.

<sup>1</sup> The self-funding rate is the percentage of contribution required to fund health care indefinitely without regard to repayment of the liability within 30 years.

## Statistical Section

### Investment Rates by Portfolio—Defined Benefit and Health Care

OPERS uses several rates to evaluate the results of the investment portfolios. Actual and benchmark returns for the years listed can be found in the Investment Section. The expected rate of return is based on the asset allocation in place during the year presented and the actuarial assumed rate of return is the assumption used for the annual actuarial valuations, described further in the Actuarial Section. Finally, the single discount and long-term municipal bond rates reflect the requirements of GASB 74. These rates are used in the Accounting Basis valuations for health care and not available prior to 2016.

Rates are presented for 10 years in the following table:

Investment Rates by Portfolio										
	2023	2022	2021	2020	2019	2018	2017	2016	2015	2014
<b>Defined Benefit Portfolio</b>										
Actual Rate of Return	11.26%	(12.03%) <sup>a</sup>	15.34%	12.02%	17.23%	(2.99%)	16.82%	8.31%	0.33%	6.96%
Benchmark Return	10.46	(11.44)	15.28	11.65	17.06	(3.07)	15.19	8.64	0.25	5.81
Long-Term Expected Rate of Return	7.87	7.87	6.81	6.90	8.00	8.00	8.00	8.00	8.00	8.00
Actuarial Assumed Rate of Return	6.90	6.90	6.90	7.20	7.20	7.20	7.50	7.50	8.00	8.00
<b>Health Care Portfolio<sup>1</sup></b>										
Actual Rate of Return	13.97%	(15.51%)	14.34%	10.96%	19.59%	(5.76%)	15.25%	7.55%	(2.18%)	5.28%
Benchmark Return	13.65	(15.56)	13.76	10.13	19.20	(5.96)	14.31	7.75	(1.88)	5.01
Long-Term Expected Rate of Return	7.27	7.27	6.05	6.31	6.50	6.50	6.50	6.50	6.50	6.50
Actuarial Assumed Rate of Return	6.00	6.00	6.00	6.00	6.00	6.00	6.50	5.00	5.00	5.00
Single Discount Rate (GASB 74) <sup>2</sup>	5.70	5.22	6.00	6.00	3.16	3.96	3.85	4.23	N/A	N/A
Long-Term Municipal Bond Rate <sup>2</sup>	3.77	4.05	1.84	2.00	2.75	3.71	3.31	3.78	N/A	N/A

<sup>a</sup> Performance was reduced by 0.94% in 2022 because of a change in the methodology used for cash distributions from private equity and real estate funds.

<sup>1</sup> In 2016, the 401(h) Health Care Trust closed and assets were transferred to the 115 Health Care Trust. The 2016 partial year results for both portfolios can be found in the Investment Section, reflecting six month returns for the 401(h) Health Care Trust. For 2016, this chart displays the combined health care rates as disclosed in the Investment Section. For previous years, the rates represent the 401(h) Health Care Trust, as the majority of the health care assets resided in this trust until transferred to the 115 Health Care Trust.

<sup>2</sup> Projected benefit payments are required to be discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Additional information on the Single Discount Rate can be found in Note 6 of the Notes to Combining Financial Statements found in the Financial Section.

### Number of Retirees/Benefit Recipients by Category

The values included in the following tables represent the number of individuals receiving benefit payments. The counts represent retired member accounts only, regardless of the number of recipients designated by the retiree's plan of payment. These statistics are representative of the OPERS contributing membership.

Traditional Pension Plan				
Year End	Annuities	Disabilities	Survivors	Total
2023	190,047	17,294	12,388	219,729
2022	189,413	17,764	12,448	219,625
2021	187,238	18,373	12,546	218,157
2020	183,950	19,287	12,491	215,728
2019	181,623	20,090	12,565	214,278
2018	179,113	20,684	12,541	212,338
2017	176,445	21,322	12,590	210,357
2016	173,500	21,848	12,569	207,917
2015	170,411	22,230	12,570	205,211
2014	167,608	22,532	12,649	202,789

Annuities are comprised of a defined formula benefit paid to contributing members retiring with an age-and-service benefit, as well as, benefit annuities paid through the Additional Annuity and Money Purchase plans (refer to Plan Statement beginning on page 209). Members who retired from other Ohio retirement systems may return to OPERS-covered employment under the OPERS Money Purchase plan. These members receive an annuity in accordance with that program, based on the contributions paid during the re-employment period.

The table below displays the composition of the Traditional Pension Plan Annuities by type for 2014 through 2023. The Other Annuities activity represents Money Purchase and Additional Annuity plan benefits. These benefits may accrue to members whose primary retirement is with OPERS or through another Ohio retirement system (ORS retirees).

Traditional Pension Plan Annuities					
Year End	Age-and-Service Annuities	Age-and-Service Receiving Other Annuities	Subtotal Age-and-Service Annuities	Other Annuities (ORS retirees)	Total
2023	185,142	3,400	188,542	1,505	190,047
2022	184,518	3,365	187,883	1,530	189,413
2021	182,347	3,355	185,702	1,536	187,238
2020	179,090	3,321	182,411	1,539	183,950
2019	176,792	3,266	180,058	1,565	181,623
2018	174,382	3,166	177,548	1,565	179,113
2017	171,766	3,127	174,893	1,552	176,445
2016	168,924	3,039	171,963	1,537	173,500
2015	165,997	2,913	168,910	1,501	170,411
2014	163,313	2,830	166,143	1,465	167,608

## Statistical Section

### Number of Retirees/Benefit Recipients by Category *(continued)*

The values included in the table below represent the number of retirees receiving benefit payments. Members in the Combined Plan receive an age-and-service defined formula benefit annuity from their employer contribution account, and may not elect a retirement distribution from their defined contribution (DC) account until they qualify for a defined benefit retirement. Prior to 2012, members in both the Combined Plan and Member-Directed Plan had the option to defer all or a portion of their defined contribution account, annuitize, or elect to receive installment payments from the defined contribution account. Effective April 1, 2012, the installment payment options were eliminated and new retirees may elect to annuitize, transfer their defined contribution account to another financial institution, or refund their account (refer to the Plan Statement beginning on page 209). Transfers of DC funds to another financial institution and refunds upon retirement are not included in the table below. Therefore, the number of members receiving a defined benefit age-and-service benefit does not equal the number of members receiving a defined contribution benefit. In addition, as retirees may select a joint or single life retirement for one or both of their defined benefit annuity and annuitized defined contribution accounts, the number of age-and service recipients may be less than the total number of retirees.

Combined Plan				
Year End	Age-and-Service Annuities	Annuitized DC Accounts	Installment Payments	Number of Retirees
2023	685	440	2	686
2022	619	399	2	620
2021	549	365	2	549
2020	465	311	4	465
2019	391	266	4	391
2018	337	229	4	337
2017	283	193	6	283
2016	238	158	6	238
2015	196	128	7	196
2014	156	99	7	156

Member-Directed Plan

### Number of Covered Lives by Category

The values included in the tables below represent the number of lives covered by OPERS health care plans. The counts for the Health Care Plans table reflect the number of retirees and primary beneficiaries receiving coverage through the group health care plans or enrolled in the HRA program, and the number of additional dependents and other beneficiaries receiving coverage through the group health care plans. In addition to a retiree, a primary benefit recipient could be a survivor of a deceased retiree continuing to receive coverage on the member’s account. The values in the retirees and primary beneficiaries column represent OPERS contributing membership, while dependents and other beneficiaries represent other family members receiving primarily dental and vision coverage through a retiree’s account. These counts represent all Traditional Pension Plan and Combined Plan retirees, dependents, and beneficiaries receiving access to post-employment health care coverage.

Health Care Plans			
Year End	Number of Retirees and Primary Beneficiaries	Number of Dependents and Other Beneficiaries	Total Covered Lives
2023	133,099	165	133,264
2022	134,711	181	134,892
2021 <sup>a</sup>	134,453	—	134,453
2020	138,906	25,130	164,036
2019	142,369	28,141	170,510
2018	146,410	31,670	178,080
2017 <sup>b</sup>	150,363	36,362	186,725
2016 <sup>b</sup>	153,272	42,230	195,502
2015	170,688	52,109	222,797
2014	167,327	58,692	226,019

<sup>a</sup> Effective December 31, 2021, OPERS no longer provided self-insured group health care or prescription drug plans for non-Medicare retirees or their eligible dependents. Eligible non-Medicare retirees can select an individual health care plan on the open market and receive an HRA allowance. Number of Retirees and Primary Beneficiaries in the table above includes Medicare retirees as of December 31, 2021 and 29,697 retirees newly enrolled in the Connector program as of January 1, 2022.

<sup>b</sup> Restated amounts for Health Care Connector.

The Member-Directed Plan Retiree Medical Account is an account in the member’s name that can be used to reimburse qualified medical expenses for Member-Directed Plan retirees and eligible family members.

Member-Directed Plan Retiree Health Care

2023	6,912
2022	7,432
2021	7,464
2020	7,171
2019	6,940
2018	6,660
2017	6,203
2016	5,605
2015	4,063
2014	3,509

## Statistical Section

### Schedule of Retirees by Benefit Type and Amount

The values included in the following tables represent the number of retired members receiving benefits. Other Annuities represents Money Purchase and Additional Annuity plan benefits. These benefits may accrue to members whose primary retirement is with OPERS or with another Ohio retirement system (ORS retirees).

Traditional Pension Plan (as of December 2023)							
Amount of Monthly Benefit	Age-and-Service Annuities	Age-and-Service Receiving Other Annuities	Subtotal Age-and-Service Annuities	Disabilities	Survivors	Other Annuities (ORS retirees)	Total Retirees
\$1-299	8,702	1,858	10,560	24	478	612	11,674
\$300-499	7,564	554	8,118	48	1,369	276	9,811
\$500-999	19,709	625	20,334	340	3,178	348	24,200
\$1,000-1,499	19,734	184	19,918	1,288	2,956	146	24,308
\$1,500-1,999	18,350	83	18,433	2,555	1,584	76	22,648
\$2,000 & Over	111,083	96	111,179	13,039	2,823	47	127,088
<b>Totals</b>	<b>185,142</b>	<b>3,400</b>	<b>188,542</b>	<b>17,294</b>	<b>12,388</b>	<b>1,505</b>	<b>219,729</b>

Effective April 1, 2012, members electing to retire in the Combined Plan and Member-Directed Plan have the option to use their defined contribution account to annuitize, to transfer their defined contribution account to another financial institution, or to receive a refund of their defined contribution account. Prior to April 1, 2012, these members also had the option to draw on their defined contribution account under an installment payment plan. The installment payment option is still effective for members who retired prior to April 1, 2012.

Combined Plan members are also eligible for a defined formula benefit from their employer contributions. The Employer Age-and-Service Annuities column represents members receiving a formula benefit. Members may receive payments of their defined contribution accounts under the methods described above. For those members who retired prior to April 1, 2012, only installment payments with a remaining account balance are counted.

Combined Plan (as of December 2023)			
Amount of Monthly Benefit	Employer Age-and-Service Annuities	Annuitized DC Accounts	DC Installment Payments
\$1-299	173	171	
\$300-499	179	142	
\$500-999	267	110

<b>Totals</b>	<b>461</b>	<b>2</b>	<b>463</b>

### Number of New Pension Retirees

The values included in the following tables represent the number of new benefit recipients each year. The counts represent retired members only, regardless of the number of recipients designated by the retiree’s plan of payment. These statistics are representative of contributing membership.

Traditional Pension Plan				
Year	Annuities	Disabilities	Survivors	Total
2023	6,150	455	352	6,957
2022	7,594	584	360	8,538
2021	8,995	456	440	9,891
2020	7,823	465	345	8,633
2019	7,204	527	404	8,135
2018	7,475	513	364	8,352
2017	7,668	550	446	8,664
2016	7,388	641	430	8,459
2015	7,209	737	355	8,301
2014	11,011	702	368	12,081

Annuities are comprised of a defined formula benefit paid to contributing members retiring with an age-and-service benefit, as well as benefit annuities paid through the Additional Annuity and Money Purchase plans (refer to the Plan Statement beginning on page 209). Members who retired from another Ohio retirement system may return to OPERS-covered employment under the OPERS Money Purchase plan. These members receive an annuity in accordance with that program based on the contributions paid during the re-employed period.

The table below displays the composition of the 2014 through 2023 Traditional Pension Plan Annuities by type for new benefit recipients. The Other Annuities activity represents the Additional Annuity and Money Purchase plan benefits. These benefits may accrue to members whose primary retirement is with OPERS or through another Ohio retirement system (ORS retirees).

Traditional Pension Plan Annuities					
Year	Age-and-Service Annuities	Age-and-Service Receiving Other Annuities	Subtotal Age-and-Service Annuities	Other Annuities (ORS retirees)	Total
2023	6,103	9	6,112	38	6,150
2022	7,550	4	7,554	40	7,594
2021	8,934	8	8,942	53	8,995
2020	7,762	14	7,776	47	7,823
2019	7,147	10	7,157	47	7,204
2018	7,402	15	7,417	58	7,475
2017	7,601	13	7,614	54	7,668
2016	7,316	7	7,323	65	7,388
2015	7,127	16	7,143	66	7,209
2014	10,915	16	10,931	80	11,011

2022	75	39
2021	89	58
2020	77	48
2019	55	38
2018	54	36
2017	49	38
2016	43	30
2015	41	30
2014	56	35

The Member-Directed Plan table displays the distribution of members electing a defined benefit annuity.

Member-Directed Plan	
Year	Annuities
2023	44
2022	48
2021	57
2020	20
2019	42
2018	38
2017	25
2016	34
2015	31
2014	24

**Schedule of Average Benefits**

This schedule displays the number of new retirees each year, grouped by years of credited service, excluding ORS retirees. Prior-year numbers are not adjusted as members roll off the rolls. Retirement benefits are calculated based on the final average salary (FAS) of the member, representing the member's three (or five) highest years of earnings (refer to the Plan Statement beginning on page 209 for benefit eligibility requirements). The Average Final Average Salary represents a composite for each group.

Schedule of Average Benefits (last 10 fiscal years)		Traditional Pension Plan

### Member Counts by Plan

The tables below represent the number of retired members in each retirement plan based on their status in the plan, regardless of the number of recipients designated by the retiree's plan of payment. These statistics are representative of OPERS contributing membership. Eligible members have the ability to change plans during their career, and leave their contribution accounts behind with the plan under which the contribution was made. Accordingly, a member may be active in one plan and inactive in another. See the table at the bottom of the next page for a composite total count of active, inactive, and retired members regardless of plan.

Member Count—Pension Plans				Total All Pension Plans
Year End	Active	Inactive	Retirees	Total
2023	308,456	756,757	220,876	1,286,089

The table below represents a System-level member count regardless of the plan of participation selected by the member. Only OPERS members are included in this table and each member is counted only once in the subtotal column. Actively contributing retired OPERS members who return to OPERS-covered employment under the Money Purchase Plan are reported as retirees.

Member Count—Pension Plans					All Plans	
Year End	Active	Inactive	Retirees	Subtotal	Members Enrolled in Multiple Plans	Total
2023	308,456	755,287	220,845	1,284,588	1,501	1,286,089

<sup>a</sup> In 2018, the data aggregation methodology was modified for Active and Inactive counts after system reconfigurations. Restated data for years prior to 2018 is not available.

**Member Counts by Plan** (continued)

The values included in the tables below represent the number of individuals covered by the OPERS health care plans. Members include active and inactive employees, retirees, primary beneficiaries, dependents and other beneficiaries. In addition to a retiree, a primary benefit recipient could be a survivor of a deceased retiree. The survivor is continuing to receive coverage on the retiree’s account, which is representative of the OPERS contributing membership. Dependents and Other Beneficiaries primarily receive dental and vision coverage.

Member Count—Health Care Plans				Total All Health Care Plans	
Year End	Active	Inactive	Retirees & Primary Beneficiaries	Dependents & Other Beneficiaries	Total

<sup>a</sup> Effective December 31, 2021, OPERS no longer provided self-insured group health care or prescription drug plans for non-Medicare retirees or their eligible dependents. Retirees and Primary Beneficiaries in the tables above includes Medicare retirees as of December 31, 2021 and 29,697 retirees newly enrolled in the Connector program as of January 1, 2022. Refer to the Plan Statement beginning on page 209 for more information.

<sup>b</sup> Restated amounts for Health Care Connector.

## Statistical Section

### Member Counts by Plan (continued)

The Member-Directed Health Care Plan table represents participant counts in this plan for members in the Member-Directed Plan. Contributions are paid into the account during the member’s career for use after retirement. The account is in the member’s name and can only be used by the member to pay qualified medical expenses for the retiree and eligible family members. (Refer to the Plan Statement beginning on page 209.)

2015	260	215	239	244	665	498	253	1,309	3,683
2014	264	217	241	245	667	496	253	1,309	3,692

<sup>1</sup> The number of employer units exceeds the number of reporting employers as some employers report multiple divisions or agencies. This count also includes private-sector employers that have assumed privatized functions from public employers for indeterminate periods. The number of employers reporting at December 31, 2023 was 3,219.

## Fiduciary responsibility shapes and preserves benefits

OPERS is committed to our members' financial security in retirement. We accept that responsibility and recognize that only through responsible actions and careful decisions can we continue to preserve benefits for all members—current and future.

Financial stability is important to live comfortably in retirement. In 2023, OPERS maintained strong investment returns, stable benefits, and valuable health care accounts for our retirees and members. We recognize and accept our fiduciary responsibility, defined specifically as our legal and ethical obligation to act in the best interests of all members. In accepting that responsibility, we strive to provide inter-generational access to pension benefits and health care; we avoid conflicts of interest, personal gain, special interests, and we work to uphold our commitment to members of loyalty, good faith, confidentiality, transparent disclosure and prudence with funding.

Members have responsibilities also. Those responsibilities include:

- Make contributions during working years—combined contributions are responsibly invested to ultimately provide 66-80% of the final retirement benefit.
- Review the personalized annual statement each year—important so that each individual makes the best retirement decision possible, based on solid information.
- Seek counseling and education from OPERS to assist in your retirement planning.
- Learn about how the pension system works—know what the System has committed to members—current and future—and what decisions are necessary to preserve pension benefits for all.
- Read about and understand the *Plan Statement* found here—this provides you with a road map of your benefits as of 2023. As you read, consider how these benefits fold into your overall retirement outlook.
- Choose healthy lifestyles—as a contributing member AND especially as a retiree of any age—healthy lifestyles will help you fully enjoy and extend your retirement years and maximize your health care funds.

Every year, a robust selection of educational offerings is provided. Members have the option to learn more through in-person one-on-one counseling, online and on-location throughout the state for all phases of your retirement journey.

OPERS is not anticipating any major changes for members and retirees in the immediate future. However, if changes become necessary or our governing laws change, OPERS is committed to providing members and retirees with information needed to understand and anticipate the impact.

OPERS is dedicated to continuing the commitment made to members nearly 90 years ago—providing a secure financial retirement to members.

*There are only two options regarding commitment. You're either IN or you're OUT. There is no such thing in-between.*

—Pat Riley, NBA player and coach

The Ohio Public Employees Retirement System (OPERS or System) was created in 1935 by the Ohio General Assembly to provide retirement, disability, and survivor benefit programs to state and local employees. This summary outlines the key plan features.

All public employees in Ohio, except those covered by another state retirement system in Ohio or by the Cincinnati Retirement System, are required to become contributing members of OPERS when beginning public employment unless specifically exempted or excluded.

The law provides for optional membership for elected public officials who did not contribute on prior elective service. Students, not already members, working for the public school, college, or university that they are attending may be exempt from contributing to OPERS by filing a request for exemption within the first month of employment.

OPERS provides special retirement eligibility for certain Law Enforcement officers whose primary duties are to preserve the peace, to protect life and property, and to enforce the laws of Ohio. The Law Enforcement division has its own retirement, disability, and survivor benefit eligibility provisions.

### Plan Types

For more than 85 years, OPERS has provided members with retirement benefits under a defined benefit plan, known as the Traditional Pension Plan.

In 2000, legislation required OPERS to establish one or more defined contribution plans to be offered to members in addition to the existing Traditional Pension Plan. OPERS began offering three retirement plans to members on January 1, 2003. The plans include the Traditional Pension Plan, the Member-Directed Plan, and the Combined Plan. A brief overview of each plan is provided below.

- **The Traditional Pension Plan**

The Traditional Pension Plan is a defined benefit plan under which a member's retirement benefit is based on a formula. The formula is determined by the years of service credit multiplied by 2.2% and the average of the three or five (based on retirement group) highest years of eligible salary, referred to as final average salary (FAS). OPERS investment professionals manage the investment of member and employer contributions to ensure that funds are available to pay the formula benefit.

- **The Member-Directed Plan**

The Member-Directed Plan is a defined contribution plan under which member and employer contributions are deposited into a member's individual account and the member directs the investment by selecting from professionally managed investment options. Members become vested in the employer contributions at a rate of 20% for each year of participation until the member is fully vested at the end of five years. The account value available at retirement is based on member and vested employer contributions and the investment gains or losses on those contributions.

## Plan Statement

- **The Combined Plan**

The Combined Plan is a retirement plan with both a defined benefit and a defined contribution component. The employer contributions fund the defined benefit portion of the Combined Plan. The member's defined benefit retirement component is determined by a formula similar to, but lower than, the Traditional Pension Plan formula. OPERS investment professionals manage the investment of the employer contributions to ensure that funds are available to pay the formula benefit. Under the defined contribution component of the Combined Plan, member contributions are deposited into the member's individual account and the member directs the investment by selecting from professionally managed investment options. The defined contribution account value available at retirement is based on member contributions and the investment gains or losses on those contributions. The Combined Plan is no longer available for new members after December 31, 2021.

## Contributions

Employers are required to make contributions to the System on the basis of a percent of eligible salary and at a rate based upon the recommendations of the OPERS actuary, subject to the statutory limitations. Penalties and interest are assessed for late payments. The contribution rates are at their statutory maximum levels. The contribution rate for State and Local employers in 2023 was 14.0%. Employers in the Law Enforcement and Public Safety divisions contributed 18.1%.

The 2023 member contribution rate for State and Local members was 10.0% of eligible salary. Members in the Public Safety division contributed 12.0% of eligible salary, while members in the Law Enforcement division contributed 13.0%. Member contributions by members of the Traditional Pension Plan are fully refundable at termination or death. The refund value of member contributions made by members of the Combined Plan and the Member-Directed Plan are subject to the investment results (gains or losses) of the member's selected investment options.

## Benefits under the Traditional Pension Plan or the Combined Plan

### Age-and-Service Retirement

In 2012, the Ohio General Assembly enacted into law a number of significant plan design changes that became effective on January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the new law applicable to each group. Members who were eligible to retire under the law in effect prior to the legislation or who were eligible to retire no later than five years after January 7, 2013, comprise retirement Group A. Members who had 20 years of service credit prior to January 7, 2013, or who will be eligible to retire under the law in effect prior to the legislation no later than 10 years after January 7, 2013, are included in retirement Group B. Retirement Group C includes those members who are not in either of the other groups and members who were hired on or after January 7, 2013.

Retirement benefits are specific to each plan and members must meet the eligibility requirements based on their age and years of service within the plan. Retirement eligibility also varies by division and retirement group. The charts below show the retirement eligibility requirements for all divisions and retirement groups. The requirements for the State and Local divisions apply to members who participate in either the Traditional Pension Plan or the Combined Plan. The Law Enforcement and Public Safety divisions are only applicable to the Traditional Pension Plan.

Unreduced	Group A		Group B		Group C	
	Age	Service	Age	Service	Age	Service
State/Local	Any	30	52	31	55	32
			Any	32		
	65	5	66	5	67	5
Law Enforcement	48	25	50	25	52	25
	62	15	64	15	64	15
Public Safety	52	25	54	25	56	25
	62	15	64	15	64	15
Law and Public Safety (public safety benefit)	52	25	54	25	56	25

Reduced	Group A		Group B		Group C	
	Age	Service	Age	Service	Age	Service
State/Local	55	25	55	25	57	25
	60	5	60	5	62	5
Law Enforcement	52	15	52	15	56	15
			48	25	48	25
Public Safety	52	15	52	15	56	15
	48	25	48	25	52	25
Law and Public Safety (public safety benefit)	48	25	48	25	52	25

Benefit payments vary in amount depending on years of service credit, FAS, age, and plan of payment selection. FAS is the average of the three highest years of eligible salary for Groups A and B; and the average of the five highest years of eligible salary for members in Group C. The age-and-service formula benefit cannot exceed 100% of FAS (90% for Law Enforcement and Public Safety), or the limits under Internal Revenue Code Section 415, and may be subject to the contribution-based benefit cap. The base benefit amount calculated by the formula will be reduced if a member begins receiving a retirement benefit before they reach the age-and-service requirements for an unreduced benefit.

**Disability Benefits**

OPERS members are eligible for one of two disability programs: the original plan or the revised plan. Members who had contributions on deposit with OPERS on July 29, 1992, had a one-time opportunity to select coverage under one of these programs. Employees hired after July 29, 1992, are covered only under the revised plan. A number of features are common to both plans.

A member who has at least five years of service credit in either the Traditional Pension Plan or the Combined Plan and who becomes permanently mentally or physically disabled from the performance of their last public position may apply to OPERS for monthly disability benefits. Members in the Law Enforcement or Public Safety divisions may apply for disability at any time if the disabling condition was the result of an on-duty illness or injury. Coverage is limited to illness or injury that occurs before the member’s contributing service terminates or, in the case of illness or injury that results from the member’s employment, becomes evident no later than two years after the date the contributing service ends. The coverage does not extend to disability resulting from elective cosmetic surgery other than reconstructive surgery.

## **Plan Statement**

### **Survivor Benefits**

A member's beneficiary is determined by statutory automatic succession unless a specific designation is made on their account.

Qualified beneficiaries will be eligible to receive monthly survivor benefits if, at the time of the member's death, certain qualifications were met.

If those qualifications were not met, a refund of the member's OPERS account value as defined by the Ohio Revised Code may be made.

### **Additional Benefits**

#### **Cost-of-Living Adjustment**

When a benefit recipient has received benefits for 12 months, current law provides for an annual cost-of-living adjustment. This cost-of-living adjustment is calculated on the base retirement benefit at the date of retirement and is not compounded. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3%. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the cost-of-living adjustment is based on the increase in the Consumer Price Index, capped at 3%.

#### **Death Benefit**

Upon the death of an age-and-service or disability benefit recipient, a lump-sum death benefit is paid to the qualified beneficiary. The benefit ranges from \$500 to \$2,500 based on the recipient's years of service credit.

#### **Qualified Excess Benefit Arrangement**

Total benefit payments to an individual are subject to the limitations identified in Section 415(b) of the Internal Revenue Code. In 2003, OPERS implemented a Qualified Excess Benefit Arrangement (QEBA) that allows OPERS recipients to receive the amount of their benefit that is subject to the IRS limits.

#### **Refunds**

A refund may be issued after two months have elapsed since the member terminated public service. For members of the Traditional Pension Plan, the refund value is equal to their member contributions plus interest. Members of the Combined Plan may refund their defined contribution account balance comprised of member contributions and investment gains or losses on those contributions, and any member contributions plus interest in the defined benefit portion of the plan arising from the purchase of eligible service. Members of the Traditional Pension Plan and the Combined Plan may also qualify for an additional amount calculated on their eligible contributions. Under the Traditional Pension Plan, full recovery of all member contributions to OPERS is guaranteed.

Refunded service credit may be restored in the Traditional Pension Plan and the Combined Plan if the member returns to OPERS-covered employment for at least 18 months in the plan from which the refund was issued. The amount refunded, including interest and the additional amount (if applicable), must be repaid for service credit to be restored. The member must also pay interest (compounded annually) at a rate determined by the Board for the period from the date of refund to the date the refunded amount is repaid.

## Benefits under the Member-Directed Plan

### Retirement

Members participating in the Member-Directed Plan are eligible to retire after they reach age 55. The current vested value of the individual account is available at retirement. All or a portion of the balance can be converted to a lifetime annuity through OPERS and the remainder can be rolled over to another eligible retirement plan or made payable to the member with taxes withheld.

### Disability and Survivor Benefits

Participants in the Member-Directed Plan are not eligible for disability or survivor benefits. In the event of disability or death, the vested portion of the member's individual account is available for refund to the member or qualified beneficiaries.

### Refunds

A refund may be issued after two months have elapsed since the member terminated public employment. Members participating in the Member-Directed Plan may receive member contributions and investment gains or losses on those contributions. Depending on length of participation in the Member-Directed Plan, a member may also receive a portion of the employer contributions, plus any investment gains or losses on those contributions, based on the schedule below.

Years of Participation	Percent Vested
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

## Benefits for Re-employed Retirees

After a member retires, re-employment in an OPERS-covered job, including service in an elected position, is permitted but may affect continuing receipt of an age-and-service retirement benefit. Contributions must begin from the first day of re-employment. However, members who are re-employed anytime within the first two months after their effective retirement benefit date will forfeit their retirement benefit during this two-month period. This prohibition applies even if salary is waived for the two-month forfeiture period. Monthly health reimbursement arrangement (HRA) deposits from OPERS are directed to a Re-employed Accumulated HRA account during any period of re-employment; during this period, previously accumulated HRA balances may be used to reimburse expenses incurred prior to the member becoming re-employed. Contributions remitted during the two-month forfeiture period will not be included in the calculation of a Money Purchase Plan benefit.

During re-employment, the retiree participates in the Money Purchase Plan. Upon termination of re-employment, retirees under age 65 may receive a refund of their Money Purchase account consisting of their member contributions made during the period of re-employment, plus interest. Retirees age 65 and older may receive an annuity benefit or lump sum payment that is based on the amount of their member contributions during the period of re-employment plus interest, and an amount from the employer's contributions established by the Board.

## Plan Statement

### Health Care Program for Traditional Pension Plan and Combined Plan

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax-free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

#### Eligibility

OPERS members enrolled in the Traditional Pension Plan or Combined Plan retiring with an effective date of January 1, 2022 or after must meet the following health care eligibility requirements to receive an HRA allowance:

- 1) **Age 65 or older**—Minimum of 20 years of qualified health care service credit.
- 2) **Age 60 to 64**—Based on the following age-and-service criteria:
  - a) Group A—30 years of total service with at least 20 years of qualified health care service credit;
  - b) Group B—31 years of total service with at least 20 years of qualified health care service credit; or
  - c) Group C—32 years of total service with at least 20 years of qualified health care service credit.
- 3) **Age 59 or younger**—Based on the following age-and-service criteria:
  - a) Group A—30 years of qualified health care service credit;
  - b) Group B—32 years of qualified health care service credit at any age or 31 years of qualified health care service credit and at least age 52; or
  - c) Group C—32 years of qualified health care service credit and at least age 55.

Retirees who don't meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

Members with a retirement date prior to January 1, 2022 who were eligible to participate in the OPERS health care program will continue to be eligible after January 1, 2022, as summarized in the following table.

Retirement Date	Group A		Group B		Group C	
	Age	Service	Age	Service	Age	Service
December 1, 2014 or Prior	Any	10	Any	10	Any	10
January 1, 2015 through December 31, 2021	60	20	52 60	31 20	55	32
	Any	30	Any	32	60	20

See the Age-and-Service Retirement section beginning on page 211 for a description of Groups A, B and C.

Beginning January 1, 2014, qualifying contributing service credit for health care will be accumulated only if the member's eligible salary is at least \$1,000 per month. Partial health care credit will not be granted for months in which eligible salary is less than \$1,000. Credit earned prior to January 2014 will not be affected by this requirement.

Recipients of disability benefits prior to January 1, 2014, have continued access to the health care program while the disability benefit continues and will not be subject to the five-year rule described below. The allowance will be determined in the same manner as an age-and-service retiree. If the recipient does not meet minimum age-and-service requirements, the minimum allowance will be used. Recipients with an initial disability effective date on or after January 1, 2014, will have coverage during the first five years of disability benefits. After five years, the recipient must meet minimum age-and-service health care eligibility requirements or be enrolled in Medicare (due to disability status) to remain enrolled in the OPERS health care program. If enrolled, the allowance will be determined in the same way as an age-and-service retiree.

### **HRA Allowances and Program Options**

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances, based on years of service and the age when the individual is first eligible for the HRA, are provided to eligible retirees, and are deposited into their HRA account.

The base allowance is determined by OPERS and is currently \$1,200 per month for non-Medicare retirees and \$350 per month for Medicare retirees. The retiree receives a percentage of the base allowance, calculated based on years of qualifying service credit and age when the retiree first enrolled in OPERS health care. Monthly allowances range between 51% and 90% of the base allowance for both non-Medicare and Medicare retirees.

Retirees have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan.

### **Medicare Parts A and B**

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50% of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

## Plan Statement

### Health Care for Member-Directed Plan Participants

Members participating in the Member-Directed Plan have a portion of the employer contribution credited to an individual retiree medical account. Since January 1, 2017, interest on the accounts accrued only if the defined benefit investment portfolio earned a return greater than zero in the prior year. Beginning January 1, 2020, interest will accrue based on the investment performance of the stable value fund, not to exceed 4%. Members with an account prior to July 1, 2015, become vested in the account at a rate of 20% for each year of participation until the member is fully vested at the end of five years. For members establishing accounts on or after July 1, 2015, the vesting schedule is below. Upon a refund or retirement, distribution of the vested balance in the member's account may be used for the reimbursement of qualified medical expenses.

Years of Participation	Percent Vested
0-5 years	0%
6 years	10%
7 years	20%
8 years	30%
9 years	40%
10 years	50%
11 years	60%
12 years	70%
13 years	80%
14 years	90%
15 years	100%

**Note:** The information contained in this section is intended to be a summary only. Complete pension and health care details can be obtained through OPERS. This document reflects approved information as of the date listed. All plans are subject to change. Health care is not a statutorily guaranteed benefit. As such, the Board has the discretion to review, rescind or modify the health care plans at any time. There is no promise, guarantee, contract, or vested right to health care coverage or an allowance.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of  
Financial Statements Performed in Accordance with *Government Auditing Standards*

**Independent Auditor's Report**

To Management and the Board of Trustees  
Ohio Public Employees Retirement System  
and the Honorable Keith Faber, Auditor of State

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Ohio Public Employees Retirement System (OPERS) as of and for the year ended December 31, 2023 and the related notes to the financial statements, which collectively comprise OPERS' basic financial statements, and have issued our report thereon dated May 3, 2024. We have also audited the Traditional Pension Plan, the Combined Plan, the Member-Directed Plan, and the 115 Health Care Trust of OPERS as of December 31, 2023, as displayed in OPERS' basic financial statements.

We have also audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the schedule of employer allocations of OPERS' Traditional Pension Plan, Combined Plan, and Member-Directed Plan (the "specified plans") as of and for the year ended December 31, 2023; the rows titled net pension liability (asset), total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (income) as of and for the year ended December 31, 2023 (the "specified pension row totals") included in the schedule of collective pension amounts of the specified plans; and the related notes to the schedule and have issued our report thereon dated May 3, 2024.

We have also audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the schedule of employer allocations of OPERS' 115 Health Care Trust (the "Trust") as of and for the year ended December 31, 2023; the rows titled net OPEB liability (asset), total deferred outflows of resources, total deferred inflows of resources, and total employer OPEB expense (income) as of and for the year ended December 31, 2023 (the "specified OPEB row totals" and collectively with pension rows, the "specified row totals") included in the schedule of collective OPEB amounts; and the related notes to the schedule and have issued our report thereon dated May 3, 2024.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audits of the financial statements, the schedule of employer allocations for the specified pension and OPEB plans, and the specified row totals included in the schedules of collective pension/OPEB amounts referred to above, we considered OPERS' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, the schedule of employer allocations for the specified pension and OPEB plans, and the specified row totals included in the schedules of collective pension/OPEB amounts referred to above but not for the purpose of expressing an opinion on the effectiveness of OPERS' internal control. Accordingly, we do not express an opinion on the effectiveness of OPERS' internal control.

To Management and the Board of Trustees  
Ohio Public Employees Retirement System  
and the Honorable Keith Faber, Auditor of State

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of OPERS' financial statements, schedules of employer allocations, and the specified row totals included in the schedules of collective pension/OPEB amounts will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether OPERS' financial statements, the schedule of employer allocations for the specified pension and OPEB plans, and the specified row totals included in the schedules of collective pension/OPEB amounts referred to above are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audits, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of OPERS' internal control or on compliance. This report is an integral part of audits performed in accordance with *Government Auditing Standards* in considering OPERS' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Plante & Moran, PLLC*
