**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Solid Waste Authority of Central Ohio
Franklin County
4239 London Groveport Road
Grove City, Ohio 43123

To the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the business-type activities and each major fund of the Solid Waste Authority of Central Ohio, Franklin County, Ohio (the Authority) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated June 24, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Keith Faber
Auditor of State
Columbus, Ohio

INTRODUCTORY SECTION

This page intentionally left blank.

June 24, 2025

To the SWACO Board of Trustees, and the residents and businesses in the Solid Waste District:

We are pleased to present SWACO's Annual Comprehensive Financial Report ("ACFR") for the year ended December 31, 2024.

The management of SWACO assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls it has established for this purpose. Because the cost of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable, but not absolute, assurance that the financial statements are free of material misstatements.

The Auditor of the State of Ohio's Office has issued an unmodified opinion of SWACO's financial statements for the year ended December 31, 2024. The independent auditor's report is located at the beginning of the Financial Section of the report, Section 2.

The Management's Discussion and Analysis ("MD&A") immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of SWACO

A political subdivision of the State of Ohio, SWACO is one of 52 single and multi-county solid waste management districts established under Ohio's solid waste management program. The primary goal of the State's solid waste management program is reducing reliance on landfills for solid waste disposal in Ohio. As a solid waste district, SWACO is responsible for preparing, updating, and implementing a comprehensive solid waste management plan for the Franklin County Solid Waste Management District (the "District").

In addition to providing solid waste planning for the District, SWACO operates a sanitary landfill with a maximum daily capacity of 8,000 tons, two waste transfer stations with a combined capacity of approximately 3,000 tons per day, and various recycling and waste reduction programs.

SWACO is managed by an Executive Director who is appointed by the Board of Trustees. The Board of Trustees includes the following members:

- The President of the Franklin County Board of Commissioners or his/her designee
- One Member appointed by the Board of Commissioners
- The Mayor of the City of Columbus or his/her designee
- One Member appointed by the Mayor of Columbus
- The Health Commissioner of the Health District having the largest territorial jurisdiction with Franklin County, or their designee.
- One Member to be chosen by a majority of the Boards of Township Trustees
- One Member representing the public.
- One Member representing commercial, industrial, or institutional generators of solid waste.
- One Member representing the interest of citizens with no affiliation with a solid waste management company or significant generator of solid waste.

SWACO's mission is to manage the District's municipal solid waste stream to achieve environmentally responsible and cost-effective disposal, treat solid waste as a resource capable of yielding recovered materials and energy, reduce reliance on landfilling, and plan future disposal capacity for the District.

SWACO is also responsible for post closure care of the closed Model Landfill including maintenance of the integrity and effectiveness of the final cover, the leachate collection, ground water monitoring, and gas monitoring systems.

History of SWACO

SWACO was established in 1989, and its first two years were devoted to developing the initial solid waste management plan for the District. In 1991, SWACO purchased the 3,333 ton-per-day Franklin County Sanitary Landfill (the "Landfill") from the Franklin County Commissioners and, in 1993, added a 90-megawatt, 2,000 ton-per-day resource recovery facility (the "Waste-To-Energy Facility" or "WTEF") and two solid waste transfer facilities through a long-term lease with the City of Columbus (the "City"). SWACO also acquired the Franklin County (the "County") closed landfill (the "Model Landfill") as part of the acquisition of the operating Landfill.

SWACO closed all but the waste receiving portion of the WTEF at the end of 1994 because of its inability to generate revenues sufficient to operate the facility and pay the lease obligation to the City. SWACO converted the waste receiving portion of the facility to a solid waste transfer station and negotiated revised lease terms with the City. Pursuant to the modified lease, SWACO implemented new fees in 1999 applied to all solid waste generated within SWACO's jurisdiction and dedicated to the payment of the lease (see Note 11). In 2005, SWACO demolished the waste incineration portions of the facility, retaining the transfer station and certain buildings and structures that SWACO used for recycling activities. The remaining buildings and structures were destroyed by fire in 2008, leaving only the transfer station.

With closure of the WTEF in 1994 and the resulting loss of disposal capacity, SWACO began the process of obtaining a permit from the Ohio Environmental Protection Agency (the "OEPA") to expand the Landfill to meet the additional disposal requirements of the District. In 1997, the permit was approved adding 49 million cubic yards of capacity to the Landfill, sufficient to meet SWACO's disposal requirements for at least 25 years and increasing the daily capacity to 6,000 tons. A further modification to the permit, approved in 2009, added 3.5 million cubic yards to the Landfill's capacity and a new permit was approved in 2018 giving a total airspace of 97 million cubic yards. In 2011, the OEPA granted SWACO's request to increase its daily capacity from 6,000 to 8,000 tons.

The Solid Waste Plan

SWACO's Solid Waste Plan was originally adopted in 1993. The plan is subject to periodic updates, and the last update was approved by the OEPA was on July 11, 2024. The current Solid Waste Plan includes the following recycling and waste reduction programs (among others):

Community Recycling

SWACO assists communities with contracting for curbside recycling service and improving their services. One of SWACO's most successful programs has been the bidding "Consortiums" that have been developed to assist local communities with bidding out their trash, recycling, and yard waste collection services. These Consortiums leverage the collective buying power of local communities to receive the best value and quality of service by going through a collaborative and cooperative bidding process together, organized and led by SWACO.

Yard Waste Composting Services

SWACO's Yard Waste Management Program is well established and successful. Integral to this program is the fact that virtually all of the communities that have curbside recycling also receive weekly pick-up of yard waste as part of their service contracts (33 out of the 36 curbside recycling communities). SWACO also contracts with local yard waste facilities so that residential yard waste is accepted free of charge, either through curbside collection or through residents taking their yard-waste material directly to the facilities.

Household Hazardous Waste Collections

SWACO funds a permanent HHW facility that is open during the week for residents to drop off HHW materials such as paint, gasoline, batteries, chemicals, household cleaners, etc. The Permanent Collection Site has been highly successful with diversion of about 300 tons during the 2021 reference year. SWACO also funds several mobile collection events annually. In 2021 SWACO sponsored three mobile collection events that serviced over 2,400 vehicles and was successful at diverting a total of 3.2 tons of lead-acid batteries and 53 tons of mixed HHW.

SWACO contracts with a private service provider to offer free residential recycling for HHW at the full-time Household Hazardous Waste Center located in Columbus, OH. SWACO also partners with local communities and uses the same contractor to offer several mobile collection events each year. Collection events are advertised and promoted through social media, paid advertising, newsletters, and the SWACO website.

SWACO Recycling Drop-off Program

The Recycling Drop-off Program is one of SWACO's oldest programs. The program is essential for assisting residents without curbside service (such as those living in multi-family housing) by providing them with an opportunity to recycle. These locations also provide an outlet for excess material from residents that have curbside recycling. In 2024, SWACO's Drop Off Recycling Program includes 189 containers which are available at 70 locations across Franklin County, however 58% of all the materials collected are received at only 14 locations. Since 2021, collection totals have declined significantly leading to increased inefficiencies and higher costs per ton for SWACO to operate the program as it's currently set up. In 2024, the program averaged just over 329 tons (or 658,000 lbs.) of material a month.

Outreach, Education, Awareness, and Technical Assistance

SWACO has an extensive public outreach, education, and awareness program, including maintaining several web sites, including swaco.org, recycleright.org, savemorethanfood.org, and itsacrime.org. Using these sites, residents can learn about opportunities to reduce, reuse, and recycle, reducing the generation of food waste, and opportunities to donate or compost the food waste that they generate. SWACO also provides a presenter when requested by communities, business, schools or other groups within the District.

Budgetary Control

The Board of Trustees adopts an annual non-appropriated operating and capital improvements budget resolution. Budgetary control is maintained by the Board at the major account level (salaries, wages, and benefits; contracts, services, and supplies; capital outlays; etc.). The Statistical Section provides a budget to actual comparison for the year ending December 31, 2024.

SWACO maintains a five-year Capital Improvement Plan that serves as the basis to support each year's Board approved Capital Budget. Long term assets such as land and landfill cell construction have been financed through general obligation bond issuances. Operating capital is provided by revenue from ongoing landfill operations.

Local Economy and Economic Outlook

SWACO is located principally within Franklin County, with the City of Columbus as the largest city within the District. Government jobs provide the largest single source of employment within Columbus, due to the presence of city, state, county, and federal employers. The area also hosts The Ohio State University, Battelle Memorial Institute, the world's largest private not-for-profit research and development foundation, and the headquarters for several major corporations, including five U.S. Fortune 500 organizations. Both the City and the County maintain triple-A ratings on their long-term debt from the major rating agencies.

Long-Term Financial Planning

The SWACO Board of Trustees adopts annual operating and capital budgets that are supported by pro forma projections to extend the planning horizon from five to twenty-five years. Over the next twenty-five years, extensive capital improvements will be completed as SWACO constructs the remaining four phases of the Landfill and plans for its eventual closure and replacement.

Obligations for closure/post-closure care of the Franklin County Sanitary Landfill are currently cash funded annually through operating revenue and are restricted and held in an Ohio Environmental Protection Agency trust fund account.

The previously established post-closure fund for care of the closed Model Landfill has been exhausted. SWACO is ultimately responsible for the ongoing costs of maintaining the landfill cap and the landfill gas collection and control system, as well as the standard operating and maintenance costs. SWACO is currently able to fund these costs into the future through operating revenue generated by the operation of the currently active Franklin County Sanitary Landfill whose volumes and revenues are secured by the enactment of flow control within the district.

SWACO currently has an AAA rating from Standard and Poor's Corporation and an Aaa rating from Moody's Investors Service.

Major Initiatives

Fleet and Operations Building

The Campus Building Plan includes demolition and replacement of the current operations building(s) to make way for increased landfill footprint to extend landfill life. In 2021, SWACO began designing the first project of the plan to renovate the current fleet maintenance building with addition for operations staff and heavy equipment maintenance. Construction began in 2022 and is expected to be completed in 2025. The new construction is expected to be LEED-Certified.

Administration Office Building (AOB) and Environmental Resource Center (ERC)

As part of the Campus Building Plan, the existing ERC was to be demolished and relocated. The ERC is the "classroom" from which our landfill tours operate. SWACO purchased trailers to serve as a temporary ERC until a permanent solution is finalized. The ERC became operational in 2023. The current AOB will be remodeled and expanded. The current AOB space will be converted to the new ERC while the expansion will house the Administration staff.

Capital Improvements

Gas Collection and Control Systems update for 2024 GCCS

The 2024 gas collection and control systems (“GCCS”) construction project was completed in December 2024. This work included the installation of twenty-seven new vertical wells, the replacement of four existing wells, and installation of horizontal collectors, among other improvements.

Morse Road Transfer Station Improvements

The Morse Road Transfer Station Improvements Project has two major features of work: improving site environmental compliance and improving operational efficiencies. As the site accepts more waste each year, SWACO needs to increase its transfer capacity. This project requires coordination with the City of Columbus which can add time to the overall project. SWACO submitted a design to the City of Columbus and has been since responding to comments. The design includes regrading the tipping floor, adding a trash compacting bay with a loading conveyor, adding an electric crane, and other stormwater improvements. Additionally, an OEPA permit modification will need to be completed prior to construction.

Phase H8

This project includes the design and construction of the next solid waste cell. The project consists of an approximate 22-acre cell and will be constructed first, followed by the 6-acre separatory liner. Design started in 2023. During design it was determined that the scope of work on a separate project, “Landfill Site Development,” had considerable overlap. Therefore, this project includes work previously included in that project also. The project includes earthwork, infrastructure relocation and new installation, building removal, and cell components to maintain operational approval from the Ohio Environmental Protection Agency (OEPA). Construction will occur in 2024, 2025, and 2026. Note that some portions of the project may be performed as stand-alone projects due to timing concerns.

Programs Initiatives

The Innovations and Programs Department continued to grow and develop waste reduction and diversion programs and initiatives to service District residents and businesses. A few department accomplishments during 2024 include:

- Awarded approximately \$133,000 in grant dollars to support recycling and composting programs in partnership with multiple area municipalities, non-profit organizations, and other community/governmental entities.
- Facilitated \$200,000 in pass-through grants
- 101 landfill tours hosted, reaching 5,044 people.
- Involved in 103 presentations, tabling sessions, and webinars.
- Diverted approximately 833,000 pounds of Household Hazardous Waste through collection programs.

Awards and Acknowledgements

Certificate of Achievement for Excellence in Financial Reporting

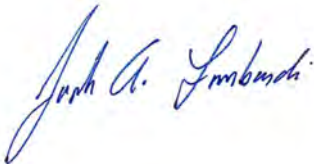

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to SWACO for its annual comprehensive financial report for the fiscal year ended December 31, 2023. This was the twenty-fourth consecutive year SWACO has received this award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR that satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The Executive Director wishes to thank the employees of SWACO for their dedication and hard work. On behalf of the residents and staff of SWACO, the Executive Director also acknowledges the support and efforts of the Board of Trustees. These Board members, who serve without compensation, have provided valuable expertise and guidance to SWACO, and have made a significant investment of time to help the organization achieve its goals.

Sincerely,

Joseph A. Lombardi
Executive Director

Sincerely,

Patrick O'Block

INDEPENDENT AUDITOR'S REPORT

Solid Waste Authority of Central Ohio
Franklin County
4239 London Groveport Road
Grove City, Ohio 43123

To the Board of Trustees:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and each major fund of the Solid Waste Authority of Central Ohio, Franklin County, Ohio (the Authority), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Solid Waste Authority of Central Ohio, Franklin County, Ohio as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2025, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Keith Faber
Auditor of State
Columbus, Ohio

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

The Management's Discussion and Analysis ("MD&A") provides an overview of the financial performance of the Solid Waste Authority of Central Ohio (SWACO) and introduces SWACO's financial statements for the year ended December 31, 2024. The information contained in this MD&A should be considered in conjunction with the information presented in the letter of transmittal, beginning on page 1-1, and SWACO's financial statements and corresponding notes to the financial statements, which follow this section.

Overview of the Financial Statements

SWACO's financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America and promulgated by the Governmental Accounting Standard Board ("GASB"). The financial information of SWACO is accounted for in two enterprise funds in order to reflect limitations and restrictions placed on the use of available resources. The *Operating Fund* is used primarily to account for revenues and expenses related to the operation of SWACO's Sanitary Landfill and solid waste transfer facilities. Except for certain fees restricted to the payment of a lease obligation and related bonds, the fund may be used for any other lawful solid waste management purpose deemed appropriate by the Board of Trustees. Generation Fees in the *Program Fund* are restricted by state statute to certain solid waste reduction, recycling and reuse purposes. Generation fee proceeds are derived from \$5.00 per ton included in the tipping fee, and additional program funds are received from grant income.

Following this MD&A are the basic financial statements of SWACO together with notes, which are essential to a full understanding of the data contained in the financial statements. Included in the financial statements for SWACO are the following:

- **Statement of Net Position** – This statement presents information about all of SWACO's assets, liabilities, and deferred outflows and inflows with the difference between them reported as net position.
- **Statement of Revenues, Expenses and Changes in Net Position** - This statement includes all operating and non-operating revenues and expenses for SWACO and shows the change in SWACO's net position during the most recent year.
- **Statement of Cash Flows** – This statement reports cash and cash equivalent activities for the year. A reconciliation of operating income to net cash provided by operating activities is provided.
- **Notes to the financial statements.** The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.
- **Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning SWACO's funding obligation to provide pension and OPEB benefits to its employees.

Financial Highlights/Overview of 2024

- The assets and deferred outflows of resources for SWACO exceeded its liabilities and deferred inflows of resources at the close of the year ended December 31, 2024, by \$161.3 million (net position). Of SWACO's net position, \$69.6 million is invested in capital assets and is not available for future spending.
- SWACO's total net position increased \$5.3 million during 2024 with the total unrestricted net position being \$70.2 million. The Operating Fund's net position increased by \$4.4 million and the Program Fund net position increased by approximately \$912,000.
- Capital assets increased \$3.9 million from SWACO's investment in ongoing capital projects.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Net position over time may serve as a useful indicator of a government's financial position. In the case of SWACO, assets and deferred outflows of resources exceed liabilities and deferred inflows of resources at the close of the most recent year. The table below provides a summary of SWACO's net position for 2024 compared to 2023.

Net Position

	Operating and Program Funds Combined		
	2023	2024	Change
Assets			
Current and other assets	\$ 99,182,135	\$ 93,928,790	\$ (5,253,345)
Closure/post-closure funds held by Trustee	33,204,122	35,608,331	2,404,209
Capital assets, net	114,531,727	118,398,747	3,867,020
Lease receivable, less current portion	948,439	854,402	(94,037)
Net OPEB asset	-	479,610	479,610
Total assets	247,866,423	249,269,880	1,403,457
Deferred outflows of resources			
Refundings	900,267	731,809	(168,458)
Pension & OPEB	7,677,051	4,889,577	(2,787,474)
Total deferred outflows of resources	8,577,318	5,621,386	(2,955,932)
Liabilities			
Current liabilities	16,451,845	13,208,706	(3,243,139)
Bonds and notes payable, less current portion	46,622,850	39,774,843	(6,848,007)
Landfill closure/post-closure liability	19,096,642	24,270,064	5,173,422
Compensated leave, less current portion	100,698	692,990	592,292
Lease payable, less current portion	876,656	793,655	(83,001)
Net pension liability	15,707,032	13,277,133	(2,429,899)
Net OPEB liability	350,291	-	(350,291)
Total liabilities	99,206,014	92,017,391	(7,188,623)
Deferred inflows of resources			
Pension & OPEB	150,057	608,179	458,122
Leases	1,036,483	934,156	(102,327)
Total deferred inflows of resources	1,186,540	1,542,335	355,795
Net position			
Net investment in capital assets	61,795,478	69,558,846	7,763,368
Restricted	22,782,085	21,604,910	(1,177,175)
Unrestricted	71,473,624	70,167,784	(1,305,840)
Total net position	\$ 156,051,187	\$ 161,331,540	\$ 5,280,353

For reasons discussed below, many end users of this financial statement will gain a clearer understanding of SWACO's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability (asset) to the reported net position and subtracting deferred outflows related to pension and OPEB.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability (asset) to equal SWACO's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, SWACO is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, SWACO's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability (asset), respectively, not accounted for as deferred inflows/outflows.

Total assets slightly increased from the prior year primarily due to investments, landfill capital assets, accounts receivable, net and slightly offset by construction in progress decreasing as SWACO put in service its new Fleet and Operations Building costing approximately \$26.1 million dollars.

OPERS experienced a decrease in unfunded pension liabilities during the most recent measurement period, largely driven by strong investment performance. While OPERS reported investment losses in the prior year, significant gains in the current year helped improve their funded positions. The shift from a net OPEB liability to a net OPEB asset was driven by a combination of favorable actuarial assumption changes and robust investment returns.

Other restricted net position includes approximately \$9.8 million pertaining to the Generation Fee, which is used for educational and outreach initiatives. The remaining unrestricted overall net position was \$70.2 million, which may be used to meet SWACO's ongoing obligations for operations.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Combined Revenues, Expenses, and Changes in Net Position

The 2023 and 2024 combined revenue, expenses, and changes in net position of both the Operating and Program Funds are presented and compared below.

Revenues, Expenses, and Changes in Net Position

	Operating and Program Funds Combined		
	2023	2024	Change
Operating revenues:			
Tipping and disposal fees	\$ 42,986,254	\$ 44,338,041	\$ 1,351,787
Waste transfer fees	7,210,943	6,647,416	(563,527)
Generation fees	6,239,460	6,288,417	48,957
Interfund charges	357,258	656,339	299,081
Sale of landfill gas	4,842,292	6,051,045	1,208,753
Other	327,062	234,716	(92,346)
<i>Total operating revenues</i>	<u>61,963,269</u>	<u>64,215,974</u>	<u>2,252,705</u>
Operating expenses:			
Salaries, wages and benefits	14,664,787	16,896,883	2,232,096
Contracts, services and supplies	18,611,312	20,833,523	2,222,211
Solid waste fees	6,150,998	6,342,997	191,999
Depreciation/Amortization	5,032,958	5,383,842	350,884
Landfill depletion	4,708,534	6,827,201	2,118,667
Landfill closing costs	1,053,639	5,173,422	4,119,783
Interfund charges	357,258	656,339	299,081
<i>Total operating expenses</i>	<u>50,579,486</u>	<u>62,114,207</u>	<u>11,534,721</u>
<i>Operating income (loss)</i>	11,383,783	2,101,767	(9,282,016)
Non-operating revenues (expenses):			
Interest expense	(1,802,899)	(1,631,388)	171,511
Investment income	5,734,792	4,890,392	(844,400)
Grants received (awarded)	(112,229)	111,759	223,988
Gain (loss) on sale of assets	78,418	(94,504)	(172,922)
Passthrough Grants	-	(200,000)	(200,000)
Lease revenue	55,109	102,327	47,218
<i>Total non-operating expenses, net</i>	<u>3,953,191</u>	<u>3,178,586</u>	<u>(774,605)</u>
<i>Change in Net Position</i>	15,336,974	5,280,353	(10,056,621)
<i>Total net position - beginning</i>	<u>140,714,213</u>	<u>156,051,187</u>	<u>15,336,974</u>
<i>Total net position - ending</i>	<u>\$156,051,187</u>	<u>\$161,331,540</u>	<u>\$ 5,280,353</u>

Total operating expenses for salaries, wages, and benefits; contracts, services, and supplies; landfill depletion and closure costs increased significantly from the prior year. Salaries, wages, and benefits increased primarily due to increased headcount from prior year. Contacts, services, and supplies increased due to increasing costs and implementing the ERP system.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Collectively, depletion and closure expense increased by approximately \$6.2 million over the prior year. Landfill depletion expense is up approximately \$2.1 million from the previous year while closure expense increased approximately \$4.1 million from prior year. The major change from year to year is associated with the updated unit costs, additional infrastructure costs, and timing of the useful life of the landfill.

Non-operating revenues and expenses net to a revenue of approximately \$3.2 million, an overall decrease of approximately \$775,000 from 2023, due to a decrease in investment earnings including interest rates and investment returns in 2024 being less favorable compared to 2023.

The following table provides a comparison of net position for SWACO's enterprise funds as of December 31, 2023, and 2024:

	Net Position 12/31/2023	Net Position 12/31/2024	Increase (Decrease)
Operating Fund	\$ 146,515,849	\$ 150,884,392	\$ 4,368,543
Program Fund	9,535,338	10,447,148	911,810

Operating Fund

The Operating Fund net position increased \$4.4 million despite an increase in operating expenses.

Restricted net position includes funds held by a trustee (EPA Trust Fund) for closure of the Franklin County Sanitary Landfill, net of the accrued liability for closure and post-closure care of the landfill. As of December 31, 2024, the EPA Trust Fund value was approximately \$35.4 million, and the recorded closure liability was approximately \$24.3 million.

Program Fund

Total net position increased approximately \$912,000 from the prior year.

Overall, operating revenues and expenses remained relatively constant when compared to prior year. Non-operating transactions consisted of grant activities and interest earnings. This accounted for an increase of approximately \$0.2 million, primarily in interest earnings.

The increase in net position is primarily attributable to an increase in cash and cash equivalents resulting from interest income on outstanding balances and the overall timing of grants and project expenses.

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

Capital Assets

SWACO's investments in capital assets include the Sanitary Landfill and related facilities and equipment, two transfer stations, a fleet maintenance facility, a landfill operations facility, the administrative office building and furnishings, and solid waste transfer vehicles and related equipment. The following table compares SWACO's investments in capital assets in the Operating and Program Funds as of the end of 2023 and 2024.

	Capital Assets					
	Operating Fund			Program Fund		
	2023	2024	Change	2023	2024	Change
<i>Capital assets not being depreciated/depleted/amortized:</i>						
Land and land improvements	\$ 24,206,806	\$ 24,206,806	\$ -	\$ -	\$ -	\$ -
Construction in progress	26,777,899	4,627,543	(22,150,356)	-	61,425	61,425
<i>Capital assets, net of accumulated depreciation, amortization and depletion:</i>						
Equipment and furnishings	7,054,921	8,467,295	1,412,374	540,931	364,669	(176,262)
Buildings and improvements	4,731,055	3,648,149	(1,082,906)	319,802	210,374	(109,428)
Transfer stations	4,842,717	4,314,632	(528,085)	-	-	-
Sanitary landfill	45,101,543	71,628,715	26,527,172	-	-	-
Right of use asset (intangible)	956,053	869,139	(86,914)	-	-	-
<i>Total capital assets, net</i>	<u>\$ 113,670,994</u>	<u>\$ 117,762,279</u>	<u>\$ 4,091,285</u>	<u>\$ 860,733</u>	<u>\$ 636,468</u>	<u>\$ (224,265)</u>

The increase in the Operating Fund's capital asset balance is primarily the construction of a new building that is included in the Sanitary landfill line item.

The Program Fund's construction in progress increased due to the preliminary costs of a new ERC being planned.

See Note 6 for additional details of SWACO's capital asset activity during the year.

Debt Administration

SWACO's outstanding debt as of December 31, 2023, and 2024 is shown in the following table:

	Outstanding Long-Term Debt		
	2023	2024	Change
General obligation bonds, net	\$ 52,677,850	\$ 46,114,843	\$ (6,563,007)
Lease payable	958,666	876,656	(82,010)
Total	<u>\$ 53,636,516</u>	<u>\$ 46,991,499</u>	<u>\$ (6,645,017)</u>

SWACO

Management's Discussion & Analysis for the Year Ended December 31, 2024 (unaudited)

SWACO's ability to issue un-voted general obligation debt is subject to overlapping debt restrictions with other political subdivisions, but there is not a statutory direct debt limit on SWACO's ability to issue general obligation or revenue bonds. SWACO's debt capacity is more limited by market forces and its ability to raise tipping fees to levels required to pay debt service.

SWACO's general obligation bonds carry an AAA rating by Standard and Poor's and an Aaa rating by Moody's Investors Service. SWACO's debt management program is discussed in more detail in Note 10 of the financial statements (Debt Management).

Economic Factors

Solid waste tons received at SWACO's facilities during 2024 were 1,261,034 tons versus 2023 receipts of 1,232,493 tons.

Request for Information

This financial report is designed to provide a general overview of SWACO's finances and to show accountability for money received by SWACO. SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

1. Organization

The Solid Waste Authority of Central Ohio (SWACO) is a political subdivision of the State of Ohio, established in 1989 to develop and implement a comprehensive solid waste management plan for the Franklin County Solid Waste Management District (the “District,” principally Franklin County, but also including parts of five adjacent counties). SWACO is governed by a nine-member Board of Trustees appointed pursuant to statute. The Board consists of two members appointed by the Franklin County Board of County Commissioners (the “County”), two members appointed by the City of Columbus (the “City”), and additional members representing the County Board of Health, townships within SWACO, waste generators and the general public. As a governmental authority, SWACO is exempt from federal, state and local taxes. SWACO operates autonomously from the County and City, and the County and City have no fiscal responsibility for the operations of SWACO.

SWACO operates a sanitary landfill (the “Sanitary Landfill”) and two solid waste transfer facilities supported by tipping fees charged for solid waste disposal and transfer services at these facilities. SWACO also provides recycling programs, yard waste composting services, public education programs, and other activities designed to reduce the generation and disposal of solid waste within SWACO's jurisdiction. SWACO's waste-reduction activities are supported by a \$5.00 per ton waste Generation Fee levied on a majority of solid waste generated within the District.

The Sanitary Landfill was purchased from Franklin County in 1991. The Ohio Environmental Protection Agency (“OEPA”) approved a modification to the original County permit in 1997 increasing disposal capacity by approximately 49 million cubic yards (from 10.7 million cubic yards) and increasing the landfill acreage to 363 acres from approximately 116 acres. The modified permit allowed both vertical and horizontal expansion of the landfill. In 2008, SWACO submitted an application to the OEPA to further modify the permit to change the configuration of the landfill and further increase capacity. The modification was approved by the OEPA in 2009 and added approximately 3.5 million cubic yards of disposal capacity (see Note 5 – Closure/Post-closure Funds Held by Trustee). In 2018, SWACO received a new permit-to-install which allowed more airspace for disposal. SWACO estimates that it has sufficient landfill capacity to service the needs of the District for at least 40.2 years based on 2024 receipts.

As part of the purchase of the currently operating landfill, SWACO also acquired the Model Landfill, the County's closed former landfill. The Model Landfill has been closed since 1985, and SWACO assumed ongoing monitoring and closure requirements for the landfill when it was transferred from the County. In 1999, SWACO leased the landfill to a private entity to develop a public golf course on the site in conjunction with a project to remediate the landfill cap. On January 15, 2014, SWACO entered into an asset purchase agreement with Phoenix Golf Links, Ltd. to acquire all their operating assets located at SWACO's closed Model Landfill. The assets were purchased for \$2,375,000 and a related Model Landfill lease agreement was terminated at the same time. The golf course operation was closed in March 2015 due to declining revenue and excess costs.

SWACO derives its revenue principally from fees levied on the disposal of solid waste. SWACO collects these fees in two ways: 1) tipping fees charged for solid waste disposal and waste transfer services provided at SWACO facilities; and 2) fees assessed on all solid waste generated within the District. These fees are established pursuant to authorization within the Ohio Revised Code (“ORC”) and agreements established with private landfill owners. SWACO had one customer which accounted for approximately 26.8% of SWACO's total operating revenues for the year ended December 31, 2024. The customer accounted for approximately 26.2% of accounts receivable, trade at December 31, 2024.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statements, in that the statements include all organizations, activities, and functions for which SWACO (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization, and either SWACO's ability to impose its will over the organization's governing body or the possibility that the organization will provide a financial benefit to, or impose a financial burden on, SWACO. There are no potential component units that meet the criteria imposed by GASB Statements included in SWACO's reporting entity.

2. Summary of Significant Accounting Policies

The significant accounting policies followed in preparation of these financial statements are summarized below. The accounting policies and financial reporting practices of SWACO conform to accounting principles generally accepted in the United States of America for governmental units as prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources.

Measurement focus and basis of accounting: SWACO's funds are accounted for on a flow of economic resources measurement focus, and the financial statements have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned, and expenses are recorded when incurred.

Proprietary Fund: SWACO operates as an enterprise fund. Enterprise funds are used to account for the costs of providing goods or services to the general public on a continuing basis which are financed or recovered primarily through user charges or to report any activity for which a fee is charged to external users for goods or services, regardless of whether the government intends to fully recover the cost of the goods or services provided.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of SWACO are charges to customers for disposal services.

Basis of presentation: SWACO reports the following major proprietary funds:

The *Operating Fund* receives all income derived from the operations of SWACO's landfill and waste transfer facilities including tipping fees, waste transfer fees, investment income, and certain other revenues. Revenues are used to support the operations of SWACO's solid waste facilities and to pay certain costs of discontinued operations of SWACO. Operating Fund revenues are derived primarily from rates and charges established pursuant to ORC Section 343.08.

The *Program Fund* receives Generation Fees authorized by ORC Section 3734.57 paid on waste generated in the Solid Waste District and disposed of at SWACO's landfill or out-of-district landfills. Revenues are used only to support solid waste recycling, reuse, and reduction programs operated by SWACO in support of SWACO's solid waste plan. Interfund charges shown in the Program Fund under operating expenses are comprised of charges to the Program Fund for administrative and operational support.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Financial Statement Items

Cash and cash equivalents: SWACO considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents. SWACO follows GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, and discloses custodial, credit, and interest rate risks associated with cash and investments. The Statement of Cash Flows includes cash and cash equivalents as well as restricted cash and cash equivalents held by the trustee for the landfill closure/post-closure care.

Investments: Investments are carried at fair value, including accrued interest receivable. Unrealized gains and losses resulting from changes in fair value are reported as adjustments to investment income. SWACO does not invest in any form of derivatives or reverse repurchase agreements. SWACO's cash and investments are discussed in more detail in Note 3 (Cash and Investments).

Accounts receivable: SWACO extends credit to public and private customers of the landfill, transfer stations, and other SWACO facilities and reports amounts owed to SWACO net of any allowance for bad debts. As of December 31, 2024, the allowance for bad debt was zero. Accounts receivable also includes amounts owed by private transfer stations and landfills for solid waste received at the facilities, generated within the boundaries of SWACO and subject to the Generation Fee.

Restricted Assets: As discussed further in Note 4 (Restricted Assets), certain SWACO assets are restricted for debt service, capital projects, by State law, or for other purposes. When both restricted and unrestricted resources are available for a particular purpose, it is SWACO's discretion to use restricted resources first.

Landfill and Property, Plant, and Equipment: SWACO records asset acquisitions at cost and provides for depreciation in amounts adequate to amortize cost over the estimated useful lives of the assets using a straight-line method for financial reporting purposes, except for its landfill, which is depleted using a units-of-production method. The cost of buildings and equipment is depreciated using a straight-line method over their estimated useful lives of 10 to 20 years for buildings and 5 to 10 years for equipment. The capitalization threshold for capital assets is \$10,000. Maintenance, repairs and minor renewals are charged to expense as incurred, while major renewals and betterments are capitalized. The cost and related accumulated depreciation of assets sold or otherwise disposed of are removed from the related accounts, and resulting gains or losses are reflected in income.

Right of Use Assets: SWACO is reporting intangible right to use assets related to technology infrastructure. This intangible asset is being amortized in a systemic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Impairment of capital assets: SWACO will review a capital asset for possible impairment when events or changes in circumstances suggest that the service utility of the capital asset may have significantly and unexpectedly declined. If it is determined that the service utility has significantly declined and that decline is unexpected, then SWACO will declare the asset impaired. The amount of impairment is determined by management based on a variety of factors including the asset's carrying value and the potential cash flows expected to be generated from that asset.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Compensated Absences: SWACO recognizes a liability for compensated absences for the leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled during or upon separation from employment under the last-in-first-out flow assumption. The liability for compensated absences is reported as incurred.

Bond premiums: Bond premiums are included in bonds payable and are amortized over the term of the bonds using the effective interest rate method.

Bond issuance cost and deferred amounts on refundings: Bond issuance costs are expensed when incurred. Deferred amounts on refundings are recorded as a deferred outflow, and are amortized using the effective interest rate method over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Net Position: Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. *Net investment in capital assets* consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for acquisition, construction or improvements of those assets. Any unspent capital related to debt proceeds does not reduce *Net investment in capital assets*. Net position is reported as restricted when there are external restrictions imposed on their use, either contractually, by debt covenant, or by statute. SWACO applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification: Certain prior year amounts may be reclassified for consistency with current year presentation. These reclassifications would have no effect on the reported results.

Deferred Outflows/Inflows of Resources: In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense) until then. For SWACO, deferred outflows of resources are reported on the statement of net position for pension (explained in Note 8 - Net Pension Liability), OPEB (explained in Note 9 - Defined Benefit OPEB Plans), and debt refundings. In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For SWACO, deferred inflows of resources are reported on the statement of net position for pension and OPEB explained in Notes 8 and 9, respectively. The deferred inflows related to leases are explained in Note 7.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Refundings: The issuance of refunding bonds resulted in a difference between the acquisition cost and the net carrying amount. This difference, reported in the financial statements as a deferred outflow of resources, is being amortized over the life of the bonds. More explanation is included in Note 10 (Debt Management).

Pensions/Other Postemployment Benefits (OPEB): For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Implementation of New Accounting Principles: For the year ended December 31, 2024, SWACO has implemented certain provisions of GASB Statement No. 99, *Omnibus 2022*, GASB Statement No. 100, *Accounting Changes and Error Corrections-an amendment of GASB Statement No. 62*, and GASB Statement No. 101, *Compensated Absences*.

GASB Statement No. 99 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of certain provisions of GASB Statement No. 99 that relate to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 did not have an effect on the financial statements of SWACO.

GASB Statement No. 100 enhances accounting and financial reporting requirements for accounting changes and error corrections to provide a more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessment accountability. The implementation of GASB Statement No. 100 did not have an effect on the financial statements of SWACO.

GASB Statement No. 101 updates the recognition and measurement guidance for compensated absences to promote consistency and better meet the information needs of financial statement users. The unified recognition and measurement model in this Statement will result in a liability for compensated absences that more appropriately reflects when a government incurs an obligation. These changes were incorporated into SWACO's 2024 financial statements; however, there was no effect on beginning net position.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

3. Cash and Investments

SWACO pools its cash and investments except for funds held by a trustee for landfill closure/post-closure care and funds held in escrow.

Deposits: Protection of SWACO's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments: SWACO has adopted a formal investment policy in accordance with Section 135 of the ORC, the "Uniform Depository Act." Safety of principal is the foremost objective of the investment policy. Maintaining sufficient liquidity to meet SWACO's cash flow needs and return on investment are secondary goals of the policy. SWACO does not purchase any form of derivative.

In accordance with the ORC and SWACO's investment policy, SWACO is authorized to invest in: 1) bonds, notes, or other obligations of, or guaranteed by, the United States, or those for which the faith of the United States is pledged for the payment of principal and interest; 2) bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality; 3) certificates of deposit purchased from qualified banks and savings and loans; 4) bond and other obligations of the State of Ohio; 5) no-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; 6) the State Treasury Asset Reserve of Ohio managed by the Treasurer of the State of Ohio (STAR Ohio); and 7) subject to certain restrictions and limitations, short-term commercial paper and bankers acceptances.

During 2024, SWACO invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. SWACO measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value. Financial information may be obtained by visiting <http://www.tos.ohio.gov/starohio/>.

STAR Ohio reserves the right to limit participant transactions to \$250 million per day. Transactions in all of a participant's accounts will be combined for this purpose. Twenty-four hours advance notice to STAR Ohio is appreciated for purchases or redemptions of \$100 million or more. For 2024, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Money Market Mutual Funds: The Money Market Mutual Funds consist of overnight investments with a financial institution in an open-end, institutional money market fund complying with SEC Rule 2a-7 and investing only in U.S. government or agency securities pursuant to SWACO's investment policy. In accordance with the provisions of GASB Statement No. 72 these amounts are classified as investments but are not categorized.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Interest Rate Risk: It is SWACO's policy to manage interest rate risk by targeting the duration of the portfolio. Management of interest rate risk is an integral part of an overall process that addresses total return, reinvestment risk, interest rate risk and credit risk.

Credit Risk: It is SWACO's policy to invest only in securities rated in the highest rating category (AAA/Aaa or A-1+/P-1/F1+) by at least one of the nationally recognized rating agencies (Standard & Poor's, Moody's Investors Service, and Fitch). SWACO's investment in federal agency coupon or discount securities meet these criteria. Investments in U.S. Agencies and the money market funds were rated AAA and AAAM, respectively, by S&P Global Ratings and Aaa by Moody's Investor Services. STAR Ohio was rated AAAM by S&P Global ratings. Negotiable certificates of deposit are fully covered by FDIC. Investments in U.S. government treasury securities are not considered to have credit risk.

The chart on the next page summarizes SWACO's investments at fair value as of December 31, 2024:

Investments at December 31, 2024

	Measurement Value	Maturity in Years		% of Portfolio
		Less than 1	1-4	
<u>Operating and Program Funds</u>				
STAR Ohio	\$ 51,296	\$ 51,296	\$ -	0.04%
STAR Ohio Program Fund	5,320,660	5,320,660	-	4.48%
Money market mutual funds	666,908	666,908	-	0.56%
Commercial paper	3,642,917	3,642,917	-	3.07%
Federal agency securities	71,208,463	12,918,885	58,289,578	59.95%
Negotiable certificates of deposit	2,471,672	-	2,471,672	2.08%
	<u>83,361,916</u>	<u>22,600,666</u>	<u>60,761,250</u>	
<u>Closure/Post-closure Trust Fund</u>				
Money market mutual funds	61,752	61,752	-	0.05%
Commercial paper	2,680,278	2,680,278	-	2.26%
Federal agency securities	30,278,885	4,328,305	25,950,580	25.49%
Negotiable certificates of deposit	2,396,891	244,252	2,152,639	2.02%
	<u>35,417,806</u>	<u>7,314,587</u>	<u>28,103,219</u>	
Total	<u>\$ 118,779,722</u>	<u>\$ 29,915,253</u>	<u>\$ 88,864,469</u>	<u>100.00%</u>

Concentration of Credit Risk: SWACO will diversify investments by security type and institution limiting investment in any one non-treasury or non-U.S. Government Agency issuer to twenty-five percent (25%) of the market value of the portfolio. As of December 31, 2024, no single issuer outside of Treasury or U.S. Government Agency securities exceeded the 25% limit .

SWACO categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies SWACO's recurring fair value measurements as of December 31, 2024. SWACO's fair value investments are Level 2 since they are valued using

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators and industry and economic events are also monitored which could require the need to acquire further market data.

As further discussed in Note 4 (Restricted Assets), cash in the amount of \$9,765,101 in the Program Fund was restricted at December 31, 2024, for debt service, capital projects, by State law, or for other purposes.

4. Restricted Assets/Net Position

Operating Fund: Restricted cash in the Operating Fund represents debt service accounts, capital improvement accounts (bond proceeds) and assets held by trustee (Note 5) for landfill closure/post-closure care. Restricted net position represents amounts restricted for landfill closure and post-closure care costs further explained in Note 11.

Program Fund: Restricted net position represents unexpended Generation Fees collected by SWACO that are restricted by State statute for the purpose of solid waste recycling, reuse, and reduction programs and implementation of SWACO's solid waste plan.

5. Closure/Post-Closure Funds Held by Trustee

In 1995, SWACO established a trust fund (the "Fund") with U.S. Bank for the benefit of the OEPA under OEPA rules applicable to SWACO requiring the owner or operator of a solid waste facility to provide financial assurance that funds will be available when needed for final closure, post-closure care, and/or corrective measures of the facility when the landfill stops accepting waste (either when at maximum capacity or if closed for other reasons). The amount to be funded for the financial assurance instrument, which is established in the landfill permit, and is subject to change due to inflation or other factors, is based on the maximum exposure of unclosed landfill area allowed in the permit and is calculated differently than SWACO's Landfill Closure Cost estimate for purposes of GASB Statement No. 18 (see Note 11 – Landfill Closure and Post-Closure Care Costs). The amount to be funded for the financial assurance estimate is paid in annual installments, called pay-in periods. Annual payments are made by SWACO and are calculated by dividing the financial assurance requirement less cash and investments in the Fund as of the calculation date by the number of years remaining in the pay-in period (eighteen years as of December 31, 2024).

The required fund payment in 2024 was approximately \$1,050,000. This value may be reviewed and updated in accordance with updated estimates for the closure liability.

The Fund is restricted by the Director of the OEPA, and SWACO invests in those securities authorized by the ORC and SWACO's investment policy (see Note 3 – Cash and Investments).

All amounts earned by the investments are reinvested in the Fund.

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

6. Capital Assets

The sanitary landfill and buildings and equipment are stated at cost and updated for the cost of additions and retirements during the year. It is SWACO's policy to capitalize items costing more than \$10,000 with a useful life greater than one year. The cost of buildings and equipment is depreciated using a straight-line method over their estimated useful lives of 10 to 20 years for buildings and 5 to 10 years for equipment.

Landfill development costs (land acquisition, engineering, construction and other direct costs associated with the permitting, development, and construction of landfill capacity) are capitalized and depleted based on the percentage of permitted capacity used during the year. Depletion is calculated based on cubic yards of solid waste disposed and placed in the landfill as measured through an annual aerial survey. Costs associated with development of the entire landfill, including cell construction, are depleted based on the percentage of total permitted capacity used (approximately 32.4% as of December 31, 2024).

As of the end of 2024, SWACO estimates total landfill development costs at approximately \$281.3 million, including approximately \$129.3 million expended through 2024 (including construction in progress) and approximately \$152.0 million estimated future costs to be expended over the remaining life of the landfill. SWACO recognized total accumulated depletion of \$91.2 million as of December 31, 2024, leaving an estimate of \$190.0 million in depletion expense over the remaining life of the landfill.

SWACO reports a right of use asset in accordance with GASB No. 87 for leased technology infrastructure assets.

A summary of capital assets at December 31, 2024, is shown on the following page.

* This space intentionally left blank. *

SWACO
Notes to Financial Statements

7. Lease Receivable

SWACO leases a building it owns, on property owned by the City of Columbus, to a third party. The term of the lease is eighteen years remitted in monthly payments to SWACO. SWACO also subleases property to a third party. After the current five years, the lease contains two more renewal options of five years each with payments remitted annually to SWACO.

SWACO is reporting a lease receivable that represents the discounted future monthly lease payments. The discount is being amortized using the straight-line method. For 2024, SWACO reported lease revenue of \$102,327 and interest revenue of \$12,536.

A summary of future payments to be received is as follows:

Year	Principal	Interest	Total
2025	\$ 89,538	\$ 12,949	\$ 102,487
2026	95,496	11,490	106,986
2027	96,977	10,009	106,986
2028	98,477	8,509	106,986
2029	105,012	6,974	111,986
2030 - 2034	250,494	22,578	273,072
2035 - 2038	207,946	6,623	214,569

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

8. Defined Benefit Pension Plan

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions – between an employer and its employees — of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents SWACO’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits SWACO’s obligation for the liability to annually required payments. SWACO cannot control benefit terms or the manner in which pensions/OPEB are financed; however, SWACO does receive the benefit of employees’ services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* and *net OPEB liability (asset)*. Any liability for the contractually-required pension/OPEB contributions outstanding at the end of the year is included in accrued wages and benefits.

The remainder of this note includes the pension disclosures. See Note 9 for the OPEB disclosures.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description – SWACO employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple employer public employee retirement system which administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Effective January 1, 2022, new members may no longer select the Combined Plan, and current members may no longer make a plan change to this plan. In October 2023, the

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

legislature approved House Bill (HB) 33 which allows for the consolidation of the combined plan with the traditional plan with the timing of the consolidation at the discretion of OPERS. As of December 31, 2023, the consolidation has not been executed. (The latest information available.) Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan. Substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

State and local members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests at retirement.

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

When a benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the member's original base retirement benefit at the date of retirement and is not compounded. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>State and Local</u>
2024 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee	10.0 %
2024 Actual Contribution Rates	
Employer:	
Pension	14.0 %
Post-employment Health Care Benefits	<u>0.0</u>
Total Employer	<u>14.0 %</u>
Employee	<u>10.0 %</u>

Employer contribution rates are actuarially determined within the constraints of statutory limits for each division and expressed as a percentage of covered payroll. SWACO's contractually required contribution was \$1,448,368 for 2024. Of this amount, \$184,227 is reported as accrued wages and benefits.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. SWACO's proportion of the net pension liability was based on SWACO's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS</u>
Proportion of the Net Pension Liability:	
Current Measurement Period	0.050714%
Prior Measurement Period	<u>0.053172%</u>
Change in Proportion	<u>-0.002458%</u>
Proportionate Share of the Net	
Pension Liability	\$ 13,277,133
Pension Expense	\$ 1,485,892

Other than contributions made subsequent to the measurement date and differences between projected and actual earnings on investments; deferred inflows/outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions, determined as of the beginning of the measurement period. Net deferred inflows/outflows of resources pertaining to the differences between projected and actual investment earnings are similarly recognized over a closed five year period. At December 31, 2024, SWACO reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

	<u>OPERS</u>
Deferred Outflows of Resources	
Net Difference between Projected and Actual	
Earnings on Pension Plan Investments	\$ 2,679,892
Differences between Expected and	
Actual Experience	217,004
Changes in Proportionate Share and	
Differences in Contributions	115,184
SWACO Contributions Subsequent	
to the Measurement Date	<u>1,448,368</u>
Total Deferred Outflows of Resources	<u>\$ 4,460,448</u>
Deferred Inflows of Resources	
Changes in Proportionate Share and	
Differences in Contributions	<u>\$ 331,688</u>
Total Deferred Inflows of Resources	<u>\$ 331,688</u>

\$1,448,368 reported as deferred outflows of resources related to pension resulting from SWACO contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	<u>OPERS</u>
2025	\$ 540,318
2026	811,522
2027	1,710,157
2028	<u>(381,605)</u>
Total	<u>\$ 2,680,392</u>

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2022, using the following key actuarial assumptions and methods applied to all periods included in the measurement in accordance with the requirements of GASB 67:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

	OPERS Traditional Plan
Wage Inflation	2.75 percent
Future Salary Increases, including inflation	2.75 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA:	
Pre-January 7, 2013 Retirees	3.0 percent, simple
Post-January 7, 2013 Retirees (Current Year)	2.3 percent, simple through 2024, then 2.05 percent, simple
Post-January 7, 2013 Retirees (Prior Year)	3.0 percent, simple through 2023, then 2.05 percent, simple
Investment Rate of Return	6.9 percent
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females). Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females). For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a gain of 11.2 percent for 2023.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant. For each major class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized below:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	24.00%	2.85%
Domestic Equities	21.00	4.27
Real Estate	13.00	4.46
Private Equity	15.00	7.52
International Equities	20.00	5.16
Risk Parity	2.00	4.38
Other investments	5.00	3.46
Total	100.00%	

Discount Rate The discount rate used to measure the total pension liability for the current year was 6.9 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of SWACO's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents SWACO's proportionate share of the net pension liability calculated using the current period discount rate assumption of 6.9 percent, as well as what SWACO's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.9 percent) or one-percentage-point higher (7.9 percent) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
SWACO's Proportionate Share of the Net Pension Liability	\$ 20,901,775	\$ 13,277,133	\$ 6,935,647

9. Net OPEB Liability (Asset)

See Note 8 for a description of the net OPEB liability (asset).

Ohio Public Employees Retirement System (OPERS)

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. Substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust. The 115 Health Care Trust (115 Trust or Health Care Trust) was established in 2014, under Section 115 of the Internal Revenue Code (IRC). The purpose of the 115 Trust is to fund health care. The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code. Retirees may have an allowance deposited into a health reimbursement arrangement (HRA) account to be

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

used toward the health care program of their choice and other eligible expenses. An OPERS vendor is available to assist with the selection of a health care program.

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

OPERS members retiring with an effective date of January 1, 2022, or after must meet the following health care eligibility requirements to receive an HRA allowance:

Age 65 or older Retirees Minimum of 20 years of qualifying service credit

Age 60 to 64 Retirees Based on the following age-and-service criteria:

Group A 30 years of total service with at least 20 years of qualified health care service credit;

Group B 31 years of total service credit with at least 20 years of qualified health care service credit; or

Group C 32 years of total service cred with at least 20 years of qualified health care service credit.

Age 59 or younger Based on the following age-and-service criteria:

Group A 30 years of qualified health care service credit;

Group B 32 years of qualified health care service credit at any age or 31 years of qualified heath care service credit and at least age 52; or

Group C 32 years of qualified health care service credit and at least age 55.

A retiree from groups A, B or C who qualifies for an unreduced pension, but a portion of their service credit is not health care qualifying service, can still qualify for health care at age 60 if they have at least 20 years of qualifying health care service credit.

Retirees who don't meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Members with a retirement date prior to January 1, 2022, who were eligible to participate in the OPERS health care program will continue to be eligible after January 1, 2022, as summarized in the following table:

Group A	Group B	Group C
Age and Service Requirements <i>December 1, 2014 or Prior</i>	Age and Service Requirements <i>December 1, 2014 or Prior</i>	Age and Service Requirements <i>December 1, 2014 or Prior</i>
Any Age with 10 years of service credit	Any Age with 10 years of service credit	Any Age with 10 years of service credit
Age and Service Requirements <i>January 1, 2015 through December 31, 2021</i>	Age and Service Requirements <i>January 1, 2015 through December 31, 2021</i>	Age and Service Requirements <i>January 1, 2015 through December 31, 2021</i>
Age 60 with 20 years of service credit or Any Age with 30 years of service credit	Age 52 with 31 years of service credit or Age 60 with 20 years of service credit or Any Age with 32 years of service credit	Age 55 with 32 years of service credit or Age 60 with 20 years of service credit

See the Age and Service Retirement section of the OPERS ACFR for a description of Groups A, B and C.

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are provided to eligible retirees, and are deposited into their HRA account.

The base allowance is determined by OPERS and is currently \$1,200 per month for non-Medicare retirees and \$350 per month for Medicare retirees. The retiree receives a percentage of the base allowance, calculated based on years of qualifying service credit and age when the retiree first enrolled in OPERS health care. Monthly allowances range between 51 percent and 90 percent of the base allowance for both non-Medicare and Medicare retirees.

Retirees will have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan.

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50 percent of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2024, state and local employers contributed at a rate of 14.0 percent of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2024, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan. Beginning July 1, 2022, there was a two percent allocation to health care for the Combined Plan which has continued through 2024. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2024 was 4.0 percent. Effective July 1, 2022, a portion of the health care rate was funded with reserves which has continued through 2024.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. SWACO's contractually required contribution was \$0 for 2024.

Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB liability (asset) and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2022, rolled forward to the measurement date of December 31, 2023, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. SWACO's proportion of the net OPEB liability (asset) was based on SWACO's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	<u>OPERS</u>
Proportion of the Net OPEB Liability (Asset):	
Current Measurement Period	0.053141%
Prior Measurement Period	<u>0.055556%</u>
Change in Proportion	<u>-0.002415%</u>
Proportionate Share of the Net	
OPEB Asset	\$ (479,610)
OPEB Expense	\$ (51,728)

At December 31, 2024, SWACO reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

	<u>OPERS</u>
Deferred Outflows of Resources	
Net Difference between Projected and Actual	
Earnings on OPEB Plan Investments	\$ 288,031
Changes of Assumptions	123,476
Changes in Proportionate Share and	
Differences in Contributions	17,622
Total Deferred Outflows of Resources	<u>\$ 429,129</u>
Deferred Inflows of Resources	
Differences between Expected and

Changes of Assumptions	206,170
Changes in Proportionate Share and	
Differences in Contributions	2,059
Total Deferred Inflows of Resources	<u>\$ 276,491</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31:	<u>OPERS</u>
2025	\$ (2,015)
2026	27,702
2027	224,208
2028	(97,257)
Total	<u>\$ 152,638</u>

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The actuarial valuation used the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

Wage Inflation	2.75 percent
Projected Salary Increases,	2.75 to 10.75 percent
	including wage inflation
Single Discount Rate	5.70 percent
Prior Year Single Discount Rate	5.22 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate	3.77 percent
Prior Year Municipal Bond Rate	4.05 percent
Health Care Cost Trend Rate	5.5 percent, initial
	3.50 percent, ultimate in 2038
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females). Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females). For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2023, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for eligible members. Within the Health Care portfolio, if any contributions are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 14.0 percent for 2023.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2023, these best estimates are summarized in the following table:

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	37.00%	2.82%
Domestic Equities	25.00	4.27
Real Estate Investment Trust	5.00	4.68
International Equities	25.00	5.16
Risk Parity	3.00	4.38
Other investments	5.00	2.43
Total	100.00%	

Discount Rate A single discount rate of 5.70 percent was used to measure the OPEB liability on the measurement date of December 31, 2023; however, the single discount rate used at the beginning of the year was 5.22 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 3.77 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2070. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2070, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of SWACO's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate

The following table presents SWACO's proportionate share of the net OPEB asset calculated using the single discount rate of 5.70 percent, as well as what SWACO's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (4.70 percent) or one-percentage-point higher (6.70 percent) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
SWACO's Proportionate Share of the Net OPEB Liability (Asset)	\$ 263,579	\$ (479,610)	\$ (1,095,236)

Sensitivity of SWACO's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability or asset. The following table presents the net liability or asset calculated using the assumed trend rates, and the expected net OPEB liability or asset if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2024 is 5.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Trend Rate	1% Increase
SWACO's Proportionate Share of the Net OPEB Asset	\$ (499,525)	\$ (479,610)	\$ (457,013)

10. Debt Management

SWACO's outstanding long-term debt is summarized in the following table (excludes related premiums):

Outstanding Bonds as of December 31, 2024

Issue	Amount Issued	Maturities	Interest Rates
Series 2013A	9,375,000	2015 - 2026	1.50% - 4.00%
Series 2013B	9,540,000	2014 - 2032	0.45% - 5.00%
Series 2016	35,360,000	2016 - 2029	3.00% - 5.00%
Series 2019	19,575,000	2019 - 2032	1.75% - 2.75%

Series 2013A Bonds. On August 7, 2013, SWACO issued General Obligation (Limited Tax) Solid Waste Facilities Refunding Bonds, Series 2013A, in the amount of \$9,375,000. The proceeds of the bonds were used to refund \$9,815,000 of the outstanding \$13,540,000 Series 2010 Build America Bonds. At the time of issuance, the federal government provided a 35% subsidy on interest payments for these bonds. On June 20, 2013, SWACO received notification from the Internal Revenue Service that the subsidy would be reduced by 8.7% due to sequestration. This qualified as an extraordinary event and provided SWACO with the opportunity to refund a portion of the Series 2010 Build America Bonds under more favorable terms. The Series 2013A Bonds bear interest ranging from 1.5% to 4.0% with maturities of 13 years. The bonds are un-voted general obligations of SWACO and contain a pledge of the full faith and credit of SWACO for the payment of the principal and interest on the bonds when due.

Series 2013B Bonds. On August 7, 2013, SWACO issued General Obligation Taxable Solid Waste Facilities Refunding Bonds, Series 2013B, in the amount of \$9,540,000. The proceeds of the bonds were used to: refund \$340,000 of the outstanding \$1,495,000 Series 2004B bonds; refund \$1,140,000 of the outstanding \$19,165,000 Series 2008 bonds; and refund \$7,005,000 of the outstanding \$79,015,000 Series 2012 Bonds. In January 2013, SWACO entered into an agreement to lease land to a third party. The land leased qualified as private use, necessitating the defeasance of portions of Series 2004B, Series 2008 and Series 2012 under the Internal Revenue Code of 1986. The defeased tax- exempt bonds were refunded as taxable bonds with Series 2013B. The Series 2013B Bonds bear interest ranging from 0.45% to 5.0% with maturities of 19 years. The bonds are un-voted general obligations of SWACO and contain a pledge of the full faith and credit of SWACO for the payment of the principal and interest on the bonds when due.

Series 2016 Bonds: On December 20, 2016, SWACO issued General Obligation (Limited Tax) Solid Waste Facilities Refunding Bonds, Series 2016, in the amount of \$35,360,000. The proceeds of the bonds were used to: refund \$12,755,000 of the outstanding \$14,665,000 Series 2008 bonds, refund \$3,725,000 of the outstanding \$3,725,000 Series 2010 bonds, and \$19,795,000 of the outstanding \$57,920,000 Series 2012 bonds.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

Series 2019 Bonds: On December 19, 2019, SWACO issued General Obligation (Limited Tax) Solid Waste Facilities Refunding Bonds, Series 2019 (Taxable), in the amount of \$19,575,000. The Series 2019 Bonds were issued for the purposes of paying part of the cost of refunding a portion of the following obligations of SWACO (collectively, the “Refunded Prior Bonds”): \$79,015,000 original principal amount General Obligation (Limited Tax) Solid Waste Facilities Improvement and Refunding Bonds, Series 2012, dated June 1, 2012 (the “Series 2012 Bonds”) and \$9,540,000 original principal amount Taxable Solid Waste Facilities Refunding Bonds, Series 2013B (the “Series 2013 Bonds” and collectively, the “Prior Bonds”), which were issued to finance and refinance the costs of certain facilities constituting solid waste facilities included in the General Facilities Plan of SWACO.

The Series 2019 refunding reduced the debt service payments over the next 13 years by approximately \$1.3 million and obtained an economic gain (difference between the present values of the old and new debt service payments) of approximately \$1.1 million.

It is anticipated that the debt service on the Series 2013A, Series 2013B, Series 2016, and Series 2019 bonds will be paid from SWACO’s tipping fees or other sources of revenues. However, Series 2013A, Series 2013B, Series 2016, and Series 2019 bonds are general obligation bonds secured by a pledge to levy ad valorem property taxes.

The following table summarizes SWACO’s annual debt service requirements to maturity for its general obligation bonds (including general obligation bonds issued by Franklin County on behalf of SWACO), outstanding as of December 31, 2024, categorized by source of payment.

Year ended December 31 2024,	<u>Paid from Tipping Fees</u>	
	<u>Series 2013A, 2013B, 2016, and 2019</u>	
	<u>Principal</u>	<u>Interest</u>
2025	\$6,340,000	\$1,699,803
2026	5,075,000	1,399,503
2027	5,340,000	1,156,593
2028	5,540,000	943,238
2029	5,490,000	729,685
2030 – 2032	<u>17,280,000</u>	<u>912,130</u>
Total	<u>\$45,065,000</u>	<u>\$6,840,952</u>

Legal Debt Margins. SWACO’s debt is not subject to direct debt limitations, but its un-voted general obligation debt (debt authorized by SWACO’s Board of Trustees but not by a vote of the electors) is subject to overlapping debt restrictions with other political subdivisions. These limitations apply to each overlapping county, municipal corporation, school district or other issuing authority. Limitations apply to each county total and are not considered cumulatively. Total debt service charges for any one year of all overlapping debt may not exceed ten mills (1%) of the assessed property value within the overlapping jurisdictions. This determination is made by the respective county auditors each time a subdivision proposes to issue un-voted debt. At the time of SWACO’s most recent un-voted debt issue in 2019 the maximum millage required in any overlapping jurisdictions was 8.8321 mills, leaving a margin of 1.1679 mills.

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

Summary of Debt and Long-Term Obligations

Including the bonds payable, net pension liability, net OPEB liability, leases, and compensated leave balances, long-term liability activity for the year ended December 31, 2024:

Operating and Program Funds	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<i>General obligation bonds payable:</i>					
Series 2013A bonds refunding	\$ 2,390,000	\$ -	\$ (960,000)	\$ 1,430,000	\$ 935,000
Series 2013B bonds refunding	1,700,000	-	(460,000)	1,240,000	485,000
Series 2016 bonds refunding	27,995,000	-	(4,425,000)	23,570,000	4,785,000
Series 2019 bonds refunding	19,035,000	-	(210,000)	18,825,000	135,000
Unamortized bond premiums	1,557,850	-	(508,007)	1,049,843	-
<i>Total general obligation bonds payable, net</i>	<u>52,677,850</u>	<u>-</u>	<u>(6,563,007)</u>	<u>46,114,843</u>	<u>6,340,000</u>
Landfill closure and post-closure liability (Note 11)	19,096,642	5,173,422	-	24,270,064	-
Net pension liability (Note 8)	15,707,032	-	(2,429,899)	13,277,133	-
Net OPEB liability (Note 9)	350,291	-	(350,291)	-	-
Leases (Note 15)	958,666	-	(82,010)	876,656	83,001
Compensated leave*	559,718	182,226	-	741,944	48,954
Total debt and long-term liabilities	<u>\$ 89,350,199</u>	<u>\$ 5,355,648</u>	<u>\$ (9,425,207)</u>	<u>\$ 85,280,640</u>	<u>\$ 6,471,955</u>

*The change in compensated absences is a net change for the year.

11. Landfill Closure and Post-Closure Care Costs

State and federal laws and regulations require SWACO to place a final cover on its Sanitary Landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although final closure and post-closure care costs will be paid only when the last phases of the landfill reach final waste elevation, in accordance with GASB Statement No. 18, Accounting for Municipal Solid Waste Landfill Closure and Post-Closure Care Costs, SWACO reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each Statement of Net Position date.

In calculating the annual depletion, SWACO uses the 2024 final closure cost estimate. The amount reported as Landfill Closure/Post-closure liability as of December 31, 2024, includes \$24.3 million representing the cumulative amount reported based on the use of 32.4% of the estimated capacity of the landfill, including the original permit and modifications in 1997, 2009, and 2018. SWACO will recognize the remaining estimated cost of closure and post-closure care costs as the remaining estimated capacity is filled. Per SWACO's annual report the landfill has a remaining useful life of approximately 40.2 years.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

SWACO also maintains and monitors the Model Landfill, which has been closed since 1985. The Model Landfill is not subject to the same state and federal laws and regulations as the current operating landfill. To manage post-closure costs, SWACO leased the closed landfill to a private entity in 1999 to develop a public golf course on the site and leased the landfill gas collection system and sold the gas rights for the purpose of generating electricity. SWACO no longer carried a Landfill Closure/Post-closure care liability as of December 31, 2016. Future maintenance and repairs such as remediation costs for its gas system will be funded from operating funds.

On January 15, 2014, SWACO entered into an asset purchase agreement with Phoenix Golf Links, Ltd. to acquire all of their operating assets, located at SWACO's closed Model Landfill. The assets were purchased for \$2,375,000 and a related Model Landfill lease agreement was terminated at the same time. In March 2015, SWACO decided to close its golf course operation resulting in a write-down of the golf course clubhouse, land improvements, and deferred outflows of resources.

12. Service Agreements

SWACO entered into an agreement with a yard waste composting organization, to accept and process yard waste delivered by SWACO District constituents. This agreement was effective January 1, 2023, and extends to 2025. SWACO will disburse funds not to exceed \$950,000 annually.

13. Commitments and Contingencies

As the operator of solid waste disposal and transfer facilities, SWACO is subject to environmental regulation by federal, state and local governmental authorities. These authorities have the power to enforce compliance with environmental laws and regulations and to obtain injunctions or impose fines in the case of violations. In addition, SWACO's operation of landfills subjects it to certain operational, monitoring, site maintenance, closure and post-closure obligations. As the result of this extensive regulation, SWACO may become subject to various judicial and administrative proceedings involving federal, state or local regulatory agencies. If these agencies find that SWACO's operations or facilities are not in compliance with applicable environmental regulations or operating permits, they could seek to impose fines on SWACO or to revoke or deny renewal of an operating permit held by SWACO. Failure to correct the problems to the satisfaction of the authorities could lead to curtailed operations or closure of the landfill or transfer stations.

Certain federal and state environmental laws impose strict liability on SWACO for such matters as contamination of water supplies or other environmental damage associated with its operation of solid waste facilities. If such contamination or environmental damage were to occur, the resulting cost to SWACO of corrective measures and cleanup could adversely affect SWACO's financial condition.

14. Risks and Uncertainties

SWACO is exposed to various risks of loss related to torts and general liability; theft of, damage to and destruction of assets; natural disasters; errors and omissions; employee health care claims, settlement claims, and injuries to employees. Insurance policies are procured for buildings and contents and certain equipment. In addition, a crime policy is in effect which covers SWACO for employee theft and dishonesty. There have been no significant changes in insurance coverage since the prior year. Settled claims have not exceeded commercial coverage in any of the past three years. SWACO purchases workers' compensation insurance through the State of Ohio to cover all employees. SWACO also provides life insurance to all full-time employees at an amount equal to \$50,000 or one (1) year's base salary, whichever is greater as well as short-term disability benefit. These benefits are fully insured by SWACO through third parties.

SWACO

Notes to Financial Statements

For the Year Ended December 31, 2024

SWACO purchases property insurance for all buildings and equipment, excluding over-the-road motor vehicles. SWACO maintains \$5.0 million in general liability, public official's liability, and motor vehicle liability insurance for claims in excess of \$1.0 million. SWACO retains the risk for claims of less than \$1.0 million.

SWACO provides health care benefits package to its employees under agreement with Franklin County. The County provides multiple health care benefit plans that cover approximately 6,500 employees of Franklin County, SWACO and other Central Ohio political subdivisions. There are approximately 14,400 plan subscribers when spouses and dependents and domestic partners are counted. During 2024, these benefits included a self-insured participating provider organization medical plan, a prescription drug program, a mental health and chemical dependency program, dental, vision, and employee assistance program (EAP) benefits. The program is administered by third parties who provide claims review and processing. Participating County agencies and other political subdivisions pay their proportionate shares of the premiums and may be charged for their pro-rata share of any reserve deficiency as determined by the plan's independent actuary. SWACO has not been assessed any charges other than its premiums for the years ended December 31, 2024, or 2023.

The Consolidated Omnibus Budget Reconciliation Act of 1986 requires SWACO to offer terminated or retired employees continued participation in SWACO's employee health care benefits program, provided that the employees pay the rate established by the plan administrator.

SWACO analyzes all outstanding and potential claims that have arisen or could arise due to the occurrence of a loss contingency on or before December 31, 2024. Those claims that are judged to have a high probability of requiring a settlement and for which the amount required to settle the claim is reasonably estimable are included. SWACO has \$2,500 in known claims at the end of 2024 incurred in prior years but is unable to quantify the monetary value of any additional claims and such claims should not have a material impact on the financial statements.

	<u>2023</u>	<u>2024</u>
Unpaid claims at January 1	\$ -	\$ -
Incurred claims	3,663	2,500
Paid claims	<u>(3,663)</u>	<u>-</u>
Unpaid claims at December 31	<u>\$ -</u>	<u>\$ 2,500</u>

* This space intentionally left blank. *

SWACO
Notes to Financial Statements
For the Year Ended December 31, 2024

15. Leases Payable

SWACO signed an agreement to lease technology infrastructure beginning May 3, 2019, through May 3, 2034. Due to the implementation of GASB Statement 87, this lease has met the criteria of a lease thus requiring it to be recorded by SWACO. The future lease payments were discounted based on the interest rate implicit in the lease or using SWACO's incremental borrowing rate. This discount is being amortized over the life of the lease.

A summary of the principal and interest amounts for the remaining lease is as follows:

Year	Principal	Interest	Total
2025	\$ 83,001	\$ 10,599	\$ 93,600
2026	84,005	9,595	93,600
2027	85,020	8,580	93,600
2028	86,048	7,552	93,600
2029	87,089	6,511	93,600
2030 - 2034	451,493	16,507	468,000
	<u>\$ 876,656</u>	<u>\$ 59,344</u>	<u>\$ 936,000</u>

SWACO
Notes to the Required Supplementary Information
For the Year Ended December 31, 2024

NOTE 1 - NET PENSION LIABILITY

Changes in Assumptions – OPERS

Amounts reported beginning in 2022 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	<u>2022</u>	<u>2019</u>	<u>2018 and 2017</u>	<u>2016 and prior</u>
Wage Inflation	2.75%	3.25%	2.75%	2.75%
Future Salary Increases, including wage inflation	2.75% to 10.75%	3.25% to 10.75%	3.25% to 10.75%	4.25% to 10.05%
COLA or Ad Hoc COLA:				
Pre-January 7, 2013 Retirees	3.00%, simple	3.00%, simple	3.00%, simple	3.00%, simple
Post-January 7, 2013 Retirees	see below	see below	see below	see below
Investment Rate of Return	6.90%	7.20%	7.50%	8.00%
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age	Individual Entry Age

The assumptions related to COLA or Ad Hoc COLA for Post-January 7, 2013, retirees are as follows:

2024	2.30%, simple through 2024, then 2.05%, simple
2022	3.00%, simple through 2022, then 2.05%, simple
2021	0.50%, simple through 2021, then 2.15%, simple
2020	1.40%, simple through 2020, then 2.15%, simple
2017-2019	3.00%, simple through 2018, then 2.15%, simple
2016 and prior	3.00%, simple through 2018, then 2.80%, simple

Changes in Benefit Terms – OPERS

There were no significant changes in benefit terms.

NOTE 2 - NET OPEB LIABILITY (ASSET)

Changes in Assumptions - OPERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

<u>Assumption</u>	<u>2024</u>	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>
Wage Inflation	2.75%	2.75%	2.75%	3.25%	3.25%	3.25%
Single Discount Rate	5.70%	5.22%	6.00%	6.00%	3.16%	3.96%
Municipal Bond Rate	3.77%	4.05%	1.84%	2.00%	2.75%	3.71%
Health Care Cost Trend Rate	5.50%	5.50%	5.50%	8.50%	10.50%	10.00%

For calendar year 2019, the investment rate of return decreased from 6.50 percent to 6.00 percent.

SWACO

Notes to the Required Supplementary Information For the Year Ended December 31, 2024

Changes in Benefit Terms – OPERS

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in 2021.

STATISTICAL SECTION

This page intentionally left blank.

Solid Waste Authority of Central Ohio

Introduction to Statistical Section

The following statistical tables provide selected information on SWACO's financial trends, revenue capacity, operating information, debt capacity, and economic and demographic information.

Tables 1 and 2 provide ten years of financial information for SWACO. Table 3 is a budget to actual comparison for 2024.

Revenue capacity information on solid waste deliveries and tipping fees at SWACO facilities is presented in Tables 4 through 8. Table 8 provides generation fees reported by solid waste facilities receiving waste generated from within the Franklin County Solid Waste Management District (the "District") and disposed in an Ohio landfill.

Indicators of the level of demand for service are included in the tables throughout the statistical section along with tons received (Tables 4 and 5). This section also includes the top ten customer data (Table 5), tons generated (Table 8), and tons recycled (Table 9 and 10). Table 11 shows current and historical SWACO employees by function.

Tables 12 through 15 provide debt service schedules for SWACO's outstanding notes and bonds. Table 16 shows various debt ratios for SWACO. Table 16 includes total debt (notes and bonds) per capita, total obligation debt as a percent of SWACO assessed property valuation (although backed by a pledge to levy ad valorem property taxes, SWACO's general obligation bonds are paid from other sources, see note 10 to the financial statements), and annual debt service per ton paid from the landfill tipping fee. Table 17 shows the statutory debt limit on SWACO's ability to issue debt supported by property taxes. SWACO is not subject to direct debt limits.

Demographic information is presented for SWACO's solid waste district and Franklin County in Tables 18 through 20. Table 21 provides information on capital assets.

4/1/2017 ¹¹	\$ 39.75	\$ 51.75	\$ 52.75	Closed	\$ -	\$ -	Ton

¹ Prior to November 1, 1994, this was the Waste-to-Energy Facility.

² This fee was repealed effective September 1, 1994 and replaced with a fee of \$32 per ton.

³ Beginning August 2, 1994, all rates include a \$5.00/ton generation fee.

⁴ This rate is the rate for customers under contract with SWACO. Beginning 4/8/1998 and ending 12/31/2004 there was a non-contract rate of \$2.25 per ton more than the rate shown.

⁵ Rates include Retired Facility fee of \$7 per ton.

⁶ Transfer fee for commercial loads delivered to Bill R. Holbrook Compost Facility beginning 10/4/1999. Effective March 1, 2005, a fee of \$6.00 was implemented for commercial loads at all compost facilities.

⁷ Rate reflects \$1.50 per ton EPA rate increase.

⁸ Rate reflects \$1.25 per ton EPA rate increase.

⁹ Compost facility was closed December 2009.

¹⁰ In September 2010, the SWACO Board of Trustees approved a rate increase of \$3.00 per ton effective January 1, 2011, and an additional increase of \$3.00 per ton effective January 1, 2012.

¹¹ Effective April 1, 2017 the rate reflects an elimination of the \$7.00 Waste-to-Energy Facility, and an additional \$4.00 for a net decrease of \$3.00.

¹ Total permitted airspace includes 3.5 million additional cubic yards for the OEPA 2009 permit.

² Maximum 8,000 tons per day or 2,288,000 annual tons per OEPA permit. Assumes a compaction rate of 0.76 tons per cubic yard.

³ In May of 2018, the Ohio EPA granted SWACO a new Permit to Install (PTI). The new PTI raised the total permitted airspace to 97,000,000

¹ The Generation Fee is charged on all solid waste generated within SWACO's jurisdiction and disposed in a sanitary landfill located in Ohio. Certain solid waste is exempt from the fee. The current \$5.00 per ton Generation Fee was enacted effective November 1, 1994. An interfund transfer is performed on certain materials to credit the Generation Fee where no funds are collected, yet the waste is subject to the fee.

² 2017 includes tonnage from prior periods that did not include Generation Fee revenue, but an allocation was performed to collect the Generation Fee \$5 per ton per an interfund transfer.

³ Adjusted totals for each facility, total amount for all remains the same.

⁴ Updated tonnage amounts.

⁵ Totals may not add due to rounding.

SWACO
Indirect Debt and Property Tax Limitations, May 27, 2025

SWACO's debt is not subject to direct debt limits, but its unvoted general obligation debt (debt authorized by the Board of Trustees but not by a vote of the electors) is subject to overlapping restrictions with each respective county and school district. Limitations apply to each county total and should not be considered cumulatively. Total debt service charges for any one year of all overlapping debt must not exceed ten mills (1%) of the assessed property value. This determination is made by the respective county auditors each time a subdivision proposes to issue unvoted debt. The most recent data prepared by the county auditors for this purpose was as of May 27, 2025.
