Bulletin: 95-003

AUDITOR OF STATE BULLETIN

TO: SCHOOL DISTRICT TREASURERS
SUBJECT: SCHOOL DISTRICT ANTICIPATED OPERATING DEFICITS

The purpose of this advisory bulletin is to inform all school districts of potential time constraints if they anticipate an operating deficit at June 30, 1996.

School districts that anticipate having insufficient revenues to operate through the year without borrowing, excluding borrowing against their spending reserve, need to take action by August 31, 1995 to start the procedure outlined in Section 3313.483, Revised Code (commonly referred to as the "State Loan Program").

The process requires involvement of the school districts, Auditor Of State's office, State Department of Education and the State Controlling Board, as well as local lending institutions. A significant amount of time is needed to coordinate all aspects of the process.

Due to the requirements placed on school districts under Section 5705.412, Revised Code, certain deadlines are automatically imposed on districts that anticipate operating deficits.

Section 5705.412, Revised Code, requires districts to attach a "certificate of adequate revenues" to appropriation measures. This requirement does not apply to temporary appropriation measures if all of the following apply:

- (A) The amount appropriated does not exceed twenty-five per cent of the total amount from all sources available for expenditure from any fund during the preceding fiscal year;
- (B) The measure will not be in effect on or after the thirtieth day following the earliest date on which the district may pass an annual appropriation measure;
- (C) An amended official certificate of estimated resources for the current year, if required, has not been certified to the board of education under division (B) of section 5705.36 of the Revised Code.

In most districts, this would impose a deadline around October 1, 1995 in obtaining authorization to borrow over June 30, 1996 year end.

School districts faced with a projected operating deficit need to notify this office and the Ohio

Department of Education by August 31, 1995 to initiate the process. Our office will make these projects a priority during the months of August and September to assist you in meeting your deadlines.

Please note, as a significant change in policy, it is now the policy of the Auditor of State's office to release a school district's financial forecast as it is completed. The proximity of the release of a financial forecast to the date of an election will not be a consideration in the determination of the release date.

Mail the resolutions to:

Auditor of State's Office
Local Government Services
