

**CHAPTER 2
INDIRECT LAWS & STATUTORILY MANDATED TESTS**

AU-C 250.A13 Many laws and regulations relating principally to the operating aspects of the entity do not directly affect the financial statements (their financial statement effect is indirect) and are not captured by the entity's information systems relevant to financial reporting. Their indirect effect may result from the need to disclose a contingent liability because of the allegation or determination of identified or suspected noncompliance.

AU-C 250.06 b also requires testing other laws that do not have a direct effect. These other “indirect” laws are defined as laws which may be:

- i. fundamental to the operating aspects of the business,
- ii. fundamental to an entity's ability to continue its business, or
- iii. necessary for the entity to avoid material penalties

Chapter 2 includes “indirect” laws. Chapter 2 also includes laws that statutes mandate auditors to test during an audit.

<u>Compliance Requirements</u>	<u>Page</u>
INDIRECT LAWS	4
SECTION A: BUDGETARY REQUIREMENTS	4
GENERAL BUDGETARY REQUIREMENTS	4
2-1 Compliance Requirement: Ohio Rev. Code §§ 5705.28, 5705.39 and 5705.40 - Appropriations limited by estimated resources.	4
2-2 Compliance Requirement: Ohio Rev. Code §§ 5705.41 (A) and (B); and 5705.42 Restrictions on appropriating and expending money.	7
SECTION B: CONTRACTS AND EXPENDITURES	9
COMMUNITY SCHOOLS	9
2-3 Compliance Requirement: Ohio Rev. Code § 3314.24(A) Internet- or computer-based community school cannot contract with a nonpublic school for instructional facility space.	9
SECTION C: DEBT	10
None.....	10
SECTION D: ACCOUNTING AND REPORTING	11
2-4 Compliance Requirement: Ohio Admin. Code § 117-2-02(D) and (E) - Required accounting records	11

COMMUNITY SCHOOLS 14

2-5 Compliance Requirement: Ohio Rev. Code § 3314.024 – Accounting for management company expenses..... 14

SECTION E: DEPOSITS AND INVESTMENTS 22

SUBDIVISIONS OTHER THAN COUNTIES..... 22

2-6 Compliance Requirement: Ohio Rev. Code §§ 135.13, 135.14, 135.144 and 133.03(A)(1), 12 C.F.R. 370 – Eligible investments for interim monies; Ohio Rev. Code § 135.13 - inactive deposits and maturities. 22

2-7 Compliance Requirement: Ohio Rev. Code §§ 135.14 and 135.18 – Other Requirements..... 29

2-8 Compliance Requirement: Ohio Rev. Code § 135.142 (school districts), § 135.14(B)(7) (other subdivisions) – Other allowable investments for subdivisions other than counties..... 32

2-9 Compliance Requirement: Ohio Rev. Code § 135.18 (specific collateral), § 135.181 (pooled collateral), and § 135.182 – Security for repaying public deposits; Ohio Rev. Code § 135.37 – Security for repaying county (and county hospital) public deposits; 12 C.F.R. 330. 34

COUNTY (AND COUNTY HOSPITAL) REQUIREMENTS 39

2-10 Compliance Requirement: Ohio Rev. Code §§ 135.35, 135.353, 339.061(D) and 12 C.F.R 370 - Eligible Investments for inactive county money (county hospitals may invest in these same securities, per Ohio Rev. Code § 339.06)..... 39

2-11 Compliance Requirement: Ohio Rev. Code §§ 135.35 and 339.061(B) – Other County and County Hospital [Ohio Rev. Code § 339.06] Requirements..... 46

COMMUNITY SCHOOLS 50

2-12 Compliance Requirement: Ohio Rev. Code § 3314.04: Contractually imposed deposit and investment requirements..... 50

SECTION F: OTHER LAWS AND REGULATIONS..... 51

COMMUNITY SCHOOLS 51

2-13 Compliance Requirement: Ohio Rev. Code §§ 3314.011, 3314.019, 3314.02, 3314.023, 3314.03, 3314.036, 3314.46- Sponsor monitoring of community schools 51

2-14 Compliance Requirement: Ohio Rev. Code § 3314.032 - Operator oversight of community schools 60

COURTS..... 62

2-15 Compliance Requirement: Ohio Rev. Code § 2335.25 - Cashbook of County costs; Ohio Rev. Code § 1901.31 – Municipal court records; Ohio Rev. Code § 1905.21 – Disposition of fines and other moneys for mayor’s court..... 62

STATUTORILY MANDATED TESTS..... 63

SECTION A: BUDGETARY REQUIREMENTS 63

 None..... 63

SECTION B: CONTRACTS AND EXPENDITURES..... 64

STATUTORY MUNICIPALITIES 64

 2-16 Compliance Requirement: Ohio Rev. Code §§ 117.16 (A); 117.161, 723.52, 5517.02, and 5517.021 – Force accounts – [Certain] Municipal Corporations [Cities\Villages]. *This statute does not apply to a charter city or charter village pursuant to Ohio Rev. Code § 723.53.* 64

COUNTIES..... 69

 2-17 Compliance Requirement: Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5543.19 – Force accounts - Counties..... 69

TOWNSHIPS..... 74

 2-18 Compliance Requirement: Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5575.01 – Force accounts - Townships..... 74

SECTION C: DEBT..... 80

 None..... 80

SECTION D: ACCOUNTING AND REPORTING 81

COUNTIES..... 81

 2-19 Compliance Requirement: Ohio Rev. Code §§ 117.111(A), 304.01, 304.02, 955.013, 1306.01(P), 1306.02(A), 1306.4(B), and 1306.11 - Security controls over counties’ electronic (i.e. internet) transactions. 81

SECTION E: DEPOSITS AND INVESTMENTS 84

 None..... 84

SECTION F: OTHER LAWS AND REGULATION 85

GENERAL..... 85

 2-20 Compliance Requirement: Ohio Admin Code § 3745-27-15 through 18 - Landfill Financial Responsibility and Certifications. 85

 2-21 Compliance Requirement: Ohio Rev. Code §§ 135.14(B)(7), 135.142, 135.22, 135.35, 319.04, 321.46 and 733.27 - Education Requirements 89

 2-22 Compliance Requirement: Various ORC Sections: Fraud, and Abuse, and Illegal Acts; Conflict of Interest; Ethics. 92

 2-23 Compliance Requirement: Ohio Rev. Code § 149.43 - Availability of public records..... 97

SCHOOL AND/OR COMMUNITY SCHOOL 101

 2-24 Compliance Requirement: Ohio Rev. Code §§ 3313.666(A), (B), and (C) and 3314.03(A)(11)(d) - Anti-Bullying Provisions 101

INDIRECT LAWS
SECTION A: BUDGETARY REQUIREMENTS

GENERAL BUDGETARY REQUIREMENTS

2-1 Compliance Requirement: Ohio Rev. Code §§ 5705.28, 5705.39 and 5705.40 - Appropriations limited by estimated resources.

Note: Auditors should not cite entities in Fiscal Emergency for violating Ohio Rev. Code §§ 5705.10, 5705.36, 5705.39 or 5705.41(A), (B) or (C) for funds that were already in a deficit at the time a Fiscal Emergency was declared.

Auditors should continue to cite entities for healthy funds (those with positive cash balances at the time of declaration) that experience a deficit after declaration¹. Therefore, auditors should compare fund deficits during the audit period to the funds that were in deficit at the point when the Fiscal Emergency was originally declared to determine whether any new funds have incurred a deficit balance.

IMPORTANT: In order to determine which funds were in a deficit at the time of the declaration auditors should review the declaration of Fiscal Emergency available on the Auditor of State website audit search. The Financial Supervisor (LGS) can assist auditors in determining which funds were originally part of the Fiscal Emergency deficit declaration, if needed.

Summary of Requirements: Ohio Rev. Code § 5705.39 provides in part that total appropriations from each fund shall not exceed the total estimated resources. No appropriation measure is effective until the county auditor files a certificate that the total appropriations from each fund do not exceed the total official estimate or amended official estimate.

Note: If a government fails to receive the county auditor's certifications that appropriations do not exceed estimated resources, governments may present the appropriations passed by the legislative authority on the financial statements. No citation should be made if the government requested the county auditor's certificate and the county auditor failed to respond. However, a noncompliance citation is still appropriate if appropriations exceed estimated resources by a material amount.

If a local government is participating in a grant or loan program whereby proceeds will be received after the expenditures are incurred, it is possible that if properly budgeted, appropriations for one fiscal year will exceed the available amount on the certificate of estimated resources. Ohio Rev. Code § 5705.42 makes formal legislative appropriation for certain grants and loans unnecessary. As such, we believe it is equally unnecessary to require a subdivision to seek certification of the amended appropriation measure for purposes of Ohio Rev. Code § 5705.39. However, the fiscal officer should record the appropriation amount in the accounting system and include the appropriated amounts on the (amended) certificate to properly monitor budget versus actual activity. An advance should be used to prevent a negative fund balance. (*School districts are permitted to incur deficit fund balances in their special funds under certain circumstances. Refer to OCS Chapter 1 section 1-5 for additional guidance.*)

¹ In rare instances, complying with the recovery plan can cause violations of Chapter 5705. In these instances, auditors should not cite violations of 5705 if they were necessary in order to comply with the recovery plan.

Project-Length Budgeting

Once a grant is awarded or a loan is approved by the Federal or State government, the fiscal officer must obtain an Official Certificate of Estimated Resources or an Amended Certificate of Estimated Resources for all or part of the grant or loan, based on what is to be received in the fiscal year. Any money expected to be received in the next year should be reflected on the next year's certificate. However, if the local government, with the exception of a school district, has budgeted on a project-length basis pursuant to Ohio Rev. Code § 9.34(B), the fiscal officer must obtain an Official Certificate of Estimated Resources for the entire project-length fiscal period.

The fiscal officer shall record the appropriations in accordance with the terms and conditions of the grant or loan agreement. In addition, prior to recording the appropriations, the legislative authority must pass a resolution amending its appropriation measure (Ohio Rev. Code § 5705.40). If the grant or loan will be expended over a period longer than the current fiscal year, only the amount estimated to be obligated during the current fiscal year should be recorded as appropriated. The remainder of the project should be appropriated in the subsequent year(s).

In situations where the grant or loan proceeds will be received after the expenditures are incurred (i.e., on a reimbursement basis), it is possible that the local government will have appropriated an amount for one fiscal year that is in excess of the amount reflected as available on the Amended Certificate of Estimated Resources. This situation will NOT constitute a noncompliance citation during an audit.

§ 5705.28(B)(2) Requirements for entities that do not levy taxes (See the Legal Matrices in Exhibit 5 of the OCS Implementation Guide for applicable entities)

If an entity levies taxes, the sections above apply. However, some entities with taxing authority do not levy taxes. When they do not levy taxes, Ohio Rev. Code § 5705.28 (B)(2) permits a comparable, but somewhat streamlined budget process. Ohio Rev. Code § 5705.28(B)(2) requires entities to follow § 5705.36. While Ohio Rev. Code § 5705.39 does not apply, § 5705.28(B)(2)(c) prohibits appropriations from exceeding estimated revenue (i.e. receipts + beginning unencumbered cash).

Suggested Audit Procedures:

1. Compare the final year end (current year only – do not include any carryover encumbrances appropriated) appropriation measures for selected funds (normally the general fund and major funds are sufficient) and determine that the appropriations do not exceed the official or amended estimate of resources (estimated revenues plus unencumbered fund balances) as of the fiscal year end. (It should not be necessary to schedule out all of the appropriation amendments throughout the year.)
Except: if the government is in fiscal emergency, and you are testing a fund with a beginning unencumbered deficit, compare appropriations to estimated receipts instead of to estimated resources.
2. For grants or loans awarded by the Federal or State government, determine whether the entity implemented project-length budgeting pursuant to Ohio Rev. Code § 9.34(B). If so, determine whether the fiscal officer obtained an Official Certificate of Estimated Resources for the entire project-length fiscal period and that only the amount estimated to be obligated during the current fiscal year was recorded as appropriated for advance-funded grants and loans. If the local government appropriated amounts beyond fiscal year end, determine whether the exception above was met (i.e. reimbursable grants or loans).

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

2-2 Compliance Requirement: Ohio Rev. Code §§ 5705.41(A) and (B); and 5705.42 Restrictions on appropriating and expending money.

Note: Auditors should not cite entities in Fiscal Emergency for violating Ohio Rev. Code §§ 5705.10, 5705.36, 5705.39 or 5705.41 (A), (B) or (C) for funds that were already in a deficit at the time a Fiscal Emergency was declared.

Auditors should continue to cite entities for healthy funds (those with positive cash balances at the time of declaration) that experience a deficit after declaration². Therefore, auditors should compare fund deficits during the audit period to the funds that were in deficit at the point when the Fiscal Emergency was originally declared to determine whether any new funds have incurred a deficit balance.

IMPORTANT: In order to determine which funds were in a deficit at the time of the declaration auditors should review the declaration of Fiscal Emergency available on the Auditor of State website audit search. The Financial Supervisor (LGS) can assist auditors in determining which funds were originally part of the Fiscal Emergency deficit declaration, if needed.

Summary of Requirements:

The authorization of a bond issue is *deemed an appropriation*³ of the proceeds of the bond issue for the purpose for which such bonds were issued. No expenditure shall be made from any bond fund until first authorized by the taxing authority. [Ohio Rev. Code § 5705.41(A)]

Similarly, Federal and State grants or loans are “*deemed appropriated* for such purpose by the taxing authority” as provided by law and shall be recorded as such by the fiscal officer of the subdivision, and is deemed in process of collection [Ohio Rev. Code § 5705.42].

² In rare instances, complying with the recovery plan can cause violations of Chapter 5705. In these instances, auditors should not cite violations of 5705 if they were necessary in order to comply with the recovery plan.

³ “Deemed an appropriation” under this section means the Federal or State government has already appropriated and established the purpose(s) for which a government can spend monies received from Federal or State grants and loans. The taxing authority cannot deviate from this purpose; the taxing authority can only resolve to spend the money for a purpose already prescribed in a contract, grant agreement, loan agreement, etc. Therefore, Federal and State grants and loans received under Ohio Rev. Code § 5705.42 *do not* require formal appropriation by the legislative body. In other words, Ohio Rev. Code § 5705.42 effectively eliminates an unnecessary appropriation action by the taxing authority. However, Ohio Rev. Code § 5705.42 directs the fiscal officer to *record* the appropriation amount “as such” which AOS interprets to be the accounting system* and/or the budgetary statements or footnotes as applicable for their financial reporting framework in the accounting system. The fiscal officer should also include the appropriated amounts on the (amended) certificate to properly monitor budget versus actual activity. **Note:** Amounts “deemed appropriated” are subject to inclusion in GAAP budgetary presentations (GASB Cod. 2400.102). The government has no legal authority to spend these resources unless they were either appropriated by the legislative authority or deemed appropriated by the Federal or State government. (2015-1 GASB Implementation Guide Q&A 7.91-14 GASB Cod. 2400.702-14)

*NOTE: If the auditee does not record the appropriation amount in the accounting system, but does report in the financial statements and/or footnotes, auditors should consider issuing a management letter comment for the auditee to record in their accounting system.

No subdivision or taxing unit is to expend money unless it has been appropriated. [Ohio Rev. Code § 5705.41(B)]

§ 5705.28(B)(2) Requirements for entities that do not levy taxes (See the Legal Matrices in Exhibit 5 of the OCS Implementation Guide for applicable entities)

If an entity levies taxes, the sections above apply. However, some entities with taxing authority do not levy taxes. When they do not levy taxes, Ohio Rev. Code § 5705.28(B)(2) permits a comparable, but somewhat streamlined budget process. Ohio Rev. Code § 5705.28(B)(2) requires these entities to follow § 5705.41(B) and so they cannot disburse more than appropriated.

Suggested Audit Procedures:

1. For selected funds (normally the general fund and major funds are sufficient) compare total expenditures plus contract commitments (including outstanding encumbrances) from each fund versus appropriations and determine if the expenditures and commitments are within the appropriations for the tested funds at year end (current year).

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

SECTION B: CONTRACTS AND EXPENDITURES

COMMUNITY SCHOOLS

2-3 Compliance Requirement: Ohio Rev. Code § 3314.24(A) Internet- or computer-based community school cannot contract with a nonpublic school for instructional facility space.

Notes:

(1) Violations require ODE to withhold foundation payments for any students using nonpublic school facilities.

(2) Ohio Rev. Code § 3314.02(A)(7) defines Internet- or computer-based community schools as those in which the enrolled students work primarily from their residences on assignments in nonclassroom-based learning opportunities provided via an internet- or other computer-based instructional method that does not rely on regular classroom instruction or via comprehensive instructional methods including internet-based, other computer-based, and noncomputer-based learning opportunities. **Note:** If a community school operates mainly as an internet- or computer-based community school and provides career technical education under Ohio Rev. Code § 3314.086, the school shall be considered an internet- or computer-based school, even if it provides some classroom based instruction.

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Read internet schools' ~~sponsor agreement for provisions regarding contracts for instructional space, and follow up with inquiry regarding if such space / contracts exists. Determine if~~ If contracts for instructional space exist, determine if they were with nonpublic schools.

<p>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

SECTION C: DEBT

None.

SECTION D: ACCOUNTING AND REPORTING**2-4 Compliance Requirement:** Ohio Admin. Code § 117-2-02(D) and (E) - Required accounting records**Summary of Requirement:**

All local public offices may maintain accounting records in a manual or computerized format. The records used should be based on the nature of operations and services the public office provides, and should consider the degree of automation and other factors. Such records **should** include the following:

- (1) Cash journal, which typically contains the following information: The amount, date, receipt number, check number, account code, purchase order number, and any other information necessary to properly classify the transaction.
- (2) Receipts ledger, which typically assembles and classifies receipts into separate accounts for each type of receipt of each fund the public office uses. The amount, date, name of the payor, purpose, receipt number, and other information required for the transactions can be recorded on this ledger.
- (3) Appropriation ledger, which may assemble and classify disbursements or expenditure/expenses into separate accounts for, at a minimum, each account listed in the appropriation resolution. The amount, fund, date, check number, purchase order number, encumbrance amount, unencumbered balance, amount of disbursement, and any other information required may be entered in the appropriate columns.
- (4) In addition, all local public offices should maintain or provide a report similar to the following accounting records:
 - a. Payroll records including:
 - i. W-2's, W-4's and other withholding records and authorizations;
 - ii. Payroll journal that records, assembles and classifies by pay period the name of employee, social security number, hours worked, wage rates, pay date, withholdings by type, net pay and other compensation paid to an employee (such as a termination payment), and the fund and account charged for the payments;
 - iii. Check register that includes, in numerical sequence, the check number, payee, net amount, and the date;
 - iv. Information regarding nonmonetary benefits such as car usage and life insurance; and
 - v. Information, by employee, regarding leave balances and usage;
 - b. Utilities billing records including:
 - i. Master file of service address, account numbers, billing address, type of services provided, and billing rates;
 - ii. Accounts receivable ledger for each service type, including for each customer account, the outstanding balance due as of the end of each billing period (with an aging schedule

for past due amounts), current usage and billing amount, delinquent or late fees due, payments received and noncash adjustments, each maintained by date and amount;

iii. Cash receipts records, recording cash received and date received on each account. This information should be used to post payments to individual accounts in the accounts receivable ledger described above.

c. Capital asset records* including such information as the original cost, acquisition date, voucher number, the asset type (land, building, vehicle, etc.), asset description, location, and tag number. Local governments preparing financial statements using generally accepted accounting principles will want to maintain additional data. Capital assets are tangible assets that normally do not change form with use and should be distinguished from repair parts and supply items.

Ohio Admin. Code § 117-2-02(E) states that each local public office should establish a capitalization threshold so that, at a minimum, eighty per cent of the local public office's non-infrastructure assets are identified, classified, and recorded on the local public office's financial records.*

* These capital asset record requirements apply to GAAP *and non-GAAP* mandated public offices. All public offices should have records of significant capital assets.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Ohio Admin. Code §§ 117-2-01 and 117-2-02 require governments to establish internal controls and report financial information properly. Auditors may include this citation in a finding to emphasize its importance (which results in classifying the finding as noncompliance as well as a control deficiency). However, we would not automatically deem one misclassification as reportable noncompliance under this Ohio Admin. Code Section.

1. Based on our systems documentation, results of inquiries, and other audit procedures, assess whether the accounting system generally complies with the aforementioned requirements.⁴

⁴ **Note:** Per AU-C 265, “A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.”

Noncompliance with these Ohio Administrative Code requirements normally also suggest control deficiencies. We would not automatically deem minor misclassifications or other lesser-significant errors as reportable noncompliance under this Ohio Admin. Code Section. While a significant deficiency may exist, it is possible that the deficiency may not necessarily rise to the level of material noncompliance. This is a matter of professional auditor's judgment. We should consider the pervasiveness of the noncompliance matter in relation to the compliance requirement and the financial statements as a whole. Conversely, a failure to maintain any utility billing records (for example) would not only be a material weakness, but would be reportable noncompliance with Ohio Admin. Code § 117-2-02(D).

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

COMMUNITY SCHOOLS

2-5 Compliance Requirement: Ohio Rev. Code § 3314.024 – Accounting for management company expenses.

Summary of Requirement:

A management company that receives more than twenty percent of a community school's annual gross revenues⁵ shall provide a detailed accounting, including the nature and costs of goods and services it provides to the community school. This information shall be reported using the categories and designations set forth below and be subject to verification through examination of community school records during the school's regular financial audit.

Detailed accounting shall include the following categories of expenses:

1. Aggregate salaries and wages;
2. Aggregate employee benefits;
3. Professional and technical services;
4. Property services;
5. Utilities;
6. Contracted craft or trade services;
7. Tuition paid to other districts;
8. Transportation;
9. Other purchased services;
10. Supplies;
11. Land;
12. Buildings;
13. Improvements other than buildings;
14. Equipment;
15. All other capital outlay;
16. Principal;
17. Interest;
18. Judgments;
19. Other direct and indirect costs.

These expenses shall be disaggregated as follows, as applicable:

1. Regular instruction;
2. Special instruction;
3. Vocational instruction;
4. Other instruction;
5. Support services;
6. Noninstructional activities.

⁵ Since this legislation lacks specificity, the AOS is interpreting it to mean:

- Receipts for this calculation include **any** money that is given from the community school
 - to the management company, or
 - to a third party vendor on behalf of the management company.
- Auditors should accept reasonable calculations on cash or GAAP basis (as long as they are in accordance with established policies and are consistent from year to year).

Ohio Rev. Code § 3314.03(A)(8) includes the requirements of community schools to have financial audits by the Auditor of State. The contract between the sponsor and the governing authority shall require financial records of the school to be maintained in the same manner as are financial records of school districts, pursuant to rules of the Auditor of State, and the audits shall be conducted in accordance with Ohio Rev. Code § 117.10. This includes preparing the footnote of management company expenses. Ohio Rev. Code § 3314.024.

Material misstatement or omission of the community school financial statement footnote should be reported as GAGAS level, material noncompliance with Ohio Rev. Code § 3314.024. However, because GAAP does not require this disclosure, do not modify the opinion.

Note: A SAMPLE footnote presentation is available on the Auditor of State web-site at: <https://ohioauditor.gov/references/guidance/communityschools.html>.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Option #1: AOS Audit of Management Company

The management company may elect to have AOS (or contracting IPA's) audit this information at the management company. AOS will examine the books, records, and other supporting documentation prepared and maintained by the management company.

Procedure:

1. Reference the location of the AOS report.

Option #2: Management Company Contracts for Audit Report

Alternatively, AOS will accept a management company's independently audited financial statements as meeting the requirements of Ohio Rev. Code § 3314.024, provided the audit meets the audit and disclosure requirements set forth in the following paragraph. (IPA's may elect to follow this guidance.):

- Where a management company manages more than one community school or has other "lines of business" in addition to managing a community school, AOS will require a statement showing direct and allocated indirect (e.g., overhead) expenses for each school. The companies should present this statement in a combining or consolidating format (i.e., present a column for each school). Additionally, the American Institute of Certified Public Accountants' (AICPA) Audit and Accounting Guide, *Not-for-Profit Entities*, sections 14.12 through 14.14 permits entities to present this as supplemental information. Notes to the supplemental information should briefly describe the method used to allocate overhead costs. Since overhead allocations require subjective judgment, their amounts and allocation method should be considered disclosures of higher inherent risk.
- Where a management company's sole business is providing services to one community school, the company's audited statements should suffice, if the statements classify expenses in substantial conformance with USAS object codes.

The management company's audit opinion must extend to the combining or consolidating columns. Auditors of community schools must set their materiality threshold to include assurance the supplemental information for each school is not materially misstated. Opinions that report only on the individual school statement's fair presentation in relation to the management company's basic financial statements do not provide sufficient audit assurance, unless accompanied with an agreed-upon procedures report related to the supplemental information.

Procedure:

1. Obtain the management company's report and review for the required elements described in Option #2 above.

Note: The guidance below assumes the school's auditor has sufficient evidence to support an opinion on the school's statements, and is using portions of the AUP, ~~in part~~, for the management company footnote.

A school's auditor must judge whether deficiencies in an AUP report affect the management company disclosure sufficiently to require a GAGAS noncompliance finding in the community school's audit report. For example, completely omitting the footnote would require a GAGAS noncompliance finding in the school's audit report, citing Ohio Rev. Code § 3314.024.

In addition, AUP procedures #4 through #6 are included to provide necessary assurances related to the net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense reported in accordance with generally accepted accounting principles. Absent these assurances, the auditor's opinion on the financial statements will likely need to be modified.

Option #3: Agreed Upon Procedures

If a management company's does not have audited financial statements or the audited financial statements do not present combining or consolidating columns for each of its schools, or if the management company's auditor does not provide opinion-level assurance on the combining or consolidating columns presenting each school, the Auditor of State will accept an agreed-upon procedures (AUP) report per AICPA Clarified Attestation Standards Section 215. Additionally, unless the management company makes records available for audit pertaining to the community school's federal programs, AOS may require an AUP report if the community school is a Single Audit.

Engagement Requirements:

1. The engagement should follow AICPA Clarified Attestation Standards, AT-C Section 215.
2. Per AT-C 215.A6, the AOS will be a specified party permitted to rely on the report.
3. Per AT-C 215.A5, "To satisfy the requirements that the specified parties agree upon, the procedures performed or to be performed, and that the specified parties take responsibility for the sufficiency of the agreed-upon procedures for their purposes, the practitioner ordinarily communicates directly with and obtains affirmative acknowledgment from each of the specified parties." AT-C 215.11 also states "The practitioner should not accept an agreed-upon procedures engagement when the specified parties do not agree upon the procedures performed, or to be performed, or do not take responsibility for the sufficiency of the procedures for their purposes."

Therefore, the management company's practitioner auditor should e-mail a letter of arrangement and the draft (i.e. example) procedures to the schools and to AOS Center for Audit Excellence (SSAE@ohioauditor.gov). AOS staff will electronically sign the letter of arrangement attesting to the sufficiency of the procedures on behalf of the AOS, prior to the practitioner ("auditor") commencing the procedures.

Each AUP Report and letter of arrangement should list the schools to which the agreed-upon procedures apply.

Example required procedures follow these instructions.

4. As a specified party, AOS requires the following, applicable to each Ohio school the company manages:
 - a. The accountant may issue one AUP report covering all the company's Ohio schools.
 - b. The report must explain that the accountant performed procedure #1 and 2 below for the compilation of the footnotes separately for each school.
 - c. The report must explain that the accountant performed procedures #5 and 6 below to provide necessary assurances related to the pension amounts in accordance with GASB Statement No. 68 as amended.
 - d. Regarding the individual expenditure transaction procedures below (procedures #3, 4 and 7), the accountant may select one sample from the population of all costs charged to the company's Ohio schools for each year ending June 30.

5. Ohio community schools' fiscal years end each June 30. If the management company is on a different fiscal year, the management company must compile the footnote for each Ohio school's June 30 fiscal year.

For example, if the management company's fiscal year ended December 31, 20XX, each Ohio school's June 30, 20XX footnote would report expenses the management company incurred on a school's behalf for the first six months of calendar 20XX plus the last six months of calendar 20XX-1.

6. The accountant performing the AUP should describe the Ohio schools to which the AUP relate and should attach each of the community schools' footnotes to the AUP report.
7. As stated in AT-C 215.26 and 215.A28, auditors should report all exceptions, such as costs charged to a school where documentation does not support it directly benefited the school, or for which insufficient documentation exists.
8. Because the procedures relate to each school's footnote, the accountant performing the AUP should apply the procedures to footnotes compiled from the management company's accounting system, separately summarizing the expenses for each Ohio community school. This requires that the management company's accounting system include accounts summarizing direct expenses the company incurs for each school. It is permissible to charge / assign indirect costs to these schools, *if the notes disclose the method for charging those costs, and if the note separately identifies indirect costs.*

If the management company's accounting system does not include separate accounts for direct expenses for each school, it is unlikely the management company can meet the requirements of Ohio Rev. Code § 3314.024. In this case, the management company or the firm completing the AUP should consult with the Auditor of State.

9. Uniform Guidance (2 C.F.R. 200.501) requires each school expending more than \$750,000 of federal awards in its fiscal year to prepare a schedule of expenditures of federal awards.

If the management company accounts for an Ohio school's federal awards, we believe it is reasonable to expect the management company to compile this schedule for each school, and for the AUP to include a procedure testing this compilation.

Note that this requires that the management company's accounting system be capable of segregating receipts, disbursements and cash balances for each federal award program of each school.

Procedure 2 below applies if a school expended more than \$750,000 of federal awards during its fiscal year.

The AUP report should list the following required procedures and the results relating to each Ohio school:

1. Trace the management company expenses from each footnote by function / object / accounting code to the community school's accounts in the management company's accounting system.
2. If the engagement is a Federal Single Audit, trace each school's federal award expenditures, by CFDA number, receipts (if presented) from its schedule of expenditures of federal awards to the community school's accounts in the management company's accounting system.

Note: Receipts are not required to be presented; however, this procedure should be performed for receipts included on the Federal Schedule.

3. Haphazardly or randomly select 100 direct non-payroll expense transactions (checks, EFTs, etc.) the management company charged to its Ohio community schools. (One sample selected from all the management company's Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)

Compare the amount charged to a school to supporting documentation, including a canceled check (or EFT documentation, etc.) and vendor invoice, supporting that the cost:

- a. Is a direct expense benefiting the school;
- b. Is recorded for the proper amount for the proper period in the accounting system; and
- c. Is charged to a proper Ohio Uniform School Accounting System (USAS) object / accounting code in accordance with Ohio Admin. Code § 117-6-01(B).⁶

⁶ Some schools may not post daily transactions in accordance with USAS, but rather convert the information to be in accordance with USAS prior to reporting information to ODE and their annual financial statement reporting. For

4. Haphazardly or randomly select 100 direct payroll expense transactions, including salaries and benefits the management company charged to its Ohio community schools. (One sample selected from all the management company’s Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)

Step A: Compare the amount charged to a school to supporting documentation, including a canceled check and to personnel files supporting that the cost:

- a. Is a direct expense paid to an employee for services provided solely to the school;
- b. Is recorded for the proper amount for the proper period in the accounting system;
- c. The amount paid agreed to the salary schedule and/or to amounts withheld; and
- d. Is charged to a proper Uniform School Accounting System (USAS) object / accounting code as required by Ohio Admin. Code § 117-6-01(B) and described more fully in the USAS Manual available at http://www.ohioauditor.gov/publications/uniform_school_accounting_system_user_manual.pdf.⁶

Step B: Determine whether employee retirement contributions:⁷

- a. Are withheld for the appropriate retirement system in accordance with the requirements of Ohio Rev. Code chapters 3307 and 3309, unless the exceptions described in Ohio Rev. Code § 3307.01(B)(2)(b) or (c) or Ohio Rev. Code § 3309.013 apply;
- b. Are withheld at the appropriate rates for the applicable retirement system as described in Ohio Rev. Code §§ 3307.26 and 3309.47.

For exceptions reported, include the following information for each instance identified where employee contributions to STRS/SERS (if required) were not properly withheld in the related payroll transactions:

Community School	Employee Name	Pay Period End	Retirement System (STRS / SERS)	Amount withheld	Amount School should have withheld

5. Determine whether withheld employee contributions were remitted to each of the retirement systems for each of the schools operated by the management company:⁷
 - a. Compare the total STRS and SERS withholdings for the year from the payroll records to documentation of amounts remitted to the appropriate retirement systems.

For exceptions reported, include the following information:

these engagements, the school should maintain a crosswalk or other documentation to show this conversion. Auditors should ~~consider this conversion when determining~~ report non-compliance if presented expenses are not broken out by function and object.

⁷ Community school auditors do not need to request to perform this procedure at the client site when the AUP includes them. However; these procedures will not replace Census Data Examinations the Retirement System auditors may require to support their opinions on the audited GASB Statement No. 68 Schedules of Employer Allocations and Pension Amounts.

	<u>Community School</u>	Employee contribution amounts withheld per the payroll records	Employee contribution amounts remitted to the retirement system	Variance
State Teachers Retirement System (STRS)				
School Employees Retirement System (SERS)				

6. For the prior fiscal year, calculate the employer contributions based on total employee contributions to each school (total employee contributions/employee contribution rate x employer contribution rate). (Note: employee contributions should include employee contributions for employees and third party contractors.)⁷
 - a. Compare the results from calculation above to the employer contributions on the audited GASB Statement No. 68 schedule of employer allocations separately for STRS and SERS; and

For exceptions reported, include the following information:

	<u>Community School</u>	Calculated "Employer Contributions" amount from step a. above	Employer contributions amount from the audited schedule of employer allocations	Variance
State Teachers Retirement System (STRS)				
School Employees Retirement System (SERS)				

7. Haphazardly or randomly select 100 expense transactions (e.g. checks) assigned to any indirect cost pool that include Ohio schools. (One sample from the pool(s) for Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)⁸
 - a. Compare the transaction to source documentation, such as vendor invoice, personnel file, etc. supporting the cost indirectly benefits the schools or other activities to which it is allocated.

⁸ When developing these procedures, they may need tailored if the client adopted the 10% de minimis rate for federal transactions. Auditors need to evaluate the allocation of transactions in these instances to ensure the client is not allocating Federal expenditures twice.

- b. Determine the transaction is recorded for the proper amount for the proper period in the accounting system.
- c. Obtain an understanding of the method the management company uses to pool and assign indirect costs to individual schools. Recompute selected allocations for conformity with the method.
- d. Compare the results from steps a through c with the overhead allocation disclosure in the footnote. Report any material departures from the footnote description in terms of the actual method used and any projected dollar effects of the departure.

Note: Occasionally, these footnotes report more expenses than amounts the school paid to its management company. When this occurs, the management company is subsidizing (or loaning money to) the school. We believe the basic statements should report material amounts as revenue (Contributions from management company), and additional related expenses under GASB Statement No. 24 (GASB Cod. N50.128).

While some may view recording this entry as “merely” grossing up revenue and expense, we believe the school’s true expenses are understated without this entry. Presenting the management company’s willingness to subsidize operations in the statements is also important information for readers. Also, we are aware that some contracts specify these amounts are repayable loans from the management company, which would require crediting “loans payable to management company” in the statement of net assets rather than “subsidy from management company” in the statement of revenues and expenses.

Auditors should obtain evidence supporting whether these amounts are subsidies or loans from the management company. Usually the contract with the management company will explain whether the school must repay the management company. We suggest representation letters include these amounts, and represent whether these amounts are contributions or repayable loans.

If these are repayable loans, the balance sheet should reflect them as such, and consider whether the opening equity is overstated based on prior year unrecorded loans.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

Revised: HB 49, 132nd GA
Effective: 6/30/2017

SECTION E: DEPOSITS AND INVESTMENTS

SUBDIVISIONS OTHER THAN COUNTIES

(FOR COUNTY DEPOSIT AND INVESTMENTS SEE SECTION 2-10)

2-6 Compliance Requirement: Ohio Rev. Code §§ 135.13, 135.14, 135.144 and 133.03(A)(1), ~~42 C.F.R. 370~~ – Eligible investments for interim monies; Ohio Rev. Code § 135.13 - inactive deposits and maturities.

Summary of Requirements:

Investments must mature within 5 years from the settlement date, unless the investment is matched to a specific obligation or debt of the subdivision, or unless other provisions apply. [Ohio Rev. Code § 135.14(D)]

The following classifications of obligations are eligible for such investment or deposit:

- United States obligations or any other obligation guaranteed as to principal and interest by the United States.⁹ This law prohibits investing in stripped principal or interest obligations. [Ohio Rev. Code § 135.14(B)(1)]
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities must be direct¹⁰ issuances of federal government agencies or instrumentalities. [Ohio Rev. Code § 135.14(B)(2)]
- Interim deposits in the eligible institutions applying for interim monies as provided in Ohio Rev. Code § 135.08. [Ohio Rev. Code § 135.14(B)(3)]
 - Per 135.13, *Interim deposits* are certificates of deposit¹¹ or savings or deposit accounts, including passbook accounts.

⁹ See appendix E-1 of the OCS Implementation Guide for a list of agencies the Federal government guarantees.

¹⁰ An example of an *indirect* issuance would be a FNMA CMO (collateralized mortgage obligation), where FNMA pools mortgages it guarantees. However, the mortgages are not a direct issuance of FNMA.

¹¹ It is the position of the Auditor of State that Ohio Rev. Code §§ 135.03 & 135.32 prohibit purchasing certificates of deposit (negotiable* or otherwise) from a bank unless the CD is subject to inspection by the Ohio Superintendent of Financial Institutions. Ohio is part of a nationwide cooperative agreement for examining multi-state banks in which these states agreed to recognize each other's supervisory authority for banks headquartered in another state but doing business in theirs. Therefore, it is reasonable to conclude that a multi-state bank in a state subject to this agreement is subject to inspection by Ohio's Superintendent of Financial Institutions. Multi-state banks are eligible to become a public depository for Ohio's governmental entities, subject to Ohio Rev. Code §§ 135.01 to 135.21. The bank should be registered with the Ohio Secretary of State to be an eligible public depository in Ohio. A government cannot purchase negotiable/brokered or nonnegotiable CDs unless the governing body has designated the bank as eligible to hold interim or inactive deposits.

*Another term for "negotiable" CDs is "brokered" CDs.

- Ohio Rev. Code § 135.144 also permits governments to use the Certificate of Deposit Account Registry Services (CDARS) or similar programs (one example is Star Plus) meeting Ohio Rev. Code § 135.144 requirements for interim deposits. If a government purchases CDs for more than the FDIC limit (\$250,000) with a bank participating in CDARS or similar program such as Star Plus, the bank or program “redeposits” the excess amounts with other institutions. Each bank accepts less than \$250,000 so that all deposits have FDIC coverage. Ohio Rev. Code § 135.144 requires a government to place its deposits with an eligible depository per Ohio Rev. Code § 135.03. However, the institutions the government’s depository places excess deposits with are not subject to Ohio Rev. Code § 135.03. For example, while the deposit must be initiated at an Ohio depository branch, the Ohio depository can purchase CDs from depositories outside of Ohio for the excess. Because all CDARS, Star Plus, etc. deposits have FDIC coverage, the collateral requirements of Ohio Rev. Code §§ 135.18 and 135.181 do not apply. (That is, these are *insured* deposits for GASB Statement No. 40 purposes, Appendix E-2 of the OCS Implementation Guide.)¹²
- Any CD’s purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices with a monthly account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.
- Bonds or other obligations of the State of Ohio, or the political subdivisions of this state, provided that, with respect to bonds or other obligations of political subdivisions, all of the following apply:
 - The bonds or other obligations are payable from general revenues of the political subdivision and backed by the full faith and credit of the political subdivision.
 - The bonds or other obligations are rated at the time of purchase in the three highest classifications established by at least one nationally recognized standard rating service and purchased through a registered securities broker or dealer.
 - The aggregate value of the bonds or other obligation does not exceed twenty per cent of interim moneys available for investment at the time of purchase.
 - The treasurer or governing board is not the sole purchaser of the bonds or other obligations at original issuance.

¹² It is conceivable programs similar to CDARS may be established. We believe these programs would be legal if they meet all Ohio Rev. Code § 135.144 requirements (an example is Star Plus). As another example, we are aware that credit unions have established a similar program to insure deposits exceeding the limits covered by the National Credit Union Share Insurance Fund. However, Ohio Rev. Code § 135.144 would not permit governments to use this program because Ohio Rev. Code § 135.03 (via Ohio Rev. Code § 1151.01) excludes credit unions from eligible depositories. However, Ohio Rev. Code § 135.03 permits any savings association or savings bank located in Ohio, which is doing business under the authority of another state, to become an eligible public depository. Therefore, if they establish programs complying with all § 135.144 requirements, those programs would have similar legal status to the CDARS program (one example is Star Plus).

No investment shall be made under Ohio Rev. Code § 135.14(B)(4) unless the treasurer or governing board has completed additional training for making the investments authorized by this section. The type and amount of additional training shall be approved by the treasurer of state and may be conducted by or provided under the supervision of the treasurer of state. [Ohio Rev. Code § 135.14(B)(4)]

- No-load money market mutual funds consisting exclusively of obligations described in (B)(1) or (2) of Ohio Rev. Code § 135.14 (i.e. the investments listed in the first two bullets above), and repurchase agreements secured by such obligations, provided the government purchases the money market mutual fund **only** through eligible institutions mentioned in Ohio Rev. Code § 135.03 (which are, generally, Ohio banks and national banks authorized to do business in Ohio). [§ 135.14(B)(5)] Also, per Ohio Rev. Code § 135.01(O)(2), these funds must have the highest letter or numerical rating provided by at least one nationally recognized standard rating service.
- The Ohio Subdivisions Fund (STAR Ohio¹³) as provided in Ohio Rev. Code § 135.45. [Ohio Rev. Code § 135.14(B)(6)]
- Chapter 133 securities (generally debt instruments Ohio State & local governments have issued) [Ohio Rev. Code § 133.03].

Per Ohio Rev. Code § 135.14(E), the treasurer or governing board may also enter into a repurchase agreement with any *eligible institution* mentioned in Ohio Rev. Code § 135.03 or any *eligible dealer* pursuant to Ohio Rev. Code § 135.14(M). (*Eligible institutions*, per Ohio Rev. Code § 135.03, include any national bank, any bank doing business under authority granted by the superintendent of financial institutions, or any bank doing business under authority granted by the regulatory authority of another state of the United States, located in this state.) *Eligible dealers*, per Ohio Rev. Code § 135.14 (M), are financial industry regulatory authority (FINRA), banks, savings bank, or savings and loan associations regulated by the superintendent of financial institutions, or institutions regulated by the comptroller of the currency, federal deposit insurance corporation, or board of governors of the federal reserve system.) In these agreements, the treasurer or governing board purchases, and such institution or dealer agrees unconditionally to repurchase any of the securities listed in division (D)(1) to (5) of § 135.18,¹⁴ except letters of credit described in division (D)(2) are not permitted for repurchase agreements.

- The market value of securities subject to an overnight repurchase agreement must exceed the cash invested subject to the repurchase agreement by 2%.¹⁵ A term repurchase agreement may not exceed 30 days and must be marked to market daily.¹⁶

¹³ Investment of public moneys in the Ohio Subdivisions Fund may be in a separately managed account (referred to as STAR SMA) or a pooled account. [Ohio Rev. Code § 135.45(C)]

¹⁴ Ohio Rev. Code §§ 135.18(D)(1) – (11) are summarized in Ohio Compliance Supplement Step 2-9.

¹⁵ Many states do not require minimum market values of securities for repurchase agreements. Therefore, the risk of noncompliance increases when banks merge with out-of-state banks. Ohio governments are still bound by Ohio laws even if a bank's depository agreement indicates the bank follows another state's laws for the market value of securities.

¹⁶ The dealer would be responsible for marking the securities, not the government.

- All securities purchased pursuant to a repurchase agreement are to be delivered into the custody of the treasurer or governing board or an agent designated by the treasurer or governing board.¹⁷
- Repurchase agreements must be in writing. They must require that, for each transaction, the participating institution provide:
 - the par value of the securities;
 - the type, rate, and maturity date of the securities;
 - a numerical identifier (e.g., a CUSIP number) generally accepted in the industry that designates the securities.

Agreements by which the treasurer or governing board agrees to sell securities owned by the subdivision to a purchaser and agrees with that purchaser to unconditionally repurchase those securities (i.e., Reverse Repos) are prohibited. [Ohio Rev. Code § 135.14(E)]

Derivative investments are prohibited. *Derivative*¹⁸ means a financial instrument or contract or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself. Any security, obligation, trust account, or other instrument that is created from an issue of the United States Treasury or is created from an obligation of a federal agency or instrumentality or is created from both is considered a derivative.

- An eligible investment described in Ohio Rev. Code § 135.14 with a variable interest rate payment or single interest payment, based upon a single index comprised of other eligible investments provided for in division (B)(1) or (2) of § 135.14 (see above), is **not** a derivative, if the variable rate investment has a maximum maturity of 2 years. [Ohio Rev. Code § 135.14(C)] (Therefore, an investment with a variable interest rate indexed to Federal securities would be legal. However, an investment indexed to the London Interbank Offered Rate (LIBOR) or to a bank's prime rate would not be legal.)
 - 1999 Op. Atty. Gen. No. 99-026 deemed collateralized mortgage obligations to be illegal derivatives.
 - A treasury inflation-protected security (TIPS) is permissible for counties only, per Ohio Rev. Code § 135.35(B).

Article VIII, Sections 4 and 6 of the Ohio Constitution prohibit public bodies from becoming a “stockholder in any joint stock company, corporation or association.”

- However, Article VIII, Section 6 of the Constitution provides an exemption which allows public bodies to purchase insurance from mutual insurance companies (Note that insured parties of mutual insurance companies become stockholders.).

¹⁷ Counterparties (e.g. banks) accomplish this by maintaining a separate “customer” account at the Federal Reserve designated as a customer account. (For purposes of GASB Statement No. 40, we currently believe securities held in a customer account would not be exposed to custodial risk.)

¹⁸ **Note:** The Ohio Rev. Code still uses the derivative definition from GASB Technical bulletin 94-1. GASB Statement No. 53 (GASB Cod. D40.103), defines derivatives differently than does the Revised Code. So, for legal compliance purposes, governments must follow the Ohio Rev. Code derivative definition. For financial reporting, governments must follow the GASB definition. For example, interest rate swaps and energy futures contracts (which are allowable under Ohio Rev. Code § 9.835 to mitigate price fluctuations, and are not intended as investments) meet the GASB Statement No. 53 derivative definition, and would be subject to GASB Statement No. 53 derivative measurement and disclosure requirements, but are **not** illegal.

- The AOS also does not believe Ohio Rev. Code Chapter 135 (nor § 1715.52(E)(3)) prohibits a government from **holding** stock **donated** to it. (However, considering the volatility of many equity securities, our management letter should recommend liquidating stock, if liquidation does not violate a trust or other agreement.)

Per Ohio Rev. Code § 135.14(F), a government cannot purchase an investment unless it reasonably expects to hold it until maturity. **Note:** We believe the intention of this section is to reduce the likelihood a government would suffer losses on early redemptions required due to inadequate cash flow planning. See the description of audit procedures for more information.

Per Ohio Rev. Code § 135.14(G), subdivisions may not invest interim moneys in an investment pool except:

- The Ohio Subdivision's Fund (STAR Ohio⁴³) pursuant to Ohio Rev. Code § 135.14(B)(6).
- A fund created solely to acquire, construct, own, lease, or operate municipal utilities pursuant to Ohio Rev. Code § 715.02 or Ohio Const. Art XVIII, § 4.

Leveraging (a government using its current investment assets as collateral for purchasing other investments) is prohibited. [Ohio Rev. Code § 135.14(H)]

Issuing taxable notes for arbitrage is prohibited. [Ohio Rev. Code § 135.14(H)]

Governments cannot contract to sell securities not yet acquired (short sales), for the purpose of purchasing such securities on the speculation that their price will decline. [Ohio Rev. Code § 135.14(H)]

Payment for investments may be made only upon delivery of the securities to the treasurer, governing board, or qualified trustees, or, if not represented by a certificate, only upon receipt of confirmation of transfer from the custodian. [Ohio Rev. Code § 135.14(M)(2)]

Proceeds from refunding securities must be held in the debt service fund or in escrow, and shall be held in cash or invested in whole or in part in direct obligations of or obligations guaranteed as to payment by the United States that mature or are subject to redemption by and at the option of the holder not later than the date or dates when the moneys invested, together with interest or other investment income accrued on those moneys, and any moneys held in cash and not invested will be required to refund the debt. [Ohio Rev. Code § 133.34(D)].

Ohio Rev. Code § 135.13 requires depositing **inactive** funds in certificates of deposit maturing not later than the end of the depository designation period or by savings or deposit accounts, including, but not limited to, passbook accounts.

- Investments must mature within 5 years from the date of settlement unless the investment matches a specific obligation or debt, and the investment advisory committee specifically approves it.
 - A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years due to a temporary change in the law. (This is because in 2012 HB 225 was enacted and then repealed months later.).

Suggested Audit Procedures – Compliance (Substantive) Tests:

Note: Some of the steps below require the same documentation / evidence auditors also use to support the *existence*, *valuation* and *classification* of investments. You can gain efficiency by combining the steps below with the substantive steps related to the aforementioned assertions.

Select a representative number¹⁹ of investments and:

1. Read investment dealer confirmations* to determine if the investment is of a type authorized.

* **Note:** Dealer confirmations are suitable evidence supporting the details (e.g. valuation, occurrence) of an investment at the time of purchase. However, it provides no evidence the government still owned the investment as of its fiscal year end (the *existence* assertion). Auditors should obtain other evidence to support existence at year end. The audit program should include suitable existence steps.

2. For investments in bonds or other obligations of the State of Ohio, or the political subdivisions of this state, inspect documentation and determine whether the additional training was received. [Ohio Rev. Code § 135.14(B)(4)]
3. Determine that the investments mature within the prescribed limits (generally no later than 5 years, or *other* periods for repurchase agreements, bankers' acceptances and commercial paper.)
4. Inspect documentation supporting repurchase agreements and determine that:
 - a. The market values of securities exceed the principal values of securities subject to the overnight repurchase agreement by 2%. (**Note:** The risk of non-compliance increases when banks merge.)
 - b. A term repurchase agreement did not exceed 30 days and the values of the securities were marked to market daily.
 - c. Repurchase agreements were in writing, including the par value of the securities; the type, rate, and maturity date of the securities; and a numerical identifier.
5. Read the prospectus for money market mutual funds with which the government has significant investment. Determine whether the prospectus limits investments to those authorized under Ohio Rev. Code § 135.14(B)(1) & (2). Ohio Rev. Code § 135.14(B)(1) & (2) describe federally issued or insured securities. Ohio Rev. Code § 135.14(B)(1) & (2) would not include, for example, reverse repos consisting of Federal securities or securities other states issue.
6. Determine whether money market mutual funds have the highest credit rating issued by one national ratings agency (such as that S&P, Moody's or Fitch issues).
7. Regarding Ohio Rev. Code § 135.14(F), scan investment records to determine whether the government is selling securities prior to maturity. If a significant number or amount of premature sales occurred because the government had an emergency need for cash, review the CFO's cash flow

¹⁹ When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

forecasts supporting that the government had reasonable support, at the time of purchase, that it could hold the security to maturity. *If there is inadequate cash flow planning*,²⁰ cite this section. The noncompliance finding should also recommend the government improve its cash flow forecasting. The finding should also describe any losses the government suffered from these sales.

8. If the government hires an investment manager for all or a portion of its investments, obtain copies of investment summary reports the manager prepares.
 - a. Read the agreement between the manager and the government. Determine if the agreement (or the investment policy Step 2-7 describes) requires the manager to comply with all applicable Ohio Rev. Code Chapter 135 requirements. Maintain a copy or summary of the agreement in the permanent file.
 - b. Test selected investments from the reports for compliance with steps 1 – 5 above.
 - c. Scan purchases and sales to determine whether the manager sells securities prior to their maturity for other than an urgent need for cash.

(*Note* that for financial audit purposes, an investment manager may constitute a service organization under ~~SSAE 16~~ and AU-C 402)

Note: The steps above should normally be sufficient for most governments. Because we believe the risk of governments engaging in certain prohibited activities such as leveraging, short sales or arbitrage violations is low, there are no steps included to test these requirements. You should scan the other requirements in this step, and based on your knowledge of the government’s investing activities, investigate them if evidence suggests the government may have materially violated these requirements.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

²⁰ “Emergency” premature sales can result in losses. If inadequate cash flow planning contributed to the need to sell early, we should cite them. In other circumstances, a government may choose to redeem a security early at a loss in order to re-invest at a greater overall rate of return. We would not deem this latter circumstance to violate the intent of Ohio Rev. Code § 135.14(F).

2-7 Compliance Requirement: Ohio Rev. Code §§ 135.14 and 135.18 – Other Requirements.
(FOR COUNTY DEPOSIT AND INVESTMENTS SEE SECTION 2-10)

Summary of Requirements:

Per Ohio Rev. Code § 135.14(O)(1), Investments or deposits under § 135.14 cannot be made unless a written investment policy approved by the treasurer or governing board is on file with the Auditor of State, with the following two exceptions:

- Per Ohio Rev. Code § 135.14(O)(2), If a written investment policy is not filed with the Auditor of State, the treasurer or governing board can invest only in interim deposits, STAR Ohio¹³, or no-load money market mutual funds.
- Per Ohio Rev. Code § 135.14(O)(3), A subdivision whose average annual investment portfolio is \$100,000 or less need not file an investment policy, provided that the treasurer or governing board certifies to the Auditor of State that the treasurer or governing board will comply and is in compliance with the provisions of §§ 135.01 to 135.21.

Per Ohio Rev. Code § 135.14(O)(1), The investment policy must be signed by:

- All entities conducting investment business with the treasurer or governing board (except the Treasurer of State);
- All brokers, dealers, and financial institutions, described in § 135.14(M)(1), initiating transactions with the treasurer or governing board by giving advice or making investment recommendations;
- All brokers, dealers, and financial institutions, described in § 135.14(M)(1), executing transactions initiated by the treasurer or governing board.

If any securities or certificates of deposit purchased are issuable to a designated payee or to the order of designated payee, the designated party is to be the treasurer and the treasurer's office²¹.

If the securities are registerable either as to principal and/or interest, then the securities are to be registered in the treasurer's name.

An institution designated as a public depository shall designate a qualified trustee and place the eligible securities required by Ohio Rev. Code 135.18(D) with the trustee for safekeeping. [Ohio Rev. Code § 135.18(E)]

Except for investments in securities described in Ohio Rev. Code § 135.14(B)(5) and (6) (no-load money funds, certain repos and STAR Ohio¹³) and for investments by a municipal corporation in the issues of that municipal corporation, all investments must be made through:

- members of the National Association of Securities Dealers, Inc. (NASD); or

²¹ For example, an acceptable method of complying with this requirement is for the financial institution to make the securities or certificates of deposit payable to "ABC Township, Joe Jones, Treasurer."

- institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System.

Suggested Audit Procedures – Compliance (Substantive) Tests:

1. Read the government's investment policy for the period.
2. If there is no written investment policy filed with the Auditor of State, scan the government's investment portfolio for the period to determine that it is composed solely of interim deposits, STAR Ohio¹³, or no-load money market mutual funds, or that its average annual size is \$100,000 or less. Additionally, inspect the certificate to the Auditor of State asserting²² that the treasurer or governing board will comply and is in compliance with the provisions of Ohio Rev. Code §§ 135.01 to 135.21.
3. If applicable, inspect documentation that the policy was approved by the treasurer or governing board and is on file with the Auditor of State (For AOS employees the policies and exemptions are available at S:/Final Audit PDF/Region Folder/County Folder/Client Folder/Investment Policy Folder). (We need not repeat this step every audit. Keep a copy in the permanent file, and inquire whether the government has amended the policy since the prior audit.)
4. Inspect the policy for the requisite signatures:
 - a. All entities conducting investment business with the treasurer or governing board (except the Treasurer of State);
 - b. All brokers, dealers, and financial institutions initiating transactions with the treasurer or governing board by giving advice or making investment recommendations;
 - c. All brokers, dealers, and financial institutions executing transactions initiated by the treasurer or governing board.
 - d. Select a representative number of investments made by the entity and determine whether the investments are in accordance with the entity's investment policy as adopted by the entity's legislative body.
5. Determine if the policy requires financial institutions, brokers and dealers to comply with Ohio Rev. Code Chapter 135. (There is no legal requirement to include this, but if the policy does not include this requirement, we should recommend the government amend their policy to require compliance.)
6. Select a representative number²³ or amount of investments:
 - a. Inspect purchase documents and determine that investments were made only through members of NASD, or institutions regulated by the Superintendent of Banks, Superintendent of Savings and

²² Not required if the portfolio for the period is composed solely of interim deposits, STAR Ohio, or no-load money market mutual funds.

²³ When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

Loan Associations, Comptroller of Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System.

- b. For certificates of deposit, inspect documentation that any designated payee is the treasurer or treasurer's office; and that the CDs are in the treasurer's name.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

2-8 Compliance Requirement: Ohio Rev. Code § 135.142 (school districts), § 135.14(B)(7) (other subdivisions) – Other allowable investments for subdivisions other than counties.

Summary of Requirements: Ohio Compliance Supplement Step 2-6 identifies certain investments that are eligible for **interim** monies. In addition to those investments, subdivisions can invest interim monies as follows:

Up to forty per cent of interim moneys available for investment²⁴ in either of the following [Ohio Rev. Code § 135.142(A) for school districts; § 135.14(B)(7) for other subdivisions]:²⁵

Commercial paper notes issued by an entity defined in Ohio Rev. Code § 1705.01(D) (see definition below) and that has assets exceeding five hundred million dollars, to which all the following apply:

- The notes are rated at the time of purchase in the highest classification established by at least two nationally recognized standard rating services.
- The aggregate value of the notes does not exceed ten per cent of the aggregate value of the outstanding commercial paper of the issuing corporation.
- The notes mature not later than 270 days after purchase.
- The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five per cent of interim moneys available for investment at the time of purchase.

Bankers' acceptances of banks insured by the FDIC and to which the obligations mature not later than one hundred eighty days after purchase.

Boards of education must authorize the treasurer to invest in commercial paper or bankers' acceptances by a 2/3 majority vote. [Ohio Rev. Code § 135.142(A)] (Once authorized, the authorization remains effective unless the policy changes. Therefore, we need not test this every audit. We should maintain documentation of the approval in the permanent file.) Additionally, the treasurer or governing board must complete additional training. The type and amount of additional training shall be approved by the treasurer of state and may be conducted by or provided under the supervision of the treasurer of state. [Ohio Rev. Code § 135.14(B)(7)]

“Entity” means any of the following [Ohio Rev. Code § 1705.01(D)]:

- A corporation existing under the laws of this state or any other state;
- Any of the following organizations existing under the laws of this state, the United States, or any other state:
 - A business trust or association;
 - A real estate investment trust;
 - A common law trust;

²⁴ School districts may have additional investments if OFCC bond proceedings permit such investments [see Ohio Rev. Code § 3318.26(M) and Ohio Rev. Code § 3318.26(E)(5)]. Auditors should evaluate bond documents if 40% threshold appears to be exceeded.

²⁵ This calculation should be figured using unencumbered cash balances.

- An unincorporated business or for profit organization, including a general or limited partnership;
- A limited liability company.

Note: Some of the steps below require the same documentation/evidence auditors also use to support the *existence, valuation, and classification* of investments. You can gain efficiency by combining the steps below with the substantive financial audit steps related to the aforementioned assertions.

Suggested Audit Procedures – Compliance (Substantive) Tests:

1. Inspect a representative number²⁶ of dealer confirmations of the commercial paper notes purchased and determine that the entity has maintained related documentation that the: [Ohio Rev. Code § 135.14(B)(7)(a)]
 - a. Commercial paper was rated in the highest classification by two standard rating services.
 - b. The commercial paper matures not later than 270 days after purchase.
 - c. The investment in commercial paper notes of a single issuer does not exceed the aggregate five per cent of interim moneys available at the time of purchase.
2. Inspect dealer confirmations of the bankers’ acceptances purchased and determine that the entity has maintained related documentation that the: [Ohio Rev. Code § 135.14(B)(7)(b)]
 - a. Banks are insured by the Federal Deposit Insurance Corporation.
 - b. The acceptances mature not later than 180 days after purchase.
3. For investments in Bankers’ Acceptances and Commercial Paper Notes, inspect documentation and determine whether the additional training was received.
4. For school districts, assure the permanent file documents the resolution authorizing the treasurer to invest in commercial paper and / or bankers’ acceptances.

<p>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

²⁶ When judging “a representative number,” consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

Revised: HB 49, 132nd GA
Effective: 6/30/2017

2-9 Compliance Requirement: Ohio Rev. Code § 135.18 (specific collateral), § 135.181²⁷ (pooled collateral), and § 135.182 – Security for repaying public deposits; Ohio Rev. Code § 135.37 – Security for repaying county (and county hospital) public deposits;

Summary of Requirements: Each institution designated as a public depository and awarded public deposits, shall provide security for the repayment of all public deposits by securing all uninsured public deposits of each public depositor separately (Ohio Rev. Code § 135.18(A)(1)), or as applicable to Ohio Rev. Code §§ 135.181 or 135.182 by establishing and pledging to the treasurer of state a single pool of collateral for the benefit of every public depositor (Ohio Rev. Code § 135.18(A)(2))²⁸. If a public depository elects to provide security pursuant to Ohio Rev. Code § 135.18(A)(1), the public depository must pledge eligible securities and equal to at least one hundred five per cent. [Ohio Rev. Code § 135.18(B)]

Depository security requirements for county (and county hospital) monies parallel the requirements of other governmental entities pursuant to Ohio Rev. Code § 135.18. Ohio Rev. Code § 135.37(A)(2) expressly permits counties to follow the pool collateral requirements of Ohio Rev. Code § 135.181.

Collateral	ORC Section	Security Percentage Requirement		
		Prior to H.B. 64	H.B. 64 (Effective 9/29/15)	H.B. 340 (Effective with OPCS* Implementation) ²⁸
Pooled	135.18/135.181	105%	105%	Eliminated with OPCS <u>With extension granted by ToS</u>
	135.182	N/A	102% (OPCS)	102% or lesser amount as determined by TOS ²⁸
Specific	135.18	100%	105%	105% (if not a member)

* Ohio Pooled Collateral System (OPCS)

²⁷ This section is only applicable if the financial institution was issued an extension by the Treasurer of State.

²⁸ The treasurer of state ~~will~~ created the Ohio Pooled Collateral System (OPCS) July 1, 2017. Under this program, public depositories that select the pledging method prescribed in Ohio Rev. Code § 135.18(A)(2) or Ohio Rev. Code § 135.37(A)(2), shall pledge to the treasurer of state a single pool of eligible securities for the benefit of all public depositors to secure the repayment of all uninsured public deposits at the public depository; provided that at all times the total market value of the securities so pledged is at least equal either of the following:

- a) One hundred two percent of the total amount of all uninsured public deposits.
- b) An amount determined by rules adopted by the treasurer of state that set forth the criteria for determining the aggregate market value of the pool of eligible securities pledged by a public depository pursuant to division (B) of this section. Such criteria shall include, but are not limited to, prudent capital and liquidity management by the public depository and the safety and soundness of the public depository as determined by a third-party rating organization. (Ohio Rev. Code § 135.182(B)(1))

The public depository shall designate a qualified trustee approved by the treasurer of state for the safekeeping of eligible pledged securities. [Ohio Rev. Code § 135.182(C)]

The following information is confidential and not a public record under Ohio Rev. Code § 149.43:

- a. All reports or other information obtained or created about a public depository for purposes of division (B)(1)(b) of this section;
- b. The identity of a public depositor's public depository;²⁹
- c. The identity of a public depository's public depositors.

However, the Treasurer of State may release or exchange such confidential information as required by law for the operation of the pooled collateral program. (Ohio Rev. Code § 135.182(K)(1))

FDIC Insurance Coverage

The current standard maximum FDIC deposit insurance amount is \$250,000.

Depositories may pledge the following securities or other obligations under the subsections of Ohio Rev. Code § 135.18(D) listed below:

- (1) Bonds, notes, or other obligations of the United States; or bonds, notes, or other obligations guaranteed as to principal and interest by the United States or those for which the full faith of the United States is pledged for the payment of principal and interest thereon, by language appearing in the instrument specifically providing such guarantee or pledge and not merely by interpretation or otherwise;
- (2) Bonds, notes, debentures, letters of credit, or other obligations or securities issued by any federal government agency, or instrumentality, or the export-import bank of Washington; bonds, notes, or other obligations guaranteed as to principal and interest by the United States or those for which the full faith of the United States is pledged for the payment of principal and interest thereon, by interpretation or otherwise and not by language appearing in the instrument specifically providing such guarantee or pledge;
- (3) Obligations of or fully insured or fully guaranteed by the United States or any federal government agency or instrumentality;
- (4) Obligations partially insured or partially guaranteed by any federal agency or instrumentality;
- (5) Obligations of or fully guaranteed by the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank, or Student Loan Marketing Association;
- (6) Bonds and other obligations of this state;
- (7) Bonds and other obligations of any county, township, school district, municipal corporation, or other legally constituted taxing subdivision of this state, which is not at the time of such deposit, in default in the payment of principal or interest on any of its bonds or other obligations, for which the full faith and credit of the issuing subdivision is pledged;
- (8) Bonds of other states of the United States which have not during the ten years immediately preceding the time of such deposit defaulted in payments of either interest or principal on any of their bonds;

²⁹ Only the depository's name would need to be redacted, not the entire workpaper. Even if the entity openly shares, auditors are still restricted from releasing this information.

- (9) Shares of no-load money market mutual funds consisting exclusively of obligations described in division (D)(1) or (2) of Ohio Rev. Code § 135.18 [these sections are (1) & (2), above] and repurchase agreements secured by such obligations;
- (10) A surety bond issued by a corporate surety licensed by the state and authorized to issue surety bonds in this state pursuant to Ohio Rev. Code Chapter 3929 and qualified to provide surety bonds to the federal government pursuant to 96 Stat. 1047 (1982), 31 U.S.C. § 9304;
- (11) Bonds or other obligations of any county, municipal corporation, or other legally constituted taxing subdivision of another state of the United States, or of any instrumentality of such county, municipal corporation, or other taxing subdivision, for which the full faith and credit of the issuer is pledged and, at the time of purchase of the bonds or other obligations, rated in one of the two highest categories by at least one nationally recognized statistical rating organization.

An institution designated as a public depository shall designate a qualified trustee³⁰ and place the eligible securities required by Ohio Rev. Code § 135.18(D) with the trustee for safekeeping. The trustee shall hold the eligible securities in an account indicating the public depositor's security interest in the securities. The trustee shall report to the public depositor information relating to the securities pledged to secure the public deposits in the manner and frequency required by the public depositor. [Ohio Rev. Code § 135.18(E)]

Any Federal Reserve Bank³¹ or branch located in this state or Federal Home Loan Bank is qualified to act as trustee for the safekeeping of securities.

Any institution mentioned in Ohio Rev. Code § 135.03 is qualified to act as trustee for the safekeeping of securities, other than those belonging to itself, under this section.

Ohio Rev. Code § 135.181³²

In lieu of the specific pledging requirements of Ohio Rev. Code §§ 135.18 and 135.37, a public depository at its option may pledge a single pool of eligible securities to secure the repayment of all its public deposits not otherwise secured, provided that at all times the total market value of the securities so pledged is at least equal to one hundred five per cent of its uninsured public deposits to be secured by the pooled securities.³³

³⁰ All securities eligible as collateral are book-entry only and held at the Federal Reserve. The Federal Reserve Bank acts as the government's agent and holds the collateral securities in the government's name. Deposits secured by collateral held in these accounts are not subject to custodial credit risk disclosures if the government can provide evidence that pledge accounts held in the government's name are in existence at the Federal Reserve.

³¹ The Federal Reserve Bank of Cleveland sometimes uses the Boston Federal Reserve Bank for safekeeping. We do not deem this arrangement to violate this provision.

³² OPCS is not fully in place as of the date of this OCS. However, when the OPCS is implemented, Ohio Rev. Code § 135.181 is expected to no longer be effective. However, § 135.181 is applicable during the period when financial institutions have a signed letter of intent to join the OPCS, but are still waiting to finalize the process. This means financial institutions can only keep their old pools if they have an agreement and are waiting to join, otherwise they are considered non-compliant.

³³ This is not the same as the single pool of collateral under the treasurer of state as defined in footnote 28.

The securities described in division (B) of Ohio Rev. Code § 135.18 (described above), shall be eligible as collateral, provided no such securities pledged as collateral are at any time in default as to either principal or interest.

A public depository shall designate a qualified trustee (i.e., the Federal Reserve) and deposit the eligible pledged securities with that trustee for safekeeping. The depository must give written notice of the qualified trustee to any treasurer depositing public monies for which such securities are pledged. The treasurer shall accept the written receipt of the trustee describing the pool of securities so deposited by the depository. [Ohio Rev. Code § 135.181(E)]

Upon request of a treasurer up to 4 times per year, a *public depository* must report: the amount of public monies deposited by the treasurer and secured and the total value based on the valuations described above, of the pool of securities pledged to secure public monies held by the depository, including those deposited by the treasurer [Ohio Rev. Code § 135.181(L)].

Upon request of a treasurer up to 4 times per year, a *qualified trustee* must report the total value of the securities pool deposited with it by the depository and provide an itemized list of pooled securities. The trustee must make these reports as of the date the treasurer specifies.

Suggested Audit Procedures – Compliance (Substantive) Tests:

Determine whether the auditee had material deposits during the audit period with a financial institution enrolled in the OPCS (see listing with dates enrolled at <https://opcs.ohio.gov/login/>)

- a. Complete procedures #1&2 for those in OPCS, and
- b. Complete #3&4 for those not in OPCS

Procedures for Financial Institutions enrolled in OPCS

1. Obtain and review the AOS State Regions annual report related to the testing of the OPCS (see here <http://www.ohioauditor.gov> or <http://Intranet/AuditorResources/ConfirmationListings-AllGovernmentEntities.aspx>)³⁴
2. We can observe the OPCS on <https://opcs.ohio.gov/login/> using the following steps exactly as described:
 - a. Request the auditee to type in the url above (rather than accessing it from a bookmark) and login
 - i. To preserve the government's security, we must not observe, obtain, or document the government's password or ID.
 - ii. If the auditee is not already registered, consider whether they are sufficiently monitoring compliance as required and make appropriate audit reactions as needed.
 - b. Observe, document, and compare the year-end balance to confirmed balances in cash testing.

³⁴ Testing performed by AOS State Region provides assurance over:

- Bank Rating System (SCALE)
- Collateral Sufficiency Calculations (meet Ohio Rev. Cod requirements)
- Accuracy of Bank Data
- Security Interest Perfection

- c. Observe, document, and print evidence of collateral sufficiency for multiple dates during the audit period.

Procedures for Financial Institutions not enrolled in OPCS

1. Compare depository balances to depository collateral during the audit period, noting maximum amounts on deposit at any time. Calculate (or inspect, if available, the government's calculations) if legal security was at least equal to one hundred five per cent of depository balances. Focus audit procedures on the most recent fiscal year end, but based on your assessment of the control environment, the nature of collateral³⁵ and other risks also consider whether you should evaluate the adequacy of collateral as of other dates during the audit when deposit or investment balances may have been materially higher, such as immediately after the receipt of tax settlements.
2. Inspect the financial institution's listing of pledged securities. Select a few securities and determine if the institution pledged only eligible securities. (When determining the extent of testing, auditors should consider that we do not require a high level of assurance, so a "few" items should be sufficient. Auditors can reduce or eliminate this testing based on the assessed level of control risk* and past experience with the financial institution. Therefore, if the government documents its review of collateral eligibility, or we have not noted eligibility problems in prior audits, we can reduce or eliminate this test.)

* "Control risk" in this context refers to the *government's* controls, if any, over reviewing their financial institutions' collateral lists. The AOS has no basis for assessing a financial institution's control risk.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

³⁵ For example, there is generally less risk that a financial institution using a collateral pool will have insufficient collateral vs. a financial institution pledging specific securities.

<p>Revised: HB 49, 132nd GA Effective: 6/30/2017</p>

COUNTY (AND COUNTY HOSPITAL) REQUIREMENTS

The provisions of Ohio Rev. Code Chapter 135 relating to counties (and county hospitals) are in separate sections from the provisions relating to all other subdivisions. However, in most cases the requirements are very similar.

2-10 Compliance Requirement: Ohio Rev. Code §§ 135.35, 135.353, 339.061(D) and ~~12 C.F.R. 370~~ - Eligible Investments for inactive county money (county hospitals may invest in these same securities, per Ohio Rev. Code § 339.06).

Summary of Requirements:

Investments must mature within 5 years from the date of settlement unless the investment matches a specific obligation or debt, and the investment advisory committee specifically approves it.

- A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years due to a temporary change in this law. (This is because in 2012 H.B. 225 was enacted and then repealed months later).

The following classifications of securities and obligations are eligible for deposit or investment:

- United States obligations or any other obligation guaranteed as to principal or interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States. [Ohio Rev. Code § 135.35(A)(1)]
- Stripped principal or interest obligations are not permitted. Except, Federally-issued or Federally-guaranteed stripped principal or interest obligations are permitted. [Ohio Rev. Code § 135.35(A)(1)]
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities must be direct issuances of federal government agencies or instrumentalities. [Ohio Rev. Code § 135.35(A)(2)]
- Time certificates of deposit¹¹ or savings or deposit accounts, including passbook accounts, in any eligible institution mentioned in Ohio Rev. Code § 135.32. [Ohio Rev. Code § 135.35(A)(3)]
- Ohio Rev. Code § 135.353 also permits counties to use the Certificate of Deposit Account Registry Services (CDARS) or similar programs (one example is Star Plus) meeting Ohio Rev. Code § 135.353 requirements. If a county purchases CDs for more than the FDIC limit (\$250,000). See *OCS step 2-6* with a bank participating in CDARS, Star Plus, etc., the bank or program “redeposits” the excess amounts with other institutions. Each bank accepts less than \$250,000 so that all deposits have FDIC coverage. Ohio Rev. Code § 135.353 requires a county to place its deposits with an eligible depository per Ohio Rev. Code § 135.32. However, institutions the county’s depository places excess deposits with are not subject to Ohio Rev. Code § 135.32. For example, while the deposit must be initiated at an Ohio depository branch, the Ohio depository can purchase CDs from depositories outside of Ohio for the excess. Because all CDARS, Star Plus, etc. deposits have FDIC coverage, the collateral requirements of Ohio Rev.

Code §§ 135.18, 135.181, or 135.182 do not apply. (That is, these are *insured* deposits for GASB Statement No. 40 purposes, Appendix E-2 of the OCS Implementation Guide.)

- Any CD's purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices with a monthly account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.
- Bonds and other obligations of this state or the political subdivisions of this state. [Ohio Rev. Code § 135.35(A)(4)]
- Ohio Rev. Code § 135.35(C) allows the purchase of municipal debt of the State of Ohio or **any** political subdivision of the State.
- No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in Ohio Rev. Code § 135.143(A)(1), (2), or (6) and repurchase agreements secured by such obligations, if purchased from eligible institutions mentioned in Ohio Rev. Code § 135.32 (generally, Ohio banks and national banks authorized to do business in **Ohio**. [Ohio Rev. Code § 135.35(A)(5)]
- United States treasury bills, notes, bonds, or any other obligations or securities issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States, Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality or commercial paper rated in the highest category by two standard rating services (i.e. securities Ohio Rev. Code § 135.143(A)(1), (2), or (6) permits);
- The Ohio Subdivision's Fund (STAR Ohio¹³) as provided in Ohio Rev. Code § 135.45. [Ohio Rev. Code § 135.35(A)(6)]
- Securities lending agreements with any eligible institution mentioned in Ohio Rev. Code § 135.32 that is a member of the Federal Reserve System or Federal Home Loan Bank, or with any recognized U.S. government securities dealer,³⁶ under the terms of which agreements in the investing authority lends securities and the eligible institution agrees to simultaneously exchange similar securities described in Ohio Rev. Code § 135.35(A)(1) or (2) or cash or both securities and cash, equal value for equal value. [Ohio Rev. Code § 135.35(A)(7)]

³⁶ Ohio Rev. Code § 135.35(J)(1) defines these security dealers as being “a member of the financial industry regulatory authority (FINRA), through a bank, savings bank, or savings and loan association regulated by the superintendent of financial institutions, or through an institution regulated by the comptroller of the currency, federal deposit insurance corporation (FDIC), or board of governors of the federal reserve system.”

- Up to ~~forty~~ ~~twenty-five~~ per cent of the county's total average portfolio in either of the following [Ohio Rev. Code § 135.35(A)(8)]:
 - **Commercial paper** issued by an "entity" that is defined in division (D) of Ohio Rev. Code § 1705.01 (see definition below) and that has assets exceeding five hundred million dollars, to which all of the following apply:
 - The aggregate value of the notes does not exceed ten per cent of the aggregate value of the outstanding commercial paper of the issuing corporation.
 - The notes are rated at the time of purchase in the highest classification established by at least two nationally recognized standard rating services.
 - The notes mature not later than 270 days after purchase.
 - The investment in commercial paper notes of a single issuer shall not exceed in the aggregate 5% of interim moneys available for investment at the time of purchase.
 - **Bankers' acceptances** of banks that are insured by the federal deposit insurance corporation and to which the obligations mature not later than one hundred eighty days after purchase.

No investment shall be made in commercial paper or bankers' acceptances unless the treasurer or governing board has completed additional training for making those investments. The type and amount of additional training shall be approved by the Treasurer of State and may be conducted by or provided under the supervision of the Auditor of State. See also OCS step 2-21.

- Per Ohio Rev. Code § 135.35(A)(9), up to fifteen per cent of the county's total average portfolio in notes issued by corporations incorporated under U.S. law and that operate within the United States, or by depository institutions doing business under U.S. authority or any state's authority, and that operate within the United States, provided both of the following apply:
 - The notes are rated in one of the two highest categories by at least two nationally recognized standard rating services at the time of purchase;
 - The notes mature not later than two years after purchase.
- Per Ohio Rev. Code § 135.35(A)(10) up to 1% of its portfolio in the debt of foreign nations, if:
 - Rated at the time of purchase in the three highest categories by two nationally recognized standard rating services
 - The U.S. government recognizes it diplomatically.³⁷
 - All interest and principal shall be denominated and payable in United States funds.
 - The foreign government guarantees the debt.
 - Investments must mature within 5 years from the date of settlement.

Note: A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years (this is because in 2012 H.B. 225 was enacted and then repealed months later).

³⁷ As best as we can determine, the United States does not recognize the following nations: ~~ISIS, Cuba, Bhutan, Iran, North Korea, Sudan, Somalia,~~ and the Republic of China (Taiwan).

“Entity” means any of the following [Ohio Rev. Code § 1705.01(D)]:

- A corporation existing under the laws of this state or any other state;
- Any of the following organizations existing under the laws of this state, the United States, or any other state:
 - A business trust or association;
 - A real estate investment trust;
 - A common law trust;
 - An unincorporated business or for profit organization, including a general or limited partnership;
 - A limited liability company.

The investing authority may also enter into a written repurchase agreement with any eligible institution mentioned in Ohio Rev. Code § 135.32 or any eligible dealer pursuant to Ohio Rev. Code § 135.35(J), under the terms of which agreement the investing authority purchases, and the eligible institution or dealer agrees unconditionally to repurchase any of the securities listed in divisions (D)(1) to (5) of § 135.18, except letters of credit described in division § 135.18(D)(2) are not permitted for repurchase agreements.³⁸ The market value of securities subject to an overnight repurchase agreement must exceed the principal value of securities subject to a repurchase agreement by at least 2%.¹⁵ A written repurchase agreement shall not exceed 30 days and the value of the securities must exceed the principal value by at least 2% and be marked to market daily. [Ohio Rev. Code § 135.35(D)]

- All securities purchased pursuant to a repurchase agreement are to be delivered into the custody of the investing authority or the qualified custodian of the investing authority or an agent designated by the investing authority³⁹. [Ohio Rev. Code § 135.35(D)]
- Repurchase agreements with an eligible securities dealer must be transacted on a delivery versus payment basis.
- Repurchase agreements must be in writing. For each transaction, the participating institution must provide:
 - the par value of the securities;
 - the type, rate, and maturity date of the securities;
 - a numerical identifier (e.g., a CUSIP number), generally accepted in the industry, designating the securities.
- Securities which are the subject of a repurchase agreement may be delivered to the treasurer or held in trust by the participating institution if it is a designated depository of the subdivision for the current period of designation. [Ohio Rev. Code § 135.35(I)].

Agreements by which the investing authority agrees to sell securities owned by the county to a purchaser and agrees with that purchaser to unconditionally repurchase those securities (*Reverse Repos*) are prohibited.

³⁸ Ohio Compliance Supplement Step 2-9 summarizes Ohio Rev. Code § 135.18(D)(1) to (11).

³⁹ Counterparties (e.g. banks) accomplish this by maintaining a separate “customer” account at the Federal Reserve designated as a customer account. (For purposes of GASB Statement No. 40, we currently believe securities held in a customer account would not be exposed to custodial risk.)

Investment in derivatives is prohibited. A *derivative*¹⁸ is a financial instrument or contract or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself. Any security, obligation, trust account, or other instrument that is created from an issue of the United States Treasury or is created from an obligation of a federal agency or instrumentality or is created from both is considered a derivative. [Ohio Rev. Code § 135.14(C)]

An eligible investment described in Ohio Rev. Code § 135.14 with a variable interest rate payment or single interest payment, based upon a single index comprised of other eligible investments provided for in division (B)(1) or (2) of Section 135.14, is **not** a derivative, if the variable rate investment has a maximum maturity of 2 years. [Ohio Rev. Code § 135.14(C)]

1999 Op. Atty. Gen. No. 1999-026 deemed collateralized mortgage obligations to be derivatives.

A treasury inflation-protected security (TIPS) shall not be considered a derivative for counties, provided the security matures not later than five years after purchase. [Ohio Rev. Code § 135.35(B)] H.B. 225, effective 3/22/12 and then repealed 9/10/12, temporarily increased this to ten years.

Per Ohio Rev. Code § 135.35(E): No investing authority can invest under § 135.35, unless the investing authority reasonably expects that the investment can be held until its maturity. The investing authority's written investment policy should specify the conditions under which an investment may be redeemed or sold prior to maturity.

Per Ohio Rev. Code § 135.35(F), no investing authority may pay a county's inactive moneys, or moneys of a county library fund into an investment pool *other than*:

- the Ohio Subdivision's Fund (STAR Ohio¹³) pursuant to Ohio Rev. Code § 135.35(A)(6);
- a fund created solely for the purpose of acquiring, constructing, owning, leasing, or operating municipal utilities pursuant to Ohio Rev. Code § 715.02 or Ohio Const. Art XVIII, Section 4.

A county may not leverage its investments. (That is, a county cannot use its current investments as collateral to purchase other investments.) [Ohio Rev. Code § 135.35(G)]

A county cannot issue taxable notes for arbitrage purposes. [Ohio Rev. Code § 135.35(G)] (That is, a county cannot invest the proceeds of taxable notes hoping to earn a higher return on the proceeds than the interest rate on the TAN.)

A county cannot contract to sell securities it does not own. (These are called *short sales*, where a county purchases the rights to a security solely on the speculation that its price will decline.) [Ohio Rev. Code § 135.35(G)]

Title to investments made by a board of county hospital trustees of a charter county hospital with money received from the operation of the county hospital shall not be vested in the county, but shall be held in trust by the board. [Ohio Rev. Code § 339.061(D)]

Payment for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from the custodian by the treasurer, governing board, or qualified trustee. [Ohio Rev. Code § 135.35(J)(2)]

Suggested Audit Procedures – Compliance (Substantive) Tests:

Note: Some of the steps below require the same documentation / evidence auditors also use to support the *existence, valuation and classification* of investments. You can gain efficiency by combining the steps below with the substantive steps related to the aforementioned assertions.

Select a representative number⁴⁰ of investments and:

1. Read investment dealer confirmations* to determine if the investment is of a type authorized.

* **Note:** Dealer confirmations are suitable evidence supporting the details (e.g. part of the valuation [cost] and occurrence assertions) of an investment at the time of purchase. However, it provides no evidence the county still owned the investment as of its fiscal year end. Auditors should obtain other evidence to support existence at year end. The audit program should include suitable existence steps.

2. Determine that the investments mature within the prescribed limits (generally no later than 5 years, or **other** periods for repurchase agreements [30 days], bankers' acceptances and commercial paper [180 or 270 days, respectively, from the purchase date], or securities matched to debt maturities, etc.)
3. Inspect documentation supporting repurchase agreements and determine that:
 - a. The market values of securities exceed the principal values of securities subject to the overnight repurchase agreement by at least 2%. (**Note:** The risk of non-compliance increases when banks merge.)
 - b. A term repurchase agreement did not exceed 30 days and the values of the securities were marked to market daily.
 - c. Repurchase agreements were in writing, including the par value of the securities; the type, rate, and maturity date of the securities; and a numerical identifier.
4. For investments in Bankers' Acceptances and Commercial Paper Notes, inspect documentation and determine whether the additional training was received.
5. Read the prospectus for money market mutual funds with which the government has significant investments. Determine whether the prospectus limits investments to those authorized under Ohio Rev. Code §§ 135.35(A)(1) & (A)(2) or 135.143(A)(1), (2), or (6).
6. Determine whether mutual funds, commercial paper, and any notes of U.S. corporations have the necessary credit rating issued by national ratings agencies (such as that S&P, Moody's or Fitch issues).
7. Inspect dealer confirmations of the bankers' acceptances purchased and determine that the county has maintained related documentation that the:

⁴⁰ When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

- a. Banks are insured by the Federal Deposit Insurance Corporation
 - b. Dealer confirmations should indicate if banker's acceptances were **NOT** eligible for purchase by the Federal Reserve System. Read the confirmation to determine whether the banker's acceptance was **ineligible**. (A statement of ineligibility would indicate an **ineligible** investment, per Ohio Rev. Code § 135.35(A)(8)(b).
8. Scan the county's computation of the composition of its investments. Determine if the portfolio contains \leq :
- a. 1% foreign national securities
 - b. 15% debt of U.S. corporations
 - c. 4025% commercial paper + bankers' acceptances
9. Scan investment records to determine whether the county is selling securities prior to maturity. If a significant number or amount of premature sales occurred:
- a. Determine whether the premature sales complied with the county's policy regarding early redemption. (We believe the policy should generally require sufficient cash flow planning to support that the county had sufficient cash at the time of purchase so that a premature sale would not be needed to meet emergency cash flow needs. Forced premature sales often result in losses.)
 - b. Review the county's cash flow forecasts supporting that the county had reasonable support at the time of purchase that it could hold the security to maturity. If there is inadequate cash flow planning necessitating premature sales, cite this section and recommend the government improve its cash flow forecasting. The finding should also describe any losses the government suffered from these sales.

Note: The steps above should normally be sufficient for most counties. Because we believe the risk of counties engaging in certain prohibited activities such as leveraging, short sales or arbitrage violations is low, there are no steps included to test these requirements. You should scan the other requirements in this step, and based on your knowledge of the county's investing activities, investigate them if evidence suggests the county may have materially violated these requirements.

<p>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

2-11 Compliance Requirement: Ohio Rev. Code §§ 135.35 and 339.061(B) – Other County and County Hospital [Ohio Rev. Code § 339.06] Requirements.

Summary of Requirements:

Investments or deposits under Ohio Rev. Code § 135.35 cannot be made unless a written investment policy approved by the investing authority (for hospitals, the authority is the county hospital board, per Ohio Rev. Code § 339.06) is on file with the Auditor of State. If a written investment policy is not filed with the Auditor of State, the investing authority may invest only in certificates of deposit, savings or deposit accounts, STAR Ohio¹³, or no-load money market mutual funds. [Ohio Rev. Code § 135.35(K)(1)&(2)]

The investment policy must be signed by:

- All entities conducting investment business with the investing authority (except the Treasurer of State);
- All brokers, dealers, and financial institutions, described in Ohio Rev. Code § 135.35(J)(1), initiating transactions with the investment authority by giving advice or making investment recommendations;
- All brokers, dealers, and financial institutions, described in Ohio Rev. Code § 135.35(J)(1), executing transactions initiated by the investing authority.

The investing authority is required to inventory all obligations and securities. The inventory includes a description of each obligation or security, including type, cost, par value, maturity date, settlement, date, and any coupon rate. [Ohio Rev. Code § 135.35(L)(1)]

The investing authority is required to keep a complete record of all purchases and sales of the obligations and securities. [Ohio Rev. Code § 135.35(L)(2)]

The investing authority is required to keep a monthly portfolio report and issue a copy of the monthly report describing its investments to the county investment advisory committee. This report indicates: [Ohio Rev. Code § 135.35(L)(3)]

- the current inventory of all obligations and securities,
- all transactions during the month that affected the inventory,
- any income received from the obligations and securities, and
- any investment expenses paid.
- The names of any persons executing transactions on behalf of the investing authority.

The inventory and the monthly portfolio report are public records and must be filed with the board of county commissioners and the Treasurer of the State of Ohio. [Ohio Rev. Code § 135.35(L)(5)]

Any securities, certificates of deposit, deposit accounts, or any other documents evidencing deposits or investments must be issued in the name of the county with the county treasurer or investing authority as the designated payee. [Ohio Rev. Code § 135.35(H)]

If any such deposits or investments are registerable as to principal and/or interest, they must be registered in the name of the treasurer. [Ohio Rev. Code § 135.35(H)]

The investing authority is responsible for safekeeping documents evidencing a deposit or investment. Securities and documents confirming the purchase of securities under any repurchase agreement may be deposited with a qualified trustee. [Ohio Rev. Code § 135.35(I)]

The investing authority, board of county hospital trustees of a charter county hospital, is responsible for holding and administering all money received from the operation of the county hospital. This includes money arising from rendering medical services to patients and all other fees, deposits, charges, receipts, and income received as the result of the operation of the county hospital and medical staff. [Ohio Rev. Code § 339.061(B)]

- Money must be invested according to an investment policy which provides the following:
 - At least 25% of the average amount of the investment portfolio over the course of the preceding fiscal year must be invested as a reserve in U.S. governmental securities, the Ohio Subdivisions Fund, Ohio state or political subdivision securities, certificates of deposit issued by national banks located in Ohio, repurchase agreements with Ohio financial institutions that are members of the Federal Reserve System or Federal Home Loan Bank, money market funds, or bankers' acceptance maturing within 270 days or less;
 - Money not required to be invested as a reserve may be pooled with other institutional funds and invested;
 - An investment committee is to be created and meet quarterly to review revisions to the board's investment policy and advise the board on investments.
 - If an investment advisor is retained, they must be licensed by the Division of Securities or registered with the U.S., Securities and Exchange Commission, and must have experience in the management of investments of public funds and investment of state government portfolios, or be an institution that is eligible to be a public depository. [Ohio Rev. Code § 339.061(C)]

Where securities, including securities which are the subject of a repurchase agreement, have been delivered to a qualified trustee for safekeeping, the qualified trustee must report on request to the treasurer, governing board, Auditor of State, or authorized IPA as to the identity, market value, and location of the document evidencing each security.

All investments in securities except investments described in Ohio Rev. Code § 135.35(A)(5), (6), and (11) [no load money market mutual funds and certain repos] are required to be made through

- members of the Financial Industry Regulatory Authority (FINRA), or
- institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of the Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System. [Ohio Rev. Code § 135.35(J)(1)]

Payment for investments may be made only upon delivery of the securities to the treasurer, investing authority, or qualified trustee, or, if in book-entry form, only upon confirmation of delivery to such parties. [Ohio Rev. Code § 135.35(J)(2)]

Suggested Audit Procedures – Compliance (Substantive) Tests:

1. Read the county's investment policy for the period.
2. Inspect documentation that the investment policy was filed with the Auditor of State (Investment policies filed with AOS have been scanned and are posted on S:\Final Audit PDF. Click on the Region/County/Entity name.).
3. Inspect the policy for the requisite signatures:
 - a. All entities conducting investment business with the county (except the Treasurer of State);
 - b. All brokers, dealers, and financial institutions initiating transactions with the county by giving advice or making investment recommendations;
 - c. All brokers, dealers, and financial institutions executing transactions initiated by the county.
 - d. Select a representative number of investments made by the entity and determine whether the investments are in accordance with the county's investment policy as adopted by the county's legislative body.
4. Determine if the policy requires financial institutions, brokers and dealers to comply with Ohio Rev. Code Chapter 135. (There is no legal requirement to include this, but if the policy does not include this requirement, we should recommend the government amend their policy to require compliance.)
5. If there is no written investment policy filed with the Auditor of State, scan the county's investment portfolio for the period to determine that it is composed solely of certificates of deposit, savings or deposit accounts, STAR Ohio¹³, or no-load money market mutual funds.
6. Select a representative number⁴¹ or amount of investments and:
 - a. Inspect documentation that any designated payee is the treasurer or treasurer's office; and that registerable securities are registered in the treasurer's name.
 - b. Inspect purchase documents and determine that investments were made through appropriate parties: members of the National Association of Securities Dealers, Inc., or institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of the Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System. Compare purchase dates and payments and determine that payment for securities was made upon delivery of the securities or upon receipt of confirmation of transfer from the custodian. Any CD's purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices with a monthly

⁴¹ When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.

- c. Inspect copies of the investing authority’s (i.e. treasurer’s) inventory documents: scan the documents and determine if it appears the inventory includes a description of each obligation or security, including type, cost, par value, maturity date, settlement, date, and any coupon rate; the inventory reflects a complete record of all purchases and sales of the obligations and securities; and that the county is keeping a monthly portfolio report and is issuing a quarterly investment report describing its investments to the county investment advisory committee.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

COMMUNITY SCHOOLS

2-12 Compliance Requirement: Ohio Rev. Code § 3314.04: Contractually imposed deposit and investment requirements.

Pursuant to Ohio Rev. Code § 3314.04, Ohio Rev. Code Chapter 135 does not apply to community schools. However, other entities may impose restrictions on investments, collateral, etc. Such entities could be grantors, creditors, the sponsor, board policy, etc. Auditors should identify and list any applicable requirements below:

[Insert applicable depository and investment requirements.]

Suggested Audit Procedures – Compliance (Substantive) Tests

[Insert applicable audit procedures. See other OCS Sections for example audit procedures.]

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

SECTION F: OTHER LAWS AND REGULATIONS

COMMUNITY SCHOOLS

2-13 Compliance Requirement: Ohio Rev. Code §§ 3314.011, 3314.019, 3314.02, 3314.023, 3314.03, 3314.036, 3314.46- Sponsor monitoring of community schools

Summary of Requirement:

The sponsor may contract with the school to receive 3% or less of the amount *the State pays to a school annually*, ~~solely~~ for the costs of its monitoring, oversight, and technical assistance.⁴² In other words, the total amount of such payments for monitoring, oversight, and technical assistance of the school shall not exceed 3% of the total amount of payments for *operating expenses that the school receives from the State*⁴³. [Ohio Rev. Code § 3314.03(C)] (Suggested Audit Procedure 4)

Each contract between the sponsor and the school must specify certain items [Ohio Rev. Code § 3314.03(A)]⁴⁴. While not all inclusive, the following items, if omitted from the contract or not sufficiently described therein, are those where noncompliance could indirectly and materially impact a community school's ability to continue operations under a valid charter contract: (Suggested Audit Procedure 1)

- Each contract between a community school sponsor and governing authority must:
 - contain performance standards, including all applicable report card measures;
 - contain ~~stipulations~~ information regarding facilities costs and financing, attendance policies and records, and loans from the school's operator; and

⁴² ~~No sponsor shall sell any goods or services to a community school it sponsors, except in limited circumstances included in Ohio Rev. Code §3314.46(B) a A sponsor can earn more than 3% if it provides sells additional goods or services beyond sponsorship. These circumstances are limited to:~~

- ~~1) contracts entered prior to 2/1/16 that involve the sale of goods or services to a community school it sponsors;~~
- ~~2) If the sponsor of a community school is also the school district in which that community school is located, the sponsor may sell goods or services to that community school at no profit to the sponsor or~~
- ~~3) If the sponsor of a community school is a state university, as defined in section 3345.011 of the Revised Code, the sponsor may sell services to that community school at no profit to the sponsor.~~

~~It should be noted that Ohio Rev. Code §3311.055 explains that the term 'school district' shall be construed to include educational service centers. If none of these exceptions are met a sponsor should not receive more than the 3% mentioned above. A contract should specify these additional services, and should differentiate them from the services required of a sponsor. This prohibition is specific to a community school's sponsor. It does not, however, prevent a third party vendor that a sponsor contracts with from separately contracting with a community school to provide fiscal and instructional goods or services to a community school at a profit. Community schools cannot sponsor other community schools [Ohio Rev. Code § 3314.02(C)(1)(f)(iv)]. (Suggested Audit Procedures 4a & b)~~

⁴³ AOS has determined that these monies would include Full-Time Equivalency (FTE is explained in step 1-27), State grant, and Federal grant monies. *Grant monies that are restricted from general operations (such as capital grants or grants for limited operation programs like special education) should be excluded from calculations as these monies cannot be used for general operating expenses.*

⁴⁴ ~~Per Ohio Rev. Code § 3314.03(A)(13), a contract should not exceed five year, unless renewed. The law appears to be silent on the number of renewals permitted.~~

- require that a community school's attendance and participation records be made available to the extent permitted by federal law.
- A community school is required to define **learning opportunities** in its contract with its sponsor: [ODE FTE Review Manual & Ohio Admin. Code § 3301-102-02(M)]
 - It may include both classroom-based and non-classroom-based activities.
 - These activities have to be either directly provided by a teacher or supervised by a teacher; the school should be able to identify the teacher.
 - These activities have to be educational, instructional, and goal-oriented; there should be some school policy or guidance that in advance describes the goal, mainly of non-classroom-based activities. Just reporting activities after-the-fact without prior goals, prior specification of activities, and/or teacher direction is not sufficient.
 - Instructional hours in a community school's day include recess and time for changing classes, but not the breakfast and lunch periods.
- **Blended Learning**⁴⁵ – [Ohio Rev. Code § 3314.03(A)] ~~If students engage in a school operates using a blended learning model activities as part of their instructional time, the contract should describe the blended learning model(s) environment and require the community school board to:~~[Ohio Rev. Code §3314.19] (Suggested Audit Procedure 3)
 - ~~Adopt a policy concerning accountability and how the school will capture a record of time spent.~~
 - The statute also requires the sponsor of each community school that operates using the “blended learning” method to annually provide to the Ohio Department of Education, not later than ten business days prior to the school's opening, assurance that the sponsor has reviewed the following information submitted by the school [Ohio Rev. Code § 3314.19]:
 - (1) An indication of what blended learning model or models will be used;
 - (2) A description of how student instructional needs will be determined and documented;
 - (3) The method to be used for determining competency, granting credit, and promoting students to a higher grade level;
 - (4) The school's attendance requirements, including how it will document participation in learning opportunities;
 - (5) A statement describing how student progress will be monitored;
 - (6) A statement describing how private student data will be protected; and
 - (7) A description of the professional development activities that will be offered to teachers.

More information about H.B. 2 requirements for blended learning for community schools can be found on ODE's website at: <https://education.ohio.gov/getattachment/Topics/Community-Schools/Sections/Public-Documents-and-Reports/Blended-Learning-Guidance.pdf.aspx>.

- ~~Engaging in a **credit flexibility** activity may count in the instructional hours of a student if the *student(s)* requests to use credit flex, and the other procedures associated with credit flex such as goal setting, specification and completion of activities, and review by a licensed teacher, are in place.~~

⁴⁵ Blended learning is the delivery of instruction in a combination of time in a supervised, physical location away from home and online delivery where the student has some element of control over time, place, path, or pace of learning [Ohio Rev. Code § 3301.079(K)(1)].

- **Attendance** - The contract should specify that the school create an attendance policy. Such should indicate how participation in learning opportunities provided will be measured by a community school and its sponsor. It is especially important that a community school's contract policy detail how, for example, the school will capture participation of students in e-schools and blended learning environments when attendance itself may not always be the important factor.
- ~~**Instructional Day** – The instructional day for a community school must be defined in the school's contract with its sponsor:

 - It may be the time between when students come in and when students leave, or it may be the time when instruction begins and when instruction ends;
 - It may be accomplishment of specified activities and completion of certain tasks by students who are working on assigned work that is individualized to a single student's program or curricular area of interest.~~
- **Total Membership Unit** – The contract should specify the number of either days or hours of instruction the community school will provide during a school year.

In addition, per ODE's FTE review manual:

- Engaging in a **credit flexibility**⁴⁶ activity may count in the instructional hours of a student if the *student(s)* requests to use credit flex, and the other procedures associated with credit flex such as goal-setting, specification and completion of activities, and review by a licensed teacher, are in place.
- **Instructional Day** – The instructional day for a community school must be defined in the school's contract with its sponsor:
 - It may be the time between when students come in and when student leave, or it may be the time when instruction begins and when instruction ends,
 - It may be accomplishment of specified activities and completion of certain tasks by students who are working on assigned work that is individualized to a single student's program or curricular area of interest.

The contract between the sponsor and the school must specify the duties of the sponsor and must include the following [Ohio Rev. Code § 3314.03(D)]: (Suggested Audit Procedure 5)

1. Monitor compliance with laws applicable to the school and with the terms of the contract;
2. At least annually, monitor and evaluate the academic and fiscal performance and the organization and operation of the community school;
3. Annually, report the results of the preceding evaluation to ODE and to the students' parents;
4. Provide technical assistance to the school in complying with applicable laws and terms of the contract;
5. Intervene in the school's operation to correct problems in the school's overall performance;
6. Have in place a plan of action to be undertaken in the event the community school experiences financial difficulties or closes prior to the end of a school year; (Suggested Audit Procedure 6)
7. Declare the school to be on probationary status pursuant to § 3314.073 of the Revised Code, as determined necessary; (Suggested Audit Procedure 6)

⁴⁶ Authorized by the State Board of Education under the Alternative Pathways for high school students, Credit Flexibility permits students to meet core coursework requirements in four ways: Traditional, Integrated, Applied or Career-Technical. Students can earn credit through classroom instruction, demonstration of subject area competency, or a combination of both.

8. Suspend the operation of the school pursuant to § 3314.072 of the Revised Code, as determined necessary; and
9. Terminate the contract of the school pursuant to § 3314.07 of the Revised Code, as determined necessary.

Community schools are required to submit a comprehensive plan to their sponsor, including copies of all policies and procedures regarding internal financial controls adopted by the governing authority of the school ~~and~~. [Ohio Rev. Code. §3314.03(B)]:

1. ~~The process by which the governing authority of the school will be selected in the future;~~
2. ~~The management and administration of the school;~~
3. ~~If currently existing public school or ESC building, alternative arrangements for current public school students who choose not to attend the converted school and for teachers who choose not to teach in the school or building after conversion;~~
4. ~~The instructional program and educational philosophy of the school;~~
5. ~~Internal financial controls.~~

Each community school sponsor shall annually verify that a finding for recovery has not been issued against any governing authority member of that school, any individuals that propose to create the school, the operator, or any employee of the school. [Ohio Rev. Code § 3314.02(E)(2)(c)] Ohio Rev. Code § 9.24 defines a finding for recovery as “a determination issued by the AOS, contained in a report the AOS gives to the Attorney General pursuant to section 117.28 of the Revised Code, that public money has been illegally expended, public money has been collected but not been accounted for, public money is due but has not been collected, or public property has been converted or misappropriated.” AOS Bulletins 2003-009 and 2004-006 provide more information about Unresolved Findings for Recovery and searching the database. Sponsors may review these bulletins and perform a certified search of the Unresolved Finding for Recovery database at the following link: <http://ffr.ohioauditor.gov/>. Sponsors should maintain documentation to support performance of their certified searches of the Finding for Recovery database. (Suggested Audit Procedure 10)

The designated fiscal officer of a community school must be employed by or engaged under a contract with the school’s governing authority (as opposed to the operator). However, the statute also permits a governing authority, for one year at a time, to waive the requirement to directly employ or engage the fiscal officer. To do so, the governing authority must adopt a resolution for each year it wishes to waive the requirement, which must be approved by the school’s sponsor. If the governing authority adopts such a resolution, the school’s fiscal officer must annually meet with the governing authority to review the school’s financial status. A copy of each resolution must be submitted by the governing authority to the Ohio Department of Education. The statute explicitly states that such a resolution does not waive the underlying requirement for a community school to have a designated fiscal officer, ~~(Ohio Rev. Code § 3314.011(D)), and In addition the fiscal officer shall be licensed prior to assuming duties (Ohio Rev. Code § 3314.011(C)).~~[Ohio Rev. Code § 3314.011] (Suggested Audit Procedure 8)

The governing authority of a community school must employ an attorney that is independent from the school’s sponsor or operator, for any services related to the negotiation of the school’s contract with the sponsor or operator. [Ohio Rev. Code § 3314.036] (Suggested Audit Procedure 9)

Each contract between a sponsor and governing authority shall contain a provision requiring that, if the governing authority contracts with an attorney, accountant, or entity specializing in audits, the attorney, accountant or entity shall be independent from the operator with which the school has contracted. [Ohio Rev. Code § 3314.03(A)(31)] (Suggested Audit Procedures 8 & 9)

A sponsor shall not sell any goods or services to a community school it sponsors unless: (Ohio Rev. Code § 3314.46) (Suggested Audit Procedure 11)

- ~~a contract was established prior to February 1, 2016;~~
- ~~the sponsor is a state university, as defined in Ohio Rev. Code §3345.011, or is the school district in which the community school is located; goods or services may be sold at no profit.~~
 - ~~———— *Note:* This prohibition is specific to a community school’s sponsor. It does not however,~~
 - ~~———— prevent a third party vendor that sponsor contracts with from separately contracting with~~
 - ~~———— a community school to provide fiscal and instructional goods or services to a community~~
 - ~~———— school at a profit.~~

The sponsor (through its contract) may mandate a community school to comply with competitive bidding procedures. (Suggested Audit Procedure 2)

Ohio Rev. Code § 3314.023 requires a sponsor to provide monitoring, oversight, and technical assistance to each school that it sponsors. In order to provide monitoring, oversight, and technical assistance, a representative of the sponsor of a community school shall meet with the governing authority or ~~fiscal officer/treasurer~~ of the school and shall review the financial and enrollment records of the school at least once every month. ~~Not later than 10 days after each review, the sponsor shall provide the governing authority and fiscal officer with a written report regarding the review.~~ Copies of those financial and enrollment records shall be furnished to the community school sponsor and operator, members of the governing authority, and the fiscal officer on a monthly basis. (Suggested Audit Procedure 7)

Note: Barring an egregious situation such as negligence or fraud, it is not the statutory intent to hold community school fiscal officers responsible for a community school’s deficit financial position. Rather, this statute is designed to ensure that the sponsor can require the community school fiscal officer to turn over the enrollment and financial records to the sponsor upon closure.

~~As required by Ohio Rev. Code § 3314.016(B), ODE developed and implemented an evaluation system that annually rates and assigns an overall rating to each sponsor. This section further requires sponsors that receive an overall rating of “poor” to have all sponsorship authority revoked; and sponsors that receive an overall rating of “ineffective” on their 3 most recent ratings to have all sponsorship revoked. Note: For ineffective ratings, the 3 most recent years begins with the 2015/2016 fiscal year; so the 2017/2018 year would be the first time this could occur. ODE’s sponsor rating and evaluation are available at <http://education.ohio.gov/Topics/Community-Schools/Sponsor-Ratings-and-Tools/Overall-Sponsor-Ratings>. The ODE sponsor ratings are released annually, in October, related to the preceding school year. Therefore, a “poor” or “ineffective” rating could qualify as a subsequent event when it materially impacts a governmental sponsor or community school’s financial statements or ability to continue. If the sponsor received an “ineffective” rating on their 3 most recent ratings, or received a “poor” rating, auditors need to consider:~~

- ~~Whether the school anticipates remaining open after the school year and the potential impact that would have on the community school’s financial statements. A poor rating requires ODE to take over sponsorship of the community school and/or non-renew the school’s charter. (which may result in going concern and note disclosures, including subsequent events, for both governmental sponsor and community school audits).~~
- ~~This could impact on the governmental sponsor’s financial statements if ODE has taken action(s) against the sponsor to terminate their ability to sponsor and/or if ODE has assumed the role of interim sponsor. (This could be material to a governmental sponsor who is relying upon a material stream of sponsorship fees for healthy financial position).~~

Ohio Rev. Code § 3314.023 states if ~~If~~ a community school closes or is permanently closed, the designated fiscal officer shall deliver all financial and enrollment records to the school's sponsor within thirty days of the school's closure. If the fiscal officer fails to provide the records in a timely manner, or fails to faithfully perform any of the fiscal officer's other duties, the sponsor has the right of action against the fiscal officer to compel delivery of all financial and enrollment records of the school and shall, if necessary, seek recovery of any funds owed as a result of any finding of recovery by the auditor of state against the fiscal officer. (Suggested Audit Procedure 12)

Note: Oftentimes, a community school closeout can take longer than 30 days to liquidate all obligations and assets. Therefore, AOS and IPA's should evaluate whether a sponsor has physically observed and ensured a community school's records are intact and approved an existing fiscal officer to maintain those records in the fiscal officer's possession beyond 30 days in order to facilitate the closeout process. Where this is the case, AOS and IPA's should not take exception so long as all of the requested records are made available timely to the sponsor, ODE and the auditors for review.

The sponsor shall communicate with the auditor of state regarding an audit of the school or the condition of financial and enrollment records of the school, and shall maintain a presence at any and all meetings with the auditor of state regardless of whether the sponsor has entered into an agreement with another entity to perform all or part of the sponsor's oversight duties. [Ohio Rev. Code § 3314.019] In other words, a sponsor cannot delegate its responsibility to attend audit-related meetings, such as pre- and post-audit conferences, to a contracted third party vendor. The AOS interprets this requirement to extend to audits of community schools conducted by Independent Public Accountants (IPA) on the AOS's behalf. Meaning, the sponsor of a community school is also required to communicate with an IPA when the community school's audit is contracted to an IPA.

- Additionally, the auditor of state must provide written notice to the sponsor regarding any action taken against or upcoming audits of the community school. [Ohio Rev. Code § 117.105]

Community schools shall not initiate operation, unless the governing authority has posted a bond in the amount of \$50,000 with the Auditor of State.⁴⁷ The bond is to be used for audit costs owed to the Auditor of State, or a public accountant, in the event the school closes. [Ohio Rev. Code § 3314.50] (Suggested Audit Procedure 13)

- In lieu of the bond, the governing authority of the school, the school's sponsor or an operator that has a contract with the school may deposit with the Auditor of State cash in the amount of \$50,000 as guarantee of payment.
 - In lieu of the bond or cash deposit, the school's sponsor or an operator that has a contract with the school, may provide a written guarantee of payment. This will obligate the party to pay the cost of audits of the school up to \$50,000.

The bond or cash deposit balance not needed to cover audit costs shall be refunded by the treasurer of state to the entity which provided the bond.

- Any such written guarantee shall be binding upon any successor entity that enters into a contract to sponsor or to operate the school, and any such entity, as a condition of its undertaking shall acknowledge and accept such obligation.

⁴⁷ The bond should be sent to the Auditor of State of Ohio, Attn: Finance Department at 88 E. Broad St., 4th Floor, Columbus, OH 43215. The finance department will receipt the deposit and transfer to the Treasurer of State.

- Community schools which initiate operation on or after February 1, 2016 shall not maintain or continue operations absent the ongoing provision of this bond, cash deposit, or written guarantee. [Ohio Rev. Code § 3314.50]

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Examine the contract between the school and the sponsor. Determine if it includes sufficient information about the items Ohio Rev. Code § 3314.03(A) requires.

Note: Auditors should use professional judgment determining whether to issue noncompliance citations or internal control deficiencies depending upon the level of detail included within or omitted from the contract. While a contract may address a required item, auditors may find instances where the level of detail is not sufficient for a community school or sponsor to adequately determine or measure compliance over time. In these instances, the auditor should consider issuing an internal control deficiency at a minimum.

2. Determine if the contract requires competitive bidding procedures, the school has complied with those requirements.
- ~~3. If the school is using blended learning as specified in its contract and as declared to ODE, determine whether the school board has adopted a policy that includes accountability measures around its blended learning model.~~
3. ~~Also, d) Determine whether the contract provides payment to the sponsor for monitoring, oversight, and technical assistance activities.~~
 - a) Trace actual payments to the sponsor to the accounting records to determine whether they were ≤ 3% of the school's State assistance (or met the terms of the contract ~~or if a lower amount was specified, or the sponsor provides additional services).~~
 - b) ~~Determine if the sponsor did not sell goods or services to the community school except under specific circumstances as described above.~~
 - c) ~~Determine whether the school had any FTE adjustments after year end, or an FTE review by ODE that resulted in a clawback. Consider if a true-up was required for sponsor payments. (See further information in OCS 1-27. AOS auditors see guidance/steps in Teammate / IPA's see suggested steps on <https://ohioauditor.gov/references/guidance/communityschools.html>.)~~
4. Inquire regarding the nature and extent of the sponsor's monitoring activities.
 - Examine minutes, correspondence, reports or other evidence supporting that the sponsor fulfilled its monitoring duties described above.

- Read the sponsor's annual report submitted to ODE during the audit period. Based on other audit procedures, judge whether that report suggests the sponsor is diligent in its monitoring and is frank in its reporting to ODE.⁴⁸
5. If based on other audit procedures, the school is experiencing financial or performance problems, judge whether the sponsor is taking the actions the Ohio Rev. Code prescribes above (e.g., declaring the school in probationary status, preparing an action plan to address financial difficulties.)
 6. Assess whether the sponsor's overall monitoring generally fulfills the requirements above, including providing a written report on their monthly review of the financial and enrollment records to the school.
 7. Determine whether the community school's governing board (as opposed to the operator) contracted with an independent fiscal officer, or if a waiver was obtained. ~~Also determine whether the that they were~~ fiscal officer was licensed prior to assuming duties.
 8. Determine whether the community school's governing board has contracted with an independent attorney.
 9. Determine if the sponsor has annually verified that no findings for recovery have been issued against governing board members, individuals that propose to create the school, the operator, or any employee of the school.
 - ~~10. Determine if the sponsor has not sold goods or services to the community school except under specific circumstances as described above.~~
 10. If the community school closed or is permanently closed, determine if the designated fiscal officer delivered all financial and enrollment records to the school's sponsor within thirty days of the school's closure, or if the sponsor physically inspected the records in lieu of taking possession of them from the fiscal officer in order to facilitate a fiscal officer's ability to complete the close out.⁴⁹

⁴⁸ Staff should not spend significant time reviewing this report. We are not opining or providing any assurance on it. Consider tracing a "handful" of key financial amounts to current or prior audited statements or to accounting records we used in the audits. Read key passages to determine whether they are generally consistent with your understanding. If we find material misrepresentations in the report to ODE, we can report this as noncompliance by the sponsor. Our noncompliance finding should avoid imprecise statements such as "The sponsor's report was inaccurate." Instead, quote statements or amounts from the sponsor's report compared to quotes or amounts we obtained from other sources. List our source in the finding.

⁴⁹ AOS will accept documentation or other evidence that the sponsor performed a timely physical inspection of all records and mutually agreed to allow the fiscal officer to keep such records in his or her possession after 30 days from the date of closure and until all financial matters have been settled so long as the sponsor continues to monitor the activities of the fiscal officer until all matters are settled and the records are turned over. However, we believe the sponsor remains responsible for all financial and enrollment records after 30 days from the date of closure, regardless who has possession of these records.

11. If the community school was initiated on or after February 1, 2016, verify⁵⁰ with CommunitySchoolQuestions@ohioauditor.gov that a bond, cash deposit or written guarantee was posted to the Auditor of State in the amount of \$50,000.

For community schools initiated on or after February 1, 2016 that had a written guarantee by the sponsor or operator, determine if the guaranteeing entity changed (ie. the school changed sponsor or operator). If so, determine if the new sponsor/operator agreement included a provision acknowledging and accepting such obligation.

Report significant noncompliance as necessary in the school’s audit report.

<p>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

⁵⁰ AOS employees can verify by reviewing the community school master spreadsheets located at [CFAE Community Schools.aspx](#). IPA’s should contact the regional chief for the bonding information. Any questions may be directed to CommunitySchoolQuestions@ohioauditor.gov.

2-14 Compliance Requirement: Ohio Rev. Code § 3314.032 - Operator oversight of community schools

Summary of Requirement:

Beginning February 1, 2016, new or renewed contracts between the governing authority of a community school and its operator⁵¹, shall include: [Ohio Rev. Code § 3314.032(A)]

- Criteria for early termination;
- Notification procedures and timeline for early termination or nonrenewal;
- Stipulations relating to ownership of facilities and property purchased by the governing authority or operator. Property includes but is not limited to, equipment, furniture, fixtures, instructional materials and supplies, computers, printers, and other digital devices.
 - *Note:* H.B. 2 [Ohio Rev. Code § 3314.0210] specifies that personal property purchased with state funds that were paid to the operator or management company for use in operating a community school is property of that school and is not property of the operator or management company. Assets purchased by the management company for the school prior to February 1, 2016 still belong to the management company or as specified in the agreement.

An operator shall not lease any parcel of real property to the community school until an independent professional in the real estate field verifies via addendum that at the time the lease was agreed to, the lease was commercially reasonable. This independent professional is immune from civil liability for any decision rendered. [Ohio Rev. Code § 3314.032(B)]

Ohio Rev. Code §§ 3314.0210, 3314.015(E) and 3314.074 specify that furniture, computers, software, equipment, or other personal property purchased with state funds that were paid to an operator or management company for use in operating a community school is property of that school and is not property of the operator or management company. It also requires that such property must be distributed in accordance with continuing law whenever a community school closes and ceases its operation. That law prioritizes distribution of a school's remaining assets first to the state retirement systems, then to employees, and then other creditors. To the extent possible, state-purchased computers are to be turned over to the ODE for redistribution.

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. For new or renewed operator and community school contracts established on or after February 1, 2016, determine if the required items above were included in the contract.
2. For personal property purchased after February 1, 2016 with state funds paid to an operator or management company for use in operating a community school, determine these capital assets are reported on the community school's financial statements.

⁵¹ "Operator" means either of the following: (a) An individual or organization that manages the daily operations of a community school pursuant to a contract between the operator and the school's governing authority; or (b) A nonprofit organization that provides programmatic oversight and support to a community school under a contract with the school's governing authority and that retains the right to terminate its affiliation with the school if the school fails to meet the organization's quality standards. [Ohio Rev. Code § 3314.02(A)(8)]

3. If an operator has entered a lease for real property after February 1, 2016 to the community school, determine the lease was verified as commercially reasonable by an independent professional in the real estate field. **Note:** The auditor is not testing the lease for reasonableness, but rather ensuring the operator obtained the required verification.

4. For schools that are ~~closing or~~ closed, vouch that property purchased by operators with state funds that were paid to an operator or management company for use in operating the community schools has been distributed according to the ODE Closing Procedures, or otherwise in accordance with State /Federal law.

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

COURTS

2-15 Compliance Requirement: Ohio Rev. Code § 2335.25 - Cashbook of County costs; Ohio Rev. Code § 1901.31 – Municipal court records; Ohio Rev. Code § 1905.21 – Disposition of fines and other moneys for mayor’s court.

Summary of Requirement: Each clerk of courts must maintain a journal, cashbook, listing of all receipts and disbursements, or account for all fines, forfeitures, fees, and costs collected.

POSSIBLE NONCOMPLIANCE RISK FACTORS:

Note: Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Determine if a cashbook or similar listing of cash receipts and disbursements is maintained. (*Note:* We will normally know this from performing financially-related audit procedures.)

Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

STATUTORILY MANDATED TESTS
SECTION A: BUDGETARY REQUIREMENTS

None.

SECTION B: CONTRACTS AND EXPENDITURES

STATUTORY MUNICIPALITIES

2-16 Compliance Requirement: Ohio Rev. Code §§ 117.16 (A); 117.161, 723.52, 5517.02, and 5517.021 – Force accounts – [Certain] Municipal Corporations [Cities\Villages]. *This statute does not apply to a charter city or charter village pursuant to Ohio Rev. Code § 723.53.*

Summary of Requirements:

AOS Force Account Project Assessment Form (See note below for Ohio Department of Transportation Projects)

A director of public service in a city, or the legislative authority of a village, is required to estimate the costs of any “contract” for the construction, reconstruction, widening, resurfacing, or repair of a street or other public way using the Auditor of State’s force account project assessment form. *Note: the use of this form is required for contracted work pursuant to Ohio Rev Code § 723.52 and for force account projects pursuant to Ohio Rev. Code § 117.16(A).*

Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State’s force account project assessment form for the improvement, maintenance or repair of roads. However, § 5543.19(B) explicitly requires force account assessment forms for construction, reconstruction, improvement, maintenance or repair of bridges or culverts.

The Auditor of State’s prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

~~Note: “Safe Harbor” rates are no longer deemed allowable if a project uses federal funding therefore AOS Bulletin 2003-003 should not be followed for ODOT projects. However, ODOT has provided alternative guidance in their CMS manual ([ODOT Construction and Material Specifications manual](#)). An entity may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs (subject to ODOT approval); the entity should present documentation to the auditor to justify these approved self-computed percentage add-ons.~~

Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:

~~Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates specified in Bulletin 2003-003. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration’s termination Ohio’s waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA nos. 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.~~

Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):

~~Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages described in AOS Bulletin 2003-003~~

in computing their estimated costs. If the local government uses the safe harbor percentages in AOS Bulletin 2003-003, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

Joint Projects (See note below for Ohio Department of Transportation Projects)

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

Bid Specifications (See note below for Ohio Department of Transportation Projects)

If the city or village has an engineer or someone performing the duties and functions of an engineer, then that person may develop the estimates.

When the estimated cost of the total project, including labor, exceeds \$30,000, the city or village must invite and receive competitive bids from private contractors for completing the work. However, force accounts **may** be used if the city or village rejects all bids. The force account work must be performed in compliance with the plans and specifications upon which the private contractor bids were based.⁵²

The terms “construction, reconstruction, widening, resurfacing, or repair of a street or other public way” are not defined in this Ohio Rev. Code section. The city or village’s legal counsel or engineer should define these terms for the city or village. The Auditor of State will accept those definitions unless they are palpably and manifestly arbitrary or incorrect. *If the entity’s legal counsel, and/or engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with CFAE and the AOS’s Legal department concerning any issues involving a potential finding or citation as directed in the Audit Findings section of the Implementation Guide.*

Note: *The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:*

“A city must bid a project involving construction or reconstruction of a road if it exceeds \$30,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$45,000 (\$30,000 for the first mile, \$15,000 for the partial second mile), or \$60,000 (\$30,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

⁵² Occasionally, change orders may be necessary for force account projects. Change orders may be made for overruns in actual construction as long as: (1) the original estimate was made in good faith and (2) the change order request was for a legitimate unforeseen issue. Change orders to force account projects may constitute noncompliance if, however, estimates were intentionally low-balled to arrive under the bidding limits (e.g., not estimating the cost of labor or evidence that the entity knew from previous experience that a minimum amount of material would be required to complete a project but was not included in the original force account project estimate or was included at clearly insufficient amounts). Auditors should use professional skepticism when auditing force account project change orders and consult with AOS Legal Division or CFAE as needed.

For projects exceeding one mile, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example of the city cited above, the applicable force account limit would be \$45,000.

For projects less than a mile, the interpretation above would cause problems. In the example of a city commencing a small road repair project of one-tenth of a mile, a proportional limit would require the county to bid the project if it exceeded \$3,000 (one tenth of the \$30,000 per mile limit). We did not believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of the county in our example, \$30,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit."

Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)

Force Account Limits (Ohio Rev. Code § 5517.02)

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. The ~~FY 2016 and 2017~~2015 rates are \$30,210 per mile of highway and \$60,420 per traffic signal or other single project. The Director shall publish the applicable amounts on ODOT's website.

Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance

with applicable size or tonnage restrictions.

Force Account Assessment Forms (Ohio Rev. Code § 117.16)

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EMIS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included. However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

Ohio Attorney General Opinion 2008-007⁵³ briefly states:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;
- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

Noncompliance

Note: These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. Certified Public Accountants auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

⁵³ Although the opinion was issued in response to a County's inquiry, the Auditor of State will apply this guidance to each public office undertaking force account projects.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Note: For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any capital construction or maintenance activity relating to a street or other public way took place during the audit period. Determine if such projects were undertaken using force accounts.
2. If such projects were undertaken, inspect a representative number of the entity's completed Auditor of State Uniform Force Account Project Assessment or ODOT forms. Trace wage rates, etc. to entity supporting documentation on a test basis.
3. Inspect the Auditor of State's project assessment or ODOT forms prepared by the entity and determine that work undertaken by force account for construction, reconstruction, widening, resurfacing, or repair of a street or other public way was documented to have an estimated cost of \$30,000/per mile or less.
4. Obtain supporting documentation of the labor fringe benefits or overhead rates, or materials overhead rates and review for reasonableness. (See ~~note~~clarified guidance in the requirements regarding the removal of the Safe Harbor Rule.)
5. Compare the actual projects' costs with the project assessment form estimates. Inquire of management for reasons for any change orders or apparent excessive costs compared with the project estimates. Evaluate for reasonableness of the estimates. Be alert for indications of "bid-splitting" or deliberate attempts to evade bid limitations, such as successive estimations just under the bid amount.
6. Whether such projects have been undertaken or not, consider adding language to the audit management representation letter affirming or disaffirming the existence of projects subject to the applicable force account provisions.

Note: with "force account" provisions, it is possible to have non-compliance with the preparation of the Auditor of State form; with the bidding limits; or with both.

7. If the "force account" limits have been violated – that is, the municipal corporation did the work by force account even though it should have been bid – then the Auditor of State is required to notify the entity [and possibly the State tax commissioner] of the penalty provisions. Auditors should indicate in this block of the OCS if the Auditor of State is to notify the entity\State tax commissioner of any of the penalty provisions. Auditor of State auditors should include this in the executive summary. IPAs should notify the Auditor of State Center for Audit Excellence.

COUNTIES

2-17 Compliance Requirement: Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5543.19 – Force accounts - Counties.

Summary of Requirements:

AOS Force Account Project Assessment Form (See note below for Ohio Department of Transportation Projects)

A county engineer, when authorized by the county commissioners, may utilize county labor and materials when undertaking the construction, reconstruction, improvement, maintenance, or repair of **roads**. Before undertaking force account activity for **construction** or **reconstruction**, including **widening** and **resurfacing**, of **roads**, an estimate of the cost of the road work must be compiled using the Auditor of State's force account project assessment form. When the estimated cost of the total project, including labor,⁵⁴ exceeds \$30,000 per mile, the county commissioners must invite and receive competitive bids from private contractors for completing the **road** work.

*Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State's force account project assessment form for the **improvement, maintenance or repair** of roads. However, § 5543.19(B) explicitly requires force account assessment forms for **construction, reconstruction, improvement, maintenance or repair** of bridges or culverts.*

The Auditor of State's prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:

Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates specified in Bulletin 2003-003. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration's termination Ohio's waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA nos. 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.

Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):

Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages described in AOS Bulletin 2003-003 in computing their estimated costs. If the local government uses the safe harbor percentages in AOS Bulletin 2003-003, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

⁵⁴ Pursuant to 2008 Op. Atty. Gen. No. 2008-007, any work subcontracted to private contractors should be included in the total cost of the project to determine if the project should be bid.

Joint Projects (See note below for Ohio Department of Transportation Projects)

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

Bid Specifications (See note below for Ohio Department of Transportation Projects)

Various terms, such as **road maintenance and repair, construction and reconstruction**, are not defined in the Ohio Rev. Code sections discussed in the individual subsections below. We indicate in each such section that the Auditor of State will accept definitions from the entity's legal counsel, and/or county engineer, as appropriate, unless the definitions are palpably and manifestly arbitrary or incorrect. *If the entity's legal counsel, and/or county engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with CFAE and the AOS's Legal department concerning any issues involving a potential finding or citation as directed in the Audit Findings section of the Implementation Guide.*

A county engineer, when authorized by the county commissioners, may utilize county labor and materials when undertaking the construction, reconstruction, improvement, maintenance, or repair of **bridges and culverts**. Before undertaking force account activity, an estimate of the cost of the bridge/culvert work must be compiled using the Auditor of State's force account project assessment form.⁴² When the estimated cost of the work exceeds \$100,000, the county commissioners must invite and receive competitive bids from private contractors for completing the **bridge/culvert** work.

Note: The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:

“A county must bid a project involving construction or reconstruction of a road if it exceeds \$30,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$45,000 (\$30,000 for the first mile, \$15,000 for the partial second mile), or \$60,000 (\$30,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

For projects exceeding one mile, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example of the county cited above, the applicable force account limit would be \$45,000.

For projects less than a mile, the interpretation above would cause problems. In the example of a county commencing a small road repair project of one-tenth of a mile, a proportional limit would require the county to bid the project if it exceeded \$3,000 (one tenth of the \$30,000 per mile limit). We did not believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of the county in our example, \$30,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit.”

Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)

Force Account Limits (Ohio Rev. Code § 5517.02)

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. The FY 2016 and 2017 2015 rates are \$30,210 per mile of highway and \$60,420 per traffic signal or other single project. The Director shall publish the applicable amounts on ODOT's website.

Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance with applicable size or tonnage restrictions.

Force Account Assessment Forms (Ohio Rev. Code § 117.16)

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EIMS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included.

However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

Ohio Attorney General Opinion 2008-007⁵³ briefly states:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;
- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

Noncompliance

Note: These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. Certified Public Accountants auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Note: For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any road capital construction or maintenance activity took place during the audit period. Determine if such projects were undertaken using force accounts.
2. If such projects were undertaken, inspect a representative number of the entity's completed Auditor of State Uniform Force Account Project Assessment or ODOT forms. Trace wage rates, etc. to entity supporting documentation on a test basis.
3. Inspect the Auditor of State's project assessment or ODOT forms prepared by the county engineer and determine that work undertaken by force account for construction, reconstruction, widening, or resurfacing of roads was documented to have an estimated cost of \$30,000 or less per mile.
4. Inspect the county engineer's project assessment or ODOT forms, and determine whether they document that work undertaken by force account to construct, reconstruct, improve, maintain, or repair bridges and culverts cost an estimated \$100,000 or less.

5. Obtain supporting documentation of the labor fringe benefits or overhead rates, or materials overhead rates and review for reasonableness. (See ~~note~~clarified guidance in the requirements regarding ~~the removal~~ of the Safe Harbor Rule.)
6. Compare the actual projects' costs with the project assessment form estimates. Inquire of management for reasons for any change orders or apparent excessive costs compared with the project estimates. Evaluate for reasonableness of the estimates. Be alert for indications of "bid-splitting" or deliberate attempts to evade bid limitations, such as successive estimations just under the bid amount.
7. Whether such projects have been undertaken or not, consider adding language to the audit management representation letter affirming or disaffirming the existence of projects subject to the applicable force account provisions.

Note: with "force account" provisions, it is possible to have non-compliance with the preparation of the Auditor of State form; with the bidding limits; or with both.

8. If the "force account" limits have been violated – that is, the county did the work by force account even though it should have been bid – then the Auditor of State is required to notify the entity [and possibly the State tax commissioner] of the penalty provisions. Auditors should indicate in this block of the OCS if the Auditor of State is to notify the entity\State tax commissioner of any of the penalty provisions. Auditor of State auditors should include this in the executive summary. IPAs should notify the Auditor of State Center for Audit Excellence.

Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

TOWNSHIPS

2-18 Compliance Requirement: Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5575.01 – Force accounts - Townships.

Summary of Requirements:**AOS Force Account Project Assessment Form** (See note below for Ohio Department of Transportation Projects)

In the **maintenance** and **repair** of **roads** the board of township trustees may use force account labor provided the board has first caused **the county engineer** to complete the Auditor of State's prescribed force account project assessment form.

*Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State's force account project assessment form for the **improvement, maintenance or repair** of roads. However, § 5543.19(B) explicitly requires force account assessment forms for **construction, reconstruction, improvement, maintenance or repair** of bridges or culverts.*

The Auditor of State's prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:

Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates specified in Bulletin 2003-003. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration's termination Ohio's waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA nos. 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.

Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):

Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages described in AOS Bulletin 2003-003 in computing their estimated costs. If the local government uses the safe harbor percentages in AOS Bulletin 2003-003, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

~~Note: "Safe Harbor" rates are no longer deemed allowable if the project uses federal funding, therefore AOS Bulletin 2003-003 should not be followed for ODOT projects. However, ODOT has provided alternative guidance in their CMS manual ([ODOT Construction and Material Specifications manual](#)). An entity may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs (subject to ODOT approval); the entity should present documentation to the auditor to justify these approved self-computed percentage add-ons.~~

~~Before undertaking the **construction or reconstruction** of a township road, the board shall obtain from the **county engineer** an estimate of the cost of such work, which estimate shall include labor, material, freight, fuel, hauling, use of machinery and equipment, and all other items of cost. The Auditor of State's interpretation of Ohio Rev. Code § 5575.01(C), is that the county engineer should use the Auditor of State's force account project assessment form in estimating these costs. *Note:* when there is no AOS project assessment form completed, cite § 5575.01(C). If neither the form nor any other type of estimate is completed, cite to both § 5575.01(B) and (C).~~

~~The Auditor of State's force account project assessment form is **not** required if the **road maintenance or repair** project's total estimated cost is less than \$15,000 or if the **road construction or reconstruction's** total estimated cost is less than \$5,000 per mile. The terms **road maintenance and repair, construction, and reconstruction**, are not defined in this Ohio Rev. Code section. The township's legal counsel, and/or county engineer, along with the board, should define these terms for the township. The Auditor of State will accept those definitions unless they are palpably and manifestly arbitrary or incorrect.~~

Joint Projects (See note below for Ohio Department of Transportation Projects)

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

Bid Specifications (See note below for Ohio Department of Transportation Projects)

Various terms, such as **road maintenance and repair, construction, and reconstruction** are not defined in the Ohio Rev. Code sections discussed in the individual subsections below. We indicate in each such section that the Auditor of State will accept definitions from the entity's legal counsel, and/or county engineer, as appropriate, unless the definitions are palpably and manifestly arbitrary or incorrect. *If the entity's legal counsel, and/or county engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with the AOS's Legal department concerning any issues involving a potential finding or citation.* IPAs auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

Force accounts **may not** be used and bidding is required when the total estimated cost of the project, including labor, for **maintenance and repair** of roads exceeds \$45,000. [Ohio Rev. Code § 5575.01(A)]

Bids from private contractors should be sought when the total estimated cost of the project, including labor, for **construction or reconstruction** of roads exceeds \$15,000 per mile. However, force accounts **may** be used if the board finds it in the best interest of the public. In this case, private contractor bids must have been received, considered, and rejected, and the force account work must be performed in compliance with the plans and specifications upon which the bids were based.⁵² [Ohio Rev. Code § 5575.01(B)]

Note: The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:

"A township must bid a project involving construction or reconstruction of a road if it exceeds \$15,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$22,500 (\$15,000 for the

first mile, \$7,500 for the partial second mile), or \$30,000 (\$15,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

For projects exceeding one mile, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example cited above, the applicable force account limit would be \$22,500.

For projects less than a mile, the interpretation above would cause problems. In the example of a township commencing a small road repair project of one-tenth of a mile, a proportional limit would require the township to bid the project if it exceeded \$1,500 (one tenth of the \$15,000 per mile limit). We did not believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of our example, \$15,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit.”

Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)

Force Account Limits (Ohio Rev. Code § 5517.02)

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. The FY 2016 and 2017 2015 rates are \$30,210 per mile of highway and \$60,420 per traffic signal or other single project. The Director shall publish the applicable amounts on ODOT's website.

Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance with applicable size or tonnage restrictions.

Force Account Assessment Forms (Ohio Rev. Code § 117.16)

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EIMS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included. However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

Ohio Attorney General Opinion 2008-007⁵³ briefly states:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;
- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

Noncompliance

Note: These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. IPAs auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Note: For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any road capital construction or maintenance activity took place during the audit period. Determine if such projects were undertaken using force accounts.
2. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as less than \$15,000 for a **road maintenance or repair** project or less than \$5,000 per mile for a **road construction or reconstruction** project. If so, no Auditor of State force account project assessment form would have been required to have been completed.
3. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as \$45,000 or less for **maintenance** and **repair** of roads.
4. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as less than \$15,000 per mile for **construction or reconstruction** of roads.
5. If the bids from private contractors were taken for **construction or reconstruction** of roads but the board used the force account anyway, determine that the board documented that the private contractor bids were received, considered, and rejected, and the board's rationale for why using the force account approach was in the best interest of the public. Compare the force account's documented project specifications with the plans and specifications upon which the private contractor bids were based.
6. If such projects were undertaken, inspect a representative number of the entity's completed Auditor of State Uniform Force Account Project Assessment or ODOT forms. Trace wage rates, etc. to entity supporting documentation on a test basis.
7. Obtain supporting documentation of the labor fringe benefits or overhead rates, or materials overhead rates and review for reasonableness. (See ~~note~~clarified guidance in the requirements regarding ~~the removal of~~ the Safe Harbor Rule.)
8. Compare the actual projects' costs with the project assessment form estimates. Inquire of management for reasons for any change orders or apparent excessive costs compared with the project estimates. Evaluate for reasonableness of the estimates. Be alert for indications of "bid-splitting" or deliberate attempts to evade bid limitations, such as successive estimations just under the bid amount.
9. Whether such projects have been undertaken or not, consider adding language to the audit management representation letter affirming or disaffirming the existence of projects subject to the applicable force account provisions.

Note: with "force account" provisions, it is possible to have non-compliance with the preparation of the Auditor of State or ODOT form; with the bidding limits; or with both.

10. If the "force account" limits have been violated – that is, the township did the work by force account even though it should have been bid – then the Auditor of State is required to notify the entity [and possibly the State tax commissioner] of the penalty provisions. Auditors should indicate in this block of the OCS if the Auditor of State is to notify the entity\State tax commissioner of any of the penalty

provisions. Auditor of State auditors should include this in the executive summary. IPAs should notify the Auditor of State Center for Audit Excellence.

Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

SECTION C: DEBT

None.

SECTION D: ACCOUNTING AND REPORTING**COUNTIES**

2-19 Compliance Requirement: Ohio Rev. Code §§ 117.111(A), 304.01, 304.02, 955.013, 1306.01(P), 1306.02(A), 1306.4(B), and 1306.11 - Security controls over counties' electronic (i.e. internet) transactions.

Summary of Requirement: The AOS (and IPAs contracting to audit counties) **must** inquire into the method, accuracy and effectiveness of any procedure a county office adopts under Ohio Rev. Code § 304.02 to secure electronic signatures or records relating to county business that is conducted electronically under Chapter 1306 of the Revised Code.⁵⁵

Other statutes relevant to this requirement:

Per Ohio Rev. Code § 304.01:

(B) "County office" means any officer, department, board, commission, agency, court, or other instrumentality of a county.

(D) "Electronic record" means a record created, generated, sent communicated, received, or stored by electronic means.

(E) "Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

► **Note:** The signature can be by a county employee or a citizen transacting business with a county office.

Ohio Rev. Code § 304.02: Prior to a county office using electronic records and electronic signatures, under Chapter 1306 of the Revised Code and except as otherwise provided in § 955.013 of the Revised Code, a county office shall adopt, in writing, a security procedure to verify that an electronic signature, record, or performance is that of a specific person or for detecting changes or errors in the information in an electronic record. A security procedure includes, but is not limited to, a procedure requiring algorithms or other codes, identifying words or numbers, encryption, or callback or other acknowledgment procedures.

Ohio Rev. Code § 955.013 permits paying dog and kennel registration fees by financial transaction devices (e.g. credit cards), including via the internet.

Ohio Rev. Code § 1306.02(A) provides that Chapter 1306 of the Revised Code, the Uniform Electronic Transactions Act, generally applies to electronic records and electronic signatures relating to a transaction.

Ohio Rev. Code § 1306.04(B) provides that Sections 1306.01 to 1306.23 of the Revised Code apply only to transactions between parties each of which has agreed to conduct transactions by electronic means.

⁵⁵ **Note:** Since the legislature has mandated this step, we should deem it to be qualitatively material.

Ohio Rev. Code § 1306.01(P) defines “transaction” as an action or set of actions occurring between two or more persons relating to the conduct of business, commercial, or governmental affairs.

Ohio Rev. Code § 1306.11(A): An electronic record of information generally satisfies record retention laws.

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Determine the electronic records and electronic signatures relating to a county office’s electronic (i.e. *internet*) transactions. These include:
 - a. Cash receipts where a county office accepts credit/debit cards electronically (i.e., via the internet).
 - b. Other types of internet transactions.⁵⁶
2. Obtain and read the *written* security procedure the county office (or its internet transaction service organization⁵⁷) adopted to safeguard each type of electronic (i.e. internet) transaction. **Note:** Because the service organization processes most elements of these transactions, it is sufficient if the *service organization* adopts security procedures. If the service organization requires the county office to adopt “user control” security procedures, we should consider whether the county office has implemented these controls. (Often the service organization’s contract or response to a county office’s RFP will describe the security procedures.)
 - a. Retain a copy or summary of the procedure in the permanent file.
 - b. Update systems’ documentation as needed.⁵⁸

Assess the effectiveness of the design of controls and determine that they have been “implemented.” (AOS staff can refer to AOSAM 30500.75-.79)

3. Determine whether results from the steps above regarding the design and implementation of controls related to securing electronic signatures and electronic records relating to internet transactions result in any management comments, significant deficiencies or material weaknesses. We must also report as a noncompliance finding. Since the statute explicitly refers to a security procedure adopted in writing, we should report the absence of a security procedure adopted in writing.

⁵⁶ As noted on the previous page, Ohio Rev. Code § 955.013 separately addresses electronic / internet sales of dog licenses. Direct deposits do *not* fall under Ohio Rev. Code § 117.111 or Ohio Rev. Code § 304.02.

⁵⁷ Companies providing internet transaction services may be *service organizations*. We should consider service organization implications per AU-C 402 depending upon the materiality of the transactions.

⁵⁸ AOS staff should update the RCEC where needed to incorporate electronic (i.e. internet) transactions, including controls and procedures designed to safeguard electronic transactions. Also, consider the appropriate degree of ISA involvement. AOS audit staff must consult with ISA when a government has a complex IT environment (AOSAM 30500.52-.54). Also consider that the nature of electronic transactions and signatures subject to this law may require ISA assistance.

Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

SECTION E: DEPOSITS AND INVESTMENTS

None.

SECTION F: OTHER LAWS AND REGULATION

GENERAL

2-20 Compliance Requirement: Ohio Admin Code § 3745-27-15 through 18 - Landfill Financial Responsibility and Certifications.

The following is only a summary. When auditing a government managing a landfill, auditors should obtain and read copies of the applicable Ohio Administrative Code sections.

Governments owning or managing landfills must annually certify financial information related to their ability to finance closure and post-closure liabilities to the OEPA. These reports are due within 180 days of fiscal year end.

An index to the relevant Ohio Administrative Code requirement follows:

- § 3745-27-15: Solid waste facility or scrap tire transporter final closure requirements (Section (L) describes the local government test)
 - § 3745-27-16: Solid waste facility or scrap tire transporter final post-closure requirements (Section (L) describes the local government test)
 - § 3745-27-17: Wording of financial assurance instruments (Section (H) describes the wording for the letter governments assured under the local government test must submit to OEPA).
 - § 3745-27-18: Only applies when OEPA director mandates corrective action, such as to remediate landfill groundwater contamination described in § 3745-27-10. (Section (M) describes the local government requirements, if applicable.)
- I. The Federal EPA adopted a regulation (40 C.F.R. 258.74(f)) allowing governmental solid waste landfills (GSWLFs) to avoid acquiring third-party financial instruments (such as letters of credit, insurance or establishing trust funds) to assure current final closure, post-closure and/or corrective measure cost estimates and any other environmental obligations to the extent they meet certain financial tests. The Federal EPA placed the responsibility for monitoring compliance with this rule on the states. In response, the Ohio EPA adopted a regulation that parallels the Federal regulation in most aspects.
 - II. A GSWLF need not obtain third-party instruments for amounts up to 43% of the local government's **total revenue**,⁵⁹ *provided* that it meets the tests described in **III** below. A GSWLF must obtain a third-party instrument (e.g., insurance, trust fund, and bond) for all current final closure, post-closure and/or corrective measure cost estimates and any other environmental obligations, exceeding 43% of total revenue.
 - III. There are two alternatives to the third-party financial instruments nongovernments must have for (closure + post-closure + mandated corrective care costs). Governments do not need these instruments (for up to 43% of total annual revenue), if:

⁵⁹ Terms defined in the *State Support Document for the Local Government Financial Test* are printed in **boldface type** the first time they appear. A copy of this document was sent to each region.

Alternative I

- a. The GSWLF issues GAAP financial statements.
- b. The GSWLF has not:
 1. Defaulted on GO bonds, or has not issued GO bonds of less than investment grade per Moody's or S&P.

Local governments issuing bonds secured by collateral or a guarantee (e.g. AMBAC insurance) must meet the minimum rating without that security. (This means consider the *government's* debt rating, not the rating of a particular insured or collateralized *issue*.)
 2. Has not operated at a deficit of greater than or equal to (5% x annual revenue) in either of the past two fiscal years. (The federal rule defines a deficit as total revenue minus **total expenditures**);
 3. Received a qualified opinion.

Also, either condition c. or d. must be met:

- c. All GO bonds must be of investment grade, rated by either Moody's or S&P.

OR:

Alternative II:

- d. The GSWLF must have:
 1. **(Cash + marketable securities) / total expenditures** $\geq 5\%$, AND
 2. **Debt service / total expenditures** $\leq 20\%$, AND
 3. **Ratio of long term debt issued & outstanding / capital expenditures** must be ≤ 2.0 .

(Based on the federal regulation, we believe that the reference to "outstanding" debt immediately above only refers to debt issued in the current year that is still outstanding at year end.)

IV. Reporting requirements:

- a. The GAAP statements must comply with GASB Statement No. 18 disclosures (this requirement does not appear in the Ohio Administrative Code, but is included in the Federal regulation.) However, Ohio Admin. Code § 3745-27-15(C)(1)(a) requires the closure financial assurance instrument for a sanitary landfill facility, solid waste transfer facility, or solid waste incinerator to contain an itemized written estimate, in current dollars, of the cost of closure. The closure cost estimate shall be based on the closure costs at the point in the operating life of the facility when the extent and manner of its operation would make the closure the most expensive, and shall be based on a third party conducting the closure activities.

- b. The CFO must prepare a letter listing current final closure, postclosure and/or corrective measure cost estimates and any other environmental obligations, and certify whether the government meets III.a.-d. (above), and also certify that the government is assuring a liability \leq 43% of annual operating revenues.
- c. Audited financial statements must be kept as part of the “facility’s operating record.”
- d. Accountants must also issue an agreed-upon procedures report. The procedures must note whether amounts used for the ratios Alternative II above in the CFO’s letter agree to the audited GAAP statements.

V. Definitions:

To assure that the CFO’s letter is appropriate, it is critical that the financial information be consistent with the definitions in the *State Support Document for the Local Government Financial Test* (the Document). For example, the Document explains that “total expenditures” should not include capital project, internal service or fiduciary fund expenditures/expenses. A copy of the *Document* has been sent to each regional office.

The Federal EPA informed us they do not intend to update the Document for GASB Statement No. 34. Therefore, we believe the amounts for the accounts described above appearing in the CFO’s letter (cash and marketable securities, revenues, etc.) should be derived from the governmental and proprietary **fund** financial statements, not from the entity-wide financial statements.

VI. Other

1. The Federal regulation gives state directors the option of allowing governments to discount the liability. However, Ohio does not permit discounting. Also, paragraph 42 of GASB Statement No. 18 prohibits discounting.
2. Both the Federal and State regulations refer to governmental financial statements as *Comprehensive Annual Financial Reports*. However, while the Federal and State rules require GAAP reporting, there appears to be no explicit requirement to prepare a CAFR. In the Auditor of State’s opinion, basic financial statements complying with GASB Statement No. 18 and including segment information (if applicable) for the landfill operation are sufficient.

Suggested Audit Procedures - Compliance (Substantive) Tests:

Note: These procedures relate to the *local government test*. If a government uses other assurance methods, auditors must read the applicable Ohio Admin. Code § 3745-27 requirements and design appropriate tests and reports.

For AOS staff: If the reporting differs from the example AUP available to AOS staff in the Briefcase, you must submit your draft report to the Center for Audit Excellence for review.

1. Determine whether the estimate of closure, post closure and other corrective care liabilities has been updated through the most recent balance sheet date. Such estimates may require corroboration by an environmental specialist. (The auditor may need to consider AU-C 620, *Using the Work of a Specialist*.)

2. Compare the format of the CFO's letter to the EPA with the example included in Ohio Admin. Code § 3745-27-17(H).
3. Prepare the agreed-upon procedures report required by the Federal EPA. An example report is available to AOS staff in the AOS Briefcase/Audit Employees folder under AUP.
4. If the government cannot meet the government test, or has liabilities exceeding 43% of annual revenue, inquire which method the government has selected to assure these amounts. If the government has (1) established a final closure trust fund; (2) secured a surety bond guaranteeing payment; (3) obtained an irrevocable letter of credit or; (4) obtained commercial insurance to finance these liabilities, then inspect documentation that the required funds, bonds, letter of credit, or insurance have been obtained, and are in force.
5. The local government requirements in Ohio Admin. Code §§ 3745-27-15, 16, 17, and 18 mandate GAAP financial statements.
 - Read the draft financial statements to determine if they meet the GAAP display and disclosure requirements for these assets/guarantees/commitments, etc. in GASB Statement No. 18, ¶7(e) (Cod. L10.115).

Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):

2-21 Compliance Requirement: Ohio Rev. Code §§ 135.14(B)(7), 135.142, 135.22, 135.35, 319.04, 321.46 and 733.27 - Education Requirements

Summary of Requirements:

Subdivision Treasurers⁶⁰

Subdivision treasurers must complete annual continuing education programs provided by the Treasurer of State (TOS). The TOS issues certificates indicating that the treasurer has successfully completed the continuing education program.

The continuing education requirement does not apply to a subdivision treasurer who annually provides a notice of exemption to the Auditor of State, certified by the Treasurer of State (and confirmable through the TOS searchable database weblink below) that the treasurer is not subject to the continuing education requirements because the treasurer invests or deposits public funds in the following investments only (Ohio Rev. Code § 135.22):

- (1) Interim deposits pursuant to Ohio Rev. Code §§ 135.14(B)(3) or 135.145 (CDAR and similar programs);
- (2) STAR Ohio¹³ pursuant to Ohio Rev. Code § 135.14(B)(6);
- (3) No-load money market mutual funds pursuant to Ohio Rev. Code § 135.14 (B)(5)

Specific requirements apply to the officials listed below:

County Treasurers

Newly-elected treasurers must complete education programs (26 hours) approved by the Auditor of State (13 hours) and the Treasurer of State (13 hours) between December 1 and the first Monday in September following that person's election [Ohio Rev. Code § 321.46]. For instance, a treasurer elected in November 2011, taking office in 2012, would be required to receive the initial 26 hours of training between December 1, 2011 and September 2012. In this example, the newly-elected treasurer would complete one year in office in September 2013 and would then enter into the biennial cycle for 2014/2015 for continuing education.

After completing one year in office, a county treasurer must take not fewer than 24 hours of continuing education approved by the Auditor of State (12 hours) and the Treasurer of State (12 hours) in each *biennial cycle* commencing the January 1 after the treasurer's first year in office. County treasurers may carry forward up to six hours received from the Auditor of State plus up to six hours received from the Treasurer of State in excess of 24 from the current to the next biennial cycle. [Ohio Rev. Code § 321.46] The biennial time periods are:

- January 1, 2012 to December 31, 2013
- January 1, 2014 to December 31, 2015
- January 1, 2016 to December 31, 2017

⁶⁰ A treasurer of an agricultural society must comply with the continuing education requirements of Ohio Rev. Code § 135.22. The treasurer meets the definition of "treasurer" in Ohio Rev. Code § 135.22 (which refers to the definition in Ohio Rev. Code § 135.01(M)) which is as follows: "Treasurer" means, in the case of the state, the treasurer of state and in the case of any subdivision, the treasurer, or officer exercising the functions of a treasurer, of such subdivision. In the case of a board of trustees of the sinking fund of a municipal corporation, the board of commissioners of the sinking fund of a school district, or a board of directors or trustees of any union or joint institution or enterprise of two or more subdivisions not having a treasurer, such term means such board of trustees of the sinking fund, board of commissioners of the sinking fund, or board of directors or trustees.

Auditors should wait until the expiration of the applicable biennial time period to determine whether *existing treasurers* (as opposed to those *newly-elected*) have completed the continuing education requirements.

A treasurer who fails to complete the **initial** education programs required by Ohio Rev. Code § 321.46 cannot invest and is *subject to removal from office*. Investment authority transfers immediately to the county investment advisory committee.

A treasurer who fails to complete the **continuing** education programs required by Ohio Rev. Code § 321.46 is restricted to investing in STAR Ohio¹³, no-load money market mutual funds pursuant to §§ 135.14 (B)(5) and 135.35(A)(5), or in certificates of deposit pursuant to Ohio Rev. Code § 135.35(A)(3), or savings or deposit accounts pursuant to Ohio Rev. Code § 135.35(A)(3). A county treasurer who has failed to complete the continuing education programs and invests in other than these investments is subject to removal from office.

Village Fiscal Officers

Must attend annual training programs for new village fiscal officer *and* annual continuing education programs provided by the Auditor of State [Ohio Rev. Code § 733.27]. (The Auditor of State interprets this section as requiring a newly-elected fiscal officer to attend the new fiscal officer's training offered by the Auditor of State between December 1 and the following February 15, and any other annual training offered by the Auditor of State. Continuing fiscal officers must attend the annual update sessions only.)

All Local Governments

No investment shall be made in commercial paper or bankers acceptances unless the following have completed additional training for making those investments. The type and amount of additional training shall be approved by the Treasurer of State:

- School treasurer [Ohio Rev. Code § 135.142(B)]
- County investing treasurer⁶¹ [Ohio Rev. Code § 135.35(A)(8)]
- For other local governments: Treasurer or governing board [Ohio Rev. Code § 135.14(B)(7)]

TOS CPIM Confirmation and FAQ's

The Treasurer of State's website includes an online searchable CPIM report database⁶² of treasurers receiving TOS-approved certifications and exemptions. The link to this website is: <http://tos.ohio.gov/cpim/fiscalofficers/> However, the TOS website does not include CPIM for AOS-approved courses for county treasurers. Auditors should refer to the Continuing Education Hours Report under *County Treasurer's* box on the AOS website at <https://ohioauditor.gov/trainings/2ndHalfReport%2010-12-17.pdf> to obtain a listing of AOS-approved CPIM received by county treasurers. CPIM training requirements are by calendar year.

⁶¹ Ohio Rev. Code § 135.35(A)(8) applies to the investing authority. However, the treasurer is the investing authority, except in the rare circumstance county commissioners determine a treasurer is not complying with county policies, per Ohio Rev. Code § 135.34.

⁶² **Note:** The reliability of the TOS online CPIM search results may be affected by the accuracy of information entered into the database. Therefore, auditors may still need to inquire with local treasurers regarding CPIM certifications if discrepancies are identified using the online database.

Auditors can also refer to AOS/TOS Frequently Asked Questions (FAQ's) regarding training requirements for county and local subdivision treasurers on our website listed as *Training Requirements for County Treasurers* or as *Training Requirements for Treasurers of Subdivisions* at:

<https://ohioauditor.gov/trainings/CPIMFAQsForCountyTreasurers.doc> or
<https://ohioauditor.gov/trainings/CPIMFAQsForTreasurersOfSubdivisions.doc>

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. For counties, please show me your certificates of completion for the last biennial period. (*Note: For efficiencies, auditors may be able to obtain these certifications using the weblink above for the Treasurer of State and the Auditor of State*).
2. For other subdivisions, please show me your annual certificates of completion. (*Note: For efficiencies, auditors may be able to obtain these certifications using the weblink above for the Treasurer of State*).

<p>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

Revised: SB 3, 131 GA
Effective: 3/16/2017

2-22 Compliance Requirement: Various ORC Sections: Fraud, and Abuse, and Illegal Acts; Conflict of Interest; Ethics.

Ohio Rev. Code § 102.03 - **Restrictions and prohibitions.**

- This section restricts the conduct of public officials and employees with respect to their official positions. Per Ohio Rev. Code § 3314.03(A)(11)(e), Ohio Rev. Code § 102 applies to community schools. Members of a community school's governing authority cannot be employed by either the school or, except in specified circumstances, have an interest in *any* contract awarded by the governing authority. No person who is a member of the governing authority of a community school under Chapter 3314 may be a member of a board of education. [Ohio Rev. Code § 3313.131]

Ohio Rev. Code § 3314.02(E)(2) further restricts the following from membership of community school governing authorities:

- (1) A person who owes the state money or is in dispute over whether the person owes the state any money concerning the operation of a community school that has closed.
- (2) A person who would otherwise be subject to refusal, limitation, or revocation of a license to teach, if the person were a licensed educator,
- (3) A person who has pleaded guilty to or has been convicted of a theft in office or a similar offense, and
- (4) A person who has not submitted to a criminal records check.⁶³

Ohio Rev. Code § 3314.02(E)(4) indicates for a community school that is not sponsored by a school district or education service center:

- (1) No present or former member (or immediate relative⁶⁴) of the governing authority shall be an owner, employee, or consultant of the sponsor/operator, unless at least one year has elapsed since conclusion of the person's membership on the governing authority

Or if the community school is sponsored by a school district or education service center, no present or former member (or immediate relative) of the governing authority shall:

- (1) Be an officer of the district board or service center governing board that serves as the sponsor, unless at least one year has elapsed since conclusion of the person's membership on the governing authority
- (2) Serve as an employee of, or consultant for, the department, division, or section of the sponsoring district or service center that is responsible for sponsoring, unless at least one year has elapsed since conclusion of the person's membership on the governing authority

- Present and former public officials or employees are prohibited during their public employment or for twelve months thereafter from representing any person on any matter in which the public official or employee personally exercised administrative discretion as a public official or employee. (Also known as *the revolving door statute*.) [Ohio Rev. Code § 102.03(A)(1)]

⁶³ Any person who has not submitted to a criminal records check is prohibited from engaging in the financial day-to-day management of the community school.

⁶⁴ Immediate relatives are limited to spouses, children, parents, grandparents, and siblings, as well as in-laws residing in the same household as the person serving on the governing authority. [Ohio Rev. Code § 3314.02(E)(1)]

- Division (A) of Ohio Rev. Code § 102.03 shall not be construed to prohibit performing ministerial functions, including, but not limited to, the filing or amending tax returns, applications for permits and licenses, incorporation papers, and other similar documents. [Ohio Rev. Code § 102.03(A)(7)]
- Public officials and employees are prohibited from using or authorizing the use of the authority or influence of office or employment to secure anything of value or to promise or to offer anything of value that is of such a character as to manifest a substantial and improper influence upon the public official or employee with respect to that person's duties. [Ohio Rev. Code § 102.03(D)]
- Public officials and employees are prohibited from soliciting or accepting anything of value that is of such character as to manifest a substantial and improper influence upon that public official or employee with respect to that person's duties. [Ohio Rev. Code § 102.03(E)]

Ohio Rev. Code sections governing interests in contracts by elected officials

- **Ohio Rev. Code § 305.27** Prohibits county commissioners from having an interest in a county contract.
- **Ohio Rev. Code § 511.13** Prohibits any member, officer or employee of a board of township trustees from having an interest in any contract the trustees approve.
- **Ohio Rev. Code § 731.02** Prohibits members of a city legislative authority from having an interest in any contract with the city.
- **Ohio Rev. Code § 731.12** Prohibits members of a village legislative authority from having an interest in any contract with the village.
- **Ohio Rev. Code § 3313.33** Prohibits board of education members from having a pecuniary interest in a board contract, or from being employed by the board. However, there are exceptions, per Ohio Rev. Code § 3313.33(C). You should refer to the statute for details of the exceptions. *Note:* this statute does not apply to community schools unless the sponsor mandates it through the sponsor contract.

Ohio Rev. Code § 2921.42 - Having an unlawful interest in a public contract.

This section prohibits such interests.⁶⁵ Ohio Rev. Code § 3314.03(A)(11)(e) requires community schools to comply with Ohio's Ethics Laws, which, among other things, requires public officials to disclose conflicts of interest and prohibits them from having an interest in a contract awarded by their public office. Effective March 30, 2006, members of a community school's governing authority cannot be employed by the community school or, except in specified circumstances, have an interest in *any* contract awarded by the governing authority⁶⁶.

⁶⁵ [2016 O.E.C. No 2016-01](#) discusses in greater detail exceptions and considerations related to Ohio Rev. Code § 2921.42.

⁶⁶ It is permissible for a public official to have an interest in a public contract if (1) the contract covers necessary services or supplies for the official's public office, (2) the services or supplies cannot be obtained elsewhere for the same or lower cost or are being furnished to the public office as part of an ongoing relationship that started prior to the official's involvement with the office, (3) the treatment given to the public office is either preferential to or the same as the treatment given to other clients, and (4) the public office is aware of the official's interest in the contract and the official does not participate in any deliberations regarding the contract. [Ohio Rev. Code § 2921.42(C)]

Ohio Rev. Code § 9.833(F) expressly permits a subdivision's officials or employees to serve on the governing board of the program administrator of a governmental self-insurance program, if his or her government participates in that program.

Ohio Rev. Code § 3314.02(E)(6) and (8) - *No* employees of a school district or ESC shall serve on the governing authority of a community school sponsored by the school district or ESC. *No* person who is a member of a school district board of education shall serve on the governing authority of *any* community school.⁶⁷

Each member of the governing authority shall annually file a disclosure statement reporting the names of any immediate relatives or business associates employed within the previous three years by either the (1) sponsor or operator of the community school, (2) school district or ESC has contracted with the community school, or (3) vendor engaged in business with the community school.

Ohio Rev. Code § 2921.41- Theft in office.

Public officials committing theft of public property (or services), or who use their offices in committing such acts, or permit their offices to be so used, are in violation of this Section. Ohio Rev. Code § 2913.01(K) defines "theft."

Ohio Rev. Code § 2921.421 - Assistants and employees of prosecutors, law directors, and solicitors. This section provides procedures for employing persons associated in the private practice of law in these offices.

Ohio Rev. Code § 3329.10 - Purchases of school textbooks and supplies:

Superintendents, principals, teachers, and supervisors are prohibited from acting as sales agents for textbook companies including companies offering electronic textbooks. These school officials are also prohibited from representing companies selling school apparatus or equipment. (Not applicable to community schools.)

Ohio Rev. Code § 117.103(B)(1) – A public office shall provide information about the Ohio fraud-reporting system and the means of reporting fraud to each new employee upon employment with the public office. Each new employee shall confirm receipt of this information within thirty days after beginning employment. The auditor of state shall provide a model form on the auditor of state's web site (<https://ohioauditor.gov/fraud/FraudReportingSystemModelForm.pdf>) to be printed and used by new public employees to sign and verify their receipt of information as required by this section. The auditor of state shall confirm, when conducting an audit under Ohio Rev. Code § 117.11, that new employees have been provided information as required by this division.

1979 Op. Atty. Gen. No. 1979-111 - Incompatibility of public offices: A public officer or employee may be prohibited from holding another public position. The Attorney General maintains a listing of incompatible public offices (<http://www.ohioattorneygeneral.gov/About-AG/Service->

⁶⁷ We interpret these requirements to mean that representatives of the community school's sponsor organization are prohibited from being voting members of the community school's governing authority. A sponsor is statutorily required to be actively monitoring and present at community school board meetings. While representatives of the sponsor organization may make their wishes known during the board meetings, they are prohibited from voting.

[Divisions/Opinions/Compatibility-of-Public-Offices-or-Positions](#))⁶⁸

Note: You may find evidence of possible violations of Ohio Rev. Code §§ 102.03, 2921.41, 2921.42, and 2921.421 from various audit tests. These sections are criminal violations. Auditor of State staff should consult with the State Auditor's Legal Division whenever you suspect possible violations of these sections. Independent public accountants should consult with their own legal counsel.

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Determine how the entity identifies possible interests on the part of officials and employees in matters coming before them for official action. For example, are officials and employees required to report the outside businesses and organizations they work for to the entity?
2. Inquire if any correspondence was received from the Ohio Ethics Commission regarding ethical violations.⁶⁹ If so, read correspondence regarding ethical violations and document the impact of any violations on the audit.
3. Inquire if any conflicts of interest or unethical transactions occurred during this year.
4. Inquire if the entity is aware of any other ~~illegal acts or~~ frauds. (AU-C 240 requires this step. If you already documented this in the FRAQ, you need not repeat this step here.)
5. If the school district purchased textbooks (including electronic textbooks) or school apparatus or equipment during this year, determine how the school assured that no one on the purchasing committee (superintendents, principals, teachers, and supervisors) acted as sales agents for those companies.
6. Determine if the entity notified employees about the fraud reporting system. Inquire regarding the entity's process for obtaining and maintaining confirmations from new hires signing off that they have received notification about the fraud reporting system.
7. Select a small number of newly hired employees (hired after 5/4/2012) and review the employees' confirmations that they have been notified about the fraud reporting system.
8. **For traditional schools that sponsor community schools**, inquire whether any employees of the school district or ESC serve on the governing authority of a community school sponsored by the school district or ESC.

⁶⁸ ~~As of the date of this publication, this listing included all opinions through 2017-011. Additional opinions related to incompatible offices include: 2017-014--015; 2017-032; and 2017-034--36.~~

⁶⁹ Auditors and IPAs should not contact the Ethics Commission. If evidence comes to your attention concerning possible ethics violations, IPAs and AOS staff should follow this guidance from the *Ohio Compliance Supplement Implementation Guide*:

Ethics Commission Referrals

All potential "consequential" ethics law violations are to be submitted to the Auditor of State Legal Division. After review, the Auditor of State Legal Division will make appropriate referrals. The Audit Division should consult with the Legal Division in determining how or if to report this matter. IPA's should consult with the Center for Audit Excellence.

9. **For traditional schools**, inquire whether the district board members serve on the governing authority of ANY community school.

10. **For community schools**, inquire whether any of the governing board members are also employees or governing board members of ~~the sponsoring~~ traditional school or ESC.

<p>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>

Revised: SB 227, 131 GA

Effective: 4/6/2017

Revised: HB 49, 132 GA

Effective: 6/30/2017

2-23 Compliance Requirement: Ohio Rev. Code § 149.43 - Availability of public records⁷⁰

[Each type of governmental entity has its own records commission as established in Ohio Rev. Code § 149.38 - counties, § 149.39 - municipalities, § 149.41 – school districts and educational service centers⁷¹, § 3314.037 - community schools, § 149.411 - libraries, § 149.412 – special taxing districts, & § 149.42 – townships.]

Summary of Requirement: Ohio Rev. Code § 149.011(G) defines a “record” for the public records law, as any document, device, or item, regardless of physical form or characteristic, created, received by, or coming under the jurisdiction of any public office which document the organization, functions, policies, decisions, procedures, operations, or other activities of the public office.

Ohio Rev. Code § 149.43(A)(1) defines “public record” as any record that is kept by any public office, including, but not limited to, state, county, city, village, township, and school district units (including community schools). Exceptions are numerous and highly fact-specific. Questions should be referred to AOS Legal for review. Some examples include, but are not limited to, medical records, records pertaining to adoption, probation, and parole proceedings, trial preparation records, usage information (including names and addresses of specific residential and commercial customers of a municipally owned or operated utility), confidential law enforcement investigatory records, records pertaining to abortions by minors (Ohio Rev. Code § 2151.85), “security”⁷² or “infrastructure”⁷³ records, personal information⁷⁴, certain competitive bid information (Ohio Rev. Code § 9.28), certain public depository information (Ohio Rev. Code § 135.182), and records the release of which is prohibited by state or federal law.

⁷⁰ Ohio Rev. Code § 3314.03(A)(11)(d) requires that each contract entered into between a sponsor and the governing authority of a community school shall specify that the school will comply with Ohio Rev. Code § 149.43. Therefore, AOS interprets the requirements of Ohio Rev. Code § 149.43 described in this OCS step to be applicable to community schools.

⁷¹ This statute applies to each city, local, joint vocational and exempted village school district as well as each educational service center. However, this statute does not apply to community schools. Community schools do not have a statutory records commission.

⁷² “Security record” is defined as any record that contains information directly used for protecting or maintaining the security of a public office against attack, interference or sabotage; or any records assembled, prepared or maintained by a public office or public body to prevent, mitigate or respond to “acts of terrorism” or an emergency management plan. [Ohio Rev. Code § 149.433(A)]

⁷³ “Infrastructure record” is defined as any record that discloses the configuration of critical systems (e.g., communication, computer, electrical, mechanical, ventilation, water, plumbing, etc.) of a building. Infrastructure record includes a risk assessment of infrastructure performed by a state or local law enforcement agency at the request of a property owner or manager ~~is included~~; but does not include a simple floor plan. [Ohio Rev. Code § 149.433(A)]

⁷⁴ “Personal information” is defined in Ohio Rev. Code § 149.45(A)(1) as: (a) An individual's social security number; (b) An individual's state or federal tax identification number; (c) An individual's driver's license number or state identification number; (d) An individual's checking account number, savings account number, credit card number, or debit card number; or (e) An individual's demand deposit account number, money market account number, mutual fund account number, or any other financial or medical account number. In addition, confidential personally identifiable information of a participant in the address confidentiality program, established under Ohio Rev. Code §§ 111.41 to 111.47, would not be considered public record.

All public records shall be promptly prepared and made available to any member of the general public at all reasonable times during regular business hours for inspection. Upon request, a person responsible for public records shall make copies available at cost, within a reasonable period of time. In order to facilitate broader access to public records, public offices shall maintain⁷⁵ public records in such a manner that they can be made available for inspection. [Ohio Rev. Code § ~~9.01~~149.43(B)(2)]

Public Records Policies and Posters

Pursuant to Ohio Rev. Code § 149.43(E), the Ohio Attorney General shall develop and provide to all public offices a model public records policy for responding to public records requests in compliance with Ohio Rev. Code § 149.43 in order to provide guidance to public offices in developing their own public record policies for responding to public records requests in compliance with that section. This model policy is available at: <http://www.ohioattorneygeneral.gov/Files/Publications-Files/Publications-for-Government/Model-Public-Records-Policy.aspx>.

Pursuant to Ohio Rev. Code § 149.43(B)(2), the entity shall have available a copy of its current records retention schedule at a location readily available to the public. The auditor of state, in the course of an annual or biennial audit of a public office pursuant to Ohio Rev. Code Chapter 117 shall audit the public office for compliance with this section and divisions (E) of Ohio Rev. Code § 149.43 [Ohio Rev. Code § 109.43(G)] The Auditor of State must ensure compliance with public records policy provisions.

Every public office must have a policy in place for compliance with Public Records Laws. There are three specific items that public offices cannot have in their public records policies. The policy cannot: (1) limit the number of public records it will make available to a single person; (2) limit the number of public records it will make available during a fixed period of time; or (3) establish a fixed period of time before it will respond to a request for inspection/copying of public records unless that period is less than eight hours. [Ohio Rev. Code § 149.43(B)(2)] However, pursuant to Ohio Rev. Code § 149.43(B)(7), the policy may limit the number of responses physically delivered by U.S. Mail (or by another delivery service) and/or the number of digitally formatted responses to ten per month when the public office chooses to provide some or all of its public records on a fully accessible, free of charge web site. Unless the requested records are not on the web site and unless the person certifies to the office in writing that the person does not intend to use or forward the requested records, or the information contained in them, for commercial purposes. For purposes of this division, “commercial” shall be narrowly construed and does not include reporting or gathering news, reporting or gathering information to assist citizen oversight or understanding of the operation or activities of government, or nonprofit educational research. All public offices are required to distribute their Public Records Policy to the employee who is the records custodian/manager or otherwise has custody of the records of that office. Written evidence that the records custodian/manager acknowledged receipt of a copy of the policy is required.

All public offices are required to create a poster describing its public records policy. In addition, the public office is required to post the poster in a conspicuous place in the public office and in all locations where the public office has branch offices. Finally, if the public office has an employee policies and procedures manual or handbook, it is required that the public records policy be included in such manual or handbook. [Ohio Rev. Code § 149.43(E)(2)] The AOS will require that: (1) the public office created a poster to describe its Public Records Policy; (2) the poster containing the policy has been posted in required locations; and (3) the policy has been included in the employee manual/handbook.

⁷⁵ Maintaining official records includes recording or copying to reduce storage space by any means which correctly and accurately reproduces, or provides a medium of copying, or reproducing, the original record [Ohio Rev. Code § 9.01]. Therefore, scanned documents are considered properly maintained as long as they can be accurately reproduced.

Destruction of Public Records

Any application or schedule for the destruction of records must be sent to the records commission created under Ohio Rev. Code § 149.39 (Ohio Department of Administrative Services if the entity is a state agency). Once the records commission has approved the application or schedule, it is forwarded to the Ohio History Connection for review to determine whether any of the records are of historical value [Ohio Rev. Code § 149.381] Once reviewed by the Ohio History Connection, the application or schedule is then forwarded to the Ohio Auditor of State's Office, General Services Department for final approval. [The following governments have separate records commission requirements: Ohio Rev. Code § 149.38 - counties, § 149.39 - municipalities, § 149.41 – school districts and educational service centers⁷⁶, § 149.411 - libraries, § 149.412 – special taxing districts, & § 149.42 – townships.]

Public Records Training – State and local elected officials

All state and local elected officials⁷⁷, or their designees⁷⁸, must attend at least 3 hours of training on Ohio's Public Records Laws during each term of office. [Ohio Rev. Code §§ 109.43(B) & 149.43(E)(1)] The training received must be certified by the Ohio Attorney General. Proof that training has been completed must include documentation that either the Attorney General's Office or another entity certified by the Attorney General provided the training to the elected official, or his/her designee. Attendees who successfully complete the training will receive a certificate to serve as proof of training.

Public Records Training - Community Schools

Under Ohio Rev. Code § 3314.037, members of the governing authority of a community school, fiscal officer, chief administrative officer, and all individuals performing supervisory or administrative services are required to complete training on an annual basis on the public records and open meetings laws. Although Certified Public Records Training under Ohio Rev. Code § 109.43 would fulfill this requirement, it is not required.

Additional Information

Refer to AOS Bulletin 2011-006 for additional information pertaining to Ohio Public Records Law.

Sample Questions and Procedures:

Unless the prior audit detected noncompliance:

- You can limit steps 1-6 to years in which the auditee adopted or changed its policy.
- Step 7 must be performed every year.
- You can limit steps 8 and 9 to each term of office. The working papers should document whether we tested this in the prior audit.

Ascertain if responsible personnel are aware of the above requirements and have implemented local policies and procedures regarding:

⁷⁶ This statute applies to each city, local, joint vocational, and exempted village school district as well as each educational service center. However, this statute does not apply to community schools. Community schools do not have a statutory records commission.

⁷⁷ Includes officials elected to local or statewide office, but does not include: justices of the Supreme Court, court of appeals, common pleas, municipal court, county court, or a clerk of any of those courts.

⁷⁸ Designees must be employees in the public office and there must be evidence of the designation prior to term end of the elected official. If there is more than one elected official in the public office, the designee should be the designee for all of the elected officials within the office.

1. What records are made available.
2. Times when records may be reviewed.
3. Costs for copies to be made.
4. Obtain the entity's Public Records Policy and scan it to be sure that the policy does not limit the number of responses that will be made to a particular person, or limit the number of responses during a specified period of time, or establish a fixed period of time before it will respond unless that period is less than eight hours.
5. Ascertain whether the entity's policy for records retention (*Note*: this is not the same policy as the public records policy) includes provisions for the application or schedule for destruction of public records, including transmission to the Ohio history connection and approval by the Auditor of State's Office.
6. Ascertain whether the entity has a records retention policy readily available to the public.
7. Ascertain whether the entity's policy was included in policy manuals, and displayed conspicuously in all branches of the public office. As part of this process, determine whether written evidence exists that the Public Records Policy was provided to the records custodian/manager.
8. Determine whether each elected⁷⁹ official (or his/her designee), community governing authority member, or community school administrative staff (fiscal officer, chief administrative officer, and all individuals performing supervisory or administrative services) has successfully attended a certified three-hour Public Records Training for each term of office. Obtain copies of their certificates of completion and place them in the permanent file for future reference.

Certified public record training attendees are documented on the AOS Intranet at:

<http://portal/BP/Intranet/Auditor%20Resources/AA%20Training%20Resources.aspx>.

For county auditors, confirmation can be obtained by reviewing the County Auditor Continuing Education Status Report available under IPA resources located at:

<https://ohioauditor.gov/references/confirmations/hours.html>.

9. If a designee attended the course, determine whether the designee was an employee of the public office and obtained evidence of the designation. (*Note*: this procedure does not apply to community schools.)

<p>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</p>
--

⁷⁹ This does not apply to officials that are appointed or otherwise not elected (i.e. library trustees)

SCHOOL AND/OR COMMUNITY SCHOOL**2-24 Compliance Requirement:** Ohio Rev. Code §§ 3313.666(A), (B), and (C) and 3314.03(A)(11)(d) - Anti-Bullying Provisions

Note: ~~This procedure does not apply if a prior audit's documentation demonstrates that the district adopted a policy compliant with the law in effect as of June 30, 2012. We are requiring staff to test this section as follows:~~

1. Anti-Bullying laws should be tested for all schools (traditional and community schools). With one exception below, auditors must issue the AUP report (available in the Audit Employees briefcase) as part of the audit package each year until the school is in full compliance. Auditors should be alert that these requirements will need tested in the first audit of any new community school.

2. For existing traditional and community schools where these provision compliance requirements were not previously tested, auditors need to perform the suggested audit procedures and issue the applicable AUP report.

3. Exception: Requirement #10, is new in the 2018 OCS and must be tested in all school audits. Auditors are not required to issue an AUP if requirement #10 is the only Anti-Bullying provision required to be tested in the June 30, 2018 audit period. Instead, auditors can simply document their testing and results in the working papers. If noncompliance with Requirement #10 is identified, auditors should communicate the matter in the Management Letter.

- However, if auditors are testing the Anti-Bullying provisions for more than just item #10, and AUP report should be performed and issued as part of the financial statement audit report package.

Summary of Requirements:

The board of education of each city, local, exempted village, and joint vocational school district and the governing authority of each community (charter) school must adopt an anti-bullying policy in consultation with parents, school employees, school volunteers, students, and community members.

Each policy must include the following items (Ohio Rev. Code §§ 3313.666(B), and 3314.03(A)(11)(d)):

1. A statement prohibiting the harassment, intimidation, or bullying of any student on school property, on a school bus, or at a school-sponsored activity. ~~The policy must also expressly provide for the possibility of suspension of a student found responsible for harassment, intimidation, or bullying by an electronic act.~~⁸⁰
2. It also must define the term "harassment, intimidation, or bullying" in a manner that includes the definition prescribed in Ohio Rev. Code § 3313.666(A). The act defines that term as "any intentional written, verbal, electronic or physical act that a student has exhibited toward another particular student more than once and the behavior both (1) causes mental or physical harm to the other student, (2) is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student," and violence within a dating relationship.
3. A procedure for reporting prohibited incidents;
4. A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;

⁸⁰ "Electronic act" is defined by Ohio Rev. Code § 3313.666(A)(1) as an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

5. A requirement that the parents or guardians of a student involved in a prohibited incident be notified and, to the extent permitted by state and federal law governing student privacy, have access to any written reports pertaining to the prohibited incident;
6. Procedures for documenting any prohibited incident that is reported;
7. Procedures for responding to a reported incident;
8. A strategy for protecting a victim from new or additional harassment and from retaliation following a report;
9. The disciplinary procedure for a student who is guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment;
10. A statement prohibiting students from deliberately making false reports of harassment, intimidation, or bullying and a disciplinary procedure for any student responsible for deliberately making a false report of that nature; and
11. A requirement that the district or community school administration provide semiannual written summaries of all reported incidents to the president of the district board of education or community school governing authority, and post them on the district's or school's website (if applicable) to the extent permitted by state and federal law governing student privacy.

These items form a framework for districts and community schools to use in developing their policies. The policy must be included in student handbooks and in publications that set forth the standards of conduct for schools and students. Employee training materials must also include information on the policy. [Ohio Rev. Code § 3313.666(C)]

Auditor of State identification of harassment policy

The act **requires** the Auditor of State (or contracting IPAs), when auditing a school district or community school, to identify whether the district or school has adopted an anti-harassment policy. This determination must be recorded in the audit report. The Auditor of State may not prescribe the content or operation of the policy. (Ohio Rev. Code § 117.53)

Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Inspect the anti-bullying policy the school adopted pursuant to Ohio Rev. Code § 3313.666(B) (for school districts) or § 3314.03(A)(11)(d) (community schools). To comply with this reporting obligation, the Auditor of State and contracting independent accountants must include an additional agreed-upon procedures report describing the procedures applied and the results, until compliance is obtained. This report should appear immediately after the schedule of findings or schedule of prior year audit findings, if applicable. The table of contents should separately list this report. (Because this report is a statutory requirement, we believe it is inappropriate to include it with a management letter.)

NOTE: The reporting process AOS and IPA's should use to satisfy these requirements is detailed in the appropriate AUP Report shell Anti-bullying found in the briefcase and AOS Internet.

2. Regardless if the policy was tested previously, test the school's existing policy for compliance with item #10. If the school's policy fails to reflect item #10, report noncompliance in the management letter.

Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):
