

Schedule of Federal Award Expenditures (SEFA) Completeness

This document does not include all Federal programs an entity might report; rather it contains the SEFA reporting information from each FACCRS prepared by CFAE. This document is updated on a regular basis as the FACCRs are updated.

This information is sorted by Assistance Listing (previously known as CFDA) number and bookmarked.

AOS Auditors: In addition to the documentation in this file, please review the guidance and test the SEFA Completeness procedures in TeamMate.

YEAR ENDED:	2020
FEDERAL AWARD NAME:	Guidance for Grants with no CFAE Prepared FACCR

Reporting in the Schedule of Expenditures of Federal Awards

The auditee must prepare a schedule of expenditures of Federal awards for the period covered by their financial statements, which must include the total Federal awards expended as determined in accordance with [2 CFR § 200.502](#).

Reminder: For reporting purposes on the SEFA, we are looking at when the ***expenditure was MADE*** not when the revenue was received. Additionally, Auditors should be aware of the period in which expenditures are able to be incurred for COVID Programs, as expenditures may have occurred during the fiscal year but not reimbursed until after fiscal year end.

While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple Federal award years, the auditee may list the amount of Federal awards expended for each Federal award year separately.

At a minimum, per 2 CFR 200.510, the schedule must:

- List individual Federal programs by Federal agency. For a cluster of programs, provide the cluster name, - list individual Federal programs within the cluster of programs, and provide the applicable Federal agency name. For R&D, total Federal awards expended must be shown either by individual Federal award or by Federal agency and major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.
- For Federal awards received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included.
- Provide total Federal awards expended for each individual Federal program and the Assistance Listing number or other identifying number when the Assistance Listing information is not available. For a cluster of programs also provide the total for the cluster.
- Include the total amount provided to subrecipients from each Federal program.
- For loan or loan guarantee programs described in § 200.502 Basis for determining Federal awards expended, paragraph (b), identify in the notes to the schedule the balances outstanding at the end of the audit period. This is in addition to including the total Federal awards expended for loan or loan guarantee programs in the schedule.
- Include notes that describe that significant accounting policies used in preparing the schedule, and note whether or not the auditee elected to use the 10% de minimis cost rate as covered in [2 CFR § 200.414](#) Indirect (F&A) costs.

NOTE – COVID FEDERAL EXPENDITURES:

Auditors should inquire with their entity to determine if the government received COVID-19 Federal Funding. Additional COVID-19 resources, including the CARES Act and Federal Assistance Spreadsheet, is available at https://ohioauditor.gov/resources/COVID19_assistance.html.

Expenditures of Covid related funding must be identified on a separate line item with a designation identifying them as Covid. Example:

10.555	National School Lunch Program	\$XX,XXX
10.555	Covid-19 National School Lunch Program	\$XX,XXX

FEDERAL AWARD NAME:	Supplemental Nutrition Assistance Program (SNAP/Food Assistance) – County JFS Only
Assistance Listing #:	#10.551 Supplemental Nutrition Assistance Program (SNAP / Food Assistance) #10.561 State Administrative Matching Grants for the Supplemental Nutrition Assistance Program

This program specific guidance is in addition to the general reporting requirements on page 2.

SNAP (Food Assistance) benefits are regulated by the United States Department of Agriculture – Food and Nutrition Services, the regulations are implemented by the state and the benefits are then county administered. The State has the responsibility to regulate that administration; therefore, the State Region will audit eligibility and recipient benefit payments.

The County federal schedule will report direct administrative and other expenditures (whether charged directly to the program or allocated through a cost allocation plan or cost pool) paid by the County.

For guidance on ODJFS grants reported on counties SEFA's, auditors should refer to the ODJFS prepared PA and CSEA Federal grant templates at <http://jfs.ohio.gov/ofs/bcfta/TOOLS/tools1.stm>. Copies of these are also maintained for AOS staff on the internal AOS Federal ODJFS Resources intranet page. While the CR 504 CFDA report is a good starting point for counties to determine the expenditures to be reported on the SEFA, there are some programs or parts of program that are not reflected in either of these report. The spreadsheets provide program specific information for testing the SEFA.

Per ODJFS, all grants are reported on a cash basis and should be presented likewise on the SEFA.

To ensure expenditures are reported accurately by Assistance Listing #, auditors should also determine how multi-agency contract expenditures are recorded on the schedule of federal awards expenditures.

The local government should report federal expenditures for Assistance Listing #10.551/10.561. [2 CFR 200.510 \(b\)\(2\)](#) (2 CFR 400.1 giving regulatory effect) requires including pass-through numbers (if any) on the Schedule. Counties should report the subgrant agreement number (i.e. G-1011-11-5006) as the pass through number and roll the grants up in total by Assistance Listing. Please note there may be two subgrant agreements in place for the calendar year. If that is the case then report both numbers (i.e. G-1011-11-5006 / G-1011-11-5007).--

(Note: It is doubtful counties receive funding under 10.551 due to this portion of the Cluster being for the recipient benefits. Auditors should discuss with the County JFS if these funds were received by the County.)

SNAP Cluster	Assistance Listing #	Pass through number	Expenditures

NOTE: Legacy cash reports are available to schools and their auditors to aid in preparation of the SEFA. A cross walk of Web-GAAP alternatives is located within the Web-GAAP wiki, which can be accessed using the following link: <http://gaapwiki.oecn.k12.oh.us/images/1/19/4502Web-GAAPAlternatives.pdf>. For AOS Auditors, a link to the entire Web-GAAP wiki is provided on our [intranet](#) page under the auditor resources tab. Keep in mind that district use of Web-GAAP is not mandatory and some districts may not utilize these reports. Any SEFA format is acceptable so long as it complies with the requirements above and those of 2 CFR 200.510(b).

Valuing USDA Donated Foods

The distributing agency or recipient agency must consider the value of USDA donated foods as part of the Nutrition Cluster grants as indicated above. There are two steps in accomplishing this:

1. Determining the quantity of each USDA donated food "expended".
 - a. A distributing agency, and a recipient agency in CSFP, TEFAP, or FDPIR, must consider all USDA donated foods distributed or used in a school or fiscal year as expended.
 - b. A recipient agency in NSLP, CACFP, or SFSP, or a charitable institution that receives donated foods in accordance with § 250.67, must consider all USDA donated foods received in a school or fiscal year as expended.
2. Assigning value to the quantity of each USDA donated food "expended".

In accordance with Section 502(g) of the Uniform Guidance (2 CFR 200.502(g)), Federal non-cash assistance, such as USDA donated foods, must be valued at either fair market value (FMV) at the time of receipt, or at the assessed value determined by the Federal agency. Accordingly, for audit purposes, a distributing or recipient agency may use either the FMV of donated foods at the time of their receipt or one of the following donated food valuation methods included in [7 CFR 250.58\(e\)](#).

Each distributing or recipient agency must choose a method of valuing donated foods for audit purposes. In most cases, it would probably be easier for a distributing or recipient agency to use one of the options listed in 7 CFR 250.58(e), rather than having to determine the FMV at the time of their receipt. However, in some cases it may be easier to use the FMV. Once a distributing or recipient agency has selected a method of assigning value to donated foods, it must use that method consistently in all of its audit activities, and must maintain a record of the means of valuing donated foods for such purpose.

State of Ohio

- The CATS system is the required system for all schools ordering commodities directly from ODE. Schools receiving commodities through cooperative purchasing groups will not have their activities reflected in CATS. Please refer to the [list of schools](#) that participate in a co-op.
- The MR 30 report is no longer available.
- As noted above, schools may select to calculate the FMV of their commodities at the time of receipt, or use the value determined by the Federal agency.
 - If the school participates in the government donated food program, utilizes the CATS system, and uses FMV, you must obtain their support and calculations, and test such.
 - If the school participates in the government donated food program, utilizes the CATS system and used the value determined by the Federal agency, then ODE uses the option “the USDA commodity file cost as of a date specified by the distributing agency” via the CATS system. In February 2014, ODE created a report available in the CATS system to assist clients & auditors in determining this value. The following steps will explain how to obtain this report, as long as the school used the CATS system. The report is available beginning with FY 2013, and will reflect the information in the system at the time the report is generated. Note: Schools that use a consortium must get their information from the consortium.
- In the CATS system, the school can obtain the necessary reports by following these steps.
 - Upon logging into the CATS system, the client should click on “Reports”, then “Value of Commodities Offered/Received”, then choose your program year, ensure the entity name appears in the “Agency” field and click on “Create Report” – this brings up the “Value of Commodities Offered-Received” report. To obtain the commodity value to report on the Federal Schedule, add the figures under the “Received Entitlement Value” and “Received Bonus Value” columns. (While the “Received Converted Value” column is not currently being utilized, if an amount appears in this column in the future, it would need included as well.)
 - To print this page, click on the drop down arrow next to the words “Select a format”, select “pdf” and click the “export” button.
 - If the school participates in the Department of Defense (DoD) Fresh Fruit and Vegetable Program, the Department of Defense (DoD) Fresh Fruit and Vegetable Program entitlement value would be contained within the Received Entitlement Value figure presented on the Value of Commodities Offered-Received report since it has been transferred to the Department of Defense. However, you will need to obtain the school’s support for the amount of the Department of Defense (DoD) Fresh Fruit and Vegetable Program entitlement value that was actually used and adjust the Received Entitlement Value by the unused Department of Defense (DoD) Fresh Fruit and Vegetable Program entitlement value portion.
 - If the school participates in the Kosher Food Program, the Kosher Food Program entitlement value is not contained within the Received Entitlement Value figure presented on the Value of Commodities Offered-Received report. Obtain the schools support for the amount of Kosher Food entitlement value used. Add the Kosher Food entitlement value used to the Received Entitlement Value and the Received Bonus Value.

PLEASE NOTE:

- ODE informed us OAKS is not currently assigning pass-through numbers.

- Not all schools receive “bonus commodities”, which are commodities received in addition to their commodity entitlement.
- Processing charges and S&H charges are not included in the values on this report, as they do not get included in the commodities figure on the SEFA. Note for FY 2016, schools using the state commodity system were not charged shipping fees at all because ODE had enough to cover their administrative fees that year – this is determined on a year by year basis.
- Some schools were using the order forms from the CATS system to calculate the commodities figure. Per ODE, this is not correct, as occasionally schools do not receive everything that they order.

Covid-19 Funding

Auditors may see negative amounts under the Nutrition Cluster amounts listed on the State Distribution Transaction Listing. These negatives are due to the reallocation of federal reimbursements due to Covid-19 funding.

ODE has provided us with a detailed [spreadsheet for FY20](#) sorted by Assistance Listing number to enable Entities and Auditors to more accurately determine the amounts that should be reported under each Assistance Listing number and which amounts should be identified in the SEFA as Covid-19 funding expenditures/reimbursements. The Grant ID identifies the program under which the payment should be reported.

Some reallocations and reimbursements did not occur until after FY20 Fiscal Year end but should be included on the FY20 SEFA as they are FY20 federal expenditures. ODE provided an additional [spreadsheet for July-September 2020](#) detailed and sorted by CFAE number. Not all amounts identified on this supplemental spreadsheet are FY20 expenditures. Auditors will need to review supporting documentation at the individual entities to verify an amount was properly included or excluded from the SEFA for FY20.

Interim Financing

After RUS has made a commitment on a loan, the borrower may be required to obtain interim financing from commercial sources (e.g., a bank loan) for the construction period (7 CFR 1780, section 1780.39(d)). Interim financing is required for all loans over \$500,000, except in documented instances where financing cannot be obtained at reasonable rates. Expenditures from these commercial sources that will be repaid from the proceeds of the RUS loan should be considered federal awards expended, included in determining Type A programs, and reported in the Schedule of Expenditures of Federal Awards.

Status of Outstanding Loan Balance After Project Completion

In years after the program funds are expended and construction is completed, and the only ongoing financial activity of the program is the payment of principal and interest on outstanding loan balances, the prior loan balances are not considered to have continuing compliance requirements under 2 CFR 200, section 200.502(d). Prior loans that do not have continuing compliance requirements other than to repay the loans are not considered federal awards expended and, therefore, are not required to be audited under 2 CFR part 200, subpart F.

However, this does not relieve the borrower of the requirement to file financial reports on these loans (which are not required to be audited) or otherwise comply with program requirements (e.g., maintaining insurance, depositing funds in federally insured banks, obtaining prior approval for sales of plant).

FEDERAL AWARD NAME:	Workforce Innovation and Opportunity Act (WIOA) Cluster
Assistance Listing #:	17.258 –WIOA Adult Program 17.259 - WIOA Youth Activities 17.278 - WIOA Dislocated Worker Formula Grants

This program specific guidance is in addition to the general reporting requirements on page 2.

ODJFS issues all WIOA funds to the 20 local area fiscal agents. The fiscal agents, in turn, issue sub-awards to various local entities delivering the services including:

- Staff to the local board and the fiscal agent staff who expend WIOA Administrative funds (up to 10 percent of the grant).
- Sub-areas which may include County JFS agencies and non-profits such as county Community Action Agencies
- Youth providers which must be procured competitively by the local board unless the local board opts to designate the CCMEP Lead Agency to carry-out certain permissible activities as defined in WIOA policy letter.
- Optional other sub-recipients such as providers of Adult and Dislocated Worker career services which do not need to be procured competitively

All of the above organizations, if determined to be sub-recipients rather than contractors, must report their federal spending on their SEFA.

Note: Previously under WIA, a single area could hold multiple roles listed above: (i.e. serve as staff to the local board, service provider, and One-Stop Operator (now referred to as Ohio Means Job Center)). The new requirement to procure One-Stop Operators under WIOA and other local board oversight responsibilities led ODJFS to require organizational separation between the staff to the local board and the entities providing services to job seekers and Youth. Because of the need for separation between board staff and service providers, some areas established COGs to employ the local board staff. All new COG's established by a WIOA Area, must complete an analysis to determine who should be reporting the federal funding and receiving the single audit.

Reporting WIOA on County Federal Awards Expenditure Schedules

Fiscal agents may disclose the amounts they transmit to other entities in the notes to their federal awards expenditure schedule. However, fiscal agents should not report these amounts as disbursements in their Schedule. (Fiscal agents should only report any amounts they disburse as a WIOA subrecipient in their Schedule.) Counties and other entities receiving WIOA from the fiscal agents should report their disbursements as pass-through assistance from their area agency in their federal awards expenditure schedule.

The County or WIOA Area Agency should report federal disbursements for the WIOA Cluster in the workforce development fund. At a minimum, the County or WIOA Area Agency should report the total fiscal year WIOA Cluster disbursements, by program and Cluster. The County or WIOA Area Agency should also separate each program

by Administrative and Non-administrative dollars. 2 CFR 200 requires including pass-through numbers (if any) on the Schedule. The ODJFS Director confirmed that a pass through number should be printed on all WIOA awards to local governments. The Schedule should also report the following for the WIOA Cluster:

- Assistance Listing numbers & Grant Titles:
 - #17.258 – WIOA Adult Program
 - #17.259 –WIOA Youth Activities *
 - #17.278 –WIOA Dislocated Formula **

- Disbursements for each pass-through number (i.e., cost center), program, and cluster total.

** = OAC section 5101:14-1-01 has named the WIOA Youth program the “Comprehensive Case Management and Employment Program (CCMEP)” which integrates WIOA Youth services with TANF-funded activities at the county (CDJFS) level.*

The US Department of Labor requires an accrual accounting basis for WIOA grant reporting. As a result, Fiscal Agents must report both their disbursements and accruals (i.e. their accrued expenses) for every WIOA funding stream.

- Are they required to have accounting systems that are accrual basis year round?
 - No – 2 CFR 2900.14 explains that a grant recipient is not required to convert its accounting system. Accruals must be reported using best estimates based on analysis of the documentation on hand, even if the entity is not using an accrual accounting system.

- Do they just need to make accrual adjustments to annual/quarterly reports?
 - Yes -- the financial system that all ODJFS sub-recipients use (County Finance Information System or CFIS) allows reporting of both the disbursements and accruals using separate account codes. Traditionally the local areas used spreadsheets or other methods to calculate their accruals and report the total using the accrual account code. New functionality in CFIS launched in June 2016 now automates the accrual calculation for services provided directly to a participant such as classroom training costs, On-the-Job Training, work experience wages, etc. based on the dates of service entered.

- Does the SEFA need to be on accrual basis?
 - No. 2 CFR Part 2900.14 states, in addition to the guidance set forth in 2 CFR 200.328, for Federal awards from the Department of Labor, the DOL awarding agency will prescribe whether the report will be on a cash or an accrual basis. If the DOL awarding agency requires reporting on an accrual basis and the recipient's accounting system is not on the accrual basis, the recipient will not be required to convert its accounting system, but must develop and report such accrual information through best estimates based on an analysis of the documentation on hand.

Thomas DiLisio from the US Department of Labor confirmed on December 8, 2021 that the SEFA is *not* required to be reported on an accrual basis.

ODJFS performs a completeness test of WIOA monies sent by ODJFS with the county and local area agency federal schedules. However, ODJFS tests completeness at the Local Area Agency level. If the auditor wishes to obtain 3rd party confirmations of the WIOA receipts amounts reported on the County's Federal Schedule, audit staff should contact the appropriate Local Area Agency. If the Local Area Agency is included in the County's reporting entity, please contact Sabrina Jamison at (614) 728-1476 or Sabrina.Jamison@jfs.ohio.gov for confirmation of WIOA Monies sent to the County.

How to determine when a project should be reported on an LPA's SEFA

Obtain client's SEFA, their ledgers, all grant files (including SIB loan agreements, and project agreements), the Tracking Spreadsheet (if they do not utilize their own acceptable method, request they complete ODOT's spreadsheet mentioned in Section IV of the FACCR), and support for the expenditures.

- For each expenditure made to or on the behalf of an LPA, the **LPA initiates** the payment process. The LPA will prepare an invoice to ODOT requesting payment to a vendor (third-party payment) or the LPA will prepare an invoice to ODOT requesting reimbursement to the LPA. These invoices are approved by signature of the LPA (often signed by the Engineer, the Mayor, or a Commissioner). ODOT will not pay a vendor, on behalf of the LPA, without the LPA initiating the payment process of the approved invoice. (see also Audit Bulletin 2000-008 for guidance for on-behalf transactions)
- LPA Administered Project- Unless there is evidence in the project agreement which suggests the project is not funded with Federal money, 100% of these amounts should be reported on the SEFA when payments are made. Invoices submitted to ODOT should be reviewed for inclusion on the SEFA, as they should document the Federal, State, and Local funding sources. When documentation is unclear, the LPA should contact ODOT at DOT.LPAQuestions@dot.ohio.gov for clarification.
- ODOT Administered Projects - Those projects for which ODOT fully administers all phases of the project, the LPA has no further responsibility or input in the project (except for removing and managing possible interferences such as utilities and vehicles, etc.). Therefore, payments on these projects should not be reported on the LPA's SEFA.
 - Some ODOT projects for which ODOT does not administer every phase of the project, the LPA will administer one or more phases of the project. The Agreement between ODOT and the LPA will provide clarification for which phases are administered by ODOT and which phases are administered by the LPA. This split-administration can make the ODOT projects difficult to understand reporting responsibility and is usually where the Engineer's Office can provide valuable input and clarification for the auditor. Amounts related to phases that are administered by the LPA should be included on the SEFA when the on-behalf payment is issued by ODOT.
- If an auditor determines the client's designation of a project as locally-administered vs ODOT-administered is inaccurate, first consult with CFAE via the FACCR inbox and include the documentation/information noted above.
 - Indication of a locally-administered project can often be found in the following sections of the 'Local-let Project Agreement'
 - Title of agreement – "Local-let Project Agreement' – indicating that the LPA needs to report for at least 1 phase
 - 1.4 – '...to establish the responsibilities for the local administration of the project'

- 4.1 – ‘The LPA and ODOT agree that the LPA is qualified to administer this project....’
- 4.3 – ‘The LPA shall design and construct the project.....’
- Additionally, situations occur where at the time the grant agreement is written/signed, the LPA plans on a phase, or multiple phases, being locally administered, but later the project changes to being ODOT administered (and vice/versa). When documentation is unclear, the LPA should contact ODOT at DOT.LPAQuestions@dot.ohio.gov for clarification.
- State Infrastructure Bank (SIB) Loans - SIB loans may be from either Federal funds or State funds. Any ODOT SIB loan using Federal SIB funds (original Federal) are reported on the SEFA. LPAs contact the SIB Administrator (typically through email) to verify if any Federal disbursements occurred on their SIB loans during the year. If there were, the SIB Administrator sends them the dollar amount. The SIB Administrator doesn’t automatically send this information out to LPAs, but the ODOT SIB has the capability to provide it if requested.
- PID’s using a “Task Order Consultant” – Occasionally, a LPA chooses to utilize an ODOT Task Order Consultant to handle certain phases of the project for them (as indicated in their Scope of Services agreement). When this occurs, the LPA should NOT be reporting the expenditures related to the Task Order phases on their SEFA (as those will be reported on ODOT’s SEFA and would follow guidance as if they were ODOT administered). The invoices for these services are not initiated by the LPA, nor are the invoices approved by the LPA. All invoicing is initiated and approved by ODOT personnel.
- While the SEFA must show the identifying number assigned by the pass-through entity (i.e., PID number), the identifying numbers can be reported in 1 line on the SEFA. While ODOT prefers each PID to be reported individually on the SEFA, it historically has not been included in the grant terms and conditions. LPA’s should review their grant agreements for requirements from ODOT. Auditors should not propose adjustments to the SEFA to report the amounts individually unless it is a requirement in the grant terms and conditions. (ODOT has indicated some project agreements now require this, so Auditors should determine if there was appropriate compliance with the agreement’s terms).
 - Note: Lack of compliance with this ODOT contract requirement would not be considered non-compliance with UG.

Additional AOS Guidance for 2019 and Subsequent SEFAs:

Beginning with the 2019 fiscal year end the ODOT Office of External Audits has been directing LPA subrecipients to use the State of Ohio’s Warrant Date for SEFA reporting for transactions where the LPA reviews and approves the contractor’s invoice and then forwards that invoice to ODOT for the State to make a direct payment to the contractor. This change in guidance was documented as item number 6 in the December 26, 2019 ODOT letter with the subject line *Tracking of ODOT Project Expenditures and Federal SEFA Reporting Requirements*. This document was posted to ODOT’s Office of External Audits’ webpage on December 30, 2019. See <http://www.dot.state.oh.us/Divisions/Finance/Auditing/Pages/LocalPublicAgencies-LPA.aspx>.

The revised guidance is applicable for LPA project transactions occurring in proximity to the 12/31/2019 fiscal-year-end and for future fiscal years. The basic concept is that going forward Federal funds transactions will be assigned to a fiscal year for SEFA reporting based upon a specific certain date (the State of Ohio warrant date); not an estimated date.

In addition ODOT is providing the following additional guidance to LPAs for properly using the State of Ohio warrant date:

Most Ohio local governments have elected to prepare their SEFA using the cash-basis of accounting. Therefore, since they are using the cash-basis, for those transactions where the LPA reviews the contractor's / vendor's invoice and then forwards the invoice to ODOT so that the State issues a direct payment to the contractor/vendor, the LPA must use the State of Ohio Warrant Date to assign that transaction to a fiscal year for SEFA reporting. The use of any other date field may result in transactions of this type being assigned to the wrong fiscal year. So, for cash-basis SEFA preparers, for transactions of this type, the use of the State of Ohio Warrant Date is required.

Also, for cash-basis SEFA preparers, when the LPA issues a payment to the contractor for the Federal Share and is then subsequently reimbursed by ODOT, for these transactions the LPA must use their check date; not the date ODOT issued the reimbursement payment.

Further, for cash-basis SEFA preparers, for Federally reimbursed labor costs that originate within the LPA, the LPA is to use the dates the corresponding payroll was paid; not the date of ODOT's reimbursement payment.

Finally, there is a Capital Program Payments Report available from ODOT's Construction Management Reporting System (CMRS) at <https://cmsportal.dot.state.oh.us/Home/ViewExtReport?RptNme=CMSPortal%252fCapitalProgramPaymentReport&RptTitle=Capital%20Program%20Payment>. That report can be used to confirm State of Ohio Warrant Dates. However, as Federal, State and/or Local funds disbursed by ODOT may be commingled/combined in the Warrant or EFT, this report **cannot** be used to verify the disbursement of specific Federal funds **amounts**. This issue is one of the primary reasons for the Notice which appears on page one of the reports and the watermark which appears on every page. A different LPA source document must be used to confirm the Federal funds portion of the payment.

Other Agreements

ODOT and LPAs may enter into agreements involving Federal 20.205 funds that may need to be included on the LPA's SEFA but may not have ODOT specific requirements addressed fully in the FACCRs. Auditors should refer to these agreements to determine what is required to be reported on the LPA's SEFA. Examples of these agreements include:

- CEO SAFETY STUDY LPA PROJECT AGREEMENT
- CEO SHV LPA PROJECT AGREEMENT
- CEO SIGN UPGRADE LPA PROJECT AGREEMENT
- LPA DERG PROJECT AGREEMENT
- LPA DERG P-P-P PROJECT AGREEMENT
- LPA TOWNSHIP SIGNAGE UPGRADE PROJECT AGREEMENT
- SRTS NON-INFRASTRUCTURE PROJECT AGREEMENT

Programs which may include Highway Planning and Construction Cluster Funding

Metropolitan Planning Organization (MPO) Projects

MPO projects are governed by a biennial MPO agreement and an annual work program funding. ODOT reimburses the MPO for costs claimed that are eligible under the work program. Though the MPO Agreement covers two years, funding is on an annual basis.

Ohio Municipal Bridge Program

The Municipal Bridge Program provides Federal funds to municipal corporations and Regional Transit Authorities (RTA) for highway bridge replacement, bridge rehabilitation, or bridge demolition projects. A funding limit of \$2 million per project has been established. Funding awarded through this program may not be used in conjunction with funding awarded through the Ohio Bridge Partnership Program.

Local Major Bridge Program

The Local Major Bridge Program provides Federal funds to counties and municipal corporations for bridge replacement, major bridge rehabilitation, and bridge demolition projects. Bridge replacement and bridge rehabilitation projects will be given a higher priority in funding consideration than bridge demolition projects.

Small City Program

The Small City Program provides Federal funds to small cities with populations from 5,000 to 24,999 that are NOT located within Metropolitan Planning Organizations' boundaries. Currently there are 54 small cities that meet this program's criteria. A listing of the eligible cities that meet the program's criteria can be found on the Local Programs website at:

Reporting Summary

Note: This table is greatly simplified. Auditors should also carefully consider all other guidance in this FACCR as well as any other grant specific documentation provided by the client in order to correctly determine proper reporting of associated activities.

	Project Administered by:			
	ODOT (no match)	ODOT (LPA match)	Both	LPA
Report on SEFA	No	No	only LPA admin.	Yes
Capital Asset: During Construction	No	No	Yes - CIP for on-behalf, reimbursed, or direct expenditures	Yes - CIP for on-behalf, reimbursed, or direct expenditures
Capital Asset: After Completion	Yes - Total cost provided by ODOT	Yes - Total cost provided by ODOT	Yes	Yes

Footnotes:

1. Administered by Both: Some projects have phases administered by ODOT and some phases administered by LPAs. This column is meant to address those projects.
2. SIB Loans: **Auditors should contact CFAE any time there are SIB loans involved.**
3. If a task order consultant is used for any project, the amount should not be reported on the LPA SEFA.
4. Reporting of on-behalf activity (related to ODOT administered projects), capital assets/infrastructure, and/or construction in progress require careful consideration of many various resources and guidance publications. Efforts have been made to arrive at a consensus for proper reporting of these items; however, there are still matters up for debate. To that end, Auditors should consider all available information in order to make a judgment decision for each scenario they come across. Continued efforts are being made in this matter, and guidance should be expected in the future.

YEAR ENDED:	2020
FEDERAL AWARD NAME:	Coronavirus Relief Funds
Assistance Listing #:	21.019

Many entities are designing and implementing programs to share CRF funding with other governments, small businesses, not-for-profits, etc. in order to assist with relief efforts in areas with the most need. Additional information regarding the sources of CRF funding can be found here - https://ohioauditor.gov/resources/covid19/CRF_Flowcharts_Funding.pdf.

While funding for CRF via House Bills 481 and 614 were distributed to local governments through the County Auditor/Fiscal Officer, the County is NOT considered a pass-through entity in these situations and should NOT be reported on a County SEFA. Example SEFAs for small governments (Townships, Villages, and Libraries) are provided at https://ohioauditor.gov/resources/covid19/Small_Govt_Example_SEFAs.pdf.

Since the various sources of the CRF program are all part of the Assistance Listing #21.019 and are all treated as one program for major program determination, only one opinion on compliance will be issued using the results of testing in the FACCR.

Subrecipients, Contractors, and Beneficiaries:

Auditors must carefully consider the Coronavirus Relief Fund (CRF) agreements in regards to treatment for SEFA reporting, including evidence indicating subrecipient, contractor, and/or beneficiary relationships between governments.

[2 CFR 200.331](#) includes guidance related to Subrecipients and Contractors in (a) and (b), respectively. Additionally, this section of the UG clarifies “the pass-through entity must make case-by-case determinations whether each agreement it makes for the disbursement of Federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor.” However, the UG additionally notes, “In determining whether an agreement between a pass-through entity and another non-Federal entity casts the latter as a subrecipient or a contractor, the substance of the relationship is more important than the form of the agreement.”

Furthermore, the CARES Act through CRF funding has introduced the concept of organizations as “beneficiaries” in addition to the two categories above. While not addressed in UG, the U.S. Department of the Treasury’s Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021 contains the following in section B. Questions Related to Administration of Fund Payments:

13. What are the differences between a subrecipient and a beneficiary under the Fund for purposes of the Single Audit Act and 2 CFR part 200, subpart F regarding audit requirements?

The Single Audit Act and 2 CFR part 200, subpart F regarding audit requirements apply to any non-federal entity, as defined in 2 CFR 200.69, that receives payments from the Fund in the amount of \$750,000 or more. Nonfederal entities include subrecipients of payments from the Fund, including recipients of transfers from a State, territory, local government, or tribal government that received a payment directly from Treasury. However, subrecipients would not include individuals and organizations (e.g., businesses, non-profits, or educational institutions) that are beneficiaries of an assistance program established using payments from the Fund. The Single Audit Act and 2 CFR part 200, subpart F regarding audit requirements do not apply to beneficiaries.

Unlike subrecipient payments which are recorded in a separate column on the SEFA, payments to contractors and beneficiaries are NOT reported separately on the SEFA but should be reported as expenditures of the non-federal

entity making those disbursements. Auditors should evaluate these relationships carefully when considering expenditures reported on the SEFA.

Timing of Reporting Expenditures

As a general rule, expenditures should be recognized on the SEFA in the year they are incurred (i.e., when the underlying goods received and/or services rendered) regardless of when they are eventually reimbursed. Encumbrances do not count as expenditures since the goods have not been received yet and the services not rendered. Whether local governments should report the expenditure at the time of obligation or time of cash payment is dictated by the accounting basis the local government uses to prepare its SEFA. Most local governments prepare their SEFA on the cash basis of accounting. If cash basis is used, the SEFA should recognize the expenditure when the cash payment is made.

Additional SEFA Reporting Details

On June 18, 2020, OMB issued Memo 20-26 which states all recipients and subrecipients must separately identify the COVID-19 Emergency expenditures on the SEFA and any audit report findings. While the guidance from OMB does not specifically illustrate how this identification must be presented, the following is a possible example:

YEAR ENDED:	2020
FEDERAL AWARD NAME:	Capitalization Grants for Clean Water State Revolving Funds
Assistance Listing #:	66.458

This program specific guidance is in addition to the general reporting requirements on page 2.

Since FY 2010, Ohio EPA (OEPA) has determined each year if they can implement the alternative single audit approach for the 66.458 & 66.468 programs (which is described further in each of these FACCRs). OEPA has notified us of their fiscal year 2019 single audit program determination for USEPA State Revolving Loan (SRF) Local Government Agency (LGA) recipients. OEPA determined that it can apply the alternative approach to FY 2019.

When total federal assistance expenditures exceed \$750,000, auditors should apply the following guidance:

- Assistance Listing 66.458 (Cleaning Water Revolving Fund)
 - As a reminder, auditors must continue to subject the selected fiscal year 2010-2016 LGAs/project to single audit for the remaining lives of those projects, where total Federal financial assistance expenditures exceed \$750,000.
 - During FY 2016, OEPA did not execute any loan agreements for this program. Loans are executed by program year and capitalization grant.
 - The projects in **highlight** below are no longer required to be reported as they have completed their disbursements.

As mentioned above, once a project is identified for Single Audit under the Alternative Audit approach, it is required to be subject to a single audit *for the life of the project* in any year where the LGA's total Federal financial assistance exceeds \$750,000. This means that the LGA is required to report the WPCLF program on its SEFA annually, where subject to Single Audit, until the project is completed.

The projects listed above are the minimum that must be reported. If these entities, chose to report all loans on their federal schedule there is no need to have adjustments or citations.

Auditors can use various reports available at <http://loans.owda.org/> to obtain loan summaries, loan transaction detail, disbursement detail, and audit confirmations for various all projects undertaken for each recipient.

(Source: OEPA, 3/12/21)

Subrecipients

CWSRF amounts are awarded by EPA to States as grants. The States then makes subawards in the form of loans to its subrecipients. Therefore, in determining the amount of Federal funds expended to be reported on the Schedule of Expenditures of Federal Awards (SEFA), subrecipients receiving CWSRF loans should include project expenditures incurred under these loans during the audit period as provided in 2 CFR section 200.502(a). These are subawards— not direct Federal loans—and, therefore, neither 2 CFR sections 200.502(b) nor (d) apply when calculating the amount of Federal funds expended.

It also is important to appropriately identify these CWSRF loans as subawards because of the impact on which Federal agency is the cognizant or oversight agency. When completing the SF-SAC, the subrecipient should indicate that a CWSRF loan received from the State is not a direct award by showing an “N” in Part III, Item 6(h).

Equivalency

Equivalency projects/loans are funded with an amount equal to the capitalization grant and reported in the OMB Federal Funding Accountability and Transparency Act (FFATA) Subaward Reporting System. These projects/loans are considered to be federal projects/loans. To achieve consistency in meeting the program requirements and eliminate the possibility of over-reporting information under FFATA, equivalency projects/loans must meet all

equivalency requirements: federal cross-cutters, single audit, architectural and engineering (A/E) procurement, disadvantage business enterprise (DBE), and signage.

While any of the sources of funds in the CWSRF may be used for equivalency projects/loan, it should be understood that these funds would be considered federal funds and that all disbursements for equivalency projects/loans must be entered into the SEFA.

Auditors can use various reports available at <http://loans.owda.org/> to obtain loan summaries, loan transaction detail, disbursement detail, and audit confirmations for various all projects undertaken for each recipient.

Reminder: Even though entities receive these programs as loans from OEPA. OEPA receives this as grant from the federal government. Therefore, the local entities should NOT report these programs as loans on their SEFA.

(Source: OEPA, 3/12/21)

Subrecipients

DWSRF amounts are awarded by EPA to States as grants. The States then makes loans to its subrecipients. Therefore, in determining the amount of Federal funds expended to be reported on the Schedule of Expenditures of Federal Awards (SEFA), borrowers receiving DWSRF loans should include project expenditures incurred under these loans during the audit period as provided in OMB Circular A-133 §__205(a)/2 CFR section 200.502(a). These are not direct Federal loans and, therefore, neither OMB Circular A-133 §__.205(b) nor §__.205(d)/2 CFR sections 200.502(b) or (d) apply when calculating the amount of Federal funds expended. When completing the SF-SAC, the subrecipient should indicate that a DWSRF loan received from the State is not a direct award by showing an "N" in Part III, Item 6(h).

Equivalency

To achieve consistency in meeting program requirements and eliminate the possibility of over-reporting information under the FFATA, state DWSRF programs must use the same group of loans for the purpose of meeting federal cross-cutting, single audit, procurement, and Transparency Act reporting requirements. Equivalency projects/loans are funded with an amount equal to the capitalization grant. DWSRF set-aside activities are also considered federal expenditures. Auditors should be mindful that set-aside spending will not always trigger FFATA reporting based on the thresholds for reporting under the law. In addition, for states using the loan authority under the set-aside funds, it is possible those expenditures are repayment dollars from previous loans and should not be considered federal funds. Auditors should consult with the state to make that determination.

While any of the sources of funds in the DWSRF may be used for equivalency projects/loans, it should be understood that these funds would be considered federal funds once they are deemed equivalency dollars and that all disbursements for equivalency projects/loans must be entered into the SEFA. The SEFA should reflect

equivalency dollars rather than actual cash draws from the Treasury to the state. Additionally, the SEFA will differ from the SF-425 form.

This program specific guidance is in addition to the general reporting requirements on page 2.

If the SFA Cluster is part of the major program being audited, both of these loan programs must also be audited as part of the SFA Cluster.

Auditors should note that, even though student loans under the Direct Loan Program (Assistance Listing 84.268) are made to students (not the institution of higher education), under this loan program, auditors must include the value of loans made to students during the audit period as Federal awards expended under the SFA Cluster in the Schedule of Expenditures of Federal Awards (SEFA). (See 2 CFR Section 200.502(c)) Also, if the entity is administering the Federal Perkins Loan (FPL) Program (Assistance Listing 84.038), it retains a Perkins Revolving Loan fund. The entire amount in that fund, including outstanding FPL loans to students, must be included as Federal awards expended in the SEFA.

NOTE: Legacy cash reports are available to schools and their auditors to aid in preparation of the SEFA. A link to the Web-GAAP wiki is provided on our intranet page under the auditor resources tab. Keep in mind that district use of Web-GAAP is not mandatory and some districts may not utilize these reports. Any SEFA format is acceptable so long as it complies with the requirements above and those of 2 CFR Section 200.510(b).

Auditors should refer to AOS Bulletin 2009-002, Reporting Federal Student Loans – Adult Education, for accounting and reporting guidance on the SFA Cluster. While this bulletin references pre-UG guidance instead of UG since those were the requirements in place at the time the bulletin was written; the guidance is still accurate.

The Ohio Department of Education has been granted a waiver by the US Department of Education which permits a Local Education Agency (LEA) to carryover greater than 15% of Title I funds once every three years (section 1127(b) of the ESEA).

**(Source: ODE CCIP note #310-

CARES Act provides the following flexibility with regards to Title I, Part A Fiscal Year 2019 Carryovers:

Title I, Part A Carryover limitation for Federal fiscal year (FY) 2019. This waives the requirement that limits a State Education Agency's (SEA) ability to grant to its Local Education Agencies (LEAs) a waiver of the 15 percent Title I, Part A carryover limitation in section 1127(a) more than once every three years.

The State of Ohio is distributing Coronavirus Relief Funds (CRF) provided to the state from the US Department of Treasury as part of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), including a program which is also called "Provider Relief Fund". Auditors should confirm with their auditees under which PRF program their award is being reported on the SEFA to ensure they were made and reported under the proper Assistance Listing number (#21.019 for CRF/State PRF or #93.498 for the Federal PRF program).

Schedule of Expenditures of Federal Awards (SEFA) Reporting

SEFA reporting for this program (including lost revenue) is based upon the PRF report in "L.3 Special Reporting – Applicable only to audits of fiscal years ending on or after December 31, 2020."

For fiscal years ending (FYE) in 2020 on or before December 30, 2020, the entity reports no PRF expenditures (including no lost revenue).

For a FYE December 31, 2020, the entity reports on the SEFA as expenditures (including lost revenue) based upon the PRF report for calendar year ending December 31, 2020, and discloses in the footnotes to the SEFA that the amount included on the SEFA is based upon the December 31, 2020 PRF report.

For fiscal years ending in 2021 on or before June 29, 2021, the entity reports on the SEFA as expenditures (including lost revenue) based upon the PRF report for calendar year ending December 31, 2020, and discloses in the footnotes to the SEFA that the amount included on the SEFA is based upon the December 31, 2020 PRF report.

SEFA reporting guidance for fiscal years ending on or after June 30, 2021, will be provided in the 2021 Compliance Supplement.

FEDERAL AWARD NAME:	Temporary Assistance for Needy Families (Tanf) (Title IV-A)
Assistance Listing #:	#93.558

The County federal schedule will report administrative and other expenditures (whether charged directly to the program or allocated through a cost allocation plan or cost pool) paid by the County.

For guidance on ODJFS grants reported on counties SEFA's, auditors should refer to the ODJFS prepared CSEA, PA, and PCSA Federal grant templates at <http://jfs.ohio.gov/ofs/bcfta/TOOLS/tools1.stm>. Copies of these are also maintained for AOS staff on the internal AOS Federal ODJFS Resources intranet page. While the CR 504 CFDA report is a good starting point for counties to determine the expenditures to be reported on the SEFA, there are some programs or parts of program that are not reflected in either of these report. The spreadsheets provide program specific information for testing the SEFA.

At times there may be instances of negative amounts appearing on the CR 504 CFDA report. Auditors should review the documentation at the county for determination of the reason for the negative amounts and determine the effect on the SEFA for instances not addressed below. For example, the counties receive spend down monies from some Medicaid recipients. These are collected on behalf of the State for benefits paid by the state so the spend down monies would not be considered federal dollars at the County level.

Following is the information obtained from ODJFS. Keep in mind this does not include reasoning for all negative amounts reported.

Negative amounts could result from different circumstances:

1. Overpayments made by the county JFS
 - They should be coded back into the system using the same code as the original expenditure.
 - If these are during the calendar year being audited the total federal expenditures would take into consideration these overpayments.
 - If these overpayments are from a prior calendar year the federal schedule should report the negative amounts identifying the program year they are applicable to.
 - If material, auditors should include a footnote.
2. Overpayments made by ODJFS collected by the county JFS - Benefit Recoveries
 - These are benefit recoveries for payments made by ODJFS (Medical, ADC, portions of TANF, SNAP, etc.) and are not reported on the county federal schedule. The county collects these payments on behalf of ODJFS. No cash is returned to ODJFS for these collections. These amounts are retained by the county JFS. ODJFS includes these collections on the CFOS Voucher Activity Report. See note 3 on the federal funding tab concerning refunds and collections.
3. Coding adjustments for reporting errors at the county level (current or prior year grants)
 - Whether or not these are reported should be evaluated on a case by case basis. Auditors should review documentation for these adjustments for federal schedule impact.

Per ODJFS, all grants are reported on a cash basis and should be presented likewise on the SEFA.

To ensure expenditures are reported accurately by Assistance Listing #, auditors should also determine how multi-agency contract expenditures are recorded on the schedule of federal awards expenditures.

The local government should report federal expenditures for Assistance Listing #93.558. 45 CFR 75.510(b)(2) ([2 CFR 200.510](#)(b)(2)) requires including pass-through numbers (if any) on the Schedule. Counties should report the subgrant agreement number (i.e. G-1011-11-5006) as the pass through number and roll the grants up in total by Assistance Listing. Please note there may be two subgrant agreements in place for the calendar year. If that is the case then report both numbers (i.e. G-1011-11-5006 / G-1011-11-5007).

Grant Title	Assistance Listing number	Pass through number	Expenditures

Note: Federal Incentives Budget Reference line with Project code JFSFC905 is for receipt of incentives, not the usage of the incentives. These amounts should not be netted against the other Child Support incentives for reporting on the SEFA. See an example at <http://jfs.ohio.gov/ofs/bcfta/TOOLS/tools1.stm> or for AOS staff on the internal AOS Federal ODJFS Resources intranet page.

Per ODJFS, all grants are reported on a cash basis and should be presented likewise on the SEFA.

To ensure expenditures are reported accurately by Assistance Listing #, auditors should also determine how multi-agency contract expenditures are recorded on the schedule of federal awards expenditures.

Expenditures are reimbursed to County JFS based on State and Federal allocation percentages. For example, if the Federal share is 66% then the County JFS would be reimbursed 66% from Federal share and 34% from State share or local match (this does not apply to Child Support Incentives). This allocation is programmed into CFIS so auditors are not required to test the allocation; however, rather should be aware of this when testing the schedule of federal awards expenditures.

Auditors should note that Title IV-EAA and State Adoption Subsidy monies have separate eligibility and are not tested at the County JFS level.

The local government should report federal expenditures for Assistance Listing #93.563. 45 CFR 75.510(b)(2) ([2 CFR 200.510](#)(b)(2)) requires including pass-through numbers (if any) on the Schedule. Counties should report the subgrant agreement number (i.e. G-1011-11-5006) as the pass through number and roll the grants up in total by Assistance Listing. Please note there may be two subgrant agreements in place for the calendar year. If that is the case then report both numbers (i.e. G-1011-11-5006 / G-1011-11-5007).

- Grant Title: Child Support Enforcement
- Disbursements for each pass-through number (i.e., cost center).

This program specific guidance is in addition to the general reporting requirements on page 2.

The County federal schedule will report administrative and other expenditures (whether charged directly to the program or allocated through a cost allocation plan or cost pool) paid by the County.

For guidance on ODJFS grants reported on counties SEFA's, auditors should refer to the ODJFS prepared PA and PCSA Federal grant templates at <http://jfs.ohio.gov/ofs/bcfta/TOOLS/tools1.stm>. Copies of these are also maintained for AOS staff on the internal AOS Federal ODJFS Resources intranet page. While the CR 504 CFDA report is a good starting point for counties to determine the expenditures to be reported on the SEFA, there are some programs or parts of program that are not reflected in either of these report. The spreadsheet provides program specific information for testing the SEFA.

Per ODJFS, all grants are reported on a cash basis and should be presented likewise on the SEFA.

To ensure expenditures are reported accurately by Assistance Listing #, auditors should also determine how multi-agency contract expenditures are recorded on the schedule of federal awards expenditures.

The local government should report federal expenditures for Assistance Listing #93.667. 45 CFR 75.510(b)(2) ([2 CFR 200.510](#)(b)(2)) requires including pass-through numbers (if any) on the Schedule. Counties should report the subgrant agreement number (i.e. G-1011-11-5006) as the pass through number and roll the grants up in total by Assistance Listing. Please note there may be two subgrant agreements in place for the calendar year. If that is the case then report both numbers (i.e. G-1011-11-5006 / G-1011-11-5007).

FEDERAL AWARD NAME:	Medicaid Cluster (Title XIX) – County JFS Only
Assistance Listing #:	#93.775/93.777/93.778

Note: In accordance with 2 CFR section 200.519, when the auditor is using the risk-based approach for determining major programs, the auditor should consider that the Department of Health and Human Services (HHS) has identified the Medical Assistance Program (Medicaid) as a program of higher risk.

Medicaid is the largest dollar federal grant program and, under OMB budgetary guidance and Pub. L. No. 107-300, HHS is required to provide an estimate of improper payments for Medicaid. Improper payments mean any payments that should not have been made or that were made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements. This includes payments for services provided to ineligible providers, payments for an ineligible service, duplicate payments, payments for services not received, and payments that do not account for credit for applicable discounts.

While not precluding an auditor from determining that the Medicaid cluster qualifies as a low-risk program (if prior audits have shown strong internal controls and compliance with Medicaid requirements), the above should be considered as part of the risk assessment process and audit documentation should support the consideration. In addition, even though the state Medicaid Fraud Control Units (MFCUs) and State Survey and Certification of Health Care Providers and Suppliers have substantially fewer federal expenditures than Medicaid, they are clustered with Medicaid because these programs provide significant controls over the expenditures of Medicaid funds. It is unlikely that the expenditures for these two programs would be material to the Medicaid cluster; however, noncompliance with the requirements to administer these controls may be material.

Medicaid Administrative Claiming (MAC) funds received through Ohio Department of Health:

MAC monies passed through the Ohio Department of Health to local health departments are *NOT FEDERAL* dollars and should NOT be reported on the SEFA. These reimbursements are considered to be earned state revenue. ODH has requested the local health department make a notation in their Notes to the SEFA to show they received MAC reimbursement for administrative costs by participating in a quarterly time study. The MAC funding is based on time study results and calculated using a Medicaid Eligible Rate (MER) specific to the County. The underlying expenses are on a cost reimbursement basis and occurred in prior reporting periods.

Since state monies are not required to be disclosed on the SEFA under the Uniform Guidance requirements unless comingled with federal funds, auditors should not take exception to a lack of disclosure regarding these MAC monies. Also, since the disclosure is not a material additional disclosure falling outside the requirements of the Uniform Guidance 2 CFR §200.510 auditors should not take exception to the inclusion. If included, auditors should audit it accordingly.

Medicaid Waiver Payments

Counties have few characteristics of a subrecipient (e.g. instances where counties provide a portion of the required matching funds). In general, DODD is responsible for most requirements related to the waiver payments. The State Region is responsible for auditing waiver payments as part of the Single Audit of ODJFS and DODD. Therefore, counties should not report waiver payments on the federal award expenditure schedules.

In addition, the Medicaid School Program (MSP) is jointly administered by the Ohio Department of Medicaid and Ohio Department of Education and is exempt from 2 CFR 200 Subpart F requirements. Meaning, MSP recipients are not required to report MSP expenditures on the Federal Schedule, etc.
